

THE ACADIAN.

Published every Friday morning by the Proprietors, DAVISON BROS., Wolfville, N. S.

Subscription price is \$1.00 a year in advance. It sent to the United States, \$1.50.

News communications from all parts of the county, or articles upon the topics of the day, are cordially solicited.

ADVERTISING RATES.  
\$1.00 per square (8 lines) for first insertion, 50 cents for each subsequent insertion.

Contract rates for yearly advertising in book form, on application.

Reading notices two cents per line per insertion, two and a half cents per line for each subsequent insertion.

REPLIES.  
Copy for new advertisements will be received up to the 11th of the month. Copy for changes in contracts, advertisements must be in the office by Wednesday noon.

Advertisements in which the number of insertions is not specified will be continued and charged for until otherwise ordered.

This paper is mailed regularly to subscribers until a definite order to discontinue is received and all arrears are paid in full.

Job Printing is executed at this office in the latest styles and at moderate prices.

All postmasters and news agents are authorized agents of the Acadian for the purpose of receiving subscriptions, but receipts for same are only given from the office of publication.

TOWN OF WOLFVILLE.  
J. D. GRAMBERG, Mayor.  
W. M. BLACK, Town Clerk.

OFFICE HOURS:  
9.00 to 12.30 a. m.  
1.30 to 3.00 p. m.  
Close on Saturday at 12 o'clock.

POST OFFICE, WOLFVILLE.  
OFFICE HOURS, 8.00 a. m. to 8.00 p. m.  
On Saturdays open until 8.00 P. M.  
Mails are made up as follows:  
For Halifax and Windsor close at 6.00 a. m.  
Express west close at 9.30 a. m.  
Express east close at 4.00 p. m.  
Kentville close at 5.40 p. m.  
E. S. CRAWLEY, Post Master.

CHURCHES.  
BAPTIST CHURCH.—Rev. E. D. Webber, Pastor. Services: Sunday, Public Worship at 11.00 a. m. and 7.00 p. m. Sunday School at 3.00 p. m. Mid-week prayer-meeting at 7.30 p. m. Women's Missionary Aid Society meets on Wednesday following the first Sunday in the month at 8.30 p. m. The Social and Benevolent Society meets the third Thursday of each month at 3.00 p. m. The Mission Band meets on the second and fourth Thursdays of each month at 8.45 p. m. All seats free. A cordial welcome is extended to all.

PREBYTERIAN CHURCH.—Rev. G. W. Miller, Pastor: Public Worship every Sunday at 11 a. m., and at 7 p. m. Sunday School at 9.45 a. m. and Adult Bible Class at 2.30 p. m. Prayer Meeting on Wednesday at 7.30 p. m. Services at Lower Horton as announced. W. F. M. S. meets on the second Tuesday of each month at 3.30 p. m. Senior Mission Band meets fortnightly on Tuesday at 7.30 p. m. Junior Mission Band meets fortnightly on Wednesday at 5.30 p. m.

METHODIST CHURCH.—Rev. W. H. Backham, Pastor: Services on the Sabbath at 11 a. m. and 7 p. m. Sabbath School at 10 o'clock, 9 a. m. Prayer Meeting on Wednesday evening at 7.45. All the teachers are from our congregations and all the services. At Greenwick, preaching at 9 p. m. on the Sabbath.

CHURCH OF ENGLAND.  
St. John's Parish Church, of Horton. Services: Holy Communion every Sunday, 8 a. m.; first and third Sundays at 11 a. m. Morning service Sunday 11 a. m. Evening 7.00 p. m. Wednesday Evening, 7.30 p. m. Special services at Advent, Lent, and by notice in the church. Sunday School, 10 a. m.; Superintendent and teacher of Bible Class, the pastor. All seats free. Strangers heartily welcome.

Rev. R. F. Dixon, Rector.  
T. L. Harvey, Warden.  
H. Orlington.

St. Francis (Catholic)—Rev. William Brown, P. M.—Mass 11 a. m. the fourth Sunday of each month.

THE TABERNACLE.—During Summer months open air services on the Sabbath at 11 a. m. and 7.30 p. m. Sunday at 9.30 p. m. Special class rooms, excellent teachers, good table class.

METHODIST.  
St. George's Lodge, A. O. F., meets at their Hall on the second Friday of each month at 7.30 o'clock.  
A. K. BASS, Secretary.

ODDFELLOWS.  
Oxford Lodge, No. 99, meets every Monday evening at 8 o'clock, in their hall at 80 o'clock.  
H. M. Watson, Secretary.

TEMPERANCE.  
Wolfville Division No. 3, meets every Monday evening in their Hall at 8 o'clock.

FORBES.  
Grove Association, I. O. F., meets in Temperance Hall on the third Wednesday of each month at 7.30 p. m.

To the Public.  
The undersigned begs to notify the public that he is now prepared to undertake painting, paper-hanging, etc., of all kinds. Having had adequate experience he guarantees first-class work and entire satisfaction in every case. Orders may be left with Wolfville Decorating Co.

F. W. GODFREY,  
Wolfville, Mar. 9, 1910. Phone 85.

**Business Announcement**  
Owing to the death of my partner, Mr. Lyman W. Cox, in September, a reorganization of our firm became necessary. There has been made and in future we will be known as  
**The Tip Top Tea Co., Ltd.**  
Our friends will be pleased to hear that in the new company, I have associated several gentlemen of well-known financial responsibility, also that our facilities for serving the trade in the future will be better than before.  
I shall attend to the buying and handling as heretofore. Our travellers are now out for business.  
**Henry Graham.**

**The Excelsior Life Insurance Co.**  
SHOWED IN 1912  
FOR SECURITY—\$197 assets for every \$100 liability.  
FOR PROFITS—Interest earned on mean net assets, 7.43%; Mortality rate, experienced to expected, 97%; Decreased in expense ratio 5%.  
HEAD OFFICE: TORONTO, ONT.  
**CAPT. S. M. BEARDSLEY, Wolfville, Prov. Mgr.**

were married in the main street in Wolfville, N. S., recently. The couple drove up to the paragon in an automobile and called on the minister, who performed the ceremony on the sidewalk.

**A Wandering Road.**  
(By FREDERIC E. BOW, in the "Outlook," New York.)  
A wandering road winds up the hill  
And disappears beyond its top;  
And I sit wondering, wondering still  
Whether it goes and where its stop.  
For I have never walked that road,  
An untried fate has kept me here  
Housed in my narrow abode  
Year after year, year after year,  
Perchance to fade to Aevally!  
I may not know, no traveller turns  
And comes to tell what he may see,  
Or, what, beyond the hill, he hears.  
Perhaps it comes to stilled towns  
Where herons lived in days gone by,  
Or brings me straight to grassy downs  
Where he, in centuries past, may lie.  
Or may be to the islands and  
Islands, where past or good or bad  
Or yet to come, the way may lead  
Or new for Biddford's band.  
Could I but walk that way which lies  
My willing soul in search of rest,  
For every eye the world has tried,  
And all my fondest dreams prove rest.

**Hon. Martin Burrell.**  
A TYPE OF MAN OF WHICH THERE ARE  
TWO IN THE COUNTRY.

By W. T. W.  
Hon. Martin Burrell, Member of  
Agriculture, in the Border Cabinet,  
and member for Yale-Caribou, is a  
type of man of which there are two  
in this country. They are common  
enough in Great Britain and that is  
the reason that the calibre of the members  
of the British House of Commons is  
far above that of any similar Chamber  
in the world. He is a man with an  
English public school education,  
well read and well informed on many  
subjects. He has not the faintest  
notion of the United States, he is  
not a "idea man." So many people  
in this country know just the  
basics they are in and nothing else.  
They take no interest in anything  
which is not directly related to their  
business and are almost ignorant on  
all political questions excepting those  
which directly concern themselves.  
They also have only a small, if any,  
acquaintance with literature and art.  
In a word they are narrow and self-  
centred and find it hard to see the  
viewpoint of the other men where it  
clashes to any extent with their own  
interests.

To a great extent this cannot be  
helped in a new country. It is a short-  
sightedness, however, that the majority  
of the people from their early youth  
have to make their own way in the  
world. They have little time for  
anything outside of their own  
business during their early years  
and by the time that they have got  
to a place where they can take a  
breathing spell they have become so  
accustomed to the one mode of living  
that it is hard for them to change. This,  
however, will be overcome when the  
country develops and the younger  
generation has more time to devote  
to education. Then it is to be hoped  
they will, like Mr. Burrell, turn their  
attention to public affairs and enter  
political life.

Mr. Burrell, who is in his 55th year,  
came to this country in 1883 and for  
six years was in the Niagara Peninsula  
fruit farm near St. Catharines.  
While in Ontario he did not take an  
active part in politics but shortly  
after he removed to British Columbia  
he began to manifest interest in public  
questions. He was Mayor of his  
town, Grand Forks, in 1913 and  
member of the British Columbia  
Board of Horticulture from 1904 to  
1913. In 1904 he was elected member  
for Yale-Caribou. But he was re-elected  
in 1908 and was again returned in 1911  
and on the accession of the Conserva-  
tives to power was made Minister of  
Agriculture.

Mr. Burrell has been a horticulturist  
practically all his life and has been  
an extensive and successful fruit  
grower in British Columbia. It was  
thought in some quarters at the time  
of his appointment to the office he  
now holds that perhaps there were  
other men better fitted for the position,  
but he has so ably administered his  
Department that everyone is satisfied  
Mr. Borden made a wise choice.

Mr. Burrell is a good campaign  
speaker, reasonable and sane and  
capable of arguing a question with  
any one desirous of hearing him.  
He does not attempt to threaten his  
opponent's throat but by the use of  
argument and example he attempts to  
show where he is right. If you can  
not be persuaded he does not think  
you are insane but is always willing  
to concede that there can be two  
points of view on a question.

One of his greatest assets and per-  
haps his chief charm is his unflinching  
courtesy. It does not matter who the  
person may be or what his station in  
life he deals with all alike. He is  
never abrupt or "short," but is always  
ready to hear out and his reply,  
either agreeing or disagreeing, is never  
rude or angry. His manner is de-  
lightful and one feels instinctively  
that no matter under what conditions  
or what the provocation he will al-  
ways act the part of a gentleman.

A public man, particularly one holding  
a portfolio, does not live in a bed  
of roses and they can not be blamed if  
they are a bit sour sometimes. But  
Mr. Burrell never is, and this fact un-  
doubtedly accounts for the liking we  
have for him.

On both sides of the House and the  
average person who comes in contact  
with him have for Martin Burrell.  
There may be men of greater em-  
in the Conservative party than the  
member for Yale-Caribou, but it is  
doubtful if any of them makes a  
stronger appeal to the public than this  
quiet, sane Canadian citizen of Eng-  
lish birth, and so long as Mr. Borden  
has about him men of his stamp he  
will have the respect of the country.  
Mr. Burrell has one fault and that  
is he would rather not reveal, but it  
will probably come out anyway. He  
is a bit of a "idea man" and he has  
not lately got his grip on him but  
even now we fear it is too late to  
rescue him. However, public men  
have had worse vices and still have  
power in the land. Perhaps he will  
outgrow it as we imagine he will find  
it rather hard to discover a golf course  
in that tract of mountains which he  
is pleased to call his constituency.

**Fuel Inventions.**  
What next in the scientific world.  
Dr. Otto Lummer, Director of the  
Physics Institute of the University of  
Breslau, at a meeting of scientists in  
formed the savants that he had suc-  
ceeded in rendering coal fluid by elec-  
tricity and demonstrated in their  
presence, in part, his method of doing  
this. After emptying several vials  
containing secret chemicals over the  
coal, he applied a light electric cur-  
rent to the mixture, and before the  
eyes of the astonished audience a fluid  
almost as thick as water was emptied  
into a vessel. He then applied a  
match to the substance, and within  
five minutes after the fluid had been  
consumed by flames. Dr. Lummer ex-  
pects his discovery to revolutionize the  
industry of coal.

Henry S. Blackmore, one of the  
most distinguished chemists in the  
United States, claims he has perfected  
a process of not only liquefying but  
also solidifying natural gas. With  
the liquid and the solid, he explained,  
could be used as motor fuel. Both al-  
so can be applied in other uses of fuel  
whenever it is required.

The fluid is of ethereal character,  
denses, and is a non-combustible fuel  
and can be used to yield from 8 to 10  
gallons. The estimated first cost is  
about a cents per gallon. G. Volino  
reports that about 3 cents per gallon.  
The fluid, however, has an advantage  
over gasoline, in that it leaves no car-  
bon deposit to clog the cylinder.

By modifying the process of manu-  
facture Mr. Blackmore has converted  
the gas into a solid. A cubic foot of  
this weighs about 95 pounds, and  
completes the condensed product of  
250 feet of natural gas. The solid  
has the appearance of crystallized par-  
affin, softens to putty like consistency  
at 112 degrees and at 312 turns to gas  
again. A cubic foot of it will carry  
an automobile 12 or 15 times as far as  
a cubic foot of gasoline. Both the  
solid and the liquid are safe to handle.

Mr. Blackmore claims to be the first  
man to apply chemical analysis to  
natural gas. His reputation, evid-  
ently, has been fairly won, for he deals  
with the intricacies of chemistry with  
such facility as the average  
scientist could only dream of.

Interests controlling his in-  
vention have secured large fields  
in the United States and Canada.

**Advantages of Wireless in  
Fishing Fleets.**  
Wireless telegraphy apparatus is  
gaining favor for use in the larger  
fishing vessels as well as the steam  
trawlers, especially in fleets under the  
same management. It is planned to  
install the operating grounds, so that  
the owner, by means of the Marconi,  
will be able to send instructions to  
his skipper to which particular part  
he should send his fish, and in the  
event of there being a short supply at  
one port he could order his skipper to  
send his fish there and thus gain the  
best market. The trawler owner  
would, by the establishment of com-  
munication with the "mark" trawler  
of the fleet, be able to send out-going  
trawlers away with such information  
as to the position of the fleet that it  
could be located without difficulty  
wherever in the past it has always  
been a somewhat difficult and expensive  
matter for outward-bound vessels to  
find the fleet, which shifts its position  
according to circumstances.

The above is from the Fish Trades  
Gazette, of London. We suspect it  
will be some time yet before we shall  
be able to make a similar report re-  
garding our Nova Scotia fleet. The  
needs of our fleet are not the same as  
those of the English steam trawlers,  
but a wireless connection that would  
enable our men to keep track of the  
fleet supply would certainly be of  
benefit and perhaps the time is not too  
far away when the federal govern-  
ment will think it wise to equip  
certain number of the fleet for obtain-  
ing this information. These in turn  
would pass the word along to other  
vessels.

**Minard's Liniment** for sale every-  
where.

**Eclipses of Sun and Moon  
in 1914.**  
In the matter of eclipses of the sun  
and Moon, 1914 is to be a much more  
interesting one than the year which  
preceded it (1913), or that year which  
follows it (1915). In the year 1913 there  
will be but two eclipses, both mere  
annular eclipses of the sun, of which  
no trace will be seen by observers,  
either in North or South America.  
But during the year 1914 there will be  
four eclipses, two of the sun and two  
of the moon. Of the first of these,  
which is an eclipse of the sun, and  
occurs on February 21, we will see  
nothing. The second will be an annular  
total eclipse of the moon on the evening  
of March 11, and this will be a  
striking and interesting sight, visible  
throughout North America. The third  
eclipse is a very important total  
eclipse of the sun, visible throughout  
Europe and Southern Asia, but whose  
very ending only will be visible to  
dwellers in parts of America, who will  
see the sunrise on the morning of  
August 21 with its disc partly hidden.  
And finally, on September 4, at 9 a.  
m., Eastern Standard Time, there will  
occur another eclipse of the moon,  
which, however, will only be visible  
from the western part of this contin-  
ent.

**New Comet Is to Be Visible  
Soon.**  
Delaive's comet, the latest stranger  
in the sky to come within the range  
of the telescopes of expert star-gazers,  
may be visible to the naked eye soon.  
The faintly illumined, detailed object  
apparently is drawing nearer the  
earth, although up to last night it  
was not to be seen by a less powerful  
glass than the five inch finder of the  
great telescope at the naval observa-  
tory here.

Scientists here are keenly interested  
in the comet, which was discovered by  
Paul K. Delaive, of the Argentine  
naval observatory at La Plata. It was  
first observed in this country by  
Prof. Asaph Hall, U. S. N., at the  
naval observatory Thursday night,  
Dec. 18th, and observations were taken  
again Friday night and last night.  
Reports also have been received of  
observations in Europe Thursday.

"According to the telegram from  
South America," Prof. Hall said today,  
"a large telescope had been necessary for  
observations there, meaning probably  
the 17 inch reflector of the La Plata  
observatory. When the observation  
was taken in Washington the comet  
was visible in the five inch finder of the  
large telescope. It has a bright nebu-  
la, and on the night of December 19  
it showed a fairly bright nucleus,  
surrounded by nebulosity, and ap-  
peared to have a faint tail following.  
It was not visible in the two and a  
half inch finder. On the night of  
December 22 there was considerable  
haze, so that no tail was to be seen."  
Amateur astronomers with small  
glasses may catch the comet, Prof.  
Hall said, by using the star Zeta Eridani  
for a starting point. "The comet  
is approximately 1 1/2 minutes of  
time west of the star," he explained,  
and north of it 1 1/2 degrees. It is  
moving west about fifty-four seconds  
of time per day, north about five and  
a half minutes, but there has not been  
enough motion so far to compute an  
orbit."

This is the sixth comet discovered  
this year. The one that has attracted  
our attention most was found by Neuj-  
min on September 1. This was a very  
small body, and showed only the  
slightest trace of nebulosity, its ap-  
pearance being rather that of an as-  
teroid. —Washington Despatch of  
December 30th.

Tomponson was always soft-hearted.  
This is what he wrote:  
"Dear Mrs. Jones—Your husband  
cannot come home to-day because his  
balancing suit was washed away."  
"P. S.—Poor Jones was inside the  
suit."

The Canadian Bankers' association  
will meet in Montreal, January 24 to  
consider amendments regarding bank  
note circulation.

**Back Was Lame  
For Two Years**  
Stomach Troubles and Weakness of  
Kidneys Cured by Dr. Chase's Kid-  
ney-Liver Pills.  
There is an enormous amount of  
suffering from liver and kidney de-  
rangements and stomach troubles  
that could easily be avoided by using  
Dr. Chase's Kidney-Liver Pills. If  
you cannot come home to-day because  
your back is in a state of agony, or  
if you are in trouble and find us in  
trouble and find us in trouble, it  
would let go her story which (gaining  
in force) would cause half our wives to  
sue for divorce, she would get all the  
churches mixed up in a fight, and  
turn all our days into sorrow and  
night; in fact she would keep the  
whole town in a stew, if she told the  
truth of the things that she knew  
complete cure. I can do my own  
washing and other work now, and  
want to say to ladies everywhere  
do not know how much I appreciate  
Dr. Chase's Kidney-Liver Pills. It  
is made by Dr. J. C. Chase, of  
Waukegan, Ill., and is sold by  
Minard's Liniment Cures Distemper, Cows.

**ROYAL  
BAKING POWDER  
Absolutely Pure**  
Cakes, not biscuits, hot breads, and  
other pastry, are daily necessities  
in the American family. Royal Bak-  
ing Powder will make them more  
digestible, wholesome, appetizing.  
**No Alum—No Lime Phosphates**

**Warm Welcome to New  
Pastor.**  
REV. EDMUND D. WEBBER AND MRS.  
WEBBER GIVEN RECEPTION AT HAY-  
ERHILL, MASS.

Through Canada a gripe (influen-  
za) prostrates thousands of busy  
men and women every winter, wreck-  
ing their health and leaving behind  
numerous serious ailments. It is the  
after effects of a gripe that cause  
such widespread misery. Here is the  
reason. La gripe leaves behind it  
weakened vital powers, a shattered  
nervous system, impure and imper-  
verished blood, and a low state of  
health that renders the sufferer ex-  
tremely liable to rheumatism, indig-  
estion, neuralgia and nervous disor-  
ders. You can avoid a gripe entire-  
ly by keeping the blood rich and  
pure through the occasional use of  
Dr. Williams' Pink Pills. Or, if be-  
cause you have not recognized your  
blood weakness, la gripe fastens its  
fangs upon you, its disastrous after-  
effects can be driven out by the same  
medicine. Dr. Williams' Pink Pills  
increase and enrich the blood supply,  
lead the starving nerves and thus in-  
crease new health and new strength to  
enfeebled men and women. Mr. G.  
St. Clair, connected with the Sun  
Life Assurance Co., Halifax, N. S.,  
says: "I was taken down with a heavy  
cold and la gripe and was confined  
to the house for some weeks. I had  
the best of medical attention, and al-  
though the doctor said I was cured I  
was still far from well, and did not  
have the vim necessary for a strenu-  
ous business life, and did not attend  
to either office or field work. Talking  
with a friend he said 'Why not try  
Dr. Williams' Pink Pills.' I decided  
to do so, and before I had used a box  
felt an improvement, and before long  
the Pills made me feel like a new  
man. I can't, therefore, say too  
much in favor of this valuable medi-  
cine, and hope that any who may  
read this and be in need of medical  
attention will be persuaded to try  
this truly wonderful medicine."

You can get these health-renewing  
Pills through any medicine dealer or  
by mail post paid at 5 cents a box or  
six boxes for \$2.50 from The Dr. Wil-  
liams' Medicine Co., Brockville, Ont.

Boys will be boys, except when  
they are little wretches, and Tommy  
was no exception.

He had broken one of the school  
rules, and the teacher told him to  
tell his mother about it, and also about  
the punishment he had received.  
This was fixy of the teacher. She  
thought his mother might thrash him  
again.

The next morning shrieked: "Well,  
Tommy, did you tell your mother  
about your bad behaviour yesterday,  
and how I punished you?"  
"Yes, miss," replied Tommy, quick-  
ly.  
"Well, what did your mother say?"  
was teacher's next question.  
"Said she'd like to wring your  
darned neck, miss," replied Tommy,  
ciously.

**Chronicle Constipation Cured.**  
"Five years ago I had the worst case of  
chronic constipation I ever knew of,  
and Chamberlain's Tablets cured me," writes  
S. F. Fish, Brooklyn, Mich. For sale  
by all dealers.

One of our exchange most truth-  
fully says that the telephone girl sits  
in her chair and listens to voices from  
everywhere. She knows who is happy  
and who has the blues; she knows  
all our sorrows; she knows all our  
joys; she knows every girl that is  
chasing the boys; she knows of our  
trouble, she knows of our strife; she  
knows every man who is mean to his  
wife; she knows every time we are out  
with the boys; she hears the excuses  
each fellow employs; in fact there's a  
secret 'neath each saucy curl of that  
quiet, demure looking telephone girl.  
If the telephone girl would tell all she  
knows it would turn all our friends into  
the most interesting people in the  
world. It is true, she would soon be a  
gale, engulfing us in trouble and land us in jail; she  
would let go her story which (gaining  
in force) would cause half our wives to  
sue for divorce, she would get all the  
churches mixed up in a fight, and  
turn all our days into sorrow and  
night; in fact she would keep the  
whole town in a stew, if she told the  
truth of the things that she knew  
complete cure. I can do my own  
washing and other work now, and  
want to say to ladies everywhere  
do not know how much I appreciate  
Dr. Chase's Kidney-Liver Pills. It  
is made by Dr. J. C. Chase, of  
Waukegan, Ill., and is sold by  
Minard's Liniment Cures Distemper, Cows.

**Children Cry  
FOR FLETCHER'S  
CASTORIA**

During the month of November, 27  
new branch banks were opened in  
Canada, which, with eight branches  
closed, and four sub-branches made  
branches, brings the total number of  
branches in Canada to 2,985. In Can-  
ada and elsewhere there are now 3,073  
branches of Canadian banks.

# HAD TO STOP WORK FROM THE PAIN

## Suffered Ten Years Until "Fruit-a-Lives" Cured Him

ST. THOMAS, Ont., May 22nd, 1913.—I was troubled for ten years with the most distressing Constipation and indigestion of the worst form. No one could have been worse with these troubles than I was for this long time.

The pain from indigestion was so severe that many times, I have had to stop work and lie down until the acute spasms passed away.

I took a lot of medicine—in fact, I guessed—and gave them all a fair test—but got no relief. About a year ago, however, I was advised to try "Fruit-a-Lives". I am mighty glad I did so for they seem to be made exactly for me.

They gave results in a very short time and I am now free from these diseases and enjoying perfect health.

My wife also used "Fruit-a-Lives" and we both think they are the best medicine ever made.

Z. J. EDGEWORTH.  
See a box, 6 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-Lives Limited, Ottawa.

### White Ribbon News.

### Canadian Teachers Will Visit England.

The circular of the Hands Across the Sea movement for 1914 has been received, and can be had from the honorary local secretaries, Mr. G. A. Inch, Normal School, Fredericton, and Miss C. A. Jones, 735 Lockman Street, Halifax, or from the Review office. The program of the tour is similar to that of former years, and will include visits to England, Scotland, Wales, and possibly Ireland. The entire cost from Montreal will be about \$215.00, and the party will sail on or about July 1st. Details of arrangements will be published in supplementary circulars. All who wish to make the tour should send in their application early, together with the registration fee of \$1.00.—Education Review.

### RHEUMATISM

Many people have it but neglect it until they are crippled and without hope of ever being cured, but there is hope for all in Rheumatism and no one need have Rheumatism now. Rheumatism is just what we say it is. We have received hundreds of testimonials telling us that Rheumatism has cured old standing cases of Rheumatism and when all other treatments had failed. Rheumatism enriches the blood and drives uric acid from the system. Don't fail to get a bottle today at Hugh E. Calkins' and you will soon have your health and strength as in the olden days. Hugh E. Calkins sells a large bottle for one dollar, or we will mail you a bottle prepaid on receipt of price. B. V. Marlow Co., Bridgeburg, Ont.

Esau filled his life with regret for trifling one day; Rather was full of glory for one day's courage. Peter slept one hour and lost a matchless opportunity. Mary's name is fragrant forever for the loving deed of a day. Do your best now.—Maittie D. Babcock.

Best Cough Medicine for Children.

I am very glad to say a few words in praise of Chamberlain's Cough Remedy, writes Mrs. Lida Dowey, Milwaukee, Wis. "I have used it for years both for my children and myself and it never fails to relieve and cure a cough or cold. No family with children should be without it. It gives almost immediate relief in cases of croup." Chamberlain's Cough Remedy is pleasant and safe to take, which is of great importance when a medicine must be given to young children. For sale by all dealers.

"What makes him stop then?"

"Oh, he's afraid somebody'll say 'Whoa' and he shan't hear it."

Chamberlain's Cough Remedy.

This remedy has no superior for coughs and colds. It is pleasant to take, it contains no opium or other narcotic. It always cures. For sale by all dealers.

"Why don't you, who have to work, take to Sarsaparil?"

"Whoa! who's that?"

### The Cost of Living.

(From the London Chronicle.)

The prices we shall pay for our Christmas fare would have made our ancestors gasp. About four centuries ago a good lot of cost between 11s. and 12s., and a half century later the finest ox in England cost less than £2. A fine fat goose was to be bought in 1500 for 4d., but by the end of the century 1s. 10. 2d. was the price. Pigeons at the beginning of that century were to be got for three a penny. Eggs were sold not by the dozen or shilling's worth, but by the hundred, and 6d. was the price.

In 'Stifford's Dialogue' of 1581 the knight says: "I could buy the best pig for 4d., a good capon for 3s. 6d., a chicken for 1d., and a hen for 2d." But wages balanced prices, for a master mason got about 5s. a week and a labourer about 2s. Wages and prices kept about together, with prices always a little ahead.

### A Doubtful Apology.

A prominent lawyer is noted for his ready wit and skill in repartee. He was once before a pompous old judge who took offence at a remark the lawyer made criticizing his decision.

"If you do not instantly apologize for that remark," said the judge, "I shall commit you for contempt of court."

"Upon reflection, your honor," instantly replied the attorney, "I find that your honor was right and I was wrong, as your honor always is."

The judge looked dubious, but finally said that he would accept the apology.

### 8 Boxes Cured Psoriasis.

Mrs. Bertha Massey, Chatham, Ont., writes: "Three doctors described my trouble as psoriasis, and one said I could not be cured. The disease spread all over me, even on my face and the itching and burning was hard to bear. I used eight boxes of Dr. Chase's Ointment and am entirely cured—not a sign of a sore is to be seen. I can hardly praise this Ointment enough."

Solomon Jackson and Tate Saunders, of Pineville, Ky., fought a peculiar duel on Christmas. They clasped their left hands and with a pistol in the right hand of each shot it out. Standing hand in hand, they killed each other.

### Whooping Cough.

Mrs. Charles Lovell, Acadia, B. C., writes: "Seven of our six children had whooping cough the same winter and we attribute their cure to Dr. Chase's Ointment and Turpentine. We always have it in the house, and recommend it as the king of all medicines. I was formerly completely cured of sprouting piles by using Dr. Chase's Ointment."

Leading Tragic Man—Did you see how I held the audience in the death scene? They were crying all over the house.

Manager—Yes; they knew you weren't really dead!

### DR. A. W. CHASE'S 25c. CATARRH POWDER

Best direct to the diseased parts by the improved sponges. Heals the ulcers, soothes the inflamed mucous membrane, relieves the burning and stinging, and is a most effective remedy for Catarrh of the Bladder and Uterus. A box 25c. A box 50c. A box 1.00. Accept no substitutes. All dealers or Wm. A. Kain, Ltd., Toronto.

### A Good One.

An English paper publishes this story of a Halifax man:—The Hon. David McKeen is a Canadian Senator on the Scotch assortment. On one occasion while he was seated in a barber's chair at Halifax, a garrulous and rather inconsequential acquaintance entered, and after some preliminary chatter exclaimed: "Why, Senator your hair is exactly the same shape as mine!"

"Only on the outside," drawled the Senator.

### WHERE TO FIND THIS GIRL.

The above picture of Miss Ruth, Editor of New York is taken from life and is on the label and carton of every genuine bottle of Sarsaparil. It is a guarantee of quality and excellence and we urge our patrons to be sure to look for this label. Sarsaparil is guaranteed to stop the hair from falling out, cure dandruff in two weeks and to bring life and beauty into colorless and faded hair. Sarsaparil brings out the natural beauty of the hair and makes it rich in color. Sarsaparil is not a dye. It is not sticky or greasy and is actually performed. Mr. Hugh E. Calkins is agent in Wolfville, N. S., for Sarsaparil. A large bottle at a moderate price will cure the hair. Other stores don't have it.

First aid to the injured—sure relief from Coughs, Croup, Whooping Cough, Cramps, Rheumatism.

### JOHNSON'S ANODYNE LINIMENT

Use it for both internal and external ills. Sold everywhere in 25c. and 50c. bottles.

I. S. JOHNSON & CO., Inc., Boston, Mass.

Persons' Pills Make the liver active.

'What do suffragettes want, anyway?'

'We want to sweep the country, dad.'

'Well, do you despair small beginnings? Suppose you start with the dining room, my dear.'

### CASTORIA

For Infants and Children. The Kind You Have Always Bought

Bears the Signature of *Wm. A. Kain*

'Why, Tommy, exclaimed the Sunday School teacher, 'don't you say your prayers every night before you go to bed?'

'Not any more,' replied Tommy; 'I utter when I sleep in a jolting bed, though.'

'Here's something queer,' said the dentist. 'You say this tooth has never been worked on before, but I find small flakes of gold on my instrument.'

'I think you struck my back collar button,' replied the vicar.

Winnifred—There's Mr. Brown. He's the only farmer on record who has any money out of weeds.

Clare—He surely didn't do that? 'Yes, he did.'

'How, pray?'

'Married a widow.'

A druggist lately received a hurried call from a small girl who desired liniment and cement.

'Liniment and cement?' repeated the pharmacist, puzzled by the unusual order. 'Going to use em at the same time?'

'Y-s,' promptly replied the youngster. 'M-m, she hits up with a pitcher.'

### WOMAN SUFFERED TEN YEARS

From Female Ills—Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Belleville, N.S., Canada.—"I doctored for ten years for female troubles and did not get well. I read in the paper about Lydia E. Pinkham's Vegetable Compound and decided to try it. I wrote now to tell you that I am cured. You can publish my letter as a testimonial."

—Mrs. SUZANNE BABINE, Belleville, Nova Scotia, Canada.

Another Woman Recovers.

Auburn, N. Y.—"I suffered from nervousness for ten years, and had such organic pains that sometimes I would lie in bed four days at a time, could not eat or sleep and did not want anyone to talk to me or bother me at all. Sometimes I would suffer for seven hours at a time. Different doctors did the best they could for me until four months ago I began giving Lydia E. Pinkham's Vegetable Compound a trial and now I am in good health."

—Mrs. WILLIAM H. GILL, No. 15 Pleasant Street, Auburn, New York.

The above are only two of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which show clearly what great things Lydia E. Pinkham's Vegetable Compound does for those who suffer from women's ills.

If you want special advice write to Lydia E. Pinkham Medicine Co. (consulting) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

### WITH THE SOCKEYES

An Irresistible Lure to the People on the Coast

A rare and beautiful spectacle, seen once a year in coast towns like Vancouver, is that of the sockeye salmon. It is at night when the beacon lights of these cities of boats beckon from across the waves that the interested observer gets anything like an adequate conception of the number of those who hearken annually to the call of the sockeye which has since time immemorial proved an irresistible lure to the dwellers in the Pacific. These temporary boat cities claim an interesting variety of citizens for their floating population, from the man who is out for the mere sport of it to the canny representative on business intent. It is an occasion when all nationalities are at one in common interest, and the white man, the Japanese and the Indian sink their tribal differences at Neptune's altar.

### THE FARM WOODLOT

Free Expert Advice Obtainable on the Subject of Proper Care

With the increasing inaccessibility of the forests and the consequent high price of wood, the small wooded areas common on the farms of Canada are also increasing in economic value.

They frequently occupy soils unfitted for agriculture and with a little care can be made to furnish the farmer with a continuous revenue in fuel, posts, rails, poles and structural timber.

Unfortunately these woodlots are frequently neglected or lack of knowledge on the part of the farmer. He takes great care to farm his agricultural lands to the best advantage, but often fails to realize that by farming his woodlot with the same care, he could get the same income in proportion to the acreage.

Some painstaking investigations at one of the forestry research stations in England, with seven cows for two days, even covering such details as a separate test of eleven successive quarters of the udder, show that while thirty pounds of milk per day was 2.5 per cent the variation was all the way from only six-tenths of one per cent up to nine and a half per cent.

This is a clear proof of how misleading one single test may be. If the real earning capacity of each individual cow is to be compared, it must be on the basis of her annual production of milk and fat less the cost of her maintenance.

While repairing a temple the Chinese cover up the eyes of the idols in order that the deities may not be offended at the sight of the disorder. The skins of 100,000 animals are used every year for the covers of Oxford Bibles alone, and 400,000 sheets of gold are required for the gilt lettering.

The Sheep Pays Money invested in sheep will nearly double itself in one year, since the fleece will pay for the feed and care of the sheep, and the lambs, often two per ewe, are the profit. It is estimated that ten sheep may be kept where one cow may, and the risk is much less.

It may be said that the sheep always carries her pocketbook with her. If she dies, her pelt or fleece pays her funeral expenses. If she lives, her wool in the spring and her lambs in the fall pay double revenue. No other stock pays as large a percentage of clear profit on the money invested.

Nothing else will build up a rundown farm as quickly as a flock of sheep. While pasturing, the sheep's manure is distributed about so evenly that no manure spreader could equal the sheep in its work.

Poultry Industry The value of the poultry industry to New Zealand was stated at a conference of poultrymen to be two millions sterling per annum, this sum changing hands for products, produce and services in order to keep the industry going. The average price of eggs and table poultry was fully 10 per cent higher than it was a year ago. Five years ago they could count on one hand the number of persons engaged in poultry farming for a living. Now they could be numbered by the score. Farmers too, were giving poultry their attention, since they were realizing that the high prices received for eggs and table birds made the keeping of poultry a valuable adjunct to farm pursuits.

### PERHAPS YOU KNOW THAT

The income-tax is levied in India on all incomes of 1000 and upwards, and then only one man in 700 comes within its scope.

St. Peter's at Rome will accommodate 54,000 persons, Milan Cathedral 27,000 persons, and St. Paul's Cathedral, London, 25,000 persons.

While repairing a temple the Chinese cover up the eyes of the idols in order that the deities may not be offended at the sight of the disorder. The skins of 100,000 animals are used every year for the covers of Oxford Bibles alone, and 400,000 sheets of gold are required for the gilt lettering.

### HENS AS BAROMETERS

A poultry fancier near Durham, England, produced curious results by analyzing and alternating the food given to his fowls.

It is known to many who have reared canaries for the market that Cayenne pepper, put in their food results in a notable difference in the character and shade of their plumage, giving the feathers a smooth, iridescent tinge which adds very much to the sum for which the birds are ordinarily sold.

If the same ingredient be added to the diet, especially of white hens which have been hatched from carefully-selected eggs, the feathers become pale rose, and they flush to a brilliant red when the weather is damp and a storm is approaching. These hens thus become veritable barometers, and the progression of color from pale to brilliant is so exact that a scarlet hen striking about the barnyard is regarded as certain prophecy of a storm which may be as much as twelve hours distant.—The Times.

### White Pearl Divers

The statement of Captain Talbot, a pearl diver of Broome, Western Australia, that the experiment of working luggers with white divers had been successful, and that the majority of the divers brought out from Broome were either dead or paralyzed, has been substantiated by the following facts. With the exception of two, all were, they said, very much alive, and were at present at work in different parts of the State.

Lambs and Muttons Every year over 15,000,000 sheep and lambs are slaughtered in Australia for export, and beef totaling over 100,000,000 pounds is sent out annually for overseas consumption.

### Girl's Nerves Fully Restored

Was Never Able to Obviate Existing Benefit Until Dr. Chase's Food Was Used.

### VARIAIONS IN MILK FAT

They Show That Cows Should be Tested at Frequent Intervals

Frequent experiments have shown that one single test of a cow's milk is not reliable as an indication of what percentage of fat her milk normally contains. A great many factors cause variation in the fat content of the milk, and these variations are present even by the closest studies.

This "variation in the test" is one of the puzzles of the cow's individuality, and because of these puzzling variations it is advisable to take samples at intervals so as to ascertain the average test.

Some painstaking investigations at one of the forestry research stations in England, with seven cows for two days, even covering such details as a separate test of eleven successive quarters of the udder, show that while thirty pounds of milk per day was 2.5 per cent the variation was all the way from only six-tenths of one per cent up to nine and a half per cent.
