TWELVE PAGES—ONE CENT

ALL SET FOR RING BATTLE AT SHELBY

Gibbons Will Have Good Will of the Crowd.

Attendance Not So Large as First Looked For—Dempsey Early Away to Scene of Conflict—Government Takes Charge at the Box Office.

CHAMPION DEMPSEY.

IN A NUTSHELL

Shelby, Mont., July 4.—Facts concerning Shelby's premier championship contest today: (Principals) Champion Jack Dempsey, age 28 years, weight 182 pounds. Thomsen, Tommy Gibson, age 29 years, weight 178 pounds. Time of bout, 3 p. m., Mountain Time. Referee, James Dougherty of Philadelphia. Attendance, Richard T. Burke of New Orleans. Weight of gloves, six ounces. The fight arena covers six acres, seats 40,000 persons, built at cost of \$85,000. Price of tickets, \$20 to \$50.

Shelby Wants Gibbons to Win

Shelby, Mont., July 4.—On edge as the heavyweight title bout between Jack Dempsey and Tom Gibson nears its climax, Shelby is torn by two ardent desires today. One is to see Tom Gibson win. The challenger is an overwhelming favorite with the townspeople, with whom he has been fighting during his training here. Almost to a man they will be cheering for him this afternoon. But if there is anything Shelby would prefer to see, aside from a victory for Gibbons, it is a record breaking crowd at the arena. From present indications the wish is to remain unfulfilled. While streets were crowded last night, general estimates placed the attendance figures for today at 10,000. Optimistic fans are predicting more than that, but fight officials and residents who have witnessed the heart-breaking struggle would keep the crowd here, and the recent uncertainty surrounding the staging of the bout thought the number might be even less. The day promise will be clear and very hot. Fight plans have tapered down to the most minute details. Announcement was made last night that the bout will be held under straight rules of Queensberry rules. This will mean the boxers will be under the injunction "protect yourself at all times." The chancery hold and hitting in a clinch will be barred and the backhand punch will not be permitted. The ring will measure 21 feet square. Gibbons Confident. Gibbons, in top form after three strenuous weeks of training, went for a short walk yesterday, attended a rodeo show last night and spent the rest of the day at home with his family. He is confident of victory. He declared he would have no alibi to offer if he lost, but he had fought for three years for a chance to battle for the heavyweight crown and that he was in the best condition of his ring career. In the heat of the sun and full of energy, Gibbons appears to be at the height of physical perfection. He is his manager, Eddie Kane, said. Gibbons will be seconded by Kane, Bud Gorman and Jimmy Delaney, two of his sparring partners, and Buck Pape, his trainer.

PRINCE OF WALES NOT COMING TO CANADA THIS YEAR

Toronto, July 4.—The Prince of Wales will not visit Canada this year, J. S. McKinnon, director of the Canadian Exhibits at the British Empire Exposition has received word from London that, while a visit to the Dominions this year in the interests of the exposition had at one time been contemplated, the responsibilities resting on the Prince as chairman of the general committee of the exposition has precluded his leaving on such a mission.

Hoover Is Beaten; Belyea To Row At Henley Tomorrow

U. S. OARSMAN HITS BOOM, SPLITS BLADE AND LOSES 10 LENGTHS

Desperate Effort to Overcome Handicap, But is Defeated by Gollan, Deaf Mute—Cable Says St. John Champion Has Excellent Chance to Win the Competition.

(Canadian Press) Henley-on-Thames, July 4.—The most dangerous opponent of Hilton A. Belyea, of St. John, N. B., Canada's champion sculler, in the Diamond Sculls competition was eliminated this morning when Walter M. Hoover of Duluth, defender of the trophy, was defeated in a preliminary heat by D. H. L. Gollan of the Leander Club. Gollan won by three quarters of a length in eight minutes and twenty-four seconds. Belyea, with Hoover eliminated, is now considered to have an excellent chance of winning the competition. He will not row in his preliminary heat until tomorrow.

St. John Keenly Interested In News of Hoover

Gollan, through whose victory the U. S. oarsman loses his title to the Diamond Sculls, which he won in last year's regatta, made his first appearance in sculling races at Cambridge in November, 1919. He was then at First Trinity College and won his heat in a race on the Cam. In his training Gollan, a deaf mute, was given directions by a professional from the river bank by means of signs.

Word Here That Belyea Went Over Course Three Seconds Faster Than Time Made Today

Hoover hit a boom with one of his oars in making the course soon after the start and split the blade. He lost ten lengths by the accident, but despite the handicap recovered most of the distance and finished with no daylight between his shell and Gollan's. Hoover was loudly cheered when he pulled to the Englishman's boat and congratulated him.

Leaders Defeated. In another heat of the Diamond Sculls, K. A. B. Wilson of England, defeated H. L. Janssens, a Norwegian, who has done most of his rowing in South America.

There was an upset in the Grand Challenge Cup competition, when in an early heat the Leander crew, holders of the cup, were defeated by the Eton Vikings. The Eton crew won by a length and a quarter.

There is every prospect that the regatta will be most successful despite the fact that several entries were scratched. The number of crews and scullers expected to compete totals eighty-six, which is better than last year's record.

Great interest is attached to the diamond sculls race. Hilton Belyea, St. John, N. B., the sculling champion, was lucky to get away, but will not scull until the ninth heat, when he will meet J. Shaw of the Malvern C. C., Dr. R. Bossard, Swiss champion.

This year's reduction in the width of the course has been considered a considerable improvement on the Berkshire side of the course, but the competitors are rather squeamish from a fear they will require exceedingly accurate steering to avoid fouling.

The course this year has been somewhat altered. The stewards shortened it 100 yards, making it one mile and 550 yards instead of a mile and 650 yards. This will eliminate a wide bend at the start.

Mr. Ingham, secretary of the Citizens' Committee, received a letter yesterday from Barry, who is acting as Hilton Belyea's trainer. Barry said Hilton is in good condition and should make a great bid for the Diamond Sculls. He said Hoover was his only serious rival.

MUCH DAMAGE IN ALBERTA BY HAIL STORM

Lethbridge, Alta., July 4.—A big hail storm here on Sunday cut a swath approximately 100 miles by five miles from Midnapore to the Mill River Ridge in southern Alberta. The nearest possible guess is that the crop will be cut down to the extent of a million dollars. Under certain weather conditions, it may be much more and it may be less.

TWO TOWNS TO GET STEAMER INTO QUEBEC

Quebec, July 4.—To lose her propeller 200 miles off Newfoundland and to be successively taken in tow by the American steamer Chickaw, which dropped her thirty miles off Cape Pine, Nfld., and by the steamer St. Anthony, which brought her to Quebec for repairs, was the adventure of the steamer West Kebab, now in this port. The West Kebab, a steel steamer of 8,616 tons, was enroute from California to Quebec when she lost her propeller.

OILING THE WHEELS

Stanley Baldwin: "It's not much, perhaps, but a little drop of oil will make a big wheel go round a lot easier."

DR. TOLMIE NEW ORGANIZER OF CONSERVATIVES

Plans for Union Legislation—Finances—Dominion Brotherhood of Methodist Men in View.

Toronto, July 4.—On being informed that the Presbyterian committee of forty-two on union was arranging to meet in Toronto on July 17, the general conference special committee of the Methodist Church, meeting here last night, ordered the calling of the Methodist Committee of forty to meet on July 16 to institute preparations for presenting the church union bills to parliament and the nine legislatures.

The special committee which between general conferences has wide powers, also authorized the reviving of financial offerings to defray the expenses of consummating union. Each circuit throughout Canada will be asked to vote its proportion of the Methodist treasury.

Hon. N. W. Rowell and Sir William Healey were appointed to the commission of the churches on world peace. Rev. Dr. Tolmie was asked to issue a manifesto favoring the League of Nations and asking pastors to preach on peace on July 29.

Reports showed that the Methodist national campaign have received \$4,000,000 for all ministers was approaching adoption, that \$600,000 had been received from Northern Ontario to fire relief and that the formation of a Dominion Brotherhood embracing all Methodist men was being hastened.

ATTEMPT TO BLOW UP MONUMENT

Base of Memorial in Honor of St. Hilarie Men Who Fell in War Damaged.

Montreal, July 4.—Early yesterday the residents of the village of St. Hilarie were roused from their beds by a violent explosion. An attempt had been made to blow up the Colonel Gault monument erected to the memory of St. Hilarie men who fell in the war. The sides of the horse trough and drinking fountain at the base of the monument were broken, together with three windows of the church and twenty-seven windows in a general store. A man of suspicious appearance was seen loitering around the village prior to the explosion and he is believed to have been the tool of gang members who damaged the monument a year ago. No arrests have as yet been made.

Governor-General Goes to Woodstock

Frederton, N. B., July 4.—Continuing his tour of New Brunswick after what he described as a delightful stay of twenty-four hours in the capital, Baron Byng of Vimy, Canada's Governor-General, left Frederton at one o'clock this afternoon on the vice royal train over the St. John Valley Railway for Woodstock.

While Lord Byng spent the morning playing a round of golf at the Frederton Golf Club, Lady Byng, accompanied by a party of ladies, including Mrs. W. F. Todd, wife of the Lieutenant-Governor, and wives of the members of the Provincial Government, motored from Frederton to Woodstock, 40 miles along the St. John River valley on the trunk highway, and Her Excellency caught her train there. Early in the party had luncheon at a country hotel and the diversion proved highly enjoyable.

UNITE VETERANS

A Live Topic to be Discussed at G. W. V. A. Convention in Vancouver.

Vancouver, B. C., July 4.—Delegates to the sixth annual convention of the G. W. V. A., heard the annual address of the acting president, Dr. W. B. Sharp of Brampton, Ont., reviewing the achievements of the organization since its inception in 1919, and participating in various questions today.

Amalgamation of the various veterans' associations is likely to be a live topic, according to some delegates. Oscar Perry, president of the Vancouver branch of the Amputation Association, was warmly applauded when he declared there now existed an excellent opportunity to bring the returned soldiers of Canada under one head.

Coal Miners Of Cape Breton Laid Down Their Tools

Join Steel Works Strikers In Protest Against Presence of Troops—Are Violating Act, Says Minister of Labor at Ottawa.

Sydney, N. S., July 4.—With more than 10,000 men on strike in the Cape Breton industrial area, the night passed without serious disturbance, so far as police and municipal officials have been able to ascertain this morning.

NO WORD YET OF MISSING MAN

Search for Henry Everett in Pandemic Vicinity Unavailing Up to 2 p. m.

The disappearance of Henry Everett of the firm of C. & E. Everett, furrier, who left the home of his daughter, Mrs. D. Hunt, Pandemic, yesterday morning, was still unexplained at two o'clock this afternoon, when the search party until dark last night and re-commenced their work early this morning, while one crew stayed where he was last seen.

Mr. Everett, who is more than thirty years of age, was last seen on the woods about one o'clock yesterday afternoon. The only discovery of any kind since that time was the finding of tracks which fitted a pair of his boots. These seemed to lead along the road, but they soon faded out and were impossible to follow.

Men from Martin, Grand Bay and Pandemic were searching last night and this morning, and a party of the Royal Canadian Mounted Police on the noon train to lead their aid to those already working. A considerable portion of the woods covered, but the work has been very slow on account of the difficulty of thoroughly searching a large number of men is needed. About eighty turned out last night and it is expected that this number will be increased.

Joseph Thompson of Grand Bay was in charge of the search parties last night. He said that the search parties last night.

"Since the retirement of Dr. J. W. Black in 1921, the Conservative party has been without a national organizer. Recently, however, there has been some criticism on this account, and this, coupled with the new enthusiasm and vigor breathed into the party by the upheaval in Ontario, has resulted in the step now being taken. During the coming session the party plans a strong educational campaign. Mr. Meighen and Dr. Tolmie will speak at various points throughout the country and members will carry on active propaganda work in the constituencies.

BRITISH SALUTE FOR HARDING ON FOURTH OF JULY

New York, July 4.—(Canadian Press)—The U. S. is today celebrating Independence Day with fireworks, public addresses and military and naval exercises. At Portland, Oregon, Rear Admiral Curlew, a British warship, will fire a salute in honor of President Harding while the presidential train is enroute through the city.

Mr. Curlew believed that most people were under a misapprehension regarding the presence of the militia in the strike district.

Dr. G. A. Winters Dead

Prominent Montreal Physician, Stricken on Train, Dies in Hospital.

Toronto, July 4.—Dr. G. A. Winters, a widely known medical and military man of Montreal, on his arrival here yesterday, was stricken with a cerebral hemorrhage on the train to the Toronto General Hospital, where he died within two hours.

He was taken ill when the train was reaching this city. Death was due to heart trouble, which developed from diabetes, for which Dr. Winters was receiving treatment from Dr. F. G. Banting and others. He was first afflicted with diabetes while serving with the Canadian contingent in Siberia.

ALLIES ACCEPT CHALLENGE OF ISMET PASHA

Lausanne, July 4.—Replying to Ismet Pasha's protest, the Allies have accepted his challenge to discuss at one sitting of the Near East conference all the outstanding questions as soon as final instructions are received from their respective Governments. They have deprecated Ismet's action in communicating his protest to the press before sending it to the Allies.

SUZANNE IS WINNER

Wimbledon, July 4.—Mlle. Suzanne Lenglen walked away with her semi-final match with Mrs. Geraldine Beauchamp, winning 6-0, 6-0.

FRANCE REPLIES; HOLDS POSITION

No Solution of Reparations Problem in It.

London, July 4.—France's long-awaited reply to the British memorandum on reparations, was presented to Foreign Secretary Marquis Curzon late yesterday afternoon but it offered no solution of the problem. Count De Saint Aulaire, the French Ambassador, in an earnest talk with Lord Curzon lasting nearly an hour and a half, set forth France's views on various phases of the Ruhr question but failed to define in specific terms his country's exact position on the subject.

The general verdict of those in a position to know what took place at the conference is that it was "unsatisfactory and inconclusive," but the authorities were quick to add that the way was left open for further discussion. This is taken to mean that the exchange of views will continue for another week and perhaps longer.

Count De Saint Aulaire's conversation with Lord Curzon occurred soon after the Foreign Secretary had given Baron Moncheur, the Belgian Ambassador, nearly an hour. It is understood Baron Moncheur's talk showed Belgium to be in general unanimity with France on the principal issues of the reparations controversy.

There was undisputed disappointment in British official circles at neither of the Allies showed a disposition to recede from their previously expressed demands at the same time, talk of a rupture is dismissed and the suggestion of independent action by Great Britain is lightly regarded.

Discussion of reparations and kindred problems by the cabinet council today is expected to go far towards solving the situation.

The diplomatic correspondent of the Daily Telegraph is quoted as saying that Count De Saint Aulaire's statements and on the small expectation of an early settlement. He said that Count's vague statements prompted Lord Curzon to remark that it seemed as if the Allies were not going to leave the Ruhr until her claims are fully paid, will never leave, since by maintaining there still is imposing Germany's capacity for payment.

"An effective solution of the problem can be found only in the attitude of all the Allies," said one British official last night. If we acted separately, what assurance could we give Germany that she would be freed from interference by France?"

The whole problem will be discussed at today's cabinet meeting. Meanwhile, the foreign office announces that nothing will be given out for publication until after the conference has disclosed more conclusive decisions.

KAROLYIS TO MOVE TO CANADA

London, July 4.—Count Karolyi, former Premier of Hungary, arrived at Cardiff, Wales, yesterday, with his wife and three children, says the Daily Express. The count is taking his family to Canada, where he intends to pass the remainder of his life.

HON. CHARLES MURPHY TEMPORARILY HOLDS DOWN SEVERAL JOBS

Ottawa, July 4.—(Canadian Press)—Owing to the absence of several cabinet ministers from the city, Hon. Charles Murphy, Postmaster-General is at present Acting Minister of the Department of Public Works, as also of the Interior. The latter includes immigration, Indian affairs and mines.

ONTARIO STORM

The worst storm which Ontario has ever had struck the southwestern part of the province Monday night. Above are shown a row of eight telegraph poles, which were knocked down like dominoes in the vicinity of Cooks-

MISTAKE DESTROYS TOWN. Pair of Gasoline Thrown on Fire Wipes Out Orangeville, Texas.

Beaumont, Texas, July 4.—When a gas machine in a tailor shop blew up suddenly an employe picked up a pair of gasoline, believing it to be water, poured the oil on the man and started a fire which rapidly spread to a village in the Orangeville area. The fire destroyed several buildings and consumed an estimated \$50,000. First acts that an oil well was first set on fire.

SOUND TESTIMONIAL EVIDENCE showing the power of Lydia E. Pinkham's Vegetable Compound over the ills of women is constantly being published in this paper. The strongest recommendation any article can have is that borne by the persons who use it. Once ill with ailments that caused suffering and despair, but now restored to the joys of health, from a grateful heart multitudes of women write letters of appreciation to the Lydia E. Pinkham Medicine Co. of Cobourg, Ont. Such evidence of the power of Lydia E. Pinkham's Vegetable Compound over the ills of women should induce every suffering woman to try it.

A WRECKING CREW AT WORK
Last week a Canadian National merchandise train left the tracks just west of St. Catharines, Ont., completely blocking east and west lines. The huge cars were flung right and left of the tracks. The picture shows a wrecking train at work with its powerful derricks, removing the wreckage from the tracks.

Put your faith in Kellogg's Bran—it relieves Chronic Constipation!

If you suffer with mild or chronic constipation, go after it relentlessly! Constipation has probably wrecked more lives than any one human ailment. It is the basis of many illnesses, leading even to such diseases as Bright's and diabetes. In its milder form constipation creates sick headaches, biliousness, dizziness, nausea, brain and general debility. Kellogg's Bran is guaranteed to relieve constipation permanently if it is eaten regularly. Kellogg's Bran is a life sustainer and body-building food because it contains mineral salts and other food essentials, as well as being a natural relief from constipation!

BOY, 11, ASKED TO CONDUCT FOR OWN ORATORIO

Italian Lad, Hailed as "New Mozart," Invited to Lead Orchestra of 800 in Touring Next Autumn.
Rome, July 4.—A diminutive Italian boy who has gained fame by his musical achievements in his eleven and a half years of life is expected to conduct an orchestra of 800 next fall. His name is Rinaldo. When he was a child he began the composition of an oratorio, "The Child of St. John the Baptist," which won for him the name of "the new Mozart."

A Picnic Slice Is Better Than Nice
Every slice of Robinson's Sun Maid Bread is so chockablock with juicy California Raisins of Sun Maid quality that it's a wonder for hurry-up picnics. Hundreds of Raisins in every loaf when Robinson's Sun Maid—the most any loaf will hold, so the most for your money. In many ways these hot summer days Robinson's Sun Maid saves the day. Be particular—name Robinson's Sun Maid Bread.

NEWS NOTES OF BAPTIST PEOPLE
(Maritime Baptists)
Rev. H. Y. Payzant has just closed a pastorate of six years and one month with the Yarmouth North and Brooklyn churches. He and Mrs. Payzant received an address and a piece of hand-painted china from the members of the Ladies Auxiliary. During the summer months they will be in Greenfield, Queens Co., N. S., where they expect to spend the summer months in their summer cottage.
Rev. R. W. Bennett, D.D., has closed his work with the church at Grand Falls, N. S., after more than three years' service, and has become pastor at Oxford, N. S. Dr. Bennett served before him a fine opportunity for service. He is impressed with the high character of the work of the former pastor, Rev. W. R. Scott, and speaks of him as generally beloved. Dr. Bennett has not been without a church a day since his ordination.
Rev. E. C. Prime has accepted an invitation from the Hampton group of churches to serve as acting pastor until Rev. C. B. Lumsden assumes the pastorate in the early autumn. This seems like a happy arrangement for all concerned. Mr. Prime was a student at Newton last year and we presume he expects to return to that institution in the autumn. Meantime, we wish to say that it is none too soon for some pastored churches or groups of churches to look to securing Mr. Prime or pastoral services at the close of his theological course in June next.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., WEDNESDAY, JULY 4, 1923

The Evening Times and Star

ST. JOHN, N. B., JULY 4, 1923.

The St. John Evening Times is printed at 27 and 29 Canterbury street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

THE GOVERNOR-GENERAL

The welcome which is being extended to His Excellency the Governor-General on the occasion of his first visit to New Brunswick is not merely the formal greeting which any occupant of that office would receive; it is a tribute not only to the office but to the man who fills it.

THE BANKS AND THE WEST.

While the banking committee of the House of Commons was hearing the testimony concerning banking legislation the theory that states bordering on western Canada are more liberal with the depositors than are the Canadian banks was pretty well exploded, and recent events in the banking world lend support to those who contend that banking policy has not been responsible in any considerable degree for troubles of the prairie district.

IN LIGHTER VEIN.

Legal Humor.

"Hello, Moses, how long you-all in jail for?" "Three weeks." "What did you do?" "Just killed ma wife."

Desperate. A weary-looking fellow who had spent all the day looking for work happened to see a huge police advertisement headed:

"MURDERER WANTED!" "Well," he said, "scratching his head, 'tis better'n nothin' anyhow. 'Tain't going in and ask for the job!"—Richmond Times-Dispatch.

Important Guest. Hubby came home and found an argument going on. His wife was trying to give a bridge party.

"What's the row?" he demanded. "One of the guests is threatening to walk out," explained his wife in a whisper. "I must conciliate her."

"Conciliate nothing. Let her walk out." "Can't be done, hubby. She'll walk out with six chairs from her."—Louisville Courier-Journal.

WISE COUNSEL

(Halifax Chronicle)

The interest which the Canadian Club of Boston is taking in the development of tourist travel to Nova Scotia and especially in the promotion of the Old Home Summer, as evidenced by the speech of Mr. Bailey, the president, and Mr. Masters, the Yarmouth, will be very gratifying to all our people.

The message of Mr. Bailey to the young men and young women of Nova Scotia and other Maritime Provinces, in which he advises them to stay at home rather than seek their fortunes in the neighboring republics, is a timely and valuable. Being in close touch with our fellow-countrymen who are now in that section of the United States, he is able to speak with peculiar authority.

He was asked further whether he meant that Canadian farmers in his district were getting better terms than those across the line, and he replied that such was the case. He said that from his experience in the West, if the rate of interest was fixed at seven per cent, there would be nothing to it but to go out of business.

He told the committee that the individual bank, on the American plan, is bound to make the chief reason the rate in Canada is as low as it is at the present time is due to the Canadian banking system.

The Loyalist province of New Brunswick welcomes the Governor-General with all the enthusiasm of its Loyalist traditions, and the province which has freely of its men during the Great War eagerly grasps the opportunity to greet the former commander of the Canadian Corps.

HOSTILITY TO ONE-PIECE BATHING SUITS

(New York Times)

From many of the ocean beaches, some now and others far away, come reports of earnest, soulful efforts made by official guardians of what they think the proprieties to compel bathers, while in the water and while going to and from it, to wear more conventional garments than they would choose if left to use their own discretion.

COKE FROM NOVA SCOTIA

(Ottawa Journal)

Coke from Nova Scotia was the practical suggestion thrown out as a solution of the national fuel problem by P. W. Gray in his admirable address Wednesday before the Weekly Newspapermen.

"There is made here in Sydney from Sydney coal a by-product coke. This is a fuel that has all the desirable qualities of anthracite, but in greater degree; eight tons of it is equal to ten tons of the best quality commercial anthracite."

Girls and young or youthful women naturally, are subjected to the most careful scrutiny by the upholders of moral regulations, and it is they who are most determined of the violators. Everywhere it is the "one-piece bathing suit" that comes in for censure, and hardly anywhere, where respectability is cultivated, do the censors fail to be against that form of clothing.

Yet it would be hard to say why the one-piece bathing suit is unpopular. It is not on that account, necessarily, or even probably, indecent, and beyond any question it is the only bathing suit that swims like a fish.

It is not on that account, necessarily, or even probably, indecent, and beyond any question it is the only bathing suit that swims like a fish. It is not on that account, necessarily, or even probably, indecent, and beyond any question it is the only bathing suit that swims like a fish.

Mr. Gray's conception of the purpose of the tour of these Canadian journalists, was the correct one, and he acted on it to good effect. They have carried away with them some of the most valuable knowledge of the coal resources of Cape Breton.

DRY AMERICANS PURCHASE MORE GEMS, SAY TRADERS

(London, June 8.—(By Mail).—One result of prohibition in the United States is said to be a bigger demand for diamonds, according to "The London Daily News."

The recent appreciation in mining shares in England, France, America and the East. The United States, however, remains the world's largest purchaser of diamonds, and prohibition is given as one reason why the quantity she buys is steadily increasing.

"It scarcely appears probable," says a London trade authority, "that an American, at bay before the counter-attraction of a jeweler's shop window, will be able to devote a greater portion of his income than hitherto to the purchase of diamonds."

"Some of the leading American firms, who have always been noted for handling the finest and purest grades of diamonds only, have lately interested themselves in second (or slightly spotted) grades, in order to meet the demand for cheaper goods."

It would appear, therefore, that a set of purchasers with more limited purses might have come forward in that country, which used to pride itself on dealing in only the finest jewelry.

DISCOVERY WEEK IN SAULT STE. MARIE

Sault Ste. Marie will celebrate the discovery of Lake Superior in August, but a series of interesting historical fetes, "Hawasha" will be played by the Indians, fourteen of them being cast in the play.

The pictures show two of the historical spots which will be included in the events of the week—the Hudson's Bay block house built in 1819, and below, the first lock built in North America. It was built by the North-West Fur Company in 1797 for canoes and bateaux.

The well known characters of Longfellow's story, "The picture shows two of the historical spots which will be included in the events of the week—the Hudson's Bay block house built in 1819, and below, the first lock built in North America. ELECTRICITY AS MAN'S SERVANT

Some of the Many Uses to Which it May be Put.

(Electrical Service News, New York)

"Nobody today or ever can fix the limits to which the use of electricity may go," says the Wizard of the General Electric. "We can say only that it will go as far as human need for energy goes. Electricity is energy and energy is the basis of civilization."

Are you an electrical fisherman? If not, all you need in order to class yourself in this category is the new artificial minnow, which is made luminous by electricity and resembles a wiggling worm when cast into the water. It is reported to attract fish day or night. Fine wires protect the bait from breakage and an electric battery supplies the current.

The high cost of marriage which is making divorce a popular job costs these days now includes the cost of a special radio broadcasting outfit. Through this unobtrusive agency, the bride and groom can be broadcasted to friends living hundreds of miles distant.

"How curious things are," says Girard, and then asks "Why do you give over an asphalt street you are riding upon the bodies of countless animals. They perish in order that you might enjoy a smooth road. When you drive in your car you are being pulled along, not by animals, but by vegetables. Asphalt comes from animals and fat and petroleum for gasoline from vegetable fat. When you settle your bill for your evening chair at home and turn on the reading light above your head you are seeing by the force of electricity, concentrated in a filament and not by a flame."

Electricity does more than light your home at night. It cleans your home, it launders your clothes. It makes it possible for you to communicate with friends miles away at any moment; it boils your coffee; it toasts your bread; it cooks you any sort of food; it washes your dishes; it can keep your refrigerator and its contents colder than any ice can keep it; it can heat your home in the winter and cool it in summer; it transports you back and forth to your work every day—and all through a few miles of slender wire. To reap all the benefits of electricity, you should be sure that your service is ready at the touch of a switch to do all the tasks desired.

Many a June bride this year has requested electric wedding presents, thus establishing a precedent which will be followed in the following months. As one young bride remarked: "Servant worries? Why, I shan't keep 'em, so I won't have any." Ungrammatical, but nevertheless absolutely true.

The prospective home-maker of this day and age knows full well that the surest road to a peaceful home and marital happiness lies in electric service which will help her run her household capably, economically and at a saving of time and labor. Here is a servant always ready to do her bidding quickly, uncomplainingly and efficiently. It will not only save her time, but her leisure for pursuits of her own choosing as well as will not forever have to have one eye and half her mind centered around her household duties nor listen to the complaints of a high-priced, impatient, unsatisfactory servant.

So she enters her married life with serene confidence in her ability to do her household duties as a home-creator, aided therein by the most potent factor in modern life—electricity.

DIRECTION FINDERS ON SHIPS

(London, June 7.—(By Mail).—Wireless direction-finders located on board ship rather than on shore might reduce the need for shore direction finding stations, and create a demand for beacon stations in their stead, declared R. Horton, lecturing on "Wireless Direction-Finding in Steel Ships."

HON. GEORGE S. HENRY

A former cabinet minister, who may once occupy a ministerial position in the Ferguson Government, which has been elected in Ontario.

Operation of Loud Speaker. To successfully operate a loud speaker, amplification is required, and in most cases one step is not sufficient, most of them requiring two.

Concerning the Cellar Aerial. The cellar aerial is like the outdoor aerial, and will work with any kind of a set that is properly tuned. The connections are exactly the same for both aerials.

Avoid Corroded Connections. A connection that has become corroded makes a very poor contact, and either reduces the signal strength considerably or makes it known by that disconcerting crackling noise.

The Strength of the "B" Battery. Although the "B" battery is small in size, it has a powerful "kick" and extreme care should be exercised to see that it does not happen to get connected into the circuit in such a way that its high voltage passes through the filament. The vacuum tube will be burned instantly if this happens, and it will be to regret.

To Make a Perfect Ground. Ground wires should be as short and as direct as possible, and must lead to water or moist earth. The ground wire from the receiving set should be soldered to an iron rod driven three feet to six feet into the ground to damp earth. The dampness is essential. If there is any doubt about it, punch a deep hole with a crowbar and irrigate.

ONLY ONE IN ENGLAND. Brighton's Diamond Works Will Be Reopened.

(London, May 29.—(By Mail).—Only the law's delays are now preventing the reopening of the Brighton Diamond Works, which will give employment to some hundreds of ex-service men, all more or less skilled in the industry, thanks to the training they received through the foresight and liberality of the late Sir Bernard Oppenheimer, by whom the factory was established. All that is now required to set the mills in operation once more is the Government grant, but certain legal formalities have yet to be observed, and it is anticipated that at least a month will elapse before the necessary sanction is obtained.

So far as the company that has undertaken the management of the works is concerned, all details have been completed, and Mr. Isaac Lewis (who was formerly in partnership with Sir Bernard Oppenheimer) is particularly anxious that the grievances of the large number of men now out of employment through the closing down of the industry shall be removed.

It is hoped that before long Brighton may again lay claim to the distinction it previously held of being the only English centre of the diamond industry.

HARRY RUTLEY.

Development of Lighting in the Last Fifty Years.

In the last half century there has been more development in the art of lighting than in all ages since man first picked a brand from the fire to light his way, declares Professor F. C. Caldwell of the Eyesight Conservation Council of America, in a discussion of the problem of light and glare that has resulted from the high efficiency of the modern electric light.

Glare, which is "light out of place," is now being systematically studied, and regulations to prevent it are coming into industrial and school lighting codes and being followed by state laws.

It is because mankind has tried to use modern lights as he used the old kind of lights that trouble from glare has appeared, says Professor Caldwell. No one would deliberately look at the sun on a bright day, yet, having outdone the sun in the matter of glare at the light source, people do not guard against the brilliance of the modern lights, and trouble follows because of the very efficiency of the lights.

"Lighting is one of the oldest of the human arts, but until recently one of the slowest to develop," says Professor Caldwell. "So far as their characteristics as light sources were concerned there was very little difference between the candle or whale-oil lamps of our grandmothers and the selected fagots of the cave dwellers and came to reside in Canada fifteen years ago."

JERSEY BARS FROSTED LIGHTS AND PAINTED LENSES ON AUTOS

Use of frosted electric light bulbs and painted lenses are prohibited on automobiles driven in New Jersey, by a ruling announced from the office of the State Motor Vehicle Commissioner. Of the 150 types of lights known to motorists, only twenty-six have been approved and the use of any other type may bring a fine of \$25. The guide ray or the mire tilt type of headlight is favored. The monogram lens is to be used only on motorcycles.

LOOKING TO THE FUTURE. (Guelph Herald).

Children's playgrounds are a good investment, and the municipality which does not hesitate to launch out in this direction will reap a bigger harvest in human physical improvement.

YEAR SPENT PREPARING FOR 189 SECONDS' ECLIPSE

In the hope of determining whether there is motion within the corona during an eclipse of the sun, a party of American scientists, under the direction of Dr. John A. Miller, of Swarthmore College, is preparing to conduct a series of important experiments from the top of a high mountain in Central Mexico next September says an "Associated Press" dispatch from Pittsburgh.

A year or more has been required to complete the arrangements, and the actual working time of the scientists will be only 189 seconds, the duration of the

"HIAWATHA" IN THE INDIAN TONGUE AT SAULT STE. MARIE.

Discovery Week in Sault Ste. Marie in August, is to be marked by the presentation of the story of "Hiawatha" by native Indians in their own language on the original scene of the story. The Pawing of the poem will be Sault Ste. Marie. The picture shows the natural surroundings in which the play will be staged; left, is "Hiawatha," and right, the aged nurse, Nokomis, with the infant Hiawatha, and below, the lovely Minnehaha. Descendants of Longfellow will witness the play.

Coldbrook, were united in marriage on June 27, at St. Mary's rectory, Rev. R. T. McKim officiating. The bride wore a smart traveling suit and carried a shower bouquet of carnations. She was attended by Mrs. H. A. Gill while Carl Medrith MacCollom supported the groom. Mr. and Mrs. Callaghan will reside at Eastmount. Many friends will extend congratulations.

RECENT DEATHS

Gordon L. Dickie.
Word was received last night of the death in Shediac late on Monday night of Gordon L. Dickie, one of the best known residents of the county of Westmorland and one of the wealthiest citizens of Shediac. Mr. Dickie, who was about eighty years of age, was the second son of the late Charles Dickie, the latter a native of Dorchester, but who removed to Shediac in the days of wooden shipbuilding and was prominent in that industry. Later, Charles Dickie and his three sons conducted several general stores. Gordon Dickie retired from active business about twenty-five years ago.

EIGHT DIED IN SECOND BOAT OF STMR. TREVASSA

No Water and No Biscuits Left When 16 Survivors Reach Mauritius.
Port Louis, Island of Mauritius, July 4.—The last drop of water had been drunk and the last biscuit eaten when the second lifeboat of the British steamship "Trevassa" arrived at this island with sixteen survivors. Twenty-four men got away in this lifeboat from the "Trevassa" just before she sank a month ago in the Indian Ocean, but eight of them succumbed to the hardships they were forced to endure in the small open boat.

Handsome Fur Neck Pieces
Small animal shapes in beautiful long-haired furs are very new and a lovely complement to the summer street costume. On cool evenings their warmth will be found very comforting. We can show you some exceptionally fine pieces just now. Mostly in Cross Fox, Stone Marten, Fischer, Mink, Beau Marten and Fitch.
Some very fine Flat Stoles in becoming shapes are showing in Squirrel, Mole, Electric Seal, Hudson Seal, etc.
(Fur Department, 2nd floor.)

New Summer Blouses
An Exceptionally Attractive Collection
Hip banded models should certainly be included among the Blouses you intend taking on your summer vacation. Latest arrivals at this store are unusually attractive. Jacquettes and Overblouses that will look especially well with street suit, sport skirt or skirt of the more dressy type are here in models you are bound to appreciate.
Mostly made from soft, lustrous crepe-de-chines in plain color or combined with rich Oriental patterned silk. Plain crepe de chines with delicate hand-painted motifs are decidedly new. Traceries of colored threads or beads are also used in various patterns to trim and monogrammed effects on blouses of plain color and very smart and youthful.
New colors are here in profusion, among them many blues and the new light green and muffin shades.
Hand Made Voile Blouses
Nothing could be more dainty or practical for hot weather wear. Trimmed with hand-made lace edges, drawn work, and the finest of tucks. Their beauty and simplicity appeal to discriminating tastes.
(Blouse Dept., 2nd Floor)

SANATORIUM DEDICATED BY VICTORIA OF SPAIN
Fund From Flower Fete Given to Assist Tuberculosis Patients.
Madrid, July 4.—Queen Victoria of Spain recently visited the Sanatorium of Nuestra Señora de las Mercedes, at Hünere, to dedicate the new building soon to be opened for the treatment of tuberculosis patients. Proceeds from last year's Fiesta de la Flor went toward the construction of this building, and the board of the sanatorium donated the amount raised by raffling a pearl necklace.
The Queen, with the Duchess of San Carlos and the Marquis of Bendenias, was met by the Countess Romanones, president of the sanatorium board. Other members of the board, Dr. Verdes Montenegro, director of the sanatorium, and the architect, Mr. Cardenas, went with the Queen on a tour of inspection. The Queen was very much pleased with the appearance of

the new building, which will accommodate twenty patients.
CANADIAN AMATEUR GOLF CHAMPIONSHIP
Kanawaki, Que., July 4.—Match play in the second round of the Canadian amateur golf championship over thirty-six holes took place here today. The matches include that of G. P. Shaw, Scarborough, vs. G. C. Mielke, Halifax. On account of the brilliant performance of Stanley Thompson and W. M. Hodgson yesterday, when despite a rain storm, they played par golf and

HON. TOM CRAWFORD, M. P.

Re-elected in the Ontario election to represent Northwest Toronto. He will be the oldest member in the House, in point of years of service. Toronto voted a solid Conservative representation in the House.

Autos Make Bagdad To Mediterranean Fast Route Possible
New Land Service Brings Persian City Within Sixty Hours of Port Said by Crossing Syrian Desert.

London, June 10.—(By mail).—The long-cherished idea of a quick land route from the Mediterranean to Bagdad and India has been brought within the region of practical experience by the development of a motor car after the assistance by a former New Zealand officer, says The London Times.

For some time an efficient service has been maintained between Beirut and Haifa, thanks to the express overland mail from Egypt is now delivered in twenty-four hours, under contract with the Egyptian and Palestine Governments. The extra postage is trifling. The Beirut-Haifa service, however, was merely the first step towards a more ambitious scheme.

The new route brings Bagdad within sixty hours' land journey of the Mediterranean. The trial trips were undertaken through Damascus, then across the Syrian desert to Ras-el-Ein and on to Bagdad, a distance of 690 miles, with only one stop half-way between Damascus and Ramadiah at Rutba Wells, the only available water source throughout that stretch of desert.

The first journey was done by Mr. Palmer, the British Consul at Damascus, and Major McCallum, M. C., liaison officer with the Haut Commissariat.

Negotiations are proceeding with the Iraq Government for the transport of mails to Haifa, with eventual connection for mails between London and Bagdad to eight days. An extension of the service is contemplated, to Tehran, which will make it possible for the mails between Persia and London to be delivered within thirteen days.

Arrangements are being made whereby the chiefdoms of Bechuanaland in the success of the enterprise. This should eliminate the risk of a rebellion and insure quick assistance should ever be needed. It is expected that the recent discoveries at Up of the Chudias will give a distinct flip to the tourist trade.

Belgium Hails Liquid Coal as Friend in Need
Nation Delves Deep Into Manufacture of a Petroleum Which Was Used by Germans During the War.

Brussels, July 4.—The liquefaction of coal may become an important Belgian industry. Germany has been occupied for years in drawing from coal a substance which could be converted into petroleum. The idea originally was French, but its first practical application was made by Professor Bergius of the University of Hanover, and since 1911 institutes of applied chemistry and physics have been located near Berlin.

In 1914, at the outbreak of the war, a manufactory was opened at Mannheim, under the direction of Professor Bergius, for transforming into a combustible liquid the combustible solid which was taken in such large quantities from the mines of the Ruhr and the Saar and from Silesia. It was due perhaps to these activities that Germany was able to feed her autos, her airplanes and her submarines in spite of the blockade. Since the war this industry at Mannheim has continued. It is even more than a manufactory; it

is a scientific school to which students of chemistry are sent from the universities to get practical experience and to learn at first hand the method of liquefaction.

This great industry of Germany is considered dangerous to the future of Europe. M. Lefebvre, in his recent book, considers the limitation of such German manufactures of as much importance as the limitation of armaments.

Belgian chemists have decided, however, that the safest way is to have their own manufactory for the liquefaction of coal. The equipment of the Institut de l'Arnee can treat two tons of coal an hour, or about fifty tons a day. This is not primarily for the purpose of war, says "L'Independance Belge," but of great value in times of peace. Belgium is dependent largely upon America and England for oil. France has solved the problem by the use of alcohol, but the French are an agricultural people, while the Belgians are industrial. The process of Bergius is invaluable to Belgium, especially because of her coal industry.

Belgium uses about 1,200,000 kilograms of oil a year, and she hopes to be able to meet these needs to a large extent by the product obtained from the liquefaction process. The result will be a lowering of the price of oil in normal times and, in case of war, confidence that she will not be greatly outdistanced in oil production by Germany.

SIR HERBERT SAMUEL.
In charge of the administration in Palestine. He has returned to Britain and it is said he will resign his post, if not given stronger backing from the home authorities.

To Stop Horse Butchery Trade.
London, June 7.—(By Mail).—The National Council for the Abolition of the Decree of Horse Traffic have passed a resolution calling upon the government to stop the export of horses for butchery by facilitating the passing of the bill, to be introduced under the ten minutes' rule by Admiral Sir Guy Gaunt, M. P., says "The London Times" item.

DAYLIGHT SAVING CLOCK COSTS JEWELER \$5 FINE
Hartford, Conn., July 4.—Connecticut's new anti-daylight saving law, which forbids the public display of any but standard time has found its first victim today.

Judge A. W. Creedon in police court, overruling objections of defense counsel, imposed a fine of \$5, on M. W. Bassett, jeweler of Main street, who displayed daylight saving time on the street clock in front of his store in order to test the new law. His arrest followed.

Bassett's attorneys moved for an appeal.

Brennan Helicopter Lifts Half-Ton Load Besides Passengers
British Machine Said to Be Most Far-Reaching Step in Aeronautics Yet Made and Places England in Lead.
London, June 8.—(By mail).—The London Daily News gives further interesting details of the test of Louis Brennan's helicopter, in which he hovered for nearly a quarter of an hour at a height of twenty feet with his machine at all times under perfect control. The machine carried passengers and a military load of 1,000 pounds. This achievement, says The News, marks the most important and far-reaching step yet made in aeronautics and places England ahead of all other countries in the search for a machine which will rise vertically and fly horizontally.

TRIBUTE TO CAPTAIN VANCOUVER
British Columbia recently sent to England seeds of the Douglas fir to be planted on the grave of Captain Vancouver, the discoverer of Vancouver Island. Ex-Premier Turner of British Columbia, is seen planting the seeds near the grave.
no longer need large aerodromes for getting away and lighting. It renders quite possible a future in which there will be hotel aeroplane ranks on the roof, just as now there are taxicab ranks outside the door. For military purposes its possibilities are enormous. The Air Ministry experts are delighted with the success accomplished at Farnborough.
A year ago the Brennan machine lifted a pilot, 250 pounds weight, and fuel supplies, and hovered for a little while, but its achievement then was nothing like so successful as the recent one. In an interview last year Mr. Brennan said: "The machine is absolutely unlike an ordinary aeroplane. It will be an eye-opener to the world." Mr. Brennan is barred by the Government from the helicopter competitions next year, when prizes of £20,000 are offered. The Oehmichen and Pescara helicopters have achieved vertical flights in France and Spain, hovering in the air without increasing or decreasing their altitude. The De Bothest helicopter (U. S. A.) achieved vertical flight. The helicopter is not Mr. Brennan's only success. He is the inventor of the Brennan torpedo, selling his invention to the British Government in 1890 for £110,000, more than four times as much as was ever before paid by the Government for an invention; and also of the mono-rail, a grotesque railway consisting of a single line laid down on the ground.
Mr. Brennan is an Irishman, a native of Castlebar, West Ireland. His parents emigrated to Australia, when he was a boy of eleven. In Melbourne he was apprenticed to an engineer. He invented the torpedo there. He has been in England since 1887.
Smokeless power was invented in 1868.

MARY MILES MINTER IS RESTING—NOT LOST
Los Angeles, July 4.—Mary Miles Minter, motion picture actress, for whom friends began searching when they learned she had been absent from her home for a week, is in a sanitarium at Pasadena, near Los Angeles, taking a "rest cure," according to her grandmother, Mrs. Juliette Miles.
"Mary will make her home with her mother soon," said Mrs. Miles, who has carpenters and workmen hammering on the building next to her mother's house, and the noise irritates Mary's nerves.
PLAN FOR NATIONAL CATHOLIC PUBLICITY
Indianapolis, July 8.—The establishment of a Catholic publicity bureau with branches in every city in the United States and Canada of more than 80,000 population was favored in resolutions adopted here at the convention of the Catholic Press Association of the United States and Canada. The purpose of the bureau, it was explained, would be to refute false statements against the Catholic Church and to supply reliable information regarding the Church to the daily press and non-Catholic publications.

SIR ROBERT KINDERSLEY.
Head of the Hudson's Bay Company, who declared, at the annual meeting of the famous company, that Canadians must reduce taxation and the cost of living, to achieve real prosperity, for which the country is waiting.

DR. J. E. JAMIESON
He goes back to the Ontario legislature after service in several former legislatures. He has been in public life for almost forty years. He is an ex-speaker and may be appointed to that position again, under the Ferguson regime.

WORDS WORTH ASSOCIATE DIES.
London, June 7.—(By Mail).—The death has just taken place at Town End, Gramere, of Mrs. Mary Dixon, ninety-four years old, for many years the caretaker of Dove Cottage, Gramere, where the poet Wordsworth took his bride in 1802 and where he lived for many years, says "The London Daily News."
The old caretaker remembered Wordsworth well. She formed an important character in some of the late Canon Kewley's memoirs. During her lifetime she knew thousands of people from all parts of the globe through the little rustic linen-washed cottage, once an inn, carrying the sign of the Dove and Olive branch. She was the last surviving connection with the days of Wordsworth, Southey, De Quincey and Coleridge.
Motor driven vehicles in the U. S. have an estimated power of 800,000 horses.

Icy-Cold Dishes for Sizzling Days
as made from
ROMAN MEAL

SUMMER RECIPES

ROMAN MEAL BROSE-O
Stir 1 rounded cup Roman Meal into 4 cups boiling, salted water. Boil slowly for 10 minutes. Set in a cool place to jell, or in ice chest. Serve cold with milk or cream and sugar, honey, preserves or jelly, or bananas or berries, etc. (If hot foods are preferred, re-heat in double boiler after it has jelled by standing over night.)

ROMAN MEAL JELL-E
Dissolve two heaping tablespoonsful jelly powder (any flavor) into 4 cups boiling, salted water. Stir in 1 rounded cup Roman Meal. Boil slowly for 10 minutes in a single boiler. Stir well and set in cool place, or in ice chest, to jell. Serve cold with milk or cream and sugar or honey or fruit jelly or preserves or berries, bananas, etc. (If preferred hot re-heat in double boiler.)

ROMAN MEAL CHOCOL-O
Into 4 cups boiling salted water stir two round teaspoons powdered chocolate or cocoa, add one level tablespoon sugar, stir in one cup Roman Meal. Boil slowly for ten minutes. Set in a cool place to jell, or in ice chest. Serve cold with milk or cream and sugar, honey, preserved or fresh fruits. (If hot foods are preferred, re-heat in double boiler after it has jelled by standing over night.)

LOOK upon the side of your large Roman Meal Package, under the heading "Summer Recipes." There you will find how to make the most deliciously inviting breakfast that can be served, only ten minutes to prepare. Icy-cold Roman Meal Brose-O; Icy-cold Choccol-O; Icy-cold Jell-E. Say them over again. Roll them around the tongue! Don't they sound tempting? And they're just as tempting as they sound. Serve any of them with milk, cream, whipped cream, honey, preserved or fresh fruits and enjoy a treat, a cold and a "cooling" breakfast at the beginning of a "sizzling" day.

But "cooling" means more, far more, than just cold as they "go down." Ordinary prepared cereals may taste cold, yet be very "heating" because they are "excess acid," due to being refined. "Refined" means that the "cooling" alkaline salts (opposite of acid) are removed from the grains in the milling process just to make them look dainty, which leaves the food "excess acid." These food acids are taken up by the blood. They turn it acid, and "acid" blood is what causes that "all in" feeling on a hot day. White flour, refined cereals, fats, meats and sweets are "excess acid," "heating" foods.

Whole-grain cereals, milk, nuts, beans, eggs, potatoes, leafy vegetables, and fruits are "excess alkali," "cooling" foods. They keep the blood and the body energized, electrified, on any kind of a day.

Roman Meal is the only alkaline cereal. It is 400 parts in each 1,000 parts excess alkali. White flour is 171 parts, corn cereals 150 parts, and oat cereals 48 parts in each 1,000 parts "excess acid." Roman Meal has enough alkali to correct the acids of white flour, other cereals, fats, meats and sweets. That is why it "keeps the family fit," aids digestion, relieves constipation. Even as hot porridge, Roman Meal is more "cooling" than the coldest other cereal. But when it is both "cooling" and deliciously icy-cold, it becomes a treat of no ordinary kind. Try our new icy-cold BROSE-O, CHOCOL-O and JELL-E and you will use them often; always on hot mornings, often at noontimes, too.

At Grocers from coast to coast.

Add ROMAN MEAL to your daily diet
ROMAN MEAL COMPANY, Toronto

Every day of your life you can have a good loaf of Bread if you bake with
REGAL FLOUR

Saves "Human Fly," 11, Stuck on Ledge

Policeman Scales After Boy Unable to Go Up or Come Down from 35 Feet Height.

Boston, July 4.—Raymond Chapman, 11, of 37 Linden Park street, Roxbury, tried to be a "human fly" by climbing the ledge that rises 75 to 80 feet at the rear of Roxbury terrace. When about 35 feet from the ground his strength failed him and he was unable to go up or come down.

Ontario Fatalities

Sudbury, Ont., July 4.—John Alexander, 72, was struck and killed by a passenger train while crossing the C. P. R. tracks at Coniston on Saturday afternoon. Lovette Lamburge, aged 10, was drowned while wading in the Vermillion River at Levek yesterday.

EAST ST. JOHN BOY SCOUTS ALL GOING TO CAMP

The East St. John Boy Scouts held a special meeting at their headquarters last evening at 7:30 o'clock. The whole evening was taken up preparing for their camp, and as the sun that was required had been raised it was decided that every boy going would have his fare paid.

60 SHOTS A MINUTE FIRED BY NEW RIFLE

Every Doughboy May be Practically a Machine Gunner With Semi-Automatic.

Washington, July 3.—Every doughboy may be practically a machine gunner in future wars due to progress made by ordnance experts in developing a semi-automatic shoulder rifle to replace the regular service magazine rifle. Recent demonstration firing with the latest post-war model, the Garand semi-automatic, at Aberdeen, Md., Proving Grounds, has convinced many officers that they are on the road to the long-sought solution of the proper weapon for the infantry.

Ford's Project to Bring About Sharp Cut in Prices Costly, Columbia Professor Says—Would Mean Big Saving.

New York, July 4.—Through trial on a large scale and at great cost alone can determine the worth of Henry Ford's project for low temperature carbonization of coal on a commercial basis, according to Dr. Jerome J. Morgan, of the American Chemical Society, professor of chemical engineering in the Schools of Mines, Engineering and Chemistry of Columbia University.

WOUNDED VETERAN WINS FRENCH HUMORISTS' PRIZE

Book by Pierre Billotte Wins Annual Literary Award of 10,000 Francs.

Paris, July 4.—The French humorists have their annual literary prize, 10,000 francs, given by the "Mettre Blanc." The eighteen jurors who made the award are mostly well known writers including Dominique Bonnard, Curmoussier, Hugues Delorme, Roland Bourgas, J. Gallier-Belaisiere, Grosclaude, Robert de Jonville, Max Maury, Eugene Merle, Pierre Milie, Pierre Mortier, Paul Heloux, Clement Vautel, Xanrof, Courtelain, Franc-Nohain, Henri Berand and Maurice Donnay.

DISPLACED SHERIFF REFUSES TO VACATE

Agitation in Halifax to Have Famous Last-Minute Appointment Annulled.

Milton, Ont., July 4.—The elections are over, but the Government appointment of A. L. MacNabb as Sheriff of Halifax County a little while before the election is replacing Sheriff Webster, who has left a sting among the former sheriff's numerous friends. Sheriff Webster has refused to vacate the office and a movement has started to have the Ferguson Government annul Mr. MacNabb's appointment and re-appoint Sheriff Webster. The aftermath of the election will be interesting.

That "Kruschen" Feeling

Are you in form to-day?

How often do you get up in the morning with that glorious feeling that you are ready to tackle anything and anybody? How often do you carry that feeling with you throughout the day, knowing nothing of morning irritability, of afternoon sleepiness, of five o'clock weariness, and utter dejection of body and mind?

"PILGRIM'S PROGRESS" PRINTED IN 107 DIFFERENT LANGUAGES

Next to the Bible, "Pilgrim's Progress" has been translated into more languages than any other book. According to information received through the reference librarian of the New York Public Library, the number now exceeds 107 languages and dialects. In commenting on this Frank H. Mann, general secretary of the American Bible Society, said: "This is a remarkable record for any book and only goes to emphasize the more remarkable record of the Bible in this respect. The Bible has been translated in part into 70 languages and dialects, more than seven times as many as John Bunyan's book, which first appeared in 1678."

HUGE ZEPPELIN PLANT USED AS MOTION PICTURE STUDIO

Berlin, July 4.—Stars of the German film world will hereafter stage their production in the great Zeppelin hall at Staaken, near Berlin, from which Count Zeppelin's monster craft sailed forth to suffer death over London and Paris during the war. The entire plant has been sold to a film corporation, which will convert it into a second Hollywood.

Pistols were invented 400 years ago.

Stowaways Test Skipper's Skill In Arithmetic

Between 20 Supernumeraries, Double Crew and Passengers, Algeria's Captain's Time Is Limited.

Because he was hard put to it to distinguish his passengers from his crew and his crew from the passengers, Captain F. W. Hatswell, of the D. Giorgio Fruit Company liner Algeria, which arrived from Kingston, Jamaica, with a cargo of 23,000 bunches of bananas, was compelled to check up everyone on board on four occasions and even then land with six stowaways still on the ship. The Algeria brought fifty passengers, forty-five of whom were Jamaicans, and a double crew of sixty-one men, largely made up of Jamaicans.

After the Algeria had left Kingston, the captain was informed by his officers that

COLONY READY TO QUIT DREARY ISLE OF USTICA

Tiny Bit of Land Off North Coast of Sicily May Revert to Deserted State Obtaining Previous to 1759.

Rome, July 4.—Ustica, a small island, four miles by two and a half off the north coast of Sicily, is fast becoming depopulated and it is feared that the colony may die out altogether. Once a desert island, it was populated in 1769, under King Ferdinand, in order to prevent its becoming a refuge for pirates and bandits. In the course of a few years a little colony had been established there, but the fact that the people were exempt from taxes and public utilities were in the hands of the government. The chief products of the island were wine, wheat and olives. A colony, with the necessary garrison at its command, acted as governor.

Since 1869 these privileges have been taken away one by one. The registrar office was removed and now the people have to go to Palermo to enter public records. This requires three days if the boat happens to be running regularly. Military protection was taken from the island, leaving only a few fishermen to guard the peninsula. The inhabitants are subject to the same taxes as the rest of the kingdom. There is no public lighting system, no children's schools, no district and the sanitation is bad. There is one doctor, who gets paid very little. The schools are small and new teachers are employed each term at the whim of the principal.

Before the war, the Italian authorities undertook to restore prosperity to the island. They decided to build a resort there. During the last four years work on it has been suspended. The construction of a military wall also was abandoned, but work among the people on the island, who are divided into factions, matters worse.

It was suggested that Ustica be handed to the community of Palermo, but this idea was considered a radical solution and nothing was done about it.

Meanwhile the people of Ustica are leaving the island for the mainland, where they will be treated more fairly. And on the island that until recently had a population of 2,000 soon there will be left but a few prisoners in the penitentiary, for the guards themselves say that before long they are going to set sail for a better part of the world.

ESTATE SALE

In order to close the estate of the late Oliver J. McAfee it is necessary to sell the boarding house which she conducted for so many years on the corner of Princess and Sydney streets. Tenders are invited for the purchase of the premises to be made on Monday, Wednesday and Friday afternoons from 3:30 o'clock to 5:30 o'clock on application to the undersigned at the house.

EVANGELINE L. CORAM
Executrix
June 30th, 1923.

TENDERS

The Power Commission of the City of St. John.

SEALED TENDERS, addressed to the Power Commission of the City of St. John, N. B., care of H. E. Ward, Engineer, Common Clerk, and marked "Tenders For Line Materials," will be received up until 11 a. m. on the 11th day of July, 1923.

The Commission does not bind itself to accept the lowest or any tender.

THE POWER COMMISSION OF THE CITY OF ST. JOHN.
H. E. Ward, Chairman.

MONTEAL MARKET.

General Softening of Prices Early in This Morning's Session.

Montreal, July 4.—With a general softening of prices throughout the list the market was more active than for some time. The sharp decline of Loyal on Saturday, said he was at a loss to explain it, other than as the result of forced liquidation in the pre-war figure. For all living expenses, compared with 1914, the increase is 11,000 per cent. The cost of living in Montreal is 11,000 per cent higher than in 1914.

GERMAN LIVING COST RISES ONE THIRD IN WEEK

Berlin, June 30.—(Associated Press)—Living expenses in Germany have undergone a record breaking increase in the last week, reaching 102.4 per cent, following a rise of more than 89 per cent in the wholesale market prices.

LYALL CONS. CO.

(McDougal & Cowan)

Montreal, July 4.—President William Lyall of the Lyall Cons. Co., when questioned yesterday for some reason for the sharp decline of Loyal on Saturday, said he was at a loss to explain it, other than as the result of forced liquidation in the pre-war figure. For all living expenses, compared with 1914, the increase is 11,000 per cent. The cost of living in Montreal is 11,000 per cent higher than in 1914.

FINANCIAL NOTES

SOME MUST STAY YEAR IN CANADA

Immigrants to U. S. Found to Lack Vise of Passports.

Montreal, July 4.—Little if any lessening in the numbers of applicants for admission to the U. S. at the local U. S. immigration office was noticeable yesterday. Policemen were on duty outside the office all day and a large crowd of would-be entrants to the U. S. had to spend most of the day waiting for the office to open. Many of the immigrants were found to lack a vise of their passports, and must remain in Canada a full year from the time of their arrival before they are entitled to pass over into the United States.

GOOD REPORT ON PRAIRIE CROPS

Winnipeg, Man., July 4.—(Canadian Press)—With ample moisture and no excessive heat, the crops throughout the Prairie Provinces are in excellent condition and making rapid progress. The weekly crop report issued by the Agricultural Department of the C. P. R.

Wheat is in short blade, except late sown grain, which will require another few days. Oats and barley are uniformly good crops; grass is abundant, and the hay yield will be heavy. Rains were fairly widespread over the province during the last week.

WEATHER TO BE "MANUFACTURED" TO SUIT PLANTS

Colonel Thompson to Build Research Institute Costing \$500,000 to Conduct Experiments—Seeds from Pharaoh's Tomb.

(New York Tribune.)

How climate and atmosphere is to be manufactured and artificial sunlight produced in connection with plant experiments to be conducted by the new Thompson Institute for Plant Research at Yonkers was described yesterday by Dr. William Crocker, research director.

The institute, which Colonel William B. Thompson is establishing near his country place at a cost approximating \$500,000 for the purpose of studying plant life, will undertake some unusual experiments. One of the first will be made with seeds expected shortly from the tomb of Tut-ank-amen, recently unearthed near Luxor, Egypt.

The institution consists of greenhouses and laboratories. According to Dr. Crocker there will be a large quadrangle of laboratory buildings covering a nine-acre plot. There will be large rooms, according to Dr. Crocker's statement, where the experimenter may manufacture climate and atmosphere to suit his needs. Here the growth conditions of plants will be under complete and accurate control. Temperature, humidity, light, and the growth conditions of the air, and the quality, intensity and duration of the light can be adjusted and automatically maintained.

"Some of the greenhouses will be provided with powerful electric lamps that can be turned on and off at night to supplement the sunlight. Other greenhouses will have compartments covered with colored glass where the experimenter can vary the amount of light and heat. The plant will be also provided with means for purifying the air and for heating and cooling the air and the carbon dioxide thus obtained will be conducted as an atmospheric fertilizer."

Besides Dr. Crocker, who has had wide experience as a plant physiologist at the University of Chicago, other prominent scientists will be identified with the institution. On the board of trustees are Professor John Coulter, University of Chicago; Professor L. R. Jones, University of Chicago; and Professor Raymond C. Bacon, consulting chemist, of New York City. Colonel Thompson, C. F. Dula and Theodore C. Ray are also members of the board.

RESEARCH CRUISE GUIDED BY BIN OF CAPTAIN COOK

Party of Scientists to Leave England in September to Explore the Pacific.

London, July 4.—Eight British scientists will set sail from England in the St. George, 1,000-ton yacht, in September to explore the mysteries of the Pacific.

One of the prime movers in the plan is the discoverer of Australia. Although he is not hoping to find another continent, he is fully expecting that the party will gather quite a wealth of material for research among the coral islands of the East.

HEMORRHOIDS

Do not suffer another day with itching, bleeding, or protruding piles. Hemorrhoids, no matter how long they have been present, can be cured by the use of Dr. Chase's Hemorrhoid Remedy. It is a simple, safe, and effective treatment. Price 60c a box; all druggists.

Uganda Recovers From Slump, With Cotton Trade Gain

Crop Is Expected to Reach From 90,000 to 100,000 Bales, Which Will Yield \$2,000,000 to Natives.

London, June 7.—(By Mail)—While Uganda has suffered from the slump which descended upon the East African territories in 1920 and the following year, a slump which was increased in its unfortunate effects by the poor prices obtainable for cotton, the country has shown a natural resiliency and a better financial position which enabled it to recover with greater rapidity than most of the other East African territories.

The cotton crop of Uganda today is expected to reach from 90,000 to 100,000 bales, which will result in the circulation of nearly \$2,000,000 among the natives with consequent activity and prosperity in the bazaars of Kampala and Jinja, elasticity of credit and a revival of the cotton planting industry by low prices has already been effected. Pressure was brought to bear by government and market progress was accomplished.

Pressure was brought to bear by government and market progress was accomplished.

INFANT MORTALITY LOW IN NEW YORK

Death Rate is 75 Per Thousand in Buffalo and 96 in Pittsburgh—Ranks High in Big Cities.

New York, July 4.—The American Child Health Association of 370 Seventh Avenue has issued the following statement in regard to infant mortality.

"Babies in New York City have a better chance for life than the infants of Chicago, Detroit, Cleveland, Boston, Baltimore, Pittsburgh, Buffalo, Milwaukee, Washington, Newark, New Orleans, Kansas City, Mo., Indianapolis, Jersey City, Rochester and Denver.

"Moreover, the infant mortality rates in New York are higher than in any other city in the United States, according to the 1922 statistical report of the American Child Health Association. The lowest rates of infant mortality in 1922: Seattle, 46; Minneapolis 51; Portland, 56. The cities with the highest infant mortality rates in 1922: New York, 75; Buffalo, N.Y., 96; Philadelphia 98; Detroit, 99; Boston, 100; Chicago, 101; St. Louis, 102; Pittsburgh, 103; Cleveland, 104; Baltimore, 105; Washington, 106; Newark, 107; Kansas City, 108; Indianapolis, 109; Jersey City, 110; Rochester, 111; Denver, 112.

"The American Child Health Association is striving to render service in the whole field of child health from the prenatal period through to the school age, with the least confusion and cost.

He is making an informal inspection during the King's levee at St. James' palace.

TOURISTS MEAN MORE WEALTH TO B. C. THAN THE FISHERIES

The Remarkable Development of a New "Industry" Through a Progressive Advertising Campaign in the United States.

(Special Correspondence of The Financial Post.)

Vancouver.—At the annual meeting of the Vancouver Publicity Bureau the reports presented showed a remarkable growth in this new industry of the province. The money left in the city by tourists amounted to over \$20,000,000, which is in excess of the money brought in by the fishing industry, which yielded some \$16,000,000. The fishing industry is one of the oldest industries in the province and has been a very profitable one for a generation.

"What adds more to the government's purse is the fact that the number of tourists visiting the province has increased by 50 per cent in the last year. The number of tourists visiting the province has increased by 50 per cent in the last year. The number of tourists visiting the province has increased by 50 per cent in the last year.

England Pleased With Betrothal Of Princess Maud

She is to Wed Lord Carnegie—King's Order Re Mourning for Princess Christian Relief to London.

(Written especially for The Canadian Press by Mrs. Cecil Chesterton.)

London, June 21.—(By Mail)—The betrothal of Princess Maud to Lord Carnegie is immediately popular. The second match of the Princess Royal and the late Duke of York met Lord Carnegie, heretofore an accomplished musician, did very much to assist her in her early and struggling days. It was she who gave him his first chance in London, and her influence and prestige assured the success which ultimately grew to world-wide fame. Since the war she had been instrumental in starting several businesses run by ex-soldiers.

The death of Princess Christian leaves the King with two aunts living, Princess Louise, widow of the Duke of Argyll, and Princess Beatrice, whose husband, Prince Henry of Battenberg, known in later years as Mountbatten, died in 1920. Princess Christian, heretofore an accomplished musician, did very much to assist her in her early and struggling days. It was she who gave him his first chance in London, and her influence and prestige assured the success which ultimately grew to world-wide fame. Since the war she had been instrumental in starting several businesses run by ex-soldiers.

CENTENARY OF FIRST FRENCH RAILWAY CELEBRATED

Andreas-sur-Loire Marks Anniversary of Line Which Brought Prosperity.

Paris, July 4.—On May 31 the town of Andreas-sur-Loire celebrated the centenary of the first railroad in France. The bill granting a concession for the opening of this road was signed by Louis XVIII on February 26, 1828, and on October 3, 1828, the first train was operated between Andreas-sur-Loire and St. Etienne. The road was used to carry coal to the Loire, where it was taken by water to Paris.

Formerly just a small river port made up largely of sailors, Andreas-sur-Loire grew after the opening of the railroad into a fair sized industrial town. A commemorative tablet of bronze was placed in the station from which the first train in France went out a hundred years ago. The Prefect of the Loire and a number of other officials were present at the celebration.

The harbor master reports that the harbor revenue for June of this year exceeded the returns for June, 1922, by \$1,728. The figures follow: June, 1923, \$7,109.83; June, 1922, \$5,381.80. The returns to date for this year are \$147,689.11; for the corresponding period last year they were \$126,197.67.

In 1921 falling was the cause of death to thirty-four persons each day of the year.

What You Owe to Advertisers

You owe to advertisers in daily newspapers almost everything that has made living more comfortable and healthy.

Daily Newspaper Advertisers of foodstuffs gave you better foodstuffs at lower prices for the things you buy to eat.

Daily Newspaper Advertisers gave you better houses, modern bathrooms, hardwood floors, electric lights, gas and electric ranges.

Daily Newspaper Advertisers gave you better clothes to wear by advising the public to the value of good clothes and their economy.

Daily Newspaper Advertisers made your housework easier by giving you quick cleaning fluids, furniture polishes, floor machines, vacuum cleaners, carpet sweepers, aluminum cooking utensils, clothes driers, sewing machines, gas and electric irons.

Daily Newspaper Advertisers made it possible for you to retain the beauty nature endowed you with by suggesting emollients, toilet preparations, shaving creams, safety razors, etc.

The pioneers in all these things were the firms who made them and advertised them.

They led the way.

It is for this reason that you should always buy advertised goods.

These goods have raised your standard of comfort and living; and the manufacturers of them command admiration for their courage and foresight.

Dollar for dollar, the advertised article is always better value. The reason is that when an article is advertised, production of it is invariably greater. Therefore, the manufacturer has a larger output and a lower cost of production; hence the greater value for the money.

Further, the advertised article generally has superior merit and greater refinements about it. If it were not so, it would not be advertised.

Buy advertised goods, and buy them from the local store that advertises.

GOVERNOR GENERAL AT THE CAPITAL

Receives Honorary Degree and Lays Memorial Corner-stone — Three Addresses Presented.

Baron Byng of Vimy, Governor-General of Canada, yesterday received a warm welcome to the Province of New Brunswick on his arrival at Fredericton. Addresses were presented by Premier Veniot on behalf of the province, by C. R. Hawkins on behalf of the Great War Veterans' Association. At the University of New Brunswick the Governor-General laid the cornerstone of the new war memorial building and received the honorary degree of M. A. D. He delivered a stirring address at the special convention at which the degree was conferred. Last night the vice-regal party were guests of the provincial party at a dinner at the Queen Hotel where at luncheon given by the City of Fredericton. At the noon hour Lady Byng, Mrs. W. F. T. Madeline, J. J. Veniot were guests of the Countess of Ashburnham.

Three addresses were presented Lord Byng. The first on behalf of the province, was presented by Premier Veniot; the second, for the City of Fredericton, was presented by Mayor Reid, and the third, for the Great War Veterans, was presented by C. R. Hawkins, vice-president of the three addresses, all of which were handsomely engrossed, follow:

Provincial Address.

His Excellency General the Right Honorable Lord Byng of Vimy, G. C. B., G. C. M. G., M. V. O. May I please Your Excellency— It is with a feeling of the utmost pleasure and satisfaction that we extend to Your Excellency on behalf of the people of New Brunswick, a most cordial welcome to our province, and that we have been afforded, through your visit, an opportunity to assure Your Excellency as the representative of the Crown, of our sincere devotion and loyalty to our Most Gracious Sovereign, King George V, and our steadfast attachment to the vast Empire over which he rules.

Now, with the confidence begetton of war, we face the problems that peace has brought, stimulated and inspired by the certain knowledge that these same qualities of leadership we learned in the past are still guiding and directing affairs to the advantage of our country and for the credit of that nation which we take ourselves to be proud to represent. As you go about the province, through our towns and villages, we think ourselves more than ever to receive more than one suggestion of your own home land, and that the evidences of their affection and respect among our people will favorably impress you. Unfortunately our geographical position is such that our visitors fall to see us in the rich glory of our summer and harvest time. We trust that Your Excellency's visit at this favorable season may increase your interest in this part of the Dominion and convince you of the possibilities of future expansion and growth. The people of the province differ in race and language, but live together in perfect harmony, and the best of good will. They are rivals only in their devotion to the province and their loyal interest in the welfare of the Dominion as a whole. We are happy to assure Your Excellency of the sincerity of the welcome given you on the part of every citizen of the province.

We associate in this welcome your esteemed wife, Her Excellency, the Lady Byng of Vimy, and trust that you may both be spared to continue your distinguished services to the Empire for many long years to come. On behalf of the Executive Council of the Province of New Brunswick, P. J. VENIOT, Premier.

Fredericton, July, 1923. Civic Address.

In the civic address, Mayor Reid congratulated Lord Byng upon his showing in civil life. "The high ideal of service," which marked his military career, in the provincial address, Premier P. J. Veniot welcomed His Excellency as "a known and tried friend," remarked that this province was fortunately quite removed from the clash of class interests so prevalent throughout the world, and emphasized that the English and French races lived happily together.

War Veterans' Address.

His Excellency the Right Honorable Lord Byng of Vimy, G. C. B., G. C. M. G., M. V. O. May I please Your Excellency— The New Brunswick Command of the Great War Veterans' Association of Canada extends to you, the highest representative of our Sovereign Lord King George, the loyal and sincere welcome of all former members of the Canadian overseas expeditionary forces on this, the occasion of your first visit to the Province of New Brunswick.

Your appointment to the present high position you occupy in our country was most gratifying to those of us who had been members of your command in those great days when the future was often dark and uncertain, and no man knew what the morrow might bring. Then it was in your hands that we placed our trust and it was then we learned to know of those qualities of resoluteness and courage which in a situation could defeat and which adversity and misfortune only served to establish with a greater trust.

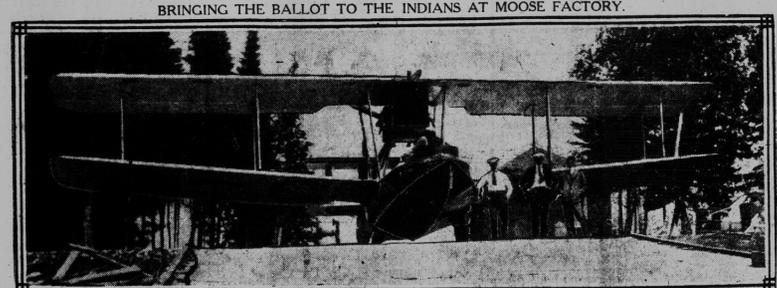

Now, with the confidence begetton of war, we face the problems that peace has brought, stimulated and inspired by the certain knowledge that these same qualities of leadership we learned in the past are still guiding and directing affairs to the advantage of our country and for the credit of that nation which we take ourselves to be proud to represent. As you go about the province, through our towns and villages, we think ourselves more than ever to receive more than one suggestion of your own home land, and that the evidences of their affection and respect among our people will favorably impress you. Unfortunately our geographical position is such that our visitors fall to see us in the rich glory of our summer and harvest time. We trust that Your Excellency's visit at this favorable season may increase your interest in this part of the Dominion and convince you of the possibilities of future expansion and growth. The people of the province differ in race and language, but live together in perfect harmony, and the best of good will. They are rivals only in their devotion to the province and their loyal interest in the welfare of the Dominion as a whole. We are happy to assure Your Excellency of the sincerity of the welcome given you on the part of every citizen of the province.

We associate in this welcome your esteemed wife, Her Excellency, the Lady Byng of Vimy, and trust that you may both be spared to continue your distinguished services to the Empire for many long years to come. On behalf of the Executive Council of the Province of New Brunswick, P. J. VENIOT, Premier.

Fredericton, July, 1923. Civic Address.

Veniot welcomed His Excellency as "a known and tried friend," remarked that this province was fortunately quite removed from the clash of class interests so prevalent throughout the world, and emphasized that the English and French races lived happily together.

War Veterans' Address. His Excellency the Right Honorable Lord Byng of Vimy, G. C. B., G. C. M. G., M. V. O. May I please Your Excellency— The New Brunswick Command of the Great War Veterans' Association of Canada extends to you, the highest representative of our Sovereign Lord King George, the loyal and sincere welcome of all former members of the Canadian overseas expeditionary forces on this, the occasion of your first visit to the Province of New Brunswick.

Magistrate Tucker (in uniform) and Hugh C. Templin went by seaplane to Moose Factory on James Bay, Ontario, and made a voters list, and opened a polling booth for the election. The plane used and a typical Indian family on 'The Bay' are also shown.

also look forward to meeting their wives and mothers, who so readily gave all they held dear that the world might be free.

"Ladies and gentlemen, on behalf of Lady Byng and myself I thank you most sincerely for your kind welcome of us. I can assure you that we are really delighted to be here today and it is our desire to repeat this visit, if you will allow, as early as opportunity permits."

Mr. and Mrs. A. M. Storm, 11 Pigeon street, left yesterday for Victoria, B. C. to visit Mrs. Storm's sister. On their return they will visit relatives in Vancouver, Winnipeg and Toronto.

Wants to Learn Problems. "Last year I visited the west so that I might try to learn and understand some of their problems and difficulties. And this summer I have turned to the east where I hope to do the same, because I am convinced that the east is as necessary to the west as the west is to the east. They are just as dependent on city and country, as manufacturing and agriculture. And if they do need each other in this way, it is essential that they should know each other, and so set themselves, with mutual understanding and sympathy, to solve some of the difficult problems which confront the world today.

Land of Homes. "Your province is singularly fortunate in the gifts she has received from nature. But perhaps the feature which most impresses the stranger when he arrives is the fact that it is a land of homes, and all that that word stands for. Although your people may differ in race and creed, you have that atmosphere of home and family life which engenders those qualities of character so essential in the life of any nation if it is to become and remain really great.

Praises Troops. "You have been good enough to refer to the part I played in the war. It was my privilege then to command on the battlefields of Europe the Canadian corps, that magnificent body of which your men formed an important part. No words of praise can express the loyalty and courage of that force, which, united in spirit, proved itself capable of heroic tenacity of defence and achievement in attack. One of the chief pleasures during my tour this summer will be to see again some of those men and renew friendships begun in France and Flanders. And I

Byng's Reply. The address made in reply to the three which had been presented to him was as follows: "Your Honor, the Premier, Mr. Mayor and Ladies and Gentlemen: "As representative of His Majesty the King it will give me great pleasure to forward to him your messages of loyalty and devotion. In an Empire as

extensive and diversified as our own, where our interests are so varied that we have only one common cause—a love of freedom and free institutions—it is indeed fortunate that we have in His Majesty a personality that is an example to us all of devoted service to his country and fellow man. Ever since I arrived in Canada I have looked forward to visiting New Brunswick, not only on account of the objects of my scenery but because I am anxious to meet the descendants of these Loyalists whose trials and sacrifices form one of the finest pages in the history of the Dominion.

Wants to Learn Problems. "Last year I visited the west so that I might try to learn and understand some of their problems and difficulties. And this summer I have turned to the east where I hope to do the same, because I am convinced that the east is as necessary to the west as the west is to the east. The address made in reply to the three which had been presented to him was as follows: "Your Honor, the Premier, Mr. Mayor and Ladies and Gentlemen: "As representative of His Majesty the King it will give me great pleasure to forward to him your messages of loyalty and devotion. In an Empire as

extensive and diversified as our own, where our interests are so varied that we have only one common cause—a love of freedom and free institutions—it is indeed fortunate that we have in His Majesty a personality that is an example to us all of devoted service to his country and fellow man. Ever since I arrived in Canada I have looked forward to visiting New Brunswick, not only on account of the objects of my scenery but because I am anxious to meet the descendants of these Loyalists whose trials and sacrifices form one of the finest pages in the history of the Dominion.

Wants to Learn Problems. "Last year I visited the west so that I might try to learn and understand some of their problems and difficulties. And this summer I have turned to the east where I hope to do the same, because I am convinced that the east is as necessary to the west as the west is to the east. They are just as dependent on city and country, as manufacturing and agriculture. And if they do need each other in this way, it is essential that they should know each other, and so set themselves, with mutual understanding and sympathy, to solve some of the difficult problems which confront the world today.

Land of Homes. "Your province is singularly fortunate in the gifts she has received from nature. But perhaps the feature which most impresses the stranger when he arrives is the fact that it is a land of homes, and all that that word stands for. Although your people may differ in race and creed, you have that atmosphere of home and family life which engenders those qualities of character so essential in the life of any nation if it is to become and remain really great.

Praises Troops. "You have been good enough to refer to the part I played in the war. It was my privilege then to command on the battlefields of Europe the Canadian corps, that magnificent body of which your men formed an important part. No words of praise can express the loyalty and courage of that force, which, united in spirit, proved itself capable of heroic tenacity of defence and achievement in attack. One of the chief pleasures during my tour this summer will be to see again some of those men and renew friendships begun in France and Flanders. And I

LOCAL NEWS

Hanford Estey, the winner of the Paige-Jewett automobile in connection with the Hittor Belyes benefit fund, has received the machine and is delighted with its qualities. Mr. Estey's friend, Charles Samson, Chesley street, drove the machine from Halifax to here for Mr. Estey, who expects to remain in St. John for a few weeks.

An automobile owned by Hon. Dr. Roberts and driven by his chauffeur ran into an iron post on the highway bridge over the falls last evening about 9 o'clock. The driver of the car received a slight cut on the face while the radiator of the machine was bent and the front wheels slightly damaged. The traffic over the bridge was tied up for a few minutes until the damaged car was pushed to one side.

Owing to lack of a quorum there was no Common Council meeting yesterday afternoon. Mayor Fisher invited to Fredericton yesterday to take part in the ceremony of welcome to the Governor-General. His Worship announced yesterday that a meeting of representatives of the various local organizations would be held on Thursday afternoon of this week to discuss the plans for welcoming Governor Cox, of Massachusetts, Governor Cox is due here on Saturday, July 14.

At the monthly meeting of the Victorian Order of Nurses held last evening at the home of Hon. G. Forbes various reports were submitted. During the last month 1,275 visits had been made and there were 1,929 children in the well baby clinic. Dr. W. E. Rowley will be in charge of a North End clinic which will be opened shortly. Miss Boswell, superintendent of the work in Eastern Canada, will be present at a meeting in a discussion of the situation here.

Twenty-four children were in attendance at Seaside Park and many more are expected under more favorable circumstances. The camp will be open every day except Sunday. Those in charge were as follows—Dr. H. A. Farris, Dr. Doris Murray, medical supervisors; Miss H. T. Melkjohn, general superintendent; Mrs. G. Wilkins Campbell, camp manager and treasurer; Miss Mary Eason and James Gregory.

A public installation of officers of the Loyalist Temple, No. 13, Pythian Sisters, took place last evening in Temple Hall, North End. The officers for the ensuing year were installed by Mrs. Bessie Green, installing officer, and Mrs. George Amland and Mrs. Ormand Dykeman, grand managers, assisting officers of many of the Pythian Sisters were in attendance and the proceedings were followed with keen interest by a large number of the public. A demonstration of several of their fancy drills which added considerably to the enjoyment of the evening's program. Refreshments were served at the close.

The executive of the local branch of the International Order of the King's Daughters and Sons was held last evening at the home of Mrs. M. J. Spaulding. The reception of the delegates to the twelfth biennial convention, which will be held here this evening and Thursday. A large number of delegates are expected to arrive in the city today from different parts of New Brunswick, a party of twenty coming from Fredericton. Among those who will be present at the convention will be Miss Mary Brown, of Toronto, the Dominion president, and Miss Ella Thorne, provincial president.

The Women's Missionary Aid Society of the Ludlow street Baptist church held its annual meeting in the church last evening. The president, Mrs. J. E. Rupert, reported that the following officers were elected: President, Mrs. J. E. Rupert; first vice-president, Mrs. W. A. Robinson; second vice-president, Mrs. George Gibbon; secretary, Mrs. A. K. Horton; assistant secretary, Mrs. George Clarke; treasurer, Miss H. M. Thompson. Mrs. Arthur Paul, of Saco, Maine, was present at the meeting and gave a very

refreshing address on the work of the Women's Mission in Saco.

A slight fire in the New Brunswick Used Car Exchange, Marsh Road, last evening, was put out before the alarm could be given. The fire was extinguished in a few minutes and the staff still is carrying on.

The local employment bureau will be continued until a final decision as to its fate is reached by the Common Council. Although the bureau is expected to be closed on June 30 the staff still is carrying on.

The monthly meeting of the W. C. T. U. was held yesterday afternoon in the Orange hall with Mrs. Hope Thompson presiding. Mrs. Ellsworth Scott and Mrs. Mary Seymour led in prayer. Miss Lydia Fullerton, president of the Carleton Union, and Mrs. H. P. Newcombe were present.

About \$600 in cash was stolen from the Valley Pharmacy in the break into the premises during Monday night. The thieves apparently were familiar with the premises as they had gone directly to the cash box and had disturbed very little else. The money represented the returns for the three days' business and had been put in the cash box until the bank would be open.

William F. Balcom arrived in the city yesterday from Halifax to assume the duties of district inspector of weights and measures in New Brunswick under the Department of Trade and Commerce. He will fill the vacancy caused by the death of James Barry. D. J. McLean, government auditor, arrived in the city at the same time to make his annual audit of books at the local office.

Three boys named Cunningham, Hayes and Nixon, who escaped yesterday morning from the Boys' Industrial Home, were located yesterday afternoon at Coldbrook and taken back to the home. Cunningham, who belongs to Chatham, has broken away five times. The other two belong to St. John. Last evening Charles King, aged thirteen years, made good his escape and had not been located last night.

From July 9 to 14 more than 600 cadets will be under canvas at Camp Sussex. The camp, which is the largest ever assembled in New Brunswick, will be in charge of Lieut.-Col. H. G. Sparling. Previous to this arrival Lieut. Col. A. B. Snow will be in command. All the St. John cadets who are going are expected to assemble at the Armouries on Thursday morning at 10 o'clock for final instructions.

The Women's Missionary Societies of the Coburg street Christian church and the Douglas avenue Christian church met last evening in the home of Mrs. H. W. Fairweather, 115 Burpee avenue, when inspiring addresses were given by Mrs. W. J. Johnston and Mrs. William Phillips. Mrs. George A. Horton gave a missionary reading. The devotional exercises were led by the

president, Mrs. Horton. The meeting was largely attended and was greatly enjoyed by all present. At the close refreshments were served by Mrs. Fairweather and a social hour was spent.

THE PRESBYTERY

At the afternoon session of the Presbytery of St. John yesterday, a call from St. Andrew's church to Rev. John Sutherland Bonnell, of Prince Edward Island, was sustained and Hon. J. G. Forbes and Rev. John Stirling, of New London, P. E. I., were appointed to advance the matter before the P. E. I. Presbytery. Mr. McKelvie, of Dorchester, was added to the roll of elders. The matter of the resignation of Rev. W. A. Wood was laid on the table and the congregation of the church of Nashwaak and Stanley was notified to have representatives present at a special meeting in Fredericton. Rev. A. V. Morash presented the report of the Clark Memorial Bursary Fund.

Rev. A. F. Fisher, of Dorchester and Sackville, offered his resignation. After some discussion the presbytery regrettably accepted the resignation, which will take effect after July 8.

Rev. J. A. Ramsay, of Moncton, was appointed interim moderator of Sackville and Dorchester.

On request of Rev. Mr. Fisher, a commission of the presbytery was appointed to deal with the question of union between the Methodists and the Presbyterians in Dorchester and Sackville. The members of the commission are Rev. Dr. Ross, A. E. Bentley, Owen Cameron and Irvine Blackney. The question of the future of Rockland church was referred to the same commission.

On motion of the clerk, the presbytery agreed to appoint a History Committee.

Rev. Dr. J. S. Sutherland presented the facts of the decision of the General Assembly concerning the church office and agency in Halifax which has been remitted to the Synod for final action.

The presbytery agreed to support a request from Chipman for a loan of \$2000 for church extension from the Church and Manse Building Fund.

The following commissioners, who attended the recent General Assembly, gave a short report of the deliberations of that body. Rev. Mr. Morash, T. H. Somerville, Rev. Dr. Ross, A. E. Bentley, M. P. P., Dr. Sutherland, Owen Cameron and the moderator.

Several communications were read and outstanding bills ordered paid, after which the presbytery adjourned.

BLACKHEADS

Don't squeeze blackheads—dissolve them. Get two ounces of peroxide powder from any drug store and rub with a hot, wet cloth briskly over the blackheads. They simply dissolve and disappear by this safe and sure method. 1518

SATISFACTION

A seemingly low price for an article is always attractive, but unfortunately frequently misleading. How often is heard the remark—"I would rather have paid a little more and got the quality I wanted."

As a matter of fact that "little more" was necessary to obtain the better quality. Good goods require a higher price to be good.

There are cheaper teas than "KING COLE"—but would you be satisfied with their quality?

WOODSTOCK CADETS HERE ON FRIDAY

Will Give Exhibition—St. John Homes Asked to Open Doors to Lads.

Capt. D. V. Pain, attached to the local militia office staff, said this morning that on Friday of this week in the evening the Woodstock Cadets will give their splendid exhibition of gymnastics, including fancy formations, tumbling, pyramiding, etc., in the armory. On that occasion the Daughters of the Empire will entertain the lads at supper.

The Woodstock Cadets will be en route to the general cadet camp at Sussex, at which it is expected there will be more than 600 boys and youths under canvas. The camp is indeed to be quite a notable gathering and is looked upon by the military authorities as one of the assured successes of the last ten years along the line of youthful training. After camp breaks it is expected the crack companies will give further exhibitions in this city for the purpose of fully demonstrating the excellence of the training as an incentive to other boys and for the information of parents.

The cadet movement, while not of recent dating by any means, is now very much alive. Next week the Woodstock at Rothery Collegiate School and other places it has reached a high stage of development and enthusiasm. Captain Pain said today that it was the expectation that before long enough units would be organized in St. John to warrant the formation of a battalion with band, etc.

In bringing the Woodstock cadets to St. John for the special exhibition—especially as affecting their stepping over from Friday to Monday—the hospitable and patriotic people of the city are asked if they can open their homes to the lads. There will be forty of them, all young fellows from good homes and the flower of their town. Nearly all of them are strangers here and are without friends or relatives with whom they might stay. There are, if the boys can be reconciled for the two and a half days a very great courtesy would be accorded them. Persons willing to play host or hostess to one or more of the lads are asked to communicate with Col. Snow at the armory. It may be that the lads will sleep in the army and be the guests of citizen homes at meal-time during their stay here.

LOCAL NEWS

FOR CHURCH FUND.
On Saturday afternoon little Miss Mildred Howes, 8 Brimley street, gave a bazaar at her home in aid of the building fund of the Tabernacle church. The sum of \$22 was realized and was turned over to the fund.

MOTORED FROM BOSTON.
Harry W. Masters of Boston, accompanied by his sister, Mrs. C. A. Mabee of Waltham, Mass., and her family, arrived in St. John yesterday by automobile. While in St. John they are staying with their sister, Mrs. Wm. H. Dykeman, 177 Lennox street. Mr. Masters, son of Wm. H. Dykeman of 177 Lennox street, also came along with them.

NO PERMITS YET.
Asked this morning if the prohibition against the woods which was put into force at the time the forest fires were at their height had been lifted, C. B. Allan, secretary of the New Brunswick Tourist and Resources Association, said that no word concerning the prohibition had been received at his office and that he would not issue permits to enter the woods.

STILL ANOTHER ESCAPE.
The desire to escape from the Boys' Industrial Home seems to have become epidemic. Yesterday morning three boys escaped and were recaptured last evening at Coldbrook. Later in the day another got away and has not been caught and last evening Charles Chase, belonging to the North End, made a getaway. The authorities are keeping a sharp lookout for him.

TO CHURCH MEETING.
J. W. Flewelling of this city and Dale H. Moore and Ralph Barker of Shelburne, N. B., left on the C. P. R. steamer Empress for Digby yesterday morning en route to Beach Meadows, N. S. to attend the seventy-sixth annual meeting of the Congregational Union of Nova Scotia and New Brunswick. The session started today and will continue until next Sunday evening.

BAY TRAVEL.
The Canadian Pacific bay steamer Empress will make a change in her sailing schedule commencing on July 16. Instead of leaving St. John at 8:30 local time, she will leave at 5:15. She will be due back here in the evenings at seven o'clock local time. Passenger traffic on the Empress has been very good and indications are that it will be very heavy this summer.

BIG SUMMER BUSINESS.
The Eastern Steamship Line Government Dispatch sailed for Boston this morning via Eastport and Lubec with seventy-five passengers and a fairly large general cargo. Owing to the intense heat in the States the travel to Boston is comparatively light at the present time, but from Boston very heavy. The steamship officials are of the opinion that the travel this season will be much heavier than last.

THREE BOYS SENTENCED.
In addition to charges of theft from the Willet Fruit Company and from G. E. Barbour & Company which were preferred against three juveniles a further charge of stealing fountain pens and Evershar pencils from the St. John High School was laid against them this morning. All pleaded guilty and were sentenced to the Boys' Industrial Home for indeterminate periods not to exceed five years.

ENGAGEMENT.
Mr. and Mrs. Wm. Sherwood announce the engagement of their daughter, Ervia E. to Alex Strachan, son of Mr. Strachan and the late Wm. Strachan. All are of this city. The wedding will be in the near future.

Mr. and Mrs. F. Pollard have announced the engagement of their daughter, Marion Mildred, to Willard James Connor, both of West St. John. The marriage is to take place this month.

LAST CAR CLUB.
The members were very pleasantly entertained at the club's last meeting. Mr. and Mrs. Sinstadt, 209 Metcalf street extension. The usual five games of pool were played, and the winners were Mrs. Wrench and S. Caddell. Congratulations were awarded to Mrs. Mofford and E. E. White, who were the evening dainty refreshments were served by the hostess. The members of the club expressed their thanks to William R. Longmire for a most enjoyable evening.

FINE IN LIQUOR CASE.
In the case against Albert Doherty, charged with having liquor in his possession other than in his private dwelling on February 8 last, the evidence of Inspector Killen was similar to that given yesterday by Inspector Journey and told merely of finding a bottle of liquor in the beer shop of the accused. A fine of \$200 was imposed. W. M. Ryan appeared for the prosecution.

GOVERNOR'S VISIT HERE.
While in Fredericton yesterday Mayor Fisher had a conference with Major Hodgson, aide to His Excellency Baron Byng of Vinny, Governor General, regarding the civic reception in St. John on next Monday. Some slight changes in the detail of the official programme were decided upon, but the itinerary in the main will be about as published. His Excellency today that he expected to announce the complete programme tomorrow.

TRAFFIC CASES.
Otty S. McIntyre was fined \$10 in the police court this morning for making a wrong turn at the corner of King street and Market square, speeding and not sounding his horn on June 29. Policeman Young gave evidence.

Edward Duff was fined \$10 for driving a motor vehicle on a public highway on July 1 while passengers were alighting. Policeman Sheehan said that he heard the accused say, "Get out of my way; I'm not going to wait here all day." The driver had then gone on and he had stopped him. The evidence of the policeman was corroborated by Thomas J. Cosgrove.

Peter Miller and G. H. McCormack against whom traffic charges have been pending since last week were established to go. Both had endeavored to establish alibi.

BREAK-UP DAY AT CAMP SUSSEX

Most of Troops en Route Home by Noon—Cadets to Move in on Monday.

(Special to The Times.)
Sussex, N. B., July 4.—Camp Sussex is breaking up today. The first regiment left early this morning and by noon most of the troops were en route to their homes. Rear guards from each unit will remain until tomorrow to turn in stores. The camp had a good day for getting the men away. A few showers fell last night, but the weather cleared before sunrise and the morning was bright and fine. All ranks were satir early in preparation for entraining.

The Carleton Light Infantry were the first to leave, a special train with the regiment and its equipment leaving the military siding at 4:30. The North Shore regiment left at 9:30 in another special. The York Regiment left at noon for Fredericton by the regular train which stopped at the siding to pick up two special cars with the Yorks aboard. The remaining units will leave during the afternoon. A special detail of ten men under Camp Sergeant Major B. H. Hawkins will remain to shift the tents for the cadet camp, which will open on Monday.

They will be assisted by an advance party of fifteen cadets from the Fredericton High School Corps. Railway officials were kept on the jump all day yesterday issuing transportation orders for the regular train which will leave for Fredericton and one for St. John, were picked up at the military siding by the noon freight.

Frank M. Ross, Dry Dock Chief, Weds In London

A host of friends in St. John and throughout Canada will congratulate Frank M. Ross, general manager of the St. John Dry Dock & Shipbuilding Co., Ltd., on his marriage yesterday in London to Miss Gertrude E. Tomalin, announcement of which is made today.

The ceremony took place at 2:30 p.m. at the Chapel Royal Savoy. London, and was witnessed by Mr. and Mrs. Ross, Misses Misses Jane and Anna Dear and Joan and Alice Whitehead, while Hon. Stuart P. Bouverie was best man. Mr. and Mrs. Ross will find a very hearty welcome awaiting them on their home-coming to St. John.

Boston Canadian Club President Is In St. John

Mr. and Mrs. Fred R. Bailey of Waltham, Mass., arrived in the city this week by automobile and are visiting Mrs. Bailey's sister, Mrs. W. H. McBay at 80 Victoria street. Mr. and Mrs. Bailey will make an extended tour through the Maritime Provinces and will return by way of Montreal.

Mr. Bailey, who is a former St. John man is proprietor of the Le Royumber Co. of Newton, Mass., president of the Canadian Club of Boston, director of the Waltham Chamber of Commerce and a member of the Newton Rotary Club.

NEW OFFICIALS AT CUSTOMS HOUSE

W. F. Balcolm was installed yesterday afternoon as Inspector of Weights and Measures here by B. J. McLean, of Ottawa. Mr. Balcolm was first appointed to the weights and measures department in Halifax in October, 1920, immediately after his return from overseas. He was with the 20th Battalion in France. Since his appointment he has been with this department and was hard at work in Nova Scotia when notified of his promotion here. He takes the position held by the late James Barry and is in charge of the staff headed by H. T. White, of the department, and the two outside inspectors who remain with him.

William R. Longmire has been appointed inspector of gas and electricity under the Department of Trade and Commerce here, the appointment dating from May 23. Mr. Longmire was formerly engaged in business in the North End under the name Auto-Rec. He is a native of St. John and was a member of the 26th Battalion overseas during the war. Mr. Longmire sold his business when word of his appointment came and is now engaged in his new work.

CUSTOMS REVENUE LESS.

	\$392,375.10	\$717,716.40

THE GONDOLA POINT TRAGEDY.

In addition to those whose names have already been mentioned in connection with assistance rendered in an effort to save the life of Allison Cushing and to recover his body after the sad accident of last Sunday, George Clarke and his son, Frederick, W. C. Allison, Andrew Kirkpatrick, Roy Waddell and Provincial Constable Robert Crawford also assisted in the efforts to recover the body. Several of these men remained at the scene late on Sunday night helping to make preparations and do other incidental work in connection with the diver's operations which took place the next day.

Framed Pictures

Not many people realize that we carry the largest line of framed pictures in the Maritime Provinces, comprising practically every class of subject in all sizes, and at all prices. Since adding our new King Street building, we are able to show hundreds more than formerly, and you can now enter either from Charlotte Street or King Street, and, while walking through the various departments, see pictures of every shape and subject to suit any room. Just the thing for a wedding gift, as every home needs pictures and nothing else adds so much to its attractiveness. Drop in any time and look around.

A. Ernest Everett
THE HOUSE FURNISHER
91 CHARLOTTE STREET.
