

TRAIN LOAD OF EMIGRANTS KILLED CASUALTIES WILL APPROACH 150

Head-On Collision, Seventy Miles From Detroit, on the Wabash, Blots Out Their Lives in the Twinkling of an Eye.

MISS DENTZER OF TUPPERVILLE, ONTARIO, DEAD

Detroit, Nov. 27.—From 100 to 150 persons were killed or injured to-night in the most disastrous railroad wreck in the history of Michigan railroads.

Two heavily-loaded passenger trains on the Wabash Railroad collided head-on at full speed one mile east of Seneca, the second station west of Adrian.

The west-bound train of two cars, loaded with immigrants, and five other coaches, was smashed and burned, with the result of awful loss of life and fearful injuries to a majority of its passengers.

The east-bound train, the Continental Limited, suffered in scarcely less degree.

The track in the vicinity of the wreck is strewn with dead and dying. Many physicians from Detroit have gone to the scene.

No. 4 Continental Limited had engine No. 609, Engineer Strong, Conductor J. G. Martin; and No. 13, double-header, engine 88, Engineer Work, and engine 151, Engineer Parks, Conductor Charles Trell.

The Continental Limited, it is believed, disobeyed orders in not waiting at Seneca for the emigrant train, thereby causing the wreck.

The track at the point where the collision occurred was straight, and at first the officials could not understand how the accident could have happened.

The emigrant train, which ordinarily is due to leave Detroit at 2.30 o'clock, was two hours late, leaving at 4.30. The two trains met at Montpelier, Ohio, according to schedule, but the Continental Limited had orders to wait for the immigrant at Seneca.

The blame is, therefore, placed on the conductor or engineer of the Continental Limited. Had this train been held at Seneca the accident would not have occurred.

The Continental Limited was due at Seneca at 6.43, according to the changes in schedule, but apparently orders to wait were disobeyed, and the probabilities are

that the true story of why it occurred will never be told, as the train crews undoubtedly met instant death.

Advices from the wreck at midnight state that the country for miles around is lighted up by the burning cars, and that the flames could not be quenched because of lack of proper apparatus.

Mangled bodies were picked up along the track by the farmers before the special train set from Adrian arrived on the scene. In some instances the bodies were mangled beyond recognition.

The bodies which the rescuers managed to pull from the burning ruins of the immigrant cars were so badly burned that their identity will probably never be ascertained.

The immigrant trains was a regular train, carrying two cars of immigrants going west, and was behind time. This train was composed of seven coaches, hauled by two engines—Nos. 88 and 151.

Reports differ so far as to the number of coaches carrying immigrants. One says there were two, and another says there were five or six coaches, carrying this class of tourists.

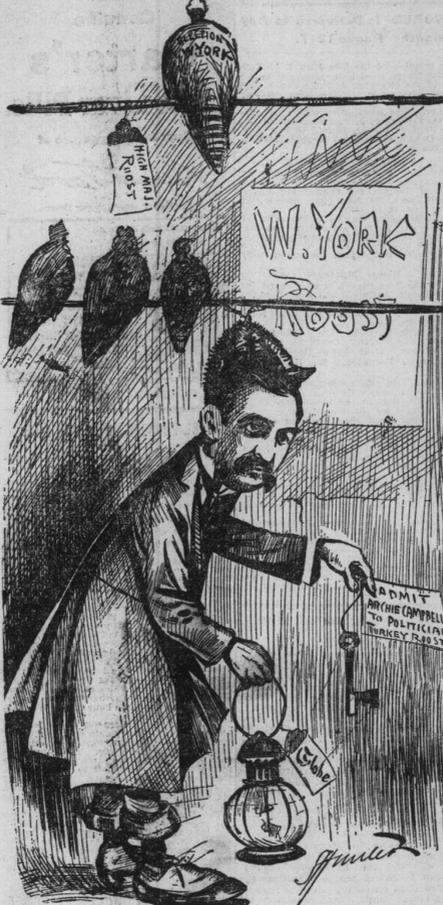

It is not thought that any Detroit people were injured, as the Continental Limited immediately behind the immigrant contained the Detroit passengers for Chicago.

Among the great list of dead, only one name is known here at present. This is Miss Dido Dentzer of Tupperville, Ont. She was alive when rescued, and with her expiring breath said: "Notify William Moore."

That was all. A special to The Tribune from Adrian gives the following list of persons among the injured: George Sweeney, F. B. Richardson, express messenger, cut and both legs mangled; Mary Dolman, injured slightly; H. B. Whitney, an Ontario railroad dispatcher, seriously injured.

The responsibility for the accident is now on the crew of the Continental Limited.

A THANKSGIVING DAY REVERIE.

ROBLIN, HECKLED BY REPORTERS, MAKES SIGNIFICANT STATEMENT

If the Prohibition Act is Not Repealed the Government Will Be Compelled to Carry Out Its Provisions—The Premier Coming to Toronto.

Winnipeg, Nov. 27.—"Have you yet considered the decision of the Judicial Committee of the Privy Council in the Liquor Act and the action you will take on the matter?" asked a reporter of Premier Roblin.

"We are not considering the matter yet; we have something else, also of great importance, occupying our attention at the present time. It is the railway deal mortgage."

"Are you likely to enforce the Liquor Act before the existing licenses expire in June next?"

"I have nothing to communicate at present."

"Have you the power to cancel the licenses already granted?"

"I cannot discuss the matter."

"But, if you don't withdraw the licenses before they expire, I suppose new licenses will never be granted. You will be compelled to carry out the provisions of the act?"

"Yes," said Mr. Roblin, and then he added: "If the act is not repealed."

This ended the conversation.

On the eastbound C.P.R. train for Toronto this afternoon were Premier Roblin, Hon. C. H. Campbell and Hon. Robert Rogers, and on the C.N.R. southbound train also on route to Toronto, was Hon. J. A. Davidson. The Premier stated that he, with his colleagues, was going direct to Toronto on public business of an important nature.

NEW NEGOTIATIONS RE ISTHMIAN CANAL

Lord Lansdowne Desires That the Enterprise Be Conducted to a Successful End.

London, Nov. 28.—The Marquis of Lansdowne, Secretary of State for Foreign Affairs, speaking at Darlington last night, referred to the extraordinary keenness of the competition for the world's markets as affording the greatest precaution in questions of foreign policy.

Referring to the negotiations with the United States, Lord Lansdowne said: "We desire to maintain the most cordial relations with the United States," and he said he was sure that the recent expressions of Secretary of State Ambassador Joseph H. Choate, United States Ambassador to Great Britain, at the annual banquet of the Chamber of Commerce in New York, were reciprocated on this side of the water.

"Like our brothers across the ocean," said Lord Lansdowne, "we regard the distinguished man who has succeeded to the Presidency of the United States with the friendliest disposition."

With reference to the Isthmian Canal negotiations, the Secretary of State for Foreign Affairs expressed himself as happy to be able to say a new chapter had been opened. Both governments were negotiating, concentrating which he could only say the omens seemed propitious.

"Through the negotiations," continued the speaker, "the question has been discussed from both sides in a narrow and candid spirit, but with a genuine desire on our part that this great enterprise should be conducted to a successful end; that the principle of the neutrality of the canal, for which we have contended, should be maintained; that the canal should be the property of the United States, and that the whole world, and that these objects should be achieved under conditions honorable to both sides alike."

Lord Lansdowne made hopeful reference to the South Africa war. He protested against the misrepresentations of the press, and said the inexcusable mischiefs arising therefrom found a striking illustration in the excitement produced in the Continental press by the speech of Joseph Chamberlain, Colonial Secretary, at Edinburgh, and in which he, Lord Lansdowne, found no suggestion of offence.

COMMANDANT JOUBERT CAUGHT BY GEN. KNOX

Kitchener Reports the "Bag" of 36 Bays' Commando, Who Escaped Recently.

London, Nov. 27.—Lord Kitchener, in a despatch from Pretoria, dated to-day, reports that Gen. Knox has captured 36 members of Bays' commando who escaped after the recent fight. The prisoners include Commandant Joubert, who is wounded.

A despatch received in London, Nov. 22, from Lord Kitchener, dated Pretoria, Nov. 21, said that Commandant Bays had been captured, after attacking a patrol near Villiersdorp.

Later despatches from South Africa indicated that the fighting near Villiersdorp was a serious affair, the British losses including Major Fisher killed and three officers wounded.

Compensation Not General.

A despatch from Durban says: The Outlander Committee has issued a report of its interview with Lord Milner, Governor of the Transvaal and British High Commissioner in South Africa. This report asserts that in the interview Lord Milner said that compensation to British subjects on a general scale would be impossible; that the only compensation would be as generous as the idea could not be entertained.

With regard to the war debt, the report says Lord Milner expresses his belief that the British government would not lay a heavy burden on the Transvaal.

ROSS GOVERNMENT PLEDGED TO PROHIBITION IN EYES OF ALLIANCE SECRETARY SPENCE

He Has No Idea That Any Attempt Will be Made to Deny That They are So Bound by Promise—What the Famous Pledge Is, How it Was Made and Reiterated.

The secretary of the Dominion Alliance for the total suppression of the liquor traffic was seen by a representative of The World yesterday regarding the pledge of the government to the prohibitionists and the attitude of the Dominion Alliance.

Mr. Spence was asked the question: "In view of the decision in the Manitoba case, and accepting the statement that the jurisdiction of this law lies with the provincial legislatures, has the Ross government pledged itself in any respect to a prohibition measure?"

"I have no idea that any attempt will be made," said Mr. Spence, "to deny that they are so pledged, and I have no idea that any has been made."

"When and where do you claim that this pledge was made, and what were the words of the pledge?"

"That famous pledge."

In reply to the request for these particulars the Alliance secretary said: "The definite, oft-quoted promise of prohibition legislation for Ontario was made by Hon. Sir Oliver Mowat on Feb. 6, 1894. It is in the following terms: "It is the decision of the Privy Council should be that the Province has the jurisdiction to pass a prohibition law."

"If the decision of the Privy Council is that the Province has jurisdiction to pass only a partial prohibition law, will I introduce such a prohibition law, or will I introduce a warrant, unless the partial prohibition power is so limited as to be ineffective from a temperance standpoint?"

Circumstances of Case.

At the time of the giving of this promise, it was expected that the question of provincial jurisdiction would be settled by the answers to certain questions that had been submitted by the Dominion government to the Supreme Court of Canada and the Judicial Committee of the Privy Council, the first of these questions being: "Has a provincial jurisdiction to prohibit the sale of intoxicating liquors?"

No. 7 of the submitted questions was as to the constitutionality of prohibition legislation, which was upheld by the Privy Council in a lengthy argument.

"Answers to questions 1 and 2: Their Lordships think it sufficient to refer to the opinion expressed by them in disposing of the 7th question."

The Ontario government held that the opinions thus referred to did not definitely declare that a province had no prohibition power. A different view was taken by the Dominion Minister of Justice and the legal advisers of the Manitoba and Prince Edward Island governments, and on advice given the Manitoba and Prince Edward Island legislatures enacted prohibitory laws.

Go as Far as the Law.

In February 1901 a deputation asked the Ontario government to promote legislation similar to that which has been enacted in Manitoba. Hon. Mr. Ross, in reply, stated that there was doubt as to the power of a province to legislate on the question, and that it would not be wise for the Ontario Legislature to enact prohibition before a decision was given as to the Manitoba and Prince Edward Island laws. He stated, however, in reply to a question, that the government was always prepared to go as far as the law would allow.

A week later, when the Standing Committee of the Methodist Church on Tem-

POPULATION OVER 220,000.

Result of Police Census Will Be Made Known to-Morrow.

The census will be very gratifying to the citizens," was all that Chief of Police Grant would say last night in regard to the recent count of the city's population.

"No: there are a few inaccuracies I have discovered which will necessitate a little delay," replied the Chief.

There is a lot of speculation as to the result, but a figure larger than 220,000 will likely be the result. The officials who are carrying the real figures in their respective bosoms are few, and they will not divulge.

The men in the Assessment Department were somewhat pessimistic as to the liability of the count going over 220,000. They point out that their census was about 205,000, and that the Dominion census was 238,000. They add to the latter figure a few thousand students and others of the floating population who come to the city for the winter.

The result will be known beyond doubt on Friday, as the Chief will then have his report in shape for submission to the Mayor.

WILL RECONSTRUCT THE YARDS

Grand Trunk Railway Co. Contemplates Some Extensive Changes.

The recommendation of Chief Thompson of the Fire Brigade, that there should be better facilities for prevention of a conflagration between Spadina-avenue and Bathurst-street, on Front-street, has elicited the information that the Grand Trunk Railway Company is about to reconstruct its yards.

The present tracks are to be torn up, and in their place increased safety and it will likely be necessary to make a new street, south of Front-street, for the water mains. At present, the water main has a dead end in the G.T.R. yard, and the company claims to have sufficient fire protection for the present.

The main runs past the Bestum Works, and to extend it from Bathurst-street to Spadina-avenue, it would be necessary to go thru a lot of private property.

It is understood that the G.T.R. intend to commence the reconstruction of the yards at an early date. The increased safety of the city will be a result of the reconstruction of the yards at a meeting of the Civic Fire and Light Committee yesterday.

WILL ADOPT THE ZONE SYSTEM.

State Railways of Sweden Respond to Appeals of Working Classes.

Stockholm, Nov. 27.—The Swedish government has adopted the "zone" system of fare on the State railways. The change has been made at the suggestion of a royal commission in the hope that the greatly reduced fares will increase the volume of traffic.

This system is now in force in Hungary, where comparatively long trips can be made within certain radial districts from the capital for two-thirds less expense than formerly.

The working classes have eagerly seized the advantages for cheap travel thus offered.

They Grasped the Opportunity.

A number of Toronto's leading men have been putting into their pockets Ellis' high-grade watches, which they secured at remarkably low figures. The afternoon is the time to pick up the pearl and diamond jewelry, as most of it is put up then at auction at the J. B. Ellis Co., 3 King St. East.

Wishes for the Day.

Every year on this day we have been able to return honest thanks for very prosperous and happy times. During the past twelve months we have experienced greater prosperity than heretofore, and our thanks giving must surely be in just proportion. The Dixon Company take the occasion to mention, not in the manner of an advertisement, that their share in the national business has been so small one, and while thanking everyone who has assisted in this they beg to extend to all Torontoans many wishes for a happy Thanksgiving to-day and for many years to come.

INDIANS SHOOT WHITES.

Disturbance in the Pines, and Shot With Intent.

Janeville, Wis., Nov. 27.—Rumors of a startling nature, which throw new light on the alleged accidental killing of white hunters thru reckless shooting on the part of their companions, have reached the city. It is now alleged that in several instances Indians have intentionally shot the men down. The invasion this fall by thousands of sportsmen has resulted in a wholesale slaughter of deer at the very door of the Indian village. This is said to have driven the red men wild with jealousy. Half civilized Indians have informed old-time hunters that the only way to rid the pines of city sportsmen is to scare them out by means of sending a few stray bullets here and there wherever the hunter happened to be lying in wait.

MR. G. B. REEVE'S DEPARTURE.

Will Leave Montreal for Good on December 19.

Montreal, Nov. 27.—The arrangement, so far as least, is that Mr. George B. Reeve will leave the Grand Trunk Railway Company on Dec. 19. Mr. Reeve, who is in the best of spirits, intends to eat his Christmas dinner at his California home, and all subsequent dinners, for that matter, for when Mr. Reeve leaves the city it will be for good.

WAS PETERBORO MAN.

A. E. Miller One of the Victims of the Detroit Horror.

Windsor, Nov. 27.—A. E. Miller, one of the victims of yesterday's explosion in Detroit, was a Peterboro boy. He came to Detroit last July, and made his home with his uncle, Edward Miller, in Delray. Miller's name was taken to Peterboro this afternoon for interment. He was only 20 years of age.

UNDERESTIMATED THE CROP.

Yield in Western Part of Manitoba Has Been Phenomenal.

Winnipeg, Nov. 27.—Early in the season I gave an estimate of the crop for this year. I put it at 45,000,000 bushels, and I find that I seriously underestimated the crop in the west, and at the present time I think the crop, when all threshed out, will reach 65,000,000 bushels.

William Martin, president of the Winnipeg Grain Exchange, made the above statement to-day.

Continuing Mr. Martin said: "My estimate was all right for the eastern part of the province, but the crop in the west has proved a phenomenal one, and the immense yield in that district will pull the average way up."

The crop in the Territories is, without doubt, the greatest in the history of the country.

STARTED FOR OTTAWA.

Col. Evans Has Not Received Further Instructions as to Contingent.

Winnipeg, Nov. 27.—Col. Evans left to-day via C.P.R. for Ottawa. The colonel stated that nothing whatever had yet been decided upon as to the contingent, nor had he received any further news from the authorities.

Col. Evans was naturally very busy all day in preparing for departure, the summons for which had been received on such short notice. During his absence Major Gardner will be the acting D.O.C. at the barracks. Col. Evans has been receiving the congratulations of his numerous friends on his preferment.

WANTED TO KILL DOCTOR.

Ottawa, Nov. 27.—A pathetic story is told about the 12-year-old son of Mr. Joseph Paquette, 56 Balfour-street. Last week his little 4-year-old sister died five weeks after vaccination, and in his sorrow at her death the little fellow vowed vengeance on the doctor who had vaccinated her. The next time the doctor was due to vaccinate, the boy was in waiting with a door knob, with which he intended to strike him. He, however, was noticed and restrained.

TRAMPED BENEATH HOOPS OF AN UNBROKEN BRONCO.

Portage la Prairie, Nov. 27.—David Dehn, a well-known farmer residing near River, six miles south of this place, met with a horrible death at noon to-day. He was hitching up his team, and one of the animals was an unbroken bronco and very restive. It started suddenly, and Mr. Dehn was knocked down. He was ridden beneath, being trampled beneath the horses and the wagon, crushing his head. He leaves a wife and family.

YORK-STREET BRIDGE

Ottawa, Nov. 27.—There was a meeting of the Railway Committee of the City of Ottawa this morning to deal with the question of the York-street bridge, Toronto. There were present at the meeting Messrs. Blair, Mills, Bennett and Tarte. Mr. Blair, city solicitor of Toronto, was present, with Mayor Howland, for the city. Mr. Armour and Mr. Aylesworth, for the C.P.R., and Hon. S. H. Blake and Mr. Cassels for the G.T.R. The question at issue was the proposed standing loan of \$1,000,000 to be taken up by the Railway Committee. To make a straight story of a very involved case, it appears that the City of Toronto and the C.P.R. built the York-street bridge under an agreement. The G.T.R. was joined in the agreement by a clause which provided that if it was shown that the company were liable to pay any part of the cost of the bridge, then the loan would not be made.

The G.T.R. claimed exemption from the loan agreement which they would pay for the bridge, providing that they would not require to build bridges because they had made certain concessions to the C.P.R. in changing their route along the Esplanade. The question of liability was to be decided by a judge, and the amount of the loan would be determined by arbitration. When the case opened before Judge Ross he held that the G.T.R. was liable for the cost of the bridge, and that the C.P.R. was not to be held liable for it. This gave a different and unexpected turn to the case, and now the city and the C.P.R. are both liable for the bridge, and the G.T.R. is liable for part of the cost. The contention of Messrs. Blair, Puffer, Cassels and Armour were that the G.T.R. was liable for part of the cost of the bridge. On the other hand, the G.T.R. lawyers held that there was no liability on any agreement, new or old, which would in any way make the G.T.R. responsible for any of the costs.

At the afternoon sitting Mr. Aylesworth, for the C.P.R., in the course of his arguments said the proceedings in court had been stayed in order that the committee of the Railway Committee, the exact responsibility of each company, Mr. Blair expressed doubt as to the committee's power to apportion the cost of works carried out under its instructions.

In answer to an inquiry by Mr. Tarte, Mr. Aylesworth said the bridge cost about \$100,000, divided equally between the two railway companies and the city. The cost of maintenance in the last three years was between three and four thousand dollars. For the Grand Trunk, Mr. S. H. Blake argued at length to show that this committee had no jurisdiction in the matter. The agreement had been made by private men, who knew their business, and the G.T.R. had lived up to it. The case will be taken up again at 10.30 to-morrow.

Man Without an Overcoat. The man who has not got an overcoat, and who needs one, will find it at the place to go to Archambault's, at 125 Yonge-st., where for fifteen dollars a man who is not so fashionably dressed can get a coat made to order, ready to wear. Archambault's clothing is made equal to anything turned out by a Kingston tailor, and gives thorough satisfaction at most reasonable prices.

The West York Farmers' Institute will meet in the Orange Hall, Woodbridge, this afternoon, and in Dufferin Hall, Weston, on Friday. I. Kellam, president, will occupy the chair at both places. The singing will be in "Cultivation of the Soil and the Home of the Future," and Miss Laura Rose will address the members at "Butter and Cheese, and the Value of Milk." At the meeting to be held in Weston on Friday, Mrs. M. J. Rose will read "How to Overcome Them." There will be a singing and a reading of "The Home of the Future." A meeting will be held in the evening at "Farming with Profit," and a paper on "Farming with Profit" will be read by T. M. Watson. The music will be furnished by the Weston Musical Society, and the piano by Miss Wilson (vocals), and the Misses Farr (pianists).

VINEGAR HILL STAYS IN. Will Not Be Transferred From Markham Village to Township. Deputations from Markham Village, Markham Township and that part of Markham Village south of the Rouge River, known as Vinegar Hill, waited upon the members of York County Council yesterday in reference to a proposition to reduce the area of Vinegar Hill section by transferring the Vinegar Hill section to the township. On Nov. 29 the council of Markham Village

and Markham Township signed an agreement whereby the township will take over the County Council agreement to erect a bridge on the 8th concession. (2) That Markham Village does the grading of the approach to the bridge, and the township releases the township in full against any claims for damages.

Mr. Woodcock stated that he knew of no provision in the statutes where a town can reduce its area, except by taking out town lands. This provision is taken over by the township, and the township can add to, but not reduce, its area.

Can Be Done if Both Wish. Mr. Wilson, Reeve of Markham, stated that the Attorney-General had stated that if the township and town were unable to agree to the transfer, it could be made by the township and town, which would be a private agreement, and would not be subject to the approval of the County Council.

On motion of Councillors Woodcock and Ross the Council placed itself on record as being opposed to the building of a bridge on the 8th concession, which would be a private agreement, and would not be subject to the approval of the County Council.

Want Cushioned Cars. A lengthy discussion ensued upon the accommodation furnished the travelling public upon the Metropolitan Railroad. By the agreement with the county, the company is obliged to furnish cars with accommodation satisfactory to the County Council, and the floors of the cars are not cushioned. The Warden, Commissioners and the Board were authorized to make an inspection and report at the next session of Council.

The County Commissioners handed in their report, in which a summarized statement of the cost of maintenance per annum of the old Court House, appears as follows:

Ordinary repairs and supplies, \$500; water, \$15; gas, \$35; caretaker's salary, \$50; local improvements, \$200; interest on value of property, \$100; insurance, \$10.

Again the newspaper correspondents have the Pope at death's door, and death. His Holiness has lived more than twice as long as the average of humanity, and more than a score of years over the allotted space, and if the correspondents persevere, they will eventually succeed in satisfying their predilections fulfilled.

It is now reported that Queen Wilhelmina of Holland and her husband have not had a serious quarrel, and that Dutch emissaries of the Prince circulated the false reports. Nevertheless, whether in South Africa or the Netherlands, appear to be tolerably well.

The honor paid to the remains of the late Baron Von Hatzfeldt, German Ambassador in London, should more than offset Mr. Chamberlain's unfortunate words at Edinburgh, in the eyes of the Anglophobic German people. Mr. Chamberlain told the truth, but truth is often unpalatable. Then, again, people are always looking for something to get angry about, and shut their eyes against deeds of kindness or generosity.

The Dutch Parliament is worked up about the horrors in Africa, and some of the deputies want to have an end put to them. This is very commendable, but they are working on the wrong tack. The proper way to bring the slaughter and cruelty to an end would be to induce Kruger and his colleagues to listen to reason, and consider humanity.

It seems the French troops in China did some looting, as well as Germans, and that has yet been taken up by the account against the Waldeck-Rousseau cabinet. It is said the looting was passed on to the city of Toronto and in a sequel upon a concert given in France. The commercial ideas, into everything, and the love of money, etc., are the same.

Battle Abbey, which was associated with the landing of William the Conqueror in England in the eleventh century, is now sold at auction for about a million dollars, and the purchaser is said to be an Englishman. Where was J. Pierpont Morgan when all this was going on?

Smuggling of furs from Canada into the United States appears to have been carried on extensively, and Uncle Sam's sleuths are at last making a big haul, according to a report from Cleveland. They have seized and confiscated \$25,000 worth of the furs of foxes. This will be a serious loss to the industrious smugglers, who probably belong to the wealthy classes.

It is a curious fact that the many good features may be mentioned: Grapewin and Chance, in a new opera, "The Awakening of Pip," by Alfred Stephens, protean artist; the three roles, "The Three Westons," and "The Fairing Act;" the Three Westons, male roles, and Stella Lee, dancer.

Next Week at the Star. The entertainment offered by Miter and Van's Bohemian Ballets, which comes to the Star Theatre, commencing Monday next, has not with unfeigned pride in all the principal cities. The company has been carefully selected, without regard to sex, age, and while beauty of face and form has not been eliminated from the female ranks of the company, every artist has a reputation. A special feature will be the music of Miter and Van's \$10,000 production of living pictures, the most pretentious theatrical production of the world, under the management of Signor A. Operi. The two burlesques, "The Three Westons" and "The Fairing Act," will be introduced in 25 shapely and beautiful girls, in songs, medleys and marches.

There is always a large holiday gathering at the annual Thanksgiving concert of the Royal Temperance Society, which was held at the Grand Opera House on Thursday evening. A splendid gathering of artists will contribute to the entertainment, and will include the well-known names of Miss Beverley Robinson, Mrs. Frank, Miss Maud Grollin, and Miss Maud Grollin, and the band of the 10th Royal Grenadiers.

St. Paul's Cathedral, London, Ont., is having put in the bellify a new chime of bells with caution, and a repertoire of 28 tones. The largest bell is 2,500, and the smallest 600 pounds. The chime is the work of Mr. Justice R. M. Meredith, and the bells were made in Craydon, England, by the same firm that made the Toronto City Hall bells. They are expected to ring Christmas chimes.

A Philadelphia doctor says cancer is to become the prevailing malady, and that consumption, smallpox, typhoid fever and other deadly diseases must be relegated to the background. And cancer is incurable! What is to be done about it? Must we live on in dread, mistaking every bump on the nose for a cancer? No use going to a doctor for an incurable disease! It is enough to drive a man to drink or cocaine, or some other dreadful habit.

A Buffalo bank has \$15,000 in Canadian silver, which it wants to sell at a discount. Our banks, it is said, don't want to buy the coin. The Buffalo bank would better send a cart over here with it, and sell it out, retail. Make the price low enough, and people will purchase it. Our business men would exchange goods for it, but, of course, there would be the trouble of taking care of the goods, and, so here is a real dilemma. Why not observe reciprocity in money? Yankee coin goes over here, and Canadian coin is just as good as that. How strange that a bank should have silver coin in dead stock, and so many of us short of it, too!

A SERIOUS QUESTION FOR EVERYONE.

The World is a great believer in straightforward conduct in regard to political issues. It believes in men who are up and up, who are for or against. It has no use for the trimmer. It has no use for the man who blows hot at one time and blows cold at another time.

The Prohibition question, which is just now before the people of Ontario and more or less before the people of Canada, is a most serious issue. It is one that cannot be trifled with. It is one on which men cannot take two sides, or on which men can be trimmers, or on which a man can blow both sides, or on which a man may refuse to commit himself.

Prohibition is a question with which politicians ought not to be allowed to tangle. They may be Conservatives or they may be Liberals, but they must not be allowed to play fast and loose with the issue that has been raised.

The World does not believe in Prohibition. The World does not believe in temperance or in the discipline of society which eventually greatly reduces and finally minimize the evils of intemperance.

The World, therefore, is not in favor of Prohibition. But the World is in favor of the strictest kind of license law and the ultimate public control of the trade in strong drink, and against all and every newspaper or person, politician or adventurer, who seeks advantage out of this question.

LET US GIVE THANKS. Perhaps no country in the world has more reason to give thanks to-day than this Canada of ours. The Dominion has not been visited by any great calamity, and its people have experienced an agricultural, industrial and commercial prosperity.

DEPLETED OUR BASS FISHERIES. Editor World: While this is not mentioning facts so far as the depletion of our fisheries is concerned, it is a fact that the depletion of our fisheries is a fact that the depletion of our fisheries is a fact.

INCREASE OF PAY. Montreal, Nov. 27.—The Transcript tonight publishes a revised system of pay by order of Hon. A. G. Blair, Minister of Railways, providing a system of pay for all mechanics and workmen on the Intercolonial Railway works here, and along the line. The increases will amount to \$30,000, and affect 1000 men.
