JOURNAL
OF THE
HOUSE OF ASSEMBLY
OF
PRINCE EDWARD ISLAND.

SECOND SESSION OF THE TWENTIETH GENERAL ASSEMBLY.

Thursday, February 14, 1856.

THE House having, by several Proclamations hereto annexed, been prorogued until this day, then to meet for the dispatch of business :

And being met—

A Message from His Excellency the Lieutenant Governor, by Henry Palmer, Esquire, Usher of the Black Rod :

Mr. Speaker ;

His Excellency the Lieutenant Governor commands the immediate attendance of this Honorable House at the Bar of the Council Chamber.

Accordingly, Mr. Speaker and the House went up to attend His Excellency in the Council Chamber.

And being returned—

Mr. Speaker reported that when the House did attend His Excellency this day in the Council Chamber, His Excellency was pleased to make a Speech to both Houses of the Legislature, of which Mr. Speaker said he had, to prevent mistakes,

obtained a copy, and which was read by the Clerk, and is as followeth :—

Mr. President and Honorable Gentlemen of the Legislative Council :

Mr. Speaker and Gentlemen of the House of Assembly :

I have called you together at the period which experience has shewn to be most convenient for the ordinary course of public business.

Under the blessing of Divine Providence, the late harvest has proved abundant, and will, no doubt, stimulate those engaged in agricultural pursuits, to perseverance in the habits of industry and order, which have marked their course during the past year, and which cannot fail to produce the happiest results.

I am happy to be enabled to inform you that the decrease which I anticipated in the Revenue of the past year is unimportant, and that in this slight fluctuation, which may be easily accounted for, there is nothing to apprehend for the stability and soundness of the resources of the Island, the Revenue being more than equal to the ordinary expenditure.

Mr. Speaker and Gentlemen of the House of Assembly :

The Public Accounts shall be submitted to you as speedily as practicable, and I rely upon your readiness to make provision for the efficient support of the public service.

The Laws for the collection of the Revenue, as well as for its protection from the baneful effects of illicit traffic, appear to me to be liable to serious objections; to remedy which, their careful revision and consolidation has become necessary; and in directing your attention to this important branch of the public service, I cannot doubt that it will receive all the consideration which the extended commercial relations and increasing importance of the trade of this Island demand.

Mr. President and Honorable Gentlemen of the Legislative Council:

Mr. Speaker and Gentlemen of the House of Assembly:

I feel assured that the interest you have manifested in the events of the War is undiminished, and that, although exempted from the great sacrifices which it entails, you are not the less solicitous for its early and satisfactory termination.

The Act of the last session "to impose a rate or duty on the Rent Rolls of the Proprietors of certain rented Township Lands in this Island," and also the "Act to secure compensation to Tenants," have not received Her Majesty's confirmation.

The grounds upon which the decision of Her Majesty's Government regarding those measures is founded, shall be communicated to you.

I am happy to inform you that the transactions respecting the sale of Public Lands, which will, in due course, be submitted to you, have, in their progress, fully justified the expectations formed of the effects to be derived from the Land Purchase Bill, in the desired conversion of Leaseholders into independent Freeholders, advantages which are only limited by the small amount placed by that measure at the disposal of the Government.

The great advantages, moral and social, which are derived from the constant extension of Free Education, are appreciated to a very gratifying extent, as the rapidly increasing number of schools, already amounting to 263, and attended by above 11,000 pupils, fully testifies.

The agricultural portion of the community continue to derive substantial benefits from the operations of the Royal Agricultural Society, whose judicious importations supply those necessary articles, which could not be rendered available by unassisted private enterprise.

Closely bound up with the success of Agriculture and Trade, is the state of the Island communication with the neighbouring Colonies; and no more judicious application of the public resources can be devised than such as may be required to render this communication more secure, as well as frequent and expeditious. Any expenditure with this very impor-

tant object, cannot fail to be repaid by the increased benefits which it will confer on every class of the community.

These, and all other objects affecting the public interests, will, I doubt not, receive your fostering care and attention; and you may always rely upon my cordial co-operation, in every well directed effort, to promote the welfare of the people and the prosperity of Prince Edward Island.

Mr. Speaker informed the House that he had received intelligence of the decease of Mr. John Ross, Clerk Assistant to the House; and thereupon

The Hon. the Colonial Treasurer moved that Mr. Frederick W. Hughes be chosen Clerk Assistant.

mittee; and after some time spent therein—

Mr. Speaker resumed the Chair;

And Mr. Perry reported that the Committee had gone through the draft Address reported from the Special Committee, paragraph by paragraph, and had adopted the same without making any amendment thereto; and the said Address was again read at the Clerk's Table, and is as followeth:

To His Excellency DOMINICK DALY, Esquire, Lieutenant Governor and Commander-in-Chief in and over Her Majesty's Island Prince Edward and the Territories thereto belonging, Chancellor, Vice Admiral, and Ordinary of the same, &c. &c. &c.

May it please your Excellency;

We, Her Majesty's faithful subjects, the House of Assembly of Prince Edward Island, respectfully thank your Excellency for the Speech with which you were pleased to open the present Session at a period so convenient for the ordinary transaction of public business.

It is a source of the highest satisfaction to know that the labours of the husbandman have, during the past year, been blessed with an abundant harvest—a blessing, we feel assured, which will give an impetus to industry, and perseverance in agricultural pursuits.

We are rejoiced to hear that the decrease in the amount of Revenue for the past year, is unimportant, and that while there is nothing to apprehend from that fluctuation, for the stability and soundness of the resources of the Colony, it is gratifying to know that the Revenue for the year has been more than sufficient to meet the ordinary expenditure.

We shall give a careful attention to the Public Accounts, as soon as they are laid before us, and we will cheerfully make the necessary provision for the public service.

We fully concur with your Excellency in opinion as to the necessity of revising and consolidating the Laws for the collection of the Revenue, with the view of checking illicit traffic, so injurious to the trade and commercial relations of the Island; and it will be our duty to give the best consideration to this important subject.

The interest we have endeavoured to manifest in the progress of the war, is not only undiminished, but rather quickened by the recollection of the splendid achievements which crowned the arms of the allied Sovereigns during the past year. Though far removed from the scene of conflict, and happily ex-

empt from the sacrifice it entails, we are, nevertheless, earnestly solicitous that the crowning glory of the arms of our beloved Queen, and her august Allies, may be speedily found in the restoration of an honorable and permanent peace.

It is with unfeigned surprise and regret we have learned that the Act of the last Session, "To impose a rate or duty on the Rent Rolls of the proprietors of certain rented Township Lands in this Island," and also the "Act to secure compensation to Tenants," have been denied the royal confirmation. Confident that your Excellency is at all times desirous to promote the prosperity of this Island, we are satisfied that the failure of those measures, so equitable in their principle, and so essential to the well-being of the Colony—was not owing to the want of your Excellency's personal recommendation, but rather to the exercise of an influence long seriously felt, always foreign, and always baneful to the interests of the Colony. The communications promised by your Excellency in reference to the measures which Her Majesty has been so unexpectedly advised to disallow, shall receive an early and deliberate consideration.

It affords us much satisfaction to learn that the transactions under the operations of the Land Purchase Bill have been such as to fully justify the high expectations formed of that measure, with regard to the conversion of leaseholders into independent freeholders—an advantage which, we are fully sensible, could be greatly augmented if a due regard for other interests allowed a larger amount to be placed at the disposal of the Government under the Bill alluded to.

We are rejoiced, though not surprised, to learn, that the Inhabitants of the Island so highly appreciate the moral and social advantages resulting from a general diffusion of Education, as is evident from the unprecedented number of Schools that have been called into active operation by the Free Education Act. We believe that no part of Her Majesty's dominions, of the like area with Prince Edward Island, can exhibit such marked improvement in what tends so much to promote public happiness, tranquillity and prosperity, as a constant and liberal extension of education.

We are fully sensible of the advantages which the agricultural portion of the community have derived from the operations of the Agricultural Society. Every other interest is involved in the prosperity of our agriculturists; and a Society which confers benefits upon that industrious class, demands encouragement from every other. But much as agricultural industry may be encouraged through the exertions of an Agricultural Society, its progress mainly

depends upon an active and thriving commerce. To secure this, it is necessary there should be a full, uninterrupted, and expeditious communication with other countries, and especially with the neighbouring colonies. So important an auxiliary to trade requires a liberal appropriation of the public funds; and we trust, that during the present Session we shall not be found to take a narrow and contracted view of a matter which so deeply concerns the prosperity of the country.

In the progress of our deliberations on these and other objects affecting the public interests, we shall be happy, at all times to avail ourselves of your Excellency's well known zeal and ability, and we doubt not that our united efforts may tend to promote the welfare of the people of Prince Edward Island.

And the said Address being again read,

Mr. Cooper moved that the said Address be re-committed to a Committee of the whole House, for the purpose of amending the same by leaving out the whole of the seventh paragraph thereof, and inserting the following in lieu of the same:—

“As the Act of last Session to impose a tax upon the Rent Roll of Proprietors, and the Act to secure a compensation to Tenants, have not received the Royal assent, when the reasons assigned by Her Majesty's Government for such disallowance are communicated to us, they shall receive our deliberate consideration.”

Mr. Clark, from the Committee to whom were referred the several Petitions praying for a more stringent enactment to prevent the running at large of Swine, to examine the same and report thereon, by Bill or otherwise, presented to the House the Report of the said Committee; which Report, being again read at the Clerk's Table, was agreed to by the House; and is as followeth:—

The Committee appointed to report on the several Petitions praying that an Act may be passed to prevent the running at large of Swine, submit—That although much injury is done to private property, as well as to the public Roads, by the going at large of Swine, yet your Committee think that a Law to compel all persons to keep their Swine from going at large, while it would operate beneficially, in some

Settlements, would be found oppressive to many of the new Settlers in wood lands; your Committee cannot, therefore, recommend the prayer of the petitioners.

Resolved, That this House do now resolve itself into a Committee of the whole House, to take into further consideration the Bill to facilitate the performance of the duties of Justices of the Peace with respect to summary convictions and orders.

The House accordingly resolved itself into the said Committee.

The Committee to whom was referred the Petition of sundry Inhabitants of Pisquid Settlement and neighbourhood, praying for the erection of a Bridge across the Pisquid River, at Macdonald's Shipyard, have to report, that although such a Bridge would afford increased accommodation to the travelling public in the immediate neighbourhood, yet, as the present Bridge across said river is not more than two miles from the proposed new site, and the new Bridge would cost a very large sum to build it, your Committee, therefore, cannot recommend the prayer of the Petition to the favorable consideration of the House.

Ordered, That the Hon. the Colonial Treasurer have leave of absence from this House until Wednesday next.

The suggestions contained in this document, in reference to the Act to incorporate the Bank of Prince Edward Island, which has recently received Her Majesty's confirmation, appear to the Lieutenant Governor to be of sufficient importance to merit early and attentive consideration, with a view to the adoption of such means as may be found necessary to meet the objections which the Lords Commission-

ers of her Majesty's Treasury have therein brought to the notice of the Secretary of State.

Government House, 13th March, 1856.

Mr. Speaker resumed the Chair,

And Mr. Macdonald reported that the Committee had gone through the Report of the Special Committee, paragraph by paragraph, had amended and then adopted the same; and the Report, so amended, was again read at the Clerk's Table, and is as followeth:—

Your Committee to whom were referred sundry Petitions from the Inhabitants of different sections of this Island, praying for the establishment of Post Offices, as also the claims advanced for increased remuneration to Postmasters, submit, that they have examined the various Petitions and claims referred to them, and having given their best attention thereto, have to report—

That they recommend the establishment of a Post Office at Wheatly River.

That they cannot recommend an increase of salary to the Postmaster at Park Corner.

That as a Post Office is now established at the Nine-mile House, Saint Peter's Road, they cannot recommend a Post Office at Tracadie,—the distance apart being three miles only, and little or no correspondence.

That it is recommended that the Post Office be continued at Lot 12, where most convenient for the mail carrier.

That it is recommended a Post Office be established at or near the old saw-mill Bridge, Cove-head Road.

That the Committee cannot recommend the prayer of the Petition of N. J. Brown, Postmaster, Saint Eleanor's, for an increase of salary, as it will open a way for a general application from other Postmasters.

That it is recommended, on consideration of the nature of the Petitioners' application, that a Post Office be established at the most central and convenient place between Johnson's Road, New Glasgow Road, and the Scotch Settlement Road, on Township 23.

That it is recommended that a sum be granted to John Macintosh, Township 14, Mail Carrier, to recompense him for additional expence and labour incurred, in having to travel a distance of four miles to two new Offices established, one at Kildare, and the other at Barlow's Mills.

That it is further recommended, that the same amount as formerly granted to J. A. Chipman, Esq., Postmaster, at Anherst, N. S., be continued this year.

Your Committee submit detailed statements—as furnished by the Postmaster General—1st, of the amount of contracts for the conveyance of the Inland Mails, for the year 1856, and amount payable to country Postmasters, by Statute. 2dly, Of the amount of Postage collected at the different Inland Offices during the year 1855, and amount of commission paid to the respective Postmasters.

Your Committee having also examined the Petition of the Trustees of the Georgetown Grammar School, submit that it is inexpedient to add to the salary of the Teacher.

Your Committee would recommend that, in future, no Petition praying for an allowance to unlicensed Teachers be entertained by the House, unless it shall clearly appear that the Inhabitants petitioning, could not obtain a Teacher qualified according to Law.

Your Committee would also recommend that when the House is in Committee of Supply, a sum be ap-

propriated for the purchase of French School Books, for the use of the Acadian Schools.

Your Committee also have had under their consideration the Petition of the Trustees of the Brudenell District School and others, and from the allegations set forth in the said Petition, they recommend that when the House is in supply, the sum of £29 3s 4d be granted to the Trustees of the above mentioned School for seven months of Mr. Irving's services as Teacher.

Your Committee submit, that when the House is in Committee of Supply, a sum sufficient be appropriated and paid for the services herein set forth, agreeably to the foregoing recommendations.

Haviland, from the Special Committee to whom was referred the Petition of the President and Directors of the Charlottetown Gas Light Company, praying an amendment of the Act of Incorporation, to examine the same and report thereon, by Bill, or otherwise, presented to the House a Bill as prepared by the Committee, to alter and amend the Act to incorporate the Charlottetown Gas Light Company; and the same was read the first time.

Ordered, That the Hon. Mr. Wightman, the Hon. Mr. Montgomery, and Mr. Haviland do compose the said Committee.

A Petition of divers Inhabitants of Township 35 was presented to the House by the Hon. Mr. Mooney, and the same was received and read, setting forth that a portion of Land occupied by them on that Township, adjoining Township No. 43, and claimed as part of the Estate of the Rev. John Macdonald, was fraudulently leased to unthinking Immigrants, and that they (the Petitioners) were given to understand that there is a surplus of several thousand Acres so claimed, over and above the complement comprised in Township No. 36, according to the original grant, and praying that steps may be taken to revest such portion of Land in the Crown, and then transfer it, by sale, to the Petitioners.

The House accordingly resolved itself into the said Committee.

Mr. Speaker resumed the Chair.

And the Chairman reported that the Committee had made some progress, and had directed him to move for leave to sit again, which the House agreed to.

Ordered, That the Order limiting the time for the reception of Private Petitions be suspended; and thereupon—

The following Petitions were presented to the House, and the same were severally received and read, viz:—

By Mr. Macgill,—Two Petitions of divers Inhabitants of Townships 48, 49 and others, setting forth their disapproval of the recent movement for altering the Ferry Landing-place from its present site to the foot of Prince Street; the inconvenience and expence to the Petitioners and the unnecessary expenditure of Public money involved in the building of a new Wharf; and that the Queen's Wharf is the more useful, central, and desirable place as a Ferry Wharf.

By the Hon. Mr. Palmer,—A Petition of Merchants and other Inhabitants of Charlottetown, setting forth the injury to the interests of the Petitioners which would follow the removal of the site of the Ferry Landing to Prince Street; that they conceive the outlay of two or three thousand Pounds of public money for that purpose, uncalled for; and that the Queen's Wharf can, with small cost, be rendered available for the purpose, and afford a much more convenient landing for the farming population.

A Petition of divers Inhabitants of Charlottetown, setting forth that the removal of the Ferry Landing-place from the site at Queen's Street to Prince Street, would tend very much to the inconvenience of most of the public crossing the ferry; that by making necessary alterations and improvements at the Queen's Wharf for the above purpose, a large sum of money will be saved to the public, and offering the amount of Two hundred Pounds subscribed by them towards such undertaking, and praying that such regulations may be made as will relieve them from the inconvenience pointed out.

Ordered, That the four last preceding Petitions do lie on the Table.

Then the House adjourned until tomorrow at ten o'clock.

Wednesday March 19, 1856.

THE Hon. Mr. Wightman, from the Committee appointed to prepare and report the draft of an Address to His Excellency the Lieutenant Governor pursuant to the recommendations contained in the Report, as adopted by the House, of the Special Committee appointed to report on all matters relating to the Post Office Department, presented to the House the draft of an Address, as prepared by the Committee, which being again read at the Clerk's Table, was agreed to by the House, and is as followeth:—

To His Excellency DOMINICK DALY, Esquire, Lieutenant Governor and Commander in-Chief in and over Her Majesty's Island Prince Edward and the Territories therunto belonging, Chancellor, Vice Admiral, and Ordinary of the same, &c. &c. &c.

May it please your Excellency;

The House of Assembly having had under consideration several matters connected with the Post Office Department in the Colony, have agreed to a Report on the same—a copy of which is hereunto annexed. The House respectfully request that your Excellency will be pleased to direct that the recommendations contained therein be carried into effect.

Resolved, That the House will, to-morrow, resolve itself into a Committee of the whole House, to consider of Ways and Means.

The Hon. Mr. Wightman, from the Committee to whom was referred the Petition of George Pool, Archibald Mackinnon, and others, adherents and members of Saint David's Church, Georgetown, praying for an Act of Incorporation, to examine the same and report thereon, by Bill or otherwise, presented to the

House a Bill to incorporate the Trustees of Saint David's Church, in Georgetown; and the same was read the first time.

Ordered, That the said Bill be referred to the Special Committee appointed to report on every Private Bill, to examine the same and report thereon.

The Hon. Mr. Whelan, from the Special Committee appointed to report on every private Bill, and to whom was referred the Bill to alter and amend the Act to Incorporate the Charlottetown Gas Light Company, to examine the same and report thereon, presented to the House the Report of the said Committee; which Report, being again read at the Clerk's Table, was agreed to by the House, and is as followeth:—

Your Committee appointed to report on Private Bills, and to whom was referred the Bill to alter and amend the Act to Incorporate the Charlottetown Gas Light Company, have to report, that the Bill in question appears to be a Private Bill, yet, as it does, in a great measure, affect the interests of a large portion of the community, the Committee recommend that the said Bill be entertained by the House, without exacting the fees usually charged on Private Bills.

Ordered, That the said Bill be read a second time to-morrow.

The Hon. Mr. Longworth, from the Committee to whom was referred the Petition of John Mackinnon, late a Preventive Officer, and also of Octavius Le Page, Administrator of the Estate of Napoleon Le Page, deceased, late a Preventive Officer, to examine the same and report thereon, presented to the House the Report of the said Committee; which Report was again read, and is as followeth:—

Your Committee to whom were referred the Petition of Mr. John McKinnon, late Preventive Officer for the Port of Charlottetown, and also a Petition of the Administrator to the Estate of Mr. Napoleon Le Page, deceased, late a Preventive Officer for said Port, praying reimbursement in the expenses incur-

red by the said officers in seizing and detaining the American Schooner, "Dragonet" last summer, as well as payment for their services in the matter—have to report that the said J. McKinnon, and the said late N. Le Page, did, on the fourteenth day of August last, in the execution of their duty as Preventive Officers, for a breach of the Revenue Laws, seize and detain the said Schooner with a variety of American Goods on board; that they landed a large quantity of Gunpowder and a gun (being contraband goods) from the vessel, and deposited the powder in the Ordnance Magazine, by order of Mr. Bremner, the Assistant Collector, and took an inventory of the remaining part of the cargo, and placed it with Mr. Clark, the Collector, the gun remaining in Mr. McKinnon's possession; the vessel and goods on board were then advertised in the "Royal Gazette," by McKinnon and Le Page, to be sold at auction on the 29th of the current month, as forfeited to the Government of the Island; that on the 27th of the same month, Mr. Clark, the Collector, seized the vessel and took her out of the Preventive Officers' hands, together with the goods on board, and stated to them at the same time that the Lieutenant Governor was going to fine the Captain £100 sterling, and give up the vessel; this appears to have been done shortly afterwards, and £100 currency accepted by the Government as the penalty; the Bills of expenses incurred by the Preventive Officers amounting to about £17 were handed to Mr. Clark at his own request, but not since paid; that McKinnon has since been sued in the Small Debt Court for Seven Pounds of the amount, and judgment recorded against him, with expenses.

Your Committee would, therefore, under all the circumstances, recommend to the House the justness of providing for the payment of the expenses incurred, as well as a fair remuneration to be paid to the proper parties for the services performed by McKinnon and Le Page, in seizing and detaining the Schr. "Dragonet."

The minutes of evidence taken before the Committee are herewith submitted to the House.

Ordered, That the said Report be now committed to a Committee of the whole House.

The House accordingly resolved itself into the said Committee.

Mr. Muirhead took the Chair of the Committee; and after some time spent therein,

Mr. Speaker resumed the Chair,

And Mr. Muirhead reported that the

Committee had gone through the consideration of the Report of the Special Committee to them referred, and had come to a Resolution thereon; which Resolution was again read at the Clerk's Table, and is as followeth:—

Whereas certain proceeding taken by the late Napoleon Le Page and John Mackinnon, late Preventive Officers, with respect to the seizure of the American Schooner 'Dragonet,' were in direct opposition to the orders of the Collector of Excise and of the Government, and were entirely erroneous; but nevertheless the Government offered to discharge the necessary expenses incurred by those proceedings, in order to save the then Preventive Officers harmless: And whereas the conduct of the late Napoleon Le Page and John Mackinnon, in adopting a course at variance with the commands of their superior Officers would, if recognized and encouraged, be subversive of that due subordination and regularity which should at all times prevail between superior and subordinate officers. *Resolved, therefore,* that it is inexpedient to entertain the application now before the Committee for a grant of money from this House, the Government having already, as above stated, offered to pay the necessary expenses attending the unauthorised seizure, and the House, in Committee of Supply, will make good the same.

And the said Report being again read,

The Hon. Mr. Longworth moved to amend the same, by leaving out the whole of the said reported Resolution, and substituting the following:—

"Resolved, That the late Napoleon Le Page and John Mackinnon, late Preventive Officers, were entitled to be reimbursed in the expenses incurred by them about the seizure and detention of the Schooner 'Dragonet,' as well as a fair remuneration for their services in that seizure."

The House divided on the motion of amendment:

YEAS:

Hon. Mr. Longworth,	Hon. Mr. Palmer,
Hon. Mr. Montgomery,	Mr. Cooper,
Mr. Yeo,	Mr. Douse,
Mr. Macdonald,	Mr. Laird

NAYS :

Hon. Mr. Whelan,	Hon. Mr. Lord,
Hon. Col. Secretary,	Hon. Mr. Mooney,
Hon. Mr. Wightman,	Mr. Munro,
Mr. Clark,	Mr. Muirhead,
Mr. Macgill,	Mr. Macintosh.

So it passed in the negative.

The question being then put on the said Resolution, as reported from the Committee, it was carried in the affirmative.

Ordered, That Mr. Muirhead have leave to absent himself from this House until Monday next.

Then the House adjourned until tomorrow, at Ten o'clock.

And Mr. Perry reported that the Committee had gone through the Report of the Special Committee, had amended, and then adopted the same; and the Report so amended, being again read at the Clerk's Table, was agreed to by the House, and is as followeth:—

Your Committee appointed to report on the subject of Light Houses, and to whom were referred various papers and petitions, with reference to Lights and Light Houses, presented to the House in the present Session, having given the subject and the various matters connected therewith as referred to them, their best attention, have to report—

That they have had under consideration two Despatches, dated respectively, 6th September, 1855, and 15th January, 1856, addressed by Her Majesty's Principal Secretary of State for the Colonies to the Lieutenant Governor of this Island, inviting the co-operation and assistance of the local authorities in this Colony, in common with those of other Colonies, in order to bring about a more efficient and economical system of management in the erection and maintenance of Colonial Lights than that which exists at present; and also a letter dated 15th August, 1855, from the Office of Privy Council for Trade, addressed to the Colonial Office, on the same subject, together with the Imperial Statute, 18 and 19 Vic. Cap. 91, passed to facilitate the erection and maintenance of Colonial Light Houses.

The system contemplated by the Despatches, Letter and Statute in question, appears to be to raise funds payable into the Imperial Treasury, by means of Tolls levied on ships which derive benefit from

Light, whether they go to Ports in the Colony in which the Light is situate or no. These Tolls are proposed to be imposed by Her Majesty in Council, and made payable to the Collectors of Light Duties throughout the British Possessions, who are to pay over the amounts received by them to Her Majesty's Paymaster General, to be appropriated to the building and maintenance of the several Light Houses; provision is made for procuring advances for building as well as maintaining lights.

Your Committee beg leave to refer to the above documents as published in the Appendix to the Journal, for a more detailed explanation of the proposed system.

Your Committee consider the matter as one of great importance, and one on which no hasty decision should be taken, and that it is desirable to ascertain what action the neighbouring Colonies are taking, or propose taking, in the matter; they, therefore, recommend that the Government open a correspondence with the Governments of Canada, New Brunswick and Nova Scotia, with a view of ascertaining the sentiments of those Governments with respect to the above proposed system. In the mean time, they recommend that Legislative action on the subject be suspended or deferred.

Your Committee have further to state that they have made a careful examination of the expenses arising from the maintenance of Light Houses, Buoys and Beacons for the past three years, the cost of which is shewn to be £1559 4s 9d; the expense of sites, building of Light houses and Keepers' houses amounts to £542 7s 6d; the further cost of Lamps and Lanterns for the same space of time is £691 7s 6d, making a total of £2,792 19s 9d, and the receipts arising from Light and Anchorage Dues for the same period of time appears to be £2,107 15s 6½d—shewing a balance against the Colony of £685 4s 3½d.

Your Committee have also had under consideration two Petitions from the Inhabitants of Tignish and North Cape, praying for the erection of a Light House on the North Cape, and also on the East Point of this Island. That the erection of Light Houses on these Capes would be essential to the general interests of the mercantile community, and would be of equal, if not of greater benefit to the shipping of the neighbouring Colonies, Great Britain and the United States than to that of this Island; and that, therefore, those Countries should be called upon to contribute towards their erection and maintenance, more particularly as there does not appear to be any

surplus fund at present in this Island available for such purpose. This contribution would, to some extent, be obtained if the uniform system of co-operation above alluded to, on the part of all the Colonies and the Mother Country were to be carried out.

The Committee have also considered the Petition of the Keeper of Point Prim, as well as that of the Keeper of Panmure Island Light House, praying severally for an increase of salary; but they cannot, at present, recommend the prayer of these Petitions.

The Committee have likewise considered the Report of the Superintendent of Public Works, shewing the necessity of an alteration in the construction of the Light House at Cascumpec; and they recommend such improvement to be made as will afford that benefit to the Public which was anticipated; they further submit that the efficiency of the Light on Fish Island, Richmond Bay, be enquired into by the Government, with a view to its improvement.

Your Committee have also considered the Petition of Thomas Robson, of New Brunswick, for a grant or his invention of a Fog Bell, as also the Petition, of certain Inhabitants of Cumberland, Nova Scotia praying the House to adopt measures in conjunction with the other British American Provinces, for the purpose of constructing Fog Bells on Cape Traverse and Cape Tormentine, and a Light House on the latter Cape; although the construction of these works is set forth as being of importance to the welfare of the Island, yet your Committee cannot, at present, recommend the prayer of the said Petitions.

Mr. Muirhead moved that the House do come to a Resolution as followeth:—

WHEREAS this House, in its last Session, adopted the following Report:—
“Your Committee who were appointed to report by Bill or otherwise, on the Petition of the Inhabitants of Lot 19, praying for a Small Debt Court in their vicinity, have to report, that as the Session is now so far advanced, it is inexpedient to take up the matter this Session, as they consider the Small Debt Act requires amendment, your Committee recommend that it be taken into consideration at an early day of the next Session:” Therefore, *Resolved*, that the said Small Debt Act be amended, so as to enable the Government to appoint additional Small Debt Courts where required.

And the motion being seconded, and the question put thereon,

The Hon. the Colonial Treasurer then moved that the said Petition be received and read; and, thereupon—

Resolved, That as the Report of the Committee appointed to report, generally, on Light Houses, has been adopted by the House, it is unnecessary to entertain the prayer of the said Petition.

A Petition of divers persons styling themselves Electors of Prince Edward Island, was presented to the House by Mr. Laird, and the same was received and read, setting forth, that they are now taxed for the purpose of paying the Legislative Council, while having no voice in their appointment, and praying that an Act may be passed, this Session, to make the Legislative Council Elective.

Mr. Palmer moved, as an amendment thereto, that all the words after “Resolved,” be expunged, and the following inserted in lieu thereof—“that an increase in the number of Representatives in the House of Assembly of this Island is not called for by its Inhabitants, nor proposed by its Government; and inasmuch as such a measure will greatly augment the expenses of the Legislature and impose unnecessary burthens upon the people, who are already represented in the House of Assembly by a far greater number of Members, in proportion to the population of the Colony, than the neighbouring Provinces, it is, therefore, inexpedient to make any addition to the number of its Representatives.”

Monday, March 31, 1856.

THE Hon. Mr. Mooney, from the Committee to whom was referred every Petition praying for the opening of new lines of Roads, to examine the same and report thereon, presented to the House the Report of the said Committee; which Report was again read at the Clerk's Table.

Ordered, That the said Report be now committed to a Committee of the whole House.

The House accordingly resolved itself into the said Committee.

Mr. Macdonald took the Chair of the Committee; and after some time spent therein,

Mr. Speaker resumed the Chair.

And Mr. Macdonald reported that the Committee had gone through the Report of the Special Committee, had amended, and then adopted the same; and the Report so amended, being again read at the Clerk's Table, was agreed to by the House, and is as followeth:—

Your Committee to whom were referred the several Petitions praying for the opening of new lines of Roads, as also the Reports of different Commissioners appointed during the last recess, have to report—

That it be recommended to the Government to appoint a Commission to open a road from the lower settlement, Nail Pond, to Pig Brook Settlement, between the farms of Barzille Doucette and Michael Ready.

That a line of Road be opened from the Main Western Road to Summerside, on the line between Joseph Green and the late Daniel Green, provided a free right of way is given of not less than forty feet in width.

That it is recommended a commission be appointed to survey and appraise the damages, if any, which will accrue from the opening of a new line of road on the line between Lots 18 and 19, and report thereon, as prayed for by the Petition of Inhabitants of Indian River and Barbara Weit.

That it is recommended a Commission be appointed to ascertain and report on the practicability and probable cost of opening a new line of road leading from some part of Fermoy Settlement, Lot 18, to the main road, on the line between George Ramsay's and William McKenzie's farms.

That it is recommended a road be opened according to a plan now before the Committee through lands in the possession of James Mackinnon and Lauchlan Gillis, in a straight line through the different farms towards the Chapel on Lot 14, provided all the proprietors of land are willing to give the right of way.

That it is recommended a Commission be appointed to report on a new line of road on the line between Lots 13 and 14, on the farms of Macintosh, Dogherly and Preshaw to the shore.

That it is recommended a Commission be appointed, if deemed necessary, to appraise the damages, if any, which will accrue from the opening of a new road from Wheatly River Bridge, to Johnston's on the Princetown Road, and to report thereon for the information of the House, at the next Session.

That it is recommended a Commission be appointed to survey and report on a new line of road to be opened on the East side of Seal River to the main road leading to Vernon River Bridge.

That it is recommended that the Government do cause a survey to be made of the line from Edward Johnston's farm, on the Princetown Road, to the School House, on the New Glasgow Road, their report to be laid before the House in the next Session.

With respect to the Petition of James Doyle and other Inhabitants of Township 48, your Committee would recommend a survey to be made, and a report thereon laid before the Government, and the line of road to be opened, if approved of.

That a new line of road is required for a distance of about 40 chains on the County line, North, between Townships 49 and 50 and 66.

That it is recommended that an inquisition be held, and a line of road opened on the County line between King's and Queen's Counties, from the Whim Road to the Murray Harbour Road, at the Southern Corner of Lot or Township 61—a distance of about one and a quarter mile.

It is also recommended that similar steps be taken to open a line of road from the County line at Mackenzie's Mills, between Lots 57 and 58.

That with regard to the Report of the Commissioners as to the expediency of either continuing the straight line of road across the Swamp from Enman's to Matheson's, on Township 55, or of opening a new line in accordance with a plan drawn by the Surveyor General, and submitted to the House last Session, Your Committee have to recommend that the line of road be opened, as it can be done at a cost of about Ten Pounds, as stated by the Commissioners in their report, and as the award to be paid to parties own-

ing land over which the proposed new line of road would run, would be only about Twelve Pounds, and whereas it appears to be impossible now to straighten the old line, as the work would not be proceeded with as at first contemplated, unless the contracting party were allowed to go on with it before the First day of March, and then allowed the large sum of Fifty-three Pounds,—under these considerations there can be no doubt that the opening of the new line of road would be a decided advantage to the public.

Respecting the Petition of the Settlers of Mill River, Lot 46, your Committee consider that the central road recommended by them, as follows, will carry out the object of the Petitioners, viz: that a further survey be made, (in continuation of the late survey) from New Harmony, Westward, in the most suitable direction through the several Townships to Mount Stewart, Bridge.

It is recommended that the line of road on the North side of Grand River, Lot 55, down to Poplar Point, be opened under the Compensation Act, and that the sum of Twenty Pounds appropriated this Session for that road be expended on the South side, in making a road leading from the highway to the River, at McLeod's Ferry, near the new Chapel, where the right of way has been offered.

Your Committee further recommend that a new road be opened from Lewis' burnt house, Lot 41, or near thereto, and thence in a straight line to the Bear River Road, Dixon's Mills, provided a right of way is given free of expense, and when the new road is fit for travelling, the present shore road to be closed.

With respect to the Petition of the Inhabitants of Green Vale and Mill River, Township 46, praying for a new line of road from said settlement to Souris Road, and also the Petition praying for a new line of Road from Sheep Pond to the old Chapel Road, Rollo Bay, it be recommended to the Government to obtain information as to the necessity of the road prayed for, also if the right of way is to be given, and if not, how much of the right of the line of road will have to be purchased, of the nature of the ground, and the probable expense of making the said road.

Resolved, That a Committee be appointed to prepare and report the draft of an Address to His Excellency the Lieutenant Governor, pursuant to the said Report.

Ordered, That the Hon. Mr. Mooney, Mr. Macgill, and Mr. Perry do compose the said Committee.

The Hon. Mr. Mooney, from the Committee to whom was referred the Petition of divers Inhabitants of Township No. 36, relative to an alleged surplus of Land contained between that Township and Lot No. 48, to examine the same and report thereon, presented to the House the Report of the said Committee; which Report was again read at the Clerk's Table, and is as followeth:—

Your Committee to whom was referred the Petition of Inhabitants of Township 36, praying that the Government would take that portion of land lying and being between Lots 35, 36 and 48, being about two thousand five hundred Acres, as stated by Francis Kelly, Esquire, before a Committee appointed by this House in the Session of 1855, have to submit, that they recommend a survey to be made, commencing at the North Shore, and running from thence Southwardly for the distance of ten miles, 3,400 feet, being the distance allowed in the original Grants of Townships Nos. 35 and 36, and that the Attorney General be directed to prosecute for the recovery of said lands with a view to their settlement, under the provisions of the Land Purchase Act.

And the Report being again read,—

The Hon. Mr. Mooney moved that it be adopted.

The House divided on the question:

YEAS:

Hon. Mr. Mooney, Hon. Mr. Lord.
Mr. Perry,

NAYS:

Mr. H. Haviland, Mr. Macdonald,
Mr. Dingwell, Mr. Macintosh,
Mr. Cooper, Mr. Muirhead,

So it passed in the negative.

port, that after examining the Accounts to them referred, they find that the Expenditure for the financial year ended 31st January, 1856, amounted to £45,289 14s. 7d., and the Receipts for the same period to £42,081 2s. 2d., thereby shewing an excess of expenditure over receipts of £3,208 12s. 5d. This amount of excess added to the balance standing against the Colony, on the 31st January, 1855, exhibits a debt due by the Colony on 31st January, 1856, of £13,101 18s. 1½d., and which balance includes all Debentures and Treasury Notes afloat, as will appear by the annexed tabular statement; but against this balance there is due from the sales of Land on the Worrel Estate £6,161 6s. 11d., including interest, payable according to the terms of the Land Purchase Act, besides about 70,000 acres of Land unsold:

But there is a balance of £330 still due for interest on Debentures.

A difference of Eight Pounds, which appears between amounts charged in the Land Commissioner's Account and the amount accounted for in the classified Accounts, is satisfactorily explained by finding that amount entered in the Treasurer's account to the credit of the Crown Lands' account, instead of the Public Lands' account.

Your Committee further report that they have carefully examined the accounts of the Worrell Estate, from 1st January, 1855, to 1st February, 1856, and find that 8,090½ acres of Wilderness Land and 8,306 acres of occupied Lands have been sold for the sum of £3,238 19s. 9½d. including interest, of which amount £2077 12s. 10½d. has been paid, and there remains yet to be paid a balance, including interest, of £6161 6s. 11d. Your Committee remark that there appears to be about £2,800 of Bonds in the hands of the Commissioner of Public Lands, which Bonds he has estimated in his account to be worth £1,500, leaving about £1,300, which he does not remark upon in any way; while the Committee are of opinion, that when submitting an account of these Bonds, the Commissioner should have made such remarks as would shew a satisfactory reason why they should be valued at £1,500, and they recommend that the accounts of the above Estate be, in future, presented to the House in a more detailed and a clearer manner.

Your Committee feel themselves called upon to direct the attention of the House to the very great deficiency in the amount of Light and Anchorage duty collected at Cascumpec, this year, as compared with previous years, as will be shown by the following statement:—

1852, Amount of Light and Anchorage	
duty from Cascumpec was,	£121 14 10
1853, " " "	82 0 11½
1854, " " "	56 7 4½
1855, " " "	45 3 9

and they cannot, in any way, account for this falling off, in the receipts, when they have nothing to shew them that a smaller number of Vessels have visited the Port of Cascumpec during the summer of 1855, than in any of the previous years.

The amount of said duty collected at Richmond Bay, also shews a deficiency as compared with past years, and your Committee recommend the Government to investigate the above cases.

Although the sum expended for the support of Education for the year 1854 was £9310 16s. 4d., the ex-

penditure for the past year, for the same purpose, exceeds that amount by £2,608 7s. 7d., and this excess, with the sum of £2,000 voted to the Patriotic Fund; £1,007 to the Lunatic Asylum, and £1,816 expended in repairing, purchasing a piece of Land, and building a new coach house at and about Government House, will account for the increased ex-

penditure of the past as compared with the previous year.

(For detailed Public Accounts, see Appendix Y.)

Then the House adjourned until tomorrow, at ten o'clock.

It was carried in the affirmative, and *Resolved*, accordingly.

Ordered, That the Hon. Mr. Whelan do carry the said Bill to the Council, and desire their concurrence.

The Order of the Day, for the House in Committee on the further consideration of the copy of Despatch, together with the copies of the Memorial and Petitions of certain landed Proprietors, relative to the Rent Roll and Tenants' compensation Bills, being read,

The Hon. Mr. Whelan moved, that the House do now go into the Order of the Day.

Mr. Yeo moved, in amendment to the motion, to leave out all after the word "that," and substitute the following: "this House do now adjourn."

The House divided on the motion of amendment :

YEAS :

Mr. Yeo,	Mr. Douse,
Mr. Macintosh,	Mr. Cooper,
Mr. H. Haviland,	Hon. Mr. Palmer.
Hon. Mr. Longworth,	

NAYS :

Hon. Mr. Whelan,	Hon. Col. Secretary,
Hon. Col. Treasurer,	Hon. Mr. Lord,
Hon. Mr. Mooney,	Hon. Mr. Wightman,
Mr. Dingwell,	Mr. Clark,
Mr. Macgill,	Mr. Perry,
Mr. Muirhead,	Mr. Macdonald,
Mr. Laird,	Mr. Munro.

So it passed in the negative.

The question being then put on the main motion, it was carried in the affirmative,

And then the House resolved itself into the said Committee.

Mr. Macdonald took the Chair of the Committee; and after some time spent therein,

Mr. Speaker resumed the Chair.

And Mr. Macdonald reported that the Committee had gone through the consideration of the matter to them referred, and had come to several Resolutions

thereon, which Resolutions were again read at the Clerk's Table, and are as follow:—

WHEREAS by a Despatch from the Right Hon. Sir George Grey to the Lieutenant Governor of this Colony, dated 17th November, 1855,—an extract of which is now before this Committee—His Excellency is informed that Her Majesty's Government could not advise the Queen to give her sanction to two measures passed by the Legislature of this Colony, namely, an Act to impose a rate or duty on the Rent Rolls of proprietors of Township Lands, and an Act to secure compensation to Tenants in cases of ejection,—on account of certain objections urged in memorials to Her Majesty the Queen, and to the Colonial Minister, by Proprietors and Agents for the management of lands in this Island; and whereas those objections, as can be clearly shewn, are, for the most part, based on misrepresentation, and have their origin in selfish motives and interested views on the part of the said Proprietors and Agents of land; and whereas the Right Hon. Sir George Grey himself, in commenting on the Tenants' Compensation Act, has clearly misapprehended the object of that measure when he states "that its plain and direct tendency is to transfer property in land from the owner to the tenant,"—the real object of the Act, on the contrary, being, to use the language of Sir George Grey, himself, "to secure to the tenant the enjoyment and profit of his improvements, and to protect him against harsh and oppressive conduct at the hands of his landlord:"

Resolved, that this Committee deeply regrets the disallowance of the Rent Roll and Tenants' Compensation Acts; that the objections urged against their passage in the memorials and petitions of the land proprietors referred to by Sir George Grey, are untenable, frivolous, and in part highly offensive to the Legislature and people of this Island, and this Committee regards the successful interference of the proprietors of land against the Acts referred to, as derogatory to the honor and independence of the Legislature of this Colony, in so far as its efforts are directed

to promote the peace and prosperity of the people committed to its care.

Resolved, That while this Committee fully recognize the inalienable right of Petition, and would not deny its proper exercise to any class of Her Majesty's subjects, yet they cannot hesitate to enter their solemn protest against a most flagitious abuse of that ancient right, as is the case with respect to the petitions and memorials of the land proprietors and their agents, against Acts of the Legislature of this Colony; and that while it is perfectly constitutional and proper to memorialize the Sovereign against the final enactment of any Law, it is a grave offence to misrepresent the conduct of the Legislative bodies in passing such Law, and to libel the people with whose interests they are intrusted.

WHEREAS, amongst other passages of a similar character, in a letter signed "Robert Bruce Stewart," dated at Charlottetown, Prince Edward Island, May 19, 1855, and addressed to the Right Hon. Lord John Russell, the following extraordinary language is used in reference to the Tenants' Compensation Act, viz: "The Act would have, and is intended to have, in connexion with other Acts, the effect of depriving the landlord of every remedy other than the expensive one of an action at law, in the Supreme Court of Judicature—the rent being no more than one shilling per acre, per annum, the defendant being generally destitute alike of property and of principle, the jury being unavoidably composed of tenants, or persons interested for tenants, or hoping themselves to become freeholders without purchasing their land, and the sanctity of an oath being but little regarded when a proprietor is to be injured by its infraction. Under all these adverse influences or circumstances, the landlord has but little chance of succeeding and still less chance of benefiting by success, if he should gain his suit; direct intimidation and threats are then brought to bear against any person daring to fake or treat with the landlord for taking the vacant farm,—intimidation and threats of injury both to person and property." *Resolved*, that the foregoing statements are untrue, both in

inference and in fact; that the Compensation Act was not intended to have any such effect as that predicated of it; that the landlords' rights, under its operation, would be fully as well, if not better protected, than the tenants'; that the annual rent is, in very many cases, more than one shilling per acre; that the allusions to the character of defendants in cases of landlord and tenant, and to the composition of juries in the trial of such cases, are false, scandalous, malicious, and premeditated libels on the whole community, deserving as such, the strongest reprobation; and that the statement with respect to threats and intimidation against person and property, being used by any portion of the community, is wholly unfounded, threats and intimidation being unknown, unless perhaps, in one or two cases, where the title of the claimant of the land was believed to be unquestionably fraudulent and spurious. And whereas, in the before mentioned letter of the said Robert Bruce Stewart, the following passage also occurs: "I may also state that an Act was passed by the House of Assembly, during its recent session, requiring proprietors to put their titles upon record, before recovering rents from their tenants under lease, agreement or otherwise. * * * The Legislative Council have not passed this Act, but it was brought forward as a government measure, as such, it was passed by the House of Assembly, and it has been published as having been passed by the Legislative Council, so as to lead the country constituency to believe it to be the law of the land, and thus to be strengthened in their obstinate resistance to the landlord." And the following passage occurs in the concluding part of the said letter, viz: "The two opposing parties who divide our little State, abusing each other under the name of tory and liberal; or, in Colonial phrase, 'snarler and snatcher,' differ solely upon the division of the spoil, and are, as it were, constantly bidding against each other for popularity, by promising their constituents, and, so far as they are able, performing their promise, to keep up an incessant and sweeping attack upon the rights of property and laws of justice:"—*Resolved*,

that the statements with regard to the Registry Bill as being a government measure, and published as having passed the Legislative Council, are utterly untrue, and the imputations so flagrantly thrown out against political parties in the colony generally, as being actuated by a desire to attack "the rights of property and the laws of justice," is an unwarrantable and malicious libel.

And WHEREAS in a Petition and Remonstrance of certain proprietors and agents of land in Prince Edward Island to Her Majesty the Queen, dated 4th June, 1855, it is stated, amongst other things, that under the Land purchase Bill, lands are sought to be obtained for the government, at one-third of their value; and in another petition and remonstrance from the land proprietors (many of them being the same parties who signed the previous petition) dated 19th June, 1855, addressed to Her Majesty the Queen, the following statement occurs, in reference to the Tenants' compensation Act, viz:—"It is a specimen of class legislation, of the most odious kind, and can serve no other end than to reduce the value of real estate, already at a very low rate, as may be seen by the price paid by the government for the estate of Charles Worrell, Esquire;" and in a further petition of owners of land dated 27th August, 1855, addressed to the late Right Hon. Sir William Molesworth, then Secretary of State for the Colonies, it is stated in substance, that the Land purchase Act was passed "to enable the local authorities to resell and dispose of the public lands to their numerous friends and adherents:"—*Resolved*, that the statements thus put forth by the proprietors and agents of land, are, in every respect, unfounded; that government has not sought to obtain land at one-third of its value; that only one Estate has been purchased by the government under the operation of the Land purchase Act, and that was purchased at a price considerably higher than that for which the same land was obtained by a private individual a short time previous to the government purchase; that one of the petitioners who complains of the action of the local authorities in this respect, has

recently purchased a large and valuable tract of land in this Island for a price very considerably less than the maximum price in the Land purchase Act; and that the purchase on his part was effected, while the Tenants' compensation and Rent Roll Bills were under the consideration of Her Majesty's Government,—thus shewing the inconsistency of the petitioner alluded to, when he affixed his name to one of the petitions, wherein it is untruly stated that one of the disallowed Bills, if passed into law, would have a tendency to “drive all monied men from the Island, as no one will be inclined, or can be expected to invest capital in the purchase of land;” and with respect to the assertion that the local authorities either did or ever attempted or sought to resell the public lands to their “numerous friends and adherents,” it is wholly without foundation,—all persons, in the Island, without distinction, being at liberty to purchase from the government, lands on the Estate alluded to.

Resolved, That nothing has contributed so much to retard the prosperity of this young Colony, to foster discontent and agitation, and, at times, seriously to imperil its peace, as the continuance of the leasehold tenure, and too often the absence of a conciliatory spirit towards the tenantry on the part of the owners of landed property; and while the Legislature of the Colony, actuated by a sincere desire to promote public harmony and prosperity, has directed their efforts towards the removal of the evils complained of, by passing such salutary measures as would tend to elevate the character and improve the position of the great majority of the inhabitants of the Island, without injuring the rights of property, or pressing unduly on any class, their exertions have been counteracted by an absentee proprietary body, wholly irresponsible to any authority, aided by resident land proprietors and Agents who invariably embrace the views of the absentees,—that while such a state of things is allowed to prevail, and while absentee landlords, and others, are allowed successfully to thwart the intentions of the Legislature, and thus despotically to wield the destinies of the

Colony,—it would be in vain to hope that the people of Prince Edward Island can attain to that measure of prosperity and contentment to which their intelligence, their industry, and their fidelity to the British Crown entitle them, in common with other of Her Majesty's subjects in the surrounding Provinces.

Resolved, That an humble Address be presented to Her Majesty the Queen, embracing the facts and views set forth in the preceding Resolutions, and praying that the Royal interference and clemency may be exercised with the view of relieving the Colony from the anomalous position in which it is placed from its being practically under the sway of a power so foreign to the constitution as that of a body of land proprietors, chiefly non-resident,—and that the Legislative Council be requested to join in the said Address.

Resolved, That an Address be presented to Her Majesty the Queen, praying that the Imperial government will aid the local Administration in carrying out the recommendation of Her Majesty's present Colonial Minister, with respect to the further purchase of Township Lands in this Island, and that the Legislative Council be requested, to join in the said Address.

And the said Report being again read, and the question put thereon,

The House divided :

YEAS :

Hon. Mr. Whelan,	Hon. Mr. Wightman,
Hon. Col. Secretary,	Hon. Col. Treasurer,
Hon. Mr. Lord,	Hon. Mr. Mooney,
Mr. Macdonald,	Mr. Dingwell,
Mr. Perry,	Mr. Macintosh,
Mr. Munro,	Mr. Muirhead,
Mr. Laird,	Mr. Macgill.

NAY :

Mr. Yeo.

So it was carried in the affirmative.

Ordered, That the Hon. Mr. Whelan, Mr. Muirhead, Hon. Mr. Lord, Mr. Macgill, Hon. Mr. Mooney, and Mr. Macdonald be a Committee on the part of this House, to prepare the said Addresses to Her Majesty.

Ordered, That the said Resolutions be communicated, by message, to the Legislative Council.

Ordered, That the Hon. Mr. Whelan do carry the said message.

Then the House adjourned until tomorrow, at ten o'clock.

Thursday, April 10, 1856.

THE Hon. Mr. Wightman, from the Committee appointed to consider and report on the expediency of addressing His Excellency the Lieutenant Governor with reference to the case of Patrick Macgee, presented to the House the Report of the said Committee; which Report being again read at the Clerk's Table, was agreed to by the House and is as followeth:—

Your Committee who were appointed to consider the expediency of addressing His Excellency the Lieutenant Governor, praying that steps may be taken to bring under the notice of the Government of the United States—with a view to redress—the case of Patrick Macgee, who was seriously injured in an affray with certain American Fishermen, who landed at Georgetown in the autumn of last year,—have to report, that having given the subject their best attention, they are not prepared to recommend that any correspondence on the subject of the above aggression, should be entered into, at present, with the American authorities.

Ordered, That the Report be now committed to a Committee of the whole House.

The House accordingly resolved itself into the said Committee.

Mr. Muirhead took the Chair of the Committee; and after some time spent therein,

Resolved, That the House do now resolve itself into a Committee of the whole House, to take into further consideration the Report of the Special Committee relative to alleged Loyalist Land on Township No. 30, and other references.

The House accordingly resolved itself into the said Committee.

Mr. Muirhead took the Chair of the Committee; and after some time spent therein,

Mr. Speaker resumed the Chair.

And Mr. Muirhead reported that the Committee had gone through the Report of the Special Committee, paragraph by paragraph, had amended, and then adopted the same; and the Report, so amended, was again read at the Clerk's Table, and is as followeth :—

Your Committee to whom was referred the Petition of certain inhabitants of Township 30, in which it is alleged that a large portion of that Township, after being granted, was surrendered for the benefit of the Loyalists and disbanded Troops, and does not therefore belong to Robert Bruce Stewart, Esquire, although claimed by him,—have to report, that the Committee have examined the record of the Title

Deeds of Township No. 30, in the Registry Office of this Island, and they find that an Order was made in Council, by His late Majesty, King George the Third, dated the 26th August, 1767, directing the then Lieutenant Governor of Nova Scotia to grant the said Township to a Mr. John Murray, who subsequently, in the year 1790, transferred his claim to Chief Baron Montgomery, for the sum of Five Shillings, sterling. In the year 1783, as appears by the Act 30th Geo. 3d, cap. 5, certain proprietors surrendered to the government of this Island, tracts of their lands, to be allotted to the Loyalists and disbanded Troops; and by the Act referred to, the government were authorised and empowered to give grants of the lands so allotted, to individuals of the class alluded to, who were then in possession of the same, as appears by a plan and survey in the Registrar's Office of this Island—a copy of which is herewith submitted—and by which it appears the following persons were respectively assigned the quantity of land set opposite their names, viz :—

Hugh Fraser,	500 acres.
Archibald Sellers,	300 “
John B. Young,	500 “
James Fraser,	500 “
Michael Jeffries,	100 “
John Kingston,	500 “
Alexander Boyce,	100 “
Benjamin Ferrar,	300 “
Sagoe Potter,	500 “

By referring, however, to the Records of the Registrar's Office, your Committee find that no more than four grants had been issued by the proprietor of Lot 30, and they were in favor of the following persons: Hugh Fraser, James Fraser, Michael Jeffries, Sagoe Potter. The allocations of Hugh and James Fraser are still claimed by their representatives. The land granted to Michael Jeffries was not reserved in the transfer of the land on Lot 30, from the Messrs. Montgomery to Mr. Stewart, who exercises over it the right of ownership.

The land granted to Sagoe Potter, was specially reserved by the Messrs. Montgomery when they sold their land on Lot 30, to Mr. Stewart, in 1842; but notwithstanding this specific reservation, Mr. Stewart has taken possession of the land, and leased a portion of it to a person named Patrick Dougherty; this person has been examined by your Committee, and it appears from his testimony, that when he took the land in question, he was under the full conviction that Mr. Stewart had an indisputable right to dispose of it; but learning afterwards, that Mr. Stewart had no such right, he refused to pay rent, when the former sought to enforce payment by sending a Constable to distrain upon Dougherty.

Your Committee respectfully submit, that when the proprietors surrendered certain portions of their lands for the benefit of the Loyalists and disbanded Troops, as hereinbefore referred to, and their intentions having been carried out by the Legislature of the Colony, in passing an Act empowering the Lieutenant Governor to give grants of the same, those lands, then, became re-invested in the Crown, and ought to be subject to its disposal; and your Committee cannot but express their emphatic condemnation of the gross injustice practised by Mr. Stewart, in claiming and attempting to exercise the right of ownership over tracts of land granted to the Loyalists, without giving any consideration therefor; and in one case as herein-before particularly referred to, usurping a certain piece of land without the shadow of a claim, reserved for Sagoe Potter and his descendants.

That it appears to your Committee that the relief prayed for in the Petition of certain inhabitants of Township No. 30, depends upon the right and ownership to the lands therein mentioned, which right, your Committee consider, can only be tried and determined in such legal tribunals of the Colony, as are already, or may be hereafter established, to take cognizance of such matters; and that the House of Assembly cannot constitutionally entertain the measure in such a manner as to decide justly on the conflicting rights of the several parties alleged to be interested therein.

Your Committee to whom was also referred the Petition of Daniel Wall, respecting his claim to land at Cherry Valley, alleged to have been granted to his late father, for services rendered to the Crown, have also to report, that there appears to be no grant upon record in favor of this person, but there is no doubt on the minds of your Committee that the father of the said Daniel Wall was one of those Loyalists in whose behalf a certain portion of land was allotted.

Your Committee recommend that an Address be prepared and presented to His Excellency the Lieutenant Governor, requesting that his Excellency, in

Council, will take such proceedings with respect to the premises, as the circumstances of the case may seem to require.

And the said Report being again read,

Mr. Macgill moved to amend the same, by striking out the whole of the Fifth paragraph of the said Report.

And the motion being seconded and the question put thereon, it passed in the negative.

A motion being then made that the Report of the Committee be now received,

The Hon. Mr. Whelan moved, in amendment to the motion, to strike out the word "now," and at the end of the question, insert "this day three months."

The House divided on the motion of amendment.

YEAS :

Hon. Mr. Whelan,	Hon. Mr. Longworth,
Hon. Mr. Palmer,	Hon. Mr. Lord,
Hon. Mr. Mooney,	Mr. Macintosh,
Mr. Cooper,	Mr. H. Haviland,
Mr. Macgill,	Mr. Munro,
Mr. Clark,	Mr. Muirhead.

NAYS :

Hon. Col. Secretary,	Hon. Col. Treasurer,
Mr. Laird,	Mr. Macdonald.

So it was carried in the affirmative.

The question being then put on the main motion, as amended, it was carried in the affirmative, and—

Ordered, accordingly.

Then the House adjourned until tomorrow, at ten o'clock.

Saturday, April 12, 1856.

READ a third time, as engrossed, the Bill intituled "An Act to consolidate and amend the Laws relating to Weights and Measures."

Resolved, That the Bill do pass.

Ordered, That the Hon. the Colonial Secretary do carry the said Bill to the Council, and desire their concurrence.

Ordered, That the said Address be now committed to a Committee of the whole House.

The House accordingly resolved itself into the said Committee.

Mr. Macdonald took the Chair of the Committee; and after some time spent therein,

Mr. Speaker resumed the Chair.

And Mr. Macdonald reported that the Committee had gone through the draft Address reported from the Joint Committee, paragraph by paragraph, without making any amendment thereto; and the said Address was again read at the Clerk's Table, and is as followeth:—

TO THE QUEEN'S MOST EXCELLENT MAJESTY.

Most Gracious Sovereign;

We Your Majesty's loyal subjects, the Legislative Council and House of Assembly of Prince Edward Island in Parliament assembled, most humbly submit for your Royal consideration the following premises:

During the last Session of the Legislature, two Bills received the concurrence of both branches and the approval of Your Majesty's Representative, which Bills were respectively intituled "An Act to secure compensation to Tenants, and thereby to promote the improvement of the soil," and "An Act to impose a rate or duty on the Rent Rolls of the Proprietors of certain rented Township Lands in Prince Edward Island, in order to defray the expenses of any armed force which may be required on account of the withdrawal of the Troops, and for the further encouragement of Education." These Bills were agreed to by the Legislature, almost unanimously—the first having

passed the Assembly without any division being taken against it, while in the Legislative Council it was opposed by two members only. The second Bill received the opposition of only two members in each branch of the Legislature. But when they were forwarded to your Majesty for the royal confirmation, they were accompanied, as we have since learned, by several memorials and remonstrances signed by a few Land Proprietors in this Colony, and by the Agents of many others who reside in England and elsewhere—a class of persons who have little or no sympathy in common with the inhabitants of this Island, who derive much profit and advantage from the industry of our population, and contribute an insignificantly small share of the public burthens.

It appears by a Despatch from one of your Majesty's Ministers, the Right Hon. Sir George Grey, dated 17th November, 1855, an extract of which has been submitted to the Legislature, that your Majesty's advisers could not advise your Majesty to assent to the Bills under consideration, for certain reasons set forth in the Despatch, and for other reasons more particularly detailed in the Memorials of the Proprietors. We have carefully and dispassionately considered the objections advanced by your Majesty's Secretary of State, as well as the allegations of the Memorialists, and we beg to assure your Majesty that the former appear to us as based on the most untenable grounds, while we have been under the painful necessity of shewing the latter to be, for the most part, untrue, as may be seen by a series of Resolutions severally agreed to in the two Houses of Legislature, and recorded on their Journals.

While we sincerely regret that the Tenants' compensation and Rent Roll Bills were deemed unworthy of your Majesty's favourable consideration, we offer no complaint against the exercise of the Royal prerogative in this matter; but when we find that measures can be frustrated by palpable misrepresentation—which measures are deemed to be essential to the welfare of the Colony by those to whom the guardianship of its rights and interests is entrusted, and who are, from their local position, best qualified to form a correct judgment as to the requirements of the Colony—it is our duty to acquaint your Majesty that a grievous wrong is inflicted upon a loyal and dutiful people; and we are forced to the painful expression of our conviction, that although unshaken is our confidence in your Majesty's gracious consideration for the interests of all classes of your Majesty's subjects, the people of Prince Edward Island cannot but feel themselves degraded below the level of their fellow subjects in other parts of the Empire, and the privileges of self-government now so highly valued

in the Colony, be rendered entirely nugatory, if your Majesty's advisers should continue to be led into error by misrepresentations, and the constitutional action of our representative institutions be suspended, by the covert and selfish designs of persons who are entrusted with no authority, acknowledge no responsibility, and are apparently insensible to the best interests of the community at large.

We do not deny that the Land Proprietors, or any other class of our fellow subjects, whether resident in the Colony or not, have an unquestionable right to appeal to your Majesty against the enactment of any law by which their interests are expected to be affected.

We only complain that the exercise of this ancient right, as is the case with respect to the memorials of the land proprietors, should be unhappily coupled with calumnious allegations against the people of a loyal Colony, and wilful misrepresentations of the acts and motives of the Legislature, to whose care the interests of that people are entrusted, and that representations are frequently made to the Colonial Office which we can have no opportunity of rebutting.

The prayer of this humble Address is, therefore, that your Majesty may be pleased to give such consideration to our just complaint, and to the facts herein set forth, as will rescue this portion of your Majesty's dominions from the humiliating and anomalous position of being, in a great measure, subject to the domination of a power so foreign to the constitution as that which is permitted to be exercised by land proprietors, chiefly non-resident, and their Agents; and that since your Majesty has been graciously pleased to concede to us Responsible Government, under which the management of our local affairs was believed to belong to ourselves,—our further prayer is, that under your Majesty's august and happy reign, the small dependency of Prince Edward Island may not be placed in a worse position than its sister Colonies, with respect to the full enjoyment of its just and constitutional privileges.

And the said Address being again read,

The Hon. Mr. Palmer moved as an amendment to the same, to expunge the whole thereof, and substitute the following:—

“Whereas His Excellency the Lieutenant Governor having thought proper to communicate to this House only a certain part or parts of the Despatch of the Right Honorable Sir George Grey, Her Majesty's Secretary of State for the Colonies, dated the 17th day of November last, in

which is communicated Her Majesty's disallowance of the Rent Roll Bill and Tenants' compensation Bill, passed in the last Session of the Legislature, and the Colonial Secretary, in his place in the House of Assembly this Session, having declared that the whole of the said Despatch should not be laid before this House if even it were called for by a majority of the House: *Therefore, Resolved*, that this House feels it would be to surrender the rights of the people of this Colony, and to adopt a principle dangerous to their liberties, were the House to adopt any Address in answering or acknowledging said Despatch, which might, by any construction, be held an admission on the part of the Legislature of this Colony, that Despatches from the Colonial Minister, on the public affairs of this Colony, not being marked private or confidential, may or may not be withheld from its Legislature, according to the will of the Lieutenant Governor of the day.”

The House divided on the motion of amendment:

YEAS:

Hon. Mr. Palmer,	Hon. Mr. Longworth,
Mr. H. Haviland,	Mr. Cooper.

So it passed in the negative.

To His Excellency DOMINICK DALY, Esquire, Lieutenant Governor and Commander-in-Chief, in and over Her Majesty's Island Prince Edward and the Territories thereunto belonging, Chancellor, Vice Admiral, and Ordinary of the same, &c. &c. &c.

May it please your Excellency :

Ordered, That the said Address be engrossed.

Ordered, That the same Committee who prepared the Address be a Committee to wait on His Excellency with the same.

The Hon. Mr. Whelan, from the Committee appointed to join the Committee of the Council to prepare an Address to Her Majesty the Queen, pursuant to the last of the series of Resolutions reported from the Committee of the whole House, on Saturday last, presented to the House the draft of an Address, as prepared by the

Joint Committee; which draft Address was again read at the Clerk's Table, and is as followeth:—

TO THE QUEEN'S MOST EXCELLENT MAJESTY.

Most Gracious Sovereign;

Your Majesty's loyal and dutiful subjects, the Legislative Council and House of Assembly of Prince Edward Island, in Parliament convened, have had under their earnest consideration, during the present Session, a Despatch addressed to His Excellency the Lieutenant Governor of this Island, by your Majesty's principal Secretary of State for the Colonies, dated "Downing Street 21st December, 1855," in reference to the long agitated question of the land tenures in this Island; from which Despatch we beg to make the following extract, for your Majesty's Royal consideration:—

"With regard to the main object which has been frequently proposed by a large portion of the inhabitants, namely, that some means may be provided, by which a tenant holding under a lease may arrive at the position of fee simple proprietor, I am anxious to facilitate such a change, provided that it be effected without injustice to the proprietors.

"There are but two ways in which such a change could be effected. The first is the usual and natural one of purchase and sale between the tenant and the owner; and no reason appears as yet to have been stated why, if the tenants offer to the land-owners the full value of the right and interest of the land-owner, sales and purchases cannot be effected. It would seem probable that at all events in the case of non-resident owners, such fair offers would generally be accepted, and as the lands are usually let upon leases of extraordinary length, and at a small annual rent, there can, it would seem, be but few tenants who would not find the means of offering a fair price for buying up the annual rent of their holding.

"The other method would be, that the Government of the Island should treat with such of the land-owners as might be willing to sell, and that the State thus becoming possessed of the fee simple of such lands as might thus be sold, should be enabled to afford greater facilities for converting the tenants into freeholders than the landlords themselves might feel an interest in doing.

"An arrangement of this kind could probably not be made without a loan to a considerable amount, to be raised by the Island Government, the interest thereof to be charged upon the Revenues of the Island. But Her Majesty's Government would not be indisposed to take into consideration any plan of this kind which you might submit to them, showing in what way the interest of such loan could locally be pro-

vided for, and what arrangements would be proposed as to the manner of disposing of the lands of which the fee simple might so be bought up."

Your Majesty's Secretary of State seems not to have been made aware that there is a law upon our Statute Book authorising the Government to purchase the Township Lands in this Island; but by this Law, the Government cannot exceed, in making such purchases, the sum of £30,000, and the whole of the Revenues of the Colony are pledged to the redemption of that amount.

The Law in question is now in operation, but its beneficial results can only be felt to a very limited extent by the smallness of the amount which can be appropriated to the extinction of proprietary claims.

We humbly conceive that if all the Township Lands were purchased by the Government, there would be a sufficient sum realised by their re-sale to cover the expence incurred, the interest of the money employed, as well as its repayment, while the advantages would be incalculable which this loyal colony would derive from such a measure, by its stimulating the enterprise and industry of its inhabitants, now in a great measure paralyzed by the long-prevailing contention between landlords and tenants, and restoring tranquility and contentment.

As your Majesty's Secretary of State has been pleased to say that your Majesty's Government would not be indisposed to take into consideration any plan for extinguishing by purchase, the rights of proprietors, we beg humbly to suggest, that if your Majesty's Government will give a guarantee for any sufficient loan required, as alluded to by the Secretary of State, the Legislature of the Colony will, in its next Session, make the necessary provision for the payment of its interest; and in offering this suggestion, we are convinced that no loss would be sustained by your Majesty's Government.

A motion being made that the said Address be adopted,

The House divided on the question :

YEAS :

Hon. Mr. Whelan,	Hon. Mr. Mooney,
Hon. Col. Secretary,	Hon. Col. Treasurer,
Hon. Mr. Lord,	Mr. Macgill,
Mr. Munro,	Mr. Macdonald.
Mr. Clark,	

NAYS :

Hon. Mr. Palmer,	Hon. Mr. Longworth,
Mr. Coeper,	Mr. H. Haviland,
Mr. Laird,	Mr. Macintosh.

So it was carried in the affirmative.

Ordered, That the said Address be engrossed.

Resolved, That a Committee be appointed to join a Committee of the Legislative Council, to prepare an Address to His Excellency the Lieutenant Governor, requesting that His Excellency will be pleased to transmit the two Joint Addresses of both Houses, to Her Majesty, respecting certain Despatches from the Secretary of State for the Colonies, and also certain Memorials of Land Proprietors.

Ordered, That the same Committee who prepared the Addresses to Her Majesty, be a Committee on the part of this House to prepare the said Address to His Excellency.

Ordered, That the said Resolution be communicated, by message, to the Legislative Council.

Ordered, That the Hon. Mr. Whelan do carry the said message.

The Hon. the Colonial Treasurer, from the Committee appointed to wait on His Excellency the Lieutenant Governor with the Address praying that a sum sufficient, be placed at the disposal of the Board of Education for the purchase of French School Books, for the use of the Acadian Schools, reported the delivery of the said Address, and that His Excellency was pleased to say he would comply with the desire of the House.

The Hon. Mr. Longworth, from the Committee appointed to wait on His Excellency the Lieutenant Governor, with

the Address praying for a sum of money to be advanced to the city authorities towards putting in repair the Pownal Street and Queen's Wharfs, reported the delivery thereof, and that His Excellency was pleased to say he would attend to the same.

The Hon. Mr. Mooney, from the Committee appointed to wait on His Excellency the Lieutenant Governor with the Address relative to the opening of new lines of Roads, reported the delivery thereof, and that His Excellency was pleased to say he would comply with the desire of the House.

Mr. Macdonald, from the Committee appointed to wait on His Excellency the Lieutenant Governor with the Address thanking His Excellency for his various communications and Messages to the House, this Session, reported to the House that their Address had been presented to His Excellency.

“ Ordered, That the same Committee who prepared the Addresses to Her Majesty, be a Committee, on the part of this House, to prepare the said Address to His Excellency.

“ Ordered, That the said Resolution be communicated by Message, to the House of Assembly.”

And then he withdrew.

To His Excellency DOMINICK DALY, Esquire, Lieutenant Governor and Commander-in-Chief, in and over Her Majesty's Island Prince Edward and the Territories thereunto belonging, Chancellor, Vice Admiral, and Ordinary of the same, &c. &c. &c.

May it please your Excellency :

The Legislative Council and House of Assembly having agreed, jointly, to address Her Majesty the Queen, on the subject of certain Memorials of Land Proprietors, and others, praying that the Royal assent might be withheld from two Acts of the Legislature, passed in its last Session, namely, “ An Act to secure compensation to Tenants in cases of Ejectment,” and “ An Act to impose a duty on the Rent Rolls of certain Proprietors of Lands,”—respectfully request that your Excellency will be pleased to transmit the same, at your earliest convenience, to be laid at the foot of the throne.

And having also agreed to a joint Address on the subject of a Despatch received from Her Majesty's principal Secretary of State for the Colonies, respecting the purchase of proprietary lands, they further respectfully request your Excellency to cause the same to be forwarded; so that it may be laid at the foot of the throne.

Ordered, That the said Address be engrossed.

Ordered, That the same Committee who prepared the Address be a Committee on the part of this House, to wait on His Excellency with the same.

After which, Mr. Speaker spake as followeth:—

On behalf of Her Majesty's faithful Commons of Prince Edward Island, I have now to present the following Bills of aid and supply voted to Her Majesty during the present session, to which I have respectfully to request your Excellency's assent, viz:—

An Act to repeal the Act relating to Light and Anchorage Duties, and to make other provisions in lieu thereof.

To each of which His Excellency was pleased, in Her Majesty's name, to give his assent.

And then His Excellency was pleased to make the following Speech to both Houses :—

Mr. President and Honorable Gentlemen of the Legislative Council:

Mr. Speaker and Gentlemen of the House of Assembly:

In bringing the Session to a close, I avail myself, with much satisfaction, of the occasion to congratulate you on the spirit with which you have applied yourselves to the public business, and the measures which you have thus been enabled to accomplish.

Mr. Speaker and Gentlemen of the House of Assembly:

I thank you, in Her Majesty's name, for the supplies which you have granted for the public service. It will be my care to protect the public interests in their due application to the services for which they are intended.

I trust that the appropriation for Steam communication with the neighbouring Provinces may prove sufficient for that important object.

Mr. President and Honorable Gentlemen of the Legislative Council:

Mr. Speaker and Gentlemen of the House of Assembly:

The Despatches from the Secretary of State having reference to Proprietary Titles in this Island, which it was my duty to communicate to you, afford abundant evidence that the decisions of Her Majesty's Government in this respect, will be inflexibly maintained. Agitation on this subject may produce

a certain amount of evil, but it is manifest that it can in no way be productive of advantage.

I trust there are sufficient grounds to justify the expectation that at an early day we shall have authentic information of the termination of the War; and that peace having been happily restored to Europe, the honor and glory of England and her illustrious Allies will have been enhanced by the terms upon which it may be attained. I am happy in feeling assured of the extent to which you participate in my sentiments on this subject.

I am well aware that the people of this Island have long been distinguished for that spirit of devoted loyalty which springs from a cherished regard for the institutions of our common Country; and as it is our duty, in our several stations, to strengthen and confirm this feeling, I invite you, in returning to your homes, to lose no opportunity of impressing them with a just sense of Her Majesty's benevolent desire for their welfare, and the advantage to themselves of continuing to cultivate that habitual respect for the laws and constituted authorities which characterize men and communities who respect their own rights; and who, appreciating the blessings which under Providence they have acquired, would transmit them unimpaired to their posterity.

After which, the Hon. the President of the Legislative Council said :

Gentlemen;

It is the will and pleasure of His Excellency the Lieutenant Governor, that this General Assembly be prorogued until Tuesday the Twenty-seventh day of May next, and this General Assembly is accordingly prorogued until Tuesday, the Twenty-seventh day of May next, to be then here holden.

Extract of a Despatch from Secretary Sir George Grey, of the 17th November, 1855.

"I have to acknowledge your Despatches, by which you transmit to me, for Her Majesty's sanction, two Acts passed by the Legislature of Prince Edward Island, in the month of April last, intituled respectively:—

"An Act to impose a Rate or Duty on the Rent Rolls of the Proprietors of certain Township Lands in Prince Edward Island, in order to defray the expenses of any Armed Force which may be required on account of the withdrawal of the troops, and for the further encouragement of Education; and 'An Act to secure Compensation to Tenants in Prince Edward Island, and thereby to promote the improvement of the Soil;' both of which Acts contain suspending clauses reserving them for the assent of the Crown and; also transmit representations from various parties interested in the subject of these Acts.

"Her Majesty's Government have considered those Acts separately, and with an anxious desire to do justice between the Community of Prince Edward Island in general and the Proprietors of the Soil, and to allow the fullest possible scope to the principle of local independence in Legislative matters, subject only to their paramount duty not to advise the Crown to assent to any measure inflicting manifest wrong on any of Her subjects.

"I regret to be obliged to inform you that Her Majesty's Government find themselves unable to advise Her Majesty to give Her assent to either the one or the other of these Acts.

"If the Legislature of Prince Edward Island should find that the Revenue of the Island is not sufficient to defray the public expenses of the Colony, and if those expenses cannot be diminished by any economical revision without detriment to the public service, a general tax affecting alike all incomes arising in any way from land, from houses, from trade, from manufactures, from salaries, or from any other source, might be a fair and proper mode of providing the requisite funds; and if such an Act were passed (with sufficient reason shewn for it)—applying equally to landowners and tenants, to proprietors and occupiers—such a measure would be free from objection.

"The measure intituled 'an Act to secure compensation to Tenants' is one to which Her Majesty's sanction must be refused, because its plain and direct tendency is to transfer property in land from the owner to the tenant. This Bill provides that where a tenant is unable or unwilling to fulfil the contract between him and the landowner, by which the tenant has agreed to pay to the landowner a fixed annual rent, usually very small in amount, for the land which he holds, the landlord must either forego the rent, and thus let the land pass practically to the tenant, or he must pay to the tenant a sum equal to twenty years purchase of what is termed the annual profit to the landlord, created by the tenant's or lessee's improvements on the soil,—the amount of

APPENDIX (E.)

which payment would in many cases be equal to the market value of the fee simple of the land. In the one case he would make over to the tenant the land itself: in the other case, he would make over to the tenant a sum which might even go beyond the value of the land.

"It is needless to enumerate all the objections which apply to this measure, and the more so as they are ably stated in the Memorial presented against it by some of the owners of land, and transmitted with your Despatch of the 2d July last. But I cannot refrain from remarking that those lands in Prince Edward Island, on which any great improvements have been made by tenants, were let in a state of wilderness, at the almost nominal rent of ninepence or a shilling an acre, on the express understanding that they were to be brought into cultivation by the tenant; that to secure to the tenant the enjoyment and profit of his improvements, leases of extraordinary length were given; and that a tenant who, by misfortune or other cause, is unable to pay that insignificant rent, is always at liberty to sell his lease to the best bidder, and thus to realize in the market the value of the improvements he may have made."

CHARLOTTETOWN, PRINCE EDWARD ISLAND,
MAY 19th, 1855.

MY LORD—

As the Proprietor of about 80,000 acres of land in this Colony, I beg to be permitted to address your Lordship, on the purport and objects of certain Acts recently passed by the Colonial Legislature, and about to be transmitted for the Royal Assent. I am but too well aware of the amount of self-government conceded to the inhabitants of this Colony, and exercised by them in unlimited or universal suffrage, still I cannot willingly believe that Her Majesty's Government intend to denude themselves of their just right and prerogative as a Court of Appeal in extreme cases of injustice, such as those intended here, and to which I now entreat your Lordship's attention.

1. "An Act to impose a Rate or Duty on the Rent Rolls of the Proprietors of certain rented Townships Lands in Prince Edward Island, in order to defray the expenses of any Armed Force which may be required on account of the withdrawal of the Troops, and for the further encouragement of Education."

The proposed rate or duty is to be 5 per cent upon the annual rental of each proprietor of more than 500 acres of land, whether the rent be paid or unpaid. An exclusive tax to be solely levied upon one kind of income, may well be deemed unjust and oppressive. A penal tax upon the ownership of wilderness land, in the form of that Land Assessment to which I am already subjected, is now intended to be seconded by a penal tax upon the rental of leased land; a penal tax, I ought to say, upon our bad debts; for at least 50 per cent of the rents due to me under lease, may well be termed bad debts, and not recoverable without an outlay of time, money and trouble, which may demand the sympathy of British noblemen and gentlemen, unused to such evils and annoyances in the recovery of their just dues from tenants on their lands. By one existing local law of this Colony, the landlord is debarred from the remedy open to

all other classes of Her Majesty's subjects—the small Debt Court; by another existing local law, the process of distraint for rent is rendered so difficult as to be almost impossible, especially on property managed by Agents. By means of my own active personal agency on my own land, and by the aid of two or three active, honest, and resolute followers, I am able occasionally to effect a distraint by way of making example of some more than ordinarily knavish or insolent tenant; but this cannot be done without employing two or three men, and those actuated by attachment and good feeling towards myself, instead of the one man for whom the law allows me to charge expenses; and by maintaining and supporting, as it were, a garrison in the enemy's stronghold during the injuriously long period to which the law has extended the time for holding possession of the distrained goods, before sale. The preamble of the Act against which I address your Lordship recites that the proprietors, by certain covenants in their leases, contrive to evade the payment of the Land Assessment, and to saddle the tenant with it. The tenants indeed are generally bound by their leases to pay the Land Assessment, as well as their rent, much as tenants in England are bound to pay tithes and rates, but many of our Tenants here pay neither Land Assessment nor rent; and if the proprietor in such case do not pay the Land Assessment, his freehold is proclaimed and sold by the Sheriff. Besides this, and much more than this, is the oppressive penal tax on wilderness or unoccupied land on which there is neither lease nor tenant; the proprietor cannot even attempt to evade the tax upon this portion of his property; in my case it amounts to nearly as much as all the rents which I receive from my leased land. The preamble of this Act, and its consecutive sections, cannot but strike any impartial reader as breathing the strongest spirit of hostility to the landlords, speaking of "Proprietors, factors trustees, receivers, or owners of more than 500 acres of land," much in the same tone as some old Acts of Parliament use in denouncing rogues, thieves and vagabonds, to be suppressed and put down for the benefit of the community. With regard to any armed force which may be required on account of the removal of the troops, our local Legislature are not likely to deem such force necessary for any purpose, and most assuredly not for the benefit of the proprietors, in enabling them to recover their rents in the face of open and violent resistance to the Sheriff, as I myself can testify from experience. Nor was the case different under the old or exclusive regime. The late Col. Lane, when acting as administrator of the Government after the decease of Sir Donald Campbell, assured me that he had instructions, forbidding any such employment of the military force. This was in reply to my application to him on the circumstance of one of my tenants having stabbed a Sheriff's officer with a bayonet, and when at length arrested at my suit, he was rescued from the hands of the said officer by a mounted body of armed ruffians, who were accompanied, and seconded by, a member of the Legislative Assembly. The proprietor can look for no benefit from any armed force, and surely he at present contributes, under the Land Assessment Act, more than a fair or just proportion of his means for the encouragement of public Education.

2. "An Act to secure compensation to Tenants in Prince Edward Island, and thereby to promote the improvement of the soil." By this Act it is intended that when a tenant is in arrear of rent, and the landlord would proceed by the usual mode of distraint, followed, when nothing can be found upon which to distrain, by an action of ejectionment, the tenant shall compel his landlord in the first place to compensate him, the tenant, for whatever improvements may have been made upon the land, since the commencement of the term, the value of such improvements to be ascertained by

APPENDIX (E.)

arbitration. Until within the last nine years, the period during which I have been a resident proprietor in this Colony, I was intimately acquainted with the practice and theory of the management of landed estates in Great Britain. The present Act does certainly seem to me a monstrous innovation upon all those principles which I had been accustomed to consider fixed and established by justice and usage, in regard to such property. But the evil of such an Act as this would be less extreme in Great Britain than in this Colony, wherein ninety nine persons out of every hundred have a direct fellow feeling and personal interest on behalf of the tenant, and quite the reverse towards a landlord. I do not hesitate to say that justice is quite out of the question, and could not be hoped for, under such arbitration. The Act would have, and is intended to have, in connexion with other Acts, the effect of depriving the landlord of every remedy, other than the extensive one of an action at law in the Supreme Court of Judicature,—the rent being no more than one shilling per acre per annum, the defendant being generally destitute alike of property and of principle, the jury being unavoidably composed of tenants, or persons interested for tenants, or hoping themselves to become freeholders, without purchasing their land, and the sanctity of an oath being but little regarded when a proprietor is to be injured by its infraction. Under all these adverse influences or circumstances, the landlord has but little chance of succeeding, and still less chance of benefiting by his success, if he should gain his suit. Direct intimidation and threats then are brought to bear against any person daring to take, or to treat with the landlord for taking the vacant farm—intimidation and threats of injury both to property and person. It is evident that for the most part, the improvements of the outgoing tenant can be of no value to the landlord, beyond the amount which an incoming tenant would pay for them, when fairly and without undue haste, brought to sale by public auction in the usual way. The value of clearing the land of trees, and bringing it under cultivation, is very generally reduced and destroyed by the tenants improvidently cropping and exhausting the soil, so that many of those very persons who, as arbitrators, would be likely to go to the utmost extent against the landlord, would be equally likely to say, in case of the farm being offered to themselves, that they would much rather take a green wood or wilderness farm at once, and “have all the good out of it to themselves” to say nothing of the timber trees, which the tenant invariably cuts from every part of his farm, and (if not closely watched), from the proprietor's vacant land also, long before more than a very small part of the said farm be brought into cultivation. In common fairness, an Act ought to be passed to give compensation to the landlord for delapidations and theft by the outgoing tenant. I have had a tenant greatly in arrears, who never paid any rent, and who actually removed and sold from the premises a good part of the farm buildings, before making his exit.

3. In an Act relative to Highways there is the following clause. When land held by a tenant or lessee, under lease, or agreement, or a part thereof, shall be laid off or taken for a line of highway or road, the tenant or lessee shall be discharged from any further or future payment to the lessor or landlord, in respect of the said land, or of a part or proportion thereof, according to the extent or area of the land taken for the highway or line of road.

I believe this enactment to be an unprecedented novelty in legislation, and quite unjust in principle. The Land Assessment is levied upon the entire area of each Township, road and all. The Act of which the above extract forms a part, or some other Act, was passed by the House of Assembly with a provision, that in case a road-way should ever be stopped up, as not being required, the fee simple of the area

which had been occupied by the said road-way should go to the tenant and not to the landlord. This enactment was not passed by the Legislative Council. I may also state that an Act was passed by the House of Assembly during its recent Session, requiring proprietors to put their titles on record, before recovering rents from their tenants under lease, agreement, or otherwise. I need scarcely point out to your Lordship how directly such an enactment would strike at the root of a great principle hitherto recognised in the letting of real property, that the tenant cannot question his landlord's title. The Legislative Council have not passed this Act, but it was brought forward as a Government measure. As such it was passed by the House of Assembly, and it has been published as having been passed by the Legislative Council, so as to lead the country constituency to believe it to be the law of the land, and thus to be strengthened in their obstinate resistance to the landlord. These facts are proofs of the animus entertained towards the proprietors. As further proofs of such animus, I beg to submit to your Lordship some extracts from a speech made by the Colonial Secretary, the Hon. George Coles, in the House of Assembly, on March 29th last, in the course of a debate on the old subject of Escheat. Your Lordship will see that these extracts are not mere expressions of feeling, uttered during the heat of debate; but that they are deliberate avowals of the past policy and present views of the speaker:—“Believing that Escheat was impracticable, I have introduced and carried other measures for the benefit of the people, at the expense of the proprietors. This course I promised my constituents at my first election that I would pursue. They approved of it, and they returned me, and I have been returned to the House at every subsequent election, and I have followed the same policy of dealing with the Land Question moderately, but to some practical effect. Under these circumstances, I consider myself at perfect liberty to oppose the resolution of the honorable member, and in doing so, I shall endeavour, as the common saying is, to give it a black eye.”

“I am satisfied that this House has it in its power to mitigate the hardships on the tenantry, arising from the original grants; that remedy is by taxing the lands of the proprietors. Under that system, the proprietors will soon be glad to come in and offer their lands to the Government under the Land Purchase Bill.”

“I think the Bill I proposed to bring in compelling landlords to record their titles, will be a substantial boon to the people.”

The following is an extract from the speech of another member of the Government, the Hon. Joseph Wightman, in the same debate:—

“Before long I have no doubt that the proprietors will be glad to sell their lands to the Government, the land tax they will find to be a somewhat heavy burden, which is not without its influence upon them now. The contemplated tax upon their Rent Rolls, is another step in the same progression.”

I am no party man. The two opposing parties who divide our little state, abusing each other under the names of Tory and Liberal, or in Colonial phrase, “Snarler and Snatcher,” differ solely upon the division of the spoil, and are, as it were, constantly bidding against each other for popularity, by promising their constituents, and so far as they are able, performing their promise, to keep up an incessant and sweeping attack upon all the rights of property and laws of justice. It is to Her Majesty's Home Government alone that I can look for either protection or redress against whatsoever party may, by such promises and performances as I have mentioned, happen to be in possession, for the time being, of the reins of local rule in this Colony.

APPENDIX (E.)

If an impartial view were taken of almost every Act sent home from this Colony, during many past Sessions of our Legislature, they would appear like guns in a long line of battery, converging upon one devoted point of attack, the Proprietary interests. I beg to assure your Lordship that I can confidently and safely challenge the most searching enquiry into the lenity of my own conduct towards my tenantry; and further, that during the nine years that I have been in this Colony, there has not been a single instance, on the part of any Proprietor, of that oppression and tyranny with which we are charged by the demagogues who gain their bread by asserting falsehoods.

Earnestly hoping that the royal allowance may not be given to these continued and unjustifiable attacks upon the Proprietary body,

I have &c.

(Signed) ROBERT BRUCE STEWART.

The Right Honorable
LORD JOHN RUSSELL,
&c. &c. &c.

Memorial and Petition of Mr. R. B. Stewart and Mr. Charles Wright to Lord John Russell, against the Rent Roll and Tenant Compensation Acts, dated 4th June, 1855.

THE MEMORIAL AND PETITION OF THE UNDERSIGNED RESIDENT OWNERS OF LAND IN PRINCE EDWARD ISLAND, SHEWETH—

That in addition to any further representations to which your Memorialists may become parties respecting late public measures affecting their interests as a class of Colonists, they beg leave respectfully to submit to your Lordship the following statements.

That certain local enactments, passed during the last five sessions of the Legislature, have called forth various remonstrances on the part of owners of Township lands in this Colony, respectfully urging the attention of the Colonial Minister to the serious consequence of such measures, as affecting the value and security of property throughout this Island; the object of the Legislature being to force land into the market, with a view to its being purchased by the Colonial Government, under an Act passed for that purpose, and thereby affect its re-investment in the Government by the working of oppressive statutes, whose operation, if sanctioned, will be tantamount to the confiscation of lands so situated.

That the titles to the lands in question, conferred by the Crown in the years 1769 and 1770, and Her Majesty's Ministers have on repeated occasions declared that it would be neither just nor politic to interfere with property so held for the non-fulfilment of conditions imposed by the original grants, as such conditions were impracticable; and this has been regarded by parties making investments of capital on the Island as an all-sufficient guarantee that Her Majesty's Government would not permit any undue encroachments on the interests of proprietors, holding under such titles. But the foregoing assertion as regarding the policy of the Legislature, will be fully borne out by the following extracts from a speech delivered by the Leader of the Government in the Assembly on the 29th March last:—"Believing that Escheat was impracticable, I have introduced and carried other measures for the benefit of the people at the expense of the Proprietors. * * * I am satisfied that this House has it in its power to mitigate the hardships on the tenantry, arising from the original grants; that remedy is by taxing the lands of the proprietors. Under that system the proprietors

will soon be glad to come in and offer their lands to the Government under the Land Purchase Bill. * * * The Home Government has been so often applied to on the subject of Escheat, that it is useless to agitate the question further. * * * And the Land Purchase Bill, the Education Act, and the proposed *Act for taxing the Rent Rolls of Proprietors*, would have the effect of inducing a reasonable and equitable settlement of the question."

As regards what the leader of the local Government may esteem "a reasonable and equitable settlement," it will be proper to refer to the opinions of different Secretaries of State, repeatedly expressed on the same subject.

When Responsible Government was conceded to this Island in 1851, the Right Honorable Earl Grey, then at the head of the Colonial Department in a Despatch dated Downing Street, 12th of February, 1851, directed Sir A. Bannerman, on his assuming the Government, to impress on the Legislature the necessity of abstaining from passing any laws bearing unjustly on the owners of landed property, and so far from recommending any measures which might tend to depreciate its value, his Lordship is pleased to say:—

"It is obvious that an influx of capital and settlers, by tending to raise the value of property, would be most beneficial to the Colony and to all classes of its inhabitants. Prince Edward Island, possessed as it is of great natural advantages, which are becoming better known in this country than formerly, is likely at no distant time to attract both emigrants and capital, if the policy adopted by the Legislature is not such as to discourage them. But nothing could tend more to this unfortunate result, than the sense of insecurity which must infallibly be created by any attempt of the Legislature to pass laws bearing unjustly on the owners of landed property, even if the attempt were frustrated by the refusal of Her Majesty's allowance of it, which it would be the duty of the Government to advise her to withhold in such a case."

In the same despatch Sir A. Bannerman is also referred to "the correspondence between successive Secretaries of State and Lieutenant Governors of Prince Edward Island," for his guidance in carrying out the above directions; and your Petitioners beg leave more particularly to mention Lord Goderich's Despatch to Sir A. W. Young, dated 27th January, 1833, and Lord J. Russell's Despatch to Sir C. Fitzroy, dated 24th June, 1841, as having an important bearing on the same subject.

That the lands in Prince Edward Island are for the most part leased at from one to two shillings per acre, but by far the larger portion of them at one shilling, as appears by the last statistical returns; and these rents were, with few exceptions, reserved in sterling money of Great Britain, or payable at the same rate, such being regarded as the only safe standard in a Colony where the currency is liable to fluctuate. But by a recent Colonial statute, lessors are prohibited from recovering rents so reserved at their expressed value; the provisions of the statute being, that more than one-ninth in the pound advance on the present depressed rate of the Currency shall not be paid by any tenant, though sterling money and Bills of Exchange, payable in Britain, bear a much higher premium, namely, fifty per cent.; owners of land so leased are thus subjected to a loss of thirty-five per cent.

That urgent remonstrance was made by different parties concerned against the allowance of the One-ninth Bill, on the ground of its interfering with covenants voluntarily entered into, and considered binding between parties, but no definite conclusion would appear to have been arrived at with regard to it, during Earl Gray's continuance in office. It did not, however, receive the royal assent, and another Bill

APPENDIX (E.)

was subsequently passed under another title, with a view to accomplish the same purpose. This latter Bill, being strongly advocated by the official men of the Colony, as a Government measure, was finally sanctioned by the royal allowance; some slight amendment which did not affect the principle contended against, being suggested at the Colonial Office, and concurred in by the local Legislature.

The next measure of the Assembly was in the Session of 1852, to augment the then existing Land Tax, by an additional assessment on all Township Property, whereby wilderness land is now taxed at thirty-seven and a half per cent. higher rate than such as is under cultivation, being nine shillings and two pence on every hundred acres of waste and uncleared land throughout the Island, without distinction as to value, or capability of improvement—a measure, as your petitioners believe, having no precedent in the annals of British legislation; and a law was passed at the same time prohibiting rent which could by any possibility be made the subject of distress, from being sued for in the Courts for the recovery of Small Debts, although such Courts were previously open to suits for rent as for any other ordinary action for debt, within the jurisdiction of the same. But now before a summons for rent can issue from such Courts, the party applying for it must take and subscribe an oath that sufficient property cannot be found to countervail half a year's rent, by search made on the premises, within seven days previous to such application. And this restriction, your Petitioners beg leave to submit, amounts to, almost total exclusion, and is at once repugnant to the laws of Great Britain and the common principles of even-handed justice.

These measures were made the subject of a Memorial and Remonstrance to Sir John Pakington, transmitted through the Lieut. Governor, and dated 23rd July, 1852, praying for their disallowance, on the grounds therein stated. But immediately after the change of Ministers in December, 1852, the Bills comprising such measures were returned to the Colony, having received Her Majesty's sanction.

That among the unusual privileges conferred on tenants by local statutes, Stock, if distrained for rent, cannot be sold between November and June, comprising six months of the year—the tenant being required to give a bond and security that such stock shall be forthcoming at the time when sale thereof can legally be effected; all hay and provender found on the premises being reserved for the use of the stock, and no stock can, under any circumstances, be removed to a greater distance than five miles from the premises, without the consent of the tenant. These restrictions, being in favor of tenants on Township lands alone, do not extend nor apply to the respective Towns and Royalties, and are adduced to shew, that large exemptions have already been granted to the tenantry of this Colony, some of which originated in favors shown to them by their landlords, which were afterwards made precedents for law; and it can neither be controverted nor denied that the condition of the tenantry of Prince Edward Island, as regards mildness of terms, freedom from taxes, and both length and security of tenure, greatly exceeds that of the same class in England, or indeed most other countries. Three farthings sterling per acre will cover the amount of land tax to which the tenant here is liable, and it appears from the records of the Supreme Court, that only six ejectments for non-payment of rent have taken place during the last four years, which does not argue much for the severity of landlords in a country where rents, in most cases, are very greatly in arrear.

That your Petitioners have been induced to make the foregoing statement in reference to two other Bills recently passed by the Legislature, and now awaiting Her Majesty's approval; one entitled "an Act to impose a rate or duty on

the Rent Rolls of the Proprietors of certain rented Township lands in Prince Edward Island," &c., to which, in the first place, your Petitioners beg leave respectfully to call your Lordship's attention, and it will be at once apparent that the said Bill bears exclusively on a certain class of individuals, having vested interests in this Colony, and therefore founded on one of the worst principles of legislation, namely, that of imposing a burthensome duty on the ostensible income of a limited class, for the furtherance of objects, which if essential to the public service, ought to be provided for by equal and rational taxation. But a general income tax was never yet imposed, or even contemplated in Prince Edward Island, nor, as your Petitioners believe, in the neighbouring Provinces of Nova Scotia or New Brunswick; and apart from the unjust principle of partial taxation, your Petitioners contend that the unjust provisions of the Act are arbitrary and inquisitorial—the security required by it difficult to be complied with—and the penalties to be incurred under it needlessly severe, extending even to lunatics, idiots, and insane persons; and it can only be regarded as part of a plan for extinguishing the rights of Proprietors by means of an aggressive system of legislation, which, your Petitioners humbly conceive, bears more affinity, in the present instance, to a statute for the punishment of offenders, than to an Act for contributing towards raising a Revenue by fair and legitimate taxation.

That if it were really intended by the Legislature to make due provision for an armed force in case of exigency, it would have been just and prudent, on their part, to restrict the appropriation of all sums arising from any tax or taxes imposed for that purpose, towards raising a fund for the object contemplated when needed. Property is already heavily taxed for the support of Education, and by the appropriations for the year ending 31st January, 1855, it appears that over a fifth part of the Revenue for that year was so applied; and when danger to the Colony is to be apprehended, it is but fair to presume that a due portion of the burthen of any provision requisite for its defence, will be willingly borne by every patriotic Colonist resident on the Island, and not thrown altogether on one particular class, who are already subjected to more than an equal share of taxation.

It will also be observed that the provisions of the Bill apply to the nominal rental, and not to the actual receipts of the Proprietors of Township lands; though in many cases it may be found impossible to realize the former, and the attempt to do so would greatly distress a large number of tenants; for the heavy tax on wilderness property has obliged Proprietors to let lands without much discrimination as to the circumstances of the settlers, to whom they were nevertheless disposed to grant every indulgence that the nature of the case would permit, towards enabling them to overcome the difficulties inseparable from such occupancy, without capital to commence with.

That the next measure to which it becomes requisite respectfully to call your Lordship's attention, is entitled "An Act to secure compensation to Tenants in Prince Edward Island, and thereby to promote the improvement of the soil." As regards this Bill much more might be urged than can possibly be brought within the compass of a statement of this nature, and your Petitioners believe that a proposed Tenants' Compensation Bill for Ireland has engrossed considerable attention in the British House of Commons, without any practicable results having yet been attained. But the principle of compensating a tenant, against whom it is requisite to bring an action of ejectment for non-payment of rent, or any other breach of covenant before the term of his lease expires, your Petitioners humbly submit, is liable to very grave objections, and contrary to the received opinions of weighty authorities, which might be adduced on the subject,

APPENDIX (E.)

and these objections will particularly hold when applied to a country where lands, when let, are constantly liable to be denuded of timber and firewood by the improvidence of settlers, though a sufficient growth of the latter is deemed an essential requisite to a farm in this country; and compensation for any improvements in the way of buildings, shipyards or otherwise, that might be made or erected on lands so stripped, must at all times form a complex and difficult matter for adjustment, by arbitration, with a due regard to the merits of the respective claims that may be urged under the Bill, and an impartial consideration of the actual value of such improvements, with a view to any increased rent the landlord may be able to obtain for them, if placed at his disposal. By the provisions of the Act, this can be decided by the award of two arbitrators; but your Petitioners, with a due submission, contend that a fairer way of arriving at it, would be by setting up the tenant's interest at auction, subject of course to the conditions of his lease, and the arrears of rent due under it, including all costs and charges lawfully incurred for the recovery of them; and then finding, by public sale, what such leasehold interest will bring, subject to the amount of claim.

And your Petitioners humbly beg leave to submit, that under the circumstances above mentioned, it is reasonable to expect that some barrier shall be opposed to measures of the Assembly, when such measures involve a departure from principles hitherto regarded as forming the basis of civil security, and it is moreover essential to the interests of land-owners in this Colony that the intentions of Her Majesty's Home Government with respect to a series of encroachments on the rights of property, as recognized by the British constitution, should be clearly ascertained. This must obviously be regarded of the more importance, when the leaders of the local Government are chosen under a system amounting to universal suffrage, as granted to this Island by the extension of the elective franchise in 1853, which overbalances all property considerations in the scale of representative influence. And your Petitioners further beg leave to impress upon the consideration of Her Majesty's Government, the very slight prospect of permanent security afforded to subjects of Great Britain in a dependency of the Crown, where the qualification for a seat in either branch of the Legislature is such as at present exists in Prince Edward Island—a freehold or leasehold interest to the value of thirty-four pounds sterling being the qualification for a seat in the Assembly; or estimating such qualification at five per cent. yearly value, just thirty-four British shillings per annum. With reference to the Upper Branch of the Legislature, your Petitioners are informed of any recent instructions the Lieut. Governor may have received as regards filling up appointments to that Board. By the Royal Instructions given to a former Governor, and published here, the Legislative Councillors were to have been chosen from among "the principal freeholders, inhabitants of the Island;" but late appointments to that body would lead to the conclusion that a property qualification, if not altogether done away with, is at least not essential.

And your Petitioners deeply deplore that the public affairs of a small but valuable dependency should be entrusted to the management of deliberative bodies so constructed, without any limits being accurately defined for their guidance or restriction, in cases where the vested rights and immunities of a class of British subjects are placed so largely under their control; leaving your Petitioners no other hope of redress under such grievances, than an appeal to the justice and moderation of Her Majesty's Home Government.

And they therefore humbly pray that the Bills specified in the margin hereof,* may not be sanctioned by Her Majesty's Royal Allowance. And your Petitioners shall ever pray.

Petition and Remonstrance of certain Proprietors and Agents of Land in Prince Edward Island, to the Queen, against the Act to impose a rate upon Rent Rolls of Proprietors.

TO THE QUEEN'S MOST EXCELLENT MAJESTY.

The Petition and Remonstrance of the undersigned Proprietors and Agents of Land in Prince Edward Island, most respectfully sheweth—

That in the last Session of the Provincial Parliament of the said Island, a Bill was passed, intituled "an Act to impose a rate or duty on the Rent Rolls of the Proprietors of certain rented Township Lands in Prince Edward Island, in order to defray the expenses of any armed force which may be required on account of the withdrawal of the troops, and for the further encouragement of Education," in which said Act is a clause restraining the operation thereof, until Her Majesty's assent shall have been first given thereto.

The undersigned humbly pray that your Majesty will be pleased to withhold the royal assent to the said Bill, for the following among other reasons.

That the real object of the Bill is not what it purports to be on the face of it. According to the preamble of the Bill, it is intended to provide a fund for the purpose of maintaining an armed force, in case the necessities of the Island should demand that such a force should be raised. For in reality it is one of a series of measures, the avowed purpose of which is to compel the owners of Township Lands to convey the same to the local Government of this Island, to be by it disposed of to the present tenantry in freehold, and to those usually termed "Squatters," who have taken and held possession without the consent of the owners.

The truth of this assertion is of easy proof. During the course of the Session, the long agitated question of Escheat came before the House of Assembly, and in a speech of the Hon. George Coles, Colonial Secretary and President of the Executive Council, delivered when the whole House was in Committee, the true intent of passing this, with the other Bills alluded to, is thus adverted to by the Hon. Colonial Secretary: "Believing that Escheat was impracticable, I have introduced and carried other measures for the benefit of the people, at the expense of the proprietors;" and subsequently in the same speech, he says: "I am satisfied that this House has it in its power to mitigate the hardships on the tenantry, arising from the original grants; that remedy is by taxing the lands of the proprietors; under that system, the proprietors will soon be glad to come in and offer their lands to the Government, under the Land Purchase Bill." And again—"I regret that the minds of the people are agitated on this question, (Escheat.) Had it not been for parties exciting them and holding out false hopes, everything would have gone on quietly, and the Land Purchase

APPENDIX (E.)

Bill, the Education Act, and the proposed Bill for taxing the Rent Rolls of the Proprietors, would have had the effect of inducing a reasonable and equitable settlement of the tenantry."

What is meant by "reasonable and equitable settlement" in the mind of the speaker, it is impossible to say, unless it be that the proprietors are to forego all arrears of rent and dispose of their lands, either to the tenantry or to the local Government, at one-third of their value, that being the maximum in the Land Purchase Bill. That the Bill is founded upon the principle of class legislation, and that no sufficient cause has been, or can be shown, why the present proprietors of lands over five hundred acres, should be taxed for the purpose of raising and maintaining an armed force for the preservation of the Colony, in preference to the proprietors of smaller portions of land, and the owners of property generally in the Island.

The preamble of the Bill states that, "Whereas the proprietors of Township Lands in the said Island have leased a large portion thereof to tenants, from whom they derived large rents, and covenants are generally contained in the leases of such lands, that the tenants or occupiers thereof shall pay all taxes imposed or to be imposed on the lands so leased to them, whereby the proprietors evade the payment of said taxes, and the principal part thereof are paid by the tenantry; and whereas such lands have greatly increased in value from the industry of the tenants, and from the prosperity and progressive state of the Colony, independently of any outlay made by the proprietors of such lands."

That the rents are by no means excessive, the following statistics of the Colony will prove. By the Census of 1848, in the 67 Townships, there were 6,000 tenants holding under lease, written demises or agreements or without agreements; and of these 3,202 held under leases for 999 years; 440 from 999 to 100; 319 from 100 to 50 years, and 898 from 50 to 30 years, while the whole number of those holding for a less term than 30 years, is 109. Of the 6,000 tenants holding under either lease, written demise, agreement or without, 4,970 hold their lands at a rate nominally of one shilling sterling, but in reality owing to the One-ninth Bill, at a rate not exceeding nine-pence British sterling, the acre; 898 at rates varying from nine-pence to sixteen-pence British sterling, per acre; and 37 not exceeding two shillings British sterling, per acre, there being but 55 farms rented above that sum, and the tenants of these residing chiefly in the older and more densely settled Townships Lots 17, 19 and 48, and in all probability not payable to the original proprietors or their representatives.

When the landlord has parted with his interest in the soil for 999 years, he has virtually sold it from him and his heirs, for an annuity of about three pounds fifteen shillings, British sterling, the one hundred acres; and it is hardly to be expected that he should contribute towards its improvement, as let what will be the ultimate value either through the industry of the tenant, or the prosperity and progressive state of the Colony, he can receive no more than the stipulated rent or annuity of three pounds fifteen shillings the one hundred acres, or nine-pence the acre.

The fact of the tenants' lands having risen greatly in value, only tends to prove that they have had favourable terms of tenure, and that they, and not their landlords, ought to contribute most largely to the defence of the Island, as having the most valuable interest to defend.

That the arrangements for carrying out the provisions of the Bill are most inequitable, inasmuch as it taxes the gross rental without any inquiry as to what has been paid, and what has been in arrear; thereby compelling the proprietor to pay considerably more on his real income than the five per cent mentioned in the Bill, thus taxing the loss equally

with the gain, a species of legislation without a parallel, it is to be hoped, in any country, however despotically ruled. And this is the more unjust, as it is well known that such has been the leniency of the landlords, that vast sums of money due for rent are in arrear, and that a continuing loss is annually suffered by the failure of the tenants to meet their engagements, so much so that if two-thirds of the yearly rent is regularly paid up, the proprietor or his agent may think himself fortunate.

That the line of distinction drawn between proprietors of five hundred acres, and those above that number, is an arbitrary one, and founded on no principle either of justice or equity, the proprietor of 500 acres being just as much bound to contribute to the defence of the Colony as one of 1,000 or 10,000, and can be attributed only to the determination already alluded to, as expressed by the leader of the Government, to compel the sales of Township Lands under the provisions of the Land Purchase Bill.

That it is assumed by the leader of the Government, the introducer and supporter of the Bill, that the tenantry of Prince Edward Island are a suffering and oppressed class, than which nothing can be more fallacious, nothing more opposite to fact. It has been already shown, that the great mass of the tenantry pay about nine-pence sterling per acre, and if all the taxes to which the land is liable be added to the rent, the charge per acre will not amount to ten-pence British sterling per acre; and no one can presume to call this a rack rent.

An unusual increase of population, accompanied by a corresponding augmentation of wealth, may be safely taken as a criterion whereby to measure the advance of a people in the social scale. By the Census of 1827, published in the Appendix to the Journals of the House of Assembly, for the year 1828, the population of the Island was, 23,266; twenty-one years after, in 1848, (without any very material increase from immigration), it numbered 66,678; and during the same year, the amount of the Colonial Revenue rose from £5,456 16s. 11d., in 1827, to £25,204 1s. 9d., in 1848—in 1854 it has reached £46,033 11s. 6½d. The number of cultivated acres in 1827 amounted to 59,909, or about 2½ acres to each individual. In 1848 the number of acres of arable land was 215,389, or nearly 3½ acres to each individual, shewing not only an almost unexampled increase in population and public wealth, but an augmentation of private fixed capital to the amount of one acre in three and a half to each inhabitant, from the child in arms to the oldest inhabitant in the Colony. The same comparative increase in animal produce and stock of all descriptions, is to be derived from the same sources, all published by the order of the Legislature in the different Appendices to the Journals of the House of Assembly.

In the year 1847, when the people of the Island suffered most severely from the almost total loss of its principal crop—the potatoe—combined with unfavourable seasons for grain crops, when 731,575 bushels are returned as the produce of that year, while in the year 1841 the returns were 2,250,114 bushels, it might have been reasonably imagined that scenes of distress and suffering would have been enacted here, similar to those which took place in Ireland, but the contrary was the case.

The population of the Island is now computed at upwards of 80,000, and during the last year, 1854, it was found requisite to vote the trifling sum of £350 sterling only, for the benefit of about 260 individuals—about 3½ per 1,000.

A community whose poor do not amount to four in one thousand, and whose necessities are relieved by a grant of something less than thirty shillings sterling per head, cannot

APPENDIX (E.)

be said to even approximate to distress or poverty of any description. These facts are introduced for the purpose of showing that the present Administration has substituted the Bill in question, and other Bills of a like tendency, in order, through their operation, to work out a virtual Escheat.

That the proprietors should contribute towards defraying the expenses of any armed force for the protection of the Colony, no one will deny to be just and reasonable, and if all other classes were called upon by this or other Bills passed in the same Session, to contribute their reasonable quota, or submit to an income tax at the same rate, for the same purpose, there could be no just cause for complaint. But such is not the case. The owner of a house in Charlottetown, for which he receives a rent to the amount of fifty pounds per annum, is upon a par with the proprietor of one thousand acres of land at nine-pence, British sterling, the acre, the usual rent. In case of invasion, the house is liable to be shotted, shelled or burnt. Some of the town lots in Charlottetown, without a single building upon them, are worth more than any one thousand acres of land in the hands of proprietors, whether leased or unleased; and these lots have acquired their present value solely from the "prosperity and progressive state of the Colony;" and yet these are suffered to go free, and an intimation of taxing them is not even whispered. It is submitted, that in a community of danger, each should bear the burthen of providing the means of averting or repelling it, according to the amount of his stake or interest.

Although it has been admitted, that in case of invasion, the proprietors are equally bound to contribute with others for the purposes of defence, yet there exists no such obligation upon them to contribute "towards the further encouragement of Education,"—the unleased, and consequently to the proprietors, unproductive lands, having been taxed for this purpose at about one-third over the rate of the productive lands of their tenants; nor is this all, as the proprietors are compelled to pay for land which will not for years, if ever, be productive.

The joining in one Bill, of two objects totally unconnected with each other, and which ought to have been made the subject of separate Bills, is a clear proof, that there is no immediate intention of raising any armed force, and that the mention of an armed force in the Bill is only for a cloak to the real object of the Legislature—a determination to harass the proprietors and render their property of less value.

That had the defence of the country been the true object of the Bill, it would have provided, that all sums arising therefrom should be religiously applied to that end, and formed into a fund for the express purpose of providing munitions of war, or in the construction of fortifications; and estimates of the cost would have been put forward, and the probable amount of the sum required, and the sources from whence the additional expense would have been to be defrayed,—nothing of which has been done, and the fact of any armed force being raised, is a measure that, when called for, must be met by a much more ample provision than what would be realized under the Bill in question.

That, by one of the clauses of the said Act, the tenants or occupiers of land are compelled to disclose to the receivers of the said tax the names of the proprietors or their Agents, the number of acres they hold, and the amount of rent received; but that no mention is made of whether the rent be in arrear, or whether it be paid; and by another clause, execution is to issue against the lands and tenements, though there may be a sufficiency of property in the tenants' hands to enable them to pay the rent.

That in all Acts of Parliament hitherto passed, either in

the Parent State or its Colonies, infants, married women, lunatics, idiots, or insane persons, have been considered as entitled to the special protection of the laws; whereas in this Bill they are specially excluded, and rendered liable, not only to the payment of the tax, but to all the fines, penalties and forfeitures imposed by it.

It may be objected that this Bill has received the sanction of both Houses of the Legislature. It is, however, submitted, that the members of the Legislative Council are not qualified, according to either the letter or spirit of the Royal Commission and Instructions; and that instead of being composed of the principal freeholders in the Island, the reverse is the fact; and that few, if any, come under that designation; but that some of them are tenants to proprietors; and without any real estate or adequate property, as contemplated by the Royal Instructions, and that those who do come under the description of persons as eligible for seats in that House, have voted and protested against its passing.

That the whole Bill is unconstitutional in principle, and unjust, harsh and oppressive in detail. That the allowing the royal assent to be given to it, will tend to lower the dignity of the Crown, and impair that confidence in its wisdom and justice, that has hitherto prevailed in the Colony.

The undersigned, therefore, most humbly pray that Your Majesty will be pleased to take the above Petition and Remonstrance into your most gracious consideration, and decline to give the Royal assent to the said Bill. And, as in duty bound, Your Majesty's Petitioners will ever pray, &c.

*Petition and Remonstrance of certain Proprietors
and Agents of Land in Prince Edward Island
to the Queen, against the Act to secure Com-
pensation to Tenants.*

TO THE QUEEN'S MOST EXCELLENT MAJESTY.

The humble Petition and Remonstrance of the undersigned Proprietors and Agents of Land in Prince Edward Island, most respectfully sheweth—

That in the last Session of the Provincial Parliament of the said Island, a Bill was passed, intitled "an Act to secure Compensation to Tenants in Prince Edward Island, and thereby to promote the improvement of the Soil," in which said Bill is a clause restraining the operation thereof until Your Majesty's assent should have been first given thereto.

The undersigned humbly beg leave to submit, that the said Bill should not be allowed to become law, for the following, amongst other reasons.

Because the provisions of the Bill are utterly subversive of all acknowledged principles of law and equity; destructive of the mutual relations existing between Landlord and Tenant, as recognised by the common law of England from time immemorial; and directly opposed to the dictates of common sense,—so that it is difficult to suppose that those who concurred in passing it, from motives which will be hereafter alluded to, could have entertained the slightest hope that it would ever receive the royal assent.

Before entering into the details of the Bill, it is deemed necessary to shew under what relations the tenants contemplated in it stand, with respect to their landlords, as regards duration of tenure and terms of payment of rent, as these have a very evident bearing on the policy and justice of passing the Bill into an Act. The majority of the tenants hold by leases of a long endurance, as appears by the enumeration of the respective holdings in the Census of 1848—the general accuracy of which there is no reason to doubt, as it is published by the order of the House of Assembly in the Appendix to its Journal of the year 1849. In the year 1848 the whole number of tenants in the Island amounted to 6099, of whom more than one-half held under leases for 999 years, the residue by terms varying from 999 to 100, 50 and 30 years, there being of the whole number only 199 that occupy their lands under leases or agreements for a shorter period than thirty years, and those holding by these comparatively short periods of 100, 50, or 30 years, have generally a clause inserted in the lease or agreement, giving them the power of demanding releases in fee simple, upon the payment of twenty years purchase money.

As to the terms respecting the payment of rents under which the lands are held, they are, as given by the same authority, as follows:—Out of 6099 tenants, are 4970 who pay nine-pence, British sterling, the acre; 898 at rents varying from nine-pence to sixteen-pence, British sterling, the acre; 37 not exceeding two shillings, sterling, per acre; and 87, in the oldest, most populous and best cultivated dis-

tricts, who hold at a greater sum than three shillings, British sterling, per acre. That there is no species of contract which the laws of all countries, by a common consent founded on the immutable principles of justice, look upon so religiously to be kept and enforced as that between landlord and tenant; and the payments of the rent reserved in such contracts have ever, by the law of England, been compelled to be made with rigour and strictness, tempered and modified by a care and watchfulness that the extraordinary power vested in the landlord should not be abused. And of this care and watchfulness the tenant of Prince Edward Island has an equal share with those of England, in addition to the benefit conferred by statutes, by which the power of the landlord is curtailed and regulated, passed by the local Legislature in favor of the tenant, who has also the same advantages given by the law of replevin, and may avail himself of any plea in bar or of set-off that the practice of the courts allow, as fully as the tenant in England can. But the tenant in Prince Edward Island is, in almost every possible case, placed on a far more favorable footing than the tenant in England. In the first place, the tenant's lease is of a long endurance; secondly, he is hampered with no burthensome conditions, is compellable to erect no particular species of buildings, to follow no prescribed course of cropping or tillage,—all he has to do is simply to provide for and pay his rent of nine-pence, British sterling, per acre, and the public taxes, which do not amount to one penny, British sterling, per acre; and having performed these duties, he is totally independent of his landlord—may sell and dispose of his leasehold interest at public auction, or by private contract—may mortgage, build, cultivate, or let it alone, just as he pleases. It is, therefore, submitted that it is contrary to the dictates of common sense, as well as opposed to the rules of common justice, that the landlord should be compelled to pay for buildings and improvements: on the necessity of erecting the one, and making the other, he has never been consulted, and which, if he had been consulted, he would, in all probability, have disapproved of. That the compelling the landlord to take back the land, because the tenant is either unable or unwilling to discharge the rent, and pay for the improvements at a valuation by arbitrators, is an act of injustice to him as a creditor, to which no other creditor of the tenant is by law subjected, inasmuch as any judgment creditor of the tenant may take out execution, levy upon the leasehold interest and sell it, with all the improvements, in a year from the date of the levy—turn the tenant out of possession, and, if the leasehold interest with the improvements are not sufficient to pay the debt, seize upon his person, and lodge it in prison, until the residue be paid. That the mortgagee of property is at liberty to foreclose, where the condition for re-payment of the mortgage money is broken, and that in such case the land with all its improvements is forfeited; and that this Bill would place the landlord—who, by abstaining from pressing his tenant for the rent, has, in equity, lent him so much money—in a worse situation than a mortgagee, or a judgment creditor,—thus making the claim of the landlord, which is in England and all other countries considered paramount, inferior to those of strangers.

That the Bill is retrospective, and will, if it takes effect, be the means of adding a parliamentary covenant to pay for improvements on the part of the landlord, which, had it been proposed at the time of executing the lease, he would have at once rejected.

That it is taking a fraudulent and unjust advantage of the lenity of the landlord, who, in most or in all cases, has forbore to press the tenant for the payment of his rent, from an unwillingness to interfere with, or prevent his making the necessary improvements, resting satisfied that by so doing he was promoting the interests of the tenant, and enabling him

APPENDIX (E.)

to pay his rent with greater ease in future years. That in fact, by this Bill, the landlord is to be punished for having assisted his tenant, at the outset of his career, with what was equivalent to a loan of money, without interest, for five, ten, or fifteen years. That the very fact of the improvements being to any amount greater in value than the rent in arrear, is a convincing proof that the tenant has had a beneficial use of the soil, and that there is no injustice in compelling him to dispose of those improvements at public sale, or by private contract, and first discharging the debt which honor and honesty alike require him to pay, appropriate the residue at his own will and pleasure.

That no distinction is made by the Bill between landlords who have only a life-interest in the soil, and those who have the fee-simple: as, for instance, tenants for life, tenants in tail, tenants by the courtesy, and tenants in dower—all of whom have no other interest in the land than what they derive from the annual profits, and who might be ruined or starved by the detention of the rents, and who have, certainly, no interest in the improvements, other than their affording a greater security for the payment of those rents.

That the Bill has not been called for by any harsh and oppressive practices on the part of the landlords, or their agents—there having been only six tenants, out of all that hold lands in the Island, ejected for the non-payment of rent, during the space of the last four years, as was shown by a return furnished by the Prothonotary of the Supreme Court.

That the allowing the improvements to be estimated by arbitrators, is an useless, expensive and uncertain method of finding their true value, which more easily and with greater certainty can be ascertained by exposing them to sale, with proper notice, and under proper precautions—a mode of procedure to which the proprietor, who is in want of his rent, must have recourse, if the Bill should become an Act, and who, if the improvements realize less than their estimated value, must submit to a loss which ought in justice and equity to be paid by the tenant.

That under the terms of the Bill, as to what shall be considered the just value of the improvements to be paid for by the landlord, and those to be borne by the tenant, it would be utterly impossible for any arbitrators to come to a just decision, inasmuch as few, if any, of the tenants in the Island keep any account of their expenditure, or of their income.

That the Bill directs the arbitrators "to take into consideration any expenditure of manure, lime, or any other matter calculated to improve the temporary fertility of the soil, and to award a recompense therefor," a convincing proof that the true intention of the Bill is to prevent the landlord from ever recovering his rent, when it has once been suffered to fall into arrear, as an award made upon such principles would, in most cases, amount to more than the original value of the land.

That it is a specimen of class legislation of the most odious kind, and can serve no other end than to reduce the value of real estate, already at a very low rate, as may be seen by the price paid by the Government for the estate of Charles Worrall, Esquire.

That the Bill is impolitic, having a tendency to drive all monied men from the Island, as no one will be inclined, or can be expected to invest capital in the purchase of land, which he is deprived of the power of turning to a beneficial use, and may be prevented from reaping the just profits of, under the sanction of law.

That the true object of the Bill has been declared by the Hon. G. Coles, the leader of the Government, in his speech on the Escheat question, on the 29th day of March last, to be for the purpose of compelling the proprietors "to come in and offer their lands to the Government under the Land Purchase Bill."

That, if the royal assent be given to this Bill, it will be sanctioning a species of class, partial and unjust legislation, which cannot fail to have a ruinous effect on the future prosperity of Prince Edward Island, and may be drawn into a precedent for any species of wrong and injury it may be the pleasure of an ignorant and interested majority in the Legislature to inflict upon either individuals or bodies of men.

The undersigned, therefore, most humbly pray that Your Majesty will be graciously pleased to take the premises into your royal consideration, and withhold your royal allowance from the said Bill. And Your Majesty's petitioners, as in duty bound, shall ever pray.

The Petition of certain Owners of Township Lands, against the Rent Roll and Tenants' Compensation Acts.

To the Right Honorable Sir William Molesworth, M. P., Her Majesty's Principal Secretary of State for the Colonial Department, &c.

THE HUMBLE PETITION OF THE UNDERSIGNED OWNERS OF TOWNSHIP LANDS IN PRINCE EDWARD ISLAND—

We, the undersigned resident owners of land in Prince Edward Island, beg leave to approach the Principal Secretary of State for Her Majesty's Colonies, with feelings of the most profound veneration and respect for Her Majesty's Person and Government, but with just grounds of apprehension as to the consequences that may result to your petitioners from certain recent local enactments, calculated seriously to affect Township Lands and the security of property generally throughout this Island, which enactments having suspending clauses annexed to them, cannot go into operation until Her Majesty's assent be first given thereto.

Various reasons urged by your petitioners and other land-owners against the royal allowance being extended to the measures in question, were respectfully submitted in three several petitions from this Colony, two of which dated June 4th and June 19th, 1855, were handed to the Lieut. Governor for transmission to the Secretary of State, and one dated June the 4th, was forwarded direct to the Colonial Office, a copy of which letter has since been sent out to the Lieut. Governor, in order that he may report to the Colonial Minister thereon; and in consequence of the change which has since taken place in the head of the Colonial Department, your petitioners humbly presume at this stage of the proceedings to pray, that their representations may receive such further considerations as may be thought due to the circumstances of the case, and the peculiar hardships they complain of.

In respect to an "Act for imposing a rate or duty on the Rent Rolls of the Proprietors of Township Lands," it will be seen by two of the petitions mentioned, that this measure, though ostensibly in the light of an income tax, is in reality an additional burthen on real estate, of a peculiarly harsh and oppressive kind; and is meant to bear exclusively on one particular class of Her Majesty's subjects, whose property in this Colony is already taxed in an unequal ratio to its value, as compared with other landed property of a more profitable description. All persons entitled to rent for over five hundred acres of Township Land, are to be liable to the proposed tax, whether such rent can be collected or not, and it will be further

apparent by the terms on which land is usually let in this Colony, (namely, about one shilling and a penny farthing, currency, per acre, and from that in some few cases up to two shillings per acre), that *eighteen pounds ten shillings and five-pence sterling* is the rent usually accruing due, per annum, from the above quantity of Land; which rents on the average are far from being regularly paid. All persons therefore, entitled to that amount and upwards of yearly rental, are subject to the provisions and penalties of the Act; and this brings the minimum of liability greatly below that to the present income tax in England; which, your petitioners submit, seems neither fair nor reasonable in a comparatively young country, where owners of land have yet numerous difficulties to contend with, and are now sought to be burthened with an onerous impost, from which all other colonists are exempt, both in this and the neighboring Provinces of Nova Scotia and New Brunswick.

It will also be observed that the possession of the property in the Town, or Royalties of Charlottetown, Georgetown and Princetown, does not render the owners thereof in any way liable to the said tax; though on what principle of equity or justice such property should be exempt therefrom, if the tax be just and necessary, it would be difficult for the framers and supporters of the Act in question to explain, as in Charlottetown and Royalty in particular, there is much valuable property, from which considerable rents and profits are derived; and the following *data* will convey some idea of the value of such property, as compared with that of Township lands. The valuations are taken from the report of sworn assessors appointed under a Colonial statute.

Charlottetown alone comprises 492 lots of about one-third of an acre each, and the Royalty and Common contains over 600 lots of 12 acres each; five town lots in the fifth hundred (Nos. 23, 24, 25, 68 & 69), but with one dwelling thereon erected, are rated at £120 yearly value, gardens and out-houses included; and the tenant, or if unlet, the owner thereof is liable only to three-pence in the pound assessment, under the Education Act. Each lot in the Town, Common and Royalty, is also liable to the small land tax of two shillings currency per annum; whereas wilderness and unprofitable Township lands are assessed at nine shillings and two-pence per hundred acres, yearly, whether the same is capable of being brought into cultivation or not, being nearly one and a-quarter per cent, or the maximum price offered for the best Township land by the Government, under the Land Purchase Bill.

Three lots adjoining Queen Street, fronting on the water, and containing less than an acre of ground, are assessed (buildings included), at £250 per annum, and one other lot adjoining Pownall Street at £140, while various lots and parcels of lots, occupied in each case by individuals as business stands or otherwise, are assessed, one at £150, two at £120 each, four at £100 each, and from that gradually lower; yet all incomes derivable from property, whether in the Towns or Royalties, are to be exempt from the proposed tax: Two Breweries and Distilleries are rated one at £100, and the other at £120; and thus it will appear that the estimated value of three small lots in Charlottetown, (improvements thereon included), is equal to what is offered by the Government for 13,300 acres of the most productive Township land in the Island.

Why property of the above description, which in case of invasion, would be the very first to suffer from the fire and depredations of an enemy, should be wholly exempted from a tax, the implied object of which is to provide for the defence of the Colony, may possibly be in a measure accounted for, by its being owned, in three of the cases referred to, by gentlemen who were members of the Executive Government, and leading men in the Legislature, at the time the Bill was passed, as will appear by the names mentioned in the margin; the last named gentleman having only resigned his seat at the Executive Board about six weeks ago, when on the eve of his departure for England; but he still holds his valuable property in Charlottetown.

The very title of the Act, in the opinion of your petitioners, implies a departure from Her Majesty's Instructions, as no two objections can be more essentially dissimilar, than pro-

APPENDIX (E.)

riding an armed force for the defence of the Colony, and the further encouragement of Education; yet in that part of the Royal Instructions which relates to the passing of laws, it is distinctly and expressly enjoined "that each different matter be provided for, by a different law, without including in one and the same Act such things as have no proper relation to each other." And this circumstance, your petitioners submit, affords tangible proof that the object of the Legislature in passing the Bill, was not what appears on the face of it, but in reality was to harass and oppress a particular class of Colonists, with whose interests those of a majority in the Assembly, having little or no stake in Township lands, do not happen to be identified.

Your petitioners are of course unacquainted with what arguments the Lieut. Governor may make use of, in support of a measure to which he has already assented in his place in the Legislature, or how far such may influence a Colonial Minister in the final disposal of the same. But your petitioners humbly apprehend, that the Lieut. Governor's recommendation of any measure introduced by that Government of which he is the head, and carried through both Houses of the Legislature, it must be assumed, with his full knowledge and concurrence, is afterwards assented to and recommended by him, in the ordinary course of proceeding in such cases. And any other course would appear inconsistent with the good understanding usually supposed to exist between the Governor of a Colony and his sworn confidential advisers, and might also operate prejudicially towards His Excellency, by a vote of "want of confidence" being passed on him, by a resolute and unscrupulous majority in the Assembly. The suspending clause, therefore, seems the only safeguard against the enactment of oppressive statutes in the Colonies, the addition of which, to all Acts of an unusual and extraordinary tendency, has been strenuously enforced by the Crown, since Governments were first established in the North American Dependencies. And your petitioners venture to express a hope, that the benefit of that clause will not be denied to their several and respectful petitions against the measures referred to, viz:—No. 1. "An Act to impose a rate or duty on the Rent Rolls of the Proprietors of certain rented Township lands in Prince Edward Island, in order to defray the expenses of any armed force which may be required on account of the withdrawal of the troops, and for the further encouragement of Education." And—No. 2. "An Act to secure Compensation to Tenants in Prince Edward Island, and thereby to promote the improvement of the soil." Why your petitioners are thus harassed, has been explained in former representations addressed to the Colonial Office on the subject, the leader of the local Government having declared in the Assembly, that his object is to compel the owners of Township lands to sell them to the Government, under the provisions of an Act enabling the local authorities to re-sell and dispose of the same to their numerous friends and adherents. This species of legislation, if sanctioned, will render nugatory various gracious Acts of favour and indulgence, conferred upon the original grantees and their heirs by Her Majesty's royal predecessors, which may not be specifically enumerated here. And your petitioners beg leave respectfully to impress on your consideration, that the lands in Prince Edward Island have in many cases descended to their present owners through three successive generations, having become subject in some cases to securities for debt, settlements for dower, testamentary and other provisions, and the titles to them were in various instances acquired upwards of eighty years ago, amidst the hardships and privations incident to an infant Colony. The deprivation of lands so held, under a harsh and compulsory system of legislation, adopted to suit party purposes, and persevered in from interested motives, cannot all greatly to unsettle the security of every description of property in this Island, to drive persons of capital away from it, an effect which is already being felt, and must also tend to lessen the confidence hitherto reposed in the protection of the Crown, and in the integrity of British institutions.

We, therefore, humbly pray that the foregoing and three other petitions on the subject of the said Bills—two of which, dated the 4th and 19th of June, 1855, were addressed to Her most gracious Majesty, and one dated the 4th of June, to the Right Honorable Lord John Russell—may be taken into con-

sideration along with the said Bills; and we further pray, that on the grounds stated, you will be pleased to recommend Her Majesty to disallow the said Bills. And your petitioners shall ever pray, &c. &c. &c.

Extract from the Minutes of the Executive Council.

COUNCIL CHAMBER, 27th August, 1855.

At a Meeting of a Committee of the Executive Council.

His Excellency the Lieutenant Governor having submitted for the consideration of a Committee of the Executive Council, a Paper purporting to be a Petition of certain owners of Township Lands in Prince Edward Island, the object of which is to induce Her Majesty's Secretary of State for the Colonies to advise that the Royal Assent shall not be given to two Bills transmitted to the Colonial Office, passed by the Legislature of this Island, at its last sitting—the one for imposing a Rate or Duty on the Rent Rolls of the Proprietors of Township Lands,—and the other to secure Compensation to Tenants, and thereby to promote the improvement of the soil; and the Committee having taken the said Petition into their serious consideration, beg to report as followeth:—

May it please Your Excellency:

Before entering on the arguments urged by the Petitioners, we cannot refrain from remarking on the peculiar, unjust and malignant spirit exhibited by the manner in which they bring their case under notice. We allude to two allegations, totally groundless, made by these parties—the one against three Members of Your Excellency's Government,—the second, against the whole Body. In regard to the first, they certainly well know that the taxes existing on Lands already are applied to purposes of Education; and that of the Councillors of whose injustice they complain, neither the Honorable George Coles, (the introducer of the Education Bill), the Honorable C. Young, nor the Honorable William W. Lord, derive the slightest benefit from that measure.

The other most objectionable statement is where the Petitioners speak of an Act "enabling the authorities to sell and dispose of lands purchased under the Land Purchase Bill to their numerous FRIENDS AND ADHERENTS." These Petitioners well know that the Land Purchase Bill gives the Tenants or Occupiers of improved Lands the right to purchase their occupations—be they friends or foes of any Administration—and that no part of it can bear the construction they have put on it.

We further beg to remark, that Charles Wright, Esquire, one of the subscribers to this Petition, has already endeavoured to communicate with the Colonial Minister, without submitting his letter to Your Excellency, and although his endeavour was not per-

APPENDIX (E.)

mitted to take effect, the attempt exhibited the spirit in which these parties would act.

We now come to a part of this subject which is, if possible, even of more importance, namely, a renewal of the system by which every Act of the different Branches of the Legislature, in which your Excellency especially is included, is, it appears, undergoing, not the revision of Her Majesty's Ministers, but of a Body unknown to the Constitution, and consisting of parties, for the most part, who, though unable to command attention in the local Legislature, nevertheless seek to counteract its decisions at the Colonial Office.

The people of this Island had reason to expect, that when Her Majesty graciously accorded to them what is commonly termed Responsible Government, this secret and baneful influence would be discarded, and the discussion of Island affairs no longer take place through the oratory of malcontents assembled in Downing Street, but in the Colonial Legislature. Far be it, nevertheless, from us to desire the doors of the Colonial Office to be shut against those who think they have reason to complain of the Government or local Legislature of this Island; but we cannot refrain from observing, that the frequent exercise of this principle, as we gather from the public Journals—exhibiting, as it does, a systematic opposition to every act of legislation, has a very injurious effect on the minds of the people of this Colony, and engenders very great distrust.

We are sorry to be obliged to add, that it is by this course of procedure alone, and by no salutary attempt to participate in or originate any act for the promotion of the general welfare, that the Proprietors of Land in this Colony are known, and it is the fundamental cause of their enjoying so little of the sympathy of its people.

Your Excellency has had so recently under your notice the Bills to secure Compensation to Tenants, &c., that we have not thought it necessary to trouble you on that subject.

A true Extract, which I certify, }
CHARLES DESBRISAY, Clerk Ex. Council. }

Copy of a Despatch from the Right Honorable H. Labouchere; Secretary of State for the Colonies, to His Excellency Lieutenant Governor Daly, in reference to what is termed "The Land Question."

No. 3. DOWNING STREET, 21st December, 1855.

SIR;

Upon entering on the duties which Her Majesty has been pleased to confide to me, I could not avoid giving my most serious attention to the correspondence which has recently taken place with regard to two Acts of the Legislature of Prince Edward Island, to which Her Majesty's Government were unable to advise Her Majesty to give her assent.

2. I have at the same time found it necessary to review the series of transactions, extending over a long period of years, which are marked by the continued efforts of a large portion of the resident inhabitants of the Island, either to abolish altogether, or

materially to curtail the rights of the owners of landed property.

3. I will not now repeat arguments which have been urged on various occasions by my predecessors; it will be sufficient for me to express my decided opinion, that whatever character may properly attach to the circumstances connected with the original grants, which have been often employed against the maintenance of the rights of the proprietors, they could not, with justice, be used to defeat the rights of the present owners who have acquired their property by inheritance, by family settlements, or for valuable consideration.

4. Seeing, therefore, that the rights of the proprietors could not be sacrificed without manifest injustice, I feel that it will be my duty steadily to resist by all means in my power measures similar in their character to those which were recently under the consideration of Her Majesty's Government.

5. I desire, however, at the same time to assure you, that it was with much regret that Her Majesty's advisers felt themselves constrained to oppose the wishes of the people of Prince Edward Island, expressed through their representatives, and that it is my earnest wish to be spared the necessity of authoritative interference in regard to matters affecting the internal administration of their affairs.

6. With regard to the main object which has been frequently proposed by a large portion of the inhabitants, namely, that some means may be provided, by which a tenant holding under a lease may arrive at the position of fee simple proprietor, I am anxious to facilitate such a change, provided that it be effected without injustice to the proprietors.

7. There are but two ways in which such a change could be effected. The first is the usual and natural one of purchase and sale between the tenant and the owner; and no reason appears as yet to have been stated why, if the tenants offer to the landowners the full value of the right and interest of the landowner, sales and purchases cannot be effected. It would seem probable that at all events in the cases of non-resident owners, such fair offers would generally be accepted, and as the lands are usually let upon leases of extraordinary length, and at a small annual rent, there can, it would seem, be but few tenants who would not find the means of offering a fair price for buying up the annual rent of their holding.

8. The other method would be that the Government of the Island should treat with such of the landowners as might be willing to sell, and that the State thus becoming possessed of the fee simple of such lands as might thus be sold, should be enabled to afford greater facilities for converting the tenants into freeholders than the landlords themselves might feel an interest in doing.

9. An arrangement of this kind could probably not be made without a loan to a considerable amount, to be raised by the Island Government, the interest thereof to be charged upon the revenues of the Island. But Her Majesty's Government would not be indisposed to take into consideration any plan of this kind which you might submit to them, showing in what way the interest of such loan could locally be provided for, and what arrangements would be proposed

APPENDIX (E.)

as to the manner of disposing of the lands of which the fee simple might so be bought up.

10. I would observe, that by the proposed Tenants' Compensation Act it was provided that a landowner should, when he ejected a tenant for non-payment of rent, buy up his own land from the tenant at the rate of twenty years purchase of the difference between the original and the improved annual value of the

lands. It is to be presumed that if the tenants or the Colonial Government were to offer to the proprietors twenty years purchase of their reserved rents, there are few, at all events, of the non-resident proprietors who would not accept such offers.

I have, &c.

May it please your Excellency ;

We the Commissioners appointed to report on the expediency of continuing the straight line of Road across the Swamp, from Enman's to Mattheson's, or of opening a new line of Road in accordance with a plan drawn by Mr. Ball, and submitted to the House of Assembly last Session,—have to report as follow : That the old straight line of road crosses a swamp about twenty-three chains in breadth, covered with water, varying from one and a half to three feet in depth,—that said water has been raised for the purpose of driving a Grist and Saw Mill, which are found to be a great accommodation to the settlement, and that the lowest offer we can obtain for bridging said Swamp, is from Jeremiah Enman, who has bound himself to make the road and keep it in repair for twelve months for £53, provided the contract be let to him before the 1st of March next. That by diverging to the East, according to Mr. Ball's plan, the road would accommodate the present settlers beyond the Swamp, equally as well as the straight

line, but would cross the Farms of Enman, Jones, and Matheson, all of whom refuse to grant the right-of-way for any reasonable compensation,—That Mr. Hayden has agreed to make said line passable for £10, and, in our opinion, if the said line were opened under the Compensation Act, the award to all the parties owning the land would not exceed (£12) twelve pounds ; but it is probable that there may be more settlers beyond the swamp in future, which would render the straight road desirable, if easily attained.

Under these circumstances we would recommend your Excellency to lay these facts before the House of Assembly, in its next session, and should they fail to vote a special grant to enable the government to take advantage of Enman's Bond, we would advise the new line then to be opened under the Compensation Act.

(No. 3.)

To the Honorable the Colonial Secretary;

Sir ;

In accordance with instructions which I received from His Excellency in Council, on the 27th of last month, I went to Cascumpec, and took with me one of the Lighthouse Lamps which had been in use at the Point Prim Lighthouse, and fitted it up in the Lighthouse at Cascumpec, and instructed the Keeper how to use and clean it; the man has, however, a very poor chance to keep a good light, as the upper part of the Tower is so small that the man has no room to work at trimming the Lamp, and must remove it every time he trims or snuffs it, which should not be, as the Lamp should remain stationary, and there should be sufficient space for the keeper to pass in front of it and trim the light. The present Lamp will be better than any that has been used there heretofore, and may be used for the remainder of this season.

I also went to look at the intended site of a new Bridge at Haldimond River, in Egmont Bay, and may state, that the river is very wide and shoal, the deepest part being only about ten feet deep, at the highest storm tides, and only about six feet at an average tide, at high water; the bottom is pretty hard all the way across; and, at low water, the deepest part would not be more than up to a horse's knees, or about two feet of water; the width from shore to shore is about 650 feet, the bottom is so hard that a horse can take a good load across at low water in a cart or truck. The site is very open to the Bay, and in order to make it stand the storms, it will require to be well secured, and would cost a considerable sum of money. I may mention that there has been a Bridge there formerly, but it has been swept away, except a part of one block, which still remains. There are, I believe, only four families living on the other side of the river; and, I suppose, the Bridge could not be built securely for less than £200.

I also examined the Jail and Court House, at Saint Eleanor's, and shall make out a specification of the repairs required for it, as soon as possible. All which, I submit,—and remain

Your obedient humble servant,

SILAS BARNARD, S. P. Works.

Sir,—

I regret the weather prevented me from complying with the order of the Executive Government, conveyed by you, of the date 20th ultimo, until the present moment.

I trust, however, the following report of the state of the Boats used for the conveyance of the Winter Mails, as well as the additional remarks on other matters appertaining thereto, may not be deemed out of place.

The residences of the Mail Carriers, Messrs. Macrae & Muttart, are most conveniently situated for the employment they have been appointed to. Macrae lives to the east, and Muttart to the westward of Cape Traverse, their farms and houses fronting upon the sea shore, being about three miles asunder.

On Monday evening last, I examined one of the Boats which has been used in the service, being

APPENDIX (F.)

nearly two years old, but still in a good state of repair and fit for service, being equipped with two pairs of oars, four boat-hooks, &c.—the Boat lying at M-Rae's. The dimensions of this Boat is as follows :

Length, over all, 14 feet 5 inches.
Extreme breadth, 5 feet.
Depth, 2 feet 1 inch.

This Boat is planked with cedar, the gunwale and lower streaque being of birch, as are likewise the other Boats. The model and size are well adapted for the purpose of employment.

On Tuesday, early in the morning, I particularly examined the two remaining Boats, lying at Carlton Point, about a mile to the westward of Muttart's house; one of them had crossed the straits yesterday (Monday) having brought over the English Mail, with five passengers, together with the crew, being in all nine men, a weight, in my opinion, with the mails, too heavy to enable the Boat to contend successfully against rough water.

This is the longest, and, I understand, the favourite Boat, which, in my opinion, she is deserving of, being preferable in model, workmanship and fittings to any Boat examined by me at the present time or in any preceding season,—her

Length is 15 feet 3 inches.
Breadth, 4 feet 6 inches.
Depth, 2 feet 2 inches,

—having wooden runners shod with iron, as has the first Boat alluded to, and being completely fitted with draught-chains and leathers, pikes, oars, &c.

I also, at the latter place, examined a new Boat, which has made one trip, being also ready equipped, as the other Boats, for service. Her deminsions are as follows :

Extreme length, 14 feet 2 inches.
Breadth, 4 feet 11 inches.
Depth, 2 feet.

This Boat differs from the others in shape, and also in not having runners, her bottom being shod with steel plates, and sides sheathed with block tin, as are also the other Boats in the latter respect. For the general performance of crossing, I do not think this model is as well adapted for overcoming the many obstacles to be encountered in this service as either the first or the second Boat which I have just now described, but I have no doubt there are times of crossing, when the ice is smooth, that this Boat may be desirable; but I would recommend for the future, Boats for crossing to be built and fitted

as the second or longest Boat, in which opinion I have little doubt but that the mail carriers' experience will coincide with my opinion.

I hint it may not be deemed obtrusive to offer some further remarks on the general practice adopted by the present carriers, of taking as many passengers as possible, and sometimes more than prudence dictates.

It has been the practice, I have learned, to do the same kind of thing for some years past. With such a freight as this Boat brought over on Monday, two or three active passengers, willing to lend a hand, would be advantageous in assisting; but it appears to me, if the carriers persist in the practice of taking five passengers, with the boat's crew, and so much weight as the English mail generally averages, some misfortune will, sooner or later, follow,—probably that of the loss of the mails, which, in order to preserve themselves, in trying circumstances, might possibly be thrown overboard or deserted.

In order to obviate the difficulty and secure a quick and safe carriage of the mails, I beg to suggest the propriety of empowering the carriers to take two boats over when an English mail may be expected, debarring, under any circumstances, the carrying of more than three passengers in each boat, besides the boat's crew of four men; this would have the desired effect of insuring safety and dispatch.

On Tuesday morning, after surveying the Boats, I accompanied the carriers as far as the moving ice, about one and a quarter mile from the land, with the view of becoming better acquainted with the difficulties of transit across. The labour attending crossing at the present time is considerable, but not nearly so dangerous as last winter, in consequence of steady frost.

The Boat's crew are hardy, steady, active men, apparently capable of enduring much fatigue.

The great desideratum in a Boat for the purpose, is in having her of light material, of which the longest Boat is composed, and the weight is the great objection in having boats of a larger size.

I should think it advisable for each boat to carry a pocket compass, as it appears the large compass used are thrown out of order and rendered of little or no avail through the incessant pitchings and jarings in the ice, to which the boats are subject.

I have the honor to be, Sir,

your most obedient humble servant

BENJAMIN DAVIES.

APPENDIX (F.)

(No. 5.)

QUEEN'S COUNTY,
Hilary Term, 1856.

The Address of the Grand Inquest duly empannelled and sworn.

The Honorables the Justices presiding in Her Majesty's Supreme Court of Judicature.

May it please your Lordships;

During the course of the Term the Jurors have found true Bills on all the Indictments submitted to their consideration.

In compliance with your Lordships' charge, the Jurors have made searching enquiry for evidence against persons engaged in retailing Spirituous Liquors without License, and in the investigation, have necessarily examined a great many witnesses. Presentments have been made and are now reported, to be dealt with in such manner as the Court may judge expedient.

The Jurors regret to observe that they discover, from evidence taken before the Panel, that the traffic in ardent Spirits is greatly on the increase, and that even boys of very tender age, in companies together, are freely furnished with liquor by persons retailing thus openly in violation of the law. The Jurors are of the decided opinion that the City Police should be charged with special power to check and endeavour to suppress places of this description. The Jurors have considered it their duty to restrict the number of Licenses in the City, but have passed all that were considered really necessary.

The following are the only persons recommended to receive License, viz:—

James Davis, William Feure, Patrick McCarron, James McNally,	}	for Charlottetown.
Patrick Hanifer, John Richard Bolt, Joseph McNeill, John McLeod, Neil McNiven,	}	In the County.

The Jurors have originated a Prosecution against one John McDonald, alias James Keir, a most outrageous, lawless character, of great bodily strength, roving through the country without any fixed, permanent residence, or ostensible means of living, ex-

cept by a system of intimidation, which he invariably practises wherever he roams. The Jurors beg to express a wish that this exceedingly dangerous person may be apprehended without any loss of time, and secured in close confinement, or some serious consequence will surely follow.

The crime of shoplifting appears to be increasing, owing partly to the careless and tempting manner in which goods are exposed; large lots of valuable merchandize are daily exhibited outside the shop doors, and in some instances piles of goods are placed on the public streets, affording a great temptation to needy persons of weak and doubtful principles, besides very improperly and inconveniently obstructing foot passengers, and the Grand Jury recommend that the attention of the proper authorities should be called to this public nuisance, with the view of having it abated. If this custom were stopped, it is presumed that the crime would be much diminished.

The Jurors now present to the Court the annual list of Fence Viewers and Constables, for Queen's County, for the ensuing year. The list has been considerably enlarged, to meet the necessity of increasing settlements in several sections of the country.

The names of the Police Officers for Charlottetown have been likewise inserted, it being found expedient that their jurisdiction, in many instances, should be extended beyond the precincts of the City.

The Jurors respectfully suggest that the authorities would give the necessary directions to provide more convenient and comfortable furniture in the room appointed for the use of the Grand Jury.

On Saturday last, the Jurors made a representation to the Court, complaining of the non-attendance of Mr. Thomas Wright. The Jurors beg to inform your Lordships that Mr. Wright has made a satisfactory explanation of the causes that led to his absence, and consequently respectfully solicit that no further action in the matter may be taken.

Having performed all matters brought under consideration, should the Crown Officers have no further business, they respectfully request the Court that the Panel may be discharged.

Circular.

DOWNING STREET,
6th September, 1855.

Sir;

I have to communicate to you, for your information as to the views of Her Majesty's Government, and in order that you may bring them, whenever occasion shall require, under the consideration of your Executive Council, the following observations and proposal on the subject of Colonial Lights:

2. The great importance of a well-ordered system of Colonial Lights to the Trade and Shipping of the British Empire has suggested to Her Majesty's Government the propriety of inviting the co-operation and assistance of the Local Authorities in the Colonies, in order to bring about a more efficient and more economical system of management in the erection and maintenance of Colonial Lights than that which at present exists.

3. Since the passing of the "Shipping Law Amendment Act" in 1853, the control of the Lights of the United Kingdom has been vested in the Lords of the Committee of Privy Council for Trade.

4. It is proposed to apply the information and experience which the Board of Trade has acquired under that arrangement in assisting the Colonial Governments to effect such improvements in the management of their Lights as may be found desirable.

5. The accompanying Printed Memorandum, which has been prepared by the Board of Trade, with the assistance of the Elder Brethren of the Trinity House, fully explains the nature and extent of the assistance and information which that Department is prepared to afford to the Colonial Authorities, as well as the steps to be taken by those Authorities for obtaining such assistance and information.

6. In addition to the assistance which the Board of Trade are prepared to give

APPENDIX (G.)

as above mentioned, the "Merchant Shipping Act Amendment Act" recently passed, a Copy of which I enclose, contains a provision for enabling Her Majesty, by Order in Council, to fix Dues to be paid for Colonial Lights. The nature and objects of this provision you will find fully explained in a letter from the Board of Trade to this Department, dated 15th August, of which a Copy is also herewith enclosed.

I have the honor to be,

Sir,

humble servant,

VICTORIÆ REGINÆ.

CAP. XCI.

An Act to facilitate the Erection and Maintenance of Colonial Lighthouses, and otherwise to amend the Merchant Shipping Act, 1854.

[4th August, 1855.]

WHEREAS it is expedient to make provision for facilitating the erection and maintenance of Lighthouses in the British Possessions abroad, and otherwise to amend the Merchant Shipping Act, 1854: Be it therefore enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:

1. This Act may be cited as 'The Merchant Shipping Act Amendment Act, 1855,' and shall be taken to be part of the Merchant Shipping Act, 1854, and shall be construed accordingly.

2. In any case in which any Lighthouse, Buoy, or Beacon has been or is hereafter erected or placed on or near the Coasts of any British Possession, by or with the consent of the Legislative authority of

such possession, Her Majesty may, by Order in Council, fix such Dues in respect thereof, to be paid by the Owner or Master of every Ship which passes the same or derives benefit therefrom, as Her Majesty may deem reasonable, and may in like manner from time to time increase, diminish, or repeal such Dues, and from the time specified in such Order for the commencement of the Dues thereby fixed, increased, or diminished, the same shall be leviable throughout Her Majesty's Dominions in manner hereinafter mentioned.

3. No such Dues as aforesaid shall be levied in any Colony unless and until the Legislative authority in such Colony has, either by Address to the Crown, or by an Act or ordinance duly passed, signified its opinion that the same ought to be levied in such Colony.

4. The said Dues shall in the United Kingdom be collected by the same persons by whom, and by the same means, in the same manner, and subject to the same conditions, so far as circumstances permit, by, in, and subject to which the Light Dues leviable under the Merchant Shipping Act, 1854, are collected, and shall in each British Possession abroad be collected by such persons as the Governor of such Possession abroad may appoint for the purpose, and shall be collected by the same means, in the same manner, and subject to the same conditions, so far as circumstances permit, by, in, and subject to which the Light Dues leviable under the Merchant Shipping Act, 1854, are paid and collected, or by such other means, in such other manner, and subject to such other conditions as the Legislative Authority in such Possession may direct.

5. All Dues levied under this Act shall be paid over to Her Majesty's Paymaster General at such times and in such manner as the Board of Trade may direct, and shall be applied, paid, and dealt with by him, for the purposes herein-after mentioned, in such manner as such Board may direct.

6. The Dues levied under the authority of this Act in respect of any such Lighthouse, Buoy, or Beacon as aforesaid shall, after deducting any expenses incurred in collecting the same, be applied for the pur-

APPENDIX (G.)

pose of paying the Expenses incurred in erecting and maintaining such Lighthouse, Buoy, or Beacon, and for no other purpose whatever.

7. For the purpose of constructing or repairing any such Lighthouse, Buoy or Beacon as aforesaid, the Board of Trade may raise, upon the security of the Dues to be levied in respect thereof, such sums of money as they may deem fit; and the Commissioners of Her Majesty's Treasury, out of any monies which may be provided by Parliament, the Public Works Loan Commissioners, or any other person or body of persons, may advance the same accordingly, such advances to be made in the same manner, with the same powers, and subject to the same provisions, so far as circumstances permit, in, with, and subject to which, under the Merchant Shipping Act, 1854, advances may be made upon the security of the Mercantile Marine Fund for the construction and repair of Lighthouses in the United Kingdom.

8. Accounts shall be kept of all sums expended in the construction, repair, or maintenance of every Lighthouse, Buoy, or Beacon in the British Possessions abroad, for which Dues are levied under the authority of this Act, and of the Dues received in respect thereof, in such manner as the Board of Trade may direct, and shall be laid before Parliament annually; and the said accounts shall be audited in such manner as Her Majesty may by Order in Council direct.

9. Any person who, in any declaration made in the presence of or produced to any Registrar of Shipping, in pursuance of the Second part of the Merchant Shipping Act, 1854, or in any documents or other evidence produced to such Registrar, wilfully makes, or assists in making or procures to be made, any false statement concerning the title to, or the ownership of, or the interests existing in any ship, or any share or shares in any ship, or who utters, produces, or makes use of any declaration or document containing any such false statement, knowing the same to be false, shall be guilty of a misdemeanor.

10. Shares in ships registered under the said Merchant Shipping Act, 1854, shall be deemed to be included in the word

"stock," as defined by the Trustee Act, 1850, and the provisions of such last-mentioned Act shall be applicable to such shares accordingly.

11. In any case in which any Bill of Sale, Mortgage, or other instrument for the disposal or transfer of any ship, or any share or shares therein, or of any interest therein, is made in any form or contains any particulars other than the form and particulars prescribed and approved for the purpose by or in pursuance of the Merchant Shipping Act, 1854, no Registrar shall be required to record the same without the express direction of the Commissioners of Her Majesty's Customs.

12. Upon the transfer of the Registry of a ship from one Port to another, the certificate of registry required by the Ninetieth section of the Merchant Shipping Act, 1854, to be delivered up for that purpose, may be delivered up to the Registrar of either of such Ports.

13. The Commissioners of Customs may, with the consent of the Board of Trade, exempt any pleasure yacht from the provision contained in the Thirty-fourth section of the Merchant Shipping Act, 1854, which requires the name of every ship and the Port to which she belongs to be painted on her stern.

14. The owner of any ship which is measured under Rule II. contained in the Twenty-second section of the Merchant Shipping Act, 1854, may at any subsequent period apply to the Commissioners of Customs to have the said ship remeasured under Rule I. contained in the Twenty-first section of the same Act, and the said Commissioners may thereupon, and upon payment of such fee not exceeding Seven shillings and sixpence for each transverse section as they may authorize, direct the said ship to be remeasured accordingly, and the number denoting the register tonnage shall be altered accordingly.

15. The copy or transcript of the register of any British ship which is kept by the Chief Registrar of Shipping at the Custom House in London, or by the Registrar General of Seamen, under the direction of Her Majesty's Commissioners of Customs or of the Board of Trade, shall have the same effect to all intents and pur-

APPENDIX (G.)

poses as the original register of which the same is a copy or transcript.

16. The Board of Trade may issue instructions concerning the relief to be administered to distressed seamen and apprentices, in pursuance of the Two hundred and eleventh and Two hundred and twelfth sections of the Merchant Shipping Act, 1854, and may by such instructions determine in what cases and under what circumstances and conditions such relief is to be administered; and all powers of recovering expenses incurred with respect to distressed seamen and apprentices, which by the Two hundred and thirteenth section of the said Act are given to the Board of Trade, shall extend to all expenses incurred by any Foreign Government for the purposes aforesaid, and repaid to such Government by Her Majesty's Government, and shall likewise extend to any expenses incurred by the conveying home such seamen or apprentices in Foreign as well as British ships; and all provisions concerning the relief of distressed seamen and apprentices, being subjects of Her Majesty, which are contained in the said sections of the said Act, and in this section, shall extend to such seamen and apprentices, not being subjects of Her Majesty, as are reduced to distress in Foreign Parts by reason of their having been shipwrecked, discharged, or left behind from any British ship; subject nevertheless to such modifications and directions concerning the cases in which relief is to be given to such Foreigners, and the Country to which they are to be sent, as the Board of Trade may, under the circumstances, think fit to make and issue.

17. The Enactment of the Merchant Shipping Act, 1854, relating to Savings Banks shall apply to all seamen, and to their wives and families, whether such seamen belong to the Royal Navy or to the merchant service, or to any other sea service.

18. Any Naval Court summoned, under the provisions of the Merchant Shipping Act, 1854, to hear any complaint touching the conduct of the master or any of the crew of any ship, shall, in addition to the powers given to it by the said Act, have power to try the said master or any of the

said crew for any offences against the Merchant Shipping Act, 1854, in respect of which Two Justices would, if the case were tried in the United Kingdom, have power to convict summarily, and by Order duly made to inflict the same punishments for such offences which Two Justices might in the case aforesaid inflict upon summary conviction; provided, that in cases where an offender is sentenced to imprisonment the sentence shall be confirmed in writing by the senior Naval or Consular Officer present at the place where the Court is held, and the place of imprisonment, whether on land or on board ship, shall be approved by him as a proper place for the purpose, and copies of all sentences made by any Naval Court summoned to hear any such complaint as aforesaid shall be sent to the Commander-in-Chief or senior Naval Officer of the Station.

19. Whenever any articles belonging to or forming part of any Foreign ship which has been wrecked on or near the coasts of the United Kingdom, or belonging to or forming part of the cargo thereof, are found on or near such coasts, or are brought into any Port in the United Kingdom, the Consul General of the country to which such ship, or, in the case of cargo, to which the owners of such cargo may have belonged, or any Consular Officer of such country authorized in that behalf by any treaty or agreement with such country, shall, in the absence of the owner of such ship or articles, and of the master or other agent of the owner be deemed to be the agent of the owner, so far as relates to the custody and disposal of such articles.

20. In cases where services are rendered by officers or men of the Coast Guard Service in watching or protecting shipwrecked property, then, unless it can be shown that such services have been declined by the Owner of such property or his agent at the time they were tendered, or that salvage has been claimed and awarded for such services, the owner of the shipwrecked property shall pay in respect of the said services remuneration according to a scale to be fixed by the Board of Trade, so, however, that such scale shall not exceed any scale by which payment to officers and men of the Coast Guard for

APPENDIX (G.)

extra duties in the ordinary service of the Commissioners of Customs is for the time being regulated; and such remuneration shall be recoverable by the same means and shall be paid to the same persons and accounted for and applied in the same manner as fees received by Receivers appointed under the Merchant Shipping Act, 1854.

21. If any person, being a British subject, charged with having committed any crime or offence on board any British ship on the high seas or in any foreign port or harbour, or if any person, not being a British subject, charged with having committed any crime or offence on board any British ship on the high seas, is found within the jurisdiction of any Court of Justice in Her Majesty's dominions which would have had cognizance of such crime or offence if committed within the limits of its ordinary jurisdiction, such Court shall have jurisdiction to hear and try the case as if such crime or offence had been committed within such limits: provided, that nothing contained in this section shall be construed to alter or interfere with the Act of the thirteenth year of her present Majesty, chapter ninety-six.

22. It shall be the duty of the East India Company to take charge of and send home or otherwise provide for all persons, being Lascars or other natives of the Territories under the government of the said Company, who are found destitute in the United Kingdom; and if any person is relieved and maintained by any guardians, overseers, or other persons administering the relief of the poor, such overseers, guardians, or other persons may, by letter sent through the Post Office, or otherwise, give notice thereof in writing to the Secretary of the Court of Directors of the East India Company, specifying, so far as is practicable, the following particulars, viz:---

1. The name of the person so relieved or maintained.
2. The presidency or district or part of the Territories of the East India Company of which he professes to be a native.
3. The name of the ship in which he was brought to the United Kingdom.

4. The port or place abroad from which such ship sailed, and the port or place in the United Kingdom at which such ship arrived, when he was so brought to the United Kingdom, and the time of such arrival.

And the said East India Company shall repay to the said overseers, guardians, or other persons, out of the revenues of the said Company, all moneys duly expended by them in relieving or maintaining such destitute person, after the time at which such notice aforesaid is sent or otherwise given.

23. It shall be lawful for any master or owner of a ship or his agent to enter into agreements with Lascars or natives of the territories of the East India Company, binding them to proceed to any port or ports in the United Kingdom, either as seamen or passengers, and there to enter into a further agreement to serve as seaman in any ship which may happen to be there, and to be bound to any port in the territories of the East India Company; provided, that every such original agreement shall be made in such form, and shall contain such provisions, and shall be executed in such manner, and under such conditions for securing the return of such Lascars or natives to their own country, and for other purposes, as the Governor General of India in Council, or the Governors of the respective Presidencies in which the original agreement is made, in Council may direct; and if any Lascar or other person who has bound himself by any such original agreement is, on arriving in the United Kingdom, required to enter into any further agreement to serve as a seaman in any ship bound to any port in the territories of the East India Company, and if it is certified by some officer appointed for that purpose by the East India Company that such further agreement is a proper agreement in all respects for such Lascar or other person to enter into, and is in accordance with the original agreement, and that the ship to which such further agreement relates is in this respect a proper ship for such Lascar or other person to serve in, and that there is not, in the opinion of such officer, any objection to the full performance of the

APPENDIX (E.)

said original agreement, such Lascar or other person shall be deemed to be engaged under such further Agreements, and to serve as a Seaman in the ship to which it relates, and shall thereupon be deemed to be for all purposes one of the crew of the ship; and for every Lascar or other person in respect of whom such certificate is applied for, the person applying for the same shall pay to such officer as aforesaid such fee as the East India Company may appoint, not exceeding ten shillings.

24. Nothing herein contained shall be deemed to repeal or affect any provisions contained in the twenty-fifth, twenty-sixth, twenty-seventh, twenty-eighth, twenty-ninth, thirtieth, thirty-first, or thirty-fourth sections of the Act of the fourth year of King George the Fourth, chapter eighty, or in the sixteenth section of the Act of the eighteenth year of her present Majesty, chapter one hundred and twenty.

(No. 3.)

Office of Committee of Privy Council, for Trade,
Whitehall, 15th August, 1855.

Sir;

With reference to your letter of the 16th instaut, I am directed by the Lords of the Committee of Privy Council for Trade, to transmit to you for distribution to the various Colonies, the accompanying copies of the printed memorandum relating to Light Houses and Light Vessels in the Colonies.

My Lords have not before replied to the above-mentioned Letter, as it appeared to them that it would be desirable, in transmitting the memorandum in question to the colonial authorities, to call the attention of the Governors and other officers to those provisions of "The Merchant Shipping Act Amendment Act, 1855," which relate to the collection of dues for the maintenance and erection of Colonial Lights. If Secretary Sir William Molesworth should think such a course expedient, the following are points which will, in my Lord's opinion, require special attention.

1. That the object contemplated by the Imperial Legislature is to assist the Colonies in erecting and maintaining Lighthouses, by providing funds for the purpose by means of tolls levied on the ships which derive benefit from the Lights, whether those ships go to ports in the Colony in which the Light is situate or not.

2. That the principle upon which the tolls are to be fixed and collected is the same as that adopted in this country.

3. That provision is made for procuring advances for building, as well as an annual income for maintaining Lights.

4. That whilst no colony can be required to levy a tax against its will, the money when paid must, of

necessity (being levied in different Colonies, as well as in the United Kingdom) be under the control of the Imperial Government.

5. That it is not the wish or the intention of the Board of Trade, in administering any funds so levied, to interfere with the local authorities, who will still have the management of the Lights, except so far as may be necessary to insure proper accounts, and a proper expenditure of the public money.

6. That whenever any application is made for assistance towards erecting or maintaining a Light, the Governor of the Colony or Possession should send all the information in his power, as to the number and tonnage of vessels passing or deriving benefit from the Light, and the ports and places to or from which they trade. In giving this information, attention should be paid to the particular circumstance of the case, so that the Imperial Government may be enabled, in fixing the toll, to determine what the amount should be, and at what ports it will be desirable to collect it. As a general rule, it will probably be found most convenient to collect the dues at the port of departure of the ship, rather than at the port of arrival, where both ports are British ports, but the application of this rule must depend upon the circumstances of each case.

7. Where a Light is to be erected or maintained in one Colony, and tolls will have to be taken in other Colonies, the communications from the first Colony should be so made as to enable Her Majesty's Government to communicate as early and as effectively as possible with the latter Colonies.

I have, &c.

Downing-street, 15th Jan. 1856.

Sir,—An ordinance having been recently received from the Governor of Western Australia, "To consolidate and amend the Laws for the regulation of Shipping, and of pilotage and other dues in the harbours of that Colony," without any provision having been inserted for requiring the dues of which the levy is thereby authorized, to be applied to the purpose of maintaining the harbour Lights and pilotage, on account of which they are so levied, I wish to call your attention to the circumstance, in order that in the event of an Act of this description being passed by your government, the propriety may be considered of introducing a clause either for requiring the dues so levied to be applied specifically for the maintenance of the works and services in respect of which they are so authorised to be levied, or for requiring such accounts to be kept as will shew how far the dues thus levied upon shipping exceed or fall short of the expenditure incurred in respect of those works and services.

The object of these provisions is to prevent parties engaged in the shipping interest from considering that they are unduly taxed, or that the duties which they are called upon to pay are made applicable to the general services of the local government.

I have the honor to be, Sir,

your most obedient humble servant.

N. B.—In this Return, the number of acres is calculated on the amount as purchased, the verification of which cannot be accurately made until the survey is finally completed, but it is, no doubt, generally correct. The Land unsold is in the course of sale as fast as the proceedings can be carried out. The interest of £900 on Debentures is reduced by the deduction of annual interest payable on money to be paid by instalments, a fund which, in the year 1857, will be increased in proportion to the sales to be effected in the year 1856.

WILLIAM SWABEY, Commissioner.

Letter from David Stow, Secretary of the Glasgow Free Normal Seminary, to His Excellency the Lieutenant Governor.

(Copy.)

Free Normal School, Seminary,
Glasgow, 21st January, 1856.

Sir;

The order for a Head Master to your projected Normal Training School, transmitted by your Excellency some time ago, we have had considerable difficulty in executing. A well trained suitable person, and willing to go abroad, we could not meet with till now; we have the pleasure, therefore, in stating that we have fixed upon one in every respect qualified to undertake the important task of acting as Head Master under Mr. Stark's surveillance in training School Masters for your rising Colony. Mr. Monk is the young man's name.

Beyond saying that Mr. Monk is well educated, and of gentlemanly manners, I need scarcely enter into particulars as to his qualifications, he being well known to Mr. Stark, in whose department, when in Glasgow, in our seminary, Mr. Monk occasionally assisted.

Altogether Mr. Monk was in the model schools of the seminary, as a pupil scholar six years, and afterwards one year in the student's hall as a Queen's scholar, since which, he has taken the successful charge

of a school in Preston, Lancashire, where his father, a respectable man, resides.

I have written to Mr. Stark, by this post, who will, I doubt not, give you a satisfactory account of Mr. Monk.

Your Excellency is no doubt acquainted with the fact, that in the instruction and training of Teachers, there must be more than one master to conduct the course, both for the sake of variety of temperament to suit the varied mental constitutions of the students, but also, that whilst the Head Master is instructing and practically catechising the students, the second master may be conducting the lessons of the children. This renders it necessary that both masters teach and train on the same system. A person who has not been trained in our seminary would not succeed. All the ten masters in our seminary underwent a previous course of training before being chosen.

Mr. Monk is prepared to leave early in April next; should you determine to have a second master from us, we could furnish such in July next; the order would do if sent by the end of April, after Mr. Monk's arrival in Prince Edward Island. For the first two or three months, Mr. Monk would have full employment in bringing

APPENDIX (I.)

the children of the model school into a proper condition, before any students are introduced to be trained.

I understand Mr. Monk's engagement is for three years certain, in the first instance.

The model school will require some little apparatus besides a gallery, perhaps to the value of £10 or £15, which, with your Excellency's permission, Mr. Monk will bring with him in the steamer, early in April.

I take the liberty of stating these things knowing the anxiety you have for the success of the projected Normal Seminary.

I have the honor to be
your Excellency's most
obedient servant

DAVID STOW,
Act. Sy. G. N. Seminary.

His Excellency
D. DALY, Lieut. Governor.

APPENDIX (M.)

(See page 33.)

REPORT OF THE SUPERINTENDENT OF PUBLIC WORKS.

To the Honorable the Colonial Secretary ;

Sir ;

I beg to report an Estimate of sundry repairs necessary for several of the Public Buildings.

Last summer, I examined the Jail and Court House at St. Eleanor's, and found the stone wall under the building in a very unsafe state, and requiring a large portion at each corner to be taken down and rebuilt; the cills require also to be renewed in several places, especially at the corners, and under the wings. The piece of land belonging to government, in the rear of the yard requires a new Fence, as it is impossible to repair the old one any longer ; the front yard also requires a new fence, as it is completely gone, gates and all, and gives the building a very shabby appearance. Several other small matters, which it is not necessary to enumerate in this Report, require attention. The outside of the building is perishing for want of paint, and should have two coats; a new vault is required for the Privy and a Cess-pool to the yard. As near as I can estimate the above repairs, not less than two hundred pounds will defray the expence of them.

I beg also to state that on Saturday last the Sheriff and myself examined the Jail in Charlottetown, and are of opinion that the following repairs are necessary : a new Fence round the criminal yard, 240 feet in length ; new spouts and conductors, 190 feet in all ; a new pump and trough, and repairing the steps to the front door; and I estimate the above repairs will cost about one hundred and fifty pounds.

I beg further to report the following repairs and improvements in and around the Colonial Building, namely :

dd

As there has never been any permanent foundation wall under the steps at the different entrances to the Building, the steps have been continually changing their positions, and appear very unsightly. Last season, sufficient stone was procured from Pictou, (which stone is now lying at the north-east corner of the Building,) to repair and make good all the damage to the steps, and also to repair the western end of the Building. It will be useless to repair the steps unless a proper wall of masonry is built to receive them. It therefore becomes necessary to build such a wall.

The basement of the front portico requires to be new covered with felted covering and composition in order to preserve the stone from injury.

The halls or passages through the Building also require to be cleaned, and the walls coloured ; several other trifling repairs are required, in order to put the Building in a good state of preservation. The above repairs will cost at least two hundred pounds.

I would also call your attention to the necessity of railing in a portion of the square, round the Building, with iron pallisading, in order to protect the Building from nuisances, and to give it an air of importance; an inclosure of this kind would require a foundation wall to go below the frost and capped with long lengths of freestone, the iron railing being inserted into the freestone cap. This work would cost about 20s. currency per foot run, so that an enclosure 400 feet square, would cost about £1600 currency, to enclose it in a proper becoming manner; all of which is respectfully submitted by your obedient humble servant

APPENDIX (N.)

(See page 37.)

Report of the Surveyor General's exploration and survey of line of Road between Crabb's and Haslam's.

Surveyor General's Office,
February 22d, 1856.

Sir ;

In compliance with the Order in Council of the 3d of August last, I take leave to state for the information of His Excellency in Council, that I have caused the elevation of the Hills on the Princetown Road between Crabb's and Haslam's to have been ascertained, the adjacent Lands explored and a new line run through the same, and the elevation of the Hills thereon taken, as delineated on the accompanying Plans, together with the sections of the same; by which it appears that the sum of perpendiculars which carriages now have to ascend and descend in travelling from Crabb's to Hunter River, is six hundred and twenty-eight feet, and on the new line it would be four hundred and ninety-four feet, being a difference in favor of the latter of only one hundred and thirty-four feet.

The sum of elevations from Hunter River to the entrance of the junction Road (about two miles on this side of Haslam's) is five hundred and thirty-one feet.

Consequently, from the result of the late survey, and the information derived from the many surveys by the late Mr. Curtis, Assistant Surveyor General, and myself, in that section of the Island, together with my local knowledge of the respective settlements thereon, must submit as my opinion, the required compensation for any partial alteration from the present road in question, would exceed the amount of benefit therefrom ; therefore, consider it much more advisable to reduce the height of the hills on the present road, as far as practicable.

At the same time I feel it my duty to state that a more direct line for a road to Green's Shore, Summerside, from Crabb's may be had, that would avoid the hills we now have to contend with, and shorten the distance several miles.

I have the honor to be, Sir,

your most obedient servant,

JOS. BALL, S. G.

To Charles Desbrisay, Esq.

APPENDIX (O.)

(See page 42.)

Mr. Ball's report on the new line of projected Road from New Harmony to the Portage, on Lot 47.

Surveyor General's Office,
March 4th, 1856.

Sir ;

Agreeably to an Order in Council, I have had part of Lots Nos. 45, 46, and 47 explored, and a line run from the New Harmony Settlement, of Lot 45, to the Portage Road, on Lot 47, as delineated on the accompanying Plan of that section of the Island, from A. to B.

I take leave, for the information of His Excellency in Council, that by diverging a little from the present line, to the right or left, as the case may be, to escape a short hill and swamp, and expense of com-

penation, &c., a very advantageous road can be had; and, being nearly in the centre of the Island, will likely lead to the adoption of a general line of road through the interior to the head of the Hillsborough, which would tend much to the comfort of the general traveller, by avoiding the hills on the south-side road, and the bleak north-west gales on the north side Capes road, and considerably shorten the distance.

I have the honor to be, Sir,

your most obedient servant,

JOS. BALL.

To the Hon. the Col. Secretary.

Circular Despatch of Secretary of State transmitting Order in Council prohibiting the export of Saltpetre, and other Chemical Salts.

(Circular.) Downing-street,
24th November, 1855.

Sir ;

I transmit to you, herewith, copy of an Order of the Lords of Her Majesty's Privy Council, prohibiting the export of Saltpetre, Nitrate of Soda, and other chemical Salts used in the manufacture of military and naval stores, from the United Kingdom to all foreign countries, and permitting the export of these articles to continue, coastwise, to any port of the United Kingdom, or to any of Her Majesty's Colonies, plantations and possessions abroad, upon taking from the persons exporting the same, a Bond that the said articles shall be landed for use and consumption within such of Her Majesty's dominions.

I have to call your especial attention to that part of this Order, which affects the trade in these articles to the British Colonies, and recommend to you to use all such powers as are vested in you by law, to prevent the foreign trade in articles likely to be purchased for the use of the enemy.

The object of the Bond entered into by persons exporting these articles to places not included within the prohibition is, to provide as far as possible, against the re-exportation of such articles to foreign ports, and it is desirable that the attention of Officers of Customs in the Colony under your Government, should be called to the importance of satisfying themselves that the said articles are landed and entered for use and consumption in the Colony. A certificate of the Customs' Officer at the Port of entry, to this effect is required to obtain the discharge of the Bond entered into in Great Britain.

The effect of the prohibition of the direct trade in these articles from the United Kingdom to foreign countries, and of the restrictions placed on the trade in other articles of contraband of war, by former orders of the Lords of the Council, will, probably, be to induce persons interested in carrying on this trade, to endeavour to find an indirect channel for the supply of military and naval stores to foreign states through the British Colonies; and, in order to carry into effect the intentions of Her Majesty's Government on this subject, it is necessary that con-

siderable vigilance should be used by you, and the Custom-House Officers of _____ to defeat expedients of this nature.}

I take this opportunity to transmit to you copies of the two previous Orders of the Lords of the Council dated the 20th September last.

I have the honor to be, Sir,
your most obedient

humble servant

Circular Despatch of Secretary of State, transmitting an Order in Council prohibiting, absolutely, the exportation of Saltpetre and other Chemical Salts from the United Kingdom to the North American and West India Colonies.

Circular.

DOWNING STREET,
9th January, 1856.

Sir;

I transmit to you enclosed, an Order of the Lords of the Council, dated the 27th ultimo, which you will perceive prohibits absolutely the exportation of Saltpetre, and other Chemical Salts from this Country to the North American and West Indian Colonies.

2. The effect of this Order is to extend the provisions of that of the 1st November, transmitted in my Circular Despatch of the 24th November last, to the North American and West Indian Colonies, placing them in this respect on the same footing as Foreign Countries. I need not say that Her Majesty's Government are placed under the necessity of taking this course by the exigencies of the War, as it is of the first importance to prevent illicit traffic with the enemy in this Article; and as the efforts of the Local Governments, with all the good-will which they would no doubt exhibit, could not avail to prevent their re-exportation for such illicit use, if importation into the Colonies was absolutely free.

3. Attempts however might still, it is true, be made to evade this last peremptory prohibition by conveying the prohibited Articles to the West Indian and North American Colonies, either from Foreign Countries or from other Colonies, with a view to the transmission of the articles in question by various channels to the enemy.

4. How far the Laws of Prince Edward Island will enable you to prohibit the importation or exportation of Saltpetre and other Chemical Salts in the manner indicated I am not at present aware; but I cannot doubt that the Legislature of Prince Edward Island will readily arm you with sufficient powers for effectually checking any improper trade in those Salts.

5. The subject is of considerable importance, and I have to request that you will acknowledge the receipt of this instruction, and favor me with any information or practical suggestions which you may consider calculated to facilitate the attainment of the object which Her Majesty's Government have in view.

I have the honour to be, Sir,

Your obedt. humble servt.,

The Lords of the Council having taken into consideration the expediency of extending the prohibition to export from the United Kingdom certain articles used in the manufacture of military and naval stores, in pursuance of Her Majesty's Proclamation of the 18th February, 1854, are pleased to order, and it is hereby ordered, that the officers of Her Majesty's Customs do prevent the exportation of Saltpetre, Nitrate of Soda, Sulphate of Potash, and Muriate of Potash (Chloride of Potassium,) to Her Majesty's Colonies and Plantations in North America, including the West Indian Island, as well as to all foreign countries; and that the officers of Her Majesty's Customs do permit the articles herein mentioned to be carried coastwise to any port in the United Kingdom, or to be exported to any other of Her Majesty's Colonies, plantations, or possessions abroad, or to the territories of the East India Company, upon taking from the persons exporting the same a Bond that the said articles shall be landed and entered for use and consumption within such of Her Majesty's dominions or within the territories of the East India Company.

Whereof the Lords Commissioners of Her Majesty's Treasury, and officers of Her Majesty's Customs, and all other persons whom it may concern, are to take notice, and govern themselves accordingly.

REMARKS ON THE VARIOUS BRANCHES.

READING.

There can be few better tests of the efficiency of a teacher than the style in which his children read. Many people imagine that teaching children to read is a very easy matter, but any one who has reflected on the subject, and considers the art of reading to be something more than merely being able to spell words and to pronounce them, knows that to teach young people to read with correctness and expression requires a vast deal of pains and attention. Every man is not gifted with the flexible voice and musical ear which make a finished elocutionist, but every teacher of intelligence and diligence will be able to train his pupils to read fluently and correctly, and with a true understanding of what they read.

In many of the schools no attention is given to just expression and correct emphasis in reading. In very many even punctuation is quite overlooked, and the children read from beginning to end in total disregard of the *stops*, and, consequently, in ignorance of the meaning which the words convey. The one great mistake common to most of the teachers is, that of pushing the children hurriedly through each book; giving them a new lesson, and that greatly too long a one, each day. They proceed on the principle, that the quantity read is the surest criterion of the pupil's progress; and a teacher will often point to his highest class, with great self-complacency and pride, as having read through the Fourth Book twice during six months. The consequence of this system is a most careless and slovenly style of reading. It is no uncommon circumstance to find a child, who has in this manner gone twice through a book, scarcely able to read a single sentence in it correctly, even mechanically, or without stumbling at the *big words*. The lessons also soon become familiar to the children; their attention is not quickened by the excitement of a new passage or subject, and the reading lesson is thus totally useless as a means of exercising the intelligence of the children.

I have met with few of the teachers who give due attention to the instruction of the children in the subject matter of the lesson. Many of them examine their pupils with considerable exactness on the meaning of the words; but a knowledge of the meaning of the words which compose a sentence does not necessarily imply an intelligent understanding of the sentence. By examining them on the construction of the sentences, and the subject matter of the lesson, and encouraging them to express their own ideas concerning it in

appropriate language, they would have a correct understanding of the meaning of each lesson before leaving it—their intelligence would be trained and sharpened, and a large amount of valuable information conveyed. Such an exercise would also give the children that familiarity with the resources of written language which would make the perusal of books in their leisure hours interesting and pleasing to them. For if a child has only been taught the mechanical art of reading, without comprehending the language of books, the art is not likely to be often used; he cannot be expected to take much pleasure in reading when he leaves school, and will probably soon lose the art altogether.

It gives me much pleasure to mention the following schools, the children of which, on examination, shewed more than ordinary proficiency in correct and intelligent reading:—Baltic, (18); Graham's Road; North St. Peter's; Priest Pond, (46); Lower Newtown; and Brudenell.

WRITING.

The same remark which I have made with regard to the teacher's method of training the children to read applies also to their system of teaching writing—they hurry them too rapidly forward. In many schools a regular system of judicious gradation, from simple strokes to words beginning with *capital letters*, is wanting; and the children, before having written many pages, are struggling to write small hand, before they know how to hold their pen properly, they are presumed to be able to write *current hand*.

Whenever the accommodation will admit of it, the teacher should have all his pupils writing at the same time; those that are too young to write on paper could be writing on slates, so as to leave him at liberty to give his whole attention to overlooking the copy-books, and superintending this important branch. This plan, I am happy to say, has been adopted, and is carried out in not a few of the schools, and its beneficial results are seen in the children's proficiency. Very superior specimens of penmanship, and of clean, well kept copy-books, were seen by me in the schools of the following districts:—Pownal, (central); Brudenell; North St. Peter's; Baltic, (18); St. Peter's Road, (34); and Covehead; and in the French Acadian school at Little Tignish.

WRITING FROM DICTATION.

This branch forms part of the weekly routine in some schools, but the end aimed at is defeated, in not a few instances, by the carelessness of the teachers in not correcting the errors in the pupils' exercises. These exercises should also be written on slates, and if they are to be transcribed into copy-books, it should not be, until after careful correction by the teacher. No part of the school business will be more improving to the children than this, when properly conducted. There is scarcely any exercise which ought not to yield to this; any to which it does not add something, and which is not benefitted by it. It is the most efficacious means of teaching grammar and orthography, and exercising and stimulating the minds of the pupils. As soon as children can read fluently and write with some facility, they may begin to write a few words from dictation daily. As children cannot too early be trained to act for themselves, this exercise will give them a lesson in independent action. Every new word they write will be for them a discovery, a new acquisition. The intelligent teacher, during this exercise, will notice with pleasure the useful excitement produced in the class; and the tendency to vanity that may be created in the children's minds will be sufficiently repressed by the correction their work will require.

APPENDIX (Q.)

In the schools of Central Bedeque, Graham's Road, Fullarton's Marsh, and Park Corner, I found, in the course of examination, that writing from dictation was prosecuted with praiseworthy success.

ARITHMETIC.

The children of the Colony in general shew considerable aptness at figures, and the schools that have the benefit of an energetic teacher exhibit a fair proficiency in this department. In the course of inspection, I have invariably remarked that those children that are quickest and most intelligent at their general lessons, are also most expert in arithmetic.

The end of arithmetic is to exercise and strengthen the thinking powers, as well as to give expertness in the practical affairs of life. It is to be feared that the former of these objects is entirely overlooked by the majority of the teachers; the children are hurried on from rule to rule, without being made to comprehend in the smallest degree the principles on which the various rules are formed. When a class of boys is pointed out as working, for instance, in proportion, it is no guarantee that they have thoroughly mastered the preceding rules; too often do they blunder at the simplest sum in reduction.

Everything in arithmetic depends on the simple rules being thoroughly understood, and at the foundation of these lies numeration. I have been grieved to find this elementary branch of arithmetic so much neglected by the teachers, and that in very few schools are the children able to write down a sum correctly, when read to them in words, and this even, when they can work some of the higher rules with considerable facility.

Instead of allowing the children to work constantly from books, the teacher should form them into one class at least twice a week, and exercise them on the same rule; thus a perfect acquaintance with all the rules would be maintained, and the healthy competition would stimulate them to readiness and accuracy.

The following schools merit special notice for their standard of attainment in this branch:—Georgetown; Pownal, Charlottetown (boys); Graham's Road; Park Corner; North St. Peter's; Springfield; and Kingsburgh.

GRAMMAR.

The statistics for the past year shew a most encouraging increase in the number of children who are taught grammar. This would argue that the claims of grammar, as a necessary and inherent element of instruction in the English language, are gradually becoming more recognized.

Many parents think that the time bestowed by their children on grammar is wasted, or at least that it could be much better spent on reading or arithmetic, the benefits of which they can more readily appreciate. This opinion is not altogether the result of an ignorant prejudice, it derives some foundation of truth from the method in which this branch is generally taught in the schools of the Colony. It is considered a separate and distinct study; the children's minds are loaded with dry rules and lengthy definitions hard to be understood. It is not therefore surprising that the pupils find grammar repulsive and uninteresting, or that the teacher finds it "the most difficult thing to teach."

In most of the schools, no attempt is made to shew the connection between rules of grammar and the construction of sentences in the ordinary reading lessons, or to apply them practically to the common language of the children. Grammar learned in this way, is of little more use to the pupils than if the rules were repeated in an unknown tongue; it is like teaching geography without maps. In the case of many

of the teachers, their defective mode of teaching grammar is more the result of their having adopted an imperfect system at first, and adhering to it, than from want of ability to pursue a better. Their general conviction is, that it is utterly impossible to teach grammar without books, and the want of grammar books is the reason alleged by some teachers for the total neglect of this branch, or for its being *only learned* by a moiety of their pupils.

In the course of inspection, I have recommended that a knowledge of grammar should be imparted in a great measure orally, specially to the younger pupils. As soon as children can read with facility, they should be taught to distinguish the different parts of speech without referring to the rules of grammar, and they will be found to take great pleasure in picking out the nouns, adjectives, &c., from their reading lesson. This method would make the subject more interesting both to pupils and teacher, and would be laying a foundation of practical knowledge which would enable the children to learn the abstract rules more intelligently and thoroughly when a grammar book is put into their hands. The older pupils should have their parsing exercises taken alternately from their grammar book and their reading book, and should be made to apply the rules in examples of their own construction, instead of repeating by rote those given in their book.

I may particularize the following schools for the superior efficiency with which this branch is taught, in most of them the plan I have above recommended is pursued:—Cross Roads, (48); Central Bedeque; Webster Creek; Georgetown; Graham's Road; Baltic (18); Pownal, Charlottetown (boys); Brackley Point; North St. Peter's; Covehead; Upper Westmoreland. In the five last mentioned special attention is devoted to the derivation of words, a subject which is of the greatest importance in studying the grammar of the English language.

GEOGRAPHY.

With very few exceptions, every school on the Island furnished with one or more maps. These maps form an addition to the school apparatus not only most pleasing to the eye, but also most interesting to the children, and exercising a very beneficial influence on the business of education. The highest class in many schools exhibits a familiar acquaintance with all the great divisions and the most remarkable spots on the globe. The children's attainments in geography are in a great measure the result of the excellent geographical lessons in the fourth reading book, which it is so easy and natural for the teacher to connect with the special lessons on the map.

In the great majority of the schools, the younger children derive no benefit from the maps, while in many commendable instances a large junior class is formed, to which the outlines of geography are imparted in lessons on the maps, given orally. In every school such lessons ought to be given at least once or twice a week, and would be found most interesting even to the youngest child.

The next grant of maps supplied to the schools should include a map of the Island, so that the children may not be ignorant of their own country, while they are receiving information about remote parts of the world.

Among the schools in which geography seems to be intelligently taught, the following are worthy of being specially mentioned:—King Square, Charlottetown; Brander's; Fanning Grammar School; Fullarton's Marsh; Cross Roads, (48); Pownal, Charlottetown (boys); Dunstaffnage; and Upper Westmoreland.

APPENDIX (Q.)

I have now noticed all the branches which the schoolmasters are required to teach by law. In some schools book keeping, algebra and some other branches are taught, but the number studying them is so very small that I have not deemed it necessary to make any remarks on the method pursued in teaching them.

In selecting the schools for honorable mention, I have been actuated by the strictest justice and impartiality. From the peculiarity of their position as absolute monarchs in a little world where their will is always law, teachers are more liable than any other class of men to be wedded to their own opinions and practices, and to resent any attempt to alter or improve these. This fact and a variety of other circumstances render the duties of my appointment of no ordinary delicacy and difficulty. It was utterly impossible that the opinions I have expressed, and the criticisms I was conscientiously called upon to make, could always give satisfaction to those they concerned. It is highly creditable to the teachers, and very gratifying to me, that I am able to state that my remarks have been generally received in the same spirit in which they were given. In a very few instances, I have met with a great want of manly and upright feeling, and in some of these the teachers have not hesitated to write letters in the newspapers of the Colony, falsifying facts in the most glaring and unprincipled manner. Such letters I deemed quite unworthy of a reply, feeling assured that I had no cause to shrink from the conclusions of persons who were sufficiently interested in the matter to seek after the truth, and I am utterly indifferent to the opinions of such as would believe statements affecting a man's character, without testing their justness and authenticity.

It would have been most pleasing to me could I at this time have reported on the establishment and working of the Normal School for the training of teachers, for which the Legislature made provision during last session. But I am happy to state that the negotiations which have been entered into for the procuring of a master are now all but completed, and it is hoped that this valuable institution will be in operation during the ensuing summer.

There is also another of the educational improvements of last session which yet remains to be put into operation, namely, the Orphan School. After considerable trouble, a room has been procured, and it is expected that ere long Charlottetown will possess an institution where destitute orphan children can receive daily instruction. A school of this class, though not specially designed for orphans, has been in operation for several years in the Bog District of this City, and has been productive of immense good in that locality. Since its establishment in 1848 upwards of 400 children have received more or less instruction, according to

the time they have been in attendance. I have been present at several examinations of this school, and the order and attention of the children, with their intelligence both in scriptural and secular knowledge, I have never seen equalled in the Colony; while the zeal and efficiency of the teacher cannot be too highly commended.

In conclusion, I most heartily congratulate the people of Prince Edward Island on the progress which education is making under the excellent working of the Free Education Act. The statistics that I have given exhibit a very gratifying increase both in the number of schools and of pupils in attendance; the number of children under tuition throughout the Island bears a proportion of nearly one to five in the whole population. A number of new schoolhouses have been erected, some of these in districts where no school formerly existed, while others have risen in the place of old and dilapidated buildings. These new schools shew a marked improvement both in exterior appearance and internal arrangement. The strifes and jealousies regarding school sites, and dissatisfaction with particular parts of the Act, which met me everywhere on my first tour through the Island, have almost entirely died away, and I now seldom hear a discontented voice. The very irregular attendance of the children, and the migratory habits of many of the teachers, are two great evils which still exist, and the remedy of which lies almost entirely in the hands of the parents. Greater exertion on their part to continue the children more regularly at school, and a more liberal attention to the schoolmaster's comfort and remuneration, would have the happy effect of attaching him to the district, and of securing to the children the benefits of more systematic instruction. The zeal and praiseworthy diligence of many of the teachers, and the decided progress they have made in the management of their schools and method of teaching during the past two years, demand some recognition in the form of an increase of salary, and a proper gradation of salaries. It is manifestly unjust that the man whose heart and energies are devoted to his work, and who conscientiously strives to improve both himself and his pupils, should receive the same remuneration as one who goes through the duties of his school in an indolent and perfunctory manner, or that the boy of sixteen should be entitled to the same salary as the man of mature years, who has a family to support.

I have the honor to be,
Gentlemen,

Your most obedient servant.

JOHN M. STARK,

Inspector of Schools

Charlottetown, February 25th, 1856.

APPENDIX (R.)

(See page 69.)

Report of the Trustees of the Lunatic Asylum.

To the President of the Legislative Council ;

Sir;

I have the honor to transmit, for the information of the Legislative Council, the Accounts connected with the disbursement of the sums voted for the repairs and improvements of the Lunatic Asylum and House of Industry, as likewise the Report of the Medical Officer for the year. It will be seen from the former that the necessary repairs and improvements, with the cost of additional Bedding, &c., have exceeded by £35 4s. 6½d., the £300 voted by the Legislature. There yet remains a very important improvement, which should be made, namely—a better system of warming the Cells, where there can be no possibility of open fires or stovepipes, with regard to safety.

b*

A very important consideration is likewise adverted to by Dr. Mackieson, namely—the satisfactory treatment of Lunatic cases, when commenced at an early stage, as compared with the far less hopeful results of those of long standing. This happy consequence has resulted from the increased means placed in the hands of the Trustees.

The Trustees think they have carried out both the intentions of the Act, and the terms of the additional grant, with fidelity, which induces them to remark, that the means of extending relief or an assistance to destitute persons, is very limited,—all of which is left to the consideration of your honorable Council.

WILLIAM SWABEY,

Honorary Secretary for the Trustees.

APPENDIX (R.)

Report of the Medical Superintendent of the Lunatic Asylum.

January 31st, 1856.

Gentlemen;

According to my usual method, I have again the honor of presenting for your inspection, a succinct and tabular view of the state of the patients in the Lunatic Asylum for the last twelve months; this being my sixth annual Report.

During the year just closed, not less than twenty-seven lunatic patients have been under the care of the Institution, viz: nineteen males and eight females; of these, seventeen remained at the last Report, on January 31st, 1855, and ten have been admitted since the end of April, viz: seven males and three females.

In the total, 27 patients, 4 casualties have occurred during the year, viz: two deaths from epileptic fits, one of the cases being of 28 years standing in a female; the other, of six years duration in a male; the third death occurred in a female, from cancer of the stomach, producing great emaciation; and the fourth from bronchitis, in a male of broken constitution, at the age of sixty years.

Of the total number of patients, including chronic with recent cases, eight have recovered; and it is worthy of remark, that of the ten cases admitted since the end of April, five have already recovered, amounting, in those recent cases, to 50 per cent. in the short period of nine months.

The remaining five cases admitted during the year, being chronic, of many years standing, and therefore less promptly amenable to medical treatment.

In the accompanying statistical chart, you will observe that seventeen cases yet remain in the house, of whom four are "improved," and six "much improved."

In the class marked "not improved," amounting to eight, one of the female deaths is included; another female remained only eight days under treatment, and then absconded, the remainder are from 6 to 17 and 37 years standing, and the last has been under treatment only nine days, and will, without doubt, terminate favourable.

The brief remarks appended to the list of Paupers will be found sufficiently explicit; they are all infirm, maimed, or otherwise superannuated invalids; death in one instance, occurred from cancer of the stomach, another is totally blind, two have epileptic fits, and the remainder are rendered helpless from

rheumatic ailments and infirmities incident to old age, which render all attempts to procure remunerating labor from this class totally futile.

I may remark, in this place, that during the severity of the present winter, we have found the brick hot-air Furnaces in the cellar, quite inefficient, either to produce a temperate heat in the basement or in the small apartments on the first floor.

Lunatics, in general, are indifferent about clothing, and frequently toss off their bed-clothes in the coldest nights, and consequently incur the risk of getting chilled and frost-bitten; under these circumstances, it is of great consequence to be able to maintain a uniform regulated temperature in the dormitories and halls. To effect this object, the present appliances have been found perfectly inadequate, and urgently demand some decided improvement.

It is a source of much satisfaction to myself, as Superintendent of the Asylum, in the discharge of my usual, as well as in this my annual duty, to be able to report the satisfactory results and condition of the institution for the last twelve months, considering the unusual amount of sickness we have had to encounter, and the augmented demands which have been made on the time and attention of the matron, steward and attendants; these, I have the pleasure to state, have been at all times freely, cordially and efficiently afforded, and demand, in this place, my best acknowledgments.

During the past year (probably owing to the numerous and speedy recoveries effected in the Asylum) many applications for admission, from various parts of the country have been received, which, owing to the limited amount of our endowment, have been met with a refusal. To meet these increasing demands (although we have ample accommodation), a prosperous Revenue and an enlarged legislative grant, will, I believe, constitute the *sine qua non* of their accomplishment.

I have the honor to be, Gentlemen,
your obedient servant

J. MACKIESON,
Medical Superintendent.

APPENDIX (T.)

(See page 70.)

Extract of a Letter from Sir C. E. Trevelyan to Herman Merivale, Esq., dated
"Treasury Chambers, 12th October, 1855."

"The Lords Commissioners of Her Majesty's Treasury having had before them your letter of the 7th August, transmitting an Act for incorporating the Bank of Prince Edward Island,—I am commanded to acquaint you that my Lords have attentively considered the provisions of this Act.

* * * *

"The only clause to which any important objection can be raised is contained in the second section of the Act, relating to advances on the collateral security of mortgages.

"It is now generally admitted to be inconsistent with sound principles of Banking, that the capital of a Banking Company should be locked up in securities which are not readily convertible and available therefor on emergencies.

"The Bank of England, although by its original charter constituted with the power of holding land and trading in its produce, has long since recognized this principle, and many years ago called in all the mortgages it held; and the evil consequences of allowing Banks to make advances on such securities have been strongly exemplified in the case of many Colonial Banks which, through that practice, become involved in the embarrassments of landed proprietors.

"On this account there is no point on which my Lords have been more careful in framing the clauses of Royal Charters for the incorporation of Colonial Banking Companies than that of permitting the acceptance of mortgages as collateral security for advances."

"The regulations which their Lordships have laid down on this subject have had in view:—

1st, As the fundamental rule that the Company should hold no lands permanently, except for the purposes of its business."

2d, In order to prevent the inconvenience which might result from the strict application of this rule

by debarring the Company from availing itself of the assets of an insolvent debtor, to permit the acceptance of mortgages on the assignment of landed property for debts *overdue*, but

3d, In order to guard against the relaxation of the rule from defeating its main object, to require that any lands or mortgages which might thus come into possession of the Company, should be sold or called in within such reasonable time as might be necessary for realizing them.

"My Lords gather from the first part of the clause in the Act referred to which limits the amount of real Estate to be held by the Corporation, and from the expression in the subsequent provision, that mortgages may be taken as *collateral* security only, that the Legislature of Prince Edward Island had in view the enactment of provisions founded on the same principle as the regulations prescribed by this Board.

"Their Lordships are, however, of opinion, that the details of the clause would fail in effecting that object. It would permit the Bank to take a mortgage as collateral security for any sum 'advanced by the Corporation.' It does not state for any sum previously advanced and over-due, and it would therefore allow the Bank to make an advance to any one who might offer a mortgage as collateral security, and whom without such security the Bank would not be disposed to trust.

"It is obvious that in such a case the term 'collateral' would be merely nominal, and the mortgage would be the only available security for the debt. The clause is also defective, inasmuch as it contains no enactment for the realizing of the security within a reasonable time, and so far therefore as the enactment may be intended to prevent mismanagement in this respect, it would fail in its object, as it would be competent for the Bank, under its sanction, to lock up its capital in mortgages and retain them permanently.

APPENDIX (T.)

“ The point is so important that my Lords recommend Sir Wm. Molesworth to call the attention of the Governor of Prince Edward Island to it, and to suggest that an amendment of the Act in this respect should be proposed to the local Legislature.

“ My Lords annex a clause which has been inserted in some recent Charters of Colonial Banks, and which appears to them to afford as much facility as can be required by such institutions for availing themselves of the security of real property for debts due to them, and at the same time to guard against the consequences to be apprehended from a too ready acceptance of such securities.

“ I am further directed to state, that the 25th section which restricts the issue of Notes to Banks authorized by Law, or Royal Charter, might be construed to give a monopoly in that respect to the intended Bank of Prince Edward Island, and the chartered Banking Companies, and it would have been better that the regulation of the issue of Notes should have been provided for by a general Act rather than in a private Act; but as my Lords consider that the local Legislature is not pledged by this clause to preserve any special privilege in regard to the issue of Notes which may be virtually obtained by the Bank of Prince Edward Island under the operation of the Act, they do not think it necessary

to do any more than direct the attention of the Government of Prince Edward Island to the point, and to suggest for its consideration whether it may not be desirable to pass a general Act for restricting the issue of Notes to Banking Companies incorporated by Law or Royal Charter. And we further direct that, notwithstanding anything in our own said Charter contained, it shall be lawful for the said Company to accept any lands, houses, or other real or personal estate, in satisfaction, liquidation or payment of any debt absolutely and *bonâ fide* due to the said Company, and to take any mortgage or any other like charge as a security for any moneys due to the said Company, or for which parties may have rendered themselves liable to the said Company; and to hold such lands, houses, and other property or security thereon, for such reasonable time only after the said Company shall have acquired an absolute interest therein as shall be necessary for selling and disposing of and converting the same into money; and also that it shall be lawful for the said Company to sell, or otherwise convert into money, any goods, wares, and merchandize which shall or may be taken by them in satisfaction, liquidation, or payment of any debt, and to sell and convey any lands, houses, and other real property whatsoever, or any goods, wares, or merchandize which they may acquire in manner aforesaid.

No. 11. Downing Street,
18th February, 1856.

Sir ;

I have received your Despatch of the 24th ultimo, No. 7, forwarding an Address presented to you by your Executive Council, complaining of the delay which has occurred in signifying the Queen's decision upon certain Acts passed in the last session of the Legislature of Prince Edward Island.

You will explain to the Council that the delay which occurred in the case of the Bill to incorporate a Joint Stock Banking Company, was occasioned by the unavoidable necessity of consulting the Lords Commissioners of the Treasury, whose province it is to examine all Laws which are passed to establish Banking Companies in the Colonies. You will add, that I hope that the communication to you by my

Despatch of the 1st current, of the royal assent to this Bill, on the 30th ultimo, will have relieved the mercantile community of Prince Edward Island, of the anxiety they entertain upon this subject.

With respect to the other Acts referred to by the Executive Council, I have to state that no time shall be lost in signifying to you the Queen's decision upon them ; but you will observe to your Council that as these Acts have no suspending clauses, and are therefore in operation, the inconvenience occasioned by the delay, to which my attention has been directed, is not of the same serious importance as it is represented to have been in the case of the Bank Act.

I have, &c.

(Signed) H. LABOUCHERE.
