Mr. John Mossly made a good exhibit of
his wine at the fall show, but the best
assortment of choice imported liquors can be
found at W. L. Horton's, corner of South-
and the Square.

R. Sallows has been so busy during the past
season that he did not have time to spare
to make a display at the West Riding show.
If you want to see a really first-class display,
call at the gallery, corner Montreal street and
the Square.

James Saunders, son of the late Mr. S., had
to make a display at the exhibition, but
his work was so good that he was awarded
a first prize. He has in a fine stock of
clothing, and his stock of wall
papers, fancy goods and plated ware is com-
plete in all lines. "The Cheapest House
Under the Sun."

was home last week.

been visiting at Detroit.

Proudfoot's grocery looks very attrac-
tive in a new coat of paint.

half holiday to attend the Exhibition.

peg, to resume his position in a bank there.

of congestion of the lungs, is around
again.

D. B. Hodges, last week.

weeks in the respective charges of Rev.
A. F. McQueen, Huron, and A. Suther-
land, Ripley.

T. McGillicuddy has been chosen to
represent Knox church S. S. at the an-
nual convention of the Provincial Sun-
day School Association, which meets at
Colborne on the 23rd, 24th and 25th of
Oct.

J. R. Steep, late teacher of Benmil-
ler, a brother-in-law of Rev. J. A. Turnbull,
has succeeded in taking a grade A second
class certificate at the provincial examina-
tions for teachers recently held in
Winnipeg.

Mr. Crockett, of Hamilton, who spent
a portion of last summer in Goderich,
and placed the pictures in the Art Loan
Exhibition, is teaching the drawing class
in connection with the Mechanics' Insti-
tute of Seafort.

The propeller Myles, of the Merchants
Line, arrived on Wednesday, and loaded
sails for Port Arthur. We understand
arrangements have been made so that
this line will make regular trips to God-
erich next season.

Richard Clarke, of the Orange Scen-
ic, is sojourning in Goderich, resting
up after a long tour in the West. He is
Sheriff Gibbons. He occasionally plays
his welcome face into our sanctum, and
talks of everything save—politics!

A stirring story of the life of a self-
made man is always welcome. "John
Armstrong, Mechanic," is full of thrill-
ing scenes. The first chapters will be
read in the hall of the 29th. Tell
your neighbors who like to read a good
story, about it.

W. Hick has received from his son F. S.
Hick, of Winnipeg, some specimens of
excellent potatoes. Nine of the sort
known as Beauty of Hebron weighed 11
lbs. They were noble looking "praties."

Geo. B. Cox this week received a
letter from B. B. Ayers, secretary of the
Chicago bicycle club, stating that K. E.
Kron, the well-known correspondent of
the American Wheelman, left Detroit on
Monday last to run over the route taken
by the Chicago tourists last July, and
may be expected in Goderich this week.

The water color painting exhibited on
Wednesday, in the window of Saunders
& Son, from the pencil of Miss Fraser,
of Britannia street, is a very creditable
piece of work, and had not the modesty
of the young lady prevented her from
putting it in the exhibition, we think
she would have taken a front place
there.

Geo. B. Cox returned from London on the
wheel on Friday last. He left the City Hotel,
London, at 7.30, and reached Goderich
at 4.15 p.m., having stopped an hour
and three quarters in all on the road for
rest and refreshment, thus making the
entire distance of 66 miles in 7 hours on
the saddle.

Mrs. Quirk, wife of conductor Quirk,
and Mrs. Gentles, of Kincardine, are the
guests of Mrs. Wm. Watson. March
Green has also returned from Dakota,
and is staying with Mrs. Watson, who is
his sister. Mr. Green is going to take a
term at the Ontario Veterinary college,
and will again turn his face westward to
the Canadian State—Dakota.

Auction Sale.—The balance of Mrs.
Fletcher's household effects will be sold
at her residence West street on Saturday
13th Oct. All the valuable furniture is
still on hand. Also a good assortment
of first-class carpeting; a handsome set of
dish covers, block tin with silver plated
handles, a \$600 New York Weber Piano,
almost as good as new, and numerous
other articles.

A SLEAZY YOUNG HORSE.—We are
pleased to learn that R. McCallough, of
Goderich township, swept the field at
London with his handsome three year
old gelding, out of "Sorrel Cloud." This
young horse took the prize, and was also
awarded a special prize as a further mark
of approval by the judges. We congrat-
ulate Mr. McCallough on his success at
the Western Fair.

G. R. Pattullo, Ontario Commissioner,
has issued a neat little pamphlet descrip-
tive of the mineral and timber resources,
and producing capabilities of North-
western Ontario, including the districts
of Thunder Bay and Algoma. The opin-
ions of a large number of old pioneers,
scientists, travellers and others have
been collected, and the publication just
now of the evidence thus adduced will be
of vast value to the territory described.

We regret to learn that Mrs. Melish,
dressmaker, has, owing to a physical
debility, been obliged to give up busi-
ness here. Being precluded from need-
lework, she has decided to go to Toronto,
and enter upon another line of business
which will be better suited to her under
present circumstances. Mrs. Melish
and her family have many friends in and
about Goderich, who regret their depart-
ure, but wish them well in their new
undertaking.

We had a friendly call on Tuesday
from that political war-horse, P. Kelly,
nephew of Blyth, who has returned home
from Manitoba. Mr. Kelly was up in
the Northwest inspecting some timber
limits there, which he leased from the
Dominion Government. He had several
close calls on his trip, having been nearly
drowned more than once, and having
lost out of provisions was almost famished
and took part with the choir, and sang the
"O Salutaris" at the celebration in a beauti-
ful manner; also the Tantum Ergo at
Benediction. Mr. Griffin also sang
several songs very creditably.

The case in England in regard to the
millinery is even stronger than Mr.
Harvey's in a temperately written letter,
pointed out. The fact is that soldiers
are not permitted to remain in the town
in which an election is being held, in
order that the electors may have the
fullest freedom in casting their votes.
Even the suspicion of coercion or pres-
sure is avoided. Not only is there no
justification for the sending of troops to
Rat Portage while an election was being
held, but there has not even been an
attempt made to excuse it. The fact is
that it is inexcusable.

AT CHAUTAUQUA.

Graphic Account of a Visit to the S. S. University.

The Sunday School Teachers' Paradise—With Dr. Vincent—The Walks, the Hills, the Fountains—Fascinating in Miniature—A Brilliant Success.

We have been permitted to publish the following extracts from an excellent letter descriptive of Chautauqua, written to a friend in Goderich by a young lady at one time a pupil of Goderich High School. The style is charming, and the fair writer lends life to her pictures of the famous lake side assembly:—

But I have almost forgotten about those few weeks of camping in a later trip to New York State. There are days and seasons which by reason of their associations are like mountain heights which lift one into a clearer atmosphere, and widen the horizon of spiritual life and thought. Now, I fancy,

MY WHOLE FUTURE LIFE will not fail to vibrate in unison with the faintest echo of "Chautauqua." My trip there was the appeasing of an old heart hunger, the fulfilment of an early dream. We took boat in Toronto to Niagara, obtaining a splendid view of the Falls, old, yet new and grand. A rainbow as complete as beautiful spanned the overhanging mist. From Buffalo we took train to Mayville, situated at the head of Chautauqua Lake. From there the steamer Moulton brought to our view this literal

LITERARY "CITY IN THE WOODS." It is a charming resort for healthful rest and restful activity, and abounds in literary opportunities. You are no doubt acquainted with

DR. VINCENT, (the presiding genius and primary individuality from whence Chautauqua has its origin), through his twin lectures "That Boy" and "That Boy's Sister." I remember hearing the former in Toronto when we were at the Normal. You know, too, that its primary idea was to give seekers an enlarged and improved view of true and efficient Sunday school work. But since that aim has developed into four subdivisions, represented by the grounds by the arches leading to the hall of Philosophy, Faith, Science, Literature and Art, and I am inclined to think that this university in the woods is doing what it claims to do faithfully and well, viz.: giving the great mass who have not had the opportunity of a college course the wider and clearer outlook of a

COLLEGE STUDENT'S LIFE. The enthusiasm among young, middle aged and old was the most inspiring thing which has entered into my life for some time. It seemed to cause a grand little cluster of genius and talent—giants in thought. It seemed as if one might live a year of one's life in one short week. My anticipation stood tip-toe on the mountain top in regard to Chautauqua; and yet I was satisfied. I never saw S. S. work so practically elucidated, and as thoroughly, as by B. T. Vincent and wife, Frank Beard and R. S. Holmes. I coveted the

RARE CHANCE FOR BIBLE STUDY under Dr. J. Worden. I enjoyed every lecture, and found Christ the central and prevailing influence in all the devotional meetings. I became for the first time understandingly interested in the geography of ancient Palestine as under the direction of the Rev. S. McGeard, we trod the streets and valleys one by one, carefully and lovingly tarrying here and there where our Lord tarried, sitting in seeming reality by the Sea of Galilee or River Jordan, climbing mountains Hermon and Olivet and standing in the valley betwixt mounts Ebal and Gerizim. Yes, that

ACTUAL MINIATURE PALESTINE is a grandly instructive idea. Now come with me on board the steamer on one of the C. L. S. C. excursions. I want you to notice the many beautiful summer resorts on either side of the lake. I want you to observe the luxuriant scenery which reaches a sublime climax as we enter the narrows at the foot of the lake, every new curve revealing unexpected beauties in earth, air and sky. The world seems perfect, and our souls are led to worship the God of the beautiful, who has revealed to us in visible form His imagination and incomprehensible and oh, we feel how mean and materialistic our lives have hitherto been, and we thank the All-Father for the gift "to enjoy." Will you return with me, and enter the 146 acres which constitute Chautauqua and tread

THE LEAVY AVENUES in the misty shadings of the moonlight, with the electric light glinting through the tree branches. Will you feel with me that the air is rife with harmony of wind and wave, while in the distance from the Hotel Athenaeum come floating from sweet-voiced choristers, choicest melodies. Stand with me just a moment here by the lake shore, where the shadows lie so clear and deep. In the sublime stillness the mist hangs over the waters by the distant shore. We feel the ripples of E. F. F. in our souls. Oh! what is that? It is the chime of the Chautauqua bells. Shall we call it 9 o'clock, and so be able to

COMPLETE ONE ROUND before 10 o'clock. We will walk by the amphitheatre on our way. Mr. Heron of Chicago, is lecturing on "A PLEA FOR THE OLD," the old man, the old minister, the old culture, the old Book, and the old faith. Note the stillness of the 8,000 spell-bound listeners in that huge semi-circular cup. There is a call for

THE CHAUTAUQUA SALUTE, and looking down from the outside at the flutter of 8,000 white pocket handkerchiefs, we feel awed and scarce know why. It is as the upward motion of the wings of so many doves. The choir now rises to sing one of the Chautauqua glees—songs, and as their three hundred voices ring out to the accompaniment of pipe-organ, piano, reed organ and orchestra, under the leadership of Professors Sherwin and Case, we turn away and walk towards the museum, in which the Christian Turk, VanLennep, has a very complete collection of Palestine antiqui-

ties of all kinds. The flowers of the Bible as preserved intact in form surprise away, in many instances, our false ideas of their color, form and size. Passing on we reach

THE CHILDREN'S TEMPLE, and wandering on across charming little rustic bridges, picking up the first fallen leaves in their vivid death-hues, we place them inside the book we carry and pass on by the Pyramid and Noah's Ark, for- getful and oblivious to the many passers by, the incessant chat from the cosy cottage piazzas, the occupants of the innumerable rustic chairs and seats, mossy hills and stones. We are alone with only the infinite Presence and each other. We will retrace our steps to the Hall of Philosophy with its

STATELY WHITE COLUMNS gleaming in the white moonlight in vivid contrast with the dark foliage of the whispering leaves. Down beneath the arches, through the Golden Gate, we wander to the Fountain Tree pouring forth from its knotty mouth the limpid stream. We dabble our fingers in the water, and pass by the general office, where if not too late, we would

REGISTER OUR NAMES with the 100,000 already on the books this year. No, no; we want no confectionery to-night. We pass by book stores, dry goods, grocery, meat market and all of that kind. We will tarry a moment at the electric machinery and take a slight shock before we look into the skating rink, so well patronized all the season. We will stay but to note a round or two on those roller-skates. Do you see there among the trees, those many anastomosing lights. Those are at the railway station. We cannot go there to-night, we will retrace our steps to our cottage, around by the auditorium, now used for choir practice and affording rest to the weary on its many comfortable wooden benches, a twilight shelter for lovers, and a quiet study for the diligent. We approach our Chautauqua hope. But what is that? What can it be? Through the trees a

PERFECT PHANTASMAGORIA OF LIGHT AND COLOR falling in misty softness of outline. That! That is the illuminated fountain which will lend its enchantment to the scene until ten o'clock. See the blending of the prismatic colors. Surely there is melody and harmony in color; this is the full harmony. At last we have reached the auditorium and listened

THE WARNING BELL IS CHIMING, and we must say "good night." I hope I have not wearied you by sharing with you what I so much enjoyed. I have given you only a very ordinary day. I have not spoken of the grand concert and rendering of the cantata "Athalie," by Mendelssohn; of the night of the illuminated fleet, which seemed to carry one back to olden time or fairy land, or

THE ALUMNI DAY, with its many processions, floral offerings, conferring of degrees, bonfires, &c., of the baccalaureate sermon by Dr. Vincent, the address and sermon by Dr. Lyman Abbott. My friends—have decided to take the four years' course of reading of the Chautauqua Literary and Scientific Circle. I will give you the list of works it embraces in my next. I thought, while there this summer I should like all the friends whom I love to have been there, too. Next summer, if all is well, we hope to form a larger party. It is a long way from the summer of 1884, but already I have thought you there with me.

O'DONNELL'S DEFENCE

He Tells the Story of His Voyage With Carey.

His Horror when He Discovered He had been Chumming with an Informer—The Death Struggle.

We were unable to supply the demand for extra copies of THE SIGNAL last week, and therefore reprint the cut of Carey's slayer, omitting, however, the sketch which accompanied it last week.

PATRICK O'DONNELL.

LONDON, Oct. 3.—Sullivan, counsel for O'Donnell, gives the following summary of O'Donnell's defence: Till the day after he reached Capetown, O'Donnell says, he never for a moment suspected "Power" to be Carey. Seeing he was an Irishman, he chummed with him, and was kind to the children because they seemed in misery. He was further attracted to Carey by his moody, mysterious manner, and thought he was possibly a political outcast escaping. On the day after they left the Cape it was rumored that Carey was aboard. O'Donnell was so overcome by the idea that he had been giving his hand to and chumming with such a villain that he lay awake all night moaning and groaning. He had as crown witness Greenough testified at the Cape, plenty of opportunities for throwing Carey overboard as the fish. "O'Donnell replied, "I sold it, but I suspecting something, changed his manner, and on going into the saloon for beer said, "What have you done with your pistol, O'Donnell? It made me nervous when you fired at those flying fish." O'Donnell replied, "I sold it, but why are you afraid? Only a man who had something on his conscience would be afraid of that." Carey here took a hectoring tone, and as some of the men who had been sitting sprang to their feet said, "O'Donnell, you are ready to go off half cock," and grappled O'Donnell, who took Carey's collar by his left hand which was paralyzed. Carey and he then drew pistols. "I came from a part of America where people don't want to inquire into a man's intentions when his pistol is against your forehead," said O'Donnell, "and I fired with my right hand. Carey's revolver went off and dropped on the floor. Carey staggered, and I picked up his weapon, seeing this I fired again. Tom Carey then picked up his father's pistol." Sullivan hopes to convict Tom Carey of perjury. He has applied for a postponement of the trial to allow time for Greenough and the officers of Kinfau's castle to arrive. The prisoner is still jauntily and unconcerned.

TALK ABOUT O'DONNELL. Dublin, Oct. 4.—A ballad singer named Hynes was sentenced to imprisonment for a month for singing the praises of O'Donnell and calling upon all Irishmen to act toward their informers as O'Donnell did.

London, Oct. 3.—It is stated that the informers in the Phoenix Park murder trials who were not permitted to land at Melbourne will go to India, where Carey decided to go, until he was dissuaded by O'Donnell and calling upon all Irishmen to act toward their informers as O'Donnell did.

Jersey City, Oct. 4.—Mrs. Helen Kelley says O'Donnell, who killed Carey, was once employed by her husband as a gas fitter, and after receiving a paralytic stroke was considered insane. She wrote to Lord Granville expressing a desire to testify in O'Donnell's behalf is her expenses were paid, and received a reply stating that the British government would not bear expenses.

Book Notices. CANADIAN METHODIST MAGAZINE.—Price 22 a year; \$1 for six months; 25 cents per number. For sale at all bookstores.

There are two articles of conspicuous interest in this number. The first of these is a very able paper by Principal Grant, of Queen's University, on Some Signs of the Times. In the broadening liberality of the Protestant Churches toward each other, Dr. Grant sees an augury of the time when in sparsely populated regions they will agree to an adjustment of evangelistic work, which shall avoid petty denominational rivalries and admirable Portrait and Life-Sketch of Dr. Grant are also given. Another article of much interest is one of a theological character by Dr. Carman, who was recently elected one of the Superintendents of the Methodist Church. Stanley's Dark Continent, which is finely illustrated, increases in tragic interest. An able article on the Northwest gives numerous engravings of Winnipeg and Manitoba scenery, and much valuable information for settlers. Other articles are: Memories of Leipzig; a graphic sketch of Jerry McCauley's Mission in the West Ward in New York; a paper by Mrs. Landler on Unanswered Prayer; and a fine poem on the old "Lovers Town"—Ninety; a condensed report of the Union Conference is given, and the editor discusses, among other things, the feasibility of a union between the Methodists and Presbyterians.

True merit brings its own reward, in the case of Burdock Blood Bitters it is rapidly bringing its reward in its increasing sales, as a prominent druggist recently said, "it now sells on its merits." It is the grand specific for diseases of Blood, Liver and Kidney, 25,000 bottles have been sold, during the last three months.

Mrs. J. McPhee, Appin, writes:—During the last eight years I have used almost every medicine recommended for Biliousness, but found nothing equal to Carson's Bitters. If you suffer try it! Price 50 cents.

For the second time in American Arctic research the report comes that the crew had mutinied. It is now stated that Lieut. Greely has been murdered.

SAN FRANCISCO.

A Fortnight in the Golden City.

Wonderful Growth—Magnificent Churches and Hotels—The Boardman Palace—John Chinaman—His Theatre, Joss House and Opium dens—City Missions—Off to Australia.

The change from a week in a railway train, surrounded by the constant stir, and activity of the travelling public, to a quiet comfortable room, will be a grateful one to the fatigued traveller.

The population is nearly 300,000. The city covers an area of about forty square miles, and dates its growth from the gold excitement of '49—about thirty-four years old.

THE CLIMATE IS PECULIAR, varying only a few degrees throughout the year. The mean temperature in January is 50° in July 57°, and a light overcoat is almost indispensable at any season.

THE CABLE STREET RAILWAY is a feature worthy of mention. The cable is a wire rope about an inch in diameter, running in a box beneath the street and between the rails, this is kept continually going by a stationary engine.

IMPOSING CHURCH EDIFICES, among them St. Ignatius, belonging to the Jesuits, said to have cost nearly one million dollars. Speaking of churches, our impressions were that if any place under the sun needed them it was 'Frisco.

MANY PHASES OF LIFE, the many strange characters, and the variety of nights to be met with in a large city. The street is well lighted by electricity, making the surroundings as distinctly visible as at mid-day.

THE "HOODLUMS" substantiate this statement. All nationalities can be seen at leisurely make our way through the crowded thoroughfare, but the most numerous, and the one that attracts our attention most is the "heathen Chinese."

"DIAMOND PALACE," so we will look inside. We have read of Midas, supposed to be a Phrygian king, who was given power by Bacchus, to turn everything he touched into gold.

GOLDEN GATE PARK and Woodward's Gardens, will amply repay the sightseer. The park does not compare with Lincoln Park of Chicago, or Central Park of New York, but it is new, having been but lately reclaimed from a desert, and by irrigation and the planting of the yellow-lupin is converted into a beautiful holiday resort.

THE OPIMUM SMOKING DEN is numerous. A low table to lie on, a pipe, which on the top is larger than a penny but has a very small bowl, the bowl is rolled into a pill and put in the bowl, a light is applied and the smoker soon lies down in a state of disgusting insensibility, in which he is said to have pleasant dreams and enchanting visions, and transportation of delight not afforded by "Mellian man's" tangle leaf.

OUR STEAMER LEAVES FOR AUSTRALIA to-morrow, and we are buying our seats in packing luggage, securing berths, and preparing for a journey of 7,200 miles on a Pacific Royal Mail S.S. And, oh, the horrible presentiment of the nice time we are going to have the first five days!

CHINA TOWN, one of the principal attractions to the traveller from the east. If we were set down in the middle of the city of Peking we would not see more labyrinthine windings, ladders and stairways, cellars and

lits, poles and baskets, bird-cages and pig-sties, dirt and foul rubbish, than is met with in these catacombs of the living. The tops of the houses are adorned with clothes lines and linens in profusion, for want of a more suitable drying place; the fronts of the buildings are garnished with numberless signs painted with the

UNINTELLIGIBLE CHINESE CHARACTERS; we are surrounded by hundreds of Chinamen, buying, selling, cobbling, making, mending—for a great number ply their trade on the sidewalks—pawbrokers, bankers, printers, cigar makers; in short their occupations are legion. The population of Chinatown is put down at 20,000, the principal part of which is packed in ten blocks of buildings which might all be placed in Goderich square and still leave plenty of room for the human as well as other inhabitants—rats and vermin of all description—to travel about with ease. But in the midst of all this huddle and dirt, and and want of sunlight, "John" seems to thrive best, and comes out of the filth with a cleanliness that is marvelous and almost incredible.

THEIR DRESS IS PECULIAR; a round silk hat with the customary caudal appendage hanging from it beneath, sometimes reaching nearly to the ground and made by weaving coarse silk with their own hair; a loose shirt-like coat with bell sleeves, covering an inside white garment, which sometimes hangs two or three inches lower than the coat, showing that "John" is not particular about satisfying "Mellian" man's conventional requirements by properly adjusting his dress; a pair of light fitting trousers, the lower part banded about the ankles; and the feet encased in wooden soled shoes, with black silk uppers, completes the costume. They are

INDUSTRIOUS AND ECONOMICAL, living on from eight to twenty-five cents a day nicely. They are peaceable citizens, their worst faults being gambling, opium smoking, and a happy faculty of causing napkins, tablecloths, spoons or any light valuables to mysteriously disappear up their flowing sleeves. They seldom laugh, their features at all times wearing the same seditious expression. The most interesting places to visit in the Chinese quarters are the

THEATRE AND JOSS HOUSES, and the opium smoking dens. The theatre can be visited by paying double the price charged their own countrymen, but there are no "stars," and the music is distasteful; the beating of cymbals, triangles, gongs, the scraping of the Chinese fiddles and the tooting of a number of wind instruments without regard to time or harmony is scarcely less than infernal. The place is crowded with Chinamen, all smoking; the costumes of the actors are gaudy, the tinny music of the orchestra, and the paper going a long way in the make-up. The stage is void of scenery and without curtains, and when one of the actors is run through with a sword, and after falling picks himself up and shuffles off by a side door, the "Mellian" man has a decided feeling that the play is rather tame. The joss houses are in different parts of the town; the principal one is on Clay street. There is no order in their manner of worship. Some are prostrating themselves to the earth, others consulting the spirit by bamboo sticks, while others are praying or talking. They observe no particular day for worship, but the temple is open at all times.

THEIR ONLY HOLIDAY being at New Years, when all their accounts and dealings are settled up to date, and a Chinaman failing to do this is disgraced in the eyes of his countrymen. A goodly number of gods are in every temple, fiendish, silly looking fellows, with dirty bearded faces, and all having his own particular name and class of worshippers. "Mecha" looks after the wants of the sailors; "Quian" is the god of war is appealed to by the soldiers for success in their contests; "Yuantin" is the god of fire; "Pack Shing Kwain" is the god of wealth; and in fact there is a god to accommodate all their wants. These gods are well fed, for we can see tea cakes, meat, and incense as necessary.

CHRISTIAN MISSIONS IN THE CITY are doing away with these heathen customs. We visited the Presbyterian mission, the largest and most successful in the city, where an evening school is held for teaching the young heathens to read and speak English, as well as looking after their spiritual welfare. The Rev. Dr. Loomis, who has charge of the mission, kindly explained the workings of the institution, and showed us the different classes, and their various modes of teaching, and having had some five years' experience in teaching the young Chinese, he said, "how to school," he prevailed on to try our hand on the young Mongolians. They prove apt pupils, but never get the proper pronunciation or inflection of our English language. Over 3,000 attend the various evening schools and about 4,000 are enrolled in the Sunday schools.

THE OPIMUM SMOKING DEN is numerous. A low table to lie on, a pipe, which on the top is larger than a penny but has a very small bowl, the bowl is rolled into a pill and put in the bowl, a light is applied and the smoker soon lies down in a state of disgusting insensibility, in which he is said to have pleasant dreams and enchanting visions, and transportation of delight not afforded by "Mellian man's" tangle leaf. We verily believe it. But the advertisement is out that

OUR STEAMER LEAVES FOR AUSTRALIA to-morrow, and we are buying our seats in packing luggage, securing berths, and preparing for a journey of 7,200 miles on a Pacific Royal Mail S.S. And, oh, the horrible presentiment of the nice time we are going to have the first five days!

Boys and Girls.

The boom is over, and we have come to that season of depression which follows the use of false stimulants in the case of protectionist legislation, as well as in the case of brandy. Cotton men are holding councils to limit production, and of course employment at the same. We commend to them the example of the protectionists of Java who used to burn all the spices above a certain quantity in order to keep up the price. Would that the Finance Minister had adhered to the policy of common sense.

THE BOUNDARY AWARD. Governments are bound by the acts of their predecessors, even though their predecessors may have been of the opposite party. So careful a lawyer as the late Chief Justice Harrison ought to have been able to construe the language of the instrument under which he was appointed. To his fitness and competency, or to those of the other arbitrators, Sir Francis Hincks and Sir Edward Thornton, no reasonable objection can be taken. Sir Francis and Sir Edward are not lawyers; but if none but lawyers could form a judgment on geographical and historical evidence our geographies and histories would be in a bad way. Practically, we feel sure that the award would have been accepted and that the necessary measures, whatever they might be, would have been readily taken to cure any technical flaw in it and to give it effect. If party had not intervened, Quebec at Ottawa, and Quebec regards with jealousy any extension of Ontario. * * * Justice Ontario must have, and she must support her Government in their legal proceedings till she obtains it.

There is no remedy known to medical science that is so positively to be relied on as to cure Cholera, Morbus, Colic, Diarrhoea, Dysentery, Cholera Infantum, and all Bowel Complaints than Dr. Fowler's Extract of Wild Strawberry. It is a fact that Dr. Fowler's Extract of Wild Strawberry has more well earned testimonials of praise for its virtues in curing Cholera, Colic, Cholera Infantum, Dysentery, etc., than all other remedies of that class combined. It stands in the front rank of all remedies.

There is hardly an adult person living but is sometimes troubled with kidney difficulty, which is the most prolific and dangerous cause of all disease. There is no sort of need to have any form of urinary trouble if Hop Bitters is taken occasionally.

Age should always command respect, in the case of Dr. Fowler's Extract of Wild Strawberry it certainly does. For 25 years that has been the standard remedy with the people, for Cholera Morbus, Dysentery, Diarrhoea, Colic and all Bowel Complaints.

When so well informed a man as Lord Coleridge, the chief justice of England, says frankly that until he saw Lake Ontario he truly believed that it was possible for one to stand on one side of the great American lakes and see across to the opposite shore, what must be the opinion of this country formed in the minds of ordinary Englishmen? We all know of the absurd mistakes made by leading English newspapers when speaking of Canada, and the fact of the British Admiralty once sending out gunboats to this country with tanks for holding fresh water, for service on the lakes is still remembered. The Admiralty officers seemed to have got hold of the idea that our lakes were made of salt water, and the Chief Justice had formed the opinion that they were fair-sized ponds. Although Canadians think themselves a great people and this a great country, it is plain that the people of the Old World know very little either of Canadians or their abiding place.

A protracted drought has caused a water famine at New Orleans. There is a bitter feeling against the Water-works company for hoarding its supply. It is a private corporation, and it is feared the mob will break down the hydrants if rain does not fall.

AYER'S PILLS.

A large proportion of the diseases which cause human suffering result from derangement of the stomach, bowels, and liver. AYER'S CATHARTIC PILLS act directly upon these organs, and are especially designed to cure the diseases caused by their derangement, including Constipation, Indigestion, Dyspepsia, Headache, Dysentery, and a host of other ailments, for all of which they are a safe, sure, prompt, and pleasant remedy. The extensive use of these PILLS by eminent physicians in regular practice, shows unmistakably the estimation in which they are held by the medical profession.

These PILLS are compounded of vegetable substances only, and are absolutely free from calomel or any other injurious ingredient.

A Sufferer from Headache writes:

"AYER'S PILLS are invaluable to me, and are my constant companion. I have been a severe sufferer from Headache, and your PILLS are the only thing I could look to for relief. One dose will quickly move my bowels and free my head from pain. They are the most effective and the easiest physic I have ever found. It is a pleasure to me to speak in their praise, and I always do so when occasion offers."
W. L. PAGE, of W. L. Page & Bro., Franklin St., Richmond, Va., June 3, 1882.

"I have used AYER'S PILLS in numberless instances as recommended by you, and have never known them to fail to accomplish the desired result. We constantly keep them on hand at our home, and prize them as a pleasant, safe, and reliable family medicine. FOR DYSPEPSIA they are invaluable."
J. T. HAYES, Mexico, Texas, June 17, 1882.

The REV. FRANCIS B. HARLOWE, writing from Atlanta, Ga., says: "For some years past I have been subject to constipation, from which, in spite of the use of medicines of various kinds, I suffered increasing inconvenience, until some months ago I began taking AYER'S PILLS. They have entirely corrected the constive habit, and have vastly improved my general health."

AYER'S CATHARTIC PILLS correct irregularities of the bowels, stimulate the appetite and digestion, and by their prompt and thorough action give tone and vigor to the whole physical economy.

Fun and Fancy.

A fall suit—The contents of a stove-pipe. The mosquito's anger is an appropriation bill. When does a tree feel contented? When it's sappy.

Farm and Garden.

SAVING SEED.—Every farmer can do much to improve his crops by carefully selecting his seed. This is a well known fact, but it is too infrequently acted on.

Household Hints.

TO MAKE CLOTH WATERPROOF.—Apply a strong solution of soap to the wrong side of the cloth, and when dry wash the other side with a solution of alum.

One of our best citizens would say to the public that he has tried Hall's Catarrh Cure, and it is all that is claimed for it.

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THE GREAT NORTH WEST? SEE BY EXAMINING THIS MAP, THAT

CHICAGO, ROCK ISLAND & PACIFIC RY. Being the Great Central Line, affords to travelers, by reason of its unobstructed geographical position, the shortest and best route between the East, Northeast and Southeast, and the West, Northwest and Southwest.

By its main line and branches it reaches Chicago, Joliet, Peoria, Ottawa, La Salle, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Keokuk, Keosauqua, Ottumwa, Fairfield, Des Moines, West Liberty, Iowa City, Atlantic, Avoca, Audubon, Harlan, Cuttler Center and Council Bluffs, in Iowa; Gallatin, Trenton, Cameron and Kansas City, in Missouri; and Leavenworth and Atchison in Kansas, and the hundreds of cities, villages and towns intermediate.

"GREAT ROCK ISLAND ROUTE." As it is familiarly called, offers to travelers all the advantages and comforts incident to a smooth track, safe bridges, Union Depots at all connecting points.

ALBERT LEA ROUTE. A New and Direct Line, via Seneca and Kankakee, has recently been opened, between Newport News, Richmond, Cincinnati, Indianapolis and La Fayette, and Council Bluffs, St. Paul, Minneapolis and intermediate points.

For more detailed information, see Maps and Folders, which may be obtained, as well as Tickets, at all principal Ticket Offices in the United States and Canada, or of R. R. CABLE, Vice-Pre'st & Gen'l Manager, CHICAGO.

BOGUS DISEASE.—"Wolf-in-the-tail" usually co-exists with "hollow-horn" and is equally without foundation as a cause of disease. In the tail of a healthy dog the bones, which are quite large at the root, gradually diminish in size until they finally disappear entirely, their place being supplied by a rather soft, flexible gristle.

OPEDING CULTIVATION.—A farmer tried the experiment, last year, of raking several plots so that the soil was as fine as possible, and then sowing wheat.

PICKING FRUIT.—It is well known there are men who practice dishonesty in barrelling apples for market; they put large nice specimens in the bottom, then small and inferior in the middle and nice ones again on top.

HAULING MANURE.—Hauling manure in the autumn is a practice we have followed for many years, and thoroughly believe in it.

Dear Sirs,—For over twenty years I have suffered greatly from Nasal Catarrh; sometimes being unable to smell or taste properly.

Now that there is a reliable remedy for kidney troubles, half the horrors attached to these complaints have been removed.

"Why should a man whose blood is warm with a Sit ke his grandire cut in alabaster? Or let his hair grow rusty and thin.

PITY THE POOR DYSPPEPTIC.—Poverty with perfect health is rather to be chosen than riches and dyspepsia. Try the magic effect of a dollar bottle of FOUNTAIN OF HEALTH.

BOSTON BROWN BREAD.—Two cups each corn meal, graham flour and sour milk, 1 of molasses, 1 teaspoon soda, steam four hours.

COBN BREAD.—One pint meal, 3 table-spoons flour, 1 egg, piece of butter size of an egg, 3 table-spoons baking powder sifted with the meal and flour, and not quite 1 pint of sweet milk.

SPATTER WORK.—Speaking of spatter work, reminds us to say that the best mode of casting the spray is to put the link in an atomizer, which will give a uniform misty spray, that will not form blotches, if used with discretion.

A HANGING-GARDEN OF SPONGE.—Take a white sponge of a large size, sow it full of rice, oats or wheat. Place it in a week or ten days in a shallow dish of water; the sponge will absorb the moisture and the seeds begin to sprout before many days.

PHANTOM BASKETS.—Take a piece of old cotton cloth or sheeting (which is better, as it travels more easily), and tear some of the ravellings into the shape of a large egg, place just under where you have tied it, and then tie again.

A Voice from the Press. I take this opportunity to bear testimony to the efficacy of your "Hop Bitters."

Thousands are being cured of Catarrh every year with Hall's Catarrh Cure, that he doctors had given up and said could not be cured.

THE SYMPTOMS OF MENTAL decay resemble the gradual changes that come over old people, and are similar to those induced by excesses and bad habits, and the tendency to the production of softening of the brain and insanity.

Fashion's Fancies.

Canvas woven stuffs are all the rage.

Head bonnets are no longer fashionable.

The Langtry turban is as popular as ever.

Bonnet strings are tri-color and very narrow.

Shirred yokes and full waists will be much worn.

Chatelaine watches are exceedingly fashionable.

Plaids, blocks, checks and stripes are features in fall fabrics.

Polonaises are made very long at both back and front.

Artificial flowers are now never worn as corsage bouquets.

The new brocades are gorgeous. The colors are beautiful.

Silver necklaces and lockets will be much worn this winter.

Cloth bonnets will be worn with cloth dresses.

Silver white is the new shade for bridal dresses.

Youthful brides will wear white Ottoman silk and Duchesse lace.

Velvet trimming will be much worn this winter on street and house dresses.

Gray combined with all tints of red is the fashionable color in millinery.

New tan-colored gloves have cuffs of brown plush or velvet, and are laced.

Plain plaited and gathered skirts will be more worn by fashionable women than any other.

Velvet spots are introduced into Spanish laces intended for dresses and bonnets.

Plaited camels hair bonnets will be worn with cloth and cheviot costumes.

Large balls and spots are the newest designs for Oriental and Spanish laces.

Bison hair cloth is the fabric destined to supersede camel's hair.

Buttons down the front of tailor-made polonaises and jackets are now put on so close that they touch each other.

Velvet muffs will be worn this winter shaped like a bag, lined with fur, and ornamented on top with a bright plumed bird.

It is thought that the fashion of wearing a dove or some other beautiful bird on the corsage will be substituted for the bunch of flowers so long the fashion.

Many of the fall and winter hats will be worn down in the forehead. The crowns of most of them are very high, and there is great variety in their shapes and color.

Turbans made entirely of feathers will not be at all worn this winter. The most popular will be those made of rich dark blue or dark red velvet, trimmed on either side with long pheasant's wings.

The gauntlet glove is coming into fashion for morning use in quiet gray, tan, and wood shades. They are made in four different lengths, and the longest cuffs reach nearly to the elbows.

Dress of cashmere and silk remain popular, and cloth dresses so much worn last spring continue in style. Cloth dresses will again be made by tailors, giving what is termed tailor-made suits. Gray is a favorite color, so is blue. By the bye, modistes assure their early patrons that a little later on in the season it will not be an unusual sight to see a blue wool dress elaborately trimmed with red braid.

From across the sea come rumours of the decline of colored hosiery and the supremacy of white balbriggins again. It is also told that brides abroad are dropping the old custom of furnishing their trousseaux with sets upon sets of elaborate underclothing. The rule at present prevailing limits the supply to sets of two dozen. The trimming is less elaborate than heretofore but quite as costly, for all the lace employed must be real to meet the requirements of the present style.

Travelling cloaks and mantles are no longer the conventional dust-color or black. In those days of luxurious travelling the charm of beauty is studied. There are some quaint cloaks of pruned and of mulberry damask or broche stuffs with wide mantle sleeves shirred in a wide facing, which is covered with a ruche of wide lace the color of the garment. A jabot of the lace also ornaments the front, and full wide lace flounce edges the garment, disclosing only the edge of the dress. Similar mantles or cloaks are made of less expensive fabrics such as pongee, alpaca, summer camel's hair or foulard. The lace must always correspond in color with the shade of the material.

C. S. Judson, Wallaceburg, says, Dr. Fowler's Extract of Wild Strawberry, for Summer Complaints is a splendid preparation, and I do not know of a single case in which it has not given satisfaction, but on the contrary have had many testimonials to its efficacy.

The use of Pills, Salts, Castor Oil, &c., and other nauseous, griping Cathartics is unnecessary, as a pleasant substitute is found in Dr. Carson's Bitters, which act as a Cathartic without griping or causing nausea. All druggists sell it, 50 cents a bottle.

Strength is a valuable quality under any circumstances. The strongest are always the greatest whether in the kingdom of mind or muscle. Dr. Dow's Sturgeon Oil Liniment is one of the strongest remedies known, but when used externally, when the skin has not been broken, its effects in relieving pain are most grateful and soothing. For Rheumatism, Lumbago, Neuralgia and the like it has no equal.

All agree that handsome hair is one of beauty's indispensable elements. Ayer's Hair Vigor maintains it in freshness, brightness and luxuriance.

They all tell the same story. W. Thompson, jeweler, Delhi, suffered for years from Dyspepsia, got no relief until he used Dr. Carson's Stomach Bitters. He says it was just the medicine I needed. It has cured me.

AIDS TO GODERICH.

Discussing the Foundry Question—Appointing a Committee—Citizens' Railway Committee.

A large and enthusiastic meeting of Goderich residents was held in the council chamber on Monday evening. The chair was occupied by Mayor Horton.

Col. Ross, M.P.P., believed definite action should be taken. If Goderich foundry was allowed to close, it would be useless for us to attempt to get outside manufacturers to come to our town.

After some further discussion, the motion was put and carried, almost unanimously. F. W. Johnston and J. Saunders voted nay.
