BRITISH PREPARE TO ASSAULT TURKS IN MESOPOTAMIA Gen. Smuts Captures German Force in East African Campaign HYDRO-RADIAL RIGHTS ASSURED OF PROTECTION AT OTTAWA

BATTLE LOSSES OF FOE BIGGEST KNOWN IN WAR

Two Hundred Thousand Minimum German Casualties Before Verdun. FRENCH GIVE PROOFS. Enemy's Reinforcements Used Up as Fast as Put in Line.

PARIS, April 7.—The German losses before Verdun up to the present time have reached the huge total of 200,000 men, one of the greatest battle losses in the whole range of warfare, according to estimates made public here today from a semi-official source.

Documentary and verbal testimony gathered and authenticated permits the giving of precise details concerning the losses suffered by the Germans and by us on the Verdun front.

Reinforcements Used Up. The German reinforcements are practically used up as fast as they are put in line.

ITALY'S CABINET CHANGES. ROME, April 7, via Paris, 4:04 p.m.—Gen. Alfieri has been appointed under-secretary of state for war, succeeding Major-Gen. Ellis, resigned.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

PART of the 300 yards of ground which the British captured from the Germans at St. Eloi on March 27 was retaken by them yesterday, but the fighting has not reached a decision, and it would be premature to concede the Germans any permanent gains until it is over.

British troops also promptly threw out a German raiding party which had penetrated into a trench near the River Ancre after a bombardment. It may be noted that the Germans of late have been active in making raids on British trenches.

General Jan Christian Smuts, whose rapidity of operations must have upset some of the German calculations, reports the winning of another success, when some of his mounted troops, under General Vandervler, surprised a German force stationed with machine guns in a mountain stronghold in the Arusha region, surrounded it on Tuesday, and received its surrender on Thursday.

CABINET OF CARRANZA IGNORES U.S. REQUEST

No Permission Given to Use Mexican-Railways for Any Purpose. QUERETARO, Mex., April 7.—The Mexican Government has not given the American Government permission to use Mexican railways for any purpose whatever, said Gen. Candido Aguilar, Mexican minister of foreign relations, following a meeting of the Carranza cabinet today.

INTERIM SUPPLY BILL HURRIED THRU HOUSE

Authority to Expend Nearly Hundred Million Dollars is Confirmed.

FUNDS RUNNING LOW

One-Fifth of War Credit is Included in the Total Amount. By a Staff Reporter. OTTAWA, April 7.—Sir Robert Borden asked the house tonight for unanimous consent to put thru all stages at one sitting an interim supply bill appropriating \$92,458,587.

The resolutions went thru committee and the bill founded upon them was at once introduced, read three times, and passed. It will no doubt go thru the senate and receive the royal assent Tuesday.

Sir Thomas White's bill to levy a war tax on business profits got thru committee stage and stands for third reading. After that was disposed of the house went into committee of supply and passed substantially all the estimates of the department of Indian affairs.

FRENCH RETAKE TRENCHES LOST IN NIGHT ONSET

Grenade Attack Ejects Germans From Part of Line Near Bethincourt.

FAILURE AT HAUCOURT

Big German Offensive Against Village Ended in Defeat.

Special Cable to The Toronto World.

LONDON, April 7.—The French today by a hand grenade offensive made some progress in the retaking of the 300 yards of trenches which the Germans had taken in a surprise attack last night southeast of Bethincourt, and they also made an advance in the German communication trenches there.

The attack on the French positions on the south and on the eastern outskirts of Haucourt Village was preceded by a violent bombardment of several hours' duration. When the Germans came out to the attack they were swept down by a curtain of artillery fire from the French artillery, and were made in their ranks by innumerable Maxim's.

The bombardment of Le Mort Homme and Cumieres Village is believed to precede an infantry attack which may be launched under cover of night.

The attacks made on the Bethincourt salient were exceedingly heavy, and the Germans succeeded in getting into the French lines on the Bethincourt-Chattincourt road, whence they were immediately ejected by a trench counter attack from all but 300 yards of the position.

NEW LIFE IS INFUSED INTO ARMY OF FRANCE

Complete Rejuvenation is Under Way, Minister of War Tells Critics.

PARIS, April 7, 5:30 p.m.—The age limit of colonels and general officers in the French army was discussed today in the chamber of deputies on a motion to reduce the limit to 69, 60 and 62 years respectively. The motion was referred to a committee.

In the course of the debate General Rouques, the minister of war, said that the age of generals of armies and of army corps now ranged from 48 to 64 years. The army, he said, is on the way of a complete rejuvenation. This remark was greeted with applause.

Deputy Andre Maginot, who spoke with difficulty owing to wounds received at the front, was also applauded for the statement that "after twenty months of war we are justified in seeing the chief command for more activity and more warlike energy."

Fighting Still Proceeds for Possession of St. Eloi Salient.

CANADIANS ENGAGED?

Germans Report Capture of Craters Held by Dominion Troops.

LONDON, April 7.—It is admitted in the report of Sir Douglas Haig, commander-in-chief of the British expeditionary force in Flanders, that the Germans yesterday regained a portion of the salient at St. Eloi, from which they were driven by the British at attack on March 27, in the fighting which they started yesterday in an endeavor to recover their loss, but the struggle is still going on.

The British official report on this fighting, issued tonight, says: "Yesterday at St. Eloi the enemy succeeded in regaining the ground of the craters and captured March 27. The fighting continues."

The Germans in their official communique today, said: "German troops after careful preparation and tenacious fighting, conquered British crater positions south of St. Eloi, defended by Canadian troops."

HOT ALTERCATION IN PARLIAMENT OF P. E. I.

One Member Accused Another of Leaving Conservative Party Under Pressure.

CHARLOTTETOWN, P.E.I., April 7.—The debates on the address in the provincial legislature closed this afternoon. It lasted a week, every member but one having taken part. The closing hours were enlivened by a scene when Hon. Murdoch Kennedy, a member of the government without portfolio, charged J. J. Johnson, now a Liberal, with leaving the Conservative party because he had been forced to disgorge party funds he had in custody. Mr. Johnson made an indignant denial and a hot time followed.

MRS. B. GODFREY DEAD AFTER LINGERING ILLNESS

After a prolonged illness of fifteen months Mrs. Bathia Godfrey, widow of the late Gen. Godfrey of Galt, Ont., died at her residence at 418 Buxton road yesterday. She was born at Strathroy near Ayr, Scotland, in 1822, coming to Canada when quite young. The late Mrs. Godfrey was an ardent church worker and a member of the College Street Baptist Church, she is survived by four children, Mrs. A. Adams of Detroit, Mich.; Mrs. Chas. H. Dando, Galt, Ont.; Miss Jessie G. Godfrey and Capt. M. D. Godfrey, Toronto.

BRITISH READY FOR ASSAULT ON TURK LINES AT SANNIYAT

GERMAN FORCE YIELDS TO GEN. SMUTS' TROOPS

Enemy Surrounded in Mountain Stronghold in Arusha Region, East Africa, and Compelled to Surrender.

LONDON, April 7.—9:41 p.m.—Another success for the British in East Africa is reported by Lieut-Gen. Jan C. Smuts, commander of the British expedition operating against the Germans in the following despatch: "As the result of a movement commenced on the afternoon of Monday, mounted troops, under Gen. Vanderventer, successfully surprised a German force with machine guns, stationed in a mountain stronghold in the Arusha region. This force was surrounded during the course of Tuesday and surrendered Thursday morning."

RECONNOITRE POSITION ON TIGRIS AND BRING UP HEAVY ARTILLERY—STORMY WEATHER AND FLOODS COMPLICATE SITUATION.

LONDON, April 7.—Stormy weather in Mesopotamia has complicated the situation along the Tigris below Kut-el-Amara, where a British relief force is fighting its way to the relief of Gen. Townshend's beleaguered garrison at Kut and recently has made marked progress toward its goal, says a British official statement issued this evening.

A further rise of the Tigris, accentuating the flood conditions, also is reported. The official communication follows: "It appears that the second Felahie position carried by the 13th division in the course of a determined advance consisted of several lines of deep trenches. The northern flank rested on the Hawweelie swamps and the southern flank on the Tigris River. "During the day of April 6 and the night of April 6-7 the operations on the north (left) bank of the river were confined to close reconnaissance of the Samawat defences and the execution of the measures necessary to the movement of artillery preparatory to an assault upon this position. "On the south (right) bank the advance of the 13th division continued until positions were reached from which an enfilading fire could be brought up on Turkish defences on the opposite bank. "The situation is somewhat complicated by the continuance of stormy weather and the fact that the floods in the Tigris are increasing."

HYDRO RADIALS ARE TO OBTAIN RIGHTS NEEDED

C. N. R. Bills Are Allowed to Stand Over at Borden's Request.

TO ADOPT NEW POLICY Amendment to Railway Act Will Solve a Knotty Problem

By a Staff Reporter. OTTAWA, April 7.—Sir Adam Beck and the hydro radicals seem to have won their battle against the Canadian Northern. When the Niagara, St. Catharines and Toronto and the Niagara and Western Railway bills were reached on the order paper tonight Sir Robert Borden, who was leading the house, asked that they stand over. They may come up again on Monday, but it is more likely that they will not be again considered until the so-called "Armstrong amendment" is put in the general Railway Act.

OTTAWA, April 7.—In the senate today Senator Cloran stated that the remarks attributed to Sir Robert Borden that he would have introduced the naval bill only if he was certain the senate would kill it constituted an attack upon the rights and privileges of the upper house, as well as upon the honor and independence of its members.

"The senate has been attacked in the past but the old ship has come safely thru all the storms," said Senator Cloran. "It is a surprise to have a torpedo directed against the senate from the defunct naval bill under the command of Admiral Sir R. L. Borden." He challenged the statement that the senate was responsible for the fact that Canada had not furnished naval aid. The premier had said that he had sent emissaries and had been assured the bill had no chance of passing. The senator wanted to know what senators had given this assurance. There was no reply and Senator Cloran promised to bring the matter up again on motion.

SPORTSMEN'S BATTALION PLAN NEW CAMPAIGN

Boxing Bouts and Marathon Races Will Provide Entertainment for Men.

RECRUITING IS SLOW

Only Seventeen Men Were Passed Out of Thirty-Three Who Applied.

HAMILTON, April 8.—The 205th Sportsmen's Battalion, under the command of Lt.-Col. R. R. Moodie, will conduct an aggressive recruiting campaign here all next week with the object of adding another 200 men to the strength, which is now close to the 500 mark. The unit is distinctly a young man's battalion, and up to the present has met with a splendid response, and the staff are quite confident that another company will be added as a result of the current campaign.

On Thursday night the Willard-Johnson championship fight picture will be shown at the Grand Opera House or Temple Theatre in conjunction with which Col. Marlowe will speak. Friday night at the Savoy Theatre, after the regular performance, the biggest boxing bout staged in Canada for some time will be put on between Pete Scott and the winner of the Duffy-O'Leary fight, which took place last night at Buffalo.

The officers anticipate putting on a preliminary bout between McCracken and Doane or Peg-Wee Adams of Toronto.

A New Year's idea, under the auspices of the 205th, is a cabaret and dance to be given in the I.O.O.F. Temple. Acts from the local theatres will be presented and the evening will be one whirlwind of fun. The best orchestra in the city will be secured and the arrangements made ensure a good time.

A week from today the battalion will hold a ten-mile Marathon. Such prominent long-distance runners as Tom Longhead, Jim Corkery, Arthur Jamieson, Billy Woods, Everist, Lighthart, Willie Allan, and several others, all of whom have enlisted for service, will compete.

Recruiting continues to lag and yesterday the total for all the depots was 22 applicants and 17 passed men. The 173rd had fifteen apply and accepted eight, the 120th signed up three out of eleven and the Tigers had seven apply and passed six.

The Highlanders expect to have a recruiting meeting this evening in Gore Park. The band will give a concert and good speakers are being arranged for.

Serg. Harry E. Westbrook and Corp. W. G. Grant, James A. Gordon and R. F. Gilbert are going to Toronto on Monday to take the course in bayonet fighting and physical drill.

Lieut. F. L. Cook and Serg. Marshall, who have returned after a four week course in bayonet fighting and physical drill at Escholtz Park, will organize a class for instruction in these branches of the service on Monday. There will be eight officers, 16 non-coms and 32 privates in the class, which will cover a period of six days.

Boards of officers will assemble at the times and places mentioned for the examination of non-commissioned officers for qualification, depot regiment C. M. R. members, Tuesday, April 11, president Major C. B. Bell; depot regiment C. M. R. members, Wednesday, April 12, president Major C. B. Bell; depot regiment C. M. R. members, Thursday, April 13, president Major C. B. Bell.

The City of Hamilton Battalion has several platoons taking courses in bayonet fighting and physical drill at the Y. M. C. A. closed yesterday.

The 120th Battalion, under the command of Lieut.-Col. F. W. Fearman, held a parade thru the city yesterday. The band was also out and the unit presented a splendid appearance.

The Mounted Rifles are busy training these days and are in need of recruits to fill vacancies caused by the drafts going overseas, another of which is to leave shortly. A recruiting office is to be opened in the Mount-Ridings on James street in the near future with Sergt. Robbins in charge.

The sports committee of the Mounted Rifles are now out of debt as a result of the splendid attendance at the last meet that was held under the auspices of the unit in the Savoy Theatre. The hockey season put the unit considerably in the hole and the \$600 that the unit received will wipe off all debts and leave a substantial surplus for the field kitchen fund.

In reference to the statement that the government will supply all battalions with field kitchens, etc., Lieut.-Col. Bruce stated yesterday that they were not supplied until they went overseas.

PLOT TO ASSASSINATE THE RULERS OF EUROPE

Widespread Conspiracy Alleged to Have Been Unearthed at Chicago.

POISON TO BE USED

Czar of Russia First on List, With Emperor William Second.

CHICAGO, April 7.—Existence of an international anarchistic plot to assassinate all rulers of Europe has been discovered here, according to a formal statement issued today by Mackey Hoynes, state's attorney of Cook County.

The alleged plot was unearthed by the state's attorney's men while investigating the activities of Jean Cronos, suspected poisoner of the guests at the banquet in honor of Archbishop Mundelein a few weeks ago.

The state's attorney said that a list of the proposed assassinations was headed by the Czar of Russia, and that of Emperor William was second on the list.

In various cities which reached the information which was known to anarchists in various cities in America as well as in Europe. One man from each city was believed to have been delegated to the work of assassination.

The assassins were to use poison, according to the prosecutor's information. Bombs were not to be used unless it was "absolutely necessary," Mr. Hoynes said he was told.

The anarchist who supplied the information is not under arrest, but the state's attorney said he could easily reach him whenever he wanted him.

WORRIED OVER WAR GERMAN GOES INSANE
KINGSTON, April 7.—Drinking heavily and worrying over the war Henry Follex, a German, went suddenly insane and was locked up by the police. BRANTFORD'S FIRST CASE UNDER MORATORIUM ACT

Was Tried Before Mr. Justice Kelly at the Spring Assizes Yesterday.

RAILWAY ISSUES REPORT

Municipal Commission Had Surplus of Over Two Thousand for Last Quarter.

BRANTFORD, Ont., April 7.—Judgment was given out in favor of the plaintiff in the case of Smith and Jacobs, heard here at the spring assizes before Mr. Justice Kelly. This was the first case tried in this city under the new moratorium law. The plaintiff, Stephen Smith, held a mortgage against Mr. Jacobs and entered the action for judgment. The court found that there were arrears of interest and gave judgment in favor of plaintiff.

A very satisfactory report for the past quarter has been issued by the Brantford Municipal Railway Commission, showing a surplus for the quarter of \$22,137.22. Since the city took over the road operating expenses have been cut from 80 per cent. of the gross earnings to 60 per cent. The increase promised to the men in the employ of the road amounts to about \$100 a month so that in three months' time it would amount to over half the surplus. At present the 215th Battalion has

six men in the Brantford General Hospital undergoing operations to perfect their physical condition. Pte. Ross E. Easton has been allowed out after having undergone an operation. The men at present in the hospital are: Geo. E. Wilton, J. W. Wooten, R. Burkholder, James Meads, Gordon Oberon and D. J. Halstead.

Leave of absence has been granted to Messrs. Joyce and Holdsworth, principals, and William Walker, janitor of Central School, who have at tested for active service with the 125th Battalion.

SWEDISH STEAMERS SEIZED.

COPENHAGEN, via London, April 7.—The Swedish steamers Halkan, Horn and Olaf, with herring to Germany, have been seized by British warships. Their cargoes are valued at 1,000,000 crowns. It is stated that in future German herring ships will sail within territorial waters.

That Popular Bit of Daintiness—The \$5.00 Blouse

DISTINCTIVE DESIGNS, daintily fashioned, they exploit the prettiest of trimmings, with all the attention to buttons that the modes of the moment demand, and truly their splendid value is among the least of their claims. Illustrating la Mode's fondness for two colors is a pretty crepe de Chine blouse in white with wide colored bands inserted, so that it has the appearance of awning stripes. Another in similar design, slightly gathered in front to a shoulder yoke, is carried out in white, only the wide collar and turn-back cuffs being adorned with colored bands. Both these are obtainable in white and flesh, rose, coral, maize and black.

With the new and very becoming pleated back collar is a smart crepe de Chine blouse with little tucks down the front to give a becoming fulness.

A most effective Georgette blouse is made in color over a white guipure edged vest, which is a combination of the square collar. Sizes 34 to 44. Price, \$5.00. —Third Floor, Centre.

An Immense Springtime Showing of Superb Oriental Carpets With Sensational Price-reductions on Group of Living-room Rugs

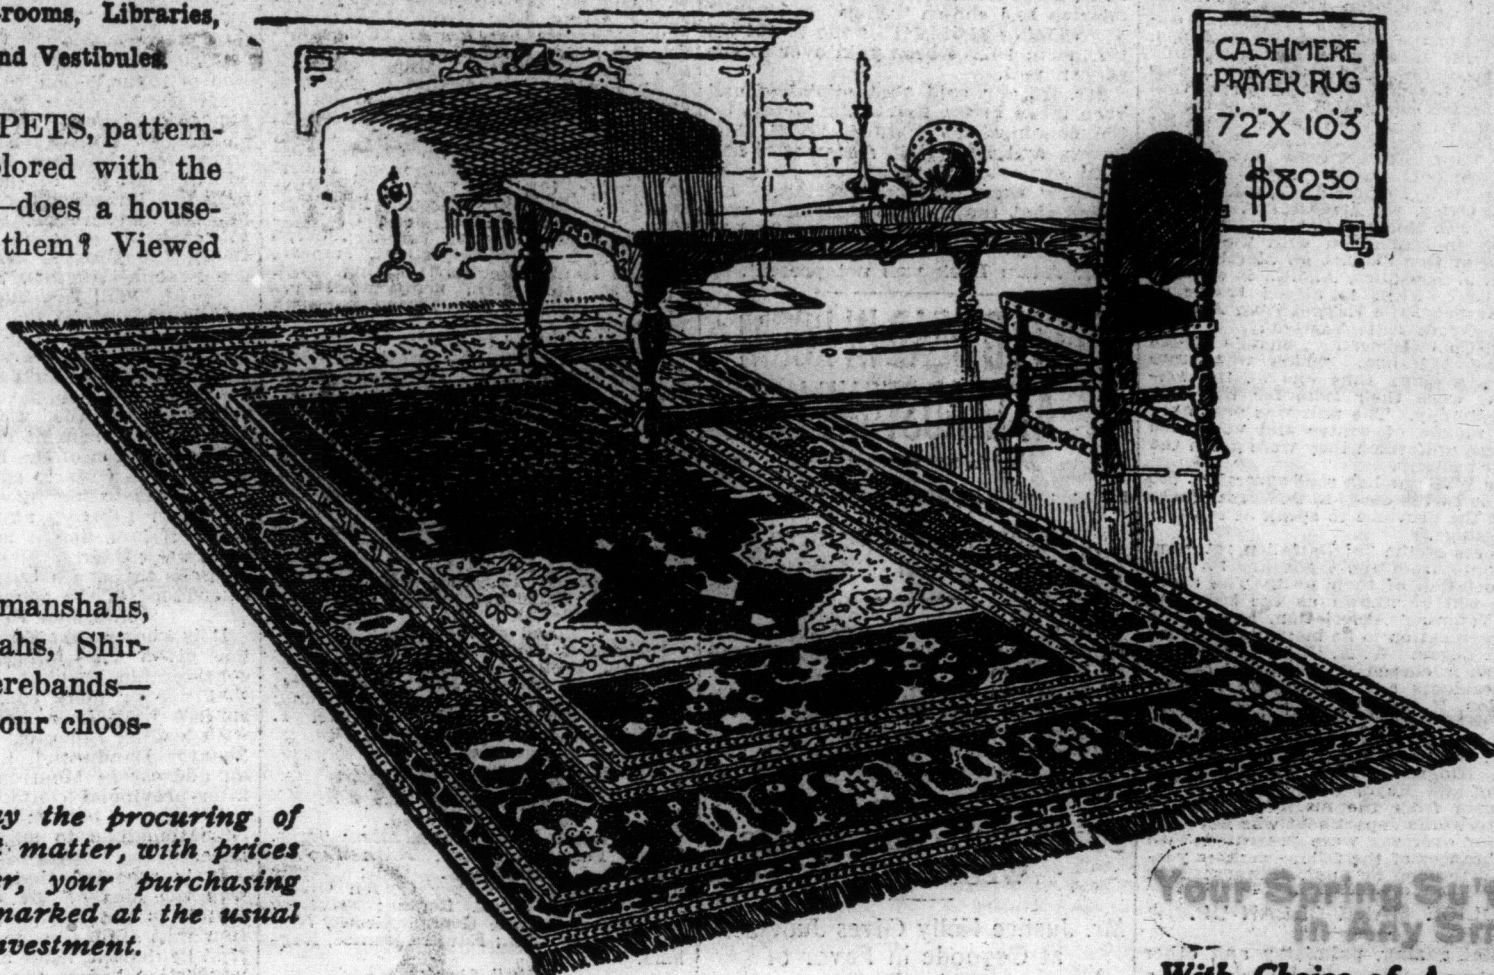

Hand-woven Eastern Floor Coverings in the Beautiful Patterning and Marvellous Coloring Characteristic of the Old Persian and Indian Handicrafts

In Sizes and Designs Suitable for Living-rooms, Libraries, Drawing-rooms, Bedrooms, Halls, Dens and Vestibules

HAND-TUFTED EASTERN CARPETS, patterned with magic artistry and colored with the loveliness of sunsets and moonlight—does a householder exist who is not interested in them? Viewed from the standpoint of hobby or utility do they ever fail to fascinate?

And here they are in a splendid display, gathered together from one fertile source and another to meet the demand of the common Spring-time instinct to beautify and refurbish one's dwelling-place. Kirmanshahs, Mesheds, Tabrizes, Ferehans, Bokarahs, Shirvans, Mosuls, Hamadans, Sarouks, Serebands—these and many others are here for your choosing in immense variety of designs.

Moreover, the fact that every day the procuring of Oriental rugs becomes a more difficult matter, with prices meanwhile soaring higher and higher, your purchasing from the present stock, which is still marked at the usual figures, means a distinctly profitable investment.

Just to quote a few examples of the remarkable values—

A magnificent Melas rug, showing rose and ivory medallion and corners on a rich sapphire blue ground. Measures 6 ft. 8 in. by 9 ft. 9 in. Price, \$137.50.

A very lovely Kirmanshah with characteristic vine-like tracery of old rose, soft green, amber and deep blue on an old ivory ground is 7 ft. 2 in. by 9 ft. 2 in. Price, \$300.00.

A handsome Anatolian rug in all-over design of green, amber, deep blue and light blue, is 6 ft. 10 in. by 9 ft. 9 in. Price, \$100.00.

An interesting group of smaller rugs—average size 4 ft. 6 in. by 7 ft.—so useful for halls, vestibules, dens, etc. Consists of Hamadans, Mosuls, Shah Abbas' in soft, mellow tones of tan, brown, terra-cotta, gray, and rose color effects. Very specially priced at \$39.50 and \$49.50.

For Quick Clearance—Oriental Rugs at Half Usual Prices

The rug our artist has placed on the floor of his sketch is one of them—a beautiful prayer rug showing plain, rich claret red centre, with border and lamp-effect of tan, blue, and deep green. The size is 7 ft. 2 in. by 10 ft. 3 in., and the price half the usual amount—\$52.50.

The offering consists of medium and large carpets especially well suited for living-rooms, among them being these:—

All-over design in tan and wine color. Size 9 ft. 4 in. x 12 ft. 5 in. Special price, \$100.00.
A copy of one of the beautiful old "tree-of-life" designs, in red, tan, and blue tones—size 10 ft. 7 in. by 12 ft. 5 in.—special price, \$122.50.

Two Smart Navy Blue Serge Coats For Little Girls 8 to 14 Years Old

In Loose Belted Style, One Having Pleats and a Yoke Like a Norfolk Jacket

FOR LITTLE MISS SCHOOLGIRL, for whom any thing fussy or fancy in the way of toggery is quite outside of the question of good taste, these simple blue serge refiners are the ideal provision.

They are delightful little specimens of fine tailoring. Made of excellent quality serge of fine worsted weave, in a deep shade of navy blue, they are beautifully finished, and lined throughout with black satin.

The coat on the little girl at the left of the sketch below shows the yoke, pleats and belt of the Norfolk style. It has black bogie buttons; and the price is \$8.00.

The coat on the girl at the right has a belt, patch pockets and is fastened with smoked pearl buttons with red centres. It is priced at \$10.00.

Both are obtainable in sizes 6 to 14 years.

Tapestry Papers Are Again In Vogue For Dining-Rooms and Halls

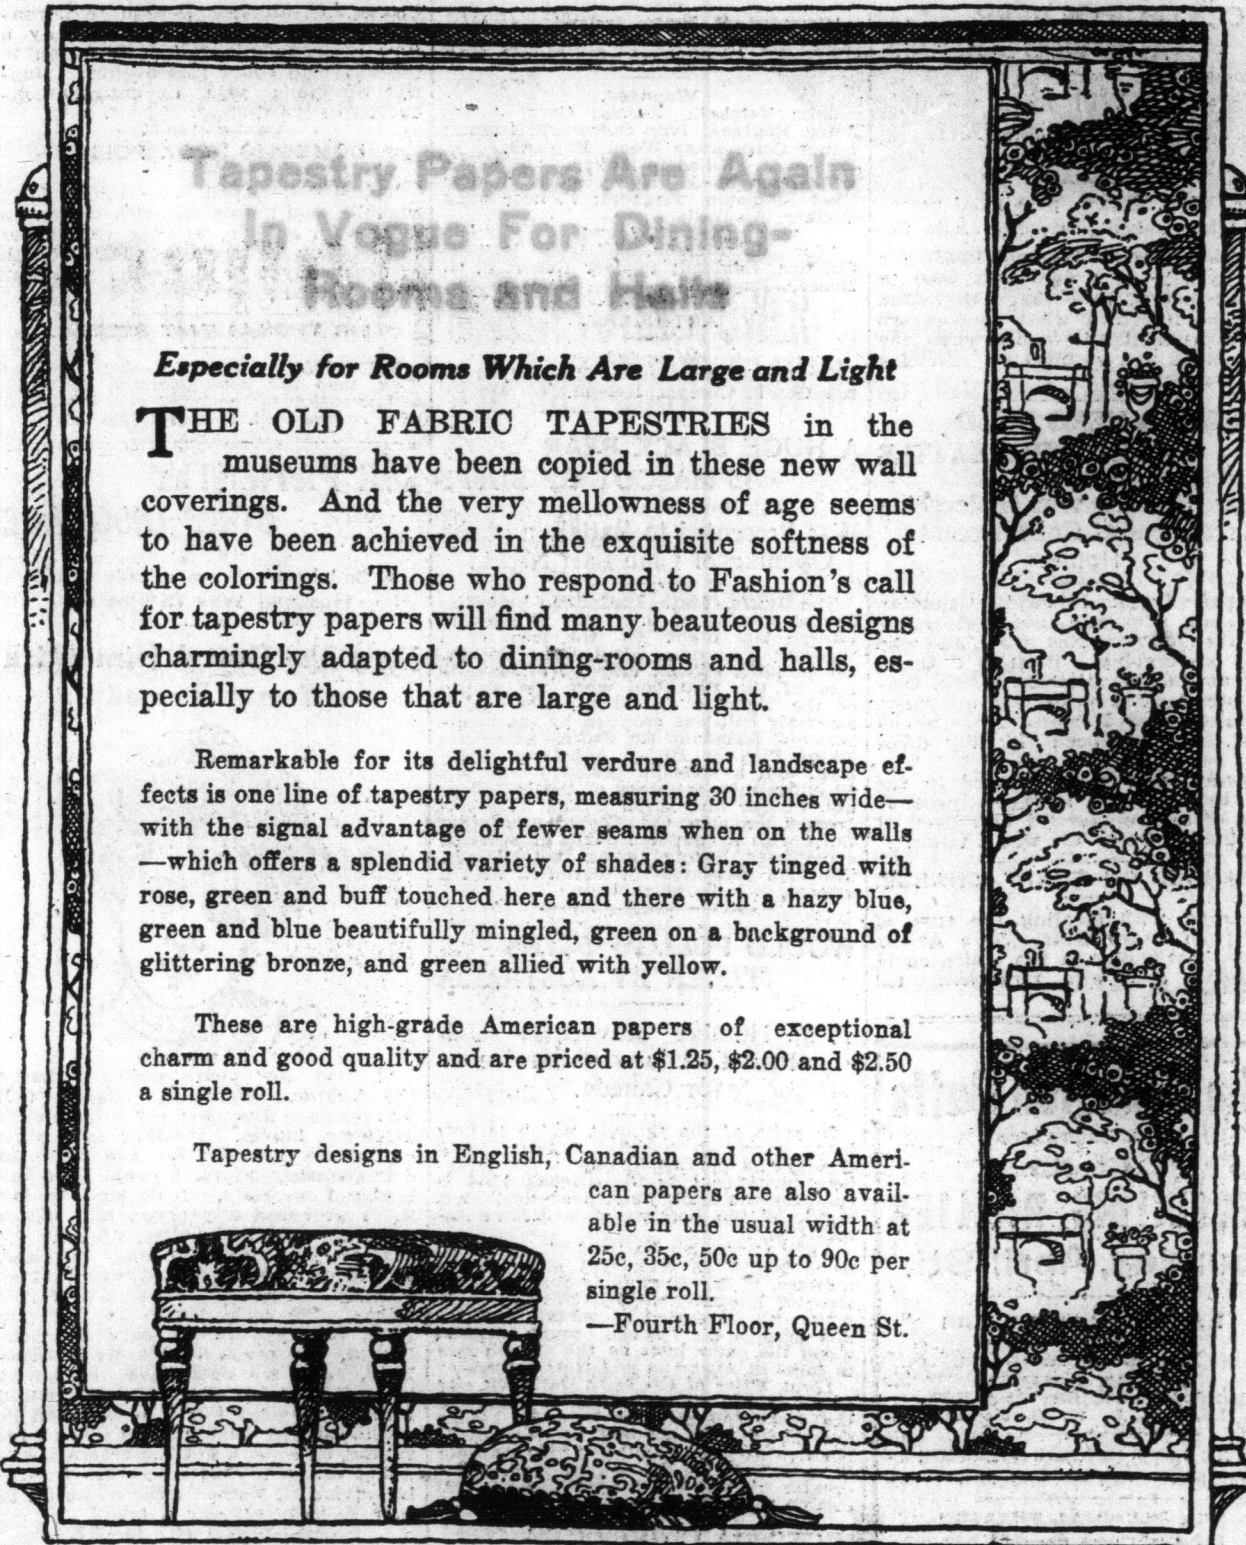

Especially for Rooms Which Are Large and Light

THE OLD FABRIC TAPESTRIES in the museums have been copied in these new wall coverings. And the very mellowness of age seems to have been achieved in the exquisite softness of the colorings. Those who respond to Fashion's call for tapestry papers will find many beautiful designs charmingly adapted to dining-rooms and halls, especially to those that are large and light.

Remarkable for its delightful verdure and landscape effects is one line of tapestry papers, measuring 30 inches wide—with the signal advantage of fewer seams when on the walls—which offers a splendid variety of shades: Gray tinged with rose, green and buff touched here and there with a hazy blue, green and blue beautifully mingled, green on a background of glittering bronze, and green allied with yellow.

These are high-grade American papers of exceptional charm and good quality and are priced at \$1.25, \$2.00 and \$2.50 a single roll.

Tapestry designs in English, Canadian and other American papers are also available in the usual width at 25c, 35c, 50c up to 90c per single roll. —Fourth Floor, Queen St.

A New Ostrich Ruff

WITH APRIL well on the way, one may expect to say farewell to furs, but cordial welcome is given to the smart neck-fixing which, affording protection to the throat yet gives a chic finish to the Spring costume.

And this new ostrich ruff meets the need of the moment while fulfilling the demands of Fashion. Of long, well curled and very full, it is 22 inches long, made in dog collar style, and procurable in plain black, white and black and white. Price, \$3.95. —Main Floor, Yonge St.

Silk Hosiery to Match The Colored Boot-Tops

GREY, TAN, WHITE, color—practically all the fashionable boot-top shades are available. These stockings have fine thread, 9-inch welt, fine spliced heel, toe and sole and high spliced ankle. Black, white or tan, per pair \$1.00; all other colors, per pair \$1.25. —Main Floor, Yonge St.

Your Spring Suit Tailored to Order in Any Smart Design You Fancy

With Choice of Any Fashionable Suiting, Except Silk or Velvet, Up to \$2.00 a Yard

INDIVIDUALITY—this is the chief lure of the made-to-order costume. In line, fabric and finish exactly according to your personal need and wish, the suit turned out for you by the Ladies' Tailoring Department has just and particular grounds for its attractiveness.

The present Spring feature is a fashionable, thoroughly well-tailored suit, complete for \$35.00.

You have a choice of any material, except silk or velvet, priced not higher than \$2.00 a yard—gabardine, serge, tweed, broadcloth, wool poplin, any of the numerous smart suitings at that amount, to be found in the Dress Goods Department on the Second Floor. Look at them, bring to the Sixth Floor a sample of the fabric you want, and our designers will plan for you some modish effect in which to have it fashioned.

The coat will be lined with silk, and good style, good fit and general satisfaction assured for the whole costume. —Sixth Floor.

You Were Inquiring?

"Mother O' Mine"—Books of the kind you want are legion—fascinating childhood tales with a substrata of real wisdom about animals, birds, plants or some other phase of out-door life. There are the "Look About You" Nature Books, dealing in their several volumes with butterflies, moths, insects, sowing of seed, etc. They are bound in cloth, beautifully illustrated, and priced at 25 cents each. The "Bed Time Stories," by Howard L. Garvis, are another popular series of stories about bear cubs, guinea pigs, rabbits, ducks, dogs, kittens, squirrels and chickens. "Lulu, Alice and Jimmie Wibblewobble," is the attractive title of the duck book. "Johnnie and Billy Bushytail," that of the squirrel book, and so on. They are bound in cloth, illustrated in color, and priced 50 cents each.

Probably you are familiar with the "Bedtime Story Books," by Thornton Burgess. They consist of "The Adventures" of various interesting animal folk, such as Reddy Fox, Peter Cottontail, Danny Meadow Mouse, Sammy Jay, Jerry Muskrat, Uncle Bill Possum, Johnny Chuck and others, to each of whom a book is devoted. These are cleverly illustrated, bound in cloth, and priced at 50 cents each. And then, of course, there are the famous Peter Rabbit Books by that English writer, Beatrix Potter, whom the critics have called "the literary god of children." These are 25 cents each—cloth bound, with fascinating illustrations in both color and black and white.

Pandora—Well, a little of the hope which you've kept in your box will have to be allowed to escape, too, I am afraid. For the nigger brown suit most like the sketch you enclose, has a flat collar and revers instead of the high convertible effect. The back of the coat flares out similarly in circular style, with a yoke across the shoulders, and the skirt is plain and wide. The material is wool poplin and the price is \$18.50.

Inquirer—That huge drawing-room must be flooded with sunlight most of the day. One would suggest plaster gray walls, soft, leaf green rug, and a large-patterned chintz for curtains and slip covers—one of those designs with lots of vivid pink petals, blue-winged birds and green foliage in it. Then fill up the corners of your sofas with cushions covered in a plain style, in the shades you want to accentuate in the room—probably old blue and green.

For the dining-room walls one of the new tapestry papers in wood brown tones should provide a good background. You will find all particulars concerning them in another column on to-day's page. With this a brown Axminster rug, patterned with a little black, would be nice; while the curtains should be of plain amber color—cassinet silk, wool napp, or any of those mohairs or heavy cotton weaves that look so well and are not expensive. And practically the whole dining-room treatment might be repeated in the hall—with the exception of the rug, which for the sake of the hard wear it will receive, should be a well-covered conventional or Oriental design in subdued tones. —THE SCRIBE.

TORONTO'S BORROWING POWER NEARING LIMIT

Statute Bars City From Raising Loan of More Than Million and a Quarter.

THIS MAY BE REDUCED

Permission Asked to Issue Debentures for Certain Items in Year's Estimates.

Having in mind the recent action of the private bill committee of the Ontario Legislature when it was decided not to allow the city to exclude its share of local improvement debentures in calculating the debt limit of the city the following figures are interesting. According to the latest figures, based upon the action of the legislature, the city still has a borrowing margin of \$1,223,951. This may be reduced, however, by nearly half if permission is given to issue debentures for certain items appearing in the year's estimates, which total \$575,810.

Table with financial data: Gross bonded debt, Unnegotiated debentures, Gross bonded debt, Exemptions, revenue-producing projects, Net debt, Borrowing limit, Margin on borrowing limit.

Resides these an item appears in the property department estimates covering fixtures for the new registry office, amounting to \$45,000, and this also may be included in the assessment. The following is a summary of the gross debt limit to the end of December, 1915, against which there is a total in the sinking fund of \$1,623,210.

Table with financial data: General debt, City's share local improvements, Toronto Railway, Local improvement debt, Included in this total are \$7,335,895 of unnegotiated debentures.

SPRING BLOOD IS WATERY BLOOD

How to Get New Health and Strength at This Season. Spring ailments are not imaginary. Ever the most robust find the winter months most trying to their health. Confinement indoors, often in overheated and newly aired banister-filled rooms—in the home, the office, shop and the school—taxes the vitality of even the strongest. It becomes thin and watery and is clogged with impurities. Some people have headaches, dizziness, languor. Others are low-spirited and nervous. Still others are troubled with disfiguring pimples and skin eruptions; while some get up in the morning feeling just as tired as when they went to bed. These are all spring symptoms and a serious mistake. You cannot cure yourself with a medicine that purges the system in the spring. This is a serious mistake. REGISTERED PROTEST AGAINST IMPROVEMENTS

"This is War Time" Alderman McBrien Told Civic Works Committee.

Yesterday's meeting of the civic works committee was a very frivolous affair and practically no business of any importance was transacted.

At the outset Ald. McBrien protested vigorously against a proposal to go on with local improvements during the war, but Ald. McBride and Beamish wanted to see the work commenced. "This is not the time to put down sidewalks and pavements in districts recently subdivided," declared the representative of ward six.

GRANT RECOMMENDED TO HAMILTON HIGHWAY

Controller Foster Only Member to Argue Against Move at Yesterday's Meeting.

With only Controller Foster dissenting, the board of control yesterday decided to recommend to council that they pay \$100,000 towards the construction of the Toronto-Hamilton highway. Controller Foster maintained there was no guarantee that \$230,000 would be available to complete the undertaking. "They didn't consult the municipalities, but now they are short they come forward as supplicants," he said.

SCORE'S TALK ON CLOTHES.

The Morning Coat—is an excellent example of present day style, both the bound edge and plain edge kind being shown. The shoulders are natural and the waistline a shade lower than the ultra dresser demands, but the general effect is good and the accessory features from silk hat to gaitered or gaitered-top shoe are in keeping with the taste of the time.

The Wagon Shop That Became the Largest Automobile Factory in the British Empire

Back in 1908, the town of Walkerville, Ontario, was possessed of a concern called the Walkerville Wagon Company. If on some day when business was not rushing, the general manager, Gordon M. McGregor, wished to take a little stroll, he could walk around his shop in about 2 minutes by the factory clock. Nobody would have believed at that time that this shop would, in a few years, develop into the largest plant of its kind in the Empire having a floor acreage of over 455,000 square feet and making 8 times as many cars as any other automobile factory in the British Empire.

home it is no time for the parents to be trying to make gain of each other's necessities.

It is possible that Hamilton merchants may have some justification for their claim, but they should consider well before they invite outside competition. Hamilton merchants have a reputation for being rather jealous of outside competition at all times. There should be no need for any such fear. Hamilton ought to be able to live much more cheaply than Toronto. Rents are lower and comparatively everything else is on a lower level. Wages in Hamilton do not call for greater exactions from customers than in Toronto.

Perhaps Hamilton is still a little wedded to the older methods of business, small turn-over and large profit. We hear of Hamilton people coming to Toronto to buy goods and saving their expenses. We can see no reason with the advantages Hamilton possesses that Toronto people should not be prompted to Hamilton to buy goods and save money. Perhaps the Hamilton merchants have not figured on this side of the problem.

Few people can understand why Hamilton should charge more for bread than Toronto does. On the face of it Toronto people might expect to go to Hamilton and buy bread cheaper there than at home.

Efficiency Policy Works
Already the new finance administration at the city hall has indicated what is possible under skilful and experienced guidance. We have supported every movement towards efficiency in the city's affairs, and we have been justified in our belief that such efficiency is not obtainable without the aid of the best assistance that can be procured.

In the appointment of the new treasurer we felt that the city had obtained the services of a man who would justify the theory on which the reform of the city hall departments had been advocated. The announcement of the short time loan made in New York at the rate of three and one-half per cent. for six months is, in many respects, an innovation. The custom has usually been to overdraft the city's accounts at the banks and to take out these supplies with small loans. The cost has averaged four and a half per cent. at least. The present arrangement shows a saving of one per cent. on two millions for six months, which nets the city \$10,000.

The taxpayers who objected to high salaries should think hard over this first result of a policy which we anticipate will produce, as time passes, results of even greater importance and larger profits to the citizens.

The taxpayers who objected to high salaries should think hard over this first result of a policy which we anticipate will produce, as time passes, results of even greater importance and larger profits to the citizens.

ONLY ELEVEN PERISHED IN SINKING OF SIMILA
Mediterranean Disaster Not Nearly So Great as Had Been Feared.

LONDON, April 7.—Eleven Asiatic members of the crew were drowned when the Peninsular and Oriental liner Simila, was sunk in the Mediterranean, but all other persons aboard the vessel were saved, according to a Lloyd's dispatch this afternoon.

The Simila, built at Greenock in 1894, was owned by the same company that owned the liner Persia, sunk in the Mediterranean last December, with a heavy loss of life, but was a slightly smaller steamer, displacing 5884 tons. She was 420 feet long. Several months ago her regular service was cancelled and she was taken over by the government.

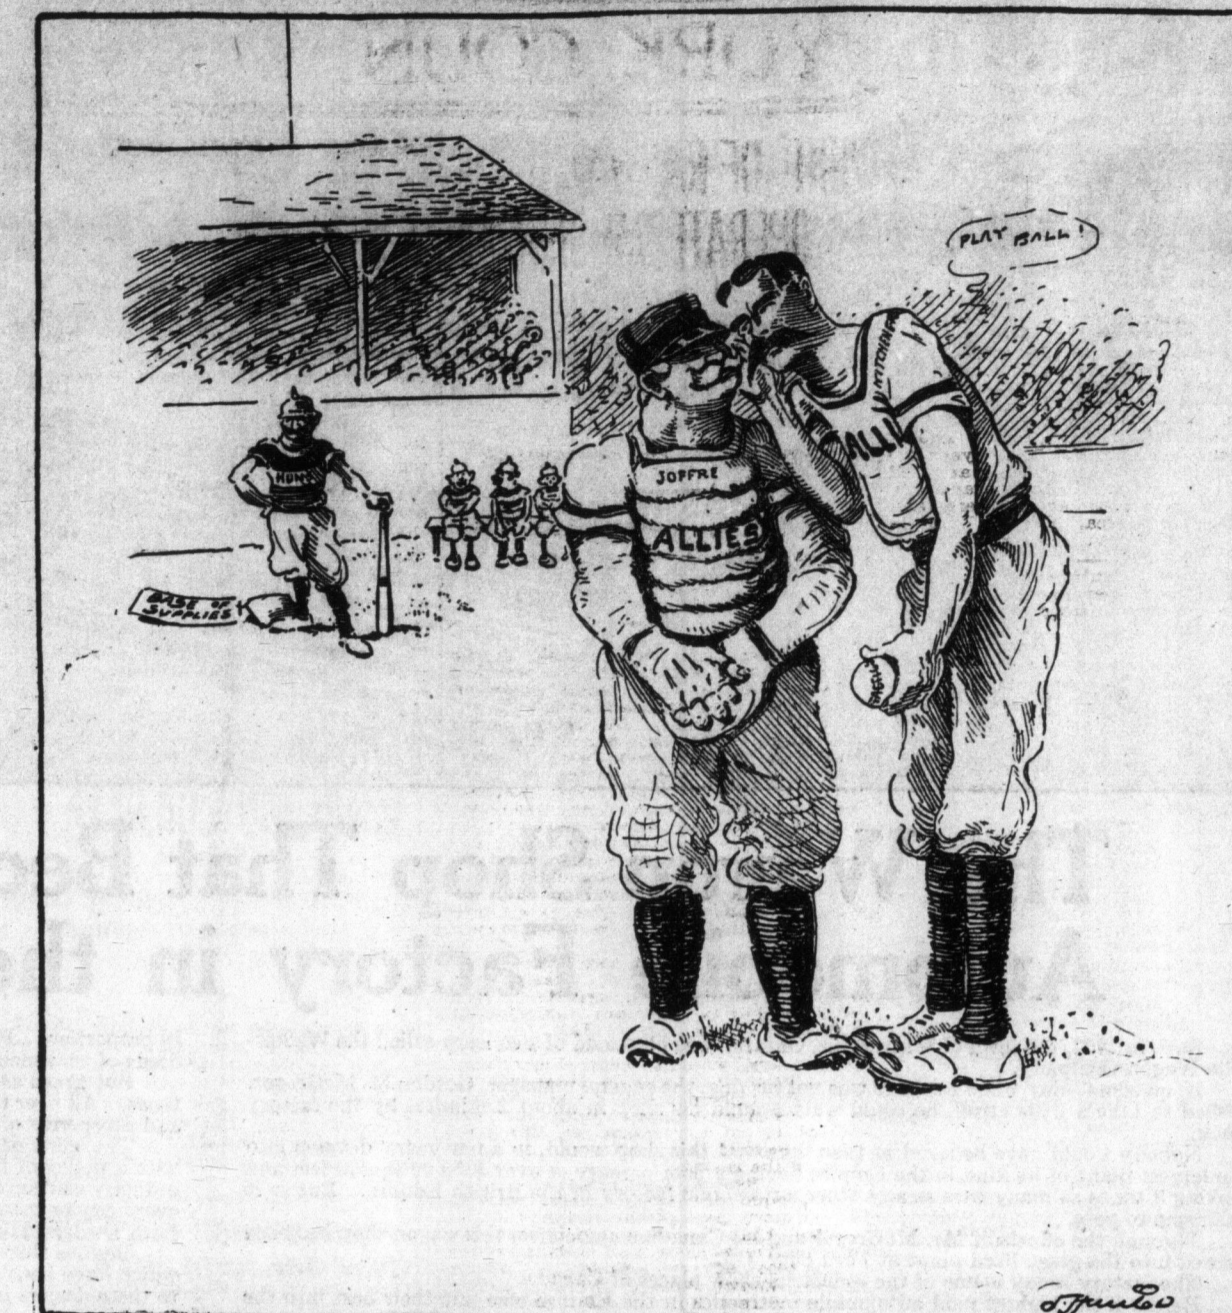

It is thought the Simila may be the ship referred to in an Athens despatch to The Mail, which says that a telegram to the effect that a large transport belonging to the entente allies has been sunk off the west coast of Greece. The telegram added that it was believed many were lost.

Hamilton's Daily Bread
Hamilton has a bread problem on hand. The citizens are not reduced to the breadline solution, nor is it such a problem as the breadline attempts to solve. It is probably more of a baker's problem than a bread problem. At any rate the bakers have put bread up to seven cents a loaf and the people object to pay more than six. Captain Walters, the patriotic mayor, has interfered in order to assist the citizens and reduce the price. His method is to import bread from Toronto and sell it at the old price of six cents.

It is to be deplored that any section of the producing or manufacturing public should attempt during the war to make profit out of the necessities of the people or out of any circumstances which offer an opportunity for undue profits. There is a general belief that the price of wheat and flour does not justify any increase in the ordinary rate for bread. Whether the private merchant or manufacturer has a right to extract all the profits he can out of his opportunity is a question which is not to be decided by any mere expression of philo-sophy or political science.

The war has changed all theory into practice. People must consider each other's interests to a larger extent than they have been in the habit of doing. When men's sons are dying together for each other's sake,

SECRET INSTRUCTIONS

REICHSTAG HEARD PLEA FOR BELGIAN FREEDOM

Leader of New Socialist Group Caused Uproar by Plain Talking.

LONDON, April 7.—There was an uproar in the German Reichstag yesterday, says a Reuter despatch, when Hugo Haase, leader of the newly-formed Socialist minority group, declared that his party was strongly opposed to partition of Poland and demanded the restoration of Belgium.

"The Baltic peoples, Lithuanians and Letts did not desire union with Germany before the war," said Herr Haase. "The injustice done to Belgium must be compensated for by her restoration as a state. In 1913 Herr Von Jagow (foreign minister), declared Germany would uphold the neutrality of Belgium. Thus all the more surprising was the chancellor's announcement on Aug. 4, 1914, that German troops probably had crossed the Belgian frontier."

Herr Von Jagow said in reply: "Herr Haase has distiled up again old Belgian stories. When I made the declaration about Belgian neutrality I considered it a neutral country. It has been thoroughly proved that the responsibility for what has happened lies on Belgium's side."

Further Aid Offered Canadian Railways in Relief of Congestion.

MONTREAL, April 7.—With reference to the C.P.R.'s embargo against the Canadian Government railways, officials of the 76th Battalion, which is in charge of the C.P.R. cars at St. Rosalie Junction on April 5, the average for the past four days being seven and a half cars, in spite of the fact that on March 25 Mr. G. G. Cartier, minister of the interior, announced that the C.P.R. would take 60 cars a day from that junction. In other words, the Canadian Government railways, the C. P. R. recently loaned 12 locomotives, but the situation, so far from being relieved, has become so grave that the C.P.R. is considering the possibility of still further tightening the existing embargo on loaded cars at both Rosalie and St. John's Bay.

The position today is that the C. P. R. has 621 cars of which it wishes the Canadian Government railways to accept delivery.

WRECK AT SMITH'S FALLS.

Engine and Several Freight Cars Were Smashed.
SMITH'S FALLS, Ont., April 7.—A freight standing on the main line of the C.P.R. was hit from the rear in the yards here by a double-header. The first engine was derailed and completely ruined and a van and three freight cars were broken to pieces. Two of the cars were carrying shorts, while the third was loaded with lumber. Traffic was tied up for several hours. No one was injured.

A Line of Cheer Each Day of the Year

My days I dedicate,

SOME TEUTONS ASSAIL PRUSSIAN MILITARISM

German Humanity League Issues Manifesto Urging Deliverance From Yoke.

ROTTERDAM, April 7.—In a counter-blast to the German chancellor's Reichstag speech, the so-called "German Humanity League" today issued a manifesto urging all Germans in neutral states to unite to prevent the most to deliver Germany from the "savage and brutal militarism of Prussia."

The manifesto charges that the German Government has broken "every rule of civilized communities, diplomatic honesty and moral officers and is responsible for the colossal carnage of domestic grief, financial ruin and economic misery, which, like a nightmare from hell, distracts the German people."

CANTON'S PROCLAMATION MAY BE YUAN'S FINISH

Other Southern Provinces Expected to Follow Suit in Declaring Independence.

SHANGHAI, April 7.—The independence of Canton was formally declared yesterday afternoon after a conference of military and naval officers and leading citizens with Lung Chi-Kuang, the governor of Kwangtung Province. No fighting took place. The secession is considered important here, as observers of the situation look upon it as pointing to the probable downfall of Yuan Shi Kai, as it is expected to lead to the defection of other southern provinces and strengthen the hands of the southern leaders in their reiterated demand for Yuan's retirement and the re-institution of the Nanjing constitution.

EXAMINATION OF SHIPS RESENTED BY JAPANESE

Britain's Thoro Methods Appear to Have Caused Some Friction.

HINDUS WERE SEIZED

Questions Will No Doubt Be Settled in Amicable Manner.

TOKYO, March 11.—(Correspondence)—The frequent recurrence of detention and examination of Japanese merchant steamers by British court-voiced cruisers in Indian and Chinese waters, especially the reported firing on the Nippon Yusen Kaisha liners Chikusen Maru and Miyazaki Maru, has excited public opinion in Japan. The press and prominent naval officers denounce the reported action of the British warship as unlawful, and go even to the limit of calling it an insult to the national flag of Japan as well as a menace to Japanese shipping, involving losses to overseas trade.

BERLIN SAYS BULGARS TOOK FRENCH BRIBES

Prominent Politicians Reported to Have Been Placed Under Arrest.

BERLIN, April 7.—Via Wireless to Tuckerton, N. J.—Two prominent Bulgarian politicians, Dr. N. Ghenadiev, former foreign minister, and M. Malinoff, former premier, have been arrested for accepting French bribes, says a Sofia despatch to the Overseas News Agency. The despatch says: "The Bulgarian politician Ghenadiev has been arrested because of the finding of a list of Bulgarians who were bribed by the former French Minister of Justice Cruppi in which Ghenadiev was mentioned as receiving 5,000,000 marks as lawyer fees. The total sum used for corrupting Bulgarian politicians amounted to 18,000,000 marks. The money was distributed as payment for pretended corn sales. Ghenadiev was arrested with M. Malinoff and other pro-Russians at the request of the examining judge after a dinner given by the president of the Sobranje."

ANOTHER DANISH SHIP SUNK

COPENHAGEN, via London, April 7.—The Danish steamer Stjerneborg, from Newcastle for Ragnoil, Italy, has been torpedoed and sunk outside Cagliari, Sardinia. The crew was saved.

FORCED TO SIGN PAPER CLEARING CONTRACTOR

More Sensational Evidence Given by Engineer on Victoria Harbor Job.

OTTAWA, April 7.—G. E. Mallory, the engineer employed by Contractor McDonald on the Victoria Harbor job, resumed his sensational testimony before the public accounts committee today. Mallory gave further particulars to support his assertion that the amount to rock excavation was grossly over-stated in reports to the government. Describing his break with McDonald, Mallory said he told him what he thought of the whole business and demanded his cheque. He had previously demanded an increase in salary. A short time afterwards, he said, two strangers had come into the office and told him he would be prosecuted if he did not sign a statement or affidavit clearing McDonald. He said they grabbed him, forced him against the wall and finally he signed. He reported the matter to C. G. A. Bernard, M.P., who had consulted with R. F. Green, M.P., but nothing was done, so the men came back three days later. They were finally warned to get out by the local detectives.

Berlin Asserts Complete Understanding Has Been Reached.

BERLIN, April 7.—Via Wireless to Tuckerton.—A recent interview between the Roumanian ambassador and the Bulgarian minister of finance resulted in a complete understanding concerning the transportation of goods from and to both countries, and the train will start within a few days, says a Sofia despatch given out by the Overseas News Agency.

STOLE WEARING APPAREL

Mrs. Rosina Hoover, 261 Brunswick avenue, was arrested yesterday afternoon by Detective Mitchell on a charge of stealing various articles of wearing apparel given out by the Overseas News Agency.

BATTLE LOSSES OF FOE GREATEST YET IN WAR

Two Hundred Thousand Minimum German Casualties Before Verdun.

FRENCH, GIVE PROOFS

Enemy's Reinforcements Used Up as Fast as Put in Line.

(Continued From Page 1.)
Regiment and its reserves was put out of action by our machine guns in the ineffectual attack against the slopes of the fort. The 80th Regiment met similar losses, of which the total reported was 60 per cent. of the regiment's effectives.

Solely Attacking Losses.

The foregoing are only losses during actual attack, and do not include the losses of regiments in the trenches or in reserve under the fire of our cannon. They are solely the result of actual losses. We know that certain German units have had very high current losses, that is to say, losses from artillery fire, when no action of the infantry was in progress. We cite, for instance, the 27th Regiment of Infantry, which was surprised by our fire while on the march to the trenches. It lost about 800 men, and from this fact was replaced by the 19th Regiment, which had been decimated by our machine guns.

Heavy Infantry Force.

"Summarizing during the 30 days from Feb. 21 to April 1 the Germans had on the Verdun front from Avocourt to Eparges exactly 232 battalions of infantry, representing a minimum of 1076 companies of infantry, besides 22 battalions of engineers of three companies each, which give an aggregate of 1144 companies fully reinforced, the companies varying from 200 to 250 men, the average being, therefore, represented at least 285,000 infantry alone.

Big First Line Losses.

"Declarations gathered from prisoners and our own observations lead us to estimate at least one-third of the total force engaged as the minimum losses of the German infantry up to April 1. It is, therefore, 150,000 men which have fallen solely upon the first battle line.

"But the German losses do not stop there. In a modern battle long range guns reach far behind the first line striking lines of communication and the quarters of troops. As the range of the artillery lengthens, the zone of destruction behind the battle line increases proportionately. The German artillery, literally piled up in the woods, suffered losses comparable with those of the infantry. Finally, our heavy artillery reached supply camps and innumerable convoys in the rear.

"We arrive thus, keeping within a most moderate estimate, at upwards of 300,000 men as the figure of our enemy's losses before Verdun."

COBB IS THE GREATEST

B. KAUFF ADMITS IT
Giant Player Modest in His Claim
—Rowland is the Whole Works.

"What do you think of 'Ty Cobb'?" repeated Benny Rowland after Sunday's game in Houston. "I'll tell you, listen! I never compared myself to Cobb. That statement was wrongly charged up on me because I could not compare myself to Cobb, a player in the game. So far as I am concerned, I consider him the greatest player I have ever seen. I am not in myself and my ability to play baseball, but as for being a second Cobb—never."
A Wichita, Kan., despatch says: Manager Rowland of the White Sox believes in running his team on and off the field by the national open at Brookline, never had a captain since he entered the game as leader. He admitted here today he would not have been in it if Rowland thinks a manager should take the blame for what comes up, and many times since donning his uniform he has pondered the question of whether it is known to him that he is necessary incumbrances of a club.
The good playing of cheapy Peck in centerfield and at bat was one of the interesting incidents of the game yesterday in which the Sox regulars beat Shawnee, 4 to 1. Peck helped amuse the crowd by catching a fly ball in his hip pocket. He was the heaviest batter on the road only a few days since breaking camp at Mineral Wells, but the boys are in condition and are going to be playing games at Comiskey Park, where the contests will count in the fight for the pennant.
Tim Scott, who has been on the sick list, was the Bowland choice to pitch for the Sox today against the local team. Jim was not feeling much like working early, but said he would go out and warm up and try to drive away the blues. It is one of the peculiar facts of the training trip that both Scott and Benz, who were south early, and were in the best of condition, are ailing. Benz has a bad cold and Scott is troubled with the carache.
Leonard J. Madden, formerly owned by the Brooklyn N.Y. Club, has signed to pitch with the South Bend Central League Club. He is a left-hander and will play with Terry Haute in the same league last season.
With the signing of three players, President Harry Stuhleifer of the Evansville Central League Club has announced he has filled the roster of his team for 1916 season. The three men he has signed are: Charles Wheatley, a pitcher of New Orleans; James Whelan of the Boston Red Sox; and a left-hander, O'Dell of the San Antonio team of the Texas League.
Ed Walsh, Jack Coombs and Chief Bender are 33 years old. Christy Matheson is 35, Eddie Plank 43, Red Ames 34 and McConnell of the Cubs 39.

McDERMOTT, NOTED GOLFER, IN ASYLUM

PHILADELPHIA, Pa., April 7.—Jack McDermott, twice the national open golf champion, winner on a number of occasions of the Philadelphia, Shawnee and other sectional championships, has been in the Pennsylvania Hospital for the insane since Nov. 8. The finest golfing machine ever developed in the country has gone to smash, but Philadelphia golfers hope that proper treatment and care may yet restore his reason.
In 1913, Ray, Vardon and Wilfred Reid made their tour of the United States prior to the national open at Brookline, when they came to Shawnee a week or so before the national. In one of the best fields ever developed in the country, McDermott proved the victor. That night the prizes were awarded, and in a speech, which his friends have always insisted was meant to be jocular, McDermott said that the British golfers might just as well return home, as the home-breds were going to win at Brookline. Unfortunately, the speech, twisted into a sensational attack on the British players, was sent from Shawnee, and this more than anything else was the cause of the subsequent mental breakdown of the home-bred wonder.

"Tris Speaker will not be traded." This definite statement, made over the phone to Boston yesterday by President J. J. Lannin of the Red Sox, brought joy to the hearts of all Hub baseball bugs who had been on the anxious seat since the report from New York said that the Texan was to be traded for Maisei. "I haven't thought of such a trade," continued Mr. Lannin. "Any such report (that Speaker was to be traded) is absolutely untrue. Tris will sign in a few days, and will be in centre field, if the same as always."
"The statement I issued this morning saying that Tris was trying to persuade the New York owners to make the trade."

SPORTSMEN'S BATTALION AFTER MORE RECRUITS

Big Campaign to Be Conducted in Hamilton to Secure Two Hundred Men.

RETURNED SOLDIER HURT

Sergt. McDoyle, on Motor Cycle, Collided With Street Car—Leg Amputated.

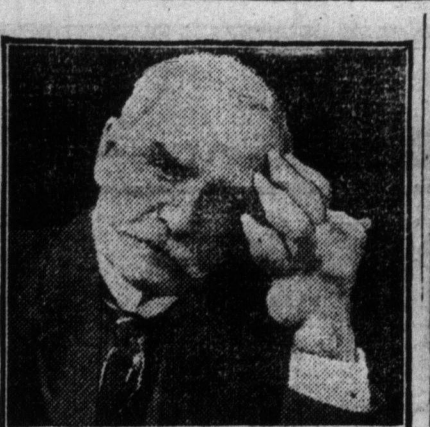

HAMILTON, Saturday, April 8.—The Sportsmen's Battalion, under the command of Lieut.-Col. R. R. Moodie, will conduct an aggressive recruiting campaign here this week with the object of adding another 200 men to the strength, which is now close to the 500 mark.

Herbert Dickenson, guardian of Wentworth County, is strongly opposed to the county contributing any portion of the cost of the proposed bridge across the bay as an entrance for the Toronto-Hamilton highway.

At a meeting of the pupil committee of Victoria Avenue Baptist Church, it was unanimously agreed to extend a call to the Rev. William Ross, late of London, Eng.

Recruiting for overseas service reached an acute stage last night when all the overseas battalions vied with each other in strenuous attempts to obtain and hold recruits.

FOE PROMISE USELESS

Germany Cannot Be Trusted—Speech to Delude Countrymen.

BERLIN SOLDIER RETURNS

BELLEVILLE, Ont., April 7.—Sergt. A. H. Davis, who was a British soldier in the trenches and who left here in August, 1914, to join his regiment, the Inniskilling Fusiliers, returned here in Belgium.

HE SPEAKS SUNDAY

Rev. Dr. Wilson, Knox Church, Hamilton, who speaks at the La Plaza Theatre in the evening.

Referring to Dr. Von Bethmann-Hollweg's statement that Great Britain is responsible for the continuation of the war and that he made proposals last September to which he had received no reply, Lord Robert said:

"By singling out separate powers among the allies the chancelled endeavor to sow mischief and distrust among them, but he has failed. Nothing in any public speech he makes can ever form the basis of peace overtures."

"These periodical speeches in the rebroadcasting are cunning blends of bombast and peaceful protestations. They all run the deliberate design to nourish German hatred of England."

"Do not make any mistake, Germany is unchangeably a nation of war-fare. Her aim is to conquer, and she will not rest until she has reached the goal of her ambition."

"It is clear," Lord Robert continued, "that the Germans themselves did not make any proposals, in spite of what the chancelled now proclaims."

"The French official communication issued last night says: 'Yesterday the British official communication in reply to a portion of the German communication of March 27. The fighting continues.'"

"The Russian official communication issued by the war office yesterday, follows: 'In the region of Riga and the Dvina front, the Russian troops were actively engaged in the region southwest of the Dvina front, and 77 men prisoner, including one officer and 77 men, were taken by the Russian troops.'"

"On the Dniepr front, there was an exchange of fire. In this region the ice has melted completely, and the flood is slackening."

"The Russian official communication issued by the war office yesterday, follows: 'In the region of Riga and the Dvina front, the Russian troops were actively engaged in the region southwest of the Dvina front, and 77 men prisoner, including one officer and 77 men, were taken by the Russian troops.'"

REACTION FOR WHEAT ON DISTURBING NEWS

Diplomatic Outlook, Taking Bad Turn, Adversely Affects Chicago Market.

BIG SHORTAGE IN CROP

Declines on New York Exchange Also Had Effect on Grain.

CHICAGO, April 7.—Disturbing aspects of the diplomatic outlook had a bearish influence today on wheat and more than wiped out any advances made by the government crop report.

Attention of wheat traders in the late dealings centered chiefly on New York stock market declines, which were regarded here as indicative to a serious extent of dubious prospects concerning the foreign relations of the United States.

LIFELESS MARKET IN MINING ISSUES

Volume of Business Small and Trading Devoid of Snap.

Sales of slightly over 41,000 shares represented the day's transactions at the Standard Stock Exchange yesterday. The market was tame and lacking in snap. Despite the quietness however, no declines of any consequence took place. On the other hand there was little to record in the way of advance and price fluctuations were narrow.

The public element was entirely lacking, making the market professional in tone. The underlying conditions of trade are said to be good, which would seem to be borne out by the fact that stocks react when pressure is brought to bear and recessions are comparatively small.

Silver was down 1-3 from yesterday's close. The underlying conditions of the Cobalt stocks which in the present lethargic seem unresponsive to this important factor on the way or the other.

In the Porcupine, Dome Extension was comparatively active but earlier in the day, opening at 36 1-2 and selling down to 35 1-4, closing there. Big Dome was quiet, but an odd lot transaction was recorded at \$27.75. No transactions were recorded in Hollinger, but the bid was \$27.

Timmins—The shaft on the Jameson claims, taken up by Duncan Chisholm for Chisholm's Corporation, Limited, Toronto, is now down forty feet. The visible gold occurrence, some of which is similar to the Leyson-Dobie in the west, has been very encouraging. At present most of the men are doing surface work on the Jameson and Navarre claims, stripping and trenching on parallel levels.

Timmins—The Porcupine Crown is now running thru the mill some of the high-grade ore found on the 700-foot level a few months ago. This ore is being mixed with that coming from the different levels and will increase the mill average considerably.

Timmins—Manager Frank Culver and members of the Beaver and Timmins claims have been in the Porcupine gold camp. The news of the Schumacher and seemed very favorable, impressed with developments there. They will return to Cobalt, stopping off at Kirkland Lake to look over the Kirkland Lake Gold Mines, limited, which the Beaver has optioned thru stock and is now developing. He expressed himself as well satisfied with the Kirkland Lake property. Crosscuts have been started on the 175-foot level. The main vein went out of the shaft and should be encountered soon.

Elk Lake—From indications Elk Lake will join with the other camps this year in the promised activity. The Paragon Mines and Crew-McCarlane Company have both purchased complete machinery with which to carry on development work. The Hewitt Lake Syndicate will also do some work on its properties. The present high prices of silver have created optimistic feelings in the companies operating in Gowanda.

Within the past week or more there has been considerable activity in the Toronto stock market. This is said to be largely due to an option on 1,800,000 shares of the capital stock of the company, which is 2,500,000 shares of a par value of \$1 each.

A shipment of 148 bars bullion, was made this week to London, Eng. Nipissing. The shipment contained a total of 174,173.44 fine ounces, valued at \$109,290.70. This makes a total of 1,512,288.57 ounces, worth \$1,119,826.34, shipped by Nipissing this week.

R. E. Kemmer in his weekly market letter says: The market of the past week for the Porcupine and Cobalt shares has been a most decidedly puzzling affair; public interest has been continued in full measure, the technical strength of the market has been in nowise impaired, the metal markets have shown yet further improvement—all the factors have been favorable beyond question—but, in spite of all this, it is indubitably the fact that important movements have not materialized.

It would seem that the public attitude in the case of interest, temporarily quiescent, merely awaiting the eventuation of some decided or sharp movement to stir it into activity.

START WORK ON MAY. TIMMINS, April 7.—Mining operations will be started on the Porcupine Independence Mining Co.'s properties in Jameson Township in the Kamiskotia district in May. J. A. Fuller has just returned from Boston, where the company has been reorganized.

STOCKS SHOOK DOWN BY ALARMING RUMORS

New York Financial District, Made Nervous, Hurriedly Sells Shares.

RETRIEVED LAST HOUR

Decline Recorded in Rates of Exchange on Paris Over Verdun.

NEW YORK, April 7.—The financial district was alive today with rumors bearing upon the international situation, more especially the status of the relations between Washington and Berlin. These rumors were of such circumstantial and detailed character as to cause hurried selling of stocks, the general list, with few noteworthy exceptions, averaging losses of 2 to 3 points.

Some specialties, especially those which led the recent rise, were lower at their minimums by 3 to 6 points. These recessions were partially retraced in the last hour, when short covering, coupled with supporting orders, resulted in a rally of fractions to the 7-point level. The undertone was feverish and heavy at the active close. Total sales amounted to 610,000 shares.

Of this turnover a very large proportion was again contributed by the Mercantile Marine, Crucible Steel, U. S. Industrial Alcohol, American Petroleum, American Zinc, Baldwin Locomotive, American Locomotive and Goodrich. U. S. Smelting made a new high record of 2 3/4 and Zinc also scored a new maximum at 92 7/8.

U. S. Steel fared better on the whole than other issues of the same class, yielding only a point to 84 1/4. Bethlehem Steel made an extreme decline of 2 1/2 to 46 and rallied to 47 1/2. Motor Shares, with Industrial Alcohol and the petroleum proved most susceptible to pressure.

Commodity rates were lower by a point for New York Central, Canadian Pacific, Union and Southern Pacific. New issues of the Aluminum, American Reading and Norfolk and Western were slightly more heavy. The government's winter wheat report, showing a rather low average, was against the previous estimate, was not helpful to the grain carrier.

A further decline in the average of exchange on Paris, demand bills falling to 61-1/2 was again the foremost feature of the day's movement. Credit markets, the break being concurrent with report of another successful German move in the Verdun campaign.

Bonds were heavy, but the market for those securities was more contracted than usual. Total sales (par value) aggregated \$4,130,000.

Gasoline to \$18 a Barrel

This is the age of oil. Gasoline at 38 cents per gallon or \$18.00 per barrel. In the United States. The price of oil has been low. The price of oil has been low. The price of oil has been low.

There can be about three hundred thousand barrels of oil in Kansas and Oklahoma that will produce after the first two years from three-fourths of a barrel to four barrels per day. To conserve this vast production of high-grade oil has been the purpose of the United States Oil Company. The price of oil has been low. The price of oil has been low.

It now controls over 20,000 acres of oil and gas lands and leases in the real oil belt. Has over 120 producing wells. A larger percentage of its property is controlled by its own pipe line now in operation for over 165 miles.

It has work under way on 180 different properties that by just a little good luck in its drilling operations will produce more oil than all its stock will total at the sacrifice price offered you.

We are determined to start the balance of the stock in unlisted. Stock has been offered among the present eighteen thousand stockholders on a stock dividend basis. The price of oil has been low. The price of oil has been low.

NEWS OF SPECIAL INTEREST TO WOMEN

BASKET CLOTH IS NEW FOR LATE SPRING SUITS

Popular Cotton Materials Exploit Checks and Stripes in Navy or Green.

Cotton basket cloth is numbered among the new materials for late spring and summer wear, and it makes up charmingly into pretty separate frocks, as well as smart little two or three-piece costumes. The designs and colors of the patterns in the new basket weaves are particularly effective and provide an amount of novelty. Pin checks as well as very wide

awnings stripes are encouraged, although conservative checks, polka dot and floral designs may also be had in a great array of fresh tints on good light backgrounds.

The stripes are featured with much success in jaunty sports' suits and in these chic little models is exploited the vogue of navy and white or green and white. Lack of any unnecessary trimming is seen on almost every suit of this type, which also exploits collar and cuffs of plain contrasting material. A cool and modish little costume for quite early spring wear was in a two-inch green and white stripe.

The skirt was plain and full, with very large hip pockets, laid out with the stripes running diagonally. Pocket flaps were buttoned down with large white pearl disks, which also ornamented the fronts, cuffs and belt of the short flaring peplum jacket. Plain green was used for the contrast, and the hat for wear with this smart outfit was of green basket straw and gros grain ribbon.

AT ST. MARGARET'S COLLEGE.

This week's program of the Women's Musical Club, given at St. Margaret's College, was of a high order of merit, those taking part being: Miss Vera Inge, Mrs. Martin, Mrs. Perry, Miss Julia O'Sullivan, Mrs. W. B. Raymond, Mrs. Street and Miss Garden.

WILLS PROBATED

Nephews and nieces of the late Thomas Todd, printer, who died at his home, 608 Markham street, March 23, will receive the major part of his estate, the estimated value of which is \$146,147, according to the provisions of the will, which has been filed. Seven thousand dollars will be distributed equally to seven homes and institutions.

The estate comprises \$58,882 in mortgages; \$84,872 in stocks; \$2,448 in cash; \$5,894 in real estate, and \$50 in personal effects. The real estate includes properties at 41 Paupine avenue and 51 Bathurst street, valued at \$2300 and \$3594 respectively.

Following are the nephews and nieces who participate as heirs and the respective legacies: Catherine Florence Todd, \$8000 and the Bathurst street property; Frederick M. Todd, \$3000; J. St. George Gwatkin, \$4000, to be set aside by trustee for his maintenance; Clara E. Verral, \$14,000, and William Gwatkin, a monthly income of \$8000.

James Todd, John Gwatkin, Mary Blair and Saviour Gwatkin receive \$2000 each; Albert W. Richardson, \$2000 for his four children, and Mary Gold, Rosa Gwatkin, Patrick Hartney, Quenotte Blackburn, and Edith Davis, \$2000 each.

One thousand dollars is bequeathed to each of the following: Augusta Carruthers, Maud Wiley, Ray Blizard, Mary Burt, Mary Cooper and Winnifred and Gladys Gwatkin, Etta Rowley, a servant, and Eva Balm, a nurse. The residue of the estate goes to Frederick M. Todd.

An income for life is given Mrs. Joseph Eby, widow of the head of the firm of Eby-Blain, Limited, 70 West Clinton street, at his residence, 85 Cluny avenue, May 12, 1914, according to the will which has been probated. The estate valued at \$54,078, is to be distributed equally among the four children upon the death of Mrs. Eby.

Relatives are the chief beneficiaries named in the last will of Henrietta Matilda Hill, who died at her home, 20 Bernard avenue, March 26, leaving an estate valued at \$24,944.65 in mortgages, stocks, real estate and cash.

The will provides bequests to charitable and other causes, besides individual legacies to sisters, nephews and nieces. Following are the bequests: Isabelle Cowan, a sister of Prince, Ont., \$2000; Charles Poppleham, nephew, Princeton, Ont., \$2500; \$800 to each of the following: Helen M. and Jean Logie, grandnieces of Mrs. Hill, \$1000; Maudie Copeland, Winnipeg; Emily Hill, a sister-in-law, Mary J. Bevnon, a niece of England, and Mary Eliza Hill, a niece of England; Robert D. Hill, nephew of England, \$1000; Agnes Middleton, \$200, and \$150 each to Ellen and Eliza Mountcastle of Clinton, Ont.

SOLD "KATALYS POWDER" AS YEAST SUBSTITUTE
G. A. Mackey was charged before Judge Coatsworth yesterday afternoon in the general sessions with having exposed for sale, contrary to law, with intent to sell for human food "Katalys Powder," which he knew was unfit for human food.

Katalys Powder was sold as a substitute for yeast and from two to four ounces were used in the 100-pound bag of flour in the manufacture of bread. The case will be continued next Wednesday morning at 10.30.

PATRIOTIC WOMEN WORK FOR SOLDIERS
A large attendance was at the working meeting of the Sir Henry Pellatt Chapter, I.O.D.E., yesterday afternoon, at 9 A. Wellington street east. The women were working on khaki shirts and knitting. Machines new, yarn was wound by swiftly moving fingers, and the needles kept time to the tongues that were busy planning further efforts to raise funds for the soldiers and other patriotic cause.

SONS OF TEMPERANCE CELEBRATE ANNIVERSARY

The 28th anniversary of the Excelsior Division, Sons of Temperance, was marked by one of the entertaining concerts and dramatic offerings for which the division is noted. The program consisted of classic dances, a series of fairy tableaux, a comedy entitled "Waiting for the Train," tableaux depicting "Peace and War," motion songs and selections by the orchestra. Assisting artists were Mrs. W. J. Simmonds, reader; Constance Payne, vocalist; Miss Emile Forter, pianist. The dramatic numbers were under the direction of Mrs. J. H. Payne.

BETTER THAN SPANKING

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W. 68, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

Answers to Health Questions

BY DR. HIRSHBERG.

T.C. Bramford, Ont.-Q.-1. Kindly tell me what I can do for cold feet. 2. Please give a remedy for indigestion.

A.-1. Cold feet come from loss of health, sleep, wrong food, over-dressing the feet and keeping them too warm. Use high blood pressure. The feet are kept warm better by wearing thin hose and low shoes, cold baths and vigorous massage, active outdoor exercise, especially walking, than by inactive, indoor life.

2. You must eat more apples, figs, prunes, pears, plum juice, carrots, beets, steamed pears, and drink three quarts of distilled water daily—2 glasses half hour before a meal. Take 10 grains of oxide of magnesia before meals and 5 charcoal tablets after meals. Sleep 10 hours in the 24 in a well-ventilated room, and be outdoors in the fresh air and sunlight most of the day.

B.S. Brockville, Ont.-A.-1. If you have a cold, please give me a remedy to help you.

A.-1. The name given to the symptoms of many diseases. It is generally used in expressing pain of various diseases. If you will take more explicitly of your symptoms I will be very glad to help you. In the meantime you can use a small electric battery three times a day on the painful parts. Dry heat, hot applications, Swedish movements, manipulation and massage will help you. Take 10 grains of salicylate of soda every 4 hours. Take 10 drops of a saturated solution of iodide of potassium in water after meals. Increase one drop a time until 50 drops are being taken, then go down to 15 and up again. Also take inclusions of mixed vegetable such as phycococcus every day for a month.

J.E. Toronto, Ont.-Q.-1. Although I have a cold, my eyes are generally more after sneezing than before. Kindly help me.

A.-1. Have the eyes examined by a doctor, and if you need glasses wear them. Also have the throat examined, and the turbinate bone of the nose compressed so as to allow more air space.

Mrs. A. Toronto, Ont.-A.-1. If you will send a stamped self-addressed envelope repeating your query I will be glad to advise you.

A. Toronto, Ont.-Q.-1. Kindly advise a cure for constipation.

A.-1. Eat plenty of green vegetables, spinach, rice, steamed pears, water cress, young peas, vegetables with salad oil, fresh fruits, dried fruits. Sleep at least 10 hours in the 24 in a well-ventilated room, and be outdoors in the fresh air and sunshine as much as possible. Take 4 charcoal tablets after meals, a tablespoonful of milk of magnesia before meals, and a wineglassful of olive oil about half an hour after meals.

M.C. Toronto, Ont.-Q.-1. What can I do to relieve a burn on the arm?

A.-1. Apply powder stearate of zinc to the affected part.

R.M. Toronto, Ont.-Q.-1. My four-year-old child jumps in his sleep. Please advise a remedy for this.

A.-1. If the mother is nervous it is possible for the child to get worms from nursing. The child evidently has wrong food and bad feeding. Have this corrected and it will help the baby.

Much Worried, Toronto, Ont.-Q.-1. Kindly advise if walnut juice and walnut stain are the same. Is walnut juice good to darken the hair?

A.-1. There are some remedies under that name, while others are the same. Walnut juice is often not effective. You may try the hair oil. On account of the odor in the form of crayon or crease paint or homemade with vaseline, or try henna leaves.

H.M. Toronto, Ont.-Q.-1. What will remove dandruff from the hair? 2. Kindly advise something that will keep the hair soft.

A.-1. The scaly disks of dandruff may be removed by washing the scalp either with coconut oil, or with a mixture of soap. Then the surface underneath may be treated with the following lotion: Precipitated sulphur, 1/2 ounce to 4 ounces distilled water. Rub in gently after a thorough shaking with a little brush, see that the bristles reach the scalp, instead of the hair only. On account of the odor of the sulphur it is advisable to use at bedtime. A weak ammonia may be used on the hair to keep it light.

Y.M.H.A. Toronto, Ont.-Q.-1. Kindly advise how to remove puffiness under the eyes. This condition has existed for several years.

A.-1. You absolutely must take three hours of exercise in the sunlight and fresh air. Have your nose and throat operated on and more air space given. Sleep in the open air if possible. Play tennis, walk in the fields and if necessary change your occupation.

L.B.L. Toronto, Ont.-Q.-1. Kindly advise how to increase my height.

A.-1. It is advisable to join a good gymnasium and obtain the best of the exercises possible. Eat plenty of green vegetables, and nourishing foods. Drink three quarts of distilled water daily and be outdoors in the fresh air and sunlight most of the day.

Three Unusual Cake Recipes

By ANN MARIE LLOYD

FROM a good friend of mine—a lady living in one of the nations at war—there has come to me three cake recipes that are out of the ordinary. My friend is an expert in the kitchen and recently has been developing much of her time in the simplifying of dishes that still simulate the delicacies that are considered luxuries. In sending these recipes she writes they will be found cheaper than similar cakes. Furthermore, they will prove most wholesome, nutritious and sustaining. I repeat them to you as she sent them to me.

Rich Fermented Cake.
One pound of flour, half a pound of sugar, one pound and a half of currants, half a pound of cut peel, a few raisins and nuts, six ounces of lard or margarine, a quarter of an ounce of yeast, a quart of water. Warm the water to 100 degrees, dissolve the yeast and stand in a little flour—about a quarter of a pound—cover half up and let it rise and fall; at the end of that time add the rest of the flour, and mix up to a nice dough; put it back into the bowl, cover it up, and let it lie for another half an hour. Spread the dough out on a floured pastry board, rub in the lard or margarine—this must be well worked in by stretching and tearing the dough until the whole is a soft, greasy mass—then add the currants, peel and raisins, work them in well; the whole will be a very soft mass; have some greased tins ready; half fill them and let them prove for half an hour, then bake in a sharp oven. When done take out of the tins, and when cold wrap in grease-proof paper. No flour must be added; it must be worked as soft as possible. Nuts can be sprinkled on top.

Galatte.
This is a very nice cake. It is very sustaining, containing as it does a large amount of fat, sugar and eggs. It makes an ideal cake for the colder months. A quarter of an ounce of bicarbonate of soda, two pounds of flour, one pound of margarine, half a pound of powdered sugar, four eggs, beat together a little, or you can beat the eggs in a basin and add them to the sugar. They must not be beaten up too light—simply sugar and eggs—knocked together, then pour the melted margarine in, also a tablespoonful of water, with the bicarbonate of soda dissolved in it, then add the flour and mix up well to a soft paste; divide into one-pound pieces, roll them into balls, then with a rolling pin flatten out to about five inches in diameter, put them upon flat tins and with the back of a knife make deep lines on the top, crosswise to one another; bake in a moderate oven.

The similar to shortbread in appearance, it is entirely different as its manufacture shows.

Fruit Treacle Cake.
This is also a fine cake for cool weather; it is soft, light and will not crumble up, and will keep moist a long time.

Secrets of Health and Happiness

Why Itching Is Not

A Sure Sign of Healing

By DR. LEONARD KEENE HIRSHBERG

A. B. M. A., M. D. (Johns Hopkins University)

PROF. UNNA, the distinguished student of skin affections, has just compiled an elaborate series of researches upon the source, nature and mechanism of itching. For the first time, evidently, this distinguished savant is convinced that he has found an answer to the world-wide query: What is itching? There has been some doubt as to the origin of itching. Some, with few facts, hold firmly to the view that you have itching from the poisons of bacteria. Others maintain that itching is not a distinct sensation, but a conglomeration of various sensations or non-specific sensations.

One group of investigators claim that the substances of juices from the adrenal or similar glands have a selective action and cause the phenomena of itching. In support of this contention, they say that jaundice, as well as kidney poisons, when dammed up in the skin, are able to emerge to the outside world via the kidneys and intestines. Furthermore, they cite the known observations that certain albumens, substances in tomatoes, berries, fruits, beer and fish, are in some persons responsible for itching, hives and analogous maladies of the skin and hair.

Irritation of Nerve Ends.
Prof. Unna concludes from his experiments that itching results from the irritation of the naked ends of tiny white nerves, terminating in the microscopic blood canals. In confirmation he calls to mind the practice of using adrenalin—also called epinephrin and suprarenalin—to abolish a local itch-sensation of pain, without any impairment of the other feelings of touch, tickle, heat or cold. Saponin, on the other hand, abolishes the sense of touch, but falls in any way to affect those of pain, itch and others.

Prof. Unna points out that, before itching, there must be little projections of the deeper skin called "papillae," which contain veins, arteries and capillaries, as well as a layer of horny skin. Otherwise, there is not sufficient pressure upon the papillae and the capillaries to cause an itch. This may seem a bit confusing unless you think of the papillae as a finger of a glove turned half inside out.

It is impossible to induce itching on the surface of an ulcer, although its congested edges may itch. Even the thick tissue of a sore, after the infection is out of it, and just before healing—called "granulations"—will not itch. As these, however, heal over and the flesh scars, itching begins to return. The horny papillae press up into the deepening scar, the area begins to itch and continues to do so until a balance is struck between the pressure of the

How Itching is Stopped.
Whenever a blister forms, itching ceases. Continuity between the horny epidermis and the papillae on the floor of the blister or ulcer is necessary before you feel an itch. This also explains why, at first time, any scratching or rubbing momentarily allays any itching. The horny-handed layer of surface skin is rubbed away from contact with the congested papillae beneath.

Whenever there are hives, bile or other fluids in the outer horny layer of the skin simultaneously with any increase of lymph or blood in the papillae, the pressure is not properly balanced in the "three-ply" layers of the skin, and you itch. Dry eczema, scabies, lice, hives, jaundice and other disorders yield just such symptoms.

Remedies in itching soften the horny surface and thus remove pressure from the structures beneath. Electricity, purgatives, a starvation diet, diuretics, solutions and blood letting alleviate itching because they carry off the excess of pressure in the capillaries and other lymph or blood channels near the papillae.

Pressure from the outside and upon the skin with rubber stockings, plasters, salves, bandages and the like, removes itching, for the plain reason that the blood and lymph are squeezed out of the congested papillae. Anaemia surfaces never itch, according to Prof. Unna. Cold and ice, therefore, are soothing to itching skins, while heat and congestion have the opposite effect. Chills and frostities itch because the frozen veins have lost their elasticity and contractile power. Tannic acid and benzoin constrict them again, and hence are beneficial to the victim of chills. Cold compresses also afford relief.

The Amateur Gardener

IT is an excellent plan to stir the surface of the soil in pots two or three times a week, as this allows air to get to the roots of the plants, as it cannot if the soil is allowed to crust. If it is given free entrance it does much good in sweetening the soil and keeping it light and porous.

If worms attack your plants thru their roots, get a piece of fresh lime as large as an ordinary coffee cup and drop it into a ten-quart pailful of water. If fresh—as it must be to produce the result aimed at—the water will simmer and bubble as if about to boil. Then a white sediment will settle to the bottom of the pail, leaving the water above clear. This should be poured off and applied to the soil in the pots. Use enough of it to reach and saturate all the soil. You need not be afraid of injury to your plants, as water cannot hold enough of the active principles of lime in suspension to be harmful. If one application does not rout the enemy, repeat in a day or two.

If insects attack your plants, go to the seed store and get a can or bottle of the tobacco extract sold under the name of Nicotidene and use it as directed on the vessel containing it. It will be found sure death to every aphid which it comes in contact.

If red spiders attack your plants, as they will be quite likely to do in rooms that are hot and dry, shower with clear water, or what is better, dip them in a tub of water heated to 120 degrees. Leave them submerged for about half a minute. This will kill the spider without harming the plant. If the red spider is about you will know it by the yellowing of the leaves and the dropping off when there seems no reason for it.

Look at the under side of them and you will discover tiny specks of red. These are the spiders, which do so small that the eye can scarcely discern them, do more harm than any of the larger insects.

Spray your plants daily, if possible, with a weak solution of water constantly evaporating on stove and register and radiator. Do not allow the thermometer, and there should be one in every room in which plants are kept, to go above 70 degrees. Most failures to grow flowers in winter result from too high a temperature and too little humidity in the air.

The bamboo sometimes grows two feet in 24 hours. There are 39 varieties of this tree; the smallest is only six inches in height, and the largest 150 feet.

ODD FACTS

Aluminum is one of the most abundant of metals, and ranks third among the elements which compose the crust of the earth, being exceeded only by oxygen and silicon. It is an important constituent of all common rocks except certain sedimentary rocks, as sandstone and limestone. It is never found native, or in elementary form, but occurs as an oxide, hydrous oxide, fluoride, phosphate, sulphate silicate or other compound.

An enormous deposit of asphalt in Leyte Province in the Philippines, lies so near the shore line at Tacloban that ships can anchor and take on cargoes from lighters loaded at the mines with practically no overland transportation. There is a large and growing demand in the islands for paving asphalt, and all the cities of the far east are now in a position to offer a market.

If a thread is pulled out of a khaki coat, unraveled and examined closely, the khaki shade will be found to be composed of threads of bronze, light olive green, lavender and brown.

In Russia the natives never drink milk in their tea and cups and saucers are never used for tea. It is drunk from glasses.
