Some Disorder, but Act Twice Read Company Have Called Out Militia

Mayor Douglas Declines To Ask For Troops, Declaring That the Local Authorities Have the Strike Situation Well Enough in Hand.

FIVE MINES CLOSE DOWN STRIKERS' RANKS GROWING

TROOPS LEAVE HALIFAX.

HALIFAX, July 7.—(Special.)—Judge Phipps county court judge of Cape Breton, signed a requisition for military protection late to-night, which was forwarded to Col. Humphrey, D. O.C., at Halifax. This, it is understood, has been forwarded to the authorities at Ottawa for approval, and in the meantime 500 troops, twenty officers, with 200 quick-firing guns, are held in readiness to entrain for Sydney at a moment's notice.

Men are being brought in from the various forts in the vicinity of Halifax to replace those who will go to Sydney. The military special leaves within an hour.

GLACE BAY, N.S., July 7.—(Special.)—There is very little change in the condition of the Dominion Coal Company strike, excepting that a much larger number of men are idle to-day at all the collieries, with the possible exception of Dominion No. 1, Nos. 2, 3, 4, 7 and 9 are entirely down. These mines would employ over 3000 men ordinarily. At Caledonia the pit is practically closed, not more than sixty-five people being at work. At Reserve, about one-fifth less men are working to-day than yesterday, and the number of strikers is increased by about 100 men.

There have been some little scrimmages going on to-day, but nothing of a serious nature, although it is called out. This has not been granted. The worst that happened to-day was that men were jeered at and called "scabs." Rotten eggs were fired around, women and children helped in the disorders, and a number of people carried to hospital.

There was no real harm done, although the Riot Act was read this morning at Dominion No. 2, and called out by the men, and whatever trouble occurred was from that cause. No one was seriously hurt, the Manager Douglas struck by a man in the ranks, the latter being arrested.

Several Arrests.

Altogether seven men and one woman were taken to jail and called out and the trial was set for Monday night.

At Caledonia Sheriff Ingraham read the Riot Act this afternoon, and the coal company police arrested some eight or nine men. These latter were released on bail and their trial was also set for Monday.

At Dominion No. 2 the strike leaders offered some obstruction to those who were going to work. The assembled crowd refused to disperse and the police found it necessary to draw their revolvers before the crowd obeyed. The colliery is operating, however, with about the same number of men as were on hand yesterday.

Reserve the best of order was maintained. The men went to work without any molestation.

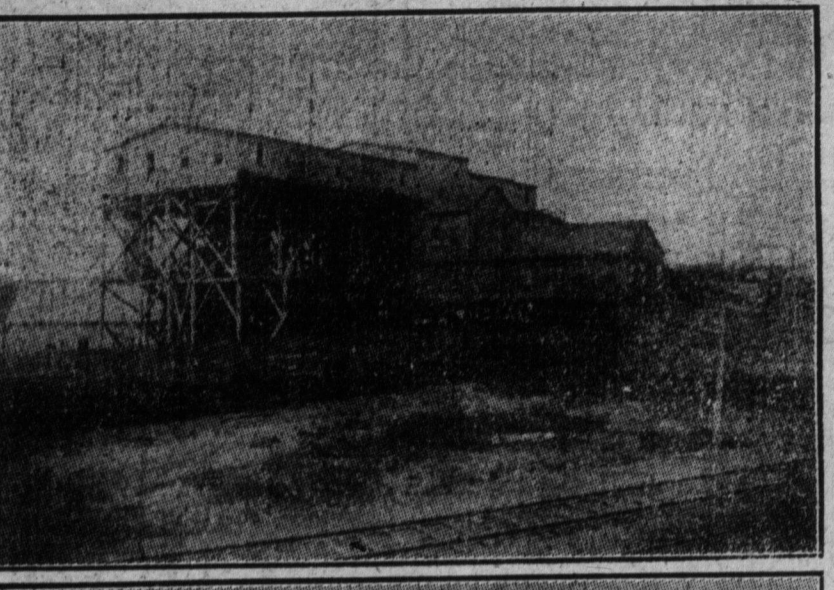

The situation at Dominion No. 1 remains unchanged. Good order prevailed, and there were no efforts at interference with anybody. The management report that more men are at work here than yesterday.

The report from Bridgeport is to the effect that as the men were going to work they were met by the strikers and a slight disturbance took place. About the same number of men as were at work yesterday are at work to-day.

Call For Militia.

The trains on the Sydney and Louisburg Railway are all running and the piers are in operation. Seven schooners and one steamer were loaded at the International Pier yesterday and last night.

Mayor Douglas was requested to-day by General Manager Duggan to send a requisition to the authorities at Ottawa to call out the militia. This Mayor Douglas refused to do, claiming that the civil authorities are quite

PICHE IS RUN TO EARTH AFTER AWFUL CHASE IN TRACKLESS NORTH

Half-Breed Wanted on the Charge of Accepting Bribe To Abstain From Giving Evidence, Arrested at Cobalt After Two Years' Pursuit.

Charged with accepting a bribe or other corrupt consideration amounting to \$25,000, to abstain from giving evidence in an action in which the provincial attorney-general was attacking the claim of the Temiskaming and Hudson Bay Mining Co. to a mining property in the Cobalt district, John Piche, 50 years of age, a French-Canadian half-breed, who was formerly a justice of the peace at Sudbury, Ont., was arrested yesterday by Chief Dalbeck of Cobalt at Halesbury, Ont., and is held at Cobalt for Detective Mackie, who left last night to bring him back to the city.

With the arrest of Piche there closes a chase which for sheer romance and adventure rivals the most thrilling tales of early Canadian history. The warrant was sworn out by Inspector of Detectives Walter Duncan, April 12, 1907. Since then he has been pursued for thousands of miles thru the wildernesses of the Northwest and driven into the frozen fields of the far north. From the busy streets of Toronto he fled when the crime was discovered, and the next heard of him was from the Royal Northwest Mounted Police at Battistford, Sask. This was April 16, 1907. From there a sergeant and two men set out in pursuit. For more than 200 miles they tracked him thru the pathless wildernesses to the north. He was hard to come upon, for in his early days he had roamed that country as an Indian huntman. The unknown ways were as an open book to him, and it was a harrowing race he led the officers. Time after time they thought him within their grasp, only to find that he had evaded them thru some hidden way, of which they did not learn until too late. At last they closed in on a valley in the mountains where they were convinced he must be bottled tight. Carefully they drew together, confident that they had left open no way of escape. At last they came into the open. He had vanished as if the earth had swallowed him and those officers are waiting to learn how it was done. Wearily they made their way back, encountering many hardships. They arrived at the post. Letters were received here constantly from various branches of the R. N. W. M. P. One day he was seen next he was west. Will of the wisp, himself, was not more elusive than he. Finally he was lost over the southern border into the United States and while a month ago some whisper of his whereabouts was heard by the police here, until yesterday no definite word of him was had. The day he was felt in police circles, as for more than two years his capture has been a triumph much longed for.

IRON FOUNDRY TO LOCATE IN ARSHEW

Sir William Mulock and His Son Offer Terms to City, and Will Spend Half Million on Huge Industry.

CLEVELAND, O., July 7.—(Special.)—What sort of a man is John D. Rockefeller at 70 years of age? Has nature wrought the same changes in the mind of the richest man in the world that have been wrought in his body? Can he speak of his age as physical age, mental age, or both? To-morrow his seventieth birthday. Rockefeller is the living answer. He has sublime faith that his physical age is not the same as his mental age. He said Rockefeller would live to be 100 years old.

Age showed on him to-day at his Forest Hill home, to be sure, but it was the age of little more than full maturity and not the age we call venerable.

For the past five years Rockefeller, it has been said, was "getting old." At the time he faced a court in the Chicago Standard Oil trial three years ago he seemed feeble, even scared.

But to-day, at three score years and ten, Rockefeller is YOUNGER than he was three years ago.

The face of Rockefeller at 70, once seen, never could be forgotten. His skin is sunburned to the point of sallowness, but it is the nut-brown tan of health.

For Rockefeller has the gaze of youth. He may be talking to you about the weather or the new-born water lilies on his lake at Forest Hill, or golf, or the robin he saw yesterday, but his eyes are not the eyes of an old man.

They constantly rove over his complexion, up and down, back and forth, but never losing the power of human inquiry.

And he doesn't use his eyes watching things when there are persons about.

His Voice is Subdued.

At times when he grows earnest his voice will break and quaver, rise to a higher pitch, but always be subdued. At other times when he gives an order to a domestic or speaks of a trifling matter he is as easily, his voice becomes stronger, more peremptory. His words fall from the lips of an old man who should seem to lead the army of orders from which there could be no appeal.

When he stands erect his head is bent forward, but it is not from a body stooped with the weight of 70 years. The neck, rather than the shoulders, is inclined. It has no effect on a man's body of a mind constantly attentive to what is before him—forgetful of what he has passed.

That is one reason why he is so young at 70—he has learned to forget.

Rockefeller's hands are firm, but not unyielding. As you grasp his hand you do not experience any receptive mental change from the softness of your hand with his. It is not a clammy hand, but a hand that feels its way. Extended in greeting it is not pushed forward by its arm. The hand seems to lead the arm to a position where it is within reach. Hesitation is expressed in this way, but it is the hesitation of a man who is not the latter that comes; most men 70 years old.

Straight as an Indian.

Neither is the gait of Rockefeller that of a man of 70. From his shoulders down his body is as straight as an Indian's and there is something of the Indian suggested by his gait. He is not a man who walks with the intense earnestness of attitude combined with a face devoid of emotion.

Having conquered all in business, Rockefeller at 70 years is conquering all in the same economy of resource, the same energy, the same silence.

FOR "FAKING" ACCIDENTS

Three Men Arrested at Montreal Preyed on Corporations.

Montreal, July 7.—Three men were arrested to-day on the charge of swindling the big corporations by means of fake accidents. The method was to fall off a car or slip on the sidewalk and get injured slightly. A claim for damages was nearly always settled by the big firms like the Street Railway, C.P.R., G.T.R., and it turned out to be a profitable venture. The men arrested are: Nathan Aloff, Max Catsoff, Ophie Shynkofsky.

PAID GRANT FOR CONTRACT

Called it "Royalty," But Montrealers Had to Pay It.

MONTREAL, July 7.—(Special.)—F. Powell of the Hassen Paving Company stated to-day that the civic commission, that he could not get a contract until he began to pay a royalty, the witness answered that he had to pay 60c per yard to one E. Belanger, who was reputed as having a great deal of influence.

Anyway, that was the rate he always paid.

A BIRTHDAY MESSAGE

However pleasant it may be to dwell with the memories of the past, it is to the future that we must look, and we are never too old to contemplate a greater usefulness, and, therefore, a greater happiness. All of life bends eagerly to the to-morrow. Yesterday was A day, to-day is TO-DAY, but to-morrow is THE day.

B.C. MAN HAS AEROPLANE THAT MAY BEAT WRIGHT'S

Lighter and Faster and Can Right Itself—Company Organizing to Manufacture.

VICTORIA, B. C., July 7.—W. Gibson of this city has invented an aeroplane which he expects to beat all others. It is less than a third the weight of the Wright machine and develops 40 more horsepower. The inventor offers to bet that in a year he will fly from Vancouver to Seattle in his machine. Its weight is only 222 lbs. and the motor develops 65 horsepower.

A feature of the Gibson aeroplane is that it flies straight forward instead of sideways. While other aeroplanes present their widest side to the front, it presents the narrowest.

A local syndicate is being formed to secure the patents and build the machines, which the inventor claims can be handled by anyone who can drive an automobile. It has a single plane, built in two parts, and is steered by a rudder with a wheel attachment. Other than with these, it has no landing gear, which, when pushed forward, elevates and, pushed backward, depresses the car. The machine is driven by eight single-cylinder engines, four on each side, rotating in contrary directions, as a bird's wings move in opposite directions. This gives a more even flight with minimum vibration. The frame is of wood, covered with canvas, with chrome steel braces. The heaviest part of the engine is the four steel cylinders, which weigh 12 lbs.

Trials of a model have proved most satisfactory. In one trial the aeroplane was started upside down, automatically righting itself before going more than two feet.

REST DE EXPRESS CHARGES ON FRUIT

Justice Mabey Scores Canadian Ex. Co. for Increasing Rates—When Competition Was With-drawn.

OTTAWA, July 7.—(Special.)—The appeal of the fruit growers of Queenston district against the raising of the express rates on fruit shipped to Toronto proved the most interesting case to-day before the Dominion Railway Board. Justice Mabey, chairman, took several opportunities during the argument to express contempt for the action of the Canadian Express Co. in particular.

His summing up was as severe as it could be made, and his judgment was entirely against the company.

In brief, it was claimed that the Canadian Express Co., finding itself in the fold without competition, had raised its rate from 30 cents per 100 pounds to 40 cents, despite having given an undertaking that the tariff would not be altered so long as the matter was before the board.

Justice Mabey, in scathing terms, disallowed the charge of rate.

Incidentally, the decision of the board was a great victory for W. H. Bunting, who, in a quiet way, despite having stated the case for the fruit growers. There were a number of prominent fruit growers in the court.

Mr. Bunting produced correspondence to show that the Dominion Express Co., which claimed to have neither office nor agent at Queenston, had gone out of the fruit freight business. The Canadian Express Co. had notified the fruit growers that in order to put the traffic on a paying basis it would have to charge 40 cents instead of 30, and the new figure could only be maintained if the growers gave it all their business. The local managers had stated that it would be better to draw from Queenston under 40 cents was charged.

Justice Mabey asked William Bryon, general manager of the Canadian Express, what the local manager meant by "withdrawing from Queenston."

Mr. Bryon: Simply we cannot do the fruit business.

Rate Once.

Mr. Bunting pointed out that in 1896 the American Express Company was charging 40 cents, but because of the competition of the Canadian Express, which carried fruit for 25 cents, the American Express reduced its rate to 30 cents, and when the Canadian Express took over its business it carried fruit for 25 cents for some years. In 1907, when the Dominion Express came upon the scene, the figure was raised to 30 cents.

W. H. Bigger, for the Canadian Express, said if they were entitled to 40 cents from St. Catharines, surely they were entitled to the same from Queenston, especially since they had to share up with the Michigan Central.

Justice Mabey suggested that there was nothing to prove they were entitled to 40 cents from St. Catharines. F. H. Chrysler, for the Dominion Express, said his company's arrangements with the steamboats had concluded, and the Dominion Express had gone out of the fruit carrying business.

Justice Mabey pointed out to Mr. Bunting that the railway commission under its powers, had no authority to force the companies to open offices.

"We can disallow the cancellation of tariff by the express companies," he said, "and that will leave a 30c tariff in force, but it will have to be a case for the courts, if they refuse to carry the fruit."

Looked Suspicious.

Justice Mabey then asked Mr. Bigger to say why the cancellation had not been disallowed.

Mr. Bigger reiterated that if they were entitled to a 40c tariff from St. Catharines, they were entitled to the same from Queenston.

Justice Mabey: "Isn't it strange that when the Dominion Express Company concluded its arrangement with the steamboats, the Canadian Express should raise the rates?"

Mr. Bigger replied that it was merely a coincidence.

"A peculiar coincidence," remarked the chairman.

Mr. Bunting said the rates should not have been altered while the matter was under the advisement of the board.

Justice Mabey: "That was the understanding."

Mr. Chrysler objected to this, but Judge Mabey insisted it was the understanding.

Rates Restored.

Justice Mabey then announced his judgment: that the cancellation was disallowed. Not on the ground that the 30c was too low, it might be that 30c was too low he said. He would not stop to enquire, but some time ago an understanding had been given that the rates then in effect should be maintained while the matter was before the board, and all he could do was to make an order disallowing the cancellation.

Mr. Bigger said the Canadian Express had no intention of committing a breach of faith. Justice Mabey pointed out that there had been an apology once before for a matter of the same kind.

PICHE IS RUN TO EARTH AFTER AWFUL CHASE IN TRACKLESS NORTH

LET US SETTLE IT RIGHT
 By the people of Toronto making up their mind to be at least one city in Canada where they will stand for no flag-flying outside of the British and Canadian Jacks. Then the thing will grow.

There was one in which Mr. Pinkerton of the attorney-general to destroy the title of the Temiskaming and Hudson Bay Mining Co. to a mining property in the Cobalt district, John Piche, 50 years of age, a French-Canadian half-breed, who was formerly a justice of the peace at Sudbury, Ont., was arrested yesterday by Chief Dalbeck of Cobalt at Halesbury, Ont., and is held at Cobalt for Detective Mackie, who left last night to bring him back to the city.

NOT LIKE TORONTO SHOW

F. J. Lator Disappointed With Seattle Exhibition.

F. J. Lator, M.P., and Mrs. Lator are in Toronto on their way home from the Alaska-Yukon Exhibition at Seattle.

"A poor show," said Mr. Lator, "and not to be compared with our Toronto Exhibition. The attendance on one day was 22,000, and they thought that was splendid."

Coming home by the C.P.R. Mr. Lator had a fine view of the Northwest grain fields. He said the crops looked splendid and that everything about it was a record yield.

CHARGES REASONABLE GRAIN GROWERS LOSE

C.P.R. Losing Money on Elevator Rates, But Public Shouldn't Care, Says Mabey.

OTTAWA, July 7.—(Special.)—The railway commission to-day discussed the application of Dominion Millers' Association and the Manitoba Grain Growers' Association, for a reduction of the same scale as those at Owen Sound and other lake ports.

Some time ago the C.P.R. imposed one-quarter cent per bushel extra charge, ostensibly to cover extra insurance. The company did not formerly insure the grain, but now does. The complainants said, however, that the extra charge far more than covered the cost of insurance, but the company was able to show that taking into account its capital investment of two and a half millions, and the cost of operation, no money was being made if a reasonable amount was written off for depreciation of plant.

It was pointed out that the C.N.R. was clearing 8 per cent, on its elevator operation expenses, which were 33 1-3 per cent, of gross receipts, while the C.P.R.'s expenses were 80 per cent. The C.P.R. account for this by saying that they run five small elevators while the C.N.R. have one large elevator.

The commission were unanimous in holding the present rate reasonable. Justice Mabey remarked that it made no difference how badly the C.P.R. managed its business so long as the loss fell on the stockholders and not on the public. So long as the charges were reasonable, it did not matter to the public if the C.N.R. was making money, and the C.P.R. losing on the same business.

ENGLISH CAPITAL FOR RAILWAY

May Result in Extension to London of the W., E. and L. S.

CHATHAM, July 7.—(Special.)—A deputation of English millionaires arrived this morning and in company with John Piggott and other directors are making an inspection of the Windsor, Essex and Lake Shore Railroad.

If the Englishmen can be induced to put up the capital they talk of dooming the road will immediately be extended to Chatham, and later it is the intention to build it on to London.

WINTER FAIR PRIZE LIST

Will Total \$10,000, Including \$3000 For Horses.

GUELPH, July 7.—(Special.)—The Ontario provincial fair board to-day decided that the prize list this year should total \$10,000. The horse show prize list, which comes to the board as a recommendation from the Ontario Horse Breeders' Association, will be along the same lines as that of last year's horse show, held at the stock yards in Toronto. The amount for horse prizes is about \$2000.

The feature of the poultry prize list this year will be the department of 20 classes or more in pigeons, to include the birds of 1909, which have been excluded heretofore. Realizing that the showing of fat stock has been in the past the only weakness of the show, the board has greatly increased the prizes for that class.

They spent the afternoon inspecting the new extension to the fair building now in course of erection, and approved of one or two slight diversions from the regular plans.

NORTH UNION STATION

Mayor Oliver Begins to See Way Things Are Moving.

"It looks as tho the railways will build their station up north."

This was the remark of the mayor yesterday on receiving the request of Asher Leeson & Co. to be relieved of their lease of Front-street property by the city because of the uncertainty as to the plans of the railways.

Note and Comment

Had Maskette's previous performance been like Moquette's she would have started in the Merial Stakes at Sheepshead Bay yesterday longer than 1 to 8.

Now as to Moquette, which is a four-year-old bay colt, by Ben Holiday—Rucan record. He started in the mud at yesterday with as good as 5 to 1 against his chances.

At Landon, in June, Moquette ran also 1-14 miles in 1:41 1/4, equalling the American record. He started in the mud at Hamilton and was beaten by J. E. McMillan.

According to the New York Sun the turf governors are not enthusiastic as to the future of racing just now than at any time since the Agricul-Hart law went into effect.

The American Racing Associations will not make money this year, like those on this side of the line, but they may break even.

Official publication has been made in the Mexican city of the concession which the state government has granted to the American syndicate headed by J. B. Fox.

Toronto Wins Ten Out of Four From Ganzelites In Rochester

Score Was 10 to 1—Buffalo Trims Montreal—Newark and Jersey City Battled 14 Innings to a Tie—Providence Wins.

ROCHESTER, July 7.—(Special)—The Leafs made it three out of four on the series, capturing today's battle 10 to 1. It was a walk-away for the visitors after the fifth inning. Rochester's weakness in the box was responsible for the defeat of the leaders.

The visitors finally broke the ice in the sixth. Weigh walked and Houser bunted. Grishaw forced Hoyer at second on a grounder to Holly, Wedy taking third. Grishaw stole second and Mitchell was passed intentionally.

McGinley pitched a masterpiece, but was called out for not touching first base. Mitchell singled between third and short, and was caught trying to steal.

McGinley started the ninth by striking out, but Miller doubled to right. Wedy's out, Holly to Gravel, advanced him, and he scored on Hoyer's single. Grishaw singled to center, scoring Frick and went all the way around himself when

Canadas Win First Scotch Doubles Game For New Trophy

The first contest for the Goodall trophy was played yesterday afternoon between the Canada and Granite Clubs, and resulted in a win for the Canadas by the narrow majority of 10 shots.

Scotch doubles are much more sociable than singles, and the strain on the players is not so great; for this reason these contests will prove very enjoyable.

The next game will be played on July 21st, when the Victorias and Canadas will meet at the Victoria Club.

The complete score was as follows: Canadas—On Granite. Total 72. Granite—On Canadas. Total 62.

St. Matthews Win at Brampton. St. Matthews visited Brampton yesterday and won a four-rink match by 31 shots as follows:

Brooklyn League Scores. At Brooklyn-Brooklyn made it four out of five with Boston by winning today's double-header 7 to 4 and 5 to 1.

St. Matthews Win at Dufferin. Belmont Wilkes, Maxie Pointer and Montbert are the winners.

City Championship Lawn Tennis. The city championship lawn tennis tournament held under the auspices of the Eastern Lawn Tennis Club commences on Saturday.

Teumseh and Toronto. At the last game at Scarborough Beach there were 40 small boys and girls and the management is making special preparations for the care of the youngsters.

West End Handicaps. The West End M.C.A. weekly handicaps last night resulted as follows: 20 yards—1, Montgomery; 2, Wilson; 3, Cade; 4, Time 24 sec.

MOQUETTE WINS HANDICAP

In a Drive With Centre Shot Thereby Showing Reversal of Form—A Day at Fort Erie.

PORT ERIE, July 7.—(Special.)—There was another good attendance at the races this afternoon, when about 3000 came over from Buffalo and nearly 1000 from Toronto. The weather was again ideal and conducive to good racing. The track was again fast, as was shown by the time made in the numerous events. The card was without a stepchase, seven races being run on the flat. A large number of western horses arrived this morning. The yearlings purchased last week by the Dymont stable, consisting of three by Star Shoot, one by Sir Dixon and one by Viceroy, came in from New York and will be kept at this track for the remainder of the season. There were two yearlings of John Lamb of Toronto along with Dymont's.

The first race the colors of the Dymont stable were first past the post when Star Shoot won with ease from a first field after a good ride. He was kept off the early pace and came away in the third race, coming away in the third race, Little Oaseg, was not in the money. This event was won by Personal, who made her own running and was never hurried at any stage. Uncle Toby was first in getting up in the last few strides. In the third race Sociable, an outsider, got off flying and won without trouble. Arthur Brydon's two-year-old Hickory Stick finished third.

In the fourth race the handicap, Centre Shot, was the best of the favorites, while the winner could be had at one time as five to one, going to the post at three to one. Centre Shot made all the early running and tired badly in the stretch. Moquette was held under restraint all the way, but came away in the last few strides. This is a vastly different race from the one run at Hamilton and worth looking into by the stewards. Touraine was out-run all the way.

In the sixth race Jack Baker went to the post the first choice and looked to have a good chance to win. When the field was sent away a dog ran across the track, causing Jack Baker to stumble and throw his rider. Campaigner, who was close behind him, also lost his footing when he was bumped by Baker. Ceremonious set all the early pace, but when it came to the draw in the last few strides he could not stand off the winner, being beaten by a head.

In the last race Pat Civil put over another with Creel and making four victories for Reid. Maxima was always a contender but could never get enough to challenge the winner.

Just previous to the sixth race Willie Martin, the ex-jockey, was standing in the paddock and as Chepoutic passed he kicked Martin, causing him to fall. It was found that no bones were broken. James McLaughlin arrived to-day with a string of horses from Ontario. Steve Lane and Markman will be shipped to Saratoga next week.

MARKETTE AT 1-8 WINS 33000 MERMAID STAKES

Greenvale Makes New Track Record for 5 1-2 Furlongs on Sheepshead Bay Turf.

SHEEPSHEAD BAY, July 7.—Markette, at the prohibitive price of 1 to 3, scored an easy victory in the \$3000 Mermaid Stakes at Sheepshead Bay to-day. She so overwhelmingly out-classed her field that there was practically no betting on the race. Markette dashed into the lead at the start, and Scoville took a strong pull on her. She galloped along in front and won by three lengths.

Greenville made a new track record for the turf course, when she stepped off the start of 5 1-2 furlongs in 1:06 4-5, which is 2-5 of a second faster than the best previous time.

The Coney Island Jockey Club to-day announced an extra day's racing, Monday next. Summary:

COATES' PLYMOUTH GIN

Remember that name when next you want a real dry gin rickey—an appetising cocktail—has the pleasing dry tang, without a hint of oiliness, that only master distillers can put into gin. No wonder! The Black Friars' Distillery have been making Coates' Plymouth Gin supreme ever since 1793! No other gin is in the same class.

Imported in bottles, only; and the Black Friar is on the label. That's your warrant of quality.

OUR NEIGHBORS AND THEIR FLAG

The Americans to the south of us are often offensive in the way they display their flag on the soil of other countries, especially here in Canada.

Our people are somewhat to blame for this condition of affairs, inasmuch as in their anxiety to cater to the business of American tourists they salute them with American flags over their restaurants, and decorate their waiters with American flags, and our summer resorts have a profuse display of the Stars and Stripes.

The American is very proud of his country, and he thinks he shows it by an unlimited display of old glory; but if the American thought less of his flag and more of the system of government under which he now lives, he would devote less attention to flag flying and more to the reform of his politics.

The so-called great American Republic, the mother of freedom and of progressive government, is to-day the worst governed country in the world, outside of Turkey and countries under barbarian rule.

Another thing that must be noted is that all the genuine reforms to-day in the interest of good government are coming from nations that the Americans pretend to despise.

Progressive government to-day has its home in Germany, Great Britain, Denmark, Australia and in New Zealand and even in countries like Italy.

MUST BIG QUESTIONS STAND FOR HOLIDAYS?

The Canadian Railway Commission is a fairly hard-working body, and is giving the country good service; nevertheless The World regrets that it has not been able to so arrange its business as to have settled by this time the question of railway express rates, especially in view of the numerous complaints made by the fruit growers of this province.

The country is also waiting for a decision of the commission in regard to telephone tolls, and we can imagine that the public pressure for a settlement of these two grievances would induce the members of the commission to cut short some of their holidays in order to get the matters settled.

But the solution of better express rates is not altogether in the commission: An expansion of the parcel post system of the national postage is the best thing in sight. But they do say that the railways are powerful enough at Ottawa to deaden the hand of any postmaster-general with ambitions enough to follow the lead of European postoffices.

POET AND TAXPAYER.

Rudyard Kipling has written some verses under the inspiration of a particular aversion from the payment of taxes. It is not so many years since Rudyard arrived at the distinction of being an object of interest to the taxgatherer. In those days the incidence of taxes was not a subject to move his muse to ardent balladry.

Now, however, that the people have loaded his coffers with the guerdons of art he is reluctant about rendering Caesar what Caesar demands.

We cannot agree that Kipling is such a decadent as some critics profess to believe. "Puck of Pook's Hill" is as good as anything he has written, but it is in a different vein. Some critics think that poets ought to be like hens, always laying the same kind of eggs. If a poet varies his strain (as would not say "lay") for the "world" they seem to think that he is no longer worthy of consideration.

The thing was observable in connection with Tennyson's later volumes. As these came out one after another a wall of deprecation went up from the critics. But Tennyson was quite at his best in "The Ancient Sage," "Locksley Hall Sixty Years After," "The Lines to Virgil," and the exquisite lyrics of the closing years.

Tennyson probably kept a more optimistic spirit than Kipling is able to do. Kipling has traveled far, and has seen the earth and everything that creepeth upon it after its kind, and he sees that it is very bad. He sees that Lloyd-George is of the worst.

This means that Kipling is aging more rapidly than Tennyson. Even if the moral of Pook's Hill be trustworthy, and England is to go down like Rome, there will be something to follow England, as England followed the Roman Empire. Canada has a great deal to say about that.

It is too bad that poets have to pay taxes. Yet a great many near poets would be delighted to have taxes to pay. Mr. Kipling will do well to pay his taxes and then see to the conservation of what he has left. Charles Dickens left \$465,000, but his granddaughters have just been granted a weekly pension of \$2.50 each in England.

LORD ROSEBERY'S LATEST.

Lord Rosebery's determination to sever the slight link that still unites him with the British Liberal Party is the natural sequence of his attitude towards the later developments of the present government's home policy. It was more immediately foreshadowed by his letter of last week, strongly protesting against the budget, which he declared to be not a budget, but a revolution and a social and political revolution of the first magnitude.

He went further even by protesting against the absolute rule of a party in power and demanding in effect a referendum before sweeping changes are carried out. This probably anticipates the stand he intends to take when the budget comes before the house of lords and may be taken as an indication that he will advise its rejection in whole or in part and thus compel an appeal to the people.

Separation from the Liberal Party does not necessarily mean that Lord Rosebery will identify himself with either the Liberal Unionist or Conservative sections of the opposition. He has hitherto been ranked as a free-trader, tho not a bigoted one, and on one notable occasion expressly dissociated himself from the notion, that free trade was as much above criticism as is the moral law.

What Lord Rosebery might have become, had he attained the premiership under happier auspices, is an interesting question. His record as foreign secretary did much to heighten his already outstanding reputation, and with a fair field his leadership of the Liberal party might well have placed him in the front rank of statesmen. But his worst foes were within his own cabinet and the bitterness of the quarrel left its mark. Possibly his was too sensitive a disposition for the rough edge of personal antagonism, but what the party lost the nation may have gained in part, and certainly his deliberances carry greater weight than attaches to those of any other British statesman.

NEW STATION FOR GUELPH

G. T. R. Must Have It Ready by Sept. 1910. GUELPH, July 7.—(Special).—A copy was received by City Solicitor Guthrie to-day of the finding of the Dominion Railway Commission with respect to a new G.T.R. passenger station for Guelph. The finding, which meets with the approval of the city, calls for a new station to be completed by Sept. 12, 1910, and specifies that the Grand Trunk, who are to be given Jubilee Park as a site, must provide a 40-foot subway at Gordon-street, an eight-foot one at Huskisson-street, and leaves the question of Neeve-street Subway, about which there is a doubt, to be settled later.

KEEP GIPSIES ON THE MOVE.

KINGSTON, July 7.—(Special).—A band of gipsies, 40 men, women and children, were driven out of the city by the police to-day. They started to camp on citizens' property. Yesterday they were driven out of Napane.

Fort Erie Races.

There is only one train from Toronto landing you direct at the track, up leaves Toronto 11.30 a.m. (daily except Sunday) via Grand Trunk, reaching Fort Erie in ample time for first race and returns immediately after last race. Return fare \$2.00. Secure tickets from Grand Trunk agents.

Storm Conservatives.

CORNWALL, July 7.—(Special).—There was a large attendance at the annual meeting of the Stormont Conservative Association at Newington this afternoon. Addresses were delivered by G. H. Pearson, M.L.A. for Grenville; R. A. Pringle, K.C., ex-M.P.; and J. C. Milligan, all of whom advised the organization of the town. The following officers were elected: President, J. G. Adams, Wales; vice-president, D. J. Gillies, for the Township of Cornwall; A. S. Hodgins for the Township of Osnabrock; John McLaughlin, ex-M.L.A., for Roxbury; D. D. Hamilton, for Finchville; F. D. McNaughton for Finchville; Treasurer, A. T. Shaver, Lunenburg; secretary, J. Milligan, Cornwall.

FLAG INCIDENT OR ACCIDENT.

Editor World: The flag incident referred to on page 12 of your issue of July 7 may call forth further comments, and if not, permit me to say the article does not make the matter clear. I do not think it fair to infer an insult was intended. I agree with you that we do not display our loyalty on the house tops and by the waving of the flag as do our co-called American cousins—but we are more by a knowledge of our flag than they. I do not think it fair to infer an insult was intended when it may have been by mere accident that our flag was trailing. It would be more considerate to believe that the flag was attached with honorable intent. No self-respecting citizen of the U. S. A. would act, and the majority of our visitors from across the line are worthy citizens and cousins, and their residence here, even temporarily, most desirable. I do not think it fair to exhibit their respect for the Stars and Stripes, which example should be wholesome to us and create a similar respect in us over our flag. Imagine a policeman or even a sergeant trying to stop an automobile without knowledge or evidence that the incident was not a violation of the law. There is nothing to prevent all Canadians from an unlimited use of the Union Jack, and let us remember our American cousins in that respect. We should not misjudge citizens of other countries by the acts of a reckless few any more than by the criminals who seek shelter in Canada.

NAVIES ON RAMPAGE.

WOODSTOCK, July 7.—(Special).—Fifty Italian navvies who are engaged in track laying went on strike this afternoon, demanding a raise of ten cents a day from the contractor. A bunch working at the G. T. R. struck simultaneously. At the G. T. R. the navvies got fighting and stones were thrown. One man got hit in the face. The striking men refuse to leave the cars and trouble is looked for if an effort is made to eject them. The police were kept busy all this afternoon.

Boy Drowned at Ottawa.

OTTAWA, July 7.—Lucien Archambault, aged 15 years, of Murray-street, Ottawa, was drowned in the Rideau Canal this morning while in swimming with some companions.

Moved for order for leave to enter a conditional appearance. F. MacKeenan, for plaintiff, contra. Order granted. Costs in cause. Stone v. Lewis—A. Nesbitt, for defendant. Obtained, on consent, order dismissing action without costs.

Separation from the Liberal Party.

Garvin v. Edmondson—Judgment (Le Roy) in an action for a declaration that defendant, Holt, was a trustee for the plaintiff. Judgment in certain particulars, tried at Toronto non-jury trial, June 22. At the trial it was held that the agreements or understandings between the plaintiff and the defendants, Edmondson and Holt, were as set forth by the plaintiff, and judgment was reserved to determine whether plaintiff had any legal remedy against defendants or any of them. Held that plaintiff has no legal remedy and action must be dismissed, but under the circumstances without costs. Defendant Holt must pay the costs of his co-defendants. G. T. Blackstock, K.C., and S. H. Bradford, K.C., for plaintiff. R. Mackay, for defendants.

Writs Issued.

Peter and Armando Mercier were injured in an explosion on April 17. Yesterday they brought two actions against the Devlin Mining Co., claiming \$2000 each in damages. Robert Coates, Toronto, sues the William Pharmacy for unstated damages for alleged negligence.

PECULIARITIES ABOUT THE HEN.

Editor World: For the last few warm summer days I have been perusing your articles on the Hen with much interest as a retired farmer. Now the hen has been taken from laying on Sunday is to get it stuffed on Saturday night, because this question of when to kill the hen is the subject of a long and interesting article in Wyandott's Plymouth Rock, etc., says the longest must be settled. This has been done. The hen that lays the longest egg is the hen that is the best cultural college, 1908, is a dead hen. A queer scientific fact is that hens never lay eggs at night, but they are all roosters.

THE QUESTION IN THIS CONNECTION HAS BEEN ASKED BY A HEN LAYS AN EGG, BUT IT HAS BEEN FOUND THAT AN ACCOUNT OF THE EXTENSION OF THE LABOR UNIONS SHE'S NOT ALLOWED TO LAY BRICK.

Of course the hen is a creature of physiology and during the warm July days these facts must be based on truth, but the difference between the hen and the hen's eggs is that "Truth crushed to earth will rise again," the eggs will rise.

I pity you, City of Toronto fellows, who have to sit up nights thinking over this hen and egg question, but I don't think from your article that you have been forced to buy for my family since living here with you. I can easily see the reason. Mind you, I don't say that you are a hen, but the Toronto eggs, but the hens that laid them certainly should be put in the hospital.

One of the always interesting questions about the hen, above referred to, is the one determining the pendency of the chickens hatched out by one hen from another's eggs. Who is the mother of the chicks? The hen who laid the eggs or the hen who hatched them out? It certainly looks as if the latter had not hatched them out there'd be no progeny, no chickens born, but others have determined that the mother hen is called as it were, "the nurse." However, for instance, say I go down to the market and get a dozen duck eggs and the hen hatched them out. Now is she the mother of those ducks? Did you ever see a hen lay ducks?

All of which prompts me to end my letter by remarking that lots of Toronto eggs are not what they're cracked up to be!

LITTLE DISTRESS SEEN BY INSPECTOR CORKELL

Many Who Had Not Been Through Cobalt Fire Got Aid From Committee.

But little distress exists in Cobalt as a result of the fire last week, was the report of E. T. Corkell, inspector of mines, on his return to the parliament buildings. He had been sent up by the government with a car load of tents and blankets.

"There has been no real distress," said Mr. Corkell. The Nipissing Mine was prepared to shelter two or three hundred, but none applied for it. The hard thing for the many committees is that it will be to discriminate between those who were needy and the loafers. Many who had not been through the fire at all applied for relief and received it. Wholesale houses will suffer more than merchants, according to Mr. Corkell. As soon as the fire was over, many foreigners withdrew their money and left the town.

The local relief committee has still \$2000 or \$3000 on hand. The provincial aid was a godsend to many families, and after Mr. Corkell's report has been considered by the government, it will decide what further, if any, aid is to be rendered.

Rebukes Americans for "False Patriotism."

The Rev. Dr. Charles D. Williams, Bishop of Michigan, in a sermon on Sunday in St. Bartholomew's Church, New York, rebuked the American people for their false patriotism and their unwillingness to see the true destiny of the United States.

"This false patriotism was ever peculiarly characteristic of ancient Israel," he said. "It produced an overwhelming confidence, a stupid and obstinate optimism, a blind fatalism. Against this false patriotism stood stoutly that line of true patriots, the prophets. It culminated in Christ Himself. Each was a flaming, incarnate conscience of his people's sins."

"Christ always determines the fate of nations as well as individuals. A false patriotism trusts blindly in man-made destiny. Our current patriotism is made up of the same elements—an overweening confidence and contempt in our national calling and election, a complacent stupidity, optimism, trust in absolutely in a predestined and glorious future."

"This is the kind of patriotism that is rampant in evidence on every 4th of July."

"It is rampant and flamboyant among our people. It is determined and congressional harangues; often in patriotic sermons. As a nation we put our trust in no one. Our current patriotism is made up of the same elements—a false patriotism trusts blindly in man-made destiny. Our current patriotism is made up of the same elements—an overweening confidence and contempt in our national calling and election, a complacent stupidity, optimism, trust in absolutely in a predestined and glorious future."

New Splurge Made to Discount The Government Crop Report

Speculation Revived at New York in Anticipation of Good Crop News—Few Changes at Toronto Market.

World Office, Wednesday Evening, July 7. The early business at the Toronto Stock Exchange today had with some exceptions the imprint of liquidation on a rather unwilling market.

A little more buoyancy on Wall Street during the afternoon gave more courage to supporting interests here and prices were bid up moderately during the late business.

The only evidence of definite strength in the market was in La Rose, which was exceedingly active with sales as high as \$3.32, while it was reported that transactions were made in New York as high as \$3.35.

The movement in Shredded Wheat is confined to a very limited circle of operators and is not giving rise to any extension in the general run of brokerage offices.

One of the favorable features of the day was the further demand for bank stocks. Good investment buying of these securities came into the market this morning and offerings of several of the shares of these institutions were taken up at firm prices.

Wall Street Pointers. Interest rate commission says it has jurisdiction to supervise quality of steel rails.

Rock Island operating income now about ten per cent. more than last year.

June copper exports the largest since December, 1907.

S. L. and S. F. sells \$10,000,000 20-year five per cent. bonds in Paris thru Speyer & Co.

Better enquiry for copper, but transactions still small.

Idle cars on June 23, 260,940, a decrease of five per cent. in a fortnight.

London fortnightly settlement begins on Monday.

All grades of coppers reduced 1-8 cent.

National City Bank will ship \$1,000,000 gold coin to Argentina Saturday, and may ship gold bars to Paris tomorrow.

Reported plan of reorganization Western Maryland Railroad to be considered at meeting of general lien bondholders' committee.

There seems to be developing a variety of crops in the market, with some speculation in druggist stocks and specialties, drives at special issues under reorganization, while the general active list remains in trading area.

looked like a bear attack caused a setback in stocks this morning, but not many long stocks came out. At mid-day a recovery was in progress under the lead of Southern Pacific and Atchafalaya, such drives these stocks may be bought.

The reaction might go a point or so lower, but we do not look for an extended decline. There is nothing unfavorable on which to base a bearish outlook.

Crops are doing well tomorrow's government report, our opinion, will be very good. Congress will soon adjourn and money rates promise to remain easy for some weeks.

Charles Head & Co. to R. R. Bond & Co. The crop report and the Copper Producers' Association figures will be published tomorrow and should help the market.

Business was in larger volume to-day, showing possibly 40 per cent. better than yesterday. Closing was strong at highest prices, with the outlook favorable to still further improvement.

We still believe the southwestern stocks are among the most attractive issues.

R. B. Lyman & Co. wired R. B. Holdom, London, to buy 1000 shares of here to-day. Earnings reports continue on the whole of a very favorable character.

We look for more activity tomorrow and a resumption of the upward movement before the week ends.

Railroad Earnings. Increase. St. Paul, May net \$23,042. N. E. May net \$22,872.

Money Markets. Bank of England discount rate, 2 1/2 per cent. Short bills, 1 1/4 to 1 1/2 p.c.

GOOD SUPPLY OF SPECULATIVE STOCKS.

World Office, Wednesday Evening, July 7. The gradual descent in the prices of speculative stocks was continued in to-day's Toronto market.

The gradual descent in the prices of speculative stocks was continued in to-day's Toronto market. These securities were in good supply around the low quotations made, but there was not sufficient pressure to cause uneasiness.

Contrary to this weakness, a good undertone was present in the bank shares. La Rose gave a further demonstration of strength, while Nipissing was weak on realizing.

There is said to be a considerable conversion of Nipissing into La Rose going on. The announcement that the subscription lists for the new bonds of the Dominion Steel Company has been closed a day in advance of the time set was regarded as a favorable market incident.

OFFENDER GETS AWAY BEFORE COUNCIL ACTS

Medical Men Consider Proposal to Prosecute for Unprofessional Conduct.

At yesterday's session of the Medical Council Dr. Arthur Jukes Johnson presented the report of the prosecution committee. Several meetings of the committee have been held during the year.

Dr. Starr moved that an amendment be sought to section 33 of the Medical Act, to enable the executive committee to institute investigations into cases of unprofessional conduct.

Considerable discussion arose as to the wisdom of this proposal. Dr. Johnson, however, thought that the power should not be delegated to any committee.

Dr. Starr explained that there was no intention of usurping the council's prerogatives. All that the proposed amendment would do was that it would enable the executive to refer to the discipline committee for investigation of the evidence.

On motion of Dr. Ryan the question of the validity of bylaw 131 of 1905 was referred to Mr. Oaker, the solicitor of the council, for an immediate opinion.

Dr. Ryan enquired if there were any method of seeing that students received the instruction of four turns of 'eight months each required by the terms of Western and Queen's universities were shorter than the requirements.

The discipline committee has been unable to locate Dr. E. M. Cook and no action can be taken in his absence.
