Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

- ☐ Coloured covers/
Couverture de couleur
- ☐ Covers damaged/
Couverture endommagée
- ☐ Covers restored and/or laminated/
Couverture restaurée et/ou pelliculée
- ☐ Cover title missing/
Le titre de couverture manque
- ☐ Coloured maps/
Cartes géographiques en couleur
- ☐ Coloured ink (i.e. other than blue or black)/
Encre de couleur (i.e. autre que bleue ou noire)
- ☐ Coloured plates and/or illustrations/
Planches et/ou illustrations en couleur
- ☐ Bound with other material/
Relié avec d'autres documents
- ☐ Tight binding may cause shadows or distortion
along interior margin/
La reliure serrée peut causer de l'ombre ou de la
distortion le long de la marge intérieure
- ☐ Blank leaves added during restoration may
appear within the text. Whenever possible, these
have been omitted from filming/
Il se peut que certaines pages blanches ajoutées
lors d'une restauration apparaissent dans le texte,
mais, lorsque cela était possible, ces pages n'ont
pas été filmées.
- ☐ Additional comments:/
Commentaires supplémentaires:

L'institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- ☐ Coloured pages/
Pages de couleur
- ☐ Pages damaged/
Pages endommagées
- ☐ Pages restored and/or laminated/
Pages restaurées et/ou pelliculées
- ☒ Pages discoloured, stained or foxed/
Pages décolorées, tachetées ou piquées
- ☐ Pages detached/
Pages détachées
- ☒ Showthrough/
Transparence
- ☐ Quality of print varies/
Qualité inégale de l'impression
- ☐ Includes supplementary material/
Comprend du matériel supplémentaire
- ☐ Only edition available/
Seule édition disponible
- ☐ Pages wholly or partially obscured by errata
slips, tissues, etc., have been filmed to
ensure the best possible image/
Les pages totalement ou partiellement
obscurcies par un feuillet d'errata, une pelure,
etc., ont été filmées à nouveau de façon à
obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below/
Ce document est filmé au taux de réduction indiqué ci-dessous.

10X	14X	18X	22X	26X	30X
<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12X	16X	20X	24X	28X	32X

The copy filmed here has been reproduced thanks to the generosity of:

Hamilton Public Library

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Hamilton Public Library

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

JOHN B. GAY,
78 KING STREET EAST
HAMILTON, ONT.

Hamilton's Summer Carnival 1889

HAMILTON, many years ago, was dubbed the "Ambitious City," and retains the name at the present day. If the ambition of its people was for establishing a clean, healthy, orderly, well paved, lighted and drained city, the title has been fully established; for very few cities in America can claim to equal it in those respects.

The city was first laid out and settled in the year 1813 by a person named Hamilton, from whom it derived its name. It is built on a plateau of slightly elevated ground, winding around the foot of a hilly range which extends from Niagara Falls, locally known as "the mountain," and which is the height over which the Niagara plunges. The streets are wide, and for the most part cross each other at right angles, those extending back from the bay having a direction nearly south and north. The banks, churches, wholesale houses and many retail stores are handsome structures, and the east, west and south limits contain a vast number of elegant residences. From the summit of the hilly range the spires of Toronto may be dimly discerned on the north side of the lake, forty miles away; and on a clear day the smoke

HAMILTON PUBLIC LIBRARY

of Niagara, at about the same distance, may sometimes be seen. The broad, blue waters of Lake Ontario stretch away to the eastern horizon, and Hamilton Bay (a second Bay of Naples), lays at the foot of the city—a magnificent sheet of water, which in the summer season is dotted over with hundreds of yachts and boats of pleasure.

The inhabitants of Hamilton number over fifty thousand, all more or less interested in manufacturing industries, for which Hamilton stands pre-eminent in the Dominion of Canada, the capital invested being nearly one-thirty-fourth of the whole capital invested in manufacture throughout the whole Dominion. The average annual wages of each person employed in Hamilton industries amounts to \$345.93; this includes boys and girls, as well as the adults employed, and is in excess of the average earnings of similar employes, taking the whole of Canada into account.

The merchants of Hamilton organized a Board of Trade in 1845. That body, from its inception, has exercised a salutary influence over the mercantile affairs of the city, and has ever been on the alert to promote the construction of railways, canals and other works for opening up the resources and trade of the country. The list of Hamilton merchants is an interesting one. Several stand in the front ranks of Canadian trade, and some have won more than a Canadian reputation for their public spirit. The Board of Trade has always taken deep interest in everything which would tend to bring the city and its people before the country, and at all times has been active in supporting all efforts with that end in view.

How it Came About.

ON the 6th of May, Mr. W. H. Gillard and Mr. Geo. E. Bristol, two of Hamilton's enterprising and public spirited merchants, having conceived the idea of a Summer Carnival, brought up the matter before a Board of Trade meeting, and which was so well received that a committee was appointed to wait on the City Council to obtain their co-operation.

On the 13th of May the committee appeared at the Council Chamber and stated that from the manner the idea of a Carnival had been received by the Board of Trade and citizens generally, it had been decided to have one. The delegation sketched out graphically to the aldermen assembled the lines of action to be adopted in the way of attractions—such as a Military Day, a Labor Day, Baseball Matches with International Teams, International Cricket Match, Annual Regatta of the Canadian Association of Amateur Oarsmen, Bicycle Club Races, Trades Procession, Illuminations and Decorations, and Annual Meeting of the St. George's Society of North America, as well as a Commercial Congress of the Business men of the Dominion.

The Board of Aldermen took prompt action the same evening. Alderman Moore moved, seconded by Alderman J. J. Mason, that the Council should grant to the Carnival Committee \$1,500 towards the expenses required to carry out the object in view.

Alderman R. Griffiths, seconded by Alderman Wm.

McDonald, moved in amendment that \$2,000 be granted.

The amendment was lost on a vote of 9 to 8.

Alderman McDonald moved, seconded by Alderman Griffiths, that \$1,750 be granted, which amount was carried on the same vote.

On the following day, the 14th of May, a citizens' meeting was held which was largely attended by the leading merchants of the city, and the Summer Carnival was started off in dead earnest by the appointment of officers and committees to carry out the scheme (which at the same meeting was decided should be held on the 19th, 20th, 21st, 22nd and 23rd of August), as follows, viz. :

His Worship WM. DORAN, Mayor, *President*.

MR. W. H. GILLARD,

MR. GEO. ROACH,

MR. GEO. E. BRISTOL,

MR. C. R. SMITH, *Secretary-Treasurer*.

} *Vice-Presidents.*

Committees Appointed.

A committee to strike Standing Committees, consisting of Messrs. Geo. E. Bristol, W. H. Gillard, Robert Evans and Aldermen J. J. Mason and Major Moore, was appointed, and reported the following, which on motion was confirmed.

Executive and Finance.

W. H. GILLARD.	JOHN T. GLASSCO.

Chairman of the Several Committees.

The organization became complete by the Meetings of the several Committees taking place and electing their Chairman as follows:—

<i>Executive and Finance,</i>	-	W. H. GILLARD, ESQ.
<i>Invitation and Reception,</i>	-	HON. JAMES TURNER.
<i>Printing and Advertising,</i>	-	T. H. PRATT, ESQ.
<i>Merchants' Convention,</i>	-	JOHN KNOX, ESQ.
<i>Rowing Regatta,</i>	-	MAJOR MOORE.
<i>Sailing Regatta,</i>	-	COMMODORE MONCK.
<i>Bicycle and Games,</i>	-	CHIEF HUGH MCKINNON.
<i>Trades Procession,</i>	-	JOHN HOODLESS, ESQ.
<i>Music and Refreshments,</i>	-	ROBT. EVANS, ESQ.
<i>Labor, Benevolent and other Societies,</i>	} -	THOS. MASON, ESQ.
<i>Fireworks and Illuminations,</i>		R. B. SKINNER, ESQ.
<i>Baseball,</i>	-	ALD. JAMES DIXON.
<i>Cricket,</i>	-	ALD. T. H. STINSON.

Sub-Committees were appointed by the Executive to obtain subscriptions to the Carnival fund, and so earnestly did they go to work that in a few days they reported the amount subscribed by the citizens as so satisfactory that the Executive were enabled to promptly lay out a proposed plan for the Carnival Week, which was submitted to the several Committees to take into consideration.

The Plan Outlined.

The 114 Manufacturing Establishments

will, as far as possible, be in full operation on every day (except on that of the Trades Procession), and the proprietors and managers are asked to grant every facility to visitors to inspect those industries while at work in full blast.

The North American St. George's Union

will hold its Annual Congress in Hamilton on the 20th, 21st, 22nd and 23rd of August—four days out of the five of the Carnival Week—at which many distinguished Americans will be present; and in honor of whom a grand banquet will be given on Thursday, the 22nd.

The Merchants' Convention

which has so often been suggested should take place, and which has met with the approval of the mercantile community everywhere in Canada, will be held in the City of Hamilton during Carnival Week—19th to 23rd of August.

The committee having charge of this very important feature of trade and commerce, comprises the most prominent business men and best executive ability of Hamilton. These gentlemen are doing all in their power to arrange matters to give merchants attending the Convention a most cordial welcome; and Carnival Week has been selected, so that business and pleasure may be combined. Such a

gathering must result in finding remedies for such evils in trade and the many irritating elements which at present exist in general, and to the retail trade in particular. Mr. John Knox, of the firm of Knox, Morgan & Co., dry goods merchants; Mr. Geo. E. Bristol, of the firm of Lucas, Park & Co., wholesale grocers, wine and spirit merchants; Mr. T. H. Macpherson, of the firm of Macpherson & Glassco, wholesale grocers; Mr. Geo. Vallance, of the firm of Wood, Vallance & Co., hardware merchants; Mr. James A. McPherson, of the firm of Jno. McPherson & Co., wholesale boot and shoe merchants, and Mr. H. W. Sewell, grocer, wine and spirit merchant, are a special committee delegated the duty of carrying out the details of the Convention to a successful issue. Boards of Trade, and merchants all over the Provinces, have been invited to suggest, by letter addressed to the Secretary of the Hamilton Board of Trade, any subject relating to trade and commerce which might be deemed advisable should be brought forward at the Convention. Extraordinary low rates of fares have been issued specially for merchants and manufacturers attending the Convention. (*See Rates of Fare, in this book.*)

The Rowing Regatta.

Great inducements have been offered by the Carnival Committee, so as to insure a large attendance of the best oarsmen of the United States and Canada to compete for the special prizes to be rowed for. The Regatta Committee have secured the co-operation of several of the National American Clubs of Amateur Oarsmen, as well as those of Toronto and other lake ports in Canada—and the extraordinary facilities Hamilton possesses for rowing, having

both bay and lake—easy of access—and one or the other always in good condition, makes a race or contest always sure to come off at the appointed time. Bouyed courses being carefully laid out on both, so as to meet any emergency.

The Bicycle Tournament

will bring together a vast number of the best clubs in the Dominion—and the parade, drill and races of bicyclists will be a feature of Hamilton's Summer Carnival long to be remembered by the visiting clubs who take part, and the home club—of which our citizens are justly proud. The Meriden Britannia Works offer a magnificent prize cup, value \$150.00, to be competed for. Associated with this and in charge of the same committee, under the chairmanship of Chief Hugh McKinnon, are the National Games of England, Ireland and Scotland.

Baseball.

Efforts of the Committee on Baseball will be appreciated when it is known that arrangements have been made to have league matches played daily, between some of the best teams of the International Association.

Cricket.

To lovers of this standard English game, opportunity will be given to witness an excellent display on the Hamilton Club grounds during Carnival Week.

Society Day.

One day will be set apart for all uniformed branches of Benevolent and other societies—who will be in Hamilton in strong force, and competition drill for handsome prizes will have its thousands of admirers.

The Military Parade.

The parade of some of the crack regiments of the Dominion, headed by their splendid military bands, and comprising Horse, Foot and Artillery, under the command of distinguished officers well known to all Canadians, will be a great attraction, and form an important factor on the Military days of the Carnival.

The Sailing Regatta.

The great International Sailing Regatta, which Toronto and other lake cities have been endeavoring to secure, will take place during Carnival Week at Hamilton, and, wind and weather permitting (which, of course, it will, on this great occasion), the regatta will be one of the finest ever witnessed on Canadian waters. The Yachting Committee deserve great credit for the extensive arrangements they have made so successfully to bring such a fleet of fast sailers and their gallant crews to the port of Hamilton to play their part in the entertainment of the vast masses of people who will be here during the Carnival Week.

The Trades Procession.

No city or town in Canada could successfully attempt to compete with Hamilton in the line of trades processions, because of the immensity of its varied manufacturing industry, add to which that every manufacturer in this Birmingham and Manchester of Canada, with their thousands of workmen, are all combined to make this a spectacle worthy of the efforts put forth in time and money to secure for Hamilton's Great Summer Carnival endless praise for all time to come. Every branch of commercial and manufacturing industry will be represented in the procession. Articles will be manufactured along the route; competition will be keen as to most effective displays; and with the best of bands of music joining in at intervals throughout the line of march, the hundreds of fine horses and their gay trappings and grand floral decorations will enchant the eye of the beholder, who will acknowledge that he has learnt much of the industry, and enjoyed the continued round of pleasure provided by the pushing, energetic citizens of Hamilton during Carnival Week, and can no longer wonder why the Ambitious City holds the fame it does, as the great manufacturing centre of the Dominion, if he or she should happen to visit any one of such establishments as the following:

Burrow, Stewart & Milne.	F. F. Dalley & Co.
Bowes, Jamieson & Co.	E. & C. Gurney.
Laidlaw Manufacturing Co.	James Stewart & Co.
Copp Bros.	J. M. Williams & Co.

Malloy & Malcolm.	Edison Lamp Co.
Doran Bros.	Z. Patterson.
J. S. Lillis.	I. C. Chilman.

and many others which compose the one-hundred and

fourteen establishments—manufacturing almost everything required to be used by Canadians—and all taking part in the trades procession, and extending with the rest of Hamilton's fifty thousand inhabitants a glorious welcome to those who have come to help celebrate her Summer Carnival of 1889.

Fireworks, Illuminations and Music.

While laying out enjoyment and pleasure galore for the days of the Carnival, the committee have not lost sight of the fact that carnivals do not end with sundown, and have sketched out a line of thought which, no doubt, will be put in effect, to while away gently the evening hours. Hamilton enjoys the great satisfaction of having, undoubtedly, the best military band in the Dominion. The reputation of the 13th Battalion Band is not a Canadian reputation only, but extends largely over the United States. Visitors to the city will have an opportunity to hear its grand music every day during Carnival, which, with other bands, will assist at the evening promenade concerts at the Crystal Palace, where, in addition to instrumental there will also be excellent vocal music, for which Hamilton is notorious. The Music Committee call it a "Carnival of Harmony and Song," which they know will be heartily appreciated by every one. The Palace in acoustics is very good. Gilmore's Band seemed to sound better there than anywhere else, and our own Philharmonic Society's concerts were always considered at their prime when given there. To Hamilton people the Crystal Palace and grounds are associated with many enjoyable times each year during the Great Central Fair, which no one misses seeing as each September comes along.

The Fireworks and Illuminations,

it is intended, shall be on a most extensive scale of magnificence. The City of Hamilton by moonlight—with its pretty avenues and drives, its fine scenery of mountain, craig and lake, its wide, clean and well paved streets, its endless maples and chestnuts planted with taste, and the fine built residences everywhere showing wealth, comfort and contentment—is a scene to be revelled in at all times, and always has been admired by visitors from all climes when they have been fortunate enough to spend a while in the city under such circumstances. Unfortunately, however, for that part of the programme, the committee cannot utilize it, because of the condition of the moon being such that during Carnival Week he does not put in an appearance till the wee, sma' hours. So it may be said it is fortunate it is so; for it will enable the visitor to see it all as a glorious midsummer night's dream. The banks, warehouses, monetary institutions and stores, with all government and public buildings along main thoroughfares, the Gore Park and Prince's Square and Court House will be handsomely illuminated; all private dwellings in prominent streets will in many ways use pretty devices of welcome, in decorations of colored lights of all shades; while the bay—the pride of every man, woman and child in Hamilton, the envy of all other cities—will lend enchantment to the view. The fleet of yachts (Canadian and American), the steamboats, schooners and all other craft of every kind and calling will be illuminated and outlined from topmast to water line in colored lights of every shade in the rainbow. An immense display of fireworks of the latest device of pyrotechnic art, started from barges anchored in mid-stream; and, as if by magic, on the firing of ten guns from the

Bastien heights in honor of our distinguished visitors, a line of bon-fires start up, extending for miles around Hamilton Bay and Beach in the north, and from east to west along the ridge of the mountain to the extreme limits, outlining the whole city—a grand and glorious view from every point of elevated ground, and forming a perfect fairy scene never equalled, never to be forgot by any one of the tens of thousands who are lucky enough to attend Hamilton's Great Summer Carnival!

Come to Hamilton.

PEOPLE resident in the inland cities and towns long to get away once in a while for a change, and the greatest attraction is always to get near the water. The month of August is perhaps the best time of the year afforded to most business men and their families to have the desired change. This was one of the reasons why Carnival Week has been fixed upon during the 19th to 23rd of August—at that time everything at lake points is generally at its best. The weather is settled, the lakes calm, advantage can be taken to enjoy it to its fullest extent. Hamilton expects thousands of visitors from those inland places—because there is no lake port that has so many advantages to make their outing a pleasant and enjoyable one; combining as it were, a sea-side trip, with all the comforts obtainable in a large city.

The Carnival Committee have not been unmindful of the wishes of those who may desire to spend time on our bay

and on Lake Ontario, and have looked carefully at the supply of steam, sail and row-boats, to meet the demand which undoubtedly will be made at such a time.

The Modjeska and Macassa, the two finest steamboats on Lake Ontario—owned by Hamilton men—both built on the Clyde, specially for passenger traffic on the lake; both fitted up with everything which science could suggest for speed, safety and comfort, and either of them worth any one's while making a journey on purpose to see, regardless of any other attraction. These vessels will run from Hamilton out in the Lake every day. The Mazeppa, another fine little steamer, belonging to the same company, will run to the Beach every hour during Carnival Week. Other steamers will also run to lake, Beach and points across the bay. Sailboats and rowboats in endless numbers, for hire by the hour. The Grand Trunk Railway Co. will run trains to and from the Beach and Burlington every few hours; while street cars run every five minutes to the railway stations, and from there to the east, west, south and north parts of the city—connecting direct with all boats, trains and every place of amusement.

The Board of Trade rooms will be open during Carnival Week to all visitors, and all information will be cheerfully given there to those who may apply for it. Merchants and others attending the Merchants' Convention might find it advantageous to have their telegrams and other correspondence addressed to care of the Secretary of the Board of Trade.

The letter sent out to 12,000 Merchants of Ontario, by C. R. Smith, Secretary of the Board of Trade, inviting them to be present at the Merchants' Convention, was well received—and Hamilton's intention to hold such a congress,

so long wanted, was heartily responded to by letters of congratulations, sent to the Board of Trade and to the business houses of the city. The letter sent out was as follows :—

BOARD OF TRADE,

SECRETARY'S OFFICE,

Hamilton, Ont., May 29th, 1889.

DEAR SIR :

At a meeting of the Committee in charge of the Merchants' Convention, held at the Board of Trade rooms on the 21st instant, a resolution was passed—

“That the Secretary be instructed to write to all Boards of Trade, and to Merchants in all towns in Ontario, explaining the object in view in holding the Convention, and the reasons for fixing the dates during the Carnival Week in Hamilton on the 19th to 23rd August next.”

In accordance with the above resolution, I have the honor to inform you that for some time past there has been a desire on the part of merchants all over the Province to meet and discuss matters in connection with TRADE and COMMERCE affecting their particular interests. Such a meeting must result in finding remedies for many irritating elements, which at present are a serious evil to trade in general, and to the retail trade in particular.

The wholesale and retail merchants and manufacturers of Hamilton desire to bring together representative men of every branch of commerce, and have proposed a Merchants' Convention, to be held in this city during the Carnival Week, and have selected a committee of the most prominent business men to carry out the proposed Convention to a successful issue. These gentlemen are doing all in their power to arrange matters so that delegates from Boards of

Trade, and merchants from every place in Ontario who may take the opportunity afforded by the Convention, shall be cordially welcomed. The Carnival Week has been selected, thus combining business with pleasure.

You are particularly invited to be present, and to forward at your earliest convenience any suggestions on any subject relating to trade and commerce which you may deem it advisable to be discussed. This will very materially aid the committee in arranging for the business programme of the Convention.

I may mention that the committee have already decided upon three important subjects to be brought forward, viz :

1st—In relation to Bankrupt Stocks—the best means for their disposal so as to cause the least injury and annoyance to others in a similar branch of business in same locality.

2nd—Unjust Compromises.

3rd—Insurance.

Special Rates with railways and steamboats are being arranged for all those who may attend the meetings of the proposed Merchants' Convention.

I have the honor to be, dear sir,

Your obedient servant,

C. R. Smith
Secretary.

WHY 1889 WAS CHOSEN FOR CARNIVAL YEAR.

The word "Boom" is too suggestive of American puff; at the same time you cannot find a word which will convey quicker the meaning that Hamilton is about to make such rapid strides forward, than to say that the city is about to boom. Vacant real estate in building lots is being picked up everywhere, and fine residences erected. Three more railways are promised shortly. The South Ontario Pacific, which last session of Parliament received a large government bonus, will commence building very soon. It takes in Woodstock and Brantford to Hamilton, thence to Toronto and connecting with American railway system at Niagara Falls. Another road connecting with the Michigan Central at some point south of the city of Hamilton and continuing onward to Toronto; and the Hamilton Central from Guelph to Hamilton and connecting at any point on the Niagara River. These long wanted railways will give the competition necessary to carry out the wishes of the people. At no time during the last decade has there been a more positive evidence of Hamilton's forcing herself to the front rank, in commerce generally, and in manufactures in particular, as there is to-day. Possessing as she does sterling wholesale houses, whose firm names are so well-known throughout the Dominion of Canada, all doing business of colossal proportions, and of whom Hamilton has a pride, and never weary in enjoying the pleasure of their enterprise and success. Such houses as:

W. H. Gillard & Co.
Knox, Morgan & Co.

Lucas, Park & Co.
James Turner & Co.

Macpherson, Glassco & Co.	Stuart, Harvey & Co.
Brown, Balfour & Co.	F. F. Dalley & Co.
Duncan Bros.	R. Duncan & Co.
John A. Bruce & Co.	Robt. Evans & Co.
G. F. Glassco & Co.	T. B. Greening & Co.
Wood, Vallance & Co.	Wm. Griffith & Co.
J. Harvey & Co.	A. Hope & Co.
Levy Bros.	Long & Bisby.
Lumsden Bros.	McMahon, Broadfield & Co.
Jno. Proctor & Co.	J. A. Skinner & Co.
Stuart Bros.	A. Wilson & Co.
Jno. Winer & Co.	Bowman & Moore.
R. H. Greene & Co.	Atkinson Bros.
G. C. Briggs & Co.	Dixon Bros.
Buntin, Gillies & Co.	W. G. Dunn & Co.

and others; and again taking a glance at our monetary institutions: The Canada Life Assurance Co., a purely Hamilton enterprise, and yet a national institution—the first in Canada; The Hamilton Provident and Loan Society, The Landed Banking & Loan Co., two solid companies, doing a very large business in all parts of Canada. We have also a goodly supply of banking institutions: The Bank of Hamilton, Bank of Montreal, Bank of British North America, The Merchants' Bank, The Traders' Bank, The Molson's Bank and Stinson's Bank. The Federal Life Insurance Co. and The Victoria Mutual are both of local birth and growth, and the former has extended its connection largely over the Dominion.

.....

**ONE OF THE BOYS COMES
HOME AGAIN.**

A citizen who had just returned from a six months' trip through the United States remarked that although he had visited an endless number of cities where wealth had done much to build up and beautify, and many places of resort notorious for their advantages of health and pleasure, he had not discovered during the whole course of his journey a city or town containing so many advantages to make life happy. He remarked that of course everybody could not live in Hamilton; he, for one, would not want them to. But he did pity those who did not have the opportunity. His longing had been to return again to "that dear spot on earth supremely blessed—a sweeter, dearer spot than all the rest"; where law and order exists, where morality stands high up; and with pure air, an excellent water supply in quality and quantity, an unexcelled fire brigade and well disciplined, picked police force; with good school buildings of the most modern type, and containing all the latest improvements of the age in ventilation; I don't wonder at your inviting people to come to your Summer Carnival in August, so they can see for themselves the beauties of the place, and while enjoying the big bill-of-fare you have laid out for their amusement during the week, they will have the opportunity of getting better acquainted with a big-hearted, hospitable people. Those who come on a prospecting tour, with a view of starting some manufacturing or any other industry, will strike the town just in the nick of time to float on with the tide of prosperity which I see is close upon the City of Hamilton. There may be others, again, who

have made their ducats and are looking for some glorious spot to settle down in, where health and beauty surround them in their retirement, and yet having all the advantages which city life afford. To such, Hamilton must be their choice, where they can live as cheaply and as well as in any place in America; can enjoy good society; where churches of all denominations are in plenty; where beautiful drives are in abundance, and boating to perfection.

Schools and Educational Interests.

The school system of the City of Hamilton comprises the Public Schools and the Collegiate Institute, together with a Model School and a Training College for teachers.

In the Public Schools the course of study, beginning with the Kindergarten (which has made very rapid strides in Hamilton, and perhaps more so than in any other city in Canada), comprises reading, writing, English grammar, composition, English literature, history, geography and arithmetic.

In the Collegiate Institute, which pupils enter at the age of about 14 years, after having completed the Public School course of study, preparation may be had for entering the Universities, the Medical schools, the Law schools, etc.

In the Public Schools there is an average attendance of 6,000 pupils, and 140 teachers; and in the Collegiate Institute and Training College there is a yearly attendance of 700 students, presided over by a staff of 18 masters and teachers.

The schools are managed by a Board of Education,

consisting of twenty members, fourteen of whom are elected by the people and six appointed by the Board of Aldermen.

A noteworthy event in the history of our schools during the year was the visit of His Excellency, the Governor-General of Canada, Lord Stanley, of Preston, accompanied by Lady Stanley, which took place on Monday, the 3rd day of December. Their excellencies visited every class in the Queen Victoria and Hess street schools, and were evidently well pleased with everything they saw, as well as with the methods employed in school government and tuition, which were fully explained to them. Their many intelligent enquiries as to the system adopted in conducting our schools showed that they took a deep interest in the subject of education.

There are five Separate Roman Catholic Schools in Hamilton. The average number of pupils attending these schools is over a 1,000. A Ladies' School of high grade is also conducted by that denomination, and is held in very high esteem. This school was also visited by His Excellency, the Governor-General and Lady Stanley, in December last.

The Wesleyan Methodists also control a Ladies' College in Hamilton, devoted to the higher branches of education. It has been in existence a number of years, and attracts pupils from various parts of Canada.

The Hamilton Association is an incorporated society for investigating the natural history, botany, geology and Indian antiquities of the district. It has over 200 members, who hold monthly meetings.

Besides the public schools of the city there are private institutions for commercial and business training, and for art tuition. A public Art School has also been established,

and finds much favor from the citizens generally. It was on the occasion of the opening of a bazaar in its behalf that Hamilton was indebted to the visit of the Governor-General, Lord Stanley, on a recent occasion.

Charitable Institutions.

Foremost amongst these are the National and Benevolent societies. They are the St. George's, St. Andrew's, Caledonia, Irish Protestant, Catholic Mutual Benefit, and Emerald Associations. These societies seek out and relieve cases of necessity and affliction, and render good service to the community, and receive great appreciation and support.

The other charitable institutions are a Boys' Home, a Girls' Home, a Home for Aged Women, a Home of the Friendless, an Orphans' Home, a House of Refuge, and the St. Mary's Orphan Asylum. They have suitable commodious buildings (the outcome of private benevolence), and are sustained by voluntary contributions.

The St. Mary's Asylum is in charge of Sisters of Charity, and the other Homes are under the direct management of committees of ladies. The inmates of these Homes are well cared for, and the children educated and instructed in the way to make for themselves a respectable living.

Hospital.

Hamilton possesses an hospital for the sick and injured. It was built a few years since at a cost to the city of

\$53,685, and can accommodate nearly 200 patients. It is sustained by the city, aided by an annual grant from the Provincial Government and from contributions from such patients as can afford to pay for maintenance. Gratuitous attendance is rendered by the medical practitioners of the city.

Churches and Religious Bodies.

Hamilton is the see City of the Diocese of Niagara (Church of England), and of the Diocese of Hamilton (Roman Catholic).

There are in the city seven Anglican Churches, viz:—Christ Church Cathedral, Church of the Ascension, St. Thomas' Church, All Saints', St. Mark's, St. Luke's and St. Matthew's.

The Roman Catholics have two large churches—St. Mary's (which is the Cathedral church), and St. Patrick's—and one smaller church, known as St. Joseph's Church, used chiefly by Germans.

The Presbyterians number six churches, designated the Central Church, McNab Street Church, St. Paul's, Knox Church, St. John's and Erskine Church.

The Methodists have nine churches—called the Centenary, Wesley, First Methodist, Zion Tabernacle, Simcoe Street, Gore Street, Emerald Street, and the American Methodist Episcopal Churches.

The Baptists have one large and handsome stone church in the centre of the city, with a Mission Church in a remote portion of it. There is also a Baptist Church for colored people.

Besides the above religious bodies there is a Congregational Church, a Reformed Episcopal, Brethren of one Faith, Believers, Evangelical Lutheran, Plymouth Brethren and Salvation Army, the latter have a handsome brick building called "the Barracks."

There are also in Hamilton a Jewish Synagogue, a branch of the British and Foreign Bible Society, and a Young Men's Christian Association. The latter Society are at the present time erecting a magnificent building on James street south.

All Railways and Steamboats will lead to Hamilton from the 19th to the 23rd of August, BECAUSE every one will want to see the *Greatest Carnival* ever undertaken by any city on the Continent of America; they will want to see personally the kind of men we have in Hamilton who had the enterprise and pluck to conceive and carry out a *Five Days' Panorama of the World's Greatest and Most Unique Attractions*; they will want to see the men who could succeed in bringing together thousands of merchants from all over Canada, to meet in convention to discuss matters of the greatest import to the future well-being and progress of trade and commerce in the Dominion; therefore, pay particular attention to this:

Railway - Fares.

At every station West of Kingston you can get a Single Fare Ticket for Hamilton, during Carnival Week, 19th to 23rd August, good to return on the following day.

At every station West of Kingston you can get a Fare-and-a-Third Ticket at any time between the 17th and 23rd of August, good to return at any time up to the 26th of August.

The above means, at every Station on the Grand Trunk, the Canadian Pacific and the Michigan Central Railways.

At every Station in Canada, East of Port Arthur—if you are going to Hamilton during Carnival Week to attend the Merchants' Convention—you get a Single Fare Ticket to Hamilton, at the same time get the Ticket Agent to endorse the Certificate which you have—(and if you have not received one, write to C. R. Smith, at Hamilton, for one at once when you see this), this Certificate when again endorsed by the Secretary of the

Convention, will obtain you a Free Ticket back again to starting point.

This ticket you can get at any time within three days of the opening of the Convention, which will be the 19th of August, or at any time during the Convention, and are good until three days after the adjournment, which will be the 23rd.

NOW ONE WORD MORE ABOUT THE MERCHANTS' CONVENTION.

It will open its first session on Monday, the 19th of August, at noon ; and as the Certificate Plan of single fare ticket can be got three days before the opening, every merchant should make an effort to be there on the first day for the purpose of organizing the ruling and governing this most important congress.

Every effort has been made to carry out the general wish of merchants of the Dominion ; and the committee having all details in charge trust that the merchants themselves will rally during Carnival Week, and by their voice and presence make the convention of lasting benefit to trade and commerce generally in Canada. It is generally acknowledged that many, if not the majority, of the grievances that to-day exist in the mercantile world are due in no small degree to the want of organization and a proper consideration of them by merchants themselves. They recognize, or claim to do so, the evils that exist in different branches of

trade, but either merely look on or lend but half-hearted aid to the few who are endeavoring to mitigate these evils. The natural consequence is that reforms have been slow.

What is needed is associated effort ; and the merchants of Canada will have an excellent opportunity of doing so at the Merchants' Convention in Hamilton during Carnival Week, the 19th to 23rd of August. Very many of the subjects to be discussed have been treated upon in the columns of commercial newspapers from time to time, and while read with profit by individuals, seldom accomplish a general reform until the body politic interested are aroused to agitation. Then let there be a grand rally of Canada's mercantile intelligence in the Ambitious City of Hamilton during Carnival Week.

ANOTHER WORD ABOUT THE NORTH AMERICA ST. GEORGE'S UNION

which will assemble in the City of Hamilton during Carnival Week and hold their Annual Meeting. Last year it was held in Philadelphia, and previous years in Boston, New York, Chicago and other United States cities. At its last assembly, Mr. W. H. Gillard, of this city, was elected its President, and Hamilton selected as the place of its meeting for 1889.

Among the delegates who attend there are many distinguished Americans, who will take part in the deliberations of this important Benevolent Society, and to whom, to do honor to, will reflect credit upon the City of Hamilton.

Many delegates will also attend from the different Provinces of the Dominion, and will all receive a right royal welcome from all our citizens ; and coming as they are at

such a time, our Carnival will give them an opportunity of enjoying the round of pleasure it affords, and taking away with them good impressions of the push and enterprise of this favored spot of Canada. The first Session will take place on Tuesday, the 20th of August, in St. George's Hall, when the President's Address of Welcome will be delivered, after which an adjournment will take place until the following day. On Thursday a grand Banquet will be tendered to the visiting delegates.

BEFORE proceeding to give what may be termed the official programme of events (or time at which each event takes place), this little history would be incomplete if the VICTORIA RIFLE ASSOCIATION received not a word from one who knows its every member, and the value of the good work it has done in the past to turn out marksmen who have, on many an occasion, done honor to our city, both at home, in Canadian cities and at Wimbledon. This Association, which for many years has been under the watchful care of the Hon. J. M. Gibson, the Colonel of the 13th Battalion, himself the winner of the Prince of Wales' prize in England, has among its membership many of the best shots in Canada to-day, and hardly a year goes by that one or more of its representatives is not on the Canadian team. With their usual thoughtfulness, and knowing that among the vast gathering assembled here from every province must necessarily come many crack shots, they have fixed upon Monday, the 19th day of August (the first day of the Carnival), to hold their annual rifle matches, and offer valuable prizes to be competed for, open to all comers.

Now, if you think you can shoot well, bring your rifle with you when you come to Hamilton, and whether you succeed or not with it at the butts, you will get a hearty welcome from the boys of the Victoria, which you will not soon forget.

IT has not been our intention to deal with the ancient past by giving an account of the early settlers of Hamilton, or in portraying the many interesting anecdotes in connection with its trials and vicissitudes of years ago, but rather to deal with Hamilton as it is now, and its future prospects, has been the object of this Carnival Pamphlet—the carrying out of which requires our particular mention of the firms to-day who comprise the manufacturing and commercial industry of the city, which ranks in wealth and population the third in the Dominion, the second in Ontario. The members of these firms have been the men who have made Hamilton what it is, and who are her principle architects of fortune for her future.

And now to any one who has in any way been interested in this short outline of Hamilton's Summer Carnival, the writer can only beg of him or her to come and see it all. Our citizens have determined it shall be a great event, *and it will*. The 19th to 23rd of August, inclusive, are days when Hamilton will be proud of its title of being the "Ambitious City of Canada."

CARNIVAL WEEK,

19th to 23rd Aug., inclusive.

Programme of Events.

Monday, August 19th.

The XIII. Batt. Military Band

5th. No person allowed in the ring or track excepting Judges and Competitors engaged in competitions.

6th. Competitions will not necessarily come off in the above order.

7th. Decision of Referee McKinnon final.

8th. An entrance fee of 25c. for each game.

Wednesday Night.

Ye Olde Time Concerte ☉

will take place at the Crystal Palace, commencing at 8 o'clock p m. The Committee having this particular part of Carnival work in charge have made great efforts to delight the vast audience which will attend the Concert. The best Vocal and Instrumental talent has been retained, and all the choicest "old time" songs and musical selections will be rendered. This feature of Musical Entertainment has often been suggested by lovers of music, and the Committee have thought it well worthy of Carnival Week.

.....

THE 13TH BATT. BAND

will play at the Gore—thence to the Crystal Palace and Dundurn, where a grand Promenade Concert will be held, and a gorgeous display of Fireworks.

.....

The Army of Bicyclists will parade through the principal streets with Chinese Lanterns, Roman Candles and Torches—thence to Dundurn.

.....

GENERAL ILLUMINATION OF THE CITY.

Thursday, August 22nd.

The Merchants' Convention at the Court House
at 9.30 a. m.

.....

THE NORTH AMERICA ST. GEORGE'S UNION
at St. George's Hall at 9 o'clock.

.....

The Trades Procession

will start, moving sharp at 1 o'clock p. m. The route of procession will be along King street to Victoria avenue; Victoria avenue to Hunter street; Hunter street to John street; John street to Main street; Main street to McNab street; McNab street to King street; King street to Queen street; Queen street to York street; York street to Merrick street; Merrick street to McNab street; McNab street to Cannon street; Cannon street to James street; James street to Barton street; Barton street to John street; John street to Gore street; Gore street to James street; James street to King street.

The procession will include—in grand array—the productions of every Manufacturer of the City of Hamilton, and the whole Mercantile community of the city have united in one grand effort to make this the greatest display of the kind ever witnessed in Canada. The decorations carried in the procession will be of a gorgeous character; and the best Bands of Music along the line of march will add to the delight—as the whole scene will be instructive to the beholder.

Thursday Night.

*BANQUET, given to the Delegates to the North America
St. George's Union, at 8 o'clock.*
