

MEXICAN REBELS NOW CONTROL MANY STATES

Government Forces are Whipped and Business at Standstill

FINANCES CRIPPLED BY FAILURE OF LOAN

Huerta Regime Seriously Weakened by Refusal of Recognition by United States—Railroad Communication Broken by Zapatistas.

Mexico City, April 11.—The withholding of official recognition by the United States has materially weakened the Huerta government in the opinion generally expressed by the public, and privately admitted in certain Mexican official circles.

The new rebel movement has made greater progress than has the provisional government in opposing the insurgency, and it is generally believed that the condition of the treasury is such as will not permit much longer a continuation of military operations.

The Chamber of Deputies has not approved the proposed foreign loan, but its failure to take up this matter is said to be due to a desire to avoid further embarrassing the finance department, which so far has been unable to arrange for the flotation of the loan, notwithstanding recent assurances to that effect from London.

Further complicating the financial difficulties harassing the government is the steady increase in the exchange rate which within a week has mounted from practically parity to 230, and that rate is only available to favored patrons. In an effort to check the upward tendency of the exchange rate the Minister of Finance is urging congress to authorize an increase of tax on gold.

This has brought Mexicans to the realization that even the national currency is no longer maintained on a gold basis.

Business conditions in Mexico are reflecting seriously the revolutionary disturbances. Smelters at Monterey, Velasco and Torreon have been closed for lack of fuel. At San Luis Potosi, the smelters are running on half time and at Aguascalientes to a third capacity.

Transportation facilities remain seriously crippled since the railroads to the seaboard and Matamoros are the only outlets.

Rebels in Control. Rebels practically control the States of Sonora, Coahuila and Durango in the north, while the situation in the south, where Emiliano Zapata and his rebel followers are still in control, has not materially changed.

In the State of Nuevo Leon, the federals are slowly regaining possession of the railroad to Laredo, on the Texas border, but the rebels pushed back from this line of communication are extending the zone of their operations far to the eastward.

In Southern Coahuila the rebels are in possession of the immediate neighborhood around Torreon and between there and Chihuahua the insurgents are interrupting traffic on the Mexican Central Railroad almost at will.

So uncertain is the situation in the State of Durango that the government itself is unable to say whether the state capital is in the hands of the government forces. There is no communication between Durango and Mexico City either by railroad or telegraph.

Enjoyable Evening Spent in Hampton

Thirtieth Anniversary of Wedding of Registrar F. M. Sproul Celebrated by Many Friends.

Hampton, April 11.—A most enjoyable evening was spent tonight at the home of Registrar F. M. Sproul in celebrating the thirtieth anniversary of his wedding.

Some thirty guests self invited, invaded his home where singing, recitations and games were participated in and heartily enjoyed. During the evening Sheriff Brown presented the happy couple on behalf of the donors.

POPE PIUS RECOVERING RAPIDLY

His Holiness Yesterday Afternoon Received in Audience Three Aged Bishops—Venetian Pilgrims Visit Vatican.

Rome, April 11.—Despite the injunctions of his physicians and the remonstrance of his attendants, Pope Pius, this afternoon, received in audience three bishops who had headed a pilgrimage to Rome to visit him and bestowed on them the papal blessing. Tonight His Holiness, wearied by his efforts, fell into a deep sleep immediately after his physicians had made their customary call. As they entered the sickroom they threw themselves at the feet of the Pope who was sitting in his armchair. The Pope smiled and, lifting his hands over their heads, bestowed his blessing. This, he said, was intended not alone for the prelates but for the pilgrims who had journeyed to Rome to pay him tribute.

The bishops, who had been warned to make the audience as short as possible, left the papal bedroom, their eyes brimming with tears. Neither Prof. Marchisani, nor Dr. Amici, were present during the reception.

Rapidly Recovering. The recovery of the Pope from his collapse from the influenza apparently is progressing rapidly. His sisters, speaking today with the Parish Priest of Riese, their birthplace, who was the Venetian pilgrim, visiting the Vatican, said the condition of the pontiff was now so satisfactory that it was possible he would be able within a few days to receive some of the pilgrims from his native region. They declared it was the desire of their brother to do so, but that nevertheless his physicians were generally resisting such a plan, wishing that their patient have immunity from excitement in his period of convalescence owing to the weakened state of his constitution.

The pilgrims were received in the royal hall this afternoon by Cardinal Merry Del Val, the papal secretary of state, at the special request of Pope Pius. It was a solemn function. The cardinal addressed the visitors in the name of the Pope and imparted to them the papal blessing. It was with much regret, the cardinal said, that Pope Pius personally was unable to see the pilgrims, especially the Venetians, whom he greatly desired to greet.

An Impressive Scene. The pilgrims arrived at the Vatican led by the archbishops of their respective dioceses. They carried banners and wore the costumes peculiar to their localities. In the royal hall, they were met by Cardinal Merry Del Val, who was accompanied by Mgr. Canali, under papal secretary of state; Mgr. Pascoli, private secretary to Pope Pius and Prince Orsini, and other members of the papal court.

The archbishop of Chieti presented the pilgrims. He said they had come to visit the Pope on the occasion of the jubilee in commemoration of the religious toleration edict issued by Emperor Constantine in the fourth century and to express their sentiments of devotion and of filial loyalty to the pontiff. The pilgrims, he said, regretted that they were unable to prostrate themselves at the feet of his holiness, but were glad to convey to him through Cardinal Merry Del Val, their assurance of faithfulness.

Replying, Cardinal Merry Del Val said Pope Pius understood the sacrifices the pilgrims had undergone in coming to Rome and he would have been most happy to see them if it were possible. "At this moment," the cardinal continued, "more than from the slight illness, which, thank heaven is about to disappear, he suffers from being deprived of the consolation of meeting you."

The cardinal told the pilgrims they would not lose the spiritual advantages of their visit to Rome, as the holy father had implored for them all the blessings and mercy they might desire. He concluded by saying that the pontiff desired that a copy of his last allocution regarding the liberty of the church be given each of the pilgrims as a souvenir of their visit.

The first documents bearing the papal signature since the release of Pope Pius, appeared today. They are decrees by which cardinals Pompili and Van Rossum are made members of the congregation of the holy office.

Both Mr. and Mrs. Sproul were lavishly invited by surprise and made a few appropriate remarks, thanking the guests. The gathering broke up at the "ten o'clock hour." All concluding that it was most enjoyable evening was spent.

LIBERALS NOW BELIEVE THAT THEY WILL FIGHT OVER

No "Situation" Left, Prorogation Only Matter of Weeks

THE OPPOSITION FEARS CLOSURE

Liberal Organ at Ottawa Suggests That Naval Bill Should Be Allowed to Pass and Fight Be Continued in Country.

Special Cable to The Standard. Registered in Accordance with the Copyright Act.

Ottawa, April 11.—There is no "situation" left. Prorogation is a matter of weeks only. Officially the opposition is saying nothing as to the course which will be followed next week. Unofficially it is freely admitted that the fight is over. The government has in its hand a very strong majority in the House of Commons. There is no doubt that the Liberal organ at Ottawa, the Free Press, has been fully realizing and admit the strength of the Conservative position. The talk now is of a "free trade" resolution which will be introduced in the middle of next week, perhaps earlier, with a division on the naval bill following within a reasonable time, probably on Tuesday.

There is a strong feeling in the Liberal ranks that the Senate Liberal will not take the responsibility of throwing out the naval bill. The Ottawa Free Press, the Liberal organ at the capital, has been consistently opposed on the abolition of the navy bill, and which recently advised the opposition to abstain from voting on the bill.

The Free Press admits that "Liberalism on condition that the hateful clause is dropped, should not be allowed to pass, reserving the right to continue the campaign of education against it in the country."

The Free Press further says that "Liberalism has failed to force the Borden government to the country at once for a mandate and adds, 'that fact might as well be faced now as later.'"

In order to "save Canada from the greater of two evils" the Free Press earnestly suggests that the time has come for Liberalism to abandon its demand for an immediate election and permit the Borden navy bill to be passed on condition that the closure is dropped.

According to this paper, "Liberalism has failed to throw its hands in horror at this proposed closure legislation. In face of it, and rather than that it should become law forever, Liberalism has failed to do anything but fight against the naval bill to the public platform in the constituencies."

Of course the local opposition organ is offering, apparently in jest, a suggestion from the Liberal headquarters, to give something that the opposition hasn't got to give. The naval bill will pass with or without the closure. The Free Press is nevertheless of value as showing the changed temper of the Liberals. A change has come over the spirit of their dream.

Mr. McKenzie, Expectant. Mr. McKenzie in resuming the discussion of the closure resolution, said that the last occasion upon which the "Previous question" was brought forward was during the debate upon the Riel trial. It was now being used to deprive the opposition of its rights and liberties. The 9th of April, Mr. McKenzie said, would go down into history as a day of double tragedy, because a political murder had been committed, and the prime minister had committed political suicide.

The Cape Breton member argued that the new rules should not be passed because they were intended to bring about the adoption of a measure of which the people did not approve. He objected to the introduction of the closure under the existing circumstances and said that the Canadian people would show their opinion of it by returning the Liberal party to office at the next general election.

Agrees Debate Should Be Limited. W. M. German agreed with the necessity of some means of limiting debate, but thought there was a vast difference between limiting debate and applying the guillotine as was now proposed. He said that under the proposed rules a bill could be put through in one day. A minister might move the House into committee on a measure, give notice of the termination of the debate on some clause on the following night, move that the committee rise, and not allow the continuation of the discussion until a few minutes before the time fixed for the reporting of the bill. It was the steam roller with a vengeance and the people would stand for it. Mr. German said that there were some clauses which should have been moved, that it was "most unjust, diabolical" for the government to come down with a sledge hammer and say "no discussion" which is not the bill, and it must, and shall go through.

Mr. German will kill it. The House member will see to it that the bill goes through.

LACK OF ENTHUSIASM IS SHOWN IN BRITISH HOUSE

Liberal Members Much Dissatisfied and their Attendance in Parliament is Rapidly Falling Off—Scandals and Petty Fights Rampant in Government Ranks.

Special Cable to The Standard. Registered in Accordance with the Copyright Act.

London, April 11.—It will be recalled that at the time of silver contract between the Government and the Montagu firm, the question was raised whether Sir Stuart Samuel, a partner in the firm, should not be obliged to resign his seat for Whitechapel. The committee now reports on a question of fact, that Sir Stuart was a member of the firm when the contract was made.

The legal question as to whether the contract with the India office were voidable on the ground of fraud in the Privy Council and judgment adverse to Sir Stuart was rendered; thus a bye-election is necessary in Whitechapel where the Liberal majority is only 207. Another bye-election is in Shrewsbury, where the Unionist majority is 568. Neither constituency is important or influential, but the contest excites great interest.

There is some trouble in the Unionist ranks over the proposal to run a free trader as the Unionist candidate in Mid Westchester in the next general election in the room of that present member, a tariff reformer, who intends to retire. For a couple of days, serious danger was threatened if the free trade candidate was adopted and there was grave fear that Borden's Law would be applied to the Unionist candidate.

There is some trouble in the Unionist ranks over the proposal to run a free trader as the Unionist candidate in Mid Westchester in the next general election in the room of that present member, a tariff reformer, who intends to retire. TRADE BOARD ORGAN SHOULD LIE IN STATE UNTIL MONDAY

Steps for Organization of Board of Trade Taken at Meeting Last Night—Delegates to Visit Ottawa.

Taken from S. S. France to Former Home Mid Torrents of Rain—Thousands Watch Procession.

Bathurst, April 11.—A large meeting of citizens at the Town Hall tonight took steps to form a Board of Trade and also dealt with questions of public interest, and elected a delegation to visit Ottawa in connection with the reconstruction of the I. C. R. station and yards.

The delegation is also to interview the Minister of Public Works in connection with the dredging of Bathurst Harbour. A very optimistic spirit pervaded the meeting, and every one seemed bent on giving the good old town of Bathurst, for once, a cheer of a boost. Soon more will be heard of the great future possibilities of the town and the early development of its natural resources.

The delegation elected to go to Ottawa were: His Worship Mayor P. J. Burns, J. B. Hachey, M. L. A.; A. J. H. Stewart, M. L. A.; T. M. Burns and P. J. Venio.

The steamer came into the harbor with her flags drooping at half mast. Through thick weather and amid torrents of rain she crept to her pier. It required nearly an hour's straining by a fleet of tugs to warp the big ship into her slip. All her passengers to follow the funeral party were ashore half an hour before Mr. Morgan's body was taken from its resting place in the mortuary chapel to the hearse.

Mrs. Herbert W. Satterlee, the dead financier's daughter, and Miss Helen Morgan Hamilton, his grand-daughter, the only women in the funeral party, were met aboard the vessel by Mrs. J. P. Morgan, Jr. The three women left in an automobile for the Morgan home before the body was removed. J. P. Morgan, son of the dead man, met the France at quarantine and remained aboard with Herbert L. Satterlee, H. H. Harjes, a partner in the Morgan Banking Company in Paris, and Dr. George Dixon, Julius S. Morgan, grandson of the financier, joined the party when the vessel docked.

When all other passengers had left the vessel the men of the funeral party assembled in the mortuary chapel to follow the body to the hearse. Ten uniformed men of the France's crew carried the heavy casket. Across it was draped a great American flag—the same flag which the United States government gave to the ship to commemorate her maiden voyage as the largest ship which the French had ever sent over to America.

Attendees bearing some of the floral offerings followed the funeral party to the hearse. Among these offerings was a wreath wrought in solid silver from the town of Alg Le Bas, a beneficiary of Mr. Morgan's generosity. A great cross of orchids, which had withered on the trip across, re-

NATIONAL STRIKE WILL SPELL RUIN TO BELGIUM

Competition this Year Much Keener, Judging is Difficult—Lady Driver an Attraction Yesterday.

Amherst, N. S., April 11.—A good attendance, fine weather, and a marked and growing interest in the show, marked the closing day's programme of the fourth Maritime horse show.

Horsemanship in attendance spoke appreciatively of the improvement in the animals shown this year over the first experiment of four years ago. The competition is keener, and hence the judging is more difficult.

The skillful handling of the horses entered by Warden J. C. Purdy, of Amherst, by Miss Blanchard of Kentville, was one of the striking and attractive features of today's programme. Miss Blanchard rode and drove perfectly and when she was presented with the cup donated by Col. H. Montgomery Campbell, of Apohaqui, for the best combination saddle and carriage horse, she was greeted with rounds of deserved applause.

In this class she had close competition with the horse entered by Stanley Logan of Amherst-Point. In the saddle horse-leaper class, Miss Blanchard riding Mr. Purdy's horse Francis, took first place and had the same distinction in the carriage horse shown in harness.

Some of the other notable prize winners were R. A. Snowball, of Chatham, M. Holmes, Amherst; George M. Amherst; Arthur Wallace, Pictou; Fowler and Lowe, Amherst; and Elyer Bros., Amherst Point.

The horse show is now past the experimental stage. It has been demonstrated that it can be made a success and the management should, before another year, endeavor to provide better seating accommodation.

DUTCH PARTY IS SPLIT IN SOUTH AFRICA

Quarrel Between General Botha and General Hertzog Develops Great Bitterness—Election Now Likely.

Special Cable to The Standard. Registered in Accordance with the Copyright Act.

The quarrel between General Botha and General Hertzog in South Africa develops great bitterness, and threatens to create a wide fissure in the Dutch party, which will ultimately prove to the advantage of South Africa by helping to obliterate the line of racial cleavage, now so disastrously impeding the material progress of the country. General DeWet is stumping the country on behalf of Hertzog and has addressed several meetings at which there were scenes of great disorder between the rival factions. Dutch extremists strongly condemn Botha's proposed visit to London to discuss Africa's naval contribution with the Imperial government. DeWet declares that it is disgraceful for a father to be fed by a son and similarly shameful for England to receive assistance from South Africa.

This novel view of the relations of parent and child irritate the British population, and do not command the approval of the moderate section of the Dutch. There is another split in the Dutch party over the University bill and the compulsory learning of Dutch, a very technical dispute which arouses great feeling on both sides. Hertzog now calls on Botha to appeal to the country on the quarrel between the two parties, and probably a general election cannot be long delayed. Its outcome will be pregnant with results for South Africa.

Canadian Trade Affected By Lockout of Dock Workers

COUNTY WILL LOSE ONE MILLION A DAY

Socialists Estimate Fifty per cent. of Industrial Workers will Give Up Positions Monday—Consternation Reigns Throughout Country.

Brussels, April 11.—Belgium stands to lose \$800,000 every day the Belgium strike lasts. The socialists declare and hope 50 per cent. of the industrial workers will leave their jobs next Monday. This is the estimate made by the economists.

The full realization of the tremendous economic blow that is impending is beginning to permeate all sections of the population, and a feeling of great uneasiness reigns throughout the country. The government and the local authorities are fast completing final preparations to meet all emergencies.

According to the latest reports from the strike centres the walkout will be complete among the miners, metal workers, quarrymen and textile workers.

The decision of the glass workers to join the strike has produced something like consternation. Every furnace that is permitted to die down must be destroyed with dynamite and rebuilt. This would involve a total cost of \$180,000. There are 27 furnaces in Belgium whose export of window glass amounts to \$1,000,000 a month. As to the blast furnaces, a majority of which will be allowed to cool off, their extinction will mean a clean loss of \$20,000 daily.

The Antwerp dock workers are causing the strike organizers some uneasiness. They appear to be hanging in the balance as to whether or not they will stop work and desperate efforts are being made to secure their adhesion to the strike movement. A strike by these men would be most important as it would bottle up the entire export and import trade.

A large number of workmen are withdrawing their money from the savings banks.

BIG STRIKE IN BUFFALO IS SETTLED

Motormen and Conductors of International Railway Company Make Agreement with Employers.

Buffalo, N. Y., April 11.—The strike of motormen and conductors on the city and suburban lines of the International Railway Company which began last Sunday was settled today through the mediation of Mayor Louis F. Fuhrman. In arriving at a basis of settlement both sides made concessions. The company officially consented to confer at the Mayor's office with President William D. Mahon, of the Amalgamated Association, and the men receded from their demand that after the resumption of car service, the negotiations on hours and wages, for which the men struck, should be carried on with a committee of the association.

The agreement was signed only by President E. G. Connette, of the railway company, and a committee of the men composed entirely of former employees on city and inter-urban lines. This was regarded as another concession on the part of the men. The strike leaders accepted the company's suggestion that questions which cannot be settled between the committee of employees and railway officials, be left to a board of three arbitrators instead of having Mayor Fuhrman act alone in this capacity.

The basis of settlement provides that all employees who were in the service of the company on the Saturday preceding the day the strike was declared, shall be returned to the service in the positions they held at that time; that within five days the company will take up with the committee of employees all complaints, grievances and the working conditions for the future, including the question of reinstating all men discharged within the last thirty days. It provides for the appointment of the first two arbitrators within forty-eight hours, they to select a third within five days.

AUTO ASSOCIATION GRATEFUL IS TO PREMIER OF NEW BRUNSWICK

Resolution Adopted Thanking Him for Provisions of New Highway Act — Association will Punish Reckless "Joy Riders"—Will Motor to Boston.

The regular meeting of the New Brunswick Automobile Association was held last evening in the Board of Trade rooms. A lengthy report of the Maritime Motor Show was presented showing the show to have been a success.

The secretary reported that 117 applications for membership had been received during the week. The names were voted on and all were elected into the association.

The matter of an automobile show for 1914 was discussed and it was finally decided to hold the show on or before the last week in February. The matter was left to President F. P. Regan to make arrangements with E. M. Wilcox of Toronto, the general manager.

Votes of thanks were rendered to persons who assisted the association during the Motor show.

To Congratulate Premier Fleming.
A resolution was adopted that the president write to Hon. J. K. Fleming, Premier of New Brunswick, congratulating him on the provisions of the new Highway Act as a distinct step forward, and also thanking him for the courteous consideration extended to the association.

To Punish Joy Riders.
There was a lengthy discussion regarding the roads to Rothsay and Westfield, and it was finally decided that the association employ a couple of men to patrol these roads during the summer months, to clear the stones off, repair culverts, etc., and keep the roads in good condition. A committee was appointed to make the necessary arrangements.

The president was empowered to employ a constable at the expense of the association to detect and convict speed violators.

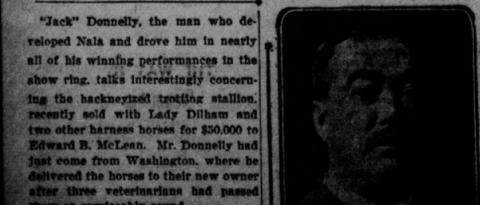

Superiority of French Military Methods Shown
Result of Balkan War has Greatly Shaken Confidence of Germany in Her Methods of Training Soldiers — Her Army Vast Machine, but without Intelligence.

Special Cable to The Standard, Registered in accordance with the Copyright Act.
London, April 11.—General Von Heintz has in the Reichstag made some adverse criticisms of the German army which have attracted much attention. He finds fault with the officers, non-commissioned men and armaments with fine impartiality. If his views be correct, the German army is far from being the perfect machine it is usually imagined to be. His opponents indignantly declare that he is old fashioned and some allowance may be made for the tendency of old soldiers in all countries to declare that the service is going to the devil, but his strictures receive some confirmation from other military experts as I noted before.

The result of the war in the Balkans has somewhat shaken the confidence in German weapons as compared to those of France, but the most serious criticisms made are with respect to the training of the junior officers and non-commissioned officers. It is said that the present system tends to destroy the spirit of responsibility and self-reliance, and to reduce the army to a vast machine working with precision but without intelligence.

French Methods Different.
French methods are radically different. There pains are taken to explain the motives of operations to all ranks and to devolve the responsibility through all grades. Some experts hold that this superior teaching of the French army neutralizes Germany's numerical superiority. They point out that German training necessitates close formation of large masses, which is opposed to modern theories and dangerous before arms of high precision.

ONE OF E. B. McLEANS LATE PURCHASES.

NALA
"Jack" Donnelly, the man who developed Nala and drove him in nearly all of his winning performances in the show ring, talks interestingly concerning the hackneyed trotting stallion, recently sold with Lady Dilham and two other harness horses for \$50,000 to Edward B. McLean. Mr. Donnelly had just come from Washington, where he delivered the horse to his new owner after three waterfurns had passed them as serviceably sound.

It is no secret among horsemen that when Donnelly failed to enter Nala in the open class at Madison Square Garden last fall and to shut him out of his chance to win the championship, there were strong suspicions that an ailing leg and not a misunderstanding of the rules was the real cause of Nala's non-appearance at the National Horse Show. And when his sale was announced all the wise ones wondered whether the "vets" would give him a certificate of soundness in view of his age.

McLean says he has about thirty horses in his stable, and he keeps twenty-five of them.

INDIAN CHIEF FIRM BELIEVER IN EDUCATION

THE OLD AND THE NEW, MRS. LONG-TIME-SLEEP AND MISS CLEMENTS LATRAIL, CARLISLE SCHOOL STUDENT.

The annual commencement exercises at the Indian government school at Carlisle, Pa., has convinced hundreds of visitors, including old Indian chiefs who cannot speak a word of English, that the government is really accomplishing something in the matter of educating Indians.

Among the visitors during the week was Chief Long-Time-Sleep, from the reservation in Montana, accompanied by his wife, Mrs. Long-Time-Sleep, and Miss Clements Latrail. Before going back to Montana, the chief declared, through an interpreter, that what he had seen at Carlisle had made him a firm believer in education for the Indians.

CHINA MAKES DECLARATION OF PLATFORM

Charter of New Chinese Republic Adopted and Presented to World—Recognized by Several Nations.

Washington, April 11.—The Chinese declaration of independence, which took the form of an address to the world, after being read in the cabinet meeting today was made public. The president and his cabinet praised it enthusiastically and formal recognition of the republic by the United States awaits only the actual organization of the constituent assembly which meets tomorrow in Peking.

The text of the address follows: "On this eighth day of the fourth month in the second year of the republic of China, the date fixed for the first opening of our permanent national assembly, the members of the senate and the House of Representatives, having met in these halls to celebrate the event, now make this declaration of sentiments.

"The will of heaven is manifested through the will of the people. That the hundreds of millions of the people possess the authority of the state is not proclaimed now for the first time. The monarchy, so long corrupt, proved unworthy of the grave responsibilities entrusted to it by the will of the people, but with the introduction of popular government the representatives of the people must share the likes and dislikes of the people. They are to give expression to the desires and voice the will of the people; they hold the reins in behalf of the nation to govern with severity or leniency, with parsimony or extravagance; they become the pivot upon which the prosperity of the state is made to turn. For the success or failure, safety or danger, adversity or good fortune theirs is the merit or blame.

"GUNBOAT" SMITH HAS HARD TEN ROUND FIGHT
New York, April 11.—"Gunboat" Smith, the California heavyweight, who has been winning his bouts by knockouts recently, outfought George Rodell, the Boer pugilist, in a ten round contest here tonight. The foreign fighter put up a game battle, going to the floor eight times from Smith's hard punches, but resuming the fight each time. Twice he was apparently knocked out.

Rodell outpointed the westerner in the first three rounds and drew blood from Smith's nose and mouth in the opening round. Rodell forced the pace in the ninth and tenth, but in the latter round he took a count of nine from a right swing.

Who of us can dare to be neglectful of his duties?
Peru and Mexico already have recognized China and the Brazilian Ambassador said today his country was ready to welcome China to the family of nations and was only awaiting action by the United States in compliance with the request of Secretary Bryan for concerted action.

It seems rather a hard thing to believe that our winters are not getting warmer; rather for the past twenty-

WE recommend the Royal Baking Powder as superior to all others. It is indispensable for finest food.

—United Cooks and Pastry Cooks Association of the United States.

WORLD FAMOUS DRIVERS READY FOR INDIANAPOLIS RACE

With the five hundred mile Indianapolis Speedway race less than two months away, the foremost American racing drivers are beginning to get their cars in shape for practice. Among the drivers who will have large personal followings at the Indianapolis Speedway, having teamed with Burman in 1911 and having been relief driver on the team last year, "Bob" Burman will drive a Keston car, the construction of which he is superintending at Detroit.

CHANCE AND HIS WIFE BACK FROM BERMUDA

MR. AND MRS. FRANK CHANCE

Here is shown Frank Chance, manager of the Yankees, and his wife, pictured on the arrival in New York, following their stay in Bermuda.

EMIGRATION FROM JAPAN

The Japanese Consul General Writes to Premier that Japanese Government Will Regulate Emigration.
Special to The Standard.
Ottawa, April 11.—At the opening of the house, today, Mr. Borden laid on the table the following letter from Mr. Nakamura, Imperial Consul General for Japan:
"The undersigned, His Imperial Japanese Majesty's consul general at Ottawa, April 11.—"

They have stood the test. Many settlers tell of backache, rheumatism and urinary troubles cured by Dodd's Kidney Pills. Mr. Otto Oshowski is one of these. In speaking of his cure he says:

"I suffered from kidney disease for four months. My back ached, I had heart flutterings and was always tired and nervous. My limbs had a harsh, dry feeling; my limbs were heavy; and I had a dragging sensation across the loins.
"I consulted a doctor, but, as I did not appear to improve, I decided to try Dodd's Kidney Pills. I used six boxes, and now I am all right."
"Dodd's Kidney Pills always stand the test. Ask your neighbors.

CHRIST AND HIS CHURCH

Eloquent Sermon by Dr. Charles T. Edwards in Central Presbyterian Church, Brooklyn, N. Y.

Dr. Chauncey T. Edwards, pastor of the Bay Ridge Presbyterian church, preached a strong and convincing sermon on "Christ and His Church" in the Central Presbyterian church, Brooklyn recently.

When Jesus entered Jerusalem, or just before he had to speak a parable because they thought the Kingdom of God should immediately appear.

Now we have read and we have known of the conquest of man by Jesus Christ. It is a thing that is very peculiar. It was so complete a transformation in the case of the Apostle Paul that he said, speaking out of his own experience, "If any man be in Christ, he is a new creature."

And all at once it seemed as if his living soul was flashed on mine. And mine in his was wound and whirled.

And came on that which is, and caught. The deep pulsations of the world; Aeolian music, measuring out the steps of Time, the shocks of Chance.

The union of the individual with Jesus Christ is so close that it leads a man to want to justify to himself, all his own trouble, all the crosses that he has to carry, all the injustices that he has to suffer.

But I never knew anybody who thought of saying, "To me to live is Sir William Hamilton." I never knew of any astronomer who would say, "To die would be gain, because I would then know all that Kepler deemed to know."

In a month's time we will celebrate the Lord's Supper. It is today the oldest of institutions, the wisest of the human celebrations. Ever since Jesus instituted it, the same night in which He was betrayed, there has not been a year in which it has not been repeated.

So perpetuate and to socialize are the two necessities of human progress. If you wish to have your church side out, destroy the regular celebration of your rites, but if you find a church that in form, word, spirit, thought, this institution, you may be sure you will find that will make you at home.

To perpetuate and to socialize are the two necessities of human progress. If you wish to have your church side out, destroy the regular celebration of your rites, but if you find a church that in form, word, spirit, thought, this institution, you may be sure you will find that will make you at home.

To perpetuate and to socialize are the two necessities of human progress. If you wish to have your church side out, destroy the regular celebration of your rites, but if you find a church that in form, word, spirit, thought, this institution, you may be sure you will find that will make you at home.

CHANGED CONDITIONS IN LUMBER CAMPS OF TODAY

So Far as the Health of the Men is Concerned There is But Very Little Difference—Our Bodily Constitutions are Pretty Much as We Make Them.

There is extraordinary magic in the forests of Canada. Scratch them with buzzsaws and they not only shower gold but not away the evil spirits of disease and breathe upon their patrons vigor of body and length of days.

Consider the youthfulness of some of Ottawa's lumber patriarchs. Hon. E. H. Bronson, nearly 70, is as keenly alive as ever to matters of business. Mr. Hiram Robinson, 82, is building business blocks and still goes fishing every summer.

Senator Lodge was talking in Boston about certain investigating committees. "They are like the brook," he said, "they flow on forever. Some of them, in fact, remind me strongly of St. Hoskins."

"What are you doing, Si?" "I'm paid to shoot the muskrats, sir," he answered. "They're undermining the dam."

"There goes one now," said I. "Shoot, man. Why don't you shoot?" "Si puffed a tranquil cloud from his pipe and said: "Do you think I want to lose my job?"

"What is a Liberal leader?" "Well," replied Senator Sorghum, who had been to Ottawa, "sometimes he is very much like the orchestra leader, the man who provides a gestation and general excitement while somebody else is doing the real work."

And we shall see how all God's ways were wise. And what we deemed reproof was love most true.

That is the impression that Jesus has left on the men and women who have read the "Fiest" of the Bible. "This book will keep you from sin; sin will keep you from this book."

But after all, the great evidence to us of the nature of Jesus is that which lies back of all these appearances or evidences, even Jesus Himself. Nobody could have imagined His story. No dramatic analyst of human character could ever have fancied such a story and such a man.

But after all, the great evidence to us of the nature of Jesus is that which lies back of all these appearances or evidences, even Jesus Himself. Nobody could have imagined His story. No dramatic analyst of human character could ever have fancied such a story and such a man.

But after all, the great evidence to us of the nature of Jesus is that which lies back of all these appearances or evidences, even Jesus Himself. Nobody could have imagined His story. No dramatic analyst of human character could ever have fancied such a story and such a man.

ECZEMA CAN BE CURED I Will Prove It to You Free

You who are suffering the tortures of Eczema, Itch, Salt Rheum or other skin diseases—you who days are miserable, whose nights are made sleepless by the terrible itching, burning pain, let me send you a trial of a good, safe, healing treatment which has cured hundreds, which I believe will cure you.

J. G. HUTZELL, 215 West Main St., Fort Wayne, Ind. Please send without cost or obligation to me your Free Proof Treatment.

The Centre of Interest For Breakfast Ready to Serve Palatable Nutritious

Between Women's Health or Suffering The main reason why so many women suffer greatly at times is because of a run-down condition. Debility, poor circulation show in headaches, languor, nervousness and worry.

BEECHAM'S PILLS The Largest Sale of Any Medicine in the World are the safest, surest, most convenient and most economical remedy. They clear the system of poisons, purify the blood, relieve suffering and ensure such good health and strength that all the bodily organs work naturally and properly.

Make All The Difference Sold everywhere. In boxes, 25 cents. Women will find the directions with every box very valuable.

Kellogg's CORN FLAKES

Don't Diet Yourself TO DEATH TO CURE DYSPEPSIA OR INDIGESTION. IT ISN'T NECESSARY.

While it is necessary for the dyspeptic to abstain from rich, greasy, fatty, seasonings, food, it is used and injurious to deprive the sufferer of a full supply of good nutritious food sufficient for the needs of the body.

Weakness of the body will never remove dyspepsia, on the contrary, all efforts should be to maintain and increase the strength.

Burdock Blood Bitters will increase the strength and at the same time enable one to partake of all the wholesome food required, without fear of any unpleasant after results.

Miss Martha A. Brooks, Gagetown, N.B., writes: "I have been troubled with indigestion for more than seven years. I have tried several doctors and different medicines, claiming the power to cure, but all without success. Having heard of the many cures effected by Burdock Blood Bitters, I decided to give it a trial. I have taken only one bottle, and that one has done me more good than all the other medicines I have used. My appetite, which was very poor, is now good, and I can eat most everything without any disagreeable feelings."

Burdock Blood Bitters is manufactured by The T. Milburn Co., Limited, Toronto, Ont.

The old folks are never lonesome—they always have company when there's an Edison Phonograph on the table

For them and the young The real fun and enjoyment afforded by an Edison Phonograph is unequalled by any other instrument made. A call on your Edison dealer will convince you.

FINANCIAL AND COMMERCIAL NEWS AND COMMENT

CLOSING STOCK LETTER FROM RANDOLPH

New York, April 11.—The opening was moderately active, with only trifling price changes. Stocks were, however, supplied at the opening level, imparting a heavy tone to the general list. During the morning, fluctuations were extremely small and trading dull and professional. There was some heaviness in the trunk lines, B. & O., New York Central and Big Four all declining, while Pennsylvania failed to regain any part of the big loss it has made since the new issue of stock was announced. Brooklyn R. T. was strong on rumors of a considerable increase in the dividend and Can Pac. was well bought for Europe account. In the afternoon selling pressure increased a little and the bears reined the market quite vigorously, forcing declines all along the line. The gains did not, however, so far, and support was rendered at the lower level. The market rallied in a listless sort of a way before the close, but only part of its early loss was recovered, and very general declines were registered as a result of the day's dealings. Call money was easy, but the time money market remained firm and unchanged. The known movements of money indicate a gain in cash by the banks, so that a favorable statement is expected to-morrow.

Total sales stocks, 343,000; bonds, 23,390,000.

E. and C. RANDOLPH.

THE LUMSDEN MINING CO.

Albert, April 10.—At the first general meeting of the Lumsden Mining Company, Limited, held this afternoon at the company's office at Albert, George D. Prescott, M. P., Isaac C. Prescott, warden of the county; William A. McPherson, mining engineer; Allan W. Bray, barrister-at-law; Orin A. Reid, merchant, and Thomas J. Dillon, trader, were chosen directors. Afterwards at a meeting of the board of directors Isaac C. Prescott was chosen president; Orin A. Reid, vice-president; George D. Prescott, secretary-treasurer; Wm. A. McPherson, managing director; Thomas J. Dillon, sales agent, and Allan W. Bray, solicitor. A prospecting of the company was approved, the by-laws adopted and a resolution passed placing one hundred thousand shares of the company on sale, the moneys derived from the sale of these shares to be used for future development and buying machinery.

ST. JAMES CHALLENGE ST. JOHN HIGH SCHOOL

Sporting Editor of The Standard.
Dear Sir:—The St. James' Basketball Team would very much appreciate and would deem it a great favor if you would kindly insert the following lines in your paper:
Owing to an article which appeared in the Y. M. C. A. Academy which the St. John High School made very uncomplimentary remarks regarding St. James' playing and floor, using them as a shield to cover their own playing.
The St. James' Basketball Team therefore, challenge the High School Basketball Team to a game of basketball at any time it suits the High School, on their own floor, allowing them to choose their own referees, and other officials. If the High School team will not play under these terms, St. James will play under any terms they wish to make. St. James has already defeated High School three times for a total score of 85 to 35 and by this challenge now gives the High School a chance to make good.
Thanking you for your valuable space, believe me, faithfully yours,
GORDON HOLDER, Capt.
J. C. MURRAY.
St. John, N. B., April 11th, 1913.

UNWELCOME VISITORS ENTER SUSSEX HOUSE

Sussex, April 11.—While Mrs. Ora P. King was absent from Sussex her house was entered and much damage done. Everything in the house had been disturbed and was in the greatest disorder, but nothing of importance was taken. Chief Abbeil was called into the case, and is working on it. There are several clues which may lead to the apprehension of the guilty party.

BANQUET TO HOCKEY TEAM.

Chatham, April 11.—A most enjoyable banquet was held at the Touraine Hotel on Tuesday night. The occasion was in honor of the St. Thomas' College hockey club, the winners of the North Shore Intermediate Hockey League. There were present Dr. Duffy, president of the league; Frs. Pickett, Hart and Roach, His Worship Mayor Cassidy, the league executive and the members of the club.
After the banquet Dr. Duffy presented the Leungil cup, the gift of Dr. Leung of Boston, and emblematic of the championship to the St. Thomas' Hockey Club. Geo. Duncan, captain of the team, accepted the cup on behalf of his teammates, and preferred to give three cheers to giving a speech. Gerald Foley spoke of the skillful management of Fr. Pickett, to whom much of their success was due. Other speakers were Messrs. J. Currie, T. Morrissey, T. McDonald. Before departing the guests gave three rousing cheers for Dr. Duffy, to whose generosity was due the sumptuous banquet.

A FABLE.
A Rabbit, having experienced a severe winter, went to the Lion and said: "Powerful Sir, let us skin all the Larger Animals once a year and make clothing for the Smaller Ones."
"Agreed," said the Lion. "We will begin at once. I am sure the Rat and the Mouse will be delighted, when Winter comes, to wear a RABBIT SKIN."
—New York Herald.

DOW JONES CO'S CHICAGO GRAIN PRODUCE PRICES AND PRODUCE IN CANADIAN CENTRES

12 industrials advanced .05 p. c.; 20 active rails declined .35 p. c.
DOW JONES.

(F. B. McCURDY & CO.)
Chicago, April 11.—Wheat—Opened steady on the cables, but has since sold off on lack of demand and on rather free local selling. There does not seem to be much liquidation, bulk of selling is short stuff, new trade receipts still running very light.
Corn—Opened firm on the wet weather and light receipts but the market is easy now on selling by weak longs, the corn put on the market yesterday having gone into weak hands.
Oats—Firm early on buying by commission houses and shorts, market weakened in sympathy with other grains, market very light.
Provisions—Most of the trading in provisions so far has been in pork. The market is firm.
A. O. SLAUGHTER & CO.

Montreal, April 11.—OATS—Canadian western No. 42 1/2 to 43; Canadian western No. 3 39 1/2 to 40; extra No. 1, feed, 40 1/2 to 41.
FLOUR—Manitoba spring wheat patents, firsts, \$5.40; seconds, \$4.90; strong bakers, \$4.70; winter patents, choice, \$3.25; straight rollers, 4.85 to \$4.90; straight rollers, bags, 2.20 to \$2.35.
MILFEED—Bran, \$20; shorts \$22; middlings, \$25; moullie, \$30 to \$35.
HAY—No. 2, per ton, car lots, \$11.50 to \$12.50.
POTATOES—50 to 65.
AN EDITOR'S ESCAPE.
London, April 11.—As the editor of the Evening Standard, an anti-suffrage newspaper, was leaving his office tonight a woman of about forty years of age who was lying in wait threw a stone at him. The missile missed its mark but crashed through the window of an adjoining office and injured the night watchman. The woman who threw the stone escaped.

Na-Dru-Co Headache Wafers
Certainly do make short work of headaches. 25¢ per box.

GOING FISHING?
DON'T FORGET A FLASK OF THIS GOOD OLD SCOTCH

OFFSETS THE BAD EFFECTS OF EXPOSURE TO COLD AND WET

YOU CAN BUY IT ANYWHERE

NEWSPAPERS ON SITUATION IN MARKET

(F. B. McCURDY & CO.)
New York, April 11.—Tribune—Conservative traders do not view the situation through pessimistic eyes, as they see few signs of any selling which can be accepted as real liquidation.
Herald—With clearing political skies abroad, and the elimination of the "tariff scare" at home, there is every incentive for insiders to buy sound securities.
World—The strength of the market seems to be almost entirely due to the covering of short contracts and not to any heavy absorption by the public or support.
American—The strongest bull argument of the railroads is the excellent start the crops are getting.
Sun—Purchasers are apparently reluctant to follow prices up without positive encouragement against the cautionary considerations which political and financial developments have inspired in the last few days.
American—A quiet market is expected over the week-end. Confidence is expressed in the speculative position, and activity is anticipated at advancing prices next week.
Bright, or Lazy?
"Johnny, I don't believe you've studied your geography."
"No, mum; I heard pa say the map of the world was changing every day an' I thought I'd wait a few years till things got settled."—Brooklyn Life.
A FRIGHTFUL FIRE
Causes widespread sorrow—likewise a lively corn causes much pain—the cure is "Putnam's," the old reliable Putnam's Corn Extractor, that never fails and always cures; try it, 25c. at all dealers.
Go Ahead, Johnny!
Teacher—Johnny, after winter is over what comes next?
Johnny—Spring, ma'am.
"Then what do you look for?"
"The spring series, ma'am."—St. Louis Republic.

ST. JOHN, N. B., SATURDAY, APRIL 12, 1913.

CONDEMNED OUT OF THEIR OWN MOUTHS.

Mr. Frank B. Carvell and Hon. William Pugsley have been found guilty of as deliberate inconsistency in the matter of the Closure. They have been discovered as the most agile acrobats in the vandeville Liberal troupe of performers. The Simon Pures of the Opposition are in reality the greatest sinners of them all, for Mr. Carvell, on the Closure in 1908, as a member of a party in power, is a different being to the present member of a party in the cold shades of opposition, and the same applies to Mr. Pugsley.

Here are the words of Mr. Carvell on the day of April 10th, 1913: "I was on the committee three years ago and up to that time nobody ever thought of Closure. We never discussed such an extraordinary and vicious principle."
But here is the way in which the same member dealt with the subject on June 5th, 1908, in the House of Commons, when applied to the Opposition that day, Mr. Carvell said: "The action of these Hon. Gentlemen raises the question fair and square: Can the Government of this country, whether Liberal or Conservative, afford to be placed in such a position as that? Can any Government afford to place itself at the mercy of an Opposition and virtually declare that if the Opposition do not like anything contained in legislation that is introduced, all the Opposition has to do is to withhold Supply and the Government will back down? Carried out in practice you have a country ruled not by the majority but by the minority."

"I ask again: Can any self-respecting Government afford to be placed in this position? I say there is only one solution to this question: If this Opposition or any other Opposition chose to pursue such a course, the inevitable consequence will be the Closure. I am not the first one to advocate the Closure."
But Mr. Carvell went further and proceeded to quote part of an editorial appearing in the Montreal Gazette of June 1st. The editorial read as follows: "It is not the use but the abuse of right of discussion that creates public weariness and leads people to upset the natural order of things and to think of the Government, which acts as of more importance than the Parliament that only talks. So, probably, the mass of the people without knowing much about the situation, would approve of a plan which promised to shorten the Session of Parliament by checking the flow of unreported talk. Closure began in the French Parliament. It was adopted by that of Great Britain. It exists in the Congress of the United States. These are in their way the three leading parliamentary bodies in the world. What they have agreed to accept may be expected to come in other popularly ruled countries."

That is the quotation and the Member for Carleton adds: "To my mind that is the proper doctrine."

But he did not stop there. He proceeded: "Therefore, I say that this is a matter which ought to be discussed thoroughly, and I believe that if the Opposition determine to persist in this unpatriotic, unworthy course the next move the Government will have to take, is to adopt the Closure. And I now say to the Government that, in my opinion, while I think that it is the only course they can pursue, it is one that will be sanctioned and approved by the people of this country. Let the Government start in at once to change the rules of this House, if it takes months to do it, in order to adopt the Closure."

As Mr. Arthur Meighen remarked in the House on Thursday night, "These are the words of the Member for Carleton, who thinks it is his Province was disgraced because a member from the Province of New Brunswick had something to do with the introduction of this resolution."

But what of the attitude of the other Simon Pures of the Liberal party, who was the first on Wednesday afternoon to try to obstruct and defeat the passage of Closure? What did Mr. Pugsley say on July 24th, 1911 in the House of Commons when he was Minister of Public Works? He said in terms very clear and unmistakable: "The threats which Hon. Gentlemen have made this afternoon tend to show almost, if not quite, revolution in the theory which has hitherto prevailed. That theory has been that the Government would recognize not only their rights but their duty, and that in the will of the majority shall prevail. That is recognized throughout the country as governing all assemblies, all meetings in which people are assembled, and at any meeting attended by the people of this country, there has been fair play and reason. The opportunity for the discussion of the Closure, the majority have al-

ways recognized that the view of the majority shall prevail, so far as all events as that body is concerned; and so in this Parliament.
"I ask Hon. Gentlemen opposite whether after Hon. Gentlemen have had a full opportunity, as they have had during the time that this question has been under discussion, of expressing their views it is not tending to destroy free parliamentary institutions for Hon. Gentlemen to rise as they have risen today and threaten that this question shall not be allowed to come to a vote."
This statement of the Member for the City of St. John, made less than two years ago, is a clear indictment of the tactics of his own party during the past six weeks. Mr. Pugsley thought in 1911 that such tactics applied to his party upset the whole theory of British Parliamentary Institutions. He does not think so now in opposition. The just of office has changed his mind.

But in the same speech some Conservative member interrupted: "What about 1896?" That was the occasion when the Liberal party obstructed, and Mr. Pugsley answered: "I do not care what took place in 1896. I was not here in 1896. I say it is not in harmony with the principles which ought to govern parliamentary institutions that gentlemen should rise in their places and threaten, simply because their views are not the views of the majority, that there shall be no opportunity to vote upon this question and no opportunity in a constitutional way of giving expression to the views of the majority of this House. That is revolutionary; it is not in harmony with the principles of constitutional government."
The people of New Brunswick can for themselves contrast the present attitude of the two New Brunswickers with that of a very short time past. What will be their verdict? That the Opposition is denying its past and that the principles of true Liberalism are being sullied and stained by men who claim to be its representatives.

CHINA'S FIRST PARLIAMENT.

It is of interest to note that the latest movement in the Republic of China towards becoming "Westernized" is the establishment of a Federal Parliament. In this decision China is following the example of Japan, but being a Republic, pushes the imitation a long step further by dispensing with the "hereditary executive." The ruling regime seems to be a military ascendancy tempered by political necessity. A parliament for China is a radical change in a very old nation, and is still on trial.

In an instructive article reviewing the situation in China, the Boston Transcript refers to the fact that a Federal Republic was long the purpose of a band of Chinese reformers, men of Western training. To reap the fruits of the revolution that overthrew the Manchu dynasty was the fixed purpose of the military element now dominant in administration.
"We shall know," comments the Transcript, "whether the Chinese law makers make laws or simply register decrees. The ultimate relations of the branches of the Chinese Government are yet to be worked out, but we need not give up to discouragement if the process is protracted. Centuries were required to bring the parliamentary system of Great Britain to maturity, and it would be gross flattery of the Chinese millions to attribute to them the same degree of political development the British masses had attained when their great National Council began."

Canada's trade with China is not yet very extensive. The imports last year were valued at \$567,947, and the exports at \$415,628. A unique opportunity to study the trade at close range will be afforded Hon. George E. Foster, Minister of Trade and Commerce, who has accepted the invitation of the Chinese Government to visit the new Republic on his way home. Should the Chinese Parliament be in session Mr. Foster will doubtless avail himself of the privilege of watching the deliberations of the two Houses. They consist of 596 Representatives of the people, and 274 Senators; figures which indicate that the two legislative bodies of the Celestials are among the largest in the world.

Quebec's Advice.

(Montreal Herald.)
Two crowded train loads of immigrants arrived in Toronto. Only fifty of them stayed in Ontario, the rest going on at once to the West. It is about time that the East woke up and attracted some of these newly arrived citizens. There are countless opportunities for them on this side of the Great Lakes, and the depopulation of the Eastern Provinces has been allowed to go on too long.

Humanity First.

(Christian Guardian.)
The woman is more than the factory; the child is more than the currency.

DIARY OF EVENTS

HISTORIC DAYS IN CANADA

FIRST EARL OF DURHAM.

John George Lambton, first Earl of Durham, one of the most picturesque and striking figures in Canadian history, was born 121 years ago today. He had made a great reputation as statesman and diplomat when, in 1838, the helm of the Canadian ship of state was placed in his hands. His brief and brilliant career as governor was marked by the announcement of a policy which became the basis of the great Dominion of today. Charged with having exceeded the powers conferred upon him by the special act of parliament under which he had been appointed, and his course disapproved by a vote of the House of Lords, the Earl returned home without waiting for his recall. He made an able defence of his course of administration, which was practically justified by being adopted by his successors.

FIRST CANADIAN CARDINAL.

Archbishop Elzéar Alexandre Taché, the first Canadian cardinal, died in Quebec 15 years ago today. Born in Quebec in 1820 he entered the priesthood at 22, was consecrated archbishop of Quebec in 1871, and in 1888 was elected to the sacred college receiving the red hat as the reward of a long life devoted to educational progress.

THE PASSING DAY.

A GREAT LIBRARIAN.

Many multi-millionaires contributed fortunes to the erection of the great public library in New York, which is claimed to be the finest institution of its kind in the world. Dr. John Shaw Billings, who died recently, contributed something more than money, and to a considerable extent the giant edifice that houses many literary treasures is a monument to his memory.
Today is the anniversary of Dr. Billings' birth in Indiana in 1829. He was a physician, army surgeon, librarian of the United States Surgeon-General's office, statistician for the census bureau, professor of physiology at the University of Pennsylvania before his appointment as director of the New York Public Library in 1896. He worked hard and with effect toward making the library popular and a resort for people of all classes seeking information in any domain of knowledge.
"No man who you are, or what your work or business is, we can help you," was the invitation extended by Dr. Billings to the people of the largest number of libraries. Under his direction the library was housed in the largest and finest edifice of its kind in the world. Over two million people visited that great building last year. The library and its branches has more than two million volumes.
Among the branches, the one most patronized, and which circulates the largest number of books, was located in the heart of the east side, among a population of "ignorant foreigners." Another notable result of Dr. Billings' proposals last year was the reduction in fiction reading, only forty-seven per cent. calling for books of that character.

BULL FIGHTING IN SPAIN.

The first bull fight in Spain was held in Madrid on this date in the year 1290, and was attended by a tremendous crowd, including leaders of church and state. The populace immediately gave their approval to the sport, and it has continued as the foremost and favorite pastime of Spaniards to this day.

THE HUMAN PROCESSION

WHAT NEWSPAPERS PRINT.

What is news? It is synonymous with suffering. Dr. James J. Walsh, the eminent physician and authority on physiological psychology, who, although he is only 48 years old today, has won a reputation as a savant that extends to many lands. In the course of a recent series of lectures on "The Mystery of Suffering and Evil" the New York physician pointed out that if the newspapers were deprived of all items relating to matters involving human suffering, the front page would be bare.
The biggest news story in modern times, he declared, was the Titanic disaster, and this because it involved the most suffering and pain. The death of Capt. Scott and his companions, the Omaha torpedo, the great floods, he gave as recent examples of the relation of suffering to news. Wars, earthquakes, loss of vessels at sea, great fires, and other disasters in which there is much human suffering under peculiar circumstances, make the most interesting news, asserts the physician.
Sympathy for suffering is a desirable attribute, but Dr. Walsh holds that too many waste their store of pity on lachrymose fiction and weepy dramas. It is his theory that when sympathy is showered prodigally on novel heroines, and stage heroes, the individual is likely to become callous and indifferent to real human suffering.

THE "FIVE AND TEN."

Frank W. Woolworth, who started a five and ten-cent store on a borrowed capital of \$300 and is now a multi-millionaire, and the owner of the world's highest building, will celebrate his sixty-first birthday on Sunday. The great merchant, whose chain of stores glides this continent and extends to England, was born at Redman, N. Y., April 13, 1852. The fifty-five story office building on Broadway, New York, which bears his name, was reared with the shingles and dimes that pour into the more than 600 stores of the Woolworth system. The Woolworth residence in Fifth Avenue is a veritable palace, also built with the lowly five and ten cent pieces.
The first Woolworth store was opened in Utica, N. Y., in 1878. It was the pioneer five cent store of America, and it was also a failure. Mr. Woolworth next tried his idea in Lancaster, Pa., where it struck the popular fancy. From time to time Mr. Woolworth opened new stores. Some of them failed and were closed. Others succeeded, and became units that daily added to the store system.
Mr. Woolworth attributes much of his success to knowing when to quit. When a store didn't pay soon after its opening, it was closed. No stores were permitted in the Woolworth chain of stores. Every place has to pay or hang up the shutters on the windows.

OPHELIA'S SLATE

IN LIGHTER VEIN

Had His Number.

A Philadelphia lawyer and sonneteer was describing some of his experiences in a speech of eulogy. "I once entered a shop," he said, smiling, "and the salesman pointed out to me a dilapidated chair. 'That there chair, sir,' he said, impressively, 'belonged to Louis Croquet, King of France. 'Louis Croquet?' said I. 'Why, there's no such person.' 'Oh, yes, there is, sir,' said the salesman, and he showed me a ticket marked 'Louis XI.'"—Liverpool Post.

The Late One.

He said he'd call at seven. But we were forced to wait in worry and impatience till a quarter after eight. How excellent, how good to see a man of Punctuality!

Too Luxurious.

Mary HAD a little lamb, Observe the tense, we pray, For with the prices that prevail It couldn't be today.
—New York Sun.

Misunderstood.

Now you may take them off—held on! Stop those protruding ears. We don't mean what you think, no! Storm windows and storm doors.

Comforting.

Dauber—"Podgers' art critic has roasted my picture humorously." Friend—"Don't mind that fellow. He's no ideas of his own, he only repeats like a parrot what others say."

Indiscretion.

"The Parvenus are furious at that society reporter for saying there wasn't a jarring note" in their last affair.
"I suppose the poor wretch didn't know they made their money in preserves."—Town Topics.

Shine!

Ethel—What beautiful shoes your next partner is wearing. I should think they must be done with Cherry Blossom boot polish.
Maud—Yes; isn't it a comfort he shines somewhere, even it is at the wrong end!—London Opinion.

Most Intensive.

"Do you believe in intensive gardening, Mrs. Hoerak?" asked the visitor.
"Well, rather," said Mrs. Hoerak. "I spent all last winter raising one geranium in a soap box."—Harper's Weekly.

What are the sounds I am hectic to hear.

Clamor I've missed for full half a year Noises subdued through a winter sans cheer. When missing were war club and mitt? The flap of the flag on the old flag-pole? The cry of the coacher, now caudic, now droll? The voice of the bleachers that comes from the soul Pleading with Yeager to hit? Yep, that's it.

DERRICK

RAACIETY OF AUSTRIA IS CRITICISED

Special Cable to The Standard, Registered in accordance with the Copyright Act. London, April 11.—When the ambassadors of the great powers met at the Foreign Office nearly five months ago they ventured to prophesy a peaceful result of their deliberations, but pointed out that Austria was a complicating factor, and that the danger point lay in Albania, Austria being resolved to exclude the Balkan powers from access to the Adriatic. I am emboldened to recall this diagnosis of the situation by Sir Edward Grey's startling revelation of the narrow escape of Europe from a general war, it is clear that the peril has lain entirely in Austria's policy, originally based on her selfish desire to retain a monopoly of trade. It seems to have been a later idea to design for aggrandisement. Probably Montenegro's resistance overrode the hope that she would be able to absorb that country as she absorbed Bosnia and Herzegovina. This naturally produced the profoundest irritation in the Slav nations. That the catastrophe was averted is largely due to the masterly policy of Sir Edward Grey, which excites general admiration, but in an even larger degree it is due to the firmness of the Russian government. Had the Pan-Slav movement in Russia gotten out of hand, Grey's policy would have been largely unavailing. The Czar has shown unexpected strength and firmness by sanctioning the participation of the triple entente in the naval demonstration, which is hateful in Russia and indeed nowhere, popular, except in Austria. The other powers go to Scutari not because they want to go, but because Austria goes. In a sense, it is not only a demonstration against Montenegrin obstinacy but against Austrian rapacity. May Absorb Montenegro. The preservation of peace is now pretty well assured. Austria, therefore, succeeds in her designs, but a

HARTZELL

WOLTER

The above pictures show some of the prominent ball players who are ready for the coming season. It is on these men that the Yankees place their hopes for the pennant.

closer inspection serves to dim her triumphs. If she hoped to absorb Montenegro, she seems doomed to disappointment, since it is more likely that Montenegro will be absorbed into Serbia, thus bringing this latter power closer to the sea. But no matter what immediate advantages Austria gains, it is permissible to doubt if it be not outweighed in the future by troubles of which seeds are now being sown. Austria has made the Balkan States her bitter enemies and has exasperated Slav races beyond forgiveness. Perhaps she will find the effect when Emperor Franz Josef dies and the Slav provinces begin to break away, a process likely to be promoted by the present attitude of German-Austria toward the Balkan States. In that event, Austria's German

COUNT'S STRATEGY FAILS TO WIN AMERICAN BRIDE.

MRS. C. S. GURWELL

With the marriage of Miss M. Wanda Fraisher, of Los Angeles, Cal., to C. S. Gurwell, of San Diego, a one-sided international romance came to an end with a bump and a Count of the royal house of Savoy sits disconsolate under the shadow of the crown mourning the loss of a beautiful American heiress upon whom he exercised the custom of his country in an effort to mate her his Countess by forcing a public acknowledgment of an engagement.

provinces might gravitate toward and be eventually merged in the German confederation. This opens up a prospect of a division of Europe into three great factions, Pan-Slav, Pan-German and Latin, with the latter holding the balance of power.

AGNEW ST. LOUIS CATCHER

SAM AGNEW

The catching staff of the St. Louis Americans consists of four players, all new to the big leagues. Sam Agnew will be the main dependence, with Crossin, Alexander and possibly McAllister, to help out Agnew has had only three years' experience in baseball, starting in Omaha in 1910 and last year with Vernon going to the Browns in the draft. He is a big fellow and is said to resemble Roger Bresnahan in looks and actions having red hair, though, while Roger has jet black. Ten Candidates in Music. The McGill University Conservatory of Music local examinations in the theory of music will be held in this city on Monday at 3.30 p. m., in the High School building. Ten candidates are taking the examinations.

Alcure No. 2 is taken voluntarily by those willing to help themselves. Alcure can now be obtained at our store. Ask for Free Booklet telling I about it and give Alcure a trial. E. C. Brown, druggist, St. John, N. B.

ECZEMA

Also called Tetter, Salt Rheum, Pruritus, Milk-Crust, Weeping Skin, etc.

ECZEMA CAN BE CURED TO STAY and when I say cured, I mean just what I say—CURED, and not merely patched up for awhile, to return worse than before. Remember I make this broad statement after putting twelve years of my time on this one disease and handling in the meantime nearly half a million cases of this dreadful disease. Now, I do not care what all you have used, nor how many doctors have told you that you could not be cured—all I ask is just a chance to show you that I know what I am talking about. If you will write me TODAY, I will send you a FREE TRIAL of my mild, soothing, guaranteed treatment that will convince you more in a day than I or anyone else could in a month's time. If you are disgusted and discouraged, just give me a chance to prove my claims. By writing me today I believe you will enjoy more real comfort than you had ever thought this world holds for you. Just try it and you will see I am telling you the truth. Dr. J. E. Kennedy, 718 Court Block, Seattle, Mo. References: Third National Bank, Sedalia, Mo. Could you do a better act than to send this notice to some poor sufferer of Eczema?

RIVER CONDITIONS AT INDIANTOWN UNCHANGED

The water in the river at Indiantown yesterday remained at the same height. It was reported that the jam of ice above Fredericton had not moved, and it was feared that the warm weather might have serious effects on the surrounding country. There has been some talk of dynamiting the ice, but this plan is said to be impracticable, and probably will not be resorted to. The Champlain is still the only river steamer in service. The Crystal Steam Company will probably have two of their boats running the latter part of next week. Since the opening of the river about Rayswater and vicinity the residents have been travelling to and from the city in motor boats.

LOCAL ITEMS.

William Hickey, charged with stealing six alarm clocks from a case on board the S. S. Montreal, elected to be tried before Judge Ritchie in the police court yesterday morning. After considerable evidence showing clearly how the clocks came into the possession of the defendant, the case was dismissed. Pellet Court. John Davis, charged with drunkenness and profanity, was remanded; George Brown, charged with drunkenness and resisting the police, was remanded. Two other drunks were remanded, and one was fined \$4 or ten days in jail. Forward Movement. A meeting of the council of the Board of Trade was held yesterday afternoon when a number of routine matters were dealt with. The secretary of the board has sent out a letter to the members of the board, and a campaign committee for the recent membership propaganda inviting them to attend a meeting in Bond's on Tuesday next. The object of the meeting is to get the committee together to talk up the forward movement of the board and discuss ways and means for best advancing the movement.

WEED ERADICATION

It is of interest to note from the farmers' point of view the campaign which is being waged in Ontario to eradicate destructive weeds. The London Free Press give the information that during the season of 1912, the Ontario Agricultural Experimental Union carried on co-operative experiments in the eradication of perennial sow thistle, twitch grass, bladder campion and wild mustard. A number of practical men took part in these experiments and some very interesting and valuable results were obtained. A properly cultivated crop of rape was found to be an excellent means of destroying perennial sow thistle and twitch grass. Rape proved more effective in destroying twitch grass than did buckwheat. Thorough and deep cultivation followed by potatoes or corn gave good results in the control of bladder campion. Spraying with iron or copper sulphate proved to be a cheap and effective means of destroying mustard in growing grain without injury to the crop. Those who took part in these experiments profited by the experience. They cleaned the field experimented upon, demonstrated to their own satisfaction the effectiveness of the method tried and at the same time their results furnished practical information to others. These co-operative experiments in weed eradication will be continued in Ontario this year.

IMPURE BLOOD IN THE SPRING

The Passing of Winter Leaves People Weak and Depressed.

As winter passes away it leaves many people feeling weak, depressed and easily tired. The body lacks that vital force and energy which pure blood alone can give. Dr. Williams' Pink Pills for Pale People are an all-year-round blood builder and nerve tonic, but they are especially useful in the spring. Every dose helps to make new, rich, red blood. Returning strength commences with their use and the vigor and cheerfulness of good health quickly follows. There is just one cure for lack of blood and that is more blood. Food is the material from which blood is made, but Dr. Williams' Pink Pills double the value of the food we eat. They give strength, tone up the stomach and weak digestion, clear the complexion of pimples, eruptions and boils and drive out rheumatic poisons. If you are pale and sallow, if you feel continually tired out, breathless after slight exertion, if you have headaches or backaches, if you are irritable and nervous, if your joints ache, if your appetite fails and food does not nourish nor sleep refresh you, Dr. Williams' Pink Pills will make you feel well and strong. To build up the blood is the special purpose of Dr. Williams' Pink Pills, and that is why they are the best spring medicine. If you feel the need of a tonic at this season give Dr. Williams' Pink Pills a fair trial and you will rejoice in new health, new strength and new energy. Do not let the trying weather of summer find you weak and ailing. Build yourself up now with Dr. Williams' Pink Pills—the pills that strengthen. Ask for Dr. Williams' Pink Pills for Pale People and do not be persuaded. Buy a fair trial and you will rejoice in new health, new strength and new energy. Do not let the trying weather of summer find you weak and ailing. Build yourself up now with Dr. Williams' Pink Pills—the pills that strengthen. Games Today.
 This afternoon Belyea and Ferguson vs. Moore and Harrison. Fosby and Howard vs. Kiley and Slocum.
 Tonight, Masters and Paterson vs. White and Beattie. Cosman and Jordan vs. Belyea and Ferguson.

WORLD'S CHAMPION WOMAN WRESTLER

A great many women, like members of the sterner sex, take greatly to athletic exercises, and in the States and Western Canada the women go in for athletics a great deal more than in the east. In Eastern Canada skating and snowshoeing in the winter, and in the summer months, tennis, swimming or canoeing appear to be about the only part of athletics that the fair sex enjoy. It is different in the larger cities, for there they go to a fencing school, play basketball and a fad that is becoming very popular throughout the United States in wrestling. It is claimed that in wrestling there is no better exercise, and many women who have taken up the work on the mat are becoming very strong and scientific, their muscles develop and they improve in health.

The above picture shows Miss Cora Livingston, the world's champion woman wrestler, who is posing for her picture with her wrestling partner, Nellie Lewis, a sister of Harry Lewis, a professional wrestler. Miss Livingston captured the world's championship in Kansas City some time ago when she defeated Miss Laura Bennett. She has toured the United States and Upper Canada, meeting all comers, and thousands of people who have seen the champion wrestle state that she is indeed very clever. When Miss Livingston is not traveling and giving exhibitions, she is teaching a large class of young women in wrestling.

Sam Anderson, the middleweight champion wrestler of the world, was in the city yesterday morning and stated that Miss Livingston, with Miss Lewis and a company of wrestlers intended touring the east and is now booked to appear in Moncton and a number of towns in Nova Scotia; and would, perhaps, go to Prince Edward Island and Cape Breton. The company has been touring the States extensively during the past winter, and greeted with crowded houses, as the fact of having women wrestling is quite a novelty.

Mr. Anderson left for Moncton yesterday morning to complete arrangements for the company which will open their eastern tour in the railway town. He said that if possible he would come to St. John on Monday to be present at the wrestling exhibition to be held in the Queen's rink.

Anderson is the wrestling instructor in Harvard College, Cambridge, Mass., and has a large class of students. Wrestling is taught in many of the clubs throughout the States, including the Y. M. C. A., where it is part of the regular gymnasium instruction.

When told that Dan McDonald, the champion amateur wrestler, was thinking of starting a class in St. John Champion Anderson spoke highly of McDonald and said that he had no doubt a large number of young men would join the class.

FASHION says "larger ties and room to show them." The "REGINA" is a new model from London.

As you see, it has ample space to show the larger ties.

"WATROUS" is the same style but slightly higher.

Zooke COLLARS

al ready to his hand, and his job consisted in welding it together and turning out the finished product—a championship team. Whether Stahl can repeat is doubtful, in the opinion of most fans, for that old fox, Connie Mack, is still on the job and the Athletics are hungry for another slice of world's series coin.

That able young exponent of the art and science of fisticuffs, Mister Thomas Murphy, will celebrate his 28th birthday today. Tommy is a native of New York city, and began boxing at the age of 15. In his early battles he was paid all the way from a dollar to five dollars for his services, and was a glass worker between bouts. His real professional career commenced ten years ago, and since then he has taken part in about 175 bouts. Murphy has had a lot of tough luck in his career. In his early days in the game he had Terrible Terry McGovern all but whipped, when Terry landed one that put the Harlem lad to sleep. Tommy has shown his best in long fights whipping Owen Moran in 20 rounds, giving McFarland a hard tussle over the same route, and recently getting a 20 round draw with Al Volgas.

Make your Car sure-footed

Men buy Goodyear Non-Skid Treads because they have overcome the faults common to other skid-preventing treads.

GOODYEAR NON-SKIDS GRIP. This perfect Non-Skid Tread, with its diamond-shaped blocks, its countless angles and edges facing in every direction, gets a firm grip of the road and adds much to the power and safety of the car.

GOODYEAR NON-SKIDS ARE SPRINGY. Heavy bars of rubber or uneven projections make hard, dead tires that jolt the motor and working parts of the car out of adjustment. Riding over Goodyear Non-Skids will prove that they are as springy and full of life as plain tires.

Fit all Standard Rims

GOODYEAR

NO-RIM-CUT NON-SKID TIRES

Stepping Along in Canada

In the Fall of 1910 we bought out the Durham Rubber Company's Factory at Bowmanville, lock, stock and barrel, and turned it into a Goodyear plant. That was less than three years ago. Ever since, we have had factory extensions on our own hands. The growth of our Tire sales has called for unusual growth at our factory. These figures tell the story: Floor space, 1911, 26,000 square feet. Floor space, 1912, 89,000 square feet. No. of Employees, 1911, 89. No. of Employees, 1912, 396. In 1911 we made 37,750 Tires. In 1912 we made 51,000 Tires. Our present output is 500 tires per day. When men watch tire mileage so closely, what does this rapid growth signify? No-Rim-Cut Tires are giving extra mileage. They are making real reductions in tire cost.

WHERE can you get another such tread? AND this perfect Non-Skidding Tread comes on a No-Rim-Cut, 10% oversize Tire—the tire that saves the waste of rim-cutting—the tire that gives extra TIRE MILEAGE.

Do you want to STOP SKIDDING? Do you want INCREASED MILEAGE?

Look up the Goodyear Dealer.

- 1913—Eddie Campi stopped Eddie Lynch in 4th round at San Francisco.
- April 12, 1913—Tommy Murphy, lightweight boxer, born in New York City.
- 1908—Mysterious Billy Smith and Joe Walcott fought 25-round draw at New York.
- 1905—Phay Evans and Tommy Felts fought 26-round draw at Schenectady.
- 1907—Young Redmond held Ad Wolcott to draw in 6 rounds at Milwaukee.
- 1908—Kaufman and Jack O'Brien fought 6-round draw at Philadelphia.
- 1909—Foxy Flynn knocked out Gusner. Kewitt in 3rd round at London.
- 1912—Howard Morrow knocked out Bert Fagan in 7th round at Los Angeles.
- Young Drann knocked out Johnny Allen in 4th round at Young, Tex.

SPORTOGRAPHY BY "GRAVY"

Experts in athletic matters from all over the globe will soon assemble at Lausanne, Switzerland, for the conference of the international Olympic committee, and one of the questions they will discuss is, "What is an amateur?" It is a subject offering a lot of room for discussion, and one about which there is more than a little difference of opinion, and much poppycock. To the mere layman, some of the present fine distinctions and demarcations between the amateur and the professional seem overdrawn and visionary. Paucity McFarland shouldn't be permitted to enter an amateur boxing tournament, or tennis, or run a foot race as an amateur, why shouldn't he? By the same token, one J. Thorpe, winner of the pentathlon and decathlon in the Olympics, should not be disqualified just because he had played baseball for money. According to present definitions, Christy Mathewson, by reason of earning a living in the way for which he is best qualified, couldn't play tiddie-gwinks or "athletics" as an amateur. To the lay mind, this distinction between persons is but an evidence that those who control amateur athletics are still wedded to the snobbish theory that amateur and gentleman are synonymous, and that a gentleman is a person who doesn't work for a living, but lives on an income, or "spends" on "fads." Of course, this theory is not now carried out to its logical conclusion. A policeman or a person may be an amateur, and the fact that they spend a host or preach of a living does not affect their standing. Why, then, the discrimination against those engaged in professional sports? Why can't a professional baseball player be an amateur boxer, or vice versa? Do the athletic authorities consider professionals as low-browed and vulgar persons who might contaminate the refined and delicately nurtured young men from the colleges and athletic clubs? Or what? The present definition of an amateur is filled with absurdities and outworn prejudices. Moreover, it is a matter of general knowledge that the amateur code is not lived up to in any country. The United States is the worst offender, because it has the most amateur athletes, but proportionately, it is probably no worse than any other country. England probably entertains amateur

Experts to Decide What is an Amateur? — Stahl 33 Years Old Tomorrow.

rules better than any other country, but it is not in a condition to throw stones. France is notoriously lax and Germany little better.

World's Champions Leader.
 Garland Jacob Stahl, who piloted the Boston Red Sox to the goal of a world's championship, will pass his 33rd milestone this Sunday. "Jake" is a native Hoosier, born in Elkhart, Ind., April 12, 1880. He was educated at the University of Illinois, where he was famed as a football player. He first came into prominence in 1904 when as manager of the Washington team, he succeeded in arousing the Senators from their lethargy for a brief period, during which they made a phenomenal upset pennantward. For this feat, certainly a remarkable one, Stahl was nicknamed "the born leader." In 1908 Stahl played with the New York Americans, covering left garden for a team that finished in the cellar. Going back to Boston, where he had started his big league career, Stahl rapidly came to the front, and landed his team a winner last year. Stahl had little part in building up the Red Sox machine. When he became manager he found a good aggregation of raw material

AGRICULTURE

THE FARMER AT LAST ENTERING INTO HIS KINGDOM

Spread of Scientific Education Now the Chief Requisite, if the Real Importance of Agriculture is to be Recognized.

Science, we all know, has been making rapid strides in recent years. The natural world is gradually yielding up its secrets, and the knowledge gained is being applied to the promotion of the industries and the extension of man's powers for good or evil. Much, however, remains to be done before man can be said to have entered fully into his kingdom. He must go farther in his mastery of natural powers and in the utilization of natural resources.

In a survey of the progress of science and its applications it must, however, be noted that Agriculture has not received the same attention as many other industries, but it must be acknowledged that the greatest scientific discoveries do not belong to the domain of Agriculture. However, we may explain this comparative neglect of Agriculture we believe we are correct in saying that the application of the discoveries yet to be made in this industry will be of transcendent value to humanity in view of the fact that over a large part of the earth the land fails to yield its proper increase on account of lack of knowledge of both the soil and the plant.

When it is realized that agriculture is the basis of all the great industries; that it feeds and clothes the people; that it gives employment to millions in transporting its products by land and sea, and to millions more in converting the raw products into manufactured articles; it may seem strange that governments have done so little to assist this industry in the way of encouraging scientific research with the direct object of increasing the production of farm products. In some countries a few far-seeing minds have seen the Vision Beautiful, and have given of their talents and money to persuade the legislators and the people to assist by legislative action, cultural schools, the value of scientific discoveries and their application to agriculture and to the well-being of the country.

The lack of proper interest in agriculture by legislators and educators has permitted many abuses to arise with regard to the utilization of the great natural resources. The "soil-skinner" has converted large areas of our richest soil into unprofitable land, and the lumber king has stripped, for his own benefit, the hill-sides of their forests which regulate the water supply of the farmlands in the valleys below. Happily, however, for the welfare of our civilization, the world is now being taken to conserve by intelligent use the natural resources for the future, and to prevent the wasteful practices of the past.

There are indications that the farmer will soon enter more fully into his kingdom. This can be done only by the spread of scientific education, when boys and girls in the rural schools learn the elementary facts

WHY SOME POTATOES ARE FOUND TO BE HOLLOW

During the past season there have been a good many complaints from potato growers that, although the yield has been good, many of the largest and finest tubers are found on cutting, to be hollow. This is an occurrence which is not uncommon in seasons which have favored the rapid growth of the tuber, and for a similar reason it is found more commonly in large tubers than in those of small or medium size. A potato grows by the addition of new layers of tissue slightly below the skin. The cells composing this tissue are at first small but rapidly expand to their full size, and in so doing set up a state of

THE CULTURE OF ROSES--THE QUEEN OF FLOWERS

The rose may well be considered the queen of flowers, but unfortunately there are many parts of Canada where only a limited number of the hardiest varieties can be successfully cultivated. For this reason many who would grow roses are deterred from doing so because of a lack of knowledge of which are the most hardy sorts, and the treatment that should be given them. To supply this information in readily available form, the Dominion Horticulturist, Mr. W. T. Macoun, has prepared a pamphlet of a dozen pages entitled "Hardy Rose Culture in Canada." It is designated Pamphlet No. 9 of the Experimental

KNOWLEDGE MEANS GOOD FARMING

Very few of us like to be called poor farmers. We must acknowledge, however, that some of our neighbors make more money out of their farms than others, and sometimes we are able to point out the reasons for their greater success. Our own failures we attribute to bad luck or something of that sort.

In reality all of us would be better farmers if we understood our business better, and by business we mean not only the growing of crops and the feeding of animals, but also the management of all the interests of the farm. Many a good farm we all know goes to ruin by bad management.

Assuming, however, that we are good managers, utilizing the labor of horses and men to the best advantage, marketing our produce so as to get

TOBACCO GROWING EXPERIMENTS IN QUEBEC.

The Quebec tobacco growers often experience difficulty in the spring in rearing good healthy tobacco seedlings. In bulletin No. A-13 of the Tobacco Division, entitled: "Quebec Tobacco Experimental Stations--Season 1911," Mr. Chevalier sets forth the advantages of the "warm bed" he has been using for the last three years at the St. Jacques l'Achigan station. This bed is more economical than the "hot bed" as it does not require manure. It is not so damp, and enables

Supreme Court.

Hearing was had before Mr. Justice McLeod yesterday morning in the case of *Sansone et al. vs. Richards et al.* application of H. A. Powell, K.C., for the plaintiffs, to amend by adding the executors of the late William Richards as co-plaintiffs. The action arises out of a dispute over \$17,000, originally the proceeds of life insurance on the life of William Richards, deceased, and involves the construction of a will and other intricate complications. The court consists of Mr. O. Teed, K.C., and P. J. Hughes of Fredericton, appeared for the defendants.

The best time to take

"Wincarnis" is whenever you feel below your usual standard of health and fitness, but for those requiring a course of treatment, there are certain times of the day when there is an extra need for

WINGARNIS

Many people, especially those with a poor appetite for breakfast, find it necessary to take a "pick-me-up" during the morning. A glass of "Wincarnis" at eleven o'clock will dispel faintness, brace you up, and give you renewed strength for the morning's work.

One glass of "Wincarnis" during the afternoon will banish headache or fatigue brought on through over-exertion while shopping, travelling, walking, or through household work. "Wincarnis" not only refreshes and revives, but gives permanent energy for the rest of the day.

If you take a glass of "Wincarnis" before retiring for the night, you will be protected from the risk of colds and chills on leaving a warm room for a cold one. You will also be assured a sound night's rest, and you will wake in the morning refreshed and invigorated.

These are particular times when thousands of people take "Wincarnis" regularly with the best possible results, but you can take "Wincarnis" at any time, in any circumstances, with safety and benefit.

"Wincarnis" can be obtained from all leading Stores, Chemists and Wine Merchants.

Time spent using

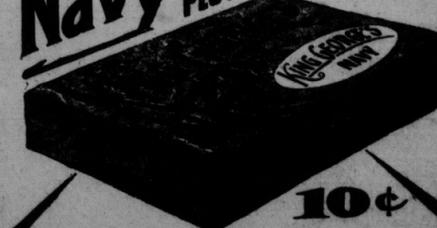

Calvert's Tooth Powder

is time spent well.

For the cleaner the teeth are kept, of course the longer they will last and the better they will look.

Happenings of the Week

ROTHESAY

Rothsay, April 11.—Mrs. Fred Foster is among the hostesses who have this week entertained informally for Miss Kendal of Sydney, C.B., now guest of Miss McKean. Those present at a pleasant little thimble party were Miss Jean Daniel, Miss Dorothy Purdy, Miss Anna McKean, Miss Dorothy McKean, Miss Kendal, Miss Muriel Fairweather, Miss Fairweather and Miss Nan Brock.

Guests of Rev. W. R. Hibbard and Mrs. Hibbard, College Hill, are Miss Sharp and Mr. Fred Sharp, of England, niece and nephew of Mrs. Hibbard.

Miss Jessie Fraser, who has been spending the winter in St. John, is here for a few days with Rothsay friends.

Mr. and Mrs. G. H. Flood are preparing to re-open their suburban home. They have rooms at the Kennedy House for a week or two.

The news that Mr. and Mrs. Walter Ellison and daughter, Miss Florence Ellison, have returned to their home at Apohaqui.

After about four months spent here with their daughter, Mrs. W. Tynk Peters and Mr. Peters, Mr. and Mrs. Ellison and daughter, Miss Florence Ellison, have returned to their home at Apohaqui.

Miss Mabel Gilbert returned from a three weeks visit to Boston on Friday last.

"Netherwood" school reopened on Friday after the Easter vacation.

Mrs. James Denville who has been visiting at Ottawa and Montreal is expected home at the week-end.

Miss Fannie Fairweather went to River Glade on Friday, being accompanied by her sister, Miss Helen Fairweather, and cousin Miss Jean Day last.

REXTON

Rexton, N. B., April 10.—One of the most successful social functions of the season was the shirtwaist dance held in the public hall Monday evening. Good music was furnished by R. Goldie, R. Stothart, H. Girvan and others. The hall was tastefully decorated and the luncheon was all that could be desired. Among those present from Richibucto were Mr. and Mrs. W. E. Forbes, Mr. and Mrs. J. W. Howard, Mr. and Mrs. Theo. Vautone, Mr. and Mrs. H. Baird, Mrs. A. C. Storer, Mrs. A. E. O'Leary, the Misses Mayme Murray, K. Irving, Hazel Hudson, Mayme Kavanagh, Mary and Eugene McDonald, Mabel O'Donnell, Lillian O'Leary, Edith James, Eva Mundle, Nellie Stuart, Jean Patterson, Messrs. H. H. James, Robert Canlie, Lee Stevenson, O. Mundle, Robt. Irving, R. Stuart, Albert Kavanagh, Fred Robichaud. Those of Rexton were: Dr. and Mrs. R. G. Girvan, Mr. and Mrs. H. M. Ferguson, Mr. and Mrs. M. T. deMille, Mr. and Mrs. P. Palmer, Mr. and Mrs. George Jardine, Mr. and Mrs. W. A. Martin, Miss Alice and Mrs. J. Dickenson, Mr. and Mrs. J. T. LeBlanc, Mr. and Mrs. A. T. Hatcher, Mrs. M. Dobson, the Misses Estella Lantier, Norma Smith, Alice and Beatrice McInerney, Hattie Dixon, Miss Mesley, Helen Carson, Grace Fraser, Emma Short and Messrs. S. A. Girvan, Frank Lantier, Miss Alice Chapman, well Smith, A. Kullinder, Lionel Robichaud, H. Markes, Geo. Dawes, Dr. G. T. Leighton. A very pretty feature of the programme was a moonlight waltz

DORCHESTER

Dorchester, April 9.—Mrs. D. L. Hanington has returned from a pleasant visit in Moncton with her daughter, Miss H. Hanington.

Mrs. George Mahon was hostess at a bridge to a few of her friends on Saturday afternoon. Those present were: Mrs. Blanchard (Charlottetown), Mrs. Pipes, Mrs. Charles Hickman, Mrs. John Hickman, Mrs. A. B. Tait, Mrs. James Priel, Mrs. J. F. Teed, Mrs. McGrath, Miss Carmelita Fichard, Miss Josephine Outton, Miss Ada Palmer, Miss Alice Chapman. The dainty prizes were won by Mrs. J. F. Teed, 1st, Miss Ada Palmer, 2nd.

Mrs. Rhodes and children, who have been visiting Mrs. A. B. Pipes, have returned to their home in Amherst.

Mrs. C. L. Hanington has returned from Moncton, where she spent a few days with her mother, Mrs. George Willett.

Mrs. R. A. Robinson entertained a number of young folks on Saturday afternoon for her two children, Helen and Barry. Some of the little folks present were: Misses Claudine Tait, Ruth Teed, Margaret Gillespie, Frances Hickman, Alice Kavanagh, Elizabeth Friel, Irene Card, Masters Barlow Tait, Fritz Tait, Myron Horne, Stewart Hickman, Francis Teed.

SUSSEX

Sussex, April 11.—Mrs. W. B. McKay spent Monday in St. John.

Mrs. Robinson returned from St. John on Monday.

The Youngest Bridge Club met with Miss Louise White. The prizes were won by Miss Della White. Those outside the club who were present were: Mrs. B. A. White, Mrs. Scoville Neales, Miss Kate Hanchester, Mrs. Helen Allen, Miss Mae Arnold, Miss Freddie Haines left Wednesday morning for Sackville.

Miss Mary Macaulay returned on Monday evening from Fredericton where she was attending the "One" Miss Lillian Upham entertained last Friday afternoon from 3 to 9 at a thimble party. Among those present were Mrs. E. A. White, Mrs. H. H. E. Maclean, Mrs. E. A. White, Mrs. H. H. E. Maclean, Mrs. E. A. White, Mrs. H. H. E. Maclean.

BREAKFAST GIVEN TO THE WIVES OF THE PRESIDENT, VICE PRESIDENT AND CABINET MEMBERS, A UNIQUE AFFAIR

Society women of Washington to the number of 350 welcomed the wives of President Wilson, Vice President Marshall and the members of the Wilson Cabinet at a formal breakfast in the capital.

The elimination of wine from the menu was the result of a campaign which caused feeling to run high. Members of the Women's Christian Temperance Union, who occupied one of the tables at the affair, were very active in the campaign. While 350 women were satisfied because they were invited to the breakfast, at least that many more not invited are today in a rather disturbed frame of mind.

Another innovation was the total absence of speeches. Not even an address of welcome to Mrs. Wilson graced the breakfast. Instead, an illustrated lecture on White House furniture by Mrs. Abbie Gunn Baker followed the breakfast.

CHATHAM

Chatham, N. B., April 9.—One of the largest and most successful affairs of the season was the trump whist given by Mrs. F. E. Neale Thursday of last week at her residence, Blisstone. Nine tables were filled by the guests and as the result of the play the prizes were won as follows: First ladies, Mrs. Forsythe, 2nd, Mrs. P. P. Loggie; consolation, Mrs. Vaughan, First gentlemen, Hon. L. J. Tweedie; 2nd, Mr. J. P. Wood; consolation, Mr. R. M. Hope. Among those present were Mr. and Mrs. H. B. McDonald, Mr. and Mrs. Hope, Mr. and Mrs. V. A. Danville, Dr. and Mrs. Vaughan, Mr. and Mrs. James Beveridge, Hon. J. and Mrs. Tweedie, Mr. and Mrs. W. P. Eaton, Mr. and Mrs. J. P. Wood, Mr. and Mrs. F. P. McNaught, Mr. and Mrs. William Dick and Miss Dick, and Mrs. J. W. Brankley, Mr. and Mrs. Hubert Sinclair, Mrs. Forsythe, Mrs. G. G. Miller, Miss Pierce, Miss Beattie Jorgin, Mr. R. P. Donald, Mr. G. H. Harrison, Mr. A. W. Wilbur.

Lester Stevens, of England, is the guest of his brother, Walter Stevens, at Millbank.

Mrs. W. P. Eaton entertained very pleasantly at five hundred on Wednesday afternoon of last week. The prize winners for the afternoon were Mrs. H. B. McDonald and Mrs. J. G. Miller.

Miss Vera Wilson and Miss Trixie MacKinnon attended the conversation at the University of New Brunswick on Tuesday.

Miss Maggie Beveridge has returned from England.

H. E. Danville entertained a number of his English friends at a very pleasant five hundred Wednesday evening. Each of the guests received a token of the evening's play and the opening and closing prizes occasioned many rounds of merriment.

The St. Bernard amateurs of Moncton delighted a large audience in the Opera House on Monday evening, with a laughable and very enjoyable three-act comedy entitled "Perguson of Troy or Hawley's Troubles."

PERTH-ANDOVER

Perth-Andover, April 11.—Mrs. Jas. Tibbits returned from a visit with friends in St. John on Thursday.

Mrs. J. P. Wood, of Woodstock, who has been visiting her daughter, Miss Jean of Porter Manzer Ltd., has returned home.

H. H. Tibbits spent a few days in St. John during the automobile show week.

H. H. Tibbits, accompanied by Miss Gertrude, and Barry Anderson, left on Tuesday for Fredericton.

Mrs. Armstrong has returned from Boston.

NEWCASTLE

Newcastle, April 10.—Mrs. Daisy McKeandry, of Douglastown, has returned from a visit to her sister, Mrs. B. C. Mullins, Bathurst.

Miss Bella Russell, who has been in Augusta, Me., through the winter arrived home this week.

Mrs. Charles M. Payne, after a lengthy visit to her parents, Mr. and Mrs. Daniel Sullivan, has returned to her home in Fredericton.

Mrs. J. C. Cinnamon, of Bathurst, was in town visiting friends last week.

Miss Bella Russell, who has been in Augusta, Me., through the winter arrived home this week.

Mrs. Charles M. Payne, after a lengthy visit to her parents, Mr. and Mrs. Daniel Sullivan, has returned to her home in Fredericton.

Mrs. J. C. Cinnamon, of Bathurst, was in town visiting friends last week.

WESTFIELD BEACH

Westfield Beach, April 10.—Mrs. F. Stephenson and children who have been visiting Mrs. Stephenson's parents at Westford, have returned home.

Mr. Sorrell, of Boston, Mass., has been spending a few days at the home of his parents, Woodman's Point.

Steen Lingley is improving after his severe illness with measles.

Dr. Jack of Western Ontario, was here on Sunday. On Monday he went to Greenwich. He intends settling in either of those places.

Mrs. William Buchanan, of Massachusetts, is visiting friends here.

Mrs. A. E. Rowley and son Harry have returned from their trip to Boston and other American cities.

Mr. Fred Bilard spent the week end at his summer home at the Point.

Mr. and Mrs. F. J. Shrove and family, of St. John, are now occupying one of Mr. J. Willard Smith's cottages at Hillendale. They intend residing here all the year round in future.

Mrs. I. C. Bowman, who has been recently ill at her home, Belyea's Point, is improving.

Erbert Prime, of St. John, spent Sunday at his home here.

Mr. Slater is the guest of Mr. and Mrs. Fred Stephenson.

Mrs. E. L. LeBlond returned to her home in Moncton on Monday.

Miss Harquail of Dalhousie, has returned home after spending a few days with Mrs. D. A. Harquail.

Mr. and Mrs. Henry Taylor, of Point

How American Women May Keep Faces Young

"The American smart woman sees early, far earlier than the English woman," says Christian Miller, F. C. I., the famous English health expert. He adds that her complexion is excellent and that she over-estimates her age and grows old before you know it. That same exhilarating air gives the skin the skin that looks moisture grows and withered looking and soon forms wrinkles.

"The American complexion" is best treated by applying pure mercurial water, which causes the skin to excrete, to flake off in minute particles, a little each day, until the fresh, young skin beneath is wholly in evidence. Every day, has this way, one ounce is sufficient. Spread on at night the cold cream, washing it off next morning.

It dissolves all clogs of powdered sassafras in a half pint with water; bath the face in this, immediately every wrinkle is effaced, even the deeper lines. Both treatments are remarkably easily rejuvenating.

CAMPBELLTON

Campbellton, April 11.—Miss Melina who has been visiting her sister, Mrs. A. LeBlond returned to her home in Moncton on Monday.

Miss Harquail of Dalhousie, has returned home after spending a few days with Mrs. D. A. Harquail.

Mr. and Mrs. Henry Taylor, of Point

SIR CHARLES TUPPER VISITING IN WINNIPEG

Despite His 92 Years, Ex-Premier is Hale, Hearty and Strong—Is on His Way to England.

Winnipeg, April 11.—Sir Charles Tupper, notwithstanding a natural infirmity consequent upon his ninety and two years, arrived in Winnipeg this morning feeling hale, hearty and strong, to quote the words of his son, W. J. Tupper, at whose house on Armstrong's Point, he is visiting.

Sir Charles has never had a better journey, said his son, and the talk of his indisposition was a pure fabrication. The veteran ex-Premier left Vancouver on Tuesday night and after visiting a few days here he will proceed to Halifax, remain there a few days and on May 2nd embark on the Empress of Britain for England. His goal is the family seat, "The Mount," Bealey Heath, Kent, England.

ROTHESAY NEWS

Rothsay, April 11.—Electric lighting has been installed in the Kennedy House, also residences of H. P. Puddington, Harry Frink, Mrs. Gannon, Miss Pitcher, Thomas Bell and Netherwood school. It is to be put in T. E. G. Armstrong's summer home, and there is also hope for The Rectory, Presbyterian Hall and St. Paul's church.

The boys of Rothsay College are to hold a gymnasium exhibition on Saturday afternoon which is sure to attract a good attendance of friends.

Among the new buildings going up are coming here again for the summer and will occupy one of Miss Balentine's cottages at the Station road.

Walter Gilbert and family of St. John are coming here again for the summer and will occupy one of Miss Balentine's cottages at the Station road.

A permanent residence for John D. Purdy, a summer cottage for Mr. Miller, of Montreal, and at all the year home for Mr. MacKinnon.

OBITUARY

Mrs. Chas. W. Weyman.

Apohaqui, April 11.—At 11:30 o'clock last night Naomi L. Weyman, wife of Chas. W. Weyman, this place passed away after an illness of over two years.

Deceased was 61 years of age and was a daughter of the late William O. Dunfield, of Cornhill, Kings county.

Mrs. Weyman was a member of the United Baptist church of Lower Millstream and always took an active part in church work. She was a member of the Women's Christian Temperance Union, and was for two years president of the missionary society after the union of the two branches of the Baptist church.

She is survived by her husband, one son, Edward C. Weyman, M. A., LL.B., barrister, of St. John, and one daughter, S. Jessie Weyman, living at home, also one sister, Miss Almida A. Dunfield, of Cornhill, and two brothers, Oscar, of Cornhill, and Hanford, of Salt Lake City. Dr. Kierstead, of the teaching staff of the U. N. B. is a nephew.

The deceased will be greatly missed by friends all over the province, as she was widely known through her activities in church work. Funeral will be held from her late residence, on Saturday afternoon at 3 o'clock.

The services will be conducted by Rev. T. B. Wetmore, at the home and at the Baptist church at Lower Millstream, interment in the Baptist cemetery at Lower Millstream.

MOTHERHOOD SUGGESTIONS

Advice to Expectant Mothers

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. No one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unprepared for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother's results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of scientific progress and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes one childless because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

For the INDUSTRIOUS NEEDLEWOMAN

By ADELAIDE BYRD

GOLDEN ROD BLOUSE DESIGN

DESIGNED BY E. J. BUCHTARF

Applied to a Blouse

FLOWERS THAT DO NOT GROW

THE most important trimming for gowns at present is flowers made of silk, velvet or satin. Small bits of these materials are folded, twisted and rolled into shapes resembling leaves and blossoms. These are used in preference to the artificial flowers with their tinted petals reproducing the natural flower. Chiffon, lace nets and gauzes are also utilized to fashion flowers, not forgetting the roses, which are crocheted from colored wools. When making flowers consider the material to be trimmed before selecting that for fashioning the flowers. For crocheting frocks of lace, chiffon, silk or silk mull, roses of silk or chiffon are in good taste. Bands of these miniature flowers make effective trimming for the neck and hem of these frocks. If purchased at the shops this variety of trimming will prove very expensive, but when made at home they cost little besides the time expended upon the fashioning. Purchase light green cord to answer for the vine foundation or narrower green ribbon if preferred. For the chiffon roses take a strip twelve inches long and 1 1/2 inches wide. Fold this lengthwise through the center and, starting at one end, roll it loosely round and round itself. When it is all rolled up, wind the end with the raw edges with sewing cotton. Small pieces of green silk are shaped to represent leaves by folding and tacking the corners in place, and these are arranged along the stem at equal intervals. Stems, wreaths, festoons or incompact little bouquets to catch up draperies or form a part of the hair are made by fastening a piece of green wire tape two or three inches long in length and cover it with green silk. Select the color you desire the roses to be and arrange four inches of half-inch ribbon for each row. Fold it lengthwise through the center and roll into a compact little rose, the stem at the bottom. For each leaf take one inch of green ribbon. Attach these to the stem and place a safety pin to the under side. To form a double row of roses, cut a foundation from buckram and cover with green ribbon. Make straight rows to have a double row down the center and border either side with leaves.

This makes an effective trimming for the evening gown, especially if the roses are fashioned of a contrasting color. Small ends are attractive when

THE graceful golden plumes of the tall flower have been caught for you by the artist in today's design and placed in an attractive design on the front of a blouse pattern. Since the embroidered lingerie blouse has returned to the front rank of style, I feel that I am offering you a double inducement to stop, look and then copy the pretty floral decoration.

The line of the shoulder indicates the line of sewing, and the extension is about one inch, which is a generous allowance for seam. The space between the collar line and the row of small circles is very effective if filled with lace, either all-over or without insertion. You will have to decide this before you work, as the sewing can be much easier.

The back of the blouse should be decorated with a spray which you can trace from the one on the side of the front strip. Continue the line of circles around in a curve from the shoulder line to the hem.

The embroidered collar, if you prefer the plain one, can be traced from the central strip.

And now for the working! The golden-rod blossoms are of course to be done in French knots, with soft maroonized cotton in a fine quality if you use light-weight light, and heavier thread for other shades, and or heavy lines. This is especially when worked in sheer linen or batista. A fine lingerie blouse like this would cost many more dollars than I think a woman of moderate circumstances ought to pay.

Put the slender leaves and work in two-and-over stitch. Outline the stems and veins with a spray which you can trace from the one on the side of the front strip. Continue the line of circles around in a curve from the shoulder line to the hem.

The straight lines in the front are to be worked in outline stitch, relieved here and there by the round and oval sprays. You can work the four dots arranged in a diamond form down the front in either solid or relief stitch.

Small work, such as the dots and the dots and large ovals on the blouse, and the small circles on the blouse, can be very effective if done in relief work.

The cuffs of long sleeves should be decorated with a few sprays of blossoms and leaves, which can be traced from the one on the side of the front strip. If you have time, transfer the spray and leaves to the upper part of each sleeve between the dots and the dots. Do not forget to continue the design into all parts of the blouse, thus giving a complete decorative idea.

The distinctness of a hand-worked blouse is admirable! I have been fortunate in a recent embroidery done by a friend, and I prize it above all other kinds of handwork. This blouse contains a practical value with beauty. What more can you want?

The Tailored Bow

EVERY woman has at least one tailored costume in her wardrobe, and if she is wise, will have several tailored bows on wear with her dress, either on the collar or at the button point of her Dutch collar, and if she is twice-wise, who will make them herself. For if you buy these innocent-looking little bows ready made you will find they cost from 25 cents to \$1, and you know "a penny saved is a penny earned." Here is an opportunity to turn to account the odd pieces of silk and ribbon left from dresses and hat trimmings. It requires only a few minutes' time and a little ingenuity to fashion the most fascinating bows and bows.

One flat pump bow is made of black satin laid in five narrow folds. This should be done and the satin pressed into place on the wrong side before the bow is made. The top edge of the bow measuring four inches from end to end, then over them two loops that measure three inches from end to end, leaving the lower loops one-half inch longer than the upper ones at each end. Lay a fold of satin across the center and hold in place with a few pins of the lighter shade. Both pieces of satin are lined.

This style of bow would be lovely made up with two-colored double-faced satin ribbon in black and green or two shades of red. Any double-colored ribbon is attractive and very effective when in the tailored bow.

Dark green and tan apple-green satin are used in a little bow made of pieces of satin cut with pointed ends, folded through the center and held in place with a few pins of the lighter shade. Both pieces of satin are lined.

Very-like and old-style bows have been combined in another bow that shows the pointed ends held over with little satin-covered buttons, and plain with French knots. The latter may be made in any desirable color, but the needlework employed in the making must be of the best, or the bow will not be successful. Use a fine needle and work by the hand, or use a needle and foot to turn the ends out properly and press into them on the wrong side.

Give your bow a sprays of small pieces of velvet, satin or silk that your favorite colors make up into these charming little bows, both for yourself and as gifts to your girl friends.

Well, then, see how many new ideas you can work out in this practical fashion.

Library Pillows

THE needlewoman has ample opportunity to display her artistic talent when furnishing the library. For the table runner and the many cushions can be examples of her handiwork.

The square pillow no longer enjoys the former popularity, the oblong pillow having usurped its reign. Lovely designs are displayed, stamped on backgrounds of heavy crash, sponge or burial. Pepper berries are always attractive for the library, so a yellow embroidered with this design should be provided for your room. Using several shades of green silk, work the leaves solid and the berries heavily with drawing cotton, covering this with silk of a bright color. If preferred, red wools bands are purchased, as the needlework shape, and these may be sewed to the pillow, drawing the pepper berries. Put the stem lengthwise and work over this covering with silk, leaving one inch exposed at each end, leaving one inch exposed at each end, leaving one inch exposed at each end.

Many articles and buttonholes are a pretty combination, and if care is observed when embroidering them, they are heavily and then, they are as lovely as the natural ones. Use four strands of drawing cotton at a time when making the stems, and work over this with green silk, leaving one inch exposed at each end, leaving one inch exposed at each end, leaving one inch exposed at each end.

Blue, green and brown silks are used for the buttonhole stems, while the stems and stems are embroidered with black. When making these pillows, finish the ends with blue drawing cotton.

How to Transfer

THE best suggestions for transferring the pattern before you begin the work are the following:

Perhaps the easiest way is the "cutting" method. This is successful when the material is thin, like linen, cotton or muslin. If one-half of the material is used, and the other half is used for the pattern, the pattern will be transferred to the material. With a sharp pencil draw on the material the design, which can be easily removed. The pattern will be transferred to the material. With a sharp pencil draw on the material the design, which can be easily removed. The pattern will be transferred to the material.

If you have carbon paper, you should place the sheet between your fabric and the pattern. The latter is on top, with a sharp pencil go over the outline of the pattern. The carbon will be transferred to the fabric and will last until you have finished the work. This method is successful in all cases.

The last way is also easy. On very thin material, like muslin, you can use the pattern before you. When the design is on the paper, turn the paper and outline the pattern with a heavy pencil. Then place the fabric on the paper and draw the pattern on the fabric, pressing hard with the pencil. The design will be transferred without difficulty.

AROUND THE CITY

Dredging Commenced.

The big dredge Denver, of the Norton Griffiths Co., Ltd., which during the winter has been tied up at Reed's Point wharf, pulled out to the harbor yesterday afternoon in readiness to commence dredging operations. Work will be first started in the vicinity of Partridge Island and the Denver will then work her way towards Courtenay Bay. Mr. Palmer, of the Norton Griffiths Co., Ltd., told The Standard last evening that the actual work of dredging would probably not begin until Monday.

Get Shaved Early. End are giving notice to their customers that in future they will close their places of business at 8 o'clock in the evening. At present the people have a practice of calling a few minutes to eight to have their work done, and the barber is obliged to remain after the hour in order to finish the job. This unnecessary delay, they think, could easily be avoided without inconveniencing their customers, and they are informing them that in future the regular closing hour will be adhered to.

LIFE OF LIVINGSTONE TOLD OF BY LECTURER

Rev. Dr. Merison Repeats Interesting and Comprehensive Address in Main Street Baptist Church Last Evening

In the main street Baptist church last evening Dr. Merison delivered an interesting lecture on David Livingstone, under the auspices of the Women's Mission Aid of the church. Rev. Dr. Hutchinson presided. The lecture was preceded by two choruses by the main street Baptist choir.

The speaker traced the history of Livingstone's life from the time of his birth in 1813. He referred to his education, first as weaver at the loom, then in medical missionary work, his being prevented from entering China on account of the opium wars and being induced to enter Africa with Dr. Moffat where he was later searched out by H. M. Stanley of the New York Herald, who had been sent on this special mission. Livingstone's explorations led to scientific investigations and researches.

HOLLINSHED AND OTHER SINGERS ARRIVE SUNDAY

Reserve Seats at Opera House Ten o'clock Today—"Messiah" Monday—Four Splendid Soloists.

The reserved seat sale will begin again at the Opera House box office this morning at ten o'clock. Great interest centres in the elaborate presentation of the "Messiah" Monday night, and if ever a musical event deserved a capacity audience in St. John it is this one. The greatest anticipation, of course, is aroused in the re-appearance of Hollinshed, the sensational young tenor, but associated with him will be Mrs. Kennedy, soprano; Miss Hemenway, contralto; and Mr. Gustafson, basso; also the Choral Society, of one hundred strong, and orchestra of twenty, all under the leadership of Mr. Pascock. This should insure a finer performance of the "Messiah" than was ever heard locally, and justifies the enthusiasm with which the musical public awaits it.

Tuesday evening the performance will include two soloists, Mr. Hollinshed and Mrs. Kennedy, and the numbers by the chorus and orchestra. The prices are very low, considering the great expense, being only seventy-five cents and one dollar for reserved seats, and fifty cents for the balcony. All the singers arrive in the city Sunday noon.

PLENTY OF BUTTER AND EGGS; MEATS SCARCE

Good Supply of Eggs During Week Only—New Feature in Country Market—Poultry Advances.

The supply of meats and provisions in the country market is today equally as scarce as on the previous week, and consequently the farmers and dealers are demanding high prices. As was the case throughout the winter, pork and lamb are exceptionally high. Beef and turkey are even scarcer than they were last week and a slight raise in price has been effected in these commodities.

Although the supply of meats and provisions is scarce, the egg market is well stocked. In fact the supply on hand is too large for the farmers to make a profit. During the week the price has dropped 3 cents a dozen, and there is a possibility that before the next week-end eggs will be purchased in the market for 15 cents a dozen.

Outside of these changes practically the same prices as on last Saturday prevail in the meat and vegetable supply, and there is little possibility of any great fluctuation.

The quotations for the day are: Beef, 12c to 20c; mutton, 13 to 24c; veal, 10 to 14c; lamb, 15 to 18c; mutton, 12 to 18c; pork, roast, 16 to 18c; chops, 18 to 20c; corn beef, 12c; corn pork, 16 to 18c; turkey, 20 to 22c; fowl, 27 to 28c.

Butter is selling at 23 and 25 cents a pound, and eggs for 20 and 22 cents a dozen.

NEW LINE OF TRIMMED HATS OPEN AT MARR'S

Extraordinary Opportunities Today for Bargain Hunters, at Show Rooms of Marr Millinery Co. Charlotte St.

An extraordinary offer awaits today's bargain hunters at the show-rooms of the Marr Millinery Company, who have just placed on sale a new line of trimmed hats for summer at from \$2.50 to \$5.00 each. These include all the smartest effects of the season. All are really wonderful values and must be seen to be appreciated.

DIED.

WYMAN.—Nesmi Lulu, wife of Charles W. Wyman, 41 Appaquin, on April 10th, aged 61 years. Funeral Saturday afternoon at 3 o'clock.

FORSTER.—At Uplam, on April 10th, Henry G. Forster, in the 67th year of his age. Funeral at Uplam church, 11 a. m. Sunday.

MAGISTRATE RITCHIE SCORES JUDGMENT OF COUNTY COURT

In Course of Liquor Case Hearing He Declares His Decisions are Set Aside without Good Reason—Cites Case where Point Turned on Meaning of Word "Entrance"

The case preferred against P. M. O'Neill charged with selling liquor to an Indian named Ferkie, took up the greater time of the police court, yesterday afternoon, and the police magistrate made some remarks that caused those present to take considerable notice.

A. A. Wilson, K. C., and Rev. W. R. Robinson were present for the prosecution while Dr. B. Wallace and J. A. Sinclair represented the defence. There were three charges of selling to Ferkie and Dr. Wallace, for the defence, said there was no need of taking evidence in the third case, for, in the event of judgment being given for the prosecution in the first two cases, they would be appealed and that it would save time for they would plead guilty on the third case and pay a fine and get clear of it.

This question was discussed at some length between the magistrate and the counsel on both sides.

Magistrate Ritchie said that he was not quite ready to give a decision in the case. He had heard on the streets that it was stated "What's the use of giving a decision at all, it is only a matter of form, for the case will be appealed and go up to another court and be set aside."

"There was," he said, "one case brought into court by Inspector Jones. He found that an entrance could be gained to the bar of a hotel by going through a window in an alley. The case was tried in the police court and a fine struck. The case was appealed and taken to the county court, where it was thrown out, where the judge stated that it was the first time that he ever heard of a window being a door. A law student, however, in reading up the code, saw where the word entrance was mentioned. It did not matter whether it was a window or a door, as long as there was an en-

trance to the bar was enough for conviction, but despite this, the case was thrown out."

One of the lawyers present on the Ferkie case then addressed the court. While he was saying that in event of this case being appealed and taken up to the county court, Magistrate Ritchie broke in with: "Oh, don't bring the county court in it. Under the law and evidence I don't want a conclusion set aside without a reason. I'll put myself in it and some one in authority will see that judgments from this court can't be set aside just by the scratch of a pen. Just think for a moment that you're not before a county court, you're before a man who has taken time in looking at the case according to law."

The magistrate further informed the lawyers that they were taking up a great deal of time and said that any three liquor men could get through in five minutes, while the counsel had taken 35 minutes.

Laughing, he told Dr. Wallace and Mr. Wilson if they could not agree it might be as well to leave the matter to O'Neill and Rev. Mr. Robinson to settle.

Thomas Logan was before the police magistrate charged with supplying liquor to Barney Kennedy, an inmate of the lunatic asylum, and the case was adjourned until Tuesday afternoon at 2 o'clock. Kennedy, who had been arrested for drunkenness, was remanded to jail.

Charles Lannon was before the court and pleaded not guilty to having sold liquor to an intoxicated person. Lannon explained that the man was in his saloon and purchased a drink. He was sober when he came in and sober when he went out. The case was adjourned for a later hearing.

REGULAR LINE TO ITALY NOW

Representatives of Big New York Company in City Yesterday to Study Conditions, Other Points Considered.

Representatives of a large steamship company operating between New York and other United States ports and Naples, were in the city yesterday studying the local situation with a view to determining the suitability of St. John as a Canadian terminus in the event of establishing a service between Canada and Italy.

At present there is no regular line from Italy to Canada and the proposed line will give a still greater impetus to Canadian trade. The representatives of the company have visited Halifax and will also study the port of Montreal. They will report to the company and upon the report will depend, whether St. John is to become the Canadian terminus for the line. Should the port facilities here prove satisfactory and St. John be decided upon another steamer will have been taken to put this port among the first in the world and lend a very material assistance to helping develop this city.

MARINE CHECKERS TO HOLD BANQUET

Will Celebrate Closing of Winterport Season with Dinner at Bond's—To Go to Montreal.

A meeting of the marine checkers was held last night in Oddfellows' hall when a number of matters of routine were dealt with. It was decided to mark the close of the winterport season by a dinner and smoker in Bond's in the near future. The checkers will be represented at the International Trades and Labor convention, which is to be held in Boston in July. Delegates to the convention are to be selected at the next regular meeting next Friday.

When the winterport season closes which will be in a few weeks, there will be a large exodus of men who have been employed on the West Side during the past few months. From the checkers union it is expected about 40 will go to Montreal to work during the summer. The number this year will be larger than usual as there has been a readjustment of the wage scale in Montreal, the new scale adopted here a short time ago having been put into force there.

CANNOT POSTPONE EXAMINATION DATE

Dr. W. S. Carter, Superintendent of Education, Makes Important Announcement to Students.

The board of education has authorized the substitution of Saturday, May 31st, as a legally authorized teaching day in the place of Monday, June 30, the last teaching day of the present school year.

Dr. W. S. Carter, chief superintendent of education, asks The Standard to state that it seems impossible to postpone the date for beginning the departmental examinations embracing university matriculation and Normal School entrance, which this year falls upon Dominion Day.

To hold these examinations during the following week would cause much inconvenience to candidates and teachers. If they are not begun upon Tuesday they can not be completed during that week in time to permit students to return to their homes.

DR. W. S. CARTER MADE PRACTICAL ADDRESS AT MEETING OF TEACHERS' ASSOCIATION, LAST EVENING.

The last monthly meeting of the St. John Teachers' Association was held last night and was addressed by Dr. W. S. Carter, chief superintendent of education. W. J. S. Mylan presided in the absence of the president, Rex Corbridge and a large number of the city teachers attended.

An interesting paper on "Rambles Through Ireland" was read by Miss Gosselin, of St. Peter's school, and a descriptive of a trip through Ireland made by her two years ago.

Dr. Carter in the course of his address, drew attention to the changes proposed for the rural schools and the near future by the introduction of agricultural subjects and also by further extensions in the course of studies. In the city schools changes will probably be effected through the possible introduction of technical education. Dr. Carter also dwelt on the importance of the inauguration of the vocational schools in the cities of the province.

The chief superintendent also took up the matter of salaries of teachers. He referred to the fact that there has been of late a marked exodus of teachers from the province to the western provinces. In this way New Brunswick has lost a number of efficient teachers. The better remuneration offered in other places has been largely responsible for this. Steps are being taken throughout this province now to retain teachers by increasing the salaries. The government has made a start by increasing the remuneration of teachers in the model schools, and Dr. Carter expressed the hope that the cities of the province would imitate the example and grant a material increase if they would retain the teachers.

He also expressed the hope that New Brunswick would soon have free text books, so that changes could be made at less expense than is possible now. There is under consideration at present, he announced, a plan for the holding of a Maritime convention in Amherst in 1914, the object being to bring the members of the profession into closer touch with each other, and to work for a greater uniformity between the provinces as regards text books, teachers' qualifications and other matters.

Dr. Bridges, superintendent of city schools, was present and made a short address to the teachers. A musical programme was carried, consisting of songs by Miss Gosselin, Fitzpatrick and piano duet by Miss Sandall and Miss Nellie Hyles. At the close of the programme, refreshments were served by the committee.

HAD CONFERENCE WITH THE COMMISSIONERS

Suburban Railway Representatives Met City Authorities Yesterday, and Discussed Privileges.

The city commissioners met representatives of the St. John Suburban Railway yesterday in private conference to discuss the question of the new company acquiring privileges on certain streets through which it will be necessary to go to make connection with those portions of their proposed lines on the outskirts of the city.

The main idea at present, it is understood, is to complete the Millville route, and also the line from Rotheray to the city. The company's charter gives them the privilege of crossing over the city proper, provided the city advises, and satisfactory arrangements are made. As regards operating in the city the arrangements will be between the company and the county council.

The survey work in connection with the new lines is already well under way and the city proper, the company will have a more definite proposal to lay before the commissioners, and the latter will be better able to give the demands of the company due consideration.

You should meet the special instructions of the Standard Fashion Co., who is spending a few days at F. A. Dykeman and Co. If you use paper patterns she can give you a lot of valuable information. This store is offering a great big bargain in silk hose. Many people last year took advantage of the big sale which they had and laid in a stock to do them the year. Here is the chance to satisfy your wants for the coming year. Real silk stockings, spider web make, with lisle tops and lisle heels and toes, 35 cents a pair or three pair for \$1. A heavier and better quality of silk hose, 59 cents a pair, or three pair for \$1.65. They come in white, tan and black.
