IS SWEEPING GERMANY

is 19 Seats. BERLIN, Jan. 12 .- (Can. Press.)-An recedently heavy Socialist vote, which probbaly reached four millions, and heavy Socialist gains, proved, as was expected, the feature of the 1912 tions to the Reichstag, held thruout the empire yesterday. The election was marked also by a disastrous rout of the Radicals and far smaller inroads into the Clerical and Conserative majority of the last Reichstag than was anticipated.

Returns show that the Socialists re captured 21 seats from the nonialist parties and lost only two, a net gain of 19. They also have entered some 60 reballots, which would make it seem that they are almos ertain to regain the 81 seats held at e dissolution of the Reichstag in

906. and probably a few more. The radicals were utterly routed having lost up to 2 o'clock eight seats outright. They probably will return ot more than 30 of the 49 member On Intercolonial \$10,358,000 Was hey had at the dissolution. The Liberals lost five seats to the Expended-\$10,470,000 Frem

alists and one to the Conservatives, ut they occupy a very favorable pos ion in the reballots and are expected return to the chamber practically as strong as they were at the dissolu

#### Centrists May Lose.

to-day by Frank Cochrane, minister of The Centrists, with their allied Pole ve held their own well, a large prorailways, shows that during the last of their mandates being unfiscal year the total expenditure on assallable. Only one actual loss to them is reported, but the reballots may railways by the government was \$26.-tell another tale as the Liberals, rad- 301,979, of which \$24,760,029 was charged

tell another tale as the Liberals, rad-teals and socialists then will unite against them. The Conservatives thus far have lost seven seats to the social-ists, but have regained one from the Liberals, so the Conservative-Centrist bloc has contributed only half as many as the Liberals and radicals to the so-cialist winnings. <u>Gains in Cities.</u> In the big cities the socialists will have a majority, winning all their sedia except in Frankfort-on-Main.

Cars Often 20 Minutes Apart, Shown 'By Tabulations of Counters - Many Citizens Anxious to Give Evidence - The Company Pleads for Delay.

In a court room crowded with an noyed citizens the Ontario Railway and Municipal Board yesterday afternoon resumed the hearing of the application of Toronto to compel the street railway company to give a proper and efficient car service, a service not to be operated at a loss, but one which Prominent leader of Social-Demo-cratic party, which is gaining strength in Germany. will render the satisfaction which patrons may readily expect.

Of course the street railway company was not ready. H. S. Osler was in Chicago and R. J. Fleming and Traffic Superintendent McCullough were somewhere between the railway offices and the city hall, but just where no one knew. Britton Osler, who appeared for his brother, was very desirous that the case should not be gone on with until Messrs. Fleming and McCullough arrived.

"Very well, we can wait a few minutes," said Chairman Leitch. City Counsel Drayton was also willing to allow a few minutes. He supposed that the two gentlemen were waiting nnual report of the department of for a street car. Armed With Reports.

Major Currie, Defending Government From Accusation of Slaughtering Office-Holders, Paints Vivid Picture of Horrors of '96-History's Gory Pages Searched for Parallels

OTTAWA, Jan 12 .- (Special.)-"The great bloody assizes by the Liberals n '96" was the sounding phrase in which Major Currie (North Simcoe) described the ruthless slaughter of Conservative office-holders when the Laurier government took office in 1896. The doughty major insisted on reading a return to the senate, 35 pages in length, setting forth the names and alleged offences of the vicims of this "reign of terror." But this was only a partial list, he said. and added that the reading of the full roll of those who have fallen beneath the blade of the political guilotine would require at least two days.

The member for North Simcoe, howwer, was not responsible for the inoduction of a discussion of the spatis stem, which was brought up by the ion the moment the house went nto supply at 3.30 p.m., and conseuently allowed the passage of not a ingle item of the estimates until just before the house adjourned at 11.35 p.m. when four items aggregating \$2,965,000 for the department of customs were allowed to go thru, the emaining customs item of \$255,000 for a new revenue cruiser standing over to allow the discussion to be renewed. Historical Parallels.

Liberal orators on a former occa when the spolls system was under liscussion harked back to the time of the wicked Tory regime before '96, but Major Currie went them several bet-ter. Not only did he recall the days of the infamous Judge . Jeffries in the City Will Ask Dominion Railway for one of his illustrations to a date anteceding the Christian era. Board to Order C. P. R., G. T. R. "The lists that. Several witnesses names are followed by a subject in yet remain to be examined, and it is parenthesis. Such are required to take extremely doubtful if the case will be a supplemental examination in that

extremaly doubtful if the case will be completed to-morrow without a night sitting of the court.
Too-day's evidence was characterized by an almost infinite detail of enquiry and the crown's probe was, in numerous place, sunk deep into the personal and business affairs of the two accused young men. The evidence mostly related to Chilman, however, and was of a purely circumstantial mature. Nothing censational was brought to light to day.
Whence Did Money Come ?
The crown's case mas so thr been

PROFESSOR OF METALLURGY

Whence Did Money Come? The crown's case mas so the been almost restricted to the theory, ap-parently, that Chilman had deposited consucrably more money in his bank, besides what he had spent, than he had received from his business since the rothbery was committed, and that a large part of the money which he has passed has been of the same de-nomination as that stoien from the express company, namely, one, two apa ten-dockar bink. George A. Guess, late metallurgical superintendent of the Cerre de Pasco Mining Co. of Peru, South America, has been appointed professor of metallurgy of Toronto University. Mr. Guess has had a wide experience in assaring, etc., and is in every way admirably fitted for the position. This is a new professor-ship, and shows that the university is keeping pace with the rapidly growing needs of the mining industry.

chypress company, hallely, old, two and ten-to-star bids.
 The principal witness this morning, as well as this afternoon, was 0. S. Hillman, a certified accountant of this city, who, on behalf of the crown, made an examination of the books and accounts of both the accused, and by whom the crown attempted to show that Chilman had apparently deposities of the books and accounts of both the secured, and by whom the crown attempted to show that Chilman had apparently deposities of the books. Since June 19, 1911, and Dec. 5, 1911, nearly \$3000 more than he had taken in his business within the sound of control elections and he had taken in his business within the sound of control elections and he had taken in his business within the same period. In addition to this afternoon, which sum was added to the apparent discrepancy. Accounts Not Accurats.
 Mr. Spence will also be held then.
 Mr.

ton thish afternoon, the witness stated that Chilman's account books were that Chilman's account books here not properly kept, and said he would not consider them a reliable record of Chilman's business transactions. His statement of Chilman's business within the period mentioned was made up from the books that hed been furnish-ed him. He had seen no record of Chilman's wholesale sales, and did not enquire from what sources Chilman rdight have received money. He did not think all the items of the business had been entered on the books, and, in reply to Mr. Staunton's question, ad-mitted that, as the correct. Bought Soda Fountain.

CELEBRATION Arrangements have been completed

Wm. Lindsay, representing J. J. Mc-Laughlin, Toronto, testified to having sold Chilman in October, a \$2025 soda fountain, on which he received a pay-ment of \$225 in \$5 and \$10 bills, mostly the latter. He could not say by what tank the bills were issued.

lay Company, had made a \$1770 con-tract with Chilman in November for furnishing and decorating the latter's store, and had received a payment of \$270, all in \$10 bills, but could not re-member the bank by which they were issued.

Henry McArdle, a confectioner, from whom Chilman bought the Regai Candy Store, which has figured so prominently in the evidence, testified at some length in regard to the profits of the business before and since he sold it to Chilman.

Mr. Bell, who cross-examined for the defence, emphasized the matter of profits in his questioning, presumably with the intention of suggesting that Chilman from that source could have obtained the large sums of money which aroused the suspicions of the

Business Very Profitable.

McArdle swore that the business had always been a very profitable one, and the year before he sold it, he made be-tween \$2500 and \$3000 clear of all expenses. It was steadily increasing, and since he sold it he knew that Chilman had been forced by the growth of the business to double his manufacturing plant and increase his clerical force McArdle had no ice cream business such as Chilman conducted. Questioned again by Mr. Gamble, witness maintained that the profits he had mentioned were not gross. Put Money in Bank.

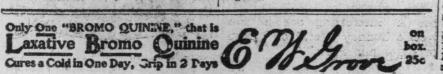

Stewart Turnbull, accountant in the Traders' Bank, where Chilman's ac-count was carried, told of two deposits made by the prisoner. A savings de-posit of \$500 on Nov. 25, consisted of 114 one dollar bills, 53 twos, 15 fives and a prominent part. 21 tens. A currant account deposit on Nov. 18 was made up of 101 ones. 1 two,

3 fives, 7 tens, 5 fifties, in all \$138. He thought this deposit contained a pack-age of 100 ones, which looked as if they had not been taken in the ordinary course of business.

W. C. Lannin, manager of the bank,

Nov. 25. when it was covered by the temperature went to 9 below zero. \$500 savings denosit, as collateral. A monthly comparison of Chilman's de-posits showed that in August, the It was fifteen degrees below zero month before the robbery of the ex- have all day and at Sharbot Lake, 25

PEOPLING WEST AT RAPID RATE

----Interior Department Shows Big In-

crease in Revenue-Immigrants

Take Up Farme

OTTAWA. Jan. 12.—(Special.)—The snnual report of the interior depart-ment for the last fiscal year, tabled in the house of commons to-day, calls attention to the fact that the total cash revenue from all sources collected by the department during the year reach-ed the large total of \$5,003,140. This is au increase of \$284 126 over the province an increase of \$384,126 over the previous twelve months. The revenue of the de-

partment is now fourteen times as large as it was in 1901-2 and ten times as large as it was ten years ago. A corresponding increase is noted in the number of homestead entries. Dur-ing the year there were 44,479 entries, representing a total acreage of 7,166.640, which is an increase of 3000 entries over the previous year, which had been the

largest in the history of the depart-Mrs. Edmund Bristol, Misses Morrison, Mr. Carr Harris, Mr. and Mrs. R. J. Christie, Mr. R. Jackson, Mr. Reginald Geary, Mr. and Mrs. G. P. Magann, Mr. and Mrs. Sydney Small, Mr. and Mrs. Cawthra Mulock, Mr. and Mrs. H. C. Osborne, Mr. and Mrs. Ewart Os-borne, Misses Brough, Miss Marjorie Brouse, Misses Boulton, Misses War-ren, Mr. J. Saunders, Mr. D. Macdon-ald, Dr. St. George Baldwin, Mr. H. ment. Those entries represent a total popu-lation of 107,834 settlers, and their fam-ilies. It is regarded as very satisfactory from the immigration standpoint that over one-third of the total immi-

gration last year can be accounted for as having engaged in agricultural pur-suits in the western provinces.

Forestry Convention. The thirteenth annual convention of the Canadian Forestry Association will be held in Outawa on Feb. 17 and 18 of this year, and it is expected that a large number of the prominent for-estry experts will be present. It is announced that the Hon. R. L. Borden, Sir Wilfrid Laurier, Gifford Pinchot of Washington. D.C., along with a number of other prominent men will address the meetings. A feature of the meeting will be a banquet to be held on the first evening, at which the Lumbermen's Association will take a prominent part. Breaks Record in M'chigan. GRAND RAPIDS, Mich., Jan. 12.-Northwestern Michigan is to-day ex-periencing the greatest cold in 20 y years. Neither of the opposing teams showed

Athletic Union registration committee, several athletes were reported for competing on cards that had expired. Jame Duffy and R. A. Murray were suspended till they furnish explanations of their competing for clubs other than those with which they are registered.
 The applications of Fred Young and Arthur Anadsiey for reinstatement were supped by a sheet of ice much larger for reinstatement were supped by a sheet of ice much larger than the surface they have been accurstioned to in Kingston, were able to get their teamwork going built seldons, althout and been disqualified for playing with the Young Toronto Lacrosse to state that fully atomed to anything it may have lacked in brilliancy.
 Club after that club had been disclated not any bination of this. Gordon swill be asked and again to explain his claim that he was not a sware of the Young Torontos' standing. John Rowe of Collingwood is required for against Tom Longboat several yoal atheltes are under investigation on account of asking for orders, instead of the regulation prizes prescribed by the union, and will appear at the next meeting of the committee.
 The Automobile Show.

scribed by the union, and will appear at the next meeting of the committee. The Automobile Show. The Toronto Motor-Cycle Club will have a prominent place at this year's automo-bie show in the armories, beginning Feb. 20. Last year's booth was the means of uniting to the club may members, and it is planned that the arrangements this year will be on a more eiaborate scale, and afford more comfort and better re-sults to the club. Practically all the lo-cal cycle dealers will have booths at the armories, and the entries will include sev-eral interesting noveities. ORIGIN OF TUMBLERS.

ORIGIN OF TUMBLERS.

from an extract from a gentleman's

diary, written in 1808, which also throws light upon the social customs of the times. The entry is as follows: "Had a few friends to dinner. Tried

my new tumbling glasses. Very suc-cessful; all got drunk early." These tumbling glasses, soon called "tumb-lers" for short, were made with a round or pointed bottom, so that they could not be set down when they con-

tained liquids, without falling over and spilling their contents. They were

has a winte min, but is sourish to the taste. The fruit is ball shaped, and has a diameter of from four to six inches. It is only in a dry season, however, that the pomelos yield no seed. In a rainy season they some-Originally a tumbler was far from

what it is to-day, and its true mean-ing has been lost in the many graceful forms in which it is to be seen. What a "tumbler" really is may be inferred times contain many seeds.

Sporting Editor World: In to-day's is-sue of your paper on page 5 there ap-peared in large headlines the words, "Alderman McBride refused to race Less Vale after sundown," at the Ottawa Val-ley Driving Club's meet yesterday, and in justice to my driver (Mr. Russ. Mc-Girr, the trotting mare, Less Vale, and myself. I wish you would publish the following contradiction, in order that it may place the information in its true light before the public. The first place I was not in Ottawa yesterday, nor have I been there during the loc race meet just finished. So far as the sunset rule is concerned. this rule (No. 13, section 1 of the Na-tional Trotting Association), states that no heat shall be started after sunset by the calendar, that is, local solar time. One of the competitors (not MoBride). I am told, in the 2.22 trotting stake, for reasons best known to hismelf, when the first heat of this race was over on Wed-nesday afternoon, went to the judges stand and objected to racing his mare after sundown, and the only thing the judges could do, scoording to the rules, was to postpone the race until Thursday. when two more heats could have been raced when it was bright and clear day light, on Wedneeday evening. To account of this objection being made, the association, being anxious to finish their race meeting on Thursday.

account of this objection being the association, being anxious to their race meeting on Thursday, raphed Mr. W. H. Gocher, secretary is National Trotting Association at ford, Conn., U.S.A., and I am told eliable authority that the reply re-id was to the affect: "Sunset rule rns, unless the association and com-ors consent to it being waived be-starting race," and this information arctice from the judges' stand

it can be plainly seen that the sunset rule was concerned is races the rule was not in

n Thursday's races the rule was not, in borce. Whoever sent you the information as to my being at Ottawa and objecting to racing my mare on an excuse such as you state, was misinformed and I would like to know, if you could find out for me, who was the means of sending this false information. As a horseman and the president of the Toronto Driving Club, I have never resorted to such tactics as to prevent the best horse in the race from winning the race on its merits, and I only wish to say that I am not in horse-racing for the money consideration, but from my fond-ness and true love for the horse, and I intend to stay in it as long as trotting races can be carried on successfully and honestly. he combination of Goodyear on-Skid Tread and No-Rim-Cut ires is ideal. Thousands of Can-dians will tell you No-Rim-Cuts ave cut their tire bills in two-First, because they cannot rim-cut—and you doubtless know that 25% of wrecked tires are due to rim-cutting. Second, because they are 10%

races can be carried on successfully and honestly. I consider that I am entitled to have this contradiction placed before the pub-lic in justice to myself, trainer and the trotting mare Lesa Vale, who, if the race had not been called off on account of darkness, would have shown that she could have won her race by winning three heats instead of having to be hand-ed first money on the summary of the race, especially as she trotted the last heat in 2.26, the fastest trotting heat at the meeting. er; centre, McKay; right win wing, McCeough. Referee, Dennis of Preston.

Alderman Sam McBride. P.S.-I also notice that the summar of the 2.22 trotting stake gives the tro ting mare Black Cat as being 1, 1, 2, when it should have read 11, 1, 2,

Note-The story and summary was sent from Ottawa by the Canadian Press and was given here in the general way.

Kuntz Brewery

THE SUNDAY WORLD

A few of the big features, pictorial and otherwise, in this week's Sunday World:

Magnificent views of the royal progress thru India; the King's procession thru Bombay; reception at Government House; reading the address of welcome

The Royal Durbar at Delhi; fine reproductions of the crowning of the Emperor and Empress.

Views of Calcutta, which has ceased to be the capital of India. A full page of views of the celebration by the Chinese of Toronto and Hamilton of the birth of the new republic in China, including

pictures of some of our most prominent Chinese citizens. A full page showing how Toronto people enjoyed the first touch

of real winter. An illuminating article on the depletion of the white fish in the

great lakes, illustrated by maps of the white fish areas.

The laxity of the administration of law in the United States is graphically portrayed in a story headed "Three Hundred Murders in Two Years in Chicago and Not a Single Hanging." The statistics shown almost answer the question, "Is capital punishment played out?"

"Cupid's Hoodoo Broken" is the title of the illustrated article on the front page of the Magazine Section. The other interesting items are George Ade's Fables in Slang and Howard L. Rann's Sidewalk Sketches

The readers this week are presented with one of Archie McKishnie's delightful little stories, entitled, "The Dogs of the Algonquin Rangers.

"Playing at Domesticity." written by Miss Margaret Bell, depicts a visit to the School of Practical Science,

said: "There were 53 members of the union present at the meeting and the motion to strike was carried by a majority of one. The strike will go into effect at

A HOUSEHOLDER'S VOTE. Presumably the board of control and the city's legal department are wrest-Hng with whatever civic legislation is to be brought before the local house at the approaching session. There is one question that might be taken up, which would interest a large number of the citizens, not only in Toronto, but in other places.

In the submission of several of the bylaws at the last election, the interest of the citizens was a general one. The exhibition of that interest at the polls was confined to property owners on the basis of a belief that they paid the taxes or assumed the responsibility of the expenditures to be made.

We believe that if this argument be a logical one, it is the strongest possible reason why the much abused proposal to levy of taxes on land values adopted at once. If the real should be property owners are to do all the voting, let them assume all the taxes.

The taxes are also paid by renters who are just as permanent in their residence as many of the property owners. Many of the renters pay far more than many of the propertyholders. But the man with a fifteen foot lot with no improvements upon it, has a vote, while the man who pays twenty times the taxes and contributes twenty times as much to the prosperity of the city, has none, because he is ed. Mr. Coulson's address, dealing only a renter.

There ought to be some discrimination in favor of the permanent renter, who may not be a leaseholder, but whose tax interests are evidently above those of the small freeholder.

A great deal of dissatisfaction was expressed at the action of the council in confining the vote to freeholders. hundreds of people who cannot go any There is a good deal to be said against other time, and the fresh air will do

THE BANK OF TORONTO. In the address delivered in his co pacity of president of the Bank of Toronto at its annual meeting, Mr. Duncan Coulson summarized the factors which have conduced to Canada's prosperity under these headings: Rapid growth in population; extension in suilroad building; expenditure on public works; increase in manufacturing; further development of mines and enlarge ment of the area of cultivated land.

Fortunately along all these lines there has been remarkable activity and advance. This has been rendered pos sible by the readiness with which British and foreign capital has been supplied for the promotion of new enterprises and the expansion of those al-

ready established. But Mr. Coulson rightly reminded his audience that the apparent prosperity so created does not always constitute a stable for for solid growth, nor is it safe to as me that money will always be avail

able to the extent it has been hereto fore. Enterprises of any kind must be productive if they are to be of real and permanent value, for only in this way can the credit of the country be maintained and at the point necessary to assure investors.

Among the agencies directly con cerned in safe commercial and indus-

trial extension, none yields in importance to banking institutions. From their nature, they are responsive to all business fluctuations, and have it in their power both to promote judicious development and to check any tendency to speculative experiment. It is there fore of supreme moment that they be

themselves administered wisely and prudently and with due regard to possible contingencies. Canada, undoubtedly, has been well served by her banking system and those responsible for their administration have shown an earnest and well-advised anxiety to forward the national interests. The Bank of Toronto is a typical example of a conservatively managed institution as indeed is manifest from the fact that the rest account now stands at \$5,608,which is an even million in excess of the amount of paid-up capital. As Mr. Coulson said, the object in building up this account is primarily to strength. en the bank and to insure that the interests, both of depositors and shareholders, shall be protected and preserv-

with other important general questions, will be found elsewhere in this issue.

# SPECIAL EXTRA MILD ALE

A paste diamond does not become a genuine diamond when it is placed in a velvet case. Cheap ale does not become O'Keefe's Special Extra Mild Ale when sold in bottles labelled like O'Keefe's.

They copy our bottles-they copy our labels-they copy our advertising-but they cannot copy O'Keefe's Special Extra Mild Ale.

THE TORONTO WORLD.

bylaws to the gen eral vote, but there is a good deal of reason in the complaint of the man who pays heavy taxes thru his rent and has never a word to say about the mat- in ters that concern him most. The list of voters on money bylaws might be enlarged with advantage to the city.

to a corner it weakly quibbles, as it did over its deliberate misrepresenta-

tion of our attitude towards Controller Ward. It was The Star itself which claim-

ed that Mr. Rowell's speech on Tuesday was the cause of a change in the policy of the government, which had been decided on long before.

The World, which was the first to protest against any change, might as well assert that Mr. Rowell had adopted The World's policy, and fought The World's fight, which would be much mearer the truth, as for The Star to imagine that Mr. Rowell's ineffective crisis, the solution of which is not yet after-thoughts had moved the Ontario in sight, was shown b ythe fact that Government.

If Mr. Rowell had jumped up on the France to discuss the best means for first opportunity and made an effective the formation of a government strong feeble part in trying to mislead the people about them. The people are not so blind.

THE SPEAKING VOICE.

The London company playing at the Princess this week will be a solace to Theophile Delcasse, minister of ma-those who still believe in the English rine in the late cabinet, was next asklanguage, and in its beauty, when pro-and there was considerable surprise toperly spoken. The exact reason for M. Deland we Canadians ourselves are not case's refusal is unknown. much better. M. Poincare, when the office was

There is no appreciable accent, or no duct the government. provincialism, in the speech of these actors. It is simply the English language, spoken by trained elocutionists, and thus retaining all of its original beauty.

In this connection, special mention must be made of Miss Toller. She possesses one of the most beautifulspeaking voices ever heard on a Toronto stage, and to close one's eyes and listen to the rendering of her lines affords the keenest pleasure. Canadians should pay more attention to their speech and their manner of speaking. We are equipped by nature to speak well. According to Dr. Vogt, no such voices can be found in the world as; he is able to get together in Toronto. What we need is training and a proper appreciation of the value of good clear speaking.

ed the creation of an American

army reserve.

**Cures From All Over Canada** Weak People in Every County and Town Throughout the Broad Dominion Restored to Robust Strength by the Use of Dr. McLaughlin's Electric Belt.

#### READ THE EXPRESSIONS OF GRATITUDE.

J. C. Jamison, of Elmsdale, Que., says: -- "I have not had a touch of Rheumatism after one week's use of your Belt. I

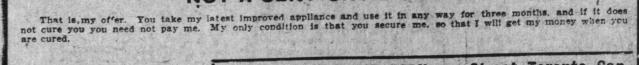

God's creatures -MAN.

J. Sweeney, care of Seamen's Inst., St; John, N.B., has this to say:-"The pains in my back have gone, and the Varicocele has disappeared, and it has done me much good otherwise. I will always recommend it."
Jas. S. Bryson, Maple Creek, Assa., expresses his gratitude by saying:-"Your Belt has done me a world of good. I would not be without it if it cost me double the price which you ask."
W. H. Eaton, 512 Cordova Street east, Vancouver, B.C., is thankful because after four days' use of his Belt he was cured of a very severe case of Rheumatism, and has not had a pain since. years, and recommends it to all weter a month's use of the Belt he is better and healthier than he has been for Richard Brill Revelstoke, B.C., says afak, men.

Richard Brill, Revelstoke, B.C., says afak. men.

Nervous, Weakness, Pains in the Back and Limbs, Rheumatism, Kidney and Stomach Troubles, Varicocele, Loss of Strength and all the effects of wasted force in Men and Women. MY BELT CURES. TO STAY CURED.

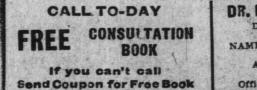

#### NOT A CENT UNTIL CURED

Dear Sir,-Please forward me one of your Books, as advertised. 

#### ADDRESS ..... Office Hours-9 a.m. to 6 p.m. Wed. and Sat. until \$.30 p.m. Write plainly, 12-14-11

DR. M & MolAUCHLIN, 237 Yonge Street, Toronto, Can-

on the house committee on mili-tary affairs to-day when Major-General William H. Carter, as-sistant chief of staff of the army, made the assertion, Gen. Carter expressed the be-lief of the army general staff officers that the U. S. must greatly enlarge its military force, or dispose of some of its insular possessions. The strengthening of fortifi-cations and the enlargement of The strengthening of fortifi-cations and the enlargement of the standing army in Hawaii and the Philippines must be continued to a point where an enlargement of the army will be necessary, he said. Under the reserve system of Japan, the former soldiers come into ser-vice at once if needed. He urg-ed the creation of an American

MINERS MAY NOT STRIKE. LONDON, Jan. 12.--(Can. Fress.)--There was no change in the labor sit-uation to-night. The result of a bal-lot of the miners is not yet available

am completely cured." D. Jennison. Steelton, Ont., writes:-"I have been cured of weakness and varico cele and feel like a different man; would

D. Jennison, Steelton, Ont., writes:--"I have been cured of weakness and varico cele and feel like a different man; would not be without your belt for any money."
C. H. McKague, Roland, Man., has this to say:--"After ten days' use of your Belt the losses have stopped, my stomach is digesting its food, and the constipation is a thing of the past. You have my sincere thanks." Men with small, flabby muscles, thin-chested, dull eyes, short of breath, without endurance, courage, ambition, Men with small, flabby muscles, thin-chested, dull eyes, short of breath, without endurance, courage, ambition, is and or grit in their make-up, are WEAK MEN. If they were not born weak, I can make physical giants of them.
I am not performing miracles. I have only discovered that what makes all this strength, this steam, this FORCE in a man is his Animal Electricity. That is what makes muscles and heart strong. When I find a man who has lost that power and feels only half a man. I want to give it back to him, and I can do it, for I have done it for thousands. There are fine in every town in this country now who thank me for making them feel more like the greatest of God's creatures -MAN.

HERE IS MORE PROOF OF MY CLAIMS.

J. Largess, Box 53, Vanklesk Hill, Ont., reports:—"The lameness in my back is all gone, the varicocele is better, and I am getting better health generally, and have gained a good deal in weight."
Jas. Hatt, Beach Hill, N.S., says:—"The pains in my back and chest are all gone, and I have gained fifteen pounds in weight. It is a pleasure to say that I have at last found a remedy that will cure me of my aches and pains." Belonic Gaudet. Miscouchie, P.E.I., writes:—"I am delighted with the success of your Belt. In forty days' use I have only had three losses. My health is greatly improved, and I feel retreshed after a night's rest." Where there is any physical constitution to work on, my treatment will develop perfect manhood. It will take the slightest spark of manly vigor and fan it into a flame which will encompass the whole structure and charge every nerve and muscle in the body with the vigor of youth.

### STRONG WORDS OF PRAIJE

Mrs. (Rev.) W. H. Clarke, Mrs. (Hev.) W. H. Catrier, Stirling, Ont., writes: "I wish to give this unsolicited testi-monial to the great value of Eaby's Own Tablets. Our little Baby's Own Tablets. Our intite girl, born last February, was at first very constipated. When other reinedies failed we tried the Tablets and in a week she was completely cured. By the use of the Tablets she has been hent well and henny war since kept well and happy ever since., It is strong praise like this that has made Baby's Own Tablets so popular. Thousands of other so popular. Thousands of other mothers have said: "Once we gave the Tablets a trial we had nothing but praise for them." The Tablets are sold by medi-cine dealers or by mail at S cents a box from The Dr. Wil-liams Medicine Co., Brockville, Ont. Ont.

BEST YEAR YET FOR

falue of Output Close to Thirty Millions-Ontarie's Production Shows Falling Off.

OTTAWA, Jan. 12.-(Special.)-The opert of the department of marine and sheries for the year 1911 was hald on he table of the house by Hon. J. D. lazen and contains much valuable normation as to Canada's fishing in-

The report of the deputy minister ates that Canada possesses the most tensive fisheries in the world, and or the waters in and about Canada extensive fisheries in the world, and that the waters in and about Cauada contain the principal food fish in great-er abundance than the waters of any other part of the world. Moreover, nearly all the important Canada's ter-ritorial waters. The Atlantic coast line, declares the report, is 5000 miles ex-clusive of Newfoundland and the Bri-tish Columbia coast line is 7000 miles. Canada has 220,000 square miles of fresh water fisheries.

es. \$3,842,837.

water fisheries. Value Nearly \$30,000,000, The total market value of all kinds of fish and fish products taken by Can-adlan fisheries, during the fiscal year ended March 31, 1911, amounted to 329,965,433. This total is the highest yet reached in any one year in the his-tory of the fisheries of Canada, being \$336,263.32, greater than that of the preceding year which was a record year which was a record e total, the sea fisherles con-26,122,596 and the inland fish-

deal proportions wood, water and rass, with shelter in winter from torms—a fact of history. With the hundance of wild fruits and the com-non birds of North America who make helr habitation there, it is very evi-ent that it is a food country to grow rops and raise live stock. These facts ave attracted the attention of those obling for home from avery country

of the gl is a truth that this part of the tains the last great area ead land in North Amer-

Prairie or lower Peace River districts, but it is all open for homesteading. Grande Prairie comprises about 3<sup>5</sup>/<sub>3</sub> million acres of agricultural land of generally undulating surface dotted with many beautiful lakes, creeks and rivers. It has a natural drainage and belongs to the Great Peace River basin. There is enough timber to give the country the appearance of the older settled parts and relieve the monotony of the bare prairies. The soil is a black loam of silt formation with a choco-late clay subsoil deepening to a true yellow clay-no alkali. During the seasons of 1810 and 1911, Jas. H. Pettit, professor of soil fertility, University of

seasons of 1910 and 1911, Jas. H. Pettit, professor of soll fertility, University of Illinois, made a careful test of the soils of Grande Prairie and pronounced them of excellent quality, containing the ne-cessary elements for growing all kinds of grain, and fully demonstrated that it was equal to any Illinois soll. But the real proof is what are the settlers raising? In conversation with a great number of those who have been there and who live there, one is con-vinced that there is no question about the ability of the country to support an immense population, for the same crops can be raised that are grown m any other part of Western Canada. Climate and weather are common pro-perty, in the north temperature zone. The climate during the growing season is very similar, and everyone knows

urbuted \$26,122,596 and the inland hsh-eries, \$3,842,837. In obtaining these results, there were employed 1680 vessels and tugs and \$3,977 boats, the whole being manned by 68,610 men, while 24,978 persons were employed in the various canneries and fish houses, on shore, in the prepara-tion of the fish for market. From this it will be seen that almost a 'hundred thousand people were directly employ-ed in this industry. How Provinces Compare. The value of the fish produced by provinces last year and its comparison with the year before, are as follows: Nova Scotla, \$10,110,000, an increase of \$20,000; British Columbia, \$3,160,000, decrease, \$1,150,000; New Brunswick, \$1,100,00, decrease, \$500,000; Quebec, \$1.-150,000, decrease, \$100,000; Quebec, \$1.-150,000, decrease, \$100,000; P. E. I., \$1.-150,000, decrease, \$43,000; Saskatchewan, \$172,000, same as last year; Yukon, \$11,-000, increase \$5000; Alberta, \$82,000, same as läst year. This shows a total for the Dominion within a few-hundred of \$30,000,000 for

manhood, is, in a sense:

settlement.

over one half shorter than any other route, about 250 miles from the rail-way to Prairie City. From Edson the Grand Trunk Pacific have a line to the Brazeau coal fields on the south, for these. and during the summer of 1911, made surveys from here to Grande Prairie

and Peace River country, and it is evi-dent a line will shortly be built from street. here by that company. As to the country in general, Hon. Frank Oliver, late minister of the interior, made a personal inspection of the entire Peace River Valley to know if it was advis-able to open that section to settlers. On returning after a two months' trip,

he said: "There is a country, whatever may be said as to the possibilities of other

sections, there is no question concern-ing the Peace River district. There are ing the Peace River district. There are prairies as fine as any in North Ameri-ca, and the district is rich enough in itself to build and support large cities in a few years. The settlers who are there are all satisfied with the country. In talking with those men and women the one expression is that it is a bet-ter than they expected to find."

James Morton of Vancouver atter traveling two months thru the Grande

Prairie and Peace River districts said: "I believe it will become the leading agricultural country of Western Can-ada on account or having so many natural resources right at hand." He talked with nearly all the settlers and found them more contented than any class of newcomers he had ever been performed by the settlers and the settlers and found them more content to know that

among. It is important to know that the very best class of people are going in there to settle, those with means and experience. This is the one thing that impresses everyone who first comes to Grande Prairie-the splendid class of citizens. Social conditions are progressive. Wherever needed there

are churches and schools. The head land office for that district is at Prairie City. The Canadian Bank of Commerce is at Beaver Lodge.

#### CANADA'S FOREIGN AGENTS. Life has lost its zest, the gold of

enjoyment is absent, it is not worth the price of the pain it cost to live. Dr. Roche, secretary of state, to-day Every weak man knows this is true. laid on the table of the house a report enjoyment is absent, it is not worth Every weak man knows this is true. of the state department for the fiscal year ending March 31 last. The report Thousands of men in all walks of life restored to full manhood. Do not gives a list of the foreign consular and commercial agents and consuls in Canada showing that there are about 35 of

these. Thirty-five countries are thus repre-sented in Ganada, the United States having alone 100 agents. The report contains a list of the passports issued by Canada in the year and also the regulations governing these. The offi-

cers and clerks of the department of external affairs number 9 in all. The passing of Calcutta as In-

dia's capital is pictured in this Phone M: 1930 week's Sunday World.

port for 1912. Most of the notices of motion were referred back for reports from the different city officials under whose departments they came. Motions with regard to the proposed public lavatories at the corners of College-street and Spadina-avenue and Bathurst-street and Bloor-street were dealt with and it was decided to ask the street commissioner to include in the street commissioner to include in this estimates a sufficient sum to pay

The committee approved of the idea to extend Teraulay-street thru to Bloor-

The employes' iability insurance question brought up in the city en-gineer's report was considered, and the committee approved of Mr. Rust's re-commendation that this be discon-

tinued. The Consumers' Gas Company's ap-plication to place 14 ornamental iron pusts on Teronto-street, opposite their office, was, after some discussion, ap-proved of by the committee.

Cures Old Folks' Coughs Doesn't Disturb the Stomach, Eases

at Once and Cures Thoroughly. "CATARRHOZONE" A BOON TO MANY THOUSANDS.

Because you are old is no reason for infering with everlasting ooughing-tow terrible chest troubles and diffi-tow breathing can be shoroughly cured with Catarrhosone. You simply breath and the store of Catarrhosone, and instantly its rich balsamic fumes, are arried by your breath, into the thiese toxonchial tubes and lungs. Just think of it—s' direct breathable field in the store of the store of the field in the store of the store of the ingested membrane in two scoutes, biologis to take - nothing to harm of take - nothing to harm of biologis to take - not

"For many years," writes Richard Mo-Callum, Stirling, Ont, "I have authered from Catarrh, and continually hawked and coughed, so that my throat was al-ways in an inflamed, irritable condi-tion.

tion. "Doctors' medicine did not belp me in the least, and all other remedies I used were quite useless. In one case it was time wasted in satifling powder ty the nose; in another using a. greasy ointment, and so on. Not one of them was the least bit of good.

"I heard Catarrhosome favorably spoken of, and tried it. Really it hene-fited me more in a few hours than years of treatment with doctors' and other so-called remedies.

other so-called remedies. "Receiving such immense benefit, I continued using Catarrhozone, and is a few weeks I was completely cured of Catarrh and throat trouble." Get Catarrhozone to-day. Large size costs \$1.00, and lasts two months. Smaller sizes 25c and 50c. All dealers, or The Catarrhozone Company, Buffalo, N.Y., and Kingston, Om

COLD IN PORCUPINE

But Conditions Are Not So Bad and Mines Are Being Worked. Life in the Porcupine district during the cold snap is not at all such a hardship as might be expected, ac-cording to Dr. W. B. Hambly, who has just come down from the north on a visit and is staying at the Walker House. He says the traine on the T

House. He says the trains on the T.

& N. O. Railway are late, just as every & N. O. Railway are late, just as every ordinary train is late at the present time. Dr. Hambly says there is not any more snow in the Porcupine dis-trict than around North Bay. The temperature during the past few days has been about 25 below zero all thru Northern Ontario. Last Saturday was the worst, when it fell to 52 below. However, the dry air prevents the cold from being so penetrating as it is near the great lakes. The mines are all working full swing, just as if the weather conditions were normal.

Mining Statistics. Messrs. Heron & Co., 16 King-street west, Toronto, members of the Toronto Stock Exchange, have issued their 5th annual quotation and sales record of mining shares listed on the exchanges and curb markets of Toronto. The summary should prove a reliable and valuable reference to everyone inter-ested in Porcupine or Cobakt stocks. Copies may be had by writing to Héron & Co. out 23 bars of metallics from the rich car sent to Marmora some time ago, valued at \$13,459.96. The shipment con-tained 24,924 ounces. O'Brien's 18 bars contained 17,292.9 fine ounces and were valued at \$9166.32. Nip's consignment was slightly below the usual shipment. consisting of 16 bars, valued at \$9151.01 and containing 16.638.2 fine ounces. The total of Tuesday's buildon shipments were 53,855.1 ounces, valued at \$31,777.29.

NEW YORK, Jan. 13 .- (Special)-The funeral of the late Ten-Porcupine and Cobalt Stocks nyson Dickens, which took place from Trinity Church, New York, is shown in the A-+ Caction of this week's Sunday World.

**Red Willow Goal Compan** 

Capital, \$1,000,000, divided into 400,000 shares 7 per cent. Preferred Stock, and 600,000 shares of Common Stock, Par Value \$1.00 each, fully paid and non-assessable.

#### DIRECTORS

- William D. Wilson, Toronto, President (Vice-President and Managing Director Wilson, Lytle, Badgerow Company, Limited).
- M. Walton, Banker, Aurora, Ont., Vice-President.
- J. A. Morden, Toronto, Secretary-Treasurer (Director Twin City Coal Company, Limited, Edmonton).

3.4.5

- John J. Beck, Superintendent Union Station, Toronto.
- M. H. Aikin, M.D., Burnhamthorpe, Ont.
- G. A. Bull, Real Estate, Winnipeg, Man.
- G. D. Lockhart, M.D., King, Ont.
- Edward Field, Toronto,
- J. Dinwoody, Real Estate Broker, Toronto.

The Company is engaged in a great commercial enterprise to meet the growing demands of the ever increasing West. As you are doubtless aware, the coal companies operating at present in the West are building up a great and growing industry, and should the Red Willow Coal Company, Limited, devote its attention to the production of coal alone, it should he in a position to pay handsome dividends on the common stock, after taking care of the preferred. The report of the Company's coal property by Mr. Norman Fraser, a well-known coal expert and engineer, speaks for itself.

We would also draw your attention to the other sources from which the Company will derive its revenue, viz., the manufacturing of brick, the farm, and the valuable townsite, all of which are great and growing enterprises, and will be developed to their utmost capacity. The Townsite, owned by the Company, is well and centrally located on the Canadian Northern Railway, and is destined to become a great industrial centre. Over \$25,000 worth of town lots have already been disposed of. - 12

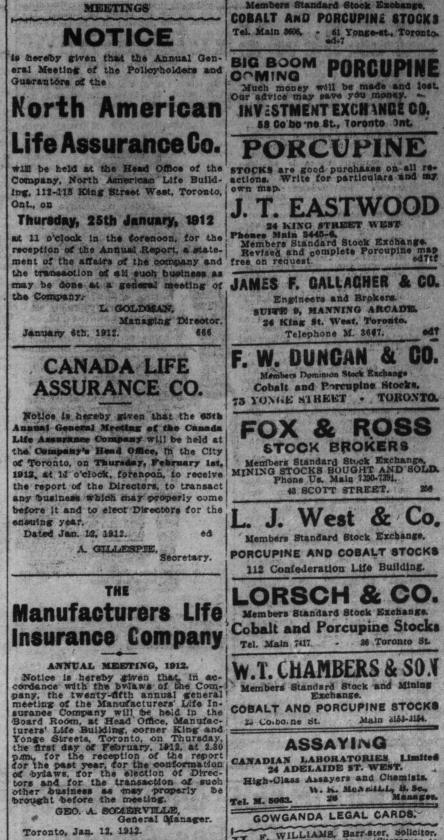

The Directors of the Company are all practical and successful business men, and the entire financial plan has been laid out, with an honest and sincere desire of adequately safeguarding the interest of each and every shareholder, and the business of the Company is being conducted upon sound legitimate business principles.

A limited number of 7 per cent. Preferred Shares (Par Value \$1.00) are being offered for public subscription at par. These 7 per cent. Preferred Shares carry a bonus of 50 per cent. Common Shares for a short while only.

This is without a doubt the most attractive investment on the market, and cannot fail to be a big money-maker. Should you desire to participate in this limited allotment, we would suggest that you lose no time in sending in your application, before this issue is absorbed. You may wire us for a reservation of these shares at our expense. Any further information that you may desire will be cheerfully turnished.

#### **JANUARY 13 1912**

15

From an article recently on Bank Act Revision the artract is taken:

"Assumption by the Bankers' As-cistion of the duty of inspection or amination would place upon the sociated Banks a certain amount of This is not confined to any one part of the country, but the prices of pro-berties in and adjacent to Eastern and gs: Western cities and towns are being ad-what is prudent. Ind There was a basis for a reasonable a towns will have a steady growth, but it he upward movement, in our estimate, is being overdone, and we cannot let the oportunity pass without uttering a word of caution and calling the at tention of all who are interested to the danger that exists. Dr. but it will:

danger that exists. Bank Premises. On looking at the statement which has just been read you will notice that the amount of this account is \$1,-264,662.75, an increase of \$366,662.75, with the continued growth of the Bank this account must necessarily increase. During the past year seventeen new the continued growth of the Bank this socount must necessarily increase. During the past year seventeen new branches have been added to our list and we have been added to our list addition to the expenditure incurred in brancetion with these new offices, we have found it necessary to sreect build-have parmanent quarters. We have also in some exceptional cases found it necessary to purchase properties in order to provide residences for our managers at places where suitable ac-commodation could not otherwise be obtained.

inder that it would be the interests of the S this bank to have a placed upon the Bank, as the canadian Bankers' as and do not appear in our bal-s sheet; consequently we hold the furnishings and safes and every-t of that nature at a safe and every-

The silent "Full View Ahead" electric touring car is here! Just come to us from its makers, the Waverley Com-pany, at Indianapolis. This company has had sixteen sea-sons of electric carriage building! Think what that means —and the 1912 Silent Waverley Electric Car is the product of the experience gained in those sixteen years. As a town car, the Waverley Electric is unexcelled. See its advantages.

EATON'S

It seats five grown-ups comfortably.

It gives the driver absolute command of the road.

- It may be driven by a chauffeur or a member of the family with equal ease and propriety.
- It costs less to maintain than any gasoline car.

It is characterized by beauty of design, elegance of ap-pointment, and thoroughness of workmanship. The Silent Waverley Electric Limousine embodies the most important innovation in motor carriage construction of recent years, viz., an Inside-Driven Closed Car, with the Driver Occupy-ing the Front Seat. This is what is meant by the phrase "Full View Ahead." After that, perhaps the most striking feature of the design is its low centre of gravity, which gives both the reality and the appearance of great stability to the Limousine.

Call and see the Waverley Electric at the Showrooms, Albert Street, or write for literature.

# Improved Argentine Outlook **Gives Easier Tone to Wheat Prices**

### Crop Developments Faver Bear Side and Prices Sag to a Shade Lower-Corn and Oats at Lecline.

ited from improved entipe, making the the late harvesting Closing prices were

weather in the Argentine, making the out ook better for the late harvesting in that country. Closing prices were l-se to 1-4c lower than last night. Final trades left corn 1-4c to 3-8c down, oats unchanged to 5-8c off and hog products a shade to 10c down. Doubtless the more favorable condi-tions for harvesting wheat in the Ar-gentine would have had a greater ef-fact on the market, but for the fact that owing to the railroad strike, coun-try shipments from there have dwin-dled to almost nothing. Better crop prospects were reported from India and Russia. Liberal mow protection over most of the winter wheat belt in the United States afforded some additional comfort to speculators on the bear side. World Shipments Light. At the ensuing deeline, support de-veloped owing to the lightness of world shipments and because receipts north-rest were under the record of a year ago. Considering the cold and storms the supplies arriving at terminal points, however, seemed to many dealers to be larger than could reasonably have been expected. The outcome nevertheless was a steady one at the finish. Between the opening and the wind up May ranged from 99 3-4c to 100 1-8c, with isst sales 1-4c net lower at 99 7-8c. Break in Corn. Corn features were strong until a leading concern sold about 1,500,000 bushels for May dellvery, and caused a break in prices all around. Belief that the crest of the cold wave would he reached to-night and that a rush of receipts would soon follow was ap-parently back of the big sales. May fluctuated from 64 5-8c to 65 1-4c to 55 3-8c, closing steady 1-4c to 3-8c net lower at 64 3-4c to 64 7-8c. Cash grades were quiet. The oats market showed a tendency to din private wire houses having

were quiet. The cats market showed a tendency to dip, private wire houses having plenity for sale on all the hard spots. Bearish action in corn counted likewise against the bulls. May varied between 49c and 49 1-2c to 49 5-3c, with the close 49 1-3c to 49 1-4c, a decline of 1-4c to 3-8c from last night. Despite spasmodic activity in pro-visions, long intervals of slack demand had a depressing Sect. Stock yard traders and the smaller western pack-ers exhibited considerable desire to un-load. When the pit was cleared, pork had fallen 2 1-2c to 10c and the rest of the list was off from a shade to a nickel.

Mr. Duncan Coulson, the President of the Bank of Toronto, at the Annual meeting of the Bank on Wednesday last, after the reading of the report, addressed the meeting as follows: Gentlemen,—It is not my intention to add very much to the Report which have inst been read, but there are a few matters to which I would like to di-rect your attention. The favorable conditions which have characterized business in Canada throughout the pest year are suffi-tiently well known to you to render un-necessary any lengthy analysis of the many factors which have conduced to the country's prosperity. The favorable pest year are suffi-tiently well known to you to render un-necessary any lengthy analysis of the the country's prosperity.

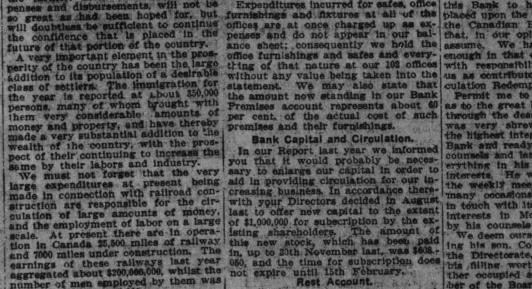

**THE BANK OF TORONTO** 

ADDRESS OF THE PRESIDENT AT THE ANNUAL GENERAL MEETING

ny factors which have confineed to country's prosperity. hese factors may be largely sum-rized under the following headings: pid Growth in Population, Extension Railroad Building, Expenditure on bic Works (both municipal and vernment). Increase in Manufactur-, Further Development of Mines, 1 Enlargement of the Area of Land whet Hudes Cultivation.

Brought Under Cultivation. The country is still so largely de-pendent upon good harvests and fair prices for its agricultural products that these continue to be the most im-portant and fundamental points in the situation. In respect to these the re-sults of the year have not been as pro-titable as had at one time been looked for.

become so diversified that uning has become so diversified that un-favorable results in one direction are counter-balanced by those more favor-able in other directions and greater stability is thus given to this industry. With the growth of more improved me-thods of farming there is every pros-pect that good returns will continue to be received by our agriculturists. In the three Western Provinces the istest authoritative estimates indicate

<text>

The annual report of the Traders' Bank of Canada, which was published in The World earlier in the week, bears out the optimistic predictions which were made last spring as to the prob-able status of the business of the in-stitution during the year 1911. The re-port was indicative of remarkable pro-gress in every department, and taken in conjunction with the financial state-ments of the other chartered banks which have reported on last year's business, is an irrefutable evidence of the expansion of the banks of Canada since a year ago.

### vestment Demand-Some Firm-

the expansion of the banks of Canada since a year ago. As the result of the year's business the bank has been able to further strengthen its position from earnings after making the usual distribution of profits to its proprietors. It doubled the amount transferred to rest account over the previous year—\$200,000 being apportioned for this purpose and the rest account is now \$2,500,000, as com-pared with a capital of \$4,354,500. The net profits, after making the usual pro-The earnings of 12.04 per cent in 1910, 10.50 per cent in 1909, and 11.50 per cent, in 1905. The bank closed the year particularly strong in its available assets and showed very large increases in deposits and in its discounts.

Lightest Trading of the Week. With Weaker Tendency Shown—Power Down Again. Winnipeg Inspection. Winnipeg receipts of wheat to-day stated as folliws: No. 2 northern, 15 cars: No. 3 northern, 31: No. 4 northern, 15 cars: No. 3 northern, 14: No. 6 northern, 14: 10 state, 10; rejected, 11; no state, 10; win-tar wheat, 5; oats, 57; barley, 8, and flax 6.

offer a pre-stock-taking clearance price that is com-

pelling. The original selling prices of these garments do not figure in the special price making, for many of them are gowns made to sell for three and four times the amount named for Monday's price. Any woman with the ability to adopt these cos-

tumes to her own style can get exquisite effects from them at a minimum of expense, for the materials are of the best, and the styles include most desirable designs and cuts.

#### FOR AFTERNOON, EVENING OR STREET WEAR.

There are silk marquisette, messaline satin, crepe de chine, satin or cloth gowns and dresses, made with Dutch or low neck, or high collars, with yokes, long three - quarter or shoulder sleeves. Some have nigh waist-line effects, and are trimmed with lace, jet, silk brail or insertions. Shades are pink, pale blue, mauve, tan, champagne, ivory, cream, black and stripes, both dark and light. Regularly \$32.00 to \$69.00. Monday ..... 19.95
