TEN PAGES—ONE CENT

Two Years Ago Today Germany Declared War Upon Russia

Chief of Czar's Army Staff Sends Paris Press Optimistic Message — "Enemy is Beginning to Weaken"

Paris, Aug. 1.—Today, the second anniversary of Germany's declaration of war on Russia, was commemorated in the French press by special articles and features. Messages were printed from prominent personalities in allied and neutral countries, including the kings of Serbia and Montenegro, Admiral Jellicoe, General Sir Sam Hughes, Ellhu Rook, Dr. Nicholas Murray Butler, General Cadorna, Premier Romanoff of Spain, General Alexieff, chief of the Russian staff, and the Russian and Belgian premiers.

General Alexieff says: "I think that we may now be said to have passed through the most difficult period of our great war. While still offering stubborn resistance our enemy is beginning to weaken, but we have need to summon all our powers yet before we can hope to attain the definite goal of our hopes."

Austrian Army Trapped by Russians

London, Aug. 1.—General Count von Bothmop's army is reported to be almost completely surrounded by the Russians in Galicia, says a despatch from Rome to the Wireless Press. Cossack divisions, after the occupation of Brody, are said to have destroyed the railways behind the Austrian army.

The Times has received a printed copy of the report of the Proceedings at a Conference of Representatives of Branches of the Canadian Patriotic Fund in Eastern Canada, held in Toronto, May 15, 17 and 18. It is in booklet form, printed in clear type, and, as a trust-foreword says, practically every argument of force and opinion of value are included so that it must prove of great use to local relief committees of the Patriotic Fund. The New Brunswick men present at the conference were—C. B. Allan of St. John, John T. Hawke and W. H. Price of Moncton, and H. F. McLachley of Campbellton.

BURIED TODAY. Many witnesses of the funeral of the late Dr. John C. Mott, 36 Horsfield street, this afternoon to pay their last tribute of respect. The services were conducted by Rev. W. H. Barraclough and Rev. H. A. Cody. Following service the body was conveyed to Fernhill, where interment was made.

REFINERY TAXES. The amended bill for taxes for the Atlantic Sugar Refinery, showing the \$2,000 property tax, the \$84 for patriotic purposes and the \$2,000, being \$1,000 a year for this year and last for special school taxes, has been sent to the company, but no answer has been received. It was said at city hall today that the company had not refused to pay the patriotic tax, but that an official had returned the bill with a request for information regarding the extra tax.

NEW RETAINING WALLS. Among the matters to be dealt with at a meeting of the common council this afternoon will be the recommendations of the commissioner of public works for the construction of four new retaining walls in Chisley street, Rockland road, Portland, at the corner of Camden street, and in Canon street.

LOCAL SHIPPING. The schooner Mary E. Morse, which put in here yesterday for harbor, sailed this morning for New Haven with a cargo of plaster.

ONE OF THE HIGHLANDERS. Sergeant Edgar McEachern, accompanied today by a Mesherk Camp, Sergeant McEachern attached to the Nova Scotia Highlanders.

PTE. FRED WOLFE KILLED IN WAR

Message Comes to Parents in Moore Street

TWO BROTHERS IN KHAKI. He fell in battle on July 17—Was Wounded in Last November—Sergt. Wm. J. Seymour Wounded

"Killed in action" was the brief message that came to the home of Mr. and Mrs. James Wolfe, of 46 Moore street, this morning, conveying the sad intelligence that their son, Pte. Fred Wolfe, a gallant member of an infantry battalion, had fallen on the field of battle July 17.

Pte. Wolfe was thirty-three years of age, and was the third member of his family to join the colors. He leaves behind his parents, his wife, who is at present in Hampton, and six small children, the eldest of whom is but eleven years, and the youngest only nine months. Pte. Wolfe was a member in the employ of T. McAvity, 85 Ross, and more recently in Fleming's Foundry. He was well known about the city and had won the esteem of his fellow employees as well as of a large number of friends, who will regret to hear that a young life upon whom so much depended, has been taken. He had two brothers in uniform, James in No. 3 A. S. C. and George, a member of the same company in the same battalion. The sympathy of a large number will go out to the bereaved ones.

Pte. Wolfe had been wounded on November 17, but had sufficiently recovered to return to the trenches. He wrote a letter home only three days previous to the day on which he was hit. That Sergeant William J. Seymour, of one of the local infantry battalions, had been slightly wounded in the back by gunshot and had been admitted to No. 4 Field ambulance was the word received this morning by his wife at home, 11 Paradise Row. This is the first mishap that the St. John soldier had met with since being at the front.

Sergt. W. J. Seymour during which time he has gone through some of the heaviest fighting on the west.

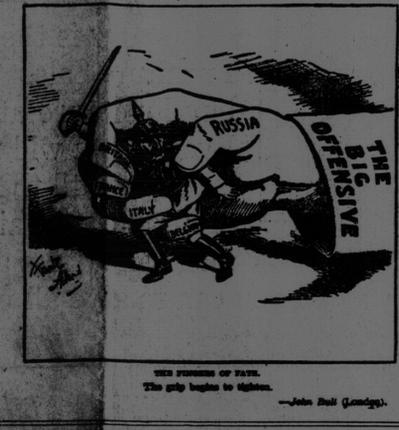

Sergeant Seymour was employed with T. H. Estabrook & Company as foreman in the packing department prior to his enlistment. He is twenty-four years old and has wife and two children residing in the city. Herbert Seymour, who recently joined the Kiltie battalion, is a brother.

SONS OF ENGLAND. The Grand Lodge of the Sons of England will meet in Halifax next week, the sessions opening on Monday and continuing until Friday. Delegates will be present from all parts of the dominion and large and representative gatherings are expected.

DELEGATES FROM ST. JOHN. The delegates from St. John will be T. H. Carter, deputy supreme president, and representative of the district and also of Marlborough lodge; L. A. Belyea, representing Portland lodge, and R. H. Irwin, representing New Brunswick lodge.

ON THEIR WAY TO HALIFAX. Two of the grand officers, W. H. Randall, supreme president, and John W. Carter, supreme secretary, will visit St. John and the local lodges are arranging a banquet in their honor in Bond's.

FREDERICK NEWS. Frederick, N. B., Aug. 1.—Customs returns here for July show a surprising increase in imports. For July, 1915, the value of goods imported was \$2,739, while for last month it was \$81,334, an increase of \$78,595. The duty collected was \$10,015 against \$4,888 for July of last year.

THE DEADLOCK IS UNBROKEN. No Change in Matter of Elevator Site, is Repeated—The Proposed New Depot

There does not seem to be much possibility that the deadlock which exists between the city council and the government railway authorities regarding the site for the proposed grand elevator will be broken at the weekly meeting of the common council this afternoon.

At the meeting yesterday Commissioners Russell and Wigmore pronounced themselves as strongly in favor of the Water street site, Commissioner McLellan was equally strongly opposed and Commissioner Fisher and Mayor Hayes were both critical of the Water street site. Since then there has been no apparent change in the situation, the inspection of the Long Wharf site yesterday having failed to clear the way to an agreement regarding the proposed grand elevator.

INDEPENDENCE OF BELGIUM AND HOLLAND. Socialists For This and a Democratic Union of the Balkan States

London, Aug. 1.—A complete re-establishment of independence of Belgium and Holland and a democratic union of the Balkan states, were points unanimously agreed upon at the opening of the International Socialist conference at the Hague, according to a detailed account of the session received here.

FLY WEIGHT CHAMPION WINS BY KNOCKOUT. London, Aug. 1.—Jimmy Wilde of Wales, fly-weight champion of England, knocked out Johnny Hughes in the tenth round of a bout here last night.

ANNUITIES GRANTED TO CAPT. FRYATT'S WIDOW. London, Aug. 1.—The government has announced the granting of an annuity of £100 annually to Captain Fryatt's widow besides the sum to which she is entitled under the government's compensation scheme. The Great Eastern Railway, of one of whose ships Captain Fryatt was the master, is also granting his widow a £250 annuity.

FROM GUNNER W. NELSON. Gunner Wm. Nelson, who left here with a severe battery, had the 181st, writes to his wife, 78 City Road, under July 14, that he has been enjoying the best of health. They have been working very hard in preparation for greater things before them. They were to move to another location towards the end of July. He sends best wishes to all.

THE ENEMY WITHDRAWING? London, Aug. 1.—The Germans are withdrawing from Kovel their heavy armaments, according to reports of the despatch from Rome to the Wireless Press. The city of Vladimir-Volynsk in Volhynia is said to have been completely evacuated by the Germans.

THINK KOVEL WILL BE FIRST TO FALL

Russians Now Control Stokhod River and Austrians Are Being Driven Westward From Brody

Petrograd, July 31.—With General Kaledin's army in full control of the Stokhod River, which had been the chief obstacle to the westward progress of the northern wing of the Russian forces under command of General Brusilov and the troops under General Sakhoff driving the Austrian army commanded by General Von Boehm-Ermolli westward from Brody, the Russians are now well advanced in the campaign against the two important centres of Kovel and Lemberg.

MANY AT FUNERAL OF SIR P. A. LANDRY. His Lordship Bishop LeBlanc Officiated at Requiem Mass

Dorchester, August 1.—The funeral of Sir Pierre A. Landry, chief justice of the supreme court of New Brunswick, took place here this morning. The body was taken from his late residence to St. Thomas' church, St. Joseph, where funeral services were held. Requiem mass was sung by His Lordship Bishop LeBlanc of St. John with Rev. Father LeRivier, president of St. Joseph's University, as master of ceremonies.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

A CHARMING PICTURE IS GEM'S FEATURE; ALSO ONE OF BEST COMEDIES

If you have not seen "Little Meena's Romance" at the Gem do not fail to attend at 7 or 8:30 tonight. You'll surely enjoy dainty Dorothy Gish as the winsome Dutch maiden and gallant Owen Moore as her noble lover. It is a captivating story, superbly produced by D. W. Griffith. Then there is one of the Gem's own best comedies, "His Last Laugh," with Harry McCoy, Julia Fay and a host of fun makers. Mary Page tomorrow.

DENTAL TOOLS ARE DUG UP ON A SAND BEACH

That the ancient inhabitants of the Southern California coast and not the Japanese, as contended, were the first dentists, is the assertion of Dr. Moss Bowers, an archaeologist of Santa Monica, who has discovered a set of primitive dental tools in the beach sand there.

Following the discovery of many bones of a skeleton in an excavation being made by workmen for Col. Thomas W. Prior, at the entrance to the Fraser Pier, Ocean Park, Mr. Bowers asked permission of Col. Prior and the local police to dig deeper in the sand and continue an investigation that has led him to dig up more than 7,000 skulls along Santa Monica bay and on the Santa Barbara islands.

Mr. Bowers' discovery of the bone instruments which he declares were used by the natives not only in extracting teeth, but also in filling them, bears out, he says, his contention that the inhabitants of this coast were the first to practice dentistry in a primitive way.

Here are some of the peculiar discoveries made by Mr. Bowers as the result of his latest find of bones: That teeth were artificially extracted from the skulls he found, and not removed by any natural cause.

That several of the teeth had "fillings" of what he calls pulverized stone and asphalt.

That the early inhabitants of this coast used dental tools made of stone, bone and shells.

Mr. Bowers declares that at only one other place have dental tools of such an early period been found. The other find was at Babylon, but the tools were of metal.

Less is known of the early people of the Pacific coast, according to Mr. Bowers, than of any of the ancients, largely because they kept no records that were intelligible to later inhabitants. The only records made, he says, were crude rock drawings of such things as pine trees, scorpions, centipedes and the like.

He says the place where the dental tools were found was the probable location of an Indian burial ground. He says that in Hill street, between Trolleyway and the Ocean Front, Santa Monica, was once the centre of an Indian village, while there was another at Centre street, Venice, and another near Playa del Rey.

The Western Wheat Crop

Winnipeg, Man., Aug. 1.—Morley Donaldson, vice-president and general manager of the Grand Trunk Pacific, estimates the wheat crop in the territory traversed by the company's lines will be eighty per cent. of last year's yield.

Lt. Col. Grant Here

Lieut. Colonel Grant, A. D. M. S., M. D., of Military District No. 6, was in the city today and inspected the various military buildings in the city, including the barracks on Partridge island.

In a recent examination paper for a boy clerk's post was this question: "If the president and all the members of the cabinet should die, who would officiate?"

Robert, a boy of fourteen, thought for a time, trying in vain to recall who came next in succession. At last a happy inspiration came to him, and he answered: "The undertaker."

WOMAN'S VOLUNTARY AID DETACHMENT

Voluntary helpers, who have given the Women's Canadian Club such valuable assistance at the Parks Convalescent Home and in other ways among the sick soldiers, have been qualifying themselves by classes of instruction under the St. John Ambulance Association for the work of first aid and home nursing, and may now become probationary nurses in military hospitals in England, if required.

KNIGHTS OF PYTHIAS Memorial Day Thursday, Aug. 24th.

The annual Sunday school picnic of Fairville Baptist church is being held today at Westfield Beach. Trains left Fairville station at 9:30 a.m. and 1:40 p.m., and took the picnicers to the grounds.

REPAIRS NEEDED.

People who came to the city this morning from the vicinity of South Bay, were wrathy over the condition of a bridge at South Bay. They say that two large planks were out of the bridge and the large hole makes the bridge very dangerous.

DOG TAX DOUBLED TODAY

Several citizens, who called at the city chamberlain's office this morning to pay their dog tax, waxed indignant when they were informed that the tax rate was doubled today. Some paid and others refused, leaving the office without their license and leaving their cases to be attended to by the police.

STOUT AND THIN CUSTOMERS USE SPECIAL MIRRORS

A dealer in wearing apparel, noticing that his stout customers and his very thin customers often were sensitive as to their figures, installed two full-length mirrors of special design. One was slightly concave and the other slightly convex. When a stout customer tried on a suit she was led to the concave mirror for self-inspection and was able to see her figure with its measurements reduced. When a thin per-

PATRIOTIC CAUSES

Next Saturday The fine weather of today makes brighter prospects for the East St. John Soldiers' Comforts Circle garden party next Saturday, Aug. 5. It will be held at Courtenay Bay Heights. They're making preparations for a good time.

An Interesting Event

The Canadian Club in St. John here made arrangements for an hour or so at the Soldiers' Club on Friday, August 4, after the patriotic meeting on the square. His Honor the Lieut.-Governor and His Worship Mayor Hayes will hold an informal reception for the returned soldiers who are in St. John, at which it is expected the members of all the various patriotic societies will also be present. Tea will be served for those who may wish to have it, the proceeds from its sale to be devoted entirely to the needs of the wounded soldiers. It is thought that this may be an opportunity for the men to meet with one another as well as with the lieut.-governor, who is deeply interested in their welfare.

Go to Hampton Saturday

You are going to Hampton on Saturday? Of course. The Patriotic Fair, total proceeds for the Patriotic Fund, is the event of the week in New Brunswick. Watch for the big posters. The Rotary Club of St. John and the Hampton people will provide the biggest day's attractions of the season to date. You can go by rail, steamer or motor car.

RUBBISH HEAPS

Many Serious Fires Traceable to Such Accumulations More fires originate in rubbish than from any other source. To permit rubbish to remain in the building not only invites a fire to visit your home or place of business, and render your family temporarily homeless, or cripple your business at a time when you can least afford it, but also endangers the lives of your family or employees. In addition to destroying an average of \$23,000,000 in property value in Canada each year, fire caused the death of 141 persons last year.

The home is built to protect our loved ones, and we want to do everything to insure absolute protection to those who live in it.

That rubbish heap in the attic, storeroom or basement is a menace to your household, because there is always a possibility of fire starting in it, and it may start when least expected.

Canadian Postess Dead

Toronto, Aug. 1.—Mrs. Kate Seymour Maclean, Canadian postess, died here yesterday in her 87th year.

WHY SUFFER FROM PILES

Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time In Many Instances
A Free Prescription You Can Have Filled and Use at Home.
Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weakness? If so, you will be glad to know that according to Dr. Lewis there is real hope for you. Many visionless eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says after trying it: "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read the print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitude more will be able to strengthen their eyes so as to be spared the trouble and expense of eye getting glasses. Eye troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Neo-Opto tablets. Drop one Neo-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

Public Opinion Indorses this family remedy by making its sale larger than that of any other medicine in the world. The experience of generations has proved its great value in the treatment of indigestion, biliousness, headache and constipation.
BEECHAM'S PILLS
relieve these troubles and prevent them from becoming serious by promptly clearing wastes and poisons out of the digestive system. They strengthen the stomach, stimulate the liver and regulate the bowels. Mild and harmless. A proven family remedy, unequalled
For Digestive Troubles

GAILETT'S EYE TONIC
LIVE
WELLESLEY COMPANY LIMITED TORONTO, CANADA

PROCLAMATION having been made by His Honor Lieutenant-Governor Wood, requiring the assembling together on August 4 the loyal citizens of the Province of New Brunswick for the purpose of passing a resolution approved by the Central Committee for National Patriotic Organizations, and enjoining upon them that in view of the gravity of the situation and the solemnity of the occasion, the day be also observed by holding meetings of a religious and inspirational character, as well as patriotic character. I would therefore request that between the hours of 8 and 4 p. m. on August 4, business houses of the City of Saint John be closed, and that all loyal citizens repair to King Square where the resolution above mentioned will be passed and where the solemn occasion will be observed by patriotic addresses, and also that a mass meeting be held on King Square at 8.30 p. m. on the same day for the purpose of a further observance of the day. The following is the resolution which will be submitted to the citizens at the meeting:—
That, on this the second anniversary of the declaration of a righteous war, this meeting of the citizens of Saint John records its indelible determination to continue to a victorious end the struggle in maintenance of those ideals of liberty and justice which are the common and sacred cause of the Allies.

R. T. HAYES, Mayor

FOOD STUFFS IN CANADA
The following comment on the market situation as regards food stuffs appeared in Canadian Grocer last week:—
Office of Publication, Toronto, July 27—Just now thoughts of business men are centered on the prospects of new grain crops. In Ontario the hot weather has forced the wheat fields along in the neighbourhood of Lake Erie—some harvesting operations will be general by next week. Already in certain sections—in the west harvesting is expected to be general by August 15. Every acre of points to a good crop. The kernels of grain will possibly not be as large as last year but the quantity will be increased. The acreage will be smaller. But the yield per acre will be fully as large as last year. As yet the demand for fresh meats has been pretty constant. In the fruit lines, lemons have had a sensational upward move in price, an advance of a case being recorded. This has been due to the exceptional demand by reason of the continued hot weather, which has caused a shortage in supply. Raspberries are coming along in better quantities, but the lack of rain has allowed the berries to dry up to a certain extent. Vegetables are reaching the markets very slowly. Hot weather has also affected the production of these commodities. Supplies of white-fish and salmon continue good, with the consumption falling off slightly.

Will Punish Murderers
"it appears to be true that Captain Fry was murdered by the Germans," said Premier Asquith in the House of Commons yesterday. "The government desires to repeat most emphatically their resolve that, when the time comes, these crimes shall not go unpunished. In a case such as this, the man who authorized the system under which the crime was committed may well be the most guilty of all."

AN EXAMPLE FOR ST. JOHN
Halifax Provides Dental and Eye Treatment of Poor Children Attending Public Schools.
At a special meeting of the Halifax school board arrangements were completed for dental and eye treatment for the children of the Halifax public schools whose parents are not financially able to look after such matters themselves. These things put Halifax in line with other progressive cities in reform in connection with the school system.
One of the most important of the matters completed by the board were the arrangements regarding the instruction of the mentally defective. Miss Hutt of Halifax, who has been teaching in the United States, was appointed. The classes will be accommodated at the new Acadian school building.
Arrangements have been made with the dispensary for a dental clinic, the school board providing doctors and instruments.
The following eye specialists have been appointed by the board: Dr. Kirkpatrick, Mathers, Doull and Cunningham. These doctors will look after children whose parents are not in a position to pay for treatment, and whose eyes require immediate assistance. There is a very large proportion of defective eyesight among the poorer school children of Halifax, and also a very great need of dental care.

How Thin People Can Put On Flesh
Thin men and women—that bighearted, filling dinner you ate last night. What became of all the fat-producing nourishment it contained? You haven't gained in weight one ounce. That food passed from your body like unburned coal through an open grate. The material was there, but your food doesn't work and stick, and the plain truth is you hardly get enough nourishment from your meals to pay for the cost of cooking. This is true of this folks the world over. Your nutritive organs, your functions of assimilation are sadly out of gear and need reconstruction.
If ever you've tried to put on weight has failed try these simple directions. Cut out everything but the meals you are eating now and eat with every one of those single Sargol tablets. In two weeks note your weight. Sargol does not of itself make fat but mixing with your food its purpose is to help the digestive organs turn the fats, sugars and starches of what you have eaten, into rich, ripe fat producing nourishment for the tissues and blood—prepare it in an easily assimilating form which the blood can readily accept. A great deal of this nourishment now passes from thin people's bodies as waste. Sargol is designed to stop the waste and make the fat producing contents of the very same meals you are eating now develop pounds and pounds of healthy flesh between your skin and bones. Sargol is non-injurious, pleasant, efficient and inexpensive. All leading druggists are authorized to sell it in large boxes—forty tablets to a package—on a guarantee of weight increase or money back.
If you find a druggist who is unable to supply you send 10c to Sargol, 24 St. Antoine street, Montreal (Que.), and a complete ten days' treatment will be sent you postpaid.

The Evening Times and Star

ST. JOHN, N. B., AUGUST 1, 1916.

The St. John Evening Times is printed at 27 and 29 Canterbury Street over evening (Sunday excepted) by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

EIGHTY-FOUR DAYS

This is the eighty-fourth day since Hon. P. G. Mahoney was appointed Minister of Public Works. He is still Minister of Public Works—the big spending department—though rejected by the people. How much longer will Lieut. Gov. Wood permit this gross violation of the principles of responsible government to continue?

"TAKE IT OR LEAVE IT"

With elaborate politeness the government has handed St. John an ultimatum in the matter of the grain elevator and seems now to be in a hurry about it. It appears to be a case of taking the Water street site or going without the elevator. The site is certainly not the one the citizens would have selected if the choice had been left with them; but the fear lest nothing at all should be done appears to have had a great deal of weight with the council of the Board of Trade.

It is very much to be regretted, since there were conferences with Mr. Hagan and the railway officials, that so little light was thrown upon the Courtenay Bay situation. What the people had a right to expect was that the National Transcontinental would come to its terminals, with grain elevators, at Courtenay Bay; but we hear nothing of that now, although development work on a limited scale is still being carried on in that area. In the meantime it is proposed to haul grain from somewhere near the site of the Courtenay Bay terminals to Reed's Point.

So far as can be gathered, the passenger traffic steamers from Boston and Digby are to go to the Long Wharf, at the head of the harbor, leaving the lower portion of the east side of the main harbor for grain and general freight traffic, to whatever extent it may be possible to attract it to that locality. In connection with the new use of the Long Wharf, it is intimated that a new passenger station is to be built near the site of the present one, thus abandoning the Haymarket Square project which has been talked of a good deal in recent years.

Just how this new depot will affect the assurance already given that the Valley Railway will eventually be extended to carry its traffic through the narrow spaces where the present depot stands to terminals at Courtenay Bay is not very clear. We are vaguely told of new railway developments, and reminded that minor interests must give way to those of major importance, but apart from the present elevator project and the assurance that the interests of the Eastern Steamship Company will be looked after, and the as yet unconfirmed announcement that there is to be a new passenger station there appear to be loopholes large enough to crawl out of at any time when in the opinion of Mr. Gutellus some other scheme should be promoted.

We have waited a long time to have the intercolonial grain elevator rebuilt. It is now stated that it can be made ready for operation by next March. The Valley Railway was to be ready for trains in February next, but everybody knows there is not the ghost of a chance of any such result of the present operations.

The whole matter of port development at St. John, and of linking up the National Transcontinental with this port has been bungled in the worst possible way. Not so with Halifax. At that port, which is the port of Mr. Gutellus, work goes merrily on, and enormous expenditures are being made to handle the traffic of the railway which was to have come by the eastern route to its own terminals at Courtenay Bay, and to be ready for traffic when the Quebec and western connections were in a position to send it along. The present situation appears to be that St. John may accept what Mr. Gutellus offers or go without anything. It is at least a source of some satisfaction that the present government is not likely to remain much longer in power, and that the interests of St. John will not always be sacrificed as they have been in the matter of Courtenay Bay and the National Transcontinental.

A CHANGE DEMANDED.

The Standard devotes a very long article to the "provincial government and its critics." The chief critics of the royal commissioners, who, with their powers very strictly limited, uncovered facts which not only condemned the government but disgraced the province.

It is quite useless to ask the people to choose between this government and the one in power prior to 1908. The people deal with this one. The present opposition is not responsible for the old government, and, as Mr. Carter has plainly said, will neither take credit for its virtues nor attempt to excuse its faults. There is to be a new deal. The people have learned much since 1908. They have a different outlook, and the calamity of war and the spirit of self-sacrifice and of service which it has revealed inspire them to demand a radical reform in the administration of the af-

fairs of this province, so that the graft and self-seeker may be eliminated. The present government showed its quality in the matter of the patriotic potatoes, the Valley Railway deals, and many other transactions of which it ought to be ashamed. It is time for a change, and the people are not to have their attention diverted from the sins of this government by attacks upon a government which was defeated eight years ago. Liberal and Conservative will unite in electing men of whom better things may be expected, and to secure which the men elected will be solemnly pledged.

Recruiting for home defence appears to have taken a spurt yesterday. The recruits should be secured with very little difficulty.

The haymakers are much in need of a week or two of fine weather. They have a great crop, but are harvesting it under difficulties, especially in the southern part of the province.

The Germans have renewed their air raids on England. The revival of the policy of "frighthfulness" is doubtless due to a hope that it may create a desire for peace, but it will have exactly the opposite effect.

The Russian advance continues to be the most remarkable feature of the war news. The French, British and Italians make gains, but the Russians are covering new territory at a rate that must cause a great deal of misgiving in Berlin, Vienna and Constantinople.

Russia has found herself. The remarkable success of her armies will but deepen the determination of her people to settle once for all with Germany, and forever emancipate the empire from the financial and commercial domination of the Teutonic race. The Kaiser played for a great stake, and he has lost.

The British casualties on all fronts in July were nearly 60,000. This means that if the armies are to be kept up to strength there must be a continuous stream of new men going forward from England. Sixty thousand per month would be two thousand per day. Of course every month may not show so great a list of casualties, but it will be large enough to emphasize the need of getting more and more recruits. Canada is not doing her share at the present time. We are still far short of that half million men promised by Sir Robert Borden.

Referring to the murder of Capt. Fryatt, and to other German crimes, Mr. Asquith says—"It is impossible to conjecture to what further atrocities they may proceed, but the government desires to repeat most emphatically their resolve when the time comes that these crimes shall not go unpunished. When the time arrives they are determined to bring to justice the criminals, whoever they may be, and whatever their position. In a case such as this the man who authorized the system under which the crime was committed may well be the most guilty of all." The Kaiser and his war-lords can hardly be overlooked when the day of reckoning comes.

The automobile licensing more and more favors with the Manitoba farmers as well as the people of the cities in that province. The Winnipeg Free Press says—"Alleged hard times in Manitoba have not dampened the ardor of motorists or prospective ones. The automobile license department reports that there are 1,600 more private owners of cars in the province this year than last. The number of licenses issued this year was 10,400 as against 8,900 last year. At an average cost of \$1,000 each the newly-purchased cars represent a total outlay of \$10,400,000, while the total number of cars in the province are worth approximately \$10,000,000. Most of the new cars are of modern types, and the majority of them are being operated by the owners themselves."

The Montreal Financial Times says—"Few industries promise to be more largely benefited as a result of the war than the agricultural implement industry. The destruction of life in Europe will result in a great shortage of labor on the farms, and as governments will be prepared to go to almost any length in order to maintain their basic agricultural industries, much will be done by way of educational work and the extension of credits to increase the use of machinery, which has so greatly reduced the amount of labor required per bushel of crop in America. What this means to Canada, with its foremost position in the export of agricultural implements, need not be dwelt upon at length."

In Hammond, Ind., a crying baby rears in the serious injury of the men, the issuing of a riot call to the police and the arrest of two men charged with trespass. When neighbors Dan Opalich heard the screams of the child they thought Opalich was beating his wife, and four men were appointed a committee to go to the Opalich home to restore peace. When they arrived Opalich and his wife defended their home against the intruders so successfully that the police had to rescue the members of the committee, and the trespass charges followed.

BITES Mosquito and fly bites will not trouble you if you use Zam-Buk herbiol balm ends the irritation, draws out the poison and prevents inflammation. Zam-Buk is also best for sunburn, heat rashes, blisters, sore feet, cuts and all skin troubles. Keep it handy at your summer cottage as a "first aid" for all injuries. ZAM-BUK

THE DEAD

Blow out your bugles, over the rich Dead! There's none of these so lonely and poor of old, But, dying, has made us rarer gifts than gold.

These laid the world away; poured out Sweet wine of youth; gave up the years to be Of work and joy, and that unhopd That men call age; and those who would have been Their years, they gave, their immortality.

How, bugles, blow! They brought us, for our death, Holiness, lack'd so long, and Love and Pain, Honor has come back, as a king to earth, And paid his subjects with a royal wage; And Nobleness walks in our ways again; And we have come into our own copper:— Rupert Brooke.

LIGHTER VEIN

Scene, the top of a bus. Rather small special constable seated there. To him comes up the steps the girl conductor. "You're a special constable, aren't you, sir? Wish you'd come down and help me. I'm having a lot of trouble with a passenger inside."

The "special" descends, and has pointed out to him as the "trouble" a particularly large and dangerous-looking navy in the corner.

"Special" (after a careful survey of the navy), putting his hand in his pocket and drawing out some coppers: "What is his name?"—Manchester Guardian.

At a special performance in New York a scene was being offered from a new play in which the principal male character had occasion to quote the "seven-ages-of-man" speech from Shakespeare. He read the lines with such telling effect that the audience burst into prolonged applause, temporarily stopping the action of the play.

In the pause that succeeded the outburst a sophisticated-looking youth of about twenty, who sat behind him to lean sideways and remark in a confidential tone to the woman companion: "Say, the fellow that wrote this play is a very poor fellow."

"I have noticed," said the serious, old philosopher, "that women will get a golf dress when she has no intention of playing golf."

"That's what I agreed the man with the Auburn whiskers."

"And," continued the old-hand philosopher, "she will not play tennis for fear she will freckle, and a tennis dress when she has no thought of going into the water, and a riding habit when the very thought of climbing on a horse gives her the chills, and—"

"Yes," interrupted the man with the Auburn whiskers, "but when she gets a wedding dress she means business. Ever notice that?"

Catarhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts through the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists, 75c.

IRISH AFFAIRS

H. F. Duke, Unionist M. P., New Chief Secretary—National Protest

London, July 31, 5.46 p.m.—Announcement was made by Premier Asquith that Henry Edward Duke, a barrister and Unionist member of parliament for Exeter, had been appointed to be the new chief secretary for Ireland in succession to Augustine Birrell. The new chief secretary will be given a seat in the cabinet. No new lord lieutenant of Ireland will be appointed to succeed Lord Wimborne, who resigned after the outbreak of the Dublin rebellion.

From one viewpoint the state of Ireland is very satisfactory, the premier said, but from another viewpoint the country was in a very precarious state, and there was a remarkable absence of ordinary and agrarian crime. Among the unsatisfactory matters had been the re-occurrence of Sinn Fein movements in most aggressive form in some districts. Moreover, there had been deplorable manifestations of sympathy with Great Britain's enemy, but the premier asserted he had no fear of armed rebellion. He believed the vast majority of the people were loyal, but there were anarchistic forces which required vigilance. The government would not tolerate, he declared, a repetition of the recent events.

Premier Asquith said it was necessary to have the civil executive in Ireland responsible to parliament. The scheme of a provisional council to advise the chief secretary, he asserted, was inadvisable. He reminded the house that they were dealing with a period of transition, for he had not anticipated that some people imagined, they would be able to arrive at an arrangement. The premier thought, therefore, that during this period it would not be advisable to attempt any serious experiments. The lord lieutenant of Ireland would be maintained, but it was not urgently necessary to nominate a lord lieutenant at present. The important thing was to get an effective head of the civil executive.

It was proposed to appoint a chief secretary in the cabinet, who would spend the bulk of his time in Ireland. The government sought south men with a broad mind, a firm hand, administrative capacity, sympathy with the Irish people, and a desire for a settlement. The government sought those qualities should be found in Henry E. Duke, member of parliament for Exeter.

Murmurs of dissent were heard from the Irish benches, while John Dillon, Nationalist member for East Mayo, exclaimed: "You ought to have Middleton as lord lieutenant." This being a cynical reference to Viscount Middleton, one of the die-hard Irishists opposing home rule again.

John Redmond said that if Sir Edward Carson stood by the agreement as the Nationalists stood by it, they would, in effect, shake hands on the floor of the house. The premier, he said, who only last week announced that Dublin Castle rule was dead, now stated his intentions of making the civil rule again.

The chief secretary for Ireland and the attorney-general, Mr. Redmond continued, were the real rulers of Ireland. The government therefore, was setting up a purely Unionist executive, and that was an undoubted outrage on the feelings of the Irish people. The government, he asserted, was going to set up

Like A Boy at 50 Bubbling Over With Vitality—Taking Iron Did It

Doctor, says Nuxated Iron is greatest of all strength builders—Often increases the strength and endurance of delicate, nervous folks 200 per cent. in two weeks time.

New York, N. Y.—Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man; in fact a young man he really was notwithstanding his age. The doctor had fled him with renewed life. At 80 he was in bad health; at 46 careworn and nearly all in. Now at 60 a miracle of vitality and his face beaming with the buoyancy of youth. As I have said a hundred times over, iron is the greatest of all strength builders. If people would only throw away patent medicines and nauseous concoctions and take simple Nuxated Iron, I am convinced that the lives of thousands of persons might be saved, who now die every year from pneumonia, grippe, consumption, kidney, liver and heart trouble, etc. The real cause which started their diseases was nothing more nor less than a weakened condition brought on by lack of iron in the blood. Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it and as a consequence you become weak, pale and sickly looking just like a plant trying to grow in a soil deficient in iron. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous run-down people who were ailing

all the while, double their strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days time simply by taking iron in the proper form. Add this after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or tincture of iron simply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated like Nuxated Iron if you want it to do you any good, otherwise it may prove worse than useless. Many an athlete or prizefighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the fray, while many another has gone down to inglorious defeat simply for the lack of iron.—E. Sauer, M.D.

Note—Nuxated Iron, recommended above by Dr. Sauer is not a patent medicine nor secret remedy but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians everywhere. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach; on the contrary, it is a most potent remedy, in nearly all forms of indigestion, as well as for nervous, run-down conditions. The manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron and increase their strength 200 per cent. or over in four weeks' time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by all good druggists.

ALL ITALIAN BOYS
JENVY SON OF KING

Humbert at 12 Years, Is Frequent Visitor at Front

Loved By The Soldiers — Rides in Aeroplanes and Submarines—Shoots Wild Boars

Headquarters of the Italian Army, July 8.—Correspondence of Associated Press.—The most envied boy in all Italy is Humbert Nicholas Thomas Jean Marie—envied not because he is heir apparent to the Italian throne but because he is the youngest boy who has been officially permitted to see the Italian front.

This only son of King Victor Emmanuel, who is known as the Prince of Piedmont, is but twelve years old and has had some remarkable adventures. He is head of the Young Explorers of Italy, a body that corresponds to the Boy Scouts in America, and he has done a lot of things that any boy would like to do. He has gone up in aeroplanes, down in submarines, steered warships, sailed boats, shot at wild boars and ridden cavalry horses.

But the things he proudest of are his visits to the front, for he has been here not once, but many times. His first visit was a matter of considerable family discussion. In the royal family of Italy all such matters are talked over in the same fashion that they would be in any large American family.

Humbert has three sisters, two older and one younger than he, all of whom love him very much and it is related that they did not agree about the safety of a visit to the front. His father, who has been at the front since the war began, as a matter of duty, felt it was rather risky business letting his only son get within reach of Austrian shells and bullets, aside from the usual hazards of rough army life.

His Tutor Aids Him

But Humbert pleaded so hard that the family decided to let him go. The deciding vote was cast by his tutor, Commander Ronald of the navy, who is a much easier master than the one who brought up the present king. In fact, it is stated that the present king, remembering his own Spartan training, chose Commander Ronald as his boy's tutor because of his gentler qualities.

Once at the front, young Humbert displayed the same feistiness that has characterized his father during his stay there. He went practically everywhere, fell in love with the soldiers, was petted by them in return and all in all had a fine time.

Indeed, he liked the front so much that he has since got permission to visit it again and again, until now his happy smile and his sailor uniform of blue serge have become known to the soldiers all along the front.

It is related that during his last visit, when the weather was warm on the lower hills of the Isonzo river front, seeing some soldiers going barefooted he insisted on taking off his own shoes, "if the soldiers can go barefoot, why can't a sailor boy?" he demanded.

While the first prince of his line destined to a naval career, young Humbert liked the army as much as the navy. His fondness for the army is shown by his associates with his aged grandfather, King Nicholas of Montenegro, who has been a soldier all his life, and by his wars with both Austria and Turkey. Humbert loves his grandfather very much and has always imitated in his tales of the latter's exploits in war.

Boy Loves Sports

His physical training has made of him an unusually strong boy for his age. A year previous to the war young Humbert was nominally under the direction of Miss Brown, an English governess in charge of the girls of the family. Nevertheless, he has found many hours for sport, particularly at Castel Porziano, an estate overlooking the Tyrrhenian Sea purchased by his father and converted into a hunting forest.

There is the summer before the war he tramped in forests with his father or played with his sisters along the seashore, took swims in the sea or sailed boats as he chose. It was not an uncommon sight to see him there all but naked somewhere about the beach, after the fashion of the boys the world over. As his father also rents the island of Monte Cristo, made famous in the novel of Alexandre Dumas, the little prince has also made many treck trips with the family to this island.

Brought up in the tolerant manner of his father, Humbert is all boy, through and through, and is not averse to some mischief. It is related that when Lloyd Griscom was American ambassador at Rome and was received at the Palace of the Quirinal in an informal way by the king, young Humbert on one occasion offered to show the ambassador some of the queer nooks in the ancient garden of Quirinal, nook built there during the time when it was the summer residence of the Popes.

As the ambassador was observing the quaintness of the gardens in getting through a narrow path he was surprised to find himself sprayed with water leaping right up out of the path. His boy guide had led the ambassador purposely into the path, where a hidden fountain was made to work by the simple process of stepping upon the stones.

"Just one of his tricks," the king apologized. "The little rascal pulls the buttons off my uniform coat sometimes when he comes up to kiss me."

The latest exploit of this youngster was to mount aloft in a hydroaeroplane. When at Taranto, the naval base outside the heel of the shoe that the peninsula of Italy forms in the south and where a number of American aviators have been helping in the training of the Italian fliers he sought and obtained permission to take a ride.

"He went up smiling and he came down smiling," remarked one of the aviators. "Some day they'll call that lad the smiling king."

STRICKEN IN THE STREET

Completely Restored to Health By "Fruit-a-tives"

822 St. Valler St., Montreal.

"In 1912, I was taken suddenly ill with Acute Stomach Trouble and dropped in the street. I was treated by several physicians for nearly two years, and my weight dropped from 225 pounds to 150 pounds. Then several of my friends advised me to try 'Fruit-a-tives'. I began to improve almost with the first dose, and by using them, I recovered from the distressing Stomach Trouble—Constipation, and my weight was cured. Now I weigh 205 pounds. I cannot praise 'Fruit-a-tives' enough."

H. WHITMAN.

50c. a box, \$ for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

VIGOROUS APPEAL TO THE CIVIL SERVANTS

Several Hundred More Must be Induced to Enlist, Says "The Civilian"—Credit of Service at Stake

Ottawa, Aug. 1.—Under the caption "young men, choose," the Civilian, the organ of the Civil Service of Canada, declares that by some means several hundred more civil servants must be induced to enlist in the next few months. The article concludes by urging the men, in the service, in strong terms to enlist. The article follows: "The civil service has for nearly two years taken its full part in the work of raising the Canadian expeditionary force. It has paid its way, but no more. It has no balance to its credit. The war still goes on and the government calls for at least 150,000 more men. To this number the civil service must furnish its quota. By some means or other several hundred civil servants must be induced to enlist, within the next few months. If this is not accomplished the credit of the service will be irreparably damaged, all the work of the organizations to raise its status and improve its opportunities will be lost, and the abuse and contempt of its enemies will return upon it in overwhelming force."

IF SUBJECT TO COLDS HERE IS GOOD ADVICE

Don't load your stomach with cough syrup. Send healing medication through the nostrils—send it into the passages that are subject to colds and catarrhs. Easy to do this with Catarrhoxone, which cures a cold in ten minutes. Even to the lungs and bronchial tubes of Catarrhoxone—all through the bronchial tubes, nostrils and air passages—everywhere a trace of disease remains will Catarrhoxone follow. You will not have colds nor will you suffer from sniffles, bronchitis or other troubles if Catarrhoxone is used. Get it today but beware of dangerous substitutes meant to deceive you for genuine Catarrhoxone. All dealers sell Catarrhoxone, large size, two months' treatment, costs \$1.00; small size 50c.; sample size 25c.

NOT CONVINCED THAT SITE IS UNSUITABLE

The city commissioners and the visiting C. E. officials inspected the district around Long Wharf yesterday afternoon, to give the latter an opportunity to show why this would not be suitable for the new grain elevator. The railway men insisted more strongly than ever that the site is not suitable, but the commissioners did not show that they were convinced.

Speaking of the mention which has been made of a new passenger station, Mr. Duff, the bridge engineer, said that it is the intention of the management of the government railways to build a new passenger station in St. John just as soon as financial conditions permit. The new structure will be modern in every respect.

The railway men returned to Moncton last evening.

DR. FISHER HOME FROM WAR

Woodstock, N. B., July 31.—Dr. A. M. Fisher was given a hearty greeting on his return here today, from the war zone. He was accompanied by his wife, who has been in England for six months. The mayor, a guard of honor from the 65th Battery, the bugle band and 6th Regiment Band with a large number of citizens were at the station to meet the young physician, who has given his first year to the service of his country. Mayor Sutton, on behalf of the citizens, extended a warm greeting and a procession was formed and escorted Dr. and Mrs. Fisher to the home of F. B. Carvell, Mrs. Fisher's father.

Dr. Fisher, after one year's hospital work in Montreal, offered his services to the British government and has been nearly fifteen months among the sick and wounded. His work was chiefly on transports and hospital ships, taking him to Egypt, Bombay and the Dardanelles. Arriving in England in June, Dr. Fisher was forced to undergo a serious operation in an English hospital and is now home on sick leave. He expects to return to duty in six weeks to remain until the close of the war.

German Humor in War Medals.

At the annual meeting of the Royal Numismatic Society, G. F. Hill, Keeper of Coins at the British Museum, showed some of the latest medals struck in Germany in connection with the war. They all, he said, have a comic interest. One shows Neptune scrambling on a submarine and shaking his fist—apparently in impotent rage at someone who had thrown him overboard. Another represents Count Zeppelin flying over Tower Bridge, glancing over the spectacle of London in flames. A third picture Death sitting in the Conard office (after the sinking of the Lusitania) selling tickets to neutrals, the inscription reading "Business as Usual."

TRAIN TRAGEDY IN FOG

The wreck of two freights at London, Ont., in which Conductor Curtin, aged 20, formerly of Newmarket, and Brakeman Stone, formerly of Mimico, lost their lives.

War and Patent Foods and Drugs

War has raised the cost of medicines not only by cutting off the supply from Germany, but also by reducing the home output. Every such necessary thing as calomel, carbolic acid, and cod liver oil are from 2 1/2 to 11 times the pre-war prices (says the London Daily News). German coal-tar derivatives, like phenacetin, antipyrin, could, no doubt be produced at home if all the coal-tar were not needed for high explosives and all these are from 12 to 25 times the normal price. The German proprietary food, Sanatogen, is being replaced by Sanagen, made in Tipperary. The published analysis shows this to be even richer in phosphorus than its German predecessor, and chemists are selling it a little cheaper.

HEADACHES

Thousands of men and women suffer from headaches every day, other thousands have headaches every week or every month, and still others have headaches occasionally, but not as regularly as intervals. The best Doctor is often unable to find the cause of many of these headaches, and in most other cases, knowing the cause, he does not know what will remove it, so as to give a permanent cure. All he can do is to prescribe the usual pain reliever, which gives temporary relief, but the headache returns as usual, and treatment is again necessary. If you suffer from headaches, no matter what their nature, type and amount, and the results will be satisfactory in the highest degree. You can obtain them all at GIBBS'S, 457 Queen St. W., 250 work or more. Ask for A-R Tablets.

SICK HEADACHES

Sick-headache, the most miserable of all ailments, does its terror when A-R Tablets are taken. When you feel an attack coming on take two tablets, and in many cases, the attack will be warded off. During an attack take one A-R Tablet every two hours. This fast and certain relief, can be obtained in no other way. Genuine A-R Tablets bear the K monogram. Ask for A-R Tablets.

W. H. Hayward Co., Ltd. 20.00. J. & A. McMillan 20.00. Percy Evans 20.00. Per Canadian Bank of Commerce: John Sealey, \$100; W. Hallam, \$10; Mrs. M. A. Hallam, \$5; Friend, \$5; Mrs. A. G. Stratford, \$1; Louis Corey, \$1; H. F. Payson, \$1; Grace A. Eatey, \$1; Marvin H. White, \$1. Total \$2,514.00.

THE LUMBER MARKET

English Prices Still Low—Increase in Freight Rates and Other Incidents Make Nova Scotia Lumbermen Hopeful.

(Halifax Chronicle, July 29.) There has not been much change in the condition of the English market for Nova Scotia lumber since our report of a fortnight ago. Prices remain the same. We quote them then, namely \$20 to \$22 for spruce, and \$17 to \$18 for hemlock.

While there has been no rise in prices local lumber shippers are more hopeful than they were a fortnight ago. Freight has stiffened somewhat from their recent low level of 275 shillings to 300 shillings. While this has no immediate or direct effect upon the lumber market, our experts maintain that if freight rises still further the lumber market will shortly become firmer.

Owners are not now offering ships so freely as they were a fortnight ago and if it becomes more difficult to secure bottoms the lumber market may be refreshed from its present "glutted" state. As it is now many heavy shipments have been "yarded" but that is about all.

A Halifax shipper explains the "glut" of the market by the importation of lumber from Scandinavia. He says, however, that the German submarine campaign against lumber laden vessels from Scandinavia has had the effect that source for the English market.

In the last fortnight there have been some heavy losses, through shipwreck of Canadian dale bound for England. Five million feet were reported lost on one steamer and another is reported ashore at St. Pierre with two million feet. Also there have been several sailing vessel losses.

The state of the American market for our lumber, continues to be rather discouraging. American buyers pay \$20 to \$22 for spruce per 1,000 feet and \$27.50 to \$35 for laths per 1,000.

WORK FOR THOSE NOT QUITE UP TO STANDARD

Conditions Under Which They May Serve King in Home Service

Undoubtedly the young men in the province would like to know the conditions under which they can enlist in the service battalion C.E.F. This battalion is a unit for the men that are medically unfit for overseas, and will give them a chance to do their bit by relieving the men that are at present in the guards, so that they might go overseas. The men are divided into two classes—those invalided home from overseas or Canada having slight disability classes—those who do not wholly exclude them from some form of special service. His new recruits suffering some slight physical defect or disability which, while placing them below the required standard for the C. E. F. proper, does not preclude them from less strenuous special service.

The class of men referred to, it is proposed to use in replacing those soldiers willing to proceed overseas, and who are at present employed in home service. These men will be employed for general garrison labor purposes and other military work in Canada.

It is understood that all medical examiners will be supplied with full instructions regarding requirements, physical and otherwise of such men.

The New Regulations. The class of men referred to, it is proposed to use in replacing those soldiers willing to proceed overseas, and who are at present employed in home service. These men will be employed for general garrison labor purposes and other military work in Canada.

Height, at least four feet, ten inches. Age: the limit is extended from forty-five to forty-eight years.

Chest measurement: limit is reduced to thirty-one inches.

Weight: if vision may be brought to normal by the use of glasses, the applicant will be accepted and glasses supplied, free of charge, and replaced as necessary.

Mr. Justice A. S. White, Mr. White, Donald W. White and E. White arrived here by automobile yesterday from Andover, on route to their home at St. John.

Mr. and Mrs. R. G. Allen of Porto Rico, arrived here Saturday to spend the week-end with Mr. Allen's parents, Mr. and Mrs. E. H. Allen, Waterloo Street. After a visit to Parrboro, N.S. they will return here to spend a longer visit.

H. P. Crouse of St. John is at the Barker House.

Rev. Father O'Brien of the Cathedral staff in St. John, is the guest of Rev. F. L. Carney, pastor of St. Dunstan's Church. He will remain this week and will leave for his home at some of the services.

S. L. Morrison and Miss Helen Morrison, who have been on an automobile trip through the White Mountains and Quebec with J. A. Morrison, returned home on Saturday.

Mrs. Laura D. Baxter of Nashua, N. H., and Mrs. M. A. Woodcock of La-Croix, Wis., are visiting their daughter, Mrs. W. S. Hooper, 115 George Street. Mrs. Baxter is accompanied by her daughter, Miss Laura Baxter.

Teacher was impressing upon the class the importance of accurate observation. To illustrate she said: "Now each of you look around the room and tell me what is the most interesting object to you and why."

"Yes, Thomas, what is the most interesting object you have observed?" "Your desk, please, Miss."

"Why?" "Billy Baker put a snake in it."

PERSONALS

Lieut.-Col. P. A. Guthrie arrived in the city today from Fredericton.

The Misses Muriel and Florence Barker of this city left on the steamer Hampton for White Head this morning on a short vacation.

Frank E. Armstrong, of Dorchester, Mass., arrived on the Boston boat yesterday and is visiting his sister, Mrs. S. J. Bartlett, Adelaide Street.

Mrs. C. E. Estabrook and daughter, Miss Bertha, 188 Main Street, arrived home yesterday after spending three weeks at Belleisle.

Mrs. Vera Earle has arrived home from Providence, R. I., on a month's vacation during the week-end of the 29th.

Corporal William D. Burke of Sackville, who went overseas with the 12th Battalion and was invalided home some weeks ago, was one of the others being Otis Oldenburg of Victoria Mills Clarence Fund, 15 of Gibson, and Alfred Richards, 23, of Fredericton.

Five Have Enlisted. Five members of the staff of the Sackville Tribune are now in khaki. There is E. J. Scott, editor, Sergt. in the 104th Fred Richards, press room foreman, now with the 163th; Ernest Richard, brother of above and in the same corps; A. C. Grant, pressman, formerly of the 69th; Robert Smith and Mrs. Randall Pollard, now wounded; and John Sears, of the 64th.

In Hospital. Geo. T. Biddington, I. C. R. locomotive engineer, Shediac, received word Saturday from his son, A. V. Biddington, that he had been transferred from Edmonton Military Hospital to V. A. Army Home was the first to raise his hand.

Lieut. Percy Hunter is now in hospital suffering from severe shell-shock. He was slightly wounded some weeks ago, but was reported returned to duty. A short time after a bursting shell struck him badly, with the result that he is again in hospital.

Rothsay College Boy. Amherst News—Another Amherst boy has offered his services to King and country in the person of Hubert F. Dible, son of Rev. Horace E. Dible. This young man, who has just completed his course at the Rothsay Collegiate school, enlisted with the 9th Heavy Siege Battery and is now in training at Fortbridge Island, St. John, N. B. His many friends in Amherst and elsewhere will watch his future movements with keen interest.

Got Six Recruits. Captain G. A. Lawson and his party continue to meet with success in Albert County, and on Saturday evening got six more recruits for Col. Forbes' 140th Battalion as follows—Arthur "Stickle, Mark Steves, Willard Goldart, Purdy Smith, Willard Wilson, R. S. Colpitts.

Two Brothers Wounded. Lieut. R. McLaren Keswick, whose name appears in the casualty list as wounded in action at the front, is a son of Mrs. James Keswick Buctouche. At the bombing school in London he came seventh in an officers' class of over two hundred. Lieut. Keswick went overseas about four months ago with the 64th, and according to his relatives has been at the front only about three weeks. His brother, Sergt. Jack Keswick, was wounded about five weeks ago, and is now in an English hospital.

The latest word is that his right arm, though badly shattered, will be saved. He is also suffering from a bayonet wound in the side. After his recovery, which will require some weeks, it is expected that he will be invalided home.

Taylor-Steeves. At the home of the bride's parents, Mr. and Mrs. Edwin K. Steeves, Salisbury road, their eldest daughter, Greta A., was united in marriage with Austin J. Taylor, commercial traveler.

AMAZON ROOFING

HERE is a ready and easy-to-lay roofing that withstands all the elements and wears indefinitely. No better "rubber roofing" could be made. It consists of a strong, fibrous, all-wool felt thoroughly saturated with non-volatile compounds. It is the highest quality of this felt and the skill of saturation that make our roofings supreme. They never dry out or run. You will see this if you try Amazon Roofing.

Real Roofing Insurance. Amazon on your steep-roofed buildings means real roofing protection against wind and weather. You can't get it elsewhere. I will pay you. Made in three different ways to meet every need. Don't neglect your roof. Fix it once for all with Amazon.

Carroll-Palmer Mfg. Co., Limited Halifax, N. S. St. John, N. B.

vacation with her parents, Mr. and Mrs. T. V. Earle, 274 Main Street.

Miss M. Florence Catson, of this city, will leave today for Summerside, P.E.I.

Rev. H. E. Thomas is expected to arrive in Sackville Wednesday, to take over his new charge, the Methodist church.

Dr. H. G. Vaughan has been appointed a member and chairman of the board of health for the town of Chatham.

Rev. R. O. Morse, pastor of the North River group of Baptist churches, left Monday afternoon to spend his vacation in Toronto.

Mrs. E. L. Anderson of St. John, who has been spending several weeks in Sackville, left last week for Halifax, where she will remain until her son, Irving, who is a member of the 86th Battalion, sails for England.

Dr. F. W. Hart, Mount Allison University, who left a good practice in Indian Head, Sask., to enlist for army service in Egypt for a year, is now in England, and expected to arrive soon in Canada.

He will visit Sackville to see his parents, Rev. Thomas D. Hart and Mrs. Hart. Dr. J. D. Maher returned from Halifax today.

Magistrate Clements of Westport, N. S., was a visitor to the local police court this morning.

(Monday, Monday) Mr. Justice A. S. White, Mr. White, Donald W. White and E. White arrived here by automobile yesterday from Andover, on route to their home at St. John.

Mr. and Mrs. R. G. Allen of Porto Rico, arrived here Saturday to spend the week-end with Mr. Allen's parents, Mr. and Mrs. E. H. Allen, Waterloo Street. After a visit to Parrboro, N.S. they will return here to spend a longer visit.

H. P. Crouse of St. John is at the Barker House.

Rev. Father O'Brien of the Cathedral staff in St. John, is the guest of Rev. F. L. Carney, pastor of St. Dunstan's Church. He will remain this week and will leave for his home at some of the services.

S. L. Morrison and Miss Helen Morrison, who have been on an automobile trip through the White Mountains and Quebec with J. A. Morrison, returned home on Saturday.

Mrs. Laura D. Baxter of Nashua, N. H., and Mrs. M. A. Woodcock of La-Croix, Wis., are visiting their daughter, Mrs. W. S. Hooper, 115 George Street. Mrs. Baxter is accompanied by her daughter, Miss Laura Baxter.

Teacher was impressing upon the class the importance of accurate observation. To illustrate she said: "Now each of you look around the room and tell me what is the most interesting object to you and why."

"Yes, Thomas, what is the most interesting object you have observed?" "Your desk, please, Miss."

"Why?" "Billy Baker put a snake in it."

What a Shoe Sale

WHAT A SALE! OH, WHAT A SHOE SALE! TO THE POINT!

We've a great many more pairs of shoes in this store than we want at this season of the year and we're going to sell them. We want room for our fall stock, and to make short work of this Clearance Sale Business, we've cut prices in this wise.

OUR MEN'S AND WOMEN'S SHOES that we sell worth \$3.00, \$4.00, \$5.00 to \$6.00, will be sold for \$1.98, \$2.85, \$3.35, \$3.85 to \$4.35.

OUR BOYS' AND CHILDREN'S SHOES DISCOUNTED IN THE SAME PROPORTION

WIEZEL'S CASH STORES 243-247 Union Street

News of Maritime Men In The War

Units Broken Up

Capt. H. Ralph Gunter of Fredericton is to be given command of a supply depot unit, now in training in England, and will take it to France within a short time. He has been at Bramshott Camp in England, but is to return to Shorncliffe to assume command of the new unit. The 8th Divisional Train, which he has commanded since it was broken up and only six of the original twenty-six officers were given appointments, none of his Maritime Province officers setting on with the newly formed unit. Capt. Gunter, however, was given command of the supply depot unit and has Sergt. Jas. T. Mayor as his staff sergeant. The latter will probably be promoted to be a warrant officer when he accompanies Capt. Gunter to the firing line. According to word received the 4th Divisional Train, commanded by Lt. Col. E. C. Dean, of Halifax, has also been broken up since its arrival in England and Colonel Dean will likely be appointed assistant director of supply and transport at Shorncliffe. He held such a position with the 6th Division at Halifax previous to going overseas.

On Brigade Staff. Sergeant Amos Pickard of Fredericton, with the 26th Battalion, has been appointed to the brigade headquarters staff. He is still in the same brigade and is a non-commissioned officer.

Special Service Battalion. Orders were received on Saturday by Lieut. Col. P. A. Guthrie, stating that all members of overseas units who were medically unfit for overseas duty were not to be discharged, which will later become part of a special service battalion. The orders set forth that these men shall be discharged to a Junior C. E. F. unit and they can be used as military police, clerks and guards, and if they subsequently become medically fit they are to be allowed to proceed overseas. Suitable men for the duties as mentioned above may be enlisted specially for the company mentioned. These orders are soon to be issued to the various recruiting officers together with the required medical instructions and in the meantime any suitable recruits are to be recommended.

Lag Paralyzed From Wounds. Letters received in Fredericton from Private Fletcher Foster, who was recently wounded while with an infantry battalion at the front, stated that he was hit with a "white bang" and wounded in the hip, arm and knee. His right leg is partially paralyzed and he is now at No. 8 General Hospital in London.

Major Osborne at Front. Major W. J. Osborne of Fredericton, who went overseas with the 55th Battalion, is probably now on the firing line in Flanders with a Canadian infantry battalion. A letter received stated that he had been warned to be ready to go to France with a draft and that by the time the letter was received here he would be on the firing line.

Four Recruits. Four recruits were sworn in at Fredericton during the week-end of the 29th. Corporal William D. Burke of Sackville, who went overseas with the 12th Battalion and was invalided home some weeks ago, was one of the others being Otis Oldenburg of Victoria Mills Clarence Fund, 15 of Gibson, and Alfred Richards, 23, of Fredericton.

Five Have Enlisted. Five members of the staff of the Sackville Tribune are now in khaki. There is E. J. Scott, editor, Sergt. in the 104th Fred Richards, press room foreman, now with the 163th; Ernest Richard, brother of above and in the same corps; A. C. Grant, pressman, formerly of the 69th; Robert Smith and Mrs. Randall Pollard, now wounded; and John Sears, of the 64th.

In Hospital. Geo. T. Biddington, I. C. R. locomotive engineer, Shediac, received word Saturday from his son, A. V. Biddington, that he had been transferred from Edmonton Military Hospital to V. A. Army Home was the first to raise his hand.

Lieut. Percy Hunter is now in hospital suffering from severe shell-shock. He was slightly wounded some weeks ago, but was reported returned to duty. A short time after a bursting shell struck him badly, with the result that he is again in hospital.

Rothsay College Boy. Amherst News—Another Amherst boy has offered his services to King and country in the person of Hubert F. Dible, son of Rev. Horace E. Dible. This young man, who has just completed his course at the Rothsay Collegiate school, enlisted with the 9th Heavy Siege Battery and is now in training at Fortbridge Island, St. John, N. B. His many friends in Amherst and elsewhere will watch his future movements with keen interest.

Got Six Recruits. Captain G. A. Lawson and his party continue to meet with success in Albert County, and on Saturday evening got six more recruits for Col. Forbes' 140th Battalion as follows—Arthur "Stickle, Mark Steves, Willard Goldart, Purdy Smith, Willard Wilson, R. S. Colpitts.

At the bombing school in London he came seventh in an officers' class of over two hundred. Lieut. Keswick went overseas about four months ago with the 64th, and according to his relatives has been at the

WHAT'S NEW AT THE MOVIES

BRIGHT COMEDY IS IMPERIAL FEATURE

'The Dust of Egypt' Excellently Played — Exciting Number in Peg o' The Ring Serial

Alan Campbell, one of England's brightest writers of comical stories and stage farces, turned out a most amusing thing in *The Dust of Egypt* which received film presentation at Imperial Theatre yesterday. Although no doubt the spoken lines of this play on the real stage scintillated with wit and humor, it still remained an extremely funny story in the moving pictures. While the whole idea is hugely fictitious and impossible, nevertheless when the pretty Princess Amenset of Egypt drank the sleeping potion and awoke 2600 years later in a modern society home in London and began making violent love to the young man of the house, the fun was truly delicious. The Vitagraph Co. placed this story in most capable hands with Antonio Moreno playing the English hero and versatile Edith Storey acting the role of the enamored and enraptured mummy. There were plenty other humorous characters in the picture such as an exasperated father, a scandalized mother, a "silly ass" of an Englishman and a timid butler, which parts were essayed by Frank Currier, Sissy Fitz Gerald, Charles Brown and Hugnie Mack respectively.

The scenes switched from ancient Egypt to modern England back and forth in order to bring out the wonderful contrast of the story and to accentuate the strangeness of the Princess in her new surroundings. On the whole *The Dust of Egypt* is a very pleasing picture. It is a comedy of a distinctly higher class. Today it will receive its usual presentations and its uniqueness and capable handling—characteristic of all Vitagraph productions—make it a feature of the week.

In the Peg o' the Ring serial—which the superstitious folks have introduced to fight patrons as well of late—the heroine careback rider (Grace Cunard) and her rescuer, Dr. Lund, Jr. (Francis Ford), are again captured by the hirings of the circus owner's jealous wife and thrust into a box car which is detached from a train and placed on the track of a fast-approaching express. The adventures and extraordinary agility of the principals in this chapter in escaping from their predicament makes one wonder why in the mischief these people are willing to take such chances of losing their lives. It is no wonder the small boy likes the adventurous serial story. Pathé's British Gazette contains much Allied war news and English topical subjects in this issue which rounds out a very enjoyable program.

On Wednesday and Thursday St. John's favorite, Edmund Breece, will present still another of his renowned portrayals of northern life in the ferid *Spells of the Yukon*, which is the output of the studios of Popular Plays & Pictures.

TWO GOOD PLAYS AND A SCENIC PICTURE

John Barrymore, Flora Zabelle and Crane Wilbur in Big Opera House Bill

One of the best assorted programmes that the Opera House has offered since the picture policy was started is that shown there yesterday. The feature, John Barrymore in the Famous Players comedy drama, *"The Red Widow,"* taken from the well known play of the same name, furnished plenty of laughs, with just a touch of thrill and dramatic sensation here and there to balance it and make it a real good screen play. Charming Flora Zabelle, in the same role she made famous in the stage version of the play, heads the supporting cast. The photography and scenic accessories shown are particularly good.

On the same programme, Crane Wilbur, in a gripping dramatic story, *"Could a Man Do More?"* a play by the way which was written by Mr. Wilbur himself, was a close second to the Barrymore play in popular favor. It is a good, wholesome drama and worth seeing.

A scenic picture, showing scenes along the Columbia River, with insights into the salmon fisheries—one scene showing a 60 lb. salmon fresh from the net—also some beautiful hand colored scenes in picturesque Holland, completed the well balanced programme.

The same programme will be repeated tonight and tomorrow afternoon. A special performance will be given on Wednesday night under the auspices of the Field Ambulance Corps, the proceeds to be given to the Red Cross Society. One performance only will be given, starting at 8.16. There will be special and novel pictures, instrumental and vocal solos by local talent, selections by the City Cornet Band and the Opera House Ladies' Orchestra.

GEM HAS EXCELLENT PAIR OF PICTURES

'Little Meena's Romance' Dainty and Satisfying and There is a Stirring Comedy

A wholly satisfying, restful picture had first place on the Gem's programme last night. It is *"Little Meena's Romance,"* and brings to the Gem another dainty star actress in the person of Dorothy Gish. She is a lovable little fit of femininity herself and she incorporates herself with little Meena Bauer, in portraying the character of this wise some Dutch maiden of a Pennsylvania town.

Little Meena, daughter of a prosperous land owner, attracts the attention of Count Van Ritz. The latter is played by Owen Moore, who is Mary Pickford's husband. Meena and the count fall in love, though neither knows that the other is blessed with a good share of this world's possessions. The count, however, is at the moment out of funds and when luck returns and money comes to him he leaves a sad little Meena and goes back to the big city. Meena's father dies and she becomes an heiress. She, too, goes to the city and there fate brings them together again. How Cupid works out his project for the union of these two lives makes a novel and most interesting story to the celebrated director, D. W. Griffith, has lent his genius to the picture and has made it a gem. His touch is deft and he has grouped his characters in situations and mounted the story with such artistic effect that this five-reel feature may be ranked with some of the best the Gem has shown. Supporting Miss Gish and Mr. Moore is a strong company of talented artists.

"His Last Laugh" is one of those noted Keystone comedies which have made the Gem's laugh-making pictures outstanding. Harry McCoy and Julia Fay play star parts, and a large company of fun-makers join in the swift action, at times sensational but always supremely comical. There are many laughs before "his last" one. This picture will be repeated twice tonight. On Wednesday and Thursday come *The Strange Case of Mary Page*, and a five reel subject. There will be two big ones for the week end.

RUPERT OF HENTZAU

Empress Screens Famous Bluebird Production

Anthony Hope's stirring romance has been made into a photoplay certain to find favor with lovers of adventure—particularly the kind of adventure which happens in the mythical kingdom of Ruritania.

The picture was made in England, and is acted by an English cast throughout. Henry Ainley, an accomplished stage and screen player, is seen as Rastendyl, the Englishman whose impersonation of the king leads to all sorts of thrilling incidents. Mr. Ainley does very fine work. Opposite him is Jane Gail, whose contrasting role as the queen is immensely pleasing. As Colonel Sept, we have Charles Rock of Drury Lane Theatre in an excellent character part. There is much to commend in the five part to believe in personal integrity, which is supported for awhile by the sweetness and purity of early influences. That a powerful impression by this characterization is felt cannot be denied by those who have seen the picture. When the young pure chorus girl becomes dejected and decided to walk the easy way she was brought back by natural means with a happy termination. The latter, strong in sense of honor but weak in self-control and reason, is saved and assured of a chance for permanent happiness through a chance view of what her heart should have told her all along was her natural mission in life. The story has a strong moral well forced home and cannot but be appreciated.

Miss Barriscale is ably supported by Arthur Maude and other well known screen favorites. The comedy on the programme was of a bright pleasing nature and brought forth roars of laughter. The reward is certainly worth seeing.

EMPERESS SCREENS FAMOUS BLUEBIRD PRODUCTION

Anthony Hope's stirring romance has been made into a photoplay certain to find favor with lovers of adventure—particularly the kind of adventure which happens in the mythical kingdom of Ruritania.

The picture was made in England, and is acted by an English cast throughout. Henry Ainley, an accomplished stage and screen player, is seen as Rastendyl, the Englishman whose impersonation of the king leads to all sorts of thrilling incidents. Mr. Ainley does very fine work. HALIFAX CANADA

With the British Army in the Field, July 31, via London, July 31—At the close of two years of the war and of the first month of the British offensive, General Sir Douglas Haig, commander-in-chief of the group of British armies in France, in speaking of the situation, laid particular emphasis on the fact that the beginning of the third year of the war saw the initiative entirely with the Allies on all fronts, while England for the first time was exerting something like a power worthy of her numerous resources on land.

"The tide has turned," he said. "Time has been with the Allies from the first. It is only a question of more time till we win a decisive victory, which is the one sure way to bring peace in this, as in other wars. Until this victory is won it becomes a British soldier in France to think of peace."

MAJESTY OF THE LAW.

A schoolboy, unconscious that he was a humorist, wrote the following essay on the human body:

"The human body is divided into three parts—the head, the chest and the tumble. The head contains the eyes, ears, nose, mouth and brains, if any. The chest contains the heart, lungs and part of the liver. The tumble is entirely devoted to the vowels, of which there are five."

THE INNER STRUGGLE OFFERED AT LYRIC

Strong Scenes and Inspiring Climaxes in Master Play; Cooke and Mason in Comedy

The doctor looked again at the letter in his hand, the letter that called him back to the happy care-free life, as the woman he loved. Then before him came the vision of a hundred tortured souls, cursed with a dread disease, shunned by the world, dragging out their useless lives in the desolate despaired leper colony.

The doctor smiled in his characteristic gentle way and applied a match to the letter. His people needed him. The flame reached the unusually powerful dramatic notes and won wide approval, it is doubtful if Miss Greenwood has ever been called upon to demonstrate her unusual abilities as she has in this production.

Franklyn Ritchie essays the opposite role to Miss Greenwood and the playing of the difficult part of Dr. Grant gives a striking illustration of his versatility. Aside from the unique plot involved and the tenderness with which the love story is unfolded, *The Inner Struggle* presents a most unusual and pathetic side to the life of the leper, those despaired humans who eke out their lives on a desolate little island far out in the Pacific. The production well merits the name of feature for it is a most worthy offering.

Cooke and Mason looked after the vaudeville part of the programme by the presentation of an amusing singing and talking sketch, *The Street Sweeper*.

GREAT MORAL STORY IS SHOWN AT UNIQUE

The Reward Features Bessie Barriscale as Chorus Girl; Arthur Maude in Support

Very natural indeed is the tendency on the part of the advertiser to overestimate his goods. In the theatrical business this falling is inclined to become a permanent one, unless the management is careful to be honest with their patrons and the reading public. In sifting up the merits of *The Reward*, as shown at the Unique yesterday, one can faithfully say that the merits of the production have not been one-half too strongly commended by the management of the cosy theatre. It is an interesting and attractively presented story dealing with the morals of life. *The Reward* is given added strength by the remarkable interpretation of Miss Bessie Barriscale in the lead. This is not her first screen portrayal of the type of romantic self-indulgence but in this picture she is wholly unflinching by previous impersonations, offering an entirely new phase of character development with rare delicacy. She has depicted the wayward creature who is so incapable of feeling more than a vicious sense of guilt that she does not realize that she has ever done wrong, only that she has been wronged. In *The Reward* there is an inclination of the wayward creatures

Last Night's War Cables Encouraging

London, July 31—The Allies maintain unceasing pressure both on the western and eastern fronts, as well as the Italians on the Austrian front, and heavy battles are being fought in all theatres.

The British and French started a fresh combined attack on Sunday from Deville Wood to the Somme, and made dogged progress which brought them near the village of Maurois. The misty weather, which has hindered the operations, has given place to clear skies with intense heat. The Germans are making the most determined counter-attacks, and officially claim that the Allies have not gained a foot of ground by Sunday's attack.

The Russians are continuing their success, and despite the strongest German resistance are pressing ever closer to Kovel. According to tonight's news they are across the Stokhod over a whole stretch between the Kovel-Sarny and Kovel-Berdychev railroads.

General Letchinsky, whose operations were suspended by the Dniester floods, is moving again and working toward Stanislau, another important railway centre.

London, Aug. 1—The eastern and southeastern counties of England had a visitation from German airships late last night, and at this hour the attack is still proceeding. All official communication just issued says:

"An attack by a number of hostile airships developed before midnight. The raiders are reported as having crossed the coast line along the eastern and southeastern counties. Bombs were dropped off the Thames estuary. The attack is proceeding."

Turn over a new leaf

Now that the warm days are here leave the heavy, over-heating foods for something lighter and easily digested. Kellogg's Toasted Corn Flakes supply plenty of nourishment to the body to enable it to do its morning's work in comfort. The thin, brown flakes are palatable as well as being quite digestible.

WHAT'S NEW AT THE THEATRES

Edith Storey — The Mummy That Came Back to Life!

IMPERIAL — Vitaphone "THE DUST OF EGYPT" — Comedy

A Ludicrous Mix-up of the Ancient and Modern

ANTONIO MORENO THE HERO

IN EXACTLY ONE-TENTH OF A SECOND you are dressed back three thousand years and ushered into the royal room of Amnest, a Pharaoh's daughter who she sits enthroned in all the glory and wonder of a glittering Cleopatra. Amnest is tired of splendor—tired of glory. Amnest, the wise man of the desert, is sent for. He gives her two potions. The first potion will make the one who quaffs it Amnest's slave in a love that has never been surpassed. The second is a potion of a death sleep—that will last three thousand years. The fair princess drinks the second potion, drops to her knees—and sinks away into her age long sleep. Three thousand years later Geoffrey Lascelles, an American, is presented with an Egyptian mummy. The potion of the ancient wise man of the desert has done its work.

The beautiful daughter of the Pharaoh awakes—shakes off her grave clothes, and awakens Geoffrey Lascelles—and then the fun starts in earnest!

THE BIG LEAGUES

Brooklyn Takes Double Header From Cincinnati

St. Louis Wins Another

White Sox Defeat Philadelphia in Eleven Inning Contest; Red Sox Shut Out Detroit; Cleveland Loses to Washington

Brooklyn gained in the National League by taking a double header from Cincinnati. Matty's team did not remain out of the cellar very long. The Braves are still trailing along in second position, although they do not seem to be able to gain on the leaders.

The Philadelphia Athletics placed only a half game behind the Braves. Cravath's homer was instrumental in putting the game on ice against the Cubs yesterday.

The Giants are playing better ball and may be considered dangerous. Some critics are looking for them to out both the Phillies and the Braves and then force the leaders to extend themselves to stay out in front.

St. Louis is making a wonderful showing. Eleven straight games is certainly going some. They are pretty well equal, or even superior, the Giants record run of the season.

The White Sox had a hard time defeating Philadelphia yesterday. The game went eleven innings before the school boy appreciation was over. The Sox were slipping and will need to brace up if they will find it hard catching the leaders.

Only five games separate the Red Sox, who are leading, and Washington, in sixth place. The race this year is the best in the history of the American League.

SPORT NEWS OF THE DAY HOME AND ABROAD

BASEBALL

Cubs Fined \$1,000

New York, July 29.—An announcement was made last night that President John K. Tener has upheld the decision of Umpire Byron, who fined the New York Cubs \$1,000 for the beginning of the 1911 season. Hartzell has been turned over to Jack Dunn's Baltimore International League team to fill the place of outfielder, Elmer Miller, recalled by "Wild Bill."

Yankees Let Hartzell Go

Another one of the old boys is going back to the States. The New York Yankees has parted with utility fielder Roy Hartzell, who has been a member of the Yankees since the beginning of the 1911 season. Hartzell has been turned over to Jack Dunn's Baltimore International League team to fill the place of outfielder, Elmer Miller, recalled by "Wild Bill."

He Has an Exceedingly Valuable

He has an exceedingly valuable man on the team and before playing with the Yankees with the St. Louis Browns, being sent to New York in exchange for Jimmy Austin and Frank Laporte. Miller joined the Yankees yesterday and made three hits. Last year he was with Monie and was one of the prize sluggers of the Southern League. He originally joined the Yankees last fall and was with them on the spring training trip, being dropped off at Baltimore on the way north.

Detroit Buys Pitcher Ehmske

Syracuse, N. Y., July 29.—Howard Ehmke, leading pitcher of the New York State League, with nineteen victories and five defeats this season, was sold today by Syracuse to Detroit. It is believed that he will be paid about \$4,000 for the season.

Pitcher Boehler of the Tigers will

pitch for Detroit on September 10, at the close of the State League season.

AQUATIC

Both Wins Annual Swim

Charles Toth of Boston, holder of several American endurance swimming records, won the annual swim from Charlestown bridge to Boston Light Sunday, being the only contestant to complete the entire distance. It was in the water exactly six hours. There were only seven starters owing to adverse water conditions.

Conductor Levi Berry of the Rockland

division of the Maine Central Railroad says he has the heaviest engine crew on the road. Engineer Harris H. Rodick pilot the beam at 285 pounds and Fireman C. W. Hensley at 288. Conductor Berry is probably the lightest conductor on the road, weighing about 125 pounds.

6 Months Old Baby CURED OF DIARRHOEA

During the hot weather young children are very much subject to diarrhoea. In fact, more so than adults, on account of the more delicate construction of their constitution. It behooves every mother to look after her children on the first sign of any loosening of the bowels, for if they do not some serious bowel trouble such as diarrhoea, dysentery, cholera infantum, cholera morbus, Summer complaint, etc., is liable to follow, and they will, perhaps, lose their little ones by not taking the precaution to check this looseness of the bowels by using Dr. Fowler's Extract of Wild Strawberry.

Mrs. Chas. Monck, Marlbank, Ont., writes: "When my little girl was about six months old she took a severe attack of diarrhoea. I tried castor oil, laudanum and other treatments, but they were of no use. A neighbor told me about Dr. Fowler's Extract of Wild Strawberry. I tried it, and after giving my baby two doses I could see a great change for the better. I have always praised 'Dr. Fowler's' since then."

Dr. Fowler's Extract of Wild Strawberry is the original. See you get it when you ask for it. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont. Price 80c.

TEN EYCK TELLS OF ORIGIN OF THE FOUR-MILE BOAT RACE

Old Jim Ten Eyck, Syracuse rowing coach, in the latest issue of the Syracuse, tells how colleges came to row four miles.

"One day two English oarsmen started out for a little row on the Thames," writes Ten Eyck. "One of them said to the other, 'My bally old chap, I'll row you from Putney to the ship at four miles, and when we get there we'll have a couple of beers.' And so they each started out in their sculls, and when they reached Mayfairs they went to a roadside tavern and had refreshments."

"Other old time oarsmen followed their example and it became a favorite pull when Oxford and Cambridge took up rowing they followed the old men and rowed from Putney to Mayfairs. You know how hard it is to change an Englishman once he gets into a rut."

"Johnson, St. John, Martin Love, Newcastle; Thomas Duke, Loggville; Andrew Godfrey, Black River Bridge; Placide Dorris, Bouchette; William Smith, Loggville; Archie Godfrey, Black River; Wilbur McKnight and Frank McKnight, New Jersey; B. Douglas Burke, Loggville; Lemuel Godfrey, Lower Napes; Philip Arneault, Loggville; Archibald Whitaker, St. John; Wallace Cameron, Fenwick; Walter Sacre, Marysville.

The total recruits secured in the province during the week ending July 29 was 94. The total for the preceding week was 128. The county totals last week follow: St. John, 45; Northumberland, 45; Victoria, 11; Madawaska, 1; Westmorland, 1; and one recruit for the 165th battalion from Prince Edward Island.

Recruits For Home Service

Twenty-three recruits were secured at the recruiting office in Prince William street yesterday, four for overseas and nineteen for the 62nd detachment. They were as follows: For No. 9 Siege Battery, David Delvers, Hammonds; William J. Black, St. Martins; James R. Evans, Halifax; for the 29th Klitka, Gordon Scott, St. John; piper for the 62nd detachment, John Matheson, James Good, Guy Gates, Joseph Quirk, Walter Johnson, St. John; Martin Love, Newcastle; Thomas Duke, Loggville; Andrew Godfrey, Black River Bridge; Placide Dorris, Bouchette; William Smith, Loggville; Archie Godfrey, Black River; Wilbur McKnight and Frank McKnight, New Jersey; B. Douglas Burke, Loggville; Lemuel Godfrey, Lower Napes; Philip Arneault, Loggville; Archibald Whitaker, St. John; Wallace Cameron, Fenwick; Walter Sacre, Marysville.

Casualties

The names of two New Brunswick men appear in the midnight casualty list, Corporal Frederick Breaux, Coverdale, and Fenwick Colpitts, Moncton, both wounded.

Forestry Battalions

It is understood that the two new forestry battalions now being raised in Canada, the 288th and 246th, will provide all the lumbermen that will be needed for the operations in the north of the country. The 284th, in which there are many New Brunswick lumbermen, is doing most of its work in the north of Scotland, cutting Scotch pine. The new battalions are expected to go to France.

July 31 at the Front

The way in which July 31 was observed by No. 1 Canadian General Hospital formerly commanded by Dr. Murray MacLaren, somewhere in France, is described in a letter received from nursing sister Miss Edith McCafferty, daughter of Francis McCafferty of this city. The graves of all those who had fallen were visited and decorated by the members of the unit and observance of the day for the patients in the hospital was also attended to.

Details of Laundering

Says Old Stars Were The Best

Pop Anson Speaks of Ewing, Kelly, Lange, Rusie, Keefe, Williamson and Others — Opposes Pinch Hitting

Adrian C. Anson, who helped the late A. G. Spalding build up the National League in Chicago, still boasts of the highest batting average ever recorded by a first baseman in the old circuit. In 1887 Anson played 122 games as manager, captain and first baseman of the Chicago team, and hung up a percentage of .421, which never has been exceeded in the National League. Anson led the league in 1879 with .407, in 1881 with .399, in 1887 with .421 and in 1888 with .348. He ranked second in 1880, 1882 and 1886 with .388, .392 and .371 respectively, while in 1889 he stood third with .341. In other words, Anson was one of the heaviest batsmen that ever played professional ball in this country.

It was in 1876, when Spalding became the manager and pitcher of the Chicago team, that Anson covered third base and batted .362 in 66 games. Subsequently he succeeded Spalding as the team leader, and in 1880 the Chicago team won the National League pennant. This great team was made up of Harry Corcoran and Fred Goldsmith, pitchers; Silver Flint, catcher; Anson; Joe Quast, on the bench; Tom Burns, shortstop; Dainty, left field; George, centre field; and the famous Mike Kelly in right field. The Chicago played 81 games that year, winning 67 and losing 17. Again in 1881 Anson captured another pennant with the same line up and Hugh Nicol as an extra man. A third championship was won by the Chicago in 1882 without a change in the team.

Anson repeated in 1883, but John Clarkson and Jim McCormick were the pitchers instead of Corcoran and Goldsmith, while Fred Pfeiffer had succeeded Quast at second base and Bill Sunday pitched right field when Kelly wasn't catching. Chicago's fifth pennant was won in 1886 with the same team strengthened in the box by Flynn and in the outfield by Jimmy Ryan. Anson continued as manager until 1898, but the Brotherhood war of 1890 wrecked the team so that he had to rely on green material. Still, after his stars had deserted him to join the Brotherhood League he placed a pretty fair combination in the field—Malachi Klitzke behind the bat; Hutchinson and Luby, pitchers; Glenavoy, second base; Cooney, shortstop; Burns, third base; Wilmut and Carroll in the outfield.

Grand Old Man of Baseball

When Spalding gave up his interest in the Chicago club, which passed into the hands of the late John H. Walsh, Anson was released. This act of ingratitude will never be forgotten by old timers, in view of the fact that Anson was Anson's loyalty to the National League that helped to beat the Brotherhood. The Grand Old Man of Baseball, as the famous veteran is called, is spending the summer in New York. He is a daily visitor at the Polo Grounds and he still knows the fine points of the national game. The sporting editor of the New York Evening Sun, with an idea that Anson's

views might interest the fans, asked him if he thought the sport had improved since he managed the Chicago champions.

"Not a bit!" replied the once famous baseball leader. "It has gone back, in my estimation. How? Well, you read a lot of stuff nowadays about inside baseball which doesn't exist except in the minds of the writers. I see no difference in the way the game is played now, except the use of the spitball—and more than thirty years ago, for that matter, Bobby Matthews had a spitter, although perhaps he didn't know what was in it. He was in the habit of wetting his fingers and keeping a round white spot on the ball. He could make the ball drop to bases, that is, if he could hit it safely."

"Good baseball was played twenty years before the war," he said, "and led by the National League in 1876. But of course in those days there were not so many ball players to be had. I met with the present wealth of material in the big leagues there are comparatively few really great players. In my opinion Wagner and Lajoie, though they are growing old, possess more natural skill than the younger stars, with the possible exception of Ty Cobb and Tris Speaker. I never have seen a better team than the Boston team when they had Harry and George Wright. I'll admit that my Chicago team was strong, but the old Bostonians played just as cleverly. George Wright was a wonderful shortstop. There isn't a man in the major leagues today who could have out-classed Wright in that position."

High-Class Players Scarce

"When the sport was first organized leagues were developed faster than players. It was impossible to get more than a few high-class men for each team. So it was necessary to fill in with men who were called players, but really were nothing more than mere carriers and truck drivers who thought they could play. The same condition might be said to prevail today. Look over the big league teams and you'll find that some have three or four first class men, while others can show only two or three. The other players are just ordinary in point of skill, but they must be used to fill in the various positions. I don't mean to say that the quality of baseball has deteriorated. It is about the same except that instead of one big league to absorb the best available talent there are two circuits, which means a greater number of second class players than formerly."

You ask me if I have seen better pitchers than Walter Johnson, Christy Mathewson, Alexander and other modern stars? Yes. I can truthfully say that I have. I believe that Anson, Rusie, who pitched the Giants from 1880 until 1899, was the greatest of them all. Rusie had as much speed as Johnson, better control and the faster curve ball I ever saw. He was physically the superior of Johnson, Mathewson and Alexander. He was built like Pateau, and there was no limit to his endurance. Tim Keefe, also with the Giants back in 1888 and 1889, was a master. He was among the first pitchers to perfect what is known as "change of pace." Yet Clarkson, Radbourne, Ferguson, Corcoran, Buffington and others I could name pitched slow balls as well as speeders.

Keefe, however, was the pioneer at mixing them up. Radbourne, had everything that makes a successful pitcher, and he could work every day.

Pitching the Same

"There are many competent pitchers at the present day, but they do not excel the men I have named. Present day pitching, barring the spitter, hasn't changed a bit. There's the old curve,

the drop ball, the in shoot and the floater. The fadeaway is nothing more than the old out drop, which was used by many old pitchers, particularly Charley Buffington, who helped to win the pennant for Boston in 1888. The so-called fast ball is the in shoot, or hop ball, which is most effective when pitched close to the batsman's neck.

The best catcher they ever lived was Buck Ewing, who caught for the Giants when they won the World's Championship in 1890. Ewing not only was a splendid catcher, but also a powerful hitter and a fast base runner. He was a quick thinker and a natural born leader.

"Ed Williamson, who played shortstop third base for my Chicago team, was the greatest all around player I ever saw developed. He could catch, pitch and play both the infield and outfield, also hit in the 200 class year in and year out and steal bases. Williamson was the champion long distance thrower, too. Other famous players who have not been surpassed were Ross Barnes, Fred Pfeiffer, Bid McPhee and Fred Dunlap, all star second basemen. Charley Ferguson, who pitched for the Phillies under Harry Wright's management, was another wonderful all around player."

"Bill Lange, who played on the Chicago team twenty odd years ago, was in a class by himself, as an outfielder. He was a better outfielder than Cobb or Speaker, a great natural thrower and one year he stole 106 bases. Williamson, Lange, Pfeiffer and Your Uncle all could throw a ball 130 yards. It was in 1871 that I won a throwing match with Jack Remsen in Hartford with a record of 127 yards four inches.

Kelly the Base Stealer

"Mike Kelly never has been beaten as a base stealer and slider. He was the trickiest base runner in the profession and was the first man to pull the trick of cutting third base. But going back to the outfielders, I like to include Jimmy Fogarty, Curt Welch, Jimmy McAleer, Mike Tierman, George Gove, Willie Keeler and Dickey Johnson as among the best that ever played in fast company. Then we mustn't forget that Philadelphia outfielder, Ed Delahanty, Billy Hamilton and Sam Thompson, all heavy hitters. And don't forget Jesse Burkett of the old Cleveland, one of the best."

"How many pitchers ought to do the work for a major league team in these times? A manager who has more than three first class pitchers is handicapped. If I was handling a ball club now I'd keep three pitchers working in rotation as long as they could win. Two days of rest are enough for any boxman. The idea of carrying seven, eight or ten pitchers is absurd. They simply are in the way. In fact, the major league teams carry too many players. I used to get along with ten or twelve when we played 134 games in a season. In my opinion sixteen or eighteen are enough. It is amusing to hear that the National League's twenty-one player limit is a hardship. On the contrary it is a good rule and has produced beneficial results."

"Pinch hitting is overdue. It seldom amounts to anything, and it weakens the confidence of the men who are taken out of the batting order, especially the pitcher. It hurts a pitcher to be yanked from the box as soon as the other team makes a couple of hits or gets a few bases on balls. But I suppose that some of the managers believe that they are not manly unless they derick pitchers and call in pinch hitters."

"The umpires? Well, you probably remember that I used to find some fault with each of them. There's the old curve,

National League Standing

Team	Won	Lost	P.C.
Brooklyn	44	36	.550
Boston	40	36	.520
Philadelphia	40	38	.513
Chicago	34	40	.457
Pittsburg	30	40	.429

INTERNATIONAL LEAGUE STANDING

Team	Won	Lost	P.C.
Syracuse	24	14	.630
Albany	20	14	.588
Albany	18	18	.500
Albany	14	22	.387
Albany	10	26	.279
Albany	8	28	.222

With them. The umpire system always

has been bad and it always will be. The umpire system is a disgrace to the game. It is a disgrace to the game. It is a disgrace to the game.

"How about Billy Sunday?" Anson was asked.

"He was a better evangelist than a ball player," was the reply. "He was the fastest runner that ever drew on a spilt base, but when we played on the Chicago team, but he didn't always exercise the best judgment in stealing bases. He was an excellent outfielder, and a fair hitter. His influence among the Chicago players was good. In fact, he got his reputation while acting as an umpire at Mottley and Sanley's revival meetings in Chicago during an off season. I'd like to see Billy come out to this, the greatest pitcher after the war, clean up this evil in no time."

"Why did you give up the management of the Giants after serving three weeks in 1899?"

"When I signed with the late Andrew Freedman he told me that after one western trip I'd be able to say what I could do. I came back and asked him to engage three pitchers, Jack Chesbro, Menefee and Jack Taylor. Mr. Freedman refused to take these men and I promptly threw up the task. He wanted to pay me \$1,000 for my services, but I wouldn't accept a penny."

Had Chance to Buy Giants

"Did you know that I had a chance to buy the Giants before Mr. Freedman got the club in 1895? Fact, Eddie Taltott offered to sell the club to me for \$50,000, but it was impossible to raise the money. That was hard luck. I shall never forget the world's tour which my wife, the late Mrs. Anson, and I made in 1895. It was a great boom for the game."

The Brotherhood revolt, by the way, was hatched by Ward and Ed Hanlon while the teams were abroad. And that reminds me that, in spite of repeated assertions to the contrary, Mike Kelley and Buck Ewing remained loyal to their cause to the last. I ought to know because I offered \$10,000 to each of them to jump back to the National League, only to be turned down cold.

"I've had many ups and downs in my life, but the hardest blow was the loss of my wife. She was the best woman I ever lived. I have two daughters to look after and we have been doing a wonderful act for some time past. I suppose people will say when they read this interview that Anson is an old crank and doesn't know a thing about baseball. But honestly, I believe I could manage any of the big teams today as well as anybody. Baseball was my first love and I'll stick to the old game to the end."

HERE ON WAY TO NOVA SCOTIA FOR RECRUITS FOR 165TH BATTALION

Major F. Bissonnette in Charge of Party of Officers — Formerly of the 69th

A party of officers of the 165th Acadia battalion arrived in the city today on a recruiting tour. The 165th has now reached the strength of 700 men and is making a fine showing at the big summer camp. Officers and men were highly complimented by General Sir Sam Hughes and General Wilson after recent inspections. A determined effort is now being made to bring the battalion up to full strength in order to be ready for overseas service as soon as the training period is up.

In charge of the recruiting party is Major Firman Bissonnette, second in command of the battalion. This is not the major's first visit to St. John as he came here with the 99th French-Canadian battalion as second in command. A few days afterwards he was transferred to the 160th and later accepted the position he now holds with the 165th. With him are Lieutenant J. D. Doucette, Lieutenant R. A. Frechette and Sergeant A. Lager.

From St. John the party is going to Nova Scotia in the search for recruits and their campaign will open with a meeting in Meteghan this evening. The other engagements are as follows: Thursday, August 8, Salmon River; 9, Wedgeport; 7, West Pubnico; 8, East Pubnico; 9, Ed Brook; 10, Boonville; 11, Quinans; 12, Yarmouth; 14, Saultierville; 15, Pointe St. Pierre; 16, Belliveau. After their Nova Scotia trip they will return to Moncton and thence to Valcartier.

A previous recruiting trip conducted by Major Bissonnette in the northern counties before the battalion went to

ST. JOHN BROTHERS WIN PROMOTION

Latham Boys Advance in Rank in the Khaki Army

That Mr. and Mrs. Fred Latham's sons—Corporal William and Sergeant Murray Latham, both of the 181st Siege Battery, formerly of the 4th Siege Battery—are being recognized for efficiency in the drill is marked by the fact that both young men have received promotion since arriving in England. William was employed in the Bank of Nova Scotia prior to enlistment and Murray was with Macaulay Bros. & Co.

The following is a letter received from Murray by his mother: "Everything is excellent here this morning and we are about through here and are making preparations to leave for another location. I am going on furlough to London on Monday to have a look at the place. I have heard so much about it and the things you see there, that I have no doubt I'll have a good holiday. About fifteen of us are taking the trip and expect to stay about four days.

I got a pleasant surprise this week when it came out in orders that I had been promoted to be a corporal; it came unexpectedly and am now wearing two stripes. I have also passed my examinations and qualified as a gun layer and have received my badge. We have not been working hard since we struck here; it's been more like a picnic than anything else so far. I was on the gun crew on Wednesday firing a series of 6 inch guns as we broke the camp record making eleven hits out of twelve shots at a distance slightly over two miles. It was great work and we were all tickled to death to know that we are making good. I guess by the way that things are going now it won't be long until we are all back again.

camp proved very successful and equally good results are looked for across the bay.

The battalion has not yet received its distinctive badges, but these are expected in a day or two.

LOCAL NEWS

SAVINGS BANK BUSINESS

During July a total of \$69,246.83 was deposited in the local branch of the Dominion Savings Bank. During the same period the withdrawals were \$77,687.25.

WILL APPEAL AGAIN

Taylor & Sweeney have sent another communication to the county authorities asking for a second hearing on their appeal for a reduction of the assessment on the property in Fairville for which they are agents.

THE DINNER TO COL. McAVITY

The citizens of St. John intend giving a complimentary dinner at the Union Club on Thursday evening to Lieut.-Col. McAvity, in recognition of his services in command of the 40th Battalion during the war. The dinner will kindly hand in their names at the mayor's office.

TWIN COLTS

Pearle Pick, 219 1/2, owned by W. J. Alexander of this city, last evening brought forth two well bred colts. These are an unusual thing in horse circles in this city, and in fact in this province, and so far as well versed horsemen in this city are concerned, it has never been known here before. Pearl Pick is a well known horse about the province, having participated in many races.

GOES TO MAINE UNIVERSITY

Miss Ethel Wigmore, daughter of the commissioner of water and sewerage, has accepted the responsible position of librarian for the state university at Orono, Me., an institution with an enrollment of 1,200 students. Miss Wigmore took her arts degree at Acadia University, and then qualified as bachelor of library science by a two years' course at Simon's College.

POLICE COURT INCIDENT

A woman appeared in the police court this morning in an attempt to get her husband free from a charge that she herself laid against him on last Saturday. She used the argument that he was the only support to a large family and she wanted to get him free and was willing to drop the charge. She was informed that she should have thought of all this before she had him arrested and brought the matter to court. Such cases of this kind come before the police frequently. They get abused if they do not make the arrest and after they do they get abused. The court told the woman that the man would likely be committed for trial as the charge was a serious one. It was not a case of sentiment, but one of law and justice.

BRITAIN NOT AT HER FULL STRENGTH ON LAND UNTIL NEXT SUMMER

Third Year of War Will Be Allies', Says Sir Douglas Haig

(J. M. Robinson & Sons' private wire telegram.)

New York Aug. 1.—Sir Douglas Haig, British commander in France, says England will not achieve her full strength on land until next summer and the third year of war will be allies' year.

Russian minister of finance estimates Russia's present war expenditures at about \$500,000,000 monthly.

Southern Railway for year ended June 30 shows surplus after charges of \$9,898,104, increase \$7,914,822.

Penna. railroads June net after taxes all lines increase \$1,761,448.

Twelve industries of 21, twenty active rolls off 58.

New car strike planned in Greater New York by union coast.

Federal reserve bank in New York, in its August summary of business conditions, says industrial situation shows little or no change, with mills and factories busy.

Hughes in speech of acceptance bitterly assails the Wilson administration for vacillation in dealing with Mexico and declares this responsible for attacks on American property and lives in Mexico.

LIKELY SLATER FAMILY

Through the publicity last evening to a telegram received by Chief of Police Simpson, he has received valuable information concerning a family about which information was wanted in Minneapolis. Word reached the chief that Sydney Slater had died in that place and his relatives were reported to be in St. John. By investigation and with the aid of the publicity that the telegram was given, it was found that the name was Slater. Some time ago it is said that a family of this name was in the lumber business at West St. John and that the young man referred to was Sydney Slater, at one time a druggist in this city, whom probably many will remember. A city directory of 1909 showed a Miss Beatie Slater here a stenographer in the Customs House. This is a sister of Sydney and she is now married and living in California. Word was sent to her and also to the hospital in Minneapolis where the man died.

The Times today had a call from a citizen who suggested that probably the Slater family was the one meant. The family, he said, lived in Orange and Princess streets at various times. The father in his later days was in the government savings bank.

AGAIN IN HOSPITAL

Mrs. McDonald, 168 Union street, has a letter from Pte. M. J. Dooley, who writes that his leg, which was injured, has gone badly again and he has been returned to the hospital. He fears he will not get an early opportunity to go to the front. He is at the 4th London Hospital. Mrs. McDonald also has a letter from Bomb. Fred H. Shear, who is at Monks Horton, Kent, England, where he was under treatment for injury to his feet. He writes that he is greatly improved.

GOING INTO CAMP

The 6th Field Depot Battery at Woodstock, under the command of Major Evans, at present in the barracks at Woodstock, will go into camp in that town some time this week. This battery has shown marked efficiency in its work. Just when it will be called on to supply another draft is not known, but when the time comes those selected will receive but very little extra training.

Opposition Meeting Here on Wednesday

The electors of the city of St. John interested in the proper administration of public business and opposed to the methods of the present provincial government, are invited to attend a meeting on Wednesday evening, August 2, at 8 o'clock, at the Oak Hall wholesale warehouse, Germain street, for the purpose of:

- (1) Forming an opposition association for the city of St. John and electing officers of the same.
- (2) Fixing the date of the primaries and convention.
- (3) And such other business as may come before the meeting.

W. E. FOSTER, Convener.

WM. HOWARD OF CARLETON IS HIT BY TRAIN

Walking Between Tracks Near Fairville as Two Trains Came Along

William Howard, of the West Side is in the hospital suffering from injuries to his back and head, which he suffered by being struck by the incoming suburban at Fairville this morning.

Mr. Howard, who was coming in from the Wilson Box Co's plant, was walking between the tracks, and trains were approaching in both directions. The suburban was behind him, and before he realized his danger he was struck under the shoulder and whirled around, and struck again over the eye. He received a long cut which fortunately did not injure his skull. Had he been struck on the temple the blow would doubtless have been fatal. The chief injury appeared to be his back.

The train was backed up and he was lifted into the baggage car by the train hands and Supt. Groat, who was on board, promptly had a mattress spread for him. Dr. Bonnell gave him a stimulant and Rev. W. R. Robinson washed his face and bound up his head.

Mr. Howard was formerly employed for some years as a deck hand on the ferry.

Examination at the hospital this morning proved that Mr. Howard had suffered severe bruises about the head and chest. There was evidence of a fracture over the right eye. The right lung also was injured. No ribs were broken. His condition was reported to be favorable this afternoon and nothing serious was anticipated.

NEW HOSPITAL ALREADY TAXED TO ITS CAPACITY

The need for the new county hospital for tubercular patients is shown by the fact that the existing accommodation is already taken up, the hospital now being full to its capacity, with the exception of one room, which is reserved for emergencies. This condition was reported at a meeting of the commission on the hospital, which was held in the county secretary's office this morning. One commissioner remarked that, if this condition continued, it would be necessary to seek increased accommodation.

WILL BRING IN LABORERS

Thomas Cosolino, whose company, the Nova-Scotia Construction Company, has the contract for the construction of the lower section of the Valley railway, returned to the city today after an anxious mobile trip over the entire section now under construction.

As a result of his inspection, Mr. Cosolino is much pleased with progress which is being made in the face of existing difficulties. There are now nine steam shovels on the job and another is going in. Each of the sub-contractors is reported working steadily and making fair progress.

The chief difficulty continues to be the scarcity of labor, and Mr. Cosolino is to start tonight for Boston and New York in an effort to remedy this condition. He will seek laborers who can and will undertake construction and hopes to secure enough to make a big difference in the speed with which the work is being carried forward. Care will be taken that no alien enemies are included among the men who will be brought in.

POLICE COURT

The case against Donald Sharp on charge of securing money from John Begg under false pretences was resumed this morning in the police court. Mr. Begg's younger brother gave evidence, and the defendant took the stand in his own defence. He said he was not in the store, so far as he could remember. Kenneth J. MacRae appeared for the prisoner. The matter was fixed up and the dollar paid back to the clerk.

In a case against Richard McLeod, charged with driving a heavy double team and running into the Wilson Saunders and injuring him, evidence was given by William O'Connell. He said that he was in Charlotte street with the injured man on Saturday afternoon. When they reached the corner of Union and Charlotte streets they were crossing the street when he saw this heavy team coming from Charlotte into Union. He jumped and when he turned around he saw his friend on the ground. He picked him up and took him home. So far as he knew, Mr. Saunders was not badly injured. The case was fixed for week. E. S. Ritchie represented McLeod.

A LARGE GAIN

Customs receipts here for July were \$246,971.42. The receipts for the corresponding month in 1915 were \$227,818.79, showing an increase this year of \$19,152.63.

OAK HALL SCOVIL BROS., LIMITED

ST. JOHN, N. B.

A SEASONABLE SPECIAL

Here is one of our bargains which will appeal very strongly to our customers on these warm days:

A Two Quart Ice Cream Freezer for 99c

IS THE PROGRAMME AT OUR STORE ON

TUESDAY, August 1st

These are made entirely of metal and are not only cheaper than the ordinary Freezer with wooden tub, but have many other points of superiority.

Being all metal it cools more quickly than the old-fashioned kind, saving time and labor in the freezing process, and for the same reason uses less ice than any other. It is more easily cleaned and more sanitary than the wooden tub, and weighs only 2-1/2 lbs. Its place is on the pantry shelf, not in the cellar.

These Will be Sold at the Above Price on One Day Only

TUESDAY, AUGUST 1ST

NOT BEFORE. NOT AFTER.
