DREAMS OF THE BOAT OWNING COAXED TO GO SAILING YESTERDAY GOSLINE WITH ANOTHER

Arch. Gosline and Robert Lambert meet death in the lake—
—Third Man is Saved After
Clinging Two Hours to Up-
turned Boat—Gosline, Soon to
Be Married, Was Warned of
His Fate.

Robert Lambert, married, drowned, Archibald Gosline, single, drowned, Joseph Henry Ross, saved.

Telling his landlady that he had a weird dream Saturday night that he would be drowned, Archie Gosline, an employee of the Canada Foundry Co., and Robert Lambert of 107 Armstrong-avenue went to a watery grave in the lake off Mimico yesterday afternoon about 2 o'clock. The two men, in company with Joseph Henry Ross of the Canada Cycle & Motor Co., were upset from a sail boat, Ross was rescued after clinging to the boat for over two hours by F. S. Campion, cigar traveler, of 1006 Dundas-street; John Harvey of Gladstone-avenue; Arthur Turp of 421 Symington-avenue; and Charles Turp, horticulturist, corner Dundas and Bloor-streets, owner of the motor boat Peggy, in which the four men were. Ross formerly lived at Chatham, N.E.

Reckless Boat to Mimico
The three men about 9 o'clock in the morning hired the sail boat from Devins at Sunnyside and sailed about five miles out. When they were "lacking", Gosline was standing up in the boat. The sail swung round, struck him and knocked him overboard. He fell against the side of the boat, which turned over. Ross determined to try and swim ashore. He managed to get his coat and vest off, in which were his watch and chain, and went a short distance, but found that his boot were too heavy, and so he returned to the boat.

Go Under
He suddenly slipped down between the boat and the canvas and disappeared.

Gosline managed to hold on for half an hour longer, but his boot were too heavy, and so he returned to the boat. He went down, but in a second came up again and called to Ross to give him his hands.

Nearly Done For
When taken into the motor boat Ross was completely exhausted, but a little liquor, which the men happened to have with them revived him, when he was able to rectify the sad story. He fainted, however, at Sunnyside, and had to be taken in a cab to his boarding place at 48 Union-avenue, Toronto Junction.

Came in a Dream
A peculiar circumstance connected with the incident was the fact that Gosline dreamed about the accident the night before. When leaving the house he had the landlady "good-bye." She replied, "You shouldn't say good-bye. It's just good morning." "No," said Gosline. "I tell you it's 'good-bye.' Gosline did not want to go sailing at first after having the dream, but on afterthought laughed the fellow off and said he would go. "It had to be," said Ross in relating the story.

Lambert was a married man with seven children and worked at the Canada Foundry, and he and Gosline lived in the same house. Gosline was to be married in a week.

DUMA'S CRY IS AMNESTY NOTHING ELSE SATISFIES

In Reply to Speech From Throne,
Czar Will Be Asked for
Declaration.

St. Petersburg, May 13.—After a nine hours session the Duma Saturday adopted by acclamation a resolution offered by M. Rodachoff to appoint a commission to prepare the reply to the speech from the throne, in which the czar will be asked to grant full amnesty to political exiles and political prisoners and to suspend political execution.

Several of the peasant members made menacing speeches. M. Alladin, their leader, declared that unless amnesty was granted forthwith, the people would forcibly throw open the prison doors.

The session was marked by an overwhelming democratic determination to amend a constitution. The session dismissed all doubts as to the attitude of the Russian people toward the government and the czar. The voice of Russia is against not the bureaucracy alone, but against autocracy as well.

THANKSGIVING SERVICE FOR PRINCE'S RETURN

London, May 13.—Following the precedent established by his father when he returned from India 80 years ago, the Prince of Wales to-day publicly gave thanks for his safe journey to the Indian empire at a service held in Westminster Abbey.

The service was attended by King Edward and all the members of the royal family now here, a contingent of officers, who accompanied the prince on the trip, a distinguished company from the households of the King, and the Prince of Wales, and a large assemblage of the general public.

Bishop Potter of New York sat next the Archbishop of Canterbury.

"EMPRESS" HAS ARRIVED ROUGH SEAS DIDN'T WORRY

Passengers Well Pleased—Preston and Jury Leave at Once for Ottawa.

Quebec, May 13.—(Special.)—The new C. F. R. steamer, the Empress of Britain, arrived at 10.30 Saturday night, with 143 passengers on board, mainly English emigrants bound for the west.

Among the saloon passengers are Mr. and Mrs. John Aird of Toronto; Alex. Grace, the designer of the Empress; Thomas E. Kenny, president of the Royal Bank; E. S. Clouston, Senator Melvin-Jones, Hon. L. J. Forget, W. T. Smith, Lord Stratford's private secretary.

Another passenger in the first cabin was A. P. Jury, the immigration agent at Liverpool who stated that President had a "gold mine."

FATHER GAPON FOUND DEAD
HANGING IN LONELY VILLA

Evidence Goes to Show That He Was Killed and Then Taken to House in Readiness.

St. Petersburg, May 13.—The mystery of the fate of Father Gapon apparently was cleared up to-day by the discovery of a corpse, which has almost positively been identified as that of the former priest, hanging in the upper chamber of a lonely villa in the summer suburb of Ozerki, Finland.

The villa was rented April 8 for the summer and a deposit paid by an unknown man from St. Petersburg, who after visiting the house several times in company with a young man, disappeared April 11, taking the key with him.

The proprietress of the villa, alarmed at the non-appearance of the tenant, notified the police, who entered the house. Breaking down the door, they were confronted by a body in a long coat hanging from a nail, the feet touching the floor. Decomposition of the face made positive identification difficult, but the features resembled those of Gapon and the clothing corresponds with that worn by the missing labor leader.

As the usual symptoms of strangulation were absent, it is conjectured that the man was killed elsewhere and his body brought to the villa on the night of April 10. This would agree with the information from the secret police, and the death sentence of the former priest as announced in recent despatches from Berlin.

IT'S FALSE, SAYS ROOSEVELT REPLYING TO AN ATTACK FROM SEN. TILLMAN

Sensational Day in U.S. Senate
Over Railway Rate Bill—
President is Accused of
Double-Shuffling.

Washington, May 12.—Somebody high in public life has lied and lied hugely. This was made apparent when Senator Lodge rose in the senate late this afternoon and read a statement from President Roosevelt that was an ultra-sensational climax to a day of sensations.

Senator Tillman had charged that in his railroad rate bill negotiations, as a Democrat, with the presidential go-betweens, ex-Senator William E. Chandler, of New Hampshire, now president of the Spanish treaty claims commission, and Attorney-General Moody, Mr. Chandler had said to him that "the president had stated that he had come to a complete disagreement with the senatorial lawyers who were trying to defeat the bill or injure it by ingenious constitutional arguments."

Senator Lodge explained that he had heard this charge with amazement and had gone to the official stenographer to get the exact language, as he had not been in the chamber when Senator Tillman was speaking.

Senator Lodge said that he had called the president on the telephone and the president had dictated this statement to him in reply to Mr. Chandler's report of what he says Mr. Chandler said.

The president said in reply that the statement which I had read to him—attributed to him by Mr. Chandler—was a deliberate and an unqualified falsehood; that Senator Foraker's name was never mentioned at all in conversation; that Senator Spooner's name was only mentioned by him to express a cordial approval of Senator Spooner's amendment.

Excitement in Senate.
There was much excitement when Senator Lodge concluded. Every senator realized that the president had squared squarely the question of veracity between himself and Mr. Chandler, who was the president's principal go-between with Senator Tillman, or else the question of falsehood between Mr. Chandler and Senator Tillman.

How It Came to Pass.
It was during the consideration of the rate bill that Senator Tillman made his attack upon the president. He referred to the Long amendment saying he did so with the purpose of making an explanation. He said that senators probably would be surprised to know that he had been in conference with the president.

London, May 12.—In a manner characteristic of Turkish diplomacy, the Porte has made an eleventh hour surrender to the British demand concerning the Tabah boundary. It has been believed in many quarters that the sultan would not yield until actual force was displayed, but his decision probably was facilitated by the knowledge that none of the powers supported his attitude and the combined fact that the British naval preparations had kept pace with her diplomatic demands.

CRIMES OF "STANDARD OIL" TO KILL BY DECEPTION RILES' BUSINESS

Witness Before Commission Reveals Amazing Trickery With Common Lamps to "Prove" Superiority of Product.

Chicago, May 13.—An amazing story of Standard Oil corruption and bribery, of the systematic training of employees to commit deceitful practices, if not actual crimes; wholesale debauching of human characters; a story that disclosed a business record so black as scarcely to be credible in the twentieth century—such a tale was told upon the witness stand yesterday before the interstate commerce commission.

The story was the climax of a three days' investigation, during which former employees turned informers on Standard Oil. It was the day of the independent dealer, and if the record goes for anything it serves to even up a long score in which the debit side heretofore was largely in favor of the Standard Company.

After hearing the revelations of alleged crime committed to drive independent dealers out of business, of deceit practiced to convince dealers that there was no virtue save in Standard Oil products, of men's honor purchased by wholesale that Standard Oil monopoly might be strengthened and increased, of a well-kept school for crime which was, perhaps, no better and no worse than that of the celebrated Fagin of storybook fame, the commission adjourned to meet again in Cleveland, May 24. In the latter city will be heard the independent refiners' side of the Standard's alleged oppression and similar, not illegal, methods employed in securing a firm grasp upon the oil trade.

The stories which have been told here have been those of independent retailers and of the independent wholesaler. The stories to be heard in Cleveland will deal with the struggles of the independent refiners to keep their heads above water—a struggle, the Standard foes say, of honest methods and square dealing as against dishonesty and double dealing.

Special agents of the Standard Oil Company are sent out to trick the people into buying its oil instead of that of the independent refiners. This was the testimony of F. S. Hibbs, the attorney whom John S. Miller tried hard to keep from being produced. It is the most amazing testimony that has yet been brought out by this investigation, and after considering the matter over night the commission decided yesterday morning to submit it to the public.

Hibbs, who for thirteen years was a tank wagon driver and salesman in the Peoria district for the Standard Oil Company, told the commission the six tricks which he and other agents of the company were taught to use to gull the unsuspecting public into buying the Standard oil. Hibbs, who is a man of high character, is a man who has been known as the general manager of the Standard Oil Company in Cincinnati, was the man who taught the legend with lamps.

Here are six of the tricks which Hibbs was taught before he was sent out on the road.

HAMILTON HAPPENINGS TWO CHURCHES OPENED

Methodist and Catholics Have Dedicator Services—Two Deaths.

Hamilton, May 13.—(Special.)—Mrs. Ruth E. Kennedy, mother of the wife of the late Rev. T. J. Parr, died this evening at the parsonage of the Hamilton-street Methodist Church in her 67th year. She leaves two sons, Wellington E., Chicago, and A. E. Kennedy, Jordan, and one daughter, Mrs. Parr. The funeral takes place Tuesday afternoon.

A new Methodist Church at Crown Point was opened this afternoon and dedicated by Rev. J. H. Robinson, president of the Hamilton conference.

It is stated now that the Hamilton Steamboat Company has been bought out by the Mackenzie & Mann interests.

CRIMES OF "STANDARD OIL"

Continued From Page 1.

show up better than a better grade of oil, if the lamp is properly manipulated," he said. Using a lamp which had been prepared for the purpose, he illustrated.

Scientific Cheating. "We were fighting the National Light Oil Company in Montreal, and these are the tricks I used. In making a test with a poor grade of oil we are instructed to take a lamp with a shallow bowl. Foot up within the shallower the bowl the better.

"In trick No. 2 we dried both wicks carefully. For our own oil we left lamps to give a good oil. There is a competitor's oil we dampened it about half an inch with saliva. This burning test was used in making a time burning test. When the competitor's wick burned down to the moistest wick there it no longer would burn freely; there it no longer would die down, while with our dry wick it would keep on burning as brightly as ever.

Makes Competition Look Yellow. "Trick No. 3 was devised to make the flame yellower than the slightly and that of the competitor yellow and smoky. To do this we trimmed the wick of the competitor's lamp so that it had a narrow burning surface, the top having a sharp edge. The lamps were then placed side by side in front of a white background. White box covers or cloth was put over the lamps to give this background, and then, when the lamps were lighted, the competitor's flame would be a thick yellow flame while our flame would be clear and bright. This was one of our favorite tricks.

"With our fourth trick we made the wick of our competitor's lamp charred and the flame weak and uncertain. This was an easy trick. The wick which we burned in our competitor's oil was left long, so that it curled around the inside of the bowl of the lamp. This made the siphoning more difficult, as the oil had to travel farther. With our oil, however, we used a short wick that stuck straight down into the oil. The wick siphoned much quicker, and while the other wick was charring before the oil got to the top, our wick was burning evenly with a slight flame.

"In order to get a perfect light the chimney must fit around the bottom of the burner snugly. Our fifth trick was to bend the base of the chimney slightly, so that the current of air would get in under the chimney, and that would easily convince anyone that the competitor's oil was better. Of course, the chimney in the lamp which contained our oil would fit snugly, and we could show a good flame.

Sixth Trick Performed. "The sixth trick was a neat one, but it had to be manipulated carefully. In our case we carried a little dirty flour, and we would have a little on our fingers when we got the bill of our competitor's oil. With this flour we stopped up some of the air holes under the burner, shutting off the draft. Of course, in our lamp the air holes would be nice and clean, and the difference in the flames was all to our advantage.

Hibbs testified that he had practised these tricks at Aledo, Farmington, Keithsburg, and West Jersey, Ill., and with considerable success.

"Did you get any information for the Standard by illegitimate methods?" Hibbs was asked.

"I frequently did so. I was for example, instructed to get the bill of lading of the Royal Oil Company at Mouthouth, Ill. I secured them by allowing a man to steal a month and the Standard paid me \$1000.

"Give us the names of some of the men you thus bribed?" "I can remember only one name at this time, and that is McCoy, who was a freight handler in the freight houses of the Iowa Central Road. I was instructed by my superiors not to try to learn names of men, bribed, and if I did to forget them, as soon as possible. I tried to follow these instructions, but I can go and pick out all of the men to whom I paid money for this information."

"In what way did you receive this information?" "Most frequently it was mailed me at Peoria and sometimes it was handed me on a piece of paper. Often I secured it myself."

Forgot the Names. "Who furnished you with the bribe money?" "E. E. Lashley, who was the company's special agent at Peoria, and who was for a time the manager of the district. He was the man who told me the names of the men to whom I paid money, as he did not want to get into any trouble from it."

"Did you have anything to do with crime or graft in taxes?" "I was frequently sent to stations to get a low tax value. At Galesburg I was asked to get."

Attorney Miller objected on behalf of the Standard Oil Company and Attorney Monett said he wanted to show that the witness had secured a valuation for the Standard Oil Company of \$500 on land worth \$10,000.

Are You Often Bilious?

Read This and Learn How to Prevent Attacks. Biliousness is merely a term applied to a condition that exists when the body is over-loaded with bile. The complexion turns yellow, eyes look dull, pimples, itching and eczema break out, headaches are ever present.

Biliousness has two great causes, constipation and defective liver action. When Dr. Hamilton's Pills are taken they not only correct the bowels, but act directly on the liver, regulating its bile secretion.

Unlike ordinary medicines which purge and give but temporary relief, Dr. Hamilton's Pills remove the condition which causes biliousness; thus permanent cures are effected. Dr. Hamilton's Pills do cure biliousness and liver ills under all circumstances.

We prove this statement by producing a convincing evidence as the statement of Mr. Fenwick Ludington of New Harbor, N.S., who writes: "Three months ago I had no appetite, and was getting free from periodical bilious attacks. They were preceded by dizziness and dreadful headaches. If I stooped over, my head would swim and a nauseous feeling crept into my stomach."

AMATEUR BALL SATURDAY LEAGUE AND EXHIBITION

Centrals and Alerts Won Good Games in Senior Interassociation—All the Scores.

Two good games were played in the Senior Interassociation League at Sunlight Park on Saturday. The Sherburnes and Alerts were returned the winners.

The first was a splendid exhibition between the Sherburnes and Centrals. Belanger kept his heavy hitting opponents down to four scattered hits. In the first innings a hit by Pletcher Walsh, Downing's sacrifice and Connor's long fly netted the Centrals two runs. After that not a man reached third.

The Sherburnes also got two hits in the first and two more in the third. It was all Alerts in the 4 o'clock contest. The Sherburnes were out for 10 runs in the 4 o'clock contest. The Alerts in the 4 o'clock contest.

Toronto Home for Opening To-Day at Diamond Park With Eastern League Leaders.

The Torontos are home for the opening to-day. They arrived by the front way on Sunday from Baltimore with a record of three wins and ten losses, seven by one run. Manager Barrow is fairly satisfied with his team as it now stands. Biggs was let out on Saturday, and Roman will play center field. A hard-betting outfielder is in view, and one name suggested is that of Louis Bruce back in the near future. As James L. Hughes is not ashamed of the record, we hereby appear certain to date, the team is in the class at Diamond Park this afternoon occupying the extremes. Newark and Montreal won the Sunday games.

Newark Won. Lost. Pct. Buffalo 9 5 643 Montreal 8 8 571 Baltimore 8 6 571 Jersey City 5 6 455 Rochester 7 7 487 Toronto 3 10 251

Games to-day: Newark at Toronto, Jersey City at Buffalo, Providence at Rochester, Baltimore at Montreal.

Managers Barrow and Shea for Newark, Biggs back to Philadelphia.

Bill Yale has been having tough luck since he joined the ball team. In the game at Providence he had his nose broken by one of Cronin's fast catches. His face is still bothering him and will likely cause him trouble all season.

Baltimore Had the Luck. Baltimore, May 12.—Baltimore played in better luck than Toronto to-day and won out. Both sides played ragged ball in the second.

Managers Barrow and Shea for Newark, Biggs back to Philadelphia.

SHRILLING DINNERS; NO WINE

Increase of Teetotalers Among British Lawmakers Hurlful to Kitchen Revenue.

London, May 12.—(New York Sun Cable.)—Some of the Labor members of the house of commons are beginning to tell tales out of school. One of them recently informed an audience that not all the 200 members of the house who are supposed to be teetotalers deserve the name, for he had observed some of them taking wine with their dinner. He declines to name them, and requests that temperance is making great strides in the house.

EDITOR SENT TO JAIL

Made Comments on Judge's Action in Indicting Police Officials.

Indianapolis, Ind., May 12.—Fred L. Purdy, editor and publisher of the Indianapolis Sun, was today sentenced to thirty days in jail and to pay a fine of \$250 by Judge Fremont Alford of the Marion County criminal court for editorial criticism in the paper on Judge Alford's course in connection with the recent indictment of Robert Metzger, chief of police for assault and battery on prisoners. Police Superintendent Metzger and Detective Bray have been indicted by the grand jury on charges of assault upon prisoners in the "sweet-bag" case.

WOMAN'S

Rose Avenue Cafe. An enjoyable party was held on Saturday afternoon and evening in Rose-avenue Art League, in the afternoon fancy articles, lawn and candy were sold, and in the evening, in addition, music was furnished by the Metropolitan Orchestra, and Mr. James Simpson gave an entertaining exhibition of ventriloquism. The tables were in charge of Mrs. Archibald R. Huestis.

UNUSUAL 13 BOY SOLDIERS

RAIN STOPS THEIR PARADE

For First Time, Garrison Unable to March Streets—Service Held in Armories.

Gracious weather for the Toronto garrison church parade has been so uniformly the rule that when the average citizen awoke yesterday morning to look out upon rain coming down in a businesslike fashion from what a poet would refer to as a leaden sky, he could hardly believe the evidence of his own eyes. When actual realization did come he consoled himself with the thought that there would surely be a clearing up later in the day that would allow the parade to come off, even with a trifle of its glory dimmed by muddy streets.

MARINE

Detroit, Mich., May 12.—The Thompson Line steamer Pilgrim, bound from Rogers City, Mich., for Chicago, was on the rocks at Pointe aux Barques early today. A tug has been sent from Harbor to Detroit to tug the steamer and to take off the passengers. The wind is blowing off shore and the sea is not high, so the Pilgrim is not in any danger of being wrecked.

Hold Their First Practice Saturday. —New Men Look Good. Both the Torontos and Tecumsehs held their first practice Saturday, the former at Rosedale and the latter at the island. The players all showed the winter stiffness and not a few of them sat down at the loss of rest before they had been at it long.

TORONTO TOBACCO LOBBER LEAVES CREDITORS BEHIND

At Least, That's the Indication Concerning the Going Away of Samuel Stein.

Several Montreal tobacco firms are said to be mourning the departure from Toronto of Samuel Stein, who, until the middle of last week, was proprietor of a tobacco jobbing business at 117 East Front-street. Laidities are placed at his disposal at about \$500, and the story that he is going to Toronto the effect that Stein came to Toronto from Chicago in the latter part of last year, and that he had purchased the "Regal" cigar store in the Arcade, but gave it up in March and went into the wider field in the Front-street premises.

Some local men seem to have gone on to some of his curves for they shut down on his credit for a number of months, and include the Gervais Co., creditors to the extent of \$10,000; Grothe, \$500; Tasse, \$500; Reliance, \$500; Harris, \$500; and Co., \$125. And there are others.

Stein is alleged to have left Rock Island, Ill., where he was a junk dealer, under a cloud in the latter part of last year, and was also known as Silverstein. He had a brother in the business with him here, but he left town two weeks ago.

Undigested Food

When any portion of food remains in the stomach and refuses to digest, it causes the stomach of its burden. This undigested food rapidly ferments, irritating the sensitive coating of the stomach, while other parts of the body, particularly the head, suffer in consequence.

So long as this undigested food remains in the stomach, the discomfort continues. A few doses of

BEECHAM'S PILLS

stop all fermentation, sweeten the contents of the stomach and give natural assistance that relieves the stomach of its burden. The use of Beecham's Pills gradually strengthens the stomach nerves and soon restores them to a normal, healthy condition.

Beecham's Pills positively cure all stomach troubles, while their beneficial effects on the liver and kidneys greatly improve the general health.

Beecham's Pills have been used and recommended by the general public for over fifty years.

Prepared only by the Proprietor, Thomas Beecham, St. Helens, Lancashire, Eng.

Sold every where in Canada and U. S. America. In boxes 25 cents.

PUBLIC AMUSEMENTS.

E. S. Willard, the eminent English actor, who will begin a fortnight's engagement to-night at the Princess Theatre, is one of the very few distinguished actors of whom it can be said that their distinction was won exclusively by means of professional work without recourse to any of the usual advertising methods. Mr. Willard's repertoire for the first week will be as follows: "David Garrick" and "The Man Who Was"; Wednesday and Thursday evenings, "The Middleman"; Friday evening and Saturday matinee, "The Professor's Love Story"; and Saturday evening, "David Garrick" and "The Man Who Was."

A great many friends of school and college days, being himself a graduate of Toronto University, and subsequently a master at Upper Canada College. After holding positions in some of the American universities, he was appointed to a chair in McGill University. The governor-general has consented to be present and to make a few remarks. The prices will be made popular.

The bill at Shea's Theatre this week headed by Virginia Earl and her Johnnies. This act is new and original, and Miss Earl, who is a comic opera favorite, is assisted by five clever men in her vaudeville offering. Others on the bill are the Three Durbons, who are the best instrumentalists and vocalists; the Wilson Trio, Chester's Statu Dog, Ratty Brothers, Dean Edsell and Arthur Forbes in a new sketch, and Avery and Hart.

Those who enjoy the best of vaudeville, the brightest of burlesque, the prettiest of girls, the most tuneful of musical specialties, and the most beautiful scenic and costume effects are advised to attend the star this week, where "The Tiger Lilies," under the direction of the Campbell-Drew Amusement Company, will hold forth. The two original musical and comedy reviews are entitled, "A Temporary Husband," and "The King of the Coffee Flenda," and as an added attraction, "The Tiger Lilies" will appear at every performance in conjunction with the regular show.

London, May 12.—London is a nice place, said Caruso, the tenor in an interview, "but I did not have a pleasant welcome. The first letter I received was a demand that I pay an income tax to the amount of \$215. What have I done?"

New York, May 12.—The Press tomorrow will say: By the closing of the contract yesterday between F. F. Proctor and B. F. Keith, practically all independent vaudeville interests in the country were brought into consolidation. The combination is one of the largest ever brought about in the theatrical field, and it is thought its outcome will be the securing of the vaudeville theatre in the United States under one management. The new firm will be known as Keith & Proctor.

CYCLIST'S FATAL PLUNGE.

Bolleville, N.J., May 12.—George L. Brett, 55 years old, with his two sons started this afternoon from their home for a bicycle ride along the Morris Canal, when his wheel struck a stone, causing the wheel to swerve suddenly. This threw him into the water. It was found that his neck had been broken by his head striking the bank as he fell in.

Service of Prate.
On Friday evening next the choir of the College Street Presbyterian Church will give a service of prate, commencing at 8 o'clock.

'FRISCO TO AMEND CHARTER TO GRANT SALOON LICENSES

Prices Raised From \$100 to \$500 — Rigid Economy in Municipal Affairs to Be Enforced.

San Francisco, May 12.—The liquor question was again discussed to-day by the authorities and it was proposed that the charter of the city be amended so that a saloon license, which has heretofore been \$100 a year, shall be raised to \$500. Before the fire there were 4000 saloons in San Francisco. To-day the police board of commissioners issued an order that all private saloons cease dispensing liquor to members.

Mayor Schmitz to-day directed that persons made homeless by fire be concentrated in two great camps, one in the Potrero, and the other at Golden Gate Park. This action has been made necessary for sanitary reasons. At present every vacant square is covered with tents of homeless campers.

A general reduction in the city's working force within the next 30 days will be ordered under discussion whereby the most rigid economy may be enforced in municipal affairs. About 500 city employees will lose their positions or suffer a reduction in salary.

GET YOUR HAIR IRONED!

And Get It Done Hot If You Don't Want to Be Grey Headed.

London, May 12.—The scientific sensation of the week is Prof. Metchnikoff's discovery of the cause of gray hair. It appears that it is due to the chromophore, which expels the coloring pigment from the hair or drives it from the roots.

Prof. Metchnikoff's remedy is to use a hot iron. As the temperature should be 140 degrees Fahrenheit, the process is not to be painful. Hairdressers hope that the discovery will lead to good business.

The professor noticed that women who used curling tongs to wave their hair became gray later than those not using them, and this caused him to make an investigation which led to his discovery.

BOLT PASSES THRU BODY.

Farmer Pitching Hay Instantly Killed, But No Fire Results.

Syracuse, May 12.—George Dygert, a farmer, living three miles from this city, was struck by lightning and instantly killed this afternoon. Dygert was in his barn loft pitching hay. The bolt struck him on the head, and went down to his shoes, tearing one to pieces. He fell through the shaft into the horse manger. His father, John Dygert, was on the first floor, but was uninjured. The hay was not set on fire.

LOVE FOR FATHER SAVES HER.

Trenton, N.J., May 12.—Poisoned candy mailed in Trenton to 12-year-old Josephine D. Davenport, a ward in the home of Elijah Jones, almost resulted in the death of three persons. The Davenport child, who ate the most freely of the sweetmeats, was for many hours in such a condition her life was despaired of.

That she was not killed outright was due to her love for her father, which prompted her to save a large portion of the candy until he had paid her an expected visit. The child's mother, Mrs. Charles Davenport of this city, was arrested on suspicion.

LEADS MONEY ON POLICES.

Milwaukee, May 12.—The examination of Second Vice-President J. W. Skinner of the Northwestern Mutual Life Insurance Company by the special Wisconsin legislative committee was continued until to-day. Mr. Skinner stated that his company has been loaning money on all kinds of its policies to the extent of 90 per cent. of the cash surrender value of the policy since 1901, and that there is not now a policy of the company upon which the company itself cannot make a loan.

EVIDENCE IS MISSING.

Lima, O., May 12.—County Prosecutor Webber has created a sensation here by the declaration that, when the grand jury sought to look into the bridge contracts with the Bellefontaine Bridge Company, every scrap of written evidence was found to be missing. The records are said to have disappeared within the last few days, or since the grand jury opened its investigation. The contracts that have disappeared are important, as they are said to show a bridge pool or combine.

CLAIMS WIRES WERE TAPPED.

Cincinnati, O., May 12.—Securing Chicago board of trade quotations by means of a wiretapping scheme is one of the allegations made by John Hill, jr., in a petition filed to-day asking the United States court to allow more time for the Chicago board of trade in its suit against the W. J. Odell Commission Company of this city.

It is charged that the questions were sent from the Philadelphia office to an office in the First National Bank Building in Cincinnati over a wire leased from the American Telegraph Company.

Foot Caught in Frog.

Connellsville, Pa., May 12.—With his foot caught in a frog, and therefore unable to move from the rack, J. N. Jones, a brakeman employed in the Baltimore and Ohio yards here, was crushed by an approaching train of freight cars that were being switched above the yard. His body was mangled beneath the train.

TWO MURDEROUS ATTACKS ONE DEAD, OTHER MAY DIE

Moulder Who Joined Strike Breakers Beaten to Death by Unknown Assailant.

Buffalo, May 12.—Joseph Crosson, an iron moulder, 42 years of age, was beaten to death to-night by an unknown assailant. The only witness to the tragedy was a little girl. She told the police that Crosson had just turned off Lower Main-street on to Quai-street when he was attacked by another man, appeared to work from the docks. Crosson was insensible when a policeman picked him up and died on the way to a hospital.

What may prove to be another murder occurred on the Ridge-road in the steel plant district, to-night. H. W. Robinson was shot and fatally wounded by an unknown foreigner, who escaped. Robinson, who is 32 years old, came here from Alabama two weeks ago to work for the Lackawanna Steel Co. The attack upon him to-night was unprovoked. The citizens of Seneca are excited over the affair and every effort is being made to capture his assailant. The first use of firearms by the strikers has become a menace to life in the district. Not a night passes without the sound of a fusillade from some quarter. The police of Erie County have been asked to put a stop to "shooting up the town."

ALL POINTS SETTLED.

Longshoremen Sign Agreement With Dock Managers.

Cleveland, May 12.—The last of the points at issue in the recent strike of longshoremen and others on the great lakes were disposed of at a conference between President Keefe and others representing the labor union and the strict attorney of the dock managers late this afternoon. Articles of agreement were signed, by which the wages of the men are to be made the same as last year, and the ten-hour day is to prevail. These were the only points of controversy before the conference, the question of recognition of the union having been previously eliminated.

JOKE FATAL TO INVALID.

LAUGHS HERSELF TO DEATH

Louisville, Ky., May 12.—While listening to the story of a woman who was asked to leave a skating rink, as her frequent falls were a menace to the building, Mrs. Polly Ann Jackson gave way to laughter which caused hysterics and caused her death in a few minutes.

Mrs. Jackson had been an invalid for some time, but her illness was not considered serious. She had not laughed so heartily in months as at the story told her to-night which caused her death.

MODERN ART OFFENDS TAILORS

Careless Painters and Sculptors Are Forgetting Buttonholes and Seams

London, May 12.—The trade journal, The Tailor and Cutter, omits to send a representative to Burlington House to criticize the Royal Academy from a sartorial viewpoint this year. Its critic sadly declares that contemporary painters cannot see the details of clothing and the consequences utterly fail to produce art that will last.

In Sargent's portrait of Lord Roberts the top button of the tunic is completely missing. The tunic has no buttonholes and the breeches have no seams. Formerly the tailors thought well of Sargent, but now the only satisfactory Academician in the sculptor William Goscombe John, whose seams, buttonholes, lapels, etc., in a modern figure are irreproachable.

NEW BRANCH TO BE STARTED SHORTLY.

W. Sapry, manager of New York plant of Syracuse Smelting Works, and native of Toronto, has been in the city for a few days, and is greatly impressed with the great progress that Toronto is making, and he has decided to open up a branch here.

This company is one of the largest white metal mixtures in the world, and has several large works; one is located at Montreal. They manufacture chiefly in brass, metal, solder, metal mixtures, Mr. H. Sapry is also vice-president of Montreal Copal Co., Limited, who own no but only one refinery in Canada. They are also producing lately pig lead and all classes of bronze for use in making valves, car brasses, and bearings of all kinds.

Victoria Day Outings.

A delightful time of the year, with special rates. The Grand Trunk will sell round trip tickets at single fare good going May 23 and 24, returning until May 25, between all stations in Canada, also to Niagara Falls and Buffalo, N.Y., Port Huron and Detroit, Mich. For ticket and further information call at City Ticket Office, northwest corner King and Yonge streets.

Fifty Thousand Out.

Vienna, May 12.—The demand of the building trade employees for increased wages resulted in a lock-out of 50,000 men to-day.

LIKE ECLIPSE OF MOON CURTAIN TELLS HIS MIND

Strange Personal Experiences of Rev. C. S. Bain, Accused of Burning Church.

Waterloo, N. Y., May 13.—For the first time since his arrest, Rev. C. Stuart Bain, who awaits the action of the June grand jury on a charge of having, on the night of March 6 last, burned First Baptist Church, of which he was pastor, to-day consented to describe fully the nature of the mental phenomena as well as an umbrella, and of the former I can give some account. While I have some recollection of this inexplicable period of the lapse, I do not at the time have a clear enough apprehension of what is the cause to take precautionary measures, if such were possible.

"It is difficult to comply with your request, because the lapses include a suspension of memory, and the spell, when fully developed, is a blank to me afterward. It may be compared, however, to a lunar eclipse, there being phenomena as well as an umbrella, and of the former I can give some account. While I have some recollection of this inexplicable period of the lapse, I do not at the time have a clear enough apprehension of what is the cause to take precautionary measures, if such were possible.

"It is as though I entered this room with the light and all objects bright and clear. Then, as I slowly gathered up my eyes, the light dims, objects become ill defined and the atmosphere misty. Then the veil drops black before me and I lose myself entirely, as in a deep sleep. The next I know I am in my normal state again. The whole effect is like the curtain being pulled up, and the scene is observed, and even the footlights. Then the curtain falls, and in an instant, however, and all is bright again.

First Attack.

"My first attack was in Scotland in early manhood, and resulted in my being confined to a sanitarium for three months. What I did to lead to this is a blank, except that I remember in my memory I realized that I was not in a clear, normal mental condition. I recovered fully and did not suffer a relapse for many years.

"After entering the ministry in this country and meeting with gratifying success for a time, I experienced another period, which was for a prolonged period, which, however, contained many lunar intervals. I was unable to do ministerial work, of course, and I was rescued by Miss Ray, an evangelist, in New York. From then until my present apparent lapse the public is fairly familiar with my life in its normal condition.

"When a lapse is coming on I am conscious sometimes of strange impulses. Once since I have been here I stood before the glass with my razor, when like the suggestion of a dream, came the thought, one quick slash and all this trouble would be over, I felt the darkness deepening, groped for the razor, and then I awoke, and things seemed to clear up. I handed him the instrument and told him to take it away.

Cartoonist's Suggestion.

"The night of the fire I recall nothing after the entertainment which I attended until the church was on fire. I remember clearly the cartoonist's pictures, including his drawing of the burning of Rome. I see in the papers that the cartoonist has made a suggestion. It may be so. I have been hypnotized, at least not to sleep by hypnotists, but do not know what I did at such times.

"I am constantly hearing of lesser things in my life of the same sort. A kind of tele-seeing one day I started down street with the bar of a stove, then turn back, then start again; and this was repeated four or five times. I do not recall it; did not know I did it.

"As to the cause of my mental infirmity, I cannot tell. I am anxious for an examination and to get the opinion of experts as to the cause, so that something may be done to effect a cure."

GROWING MORE TOBACCO.

Essex County Farmers Are Profiting From New Industry.

Windsor, May 13.—Reports from the fruit belt in South Essex are to the effect that the frost the last week did very little damage to the peach blossoms. The frost was very light, and on the coldest nights the cloudy sky kept the frost away. The peach trees are loaded with blossoms this spring and the fruit growers expect a banner crop, providing there are no further frosts from Jack Frost.

Tobacco growers are planting more tobacco plants this year than in previous years. The announcement of the Ontario government that an experimental tobacco farm will be established has done something towards increasing interest in the tobacco industry of Essex County.

But, aside from this, the growers themselves have been experimenting for years and the experience gained will enable them to grow a better class of the weed this year. Certain kinds of laymen's relief legion, and good prices are paid by the agents of concerns which manufacture the Canadian leaf into chewing and smoking tobacco and cigars.

ENNA'S WEDDING CAKE.

It is Six Feet High and Weighs More Than 340 Pounds.

London, May 12.—Princess Enna's wedding cake, which was made here, was completed to-day and packed for shipment to Madrid. It will be the first royal wedding cake ever seen in Spain. The English custom was introduced by King Alfonso as a compliment to his bride. The cake is six feet high and weighs more than 340 pounds. It stands upon a huge silver salver, on which the bride's mother's wedding cake was placed. The cake consists of three glistening silver white tiers, and is forty-six inches in diameter at the base.

The lowest tier is divided into eight panels, separated by Corinthian columns, and is surmounted by Cupids disguised as postmen and messengers. The spaces between the columns are filled with panels of sugar work representing Spanish vines. The panels are festooned with orange blossoms, white heather, myrtle and white roses. The flowers were chosen by Princess Enna.

There are four panels on the second tier, and the church was on fire. I remember clearly the cartoonist's pictures, including his drawing of the burning of Rome. I see in the papers that the cartoonist has made a suggestion. It may be so. I have been hypnotized, at least not to sleep by hypnotists, but do not know what I did at such times.

MILLION DOLLAR FUND.

Rebuilding of Methodist Churches in 'Frisco the Object.

Cincinnati, O., May 12.—The raising of a fund of at least \$1,000,000 for the rebuilding of Methodist Episcopal churches in San Francisco and at other points on the Pacific coast is contemplated in the organization of a Methodist laymen's relief legion, an announcement of which will be made in the various church papers next week. The plan has been approved by the bishops, and appeal calls for subscriptions ranging from \$100 to \$300. It is to be signed by prominent Methodists, Secretary of the Treasury Shaw, being one of the first to sign the document.

HANGS HIS SISTER IN PLAY.

Youngsters' Game of Wild West Almost Caused a Fatality.

Pittsburg, May 12.—Dime novels and a wild west show that he saw last week filled the mind of Axel Anderson with a desire to perform some wonderful things. This afternoon the boy, who is 14 years old, invited his sister, Minnie, 14 years old, to accompany him to the yard of their home at 5208 DuPont-street.

After the game had been going some time the girl was induced to play the horse while Axel took the part of the sheriff. The horse threw and captured, and then it struck Axel that there should be a mob of cowboys who take the prisoner away for a lynching. There were no other actors, so Axel personated the mob likewise. He secured about twenty feet of clothes line and invited one end of it around the girl's neck. The other end he threw over a high fence and then jumped over and pulled for dear life.

His sister was dangling in the mid-air when she lost consciousness when her father arrived. A doctor worked for two hours over the girl before he revived her. She is still in a serious condition.

ITALIAN STRIKE ENDED.

But Socialists in Chamber of Deputies May Still Make Trouble.

Rome, May 12.—The strike is over everywhere. It is likely, however, that the Socialist deputies, who resigned their seats in the chamber because the government refused to entertain a motion to prohibit the use of armed force in the repression of disorders, but whose resignations the chamber refused to accept, will try to provoke complications.

But everybody is tired and condemns the strikes, which are recognized as having been useless.

Confesses He Took Bribe.

Green Bay, Wis., May 12.—Former Ald. Albert L. Gray pleaded guilty to accepting two bribes of \$800 each in 1901 in connection with a paving contract, and was fined \$1000 in each case.

Hair Falls

Losing it, day after day? And doing nothing to save it? As though you can lose your hair and keep it, too! Then stop this falling. Stop it once! You can certainly do it with Ayer's Hair Vigor. STRENGTH FREE TO MEN

How to Regain it Without Cost Until Cured

Strength of body—strength of mind! Who would not possess it if they could? It is nature's greatest gift—our most valuable possession. Without this strength in its fullness, with it everything is possible. Almost every man was made strong, but few have been taught how to preserve this strength. Many, through ignorance, have wasted it recklessly or used it up excessively, leaving the body exhausted, the nerves shaky, the eyes dull and the mind slow to act. There are thousands of these weak, puny, broken-down men dragging on from day to day who might be as strong and vigorous as ever they were if they would only turn to the right source. Electricity cures the very element you have lost. It puts new life into the veins and renews the vigor of youth. For 40 years I have been curing men, and so certain am I now of what my method will do that I will give to any man who will take the course I give you back the very element you have lost. It puts new life into the veins and renews the vigor of youth. For 40 years I have been curing men, and so certain am I now of what my method will do that I will give to any man who will take the course I give you back the very element you have lost.

Needs it my world-famed DR. SANDEN'S ROYAL FREE UNTIL CURED. You pay nothing down, you deposit nothing, you risk nothing; but upon request I will furnish you with the Belt to use, and if it cures you pay me my price—in many cases not over \$5.00. If you are not cured or satisfied return the Belt to me and that ends it. As the originator of this method of treatment and have made it a great success, there are many imitations of my Belt; but my great knowledge, based on 40 years' experience, is mine alone. My advice is given free with the Belt.

This offer is made especially to men who lack strength and vitality, who have drains, losses, impotency, varicocele, etc., but I also give my Belt to the same terms to sufferers from Rheumatism, Lame Back, Sciatica, Kidney, Liver and Stomach Troubles.

Call or write to a Belt to-day; or, if you want to look into the matter further, I have two of the best books ever written on Electricity and its medical uses, which I send free, sealed, by mail.

MELODY & CO. HAD THE FOLLOWING AT THE CLOSE OF THE MARKET

Wheat—Wheat opened higher to-day owing to the reflection of crop damage reports in the south-western states, and the realization amongst local buyers, causing a recession, the market closing lower, with the local crowd having been most of their wheat. On confirmation of the crop damage reports on Monday, the market should have gone higher, as we have stated before, do not buy wheat on the bulge, as you will have plenty of soft spots to buy it on. Primary receipts for the week have been comparatively light, and the cash demand excellent. The flour trade is better than it has been for some time, and at good premiums over the options. On all breaks, September and July wheat will prove very good investments.

Corn—Corn was lower to-day, and received no support, as shorts have been liberal buyers this week, owing to the light contract in Chicago. We still favor the sale of September corn on all the good bulges. Seeding should soon start, and receipts should increase materially.

Oats—The market was very dull to-day, outside trade being very light. The tone of the market, however, is strong, owing to the good demand for both foreign and domestic account. As the market has been steady and the average is smaller than last year, and the weather not very favorable, we recommend the purchase of July and September oats on all moderate declines.

Liverpool Grain and Produce. Liverpool, May 12.—Wheat—Spot, nominal; futures, steady; May, 85 1/2; July, 84 1/2; Sept., 84 1/2.

Chicago Cattle. Enlis & Stoppard wired to J. L. Mitchell to-day: "While wheat to-day averaged a shade lower, it was due to profit-taking scattered rather than any general selling by the bear contingent. Evidently the latter have sold all they care to sell until there is a cessation of damage reports, which, to-day, were again numerous."

THOUGHT THEY HAD BARGAINS

Windsor Merchant's Intimation of Smuggling Attracted Customs.

Detroit, May 12.—Many women in and near this city who have believed that they were securing great bargains in silks and dress goods supposedly purchased in Canada and smuggled across the border will now learn from developments just made public that they have been the victims of a clever scammer.

Some time ago United States special treasury agents became interested in the fact that a Canadian merchant was advertising that he would deliver free of cost all silk and dress goods purchased in his store in any point in the United States within 100 miles of Detroit. His business became extensive, and it is declared that many wealthy Detroit ladies were his regular patrons.

Secret service men assigned to the case were unable to learn who was implicated in the smuggling, if any was done. The merchant himself often visits Detroit. He was closely watched throughout the investigation, and finally, pure and simple, he was on his last visit here detained by Special Agent Lewis and accused of wholesale smuggling. The Canadian immediately confessed that while the goods were purchased from his store in Canada, the material was supplied by and shipped from American houses. The department investigated and found that this was the case and that the government was not being defrauded in any way.

So well did everyone enter into the spirit of the service and especially the eagerness that it is intended to make use of a portable organ to lead the service of song. Old country people are nearly good singers, and it was thought by the rector that if the assistance of an instrument could be obtained it would induce everyone to sing.

Rev. Mr. Vance chose as his text Exodus xlii, 17, "God led them not through the way of the land of the Philistines, although that was the near way." Applying the lesson he said that God had led the Israelites by a roundabout route to Canaan, which took 40 years instead of the five days which would have been the near way. He thought that the rector that if the assistance of an instrument could be obtained it would induce everyone to sing.

Manila, May 12.—The following despatch has been received from Acting Governor Cincos of the Island of Samar:

"A band of twenty-four Puljanas having five rifles and other weapons, entered the Town of Inabangan to-day, killing one and wounding seven residents, burning and looting thirty-six houses and taking over twenty residents prisoners. Troops, constabulary, policemen and volunteers are pursuing the band in the near way."

Gov. Curry, the governor of Samar, who is here on his way to Baguio, Province of Banquet, the sumner capital, to consult with Governor-General Ide, says that all the presidents of Samar will shortly call on the governor-general and endorse the policy of extermination of the rebellious natives, which is supported by the peaceful inhabitants of Samar.

Gov. Curry has received a cable congratulating him upon his escape at the fight with Puljanas at Magtaton recently.

Berlin, May 12.—The Magdeburg Gazette says that the statement of the Paris correspondent of The London Times to the effect that Germany had occupied an island on the southwest coast of Borneo for a coaling station is a malicious invention.

The Hamburg and North German Lloyd steamship lines were establishing a coal depot on the Island of Laut, which would eventually be turned over to the German government for naval purposes.

DR. BELL FOR LONDON. Ottawa, May 13.—(Special)—Dr. Robt. Bell, chief geologist of the geological survey, has gone to England to attend the annual meeting of the Royal Geological Society, which recently awarded him the patrons' medal of the society. He was asked to accept in person the society's award.

OTTAWA'S DELEGATION. Ottawa, May 12.—(Special)—The Ottawa Board of Trade will have six delegates to the congress of chambers of commerce of the empire, which meets in London, England, July 19 to 23. At a meeting of the council these were appointed: Sir Sanford Fleming, N. A. Belcourt, M.P.; Wm. Northwood, George F. Henderson, Peter Wlezen, John Coates and George Kydd.

A Bad Beating. Belleville, May 12.—Wm. Babcock was given a dreadful beating last night by Charles E. Powley, and is now in the hospital. Babcock, who was drunk, was taken to Powley's house, and so the former claims, insulted him, whereupon he knocked him down and beat him so badly that the unfortunate man may yet lose his life.

SERVICE FOR IMMIGRANTS

TO BE A WEEKLY FEATURE

Rector of Church of Ascension Begins a Good Work Among New Arrivals.

"With the kind permission of the officials we have been allowed to hold service here this afternoon. You are still under the British flag, and we welcome everyone of you. You will have in this country the same religion you left."

This is what Rev. W. H. Vance, rector of the Church of Ascension, said to a gathering of 200 English immigrants in opening a religious service at the immigration office Sunday afternoon at 4 o'clock. The idea of holding such a service with a view to giving the strangers a word of welcome and encouragement was originated by Rev. Mr. Vance, and if subsequent meetings prove as successful it is the intention to continue all summer.

So well did everyone enter into the spirit of the service and especially the eagerness that it is intended to make use of a portable organ to lead the service of song. Old country people are nearly good singers, and it was thought by the rector that if the assistance of an instrument could be obtained it would induce everyone to sing.

CONSTABLE SHOT IN ROW.

Seriously Wounded in Attempt to Break Up Noisy Crowd.

Punxsutawney, Pa., May 12.—Constable William McLaughlin was shot and seriously wounded and Frank Costa and Wm. Turney received bullet wounds, from which they will die, in a fight among Italian miners at the Yatesboro mines to-night.

A crowd of Italians, who had been drinking, were collected about the saloon run by Costa and were insulting passers-by, causing a general disturbance. The constabulary, Constable McLaughlin was appealed to to stop the disorder and went to the place to break up the crowd. He was being roughly handled when Wm. Turney went to his assistance. Costa then drew a revolver and fired. The firing was followed by shots from McLaughlin's gun. Turney was the first to fall, and a moment after Costa was stretched on the sidewalk. McLaughlin received a bullet in the shoulder.

There are nineteen troopers of the state constabulary stationed at Yatesboro, and when these responded to an appeal for help the Italians fled, but not before the constabulary captured seven who are known to have been implicated in the attack on McLaughlin. The prisoners were taken to the lock-up, and the episode, quiet prevailed, and the Italians kept off the streets. No further trouble is feared.

How to Build a Home

In Two Weeks after the Foundation is Completed

In all estimates for building, one of the principle items of cost is labor. Delays on account of bad weather—long waits for mortar to dry—also mean a money loss Metal Walls and Ceilings protect you against delays and excessive labor cost. A building may be put up any time of the year regardless of weather conditions. The average dwelling may be erected, complete, about the foundation in two weeks' time. Once in place, Metal Walls and Ceilings never need repairs, last as long as the house, and make rooms absolutely fireproof. To those building or remodeling homes, The Metal Shingle & Siding Co., Limited, of Preston, Ont., will send free, if you mention this paper, their handsomely illustrated catalogue showing many of the beautiful designs they make in Art Metal Goods.

PROPHETS IN CONVENTION—PREDICT END OF THE WORLD

Seers Differ on Details, But Agree That Great Catastrophe Will Occur Either in 1929 or 1931.

London, May 12.—Terrible predictions concerning what will happen to the poor old earth during the next twenty-five years, were made the other day at Exeter Hall. The prophets of the disaster, a large number of whom were clergymen, were in attendance at a "prophetic and second advent conference."

While they differed in the details, all agreed that the end of the world was at hand. They were not quite sure whether the final catastrophe will come on May 2, 1929, or April 9, 1931, but were quite sure that one of these dates will prove to be the right one.

There can be no doubt that the world has nearly outlived its usefulness, the prophets declared, the wars and earthquakes which have afflicted it recently are proof positive, and all that is required to fulfill the prophecies is the coming of anti-Christ, who is unkindly identified with Napoleon.

He will make his first political appearance as King of Syria, but in 1932, he will attack and conquer France, then will extend his rule over the other kingdoms.

There will be 10,000,000 Christians in the world at this time, the prophets declare, but evidently they will not be equally deserving of favor for in 1924 or 1926, 144,000 of them will be transported to heaven, while the other 8,856,000 will be transported to the desert near Mount Sinai, where they will have to wait three and a half years.

Members of Parliament to Be Left. The members of the British parliament of that time evidently are to be a lot of terrible sinners, for only a few will be found worthy of immediate translation. The Rev. M. Baxter, 90 will be transported from the desert near Mount Sinai, where they will have to wait three and a half years.

RABBITS RAISED ON BOTTLE. Sympathetic New Jersey Woman Adopts Method to Save Motherless Animals.

Freehold, N.J.—Mrs. E. H. Moore has the distinction of being the foster mother of five wild rabbits. About a month ago Samuel Hardy, a nearby farmer, while plowing, overthrew a nest in which were six new-born rabbits. When Mrs. Moore saw the youngsters her sympathy was aroused and she at once set about to provide a substitute for the lost mother.

She fitted a bottle with a cork, in which she inserted a goose quill pierced with a needle, and from this unique device the rabbits thrived first on cow's milk, then on diluted condensed milk. Now they are running about the yard, looking after their own welfare.

HIS GRACE CANNOT COME. Ottawa, May 13.—(Special)—The Duke of Argyll, first president of the Royal Society of Canada, cannot attend the May meeting of the society.

An invitation was sent to his grace some time ago, but Dr. S. E. Dawson, secretary of the society, has received a communication stating that the duke will not be able to come.

Traveling Arrangements for Summer School. The railway companies have made the following concessions to those attending the School of Bible Study, etc. in Victoria College, July 9 to 21 next. Jackson, B.A., general secretary, Ontario Sunday School Association, 82-109 Confederation Life Building, Toronto.

A Costly Spark. Underwood, May 13.—Yesterday morning fire destroyed the barns of Job Carr, on 12, Bruce Township, together with all his implements and stock. The fire was caused by a spark from the chimney of his dwelling house. Loss about \$2000, covered by insurance.

Illiet Still Discovered. Ottawa, May 13.—(Special)—Dr. Anthony Fresnel, collector of inland revenue and inspector of detectives employed by the Dominion inland revenue department, made a sensational discovery at Low as the result of which Joseph Dressard, a farmer, is in the hull jail. The officers are alleged to have discovered an illicit whiskey still on Dressard's premises. Several barrels of whiskey were seized.
