Stone in Bladder Removed Without Surgical Operation. In the Spring of 1904, I was confined to my bed with kidney trouble and thought that I would never recover. I took a lot of medicine but did not realize any benefit from anything. I finally saw Dr. Kilmer's Swamp-Root advertisement and sent for a sample bottle and tried the sample bottle. It helped me, so I bought more of the medicine from my Druggist, and after using a few bottles discharged a very large stone from my bladder.

IF I WERE KING

If I were King—ah, love, if I were King—What tributary nations would I bring? To stoop before your sceptre, and to swear Allegiance to your lips and eyes and hair; Beneath your feet what treasure would I bring?

FICTION AND FACT

The Standard yesterday said: "The farmers of the State of Maine have all the advantages that reciprocity could bring to the Maritime Provinces of Canada, and none of the disadvantages. They have free access to the much-talked-of market of ninety millions, and cannot be shut out of it suddenly by a vote of congress, as Canadian farmers might be at any time under the reciprocity agreement."

SPECIAL LETTER FROM LONDON

Interesting Review of Political Situation—Lord Morley a Tower of Strength—Mdm. Albani to Publish Memoirs

(Special Times Correspondence.) London, July 29.—During the past week the political situation has known no change. The backwoodmen are still ready for a fall, but Lord Lansdowne's followers who are all for concession, are still strong for a peaceful settlement.

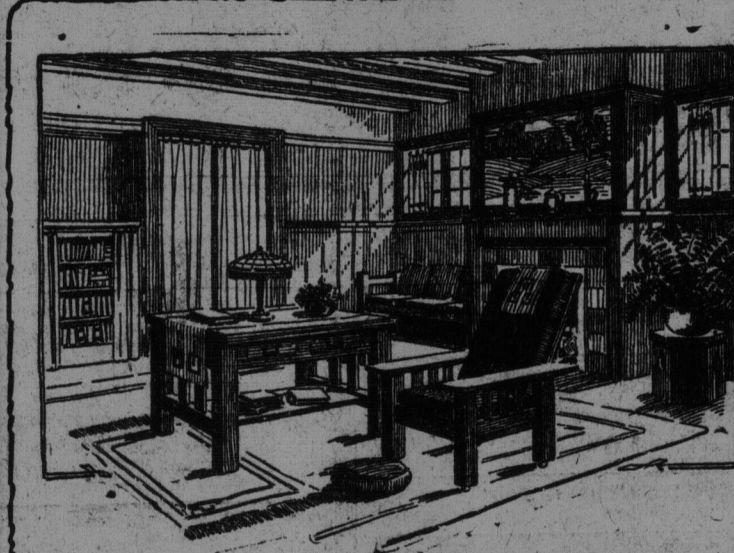

It is fortunate for the Liberal party that at this crisis a statement of such great moral strength as Lord Morley should be at the helm to direct his party in the House of Lords. It has been proved in ten years that he is a daring pilot in the storm.

Party organization is seriously occupying Mr. Balfour's attention. The party secretary has already got to work. The constitution of the party is being re-organized. The result of the reorganization will be felt in the autumn when home rule will be the test.

Lord Curzon's idea of erecting a statue to Lord Clive in London is soon to become an accomplished fact. The great hero of Lord Curzon and the most picturesque figure in Anglo-Indian history is to stand in St. James's Park close to the India Office.

The favorite singer of Queen Victoria is to be celebrated at a farewell concert in the autumn, is to publish her memoirs which will include some interesting letters of Queen Victoria and of the old Emperor William of Germany.

Dr. Morse's Indian Root Pills are just the right medicine for the children. When they are constipated—when their kidneys are out of order—when over-indulging in sweets and favorite food gives them indigestion—Dr. Morse's Indian Root Pills will quickly and surely put them right.

AN INTERESTING LETTER UPON AFFAIRS IN CHINA

Progress Under the New Form of Government—Surveyor Executed for Selling Map to Japan—Confucian Challenge to Modern Progress—China Must be Ready to Fight It!

(Special Times Correspondence.) Shanghai, July 15.—It is beginning to be seen how shrewd "the old rogue" of Peking, as the censor, King, put it, has been in giving the security of Manchuria and tobacco taxes to the Manchuria development party of the Four-Power loan of \$50,000,000.

In the same way Kiang Su, and Chih Kiang revenues are pledged as securities to the Japanese loan of \$5,000,000. This gives Japan a right to interfere if any of the western powers "twice pledges" for anything in the Shanghai, Ningpo, Hangchow region.

The reason why Liang Yun-han has been recalled from America to take charge of the Pekin foreign office is stated to be because the Mongolia, Manchuria, Tibet and Burma frontier questions have so alarmed China that she is resolved to form an alliance with the United States.

indignation was so great that it was decided to apply full martial law. He was accordingly executed outside the North Gate of Mukden; his body was placed in a glass jar of preserving liquid, and then despatched to Shanghai to be exhibited as a warning in the Park-Bridge Museum.

Chinese patriots and reformers have been wont to express the confident hope that by passing of the Empress Dowager, Liang Yuen Hai, and the consequent end of Liang Yuen Hai's privileged position, an opportunity would be found for completely abolishing the eunuch system.

THE STRENGTH OF A CHAIN

Is that of its Weakest Link. Father Morriarty's No. 10 Forges it Anker.

The chain of the physical system is only as strong as its weakest link. When that link breaks, the chain breaks, and serious illness followed by death often results. The weak link with many people is the throat and lungs. In fact, statistics show that over twenty-five per cent of all deaths can be directly traced to diseases of these most important respiratory organs.

BIG NETWORK OF HIGHWAYS IS PLANNED

Including Roads in Canada as Well as the United States ABOUT 15,000 MILES

From Atlantic to Pacific, From Vancouver to Mexico, and From Montreal to Florida—Would be Great Thing for Automobile Tours

(Johnson City, Tennessee Paper) Illustrating the tremendous impetus that lately has been given to the nation-wide movement for improved public highways, the United States office of public roads has just prepared a chart which shows that nearly 15,000 miles of trans-continent, inter-state and trunk line roads are contemplated in various sections of the country. The chart prepared by the office of public roads shows the extent to which the good roads movement has taken hold of every part of the United States. North, south, east and west, the improved roads, some merely planned, others actually under construction, literally make a network covering the whole country.

If all the plans contemplated are carried out by the men and committees back of them, it will be possible to drive west and automobiles from the Atlantic to the Pacific coast, and from Vancouver, British Columbia, to Tijuana, Mexico, and from Montreal, Canada, to Miami, Florida. The map prepared by the office of public roads merely for the purpose of gauging the extent of the good roads movement is fostered by individuals, associations and committees, shows the following great highways in contemplation or actually under construction:

From Yellowstone Park to Glacier National Park, through Fort Yellowstone, the Big Horn Battlefield and other interesting points in the Rocky mountains—a total distance of 400 miles.

The Pacific Highway from Vancouver, B. C., to Tijuana, Mexico; a distance of 2,000 miles.

The Memphis-Bristol Highway, connecting Knoxville, Nashville and Jackson, a distance of 540 miles.

The Lincoln Memorial Road, from Washington to Gettysburg, 40 miles.

The Texas-Highway, from Morhead City, N. C., on the Atlantic Ocean, to Washington, D. C., on the Potomac River, Tennessee, through Goldsboro, Raleigh, Greensboro, Salisbury, Charlotte and Asheville, N. C., 660 miles.

The Point Highway, from the upper end to the lower end of Delaware, proposed by the Honorable DeLoach, who has agreed to advance \$1,000,000 to wards its construction; length of route, 103 miles.

The Moine-Kansas City-St. Joseph Trail.

Ocean-to-Ocean Highway, extending from Cumberland, Maryland, to Tacoma, Washington, by the manner in which all sections are working to the same end and simultaneously indicates that it will not be long before the United States is faced by a complete system of good roads.

THE UNSUNG HEROES OF THE NORTH

While the world has been thrilled by the exploits of Peary and Cooks and Shackletons, men who have set forth in well-equipped ships to reveal the mysteries of the worthless terra incognita, there has been going on in the far north, quietly and without fanfare of trumpets, and amid hardships and perils which few polar explorers encounter, a work that within two years has entirely changed the map of the northern quarter of the continent. And this work has been carried on by unassuming heroes like McCreedy, who went mad, and Sikke, who died—and by others like the man who wrote down from the desolate Arctic plain—the Great Barrens—and said "I beg to report that our journey to Aberdeen Lake was filled with great danger and misfortune. We were storm-bound frequently, and the temperature

DR. PUGSLEY ANSWERS CAMPAIGN CANARD

Complete Answer to Story of Courtenay Bay Work Sent Broadcast—Sir Wilfrid Open Meetings in Ontario — Open Tenders for Hudson Bay Road

Ottawa, Aug. 1.—Speaking of a report in the Montreal Gazette and other papers criticising him for calling for tenders on a work in Courtenay Bay to cost \$10,000,000, Hon. Dr. Pugsley said: "This is a piece of Tory campaign literature concocted in Ottawa, and sent out to the Tory newspapers."

"First, the estimated cost of the work for which tenders are invited is enormously magnified. It is not the estimate of engineers, but of some Tory partisan who would like to see as many other Tories like it as would block the very necessary work of development in the harbor of St. John."

"Second, some very responsible and experienced contractors have applied to the department for plans and specifications with a view to tendering, and not one of them is either a personal or political friend of mine."

"I have no reason to suppose that any of my friends will tender for the work and the statement that every reason to believe that the scheme has been framed in the interests of certain contractors and close political friends of Mr. Pugsley, who have been prominently mentioned in parliament of late in connection with awarding contracts for building a foundation to rest upon. The gentlemen referred to are not wharf or dry dock builders and are not connected with the Hudson Bay just as able financially to tender for the work as they are."

"Third, the estimate of \$10,000,000 is spoken of as enormous, but it is only half the amount required in the case of tenders for the Quebec bridge, and is no larger than is necessary to ensure the carrying to a successful completion of these important works."

"Fourth, as to the criticism that the work has not been sub-divided. The opinion of the engineers of my department is that it would be much better in the public interest that the whole work should be under the control of one contractor, and responsible contractor firm. The different portions of the work are so intimately connected that the best results can be more satisfactorily and more cheaply obtained by the contract of one contractor."

"For instance, the rock excavated from the site of the dry dock will be used in the breakwater and a large portion of the dredged material will be used for filling in and making land at the site of the wharves and repairing plant and buildings connected therewith, and likewise for back filling, etc., in connection with the wharves."

"In other countries it has been found that the whole work of a scheme of harbor development should be let as one contract, and I have reason to believe that when the tenders are received it will be found that the price is reasonable and that there will be a rake off for some one it is not worthy of notice."

"It is to remedy this state of things that the bill proposes to raise the pay of all ranks of the police, ranging from a minimum of about \$2,500 a year, rising to over \$3,500 for 'police-masters' down to \$300 for the lowest rank. This means an increase of \$12,000,000 a year. The force is to be increased also in numbers, while the capital and many of the larger towns are well policed, it is notorious that areas of territory in various parts of Russia, big some times as a European principality, are nominally policed by one man and an assistant, while all rural neighborhoods are ridged only short of representatives of law and order, even in the near neighborhood of big towns. In fact there are only in all Russia (European Russia only) police of all ranks at the rate of one man per 5,000 total inhabitants, or, if the recently appointed 'rural guards' be reckoned, the number is about one to 2,000 inhabitants."

TO REFORM THE POLICE IN RUSSIA

St. Petersburg, Aug. 2.—The ministry of the interior has completed a bill for the reform of the Russian police. The bill starts from the basis which must be taken for all Russian reforms in any of the public services, namely, the universal acknowledgment that all the public services are unproductive. The equivalent of an American chief of city police, plus a number of other functions and powers appropriate to the rank, will be given to the police officers, and will be paid for by the state. It is to remedy this state of things that the bill proposes to raise the pay of all ranks of the police, ranging from a minimum of about \$2,500 a year, rising to over \$3,500 for 'police-masters' down to \$300 for the lowest rank. This means an increase of \$12,000,000 a year. The force is to be increased also in numbers, while the capital and many of the larger towns are well policed, it is notorious that areas of territory in various parts of Russia, big some times as a European principality, are nominally policed by one man and an assistant, while all rural neighborhoods are ridged only short of representatives of law and order, even in the near neighborhood of big towns. In fact there are only in all Russia (European Russia only) police of all ranks at the rate of one man per 5,000 total inhabitants, or, if the recently appointed 'rural guards' be reckoned, the number is about one to 2,000 inhabitants."

SEVEN DROWNED IN ST. LAWRENCE

Ferry Steamer Capsizes With Horrible Result—Most of The Victims Belonged to Massena and Ogdensburg, New York, on Trip

Massena, N. Y., Aug. 1.—Seven persons were drowned late this afternoon in the St. Lawrence river, when the ferry steamer *Sirus* struck a shoal eight miles below this city, capsized and buried its seventy-five passengers into the river. Four bodies have been recovered.

The identity of the three persons, who, according to the captain's tally, are missing, is not known. Scores of persons in motor boats and on shore, were endeavoring to recover the bodies.

The steamer *Sirus* left the dock here this morning for Cornwall, on the Canadian side, with seventy-five persons bound for a day's outing there. Most of those aboard were residents of Ogdensburg and Massena. The picnic crowd boarded the *Sirus* on the return trip about 4 o'clock this afternoon, and were seated on deck under the canvas awning when the crash came.

The deck was swept bare in a moment and the entire party were struggling for life in the swift waters. Women who could not swim clutched at canes, stools and other portable articles buried into the river by the impact, while others upheld and aided by male companions battled their way against the current to the overturned steamer.

Firemen at the International Park, just opposite the scene of the wreck, manned every motor boat and shift available and aided in the work of rescue. They picked off scores who clung to the sides of the boat. Others leaped and exhaustedly were swept down stream to death.

Among them were the Misses Parker, who were spending their vacation in Massena. The bodies of these girls were also being recovered by swimmers to save Miss Dewey and Floyd Hackett from the current in the Massena river. It is claimed that the girls who were drowned had already met their end when boats from the International Park could reach the scene, hardly five minutes after the crash. Those rescued were taken to the International Park and later proceeded to Cornwall.

The *Sirus* has tonight near midnight, capsized. The vessel was formerly a private yacht and saw service at the Thousand Islands. Treacherous shoals mark the river here for a distance of about five miles up and down the river from the wreck.

LOCH LOMOND ROAD IN DISGRACEFUL CONDITION

The residents of the big district which has to depend for communication with the city on the alleged road which runs to Loch Lomond are growing more indignant every day over the state of the highway. In spite of the fact that the road is one of the busiest leading to the city it has been allowed to fall into a disgraceful condition, which makes its use not only unpleasant but dangerous.

In the early spring the mud holes were so bad that teams frequently became mired and the drivers were forced to resort to vigorous measures to release their wagons. At that time the condition of the roads was borne with more or less patience as it was confidently expected that the highway board would make the necessary repairs as soon as the season was far enough advanced to allow them to go ahead. They were doomed to disappointment, however, for the season has passed without any important repair work being undertaken on the road. Instead the entire appropriation is said to have been expended on the road to Red Head.

Without disputing that the latter road may have needed all the repairs that could be made to it the residents of Loch Lomond and the district declare they have been neglected. That there may be a reason for the course adopted they do not attempt to deny but they are of the opinion that the course was not merely the desire to give the largest number of people the best possible roads.

Whatever the reason the condition of the road to Loch Lomond speaks for itself. Humps and hollows, gullies and washouts, broken down culverts and yawning cavities all proclaim the lack of expenditure for repairs. Accidents have occurred to carriages and wagons and automobiles have suffered broken springs in the effort to reach the improved man by means of a drill shaft was successful this afternoon. From the depths of the drift 85 feet below the surface floated a feeble "Hello" in answer to the signals of the rescuers.

SAYS STEEL TRUST GOT \$200,000,000 WORTH IN TENN. COAL DEAL

Experts Before Congressional Committee Declare That Coal and Iron Holdings Are Chief At the Above Figure.

New York, Aug. 1.—That the steel and coal holdings acquired by the United States Steel Corporation in the absorption of the Tennessee and Iron Company in 1907 have a valuation of \$200,000,000 was estimated from figures on the mine holdings of the Tennessee Company given today to the committee on inquiry into the Steel Corporation.

Since the termination of the inquiry into that deal Representative Stanley and other members of the house committee on mining and geology have been making charges that the impending panic and danger to Moore & Schley was not the prime motive for the merger but that it was a desire on the part of the Steel Corporation interests to acquire the Tennessee Company and rich ore deposits.

Notwithstanding the determined declarations of witnesses after witness, who participated in the exchange of the deal of conspiracy was proposed, the committee heard today the testimony of C. P. Perin, Walter Moore and W. M. Given, chief engineers, who appraised the posts of the Birmingham field in 1904. Today, these men declared that the ore deposits of that region and their proximity to coal deposits of nearly two billion tons estimated make that territory almost unparalleled from an ore producing standpoint. Ore royalties of 35 cents a ton on more than 400,000,000 tons in that region acquired by the Steel Corporation from the Tennessee Company and coal deposits aggregating more than 1,600,000,000 tons were given by the experts as a basis upon which members of the committee compute that these properties alone are worth \$200,000,000.

SENATOR EDWARDS DENIES CEMENT PRICES ARE HIGHER

Ottawa, Aug. 1.—Senator Edwards, president of the Canada Cement Company, gave a strong denial today to statements from consumers in various parts of the country that they were paying more for cement today than before the Canadian concern merged.

Ottawa dealers believe there is good ground for an inquiry under the combined investigation act, but Senator Edwards says at the time. As a matter of fact, he says, before the Canada Cement Company was organized the individual concerns in Canada were cutting each other's throats to the detriment of all.

The price of cement in Canada today is lower than it ever was under normal conditions before the price cutting war was inaugurated. By prevention of crisis in the cement and other economic conditions before the merger the company, he claims, is able to give consumers the benefit of a lower rate than would otherwise have been possible. The original flotation of the company by Max Atken, which rightly or wrongly was attacked by Sir Sandford Fleming, had nothing whatever to do with the situation today as Sir Maxwell was now out of the concern.

CHATHAM, ONT., NEGRO BEATS MAN TO DEATH WITH CLUB

Chatham, Ont., Aug. 1.—Following a dispute the latest this afternoon William Hurst, a negro, aged 28, beat Thomas Brown, aged 60, to death with a club.

Hurst was a participant in emancipation day celebration and was under the influence of liquor.

He and Brown were walking down the street together when Hurst became angered and picking up a club attacked Brown. He did not immediately follow by a crowd of white men, whom he clubbed only to fall into the hands of a policeman.

He was taken to the police station and charged with murder. The police immediately ordered the bar where the party where the negro was celebrating closed and no further trouble materialized.

MINER ENTOMBED 48 HOURS STILL ALIVE

A feeble "Hello" greets rescuers who drilled 85 feet below the surface.

Joplin, Mo., Aug. 1.—After trying for 48 hours to reach Joseph H. Clarey, imprisoned in a mine near here by a cave in Sunday, the fourth attempt of rescuers to reach the imprisoned man by means of a drill shaft was successful this afternoon. From the depths of the drift 85 feet below the surface floated a feeble "Hello" in answer to the signals of the rescuers.

NEAVE'S FOOD FOR INFANTS
Is the RIGHT FOOD for YOUR baby

The strongest argument for your using NEAVE'S FOOD for your baby, is that 80 years experience has proved its value for the youngest and most delicate infant. NEAVE'S FOOD contains all the essentials for flesh and bone forming in an exceptional degree—assists teething—relieves constipation—and makes baby thrive. Here's what one mother says:

"My baby has been brought up on Neave's Food, of which I cannot speak too highly. My baby did not thrive until I gave him Neave's Food, and has never had a day's illness since. If anyone asks me what they shall give their babies, I say Neave's Food, and they get on just the same as mine, and thank me for telling them." Mrs. Savory of Bristol.

AN EVENT OF INTEREST
Corner Main and Bridge Sts., North End, St. John, N. B., August 1st, 1911.

Mr. Family Man, St. John, N. B.

Dear Sir—Every one considers it lucky to receive money in a letter and we are writing you to tell you of your good luck—that there is money waiting for you at our store.

How will you receive it? Why will every dollar that you spend you will receive two dollars worth of good big solid value in any goods you desire from any department for yourself, your wife, your children or your friends.

But, say you, how can this be possible, goods must be paid for and a merchant must make a fair profit if he is to continue in business? That is true but there is a reason for this special price reduction sale to which we call your attention:

Our success as merchants—we have been doing business, father and son, at the same stand for the last thirty-five years, is due solely to the loyal support of our customers and patrons whom we are also proud to say are our friends as well, and we take this method of showing our gratitude and appreciation of the benefit their trade has been to us by making reductions in the prices of all articles in every department that are sweeping in character and in many cases startling in size.

This we are able to do for in the first place being located at a little distance from the centre of the city of St. John our fixed charges, rent and so forth are not one-fifth of what they would be if we were located in a more fashionable neighborhood—in the second place owing to the loyal support which our trade have accorded us we did last year four times the volume of business that we did five years ago which enables us to buy in the great larger quantities which means a great saving in the cost of goods and it has always been our policy when we have been lucky enough to secure bargains in clothing, shoes, hats and other goods to share our luck with our customers.

Again, in order to insure absolutely the success of this Grand Special Clearing Sale of summer goods that starts on Aug. 2nd we have set aside a portion of the money that we usually spend in advertising in the regular way, newspapers, etc., and give this money direct to the people in the way of selling goods for cost in many instances.

In addition, we have taken all goods in which the lots are broken and the quantities small and put a very low price on

WHAT ELECTRIC CURRENTS HAVE DONE IN CHICAGO

Water Mains in Rotting State and City in Great Danger From Fire—Two-Thirds of Supply Wasted

Chicago, July 31.—Only one-third of the 300,000,000 gallons of water pumped by the city's water works every day reaches the faucets of the taxpayers who defray the expense of pumping.

Rotting water mains, the escape of electric currents on the surface and elevated railways alone are charged with responsibility for this heavy loss.

These facts were revealed Sunday in a report by the Chicago bureau of efficiency which has just completed an investigation of the effect of electrolysis upon the city's water mains.

Lives and property of citizens were menaced in case of a big fire, it is declared, through the demoralized condition of the water system. Water mains that had corroded to such an extent that nails would be driven half way through the steel surface were found along the lines of nearly every elevated and surface line in the city.

CROWNING TRIUMPH OF LIBERAL POLICY
Proceedings of Recent Imperial Conference—Sir John Macdonald's Attitude to Imperial Defence in 1885, and its Present Bearing

(Toronto Globe)

N. W. Rowell, K.C., in a recent address, gave the following resume of the proceedings of the Imperial Conference in regard to questions of imperial defence: "The views of Sir Wilfrid Laurier and the other overseas representatives thereto. Mr. Rowell also shows the position occupied by Sir John Macdonald and Sir Charles Dufferin in relation to imperial defence. He says: 'Sir Joseph Ward, Prime Minister of New Zealand, proposed the formation of an Imperial Parliament of defence, consisting of an Imperial Council composed of 12 members, two from the United Kingdom and two from each of the self-governing dominions, the functions of the council to be mainly consultative and advisory. From these two bodies should be selected a permanent executive body or cabinet of fifteen. He proposed that 'to this Imperial Parliament of defence should be transferred exclusively those matters common to the whole empire, including questions involving peace, war, treaties, foreign relations, general Imperial defence, and the providing of the revenues for the foregoing purposes.' Mr. Asquith, Prime Minister of Great Britain, stated that the scheme would 'imply, if not altogether destroy, the authority of the government of the United Kingdom in such grave matters as the conduct of foreign policy, a conclusion of treaties, and maintenance of peace or the declaration of war. The responsibility of the Imperial Government, subject to the Imperial Parliament in these matters, could not be shared.' Speaking for the British Government they could not assent to a proposal on which the empire had been built up and carried on."

Sir Wilfrid Laurier and all the other Prime Ministers also opposed the resolution and it was withdrawn, but Mr. Asquith, Sir Wilfrid Laurier and other Prime Ministers did not leave the question of Imperial defence there. They dealt with it, and dealt with it, I think you will agree, more wisely and more effectively.

SHE HAD CONSTANT PAIN
Until Relieved by Lydia E. Pinkham's Vegetable Compound.

Dewittville, N. Y.—"Before I started to take Lydia E. Pinkham's Vegetable Compound I suffered nearly all the time with headache, backache, and bearing down pains, and had a continuous pain in my left side. It made me sick if I tried to walk much, and my back was so weak that I was obliged to wear a corset all the time. But now I do not have any of these troubles. I have a fine strong baby daughter now, which I did not have before taking Lydia E. Pinkham's Vegetable Compound."—Mrs. A. A. GILES, Route 44, Dewittville, N. Y.

It is a simple fact in history that during the past one hundred years, notwithstanding that Great Britain has been engaged in many wars, Canada as a nation has taken part in only two—the war of 1812-14, when Canada was directly attacked by the United States, and the other the South African war. In none of these other wars was Canada neutral, and yet in none of them did Canada take part, although invited by the British government to take part in at least one.

Sir John's Point of View
Mr. Willison, in his life, of Sir Wilfrid Laurier, points out that "in 1885, during the war in the South, New South Wales offered the Imperial Government a body of troops. This induced Lord Harrington

Asepto Premium Plan Advantages
TALK NO. 2

The premium plan is new in St. John, but in many cities it has become a wonderful factor in business.

There is a soap premium concern in the United States that started 20 years ago in a factory smaller than ours that today employs 1,800 office hands, and that factory requires 50 acres of floor space. They supply the needs of over 2,000,000 families.

Business men that are familiar with their plan and ours are emphatic in the statement that ours is far superior. In every instance where our plan has been investigated by discerning women they have at once started to purchase from us in order to secure the premium.

A letter from Nova Scotia says: "Your premiums are the best I have ever received."

Every day we get letters complimenting us on the quality of our goods and premiums.

If it is honest values and a saving that you are after, at our store is the place to get them.

Premier's Position Misconstrued
This statement by Sir Wilfrid Laurier appears to have been very seriously misconstrued both in Great Britain and in Canada, and some have attempted to argue that his statement implied a declaration of independence on the part of Canada. Sir Wilfrid Laurier's whole record in the administration of the affairs of Canada shows that such a construction is entirely unwarranted. He has repeatedly and truly stated that when Great Britain is at war, Canada, as part of the empire, is at war.

A strong letter approving of Sir Wilfrid Laurier's position appears in The Times of June 16, from which the following is an extract:

"Sir Wilfrid's policy can, I think, be summarized in two sentences—when Great Britain is attacked Canada is also attacked and will contribute her full share in the common defence; but when Great Britain is the aggressor, then Canada will claim the right to decide whether or not it shall take part in the war."

"This fundamental policy, once adopted as part of the Imperial constitution, would become a valuable guarantee for the whole of the people living under the British flag, and would be a solid factor in the maintenance of the peace of the world. Occasions might conceivably arise when such a law would act as a salutary check upon some ambitious Minister thirsting for war glory, and the restraint thus exercised would be a blessing, not only for the dominions in preserving them from war, but for the people of the mother country as well."

"Sir Wilfrid Laurier, it may be fearlessly maintained, is not a separatist, neither in aspiration nor in tendency, but a far-sighted statesman, seeing things clearly and acting wisely. Strong enough to resist the allurements of cheap popularity based upon pure jingoism and class prejudice, he shapes Canadian policy on lines which history has proved to be safe, and which are in accordance with the inalienable strength of the empire, a strength based upon freedom of action, not upon tightlaced fetters."

GIRL CLIMBS CHIMNEY
150 FEET HIGH ON DARE

Haverhill, July 31.—Climbing 150 feet in the air to the top of a new chimney in a small bucket, Miss Lena D. Pearson of Byfield, a stenographer, dared scores of her girl companions and was applauded by a large crowd of men at a Granite street factory "one day last week."

The chimney is now nearing completion, the cap being set on by the workmen, who have been laboring for the past few days in black smoke which is forced from the mouth of an old chimney close by.

With the smoke hot and stifling, it has been with difficulty that the men even have remained on the job.

As a joke one of the workmen invited the girls in the "office" of the big power plant to take a ride up in the bucket. All smiled, but Miss Pearson declared she would go.

Midsummer Sale of Silk

We have been fortunate in securing an immense lot of Silks at a price that will enable us to sell them at almost one-third of their regular price. Over 3,000 yards in the lot. They are silks that are stylish and serviceable and can be used for almost any purpose that silks are used for. The first lot is priced 29 cents. These are 27 inches wide and come in a large range of colorings. It is the popular shantung or pongee silk and usually retails for 65 cents. No. 2 lot is priced 37 1/2 cents and is made up of a large variety and quantities of silks, ranging in value from 75 cents to \$1.25. They consist of taffetas, poplins, plaids, Persians, Tuscan silks and black and colored Moires. No. 3 lot consists of 1,000 yards of very fine quality Satin Foulards, 23 inches wide, in all the new colorings such as coronation blue, gold, blue, corn-dove blue, navy, sage, grey, new tans in several shades, brown, heliotrope, cream, slate and black. These silks are shaver-proof and will be sold at 65 cents a yard. They are the regular \$1.25 quality. Very rich in appearance and very stylish.

WILLIAM LATHAM IS GREATLY IMPROVED

Able to Talk Clearly Today of Sad Drowning Accident - Brought to His Home Last Evening

Feeling considerably improved in health William Latham, the young man who heroically endeavored on Sunday to save the life of the late Miss Avis Cowan when they were precipitated into the river from the canoe in which they were paddling, returned to his home in 90 Portland street, yesterday. Young Latham refers to the event only with reluctance. Now that he has come to his proper senses and recovered from the attack of hysteria, which followed the drowning, Mr. Latham gives practically the same account of the occurrence as was gleaned from his delirium on the night of the affair, when he talked at random of the happening in short disconnected sentences. He says that the upsetting of Miss Cowan and himself from the canoe was caused when she endeavored to get her cabin which was lying in the bottom of the frail craft. In order to do this she was compelled to turn around, as she was paddling in the bow, and he recalls practically nothing else other than that they were thrown into the water, and that he had a trying time in his efforts to bring her ashore. She struggled wildly and managed to slip from him twice, going down the second time never to rise again.

ENGINEER RECOMMENDS ST. JOHN STREET SEWER

Water and Sewerage Board to Award Several Contracts This Afternoon - Purchase of Spruce Lake Property Approved

Tenders are to be opened this afternoon at the meeting of the water and sewerage board for the excavation work planned in connection with the sewers in Barker street, Tower and Germain streets west, and from the city line to Lancaster, as well as for water mains in Steadings, Mecklenburg, Sydney, Princess and Stanley streets, and on the north side of King street. The city engineer in his report recommends that two new 24-inch hydrants be placed on the western side of Mill street according to the request of the board of fire underwriters. He favors the placing of the concrete catch basins at the eastern end of Elliott Row costing \$70 each, and the laying of a sewer in St. John street west, west approximately \$200. Mr. Murdoch also recommends that the land offered for sale by W. G. Abell at Spruce Lake for \$600 be purchased should the recorder find the titles satisfactory. The land embraces 1,000 feet of frontage. J. E. Fitzgerald has a claim against the city for damages alleged to have been done to his trees on his farm at Lake Fitzgerald by city workmen in stretching telephone wires. Mr. Fitzgerald desires compensation and his request will probably be referred to the recorder.

THE PITCHERS TODAY. The St. John's and Marathons will play a match on the Marathons grounds this afternoon, beginning at 3 o'clock. The game is a league fixture and should draw a good crowd. Sweet will pitch for the Greens and Paquet or Hite for the Saints.

AMUSING SIGHT. The age of the horse is not yet past. People in the North End this morning smiled with amusement when they gazed through the streets an automobile drawn by a span of horses, who seemed to wear a broad grin in appreciation of the situation, and to wink significantly as though they thought the joke a good one.

AN OLD FRIEND. Wm. E. Hopper, formerly of the writing staff of the Times-Star, but now on the editorial staff of the Dry Goods Review, Montreal, was in the city yesterday, having been called home on the death of his sister-in-law, Miss Avis R. Cowan. Mr. Hopper is being warmly greeted by old friends.

THIS IS A MISTAKE. A Montreal despatch to a morning paper stated that a tennis player named Ward from St. John, N. B., had won two matches in a tennis tournament there yesterday. It was learned today that no St. John players went to Montreal to compete in the tourney and there is no player named Ward in any of the local clubs.

PICNIC AT FAIRVILLE. The picnic of the Fairville Baptist church Sunday school is being held today on Sims' grounds in Fairville. This afternoon a ball game between a team from the Charlotte street Baptist church and one from the Fairville Baptist church will be played. The Carleton Cornet Band will be present this evening. The usual picnic games and amusements will be held.

L. O. B. A. FRATERNAL. Baxter Lodge, No. 62 L. O. B. A., Fairville received a fraternal visit from the officers and members of Dominion Lodge No. 19 and Johnston No. 18 last evening. After the business was finished, a fine programme of speeches, songs, and recitations was enjoyed. Refreshments were served by the ladies of Baxter Lodge. Members of the L. O. B. A. are cordially invited to attend at the Orange Hall, Fairville, on the first Tuesday in every month.

BODY TO ARRIVE FRIDAY. The body of James Neels, who was killed in a railway accident at Rainy River on Saturday last will be brought to his home here on Friday noon, and will be buried in Fernhill cemetery Friday afternoon. The remains are being accompanied to the city by Engineer Meahan of Rainy River. No further particulars as to how he came by his death have been received by his parents here, but it is likely that Mr. Meahan will have all the particulars.

WAS CITY PASTOR. Rev. A. E. Ingram, who died recently at Watrous, Sask., in the 67th year of his age, at one time was pastor of the Tabernacle Baptist church here, and had many friends in this city, who will regret to hear of his death. Mr. Ingram was born in London, and attended Mr. Spurgeon's evening classes. He landed in Halifax in March, 1874, and was ordained at Mahone Bay the same year, and subsequently had pastorates at Westport and other places in Nova Scotia and New Brunswick.

STILLWELL FINED \$8 ON PROFANITY CHARGE

Charges of Drunkenness, Assaulting and Resisting the Police Allowed to Drop - Early Closing Cases May Come up Friday

In the police court this morning Judge Ritchie delivered judgment in the case of Walter Stillwell, and fined the prisoner \$8 or two months on the charge of profanity, to which he pleaded guilty. Stillwell was also charged with drunkenness, assaulting Policemen Kane and Serep Campbell and with resisting the police. These charges were allowed to drop, as the court contended that the policeman had lost his right going into Stillwell's house without a warrant. The magistrate stated that in his opinion Sergeant Campbell should have made the arrest just as soon as the prisoner used the bad language and not ten or fifteen minutes later. James Lake was fined \$8 and Daniel Gillis \$4 on the charge of drunkenness. The case of Morton McLaren, charged with assaulting Harry McLeod in King street, west side, on Monday night last was dropped. Sweet will pitch for the Greens and Paquet or Hite for the Saints.
