

The Granite Town Greetings

VOL. 5

St. George, N. B., Wednesday October 13th, 1909.

No. 67

JUST TO REMIND YOU

That we have received our fall line of Corsets, Misses and Childrens Waists in the latest styles. Directoire, New York, in fact we have ten to twelve different patterns.

Ladies' and Childrens' Knit Coats

Bargains in bleached and unbleached Cottons, Canton flannel and Flannellettes

J. SUTTON CLARK,

St. George, N. B.

A Full Line of Ladies Fall Shirt Waists

LADIES UNDERWEAR A SPECIALTY

Crepe and Tissue Paper in all colors

Men's Ladies and Childrens Boots, Shoes and Rubbers

SAVE THE CENTS

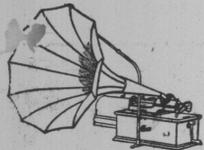

Your MEATS bought at one of GOVE'S CASH STORES at a saving of 2c. per lb. ought to interest you.

Try my stores at either EASTPORT, PERRY or CALAIS for bargains in GROCERIES, etc.

JUSTIN GOVE, Prop.

NEW JEWELRY

Just received a very neat line of watches, fobs, wristlets, brooches, scarf pins, belt pins, etc. Prices are very reasonable. Call in and look them over whether you intend buying or not.

EDISON PHONOGRAPHS

AND 2 AND 4

MINUTE RECORDS

J. W. WEBSTER

Practical Watchmaker, Jeweller and Optician

Young's Block Headquarters: Hampton, N. B. St. George, N. B.

The St. Stephen Business College

SCHOOL OF SHORTHAND

All modern methods taught. Business men supplied with office help on application. Free catalog. M. T. CRABBE, Prin., St. Stephen, N. B.

DEER ISLAND

Rev. Chas. A. Brown held services in the Baptist church, Lamberts Cove on Sunday. Aiver Stuart made a flying business trip to St. Stephen on Monday. Jell Mitchell returned on Wednesday from a pleasant visit with friends at Pomeroy Ridge. Miss Gerlie Pendleton visited Miss Alma English on Sunday. Mrs. Harry Ward and Miss Effie Heron were guests of Mrs. S. W. Pendleton on Thursday. Kenneth Stuart has installed a 6 h. p. engine in his boat the "Jack." Dick English called on friends in St. Andrews on Saturday. Miss Minnie Mitchell who is employed at Lubec, Me. is visiting relatives on the island. Miss Grace Dixon of Indian Island, is visiting Mrs. Jas. H. Ward. Jell Stuart was the guest of Miss Pendleton on Sunday. Mr. Stuart left by Monday's steamer. Mr. Stuart is employed with Jas. H. Ward and winter. Mr. Stuart visited friends in St. Stephen.

Parliament to Open

On November, 11. Ottawa, Oct. 6.--Parliament has been called to meet on Nov. 11. From now on the cabinet will be busy with preparation. Already substantial progress has been made with the estimates by most of the departments. The insurance bill of last session, which passed the commons but died in the senate, will be reintroduced and should be disposed of before Christmas. There may be a revision of the banking act. The speech from the throne will continue an announcement of Canada's plan for the construction of a navy. The details are being worked out now. Two naval experts loaned by the admiralty are now in Ottawa, as announced, and a third is on the way. He's Lieut. R. M. T. Stephens, a gunnery expert, and is expected to reach Ottawa shortly.

Hudson's Fate

A melancholy fate, after a life of useful adventure, was that which befel Henry Hudson. Hudson discovered both the Hudson River in New York State, and Hudson Bay, Canada's great inland sea, and to both of which he gave his name. He was an Englishman in the employ of an Amsterdam trading company. In crossing the ocean, on his way to what is now known as New York's great river, he had for the voyage a ship only 70 feet long, 12 feet beam, and 10 feet deep. Few people would care to cross Lake Ontario in such a craft today. In a subsequent voyage, in a smaller craft still, searching for a way to China, he sailed through the lonely straits that bear his name, and penetrated at last into that strange half Arctic Mediterranean whose expanse on the printed map is the greatest tribute to his memory. This ship was the first that ever burst into that silent sea, and the grandeur of his misery was to be in proportion to his fame. In the south of the great bay he wintered whereabout's engineers are now thinking of the railway that will make in the very heart of the continent a summer port for wheat, and where reasonable ambitions are entertained that by way of the Churchill or the Nelson rivers a waterway will some day be achieved, perhaps not so long hence, destined to turn even Winnipeg into a seaport. When released from the ice again in the spring Hudson tried to get out of his bay as he had got into it. Half-way to the exit, by the Straits his crew mutinied; and one midsummer's day he and his son and seven of his men were seized, thrust into a shallop, and cast adrift. And of them was never a glimpse seen again, nor syllable heard by mortal man.

In celebrating the 300 anniversary of his discovery of the Hudson River, this month, great warships from the United States, Germany, Great Britain, France and Italy took part. There was celebrated at the same time, too, the hundredth anniversary of the introduction of steam navigation on the river. Copies of Fulton's steamer and of Hudson's Half Moon took part in the ceremony.

The wholesome, harmless green leaves and tender stems of long healing mountainous shrub, give to Dr. Shoop's cough remedy its curative properties. Tickling or dry bronchial coughs quickly and safely yield to this highly effective cough medicine. Dr. Shoop assures mothers that they can with safety give it to even very young babes. No opium, no chloroform--absolutely nothing harsh or harmful. It calms the distressing cough, and heals the sensitive membranes. Accept no other. Demand Dr. Shoop's. Sold by all dealers.

L'ETANG

Ira McConnell and C. Wesley Hinds attended the St. Stephen fair last week. Mr. and Mrs. Melvin Holland of Eastport, Me. have moved into the vacant house owned by Wm. Hickey. Edward Holt of Digdegush, has been threshing oats here for the past week. Mrs. Jas. H. Hinds of Victoria Beach, N. S., who has been visiting her sister, left on Tuesday's train for her home. Earl, the infant son of Mr. and Mrs. Andrew Craig is very ill. Dr. Taylor is in attendance. Miss Mina McVicar has gone to St. Stephen to spend the winter. Mr. and Mrs. Eliza Leavitt are receiving congratulations on the arrival of a son. Miss Delia McVicar of Victoria Beach, N. S. is the guest of Mrs. W. H. Hooper. Ira and Miss Olesia McConnell were guests of Mr. and Mrs. Theobald McConnell of Blacks Harbor on Friday. The schooner Margaret left port on Sunday loaded with sardines for St. John. A new clerk has been employed in Mr. Clark's store here and a new counter has been put in recently.

Irish a Thrifty People

"It's a curious thing, but an actual fact, that savings deposits of the Irish people are larger than that of any people in the world, except, perhaps, the French peasantry. "You would hardly credit that," said Mr. James Doherty, of Dublin, at the general offices of the C. P. R., to The Standard. "Remember, the Ireland of to-day is vastly different from that of twenty years ago. The successive land laws; the buying out of the landlords by money advanced by the British Government; the new security in the soil; giving spar to exertion and a new pride of ownership, have worked a silent miracle. "We have our agitations, to be sure, but we have also many new industries, and while we sput a bit now and then, and even crack heads once in a while, as in the case of the recent Feterdowry and Lurgan riots, we are busy making money. "What about the idea of a back to Ireland project--applied to Irish Americans who are asked to make holiday trips from this side to the Old Country? "It is going to work out well. The various Irish societies on this side have taken up the idea, which is ably seconded by the Countess of Aberdeen. Why not? Atlantic now, and hundreds, yes, thousands, could very well afford to visit the money or the time."

War. It is, unquestionably, a noble art to ravage countries, destroy dwellings, and one year with another, out of a hundred thousand men to cut off forty thousand. This invention was originally cultivated by nations assembled for their common good, it is otherwise in our time. An old circumstance in this infernal enterprise is, that every chief of these ruffians has his colors consecrated, and solemnly prays to God before he goes to destroy his neighbor. If the slain exceed two or three thousand, the fortunate commander does not think it worth thanking God for; but if, besides killing them so far favorable to heaven as total, by destroy some remarkable place, then a verbose hymn is sung in four parts, composed in a language unknown to all the combatants. When the humor of a few shall make it an act of loyalty to butcher thousands of our few fellow creatures, the part of mankind dedicated to heroism will be the most execrable and destructive monsters in all nature. Of what avail is humanity, benevolence, modesty, temperance, mildness, discretion and piety, when a half a pound of lead, discharged at the distance of six hundred paces, shatters my body? When I expire at the age of twenty, under pains unspendable and amidst thousands in the same miserable condition; when my eyes all in a blaze; and the last sounds I hear are the shrieks and groans of women expiring among the ruins, and all for the pretended interest of a man who is a stranger to us.--Voltaire.

NEW RIVER

(Later) Earnest Gossen, an employee of Mr. Mallins, cut his foot very badly while chopping. Dr. Reynolds' dressed the injury. Two yokes of oxen and three men from N. S. went through to Thebaud's camp Friday. L. B. Knight, Roadmaster Lister and the Surveyor's were here Tuesday running the lines for the new mill and side tracks. Fred Clinch, paymaster of the Inglewood Co., was up to the camps Friday and Saturday. Much inconvenience to the people has been caused by the temporary bridge going out. W. McGee, St. John, shot a moose weighing 900 pounds on Tuesday and on Friday he secured a fine deer. Mrs. Charles Giles left on Wednesday's train for Fairville where she will visit her parents. It is hoped that the new bridge will be ready for teams next week.

Goal of the Old Arctic Explorers

In reading the speeches of the two explorers who, during the past month, by means of "rash" sensational cablegrams and florid reception speeches, have been endeavoring to reach their claim to the palm of having been the first to reach the North Pole, one is forcibly reminded of the difference between the object of these two men had in view and that which was the hoped-for goal of the early explorers of the Arctic region. The object of Cook and Peary was purely the acquisition of fame to be won by being the first to reach the northern end of the world; to stand on the spot where none had stood before. No useful purpose was to be served, no practical good was to be accomplished. The reports of both have been received, and they are in respect with the object in view. Both claim to have reached the Pole, and both report that it is a field of ice, fastidistant from even the barren land of the Arctic region, and not only devoid of any form of life, but incapable of sustaining it. The Pole, they say, has been found; but the world is no better for it, unless it follows that an end has come to the waste of energy and means in polar expeditions. The early Arctic explorers had before them the hope of accomplishing something useful. The wealth of the Orient was then beginning to attract the enterprise of western Europe, and a short route to China and India was the hope of all engaged in that trade. That such a route lay around the northern end of the American continent was the belief of many of the most skillful navigators. In search of that route they coasted along the inhospitable shores of the far north-land. One of them found the great inland sea now known as Hudson's Bay, and which Canada proposes to use in the near future as a commercial route to Europe. Some, like the noble Franklin left their bones among the Arctic snow, others discovered the islands that fringe our northern coast, and now form part of our Dominion. Finally, the passage was forced and ships passed from the Atlantic to the Pacific by way of Arctic and Bering Strait. The North-West Passage was found, but it was found to be impractical, and men turned their mind in other directions for a short cut to the Orient. After many years that passage was found, not by way of the frozen waters of the Arctic, but across the prairies and over the mountains of Canada. When our first left their bones among the Arctic snow, others discovered the islands that fringe our northern coast, and now form part of our Dominion. Finally, the passage was forced and ships passed from the Atlantic to the Pacific by way of Arctic and Bering Strait. The North-West Passage was found, but it was found to be impractical, and men turned their mind in other directions for a short cut to the Orient. After many years that passage was found, not by way of the frozen waters of the Arctic, but across the prairies and over the mountains of Canada. When our first left their bones among the Arctic snow, others discovered the islands that fringe our northern coast, and now form part of our Dominion. Finally, the passage was forced and ships passed from the Atlantic to the Pacific by way of Arctic and Bering Strait. The North-West Passage was found, but it was found to be impractical, and men turned their mind in other directions for a short cut to the Orient. After many years that passage was found, not by way of the frozen waters of the Arctic, but across the prairies and over the mountains of Canada. A Crayon Enlargement, 18 by 24 inches, of one of the best photographs of the late Rev. Father Morrissey, the renowned priest-physician, has been prepared for admirers of the priest himself or of his wonderful prescriptions. Better even than the small reproduction above, it is a very handsome picture, worthy of framing. The Father Morrissey Medicine Co., Ltd., of Chatham, N.B., will be glad to send an enlargement, absolutely free, to each one who writes for it. 72

SUBJUGATION OF DOLLY

I have a confused recollection of tearing along the platform frantically waving my portmanteau, of being pushed hurriedly into a carriage of the already moving train and of falling head-first over somebody's feet.

I also remember picking myself up and turning round with profuse apologies! Dolly of all people in the world. My words of apology froze on my lips, while she had been equally taken aback, but after that first moment she had turned her back on me and taken not the slightest notice, while I had sunk into the opposite corner of the carriage.

Al, me! and only two nights previously it all happened, and yet what ages it seemed since I returned home in the afternoon to find no Dolly, but only a note telling me she had left me forever. I'm sure I explained everything satisfactorily the night before we had got home from that rotten dance.

She knew, I said, that she was the only woman I could ever love, that Mrs. Mortimore was less to me than the dust beneath my feet, that never again would I ever see or speak to her. My efforts were in vain, Dolly was obdurate, she was almost insulting, said that any woman could twist me around her little finger with fatery, made many remarks which make me even now tingle to remember. I must confess to myself that I had flitted rather hard with the Mortimore woman, on which I remember Dolly had made sarcastic comments on various occasions, but it certainly was the rottenest of luck that when a little overcome by the music and champagne, and perhaps by the dark seductive eyes of Mrs. Mortimore with whom I was sitting out, Dolly should come around the screen at the identical moment that I was rather more than contemplating a chaste salute.

I remember Mrs. Mortimore leaving us with some inane remarks about "not liking to be present at domestic jars." In fact, she was the only unruffled one of the three.

"How pretty she looks," I thought while the train went rushing on. There's something about Dolly that always keeps me at her feet even if I do like my little flirtations.

Presently we ran into a tunnel, in the murkiness of which I looked across at Dolly. We had been long together by then and the strain was getting on my nerves when suddenly I found myself lunged violently against the other side of the carriage, and for about a half a minute we seemed to be in the midst of a particularly violent earthquake ending with a violent jerk as the train came to a sudden stop.

I picked myself up and went to Dolly's assistance, who pale and terrified, was trying to disengage herself from the luggage, which had fallen on her from the rack.

"Darling," I cried and even at that moment I blessed the accident which had broken the silence between us. "Do tell me you aren't hurt," and I raised her in my arms. The train must have left the rails I continued, "but were all right now?"

"Oh!" she said, and the color began to return to her face. "Do find

out what's happened, I feel so frightened; we are safe now?" And she half clung to me.

I was smitten with remorse and felt I hated Mrs. Mortimore for keeping us apart for three days. I took her in my arms. "Listen to the other people getting out. Tell me, Dolly, and I endeavored to draw her to me, 'that you forgive me everything.'"

But Dolly was recovering. "No, no," she said as she disengaged herself. "don't speak to me now go and find out what has happened."

I opened the carriage door and looked out. The other passengers were excitedly chattering and climbing down from their carriages. Nobody seemed hurt. The guard was hurrying along the train endeavoring to reassure them.

"It's all right now," he said in reply to my anxious inquiries. "Train missed the points and ran off the track; I don't think there's much harm done," and he hurried on.

I turned to Dolly. "We're safe," I said. "I'll just find out how long we shall have to stay here," and I climbed down to the track. "Guard," I said as I overtook him, "how long will it be before a relief train picks us up?"

"Lord knows, sir," he answered. "We've blocked up the line; one of the passengers has just run on the next signal. I expect, he continued, 'you'll have to wait a few hours.'"

"What," said I, a few hours? Why its getting dark now, the passengers will be scared to death," and I thought of Dolly's frightened face.

"Can't help that sir," he said, "but if you don't want to wait there's still a chester less than a couple of miles off. You could walk on there."

I sauntered back to Dolly, resolving things over in my mind. I told matters to her, pointed out that it was impossible to proceed, showed her that if she resolved to go back to town she would not arrive before midnight, offering my escort as far as the hotel, where, I said I would not venture to intrude upon her.

Dolly's manner was not gracious. "I don't care where I go," she said, but I'm not going to stay here in the dark."

"That settles it," said I and shouldering her dressing bag. Our walk was not the most successful we have had. To my occasional remarks Dolly replied only in monosyllables. I think we were both glad when we reached the hotel as darkness had set in and rain, which had been threatening all day, commenced to fall.

"I'll see about your room," I said and preceded her to the office.

"A room for the lady and another for yourself," said the bookkeeper in response to my inquiry. Why no, we've only number 6 left.

"Very well," I said "this lady shall have that and I'll find another elsewhere."

"Dolly," I said returning, I've got your room so you'll be all right." I paused then continued lamely, "so I think I'd better say goodnight," and I held out my hand.

Dolly ignored it. "Where are you going?" she asked. They've one room not occupied," I said so I'm going to find another hotel," I repeated.

Dolly's next remark seemed irrelevant. "I don't think you've been a brute?" I nodded. "I know I oughtn't to forgive you," she continued, "and I never meant to, but this time—and she broke off.—Tatler.

Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments must be combined. One is local, one is constitutional, but both are important, both essential. Dr. Shoop's Night Cure is the local.

The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerves, all tissue and all blood elements.

The Night Cure, as its name implies, does its work while you sleep. It soothes sore and inflamed passages, while the Restorative, assues nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—The Basis of Life—as a general tonic to the system. For positive local help, use as well.

St. George - - - N. B.

Commander Robert Peary

It is over twenty years since Commander Peary undertook his first expedition to Greenland and nearly ever since he has been engaged in the exploration of northern Greenland and the regions beyond. In 1900 he reached latitude 83 deg. 50 min. N. on the polar ocean and in 1902 latitude 84 deg. 17 min. N., each time beating the record for the western hemisphere but falling far short of Nansen's and Cagni's records. In 1906 he started from the northern shores of Grant land just south of the 83 parallel on March 6 with several supporting parties in

front. These were gradually dropped till the only one left was that of his companion in many expeditions, the negro Matthew Hensou delayed by storms and open channels particularly one Big Lead, in front of which he had a camp seven days before a crossing could be effected. Peary pushed on till April 21, reaching on that date latitude 87 deg. 6 min. N. only 174 geological or about 202 statute miles from the pole. His northward progress had been at an average rate of six miles a day Commander Peary reached the Pole on April 6, 1909.

Doctors Condemn

Oily Liniments

The Public are Warned to be Careful of these Strong Smelling Oily Liniments Containing Harmful Acids, Ammonia, Etc.

Many people have clung to the old-fashioned idea that a thick, greasy liniment is the best kind. Doctors say not—and they know.

Recently a number of these white, oily liniments were analyzed, and they were found to contain an enormously high percentage of harmful acids, and such irritating chemicals as ammonia, etc. For the moment they may cause a warm sensation when first applied, but their continued use never cures rheumatism, and only deteriorates the skin, sets up inflammation and causes endless trouble.

When a doctor warns you to quit using a white, oily liniment—do so. He knows that a thick liniment can't penetrate, can't sink through the pores and reach the seat of the pain.

When asked his opinion a few days ago, Dr. Roberts stated that he considered a strong, penetrating, pain-subduing liniment, such as Nerviline, to be superior to any of the white liniments. In his

twenty-five years of experience he had witnessed cases of rheumatism, sciatic and lumbago that simply would not respond to ordinary treatment—but Nerviline cured them.

The same physician also spoke of the great advantages of keeping a preparation like Nerviline in the house always, because of cramps, diarrhoea, stomach disorders, ear-ache, toothache, headache and such minor ailments. Nerviline is a first class cure. There is scarcely an

ache or a pain, internal or external, that Nerviline won't cure. In thousands of homes of homes no other pain-relieving medicine is used.

Fifty years continued success and the endorsement of the profession are proof that Nerviline is the liniment for the home.

Any good druggist or dealer can supply large 25c. bottles of Nerviline.

Cooks on top of the stove, bakes in oven at same time

You can cook over every pot-hole and bake in Pandora oven at same time—and get perfect results. That's because cooking draft is also baking draft. Flues are so constructed that heat passes directly under every pot-hole and around oven twice before passing up chimney. No wasted heat—instead fuel does double duty, saving Pandora owners both time and money. Would you not like to be a Pandora owner?

GOOD CITIZENSHIP

During the past few years very little interest has been taken in municipal affairs. Criticism of the methods of doing public business is hardly fair when the remedy of reform rests with the people themselves. There is undoubtedly ample room for improvement in municipal government, but to do this a keener interest must be taken in civic matters by the whole public or better results cannot be brought about. The people must arouse to a sense of their duty. It is their duty to see that only the best and most capable men are placed in office. It is also the duty of every citizen to continue his interest in civic affairs after the municipal elections are over.

PAPER AND PULPWOOD.

The United States paper manufacturers have soon found that the recent manipulation of the tariff in their own interest, without regard to conditions on this side of the line, was of no advantage to themselves. The progress and prosperity of Canada are not dependent upon tariff legislation of Washington, although we naturally want to live on the most friendly terms with our neighbors. There is no sign of a change of plan on the part of Ontario and Quebec. The Government of this province has decided to stop the export of pulpwood cut on Crown lands, and as the New York and New England producers have largely exhausted their own supplies, and are bound to have material from Canada, they are preparing to bring their plants into this province. It is announced that the interests controlling the Berlin mills in New Hampshire are planning the installation of a print paper mill at La Tuque and that the International Paper Company is now selecting a number of locations for mills, which they have planned and intend to build in different parts of Canada. It will be remembered by those interested in the lumber industry that the Provincial Government nine years ago promised that the stumpage rates, which were fixed at sixty cents per cord on wood cut from crown lands, would not be raised for ten years. It is intended to carry out that pledge. They will remain as at present until Sept. of next year, when the new licensing plan will go into general application, quite irrespective of how paper makers here and those in the United States may feel towards each other.—Montreal Herald.

ROSEBERY'S POSITION.

In the authorized version of Lord Rosebery's Glasgow speech, which he is publishing under the title of "The Budget, Its Principles and Scope," is the following interesting prefatory note by Lord Rosebery:

"It is difficult to know whether any one who is outside politics should, under any circumstances, return to them, for his reappearance has the air of an intrusion, and is, therefore, resented. On the other hand, there are occasions when common honor and honesty seem to compel anyone who has deep convictions not to withhold them from his fellow countrymen.

"I think the crisis in which this speech was delivered is one of this kind. It is, of course, painful to anyone to have to put himself in opposition to old friends and to a party with which he was long connected. As, however, the liberal critics of the speech have all declared that it is wholly ineffectual and rapid, they have evidently suffered no damage by its delivery.

"I may notice, however, the allegation that I have suddenly left the Liberal party. I think the fact would be more accurately stated if it were alleged that the Liberal party had left me. They had gone ahead with alarming velocity. I, on the other hand, have proceeded perhaps too slowly. I am much where I was; they have shot far in advance. Still it is not I who have left them; but it is they who have left me behind.

"I am where I was five, ten, thirty, years ago in respect of party ties. When I severed my official connection with the Liberal party in 1896, I resumed, at the price of that sacrifice, complete independence of political action. That independence I have claimed and exercised ever since, and propose to continue to exercise and claim. I am astonished that anyone at this time of day should grudge it. For there is nothing envious or profitable about it; there is nothing to gain; the reward, if there be one, is invisible.

"At every accession to the Throne the old Great Seal is broken and invalidated, and a new one is fabricated, which gives the only authorized impression. In the same way, at every general election, a new brand is made for the Liberal party, and those who do not bear its mark are outside the legitimate ranks. But it does not follow that they did not belong to the old party and bear the old stamp.

BY THE WAY

Don't kill the song birds.

Key, key, who's got the key?

Portage street is still on the map.

But, oh those workmen's shirts at Franley Bros!

Be sure that you are not shooting a human being, Mr. Sportsman. The experience is not a pleasant one, for the victim or for you.

One of the candidates for municipal honors declined to make a canvas, and did so with a show of indignation. He was not a leader for political purposes.

The fire last week emphasizes the great need of more apparatus. The fire fighters of the town have a proud record, but it is absurd to expect good work done in crowded districts, without some arrangement for water.

With the airship overhead to drop on him, the auto speeding on his own place to butt him, the cautious pedestrian only needs some new devilish contrivance to come up through the ground and hit him in the face to ascertain his nervous collapse.

Hennessey was being taken home in a wheelbarrow by a faithful friend, one night. This friend was giving Hennessey some good advice, saying:

"There's no use your triv' Jerry, you can't drink all the whiskey in the world."

They were passing a brilliantly-lighted distillery at the time, and as Jerry opened his heavy eyes and beheld it, he replied:

"Well, begorrah, I have them workin' nights."

Some day there will be a written law that children shall not be given home work. Home work is cruelty to children and an indication that the teacher who gives it is incompetent. That looks like a wide statement, but our experience is that the facts bear it out.

No first-class teacher needs to give home work. No first-rate school principal will tolerate abomination of home work. No educational system that includes home work as part of its impediments is of the first order. No school board that stands for home work knows its business.—Toronto World.

"Heavens, I am discovered," exclaimed the North Pole as it saw Dr. Cook come trudging in through the front door forgetting to wipe the snow off his feet. "And after all these years, after all these years," it must have been a thrilling scene this meeting of the American explorer and the North Pole—even more impressive than the meeting of Henry M. Stanley and Dr. Livingstone in the heart of Africa. For the North Pole has given the frozen face to so many aspiring men that she was regarded as the coldest proposition in the world.—Baltimore Sun.

A clergyman was once annoyed by people laughing and giggling. He paused and looking at the disturbers he said; "I am always afraid to rebuke those who misbehave, for this reason: Some years ago, as I was preaching, a young man who sat close to me was constantly laughing, talking and making unbecoming grimaces. I paused and administered a severe rebuke.

After the close of the service a gentleman said to me: 'Sir you have made a great mistake; that young man is an idiot.' Since then I have always been afraid to rebuke those who misbehave in church lest I repeat the mistake and rebuke another idiot."

The Ticklyknee

The ticklyknee has another name, But that isn't part of the bedtime game; It is round and fat, ah me, As a butterball, is the ticklyknee.

You wait till the fellow that has it on Is just so sleepy he's almost gone; And then with the tip of your finger you go

Around its top with a buzzing low. Maybe the fellow will laugh right out, And sit right up on your lap with a shout;

Or maybe he'll giggle and yawn and say:

"I des I'm too sleepy tonight to play."

So, then, with a hand on his curly head, You kneel little ticklyknee down by the bed.

And all grows silent except a prayer That the lips of a childheart whisper there.

—Baltimore Sun.

PERSONAL

Gideon Milne has returned to Hartford, Ct.

H. Johnson of Back Bay, was in town Thursday.

W. Grass, of Rnsagonis, returned to his home Monday.

Miss Louise Riordan is visiting relatives in Penfield.

John Thompson, Beaver Harbor was in town Thursday.

Perhaps it is not generally known that in North Sydney the largest volume of telegraphic news, in addition to the usual large business daily transacted, that ever passed through a single office on the continent, was flashed over the wires of the Western Union Cable office here on Sunday last, says the North Sydney Herald. Notwithstanding the fact that thro' the office of the Western Union here are transmitted thousands of words daily from all parts of the Old and New World, the office on Sunday last transmitted to the New York, Boston, Montreal Toronto papers no less than one hundred and forty-two thousand words.

LOCAL AND SPECIAL

You can nominate yourself.

Win one of Greetings useful prizes.

The engineers engaged in the hydrographic survey have gone to Musquash. The report that they were locating a fishway via Clinches brook was false.

Workmen are engaged in building the bridge at Armstrongs. While operations are going on teams are going through the field above the bridge.

Lewis Holt came into town Wednesday with a moose, which he shot near McDougall.

The county court opens at St. Andrews the fourth Tuesday in October, Judge Curleton presiding. Among the cases to be heard will be that of George McShane, vs. the St. George Pulp & Paper Co., N. Marks Mills for plaintiff and Hon. Geo. J. Clarke, K. C. for defendant.

The forty hours devotion in the Catholic church last week, was closed with a powerful sermon on the Real Presence by Rev. Father McLoughlin of Milltown. The discourse of the young preacher was a masterly effort, and made a deep impression on the large congregation present.

The debating club will soon open the season's campaign. Several new members will be admitted that will add to the prestige of the organization. The meetings held last winter were very instructive and enjoyable, and the members are looking forward to the next gatherings with a great deal of pleasure.

Look in Grant & Morins window and see Greetings prizes. They are admired by everyone.

Complaints are made that the watering tank, at the cold spring, is out of order. A few minutes work would repair the damage, and the street committee will, no doubt, attend to it. It would appear that the trouble is caused by putting stones into the pipe. Those responsible should be reprimanded in a way that would remind them that there is a remedy for malicious damage to property.

In a terrible railway wreck Wednesday morning near Bathurst, Engineer Morton of Campbellton, Engineer Whalen of Moncton, Express Messenger Morrison of St. John were killed, and Fireman Cook of Campbellton, Brakeman Jessulat of Moncton, Brakeman Murray of Moncton badly injured.

The result of conference between Surveyor General Grimmer and representative lumber operators from various sections of the province is an understanding that judgment will be used by the Crown Land Department in enforcing the new regulations concerning the cutting of lumber on crown lands. It is understood that every effort will be put forth to preserve the forests of the province both by lumbermen and government.

You can secure subscriptions by asking your friends. Tell them you are in Greetings contest, and they will help you.

Reports from successful hunters in the moose and deer regions are coming in every day. Within a few days, F. Armstrong, Mr. Stickney of Eastport, and Harry Perry have each secured a fine specimen. Benson Mahoney, of St. John, shot a fine deer which he took to St. John on Monday. Parties are going out every day, and in many cases not far from town, and with scarcely an exception all are successful in bringing down a moose or deer.

Tell your relatives you expect their help to win one of Greetings useful prizes.

Mr. I. E. Gillmor was in town Saturday. His new house at Second Falls is about completed. It was Mr. Gillmor's intention to build in St. George, but his rapidly increasing business requiring more ground room he decided that Second Falls offered best opportunities. The past year has been a banner one, and every detail of the business having close personal attention, speaks in a large measure for the success attained by Mr. Gillmor. He will soon make an important announcement in reference to sleighs, robes etc.

The battle is on, votes are coming in. Don't wait get to work now.

This is the Famous
MUTO
CONVERTIBLE OVERCOAT

The particular beauty of the MUTO Coat, lies in its dressy, stylish, trim appearance both in stormy and fair weather. The convertible collar lies snug and neat in either of the two positions and you can see from photographs that it does away with the old style slovenly "turn-up" habit. The tailoring is thorough and covers the smallest details. The fit is perfect, the patterns handsome and thoroughly in the mode.

Come and see this clever coat. We are exclusive agents.

THE GRANITE TOWN GREETINGS

REMEMBER! REMEMBER! REMEMBER!

It takes more of your earnings for foot wear than any other family supply. The reason for this is that you don't buy in the right place.

Remember we are the people to supply you with footwear, our store is the store of stores for footwear. Our place is the place of places for economy shoe supply.

We know what you want, you want shoes without wings, shoes without machinery, plain shoes, stylish shoes, strong to wear, comfort for your feet, easy on your purse.

POMEROY RIDGE

(Too Late for last issue)

Coleman Thornton, made a short visit at his old home this week.

Quite a few of our people attended the fair in St. Stephen.

The recent storm has caused a lot of damage to the meadow hay and the high-ways.

George Hession of Boston, is visiting his father, Mr. Wesley Hession.

Our teacher Miss N. McCallum, attended the Teachers Institute at Milltown last week, and made a week end visit with Mr. and Mrs. Jesuit at Upper Mills.

Edith Stewart was at home while the school was closed for the Institute.

Some of our folks attended the McFarlane McKenna wedding Wednesday evening, at Upper Little Ridge.

Coleman Thornton is moving his family here, and are going to occupy Miss Cora Mitchell's house.

We saw an automobile being driven along the street by a span of horses driven by P. Folsom.

Mrs. Stanley Linton and little daughter are visiting at R. Elton's.

Harvey Caldwell shot a fine moose last week.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars to any case that it fails to cure. Send for list of testimonials.

Address: F. J. Cheney & Co., Toledo, O.

Sold by all druggists, 75c. Take Hall's Family Pills for Constipation.

AT CHERRY'S

AT CHERRY'S

Colds on the Chest

Ask your doctor the medical name for a cold on the chest. He will say, "Bronchitis." Ask him if it is ever serious. Lastly, ask him if he prescribes Ayer's Cherry Pectoral for this disease. Keep in close touch with your family physician.

When you tell your doctor about the bad taste in your mouth, loss of appetite for breakfast, and frequent headaches, and when he sees your coated tongue, he will say, "You are bilious." Ayer's Pills work well in such cases.

Made by the J. C. Ayer Co., Lowell, Mass.

SEELYES COVE

Mr. and Mrs. Bradley Shief and grand children have returned to their home in California after spending the summer here.

Miss Hazel and Laddie Hadley and Miss Ella Unwin have returned to Woonsocket, R. I.

Mrs. Catherine Berry and granddaughter Genevieve, Eastport are visiting relatives here.

Will Ward went to St. John Friday. Our teacher has returned after attending the teachers Convention at St. Stephen.

Mr. J. A. Wentworth, Eastport, is spending a few weeks with her parents Mr. and Mrs. Thomas Spear.

Mr. and Mrs. Caleb Hanson, Pennfield, and daughter Mrs. F. B. Gillmor, Second Falls, spent Wednesday here.

Capt. Chas. Spear, Sch. Porpoise is carrying lumber for the Sea Coast Packing Company.

Miss Florence Carter has gone to St. John to spend the winter.

Contractor Austin and a crew of men have completed some much needed repairs on the bridge here.

Mr. and Mrs. Holland have returned to Providence R. I. after a pleasant visit with friends here.

Stomach troubles would more quickly disappear if the idea of treating the cause rather than the effect would come into practice. A tiny, inside hidden, nerve, says Dr. Shoop, governs and gives strength to the stomach. A branch also gives strength to the heart, and one to the kidneys. When these "inside nerves" fall then these inside organs must falter. Dr. Shoop's Restorative is directed specifically to these falling nerves. Within 48 hours after starting the Restorative treatment patients say they realize again. Sold by all Dealers.

William Murray left on Tuesday morning train for Dyer's station, where he will be employed in the New Brunswick Southern Railway.

Edward Chittick spent 1 Tuesday night in St. John.

A new steel bridge is being built at Little New River, under the management of Bennie Austin.

The temporary bridge at New River went out Wednesday afternoon.

There is a new siding at New River.

A freight shed and barn has been erected at New River, by the New River Lumber Co.

L. B. Knight, spent Wednesday at New River Mills.

Mrs. Annie Giles made a short visit at the New River house.

James McKeever made a business trip to St. George Thursday, returning the same day.

William Newman, the section foreman of New River, left Thursday on his two weeks vacation to Boston.

Mrs. Robert Hamm, returned to her home in St. John Friday, after a recent visit at New River.

James McKeever, spent Sunday in Manquash.

Ben Williams, Roy Daley and William Boyne, spent a serious night in the woods at Popoegan last Tuesday during the heavy rainfall. While during their calls they had several answers with rifles, to their surprise Nick Shay appeared.

John R. McCleskey of St. John arrived at New River with his hunting party, they intend to spend two weeks vacation at Fur Cove.

Mr. Mallen Sept. came out of the woods to spend Sunday at the New River house.

The foreman of New River bridge who intended paying Frederick a short visit was disappointed by washouts on the N. B. S. Railway near Manquash.

SX and COLUMBIA BATTERIES at CHERRY'S

EDISON PORTLAND CEMENT AT CHERRY'S

Go to the blood, if you are to drive out Rheumatism. A Wisconsin physician, Dr. Shoop, does this with his rheumatic remedy—and with seeming success. Rubens, says the doctor never did cure rheumatism. It is more than skin deep—it is constitutional, always. Because of this principle, Dr. Shoop's Rheumatic Remedy is perhaps the most popular in existence. It goes by word of mouth from one to another, everywhere. Greatful parents gladly spread results. It is an act of humanity, to tell the sick of a way to health. Tell some sick one. Sold by all dealers.

For Sale
