New Generator and Switch Board Installed.—Rev. T. C. Mellor, Seriously Ill.—Mrs. Schier, Beck Guest of Honor at Farewell Social Affairs.—Personal Notes.

The new generator and switch board for the electric light plant at Lequille, was successfully installed this week and the lights came on with their usual brilliancy on Tuesday, after a night and morning of darkness. This short cessation of service reflects great credit on the management, and their efforts to prevent inconvenience to the citizens were much appreciated.

Word was received on Friday that Rev. T. C. Mellor, who was recently reported recovering satisfactorily from an operation in Toronto, has had a relapse, and is seriously ill. Mr. Mellor is the guest of his son, Mr. William C. Mellor, and is accompanied by his wife.

Since the above was written, Mr. Mellor has passed away. Miss Emma McClelland of Deep Brook, spent the week end in town with Mrs. Margaret Beakney, and received a warm welcome from many old friends.

Mrs. L. Robertson and Mrs. F. S. Harris, are guests of Miss Bessie Whitman, at Tapperville. Mrs. Clifford Danca entertained at an enjoyable "Bridge" party on Friday.

Miss Florence Neville returned on Monday, from a visit to Halifax and Parrsboro. Mrs. J. M. Nichols of Deep Brook, is the guest of her daughter, Mrs. Dennis B. Wright. Mrs. L. E. Sherman was also a guest of Mr. and Mrs. Wright on Wednesday and Thursday.

Mrs. James Spurr, with her younger daughter, Addie, spent the week end with her parents, Mr. and Mrs. J. Robar, Princeton. Mr. Lenfest Ruggles, ex-principal of the Annapolis County Academy, is reported seriously ill at Eulaula, Alabama, where he has spent the past year. Mr. Ruggles also taught at Bear River, Middleton and other towns in the Province.

Miss Hattie Miller has returned from a vacation trip to Halifax. Mr. and Mrs. T. C. Bateman returned on Wednesday from a visit to Boston and Maine, accompanied by their daughter, Mrs. Edward Roderick and her little daughter, Marjorie.

Mr. Fred Wentzell left on Monday for a trip to Florida, where he expects to spend the winter. Mrs. O. Schierbeck was guest of honor at several social affairs before her departure for Dartmouth. Among the hostesses were Mrs. L. Robertson, Mrs. E. A. Miller, Mrs. F. C. Whitman, Mrs. E. E. Amey, and Mrs. D. Owen, who gave an "At Home" on Monday, at which over sixty guests were present. Mrs. L. Robertson and Mrs. E. E. Amey "poured" with the Misses Jeanne Pickles and Doris Pickup serving.

Mr. W. R. Miller of the Yarmouth Motor and Cycle Co., was a visitor in town for the week end. Capt. John Shea of Boston, is the guest of his sister, Mrs. John Howe. Messrs. Arthur Kelsall and F. C. Gilliat, of the local Entomological staff, left on Wednesday for Ottawa, where they will each read papers at the sixty-second Annual Convention of the Entomological Society of Ontario. Messrs. R. P. Gorham of Fredericton, N. B., and Alan Dastan, of Ottawa, formerly attached to the staff of the local laboratory, will also read papers at this convention.

Mr. E. R. Clark returned on Tuesday from a business trip to Truro, Windsor and Halifax. Mrs. A. W. Banks and her younger

daughter, Miss Margaret, have returned from a visit with relatives in St. John, N. B.

Mrs. B. C. Clarke of Bear River, is the guest of her sister, Miss Charlotte Sullis.

Mrs. Martha Thibideau, a former resident of Annapolis Royal and later of Bridgetown, is seriously ill at the home of her daughter, Mrs. Hastings Connell, Granville Centre.

Mrs. H. R. McKay left this week for her son-in-law, Mr. James Hoyt. Rev. Dr. Hemmonson of Wolfville, Rev. A. W. L. Smith of Clementsport, and Mr. C. H. Allen of Yarmouth, were in town on Wednesday, to attend a committee meeting at the Queen Hotel, regarding the proposed Game Sanctuaries.

REV. T. C. MELLOR DIES IN TORONTO.

Postor of St. Luke's Parish, Annapolis.—Spent Nearly 40 Years As Anglican Priest.

Annapolis Royal.—Word has been received here of the death in Toronto, at a very early hour Sunday morning, of Rev. Thomas Crewe Mellor, Rector of St. Luke's Anglican Parish, and one of the best known clergymen in Nova Scotia. Rev. Mr. Mellor had been in ill health for several months, and in September last, was granted six months' leave of absence. He had intended to spend the winter with his son, William E. Mellor, in Toronto.

Besides his wife, who was with him at the time of his death, and the son at whose home death occurred, the late Rev. Mr. Mellor is survived by two daughters—Mrs. Robert M. Wood, of Jamaica Plains, Massachusetts, and Mrs. John E. J. Marshall, of Barnsley, England. A son, Lieut. Frederick Courtney Mellor, of the First Royal Newfoundland Regiment, was killed in the Great War on July 1st, 1916, at Beaumont Hamel.

The remains of the deceased are expected to arrive in Annapolis Royal on Tuesday or Wednesday of this week, and interment will be at St. Alban's Cemetery, Lequille. Services at the grave are expected to be under the auspices of the Masonic Order, of which the late Mr. Mellor was a prominent and very active member.

Although an Englishman, Rev. Mr. Mellor's clerical career was entirely in Nova Scotia. He was ordained as a priest in 1857, and his first charge was Eastern Passage. A year later he went to Dartmouth, as Rector, remaining there until 1864, when he became Rector at Guysborough, leaving that place in 1861 to become Rector at Summerside, P. E. I. He became Rector at Cornwallis in 1865, and was Rector in Kentville from 1912 until he removed to Annapolis in 1917, since which date he had been rector of St. Luke's.

Rev. Mr. Mellor was born in 1811.

OBITUARY

Harry Ruggles, Barrister.
On Sunday at noon, Mr. Harry Ruggles, Barrister, passed away at his home on West Granville Street, after an illness of about a month, following a period of failing health lasting over a year.

He leaves to mourn their loss a wife, formerly Miss Bessie Taylor, of Halifax, two sons, Dr. Jack Ruggles, of Pinehurst, N. C., LeMoine Ruggles, wholesale grocer, of this town, and one daughter, Mrs. Barry Roscoe, of Kentville.

While Mr. Ruggles had been in very poor health of late, yet the end came suddenly and unexpected on Sunday.

His decease removes the last surviving member of the family of Timothy D. Ruggles, Q. C., for a long time a legal practitioner in Bridgetown, and one of the outstanding lawyers of the Province, which he represented for a number of years in the House of Assembly at Halifax.

The late Harry Ruggles was born on the old Ruggles Homestead, West Granville Street, and here the family grew up. He took the Arts course at Acadia, graduated and entered upon the study of law. In 1885, he was admitted to the Bar and to a partnership with his father and brother under the firm name T. D. Ruggles & Sons.

After the death of T. D. Ruggles in 1897, the brothers, Harry and Edwin continued the legal business, built up, enjoying a wide and general esteem. On Sunday morning, January 18th, of the present year, Edwin passed away and thus two breaks by death came into the family inside a twelve month. Mr. Harry Ruggles was the first Mayor of Bridgetown, in which capacity he gave a close and zealous service. Later, after retiring from civic politics, he was appointed Town Clerk a position which he held for many years and one whose duties he attended to in an exemplary manner, with distinction to himself and with satisfaction to the citizens generally.

He was a strong Conservative in politics and for some years was President of the Liberal-Conservative Association of Annapolis County.

For several years he was a vestryman in St. James' Anglican Church. A good lawyer, an unusually exact man of business, a practitioner of the highest integrity and honor, his passing leaves a distinct blank in the life of the town, and marks the removal by death of another member of a family which has always occupied a prominent and honored position in the Province of Nova Scotia, as their forefathers did in the United States and in England.

The funeral takes place today at 2.15, with service in St. James' Anglican Church and interment in Riverside Cemetery.

CLARENCE

A shower party was given for Irene Jackson, at the home of her brother, Manning Jackson, on Wednesday evening last. A large number of useful and valuable presents were presented to Miss Jackson, who is to take part in an interesting event, on Tuesday the 1st.

MEMORIAL SERVICE FOR QUEEN MOTHER

Canon Underwood Delivers Fine Address at Service For Queen Mother Alexandra.

On Saturday a Memorial Service was held in St. James' Anglican Church, for the Queen Mother Alexandra. Rev. Canon Underwood officiating. Appropriate hymns were sung and a very fine address was made by Canon Underwood, who spoke as follows, taking his text from the following words:

"Her children rise up and call her blessed, and her works praise her in the gates." A woman that feareth the Lord, she shall be praised.

He said in part:— It needs but few, if any words of mine, to emphasize the purpose of this service here and now.

On many occasions that little island in the Northern Sea which, one and all, we regard as the centre, the heart of the Commonwealth of Nations, to which we belong and some of us acclaim, as our native land, on many an occasion she has said to her kindred far and near, "Rejoice with me." At times, too, she has said "Sorrow." At this time she asks us to join her in paying tribute and honor to the memory of a gracious woman, who, for upwards of 60 years (62) has been in the fierce light that beats about a royal person, but who began, continued and ended as radiantly beautiful in character as in person and so became beloved by all classes irrespective of rank.

As Mr. Ramsay MacDonald said in the British House of Commons the other day—"We have had for two generations in our midst the presence of a lady of very sweet graces, of human consideration and of simple tenderness of heart, who symbolized to the whole country irrespective of class the dignity of royalty and the kinship of humanity."

It was in 1862 that the heir to the British throne having wedded and won the daughter of the heir to the Danish throne much to the joy of the British people, was married to Alexandra. Denmark had given her a rousing farewell. England gave her an equally rousing reception. And to those who have ever seen Alexandra, whether as Princess, Queen or Queen Mother (to use the name she chose rather than the Queen Dowager) this is not surprising.

To see her and to receive her gracious smile was to love her. You felt instinctively her whole personality drawing as a magnet, and the love and admiration she won at the first she kept until the end. She never lost her charm or her hold upon the British public. As wife, Mother, Queen, she steadily and unceasingly endeared herself to all ranks. Not only so, but she so entered into the lives of the people as to make herself almost one of themselves. And so it came to pass that as she advanced in years, the love so justly given from the first became almost a reverence.

As said in an Editorial in one of the leading Maritime Dailies (The Morning Chronicle)—"Alexandra was every inch a Queen. . . . But she was more than a Queen. She was the perfect pattern of the Queenly woman, the devoted wife, the loving mother, the Queen of her home that was a beautiful example for the people of the Kingdom."

She enriched a long life of royal splendor with countless deeds of kindness and almost daily activities in innumerable good causes. She grew old not only slowly but gracefully.

CORRESPONDENCE

REPLY TO "PARADISE RATEPAYERS."

To the Editor of the Monitor.

Dear Sir:—

The attention of the writer has been called to a rather lengthy communication, in your last issue, purporting to be the deep meditations of the Ratepayers of Paradise School section. As the article in question is based upon the three chief institutions for good, in the community, viz:—the church, the school, and the women's institute, it has been requested by representatives of the above named organizations, that the rate payers be placed before the public in the name of my unknown friends, the "Paradise Ratepayers," will realize that the writer is moved by no personal spite or malice, but is moved solely by a sincere desire to get things right.

The writer quite agrees with his unknown friends that the financial condition of the community is not as good as it should be. No district in the world can depend upon one crop, such as apples, and have that crop partially destroyed by the forces of nature without feeling the pinch. However, we have yet to hear of cases of actual starvation in the community, such as our unknown friends fear; nor have we heard of the Municipal Council calling for Tenders for an addition to the County Home. Our unknown friends should take heart, for the best informed commercial authorities think that this Province is on the eve of an era of great prosperity; and in any case Boston is only twenty-four hours away, and we always have Florida to fall back upon, so that the attendants of the County Home may not be over-worked after all.

As to the assessors, whom our unknown friends so severely criticize, we will not fight their battles, but would suggest that the County Council for this district, who also has jurisdiction in the matter, be approached. We have every confidence that if a grievance does exist, it will see that it is remedied, and that the public get a square deal.

As to the debt on public buildings, will our unknown friends kindly furnish an inquisitive public with a statement of the same in the next issue of the Monitor? Very few in the community seem to be aware of any such debt.

The salaries of the minister and teachers are as well paid and as promptly paid as in most county communities at the present time.

The additional properties for the school grounds will be paid for this year, and with the advent of spring will be put in shape for use as a playground.

The work and worth thereof of the Women's Institute do not need the commendation of our unknown friends. The quality and usefulness of the work of this organization throughout the Dominion of Canada is so obviously of so high a character, that, to say it is good is simply stating an axiom. But our unknown friends seem to be very much muddled as to what the Institute has done in this place—For instance, the artesian well, on the school grounds, was paid for by the School Section and not by the Women's Institute. The Institute has not paid the church debts—we will venture the assertion that the church is able to look after its own debts, and will continue to do so. The Institute has not sent a girl to Truro to take the Domestic Science Course, nor a young man to take the short course in Agriculture, nor do they intend to do so. But suppose they should? Would it not be a commendable thing to do, and the cost would be just Twenty-one dollars (\$21).

On the other hand what has the Institute done? Their greatest work in the community has apparently escaped the notice of our unknown friends. This is cleaning up and care of the cemetery. Those who remember what this was like a few years ago and compare its former condition with its neat appearance today will appreciate the statement that the Women's Institute is a power for good in the community; further they have contributed forty dollars (\$40.) to the school for the Blind—they have decorated the interior of the school house—they purchased a pump and sink and installed a drainage system for the same building—they have erected sign boards as a warning to motorists—they have purchased supplies for the Memorial Hospital—sent Christmas boxes to the Sanatorium—etc., etc., etc.

And lastly, Mr. Editor, we come to the matter of hot lunches for the school children—the matter which seems to so worry our unknown friends, that they fear that the whole financial fabric of Paradise will be shaken to its foundations. Let us go into the matter somewhat in detail:—A kitchen range will not be purchased, the stoves already in the school house will answer the purpose—a pantry will not be installed as Mrs. A. C. Freeman has already donated a cupboard which will fill the bill so far as this is concerned.—The Women's Institute has contributed the sum of six dollars (\$6.) for the purchase of tinware and necessary utensils.—Each family sending children to school is asked to contribute a bottle of milk per day.—Each child will take a lunch as usual.—Cocoa will be served on Monday and Friday.—On each Wednesday one family in its turn, who send children to school, will be asked to contribute a pot of soup. This will amount to about one pot of soup per year per family.

The last argument of our unknown friends against the hot lunches is the old, chestnut "Always always trotted out to central all reform and progress viz:—"that what was good enough for our forefathers is good enough for us." The world is what it is today because each succeeding generation has striven to have things a little better than the generation before—without this spark of progress we would still be using stone axes and eating venison around the campfires of our smoky wigwags. Of course in this case we would not have to worry about taxes, assessors, debts on public buildings, or hot lunches for school children.

In the light of the above facts it is difficult to understand how anyone can have any objection to the proposal. It certainly will not cost the Paradise Ratepayers anything as the teachers are receiving short time, energy, and money free—depriving themselves of their noon hour for the benefit of the children of the community, who otherwise would be compelled to eat a cold lunch or walk a long distance through the cold and snow of winter. While under this proposal they will have a hot lunch served under home like conditions and thus be better fitted for the work of the afternoon.

And while we are on the subject let us state that it is a generally recognized fact that we have two efficient, painstaking, hard-working teachers, who are conducting an excellent school and that their efforts and care for the children are greatly appreciated by the public at large.

If we have not made the facts sufficiently plain to our unknown friends, it might be a good plan for them to interview the heads of the various organizations and thus get their information first hand as the writer of this article has done.

In closing the writer wishes to state that if he has in any way contributed to a true statement of facts as they actually exist and given credit where credit is due, he will feel amply repaid for his trouble.

Thanking you for your space,
I remain Mr. Editor,
Yours truly,
R. S. LEONARD,
Paradise, Nov. 30th, 1925.

MEMORIAL SERVICE FOR QUEEN MOTHER

(Continued from Page One.)

It is the glory of the British throne in our modern days that its women have been worthy exemplars for the nation in their domestic virtues, their true motherhood and their high standards of conduct; and Queen Alexandra throughout the long life in which the fierce light of royalty beamed upon her, was a bright and shining example and the memory of the precious Queen Mother, who was as pure in heart as she was fair in form, whose tender hearted sympathy was manifested so widely and so constantly in her daily walk and conversation into the eventide of her life, who was in truth the Queen of the Hearts of the British Commonwealth, will endure as one of the proudest traditions of our race, and this, because she has bequeathed to us all a worthy heritage—a life keyed to the claims alike of sympathy and of duty, a tradition of virtue and of family affection, an example of lofty station made to serve lofty ends—She was truly a woman that feared the Lord. "Her children have risen up and called her blessed" and as long as British history shall endure her works shall praise her in the gate.

ABANDONS CAREER TO MANAGE HERD

Follows in Father's Footsteps, Miss Frances Corning Carries off Trophies at Toronto Winter Fair.

(Toronto Globe.) To end by chance a vocation as a stock breeder has been the experience of Miss Frances Corning of Yarmouth, N. S., who with just pride is exhibiting a herd of Guernsey cattle at the Toronto Winter Fair. A more slip of a girl in her early twenties, Miss Corning, who in 1923 graduated from Annapolis Royal Seminary, Wolfville, and who specialized in studying the art of expression, had planned a very different career. A year ago the daughter of her father, Howard Corning, J. P. R., who had been recognized throughout Canada as a leading stock breeder, being a champion across the path of Miss Corning.

Not only has Miss Corning managed a herd of fifty Guernsey cattle, but at the request of the Canadian Guernsey Breeders' Association, she assumed the duties of Secretary of that body which her father had held.

Miss Corning admitted to The Globe that managing a herd of Guernsey cattle was indeed a task, and that her responsibility involved much study. "Dad and I were pals, and of course, he was always talking stock records," she said, explaining the fact that she was familiar with cattle since childhood. "Daddy would have been proud of the Guernsey exhibit at the Royal today," she said. "It was always his dream to see a large exhibition of Guernseys at the Fair."

Is Real Expert. With the familiarity many a girl displays with her pet Pomeranian, Miss Corning strolled among her herd stabled at the Royal, desiring they were all great pets. A 5-year-old Guernsey, Miss Corning exclaimed, "was the best cow in all the world." Slipping into the stall of the senior bull, a champion of the Royal Fair in 1922, the C. N. E. in 1923, and the Royal again in 1925, Miss Corning gave the stock sides of the bull a friendly pat. When The Globe asked whether the young exhibitor felt any fear of the animal, she laughed, and replied: "I am not the least afraid of the herd sire, but I'll admit I'm more afraid of a mouse."

MOUSE ROSE Mr. and Mrs. Albert Marshall have returned to their home here after being away during the summer months. Their daughter, Mrs. Win-Norse of Granville, is spending a few weeks with them. Congratulations to Mr. and Mrs. R. S. Young of Worcester, Mass., on the arrival of a son, Robbie George.

Mrs. Melissa Hall, of U. S. A., and Mrs. J. D. Brinton, of Port Lorne, were recent visitors at the home of Mr. and Mrs. Harry Hines.

Sorry to report Mr. Alfred Marshall on the sick list. Dr. Crowe, of Bridgetown, in attendance. We wish for a speedy recovery.

Mr. Fred Charlton, our mail driver is also on the sick list at time of writing.

Mr. and Mrs. Truman Sanford, of Wolfville, Mrs. Cora Sanford and family of Clarence, Mr. and Mrs. Joseph Marshall and two sons of Hampton, and Rev. and Mrs. Asaph Whitman and family of Port Lorne, have been recent guests of Mr. and Mrs. Alfred Marshall.

Mr. and Mrs. Asahel Whitman recently visited at the homes of Mr. and Mrs. Abner Daniels, of Lawrence-ton, and Mr. and Mrs. Hugh Lantz, of Bridgetown.

Mrs. Hattie Sanford is stopping for an indefinite time with Mr. and Mrs. Alfred Marshall.

Inspector M. C. Foster of Bridgetown made an official visit to the school here, on Thursday.

The item which appeared in last week's news should have read as follows:

Mr. and Mrs. Asahel Whitman went to Port George on Sunday, to attend the funeral of his aunt, Mrs. Ruth Abbott, in stead of Mrs. Naomi Gates, as stated. The mistake was unintentional.

CAS OVERCAME GARAGE MAN. Dighly—H. L. Woodman, a local garage proprietor, was overcome by carbon-monoxide gas Monday afternoon, and only the timely arrival of Frank Hayden, it is believed, saved the unconscious man from death.

Dr. Duvernois was summoned and he had Mr. Woodman removed to his home, where he was found to be suffering from the effects of carbon-monoxide gas.

The garage was found to be filled with the deadly fumes.

GREAT PREACHERS:

The Bishop of Durham in a recent speech approves the fact that there are no longer any great preachers, that there are today none in the direct line of the Spurgeons and the Vaughns. But he is by no means the first to make that discovery. I have heard many people make the same statement and I must think there are many who would dare to name one who is known to-day as Spurgeon was known a generation ago.

Bishop Henson feels that the reason for this lies in the fact that the church is no longer speaking as it did a few years ago, with a single voice. That is certainly true. The discoveries of science have in the last fifty years made inroads into the old creeds and traditions upon which the church had stood so firmly for many centuries. Astronomy, geology, biology brought to light facts and theories which were, to say the least, highly disturbing to intelligent young men who had embarked on the ministry of God. On the reception of these facts and theories the church became divided. On the one hand heret-ics and the Arist body who refused to believe the findings of science, and on the other there was the smaller body who attempted to reconcile them with their religious beliefs. What was the result? The preacher who refused to credit the findings of science discovered that his church was slowly emptying of those who did believe in the findings of science. The preacher who tried to reconcile science with his religion no longer spoke with the old clear voice, and the doubts which he was being constantly tormented stole conviction from his sermons. But this was not all.

church organization altered. In his old days when very little parish work had to be done the preacher had leisure to study and prepare his sermons. Today, what with the call of the parish, what with society upon society requiring his time, it is physically impossible for any but the most energetic to find leisure to properly prepare a sermon, much less give attention to study. But that is not all. In the last fifty years the intellectual standard required of a minister has gone up. In the old days he and the doctor and perhaps the lawyer were the only ones in the congregation who had had a college education. Books and magazines and reviews and newspapers were not so widely read. But to day everybody can get a college education—either by going to a college or by reading what comes in the mail. The consequence is that a preacher to be outstanding must be a constant student—which, as I pointed out above, he is unable to be because of the many parochial calls on his time. We can't expect our ministers to spend their weekdays in slavery to church organizations and preach two outstanding sermons every Sunday—P. D. L. in Halifax Chronicle.

GRANVILLE CENTRE

Mr. E. S. Palmer has returned to the United States.

Mrs. Taylor, of St. John, recently visited her daughter, Mrs. Joseph Gesner, Miss Hennesey, of Fairville, N. B., was also a guest at the same time.

Sorry to report Mr. A. E. McGormick on the sick list, suffering from the effects of a fall, which occurred a few weeks ago in his barn.

Mrs. Myra Buffield of Marblehead, Mass., spent a few days here last week. On her return she was accompanied by her mother, Mrs. Emma Wade, and aunt, Miss Myra Long, who will spend the winter with her.

The death occurred on November 15th, at her home here, after a lingering illness, of Mrs. Caroline McCall. Mrs. McCall, who has resided here for fifteen years, was a native of Bermuda, and did not get accustomed to our northern climate, consequently she never left her home, but those who visited her found her a cultured lady, interesting and interested, in all that was for the uplift of humanity. She is survived by one son, who resided with her, and who has the sympathy of all. Rev. R. A. Neish conducted the funeral services and burial took place in Wadeville cemetery.

HERE'S PROBLEM FOR SOME RADIO BUG

Cotesville.—The uncanny behaviour of a telephone receiver from which radio programs have been received at the railroad station at Bramdamore, five miles north of Cotesville, is providing a mystery with which railroad and telephone company engineers and electricians are struggling with little success.

The telephone line runs from Cotesville to Bramdamore and is used exclusively by the railroad company. Telegraph operators on the Bramdamore station discovered that merely by lifting the receiver from its hook they could hear musical programs broadcast from distant stations usually the more distant, the better the reception.

At first the operators attributed the reception to an accident or a practical joker, but attempts to discover the source proved futile. Various tests were employed. On one occasion a radio receiver was connected with the telephone line near the Bramdamore depot, but immediately the line went dead. Removing the set and hooking up the telephone receiver, the operators were able to hear a program from a distant station. The problem was complicated further when a headset was connected with a railroad rail near the station and music again was heard.

Various theories have been advanced. One, in which some credence was placed, was that undischarged ore deposits in the vicinity might be aiding in the transmission of the radio waves. How these are transformed into sound waves, however, remained unsolved.

THE FLORIDA RUSH

All the gold, oil and land rushes in the history of the United States are said to have been surpassed by the latest migration pouring into Florida from all parts of the country. If Prince de Leon's Fountain of Youth had just been found to be a fact and not a fiction, it could scarcely have attracted a greater multitude, remarks the editor of a Maryland daily. The Florida land-rush, says another Southern editor, is admittedly "the most remarkable boom of its kind in the history of such booms." Those on the spot report the motor roads of the Peninsular State crowded with cars from every State in the Union, while added streams of humanity arrive by train and steamship and the roadsides are dotted with tent colonies of tourists and fortune seekers.

P. R. TAKES OVER LINES NEAR BORDER

Canadian Road Will Operate Northern Stretches of Boston and Maine.

Boston.—The executive committee of the Boards of Directors of the Canadian Pacific Railway and the Boston and Maine Railroad, have approved an arrangement under which lines in and near the Canadian border which have been under lease to the Boston and Maine, will be operated in future by the Canadian Pacific Railway. It was officially announced here today.

These lines, aggregating 104 miles, extend from Beebe Junction Quebec, to Lennoxville, Que., and from Wells River, Vermont, to Beebe Junction. In negotiating this arrangement, it was announced, the management of the Boston and Maine Railroad was prompted by the belief that these lines because of their extreme northerly location, could be operated to better public advantage by the Canadian road with resulting economies to both systems.

WORLD WHEAT CROP

Three Hundred Million Bushels More Than Last Year.

Washington.—A world wheat crop of 290,000,000 bushels in excess of last year's crop was forecast by the Agriculture Department today on the basis of estimates received up to November 12th. "Wheat production in 22 countries of the northern hemisphere," the department's announcement said, "is nearly 30,000,000 bushels more than last year, being 2,562,000,000 bushels, as compared with 2,532,000,000 bushels in 1924.

The output in the southern hemisphere, it added, is still somewhat uncertain, with indications for a crop about the same as last year. The Canadian crop was placed at 422,000,000 bushels, compared with a previous estimate of 392,000,000 bushels, and last year's harvest of 282,000,000. The statement estimated that there should be available for export and carry over from the Canadian crop this year somewhat more than 300,000,000 bushels."

CHILDREN LIKE BABY'S OWN TABLETS

Because They Are Tasteless and Are Easy to Take.

One of the strongest points in favor of any medicine for children is that it is so agreeable that the mother does not have to force it down the little one's throat.

Baby's Own Tablets have no drug taste, may be crushed to a powder if desired, and babies like them. They are perfectly safe for them. They contain no opiate or narcotic. They sweeten the stomach and remove the cause of fretfulness.

Mrs. Arthur Charlebois, Pawtucket, R.I., says: "I have found Baby's Own Tablets to be a gentle laxative and a safe remedy for stomach disorders in children. Our little boy had been given harsh cathartics but these tablets worked more effectively without the severe griping. I can recommend them to all mothers of little children."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

DIPHTHERIA

Nova Scotia during recent years has enjoyed a very good record, if its small number of Diphtheria deaths be taken as a standard. We have not always been so fortunate. Of our older generations many can remember numerous and severe outbreaks of the disease which killed quickly almost every individual attacked.

They remember, too, how dreaded "croup" was. Nowadays croup hardly figures at all on the International List of Diseases, for it is known that the "croup" which really was of diphtheria—that which killed—was Diphtheria, though it was not then recognized as such.

Much more is now known concerning the cause of the disease, the germ which it lodges in the throat, forms the membrane characteristic of the disease. Few or no doctors nowadays see a case of sore throat and do not take a "swab" in order to see if the germ present is the Diphtheria germ.

Sometimes, too much reliance is placed on the Laboratory report that the germ can not be identified. If too great time has elapsed between the taking and the examination of the swab the germ may have dried, so that recognition is impossible. It is not wise to trust too much to a "negative" report. On the other hand, if the Laboratory report be "positive," the diagnosis may be regarded as fully determined.

At the present time our doctors recognize the disease, either by naked eye appearance, or from Laboratory examinations with much more frequency than was formerly the case. They are thus very often able to attack the disease in its early stages. At that time by the early use of Antitoxin a very large number of cases can be saved.

The fact that many cases seen nowadays are relatively mild makes some persons doubt that it actually is Diphtheria. They remember the fatality which attended former outbreaks and can not without hesitation accept the present day opinion. Such an error of judgement it is most desirable to prevent.

Unfortunately they may satisfy themselves on this point, if they bear in mind that the poison generated by the germ is almost unique in that it is apt to set up paralysis of the nerves in any part of the body. The throat may be paralyzed, so that food can not be swallowed and fluids "come back" through the nose. The arms or legs may be paralyzed, causing difficulty in using the hands or in walking. The heart may be paralyzed, and sudden death may follow in which paralysis occurs shortly after there has been sore throat one is quite safe in concluding that the antecedent disease was Diphtheria.

By all means consult your doctor if you are in doubt. It certainly does not pay to run the risk of your child not being properly treated. If Diphtheria is a possible explanation of the child's illness.

TO HEAR APPEAL

Federal Cabinet to Consider Case of N. B. Youth Sentenced to Hang.

Ottawa.—Death will come with the dawn of the New Year to Alfred Arsenault, now in jail at St. Annes, N. B., unless cabinet intervention. Arsenault was sentenced on January first, for the murder of Alphonse Hanselpecker, at Bethel, Charlotte County, N. B., on May 8th last. At his trial it was said that the youthful murderer was 16 years of age. The case will probably come before cabinet at the latter end of December. Even if no-interference decision is reached, it is possible that the date of execution will be changed.

WHAT TO WEAR

In Masambuland we tried to teach the women they should wear something more than beads, palm oil and sunshine. But here we were shocked and mortified to discover that the girls and women wear only paint, powder and suggestion.—Mrs. A. L. Piper, returned missionary.

In the Congo the dappers wear nothing but beads. And a smile and a lady like bearing. And nobody notes them and nobody heeds. For a moment what they are not wearing.

There modesty rules, so the mission folks say. For people see nothing inviting in anything constantly placed on display.

And nudity's quite unexciting. But here the dear girls are still wearing a wee. And the mission folks find that it's shocking.

To see the faint flash of a dainty rouged knee. Peering over a neatly rolled stocking. And as for the gleams of the skin through the gauze.

Entrancing to us as its feeling it gives them to wonder, it gives them a pause. And too long for a big bolt of sheeting.

So, girls, this lesson from all Congo belles Who spread out their stuff in the sun— It's what you don't show to the public that tells. For what a man sees isn't fun. Cut short your disrobing while still there is time.

Don't hazard completely undressing. Be warned by the matter of this simple rhyme. And dress so 'you still keep 'em guessing.

BETHOVEN'S FORGETFULNESS

Numerous stories are told of Beethoven offending those with whom he came into contact by his gruffness; but his number is almost equalled by the records of his seeking pardon from the people he had unintentionally offended. While he was forgetting in most matters of non-musical nature, it was rarely that he was led into such a blunder as is here related.

When he brought out his Fantasia for the first time with an orchestra and chorus, he directed, at the usual hasty rehearsal, that the second variation should be played through without repeat. In the evening, however, completely absorbed in his own creation, he forgot the order given, and repeated the first part, while the orchestra accompanied the last, a combination not productive of the best effect.

At last, when it was too late, the composer suddenly stopped looked up in amazement at his bewildered band, and said dryly, "Over again." The leader unwillingly asked, "With the repeat?" "Yes," was echoed back, and his mind things reached a happy conclusion.

That Beethoven had, to a certain degree, affronted these excellent musicians by his irregular proceeding, he would not at first allow. He contended that it was a duty to repair any previous error, and the public had a right to expect a perfect performance for their money. Nevertheless, he readily begged pardon of his orchestra for the unintentional offence, and was generous enough himself to spread the story around and to lay the blame upon his own abstraction.

VICTORY

Things are beginning to have quite a business-like look at the new mill site here. We hope it will be a success from all points of view.

Rev. G. Durkee held service here Sunday in the Baptist Church.

The recent rains have been making much out of the new gravel on the roads.

Mr. and Mrs. Archie Wright and Miss Edna Fraser of Bear River East, spent Sunday with Mr. and Mrs. Joshua Simpson.

None of the trappers have met with any success so far. Fur-bearing animals seem to be scarce.

Mr. Willard Rosencrans enjoys looking at two deer in his orchard nearly every day. They are so tame and trustful he would not have them frightened for anything.

FREAK MOOSE SHOT IN NEW BRUNSWICK

St. George, N. B.—Decorated with a double set of horns, a moose shot by Charles Lee weighing more than 700 pounds, dressed, passed through town the other day. The animal was certainly a freak. No hunter in this section ever saw the like. The additional growth was perfect in shape. It started a little lower on the head than the others.

THE BIG SKATING MEET FOR ST. JOHN

World's Championships Will be Contested in January.—World's Champion to Take Part.

Saint John, N. B.—Saint John Amateur Skating Association, the body contesting the world's championship skating meet in January, elected A. P. Paterson, President and named a strong executive to look after the details. Secretary D. J. Corr announced that all arrangements had been completed for the appearance of Clas Thunberg, of Finland, the present world's champion. Skating aces of the United States and Canada will also take part in the three days meet, Charles Jewtraw, of Saranac Lake, N. Y., who retired from the game after winning an Olympic event, has returned to the field and it is expected he will appear in the coming meet.

How's Business?

"Business is as good as we make it" is the answer of business leaders. And it is worth while to note that most big businesses owe much of their success and prestige to the steady use of Advertising.

ADVERTISING IN THE WEEKLY MONITOR would help you promote your business. It would attract new customers, retain the goodwill of old ones and increase public confidence in your store and service.

ADVERTISING is simply salesmanship in the mass. It is an efficient, low-priced salesman. Investigate its merits.

WORLD MARKETING RECORD ON C. P. R. 407,624 Bushels of Grain Handled on System's Western Lines Thursday.

Winnipeg.—Constituting a record for Canada, and probably for the world, 3,417,624 bushels of all grains were marketed on the lines of the Canadian Pacific Railway in western Canada yesterday. The nearest approach to this figure was the 3,406,000 bushels marketed in October 18th, 1915, in the year of one of the greatest crops the Dominion has ever harvested.

This accomplishment means that approximately 40,000 farmers' wagons crossed the prairies hauling loads of grain, and that over 100 bushels of grain was handled by the railway every second for 24 hours. If these teams were placed end to end they would reach from Winnipeg to Brandon, from Montreal to Quebec, from Fort William to Schreiber, from Regina to Saskatoon, from Calgary to Field, from North Bend to Vancouver.

From August 1 to November 19 inclusive, there have been 144,519,442 bushels of all grains marketed at stations adjacent to the Canadian Pacific, as compared to 107,952,136 bushels last year, or an increase of 24 per cent. Of this gigantic amount approximately 126,000,000 bushels have already been placed on wheels and transported. The loadings showing a similar increase over last year.

A thousand cars per day have left Winnipeg destined for the head of the lakes each day during the present month, or a car every minute from seconds.

The old method of wintering sows in pens in the pigery is becoming obsolete based on the theory that the close confinement encourages rheumatic troubles. Rheumatic troubles are caused usually by a more or less pronounced stiffness of the hind quarters. This results in awkwardness, and losses at farrowing time. Exercise and dry room quarters have been found to be the most effective preventive.

NEW LAMP BURNS 94% AIR
Beats Electric or Gas.
A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 13 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94% air and 6% common kerosene (coal oil).
The inventor, J. M. Johnson, 246 Craig St. W., Montreal, is offering to send a lamp on 10 day's FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him to-day for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

TO VACCINATE AGAINST T. B.
New York—The New York health department is testing the Calmette process of tuberculosis vaccination on animals with a view to immunizing babies in New York City, if it is successful, it was announced Sunday night.
The Calmette method, developed by Dr. Calmette, assistant director of the Pasteur Institute of Paris, is that of inoculating infants three days after they are born with a living strain of tuberculosis germs.
Dr. Salmette has inoculated more than 2,000 infants, none of whom has contracted tuberculosis. Ordinary statistics show that 100 of the 2,000 if not immunized, might be expected to show signs of the disease.

WHICH PERIOD OF LIFE IS BEST WORTH LIVING?

From early bud to drooping leaf, From childhood unto age, Mid all the mingled joy and grief That are our heritage.

The youth whose cheek is flushed with health, Who journeys forth to learn That those who seek for fame or wealth Must join in battle stern;

The man in full and vigorous prime, With wife and children blest, Whose life flows like a pleasant rhyme, Whose joys are at their best, Sees some who gaudions great have won.

And sighs with fretful soul, To think his work is not yet done, And he at Fortune's goal!

The aged sire, with snowy hair, Whose toils and trials are past, Who, seated in his old arm-chair, Finds peace and rest at last;

Smiles at their childish joy, And full of memories, sighs, "Ah, me! I wish I were a boy!"

We love the future and the past, And while the roses shed Their sweets, we snuff them--then at last. Regret them--when they're dead!

Oh, that "mid all earth's joys and strife, Wisdom would teach us how To learn that unto every life 'The happiest time is--Now!"

WOMEN ROUTE BOLD BURGLAR. Man Had Almost Ejected Entrance to House When Discovered.

Granville Ferry.--On Sunday morning, between half past two and three o'clock, Mrs. Benjamin Hardy and her daughter were awakened by a rasping sound which came from the lower hall. On going to the top of the stairs they perceived that a man with a flashlight was working at the lock of the front door.

The nearness of the house to the street, the bright moonlight, the sharp sound, the tool left behind, and other things indicate that the burglar was somewhat of a novice.

Investigation in the morning revealed the key of the door just hanging in the lock, and lying on the step outside was an old jack-knife, which he had been using to push the key from the lock so that he could use it to enter the house.

The regular meeting of the Women's Institute will be held in the Board of Trade rooms Thursday afternoon at 3.30. A full attendance is requested.

Mr. Rice of St. John, is visiting Mr. Loran Buckler. The Baptist Bible Class, met with Miss Annie Delap last Friday night, to start Bible study again for the winter months.

Last week an ox belonging to a citizen of Centerville was deborned in one of the most rapid operations which history records, the operator being one of our county surgeons.

During a recent trip to Halifax, Messrs. Banks and McLaughlin had the pleasurable excitement while near Mount Unlocks of seeing a big bull moose come out into the road a short distance in advance of their car.

Thursday evening was very pleasantly enjoyed by the officers and members of Rothsay Lodge at their rooms, the occasion being an official visit by D. D. G. M. John F. Martin of Middleton.

Local Happenings

All roads will surely lead to the Primrose Theatre tomorrow (Thursday) evening, to see "Among the Breakers." Scud, the colored servant will be a captivor, while Bess Starbright (cast up by the waves) will prove a delightful chicken to Mother Carey. Something nice could be said about every character, but the thing to do is to see and hear. Overture at 8 sharp.

We would call attention to the advertisement in this issue of a Pantry Sale in St. James' Church schoolroom next Saturday afternoon. There will also be a table of useful and fancy articles suitable for Christmas presents. The sale begins at 3 o'clock.

It will be of interest to our readers to know that Charlie Anderson, of the Upstreamers Tuxis Square, (St. James' church), and Douglas Tupper, of the Tri Mu Square, (United Church), have been elected by acclamation to represent the counties of Annapolis-Digby, in the Maritime Tuxis Boys' Parliament. The Parliament will meet at Sackville, N. B., during the Christmas holidays.

The "Young People" who will enact "Among the Breakers" in the Primrose Theatre tomorrow evening, propose to make a limited Provincial tour immediately after. They begin with Belleisle Hall on Friday evening. They are surely enterprising.

The Annual Meeting of the Social Service Council of Bridgetown, will be held in the Board of Trade Rooms on Monday evening next, December 7th, at 7.30 o'clock. New officers will be appointed for the coming year, and it is hoped that a large number will be present.

A Ford car driven by Gordon Christmas collided on Saturday night in front of S. N. Wear's residence with a team driven by William McLeod. We understand that the car carried but one front light at the time and this fact possibly made for some confusion as to its position. The car was slightly damaged as well as the carriage but no one was hurt.

During a recent trip to Halifax, Messrs. Banks and McLaughlin had the pleasurable excitement while near Mount Unlocks of seeing a big bull moose come out into the road a short distance in advance of their car. The moose held the road for about a quarter of a mile and then disappeared into the forest.

Thursday evening was very pleasantly enjoyed by the officers and members of Rothsay Lodge at their rooms, the occasion being an official visit by D. D. G. M. John F. Martin of Middleton. He was accompanied by Messrs. Angus Morrison and John H. Potter, Past Grand officers. The third degree was exemplified and at the close refreshments were served and speeches of an interesting nature were made by the D. D. G. M., visiting brothers, and by officers and members of Rothsay Lodge.

George Risteen, driver of M. W. Graves and Co's. truck, had his left shoulder dislocated last week while cranking the big carrier. Bennie Poole is substituting as driver during Risteen's enforced absence from duty.

It was announced by the pastor, Rev. A. D. MacKinnon, on Sunday, that the Bridgetown Circuit had gone over the top raising over \$1500, the amount allotted as an objective in the maintenance and extension fund drive.

Parties who may wish to make contributions to the Fund in Aid of the School for the Blind, at Halifax, may do so at the Royal Bank, till Saturday, when present campaign concludes. Thus far over \$150 has been contributed by friends here.

WEATHER SIGNS

Hoar Frost is a sign of rain. Cold autumn a short winter. If rats and mice are restless, rain. Trees grow dark before a storm. After a warm autumn, a long winter. It will surely rain if moles cast up hills.

The more snow, the healthier the season. Bearded frost is a forerunner of snow. A clear autumn brings a windy winter. If it rains before 7 it will cease before 11. Expect fair weather from one night's ice.

A green Christmas makes a white Easter. A fog in February indicates a frost in May. Rain is frequently augured by bearded frost. Tulips and dandelions close up before a rain.

The note of the sand mole is a sure sign of frost. If it rains after twelve at noon it will rain next day. If it rains before sunrise expect a fair afternoon. A green Christmas will make a full churchyard.

Three white frosts will bring a storm every time. Rain long foretold, last; short notice, soon past. If gnats are plentiful in spring expect a fine autumn. A rainbow in the morning is the shepherd's warning.

Children's Colds

Are best treated externally. Check them overnight without "dosing" by rubbing Vicks over throat and chest at bedtime.

LOWER GRANVILLE

Oscar Chisholm and Reginald Van Blarcom returned recently from the Canadian West. A little daughter arrived at the home of Mr. and Mrs. Phillip Roblee, November 17th.

Mrs. E. Murphy, of Lynn, Mass., was a recent visitor of his friend, Mr. Val. Roblee. Sorry to report Mrs. J. R. Elliott and Miss E. A. Betts in poor health.
