BROKEN PLEDGES

When Mr. Hasen and the Standard find themselves unable to reply to the searching criticism of Hon. C. W. Robinson, they resort to an attack upon the old government. The old government is not on trial, but a new government that went into power with great promises of re-employment and reform.

Mr. Robinson shows from the record that though the government made a great deal about suspense accounts, and professed its determination to have none of them, yet it has them in another form. The Standard replies by throwing things at the old government.

Mr. Robinson gives specific instances to show that, despite the government assertion that there would be no more outstanding bills unaccounted for at the end of the year, there are bills of this sort, covered up, of the end of the year. The Standard replies by throwing more things at the old government.

The old government is not on trial. Here is a new government, with an enormously increased revenue, spending the money without giving the province value for the expenditure. That is the fact the people are taking note of, and for which they will call the government to account. Mr. Hasen and the Standard have signally failed to break the force of Mr. Robinson's criticism of their extravagance, and their failure to keep their pledges to the people. If ever the province of New Brunswick should have anything to show for good administration it should be when there is a very large and expanding revenue. With a great opportunity to carry out a progressive policy the Hasen government has been merely content to spend the money.

ST. JOHN DISGRACED

The city of St. John, during the year 1911, must live down the disgrace of the opening hours of the new year, when riotous conduct on the part of a mob lasted until nearly three o'clock on Sunday morning. The sober citizens awoke on New Year's day to find that there is a new element to be dealt with, the spirit of the mob. There is a very great difference between rough homeplay, which by accident may do some damage, and the deliberate acts of a crowd which beats policemen and willfully destroys property without regard to the rights of anybody. It appears we have been living in a fool's paradise, and the only reason the city is not more often disgraced is that the mob does not often assemble. This is a matter which concerns every law-abiding citizen, for the window smashers do not discriminate when they set out on their revels.

In addition to the gay young blades who gathered on Charlotte street on Saturday night to sing the old year out and the new year in, there was another, and apparently a larger party, made up of thugs who meant mischief, and who hoped in the confusion of a crowd to wreak vengeance on the police and give free play to their lawless instincts.

The surprising fact is not that there were persons of this class in the crowd, but that there were not enough self-respecting citizens, who value the good name of the city, to rally to the aid of the police and prevent the destruction of property. It is stated that certain members of the police force were marked for disfigurement before the trouble began. These officers were unpopular with the element of the city which flouts its authority, and it is this element that hurled missiles from the safe shelter of a crowd, or bears down en masse on a single man to kick and beat him. It is certainly a painful shock to learn how many such gentry there appear to be in this city.

It will now be the duty of good citizens to rally to the side of law and order. There has been too much criticism of the police, and perhaps too much judicial lenience in dealing with the natural enemies of the police. No doubt it will be explained why there were only two policemen on the square on Saturday night, and why the riot continued for two hours or more without a single arrest being made. We are not as law-abiding a community as we had fondly imagined.

Ottawa has endorsed the board of control. The system has not worked as well as the commission plan in United States cities, but it is an improvement on the old system of city council without a board of control, and so is retained.

WORK HERE FOR MORE THAN THE COURT—

There is work for the city council. Saturday night's outbreak showed the ugly side of the city in a manner that must command serious attention. Officer Wittrien may be unpopular with a certain element; but Officer Wittrien, standing bareheaded in the intense cold, bleeding and bruised, and refusing to leave his mate, is more of a man than all the hot-headed, mob-rushing thugs that could be packed into King Square.

ST. JOHN'S OUTLOOK

The statement of the bank clearings at St. John is a striking indication of the growth of business. The bank clearings have more than doubled in ten years. This is a statement the pessimist cannot brush aside. It tells of an expansion which is real and substantial. The building statistics also indicate progress. It is worthy of note that the great commercial agencies, in their review of the year, refer especially to the great change in St. John and the province of New Brunswick. Their statements are based on carefully collected data, and the mere fact that they refer to this growth and development is in itself sufficient to attract the attention of the general public. The people of St. John have never had greater cause to enter upon a new year with hopeful confidence. It is practically certain that the early spring will witness unusual activity in preparation for construction work. The citizens should in the meantime give thoughtful attention to matters relating to the government of the city, and its system of taxation. These are capable of improvement, and a well-governed city, with an equitable system of taxation, is the most likely to attract the attention of investors. Let the year 1911 be a year of civic reform as well as of material progress.

TRADE RELATIONS

The Ottawa despatches indicate that improved trade relations between Canada and the United States may fairly be anticipated. Messrs Fielding and Paterson will go to Washington to resume the negotiations and will report the result to their colleagues. It may be that the maritime provinces will gain something in this affair. The people of the United States are growing more and more favorably disposed toward better trade relations, and are doubtless willing to make some concessions which will be of benefit to these provinces without any sacrifice of Canadian interests. The advocates of high protection in this country loudly protest against any negotiations because they fear the protected interests might suffer; but it is quite possible to improve trade relations without going to extremes in any direction. Mr. Fielding and Mr. Paterson are amply qualified to safeguard the interests of this country, and if as a result of the negotiations the maritime provinces may secure advantages to compensate for some they lost many years ago, it will materially help in the cultivation of the new spirit of the east. They do not ask it at the sacrifice of national interests, but no such sacrifice is contemplated. In negotiating with her neighbor Canada is in a far better position to secure concessions than at any former period.

OPTIMISM

The Victoria Colonist has this to say in praise of the spirit of optimism, which is the spirit of the people of St. John are learning to cultivate:

"Optimism is the yeast of life. You can eat the unleavened bread of pessimism if you want to, but you will pay for it in mental, moral and in all probability physical indigestion. Optimism is the sunshine of life. You can hide in the cellar of pessimism if you prefer it, but you will develop in a spindling sort of way that indicates mental and moral unfitness. Optimism is the breath of living; pessimism stalks abroad Othello-like to another. Optimism is its own reward, but it wins other rewards as well. Pessimism is led in itself and drags an accumulation of evils in its train. Optimism is like the rising sun which dispels the mists of life; pessimism, like malarial swamps breeds noxious vapors. Cultivate optimism. To be merely happy-go-lucky is not optimism. Be careful not to confound the two states of mind. Optimism is steam in the boiler ready to drive the machinery, not merely a loud noise at the end of a pipe. Optimism is a tree that bears fruit; but it must be tilled. It is a mine that yields dividends, but it must be worked. It points a course to be followed, and not merely indicates a place at which to stop. Optimism is an inspiration and not only a comfort, and like the quality of mercy, it is twice blessed. It is good for those who possess it and good for those who, not having it themselves, come within the influence of those who have it."

Premier Hasen cannot hide himself in the shadow of the old government. He must tell why he, with a vastly increased revenue has not improved the roads of the province.

Ottawa has endorsed the board of control. The system has not worked as well as the commission plan in United States cities, but it is an improvement on the old system of city council without a board of control, and so is retained.

PURIFIED HIS BLOOD

Dr. Morse's Indian Root Pills
Healed Mr. Wilson's Sores

When the sewers of the body—liver, kidneys and skin ducts—get clogged up, the blood quickly becomes impure and frequently sores break out over the body. The way to heal them, as Mr. Richard Wilson, who lives near London, Ont., found, is to purify the blood. He writes:

"For some time I had been in a low, depressed frame. My appetite failed and I soon began to suffer from indigestion. Quite a number of small sores and blisters broke out on my face. I tried medicine after medicine, but without any result. What you wanted was a thorough cleansing of the blood, and I looked about in vain for some medicinal preparation which would accomplish this. At last I found Dr. Morse's Indian Root Pills were known to my neighbor, and I bought a box. The blood was purified in a very short time, and the sores healed up. My indigestion vanished. They always have a place in my home and are looked upon as the family remedy."

Dr. Morse's Indian Root Pills cleanse the system thoroughly. Sold by all dealers at 25c a box.

FATHER'S VOCAL TALENT
Eddie's Aunt Emma, who had been tending to the laundry, called on the house at midnight, and Eddie begged to be allowed to stay up to greet her. But his mother would not give her consent. "No," she said decisively, "it would be five long hours after your bedtime, and you can't possibly stay awake as long as that."

"Oh, yes, I can," Eddie wailed. "I can if papa will send one dollar for a year's trip to the rate to new subscribers (regular rate \$1.50)—and, if in a month's time you notify the publishers that you do not like your bargain, they have promised to promptly refund your full money. That's fair, is it not? Address your subscription to World Wide, Writings Block, Montreal."

MARINE NEWS

The new steel steamer Alva, built in England for the Canadian government quarantine work in Halifax, has reached Bermuda, short of coal, on her way out.

The S. S. Monmouth, bound here from Halifax, was diverted to Halifax by wireless message, to land sugar for the St. Lawrence Railway on Saturday in time to save \$1,000 duty before the old year expired.

It is a report that Capt. Frank D. Stevens, of the U. S. R. G. tug cruiser will become commander of the S. S. Yarmouth.

The tug cruiser saved the schooner Harold Mcarty, Belyea, from Calais, from being blown on the rocks on the Red Head shore on Sunday.

Messrs. Cushing & Co., Ltd., have a telegram announcing that the schooner Adams, Capt. Brown, had arrived at Moss Point, Mississippi from La Palmas. The Adams is under charter to load hard pine for Demerara.

MADE A LIVING FALLING DOWN
Anna A. Sturgis known to New York railroad claim agents as "Banana Anna," has made a comfortable living for three or four years by slipping and painfully injuring herself in cars and stations on pieces of banana peel which she carried with her and dropped in convenient places. It was her custom to fall loudly, but she always retained enough presence of mind to indicate to witnesses that her fall had been caused by stepping on a skin or a core. The rest was not difficult. She avoided being carried to any one hospital more than once. In time the frequency of her claims aroused suspicion, which resulted in her arrest and prosecution. She has received in all over \$3,000 for these false accidents from a dozen different corporations.

Its Appearance Speaks For Itself.

We will be glad to have you call and examine this Range, or to mail you illustrated circulars.

The Evening Chit-Chat

By RUTH CAMERON

A "MERE man" has taken sufficient interest in feminine complexions and the treatments suggested for them in these columns to send in the following receipt for a good complexion.

Take a rough towel and, starting at the shoulders, vigorously and thoroughly, with a circular movement, rub the skin of the arms, neck and face until the last. Rub until a feeling of warmth is induced and the entire body glows. If sufficient vigor is exercised a feeling of mild exhilaration relatively akin to the galvanic energy induced in the pores of the skin should result. Bathe the face and neck without soap, then apply the friction to the neck. The cheeks will then feel flushed and tingling. A few careful strokes over the face will convert the tingling sensation into a glowing feeling of warmth. Use due discretion in the application of the friction, as a severe rubbing will chafe the skin, while mild rubbing will be ineffective.

When finished it would be well to go lightly over the entire body with a camel's hair brush, to eliminate any accumulation of dirt from the pores.

This massage friction treatment has the advantage of being constitutional, local and NATURAL, as it produces an enhanced circulation, enlivens inert and clogged pores, and if persisted in, will make the complexion clear and soft and smooth as velvet. A little cold cream, in case the neck and face are tender, may be applied.

That certainly sounds reasonable, doesn't it? Of course, it implies that the person in search of a good complexion is willing to employ much time and energy. But isn't such a blessing as a good complexion decidedly worth that?

We have young married women's club and young girls' club and mothers' clubs, why not have grandmother's clubs?—is the suggestion of one of my readers.

When a woman reaches the grandmother stage that usually means that her child-bearing and most of her child-rearing period is past and that she will not have more babies than she has ever had before in the course of her married life.

It also means that as her children with their exclaiming and overflowing young lives pass out of the home she will be in much need of greater inward resources and of more intellectual and impersonal interests to keep her happy.

Seems to me that in every town there ought to be a Grandmother's Improvement Club, a sort of secret society of grandmothers in which the peculiar trials and joys of grandmotherhood might be talked over and through which opportunities for interests and activities outside the home suitable for women of grandmotherly age might be supplied.

"Are you a grandmother?" might be the password. And "grandmotherhood the happiest time of life" the watchword.

How about it? Don't you think it sounds like an interesting idea?

WHY YOU ARE THIN; HOW TO GET FLESHY

Discusses Causes of Thinness and Gives New Method of Increasing Weight and Rounding Out the Form.

Prescription Accomplishes Wonders

A treatment which anyone can prepare cheaply at home has been found to increase the weight, improve the health, brighten the eyes and put new color into the cheeks and lips of anyone who is too thin and bloodless. It puts flesh on those who have always been thin, whether from excessive or natural tendency on those who by heavy eating and diet have in vain tried to increase on those who feel well but can't get fat, and on those who have tried every known method in vain. It is a powerful aid to digestion, nutrition and assimilation. It assists the blood, and serves to distribute all over the body the flesh elements contained in food and give the thin person the same absorbing qualities possessed by the naturally fleshy.

Everybody is about the same, but certain elements and organs of blood and nerves of the body and until this is corrected, you will stay thin. The nutrition starts in the body after separation by the digestive function. Instead of passing into the blood, the valuable food elements of the food and medicines is used. It is really possible to remain thin who eat and drink for supplies the best food.

Thos. Littlejohn won the prize turkey on the Victoria alleys in the week ended on Saturday last. His score was 125. A pipe is up for competition this week.

Skating

St. Joseph's Sports.

A large number of entries are being received for the ice sports to be held in the Victoria rink on Jan. 4, under the auspices of the Young Men's Association of St. Joseph. The sports promise to be some of the best ever held in the city, and the results will give a good indication on whom St. John is to count in the M. P. A. A. championships, which will be held here later. All the favorite events are there, such as the 220, 440 and 880 and mile, so that there is everything to the liking of the long and short route men. The boys' race and half-mile opportunity for the carpenters, bakers, police, reporters, grocers and butchers, conductors and motormen, should make interest and fun. The interscity race will bring out some good skaters. The prizes are now on exhibition in the windows of Manchester Robertson Allison Ltd., King street.

Ice Was Too Soft.

The handicap races which were to have taken place at the Victoria skating rink last evening have been postponed until Thursday on account of soft weather. The ice was too soft for any games in the curling rink.

Basket Ball

League Prospects Bright.

With the opening of the season but a few days off, the teams in the Senior Basketball League are putting forth extra efforts to get into condition for the opening games. And right here it may be said that basketball, like hockey, should boom here during the coming winter. Not only have the seniors organized, but the intermediates, juniors and interscity players and the fans of this city will see about as many basketball teams here during the winter as they have seen here for some time. Of course, the senior league will, as usual, be the centre of attraction. The

U. N. B. Team Defeated.

In an interesting game of basket ball played in the Victoria rink on Saturday evening, the Y. M. C. A. quietest defeated a team made up of U. N. B. boys by a score of 21 to 10. The Y. M. C. A. team outclassed the university boys in all departments, which explains their easy victory. The Y. M. C. A. team was led by Latham, Thorne, Knobel, Stone, Cunningham, and Jennings. The U. N. B. team lined up as follows:

The Turf

Big Turf Scandal.

London, Jan. 2.—German racing circles are much excited about a monster dogfight scandal which is now being investigated by Austria and Russia. After the fiasco of St. Legier, at which, says the Berlin correspondent of the Daily Sketch, the "dog" team, led by the Austrian, was unaccountably defeated, all the horses which ran in the race were found to be "fixed".

John H. Harkins, resident of the Austrian, says that several horses will disappear from the track, and as a result it is said that the dog fight will be a "fix" and that the dog will win.

It is said that he has evidence that the dog will win on also on the first day, and he is in possession of this evidence. Suspicion of doping was first aroused by a remarkable series of sensational wins by the Austrian in Austrian and Hungarian races.

Melrose Defeats Parsons.

Sydney, N. S. Jan. 2.—The ten round bout between Melrose, of Boston, and Billy Parsons at Glace Bay this afternoon, resulted in a win for Melrose in the tenth round. There were about 500 spectators and the bout was interesting throughout. Both men showed up in good condition, though Melrose showed the results of his boxing in Boston, being faster and displaying more science in his work. Parsons also showed improvement in his style of boxing.

Wrestling

McDonald Won.

Dan McDonald of Cape Breton threw three local men—Langley, McGrath and Whitehouse—inside of forty minutes in the Cecil Theatre on Saturday night.

Two Boys Shot

Two young boys were accidentally shot yesterday afternoon as a result of the carelessness of a hunter. Charles, son of Joseph Noel, of Randolph, will probably have to have a couple of fingers amputated because of the discharge of a revolver in his hands in his home yesterday. He was leaning it, and it went off. He is in the St. John hospital.

Murray Keith, aged 15, was shot in the side yesterday afternoon in the woods off the Bellevue road. He and Edwin Magee, aged 11, and Willie Bacon, aged 15, had gone out together, while Bacon had the gun which he discharged, the bullet entering Murray Keith's side. Dr. McIntyre is attending the boy.

league this year is composed of four teams, viz. Esmond Y. M. A., Portland, Millerville and Y. M. C. A.'s. The Esmonds walked off with the trophy last season, but their opponents are going after their scalps this year and from present indications it looks as though there would be something done before the season closes.

However, the Esmonds expect to have as strong a team in the field this year as they did last. Hedley Howell, who played a star game for them last year, will not be seen on the floor this season, he having moved to the west. The champions will also be without the services of Herb Lawton, who will be forced to remain out of the game on account of recent illness. Greason, who was a great strength to the team last year, will again be found at his position in centre. Arch Roberts and Tom Coram will also likely appear in Esmond uniforms this season, as will Alexander, Wilson, Turner and Wetmore. The team will likely be under the management of H. C. Lawton, who steered the boys to success last season.

The Portland Y. M. A. team will have a strong aggregation and will be under the captaincy of City Wilson. Latham, Thorne, Barton, Murphy and Wilson and several others will, from time to time, play with the North End boys and expect to be successful in landing the place. The Millerville team, who are perhaps the newest team in the league, expect to have a first class team. The players being Colner, Gigzey, Knox, Olive and Turner. The fourth team in the league, the Y. M. C. A.'s, are by no means new to the basketball fans in the city, and are expected to make a good showing. The season will be held on the following players: Willet, Burton, Finley, Babson, Scott, Latham, Thorne, Knobel, Stone, Cunningham and several others.

The first games in the league will be played in the Esmond Y. M. A. rooms on Jan. 9, when a double-header will be run off. The games will be between the Esmonds and Y. M. C. A.'s and Portland and Millerville teams. As yet no trophy has been offered for competition, but it is likely that a suitable one will be hung before long. The league will be comprised of three series, and all the games will be played in the Esmond Y. M. A. rooms. The other leagues have not definitely formed yet, but it is expected that they will be completed before long.

Mr. and Mrs. Oldford, of Duke street, gave a grand New Year's party to a large number of their friends who are living in the city, and to Mr. Mercer, a student from Mt. Allison, who comes from Bay Roberts, Nfld., but is spending his holidays in St. John. A most enjoyable time was spent by each member of the party, and when the time came for the dancing, Mr. Oldford, who has been a student at the University of Toronto, and for the excellent feeling that existed between them and their friends all over the city.

WEATHER DELAYS WAREHOUSE WORK.

The weather during the last couple of weeks has interfered considerably with the work of completing the new warehouse on the west side, which is being built by Scott & Adams for the dominion government. The addition to No. 6 warehouse was finished some time ago, and while it has not been formally taken over from the contractors, it has been used on at least one occasion. The structure on No. 7 berth is more than half finished, and will likely be ready for use by the middle of the month. In the last two weeks it has been possible to do only about two or three days' work, owing to the disagreeable weather.

MAIN STREET CHURCH.

In the Main street Baptist church on Sunday, there were two baptisms and nine new members received into membership with the church. The dominion government, preached the first of a series of special sermons, taking for his subject, "A New Year's Promise." These sermons will be delivered on Sunday evenings throughout January and February as follows:—Next Sunday, "Life, what it is and how to live it." Sunday week, "The Handicap of Wealth." January 22, "The Church as She is, and as She should be." 29th, "The Conquest of Evil." February 5, "The Tent Pitched in the Wrong Place." Feb. 12, "When a young man is safe." Feb. 19, "A question not to be dodged." Feb. 26, "Some difficult questions answered."

SIGNALING SCHOOL HERE.

It will be good news to many in this city and province to learn that a school of instruction in signaling is to be conducted in the drill hall in Lower Cove in March next, as there are several young men who desire to acquire themselves with the art of "signaling," and many more in the military corps who wish to improve their knowledge. The school will last about six weeks, and will be under command of Capt. T. E. Powers and Lieut. A. Leavitt, of No. 8 Signaling Section, with instruction being given by one of the permanent force from the R. C. R. at Halifax. It is probable that Lieut. Costin, of Halifax, will attend to the opening of the course here, and Capt. McMillan, who has been in charge of signaling in the maritime provinces for some time, has returned to his regiment, the Royal Canadian Dragoons. Major F. A. Lister has been promoted to A. A. G. for signaling, succeeding Major Walters.

A GAIN OF MORE THAN \$5,000,000

St. John Bank Clearings, a Financial Barometer, Show Great Increase in 1910—More Than Doubled in Ten Years

An increase of more than \$5,000,000 in the bank clearings for St. John over the year 1909, is the splendid record shown by the St. John banking institutions for the year just closed. The figures also show that in the last ten years the clearings have more than doubled. In 1909, the clearings amounted to \$27,822,000 as compared with \$7,845,546 for 1910, an advance of more than \$45,000,000. This, according to one of the leading banking managers, shows that rapid and substantial progress is being made by the city in a business way. The conditions of trade are good, and the outlook is very bright. Within a few days, the sixteenth banking office will be opened in St. John. Following is a statement showing the increase in the clearings for the last five years:—

1906	\$6,024,765
1907	6,150,414
1908	6,435,636
1909	72,822,000
1910	77,845,546

This year's increase over 1909, is \$5,023,546. Increase in five years, \$17,818,781. Increase in ten years is \$49,810,781.

MORE FAILURES IN NEW BRUNSWICK BUT CONDITIONS EXCEPTIONAL

The Record of 1910 by Months—St. Stephen's Bank Smash and Campbellton Fire Swelled the List

The suspension of the St. Stephen's Bank, the Campbellton fire and the embarrassment of several mercantile houses, which carried on large business dealings, brought the record of New Brunswick business failures in 1910 considerably beyond that of the year previous. In 1910 there were 89 failures with assets normally \$1,271,025, and liabilities estimated at \$1,972,031, whereas in 1909 there were seventy-two failures with assets \$215,911 and liabilities \$471,725. Five failures in 1910 account for \$1,075,000 of the assets and approximately \$1,610,000 of the liabilities, so that the eighty-one failures remaining would represent \$196,665 in assets and \$350,000 in liabilities. This is considered a very fair showing.

The following record of the failures each month in 1910, as furnished by Broad streets:—

January—Eleven failures, assets, \$40,032; liabilities, \$20,440.
February—Seven failures, assets, \$4,300; liabilities, \$10,200.
March—Nine failures, assets, \$471,210; liabilities, \$630,000.
This month included the St. Stephen's Bank failure.
April—Three failures, assets, \$600; liabilities, \$3,000.
May—Two failures, assets, \$333,000; liabilities, \$333,000.
In this were the Cushing and deForest failures.
June—Three failures, assets, \$3,130; liabilities, \$7,200.
July—Five failures, assets, \$10,440; liabilities, \$30,700.
August—Fourteen failures, assets, \$60,730; liabilities, \$151,000.
The Campbellton fire and A. J. Teed, St. Stephen are included in this month.
September—Ten failures, assets, \$7,715; liabilities, \$29,900.
October—Nine failures, assets, \$14,200; liabilities, \$33,500.
November—Six failures, assets, \$45,200; liabilities, \$13,500.
This included the Dunbar failure, Woodstock.
December—Eight failures, assets, \$9,700; liabilities, \$20,000.
The Miramichi Pulp Mill Co. is not included in the foregoing list as the matter is not yet settled.
