PRAYERS.

A Message was received from His Excellency the Governor General, desiring the immediate attendance of the House in the Senate Chamber:—

The House attended accordingly; and being returned,

Mr. Speaker informed the House, that he had received from the Judges selected for the trial of Election Petitions, pursuant to "The Dominion Controverted Elections Act," Certificates and Reports relating to the Elections,—

For the Electoral District of the West Riding of the County of Durham;

For the Electoral District of York, N.B., and

For the Electoral District of Lisgar.

And the same were read as follows:-

DURHAM, WEST RIDING, CONTROVERTED ELECTION.

In the High Court of Justice for Ontario.

THE DOMINION CONTROVERTED ELECTIONS ACT.

Election of a Member for the House of Commons of Canada for the Electoral District of West Durham, holden on the 31st day of October, A.D. 1900, and the 7th day of November, A.D. 1900.

Between

CHARLES BURNHAM,

Petitioner;

and

CHARLES JONAS THORNTON and THOMAS BINGHAM,

Respondents.

To the Honourable

The Speaker of the House of Commons of Canada.

We, the Honourable William Glenholme Falconbridge, Chief Justice of the King's Bench of, the Province of Ontario, and the Honourable William Purvis Rochfort Street, one of the Justices thereof, do hereby certify that the Petitioner, Charles Burnham, an Elector of the said Electoral District of West Durham, by his Petition herein alleged that the Respondent, Thomas Bingham, was the Returning Officer at the said Election, and that one Robert Beith, not a party to the said Petition, was the only Candidate duly nominated thereat; that the Respondent, Charles Jonas Thornton claimed to be a Candidate thereat, but that by reason of his not having complied with the Statute, his nomination as a Candidate was void and of no effect; that the said Respondent, Thomas Bingham, notwithstanding that the said Robert Beith was the only Candidate duly nominated as aforesaid, and was therefore entitled to be returned as having been elected had refused to return him as elected, and not returned either the said Robert Beith or the said Charles Jonas Thornton as having been elected, and the Petitioner therefore prayed that the said Respondent, Thomas Bingham, might be ordered to return the said Robert Beith as having been elected or that he might be declared to have been so elected. In the alternative the Petitioner alleged that the Respondent, Charles Jonas Thornton, was not entitled to be declared to have been elected, even though it should be found that he had been duly nominated and had received a majority of the votes cast at the said election, because the said Respondent, Charles Jonas Thornton, had been guilty by himself and his agents of corrupt practices at the said Election, whereby the said Election of the said Charles Jonas Thornton was in any event void.

The said Petition, by reason of certain preliminary objections and an appeal thereon to the Supreme Court of Canada, was never at issue until the tenth day of May, A.D. 1901, and was tried before us at the Town of Cobourg, on the 7th and 8th days of June, 1901, whereupon having heard the evidence adduced, and the Petitioner having abandoned his claim to have the said Robert Beith declared to have been elected, we Charles Jonas Thornton, at the said Election had been guilty of corrupt practices at the said Election, but without the knowledge or consent of the said Charles Jonas Thornton; whereupon the said Charles Jonas Thornton abandoned his claim to be declared to have been elected.

We further certify and report as follows:-

That no corrupt practice was proved to have been committed by or with the knowledge and consent of either of the Candidates at the said Election;

That the only person who has been proved at the trial to have been guilty of any corrupt practice is William L. Gerrie, of the Township of Clark, in the County of Durham:

That we have no reason to believe that corrupt practices extensively prevailed at

the said Election;

That we have no reason to believe beyond the fact that certain charges of bribery set forth in the particulars attached to the said Petition were not investigated before us, that the inquiry into the circumstances of the said Election has been rendered incomplete by the action of any of the parties to the Petition; and we are not of opinion that further inquiry is desirable as to whether corrupt practices have extensively prevailed at the Election.

And we further report that at the said Election neither the said Charles Jonas Thornton nor the said Robert Beith was returned as elected, and that the said Election

was and is void.

We append a copy of the notes of the evidence taken upon the trial of the said Petition.

The 17th day of June, A.D. 1901.

In the High Court of Justice for Ontario.

THE DOMINION CONTROVERTED ELECTIONS ACT.

Election of a Member for the House of Commons of Canada for the Electoral District of West Durham, holden on the 31st day of October, A.D. 1900, and the 7th day of November, A.D. 1900.

CHARLES JONAS THORNTON,

Petitioner;

and

THOMAS BINGHAM,

Respondent.

To the Honourable

The Speaker of the House of Commons of Canada.

We, the Honourable William Glenholme Falconbridge, Chief Justice of the King's Bench of the Province of Ontario, and the Honourable William Purvis Rochfort Street, one of the Justices thereof, do hereby certify that the Petitioner, Charles Jonas Thornton, by his Petition herein alleged that at the above mentioned Election, he and one Robert Beith, who was not made a party to the said Petition, were Candidates; that he, the said Petitioner, had received the majority of the votes cast at the said Election, but that the Respondent, Thomas Bingham, who was the Returning Officer, had refused to return him, the said Petitioner, as having been elected; and that the said Respondent had not returned either of the said Candidates as having been elected. The Petitioner prayed that the Respondent might be ordered to declare him, the said Petitioner, as having been duly elected. We further certify that the said Petition being at issue on the 9th day of February, A.D. 1901, and being the only Petition then at issue with regard to the said Election, was brought on for hearing before us on that day at the Court House at the Town of Cobourg, and the evidence on behalf of the

Petitioner and the Respondent, as well as for one Thomas J. McMurtry, an Elector of the said Electoral Division applying to be added as a party respondent was taken, and judgment was afterwards delivered by us that the said Petition should be dismissed.

We append hereto a copy of the notes of the evidence. No corrupt practices were charged in the said Petition.

YORK, N.B., CONTROVERTED ELECTION.

ELECTION COURT, ELECTORAL DISTRICT, COUNTY OF YORK, PROVINCE OF NEW BRUNSWICK.

JOSEPH McLEOD,

ALEXANDER GIBSON (Junior),

Respondent.

To His Honour

The Speaker of the House of Commons, Ottawa.

We, the undersigned, William Henry Tuck, Chief Justice, and Daniel Lionel Hanington, Puisne Judge, of the Supreme Court of the Province of New Brunswick, do hereby certify that at the trial of an Election Petition, held at Fredericton, in the County of York, on the third day of June, instant, complaining of the undue return of the Respondent (Alexander Gibson, Junior), after certain preliminaries, the Respondent's Counsel admitted corrupt practices by agents of the Respondent sufficient to void the Election, and the Petitioner, being called upon, and offering no evidence, we determined that Alexander Gibson, Junior, Member for the Electoral District of York was not duly elected, and that his election was void.

W. H. TUCK, D. L. HANINGTON.

LISGAR CONTROVERTED ELECTION.

In the Matter of the Election of a Member of the House of Commons of Canada for the Electoral District of Lisgar, in the Province of Manitoba.

We, the Honourable Albert Clements Killam, Chief Justice of Manitoba, and the Honourable Joseph Dubuc, one of the Justices of His Majesty's Court of King's Bench of Manitoba, beg to report as follows:—

1. On the 19th day of June, A.D. 1901, at the Village of Carman, in the Electoral District of Lisgar, in the Province of Manitoba, there came before us for trial, pursuant to the Dominion Controverted Elections Act, and amendments, a Petition com-

plaining of the undue Election of Robert Lorne Richardson, at an election held on the 31st day of October, and the 7th day of November, A.D. 1900, as Member of the House of Commons of Canada, by which Petition it was charged that corrupt practices had been committed at the said Election by the said Robert Lorne Richardson and his

agents.

- 2. The trial of the said Petition was continued before us on the 20th and 21st days of June last, when we adjourned the same to the Village of Manitou, in the said Electoral District, to be resumed on the 8th day of July, A.D. 1901. At the said last mentioned day the said trial was resumed before us, and it was continued on the 9th, 10th and 11th days of July, when we reserved our decision upon the matters of the said Petition.
- 3. And having considered the same, we did on the 20th day of July, at the City of Winnipeg in the said province, determine that the said Robert Lorne Richardson was not duly elected aforesaid, and that the said Election was void.

4. That no corrupt practice was proved to have been committed by or with the

knowledge and consent of the said Robert Lorne Richardson at such election.

5. That the following persons were proved at the said trial to have been guilty of corrupt practices, that is to say:—

Frank Williams, of Carman;
John Henry Ferguson, of Carman;
John Squires, of Carman;
James Brown, of Township 6, Range 3 West;
William Kilpatrick and George Bruce, of the same Township;
Charles H. Edwards, of Carman;
Elijah Brown, of Roland;
Thomas H. Sharpe, of Carman;
George Sexmith, of Baldur;
Amedée Cleroux, of Mariapolis;

Vaste Le Beau, Méderic Durocher, Jean Baptiste Forget, Moise Landry, Elie Trottier, Eustache Lafrenière, all of the Electoral District of Lisgar; and Jehan DeFroment, of Notre Dame de Lourdes, all in Manitoba.

6. That we have no reason to believe that corrupt practices have extensively prevailed at the Election.

7. That we are not of opinion that the inquiry into the circumstances of the Election has been rendered incomplete by the action of any of the parties to the Petition, and that no further inquiry, as to whether corrupt practices have extensively prevailed, is desirable.

We append hereto a copy of the notes of evidence taken at the said trial.

All of which is respectfully submitted.

OTTAWA CITY CONTROVERTED ELECTION.

In the High Court of Justice.

THE DOMINION CONTROVERTED ELECTIONS ACT.

Election of a Member for the House of Commons of Canada for the Electoral District of the City of Ottawa, holden on the 31st day of October, A.D. 1900, and the 7th day of November, A.D. 1900.

Between

FRANK ROBINSON,

Petitioner;

and

Napoleon A. Belcourt,

Respondent.

To the Honourable

The Speaker of the House of Commons, Ottawa.

The undersigned, two of the Justices of the High Court of Justice for Ontario, do hereby certify that on the 20th day of September, 1901, at the City of Ottawa, the Electoral District above named, we held a Court for the trial of, and there tried the Petition between the said parties respecting the above Election.

1. At the said Court Counsel appeared for the said Petitioner, and stated that he was not prepared to offer any evidence in support of said Petition, and no evidence was

in fact offered in respect of the same.

We therefore held and determined that the said Napoleon A. Belcourt, the Member whose election and return were complained of by the said Petition, was duly elected

and returned, and we thereupon dismissed the said Petition with costs.

In the said Petition charges were made that corrupt practices had been committed at the said election, but no evidence whatever having been given at the said trial, we report that no corrupt practice was proven before us to have been committed by or with the knowledge and consent of either of the Candidates at the said Election.

2. We have no means of forming a belief whether corrupt practices have or have

not extensively prevailed at the said Election.

To the Honourable

The Speaker of the House of Commons of Canada.

We, the Honourable Thomas Ferguson and the Honourable William Purvis Rochfort Street, Justices of the High Court of Justice for Ontario, do certify that pursuant to the Dominion Controverted Elections Act on the 21st day of September, 1901, we held a Court at the Town of Whitby, in the County of Ontario, for the trial of the Election Petition between the above parties respecting the said Election, at which the said William Ross had been returned as duly elected.

That no evidence having been offered in support of said Petition, we determined and adjudged that the said William Ross was duly returned and elected at the said Election and dismissed the said Petition.

That no evidence having been offered as aforesaid, a corrupt practice has not been proved to have been committed by or with the knowledge or consent of any Candidate at the said Election, and because no evidence was offered as aforesaid, we are unable to say whether there is or is not reason to believe corrupt practices extensively prevailed at the said Election.

That we have no reason to believe beyond the fact of no evidence having been offered in support of the said Petition, that the inquiry into the circumstances of the said Election has been rendered incomplete by the action of any of the parties to the Petition, and we are not of opinion that further inquiry as to whether corrupt practices have extensively prevailed at the said Election is desirable.

Sir Wilfred Laurier introduced a Bill No. 1 respecting the Administration of Oaths of Office; which was read the first time.

Mr. Speaker reported His Excellency's Speech from the Throne, and read a copyathereof to the House, which is as follows:—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In meeting you again at the commencement of another session of Parliament, it is my first duty to express the deep sense of our gratitude to Divine Providence for the many blessings which Canada has received during the past year, and particularly for the exceptionally bountiful harvest in Manitoba and the North-west Territories.

It was very gratifying to note the cordial reception tendered by all classes of the people, to the Prince and Princess of Wales, on the occasion of their visit in September and October last, the only regrettable feature being the limited time at their disposal, which prevented their visiting many important centres of population. It is however a great satisfaction to know that their Royal Highnesses enjoyed their tour through Canada and carried away the most pleasant recollections of their visit to this part of the Empire.

The assassination of President McKinley has elicited a universal feeling of sympathy and sorrow throughout the civilized world and, though Canada has happily so far been free from crimes of this character, the close proximity to the United States may make it advisable to join our efforts to the efforts of the United States and other nations and to provide by legislation for the adequate punishment of those who, either by speech or writing, incite fanatics to the perpetration of such horrible crimes.

The returns of the late census will be laid before you and, while the absolute increase in the number of population is not so great as might have been expected, the evidences of growth in wealth and in the general tokens of prosperous development are highly satisfactory. There is good reason also to believe that the increase of population during the latter half of the decade has been very greatly in excess of the average of former years and that in the near future we may look for a much more rapid growth than occurred during the period covered by the last two censuses.

Application having been made by the Canadian Pacific Railway Company for approval of an increase of its capital, to meet the demand for additional rolling stock and other improved facilities, for handling the growing traffic, my Ministers availed themselves of the opportunity to stipulate that the long pending question of the power of the Governor in Council to regulate the tolls of the Company should be submitted to the Courts for a judicial decision. The correspondence and other papers will be laid before you.

The inventor, Mr. Marconi, having met unexpected obstacles to the carrying on of his experiments in wireless ocean telegraphy in a sister colony, my Ministers deemed it expedient to invite him to continue his operations on the coast of Nova Scotia, and they availed themselves of his presence in Canada to enter into negotiations resulting in an arrangement through which, should the project prove as successful as is hoped for, the Government and people of Canada will enjoy the benefits of the invention on very favourable terms, including rates for transatlantic messages very much below those now existing.

I am pleased to inform you that the display made by Canada of her products, at the several expositions at which they have been exhibited during the last year has attracted much attention, and has already resulted in many inquiries and orders for our goods.

I may also congratulate you on the satisfactory condition of the revenue and on the steady and continuous expansion of the general business of the country as evidenced by the increased volume of exports and imports.

With the view of still further facilitating and developing our trade with other countries, it will probably be found expedient to increase the number of our commercial agencies, and Parliament will be asked to consider the desirability of making additional provision for that purpose.

I have also pleasure in informing you that the Governments of Australia and New Zealand have accepted an invitation from my Government to attend a conference in London next June for the consideration of trade, transportation, cable and other matters of intercolonial concern, and it is hoped that the meeting may lead to an extension of Canadian Trade with those important portions of His Majesty's Dominions.

I have further to advise you that my Government, having caused inquiry to be made, has reached the conclusion that the establishment of direct steamship service with South Africa would enable Canada to secure in that country a profitable market for her varied products, and, to that end, will endeavour to arrange for such a service.

His Majesty has been graciously pleased to invite the Premier to be present at the ceremonies attending his Coronation. It is to be hoped that the presence of the leading statesmen of the several colonies upon this occasion will afford an opportunity for the discussion of subjects of mutual interest which may considerably affect the development of our trade and commerce in the near future, with the mother country and with our sister colonies.

Gentlemen of the House of Commons:

The public accounts for the last year and the estimates for the succeeding year will be laid before you without delay.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

I commit the above matters and all others which may be submitted to you, to your earnest consideration, and I rely upon your wisdom and prudence to deal with them in the manner which, under Divine Providence, may prove most conducive to the best interests of Canada.

On motion of Sir Wilfrid Laurier, His Excellency's Speech was ordered to be taken into consideration to-morrow.

On motion of Sir Wilfrid Laurier, it was

Resolved,—That Select Standing Committees of this House for the present Session be appointed for the following purposes:—1. On Privileges and Elections.—2. On Expiring Laws.—3. On Railways, Canals and Telegraph Lines.—4. On Miscellaneous Private Bills.—5. On Standing Orders.—6. On Printing.—7. On Public Accounts.—8. On Banking and Commerce.—9. On Agriculture and Colonization,—which said Committees shall severally be empowered to examine and inquire into all such matters and things as may be referred to them by the House; and to report from time to time their observations and opinions thereon; with power to send for persons, papers and records.

On motion of Sir Wilfrid Laurier, a Special Committee of five Members was appointed to prepare and report with all convenient speed, Lists of Members to compose the *Select Standing Committees*, ordered by the House this day, to be composed of Sir Wilfrid Laurier, Mr. Borden (Halifax), Sir Richard Cartwright, Mr. Sutherland (Oxford) and Mr. Haggart.

On motion of Sir Wilfrid Laurier, a Select Committee was appointed to supervise the Official Report of the Debates of this House during the present Session, with power to report from time to time; to be composed of Messrs. Ball, Champagne, Charlton, Clarke, Earle, Holmes, LaRivière, Macdonald, Madore, Monet, Roche (Marquette), Russell, Scott, Sutherland (Essex), and Taylor.

Mr. Speaker laid before the House.—The Report of the Joint Librarians of Parliament, which is as follows:—

To the Honourable the Speaker of the House of Commons:

The Joint Librarians of Parliament have the honour to present the following report for the year 1901 :— $\,$

During the recess the Librarians have endeavoured to complete several important collections which had lately been in arrears. In the field of natural sciences, advance is so rapid that works which were up to date a few years ago, are now almost behind time. At a considerable expense they had to be replaced by the latest editions.

Through our exchanges with other British Colonies, the Librarians have been able to collect valuable data and statistics on every part of the distant dependencies of the Empire. The vast amount of information contained in these give a very complete mea of the great resources of the Colonies in the different parts of the world.

Statistics from the United States have also been procured from Washington; among them the bulletins of the census report of 1900, and also the numerous government reports from many States, their consolidated laws, and results of researches of scientific commissions.

All these valuable additions to our national collection have been classified and placed on the shelves in the best manner compatible with the limited space—always growing smaller—to be found in the Library.

The Americana section of the Library has also received its quota of works out of print, which are more and more difficult to obtain owing to strong competition on the part of foreign libraries. Among the books and documents bought for that section, during recess, are to be found twelve volumes of the Transactions of the American Antiquarian Society; also a photographic copy of a valuable map deposited in the Congressional Library at Washington: it is designated as a Plan of Quebec, the Capital of Canada, in North America, with the bason and part of the adjacent country, showing the principal encampments and works of the British Army commanded by Major General Wolfe and those of the French Army commanded by Lieut. General the Marquis of Montcalm, during the siege of that place in 1759.

Through the obliging courtesy of Lieut. Colonel Neilson, a copy was secured of certain letters exchanged between Louis J. Papineau and Pierre Bedard Joseph Moquin, a celebrated lawyer of his day, and John Neilson, M.P.P., and editor of the Quebec Gazette. These interesting letters, written during the years 1826 to 1836, bear on the political situation of that troubled period of our history.

It sometimes occurs during the session that some Members will borrow books for friends living at a distance—a practice contrary to the interests of the Library—and that when these books are called for, the names of these parties have been forgotten. The Librarians respectfully request that, at least, the names and addresses of the persons favoured with these loans be given so as to insure a possibility of their return.

A large number of important works have been presented to the Library since last session. A list of those donations will be found annexed to the present report, and also the list of the Canadian publications deposited in this department under the Copyright Act.

All of which is respectfully submitted.

A. D. DECELLES, G.L. MARTIN J. GRIFFIN, P.L.

(For Appendix to this Report, see Sessional Papers, No. 33.) The House then adjourned.

Speaker.

OF THE

HOUSE OF COMMONS

OTTAWA, FRIDAY, 14TH FEBRUARY, 1902.

PRAYERS.

Seven Petitions were brought up, and laid on the Table.

Mr. Campbell moved, seconded by Mr. Béland, That an humble Address be presented to His Excellency the Governor General, to thank His Excellency for his Gracious Speech at the opening of the present session; and, further, to assure His Excellency that—

1. We unite with His Excellecny, at the commencement of another Session of Parliament, in expressing the deep sense of our gratitude to Divine Providence for the many blessings which Canada has received during the past year, and particularly for the exceptionally bountiful harvest in Manitoba and the North-west Territories.

2. We receive with much pleasure His Excellency's expression of gratification at the cordial reception tendered by all classes of the people to the Prince and Princess of Wales, on the occasion of their visit in September and October last, the only regrettable feature being the limited time at their disposal, which prevented their visiting many important centres of population; and we are happy to know that their Royal Highnesses enjoyed their tour through Canada and carried away the most pleasant recollections of their visit to this part of the Empire.

3. We have shared the feeling of sympathy and sorrow which the assassination of President McKinley has elicited throughout the civilized world, and we are glad to be informed that, though Canada has happily so far been free from crimes of this character, the close proximity to the United States may make it advisable to join our efforts to the efforts of the United States and other nations and to provide by legislation for the adequate punishment of those who, either by speech or writing, in-

cite fanatics to the perpetration of such horrible crimes.

4. We are pleased to learn that the returns of the late census will be laid before us and that, while the absolute increase in the number of population is not so great as might have been expected, the evidences of growth in wealth and in the general tokens of prosperous development are highly satisfactory; and also that there is good reason to believe that the increase of population during the latter half of the decade has been very greatly in excess of the average of former years and that in the near future we may look for a much more rapid growth than occurred during the period covered by the last two censuses.

5. We learn with great satisfaction that, application having been made by the Canadian Pacific Railway Company for approval of an increase of its capital, to meet the demand for additional rolling stock and other improved facilities for handling the growing traffic, His Excellency's Ministers availed themselves of the opportunity to stipulate that the long pending question of the power of the Governor in Council to regulate the tolls of the company should be submitted to the courts for a judicial decision, and we thank His Excellency for informing us that the correspondence and other papers will be laid before us.

6. We are pleased to be informed by His Excellency that the inventor, Mr. Marconi, having met unexpected obstacles to the carrying on of his experiments in wireless ocean telegraphy in a sister colony, His Excellency's Ministers deemed it expedient to invite him to continue his operations on the coast of Nova Scotia, and availed themselves of his presence in Canada to enter into negotiations resulting in an arrangemen't through which, should the project prove as successful as is hoped for, the Government and people of Canada will enjoy the benefits of the invention on very favourable terms, including rates for transatlantic messages very much below those now existing.

7. We are gratified to know that the display made by Canada of her products, at the several expositions at which they have been exhibited during the last year, has attracted much attention, and has already resulted in many inquiries and orders for

8. We receive with much pleasure His Excellency's congratulations on the satisfactory condition of the revenue and on the steady and continuous expansion of the general business of the country as evidenced by the increased volume of exports and

9. We learn with much interest that, with the view of still further facilitating and developing our trade with other countries, it will probably be found expedient to increase the number of our commercial agencies, and we assure His Excellency that we will willingly consider the desirability of making additional provision for that purpose.

10. We thank His Excellency for informing us that the Governments of Australia and New Zealand have accepted an invitation from His Excellency's Government to attend a conference in London next June for the consideration of trade, transportation, cable and other matters of intercolonial concern, and we unite with His Excellency in the hope that the meeting may lead to an extension of Canadian trade with those important portions of His Majesty's Dominions.

11. Our thanks are due to His Excellency for the information that his Government, having caused inquiry to be made, has reached the conclusion that the establishment of direct steamship service with South Africa would enable Canada to secure in that country a profitable market for her varied products, and that, to that end, His

Excellency's Government will endeavour to arrange for such a service.

12. We are gratified to learn that His Majesty has been graciously pleased to invite the Premier to be present at the ceremonies attending his Coronation, and we share the hope that the presence of the leading statesmen of the several colonies upon this occasion will afford an opportunity for the discussion of subjects of mutual interest which may considerably affect the development of our trade and commerce in the near future, with the mother country and with our sister colonies.

13. We thank His Excellency for informing us that the public accounts for the last year and the Estimates for the succeeding year will be laid before us without

delay.

14. His Excellency may rest assured that the above matters and all others which may be submitted to us will receive our earnest consideration, and we thank His Excellency for the expression of his reliance upon our wisdom and prudence to deal with them in the manner which, under Divine Providence, may prove most conducive to the best interests of Canada.

And a Debate arising thereon,—the said Debate was, on motion of Mr. Bourassa,

adjourned.

On motion of Sir Wilfrid Laurier, it was Resolved, That the Order for the consideration of the motion for an Address to His Excellency the Governor General, in reply to his Speech at the opening of the Session, have precedence over all other business, except Introduction of Bills, until disposed of.

Mr. Speaker informed the House, that the Clerk of the House had received from the Clerk of the Crown in Chancery, a certificate of the election and return of George Riley, Esq., for the Electoral District of Victoria, B.C.

The House then adjourned until Monday next.

Chamberlain, Secretary of State for the Colonies, to ask that the Government provide a transport for the purpose of removing to Canada a number of their countrymen and their families, who had migrated to Patagonia, and who desired a change of settlement. Mr. Chamberlain explained that when the reception of the deputation was first mentioned he understood that the Welsh in Patagonia wished to emigrate to South Africa. Had such been the case, arrangements could easily have been made, but he was powerless to render them assistance to emigrate to Canada. He suggested that the deputation should call on Lord Salisbury, or that a subscription be started in the United Kingdom to raise the necessary five or ten thousand pounds; or that the Canadian Government might increase their liberal offer of a pound per head. NOTICES OF MOTIONS

Mr. Sproule—On Monday next—Inquiry of Ministry—Are there any of the Sessional Clerks employed in any other capacity in the Civil Service, and drawing pay for it, except their duties here?

Mr. Monk—On Monday next—INQUIRY of MINISTRY—1. How many sheets of \$1 notes have been issued since 1892, per annum ?

2. How many sheets of \$4 notes have been issued per annum since 1892 ?

Mr. Wilson—On Monday next—Inquiry of Ministry—1. Has the attention of the Government been called to an interview alleged to have been given by Mr. C. R. Devlin, ex-M.P., Canadian Immigration Agent in Ireland, to the Montreal Witness of the 17th January, 1902, as follows:—

"Mr. C. R. Devlin. Dominion Immigrant Agent is a follower of John Redmond. Believes that Ireland should have a separate Parliament. Why Canada does not

get the Irish immigrant in large numbers.

"Mr. Charles R. Devlin, the Dominion Immigrant Agent at Dublin, Ireland, has often, upon the floor of the House of Commons, and the public platforms of the country, eloquently pleaded the cause of Home Rule for Ireland. An Irish-Canadian, he was always candid in his sympathy for those who were fighting for a separate Parliament for the Irish people.

"A residence in Ireland itself has but served the deepen his love for the cause. Mr. Devlin is an official of the Dominion Government, but he is an enthusiastic follower of John Redmond, who is now preaching a no-rent crusade in Ireland which threatens to have far-reaching consequences. But, Mr. Devlin, while fulfilling his duties, also subscribes to the Land League, and is heart and soul with those who desire

to have separation with Great Britain.

"Mr. Devlin is at present in the city stopping at the Windsor Hotel. He was asked this forenoon to say a word as to the condition of Ireland at the present, more especially in regard to the acute form which the Irish agitation had recently taken—the form of an overwhelming organization, whose chief doctrine was that the people

should not pay rent.

"Mr. Devlin replied by saying that it must be remembered that he was not a politician, but an official of the Government, who was subject to criticism, and who must be careful of the answers which he gave. At the same time, he had never concealed his opinions when in Parliament, and had not changed when he went to live in Ireland. He was a follower of John Redmond and a subscriber to the funds of the Land League. He was an Irish-Canadian, but blood was thicker than water, and he did not forget that England oppressed Ireland because the Irish were Catholics.

"You are not a believer in physical force, are you, Mr. Devlin?

"No, I have no sympathy for physical force at all. I am for effecting the purpose by constitutional means. There is no necessity for physical force in the premises.

"Do you approve of the agitation of which the object is to prevent the tenant

farmers of Ireland from paying rent in any shape or form ?"

"I am in sympathy with the programme mapped out by John Redmond. Here

is the stand I take, and I do not care who knows it :-

"I am in full sympathy with the National movement, and as an Irish-Canadian and a Roman Catholic, I see no reason why Ireland should not receive the same mea-

sure of responsible Government as is enjoyed in Canada. To put the whole case in one word—before going to Ireland, I was a Nationalist, and since that I am now such

in a more pronounced degree.

"The whole question is this, said Mr. Devlin, shall Ireland have a separate Parliament? I think she should. Others take a different view. They are entitled to their opinion. Indeed, we have frequent discussions over the matter in my office. There are those in Ireland who say that there should be no legislative separation; on the other hand, the great bulk of the people are in favour of a separate Parliament, and I am with them in this. I have nothing to conceal as far as my personal views are concerned, but, of course, I have no desire to talk politics.

"Do you believe, Mr. Devlin, that the establishment of industries in the south

and west of Ireland would go far towards the creation of better conditions?

"No doubt this would be a feature in the case.

"Is the country prosperous?" Well, there was a good crop.

"Have the farmers money in the bank?
"I have not studied the economic question.

"How are the county councils working?

"Very well, indeed.

"Do the people take much interest in the local questions which come up at the meetings?

"Well, as much as they do in this country.

"Mr. Devlin was asked how it was that Canada got so few Irish immigrants, the

bulk of whom went to the United States.

"First of all, according to Mr. Devlin, there is the question of the flag, which plays an important part with the Irishman. He does not particularly like the British flag. He does not want to go to another country where he will be under it. He goes to the United States in preference. He had no doubt that the action of Sir Wilfrid Laurier in appearing at Mr. Redmond's meeting would do much to remove the prejudice which was felt against the Dominion, while, at the same time, the Dominion was in no wise hurt by the action of the Premier.

"In the second place, Mr. Devlin continued, effort should have been made thirty years ago. That effort was only made yesterday, so to say. Ninety per cent of the persons who left Ireland for the United States did so on prepaid tickets—tickets which had been purchased by friends who had gone to the United States thirty, twenty, ten years ago. Had the Dominion made an effort thirty years ago, such passages would have been paid to Canada. In the third place, it must be remembered that Ireland had none of the aids to immigration which were so evident in England. She had only three agencies in the whole country. On the other hand, in England there was the work of the Dominion Government, the work of the Provincial Governments, the work of the Canadian Pacific Railway. At the same time, he could say there had been a considerable improvement, and the Dominion was beginning to get a fair share of Irish immigration. There had been fourteen hundred immigrants from Ireland to the Dominion in eleven months last year. This showed a decided increase over previous records.

"It has been said, Mr. Devlin, there is lack of zeal on the part of the Government agents, who do their work perfunctorily, and who do not stir up the interest of the people in the advantages which Canada can offer.

"As I said, effort should have commenced thirty years ago in Ireland. All is

done that can be done under the circumstances.

"One of the planks in the new programme of Mr. Redmond is that the people should be taught to remain in the country. As you are a subscriber to the funds of the league, is your position as an immigrant agent not rather incongruous? You sympathize with the desire of the league to retain the people on the soil, and yet you must urge immigration.

"But I don't urge it.

"No? Then the office and the work are in the nature of a superfluity?

"Come, come, said Mr. Devlin, laughingly, you are a desperate interviewer, but

I will define my position.

"I do not urge immigration from Ireland, and I never will. I agree that Ireland should be the home of the Irishman, and I will be glad when the day comes when no Irishman will have to leave Ireland. I will then gladly come back to work in my own country. But we have to notice the fact that there is a large immigration from Ireland, and my aim is to secure for Canada the largest possible proportion.

"Asked if the establishment of a fast Atlantic service would have a beneficial effect on immigration, Mr. Devlin said he would prefer not to answer that question.

"In regard to his present mission, Mr. Devlin said:—'I am here on important matters in connection with my office, and as soon as I can get them settled, I will go back. I am particularly anxious to have the Canadian exhibit at the Cork show made as good and as effective as possible. I hope to return in two weeks.'"

2. Did the Government or any of its officers communicate with Mr. Devlin re-

specting such interview ?

3. If so, what reply, if any, has been received from Mr. Devlin?

4. Has Mr. Devlin sent any communication to the Department or to any officer of the Government respecting the above interview? And, if so, what is the nature of the reply?

Mr. Erb—On Monday next—Inquiry of Ministry—1. How many cattle, sheep and horses were killed by being struck by engines on the Canadian Government Railways during each year since 1890 ? (a.) At points of intersection of highways ? (b.) Elsewhere on the lines ?

of highways? (b.) Elsewhere on the lines?

3. How many Railway employees and passengers, if any, were killed or injured on account of engines colliding with cattle, sheep and horses ? (a.) At points of intersection of highways ? (b.) Elsewhere on the lines ?

Mr. Kemp—On Monday next—INQUIRY OF MINISTRY—1. Did the Commercial Agent of the Dominion make representations to the Government of Jamaica in reference to the repeal of the law imposing a tax on Commercial Travellers from Canada; and has such tax been abolished?

2. What steps, if any, have the Government taken to cancel or render ineffective certain legislation of the Government of Prince Edward Island, "in restraint of the freedom of trade," popularly known as a "tax on Commercial Travellers" from other Provinces in the Dominion?

BEAUHARNOIS CONTROVERTED ELECTION.

In the Supreme Court of Canada.

THURSDAY, the Twentieth day of February, A.D. 1902.

Present:

The Right Honourable Sir Henry Strong, Knight, Chief Justice.

The Honourable Mr. Justice Sedgewick.

The Honourable Mr. Justice GIROUARD.

The Honourable Mr. Justice Davies.

The Honourable Mr. Justice Mills.

THE DOMINION CONTROVERTED ELECTIONS ACT AND AMENDMENTS.

In the matter of the Election of a Member of the House of Commons of Canada for the Electoral District of Beauharnois, held on the 31st of October and 7th of November, 1900, being respectively Nomination and Polling days.

Between

GEORGE M. LOY,
(Respondent) Appellant;
and
JOSEPH EMERY POIRIER,
(Petitioner) Respondent.

The appeal of the above named Appellant from the judgment or order of the Honourable Mr. Justice Belanger, bearing date the eighteenth day of November, in the year of Our Lord one thousand nine hundred and one, upon an application to interpret the judgment or order made by him on the twenty-fifth day of May in the year of Our Lord one thousand nine hundred and one, which first mentioned judgment or order is as follows, to wit:

(Translation.)

"The Court having heard the party Petitioner through his Counsel on his motion presented this day; the Defendant and his attorney called not having appeared in the

same, and the said motion demanding:

"1. Whereas, the commencement of the instruction in the present cause had been fixed, by judgment of this Honourable Court, rendered on the 25th May, 1901, for the 30th juridical day following the judgment on the appeal from the judgment dismissing the Defendant's preliminary objections.

"2. Whereas, judgment had been rendered by the said Supreme Court of Canada,

the 29th October last, confirming the judgment of the Court of first instance.

"3. Whereas, serious doubts have arisen in regard to the exact date on which the commencement of the instruction would take place, namely, whether it would be the 28th instant or the 6th December next, and that it is important to have the same

removed.

"It pleases this Honourable Court, which delivered the said decision of the 25th May, 1901, to so interpret the said judgment as to determine the exact date on which the instruction in this cause should commence, costs reserved; considering that the tribunal, in rendering the said judgment of the 25th May, 1901, would only sit during the twenty-nine intervening days between the pronouncement of the judgment of the Supreme Court and the 30th juridical day fixed for the commencement of the instruction in this cause should be juridical days, that is to say, in order to reach the 30th juridical day after the judgment of the Supreme Court, all the non-juridical days must be taken out; that the result of such operation makes the 30th juridical day after the judgment of the Supreme Court fall upon and effectively be the 6th December next; and the Court declares it to have been its intention in fixing, as aforesaid, the 30th juridical day for the commencement of the said proceedings.

"Grants, in consequence, the said motion, costs reserved."

And the appeal of the above named Appellant from the order made by the Honourable Mr. Justice Belanger and the Honourable Mr. Justice Pagnuelo, sitting for the trial of the Election Petition in the above matter and rendered in the said cause on the sixth day of December in the year of Our Lord one thousand nine hundred and one, upon a motion for peremption, said last mentioned order being as follows, to wit:

(Translation.)

"The Court, having heard the parties on the Defendant's motion that the Election Petition in this cause be declared perempted and having examined the proceedings;

"Considering that the interlocutory judgment of the 25th May, 1901, adjudging the commencement of the instruction of the Election Petition in this cause, for the 30th juridical day after the judgment about to be rendered by the Supreme Court of Canada on the interjected and then pendant appeal could be interpreted by the judge who rendered the same, as it had been by his interlocutory (judgment) of the 18th November last; that such interpretation is final; that the notices were given for the 6th December instant in conformity with this latter interlocutory, and that the cause is regularly fixed for that day;

"Dismisses the said motion with costs.

"(Signed) L. BELANGER, J.S.C.
"(Signed) S. PAGNUELO, J.S.C."

And the appeal of the above named Appellant from the judgment of the said Honourable Mr. Justice Belanger and the Honourable Mr. Justice Pagnuelo, sitting for the trial of the Election Petition in the above matter rendered in the said cause on the 6th day of December in the year of Our Lord one thousand nine hundred and one, declaring the election null and of no effect upon the merits, said last mentioned judgment being as follows, to wit:

(Translation.)

"The Court having heard the said Petitioner and the said Defendant, on the merits of the Election Petition in this cause, having seen and examined the said Election Petition, the answer thereto and the admission produced this day by the said Defendant;

"Considering that in his said Election Petition the said Petitioner alleges :-

"1. That an Election of a Member of the House of Commons of Canada, for the Electoral District of Beauharnois, in the Judicial District of Beauharnois, by virtue of the law took place in the said Electoral District during the course of the month of November, 1900, and that the presentation of candidates had been fixed for the 31st October, 1900, and took place upon that day, at Beauharnois, in the said Electoral District of Beauharnois, in the said Judicial District, and that the voting took place in the said Electoral District, on the seventh day of November, 1900;

"2. That the said George M. Loy and Joseph Gidéon Horace Bergeron, advocate of the Parish of St. Clement, in the said Electoral District of Beauharnois, presented themselves as candidates and were nominated as candidates in the said Election, and that the Returning Officer for such Election, had declared as elected Member of the House of Commons of Canada, for the Electoral District of Beauharnois, the said George M. Loy, and had made his return in consequence, to the Clerk of the Crown in Chancery for Canada, who published the notice of the said Election in the Official Gazette of Canada, the 24th November, 1900, in conformity with the law;

"Considering that by his said Petition the said Petitioner alleges, furthermore, that the Defendant had, before, during, and after the said Election, directly or indirectly, by himself, by his agents, or his agent, and by means of other persons, on his behalf, commit all and every one of the acts of corruption defined and forbidden by the law, which acts of corruption are specially and separately mentioned in the said Petition;

"Considering that the conclusions of the said Election Petition are to the effect that it be declared that the said Defendant, George M. Whereas Mrs. Joseph Roi, Duke street, Ottawa, having brought a judicial complaint against one Larochel, appeared before Magistrate O'Keefe, of Ottawa, to give her evidence:

And whereas that lady demanded the privilege of giving her evidence in her mother tongue, because speaking English only imperfectly she feared to express herself wrongly and to be misunderstood;

And whereas Magistrate O'Keefe, disregarding that legitimate demand, directed her to express herself in English, and then dismissed her complaint, condemning her at the same time to pay a fine of \$2.00 for contempt of court, because she dared to persist in her demand;

Be it resolved, that the St. Jean Baptiste Society, of Ottawa, in the name of the French Canadians of the Capital, energetically protest against the unjust and arbitrary decision of Magistrate O'Keefe in this instance;

Be it resolved, that this incident be brought to the knowledge of the Minister of Justice, and that the French Canadians of the Capital do beg of the Honourable Minister to kindly take the necessary means in order that in future a like injustice may not be repeated, in a country where equity should be dispensed irrespective of nationality.

NOTICES OF MOTIONS

Mr. Wilson—On Thursday next—Inquiry of Ministry—Is the following statement correct which appeared in the Mail and Empire of Saturday, April 19th, 1902:

CANADA WANTS THE BOERS.

London, April 18.—The question of what to do with many of the Boer prisoners has been a matter of the most earnest consideration on the part of the Government. A good deal of correspondence has taken place on this subject between the Colonial Office and the Canadian Government.

Canada wants men, plenty of men; in the North-west Territories and towards British Columbia there are thousands of square miles that are lying waiting for settlers. The Boers are the sort of settlers that the Canadian Government is looking for. The Dominion Government proposes to give a full homestead, consisting of 160 acres of land, to each head of a family that will settle down, as well as to each male over twenty-one, to assist them with money—as settlers are at present assisted—and to admit them to the same terms of civil liberty as any settler.

If so, will the Government lay the correspondence on the Table of the House?

Mr. Taylor—On Thursday next—Inquiry of Ministry—Was the sum of \$373.86, as shown in the Auditor General's Report for the year ending June 30th, 1901, page D-59, paid to Geo. E. Baxter, Andover, N.B., for the following articles and services, viz. :-

Services collecting chickens, &c., 16 days at \$2; 392 lbs. chickens, \$110.31; feeding chickens, Oct. 13 to Nov. 19. and Dec. 12th, 1900, to Jan. 13th, 1901, 67 days at \$1.50; killing and packing, \$9; labour, \$1.50; paid to pickers, 24 days at \$1, 12 days at 75 cents; board, \$12.20; ground feed, 3,232 lbs., at \$1.80 per cwt.; milk, 2,152 lbs. at 30 cents per cwt.; collecting milk, \$5; tallow, 25 lbs. at 5 cents; sulphur, 8 lbs. at 10 cents; grit, \$1; 100 bricks,

Andover, \$225.66, all that was received for the sale of said chickens?

If not, where is the balance shown as having been received in said Auditor General's Report ?

Mr. Taylor-On Thursday next-Inquiry of Ministry-Was the sum of \$115.50, as shown in the Auditor General's Report for the year ending June 30th, 1901, page D-60, paid to George C. Douglas, Mount Stewart, P.E.I., for the articles and services, viz. :-

Oct. and Nov., 1900, services, \$42.50; 120 chickens, \$31.27; oats, \$56, 3 bushel at 32 cents; grinding, \$3.20; milk, 1,350 lbs. at 50 cents per cwt.; tallow, 14 lbs. at 6 cents; sulphur, 8 cents; horse hire, \$1; freight charges, \$1.38; cartage, 50 cents; rent of scales, 50 cents; labour, 80 cents; dressing chickens, \$1.50; paid to pickers, \$7......

\$115 50

Is the amount shown on page D-68, of the said Auditor General's Report, viz., Mr. Stewart \$9.90, all that was received for the sale of said chickens?

If not, where is the balance shown as having been received, in said Auditor Gen-

eral's Report ?

Mr. Clarke—On Thursday next—Inquiry of Ministry—1. When the Plains of Abraham were handed over to the City of Quebec, was the right reserved to the Militia and Military Authorities to use the Plains for drill, review or inspection purposes?

2. Is the Government aware that the municipal authorities have refused the local militia regiments the use of the Plains for drill or inspection purposes? If so, is it the intention of the Government to take any action in the premises; and if so, what action?

Mr. Taylor—On Thursday next—Inquiry of Ministry—Was the sum of \$451.23, as shown in the Auditor General's Report for the year ending June 30th, 1901, page D—60, paid to A. P. Hillhouse, Bondville, P.Q., for the following articles and services, viz.:—

Chickens, 240 at 27 cents, 200 at 26 cents; grain, 5,196 lbs., at \$1.22 per cwt.; sundry feed, \$6.94; milk, 2,845 lbs. at 15 cents per cwt.; eggs, \$35.98; tallow, 65 lbs. at 5 cents; oil, \$10.16, 3 cans, 85 cents, 4 pails \$1.20; nails, \$1.50; lumber, 78 cents; 6 feeding troughs, \$4; 3 egg cases, 90 cents; paint, \$4.87; wire, \$1.25; sundries, \$6.19; freight charges, \$19.10; cartage, \$1.50; telegrams, 75 cents; telephones, \$1.55; paid to pluckers, \$29.25; labourers, \$68; for care of chickens, \$54.75; buyer of chickens, \$14.

\$212.21, all that was received for the sale of said eggs and chickens?

If not, where is the balance shown as having been received, in said Auditor General's Report?

2. What are the names of the tenderers, and the amount of each tender?

Mr. MacLaren (Perth) moved in amendment thereto, That all the words after the word "That" be left out, and the following added instead thereof:—"during the past twenty years Canada's food producing competitors in the British market have made phenomenal strides in agricultural development owing largely to the favourable rates afforded them by adequate competitive transportation routes, and which have enabled them practically to fix and determine the value of food products the world over.

"That the intensity of the commercial struggle of to-day imperatively demands the advancement of our national development, and that every handicap existing against the transportation to the world's markets of our agricultural or industrial products shall be removed; that our commerce shall be untrammelled; and that conditions shall be made to subserve the interests of commerce, and not commerce those of arbitrary or artificial conditions.

"That it is in the interest of our Dominion at large—in view of the economy of water transportation—that greater use shall be made of our waterways between Lake Superior and the seaboard, thus affording cheaper and better facilities of transportation for our exports from the Western Territories and Ontario, and the development of interprovincial trade.

"Therefore, in the opinion of this House, it is both expedient and indispensable that the Government shall at once inaugurate such a policy in connection with our waterways and the ship-building industry as will speedily lead to the completion of a Canadian system of both inland and ocean transportation."

And the question being put on the proposed amendment; it was negatived on the following division:—

Mr. Legris, from the Select Standing Committee on Agriculture and Colonization, presented the Fifth Report of the said Committee, which is as follows:—

The Committee having heard and considered the evidence of the officers in charge of the manufacture and sale of binder twine at Kingston Penitentiary, recommend that the binder twine industry thereat be continued, and the product sold directly to the farmers of Canada; and that the responsibility of fixing the date up to which such sale shall be made to the farmers be left with the Department of Justice.

It is in evidence before the Committee that there is in Canada a large quantity of by-products known as flax and tow; the Committee beg to submit to the consideration of the House the advisability of trying the experiment at the said factory as to what extent, if any, these by-products can be utilized in the manufacture of binder twine, or in fabrics for domestic use.

It is also hereby recommended that the House grant authority for the printing forthwith of the evidence taken before the Committee on the manufacture and sale of the binder twine produced at Kingston, and other important matters of detail in connection with the said industry.

The Committee recommend that 20,000 copies of the evidence of each member of the official staff at the Central Experimental Farm, hereto appended, be printed forthwith, in pamphlet form, as advance sheets of this Report, in the usual numerical proportions of English and French, and that each of the evidence so printed shall be distributed as follows: that is to say, 19,400 to Members of Parliament; 500 copies of his own evidence to each member of the said staff; and 100 copies to the use of the Committee.

The Committee further recommend that 1,000 copies of the evidence upon Immigration and Settlement, taken down and reported to the House, heretofore, be published in pamphlet form, in the usual proportions of English and French, for distribution by the Bureau of Immigration.

The entire evidence taken before the Committee in the current Session of Parliament, including the evidence hereto appended, and that heretofore reported to the House, is submitted as an essential portion of this Report.

VOTES AND PROCEEDINGS

OF THE

HOUSE OF COMMONS

OTTAWA, TUESDAY, 13TH MAY, 1902.

Eleven o'clock, A.M.

PRAYERS.

On motion of Mr. Legris, the Fifth and Sixth Reports of the Select Standing Committee on Agriculture and Colonization, were adopted.

On motion of Mr. Taylor, the Orders of the House referring Bill No. 129 (Letter N of the Senate), intituled: "An Act respecting the Great Eastern Railway Company," and Bill No. 128 (Letter M of the Senate), intituled: "An Act respecting the Atlantic and Lake Superior Railway Company," to the Select Standing Committee on Railways, Canals and Telegraph Lines, were discharged and the Bills withdrawn.

The amendments made by the Senate to the Bill No. 112, an Act to amend the Immigration Act, were taken into consideration.

The first amendment being read the second time; it was agreed to.

The second amendment being read a second time;

Mr. Sifton moved, That the said amendment be disagreed to because such amendment confers upon the Governor in Council power to prohibit the landing of any person whatsoever in Canada in the discretion of the Governor in Council, which is an altogether excessive and improper power to vest in the executive authority.

And the question being put on the said motion; it was agreed to. The third amendment being read a second time; it was agreed to.

A Message was ordered to be sent to the Senate to acquaint their Honours therewith.

On motion of Sir Wilfrid Laurier, it was Ordered, That the House proceed forthwith to consideration of Bill No. 11, an Act to provide for the establishment of a Medical Council in Canada, on the Public Bills and Orders.

The amendments made by the Senate to the Bill No. 11, an Act to provide for the establishment of a Medical Council in Canada, were accordingly taken into consideration, and being read a second time, were severally agreed to.

The Bill No. 161 (Letter R of the Senate), intituled: "An Act respecting the incorporation of Joint Stock Companies by Letters Patent," was read the second time, considered in Committee of the Whole, and progress having been made and reported,—the Committee obtained leave to sit again at the next sitting of the House.

The Order being read for the House to go again into Committee of Supply,

Mr. Fielding moved, That Mr. Speaker do now leave the Chair.

Mr. Borden (Halifax) moved in amendment thereto, That all the words after "That" in the proposed motion be left out, and the following substituted therefor:— "the total expenditure during each fiscal year from 1892 to 1901, both inclusive, was as follows:—

1892	\$42,272,136
1893	
1894	43,008,834
1895	42,872,338
1896	41,702,383
1897	42,972,756
1898	45,334,281
1899	51,542,635
1900	52,717,467
1901	57,982,866

"That the Finance Minister estimates that the total expenditure for the fiscal year ending 30th June, 1902, will be \$65,250,000.

"That the annual expenditure on both consolidated revenue and capital account has increased between 1897 and 1901 by no less a sum than \$15,010,110.

"That during the period above mentioned the revenues of the country have been unusually large and the Government claim a total net surplus of \$19,743,527.69, but no portion thereof has been applied in reduction of the public debt, which, with the addition estimated by the Finance Minister for the current fiscal year, will have increased from \$258,479,432.77 in 1896 to \$274,480,000 in 1902, an increase of more than sixteen millions of dollars.

"That the Minister of Finance estimates that the total revenue for the year ending 30th June, 1902, will be \$56,800,000.

"That notwithstanding this very large revenue, the Minister of Finance estimates that the public debt will be increased during the current year about \$6,000,000.

"That this House desires to place on record the opinion that the expenditure for the year ending June 30th, 1902, and the proposed expenditure for the year ending June 30th, 1903, are excessive and extravagant and regrets that the Government with the exceptionally large revenues at its command has not only failed to reduce but has largely increased the public debt and has incurred capital expenditure for which the country does not receive and cannot expect any adequate return."

And the question being put on the amendment; it was negatived on the following

division :-

Then the Honourable the Speaker of the House of Commons addressed His Excellency the Governor General, as follows:-

"MAY IT PLEASE YOUR EXCELLENCY:

"The Commons of Canada have voted the Supplies required to enable the Government to defray the expenses of the Public Service.

"In the name of the Commons, I present to Your Excellency the following Bill:—

An Act for granting to His Majesty certain sums of money for the public service of the financial years ending respectively the 30th June, 1902, and the 30th June, 1903. to which Bill I humbly request Your Excellency's assent."

To this Bill the Clerk of the Senate, by His Excellency's command, did thereupon say :-

"In His Majesty's name, His Excellency the Governor General thanks His Loyal Subjects, accepts their benevolence, and assents to this Bill."

After which His Excellency the Governor General was pleased to close the Second Session of the Ninth Parliament of the Dominion with the following Speech:

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In relieving you from further attendance in Parliament, I desire to thank you for

the care and attention given to your important duties.

The unusual number of Acts that have been passed incorporating industrial and railway companies may be taken as an evidence of the rapid progress that Canada is making in wealth and prosperity. Further proof of that satisfactory condition is afforded by the increase in the trade and revenue of the country.

It has been gratifying to note the unprecedented flow of immigrants from Europe and from the United States that are now seeking homes in Manitoba and in the Northwest Territories. The rapidly increasing population in that fertile section of the

Dominion must yearly add to the trade of the country.

The agreement entered into with the Canadian Pacific Railway Company, when authorizing ar increase of its capital, to expend over nine million dollars in providing additional rolling stock, will, it is hoped, materially diminish in the future the serious losses that have arisen from the insufficient supply of cars to carry the products of the West to Eastern ports.

The amendments made to the Manitoba Grain Act authorizing the farmers in Manitoba and in the North-west Territories to erect flat warehouses for storing their grain at railway stations will it is believed be found to serve a useful purpose, and defeat any attempt to depress prices by combinations.

The growing population in the Yukon territory and the rapid development in the trade of that section of Canada amply justify the Act granting to its residents a representative in Parliament who will be authorized to speak for his constituency in all matters affecting the more important interests of that remote part of the Dominion.

Gentlemen of the House of Commons:

I thank you in His Majesty's name for the liberal supplies you have granted for the public service.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In bidding you farewell, I desire to express the hope that when we meet next year we shall be able to again rejoice in the continued prosperity which now prevails over this wide Dominion.

THE SPEAKER of the Senate then said:

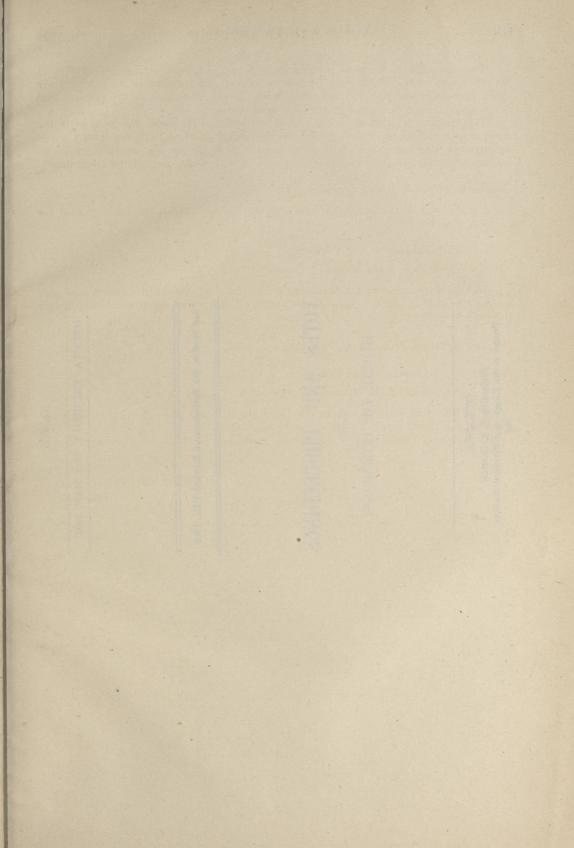

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

It is His Excellency the Governor General's will and pleasure, that this Parliament be prorogued until Tuesday, the twenty-fourth day of June next, to be here holden, and this Parliament is accordingly prorogued until the twenty-fourth day of June next.
