LONDON, ONTARIO, WEDNESDAY, AUGUST 14, 1912.

Sir William Mackenzie and Vice-President Hanna Were Here and Took a Drive With the Mayor.

#### HIS WORSHIP REFUSES TO TELL THE SUBJECT OF THE CONFERENCE

Railwaymen Will Be Here Later—Mayor Says It Is Assured due entirely to the fog, was the statement given out by George Hannah, That the C. N. R. Will Come Into This City With a Steam Line.

Sir William Mackenzie, of the Canadian Northern Railway Company, and Mr. D. B. Hanna, vice-president, spent an hour in the city last evening as the guests of Mayor Graham. The party took a tour of the city, and discussed the possibilities for securing an entrance here later.

Sir William will return in a couple of weeks time and discuss the matter still further. What took place at the conference is shrouded in mystery, his worship declining to go into detail. According to the mayor, he alone saw the distinguished visitors. Their coming was kept a profound secret.

"The Canadian Northern will come into London with their lines," Mayor Graham stated to The Advertiser when questioned as to what took place. "Whether it will be over their own road, or over the London and Port Stanley Railway has not yet been determined. That question will be decided later. You can say for a certainty that the C. N. R. are coming into London.

DROVE ABOUT CITY. "I met Sir William and Mr. Hanna at 6:35 o'clock with a motor. In conversation with them over the telephone earlier in the day it was explicitly stated that they did not wish to be interviewed, nor did they wish to meet strangers. They wanted to be shown about the city, and to discuss the situ-

ation with me. "On their arrival we drove all over London, paying particular attention to the manufacturing district. Sir William was greatly surprised at the growth of the city, and particularly in the manufacturing line. While he has passed through London many times, he had not gone over the city for nearly thirty years, and he noted a vast improvement. The possibilities of the city

Later we went through South London, and the residential district, looking at everything. We got back a few minutes before the train left."

SITUATION DISCUSSED. "You discussed the coming of the C. N. R. to London?" his worship was

R. are coming to London. Just how they will come into London is a matter yet to be settled. Sir William will return shortly and will go further into the question. I found him a most affable man, one who was keenly alive to London's possibilities. Mr. Hanna

is an extremely fine man also." Further than this his worship would not discuss the situation, declaring that there was nothing

The visit of the railway magnates created much interest in the city, and there was much discussion regarding what was really in the wind. The company some time ago were after the London and Port Stanley

Railway, it was announced, but for some time no information has leaked out A well-defined rumor was in circulation, however, that Sir William had

decided to abandon his efforts to secure a lease of the line as he had been informed that opposition would come from a certain quarter that would probably result in the defeat of his idea. Since that time, the rumor goes on to relate, the company have been figuring on coming into London by their own right of way. In addition to a direct steam line, there would be electrical feeders in two or three directions. These electric lines would furnish power to the London Electric, and the battle for the power market in the city would

Mayor Graham stated that he had not discussed the power situation with Sir William Mackenzie at all, railway matters alone engrossing their

The theft of the horses was a most daring plece or work, and the police are inclined to the belief that more than one man had a hand in it. A thorough search was instituted, but no trace of the missing vehicle could be obtained.

The announcement that the Corsican was still in the position where she struck the berg was contained in a report is sued last night from the Government signal station at Belie Isle.

Off for Liverpool Mr. Hannah said that he had received word that the Corsican moved on this morning. She was at noon today, when the inquiries were made, out of touch with the wireless stations of the Gulf of St. Lawrence. Fog was undoubtedly the cause of her delay.

No further particulars were obtainable from Mr. Hannah.

The Gulf signal station reports, which last night gave the position of the Corsican as 120 miles east of Belle Isle, in company with the Lake Champlain, the boats reporting that they were in "no danger," this morning did not either steamer, though dense fog at

either steamer, though dense log at nearly all gulf points is announced.

The explanation given here of the presence of the Lake Champlain near the Corsican is that after making her way to the Allan liner when she first heard that the accident had occurred she was unable to continue on her trip when she found her services were no required because of the fog.

The shipping offices of the C. P. R have received no word in addition to the message announcing that the vessels were in no danger.

Change Will Not Be Made Before the Next Session of the Ontario Legislature—Business Affairs Are Now Being Arranged in London and Elsewhere.

[Canadian Press.]

Toronto, Aug. 14 .- Hon. Adam Beck has found that his public duties require him to be so much in Toronto that he has decided to give up his home in London and move to this city or near it. He may not be able to so arrange his business affairs that he can make the change before the next session of the Legislature, but by next summer he will have removel from London. His scheme to extend cheap power to the farmer, upon which he is about to embark, will be given his undivided attention. In connection with this he is reported to be considering a proposal which has long appealed to him, that of acquiring a farm for himself. He is said to be looking for two or three hundred acres upon which to live, and to demonstrate the possibilities of electricity in connection with agriculture.

It is not his intention to sever his political connection with London, where he was returned by acclamation last election.

Mr. Beck was spoken to over long-distance phone this morning and he onfirmed the report of the merger. About his leaving London he would say nothing. He admitted, however, that some important changes are contemplated in the local factory, and it is possible that in the future no cutting of timber will be done here. At present several teams are kept busy hauling logs to the factory, where they are converted into lumber, but it may be that in the has had a mill in New York, which has cut up lumber for cigar boxes, and it is now his intention to have this work done entirely in Canada. The box facuture all this work will be done in Montreal or Toronto. For years Mr. Beck is now his intention to have this work done entirely in Canada. The box fac-

tory will remain here, it is understood. The Toronto Telegram last evening also published a story to the effect that Mr. Beck will in the near future reside in Toronto. ('Continued on Page Ten.)

Car of William Dillon Rolled Down Embankment Near Arkona as He Was on His Way Home From Grand Bend-Heroic Work of Young Boy.

[Special to The Advertiser.]

Arkon., Aug. 14.-William Dillon, a prominent Sarnia businessman, was b horribly burned near here last evening, when his big touring car caught fire after overturning, that grave fears are entertained for his recovery.

Dillon with a boy of 15, named Lucas, was on his way into Arkona from rand Bend, and about 9:15 attempted to pass a buggy on a narrow piece of cadway on the town line. When he turned out his car went over the edge of the road, and overturned twice before it came to a stand, bottom up, st the foot of the embankment

Lucas was thrown out, but Mr. Dillon, who was driving, was pinned under the steering wheel. In a few seconds a fire started, and as the gasoline leaked out in various places, burned fiercely. Lucas, although badly shaken up, realized Mr. Dillon's position, and made frantic efforts to release him. He worked desperately right in among the flames, which were rapidly enveloping the big Cadillac touring car. When he finally succeeded in getting Mr. Dillon out not a particle of the latter's clothing remained, and he was horribly scorched from his neck to his feet. Lucas was badly burned also. So fiercely did the fire rage that in a few minutes nothing remained of the car except the engine and steel work

A FORTUNATE CHANCE.

The two burned men were carried into the house of Mr. Dingley, a farmer who resided close by. Fortunately Miss Leggat, a trained nurse, and a gold medalist, when she graduated recently, was staying at Mr. Dingley's, and the injured men were given prompt care until the arrival of Dr. Copeland from Arkona. Everything possible was done to relieve Mr. Dillon's intense pain. He was taken home to Sarnia on the midnight train. The young man's burns, while very painful, are not serious.

OFFICE QUIET THING OF PAST

> Laying for Serpents, and Sigh for St. Patrick to Come.

The staff of the London customs house is in a state of excitement heretofore unaparalleled, excepting possibly at times of general elections. Rattle-snakes and copper-heads in-

The cause of the undue commotion lies in the fact that a box containing a consignment of supposedly deadly snakes, intended for a Londoner going into the show business, was broken in some manner, and half a dozen of the lot, rattlers and copper-heads escaped. Since then the quiet routine has been

shattered on several occasions, and a couple of the men at least are in need of the rest cure.

#### HOUSE REJECTS VETO OF TAFT

Underwood-Lafollette Wool Revision Bill Passed by Congress.

NEWS GOES TO SENATE

Vote an Illustration of Support Re publicans Are Giving the President.

Washington, Aug. 13 .- By a vote of 174 to 80, the House this afternoon passed the Underwood-Lafollette woo revision bill over President Taft's veto. This was accomplished by the Democrats, aided by the votes of 21 Reubneans.

The wool bill is the first big measure that has been passed by either branch of Congress over Mr. Taft's official disapproval. The President's defeat was due in a large measure to the fact that 60 Republicans were ab-sent from the House. Many of these, but not all, were paired with Democrats. The failure of the party to turn out its full strength for a vote on this important measure is, however, an impressive illustration the kind of support that the Taft ad-ministration is receiving from Repub-licans in Congress. The wool bill now goes to the Senate. There is no likelihood of the necessary two-thirds vote being mustered in that sbody. The bill passed the Senate in the first instance by a vote of 35 to 28, with 31 senators absent or not voting. Six Republicans' votes are all that the Democrats can hope to command in the Senate for the compromise wool bill, and this number would not be ufficient, even if the full Democratic sufficient, even if the full Democratic strength of 43 were present in the Senate. It will require 63 votes on a full Senate. With the six Republicans voting with the Democrats the Senate would be divided 49 to 45. While the Democratic leaders in the Senate acknowledge that the effort is almost hopeless, they said today they almost hopeless, they said today they were going to make the strongest kind of an effort to recruit Republican

Term in the Central. [Special to The Advertiser.]

St. Thomas, Aug. 13.—For robbing the house of John M. Rice, near Springfield, last April John Johnson, a South Dorchaster resident a South Dorchester resident, was given eighteen months in the Central today by Judge Colter. An old pair of boots Johnston took furnished the clue which resulted in his arrest and conviction.

C. P. R. STATEMENT. Montreal, Aug. 3.—The official statement handed out this morning by the Canadian Pacific Railway Company shows that the gross earnings of the road and steamship lines for the year which orded Lune 20 wars 1122 210 which ended June 30, were: \$123,319,down Rosenthal.

Before the murder Becker owed Webber \$500. Less than an hour after Rosenthal was murdered he told "Bridgie" Webber in front of the Murray Hill Baths, in the presence of Rose, and with Jack Sullivan standing by that he hadn't much money with the standard of the standard Rose, and with Jack Sullivan standing by, that he hadn't much money with hin, and he ordered Webber to give Rose or Schepps \$1,000, "so that the boys could get out of town in a hurry." He told Webber that he would pay him the whole \$1,500 the next day. Webber sent Jack Sullivan three times to get the money from Becker, but the lieutenant dodged payment and Webber never got his money.

\$1,104,449. Fixed charges \$10,524,937; surplus \$33,877,754. One million dollars was transferred from surplus to steamship replacement account, and \$125,000 to pension fund. The net revenue of railway and steamship lines available for dividends was \$32,742,744. Dividends of two per cent. on preferred stock and 2 per cent. on common steck for the quarter ended June 30 tast were declared yesterday. After paying all dividends the surplus on

money.

Having scrutinized and analyzed the profits of blackmail as exemplified in Becker's bank accounts, the district attorney examined with much interest a tabulation, he secured today est a tabulation he secured today from William J. # When It's Hot

Truly hot,
Is it funny It is not!

How you sweat

When you work!

When you shirk!

How you fret

It's a tragedy, that's what! You just sit around and pant,

For escape the heat you can't, And distress is your lot,

Since you scarce can do a jot When it's hot.

Cartoon By J. C. Cory Verse By Berton Braley

You're displeased with what you've got, And you think the world's all rot, While you dream and scheme and plot Of some pleasant garden spot, Or some cool and dripping grot With a waiter who That's a dream! All that YOU can do is steam Seethe and simmer like a pot TRULY hoti

#### LONDON, WEDNESDAY, AUG. 14. PROSPERITY OF BRITISH SHIPPING.

The reports of the Great British companies show the prosperity which continues to enlarge under Lloyd-Georgian finance. Three years ago the popponents of the famous budget screeched ruin to British capital, to the landed interests, and to trade. was proclaimed from the castle top that Mr. Lloyd George was a "Welsh attorney," incapable of high business management. "Our old nobility" were clways such managers. Why, they built the National Debt! But the budget has done what Mr. Lloyd George said it would. It has vastly increased the national revenue, it has accomplished the largest reductions of the national debt on record in spite of the increased expenditure on armaments, education commissions and old-age mensions, it has not hurt the landed interest, and it has been followed by a huge expansion of general trade and business.

For example, at the 21st annual, meeting of Furness, Withy & Co., the great shipping firm, held last month, the report said Lord Furness, the chairman, showed that in spite of coal and transport strikes, "the profits are the largest on record." Oh, that wicked Lloyd George! That incompetent Welsh attorney, the man who would ruin England in a few years! '"The times are good," said Lord Furmess; "the company is stronger now than ever it has been in its history, so much so that one can reasonably assume that whatever may be the maximum dividend in the future the minimum dividend is more likely to be 10 per cent. per annum than the 5 per cent, minimum paid in the past."

This year the business amounted to \$37,000,000, as compared with \$29,000 .-000 for 1911, and \$28,000,000 for 1910. The longer the Lloyd George system works, the faster grows the volume of trade. It was moved and carried in the meeting that a bonus of 5 per cent. be paid on the ordinary shares, making a 10 per cent, dividend for the present year on the capital of \$17,000,-000. The board of directors is considering an allotment of stock to the exdicted by the Tariff Reformers and enemies of the budget in 1909? To those who would like to start food taxes in Great Britain the continued and accelerated prosperity under free trade and fairer taxation must be very depressing. They may try to deny it, they slander their country as decadent and desperate. But the figures of firms like Furness, Withy & Co. stare them in the face, give them the lie, and show that all's well with England. There can be no surer barometer of British trade than the shipping returns. They show up the false prophets.

It is pleasant to notice that Lord Furness' report is enthusiastic also about prospects in Canada. "It will be patent to you," he read, "that we are laying ourselves out to cultivate per- have to decide cases with the alienists manent business in the various directions in which the trade of the world promises to be of an enlarging character, and which are to be relied upon for their constancy. This is especially the case in regard to our Canadian extensions. We at home are only beginning to realize the enormous field for enterprise which the development of Canada is offering. The Dominion is calling for capital and energy, for brain and sinew; and the opening up of the great lines of rail from sea to sea, combined with the development of traffic on the Great Lakes, renders habit." possible the harvesting of the rich natural resources in which that country got into figures on the bulletin-boards abounds, although much caution and experience on the spot are called for alongside the baseball returns. because of the number of undesirable schemes put forward." .

This great British corporation has unbounded confidence in its future, and in the development of Canadian trade in connection with British enterprise. We may put a corresponding trust in the vitality of the old land. It is full of youthful buoyancy and growth. In fact, there is at the present moment no country growing so fast all round as Great Britain. Prog-

In the past Japanese emigration to South America has mostly ended in failure, because of unsuitable quarters and surroundings in a new climate. The emigration companies have only to remedy this by proper arrangements. Japan is in the same latitude and climate as Portugal, Spain and Italy, the countries which have hitherto contributed the bulk of South American population. The Japanese laborers are as hardy and industrious as any in the world. They should find plenty of opportunity in the vast spaces of South America, and the problem of Japanese congestion at home may thereby be solved, to the relief of Australia and other countries

#### SETTLING NEW ONTARIO.

Ontario's northland is looming large these days. It is more than seven years since the country claimed such attention, before the advent of the Whitney regime, and now it seems as though Liberalism in the person of Mr. Rowell, had forced its issues upon the Government. The excursion of the Associated Boards of Trade is the latest development in advertising this country, and it will undoubtedly be of benefit from a commercial stand-How is Northern Ontario to be

populated? That is the big question which confronts both political parties. Are the farmers of the older section of the province to be induced to move from the older counties for the purpose of opening up the new land? Old Ontario has land enough, and good land, too, at the present time in Huron, Wentworth, Elgin, Middlesex, Oxford and all the other settled counties, and it is well known himself to criticism if he made similar that these counties are sore pressed provision for a relative.

Old country public life is full. through constant emigration. The rural population of Ontario should not be played checkers with. New Onfreely utilized without provoking the tario justly claims that Old Ontario outcry that a smaller use or misuse of power would rouse in Canada. has benefited by using the resources of the mines and forests for the province as a whole. For instance, the Ontario Government has taken \$4,000,-000 in tithes from the mines of New Ontario, and little more than a tenth has been expended in development in the northland. But New Ontario has tent of \$2,500,000. Is this the exodus no desire to be built up at the exof capital from Great' Britain pre-

drawn from the old farms, Well-organized and properly-directed publicity will speedily fill the lands of the new section with Scotch and English and Irish settlers. At present the tide flows westward. Mr. Rowell believes in directing a certain amount of the immigration into the new section of the province and this would involve a rousing campaign for New Ontario across the ocean. At present practically all settlers in the new land are brought from the old province and the country as a whole gains nothing.

## **MORE ABOUT** MONTAIGNE

[By Special Arrangement With the Winnipeg Telegram.]

The body of Montaigne lies in the vestibule of the University of Boron the spot when instant decisions have to be taken? Mr. Borden suggested this deaux, the main building of which occupies the spot where stood an old church, which was burned in 1871. The Museum of Bordeaux, and not the university, intended to have the body I find there are so many things called of the famous writer. And, thereby, hangs a ludicrous tale. In the year 1800, the city fathers of Bordeaux prepared a grand sarcophagus for the reception of the body of Michael de Montaigne, who had peacefully lain for two hundred years in the old church, where he had been buried. The council of Bordeaux called in the aid of the military authorities, and one day they had a great function. A brilliant procession, made up of national and municipal representatives and of offiers of the national guard, started out oudiated. The Liberals showed the way from the church, escorting a coffin, which had been extracted from the trine, and it's a great party which can vaults. The procession passed through crowds of spectators to the museum, and there, amid speeches innumerable, the remains of the brilliant essayist speech at Vancouver shows how were deposited in the costly sarcophagus that someone had prepared. But a few weeks later it was discovered that someone had blundered, and, instead of having removed the remains [Judge.]

So they let old Michael lie just where he had "Yes; when I came in contact with him I myself was highly charged." been put in the first place. He is there today, but the university authorities built their edifice over him. How the nocking soul of the old essayist would have enjoyed that joke on the city "We are very sorry," said the Trust, as it forced a competitor out of business.

For Montaigne was a humorist, i ver there was one. He is even able to laugh at his own foibles, to exercise his wit upon his own weaknesses: In his essay on pedants he says: "We labor, and toil, and plod to fill the memory, and leave both understanding and conscience empty. Even as birds flutter and skip from field to field, to peck up corn, or grain, and without tasting the same, carry it in their bills, therewith to feed their little ones; so do our pedants glean and pick learning from books, and never lodge it further than their lips, only to disgorge and east it to the wind. It is strange how fitly sottishness takes hold of mine example. Is not that which I do in the greatest part of this composition, all one and the self-same thing? I am ever here and there picking and culling from this and that book, the sentences save it. that please me, not to keep them (for in), but to transport them into where to say truth, they are no more mine, than in their first place."

#### MANAGER KING THINKS COMPANY IS SECURE

Says the London Street Railway Has an Exclusive Franchise Here.

More juggling with the agreement than with the celebrated Panama Canal treaty is being done with Bylaw slo, in certain quarters, whereby it is claimed that the city can con-struct a ranway along certain streets without the consent of the London Street Ranway, thus giving entrance to any radial lines that in future may desire to come into London.

This discovery was not made when the Southwestern Traction Company wished to have access to the city, the London Street Railway effectually blocking that proposition. According to the agreement between the city and the company the latter apparentbe brought into London is covered by crause 43 of the bylaw which reads

The Agreement. Peterboro, Aug. 13.—The London TASKER REDEEMS SELF Tecumsehs did not have a chance in today's game, and Peterboro cleaned up the series by beating them in hollow fashion, 8 to 1. Osborne had the Indian sign on the visitors all through, allowing only five hits, while he fanned eight. The Petes hit Hynes in timely fashion, and several of the London errors were costly. Bierbauer, who has a sore foot, did not get into today's game, Sammy Smith playing right field, while Kelleher, the new recruit, was at first, where he handled himself cleverly. Peterboro's fielding was sharp and clean. Brant doing some fine work at short. The score:

Senators Pull Out With Great Wheeze in Heralding Coming of Marvellously Rejuvenated Cockney Band—Is Bald Jack Rose or Lieut. Becker in Tecumseh's Camp—Who's Looney Now?

The series that commences in Ottawa today and continues for the remainder of the week will decide whether London has a chance for the Canadian League pennant or not. The Ottawa papers state that the Indians must win tree out of the four games to be in the running at all.

London must win two of the games at least in order to remain in second place, as Lee's Colts are uncomfortably close upon our heels.

The St. Thomas Times seems to imagine that Providence has ordained that it should keep an eye upon the affairs of the London ball club, and in a recent issue the following squeals were published:

"When the London team has a player injured seriously, the player is released. Catcher Reske got it early in the season and now Furssedon has been "canned." In striking contrast is the way the St. Thomas management dealt with Forgue. The St. Thomas shotstop was out of the game for two months, yet he was kept on. And the management did no more than was right"

#### St. Thomas Scribe Sniffs a Scandle.

And then this: "President Fitzgerald would do well to investigate the claim of First Baseman Powell that he was promised a bonus in addition to his salary. There's been a suspicion—and a pretty strong one, too—that at least two clubs—Ottawa and London—are getting around that salary limit of \$1,200 a month. Powell's 'squeal' opens a way for the president to get busy.

We might say, while thanking the scribe responsible for the above, that a larger store of knowledge of both London and league conditions should be obtained before making such statements. In reference to the first flight of fancy it might be said that Reske was slated for his release before he was but a red would have been borned at if the accident had not become hurt, and would have been handed it if the accident had not happened. Furssedon was not released because of an injury, but was suspended because he

would not keep in condition.

The Advertiser again questioned the directors of the local club today upon the matter of bonuses, and was told that they had not promised any of the players a bonus, and that the matter of bonusing players had never been discussed. The only possible reason for Powell's assertion that he had been promised a bonus is that maybe Bowerman, to keep Powell with the locals, told him that he would try to secure "something on the side" for him. The directors deny any knowledge of such a promise.

#### Twas Simply Misplaced in the Make-Up.

As to the statement that some of the clubs are exceeding the salary limit, all that need be said is that it should be placed in the joke column and not on the sporting page. Here's a little tip for our friend of the Times: The salary limit in the Canadian League is \$1,250 per month, and not \$1,200, as he

Here's another item from the Times: "Jacobson has played professional ball for twelve years, and was never hurt on the diamond until Tuesday at Berlin, when he put his thumb out of business during batting practice. He expects to be back in the game again next week." Too, bad "Jake" can't always below the control of the same again next week." ways have a black cat with hin

#### This Is Getting On Our Nerves.

It is deplorable that the scribes on other papers have not the extensive knowledge that some of us have. Look at this for instance:
Ottawa Citizen: "The London ball club has secured Shortstop Chaput, who starred for Berlin in the Canadian ball series last summer." Here's hoping that the Citizen will have good reasons to realize that Chaput is not a shortstop before the end of the week,

The chances are that "Topsy" Draper will twirl for Ottawa today. He was left at home on the western trip.

Frank Shaughnessy was in Ottawa for a few days last week, but was called back to Fort Wayne by a slump of his team. He will make another trip to Ottawa before the end of the season.

#### London, Mr. Citizen, Sings No Swan-Song! That the Canadian League pennant is not yet safely stowed away in Ot-

tawa is shown by the following article in the Ottawa Citizen. One reason that it is published here is to revive the hope of all but the dyed-in-the-wool fans that have decided that London stands no show this year. The statement is somewhat wild in some respects, especially when it says that London is strengthening for this one series. While nothing could please the local directors and fans more than to see London make a clean sweep of the series, the goal of them all is for an exceptionally strong team next season.

"Wheeze" is herewith appended:
"The attention of the Ottawa Baseball Club was called last night to the fact that the London Baseball Club, in its dying effort to head off the Senators in their dash to the Canadian League pennant pole, has been signing new players right and left, Last week they released Earl Powell and Harry Furssedon and appeared that others were to go.

don and announced that others were to go. "The London papers failed to state, however, that they had sent scouts into the Michigan, Central and New York Leagues for the purpose of raiding the strongest teams. It is said that London fans grew so desperate in their chase after the Ottawas that they raised enough money by public subscription to buy up the necessary players. Consequently, they are coming to Ottawa for the big series, which starts on Wednesday of this week, with an almost

"They will have three new pitchers, a new first baseman, and a new infielder, being 50 per cent stronger than on the occasion of their previous appearance here. The Blokes are coming for their last try at the pennant, and will be accompanied by a big crowd of followers.

When Your Knees Are Weak and Voice Is Strong "Unless they take three or four from the Ottawas this week their championship chances will be slim, as the Marsons now have the biggest lead they have had all season, and the schedule has but a few weeks to go. Of course, Ottawa now looks the one best bet for the championship, but that London club is coming full of determination, and their four games against the Ottawas this week are sure to prove the most exciting of the season. The Cockneys are the strongest attraction in the Canadian League, and will draw record crowds to Lansdowne Park. The game will start Wednesday, Thursday and Friday at 4:20, and on Saturday at 3:30. President Fitzgerald has promised to send down his best umpire, and it is probable that Eilly Phyle will be his choice. The Ottawas contend that the London club should not be allowed to strengthen at this late stage, but will make no official objection, as President Frank Shaughnessy, who is still here, believes the Senators can whip the best that the Cockneys can produce. In any event the London series this week promises to be loaded with sensations, and it would be a sore touch if the Blokes took all four games from Ottawa and subsequently beat them to the

#### SOME MAJOR TEAMS WILL HAVE LEAN YEAR

None, However, in National and American Will Actually Lose Money.

[Canadian Press.]
New York, August 13.—Men, prominent in big league baseball councils here, declare that the present year will be lean one for several of the major clubs, although none of them are likely to actually lose money. The big money-makers will be, as usual, the New York Nationals, Boston Red Sox, both Chicago clubs, the Pittsburghs, Washingtons and Athletics. It is evidenced that the Giants will yield neary \$250,000 in profits. The Boston Red Sox have done a phenomenal business at home and abroad, and expect to show a net profit of \$200,000. Estimates on some of the other clubs are

cago Nationals, \$150,000; Pittsburg, \$100,000; Washington, \$100,000; Brooklyn, \$50,000. Were is not for the 50 per cent. division of paid advertisements at some major league parks, some of the unsuccessful clubs would sustain heavy

losses. HAMILTON RESULTS.

Build Canal From Rhine to North Sea. ATTACK ON HOLLAND

Country Has Never Spared Money fo the Improvement of

Waterways.

London, Aug. 14.—Germany has far not denied her alleged threat to Holland to build a canal from the German Rhine to the North Sea, so it remains to be seen whether it is all a piece of bluff or a serious proposition that is meant to be pushed regardless of the toll question. If Germany's motives are purely economic the canal from Cologne to Emden may be constructed at an enormous cost, but Germany has never grudged the spending of money for waterways, and is prepared to spend more. If her motives are political, then pressure will continue to be brought to bear on Holland, even if she assents to the charging of toils on the Rhine traffic. In the latter case an acute stage would be reached when Germany established a toll-collecting station in Holland, which Britain, for a good reason recognizes. reason, recognizes as a formidable

menace to herself. Another aspect of the situation lies in the fact that the state-owned railroads of Prussia show handsome and increasing profits, Since Germany began developing her waterways waterborne traffic has been competing most seriously with the railways. The railway profits benefit the taxpayer, while the waterway profits go largely to in-dividuals, so the German taxpayers would be spending money largely for the purpose of creating a competitor for the railways they own. Nevertheless, the German Govern-

ment, to all appearances, is determined to further develop its waterways. Second Round—At Queen City.

[Special to The Advertiser.]

Wingham, Aug. 14 .- A warrant has been issued for Roy Finley and his cousin, Russell, on a charge of having brutally illused a horse. Yesterday when Mrs. Phippen, wife of Provincial Constable George Phippen wanted to go berry-picking she hired a horse from Mr. Robert Beattle and engaged Roy Finley to take it back, and paid

him for doing it. Finley, it is alleged, instead of going back immediately, as he was told, picked up his cousin, Russell, and the boys raced the animal all over the ountry.

Mrs. Phippen telephoned Mr. Beattie that the outfit was being returned. and when it did not come, he began to make inquiries. About three hours afterwards the animal was brought in by the boys, half-dead and covered with big marks caused by its having been beaten. Mr. Beattie at once swore out

warrant, and the case will be heard before Magistrate Morton. Mr. Elliott, of the Children's Aid Society at Goderich, is also taking a hand in the House Was Robbed.

Blew the Safe and Secured About Two Hundred Dollars and Stamps.

[Special to The Advertiser.]

Blyth, Aug. 14.—The postoffice here as robbed early this morning. The burglars entered by breaking the window in the door, then put their hands through and opened the lock, after which they must have forced the door into the private office. They used nitro-glycerin, to blow open the safe. No other damage was done to the office. The postmaster estimates the loss in money and stamps at about \$200. In their haste the burglars missed drawer with registered letters and bills in it. There is no clue to the robbers.

# DONE BY MACHINERY

Making Good in Fields at Zurich.

[Special to The Advertiser.] Zurich, Aug. 14.-An automatic flax puller is the latest labor-saving device in the farming industry to be seen here. The machine is drawn by horses like a mowing machine. The flax is pulled by belts and rollers and bunched like wheat sheaves. It takes three men to operate it, and it is claimed that five acres of flax can be pulled in a day. By the hand

method it would taken twenty men to handle that much. The machine has been patented by an Ottawa man, who is here at present directing the work. So far the claims of the inventor have been verified. Demonstrations of the utility of the invention are being made in the flax fields of F. C. Kalbfleisch, owner of one of the flax mills here.

May Be Had On the Lake Huron Side and Rest and Beauty on the Other.

Wiarton, August 13.-A traveller,

oming to Wiarton by train, takes no other train to continue his journey up the Pen for the simple reason that there is none to take. He takes a stage, a boat or a livery rig. The stage is a delightful way to tra vel if one is in the mood for it, and, it is not raining, there are other "ifs" which different temperaments will supply. One can go by stage from Wiar n to Oliphant, or to Lion's Head, or Stokes' Bay, or anywhere between Wiarton and each of those places. You can go to Lion's Head or Tobermory

by boat; and you can go any place on the peninsula by livery.

Going to Lion's Head. As the afternoon train pulls into Wiarton, you can hear above the noise of escaping steam of the engine and the rattle of unloading of baggage cries of "This way to the Lion's Head stage!" If you are going there, you Lodge at Dorchester. follow the voice, which leads you to three-seated wagon covered with a ripsy-cover painted red, which,

Now, if fishing is the object of the holiday, either the Oliphant or the Stokes' Bay stage will take one near wonderful places to fish. The Stokes' Bay stage runs not far from Red Bay, Golden Valley, or Pike Bay, at all of which places the black bass are abundance, and the jaded appetite is

inknown. At Golden Valley and Red Bay campers are coming every year in creasing numbers. The third stage mentioned runs to liphant, the most developed of all the immer resorts in these parts. Here he fishing is good and the bathing is perfect, the water "being just like a

ea kettle," as one admirer said. Oliphant camps are both along the shore and on the islands. If you should be a guest at both, you must watch your words, for those who camp on shore "wouldn't camp on an island" and vice versa, and each asks your preference. At Oliphant there are some autos, more launches, boats, bridge parties, afternoon teas, and an annual regatta to which everyone for miles

round goes. around goes.
To som it all up, if you want fishing and bathing go to the Lake Huron side of the Pen, if you want quiet and beauty and are not particular about the fishing or the tea-kettle water, go to the Georgian Bay side. But to whichever you go, you will return from it with renewed vigor and enthusiasm

### INGERSOLL BIRDMAN REPORTED TO BE DEAD

Aviator Morok Was Injured When His Machine Overturned in a Hayfield.

[Special to The Advertiser.] Ingersoll, Aug. 14.—The death of Charles Morok, of the Morok Aeroplane Company, of New York, who made the flight here about six weeks ago, is reported. Whether it is true or merely a rumor remains to be dis-closed. It has been stated that Morok died of injuries received here. It was known at the time that he was injured, but no serious consequences

vere expected.
From what can be learned Morok rather hesitated about making the flight here, and while it was successful, he did not have the desired control of his machine in making the descent. He dropped into a hayfield and in skidding, the runners became tangled in the hay, with the result that the aeroplane was overturned. while the occupant was strapped in

SARNIA BRANCH OFFICE, 209 Front Street. Office hours, 9 a.m. to 9:30 a.m., 3:30

[Special to The Advertiser.] Sarnia, Aug. 13.—It is understood that the Sarnia Board of Trade at a meeting yesterday appointed a committee to go to Ottawa, with the delegation of three appointed by the town council, to confer with the Government in connection with the harbor

improvements here. It is thought desirable to secure op tions on the property bordering on Sarnia Bay, but it is not believed Scotland after visiting with Mrs. that the town will purchase the land, although the Government would no doubt prefer them to do so.

Every businessman who has given the matter any thought is, regardless of politics, in favor of the improvement scheme. A good harbor here would mean thousands of dollars a year to the town, for a vessel when laying up and fitting out must spend between \$1,000 to \$1,500 for supplies and repairs.

#### OATS HARD TO CUT; BEATEN BY RAINS

Farmers Around Parkhill Are, However, Getting a Very Fair Crop.

[Special to The Advertiser.] Parkhill, August 14.-All farmers of this vicinity are at present busily engaged at cutting their oats, which is

a fair crop.

It is found difficult to cut it this year, owing to it being broken down badly by so much wet weather and A number have threshed their wheat crop, and it is turning out good.

### OFFICE STAFF WON

A Victous Game of Pinochie Played by City Employees.

The office staff of the water commission decided to play ball on Tuesday and took on the employees of the power station and decided to play ball on Tuesday and too on the employees of the power station and pole-yard. The game went five innings, and was called at the end of that time because Bert Carruthers was the only person standing on his feet. The score was then 5 to 3 in favor of the office staff. Bill Rider was a regular bear-cat for the losers, scoring two runs, and making some rascally steals. Carruthers thought some rascally steals. Carruthers thought he was playing hockey, on several occasions, and made some lovely shots on goal. Roy Harrison umpired and some of the girls said he was positively cut. However, that may not be a compliment.

The batteries were Moore and Anderson for the office staff, and the others took turns at doing the honors.

The teams were: Office—DeWolfe, Dodd. Saunders, Carruthers, Moore, McEwen, Anderson. Powerhouse—Rida: Thomas. Donahue, Lethbridge, Barlowe, Weeks and Bryce.

Interests. [Canadian Press.]

Washington, D. C., Aug. 14.—The personal and political relations of Colonel Theodore Roosevelt and George W. Perkins, formerly of J. P. Morgan & Co., were bitterly attacked on the floor of the House today by Representative A. O. Stanley, of Kentucky, chairman of the steel trust investigating committee. In a speech supporting his bill to make the reports of the commissioner of corpora-tions available for Congress, Representative Stanley charged that Perkins had protected the Harvester trust from Government prosecution, and described Per-kins as the "go-between" of "big busi-

ness" and the Government.
Representative Stanley's characterizagood, and the Peterboro fans are well pleased with the good form shown by were extremely bitter. ing committee, Mr. Stanley said:
"The severest critic of Colonel Roosevelt can hardly conceive that he would in twenty minutes have commissioned the steel corporation to crush its last competitor, and he possessed one-tenth of the information which the commissioner of corporations was afterwards forced by the investigations of this committee and the pressure of public opinion to publish to the world. As suggested by the commissioner of corporations, the investigation of the Harvester trust was summarily stopped.

"The assurances of Mr. Perkins that the far-reaching influences of the Morgan company, the Harvester and Steel trusts were not to be sneezed at, appears to have had great weight with the chief executive.

"On this occasion," concluded Mr. Stanley, "the Colonel assumed the same relative position toward the masters from Wall street that the Lord assumed toward the devil. The Saviour said: 'Get thee behind, Satan,' and Roosevelt said: 'I will stand in front of you, O steel trust. The Bashi-Bazooks and the Turks have nothing on the armed guards who "protect" the mines in West Virginia, the kingdom of Gassavay Davis the Steep Physics away Davis, the Steve Elkinses and

the rest of the barons who own the tate's coal lands. West Virginia is like a frontier state. Little news leaks out of its mountain fastnesses and few of us know that there has been a great coal strike here since April 1-a great coal strike, great oppression, cruelty and therefore great human

uffering. When all other operators signed the Cleveland conference agreement to advance wages 5 per cent after April 1, the West Virginia operators refused-refused the 5 per cent.

More than 10,000 miners in the
Kanawaha coal fields thereupon struck. At once the operators hired the Baldwin strikebreaking agency at
