French Paper Says United States Still Has Many Illusions About Debts.

BY WEBB MILLER (United Press Staff Cor.)

Paris, June 14.—Socialist government in France became a reality today when Edouard Herriot accepted the invitation of President Doumergue to form a new cabinet.

Herriot expects his list of ministers will be completed before tonight, and hopes to be ready to confer with Premier MacDonald of Great Britain on June 21.

President-elect Doumergue spent the morning in conference with leaders of the left, all of whom advised him to summon M. Herriot to form a government to replace the Marsal cabinet, which resigned yesterday as soon as the election of the new president was announced.

Like Dawes as Candidate. The press today generally approve the selection of General Charles Dawes as vice-presidential candidate of the republican party with President Coolidge.

ST. JOHN MEMBER SUGGESTS BRIDGE AT CAMPBELLTON

Hon. J. B. M. Baxter Wants One Joining New Brunswick and Quebec.

DIVIDE THE COST

Dominion Would Pay Third—Vote for St. John River Bridge Passed.

(Canadian Press.)

Ottawa, June 14.—Consideration of estimates of the Department of Public Works, in the House of Commons today brought from Hon. J. H. King an intimation that the Dominion Government is prepared to meet one-third of the cost of inter-provincial bridge construction provided the provinces concerned bear the other two-thirds.

An appropriation of \$40,000 for an inter-provincial bridge across the Ottawa River at Hawkesbury was under discussion. The minister said he had approached the Governments of Ontario and Quebec to ascertain whether or not they were each prepared to pay one-third, neither had accepted the proposal as yet.

Campbellton Bridge. Hon. J. B. M. Baxter, Conservative member for St. John, asked whether the principle that the Dominion would provide one-third of the cost of inter-provincial bridges was of general application. If so, he would like at some time to suggest the construction of a bridge between New Brunswick and Quebec at Campbellton.

To this the minister replied that he would favor the application of the principle in the case mentioned by Mr. Baxter. Objection to this principle was voted by R. B. Hanson, Conservative, York-Sunbury, and J. B. Chaplin, Conservative, Lincoln, who said that bridge construction should be paid for by the provinces and municipalities concerned.

Across the St. John. A vote of \$29,000 for the construction of an international bridge over the St. John River between Clair, New Brunswick, and Port Kent, in the State of Maine, was passed. The minister explained that negotiations had been on since 1914 regarding the bridge.

R. B. Hanson (Conservative, York-Sunbury) voted against the most important traffic over the bridge would be run-rummers entering the State of Maine. He had urged for the construction of a bridge at Vanceboro which was on a direct line with the tourist traffic and would cost only \$17,400.

Champions Maritimes. A series of questions from Sir Henry Drayton prompted a protest from L. H. Martell, Liberal, (Hants), who said the people of the Maritime Provinces were getting tired of opposition of any estimate destined to improve the public works of that part of the country.

While parliament was voting millions yearly for public works elsewhere, a prominent member of the House as Sir Henry Drayton descended to "carping criticism" of a trifling vote like this because it did not apply to his own part of the Dominion. Some day there would be a rebellion in the Maritimes against the tendency to reduce their citizens to the status of heifers of wood and drawers of water for the rest of Canada, he said.

Sir Henry assured Mr. Martell that his questions applied to the Government's attitude to inter-provincial bridges generally and had no geographical significance.

Greek Premier Is Upheld In House

(British United Press.) Athens, June 14.—The Greek chamber expressed its confidence in the administration of Premier Papanastasiou today by a vote of 199 to 21. The session, which continued throughout the night, was a stormy one.

Four Big Robberies In U. S. In 2 Days

(By United Press) Four big money robberies, which may show a major crime wave, have taken place in a four-day period estimated to be worth between \$2,000,000 and \$4,000,000 within the last forty-eight hours. The following holdups are reported: New York—Wednesday twelve men escaped with gems valued \$100,000 and \$200,000 in broad daylight.

Chicago—Friday currency and securities valued at \$100,000 to \$2,000,000 were stolen from a Chicago, Milwaukee and St. Paul mail train by highwaymen who took a stop signal to get aboard.

San Francisco—Three robbers struck up a branch of the Peninsular State Bank and escaped with \$7,000. New York—Friday, diamonds and watches, worth \$100,000, were stolen from the jewelry store of Samuel Hahn by three men.

UTILITIES DEAL ON IN MONTREAL

First Step is Taken—Next is Offer to Montreal Tramways. Montreal, June 14.—The first step in the reorganization of local public utility companies was taken yesterday with an agreement of the Quebec-New England Hydro-Electric Corporation to go into a new holding company, which is designed ultimately to embrace all the utilities of the Montreal area.

The Montreal Tramways and the Montreal Public Service Corporation, which are now owned by the Public Service Corporation, formerly the Montreal Public Service Corporation, are being taken over on next Monday and the next step will be an offer to the shareholders of the Montreal Tramways and the Montreal Public Service Corporation to take up their shares on a basis of \$15 a share for Montreal Tramways and \$10 a share for the Public Service Corporation.

It is expected that the government will take several days yet, before we hear from all points," said one of the officers. He added, "When we set we shall act quickly, and very short notice will be given, so the public had better get all mail matter posted immediately to ensure its delivery. We don't want to inconvenience the public, but we must receive decent treatment, something the government has not given us. The King cabinet can settle the matter in one hour if they care to do so. Should there be trouble and the whole Postal Service be tied up from the Atlantic to the Pacific next week, the responsibility will be on the government and not on the postal servants."

MAYNES AWAY TO MONTREAL TODAY

Send-off at Depot Planned by Friends—Others Go Monday.

"Billy" Maynes, the speedy quarter-mile who it is expected will be one of the members of Canada's delegation to the Olympic games in Paris, will leave tonight at 5 o'clock for Montreal, where he will take part in the Canadian trials next week. He has been under the wing of Tom Trebilcock for the last few weeks, and reports received here are that Maynes is traveling at a record-breaking speed, and there is every reason to believe that he will hang up some new marks within the next few weeks.

It is the expectation that a number of Billy's friends are to give him a send-off at the station this evening, and it is hoped to see a large gathering to wish this fine athlete good luck. Wrestlers and Boxers. Leo McCrossin, crack 185-pound wrestler and "Bud" McCarthy, clever 145-pound grappler, will leave tomorrow for Montreal to participate in the Canadian Olympic trials on June 17 and 18. Unfortunately they will not be accompanied by their trainer, Walter O'Toole, as A. W. Covey, president of the Maritime Branch of the A. A. U. of C., said today that he has not sufficient money to purchase his ticket.

O'Toole, when he learned that finances were low offered his services gratis and asked that only his actual expenses be paid. However, President Covey was unable to take advantage of his sporting offer.

The boxers will leave for Toronto next Monday afternoon. Six are going from the Maritime Provinces, Donovan Kennedy, Cavanagh, Wright, McLean and Cruickshanks, "the fighting cop." The last two are being sent by sport followers in Sydney, while the first four were selected by the Olympic committee.

OVERWHELMING SENTIMENT FOR POSTAL STRIKE

"When We Act We'll Act Quickly," Says Federation Official.

GIVES WARNING

Says Public Should Get All Matter Possible Posted at Once.

(Canadian Press.)

Toronto, June 14.—Retience is shown by the Postal Clerk and Letter Carriers in Toronto as to the result of the voting which took place in all branches of the service at the various postal stations yesterday. It is understood that there was a substantial majority in favor of a strike or, as the officials put it, "a walkout" in protest against the wage schedule recommended by the Civil Service Commission. Owing to the absence of some of the mail clerks the voting will be closed today.

"It will take several days yet, before we hear from all points," said one of the officers. He added, "When we set we shall act quickly, and very short notice will be given, so the public had better get all mail matter posted immediately to ensure its delivery. We don't want to inconvenience the public, but we must receive decent treatment, something the government has not given us. The King cabinet can settle the matter in one hour if they care to do so. Should there be trouble and the whole Postal Service be tied up from the Atlantic to the Pacific next week, the responsibility will be on the government and not on the postal servants."

Montreal Carriers. Montreal, June 14.—Members of the Letter Carriers' Association of Montreal voted unanimously last night to go on strike if the government will not reconsider its postal award. The award was attacked by more than 400 letter carriers said to be nearly the total number in Montreal.

Montreal, June 14.—The local letter carriers will reject the proposals of the Dominion Government with respect to wage scale.

GERMAN FOOTWEAR AT HALF OUR PRICE

Canadian Manufacturers Cannot Compete Says Roy Weaver of Toronto.

Toronto, June 14.—German-made shoes are being imported into Canada at about half the cost of Canadian-made shoes, according to information given to the special committee of Toronto City Council on unemployment, on the authority of Roy Weaver, manager of Shoe Manufacturers Association of Canada. Mr. Weaver's letter as read to the committee by W. Varley, ran in part:

"Last fall approximately 33,000 pairs of children's shoes of good quality leather and well-made in every respect, were imported into Montreal. These goods were purchased in Germany at the equivalent of 50 to 62 cents a pair. The duty of 30 per cent, was assessed on a valuation of 80 cents a pair. No dumping duty was applied. A Montreal manufacturer who saw these shoes said he could not make similar shoes here for less than \$1.25 a pair."

"We understand that at the present time there is a further shipment of between 20,000 and 40,000 pair of shoes of German make in warehouse in Montreal, awaiting clearance through customs. These are described as beautiful shoes that could not be made in either the United Kingdom or Canada at less than \$1.50 per pair."

The letter goes on to state that the exchange system is responsible. Under the preferential tariff German footwear, it says, can be shipped to England, re-invoiced there and sent to Canada to be sold at prices prohibitive to our manufacturers. The association writes Mr. Weaver, had asked for depleted currency legislation and for regular ones that the shoes should be marked with the name of the country in which they were made, but the Government would not comply.

Boy, 6, an Old Traveler

Crosses Ocean Alone, Without Fear, Yet Dreads Streets.

Toronto, June 14.—Horace Horne, six, is afraid to cross the street alone. But when it comes to crossing the ocean, he is a hero. He has just completed a 8,000-mile journey from Margate, England.

"And I wasn't scared the least bit," he says. "My daddy was over here, and I just had to come." There was no one to take him, so he decided to come alone. "First I took a train," he explains proudly, "and then a steamer—the Minnedosa. It's a hard name, but I can spell it all right." "There were three other boys on the boat and we had a fine time. We weren't sea-sick, and we didn't have to worry about getting lost." "But here in Canada I'm scared of the strange streets. Maybe I'll go up one and then never find my way back."

"And I don't ever want to miss a day again. So I'm going to stick close by till I grow up."

Canada Places Customs Officer at New York to Deal With Goods in Bond

(Special to Times-Star.)

Ottawa, June 14.—The long expected appointment of a Canadian customs officer at New York to supervise the transshipment of goods in bond passing through that port from the Atlantic to the Pacific and vice versa, which was authorized by order-in-council on Feb. 27, has at last been made.

Edgar Daybell, an officer of the customs here, left for New York yesterday to take up his duties there. Up to the present view of the department has been that there has not been sufficient demand to make the appointment of an officer necessary, and the view of Hon. Jacques Bureau, Minister of Customs, has been that the better plan would be to send down an officer from here as occasion arose, rather than when his presence was not necessary. It is now understood that the officer appointed today will remain there permanently or as long as the demand warrants.

DEPUTY IS SLAIN?

Italian Statesman Kidnapped—Important Documents Thought to Be Object.

(United Press.) Rome, June 14.—With police scouring Italy for a gang that kidnaped Deputy Matteotti, the newspaper Tribuna carries a report that the statesman's dead body has been found in a field 50 miles from Rome.

The report, still unconfirmed, states that the body was apparently clubbed or stabbed. The automobile which the kidnaped deputy had been driving, five suspects have been arrested, three at Milan one and Rome and one at Florence. Matteotti's wife informed the police that when her husband was kidnaped he carried important documents, and it is thought that these papers may have some relation to the crime.

NEW SIMS BOAT IS NEARLY RUINED IN FRENCH CUSTOMS

Official, Instead of Opening Case Properly, Uses a Crowbar.

WILL PULL THROUGH

St. John Champion Finds No Official Advice of His Going to France.

French customs officials came near ruining Hilton Belyea's chances in the Diamond Sculls at the English Henley early in July and the Olympic sculling races at Argenteuil, France, when one of them drove a crowbar clean through the side of his brand new Sims shell in a clumsy effort to ascertain the truth of his declaration that a rowing shell was encased. This news comes in a letter to Mrs. Belyea.

Instead of unscrewing the top covering, he writes, they used a crowbar and damaged the fragile shell so badly that the Canadian sculling representative has been compelled to ship it back to Sims' factory in England for repairs. This happened two weeks ago, according to the letter.

There's Time Yet. Fortunately, the accident occurred several weeks before the races. Had it happened later on, Belyea's chances would have been well-nigh hopeless, as it takes time to get accustomed to a new shell.

Funds Get Low. The shell Hilton took with him now weighs 40 pounds and would have been useless to him in a race. As it is, his funds are running low as he was compelled to pay 1,000 francs on his new shell when entering France. In his letter, he says he will make every effort to collect damages, but pointed out it takes time to go through the red tape required before he can be compensated.

Belyea Disappointed. Hilton was bitterly disappointed over the accident as he planned to get into racing shape with the shell on the Olympic course. "I'll manage to pull funds are running low," he writes in his letter, "but I felt pretty blue when I saw what had been done." He notes that no arrangements were made regarding his going to France and when he showed up, French rowing officials were greatly surprised as they had never been advised that Canada was sending a sculler. In fact, Hilton identified himself by clippings from St. John newspapers which Mrs. Belyea had forwarded to him. He was treated royally, however, by French oarsmen and given every opportunity to work out.

He says he likes the course much better than the one at Henley.

Duty on Everything. If no further arrangements are made by United States and Canadian Olympic authorities in regard to customs duties, Hilton writes, there is going to be a great deal of dissatisfaction as duty is collected on practically everything. He was compelled to pay duty on a new rowing shirt.

The accident may compel the St. John oarsman to return to England at an earlier date than he planned, namely June 25, in order to supervise repair work to his shell and test it thoroughly before the Diamonds which take place at Henley on July 4 and 5.

The Genuine Silmerine Hair Curling Method

If your hair is straight, flat, dull looking, you need not be asked if you long to possess perpetually wavy, soft, glossy, beautiful tresses. What to do? Take a clean tooth brush, dip it in a sauce of pure liquid silmerine and run this through the hair just before doing it up. This will give you a real surprise. Your hair will have a prettier and more natural-looking, sticky, greasy or anything unpleasant about it. A few ounces of liquid silmerine from your drugist will last for months. This is just the finest thing imaginable for the purpose and it keeps the hair in curl a considerable time.

Lamb was quoted at 35 cents a pound by the carcass and retailed for from 40 to 50 cents. Bunch carrots for 10 cents, bunch onions for 10 cents, a pound, new squash at 10 cents pound, celery 15 cents a bunch, and asparagus 50 cents a bunch.

BALL PLAYING IN STREET

Eight boys were summoned to the police court this morning to answer for their playing baseball in Brindley street. The complaint was made by James G. Carleton, who said that the boys had been playing on his property. The boys acknowledged that they had been playing and the father of one said they had no other place to go, as the Allison playgrounds were closed this season. Magistrate Henderson said it was against the law to play in a public street, and made them promise not to repeat. With that understanding, he said, they could go home.

AT ST. PETERS.

St. Peter's church was crowded last evening at a service of the special devotion in honor of Our Lady of Perpetual Help. Rev. John Murphy, C. S. S. R. of Brooklyn, N. OIL STOVE AFIRE

The fire department was called out this morning by an alarm from box 241 for a slight fire in a house at 102 Winter street occupied by H. C. Worcester. The blaze was caused by an oil stove taking fire and was extinguished after only slight damage was done.

DID NOT FIND ANY

Members of the local police department counted noses of the crew of the S. S. Kongshavn this morning to ascertain if any deserter had joined the crew. The search failed to reveal any of the deserters.

MATTER STANDS

John Doyle appeared in the police court this morning on a charge of allowing a fall from his wagon in Main and Elm streets on June 12. He said that he had his wagon repaired and that it would not occur again. With this understanding he was allowed to go with a warning.

HANDCUFFS LOST

Policeman Alexander Chisholm lost his handcuffs yesterday while hurrying after a man who had broken a window. He believes he dropped them in Rockland road or Rockwood Park and would appreciate their return. He will return them to Central Police station.

ST. JOHN MEN ON BOARD

PERSONALS

Mrs. Eleanor Moore and daughter, Marion, of Westmount, Ore., who had been visiting Mrs. Wm. Monch of Fairville are at present the guests of Miss Gertrude Beasley, Bishop street, Halifax. They will be in St. John next week and will be the guests of Mr. and Mrs. E. J. New, Dufferin row, St. John, West.

Mrs. Angus MacLean of 206 Douglas avenue will leave by Governor Dingley tonight to visit her daughter, Mrs. Laurender Leys and Mr. Lewis of Newport, N. I.

Miss Alice H. Brown of West St. John is spending her vacation with friends in Boston.

Louis Sharkey, formerly of this city, was warmly welcomed by old friends here during the last week. Mr. Sharkey, who has been connected with the C. P. B. since his departure from here some 19 years ago, is now in charge of the dining and sleeping car division of the C. P. R., with headquarters at Calgary. He returned home on Wednesday.

Roberto Ramsey, manager of the Vilagraph Company here, sailed from Montreal on Thursday en route to England. He will return about August 1. Dr. and Mrs. Harold S. Clarke and young son will leave this evening for Bangor on a visit and will be away until the end of the month.

The Fredericton Mail of Friday had the following personals: W. H. McQuade of St. John was in the city Thursday; Mr. Justice Grimmer was at the Barker House Friday; A. H. Chipman of St. John was at the Barker House Friday; Mr. and Mrs. Fred Harvey of St. John are spending a couple of weeks in Fredericton.

Mrs. G. E. Hoyt and Mrs. Elias Messenger of Bridgetown, N. S., who had been in the city for the wedding of their son and grandson, returned home today. Jack Hoyt is finishing his vacation here, the guest of Eric Golding.

Mrs. Jones of Bridgetown, N. S., returned to the sister province by the bay route this morning. She was in town visiting her sister, Miss Hall, superintending nurse of the St. John County Hospital, East St. John, who has been seriously ill in the General Public Hospital.

Mrs. T. Kenneth Raymond and two children, little Miss Frances and her infant son, accompanied by their nurse, motored this week to Grand Bay to Monday night's game.

BOTH TEAMS STRENGTHENED

Monday night's game on the South Side diamond is expected to reproduce some of the thrills attending last year's games between the Royals and St. John the Baptist, as both these worthy rivals meet again, with "Tack" Dalton pitching for the Saints. He is expected home from St. Joseph's College on Monday, and with him is young Gaynes, who will play shortstop for the Saints. With this additional strength, the Saints from now on figure on being a different team. The Royals also have strengthened through the arrival of Jimmy Price. Earl Nelson's arrival is expected in time for Monday night's game.

STRANGE TALES ARE TOLD OF ARCTIC

The Indians Speak of Hot Springs and Weird, Huge Animals.

Nenana, Alaska, May 16.—(Associated Press By Mail).—The unknown Arctic region between the Colville and Porcupine rivers, where Dr. Philip S. Smith has led a party of the United States Geological Survey on a perilous mission of exploration, is the locale of strange tales, spread among fur traders and gold hunters by the native Eskimos and Indians.

The territory which the Smith party has gone to investigate and chart appears on the maps largely as a blank space. Certain rivers, like the Colville, never have been traced to their headwaters, and what in the way of topography and resources lies within an area of 35,000 square miles has been a matter of conjecture.

Reports have trickled out of the Polar Basin that great lakes of oil were to be found in this wilderness. But the Eskimos and Indians tell stranger stories. They say the land is haunted by weird beasts, some of such immense stature that they leave tracks as large as dinner plates. It is said that no Indian can be persuaded to penetrate the region, even though tempted by the promise of abundant fur. The lore has it that there are great areas of hot springs, where the snow never falls and the streams never freeze.

Some of the more credulous of the white men, linking the tales with their scientific reading, contend that there still may lurk in the far north remnants of the mastodon herds that have left their bones and ivory in almost every stream bordering the lower Yukon river.

NEW LAMP BURNS 94% AIR

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 18 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent. air and 6 per cent. sororium kerosene (coal oil).

SAFETY FIRST.

Mention is made in another column of the organization here on Tuesday evening next of a St. John Branch of the Maritime Safety League, the intensely useful and practical work of which is attracting more and more attention daily.

The Safety League is not the sort of institution that is satisfied with speeches and resolutions. It seeks to organize an army of citizens, men, women and children, who will take the principles of safety to heart, and be thoughtful and alert in preventing accidents of every character.

ANNEXATION—NEW VERSION.

A solemnly worded special cable from London, written by a correspondent serving the Toronto Globe and the Chicago Tribune, informs all and sundry that politicians in London have received "a rude shock" because of certain developments in Canada.

The Canadian Premier, of course, never made any such statement, or said anything which could reasonably be so interpreted. If he, or any other public man in Canada, had said what was evidently called to London, the shock would have been even greater in this country than across the water.

The correspondent betrays considerable anxiety over the situation which he apparently believes has been created, saying that politicians in the Old Country, "while knowing the discontent in Canada and other parts of the Empire, hoped it would blow over without the necessity of formal recognition or action."

ACROSS THE LINE.

The recent summary of business conditions in the United States, issued by the National City Bank of New York, the largest bank in that country, tends to show how shortsighted and thoughtless is the statement, too often heard, that the Canadian people are suffering from a business depression which their neighbors have escaped.

The statement of the National City Bank, which should tend to restore a sense of proportion among people on our side of the line, shows that the revived state of industrial activity which marked the first quarter of the year passed its high point by the middle of March and that a downward movement followed.

CITIZENSHIP.

There are three great influences in developing true citizenship, Dr. Michael Clark, of Red Deer, told the Calgary Canadian Club in a recent address, and these influences are the parent, the teacher and the preacher.

Dr. Clark said that the obvious and fundamental function of the Canadian Club is to train citizens by teaching them to think of Canada, not merely of their own village or town. Patriotism he defined as consisting in part of pride in our country's history, its achievements and conditions and anticipations of its future greatness.

Dr. Clark reminded all that in the reaction which was bound to follow

the war we are prone to dwell upon the chaos which still exists. "Who expected anything else?" he asked. "You cannot have five or six monarchs practically falling off their thrones without some disorders following. Some of us are too prone to dwell upon the sufferings which came to us, sufferings which to some where very great indeed; but I prefer, for the most part to dwell upon the great accomplishments of the war, and along with the other line of thought which I am trying to give you, is it not a fact that the British Empire in that war was a large portion of the instrument by which the institutions, which we had enjoyed and achieved for ourselves two and a half centuries ago, were brought to those other nations of Europe, along with institutions which we began to achieve for ourselves two and a half centuries ago.

In speaking of the Boy Scout movement, Dr. Clark said that there are people who talk about its military side, but who forget entirely its educational side. They forget that the first duty of the scout master is to teach the habit of self-control, combined with courtesy, kindness, attention and helpfulness to others. He asked if anyone could conceive a finer education than that. In concluding his address on the Evolution of Citizenship he said:

"What then do we need to develop our larger citizenship to the full? Honest hearts in our young people, linked with the other qualities which I have just mentioned, and may I say for all of us, simpler creeds and the simplest creed after all is the shortest and best. No citizenship will be complete, which has not learned at least that creed through its author and founder, which tells us that the first and greatest command of the law is to love God, and the second is like unto it, to love our neighbor as ourselves."

IN HEREFORDSHIRE

In laughing, sunny Herefordshire Are valleys rich and deep, Where lanes like green and shining ribbons Go winding, half-asleep; And little red-footed villages Lie lost, like poppies in the corn, And drowse, and dream, and take their ease From morn again to morn.

In misty, rain-wet Herefordshire Are hills that seek the sky, Where tall trees bow a lofty spire To greet winds passing by; And fields go tumbling like a sea Round gray old towns that stand and gaze Each street a home of history, And glimpses of other days.

In dreamy, wistful Herefordshire, When evening shadows creep, And all the ache of old desire Has turned at last to sleep, And all the world is slumbering; In winding lanes and ancient ways My heart will go a-wandering For ever and a day!

USE OF PRIVATE AIRPLANES MADE EASIER IN ENGLAND

London, June 14.—Private airplane flying is to be simplified in Great Britain by the abolishment of the irksome regulations requiring that a plane must be piloted by an airworthy every day and must land only at a recognized airfield. A plane now will be certified as airworthy in the first place, and then it is up to the owner to keep in condition. Also he may land in a field near his home provided it does not endanger the public.

BUFFALOES STAGE DEGREE.

Royal Antediluvian Order of Buffaloes, New Brunswick Lodge No. 4623, of this city, held an enjoyable evening

Bovril puts the "goodness" into the stewpan! At Revere Beech, Martinon, on Thursday where they were the guests of one of the members. Nearly every local member of the order attended, some going by way of the river in the motor boat, Rosie A., Seagull and Chiew. These boats belong to members. Others went by automobile. A Lodge was held and six candidates initiated. Although the lodge was organized only in January last, rapid strides have been reported.

Wonderful Tea! Users of KING COLE Orange Pekoe are frequently heard to remark: "It's really wonderful tea." This is not particularly in reference to its outstanding quality although that is necessarily included, but is due to the wonderful way it "spends." For KING COLE Orange Pekoe is a rich liquoring tea as well as a deliciously flavorful one. Skilful blending combines these two great tea qualities for your enjoyment. "The Extra in Choice Tea."

Thousands of Women Are Doing It!! A King Street Attraction. Of Course You've Seen It? We mean the display of the modern, up-to-the-minute fully equipped gas kitchen in the window of the former Macaulay Brothers' building. We shall be glad to give you a thorough demonstration of what it can do.

Let's Figure Out The Cost. In the first place a first-class gas range, fully equipped, will not cost you as much as a first-class kitchen range. Prices range from \$37.00 to \$83.00, paid in monthly instalments. Even Cheaper if you wish to buy it outright, or we can RENT IT to you from \$7.25 to \$11.00 PER YEAR. Nothing very expensive there, is there? If you want a combination gas and kitchen range, we have that too. Won't take up as much space as an ordinary stove. Has standard size fire pot and fully equipped gas facilities, oven etc., etc. And the price—you'll be surprised at the small cost of it. But a five minutes demonstration will tell you more than we could crowd into a newspaper page. Telephone or call at our office. Our commercial department is at your service.

Conserve Your Strength—Save Money! The Gas Range will do both for you and, if your residence is on streets served by our gas mains, we can give you its benefit immediately. EASY, PLEASANT, CONVENIENT—why it brings sunshine into the kitchen on the dullest of days.

IS ASSIGNING

Frederickton Reports H. M. Young's Action After Compensation Case.

An assignment in bankruptcy is being made today, said Friday's Frederickton Gleaner, by ex-Ald. Harold M. Young of Frederickton, who operated a mill at Landers, on the Transcontinental Division of the C. N. R., which was recently seized, together with sawn lumber and equipment, as a result of action by the New Brunswick Workmen's Compensation Act passed at the last session of the Provincial Legislature.

It was said that the partial statement of affairs which is required to be filed with the official receiver, would show liabilities which would reach between \$50,000 and \$60,000, while the assets would not exceed 50 per cent. of that amount. When the mill, plant and lumber at Landers was seized it was said that the claims totalled about \$12,000.

It is understood that there is likely to be considerable legal controversy over the seizure of the mill by the orders of the Compensation Board. Mr. Young said that the mill was owned by his father, John A. Young, M. L. A., but that the board claimed they had a right to seize the plant, notwithstanding its ownership. Included in the assets are one and a quarter million feet of long logs in the stream at the mill and a quantity of sawn lumber.

DEATHS

The Late William Munro.
The passing of William Hugh Grant Munro at his summer home in West Vancouver this week, removed a well-known and interesting personality from the Vancouver World, of June 1 Born 74 years ago in St. John, N. B. of United Empire Loyalist stock, Mr. Munro was a son of the late Donald Munro, who in his day, was one of the most noted marine engineers of the Atlantic.

Mrs. Harriet H. Williams.
Mrs. Harriet H. Williams, aged 73 years, passed away yesterday at her home, 66 Middle street, West St. John. Mrs. Williams had been ill for four weeks. She had resided in St. John during her entire lifetime and will be mourned by a large circle of friends. Mrs. Williams leaves four sisters, Mrs. Anstree Wetmore, Mrs. Mary Parker and Mrs. Hanson, all of West St. John, and Mrs. Libinia Jones, of Providence, R.I. The funeral will take place from her residence, service being conducted by Rev. W. McN. Matthews, of the First Presbyterian church, at 2:30 o'clock Sunday afternoon.

In the death of Mrs. Williams another link with the noted Paris crew is broken. Mrs. Williams was the widow of Samuel Hutton, one of the famous St. John oarsmen, when she married the late George Williams several years ago.

Lay Roofs that Stay Weathertight

Are your roofs in good shape? Better check up now. If there's any re-roofing to be done, put on a roof that will stay weathertight—a roof of Barrett Shingles.

These tough, rugged shingles have stood the test of time. They will never rot nor rust—they never require painting.

Equally important, Barrett Shingles are fire-resisting. Sparks and embers sputter out harmlessly on their protective mineral surface.

With their weather surface of everlasting mineral—red, green, or blue-black—these colorful shingles add greatly to the appearance of any house.

Have the Barrett dealers show you Barrett Shingles and Roll Roofings. You'll find them low in first cost,—inexpensive and easy to lay.

The Studebaker Light-Six!

More are sold than of any other six in the fifteen-hundred-dollar price class!

More because—it is the sweetest, smoothest-running Six you ever drove. Its specially designed offset valve motor, its machined crankshaft, its four big crankshaft bearings, its perfectly precision cylinders, pistons and reciprocating parts are the reason.

More because—no other car in its price class shows such obvious indications of quality—genuine leather upholstery, a hand-tailored top and curtains, carefully selected details of equipment, lustrous baked enamel finish.

More because—its 40-horsepower motor, its correct gear ratio, its beautiful balance and low center of gravity, make it like lightning in the "get-away," never falling on a hill, and effortless under a full load on any reasonable road.

More because—it is backed by a great service organization, immediately and willingly accessible.

More because—its recognized used car value protects you with the lowest possible depreciation when you come to trade it in.

\$1465

A TRIP WITH THE STORK

Nancy and Nick and Johnny Jump Up, the fairy, held tightly to the stork's long sharp beak while he carried them away from the tulip field over a lovely country with grass so green it looked like paint in a picture.

"Holland looks like a picture, doesn't it?" so kind, too! They always watch for our coming and never throw stones at us, the children don't.

Social Notes of Interest

Mrs. Azel Blake left some time ago to visit her parents at New Haven, Conn. Last evening Mr. Blake left for Connecticut, where he and Mrs. Blake will attend the commencement exercises at Yale University and the decennial reunion of Mr. Blake's class at Yale. They will take in the Yale-Harvard boat races at New London, and then spend a few days at Narragansett Pier.

Mrs. Julia Thibodeau, of Boston, is visiting her niece, Mrs. W. B. Tennant, and Mr. Tennant, at their summer home, Rothersey. Mrs. Thibodeau, who has been here for a week, will remain for some time.

The Rothersey Collegiate boys were hosts last evening to the girls of the Netherwood Girls' School and other young friends, who enjoyed a dance

until 10:30 o'clock, with a light supper served before dispersal, a special privilege to celebrate the closing of the term. The chaperones were Mrs. C. Scott, Mrs. O. R. Peters, Mrs. W. R. Hibbard and Mrs. A. W. Daniel.

Mr. and Mrs. Maurice A. Thompson, of Queen Square, left this week for Boston for a short visit.

Miss Maud Reed, of West St. John, is visiting her brother, Mr. Fred Reed, and Mrs. Reed, of Boston.

Ronald A. McAvity, accompanied by his little daughter, Jean, will go to Montreal immediately to see Mrs. McAvity, who is ill in the Ross Pavilion of the Royal Victoria Hospital.

Mrs. Hugh Mackay has arrived home from Montreal, where she landed from the Montrose, which left Piquet last week. Mrs. Mackay has been abroad for several weeks.

Mrs. W. H. Lugsdin, who came down for the closing exercises at Netherwood from Moncton, returned last evening to her home. Her daughter, Ethel, who graduated, will not return home until she has taken the McGill examinations at the school.

Mr. and Mrs. E. Atherton Smith leave today by motor for their summer home, "Cluneligh," St. Andrews-by-the-Sea, accompanied by Mrs. Smith's sister, Mrs. Maxwell Scott, of Quebec, who will spend the season with them.

Mrs. J. Sandall, of Halifax, is making short visits with relatives here. She has been the guest of Mrs. William Clarke at Renforth and is now staying with Mrs. W. C. Clarke, Duke street. Many friends are extending cordial greetings.

Mr. and Mrs. W. T. Howard, 68 High street, announce the engagement of their daughter, Gertrude E., to George A. Ferguson, of Des Moines, Iowa, the wedding to take place in the near future.

Mrs. M. A. Crowley, St. John, with her son, Harold, who recently graduated from St. Mary's College at Brockville, Ont., is spending a few days with her brother, Rev. M. T. Murphy, Milltown.

EMIGRANTS TO U.S. ARE COMING BACK

Statistics Show That More Than 9,000 Returned in April-May.

Ottawa, June 13—Figures prepared by the Immigration Department, on special instructions, seem to indicate that Canadians, who have been in the United States, are beginning to repatriate themselves. The statistics apply only to Canadians who have been resident in the United States for more than six months. During April and May the number of such who have returned is more than 9,000.

At the end of March the Immigration officials began to check up such returning people. In April at 148 points out of 171 along the boundary where there are immigration inspectors 4,984 were reported as having returned. In May at 129 points, 4,839 returned with 42 points still to report. Instructions have been issued to immigration inspectors to forward to the department each month hereafter a statement of the number returning who had left to secure work in the United States, or who had been living there for a more or less extended period.

DISCUSS UNEMPLOYMENT.

The unemployment situation in the city was discussed at the regular meeting of the Civic Employees' Local, No. 1676, last evening in Trades and Labor hall in the Bank of Montreal building with A. Kirkpatrick, president, in the chair. The meeting was largely attended and general routine business was transacted. It was said that conditions with regard to unemployment were serious at this time.

VETERANS WEEK AT ST. JOHN'S, Nfld.

Big Celebration by Newfoundland G. W. V. A. Earl Haig will Unveil National War Memorial.

The week from June 30 to July 5 will be a gala one in St. John's, Nfld. A celebration to be known as Veterans' Week, will be arranged by the G. W. V. A., and a big programme of parades, sports, etc., has been arranged. Warships of the Allied nations will be in port, and Field Marshal Earl Haig will unveil the Newfoundland National War Memorial.

Newfoundland is participating actively in this great celebration, and its people are welcoming visitors and inviting them to participate.

The first week of July is an ideal time for a trip to the ancient colony, where there are many attractions for the tourist and summer visitor.

For fares to St. John's via Halifax or North Sydney, any ticket agent of the Canadian National Railways will give the necessary information. 6-14.

ESTIMATE \$300 RAISED.

That the sewing club of the Ludlow street Baptist church had raised \$300 in three months was estimated at their last meeting, held this week at the home of Mrs. Charles Belyea. The money raised by the club will go to the church funds. Miss Ida Belyea, daughter of the hostess, served refreshments during the afternoon. Those present were Mrs. R. C. Reed, Mrs. Clarence Perry, H. A. McLean, Mrs. George Price, Mrs. Harry Roxborough, Mrs. E. C. Clark, Mrs. George Doody, Mrs. Alex. Stinson, Mrs. W. Rupert, Mrs. Clarence Curry, Mrs. J. Black, Mrs. J. Cooney and Mrs. J. Burnett.

TEACHERS' CONFERENCE AT VICTORIA, B. C.

Special Train from Toronto via Canadian National Ry.

Maritime Province teachers will do well to note that in connection with the 1924 Conference at Victoria, B. C., to be held from August 12th to 16th under the auspices of the Dominion Educational Association, special train arrangements have been made by the Canadian National Railways. There will be a special train to the Pacific Coast, leaving Toronto at 1 p.m., on July 26th, and numerous optional trips may be taken for the return journey.

The special train will be one of the finest, of all steel equipment, with most modern type of compartment-observation cars, library-buffet car, standard sleepers and diners. Nothing will be lacking in the way of entertainment. There will be a radio set in the observation car, and a phonograph will be placed in the diner; this car to be used for concerts, or dancing if so desired.

From all Maritime Province points to Toronto the regular train service of the Canadian National Railways is of the finest. It might be noted that the special train will stop at Jasper Park from Thursday, July 31st, to Sunday, August 3rd, and the educational party will thus have three days in that delightful playground of the Rockies. The cars will be used for sleeping accommodation, while meals will be had at the famous Jasper Park Lodge.

No more delightful trip could be devised for the teachers who are to make this tour across Canada by Canadian National Lines. 6-14

ENTERTAIN PRESIDENT.

Jewel Rebekah Lodge, No. 6, entertained at their hall, West St. John, for Mrs. Annie Davis, president of the Rebekah Assembly of the Maritime Provinces and Newfoundland, this week, prior to her departure for her home in Halifax. Mrs. Davis addressed the members and Miss Ida Belyea, the G. of Jewel Lodge, presided. Miss Harriet Smith was one of the speakers. Mrs. Davis was presented with a gold mounted fountain pen, suitably engraved, for which she thanked her hostesses, cordially.

GRAY-DORT
Be Curious About Cars
In every Gray-Dort showroom the curious buyer is welcomed. The best prospect for a Gray-Dort is the man who wants to see the real insides of his automobile—the man who knows axles and motors and transmissions and clutches. He can see what the new management of Gray-Dort Motors Limited has done to make the Gray-Dort the best automobile in its class ever sold in Canada. He can see the results of our doubled inspections. He can see the effects of an entirely new spirit in the factory. For this year our entire energies are devoted to making the Gray-Dort so good that it will far for ever after hold a permanent place as the outstanding value in motor cars in Canada.
Gray-Dort is today giving more for your dollar than any other car you can buy. See the new models—drive them—before you purchase a car.

"Nerves in Bad State Could Not Sleep"
Mrs. H. N. Tardell, Harrowsmith, Ont., writes:
"My nerves were in a very bad state, and for nearly six months I did not know what it was to have a good night's rest. I could not eat, and never felt well. I heard about Dr. Chase's Nerve Food, and thought I would try it. After taking it for a few days I began to feel better, and soon was able to sleep well at night. My appetite also returned, and I felt stronger and better, and after taking three boxes of Dr. Chase's Nerve Food I was quite well. I have also given the Nerve Food to my little girl, with good results."

HEAR REQUESTS FOR EQUIPMENT
Hospital Board Asked to Investigate Feeding of Diabetic Patients.
Two requests for additional equipment were presented by the medical staff of the General Public Hospital at yesterday's meeting of the Board of Commissioners. They will be given consideration. A suggestion that a new system of filing records be established was rejected. It was said the standardization inspection doctor had criticized the records as furnishing scanty information.
The medical staff also asked for an investigation of the handling of diabetic patients who, it was reported, received from unauthorized sources food other than their diet called for. It was suggested that separate accommodation be given these patients, but the meeting was of the opinion that there was no such accommodation available.
Superintendent's Report.
The report of the superintendent showed a daily average of 147 patients and 844 cases under treatment, 143 remaining at the end of the month; with 70 operations in the operating room and 102 operations and 803 treatments in the out-patients' department.
The financial statement showed receipts, \$18,452.55, including city grants, certain, \$7,141.70; X-ray \$1,061, and pay patients \$4,186.57. There was a balance of \$6,761.05. Accounts paid totalled \$2,320.88.
Nursing Superintendent's Report.
Miss Murdoch, superintendent of nurses enrolled, eight graduates, 18 senior, 18 intermediates, 18 juniors and eight probationers, placed as follows: 95 on day duty, eight on night duty; five in the epidemic hospital; five in Montreal, two at the County hospital and four on sick leave. During the month Miss Allie Lake and Mrs. Margaret Miles, graduated; Miss Anna Pittman replaced Miss Vera Breen, resigned. Miss Helen Merritt, the first nurse to complete the course at the County Hospital, brought back a good report.
A committee was appointed to draft a resolution of condolence to be sent to members of the family of the late Dr. J. A. McCarthy.
The application of second year medical students, Oswald Macdonald and Charles H. O'Regan, for hospital privileges was to be replied to with information that there were no privileges to grant but the students would be welcomed as visitors.
Bills for April amounting to \$10,375.44 were ordered paid as money was available. Bills for May, amounting to \$12,852.81.
Month's Expenses
The householder that contemplates the monthly food bills with solemn thoughts may well congratulate himself that he does not have to pay the food bills of the General Public Hospital. The itemized statement of expenditures for food during May was submitted at yesterday's meeting of the Board of Commissioners and showed the following purchases and costs:
Bread, \$146.70; butter, \$411.60; beef,

Do Trifles Annoy and Upset You Do You Have Frequent Headaches Do You Quarrel With Those You Love Do You Jump When the Door Slams
Well Known Hospital Physician Says These Are Some of the Danger Signals of Exhausted Nerve Force—What to Do.
One of the most terrible of all human ailments is exhausted nerve force. It weakens all the vital organs of the body and as a result all kinds of alarming symptoms may appear. Some people get nervous indigestion, pains over the eyes, in the heart, and across the small of the back; in others the first symptoms are mental instead of physical—sleeplessness, worry over trifles, or inability to concentrate on your work.
The nervous mother is upset by her children, squabbles with her husband, and bursts into tears over the smallest troubles. In such cases it is worse than useless to waste time taking stimulating medicines or narcotic drugs; the starving nerve cells must have nerve food which is supplied by the blood. Any physician will tell you that if the blood supply were cut off from any nerve in your body that the nerve would die.
The discovery of organic iron as contained in Nuxated Iron, has been one of the most valuable red blood making scientific discoveries since the creation of modern medical science, and its effect in helping to create new nerve force and revitalize worn-out, exhausted nerve cells is some times most amazing. Try Nuxated Iron for two weeks and if at the end of that time you have not obtained all and even greater benefits than you expect, the manufacturers will promptly refund your money.

GRADUATES NOW ARE "OLD GIRLS"

Received Into Association at Pleasant Netherwood Function.

Miss Ruth Robinson was hostess at the home of her parents, Mr. and Mrs. J. M. Robinson, Rethsay, last evening, for the Old Girls' Association of Netherwood Girls' School, into which organization the graduates of yesterday were received at a business meeting which followed the dinner. Covers were laid for 80 guests, who sat around tables centred with abundant flowers of choicest variety. Miss Robinson presided at the dinner, and Mrs. John C. Belyea, her sister, presided at the meeting, as retiring president of the association. Mrs. Douglas White was elected president for the ensuing year, with Miss Elizabeth Armstrong, one of the new members, vice-president; Mrs. Fred R. Taylor, secretary, and Miss Elizabeth Thomson, treasurer. Plans were made for prizes for next year, which is the usual procedure on this occasion. It was said many of the new members will be donors, next June, of prizes for many subjects.

There was much pleasure expressed over the graduation gift received by

MISS DAPHNE PATERSON, whose brother, A. Pierce Paterson, presented to her a fine new rooster.

The guests left soon after the meeting concluded to enjoy the dance at the Rethsay Collegiate School. The graduating class were guests of the third year collegiate girls on Wednesday evening at a chicken supper at Netherwood, which is an annual event and was greatly enjoyed on this occasion. The hostesses were Misses Margaret Bligh, Helen Cannell, Lillian Drummond, Ruth Harrison, Elizabeth Jones, Margaret Peters, Muriel Tapley, Marjorie Shaw and Constance Watson. The guests were Misses Elizabeth Armstrong, Aldra Dickie, Katherine Dickson, Marjorie Harding, Dorothy Hinton, Ethel Lugsdin, Viola McAnn, Daphne Paterson, Edith Richardson, Margaret Tilley and Edith Wran. These young ladies are now "Old Girls" of the school.

Those who got certificates for having passed in the several departments follow:

FRUIT TREATMENT FOR CONSTIPATION

Quick and Permanent Relief By Taking "Fruit-a-tives"

What a glorious feeling it is to be well! What a relief to be free of cathartics, salts, laxatives and purgatives that merely aggravate constipation and are so unpleasant to take and so weakening in their effect!

What a satisfaction to know that the juices of apples, oranges, figs and prunes will absolutely and permanently relieve constipation. By a certain process, the juices of these fruits can be concentrated and combined with tonics—and it is these intensified fruit juices that correct constipation, relieve headaches and biliousness, and make you well and keep you well.

"Fruit-a-tives" are sold every where at 25c. and 50c. a box—or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

CONSIDER BUILDING STREET CARS HERE

Power Company Already Has Been Manufacturing Parts in St. John.

According to an announcement by the New Brunswick Power Company, the decision as to whether new street cars will be brought here, ready for use, or will be built at the company's works in St. John depends on the estimates from outside points as to cost.

Already figures have been compiled by the company's officials as to cost of building in St. John, but until these have been compared with the costs of outside firms a decision will not be every at. That the company can build the cars here and will do so if the difference in cost is not too great is about as much as can be said for the present.

M. A. Pooler, general manager, said today that he hopes to be able to build them here and thus keep the money at home as well as establishing what would be a new industry in the city. Headway has, already, been made at the local car shops in manufacturing car parts which, heretofore, had been purchased from outside.

The company is engaged in the entire rebuilding of its present cars and a budding industry has made much headway. Thirteen have now been re-made, from the trucks up. Among the improvements are the slat seats, in place of the rattan, a greater medium for cleanliness. It is proposed to change all the seats to run lengthwise in addition to which improvements have been made to the platforms and the driver's position protected so as to give him every freedom for operating the cars. A change in the color scheme, the painting of the cars, is also going into effect, the green body being set off with cream trimmings.

The days of flat wheels in St. John said a company official, have passed. The wheels of the old type cast-iron wheels the cold rolled steel wheel has been installed. The benefit of this change is, greater wear and a great increase in the comfort of riding. Better ventilation, new interior furnishing, more space for the passenger's getting in and out of cars, together with greater comfort, are features of the improved cars turned out from the local works.

Another Lovely Satin Love Story!

The World's Perfect Lovers in Their Best Roles.
RAMON NOVARRO AND BARBARA LA MARR

In Fred Niblo's Latest Triumph

"Thy Name is Woman"

HIS LOVE SPURNED by the erotic Guerrita (Barbara La Marr), Captain Rodrigo (Walace MacDonald) informs the Commandante (Robert Edeson) of the Spanish post in the Pyrenees that Guerrita's husband, Pedro the Fox (William V. Mong), is a smuggler.

A dashing young soldier of the post, Juan Ricardo (Ramon Novarro), who is loved by the Commandante's daughter (Edith Roberts), is ordered to visit Guerrita and by passionate love-making induce her to betray the hiding place of her husband's contraband.

Forewarned of the purpose of his visit by her husband, Guerrita allows Juan to make love without betraying her husband, but as his visits continue, she grows to love him and becomes infatuated with her. One day, confessing his deceit to her, Guerrita is so unselfish in her love for him that she plans to betray the smugglers.

As Pedro sees what is happening, he confesses in a frenzy of the Commandante, and to prove Juan was unfaithful to his trust, shows the Commandante a piece of lace.

Juan induces Guerrita to flee with him, but Pedro stabs her and falls dead at her feet. Juan is arrested for failure in his mission and faces prison, when Dolores, the Commandante's daughter, convinces her father he is as much to blame for involving Juan in so compromising a situation. Juan is pardoned and seeks solace in Dolores' affection.

PLANS FOR MOUNT ALLISON DISCUSSED

Methodist Conference Also Starts Celebration for Mission Society.

Sackville, June 13—Plans of Mount Allison University looking to extension work of various kinds, the consideration of the centenary celebration programme of the missionary society, provision for the re-organization of certain charges in co-operation with the Presbyterians and the hearing of further delegations and reports were the matters which occupied the delegates at the Methodist conference during today's sessions. The evening was signalized by the greatest gathering of the conference so far, both in attendance and enthusiasm, in the interests of the missionary centenary.

Mrs. C. F. Sanford, of St. John, reviewed the history of the Women's Missionary Society emphasizing the contribution made by the women of the Church in the achievements of the century. A former delegate from Prince Edward Island, Thomas Moyle, made an impressive appeal for adequate support of the Church's intensionary plans and the concluding address was by Dr. Arnp. The missionary centenary was given a good start.

Free Entertainment.

Tuesday evening has been left more or less open, in order to have a reserve space in case weather conditions make it impossible to stage the pageant on Monday. But if the weather is favourable, an effort will be made on Tuesday evening by the Toronto members of Rotary to let the visitors see something of Toronto. There will be motor drives, trips on the lake, to the Island, and wherever the individual Rotarian cares to go. During Tuesday afternoon the Ladies' Committee will take charge of the visiting ladies. There will be a drive about the city, and late in the afternoon they will centre at the University grounds. After an inspection of Hart House, all will be the guests of the Kiwanis Clubs

of Toronto at a garden party on the University grounds.

Wednesday evening comes one of the big events, the president's ball. The Transportation Building will be given over to this. In the afternoon the ladies will be treated to a musicale at the Metropolitan church.

On Thursday evening an entertainment will be held in the Coliseum, with a chorus of 2200 voices, led by Eclairian Herb Fricker, as the chief attraction. In the afternoon the ladies will be taken for a boat ride.

MANY FIRMS NOW HAVE SPRINKLERS

Automatic Fire Fighting Systems Installed in Various Parts of City.

A movement which promises to lessen greatly the fire risk in the city and at the same time effect considerable saving for those taking part in it in the way of reduction of insurance premiums, has developed amongst some of the larger business houses of the city recently in the installation of automatic sprinkler systems.

There are now 25 of these systems installed in various parts of the city and vicinity, and the installation of others is expected in the near future. It is felt among those interested that further development along these lines will cut down the fire losses that have suffered by business houses and factories in the Dominion—losses which are said to be greater than in any other country in the world. Canada's annual per capita fire loss is \$8, whereas that of England is only 30 cents.

What It Is
The sprinkler system consists of a network of pipes, all connected to the street main, and reaching every nook and corner of the buildings in which they are installed. At short intervals along these pipes are placed small openings, sealed with brass contrivances held in place by small lead plates. In the event of fire near one of these openings, the heat causes the pressure on the lead tag and cause it to give way. This opens the plug and a conical shaped curtain of water is precipitated about the area affected by the fire. Besides wetting the surrounding area, this curtain shuts off the oxygen supply from the blaze and both features effect the desired aim.

It is of interest to note that 92 per cent. of the fires occurring last year, where sprinkler systems were installed were extinguished by two or less sprinklers.

Water Curtain

Where a space intervenes between the buildings in which some of the systems are installed and those next door, there is also provided an apparatus which causes a water curtain to be spread across the face of the structure in which the sprinklers are located. This prevents the spread of the fire and would also prove effective in the event of a large city conflagration, in helping to protect other property beyond. Thus, in adopting the sprinkler system of protection for their own property, it is felt that those who do so are rendering a service to their neighbors as well.

All those in whose premises sprinkler systems have been installed report reductions in insurance rates of from 55 to 80 per cent.

These Have Them:
The following is a list of those firms in St. John which have had automatic sprinkler systems installed in their buildings for some time:—
Cornwall and York Mills.
Peters' Tannery.
Hayley Brothers, Ltd., lumber.
The Corona Co., Ltd.
T. McAvity & Sons, Ltd., Rothsay avenue.

"BUY AT HOME" IS BACKED BY PREMIER

Hon. P. J. Veniot, in a communication to the secretary of the Buy at Home and Maritime Made campaign, states that he heartily approves of the movement, and adds that things should have been started long ago.

The Premier's letter comes as a reply to a communication calling his attention to the campaign, and suggesting that the departments of the Government give a fair consideration to all things of maritime manufacture. Hon. Mr. Veniot goes on to state that for the last four or five years it has been the policy of the Government to look first for goods of local manufacture, and that this principle of home buying will be continued.

TRAVIS ELECTS TO BE TRIED BY JURY

John Travis, who is being held by the police on a charge of setting fire to a dwelling house at 124 Mill street, occupied by Mrs. Lillian Vaughan, was taken before Judge J. A. Bay in the County Court Chambers yesterday and elected to be tried by a jury. His case likely will be taken up at the next sitting of the Circuit Court.

ENLIVEN THE SURROUNDINGS

Imperial Theatre's two new flagstaffs with their long flowing Union Jacks give new life to the south side of King Square and enhance the colorful setting of green grass, flowers and trees in the foreground. The theatre has also been re-painted outside and is aglitter with light summery tints, while green window boxes with red geraniums and white chrysanthemum finish a very tasteful and creditable decorative scheme. It is understood the national flags will be flown daily in keeping with the ideas of the American concern in all cities where they have theatres.

RE-UNION AND PRESENTATION

A re-union of the members of the cast, which presented the Lenten drama "Plat's Daughter," was held last evening at the home of Mrs. S. J. Richey, Kennedy street, who directed the production. A feature of the event was the presentation of a very pretty silver service to one of the members, Miss Theresa Maxwell, who is to become a bride in the near future. During the evening games and music were enjoyed and refreshments served.

ADVERTISING ST. JOHN.

A letter received at the Board of Trade from A. Bowler, agent for New Brunswick in London, dated June 3 stated that to cases of St. John advertising matter had been received and was being distributed to the best possible advantage. He wrote of the visit of Hammond J. Evans of this city to Empire Exhibition and his disappointment that the harbors of Halifax and St. John were not being advertised by the Dominion as were the other harbors of Canada.

GIVEN NOVELTY SHOWER.

Miss Ada Benton was guest at a novelty shower given at the home of Mr. and Mrs. Harry H. Holt City road, when a large number of girlfriends assembled to do her honor, previous to her marriage, which will take place soon. The table was trimmed with green and white and on it were the prevailing colors, which extended to a basket under the table. In this were the gifts, which were presented to the bride-elect amidst much merriment. Refreshments were served by the hostess, after an evening of games and music.

DIED THIS MORNING.

Friends will be sorry to learn of the death of Mrs. Mabel Fullerton, wife of John Fullerton, which occurred at an early hour this morning at her residence, 99 Egin street. She was a daughter of Mrs. Josephine and the late Placide Williams. She is survived by her mother, and by her husband, one brother and three sisters. The brother is Albert Williams of St. John. The sisters are Mrs. Robert Troghan of St. John, Mrs. E. J. Smith of New York, and Miss Mary Thomas, at home. The funeral will be held on Monday from her late residence, The hour had not been determined at this writing.

BOYS AND APPLE BLOSSOMS.

Chief John Smith of the police department hailed some small boys in the street yesterday and immediately sent them on their way with some apples blossoms the little fellows were taking home. The lads, truthful to state, bought the blossoms from a stranger in the Mount Pleasant district for the magnificent sum of three cents but the chief was loath to believe the story and chided the lads severely for having so many useful blooms in their arms. He explained why. A Times reporter knows the truth and he has a real serious offence the youngsters might have suffered by the circumstantial evidence.

Father Coffin, of St. Peter's, First Pays Visit to P. E. I. Home.

Rev. George Coffin, C. S. R., has returned to the city after a visit to his home in Prince Edward Island. He expects to leave Monday evening for Regina, Sask., where he will be in charge of the cathedral staff in that city, which is in charge of the Redemptorist Fathers. Father Coffin, who was stationed at St. Peter's, since 1920, was recently transferred to the western house as consultant to Rev. Francis Hesley, C. S. R., who was appointed rector. The latter was formerly stationed at St. Peter's.

As Hiram Sees It

"Hiram," said The Times reporter to Mr. Hiram Hiram, "I'm thinking last night about a little ant-hill that I have not visited for two years or more."
"Well, sir," said Hiram, "you know I ain't settin' around waitin' fer you to come. They're doin' a day's work—every one."
"I'm sure of that," said the reporter, "but you're a road with a bit of pasture on one side, dotted with young firs, and on the other a growth of trees where wild cherries bloom. There are ferns, and you hear the brook before you see it. Then you cross a fence, and walk across a bit of pasture where violets and strawberry blossoms nestle in the short grass. You climb a steep little hill, on an old wood-road between tall young evergreens—and there, in the middle of the old road at the top, is the ant-hill. I wonder if they miss me."
"They're too busy," said Hiram. "They ain't like folks that sets on the fence an' chaws—'n' waits for the next feller to come along an' talk. Any time you get a lazy streak—run along out an' look at 'em. They're as good as 'Vineyard of the Lord.'"

SAD CASES IN ST.

JOHN UNCOVERED

Statements in Report of the Children's Aid Society Agent for Month.

The May report of Rev. Geo. Scott, agent of the Children's Aid Society, submitted to the Board on Thursday evening, not only showed that he had a busy month but revealed social conditions in the city concerning which the general public is perhaps ignorant.

There were reported two cases of the most base depravity. In one of these cases an arrest has been made, and in the other an investigation is in progress.

Another case with which Mr. Scott was called upon to deal was that of three children of tender years whose mother had left them for a week-end out of town. Their father is dead. While the mother was away they and another child were guilty of a theft of money from a store, and had to appear in the Police Court.

In another case a man and his wife both left the city for a few days, leaving two children, one of whom got into trouble by breaking a window.

Two unmarried mothers called upon Mr. Scott to see if their infants could be placed in the Home. The agent also had to deal with two cases of children suffering from congenital social disease.

In another case a mother came to him asking if her two children could not be taken by the society, because her husband does not support them, and she finds it necessary to go out and work to get clothing in order that they may attend school.

Mr. Scott's duty took him to another home where two girls attending school live with their father and grandfather, the mother being dead. The best they could. The conditions, however, were far from being such as most people would regard desirable for girls of fourteen and fifteen years.

Mr. Scott was also called upon to deal with a case of a young couple, the husband being 22 years old and his wife 28. They have two children. The mother says she has to leave them and go out to work because her husband is idle most of the time. She recently refused to accept a job at \$12 a week. They have been living on the \$8 a week which she earns. She writes, however, to bring him into court for non-support, and is seeking some way to get a home for her children.

Another case was that of a widow and children who were turned out of a flat and had nowhere to go. Through the kind efforts of a clergyman of the church, to which they belong, home was found for the children, so that the mother could go to work. There was also the case of a little girl of four years, whose parents had gone to Ontario and left her with strangers. Miss Hoyt, of the Travellers' Aid, who has been interested in this case, wrote to the father, who suggested first that the little one be sent to an address in Maine, and later asked that it be sent to Toronto, but in both cases failed to send a dollar, either towards paying the child's board, which is now being paid through Miss Hoyt's efforts, or to pay the fare to Toronto.

Mr. Scott has also carried on some correspondence in connection with the case, but no satisfactory result has been obtained. There were other cases during the month to which the attention of the agent of the Children's Aid Society was called, but these are a fair illustration of conditions with which he has to deal from week to week and from month to month.

SATURDAY RUSH ON TRAINS IS ON

The coming into effect of the Saturday half holiday has resulted in a big increase of the travel out of the city on the noon suburban trains on that day and it has been found necessary by the railway companies to add more cars to these trains.

Many of the suburbanites who have not yet moved out on account of having children attending school go out on the noon train on Saturday and come back to the city on Sunday night. Last Saturday was the first general holiday and despite the fact that many had to stand, anxious looks were cast at the sky this morning and the first part of the morning paper read was the weather report, to see what "brand" was promised for this afternoon and tomorrow.
