Large Tract of Timber

In Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Com-
pany of Haliburton, (Limited.)

This company has a large tract of well timber-
ed land about 125 miles north-east of Toronto.
There are large quantities of Cedar, Hemlock,
Spruce, Balsam, Basswood, Cherry, Birch,
Maple, also considerable Pine, Elm and Ash on
this tract. It is well served by two railroads,
one of which is about to be extended through the
centre of the property. The Company are pre-
pared to sell this timber in blocks ranging from
5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the pro-
perty. This would be a good opportunity for
parties who are at present cut out and looking
for a new location.

Maps and plans and further particulars can be
had by applying to
W. H. LOCKHEART GORDON,
Managing Director,
157 Bay Street, Toronto.

Timber Berths

NSHIPS & 117

North Shore Lake Huron,

AT THE

Board of Trade Rooms, Toronto,

ON

Wednesday, December 18, 1901

AT 2 P. M.

The subscriber has been instructed to offer
for sale, BY AUCTION, at the above time and
place, and subject to the conditions which will
be announced at the time of sale, the licenses
for TIMBER BERTHS 111 and 117, on the
NORTH SHORE LAKE HURON, and known as
the Townships of

GOUGH AND DUNLOP

36 square miles each.

The above berths are licensed under the
most favorable conditions, and in addition
to a large quantity of pine there are other
valuable woods, which are included in the
licenses.

Terms of sale—One-third cash, and the bal-
ance one, two and three years, with interest at
five per cent. per annum.

For maps and other particulars apply to
PETER RYAN,
Toronto.

AN OPPORTUNITY FOR LUMBERMEN.

Lumbermen wishing to increase their
holdings of timber will be given an oppor-
tunity of securing an excellent limit on
December 18th, when Mr. Peter Ryan
will offer for sale at the Board of Trade
Rooms, Toronto, Townships 111 and 117,
known as Gough and Dunlop. These
townships are situated on the north shore
of Lake Huron and comprise 36 square
miles. The purchaser will be permitted
to take off not only the pine, but all other
varieties of timber, of which there is a
considerable quantity.

CURRENT TRADE CONDITIONS. ONTARIO.

Manufacturers express absolute satis-
faction with the volume of orders for
white pine lumber, and seem confident
that current prices will continue through-
out the winter. There is more building
in progress than at the corresponding
time last year. In Toronto work is about
to be started on a large apartment house
to cost \$150,000, and several other large
buildings are projected and will be com-
menced this fall or early in the spring.
Much building is under way in Ottawa,
where contractors are finding difficulty in
securing workmen.

The remarkable strength of the pine
market is no doubt due in part to the al-
most certainty of a short log crop this
winter on account of the many difficulties
with which operators in the woods are
meeting. Manufacturers are refusing to
contract for logs at the prices which job-
bers are asking, while it is not likely that
those who put in their own camps will
operate very heavily. Many reports are
heard that the movement of lumber is be-
ing curtailed by the scarcity of cars. A
Georgian Bay manufacturer writes that
he is unable to fill orders, and that he
looks for an advance in the price of hem-
lock and some grades of pine. Hard-
woods are moving more liberally, severa
large shipments having lately been made
to the United States. Mill owners are
asking \$15 for mill run ash, mill culls
out, \$14 for basswood, and \$12 for soft
elm. Birch and maple flooring are in
good demand. Shingles are particularly
active, and there is a moderate enquiry
for lath.

QUEBEC AND NEW BRUNSWICK.

There appears to be a further improve-
ment in spruce. The number of enquiries
received by mill men shows that there
is a strong disposition on the part of ship-
pers to conclude arrangements for next
year's supply, and it is believed that
prices will show a substantial advance
over those of the current year. The
United States is buying largely of clap-
boards, dimensions, and shingles. The
supply of clapboards is light. Sales have
been made at \$31 to \$32 for extra spruce,
and \$29 to \$30 for clears, Boston delivery.
Some of the largest shippers of cedar
shingles are sold out. The price of ex-
tras on Boston freight rate is \$5.10 to
\$3.20; clears, \$2.75 to \$2.85. Higher
prices are asked for lath, 1 1/2 inch bringing
\$3.10 and and 1 1/4 inch \$2.90. No tran-

sactions are reported in square and waney timber, although several deals are said to be pending for the coming winter's output.

GREAT BRITAIN.

A somewhat pessimistic article appears in one of the British timber trade journals pointing out the fallacy of expecting that the proposed curtailment of the log crop in Norway and Sweden this winter will benefit lumber prices during the early part of next year. It is shown that the logs cut this winter will not reach the mills until the middle of next year, and many of them not until the following season. The first open-water shipments will be the product of logs now at the mills. While these statements are doubtless correct, the fact remains that if a limited quantity of logs is cut this winter, there must be a corresponding decrease eventually in the quantity of lumber to supply the demand. This is the view taken by the trade generally, and it has inspired a degree of confidence. Speculators have entered the market, believing that purchases made at present prices will show a good profit next year. It is not expected that active buying will commence until towards the close of the year. White pine of best quality is in excellent demand, very little of this class being offered at auction sales. Spruce is also firm. A Liverpool importer is offering £7 per standard c.i.f. for a cargo from Nouvelle, Que. Buying is advised wherever suitable specifications can be obtained. A few lots of 12 feet x 3 x 9 inch first quality spruce, from Quebec, was recently sold in London at £12 per standard. In timber the market is quiet excepting in the case of oak, which is advancing in price owing to the light import.

UNITED STATES.

The log crop of the coming winter is one of the factors tending to strengthen the white pine market. It is estimated that the cost of taking out logs in the Minneapolis district will be 50 per cent. above normal, and that the supply for the Minneapolis mills will be lessened at least 100,000,000 feet by this cause. The scarcity and high cost of labor is the great difficulty. Reopens of satisfactory trade come from the Lake Superior district and from the eastern distributing points

Buffalo and Tonawanda dealers have recently made large sales throughout the Eastern States and are likely to go into the winter with less stock than last fall. In Cleveland trade is quite brisk. Several sizes of Norway pine have been advanced there one dollar per thousand, and 1 1/4, 1 1/2 and 2 inch No. 1 shelving has also been marked up. In the Chicago market common inch is in excellent request at \$17 for a fair grade. Piece stuff is also wanted, Norway bringing \$13.50 to \$14 and white pine a little more. There is a good demand in Chicago for white cedar shingles at \$2.65 for 8-inch and better and \$2.70 to \$2.75 for 10-inch. Lath are selling freely at \$3.25 for No. 1 white pine, \$2.75 for No. 1 mixed pine, and \$2.25 for No. 2 mixed pine and hemlock. Spruce prices throughout the Eastern States are firm. At Bangor it is reported that the demand for spruce lumber was never better. The spruce mills are operating to their full capacity, but are unable to meet the demand. A liberal amount of hardwood lumber is going into consumption, but there has been no improvement in prices. Manufacturers do not expect much activity in demand this year, but are looking for a good trade during the early part of 1902. Birch has shown some strength of late, being asked for more than the other woods.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue:

THE OTTAWA VALLEY.

[Correspondence of the CANADA LUMBERMAN.]

Although the local mills will shut down shortly, shipping, especially by water, continues fairly active. Speaking of the export trade, Mr. J. R. Booth said: "Things look better in the English market. They were rather dull all summer, but there is now a better feeling amongst shippers." Mr. Booth stated that too much talk was made out of the change in the culling regulations, which were held partially responsible for the dull feeling in the English market. "It would take a

shrewd, sharp man to detect any marked difference between the old and new order of things," stated Mr. Booth. The readjustment was in the interests of both buyers and sellers.

Speaking about prices, Mr. Booth stated that the market, while showing no advance, is stiff, and not likely to show any decline. The available stock is not a large one.

Mr. Booth still adheres to his decision to remove his mill plant from Ottawa to

some down river point. A site on Rock land where the mills of Mr. W. Edwards, M.P., are situated will probably be selected, although Hawkesbury and several other points are mentioned. "It is costing me too much money to handle my lumber in Ottawa," he stated. "I would be money in pocket if I established at a down river point."

Mr. H. K. Egan, of the Hawkesbury Lumber Company, who has just returned from his limits, states that operations will be brisk. Fully 2,000,000 feet of square timber alone will be taken out in the Ottawa and Georgian Bay districts. Amongst the firms getting out square timber are Robert Hurdman, Rideau Lumber Company, Ottawa; John Munro, Pembroke; McCool & Munro, J. R. Booth, Mickle, Dymont & Son, McArthur Lumber Company, besides several American concerns.

The sawdust nuisance in Ottawa has apparently been solved. Large quantities are now being shipped to Hawkesbury, while more is spoken of for Kemptville, Montreal, and other outside points. The sawdust is being used as fuel. It is stated to be even better than coal for some purposes, while being considerably cheaper. Special cars have been fitted up for the transportation, and a trestle work platform has been erected on Britannia street,

near Booth's mill to expedite the work of loading the cars. Mr. Booth will erect a burner, but he does not expect to have to dispose of much of the sawdust in this manner.

The Hull Lumber Co. recently closed a contract to supply the General Electric Company, of Schenectady, N. Y., with a considerable quantity of pine lumber at ruling prices.

Ex-Mayor Bingham is busily engaged bringing the last of the Gatineau log drive to the Ottawa and Hull mills. "This has been the most expensive season I have met with in my 31 years experience," stated Mr. Bingham. "The water was very low, and more logs than ever are tied up along the shores. I have had to use large quantities of dynamite." Mr. Bingham states that the drive of logs shows an increase of ten per cent. over last season. On being threatened with prosecution, a number of summer residents and settlers along the Gatineau replaced or made good the value of logs which were unlawfully gathered for firewood.

A prominent lumberman stated last evening that a large sulphite mill will, in all probability, be erected next year at the Chaudiere, near the site of the Hull Lumber Company's mills. The Consumers' Electric Company is making extensive rock excavations and preparing a site for

a power house. Mr. W. C. Edwards, M. P., and other prominent lumbermen and capitalists who are interested in the scheme, are said to favor the erection of a mill for the manufacture of sulphite pulp also.

Mr. Alex. Lumsden, M.L.A., the well-known lumberman, will likely contest Ottawa city again in the next provincial elections. Mr. Denis Murphy, also well-known to the trade, is spoken of as a likely Conservative candidate.

The officials of the Ottawa River Transportation Company state that only two-thirds the regular number of barges, or about 50 in all, were engaged in the lumber traffic during the past six months. The shortage in shipments was in the lum-

ber billed for the English market. The unsettled condition of the market caused by the continuance of the Boer war is held in part responsible. A fleet of six barges was run on the Oswego route with American shipments. Shipping is brisk at present, but the lumber is nearly all being forwarded to the Montreal yards. The Transportation Company have a fleet of seventy-five barges and six tugs. Ottawa, October 25th, 1901.

The steamer Seguin cleared from Parry Sound, Ont., for Ogdensburg, last week, with a cargo of 900,000 feet of lumber.

G. Grenkie, of Rosseau, Ont., has taken a contract to get out 500,000 feet of hemlock for P. Muchenbacher & Sons.

S. L. Brundage, of Windsor, Ont., has secured a contract to supply the Lake Erie & Detroit River Railway with a large quantity of ties, posts and shingles.

The steamer Nether Holme is loading a cargo of deals at Miramichi, N. B., for London.

J. Carew, of Lindsay, Ont., expects to keep his saw mill running until the middle of December.

W. M. McKay, of St. John, N.B., is reported to have purchased from C. W. Robinson, of Moncton, several lots of timber land at Diligent river, paying \$20,000 therefor.

J. W. Munro, of Pembroke, Ont., is putting in camps on his limits in the township of Whitman, and this winter will take out 200,000 feet of board timber. In the township of Harty he will take out a similar amount, besides a large quantity of saw mill logs. On his Mattawa limits he has large gangs at work, and expects to take out upwards of 400,000 feet of board timber for the Quebec market.

Two timber berths, totalling 12 square miles, situated on New and Lepreau rivers, Charlotte county, N.B., were sold at the Crown lands office, Fredericton, last week, to J. & L. B. Knight, at \$8 per mile.

It is the intention of the Hanbury Manufacturing Company, of Brandon, Man., to take out sufficient logs this winter to keep the mill running for two seasons.

BUSINESS NOTES.

To the buyer of shingles the advertisement of the Hastings Shingle Manufacturing Company in this issue should be of interest. This concern have made a special study of the shingle situation and are in a position to offer an excellent quality of shingles in all of the standard sizes. They have two large mills in British Columbia, and make a specialty of mixed cards. Eastern dealers cannot do better than give them a trial order.
