Thousands of housewives have found that they can save two-thirds of the money usually spent for cough preparations; by using this well-known old recipe for making cough syrup at home. It is simple and cheep but it has no equal for prompt results. It takes right hold of a cough and gives immediate relief, usually stopping an ordinary cough in 24 hours or less.

Get 2½ ounces of Pinex from any druggist, pour it into a 16-oz. bottle and add plain granulated sugar syrup to make 16 ounces. If you prefer, use clarified molasses, honey or corn syrup instead of sugar syrup. Either way, it tastes good, keeps perfectly, and lasts a family a long time.

It's truly astonishing how quickly it acts, penetrating through every air passage of the throat and lungs—loosens and raises the phlegm, soothes and heals the membranes, and gradually but surely the annoying throat tickle and dreaded cough disappear entirely. Nothing better for bronchitis, spasmodic croup, hoarseness or bronchial asthma. MILLIONS KILLED IN ACTION

Wonderful news! Millions and millions of germs killed in action and thousands and thousands of victima relieved of bronehitis, asthma, coughs, and colds. There is great rejoicing in the fact that science has at last invented the world's surest death trap for germs—Buckley's Bronehitis Mixture. With the first dose this remedy gets right down to business, and never ceases in its destructive work until every trace of the disease is completely removed and the victim restored to normal health. Letters from all parts of Canada praising this wonderful mixture are literally pouring into headquarters. Read this letter:—"Years of suffering from that terrible affliction, bronchial asthma, ordered by all medical men to close my business in Montreal and go south to a warmer climate, but I noticed your ad. in the "Montreal Standard" for the above mixture and I said I would give one more trial to health before I leave my native town, and thank the good maker I did. My bronchial tubes are clear, the hacking cough has ceased as if by magic, and all discomforts have gone since taking your wonderful mixture."—Herbert Corri, 417 McKay Street, Montreal. There is no reason whatever why you cannot be completely and speedily restored to health if you take this remedy. You are satisfied or the money is refunded, according to our guarantee. Don't delay.

NOW PLAIN WOODROW WILSON.

WASHINGTON, March 4. Eight storm tossed years in the Pre sidency of the United States, filled with moments and scenes that will live in history ended to-day for Woodrow Wilson now, as he himself smilingly asserted. Under his own roof again as a private citizen the former Pre ident rested to-night with his buriens of state transferred to other shoulders and the shouting and tu nult of public place behind him Through the day that had taxed his broken physical powers greatly he came smilingly and with a whimsical humorous twist to his comments, yet with no hint at regret at his retire ment from high office. There was but one incident of the day when tha cheerful mood seemed to fail. As he stood in the President's room, Mr Wilson had been telling Senator Knox that he would not witness in the Senate the inauguration of Vice-President Coolidge as he doubted his ability negotiate the few steps he must climb.

Harbor Grace Notes.

The S.S. Mary, Captain Bourne, arrived in port this morning from Bell Island, and is being part loaded with fish, packed in drums, from Mr. E. Simmons for Messrs. Harvey & Co. Ltd., St. John's. On account of the ice blockade, she could not get only within a short distance of the Point of Beach, and the fish had to be brought out on the ice to the side of the steamer. All were pleased to know that she was able to reach Bell Island a couple of days ago, which no doubt, relieved matters considerably.

STEWART'S Home Made Bread,

THE BREAD MY DADDY LIKES.

Daddy is evidently not one of those back number lords of creation who believes that woman's place is in the home—and only there. His taste in a wife is an up-to-date woman who will prove herself a real companion. He knows that if she is a slave to her kitchen she can't enjoy the poise or have the interest in world affairs that a little extra leisure would make possible; and so he is pleased to eat MRS. Lone Passenger Was "Broke."

Victor Moore, arrived in North Sydney yesterday to take passage for his home in Carbonear by the steamer Kyle, says the North Sydney Herald of Feb. 25. He had only his ticket for North Sydney and was without funds to pay his passage to Louisburg, from which port the steamer is now making her sailings. His financial troubles were solved by the immigration authorities, who took care of him, and will send him to Louisburg.

Obituary.

Word has recently been received in the city of the passing, at Brooklyn, New York, of Michael O'Gorman, a former resident of the West End, but for 35 years living in Brooklyn. Deceased will be remembered by many in the city and partitcularly by the older generation living in the West End. He is survived by two sons, living in Brooklyn, one daughter, Minnie, residing here; also a niece, Mrs. Thomas Crickard of the West End. His daughter, Mrs. Thomas Morris, wife of the Inspector on the Brooklyn Bridge, also died about three weeks after; she left 9 children. These unexpected deaths come as a severe blow to the family, who will have the sympathy of many friends.

Rain Melts Rocks.

Whn we see great boulders of rock such as granite, it seems almost incredible that rain has the power of

melting them. In rain there are two things in addition to water which assist this wonderful process. These are nitric acid and carbonic acid, and these are formed in the rain when the oxygen and nitrogen becomes charged with electricity as so often happens during

Of these two acids that slowly eat their way into the rocks, perhaps carbonic acid is the more important. By its action it gradually melts the hard granite upon which the rain falls and so transforms it, first into sandstone and afterwards into sand. Of course this process is. a

Pains

THOUSANDS of people suffer the agonizing pains of rheumatism, believing them to be inevitable. Yet, the truth is that rheumatism is generally caused simply by the failure of the kidneys to remove impurities from the system.

The action of Gin Pills is to help the kidneys perform their natural function again. With healthy kidneys, impurities cannot remain in the blood. That is why Gin Pills are recognized as so efficacious for rheumatism. If your life is made an intolerable burden through the pains of rheumatism, try Gin Pills without delay. Durability, charm of colour, quality of texture, the freshness of newness—these are preserved to all good fabrics washed with Lux. A packet of Lux-a bowl of warm water-and dainty hands can cleanse delightful fabrics in a delightfully easy manner.
