

THE BEE

R. S. PELTON, PUBLISHER.

FRIDAY, MAY 8, 1891.

THE London Free Press says:—The length of the Parliamentary session is generally estimated to be about three months, while not a few think it will extend beyond that time. The sessions which open in the spring are generally short ones, but there is a large amount of private legislation to come before the present one which will necessarily prolong its length. Notice has already been given of over 130 private bills and the time for receiving more will likely extend to two or three weeks after the House begins sitting. Three times in all has Parliament met in April. In 1869 Parliament opened on April 15th and was prorogued on June 22nd. In 1872 the date of the opening was April 18 and prorogation was June 14th, and in 1888 the first session of the Sixth Parliament was opened on April 13th and prorogued on June 23rd. Parliament has only twice sat into the summer months, the first being the session of 1873, which closed August 13th, and the second that of the long session of 1885, when Parliament sat from January 29th to July 20th.

LOCAL OPTION.

In his decision of a number of cases of the validity of the Local Option temperance law, Sir Thomas Galt said:—"Three or four cases are awaiting my decision, and everything that can be said for and against the local option law has been heard. Informally I have given an opinion, now I give it in a solidified manner, based upon full enquiry into all the merits and demerits of the Act. In the first place, I know and rule that the by-law is bad. In framing the Act of Parliament they took a clause from the Act of 1872 which was not intended at all to apply in the same way. But apart from all this I believe that it is entirely beyond the power of the Government of Ontario to grant to village, township or other councils the power to pass such prohibitory by-laws. If it could authorize a township or a village council to pass a prohibitory by law, then they would have power to pass a general law to cover all Ontario. It is a recognized fact that all matters of trade and commerce are exclusively within the jurisdiction of the Dominion Government, and entirely out of the province and powers of the Ontario Legislature. So I quash all by-laws of this nature. I have not a written judgment, but will prepare one."

In reference to the above decision of Judge Galt the Montreal Star says:—"Mr. Mowat is not going to submit to Judge Galt's decision on the legality of the local option clause of the Ontario Licensing Act. The practical effect of that decision has been to deprive municipalities of the power to refuse liquor licenses. Mr. Mowat has a high reputation as a constitutional lawyer, based on his many notable successful appeals against federal exercises of authority. He holds that his local option law is not ultra vires of the Provincial Legislature and will carry the case to the Imperial Privy Council if necessary."

NEWS OF THE DAY.

Premier Meier and his companions have arrived at Rome.

There are nearly 1000 volumes of books in the Lucknow Mechanics' Institute.

The total population of Essex county according to the assessors, returns for 1890, was 51,218.

McKinley is likely to be nominated for Governor by the Ohio Republican Convention on June 16.

Jas. Craig, of Arran, is said to own the largest farm in the county of Bruce. It consists of 600 acres.

The Earl of Erne, imperial grand master of the Orange order, has been invited to pay a visit to Canada this summer.

The Michigan and Canada Tunnel Co. has been organized to construct a tunnel under the Detroit River at Detroit and Windsor.

Last Tuesday was the 70th anniversary of the death of Napoleon Bonaparte, who for some years made quite a stir on this planet.

The appointment of John Creaser, Q. C., to the Senior Judgeship of the County of Grey, is very popular with the legal fraternity.

The members of the Dominion Senate will not be altogether idle this session inasmuch as there will be seven divorce cases to occupy their attention.

There are now 122,585 Indians in Canada, of whom 1,000 live in Labrador, 13,599 in Quebec, 17,776 in Ontario, 25,743 in Manitoba and the Northwest, and 35,416 in British Columbia.

Hon. John Carling has been called to the Senate. Hon. Mr. Lacoste has been appointed Speaker of the Senate. Mr. White has been elected Speaker, and Mr. Grandbois, Deputy-Speaker, of the House of Commons.

The Parkhill Gazette, owned by J. W. Green, has been sold to Mr. White, of Windsor, formerly of the Blyth Standard. It is reported that Mr. Green will go to the Northwest and start a paper in the Temperance Colony.

The dry goods store of Wilson & Pye, of Harrison, was broken into by thieves about 3 o'clock Monday morning and goods consisting of kid gloves, silk gloves, cashmere, hosiery, ties, etc., were stolen to the amount of \$150 or \$200. No trace of the thieves. The residence of R. C. Scarr was also entered, but no loss sustained owing to the thieves being frightened off.

Census enumerator, Jas. B. Reid, of East Garafraxa, had a novel experience the other day and probably no other enumerator in the Dominion can record a similar event. He dropped into a certain house and asked the questions prescribed. In the house there lived two brothers and two sisters, and their combined ages are 306 years. The brothers' ages are 80 and 78 respectively, and the sisters' 76 and 42.

T. De Witt Talmage's new tabernacle at the corner of Greene and Clinton avenues, Brooklyn, was opened to his congregation and the public for the first time Sunday morning, April 26th. The tabernacle's dimensions are 200 feet long by 118 wide. The church will seat 5,500 persons. Up to date the total cost of the church is 410,000, and it will require \$40,000 more to complete it. Dr. Talmage said that during the last 20 years over \$800,000 had been expended and \$305,000 had been subscribed for charitable purposes. The congregation had been called upon to build three churches. The total collection during the morning was about \$2,000. At the afternoon and evening services almost enough more was raised to make up the \$50,000 asked. There still remains a debt of \$200,000 on the church.

Amending the Drainage Act.

While not prepared to give the provisions of the Municipal Act relating to draining the thorough revision experience has shown they require to be removed one of the principal grievances complained of so universally by municipal men who have to do with drainage matters. We refer to the system of arbitration for settling disputes between townships where it is necessary to levy part of the cost of a drain on an adjoining municipality. Under the present system three arbitrators are chosen—or, in most cases, an advocate for each party interested, and a referee. In a majority of instances professional men are chosen, who are entitled to \$20 per each day. Counsel get \$20 more, so that the cost per day is often \$100. Taking down the evidence and transcribing adds \$5 more, and with witness' fees, in a case lasting three or four days, the costs of arbitration run up to \$500 or \$600. There have been so many cases of this kind in Kent and Essex that the grievance became almost intolerable, and in the early part of the present session Mr. Ferguson, M. P., and a number of legal gentlemen from Chatham waited upon Mr. Mowat and discussed the matter with him at some length. As a result of the conference Mr. Mowat has introduced a bill which will doubtless become law this session. The proposed remedy is on much the same lines as have been suggested in these columns. The arbitration clauses of the Act are repealed, and provision is made for the appointment by the Government of an official referee, (who is to be a barrister of ten years' standing). The referee is to "have authority to determine the legality of all petitions, resolutions, reports and provisional by laws, and to determine the utility or desirability of or any proposed drainage works contemplated thereby, whether the objections thereto are stated as grounds of appeal or not." This provision is somewhat radical, relieving the Councils of a good deal of the responsibility which now devolve upon them.

The next clause enacts that the referee shall perform the duties heretofore performed by the arbitrators. Where any local assessments are affected by the referee's decision, he will have full power to adjudicate on the assessment, and his decision will be final, subject only to appeal to the Court of Appeal. Another section provides that the Councils concerned must give effect to the referee's decision. Disputes arising in the construction of drainage works, or consequent thereon, may be referred to the referee for settlement; and any action for damages may be referred to him by the High Court or any justice thereof. The decision in either case may be appealed against within one month, as a decision of a High Court judge may be appealed from. No security for costs is to be required in any appeal from his decision. The last clause provides that the parties interested must pay a sum not exceeding \$10 a day to assist in making up the referee's salary.—Chatham Banner.

Court of Revision.

TOWNSHIP OF ELMA.

The first sitting of the Court of Revision for the Township of Elma will be held at

IOERGEES HOTEL, ATWOOD,

Saturday, May 30

1891, at 10 o'clock a.m. Appellants and all concerned will please take notice.

Town Talk.

MISS AGGIE WILSON, who has been a resident of Buffalo, N. Y., for the past eighteen months, is home on a visit.

FOR SALE.—The undersigned offers for sale or to rent, a comfortable dwelling house with three lots attached. WM. BELL, Atwood.

ONE evening last week we were treated to a taffy pull at the residence of Robert Parker. Maple taffy is a rare treat for us and we enjoyed our visit to friend Parker's very much. Invite us again.

SOME people think that a one cent stamp attached to a piece of card board will go through the mails in lieu of a postcard. This is a mistake, as 4 cents is charged to any person receiving a note in the form referred to.

THE Britton correspondent to the Listowel Standard says:—Mr. Johnson, of Atwood, preached a very interesting discourse here last Sunday evening, taking his text from the 14th chap. of St. John, which he explained thoroughly. He had a good hearing.

IT is estimated that at least thirty thousand persons die annually from the use of tobacco. Those who use it are not always the victims. Women and children often die of the poison inhaled from the cigar, or the death laden pipe of the male member of the family.

NOW is the time our farmer readers should get the Richmond Pea Harvesters attached to their mowers before the busy season—hay time—commences. It is said to be the best invention of the kind in the market, and the price is within reach of all. For particulars see advt. in another column. Henry Hoar is sole agent for Elma township.

W. MARSHALL, painter, is to the front this week with an announcement. He is prepared to do all kinds of house painting, kalsomining, paper hanging, etc. Since Mr. Marshall has been in business here he has done exceedingly well. This is to be partially accounted for by his good workmanship and close application to business. May he continue to prosper.

THE St. Marys Argus of last week says:—“We have had many times the pleasure of noting the appointment of St. Marys young men and women to positions of honor and trust in the mercantile and professional world. It always gives us pleasure to do so. This week we add another to the honor roll. Miss Agnes Knox, B. E., has been offered, and has accepted, the chair of Elocution in Toronto University. This is a recognition of merit that every citizen of St. Marys will feel proud of, as Miss Knox has always been a general favorite in her native town. We congratulate the University Management upon their wisdom in the selection, thus making so valuable an addition to their staff, feeling certain that Miss Knox will do honor to herself in this responsible position.” Miss Knox is well and favorably known to our citizens, and is a sister of R. Knox, a former teacher of the Atwood public school.

MOST of the farmers are through seeding.

THE masons have commenced work on Jacob Klump's brick shop and residence.

A FLURRY of snow fell on Tuesday of this week. All sorts of weather this spring.

FRUIT-growers state that from present appearances the coming season's crop will be an enormous one.

SUIT yourself of course, but we will give anything we have very cheap now before leaving on May 15th. G. B. Ryan & Co., Listowel.

REV. F. M. SMITH, of Henfryn, will preach in the Methodist church next Sabbath morning in the absence of the pastor, who preaches at Markdale.

THE crop reports from Manitoba and the Northwest state that seeding is well advanced, and that the acreage will show an advance of 25 per cent. over that of last year.

THE fall wheat and clover throughout Western Ontario is reported as very promising in appearance. It can scarcely be affected now except by some unprecedented blight.

DIDN'T you notice the broad smile lighting up the countenance of James Ferguson this week? We can only account for it by referring you to the birth notice in another column.

THE annual meeting of the Guelph Conference will be held in Berlin the first week in June. There will be over three hundred delegates, ministers and laymen, present, and the services will continue about a week.

COURT of Revision for the township of Elma will be held at Toerger's hotel, on Saturday, May 30th, at 10 o'clock a. m. Parties concerned will please take notice. The Roll can be inspected at Clerk Fullarton's office during office hours.

“MY friends,” remarked the minister, “the collection to-day will be devoted to my travelling expenses, for I am going away for my health—the more I receive the longer I can stay”—and, strange to say, the largest collection ever made was taken up. It is needless to remark the minister does not live in Atwood.

FOR THE WEST.—Station master Knox ticketed the following persons to western points:—Mrs. Matthew Stevenson and Miss Mary Stevenson, Cheyenne, Wyoming; Robert Hamilton, Duluth, Minn.; Jos. McKoy and wife, Vancouver, B. C.; Walter Hamilton, Butte City, Montana. We regret losing so many of our best citizens.

I. O. G. T.—Lodge Deputy Hamilton installed the following officers at the last meeting of Atwood lodge:—P. C. T. A. Holmes; C. T., J. W. Ward; V. T., Miss M. Hawkshaw; Sec., William Wherry; Assistant Sec., D. Graham; Chaplain, John Hoar; Marshal, J. F. Wilson; D. M., Miss N. Hamilton; F. S., P. Priest; Treas., Miss A. Lochhead; Guard, A. Skalitzy; Sentinel, Miss E. Robertson.

IT is pleasing to note that the farmers of this section of country are saving and raising their calves. Many have hitherto objected to this because of the value of milk, but there are few farmers who have not ways and means for cutting hay, and kettles in which to boil it when cut. Tea made from cut hay is, with a little bran mixed in, an excellent substitute for milk, and beyond a little trouble is very inexpensive. Skim milk and a little salt added makes it all the better and more palatable.

A NUMBER of the friends of Mr. and Mrs. McKoy met on Thursday evening of last week and presented them with a lovely plush album as a slight token of the esteem in which they are held by their Atwood friends. Mr. McKoy acknowledged their kindness in a few well chosen words. The album was purchased at the Atwood drug store and is a sample of the excellent goods kept by Mr. Neads. Mr. and Mrs. McKoy left on Friday for Vancouver, B. C., carrying with them the warmest feelings of their large circle of acquaintances.

THE RESULT.—The result of Toronto University examinations in Medicine and Dentistry appeared in Saturday's Globe. Among the successful students in the Second Examination we notice the names of E. E. Harvey and W. W. Elliott, former Elmaites. They appear as follows:—Anatomy—Class II., W. W. Elliott; Class III., E. E. Harvey. Materia Medica—Class III., W. W. Elliott, E. E. Harvey. Chemistry (Organic and Medical)—Class II., W. W. Elliott; Class III., E. E. Harvey. Histology—Class II., E. E. Harvey; Class III., W. W. Elliott. The boys are to be congratulated on their success.

ALL yards should be cleaned of the winter's accumulation of rubbish, so as to avoid as far as possible the contamination of shallow wells; and as further precaution the wells should be emptied after the surface water disappears. The removal of unsightly buildings and fences, and a coat of paint applied to those that cannot be removed, would improve many other places in Ontario besides Atwood. The advice to attend to drainage, to plant shade trees and to eradicate weeds is also excellent. By attention to these little matters many a pleasantly situated town or village could attract summer visitors, besides vastly improving the health and comfort of its people.

CHURCH NOTES.—Samuel Wherry conducted the service in the Methodist church Sunday evening, assisted by good old father Tindall. Mr. Wherry's practical remarks were listened to attentively. It does one good in this age of vanity, and religious formality, to listen to the earnest exhortations and fervent prayers of such godly men as father Tindall, who is one of the few monuments left to remind us of Wesleyanism in bygone years.—The Baptist church is undergoing a thorough renovation this week preparatory to receiving the new pastor.—W. J. Marshall painter, has the work in hand and he will doubtless make a creditable job of it.

R. M. BALLANTYNE was in Toronto last week purchasing a fine stock of tweeds, worsteds, etc.

JAS. GRIEVE, M. P., will accept our thanks for copies of the Ottawa Daily Free Press and parliamentary papers.

OUR Hook and Ladder Co. should practice once in awhile now that the weather is fine. James, where art thou?

KEEP your eye skinned for R. M. Ballantyne's announcement next week. Those who cannot wait had better drop in at once and choose their goods.

THE subscription price of this paper has not been increased by the McKinley bill, but we want to disabuse the minds of some people of the idea that it has been put upon the free list.

THE brick work of Wm. Forrest's new block is completed. Geo. Hamilton and his gang are hustlers to sling brick and mortar around. They were only a week in putting up the block.

DR. HAMILTON reports three cases of hair-breadth escapes from poisoning by three people who took in each case a tablespoonful of nitre for ordinary salts which it resembles very much.

CORRESPONDENTS WANTED.—Wanted live, energetic correspondents in the following places:—Monkton, Henfryn, Carthage, Britton, Newton, Molesworth, Mitchell and Stratford. Correspondents' material and a copy of the paper mailed gratis to those who are willing to act as scribes.

SECRETARY LOCHHEAD received an order from W. H. Murray, of Strathroy, last Tuesday, for 160 bushels of flax seed. This order swelled the treasury of the company \$240.00. It is gratifying to know that the farmers of this locality are taking out large quantities of seed for sowing purposes.

THE 25TH.—A meeting of the citizens will be held over Irwin's store this (Friday) evening to complete arrangements for holding a celebration in Atwood on Monday, May 25th. A full attendance requested. The committee deem it advisable to hold the celebration on May 25th instead of July 1st as in former years, owing to the Listowel races taking place on Dominion day.

THE analysis of the professions or callings of the members of the present House of Commons gives the following results: Lawyers 58, farmers 37, merchants 34, doctors 21, gentlemen 13, journalists 9, millers 2, coal mine managers 2, machinist 1, distiller 1, manufacturers 7, lumbermen 6, railway employees 1, contractors 2, banker 1, shipowner 1, provincial land surveyor 1, notaries 4.

A GREAT deal of agitation has been going on in regard to women wearing birds on their hats. It now turns out that the majority of birds used for millinery purposes are made up. The feathers of an ordinary fowl are dyed with much care. The various tints necessary to produce the real bird are blended harmoniously, and each feather is stuck on separately by skilled workmen. The industry is carried on in Paris and Berlin.

HORTICULTURE.

Written for THE BEE.
Plant trees of maple, spruce and pine, Plant trees around and in a line; Plant trees around the homestead dear, Plant trees oft times—from year to year. Plant trees for beauty and for shade, Plant trees for what the trees were made: Plant trees of cedar, straight and tall, Plant trees of oak, both great and small, Plant trees in groves upon the farm, Plant trees to keep the cattle warm; Plant trees for shade to milk the cows, Plant trees to shade the heated brows, Plant trees around about the barn, Plant trees for shade to spin the yarn; Plant trees for fancy and for good, Plant trees for beauty and for wood, Plant trees around the orchard fence, Plant trees for good and no expense; Plant trees along the gravel walk, Plant trees to have a pleasant talk, Plant trees of willow, rich and rare, Plant trees of ash with time and care; When this you read you'll be amused, Plant trees for all that trees are used.
