UNWITTING ENDORSEMENT OF GOVERNMENT OWNERSHIP

Hon. George P. Graham Says It Might Be Better If C. N. R. Failed in Its Side of the Contract for Guarantee of Bonds, for Then Government Would Have Railway From Atlantic to Port Arthur.

LINE NOT NEEDED SAYS R. L. BORDEN

OTTAWA, May 11.—That the government should guarantee the financing of a third transcontinental railway thru practically the same territory east of Port Arthur as the two others is the effect of a resolution and a bill based upon it which were introduced in the house to-day. The resolution was passed and the bill given a first reading. There is criticism of the proposal, although it is not particularly intemperate. The chief point made was by Mr. Borden, the opposition leader, who saw in a remark by Hon. George P. Graham a condemnation of the minister's own policy. Mr. Graham had intimated that it might be better if the Canadian Northern, the railway concerned, did not fulfil its guarantee, for in that case the government would own a railway from the Atlantic as far as Port Arthur. It was an unwitting endorsement of the policy of the government ownership of railways.

The house has settled down to serious business. Sir Wilfrid Laurier has departed for the east, and the chief point made was by Mr. Borden, the opposition leader, who saw in a remark by Hon. George P. Graham a condemnation of the minister's own policy. Mr. Graham had intimated that it might be better if the Canadian Northern, the railway concerned, did not fulfil its guarantee, for in that case the government would own a railway from the Atlantic as far as Port Arthur. It was an unwitting endorsement of the policy of the government ownership of railways.

Mr. Borden thought the government should enquire into this matter, and if the purpose of the company was as stated, a protest should be made. He believed that the company was of great importance, and one in which Canadians were generally interested. Mr. Pugsley said that he had some papers in connection with the matter just brought to his attention, and these he would bring down at the earliest opportunity. Perhaps at the next session of the house he would be prepared to make a statement. He admitted the matter was being brought up, and was glad it had been brought up.

Haughton Lennox made enquiry as to when the government would introduce the new Bank Act. He presumed it could not be before the adjournment, but expressed the hope that it would be introduced and considered when the house met in July. Hon. W. S. Fielding said he doubted much if the proposition would be introduced in the present session of parliament, but he was willing to keep an open mind on the matter. He gave notice, however, that he would before adjournment introduce a bill having for its object the extension of the bank charters for one year. He believed that parliament would have its hands full when it resumed in July.

DRY DOCK CONTRACT LET TO VICKERS-MAXIM

Will Be Able to Accommodate Largest Ships Likely for Years.

MONTREAL, May 11.—The Hon. L. P. Brodeur, who left on the Virginian to-night, stated that the contract for the dry-dock at Montreal had been definitely awarded to Messrs. Vickers, Sons & Maxim. The subsidy to be paid to the contractor by the federal government will be at the rate of 3 1/2 per cent. on the capital outlay of \$3,000,000 for 35 years. The dry-dock will have a lifting capacity of 2,000 tons, sufficient to accommodate any vessel likely to be used by the St. Lawrence route for many years to come. Questions as to whether any provision for a dry-dock at Quebec had been made, he said that the government had not lost sight of the fact that Quebec was the door of the St. Lawrence route to the Canadian interior, but that nothing had been definitely done towards a dry-dock at that port. Sir Frederick Borden, Col. Sam Hughes, Senator Melvin Jones and H. A. Allan also called on the Virginian to attend the coronation ceremonies.

GARROLD CONVICTED OF MURDERING TALLON

Jury Brought in Recommendation to Mercy—Doctors Pronounced Him Sane.

SAULT STE. MARIE, Ont., May 11.—(Special.)—William Carroll, aged 46, who in 1902 escaped from London, Assin, upon the eve of his discharge as fully cured, was convicted of the murder of Jos. Tallon in a lumber camp near Blind River, at the assizes here this afternoon. The jury returned a verdict of guilty with a recommendation of mercy. Carroll will be sentenced to-morrow morning. Both men were employed at Waldie Bros. camp last November, and according to three witnesses, Carroll entered the shanty at 5.30 in the evening and struck Tallon on the head with a double bitted ax, afterwards admitting that he had mistaken Tallon for another man against whom he had a grievance. The defence entered a plea of insanity, which was not considered by the jury after the evidence of Drs. Bruce Smith and the evidence of the coroner, who examined the man who was in a condition to realize what he was doing. The charge of justice, Britton was slightly against the prisoner.

GOVERNMENT ENQUIRY INTO SHOPLIFTING

One Thousand Toronto Women Are Thieves, is Statement Made at Presbyterian Synod.

Social reforms were vigorously discussed yesterday by the Presbyterian Synod of Toronto and Kingston at St. James-square Church. In presenting the report on social and moral reforms the committee chairman, H. E. Irwin, said: "It is my conviction that a government commission should be appointed to investigate the growing evil of shop-lifting. The law should compel departmental stores to cover all goods placed on sale. I have observed that police court convictions in shop-lifting cases have multiplied, and yet I do not believe that the convictions represent one-twentieth part of those who are actually in the habit of stealing. There are one thousand women in this city to-day who steal. I believe. About the other side of the question: Our department stores set aside thousands of dollars yearly to cover the losses of shop-lifting. They do not expend this money in buying glass show cases to cover their wares and prevent this pilfering. The reason is plain. Their sales would be affected. They can afford to pay detectives and leave their goods unprotected. Women want to examine the articles they buy, and in many cases when an article is temptingly displayed, a sale is soon effected without the article is really needed or not. I don't believe that one word of this would be seen in a paper in Toronto. Why? Because papers will be afraid to say anything on account of the advertisements. These one-page ads are worth something to the advertiser. Vice Among Children. Speaking of vice among children Mr. Irwin said it was the duty of the government in enforcing compulsory education to see that the children were protected against various forms of vice which are promoted for purposes of gain. Rev. James Buchanan, Dundalk, speaking on behalf of systematic giving, deplored the low salaries of ministers. Ministers needed more than a Toronto policeman or a window-cleaner. Hon. W. A. Charlton said: "We are guilty of a crime in the way we pay our ministers. If we can get money we can get young men. They have the heart for the ministry, but we haven't the means." The meeting of the synod closed with the afternoon session. It was closed hereafter to meet in October instead of May. This will commence with a meeting in St. James-square Church next October.

PIER SOLD TO GOVERNMENT?

HALIFAX, May 11.—The Furness-Withby pier and warehouses at this port are reported to have been sold to the Dominion Government to be used by the marine and fisheries department. The price is said to be \$145,000. The company will find accommodation at the new terminals when they are built.

RAILWAY STATION BURNED

RICHMOND, Que., May 11.—Fire, which broke out in the superintendent's office of the G. T. B. station here at 11:15 to-night, almost totally destroyed that structure. The efforts of the Grand Trunk Railway and local fire-brigades kept the flames from spreading. The damage is estimated at \$30,000.

HOT FIGHT OVER PLANS OF RAILWAY

Army of Indignant Citizens Object Strongly to Diversion of Metropolitan Line From Yonge Street.

Indignant residents of the North Yonge-street district besieged the offices of the Ontario Railway and Municipal Board yesterday afternoon, to fight the latest move of the Metropolitan Railway. The board room was totally inadequate for the attendance and an adjournment was made to court room No. 4, city hall. Every chair there and every seat except the prisoners' dock, was speedily filled and a number stood through the proceedings. The hearing partook of the nature of a combined court hearing and indignation meeting. A minister and an ex-M.L.A. made protests, and six lawyers addressed the board. Mayor Geary flitted to and from, making whispered comments. A Burning Issue. The issue raised was whether the railway should be allowed to divert its line by a curve, with a drop of 45 feet, and level crossings over six city streets without the consent of the city or compensation to the resident property owners. H. H. Wright, for the Toronto and York Radial Railway, submitted plans of the deviation, which is on Yonge by means of a subway under the C. P. R. It is proposed to erect a station at Birch-street. A. Moss questioned Dominion and provincial statutes to show that the company was permitted to secure a private right of way. Remedy Worse Than Disease. Corporation Counsel Drayton declared the proposed remedy for unsatisfactory conditions was worse than the original disease. The proposal involved the penalty for a second offence at a high rate of speed. Six streets would be crossed, including Front-street, Spadina, York-street and Birch-street. It was claimed that this was a real railway running all the way to Sutton. If it wanted such recognition, it should run on the level crossings. North Yonge-street was coming into its own. The district was rapidly filling up, and land values, until this application was filed, had been rapidly advancing. Prepared to Compromise. The city was utterly opposed to the application, but was prepared to make reasonable agreement. Let the company double-track Yonge-street from its terminals to St. Clair-avenue, giving the penalty for a second offence on the double tracks. J. S. Fullerton, K.C., presented petitions from the residents, affirming that the proposed diversion would be detrimental to the extent of \$38,000. Rev. H. R. Home, on behalf of the deputation, said that the protesting petitioners owned the land on the district affected to secure quiet residences convenient to the city. This proposed change in the radial line would be a double-edged sword, being dangerous to the city and its property and protection for both their property and their lives. W. Hill, with all the fire of his old political days, denounced the proposal. A. Macgregor and A. W. Halliwell opened and closed on behalf of various property owners.

THOUSANDS NEW BODY PRELATE

Impressive Scene Presented by Interior of Cathedral, Where Remains of Archbishop Lay in State.

"Pray for my soul. More things are wrought by prayer than this world dreams of." These words by Tennyson suggested themselves to the mind of the observer in St. Michael's Cathedral last night as thousands thronged by the body of his grace, Archbishop McEvoy. One could only number the crowd by thousands, for hours the stream of humanity seemed unending, and not until the late hours was there any cessation. The body was moved from the archbishop's palace, Wellesley-place, at 3 o'clock. It was a sad procession from the home he had made, as it were, with his own hands. While not in the nature of a coronation, there was an escort of 35 members of the Knights of St. John in full regalia, under command of Col. J. J. Heffering, then came 25 members of the Christian Brothers in the garb of the order, about 200 members of the Knights of Columbus unparaded, and a detachment of the 4th Regiment of the Queen's Own Rifles. A carriage contained the aged mother and brother and other members of the family of the deceased archbishop. Proceeding by Sherbourne, Wellesley, Jarvis and Shuter-sts. to the cathedral, the procession halted inside the nave, the knights held the centre aisle and the other members of the family of the deceased archbishop. The pall bearers were: Very Rev. Dr. Burke, Very Rev. Archdeacon Casey, Rev. Dean Hand, Rev. Dean Morris, Rev. Dr. Tracey, Rev. Dr. Barolo, Father Canning and Father O'Donnell. ALL OR NOTHING, PLEA OF GEORGINA GAGNON

Because Judge Did Not Give Full Penalty, Sues For Freedom.

MONTREAL, May 11.—Because Mr. Recorder Weir did not sentence her to the full penalty specified by the statutes, Georgina Gagnon is seeking her liberty thru a petition for habeas corpus presented to Mr. Justice Demers this afternoon. The allegations of the petitioner are that on April 19 last she was sentenced by the recorder to 30 or three months in jail for the illegal sale of beer and gin in her house, and to another 30 or three months for having had in her possession whiskey for sale. This was her second offence. The contention of Mr. Houle, counsel for the petitioner, is that, according to the revised statutes of the province, the penalty for a second offence must be a fine of not less than \$100 and not more than \$150 or three months in jail for the first offence, and that the magistrate must enquire whether the delinquent is appearing for the first, second or third offence, which Mr. Recorder Weir did not do.

HUMAN BONES IN CHIMNEY

Strange Tale Told in Connection With the Discovery.

KINGSTON, May 11.—(Special.)—Workmen engaged in making alterations at the Albion hotel came across a number of what are supposed to be human bones stored away in an old chimney. In connection with the finding of the bones a strange tale is told. Old residents say that many years ago the building now used as the Albion hotel was the military headquarters and that one day an Indian who had some trifles to sell, disappeared and was never heard from again. The finding of these bones has led some to believe that the Indian man with foul play and that these are his bones. The insurgents are not overlooking the possibility of attack from Colonel Rabago, reported approaching from Chihuahua with a relief force.

DUKE DIDN'T WANT ANY UNNECESSARY EXPENSE

However, \$50,000 Will Be Spent on Necessary Improvements to Rideau Hall.

OTTAWA, May 11.—(Special.)—In connection with the vote of \$50,000 for improvements at Rideau Hall, Mr. Pugsley said, in the house this evening, that it was desirable to have them completed before the arrival of the Duke of Connaught. The improvements consist of the removal of the chapel and some of the outbuildings, the erection of a new wing, and the redecoration of the interior. Mr. Pugsley mentioned that the duke had sent a message hoping that no unnecessary expense would be incurred. However, the government thought these improvements were necessary. He considered that it would be better to acquire another site and erect a new building in the near future, but this could not be done before the arrival of the Duke of Connaught.

Settlement Reached in Suit Brought Against W. G. Trethewey

In the non-jury judgment yesterday action was brought by John McKnight, Dickson and Lester M. Coulter, against William G. Trethewey, the Toronto millionaire, for specific performance of certain agreements entered into between the parties at Edmonton. A settlement was reached by which the plaintiffs are paid \$700. H. H. Shaver and Frank Hodgins, K. C., appeared for the plaintiffs, and the legal firm of McKay, Johnson represented the defendant. Finger Crushed in Windlass. KINGSTON, May 11.—(Special.)—Mrs. John Harrington of Napanee was drawing a pail of water with a windlass pump, when her finger caught in the chain and was crushed so badly that it had to be amputated.

AND NOW THE RUSH FOR MEN'S SUITS IS ON

A BROAD SMILE overspreads the countenance of the manager of our men's suit department these days. ONE reason is that the spring rush for suits is on and coming faster daily. ANOTHER reason is that our patterns are the finest ever shown in Toronto, and the range the most comprehensive 'tis possible to wish for. Every taste and every purse has been catered to, and very few will leave our store without a suit who really wish to buy. We don't tailor the cheaper class of clothes, in fact we don't "know how." Smart dressers want clothes tailored like ours, and we meet your need in a way that will surprise you. For gentlemen who fancy the skirt coat, we have featured several very smart lines at \$25 and \$30. These suits are beautifully tailored in our exclusive shops by experts who do nothing but bench work.

Our range of sack suits from \$12 to \$35 are without a doubt the finest showing in Toronto, and all the patterns have been carefully selected and made exclusive with us. We have featured for this season several lines of cravenetted mohair 2-piece suits. These, of course, are strictly hot weather garments, but mention of them now will put you in mind of something new for this summer. We can fit most any man that walks, whether he be TALL, MEDIUM, SLIM or STOUT, we have the garments properly cut and designed for him.

Remember this is a mighty progressive age, and the man who thinks he can't get fitted properly, and even better with us than with a tailor, is among the skeptics, and the sensible men of Toronto are not in that class. Ask for Sovereign Brand and be satisfied with nothing else, and bear in mind that your money is no safer in any bank than it is with us until you are satisfied.

W.F.M.S. TO MEET NEXT YEAR IN VANCOUVER

Toronto Named as Alternative Place of Meeting—Elected Officers For 1911.

CHATHAM, May 11.—(Special).—At the concluding session of the convention of the Women's Foreign Mission Society for Western Canada, in the First Presbyterian Church here this afternoon, it was decided to meet next year in Vancouver, if such an arrangement is found convenient. Toronto was named as the alternate place of meeting.

The new officers of the society are: President, Mrs. J. J. Steele of Dundas; vice-presidents, Mrs. Shartrud, Mrs. MacMurrich, Mrs. G. H. Robinson, Mrs. Jeffrey, Mrs. Telfer and Mrs. J. C. Hamilton; recording secretary, Miss E. C. Clark; corresponding secretary, Mrs. J. W. McLaughlin; home secretary, Miss Reid; mission bands secretary, Miss McMurphy; foreign secretaries, Mrs. Gray (India) and Mrs. J. Henderson (China); secretary of Northwest missions, Miss Craig; secretary of E. C. missions, Mrs. Clark; secretary of international conference, Miss J. Thomson; secretary of tidings, Miss Parsons; treasurer, Mrs. George; assistant, Miss Craigie; editor of Tidings, Mrs. MacGillivray.

At the morning session addresses were delivered by Miss Thompson and Miss Weir, missionaries from India, and Mrs. McKenzie and Mrs. McIntosh of Hanan. Reports from The Missionary Tidings publication and the deaconesses' training home showed great progress. Several auxiliaries also reported similar progress. This afternoon the meeting was opened with a vote of thanks to Mrs. Shortread for her faithful services as president of the society for the past 12 years. Owing to failing health she has been forced to decline re-election. A grant of \$1200 was made to work among Jews in

Toronto, and also \$1000 towards maintenance for the deaconess' training home. A similar appropriation will be made to the work in Winnipeg.

SALE OF UNCLAIMED GOODS.

An old-time second-hand dealer, standing with a crowd of women and children, looking on while Auctioneer Henderson was, occupying the centre of the stage at the Grand Trunk's semi-annual sale of unclaimed freight, at the sheds, remarked that times were not like they used to be. Too many people had money.

"I've often bought a thing for \$5 and sold it for \$25 on the same afternoon," he remarked.

Some people stood bidding on babies' high chairs and old wooden rockers with an eager look in their faces, and so, from one queer exhibit to another, the sale went on and about a thousand articles are on sale, and it will be some time before the goods are disposed of.

Cost C. P. R. \$10,000 to Lose.

As soon as the city's bill of expenses for the C. P. R.'s viaduct defence has been submitted to and passed by the taxing officers in England and Canada, the railway company will be asked to pay a lump sum of \$10,000. The privy council ordered that the cost of the railway's appeal, which was lost, would have to be paid by the C. P. R.

Speed Artists Fined.

There are still numerous gentlemen in the city who imagine that they can speed at a Marathon pace thru the streets of this city. John Pape was fined \$20 without costs for the offence, also was Edward Johnson. They both were convicted that the constable was wrong, but the court, who considerably corroborates the correctness of the cops, thought otherwise, and hence the fine.

ITALIANS SENTENCED FOR STABBING AFFRAY

Torpetto Gets Three Years and Francesco Six Months—William Carroll on Trial For Murder.

SAULT STE. MARIE, Ont., May 11.—(Special).—At the assizes this morning the Italians Torpetto and Francesco received sentences for the stabbing affair in Little Italy last Easter. Torpetto will serve three years at Kingston, and Francesco six months in the Central Prison. The third Italian, Stonnell, was allowed to go. Justice Britton charged strongly against the prisoners, believing that the use of offensive weapons amongst the foreign element was a disgrace to the community.

William Carroll, 65 years of age, is now on trial for the murder of Joseph Tallon, in a lumber camp 40 miles from Blind River, last November. Evidence given this morning by those in the camp shows that Carroll had no provocation, and Provincial Constable Taylor, who made the arrest, testified that Carroll had told him he had struck the wrong man with the ax. Dr. Bruce Smith said he believed Carroll to be sane, altho of an excitable nature. In Smith's opinion Carroll was fully responsible at the time he struck the blow, altho, having been confined in the London asylum in 1905, was suffering from acute melancholia. The defence is endeavoring to prove insanity.

C.P.R. TO BUILD SUBWAY AT FOOT SPADINA-AVE.

Will Be For Accommodation of Pedestrians Along Sayre Vice-President McNicol.

David McNicol, vice-president of the C. P. R., arrived in Toronto late on Wednesday night, and spent the greater part of yesterday inspecting Toronto terminals, in company with Geo. Ham, assistant to the president, Jas. Osborne, general superintendent, and Robert Kerr, former general passenger agent.

Mr. McNicol took occasion to watch the traffic at the corner of King and Yonge-sts., and said he was more convinced than ever of the inadvisability of the rounded corner proposition. The railway company takes the position that the land at this point cannot be spared, in fact Mr. McNicol expressed the opinion that the ground area was insufficient as it is.

VETERINARY COLLEGE SITE

New Building at Corner University-avenue and Anderson-street.

At least a site has been selected for the new buildings on which will be erected the Ontario Veterinary College. The government has purchased a piece of land on the southwest corner of University-avenue and Anderson-street, with frontage also on Simcoe-street.

It is not certain what the cost will be, but at the last session of the legislature, \$25,000 was voted for the purpose. There are already 120 graduates of the college practicing in the United States alone, and Canada has drawn its supply of practitioners almost entirely from its graduates.

A PROGRESSIVE PROGRAM.
Among the new men who were elected to the United States governorships none has won so high a place as Mr. Woodrow Wilson of New Jersey. Confronted with a legislature not so much overtly hostile as largely unresponsive he succeeded by the sheer strength of his personality in procuring assent to all the measures he had pledged himself to support. These were all of a highly progressive character and quite in keeping with the general tenor of his public addresses. The last of these was delivered on Monday at the banquet of the Chamber of Commerce of Denver, Colorado, when he again foretold the enactment of the thoro program of popular reform. Its objects, he said, were known very definitely. The first was the opening up of all the processes of United States politics and to substitute public for private machinery.

Second to that the governor placed the withdrawal of privacy in the conduct of public business. That proceeded from the principle that those who make use of the great modern accumulations of wealth, gathered together by the dragnet process of the sale of stocks and bonds, shall be treated as public trustees, that they shall be made responsible for their business methods to the great communities which are, in fact, their working partners. Next to this the governor put conservation of natural resources and in the fourth place the cutting out of all privilege and patronage out of the country's fiscal system and the equalization of the burden of taxation. Summing all up he declared the ultimate purpose to be the throwing open the gates of opportunity to every citizen. Such a program is an embodiment of the democratic spirit and its achievement would be a beneficent revolution which cannot arrive too soon for the people of the United States.

SUNDAY USE OF LIBRARIES.
In proposing the opening of the Reference Library for three hours in the afternoon of Sundays, the weakest possible case is proposed for the movement. Even these three hours will be violently opposed by those who have been trained to believe that Sunday is an idol to which all the world must bow down. Idolatry of this description is as demoralizing as any same evil result. But in the meantime it is a factor to be reckoned with. The desirability of opening the library in the afternoon when students might be more healthily employed taking a walk is problematic. But if a student prefers to read rather than walk, there is no apparent reason why he should not have the choice, except for the idolatry which denies the right to do either. Some of the idolaters consider it legitimate to walk but not to read, and others think it may be permitted to read at home, but not in a library. Such are the hairsplitting refinements of idolatry.

The real difficulty to be met is the employment of the attendants. We thoroughly agree with the idolaters that the worker should have a clear day in the week off. This is not a matter of idolatry except so far as it is governed by superstition. All the day of the week in turn have been held as sacred as our Sunday is, the Buddhists observing Wednesday, the Mohammedans Friday, the Jews Saturday.

What is needed is to increase the library staff by one-seventh, and open the institution on Sunday from two till ten in the evening at least. It is absurd to put libraries under the same restrictions as saloons and bars.

FIRE PROTECTION.
Edinburgh supplies another argument for greater care in the supervision of public places of amusement. The Empire Music Hall had been selected as the scene of a command performance before the King, and must have been regarded as properly equipped. So far as the audience was concerned the protection of the fire curtain was effective. It was not, however, supported by metal fittings, and subsequently fell over the stage. There is a suggestion in this for the local authorities. The exits were evidently good as the audience had no difficulty in getting out.

One of the crimes for which the heads of our fire department, or whatever other authority is responsible, may be tried some day in Toronto, is the permitting of theatres to keep their exits closed during performances, and in some cases to have these exits mere "dummies" leading nowhere.

ONLY ONE COURSE.
Chairman Levee has been guilty of a grievous error of judgment which he only aggravates by his attitude towards the school board. It is perhaps the falling of our democratic condition that we get a false estimate of the value of nominal position, and it may be natural to place a false emphasis, with this point of view, upon the importance of holding out in the face of opposition. But Mr. Levee will only alienate sympathy by such a course.

It is quite conceivable that he adopted the course criticized by Judge Winchester in the ordinary spirit of the Toronto man of business, and without any thought of exceeding the limits of discretion or of good taste. But when the situation is made clear, as in Judge Winchester's report, Mr. Levee will consult his own reputation for good sense as well as for good taste by complying with the usage universal in such cases.

TRANSMISSION CABLE STRUCK BY LIGHTNING
Winnipeg Power System Put Out of Business for Hours by Terrific Storm.

WINNIPEG, May 11.—Winnipeg was the scene last night of a violent electric storm that in the space of a couple of hours tied up almost every modern convenience driven or operated by electrical energy. It was a wild night, with a conglomeration of weather suitable to every season of the year, and vivid lightning flashes lit up the heavens even while hail and snow descended. At one stroke the lights of the city were snuffed out and the power transmission station of the Winnipeg Electric Railway was put out of business. Not a street car was running at 10.30. Officials of the company state that one of the 121 and 122 cables from Lac Du Bonnet was struck by lightning fourteen miles from the city, which resulted in the cutting off of the current.

The telephone lines were temporarily affected and the telegraph wires running into the city were damaged to the extent that the current almost all but cut off from the outside world. Over the few wires that were operated, however, came the glaucous news that the great calamity had fallen all over the province, and that on a million fields the moisture was sinking to the ground to generate life in the young wheat.

The rain started to come down late yesterday afternoon and since that time there has been a continuous down-pour of rain and sleet. The electrical storm broke about 2 o'clock and the reverberations of the thunder over the city were so loud as to awaken the slumbering masses. The lightning struck the city in several places, and the ground covered with snow was seen.

MELON CUTTING AND THE PUBLIC
Yesterday The Globe had another of its fallacious editorials deprecating the idea that a railway or other company can make wealth for itself by a resolution of its board of directors. "If stockholders," it safely observes, "cut up a melon among themselves, they must furnish the melon. Neither the creation of fictitious capital nor the issue of capital at rates below market quotations can create wealth or take wealth from the public."

To show how unfounded these arbitrary assertions are it is only necessary to recall what happened in the case of the last issue of Canadian Pacific Railway stock. In 1909 that company was granted power to issue an additional \$50,000,000 of ordinary stock to its shareholders at par. The market price during that year varied from 156 to 189, showing a very substantial melon to begin with.

According to the view propounded by The Globe the issue of the \$50,000,000 involved an impairment of the shareholders' interest in the railway and should have been followed by an immediate fall in the market price. But in December C.P.R. stock ranged from 178 to 182 and did not fall below 178 in the first three months of 1910. Yesterday the price of C.P.R. stock stood at 233, an appreciation of 55 points since the \$50,000,000 issue in November, 1909. Any one of the fortunate shareholders who received the benefit of that issue at 125, and sold now, could thus pocket from the public no less than 108 points. The whole transaction and all similar transactions are grossly adverse to the public interest and must be absolutely condemned.

TRENTON ON THE BOOM.
Editor World: None of the lake front towns between Toronto and Montreal have anything approaching the prosperity Trenton has for a rapid advance commercial center. Trenton is one of four of Canada's largest railways running through the town, and with the shipping facilities Trenton has, which are surpassed by any other lake town in Ontario, we feel justified in looking forward to a bright business future. The Canadian Railway Company, which has taken over the Blairton, Coe Hill and Mineral Range lines in North Hastings, has purchased property here upon which to erect and operate a large concentrator plant, capable of treating 1000 tons of ore per day. The Canadian Railway Company, and other industry who have been successful in landing. This concern, organized by Mr. McWille, president of the Wisconsin Railway Company, and who are now employing over 40 hands, and are at present putting in 24 new machines, which will require 84 hands employed in less than five months. Local capital was speedily secured to erect and operate the plant, and from personal knowledge I know that parties are, without solicitation, making requests for stock. It is hoped that the price of the stock will warrant the employment of 150 hands within a year from this date. The town council and board of trade are very anxious to see the plant, and the Marsh & Henthorn of Belleville, with a view of getting them to establish their works here. It is certain that Belleville will not be able to keep them, if possible to keep them, but the superior facilities for shipping and other advantages offered by Trenton, are not likely to be ignored. The Canadian Northern Railway is very much in evidence here these days. At present the rails are being laid in the direction of the Hamilton Bridge Company to land the structural iron right at the work, and to be put in by a very handsome one, and if the strike of the iron workers does not create too great a delay, should be completed by the end of the month. The new road will be open for traffic between Toronto and Trenton by June 15 next. Considerable speculation is indulged in by the public, and it is believed that suitably located for the divisional point of this new line. Trentonians, of course, are very much interested in the many cogent reasons, which they feel must appeal to the company. Real estate has during the last month been active, and many of the houses have been realized. The portion of the town traversed by the C. N. R. appears to be receiving the most attention from the buyers. To be able to purchase a residence is almost an impossibility, and this summer houses must be provided for the people who are coming in, or the town's progress may be retarded. We have a certain delicacy in mentioning our cheap power to The World, and it is not to be done. It is very nice power and very very cheap, and the not controlled by the hydro-electric, we have no fear that it will be made more costly later on. Fifteen kind power—without a string of any kind attached to it—twenty-four hour service delivered at customers' terminals, for less than 100 h.p. and over a very attractive. The power house at dam 2, and the transformer house, are the latest and best equipped electrical power plants in Canada.

10TH ROYAL OLD DRUM AND FIFE
Editor World: By way of thought, it started me thinking when reading a report in your worthy newspaper, of the 10th Royals having a fife and drum corps. SHAVE OR TRIM.
Editor World: We do not think His Royal Majesty King George the Fifth has any loyal patriots under his crown than the members of the barber profession, and we do not think that any seaman, admiral or undmirable has a right to say that people should not get shaved in honor of His Royal Majesty King George, for there is just as much loyalty in a good barber and a clean shave as there is in a full beard and a trim once a month, so I say shave every day.

Cuticura Soap and Ointment Entirely Cured Him of Itch

"I just want to say a good word for Cuticura Soap and Ointment. Four or five years ago I was in Port Arthur, and I had an attack of the itch. It certainly was an intolerable nuisance. The itching was principally at nights before I went to bed. The nights were especially affected.

"I went to two doctors about it, and tried more than one remedy. I was beginning to think the complaint was incurable when I was told to try Cuticura Ointment. I took his advice, and sure enough, the itch vanished. I had probably been troubled with the itch for two or three months before I tried Cuticura Soap and Ointment, and they completely cured me of that intolerable nuisance. After one warm bath with Cuticura Soap and one of the Cuticura Ointment I was never troubled with the itching again. Anything in this testimonial I would be prepared to swear to in a court of law." (Signed) J. E. Hooper, 268 Parliament Street, Toronto, Jan. 10, 1911.

His Skin Eruption Cured in Ten Days

"The Cuticura Remedies certainly did work finely, and I am thankful that there is such a remedy, and that I tried it. About three months ago a terrible itching commenced on my body. I could not understand it. It gradually grew worse and covered a large portion of my body. There was also a slight eruption of the skin, some of which I suffered greatly with the itching and at night time I had little sleep. I tried one or two remedies which did not go good, and then I tried Cuticura Soap, Ointment and Resolvent. In about ten days I was completely cured. (Signed) W. Williams, 115 Pacific Ave., Winnipeg, Jan. 14, 1911.

You Can Try Cuticura Soap and Ointment Without Cost

For more than a generation, Cuticura Soap and Cuticura Ointment have afforded the speediest, surest and most economical treatment for torturing, disfiguring skin eruptions, from infancy to age. Cuticura Soap and Ointment are sold by druggists and dealers everywhere, but in order that skin-sufferers may prove their efficacy without cost, the Potter Drug & Chem. Corp., 31 Columbus Ave., Boston, U. S. A., will send post-free to any address, a liberal sample of each, with a 32-page book on skin health. Write for a set to-day, even though you have suffered long and hopelessly, and have lost faith in everything, for, as Mr. Hooper's letter shows, even the first use of Cuticura Soap and Ointment may be sufficient to give instant relief when all else has failed.

Before Jones, C.J., Garrow, J.A.; MacLaren, J.A.; Meredith, J.A.; Magee, J.A.
Euclid-avenue Trust Co. v. Hobs—R. S. Robertson, for plaintiff. J. P. McAllister, M. H. Ludwig, K.C., for defendant. An appeal by defendants from the judgment of a divisional court, allowing an appeal from the judgment at the trial, which dismissed the action with costs. Argument of appeal resumed from yesterday and concluded.

CITY WILL EXPROPRIATE.
The city will expropriate the water lots at Sunnyside owned by Mrs. Pauline V. Meyers, Walter Dean and J. S. Devins, to get away from the damage suits that would otherwise follow the construction of the viaduct at Sunnyside. The city also want the property for the construction of the proposed sea wall and boulevard. This will become a scarce proposition!

WORK COUNTY West Toronto North Toronto East Toronto

WEST TORONTO. May 11.—(Special.) The firemen here received two calls today. The first was to a rather serious fire in a house on St. Helen's street, a few doors below Bloor, where a company with the other west end brigades the fire was extinguished with facility. The damage is not yet estimated. The second call was to the northern end of McCowry avenue, where the fence belonging to the C.P.R. had caught fire, doing about \$10 damage before it could be put out.

THE VIEW OF THE CHURCH

Dr. Carman Testifies Against Prof. Workman.
MONTREAL, May 11.—Dr. Carman, general superintendent of the Methodist Church in Canada, who took the witness stand in the Workman libel suit today, claimed that, from his position, his testimony could be regarded as the voice of the Methodist Church. His statements on points of Methodist belief, he declared, were the interpretation of the Methodist Church courts in the country.

Porcupine is now practically isolated from the outside world, even the mails being held up on account of the spring break-up.

The water in Porcupine Lake is much higher than it has been in previous years, owing to the westward and partly to the eastward in Porcupine creek, built by the Dominion people to improve their canoe route.

A party of enterprising citizens got out recently and proceeded to demolish these two dams with dynamite.

With the release of the water the conditions were much improved, but the connection between Golden City and Porcupine is still broken except by canoeing.

At present the mine is somewhat dull from a business point of view, with only a few prospectors waiting for favorable weather.

There is a lot of criticism about the way the prison labor is being conducted on the Pearl Lake road.
