Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming are checked below.

- ☐ Coloured covers / Couverture de couleur
- ☐ Covers damaged / Couverture endommagée
- ☐ Covers restored and/or laminated / Couverture restaurée et/ou pelliculée
- ☐ Cover title missing / Le titre de couverture manque
- ☐ Coloured maps / Cartes géographiques en couleur
- ☐ Coloured ink (i.e. other than blue or black) / Encre de couleur (i.e. autre que bleue ou noire)
- ☐ Coloured plates and/or illustrations / Planches et/ou illustrations en couleur
- ☐ Bound with other material / Relié avec d'autres documents
- ☐ Only edition available / Seule édition disponible
- ☐ Tight binding may cause shadows or distortion along interior margin / La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure.
- ☐ Blank leaves added during restorations may appear within the text. Whenever possible, these have been omitted from filming / Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.
- ☐ Additional comments / Commentaires supplémentaires:

L'institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- ☐ Coloured pages / Pages de couleur
- ☐ Pages damaged / Pages endommagées
- ☐ Pages restored and/or laminated / Pages restaurées et/ou pelliculées
- ☒ Pages discoloured, stained or foxed / Pages décolorées, tachetées ou piquées
- ☐ Pages detached / Pages détachées
- ☒ Showthrough / Transparence
- ☐ Quality of print varies / Qualité inégale de l'impression
- ☐ Includes supplementary material / Comprend du matériel supplémentaire
- ☐ Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image / Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.
- ☐ Opposing pages with varying colouration or discolourations are filmed twice to ensure the best possible image / Les pages s'opposant ayant des colorations variables ou des décolorations sont filmées deux fois afin d'obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below /
Ce document est filmé au taux de réduction indiqué ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol ➡ (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filimage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole ➡ signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

Timber

The Forests of this District comprise Spruce, Tamarac, Jack Pine, Poplar, and Birch. The finest Spruce in Alberta is found in the Clear-water Valley near Fort McMurray.

This vast amount of timber and pulp material is carefully guarded by Dominion Fire Rangers.

Business Opportunities

Owing to the usual influx of Business Men, Settlers, and Labourers, &c., into new towns in the West, it is needless for us to say that this means a rapid growth in population, and this growth will naturally call for business of every description.

Asphalt

It is a well-known fact that Fort McMurray is in the Centre of the Largest Tar Sand Deposit in the World.

This immense body of Asphalt reaches from the Boiler Rapids on the Athabasca River, about 45 miles above Fort McMurray, to a point near Athabasca Lake, a total of about 145 Miles in length, and nearly as many miles in breadth.

To develop this vast amount of mineral wealth for commercial purposes a Large Amount of Capital will be required, and this alone means GIGANTIC INDUSTRIES for Fort McMurray in the near future.

A Practical Test Has Been Made of our Asphalt in different Canadian Cities, and it has proved successful.

It is only a question of a few months when Fort McMurray will be able to supply the World with one of its most useful commodities.

The Dominion Government is at present engaged applying other tests with the object of demonstrating its superior qualities to the world.

Safe and Sane

OIL, GAS, AND THEIR POSSIBILITIES

The signs are many and substantial for good assurance of oil all around us.

When the rails allow the cartage of proper drilling machinery the presence of Petroleum will be no longer mere conjecture. We do not stand behind any of the Wild-cattling Oil exploiting concerns, however honest or otherwise their real intentions may be, but we are all of the general optimistic opinion as to the real fact of their being oil to be had, and that at no great depth.

Gas we KNOW we have. The small testing outfits have proved that, and when applied commercially we possess an attraction, together with other resources, which any city in the world covets as its most valued asset.

Agriculture

McMurray will compare very favorably with any other district in Northern Alberta in the way of Agriculture.

All kinds of vegetables are grown and produce heavily in this district.

Wheat, Oats, and Hay do fine. The long growing day enables plant life to mature earlier here than in the southern part of the Province. The soil consists of a mixed clay and sand loam, topped with a thick layer of decayed vegetable mould, which mixes up well, making as fine a seed bed as any country can boast of.

Dairying, Chicken Raising, and Stock Raising will soon do a thriving business for those so engaging.

Transportation

With the completion of the A. and G. W. Railway in the latter part of 1915, Fort McMurray will have connections with Edmonton and the outside world.

We have goo.' Steamboat Service on the Athabasca River Six Months of the Year, making connections at Fort Smith and Smith Landing for Mackenzie River and Arctic Ocean points.

The Clearwater is navigable for lighter craft for 60 miles and over.

Location

Fort McMurray is situated at the confluence of the Athabasca and Clearwater Rivers, distance about 250 miles N.E. of Edmonton, is the head of Navigation for the Great North Country, a geographical center of a vast rich but undeveloped district, the position itself being, indisputably, the most beautiful and conveniently-located natural City site in Canada.

General Information

THE object of this pamphlet is to explain, in a few words, the great opportunities of Fort McMurray and Country tributary.

With our long, sunshiny days in Summer, and comparatively cool nights, Fort McMurray cannot fail to be an unusually healthy place to live in.

From a vegetation standpoint we consider the McMurray District almost incomparable ; and, with the land, which is soon to be thrown open to Homestead Entry, we expect a great influx of settlers into McMurray.
