Vocational Training School Meeting

The Public meeting, which was held in the Town Hall last Friday evening to discuss the advisability of opening Vocational Training Evening Classes in Newcastle, was largely attended. A large number of ladies were present, which demonstrated the fact that our women were behind the movement, and would give it their hearty support. Mayor D. P. Doyle opened the meeting at sharp 8 o'clock, and introduced the speaker of the evening Professor Fletcher Peacock, who is organizing the schools in the Province. Mr. Peacock expressed his pleasure of having the opportunity to meet the citizens of Newcastle and hoped the organizing of a Vocational School in Newcastle would be successful. The meaning of the movement was fully explained by him and he stated that the idea which the Government had in mind in promoting these classes, was to make those who already had callings, more proficient in the calling which they had chosen, and also to make better citizens of them. He felt that Newcastle should take up this work, and by so doing would give every young person a chance of obtaining a "square deal." Many young people had not taken advantage of the education offered because of their nature or their surroundings, and they now realized the necessity of it, and these classes were being formed to give them the opportunity to brush up in matters which they were not well acquainted with. He stated he did not wish to criticize the work done along educational lines in the past, as a most worthy work had been done and was still being performed but these evening classes were a forward movement, and every live community should take advantage of them before it was too late. Mr. Peacock had charts from which he explained that 1.2% of our day school students went as far as the 11th grade, that only 3% of our students in the Province attended High School, that nearly one quarter of our people never got beyond Grade I, and that 1/2 of 1% of every 200 ever went through High School. In the light of these facts the question arose: Will a broadened course attract High School Pupils? He provided that it did by contrasting the City of St. John, N. B. and the City of Newton, Mass. showing the number of students attending High School in St. John where no Vocational Training was taught, as compared with Newton, Mass. where Vocational Classes were held. He stated that the present system of education was not fair to the children now to the industries of the country but if a broadened system of education was opened up much better results would follow. To demonstrate the advisability of communities taking a deep interest in educational matters, as well as progressiveness on the part of the citizens he contrasted the towns of Sackville, N. B. and Amherst, N. S. the one gradually growing larger, and the other going ahead by leaps and bounds. Last year the N. B. Provincial Government passed the Vocational Training Act for practical training and this spring an office was opened up for the work and since that time a number of schools had been organized throughout the Province. Up to the present, only one Day Department had been opened, which was in Woodstock, N. B.

This school is financed by the County of Carleton which contributed 1/4 of the funds, the Town of Woodstock 1/4 and the Provincial Government 1/2. However this year they were devoting their energies in opening up night classes to grade up the people in the trade or occupation which they were now in, and they were meeting with good success. The Public Schools could be utilized for these evening classes and the organization of such would be under Local control.

The Town Council would be expected to vote 1/4 of the expense, the other half to be borne by the Province.

The Local Committee consisted of 4 members of the School Board of Trustees, a representative of the employers, a representative of the employees, and a lady representative of

Journalist Dead At Windsor N.S.

James J. Anslow, Formerly of Newcastle, N.B.

Friends and acquaintances through out the provinces will regret to hear of the death of Mr. James J. Anslow at the age of seventy-nine years, which occurred at his home at Windsor N.S. on Friday afternoon November 28th. The deceased was born in London England his parents coming to New Brunswick in '53 and settled at Chatham Mr. Anslow has been in the newspaper business practically all his busy life. First he started his career in '56 when he entered the office of the Chatham Gleaner. In '62 in company with his brother William, he started a job printing office at Newcastle and in '67 they established a weekly newspaper, The Union Advocate which is still published. In '89 the subject of this sketch sold out his interest in the advocate and went to Windsor, where he assumed the management of the Hants Journal which was established in '67 and continued as editor and proprietor until 1, 1914 when he retired from active service.

The brother above mentioned was lost in the woods in Northern New Brunswick in '97 while on a shooting expedition his body not being found until years after.

Mr. Anslow was first married in '63 to Anne daughter of John and Jane (nee) McKee of Chatham who died in '89. There were eight children three of whom are living, Bill and Florence at home and Mrs. Harris Smith Windsor.

Home making. This committee would have full charge of the organization. This committee decided on the subjects to be taught. They would then advertise that classes would be opened on such a date, and ask for applications from students.

If ten individuals wished any particular subject, a class would be formed, provided that conditions were favorable and a suitable teacher could be procured. He advised the meeting not to open up too many classes the first year, as the venture was a new one and it would be better to start on a small scale and make a success of same, rather than over load in classes and make a failure.

On Thursday evening the town of Federist held a meeting, at which 150 citizens attended and a school was organized there with a \$1000 program. He would be pleased to assist in the organization of a school in Newcastle, and the Government would also assist financially and in any other way in which it could co-operate.

Dr. F. C. McGrath, M. L. A. stated that he was pleased to attend a meeting of this kind, and was glad to see so many ladies present. The Government recognized the inefficiency of the present educational system and there by passed the Vocational Educational Act. Each community must recognize that the world today was paying particular attention to vocational and technical education.

In Germany and Austria, every boy and girl was educated at a technical school, and if we did not educate our children, the rising generation would be hewers of wood and drawers of water for the immigrants who would come to our country. This was a matter for the people to decide and as a member of the School Board, he would assist in the project in any way possible.

The present generation devoted altogether too much of their time in amusements and neglected the essential points of life and education was one of the most important. He realized it would be impossible for these evening classes to make the students perfect, but they would give an incentive to the students and thereby make them more proficient. It was the intention of the present Provincial Government to take a lead along educational lines and the government was anxious to get the approval and support of the people.

40% of our taxes today were for educational purposes and while at the time of incorporation \$3,000.00 only was paid for education, the town was

"The Heart of Humanity"

A play destined to live forever in the hearts of those who see it "The Heart of Humanity," appearing at the Happy Hour Theatre Thursday. No ordinary war play is this tremendous production conceived by the master mind of Allen Holubar. In fact, so skillfully is the war element handled that it is overshadowed completely by the charming romance which is the picture's main theme. Yet, scarcely secondary to this is the optimistic illumination it sheds on the great vital problem that touches on the duty owed by humanity to the children wrecked and orphaned by the war. The clarity of the titles is a delight, and this, coupled with the subtle handling of the plot, makes the production a masterpiece, for Allen Holubar, the director, knows the value of contrast and has used his knowledge with the highest degree of success. As Nanette, the character who depicts the glory accomplished by women in the war, Dorothy Phillips proves herself to be one of the screen's greatest players. Rarely have such superb heights been reached as she displays in her marvelous delineation of the role. The story moves from the pine forests of the Canadian North West to the fields of Flanders. Nanette, whose husband is fighting valiantly is unable to resist the tiny voices of the destitute children across the sea that call to her through her own baby. Nanette leaves her little one with her husband's mother, to minister to the needs of the children of France. Many adventures await her and through them all she serves her high purpose, risking her own life to save her little charges when the town they are in is taken by the Germans. A Hun officer tries to force himself upon her, and Nanette, half crazed by her ordeal, is saved from a gruesome fate by her husband. After being decorated for valor she returns to her little son and the mother of her husband who has lost her four sons.

Christmas comes bringing with it peace and the return of the soldier to his loved ones. Mother Patricia's fortitude in bearing up beneath her terrible grief will be a help to other mothers, who, like her, have lost their loved ones. William Stowell makes a convincing hero of John Patricia, and Margaret Mann is excellent as the beloved "Mother Patricia." The supporting cast is excellent, including as it does, Erich Von Stroheim, villain supreme of the screen, Robert Anderson, who won fame as "M'sieu Cuckoo" in "Hearts of the World," Pat O'Malley and Walt Whitman. The story has been produced by an artist who does not make the mistake of playing down to his audiences, but rather up to the people who think, after all, are in the majority.

See adv. on Page 5

now paying \$18,000.

Rev. W. J. Bate thought the reason so many children did not go to school was on account of the fact that they were not compelled to do so. He was in perfect harmony with the movement and thought Newcastle would consider favorably the advisability of opening a school for evening classes. The expense was small and would not be a burden to anyone. He realized the necessity of the teaching of nursing, and felt this work should be one of the subjects taught.

Mayor Doyle advised the meeting that he had been told today while in Chatham, that at their first meeting they had 99 students, at their last meeting 155 and they expected 300. Mr. H. H. Stuart, stated that he had advocated vocational training when he resided here, the matter having been taken up by the T. I. L. and when he was an alderman he had also brought the matter up, but it had always been turned down with the excuse that finances were not available. He hoped that Newcastle would now seize the opportunity and take up this most worthy work.

Rev. L. H. MacLean, stated that he heartily endorsed the proposition for the simple reason that there was

Values It More Than A Fortune

Power Gains Eighteen Pounds—Rheumatism Disappears After Taking Tanlac

"I consider what Tanlac has done for me to be worth more than a fortune," said George Power, of Halifax, N. S., while talking to the Tanlac representative a few days ago. Mr. Power lives at 20-1/2 Rottenburg St., Halifax, has lived in Nova Scotia all his life and is a well known employe of the Nova Scotia Tram and Power Co.

"I've actually gained eighteen pounds since taking Tanlac, and I feel better in every way than I have in twenty-eight long years, and what's more I have spent hundreds and hundreds of dollars on medicines and never got a particle of good until I found Tanlac," continued Mr. Power.

"I had rheumatism in both my legs from the knees down, and in damp weather I just had to stay at home from work. My ankles bothered me too, and I don't believe anybody in the world ever suffered from rheumatism as bad as I did for it was just a sharp shooting pain that would go through my knees, down my legs and into my ankles like somebody was sticking a knife through me, and I would be in such agony that I would turn as white as a sheet. When these attacks came on me I wouldn't be able to sleep a wink but would roll and tumble all night long, and my joints would swell and my knees would be as stiff as a board and I couldn't walk a step for two or three days at a time and would be laid up at home flat on my back with my knees so stiff I couldn't bend them at all.

"I noticed where Tanlac was being highly recommended by people right here in Halifax, so I decided to try it. And I wouldn't take anything in the world for the good it has done me. If anybody don't believe that I am a well man, and that the rheumatism has left me entirely and that I never feel even a trace of it, just tell them to see me. My appetite has picked up and I have gained in weight, and feel better in every way and can sleep fine at night. Tanlac is the greatest thing I have ever seen, and I want you to publish this statement for I want everybody to know what this medicine will do."

Tanlac is sold in Newcastle by E. J. Morris and in Redbank by Wm. M. Sullivan.

SUNNY CORNER

Sunny Corner, Nov. 20—Mrs. James B. Johnston spent the latter part of the week in Sunny Corner.

Mr. Walter M. Matchett who has been in St. John for the past three months returned home Friday.

Mrs. Daniel Hubbard and two little children are visiting relatives at the Corner.

Mr. and Mrs. David Mullin are rejoicing over a new baby girl.

Miss Margaret Johnston was the guest of Mrs. Henry Matchett on the 15th inst.

Mr. John Jardine, Nappan spent the week end with Mr. Allan Tozer.

Mrs. William Nowlan who has been very ill for the past few days is slowly recovering.

The Angel of Death hovered over Sunny Corner on Tuesday morning Nov. 17th and carried away little Lawrence Tozer, son of Mr. Albert Tozer. Lawrence wasn't quite two years old and the same angel took his mamma last November, so baby has gone to loved ones too. The funeral took place on Wednesday in St. Stephen's Cemetery, Red Bank.

How to Cure Biliousness

Doctors warn against remedies containing powerful drugs and alcohol. "The Extract of Roots, long known as Mother Seigel's Curative Syrup, has no dope or strong ingredients; it cures indigestion, biliousness and constipation. Can be had at any drug store." Get the genuine. 50c. and \$1.00 bottles.

The Cinema And Public Health

At the recent annual conference of cinema proprietors in Great Britain, Dr. Chalmers, M. O. H., Glasgow, was invited to speak before what is recognized as an important factor in national life.

The large and ever-increasing number of persons who attend cinema theatres must not be lost sight of, and particularly is this true of the younger people in every city and town. It is important, therefore, that the buildings themselves should be suitable from a health standpoint and that the films should be of an educative character as well as for amusement.

Dr. Chalmers, in his address, endeavored to convince the proprietors of the absolute necessity of cleanliness and thorough ventilation of the halls or theatres, and suggested longer intervals between sessions during which there should be a complete flushing of the interior of the building with both fresh air and sunlight.

He strongly advocated the making of films which would visualize how infectious diseases may be spread. If people could see how the dispensary helped to discover early cases of tuberculosis among persons in contact with infectives, the work done by the sanatoria and various other agencies, such as the prevention and farm colony, and how effective preventive measures were, there would be far less prejudice against the work undertaken by health authorities. He stated that "as the essence of instruction lies in the power to present to the observer the operation of functions he is himself conscious of possessing or acquiring, for educational purposes the film should aim at more than depicting results. It should endeavour to show how the results are reached."

The use of the film for health education offers a great field which could very profitably be made use of in Canada.

A Plea For Clean Living

An item, quite applicable to Canada, and which contains much food for thought and wise counsel for action, is found in the presidential address of the Lady Mayoress of Newcastle, delivered before the section of the Royal Sanitary Institution on "Personal and Domestic Hygiene."

It was a deplorable fact that our slums were as grimy as ever, and, notwithstanding the higher wages which had been paid to munition workers during the war and the consideration extended by way of unemployment donations, the condition of our poor did not seem to have improved. They had yet to find the large poverty-stricken women and neglected children, and the question arose, "Why should this thing be? Were we short of water and soap, or was it that the people did not care?" Military discipline had taught men of all classes the importance of cleanliness. In passing through the workshops of Tyneside at the present time it was usually an easy task to distinguish the demobilized soldier. Sound common-sense combined with knowledge and authority, must solve the problem. It was imperative that the teaching of personal cleanliness be thorough. Speaking, as she was, to her own sex, she said women and girls of all classes must be taught the necessity of personal cleanliness, sensible clothing and, as far as possible, open-air life. More washing, less powder and paint, more fresh air, but better protected bodies,

SAVED FROM LIFELONG MISERY

And a Dangerous Operation, by Taking "FRUIT-A-LIVES"

MRS. M. J. GORSE
8928 Union St., Vancouver, B.C.
"I suffered with all the symptoms of Female Trouble, with chronic Constipation and constant Headaches. I had pains low down in the back and sides of the body. I tried various remedies without relief, and then put myself under a doctor's care and he advised me to have an operation. I refused.
Then, I started taking 'Fruit-a-lives'; and from the outset, I felt better, and this medicine has completely relieved me of all my misery and suffering. My weight was only 143 pounds and now it is 168 pounds. I am free of pain and headaches and the terrible Constipation; and what saved me from misery is the splendid fruit medicine, 'Fruit-a-lives'."

MRS. M. J. GORSE.

would do much to improve the stamina of the mothers, past and future. In the interest of coming generations, too, it was obvious that all possible teaching on the subject should be given in the schools. As a "home bird", she pleaded for the homes of England. There was the necessity for thoughtful reconstruction in housing, and more sunshine, better ventilation, labour-saving devices, and the simplest of up-to-date drains must tend towards healthier homes.

Not What He Thought.
Mortified Bridegroom: "You told me your father's wedding present would be a cheque for four figures."
Blushing Bride: "Well, isn't £10 10s four figures?"

City Manager Best System For A Municipality

(Financial Post)
While the members of the Canadian Club of Montreal were applauding an address in favor of a Commission form of Government and a civic manager the city council was overhrowing a motion for the temporary suspension of the functions of the council, while the civic Administration still remained in office. Meanwhile the civic Commission will continue in office for two years more, sharing to some extent the powers of civic government with the City Council.

The address in support of the City Manager plan was delivered by Clinton Rogers Woodruff, secretary of the National Municipal League of Philadelphia, who declared that this form of municipal government was in force in 125 cities in the United States, and not one of those who had adopted it had given it up. He believed it was certain to spread to a large number of others. In association with the city manager would be an elective commission of five or seven men as legislators whose will would be carried out by an efficient manager. Germany had secured a certain efficiency in municipal government, but not democratic government of the municipality. The work of the city manager in association was a very remarkable contribution towards the development of municipal democracy. The managers were chosen because they had demonstrated their efficiency and ability to carry on municipal affairs. There had always been a recognition of specialization in the professions, why not in the highly important matter of governing the lives and welfare of the citizens? Now men were being developed who were as secure in their tenure of this municipal profession as a doctor or a lawyer in his profession. Such a system ensured permanency, and gave the manager a chance to work out the important social and other problems of the city's life.

"Municipal efficiency is not new, but municipal efficiency under a democracy is new. There is no reason why these should not be synonymous. There is a difference between the city running the citizens and the citizens running the city. This latter is the very essence of democracy. There is no doubt that the German results in municipal administration exceeded those in America. But who wants a good government imposed from above or from without? In that book of his on "What Happened in Europe," Frank Vanderlip, in dealing with America's opportunity—and he meant Canada's as well—declared that never before was there such a necessity for sound citizenship. If war demands self-sacrificing co-operation, peace demands it equally. It is not, what can the Government do for me, but what can I do for the Government?"

Thanks to the prompt action of the United States Government, Mr. Woodruff declared, in the recent Federal coal strike, the danger had been averted. But the feeling that gave rise to the strike still existed and unless the situations were met in a very different way the condition would be very serious. There must be a recognition of community life. There must be new standards created of comfort and general living. There must be a working co-operation of all parties; the people must be worked into the warp and wool of citizenship. There would be no satisfactory solution unless men, women and children were inspired with the feeling that they were all a part of the Government. "Speak not of your rights; think of your duties."

"When preparing to go anywhere I never ask my wife if she is ready."
"What's the idea?"
"A woman is never ready. I ask if she is nearly ready."—Louisville Courier-Journal.

SOUR, ACID STOMACHS, GASES OR INDIGESTION

"Pape's Diapepsin" neutralizes excessive acid in stomach, relieving dyspepsia, heartburn and distress at once.

Time it! In five minutes all stomach distress, due to acidity, will go. No indigestion, heartburn, sourness or belching of gas or eructations of undigested food, no dizziness, bloating, foul breath or headache.
Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest stomach sweetener in the whole world, and besides it is harmless. Put an end to stomach distress at once by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder caused by fermentation due to excessive acids in stomach.

Relieve Your Rheumatism For 25c.

NR does it by improving digestion, assimilation and elimination—the logical way.

NR Today—Relief or No Pay

There are three vital processes of human existence—the digestion of food, the extraction of nourishment from it and the elimination of the waste.

Let anything interfere with these processes—let them be interrupted or improperly carried on, and sickness follows.

Poor digestion and assimilation means failure to derive full nourishment from food and that in turn often means impoverished blood, weakness, anemia, etc. Poor elimination means an accumulation of waste matter which poisons the body, lowers vitality, decreases the power of resistance to disease and leads to the development of many serious illnesses.

Rheumatism—due to some interference with the process of elimination, failure to get rid of certain body poisons—cannot be expected to yield to any medicine that fails to correct the condition responsible for it. Could any reasonable person expect to rid himself of rheumatic pain as long as

rheumatic poison is allowed to remain in the body.

Think of this. It explains the success of Nature's Remedy (NR Tablets) in so many cases where other medicines have failed. Thousands are using NR Tablets every day and getting relief. Why pay five or ten times as much for uncertain things? A 25c box of Nature's Remedy (NR Tablets), containing enough to last twenty-five days—must help you, must give you prompt relief and satisfactory benefit, or cost you nothing.

And Nature's Remedy is not only for the relief of rheumatism. It improves digestion, tones the liver, regulates kidney and bowel action, improves the blood and cleanses the whole system. You'll feel like a new person when you've taken NR Tablets a week. You've tried the expensive medicines and doctors, now make the real test. You'll get results this time. Nature's Remedy (NR Tablets) is sold, guaranteed and recommended by your druggist.

The Ideal Bathtub for Baby

EDDY'S Indurated Fibreware Wash tub is just the thing for baby's bath. Besides being light, easy to handle and unbreakable, it has a surface which cannot cause injury—no cracks, no joints, no nails or rivets. It is moulded in one piece and unlike wood, it cannot splinter or come apart. It is much superior to metal because it

cannot dent or rust. Metal tubs quickly absorb heat and are liable to scald baby's skin, even after cold water is added. In a like manner, the skin and also cause the water to cool quickly. Eddy's Indurated Fibreware does not radiate heat or cold and is quite safe. For the same reason it keeps the water warm longer.

Freaks of Lightning

Scientists are inclined to pooh-pooh the idea that lightning makes "pictures" on the bodies of its victims occasionally, a further example of which was quite lately quoted. A man was struck while sheltering under a tree, and the newspapers told how at the inquest it was reported that a photographic likeness of the tree was imprinted on the man's skin.

Four people were sitting in a room, when they were all rendered unconscious by a flash which cut in a tree outside. They all recovered eventually, but one of them, a child, was found to bear on its body the imprint of the whole tree. Every limb, branch and leaf, even the severed

portion were said to be visible. In a month's time the impression had totally faded.

Some time ago the "Lancet" discussed this subject, and incidentally gave some interesting instances. Of course it was skeptical. It mentions the case of a woman who was struck when minding a cow. The cow was killed, and the woman rendered unconscious. On her breast was seen a representation of the cow. The paper remarks, "Here a healthy skepticism is reasonable, for the picture of the cow was only seen by peasants."

But a still more interesting story is told. It appears that in the summer of 1865 a doctor was returning home by train, and he found, on alighting at his wayside station, that his purse

was missing. It was of tortoise shell. On one side it had a monogram of two D's intertwined.

Some days later this very doctor was called to see a stranger who had been found unconscious under a tree struck by lightning in a recent storm. To his huge surprise he found imprinted on the man's thigh his own monogram, the intertwined D's! Instead of jumping to the conclusion that there was something "spooky" about this occurrence, the doctor asked the hospital authorities to look at the man's pocket, and they were probably find his lost purse.

The guess proved correct, and "Lancet" observes, "The monogram being of metal, was a good conductor, so we can imagine how its image was impressed on the skin. Similar cases are recorded of the imprinting of money and other metallic objects on the skin by lightning strokes, and it is common to find burns on the body over metallic bodies, such as watches."

One of the commonest freaks of lightning is to strip its victims of their clothes. About twenty years ago three women were standing round a reaping machine, when one of them was struck by lightning and killed. The other two were injured, and were both stripped absolutely naked, even to their boots!

At Ashford, in Kent, a man was struck while standing under a willow tree. He was found lying on his back two yards away from the tree, his left leg broken, conscious, but badly burned, and the field was strewn with fragments of his clothing.

Sometimes lightning performs rather comical freaks. It was recorded just before the war that a certain mansion in Wales had been struck by lightning, which saved the servants the trouble of lighting a fire! The chimney was struck, and the fuel laid in one of the grates was ignited.

In the same severe storm a house at Northwick was struck twice, at the front first, and then at the back. The second flash denuded a scrubby bush of all its bristles. Many instances are on record of hair and beard being shaved off by lightning, while the rest of the body was practically uninjured. Sometimes the hair returns, and sometimes the part is permanently bald.

Sometimes lightning is strange selective. One will be taken and another left. Quite recently two sheep were killed under a tree, but the number sheltered was over four, and those killed were by no means all in a bunch. But a stranger instance is reported. Lightning entered a stable containing twenty cows. The first, third and so on were killed, the second, fourth and so on escaped.

Two friends were going round links together recently, when a storm came on from which they took shelter in a corrugated iron building. One of the golfers sat near the door, and while waiting for the passing of the storm commenced to cut up an old golf ball with a knife. A very vivid flash struck the knife, melted the blade, made a deep hole in the ball and scorched the golfer's fingers and hand that was all!

"CASCARETS" WORK WHILE YOU SLEEP

For Sick Headache, Sour Stomach, Sluggish Liver and Bowels—Take Cascarets tonight.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the same stop to untold misery—indigestion, flat gases, bad breath, yellow skin, morose fears, everything that is horrible and nauseating. A Cascaret to-night will give your constipated bowels a thorough cleansing and straighten you out in the morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.

"The Home of the Grafonola"

"The Home of the Grafonola"

Join Our 1919 Christmas GRAFONOLA CLUB

Have Your Grafonola Now--or Later if You Wish

Good as has been the Club plan in former years, it has been made more attractive this time by offering Club members choice of any style of Grafonola, and while there will be no limit set as to the number of memberships, we are urging everyone to make an early selection, as no doubt any marked preference for any particular model of Grafonola may quickly exhaust the supply, and thus limit the choice.

To open the Club with a rush to-morrow we are offering the fine outfit illustrated here on very special terms for a single day.

Grafonola
Record Cabinet
together with
6 Selections

For **Only \$5 Down**

---Sent Home to You Without Delay

It's a Grafonola of unusual merit, having most of the good features found in instruments of two and three times the price—such as new bayonet-joint tone arm, Columbia tone-control leaves, Columbia reproducer, speed regulator, start and stop device, etc., etc. It has powerful motor and plays two selections at one winding, and is enclosed in handsome oak case. Record cabinet has capacity for 60 disc records.

Get Your Order in Early To-morrow

NO NEED TO WAIT A DAY.
It requires only a small sum (based upon the instrument you choose) to join the Club.

Price of Outfit
Including Grafonola, Record Cabinet and Six Selections---all for **\$49.75**

All we ask is that you pay us \$5 down to-morrow to join the Club, and agree to pay balance of purchase price in small weekly dues afterwards. We send the complete outfit—Grafonola, Record Cabinet and Records, as included above—to your home at once. You pay for it while you are getting your enjoyment from it.

One Gift to the Whole Family

A good idea, adopted by many homes in former years, is for all members of the family to contribute an amount agreed on, and in this way, without anyone assuming a heavy burden, bring into the home one of the finest models of Grafonolas.

But Join the Club, and Let This be the Merriest Christmas of All.

Alliance Ask For Plebiscite

Fredericton, N. B. Nov. 18—The New Brunswick branch of the Temperance Alliance opened its annual meeting here this morning in the Baptist church. Rev. Thomas Marshall occupied the chair until President Donald Fraser arrived. The report of the executive presented by Rev. Thomas Marshall was received. Secretary Rev. C. Flemington was unable to be present, and Rev. Mr. Boothroyd acted in his place.

The report of the field secretary referred to the evil reaction upon the prohibitory act of the use of extracts and similar liquids as beverages. Since the beginning of the war there had been a great expansion on the work of the alliance.

Vice-president Thomas Marshall in the report of the executive referred to the immense strides made by the prohibition movement in Ontario, Quebec and the United States since the convention held in last December. In New Brunswick there had been organization work and law-enforcement chiefly under the leadership of Rev. Mr. Boothroyd, field secretary. The absence of legalized sales for beverage purposes and the reduction in drunkenness showed well that the effort of the alliance had been crowned with success. There had been a marked absence of drunkenness at public gatherings, such as exhibitions, races, etc.

The reference in the report to the legalizing of issuing of prescriptions for liquor by physicians caused considerable discussion. Reference was made to the fact that in Ontario five doctors and two others had been suspended as far as their powers were concerned, for the illegal issuing of prescriptions. The statement was made that in certain small places druggists issued more prescriptions for liquor than did physicians in larger centres. The report also stated that there was evidence that lemon and other extract was being prepared by druggists for beverage purposes. President Fraser asked if there was not a way in which such manufacture of extracts could be stopped. This matter was left to the committee on resolutions.

Rev. Mr. Marshall said that the decrease in drunkenness had been so apparent that the result of the referendum on prohibition could be plainly seen.

Objection to Course
The report also stated that in several localities there were magistrates who did not seem to be willing to cooperate with prohibition officials. In some cases deposits of \$200 were accepted from those accused of violating the law and forfeited on non-appearance. Upon prosecution for a

Prince's Farewell Message to Canada

Ottawa, Ont., Nov. 25—"I can never forget it, nor can I express the whole of my deep gratitude for the open-hearted welcome which my Canadian comrades in arms and all my Canadian fellow countrymen and women have given me." The foregoing from a farewell message from His Royal Highness, the Prince of Wales, which has been received by His Excellency, the Governor General:—

The message follows:—
"H. M. S. Renown, Barrington Passage.

The Renown is weighing anchor and I feel that my first visit to Canada is really at an end. I can never forget it, nor can I express the whole of my deep gratitude for the open-hearted welcome which my Canadian comrades-in-arms, and all my Canadian fellow countrymen and women have given me.

"Will you please convey this message of thanks, most inadequate though I be, to Sir Robert Borden and the whole Dominion Government, whose care and hospitality throughout my visit have been so generous and so kind. The last four months will influence the whole of my life and I shall never be happy if many months elapse without a visit to my home on this side of the Atlantic.

"My best wishes to all the people of Canada till we meet again.
(Signed) "EDWARD P."

Ottawa Merchants Complain of Prices

Ottawa, Nov. 25—Complaints of Ottawa retail clothing merchants that the Board of Commerce order as to men's clothing designed to come into effect on January 15 would operate harshly against them will be fully investigated. The Board has ordered a full public investigation into the costs and profits of all retail dealers of clothing within the city of Ottawa. As a result of this investigation the price order may or may not be altered to Ottawa.

This investigation will be held before Commission O'Connor and Murdoch in the court room of the Board of Commerce, Robinson Building, at 10.30 on the morning of December 4. If the net profits of the Ottawa dealers are found to be greater than those prevailing in Toronto, where the proposed order was accepted, the net margin or profit allowed to the dealers in Ottawa will be less than in Toronto. If the Ottawa merchants' profits are found to be less, such order will be made with respect to them as justice may require.

similar case at a later date the accused was able to say that he never had been convicted previously and so escape the heavier penalty for a second offence. The opinion was expressed that warrants should be issued to insure the appearance of the accused.

Chief Inspector W. D. Wilson referred to several cases in which no decisions had been given by magistrates. The report was adopted section by section.

The New Brunswick branch, Dominion Alliance, held its final session here this afternoon, re-electing the former officers and executives and passing a number of resolutions. Among the latter were resolutions calling upon the provincial legislatures at its next session to request the dominion government to hold a referendum in New Brunswick on the question of prohibition, also expressing the opinion that the only logical action on the part of the dominion government in the view of prohibition sentiment was the immediate enactment of an act prohibiting the manufacture and importation of intoxicating liquor for beverage purposes, also expressing the opinion that there should be stringent provincial regulations, against the use of extracts, essences and tinctures as beverages, also endorsing the intoxicating liquors act 1918, and the work of Chief Inspector W. D. Wilson.

The officers elected are: President, Donald Fraser, Plaster Rock; vice-president, Rev. Thos. Marshall, Fairville; secretary, Rev. F. E. Boothroyd, St. John; treasurer, W. G. Clarke, Fredericton; members of executive, Rev. Mr. McLean, Rev. J. S. Sutherland, Rev. A. D. McLeod, Rev. Archie McLeod, Rev. G. C. Warren, Rev. Z. L. Faab, Rev. L. E. Ackland.

A resolution expressing regret at the absence of the secretary, Rev. Chas. Flemington, on account of his wife's illness, was passed.

Plot To Kill Venizelos

Athens, Nov. 24—Plotters arrested following the discovery of conspiracy to assassinate Premier Venizelos, overthrow the present regime and re-establish King Constantine on the throne have made full confessions, according to the authorities. They were formerly officers under King Constantine, it is said. They will be tried before court martial. A number of the opposition leaders visited M. Respoulis, the minister of the interior, yesterday and offered to co-operate with the government in combatting sedition. The public remains calm.

Notice To Canadian Fur Shippers

"SHUBERT"—A CANADIAN HOUSE For the convenience of Canadian Fur Shippers, "SHUBERT" is operating a Canadian Fur House—A. B. SHUBERT, LTD., 324 Donald Street, Winnipeg, Manitoba, Canada. This procedure (says Mr. A. B. SHUBERT, President of A. B. SHUBERT, LTD., Winnipeg, Canada) was due to an increasingly large amount of new Canadian Shippers each season and since "SHUBERT" has always had "THE SHIPPERS INTEREST" at heart, we make these connections so that we may be closer to "THE CANADIAN FUR SHIPPER" thereby giving him advantages which could not very well be applied such as RETURNS—"QUICKER", "BETTER SERVICE", CLOSER CO-OPERATION and always LIBERAL GRADING—HIGHEST MARKET PRICES. "SHUBERT" requires no introduction to the CANADIAN FUR SHIPPER, having been in the field satisfying Fur Shippers for over thirty-six years. "SHUBERT" is now prepared to give CANADIAN FUR SHIPPERS—"BETTER SERVICE" than ever before. CANADIAN FUR SHIPPERS are kindly requested to address all inquiries or communications to A. B. SHUBERT, LTD., 324 Donald Street, Winnipeg, Canada.

IN MEMORIAM

Written in loving remembrance of
Cortney Matchett
My country called me, "Mother,"
At the opening of my years,
My heart was all a boys, "Mother,"
And my soul was filled with fears.
But the road was mapped before me,
And they said I was a man,
To protect my countries honor,
And the fairest of the land.
So out across the waters
On a bitter winter day,
All of us who joined the colors
Were so swiftly borne away
And soon we made a landing
On another shore of fame
And shortly drifted onward,
To that awful land of flame.
My country called me, "Mother"
And my years are all gone by,
My heart has no more anguish,
And my soul will upward fly
For the road is mapped before me,
And my Elder Brother waits,
With a loving hand to welcome
Us soldiers through the gates.
Composed by his friend
Meta McConnell
Sh-h-h-h.
Dick—Harry has dyed his hair
black. Don't say I told you.
Tom—Why?
Dick—He wants to keep it dark!

3,500 PERSONS IN CANADA WROTE CIVIL SERVICE EXAMS

Ottawa, Nov. 26—Seven hundred candidates are writing on the examinations being held today in Ottawa for positions in the civil service as clerks and stenographers. This is a record. The majority of those writing on the papers are returned soldiers. Quite a number of these are already in temporary government positions. The examinations are being held today from coast to coast under the direction of Mr. J. R. A. Baril, chief clerk in examination branch of the civil service commission. Thirty-five hundred persons are writing in Canada.

Notice To Returned Soldiers

By Order-in-Council, dated October 16, 1919, no ex-members of the Canadian Naval or Military Forces shall be entitled to the benefits of re-training under the Department of Soldiers' Civil Re-establishing, unless application for courses of retraining is made within three months from the 1st day of November, 1919, provided that where the date of retirement or discharge of any ex-member of the Canadian Naval or Military Forces is subsequent to the 1st November, 1919, provided also that where an ex-member of the Forces has been transferred or passed directly from the Department of Militia and Defence to the Department of the Naval Service to the Department of Soldiers' Civil Re-establishment for a continuation of treatment such ex-members of the Forces shall be allowed three months from the date of retirement or discharge or from the completion of such treatment in which to make application for the benefits of such re-training. Applications for re-training, of soldiers eligible in New Brunswick, should be addressed to: "District Vocational Officer, D. S. C. R at one of the following addresses, which ever is nearest to home of applicant:— Fredericton Hospital, Fredericton, N. B.; Merchants' Bank Building, Prince William Street, St. John; or 100 Queen Street, Moncton, N. B. 46-3.

Mrs. Phillips, to Tony, who has just come home after his first day at a kindergarten school:
"Well, dear, and how do you like going to school? I suppose you are the youngest of all the little boys, aren't you?"
Tony (indignantly) "I'm not, mother! Two of our fellows come in perambulators!"

MRS. TOM THUMB DIES AT ADVANCED AGE OF 78 YEARS

Boston, Nov. 26—Countess Lavinia Magri, known as Mrs. Tom Thumb throughout the world by patrons of theatres and traveling shows, and said to have been presented to more members of the royal families than any other person, died yesterday at her home in Warrington, after a long illness. She was seventy-eight years old. She was born in Middleboro, within a short distance from the house in which she died. Her parents were large, while her four brothers and two sisters were larger than the average.

LUMBERMEN ASK UNIFORM SCALE FOR PROVINCE

A delegation of lumbermen met the provincial government last Friday evening and urged the establishing of a uniform scale for New Brunswick. It was pointed out by the delegation that at the present time there was no stumpage scale laid down for the province but its establishment would tend to make the market more stable. Although the lumbermen did not urge any specified term of years, it was pointed out that in Quebec a rate of \$1.00 had been fixed for five years with an increase of thirty cents for an additional five years.

The lumbermen present were: Angus McLean, F. M. Anderson, W. B. Snowball, James Robinson, Stanley Douglas, J. W. Brankley, F. C. Beatey, Donald Fraser and Mr. McLellan, secretary of the association.

No action has yet been taken by the government. Further sessions are to be held today when other business of importance is to come before the government.

When the right young man calls on a pretty girl the bold man doesn't have to squander any of his hard-earned cash for a patent gas saver.
She—"George, you looked awfully foolish when you proposed to me."
He—"Well, very likely I was."

Notice To Advertisers

The co-operation of advertising patrons is requested in the direction of getting "copy" into the office on or before 5.30 p. m. on Monday. Very often the receipt of a large advertisement or even regular changes after that hour serves to dislocate the regular work of getting the paper made up in time to catch the mails—and not infrequently such ads. are at the last moment left out.

This situation is not of service to either the advertiser or our readers and we, therefore, request that copy be received in the office before 5.30 p. m. on Mondays.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try It! Hair gets soft, fluffy and beautiful—Get a small bottle of Danderine.

If you care for heavy hair that glitters with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast. Surely get a small bottle of Knowlton's Danderine from any drug store and just try it.

Scene from "The Heart of Humanity" Happy Hour, Thursday, Dec. 4th

Vocational Training School Meeting

(Continued from page 1)
 a need of it. There was a large number of people who did not grasp their educational opportunities when young and they now realize the mistake which they had made. One of the greatest principles in life was for one to assist another and if people needed educational help, every one should endeavor to give them the required assistance.

One of the best things any person could have was a good education, and if we could make our young men and women more proficient it was our duty to do so. He was interested in the local conditions and would do all he possibly could to better them. The expense attached to vocational schools was very small indeed, and there was only one way of knowing its true worth, and that was by giving it a trial. He advised the citizens not to throw cold water on the venture before giving it a fair trial, and he emphasized the fact that nothing was ever given a fair trial until outside sentiment was behind it. If the town produced more efficient men and women, we would be producing one of the best assets that any community could have, and in conclusion said that so far as he was concerned he was prepared to pay his share of increased taxation.

Mrs. Chas. Sargeant thought the ladies of the town were all in favor of the movement and they would do all they could to support it.

Mr. E. A. McCurdy was heartily in favor of the movement and felt the Provincial Government deserved credit for starting such a beneficial movement as this one was. As a member of the Board of School Trustees and as a citizen he was prepared to assist in any way possible. He was pleased to see such a large gathering of representative ladies and gentlemen, which definitely proved they were in sympathy with the movement.

The expense to be incurred in establishing evening classes was very small and he felt positive the citizens would give their hearty support to the undertaking.

Mr. J. R. Lawlor was in hearty support of the movement, but he hoped if Newcastle wanted the evening school, that those in charge would not be subject to the same criticism as that accorded the Board of School Trustees.

It was moved by J. R. Lawlor and seconded by H. H. Stuart that the Town Council be asked for a grant of \$500.00 for the establishing of a Vocational Training School in Newcastle and was carried unanimously.

Rev. F. T. Bertram, said, he felt this was one of the greatest investments ever offered. He would like to see these vocational evening classes opened in Newcastle if only for the moral good which they would produce. He was heartily in favor of the movement.

His Worship the Mayor called on Dr. R. Nicholson for his opinion and the Doctors' response was "I NEVER SAY, I WORK."

Ald. Durick said he listened with interest to Professor Peacock's address and he was heartily in favor of any movement which was along more advanced educational lines. He was pleased the government at last was willing to do something for education and he hoped within the near future that the government would also realize the necessity of paying more for common school education than they are now.

Mr. J. D. Creaghan said he was in favor of the movement and did not think the increase in taxes which would be incurred would injure any person. He was surprised at the alarming statements made by Professor Peacock regarding the small percentage of High School attendance. He had attended the meeting in appreciation of the Governments' move in this matter.

Mayor Doyle and Professor Peacock apologized for the non-appearance of Mr. Fred Magee, who had been advised to take part in the meeting.

Mr. Peacock explained that Mr. Magee was on his way to Ottawa which made it impossible for him to attend, but he would be greatly pleased when he learned that Newcastle proposed taking the matter up.

In answer to questions asked by Mr. T. H. Whelan, Professor Peacock said that no child under 16 years of age would be admitted to the evening classes. That the teachers are selected by the local committee subject to the government's approval, and the best persons for such teachers should be chosen. He also said a Director was appointed, who had capabilities as an organizer and manager, to see that an interest was manifested in the work and a success of the movement made possible.

Mr. T. H. Whelan felt it would be

very difficult to get a good teacher in agricultural subjects, as we had very few good farmers. He was somewhat amused recently when he read an account of an agricultural meeting which was held, to see that the society was composed mainly of a Hardware man, a Jeweller, Livery Stable man, and a few others who had other callings other than that of agriculture. He was quite positive that teachers of that kind would be absolutely of no use.

Mr. H. H. Stuart brought up the matter of teaching Domestic Science and Manual Training in the Public Schools, and moved that the meeting request the Board of School Trustees to endeavor to have these subjects taught in the Public Schools in the near future. Mr. T. H. Whelan seconded the motion and said that he thought Manual Training was one of the best subjects which could be taught in the common schools as it tended to broaden the minds of boys, and at the present time the boys came out of school knowing practically nothing about anything.

Mr. J. R. Lawlor thought the mover and seconder of the motion were out of bounds. At present the School Trustees were doing all they possibly could and were \$7000.00 in debt, and he would strongly advise the meeting not to leap too far. The assessment for educational purposes was now \$16,000 and if these subjects had to be taught, the assessment would be more like \$26,000. He said a plebiscite would probably be held in the near future for the issuing of bonds to complete the school and pay the present debt.

Mayor Doyle ruled the motion of Mess. Stuart and Whelan as out of order.

Dr. F. C. McGrath said he wished to move that in matters of Vocational and Technical Training the Federal Government be asked to pay 1/3 of the funds, the Provincial Government 1/3 and the Municipal Authorities 1/3. He said his idea in putting this motion was to get an expression of opinion from the meeting regarding the amount to be paid by the Federal Government. This motion was seconded by Mr. E. A. McCurdy who felt that the Federal Government would benefit materially from such education. He stated that the Federal Government was now assisting in some localities with technical education, and should also help along vocational lines. The motion carried unanimously. Professor Peacock stated that Chatham was starting their school with a six class program, viz.

Cooking, Sewing, Mechanical Drawing, Motor Mechanics, Log and Lumber Surveying, and Preparatory Elementary Subjects.

Fredericton had a program about twice as large, and in addition to the above subjects they were teaching, Typewriting, Stenography, Industrial Stitching, Millinery, and had a class of 50 in Commercial subjects. Bathurst was also opening up classes in Electricity, Carpentry and French.

St. John had opened up a class in the Building Trade of 12 courses.

He said the nature of the classes to be opened in Newcastle might be left to the local organization. So far they had no difficulty in obtaining teachers who were being paid \$2.50 per night.

Mr. A. L. Barry moved and was seconded by Mr. J. R. Lawlor that a committee of 5 be appointed to meet the Town Council at their next Regular meeting to put forth the views of the meeting in regard to this matter.

Mr. D. A. Jackson suggested as an amendment that they meet the Town Council at a Special Session as the regular meeting would not be held until late in December.

The amendment carried. Professor Peacock stated that things were now in such shape that he felt positive they would be prepared to open up the school on Jan. 5th 1920, and he would forward to the Mayor, pamphlets, showing information regarding what other places were doing.

Rev. W. J. Bates moved that the Mayor, E. A. McCurdy, A. L. Barry, Mrs. S. A. Demers, and Mrs. Chas. Sargeant, compose the committee to meet the Town Council to express the views of the meeting. Carried.

Mr. H. H. Stuart moved a hearty vote of thanks be tendered Prof. Peacock.

Adjourned.

Men who served in the American and Austrian armies acted as technical assistants to Allen Holubar in the screening of "The Heart of Humanity," the thrilling nine-reel picture of love and war in which Dorothy Phillips is appearing this week at the Happy Hour theatre. The blowing up of trenches, the firing of huge star shells, the flashing of machine guns at night—are shown with a realism that only first-hand knowledge could provide.

Don't Put off Till Tomorrow the Christmas Shopping

You Can do at Creaghans To-Day

Fashionable New Ready-to-Wear

As the advertisement is being written our Ready-to-Wear section is crowded with shoppers eager to see the New Styles and delighted with them. Mr. Daniel Cart of Montreal and Mrs. Chas. McEachern, of Wedden, and Mrs. D. H. Atkinson, of Chatham, returned from a motor trip to the Miramichi on Monday.

Miss Maud Atkinson left Friday for a visit to Saskatoon and Vancouver.

Mrs. Robert Swezey of Boston, was the guest of Mrs. Annie Swezey last week.

Mr. and Mrs. John Dennis have removed to Campbellton, where they will reside in future.

Mr. George Courds left last Friday for Saskatoon, Alberta, and will be absent from town until the New Year.

Mr. and Mrs. George McEachern and family of Nelson left last week for New York where they will spend the winter.

WEDDINGS

VICKERS-GORAL

In the Cathedral, Fredericton Thursday morning Miss Martha Vickers, of Blackville, N. B. was united in marriage to Alexander Goral, by Rev. A. P. Allen. Many friends extend hearty congratulations to Mr. and Mrs. Goral.

SAUNDERS-McCOOMBS

A very quiet wedding was solemnized at St. Patrick's church, Nelson, N. B., on Saturday evening, Nov. 29th when Rev. Fr. Power united in marriage, Miss Irene McCombs of Nelson, N. B., and Mr. Leltoy Saunders of The Fraser Lumber Co., Ltd.

Mr. and Mrs. Saunders left on the Maritime Express for Montreal and Upper Canadian cities. On their return they will reside in Campbellton.

MCCOSH-HECKBERT.

Chatham, Nov. 26.—The home of Mr. and Mrs. S. D. Heckbert was the scene of a very interesting event this morning at 9 o'clock when their eldest daughter, Miss Flossie Belle, became the bride of William Dudley McCosh, son of Mr. and Mrs. James McCosh, Douglastown. The bride was given in marriage by her father and was unattended. The ceremony was performed by Rev. H. S. B. Strathard, pastor of St. Luke's Methodist church. The bride was attired in a traveling suit of navy blue serge, with seal trimmings, and a large black hat, faced with grey and gold ornaments, and wore a handsome black fox fur, the gift of the groom. She carried a bouquet of pink roses and maiden hair fern. The wedding march was rendered by Miss Gwendolyn Watters. The house throughout was prettily decorated; the large bay window in the drawing room was banked with pink chrysanthemums and potted plants; from the windows an evergreen arch was arranged from the centre of which hung a floral bell, beneath which the young people stood immediately after the ceremony, a wedding breakfast was served in the dining room to the immediate relatives and a few friends of the contracting parties. The happy young pair motored to Newcastle and left on the accommodation on a tour of the maritime provinces, followed by the best wishes of hosts of friends. The handsome array of cut glass and silver attest to the popularity of the young couple.

DUKE'S TRAIN IN COLLISION.

Montreal, Nov. 26.—The special train of the Duke of Devonshire, governor-general, collided with a freight at St. Cyrille, sixty miles from Montreal, on the C. N. R. this morning. The duke and his suite were returning from Halifax, no one was injured. The engine on the duke's train ploughed through the caboose of the freight.

The film was over eleven months in preparation.

The actual cost of production amounted to about \$335,000.

Sergeant Sidney Fellers of the Canadian army and Eric von Stroheim of the Austrian army gave Director Holubar technical military assistance.

Over 200,000 feet of film were used to obtain the eight reels comprising the feature as it is presented.

Over 30,000 feet of battle scenes were taken.

One thousand and forty-seven extras were used in the scenes.

For Christmas

We are Showing a Line of Goods that is far too big to tell you much about—If you will come and look it over, you will need no argument to convince you that our Collection is Choice and Exclusive.

"THE HEART OF HUMANITY"

THE PICTURE THAT WILL LIVE FOREVER.

Direct from its Sensational Run in New York

A picture you'll never forget. Stupendous in theme, a veritable revelation of unending wonders— A romance of the great war, a story of the love that passeth all understanding.

Featuring the great star

DOROTHY PHILLIPS

Every Father--

Every Mother--

Every Mother's Son and Daughter should see

The Heart of Humanity

Conceived with a skill and intelligence that lifts it high above its contemporaries. So stupendous that it claims a distinction all its own--New York Evening Mail.

A distinct achievement in Motion Picture Creation--New York Times.

One of the most stirring ever presented in New York--New York Evening World

"Love Can Never Lose Its Own"

Love is the mentor of all creation. Love is that golden link which unites the sweethearts of the world. Love sends the soldier to fight for his country.

Love of the mother for her children binds the throne of God to his footstool upon the earth.

Love it is which triumphs over evil and restores the world to tranquil peace. These and greater loves than these are centered in The Heart of Humanity.

Forcing Bulbs In The House

Bulbs when properly forced make splendid plants and come into bloom during two of the winter months which most need the brightening effects of their rich colours. "Bulbs" is a general term which includes Narcissus, Early Tulips and the more recent Darwin Tulips noted for their elegance of form and range of rich colours.

After bulbs have been potted the next essential is to induce an abundance of root growth as quickly as possible. The proper root development will determine the subsequent size, vigor and lasting qualities of the flowers. Explicit advice in this connection is, first, choose as the storage place for the pots the coolest, darkest and dampest part of the cellar—or the vegetable storage room—is very suitable. Second, provide a condition which approximates as nearly as possible the condition they would have if planted in the ground outside. One thorough watering at the time of potting may be sufficient, but in most cases it is not, therefore water regularly as often as the top soil shows signs of dryness. Another method is to plunge the pots into damp sand and keep the sand moist. Provided the place is not too cold, or they are not kept exceptionally wet, rooting will proceed satisfactorily, and towards the end of December the roots should begin to fill the pots. Third, after two months or ten weeks has elapsed bring the pots into a lighter place and water even more regularly and frequently. Allow them to make about three inches of growth and the growth to change to a good green colour then bring some of the pots into the full light and warmth. Very rapid and healthy growth should soon result.

A few words of advice as to what not to do. First, do not on any occasion place the pots too near the furnace or near the hot air outlets; dry, warm air is disastrous to healthy plant growth. It dries out the soil and hardens the roots; it stunts the foliage and shrivels up the blossoms. Second, do not over-water at any period; the soil should be kept always moist but never soggy and cold, and do not allow the pots to stand in pans of water.

Third, do not allow the plants to experience too violent temperature changes. At the time of rooting the temperature may range from 35 to 45 and after the plants are brought into the light it should range from 50 to 70. Higher temperatures during the day, due to combined furnace and sun heat, may not hurt the plants but they are apt to be materially injured if forced to experience several hours to dry, high temperature during the evening when they should enjoy the resting period always provided for them under natural conditions.

Flowers with little or no stem and plants with a stunted growth are due to improper forcing methods. Bulbs appreciate the sunshine and when in the flowering stage also respond to and should have abundance of water.

THE JOY OF MOTHERHOOD

Came to this Woman after Taking Lydia E. Pinkham's Vegetable Compound to Restore Her Health

Ellensburg, Wash.—"After I was married I was not well for a long time and a good deal of the time was not able to go about. Our greatest desire was to have a child in our home and one day my husband came back from town with a bottle of Lydia E. Pinkham's Vegetable Compound and wanted me to try it. It brought relief from my troubles. I improved in health so I could do my housework; we now have a little one, all of which I owe to Lydia E. Pinkham's Vegetable Compound."—Mrs. O. S. JOHNSON, R. No. 3, Ellensburg, Wash.

There are women everywhere who long for children in their homes yet are denied this happiness on account of some functional disorder which in most cases would readily yield to Lydia E. Pinkham's Vegetable Compound.

Such women should not give up hope until they have given this wonderful medicine a trial, and for special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of 40 years experience is at your service.

Fainting

Fainting is a sudden weakness or loss of consciousness owing to a transitory fall in the circulation of the blood and the consequent anaemia of the brain. For some unexplained reason, fainting is not so common as it used to be in the early Victorian and mid-Victorian era. It may be because it is the fashion at present to wear corsets that do not greatly constrict the waist, or because young women live much more in the open air than they used to.

In an attack of fainting the person becomes dizzy and sometimes nauseated, his sight fails, his face is pale and often covered with a cold perspiration, his pulse is rapid and very feeble, and finally the sufferer falls and loses consciousness. In a few minutes consciousness gradually returns, and, after a brief moment of confusion, full consciousness and strength return and recovery is complete. Because a young woman does not fall heavily but chooses a "soft spot" and sinks gently into it is no reason for believing that she is shamming—fainting instead of fainting—for there are always premonitory symptoms that a person who has once fainted recognizes as a warning.

When fainting occurs in young adults it is not necessarily cause for alarm, unless the person is known to have disease of the heart or unless the attacks recur with great frequency. In the latter case there is a possibility or even probability that the person is suffering from the mild form of epilepsy known as petit mal. It occasionally happens that the heart

does not recover its strength; after an attack of fainting its beats grow weaker and weaker until death occurs. That is more likely to happen in the old, however, and is extremely rare in the young or in healthy adults.

Since the faint is owing to lack of blood in the brain, the first thing to do is to place the sufferer at full length with his head lower than his body if possible, and then to loosen the clothing about his waist and neck in order to allow for free circulation. Sprinkling his face with cold water and bathing the temples with eau de Cologne or brandy will often help. If the patient is able to swallow, you may give him half a teaspoonful of aromatic spirits of ammonia in half a glass of water, or a cupful of hot black coffee. The windows should be opened and air brought to the patient by fanning. Smelling salts should be used very cautiously, as too strong a whiff would be far from beneficial. If those measures do not prevail in a short time, you should summon a physician, for the condition may prove to be something much more serious than a faint.

Emergency Seed Supply

The consolidated balance sheet covering the operations of the Canadian Government Seed Purchasing Commission for the past three years, has been audited and found correct. The total sums advanced by the Department of Finance for the purchase of seed supplies, on requisition from the Dominion Seed Commissioner, amounted to \$11,896,540.96; and the total of refunds to the Receiver-General from the proceeds of sales was \$11,903,437.76. Net assets including seed grain in storage are valued at \$37,888.85. The salaries and expenses of the experienced Seed Purchasing Commission comprising the staff of the Commission were not charged against the cost of the seed. The order-in-council which established the Seed Purchasing Commission directed that the seed supplies should be purchased, stored, cleaned and sacked where necessary, and sold at the net cost as nearly as might be determined.

The business of the Commission covers the period beginning October 1916 and ending September 1919. It includes the purchase and sale of seed wheat, oats, barley, rye, corn peas and beans, subject always to inspection as to the established grades for seed grain which were provided under the Seed Control Act. Inspection was administered by the Seed Inspection Division of the Seed Branch. Every car lot of seed purchased or sold was examined by seed inspectors, and samples were submitted for tests as to purity and germination by the Dominion Seed Laboratories at Ottawa, Winnipeg or Calgary. Delivery consisted of bill of lading, licensed weighman's certificate, seed certificate and sight draft.

This system of meeting emergency seed situations was adopted on the recommendation of the Seed Commissioner. It is based on the establishment of official seed grades for grain, and on the principle that municipal governing bodies supported by their Provincial Government are in the best position to deal with the extension of credits to needy farmers.

SHOCK AT SON'S GOOD FORTUNE CAUSE OF DEATH

Toronto, Nov. 25.—The shock at the honor of the elevation of his son to the post of attorney-general of the province of Ontario is attributed to the death of Hermann Raney, aged eighty-four, father of the Hon. W. E. Raney, who was recently appointed to that important position in the Drury provincial cabinet. The body of Mr. Raney is being interred today in the little village at Autsville, in Dundas county. He died in Rochester last Sunday night at the home of his daughters there.

New Game Officer Appointed

Mr. R. W. Tufts, of Wolfville, Nova Scotia, has recently been appointed by the Civil Service Commission to the position of Game Officer in charge of a administration of the Migratory Birds Convention Act in the Maritime Provinces.

Under this Act the open seasons for migratory game birds and limited to a period of three and one-half months, and insectivorous birds and many birds are protected throughout the year. In addition, many of the species of shorebirds and the elder ducks are protected throughout the year.

Any person having these protected birds in their possession is liable to a heavy penalty, and any equipment used in capturing them illegally may be confiscated.

As Mr. Tufts will be supported by an able staff of deputy officers, any person who goes afield with a gun should be sure of the provisions of this federal law.

The Migratory Birds Convention Act is administered for all Canada by the Dominion Parks Branch of the Department of the Interior, and further information may be obtained by addressing the Commissioner of that branch at Ottawa.

A 'mob always thinks with its sympathy, never with its reason.

A soft answer may turn luck your way.

Many a woman smiles inwardly while crying outwardly.

HOW YOU CAN TELL GENUINE ASPIRIN

Only Tablets with "Bayer Cross" are Aspirin—No others!

There is only one Aspirin, that marked with the "Bayer Cross"—all other tablets are only acid imitations. Genuine "Bayer Tablets of Aspirin" have been prescribed by physicians for nineteen years and proved safe by millions for Pain, Headache, Neuralgia, Colic, Rheumatism, Lumbago, Neuritis. Handy tin boxes of 12 tablets—also larger "Bayer" packages, can be had at any drug store. Made in Canada. Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monoaceticacidester of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company, Ltd., will be stamped with their general trade mark, the "Bayer Cross."

A physician's famous prescription for internal and external use that has proved a blessing to humanity for over 100 years.

Johnson's Anodyne Liniment

A wonderfully soothing, healing and penetrating anodyne for Coughs, Colds, Grippe, Sore Throat, Chills, Cramps, Sprains, Strains, Cuts, Burns, Bruises, and many other internal and external ills. There is none "just as good" as this ever reliable old family remedy with over a century of success to its credit.

The Big Value in FLOUR

IN THE HOMES of the I people, far and near, "REGAL FLOUR" is known for its high and uniform quality; it is known as the most important factor in bread baking success.

THE ST. LAWRENCE FLOUR MILLS CO. LIMITED MONTREAL

**Ready in a minute—
the minute
you want it.**

A cup of OXO is a little between-meal-luxury that can be served quickly and daintily.

After shopping, or when cold after an outing, at bedtime or when fatigued; indeed on any occasion—a cup of hot OXO is just the thing—it warms one through and through, and—**quickly renews one's strength and vitality.**

OXO is a splendid safeguard against colds, chills and sudden changes of temperature. Before going out into a cold or damp atmosphere, always fortify yourself with a cup of OXO.

A Cube to a Cup.

Prices same as before the war: 10c., 25c., \$1.15, \$2.25.

A WEATHER FORECAST

While the goosebone and some other weather indicators found in nature have led people to believe that the coming winter is to be a mild one, Prof. Albert F. Porter, said to be a noted sunspot authority, comes along with a forecast that does not make exactly pleasant reading. Prof. Porter says that "owing to a strange grouping of six mighty planets, such as has not been in a score of centuries," the United States, which probably also means Canada and the rest of the continent, "will be swept during the month of December by the most terrific weather cataclysm experienced since human history began." The Professor fixes the date and has everything worked out to his own satisfaction. It is possible, of course, that some of the planets may slip a cog somewhere, and that the threatened disaster will not materialize—at least not to the extent predicted. Every year has its storm periods and December is a likely month. The Professor's forecast, which is going the rounds of the press is given for what it is worth:

It (the big weather blast) will be caused by the biggest sunspot on record—a sunspot that will be visible to the naked eye. Since men first began to make records of events no sunspot has yet been large enough to be seen without the aid of instruments. This one will be. The sunspot that will appear December 17th, 1919, will be a cast shadow in the side of the sun. It will be a leaping explosion of flaming gases, hundreds of thousands of miles into space. It will have a centre large enough to engulf the earth much as Vesuvius might engulf a football. Such a spot will be rich enough in electro-magnetic energy to fill the atmosphere of our earth planet into a disturbance without precedent or parallel.

There will be hurricanes, lightning, colossal rains before it will regain its normal weather conditions.

There will also be gigantic lava eruptions, great earthquakes, to say nothing of floods and cold. December 17-20 are the dates.

I make this startling prophecy with no desire to be merely sensational or alarming. It is merely because my study of the planets has revealed certain results with mathematical certainty, that I now say to you: Be warned in advance. Tremendous things are going to happen from December 17th to December 20th, 1919, and afterward.

Here are the simple yet astounding facts that enable me to make this prophecy; the planets in their orbit swinging in great eclipse about the sun. They are linked to the sun, and to each other, by chains of electro-magnetic energy whose repelling forces counteract each other and hold each other in its regular path.

Whenever two planets wheel into such position that they pull together on the sun—either in "conjunction" on the same side of the sun or in "opposition" with the sun between them their united pull causes the sun's gases to "explode"—to leap out into space in the whirling volcano we call sunspot.

These sunspots in turn cause storms in the atmosphere of our earth—doubtless on the other planets as well.

Two planets united are enough to cause a small sunspot and a small storm. Three causes a larger one—four makes a very great storm indeed.

But—on the 17th December, 1919, no less than seven will pull jointly on the sun. These will include all the mightiest planets, those with the most powerful pull.

Six of them, Mercury, Mars, Venus, Jupiter, Saturn and Neptune, will be in conjunction, grounded together in the greatest league of planets ever known in the annals of astronomy, massed in a narrow limit of twenty-six degrees, on the same side of the sun. Directly opposite, coming

into opposition with this gigantic league, will be the huge planet Uranus. The magnetic currents between Uranus and the six planets will pierce the sun like a mighty spear.

Our earth is outside the league at an angle of ninety degrees, in perfect position to receive almost the full force of the monster electrical disturbance as it leaps to activity on what, to us, will be the eastern horizon of the sun's disk.

This means we shall get the full strength of the storm when the sunspot is at its worst, before the exploding gases have had time to die down. Such a close grouping of planets has never been recorded before. The whole solar system will be strongly out of balance.

What will be the outcome? My knowledge does not permit me to state, beyond the fact that the storm, eruptions and earthquakes, will be tremendous in their strength and scope.

Quality In Live Stock

"We must establish our name for quality in live stock as we have done for quality in grain. Quality must be our slogan if we are to successfully compete with the Argentine" says the Hon. S. F. Tolmie, Canada's Minister of Agriculture, in The Agricultural Gazette for November. "It is by better sires, better feeding, and better finishing that we can obtain a position second to none in the live stock world. The scrub sire is doomed and is now being prepared for the block. An accredited herd system is being established with a view to stamping out disease and insuring health in our herds. In whatever direction our trade develops it is our duty to see that only first class stock, free from disease of any kind, is exported."

A LOVING CREATURE.

"Do animals possess the sentiment of affection?" asked the teacher of small Margaret.

"Yes, ma'am, almost always." "Correct," said the teacher. Turning to young Harold. "And now tell me what animal has the greatest natural fondness for man?"

"With but a slight pause the little fellow answered "Woman."

Muscles Mean Nothing when the nerves fall down. The nerves control the muscles. The stomach feeds both.

HAWKER'S NERVE & STOMACH TONIC has no equal as a nerve food, blood maker and invigorator. It is an excellent remedy for depression and despondency.

Read what Mr. E. L. Rising, of the well known St. John firm of Waterbury and Rising, has to say: "I have used Hawker's Nerve and Stomach Tonic in my family for years, and consider it has no equal as a blood builder and appetizer. It was especially beneficial to my children after an attack of fever."

Yours truly,
E. L. RISING.
Sold by all druggists and general stores at 50c. The same price everywhere. None genuine without Company's name.
HAWKER'S TOLU AND CHERRY BALSAM IS A SAFE AND SPEEDY CURE FOR ALL COUGHS AND COLDS.
HAWKER'S LITTLE LIVER PILLS CURE ALL STOMACH ILLS.

Wash Day and Backache

WASH day is the least welcome day of the week in most homes, though sweeping day is not much better. Both days are most trying on the back.

The strain of washing, ironing and sweeping frequently deranges the kidneys. The system is poisoned and backaches, rheumatism, pains in the limbs result.

Kidney action must be aroused—the liver awakened to action and the bowels regulated by such treatment as Dr. Chase's Kidney-Liver Pills. This favorite prescription of the well-known Receipt Book author will not fail you in the hour of need.

One pill a dose, 25c a box at all dealers, or Edmanson, Bates & Co., Ltd., Toronto.

Biggest Seizure of Liquor Ever Made In St. John

What is easily the biggest seizure of liquor that ever has been made in St. John since prohibition came into force and is said by authorities to be one of the largest and most important ever pulled off in the province was brought about yesterday by Inspectors Robert McAlnsh and C. H. Kerr when they visited the premises of William Webber, 71 Orange street. Besides the exceptionally large array of many brands of liquor, the inspectors seized a paraphernalia that gives evidence of home manufacturing of liquor. The labelling of the bottles, the corking and the contents, according to the inspectors, shows evidence of "moon shine" activities, and the inspectors are of the belief that in the visit to the premises they have cleaned up what they say is an illegal manufacturing plant of illicit wet goods. It took several large sloven loads, with the assistance of the local inspectors, the police and some additional hired help, to pack the goods and the implements snugly away in the government rooms in Prince William street.

A survey of the haul shows that there is, in all, about 683 full bottles, a cask of alcohol, two casks of rum, two casks of Scotch whiskey, several large demijohns, more or less full, and about seven jugs containing var-

Coal Famine In The U.S. Draws Nearer

Washington, Nov. 19—Prospects of a coal famine drew nearer tonight with negotiations between operators and miners apparently at a standstill.

A sub-committee of the joint wage scale committee was in session three hours but it was announced after the meeting that only the general situation was discussed and that the operators did not submit counter-proposals to the miners' demands. The conference will continue tomorrow.

"No progress was made. The operators submitted no proposals. We are still in a respective mood," said John L. Lewis, acting president of the United Mine Workers, as he came out of the hotel room where the conference was held.

The operators committee remained in session an hour longer. At the end of that time Thomas T. Brewster, chairman of the operators committee in the central competitive field, spoke optimistically declaring that this was the first attempt at real negotiations since the miners and operators met at Buffalo. For that reason he said only general matters were discussed.

The decision of the joint wages scale conference to continue its negotiations through a smaller group, in accordance with the usual custom in making the wage agreements, came after the owners and workers had heard from Fuel Administrator Garfield said that as long as the government stands "the people of the United States must have and will have coal, and they will not be prevented by anything the operators and miners may do."

The consuming public, the chief party interested in the present controversy, Dr. Garfield said, is not in a mood to tolerate either excessive prices or prolonged stoppage of production.

The sub-committee is composed of two miners and two operators from each of the four states in the central competitive field, together with Mr. Brewster and Mr. Lewis.

The statement of the Fuel Administrator which was largely statistical brought out that in 1918 the average cost of production of coal was \$2.15 per ton, leaving the operator an average margin of 46 cents per ton. This margin, he said, included interest charges selling expenses and federal taxes, as well as profit.

ious brands. It is estimated that the casks contain, on an average, forty-five gallons each. It is figured that there are six bottles to the gallon and this would bring the total to considerably more than 2,000 quarts. The retail value of the goods is roughly placed by the inspectors in the vicinity of \$10,000. It might be more, but not a great deal less. Ten cans of pure alcohol also were taken in the raid.

Dickison & Troy, Newcastle

TENDERS FOR NEW BRUNSWICK BONDS

Fredericton, Nov. 25—Tenders were opened by Comptroller General Loudon, at noon today, for \$2,282,000 of Province of New Brunswick ten year gold bonds in denominations of \$1,000, dated December 1, 1919, bearing interest at the rate of 5 1/2 per cent per annum. There were three bids as follows:

Bank of Nova Scotia—\$96.11.
Harris Forbes and Company, National City Company, Inc., and United Financial Corporation, Ltd.—\$95.30
J. M. Robinson and Sons, A. E. Ames and Company; Wood, Gundy and Company; Dominion Securities Corporation and Eastern Securities Company—\$95.34.

Certified cheques which accompanied the last two named tenders were returned to the representatives of those bidders present at the government offices at the time and the comptroller general said he would submit the highest tender to the provincial government for approval. This tender nets an interest rate of approximately 6.01 1/2.

ANNUAL SALE THIRTY MILLION PACKETS

When the Tongue is Pleased the Mind is Satisfied

THE most difficult thing to set down in words is the description of a taste, because there is no word to describe taste but taste. So, when talking about the taste of Chocolates, the only way to stimulate the sensation you enjoy from eating them, is to tell you that they are luscious, or satisfying, or delicious, or that they flatter the palate, or that they have such and such a flavour.

But you cannot get real conviction about the "quality of taste" in Neilson's Chocolates except by tasting the Chocolates themselves. So we want you to go to your Druggist or Confectioner and buy a box.

Don't eat them hurriedly. Consider each piece carefully. Open a few pieces. Let your palate linger over the flavour of the coatings, the fruit, cream and nut fillings, and the blended flavour of the fillings and coatings together.

If you will do this and eat, as continentals say, "with appreciation," you will get a remarkable quality of enjoyment from your purchase of

Neilson's

W. J. HOGAN

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little Stomach, Liver and Bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently move out of its little bowels without griping, and you have a well, playful child again. Ask your druggist for a bottle of "California Syrup of Figs," which contains full directions for babies, children of all ages and for grown-ups.

BOVRIL

The great "key food" that makes other foods more nourishing.

LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Frezzone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!
A tiny bottle of Frezzone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation. Frezzone is the sensational discovery of a Cincinnati genius. It is wonderful.

Notice of Sale

SEALED TENDERS addressed to the undersigned and endorsed on the envelope "Tender for Timber," will be received up to noon of Tuesday, the 9th day of December, 1919, for the purchase of the timber on the Miramichi Fish Hatchery lot, South Esk, N.B., at the outlet of Stewart Creek, about 6 miles west of Newcastle, N. B.
Alternative tenders will be considered:
(a) On a lump sum basis.
(b) On a stumpage basis.
The area is approximately 240 acres, covered with spruce fir, hemlock, larch, and yellow birch. A portion of the spruce and fir is in a dead or dying condition, due to the balsam bud worm, but if cut this season will be commercially valuable. The timber must be cut and removed during the present season 1919-20.
Full particulars may be obtained on application to the undersigned; to the Officer in Charge, Miramichi Hatchery, South Esk, N.B.; or to W.M. Robertson, Bathurst Mines, N. B.
G. J. DESBARATS,
Deputy Minister of the Naval Service
Ottawa, Ont.,
November 27, 1919.
Unauthorized publication of this advertisement will not be paid for. 46-2

Mail Contract

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until noon, on Friday, the 9th, January 1920 for the conveyance of His Majesty's Mails, on a proposed Contract for four years, 2 times per week on the route Newcastle and Trout Brook commencing at the pleasure of the Postmaster General. Printed notices containing further information as to conditions of proposed Contract may be seen and blank forms of Tender may be obtained at the Post Offices of Newcastle and Route Offices and at the office of the Post Office Inspector:
H.W. WOODS,
Post Office Inspector,
Post Office Inspector's Office,
St. John N. B. November 24th, 1919. (47-3)

One Co-Operative Group

The question as to what length a labor or any other organization may proceed to tie up an industry or a utility upon which the people at large are dependent, and without which the generality of citizens are doomed to suffer physically, financially and mentally, is being debated in many quarters. The United States Senate by its recent action set itself on record as opposed to the general strike among the coal miners, whereby a whole continent is precluded from obtaining the fuel necessary for its needs, and without which there will not only be a stoppage of industry but great physical suffering by millions of people, and no doubt many premature deaths. The Senate also denies the right of railway employees to cripple by strikes the services throughout the country, and questions the right of a police force to suspend its vigilance over law and order.

On broad lines the Senate of the United States, the House concurring, is opposed to any group of men who attempt to work their wills upon a people to the great detriment of that people. This, of course, does not mean that a man cannot quit a job when he wants to, but the Senate does question the right of men to organize to the extent that an entire country may not only have to suffer industrial paralysis but freeze to death in the process. No one who understands the situation among the soft coal miners of the United States can sincerely believe that the granting of a 30-hour week and 60 per cent. advance in wages would be any more than a temporary adjustment. It would lead to further demands as regards both hours and rates of wages. As a matter of fact the men who are leading the miners are out to control industry in the good old Bolshevik style, and it remains for the United States Government to counteract this movement and keep the wheels turning and the fires alight as of old.

Followed to its logical conclusions "the right to strike" among those who handle public utilities and public services would eventually imperil our very civilization. Take, for instance, the strike of the police force of Boston. Or again, Toronto's strike of electrical workers who in September last threw to the dogs in the early evening a street car service on which some two or three hundred thousand people depended, and all because the head of this electrical union, one J. T. Gunn, lost his temper because he could not immediately get into telephonic communication with the head of the Toronto Railway Company. In Boston the police force went out without just cause, and for days, or until the military were placed in charge, the city was at the mercy of bandits and gangsters. Or take another instance, that of the stavedores, who for weeks refused to work on the New York docks. Hundreds of ocean going vessels have been, and at this writing are still being, held up. The trade of half a continent is disorganized, and the great mass of the people suffering in consequence.

The dire result of these disturbances filter through to the rank and file of the public in the most astonishing manner. For instance, at the moment we are facing a sugar famine, and the New York dock strikes are largely to blame. Canadian canners have been unable to obtain sufficient tin cans

All our interest, great and small, are for the storage of vegetables in combination together. They are inseparable and must remain so, for in no other manner can we succeed. When all is said and done there is only one party to these controversies and that party is the great public. In other words the public must be served alike by high and low, rich and poor. And it will be only when we realize that after all we are one co-operative group can there be economic order and incidentally prosperity and peace sequence of the strikes among the Pennsylvania steel workers, with the result that valuable foods, ton on ton, of which the world is in great need, have rotted in the packing houses.

Comments on Russia By Beaver-Brook

The following comments, have been made by Lord Beaverbrook, on Lloyd George's announcement of his policy, regarding the non-interference of Britain in the Russian Bolshevik problem. Beaverbrook has opposed intervention by Britain from the beginning and Lloyd George has ultimately come to the same conclusion.

"I welcome it because I believe it to be wise and it leads us along a sure road to the final destruction of Bolshevism. It is precisely because I am opposed to the creed of Bolshevists and to the inhuman methods by which they have sought to propagate it, that I stand against armed intervention in Russia. It is because I am a firm supporter of that constitutional system of government which the peoples of the British Empire and the United States have made pre-eminently their own, that I believe force is not the remedy which should be applied by us to Russia.

"The soviet system of government and class dictatorship it brings in its train is so thoroughly unsound in principle and unworkable in practice, that it is bound in a short space of time to collapse of its own weight. All the Allied intervention in arms against it does is to supply the stimulus of Russian patriotism to a cause which on its own merits is doomed to failure. Bolshevism is like gunpowder; it should be allowed to burn itself out in an open place. Stonewall an invading army against it and it will continue to explode with dangerous force. The Prime Minister's policy is in the best interests of the British Empire and of the whole civilized world.

COPENHAGEN CHEWING TOBACCO

Copenhagen is used differently from ordinary chewing tobacco. Take a small pinch, for a start, and put it between the lower lip and gum, in the centre. Afterwards you can increase the size of the pinch to suit the strength of the chew you desire. Copenhagen is strong, because the tobacco of which it is made is cut into fine grains, which makes it expand its strength thoroughly and quickly. Smoke a little "pinch" once a long way showing that Copenhagen is not only an extremely convenient chew, but also one of the finest quality being made of the best, old, rich, high-flavored tobacco.

STOP that COUGH

Peps will end it. Dissolve Pepsin your mouth when the cough is troublesome, and the medicinal vapor that is liberated is breathed to the remotest parts of the air passages and lungs. It soothes and heals the inflamed membranes, thus ending the irritation and stopping the cough.

Peps are equally good for bronchitis, sore throat and laryngitis. All dealers, 50c. box, or Peps Co., Toronto.

CRACK CURLER
Nick Thibideau, Bathurst's Crack Curler, intends opening a machine shop business of his own in Bathurst. Until recently Mr. Thibideau was mechanical superintendent of the Carquet Railway.

MOOSE HUNTING RESUMED.
After an interval of five years moose hunting was resumed in the state of Maine on Nov. 20th. A large number of reservations have been made and the indications are that big game hunters from the other states will infest the Maine woods this year.

CHURCH RE-OPENED
St. Andrew's Church which has been closed for the past few weeks during which time improvements to the building were made, reopened last Sunday. A new furnace has been installed and a fine concrete foundation placed under the building.

THIMBLE PARTY.
On Wednesday evening, November 19, Miss Pauline Crocker, of Millerton was hostess at a delightful thimble party. About twenty young ladies were present and the evening was spent with music and telling stories. Before the close a delicious luncheon was served.

HOSPITAL AID MEETING
The Miramichi Hospital Aid Society held its monthly meeting last Thursday afternoon and the following members were made life members by the society: Mesdames John McCormack, C. C. Hayward, John Williamson, A. E. Petrie, W. A. McMaster, Fred Gough, R. A. N. Jarvis, R. B. Matheson, John McCullum, and George Stothart.

CIGARETTES HIGHER
The high cost of smoking is going higher. One of the largest retailing concerns in New York, with branches in all parts of the country, announced that the retail price of various popular American blends of cigarettes, now retailing at eighteen cents a package of twenty, would be advanced to twenty cents, or something over eleven per cent., about December first.

SOME MOOSE
(Bangor News)
Standing eight feet and one inch from the top of his horns to the floor or a little better than six feet tall at the shoulders, is a huge moose at the shop of Fred C. N. Parke on Exchange street, which has been mounted by this taxidermist. It immediately attracts the attention of a person entering the store. This monster animal was shot in 1917 in the Province of Quebec by Commander Giovanni Elia of the Italian navy and within the next ten days or two weeks, will be shipped to Rome, Italy.

Little Gloria Joy, recognized as America's leading child actress, has been cast in a role which gives expression to unquenchable spirit of France, in "The Heart of Humanity," the nine-reel Allen Houbar production in which Dorothy Phillips is appearing in the featured role at the Happy Hour theatre.

MILLERTON LADIES INSTITUTE
The Millerton Ladies' Institute held a meeting last Thursday night at the home of Mrs. James Lyon. Mrs. Lyon presided. The following officers were elected for the year: Mrs. T. M. Henderson, president; Mrs. James Lyon, first vice-president; Mrs. M. Monahan, second vice-president; Mrs. W. Matthews, third vice-president; Miss Jessie M. Lyon, secretary; treasurer; directors, Mrs. Everett Parker, Mrs. T. C. Miller, and Mrs. L. W. Flett; auditors, Miss Pauline Crocker and Miss Daisy Peterson. The following programme committee was elected to arrange a programme for the next six months: Misses Pauline Crocker, Edna Kerr and Jessie M. Lyon. After the election of officers, Mrs. T. M. Henderson took the chair, and called on Mrs. James Lyon for her report of the Women's Institute convention, held in St. John. It was moved, seconded and carried, that a vote of thanks be tendered to Mrs. Lyon for the excellent and lengthy report which she rendered. A delicious luncheon was served, after which the meeting closed with God Save the King.

An engineering project entailing expenditures of several thousands of dollars was necessitated in providing the atmosphere of No Man's Land in "The Heart of Humanity," Allen Holubar's greatest screen production, in which Dorothy Phillips is appearing at the Happy Hour theatre.

Don't wait longer to sit for those Christmas Photographs but engage a date now with Mersereau the photographer of Chatham for a sitting.

SMELT FISHING
The smelt fishermen of the Miramichi are preparing their nets and fishing gear for the smelt fishing season which opened yesterday Dec. 1st.

The awakening of the mother-heart and its response to the appeal of tiny voices strained by and depicted in "The Heart of Humanity," the thrilling nine-reel production by Allen Holubar, which is now showing at the Happy Hour theatre, with Dorothy Phillips in the featured role.

The story of a Canadian mother who glories in the sacrifice of four of her five sons to the cause of humanity is the basic theme of "The Heart of Humanity," the thrilling Allen Holubar production in which Dorothy Phillips is appearing at the Happy Hour theatre.

INSPECTING TELEPHONE CONSTRUCTION
Chief Forester G. H. Prince left last night for Newcastle to inspect the telephone line being constructed to Little Bald Mountain for purposes of forest protection. Twenty miles of the line have been constructed and an equal distance remains to be covered. Inspector Kerr of Newcastle will accompany Mr. Prince.

A group of the most talented child actresses in filmdom appears in "The Heart of Humanity," Allen Holubar's nine-reel picturization of an absorbing story of love and war in which Dorothy Phillips is appearing at the Happy Hour theatre.

JUST IN
One car extra No. 1 Western Oats \$1.29 per bushel. Quebec Hay \$33.00 per ton. Also good blacksmith coal for sale.
Dry Cordwood mixed at \$7.50 per cord delivered.
Phone 162 E. E. BENSON t. f.

SMALLPOX
The public health department of New Brunswick has been notified that there is a case of smallpox at Aboujagne, Westmorland county. Dr. Desmond has been instructed to attend to the usual duties connected with a case of smallpox reported at Nash Creek, Restigouche county.

Robert Anderson, the "Monsieur Cuckoo" of "The Hearts of the World," plays the appealing role of thrilling nine-reel production of love and war, "The Heart of Humanity," in which Dorothy Phillips is appearing at the Happy Hour theatre.

ANGLICAN Y. P. A.
The young people of St. Andrew's Church of England, have formed a branch of the Anglican Young People's Association. An attractive programme has been arranged, and will be carried out fortnightly. The following officers have been elected: president, Rev. W. J. Bate; first vice-president, Frank Morrell; second vice-president, Ray Russell, secretary, Ruth Benson; treasurer Hugh Morell; executive, Lloyd McCaull, Hubert Craik, Miss Margaret Copp and Ruth McCaull.

SUCCESSFUL HUNT
The Crawford party consisting of Mr. Albert Tisdale—Howard H. Chase Leominster Mass, and Samuel H. Crawford, Montclair N. J. have returned home after a fine time, and most successful hunt, the climax being the capture of a Canadian Lynx. The head of the Wayne family and his most efficient sons, whose woodcraft and skill in the great woods is too well known to need repetition, were responsible for such results, combined with Charles famous Callaby efforts rounded out a never to be forgotten experience.

The picturesque beauty of the Canadian Northwest forms the background for the opening scenes in "The Heart of Humanity," Allen Holubar's screen romance of love and war in which Dorothy Phillips is appearing at the Happy Hour theatre. The actual cost of one fifteen-foot scene from the photoplay was \$12,852, averaging close to \$857 per second or per foot of film. This is perhaps the most expensive scene ever filmed. This particular scene was three days in the making.

During the entire production 3,008 names were put on the list of extras, many men having to be used because re-informants were needed frequently.

COUNTY COURT.
County Court opened in session this morning at 11 o'clock.

ARRIVED.
One car Extra Western Oats just in Price \$1.29 per bushel. Also 1 car Gravenstein Apples.
MARITIME PRODUCE CO.

A girl leaves her own baby at home to cross the seas to comfort the orphaned children of France and Belgium and wins distinction for her valorous service with the Red Cross in "The Heart of Humanity," Allen Holubar's thrilling nine-reel production in which Dorothy Phillips is appearing at the Happy Hour theatre. Two cameras were destroyed by explosions which proved to be more powerful than estimated.

BIG SHOW COMING
On Monday Tues. Wed. of next week the management of the Opera House have made arrangements to present here the well known stock Co., Mae Edwards Players, for particulars see adv. on another page.

A RECORD CONTRIBUTION
During the services in St. John's Presbyterian church in Moncton on Sunday, the offering taken especially to reduce the building fund debt, the contributions received were the largest in the history of the church, a total of \$5,130.30 being received. The morning contribution was \$3,445.20 and the evening \$1,685.10.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions, and therefore requiring constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

OBITUARY

MR. MARTIN McMURRAY
The death of Mr. Martin McMurray of Ferry Road occurred yesterday afternoon at 6.30 o'clock. Mr. McMurray had a stroke of paralysis yesterday afternoon about 4 o'clock and succumbed a few hours later. Deceased was a native of Moorfield and was 70 years of age. He leaves to mourn, a widow, two sons and two daughters, Hugh, Andrew and Bessie at home and Annie of Halifax.
Funeral will take place Wednesday afternoon. Interment in Moorfield Burying Grounds.

MRS. MARGARET HALL
The death of Mrs. Margaret Hall occurred at the home of her son, Michael Hall on Sunday evening, Nov. 23rd. Deceased was eighty years of age. She leaves to mourn two sons, John of St. John and Michael of Newcastle.
The funeral was held on Tuesday afternoon at 3.30 to St. Mary's church. Services were conducted by Rev. Fr. Michaud and the remains were interred in St. Mary's cemetery. The funeral arrangements were in charge of Undertaker W. J. Hogan.

MRS. ANNIE ALLISON
The death of Mrs. Annie Allison, widow of William Allison of Whiteville, occurred Monday Nov. 24th from pneumonia, after an illness of two weeks. Mrs. Allison was formerly Miss Annie Sherrard of Boom Road and is survived by two sisters, Mrs. Howard Allison of Boom Road, and one sister Mary in Maine, also five brothers, Samuel of Whiteville, Alexander, John, James, and Thomas of Boom Road, also eleven children, the youngest being four years old—Edith, Walter, Alton, Raymond, Douglas, Hubert, Russell, Robert, James Ernest and D. Leock. She was forty-five years of age.
The funeral took place this afternoon. The pallbearers were: Messrs Robert Allison, Benjamin Allison, Wm. Allison, Hiram Harris, Edward Touchie and Hiram Harris, Edward ment was made in the Red Bank cemetery. Rev. Mr. Girdwood officiated at the services.
