\* WAR SUMMARY THE DAY'S EVENTS REVIEWED

# N MACEDONIA the French, in co-operation with the British spring offen-sive on the eastern bank of the Vardar, have opened their spring offensive on the western bank with the capture of Shraka di Legen, a

village south of Huma. The Serbians on the French right carried two enemy works north of Pojar. Both the Serbians and the French have con-solidated their new ground and the French have beaten off Bulgarian coun--attacks. The Germans appear to have cleared out of Macedonia and the fighting for the Bulgarians to do. The fighting is about to spread, spirited artillery actions are proceeding in the bend of the Cerna and ter-attacks. and left the for and the sector of Monastir. Three hundred prisoners have fallen into the hands of the allies. By Lake Doiran the British have beaten off Bulgarian counterattacks.

#### . . . .

By striking the enemy hard in Macedonia the allies can give the Ger-man people no better object lesson of what the command of the sea implies and of the inability of the submarines really to impair their offensive power after all these months of ruthlessness. Thinking Germans may well pause to consider what the German Government has promised to perform by submarine warfare and to doubt the truth of its reports. An offensive from Salcnica, being an attack on the German communications with Turkey, may imperil the troops sent by the enemy to resist the progress of the campaign from Mesopotamia and, failing this, it may starve those troops of supplies by compelling the foe to employ the railways at full capacity south of the Danube in resisting the allied offensive in the Balkans. Up to the present, however, the actions fought by the allies have been on a minor scale. They are the prelude to greater things.

An intense local struggle marked the fighting on the British front south of the Souchez River, in France, yesterday when the Canadians lost some ground and later recovered it. The holding of the disputed area, makes the British position more favorable for an attack on the Lens salient, and this peril is impelling the enemy to use up great masses of troops in a desperate struggle to push the British line back. Yesterday's attack on the German line was the third launched since the Canadians captured the position. The enemy began the fighting early in the morning with flaming liquid, and after three hours' severe fighting the British posts had to withdraw under the weight of the enemy's repeated assaults. In the afternoon the British counter-attacked him and they recaptured the whole of the lost trenches. The three attacks cost the enemy great losses,

This burning liquid, like the poisonous gas, is not a new invention or discovery, but rather both these methods of attack and defence have been long known. Only out of humanity to the poor soldier the civilized nations had bound themselves not to use them in war. Lord Cochrane's celebrated invention, which was eschewed by the British admiralty, consisted only of a modern Greek nre, or statung for its supposed moral effect. modern Greek fire, or burning liquid. The enemy is employing it chiefly

### An attack of the Germans on the French positions on both sides of Cerny-

an attack of the German's on the French position on other stars of Cathy-en-Laconnois falled to win ground yesterday. The French barrage and machine gun fire smashed the assaulting waves. An immediate counter-attack threw out some Germans who had gained a footing in about 200 yards of an advanced trench. The French in a raid in the Argonne made some prisoners.

The arrival of fresh divisions of German troops before the British and French battlefronts, reinforced by more artillery, seems to show that the enemy has drawn on his central mass of manoeuvre, collected in Germany during the winter for an offensive against Russia. The allies have therefore probably succeeded in one object of their offensive, the destruction of the

enemy's plan to assail the allies in the east, where the going would be easier Hospital last night in the police am-than in the west. Field Marshal Haig and Gen. JUVENILES GAVE CONCERT.

A juvenile concert in aid of St David's Presbyterian Church Hero Helpers' fund was held last evening in the church hall, Harvie avenue. The proceedings were under the di-rection of Elsie and Lily Taylor, and consisted of solos, duets and read-ings, with a clever flag drill by 12 sinis in costume, representing the ai-lies. Rev. C. A Mustard Rev. C. A. Mustard occupied the chair.

Novel Program Given By Returned Soldiers

Under the auspices of the teaching staff of Earlscourt School, North Dufferin street, a successful concert and sale of candies and ice cream was held last evening in the school building. A quartet of returned sol-diers, known as the "Shrapnel Dod-gers," provided the program, consist-ing of solos, dialogs and selections on musical instruments, a special fea-

musical instruments, a special feature being the clever rendering of martial and operatic pieces on a one string violin by one of the returned heroes. An audience of over 500 children and adults were present. The proceeds will be devoted to the purchase of soldiers' comforts.

### GAVE PATRIOTIC CANTATA,

The patriotic cantata entitled "Can-ada's Flag," piven in Christ Church, Mim-ico, last night by the pupile of the school was very successful, a large sum being realized Associated with the pupils were the Boy Scouis, all of whom were train-ed by Miss Marjorie Free and Miss Helen Tremayne. Readings by Miss Evelyn Withrow and a solo by Jack Lee were features of the concent. The chair was occupied by Rev. H. O. Fremayne.

LONDON SHORT OF COAL.

That the 25 coal yards in London, Ont. have not 100 tons of fuel all told on hand was the information given by H. A. Harrington, secretary of the coal sec-tion of the Retail Merchants' Associa-tion, to a reporter for The World Last night on his return from that city. This amount had been sold, but not as yet delivered, and dealers were experiencing great difficulty in securing goal from the States. The London City Council recently passed a resolution authorizing the municipality to enter the fuel busi-ness, but, according to the act, Mr. Harrington says a bylaw will have to be passed before the necessary permis-sion can be obtained from the Ontario Railway Board and governor-in-council.

FELL DOWN STAIRS.

Returned Soldier Dies From Fractured While being removed to St. Michael's

Success has at last come to scientists who for years have sought some method of removing the outer veil of facial skin in cases of unsightly complexions, which would be both painless and harmless. The new process is so simple, so inex-pensive, the wonder is no one had dis-covered it long ago. It has been amply demonstrated that ordinary mercolized wax (sold by druggists in ounce pack-ages) entirely removes, by gentle ab-sorption, the withered, lifeless surface skin, showing the youthful, roselike skin beneath. The wax is applied at night, like cold cream, and washed off in the morning. The absorption also cleanses clogged pores, increasing the skin's breathing capacity and preserving tone, color and natural beauty of the new skin. A simple and harmless wrinkle-remov-

"That would depend largely upon the principle on which the government decides it will operate the railways and the motive power it intends to use. I am inclined to think that the government would be justified in elec-trifying the main lines, and make it for the Hydro-Electric Power Commission on behalf of the munici

palities to take over and electrify a considerable portion of the lines, in-cluding branch lines of the Canadian Northern and Grand Trunk Railways,

which will avoid a large amount of wasteful duplication, and in my opin-ion largely facilitate the successful carrying out of the hydro-electric radial railway enterprise in the pro-vince. I am sure that J. W. Lyon, the president of the Hydro Radial Union, and the members of the union, with whom I have had various conferences and the in connection with this matter, are heartly in accord with this policy and agree with me fully as to the favor-able effect it will have on the radial railway project, which they have so loyally supported since the introduction of legislation enabling the municipalities thru the commission to un-

dertake the construction and operation of radial railways in this province.

Sir Adam justified the electrification of the railways more than ever since his return from the west, where, in company with the chief engineer of the commission, he investigated various electric railway systems, including the Chicago, Milwaukee & St. Paul Railway, who have in operation a heavy freight and passenger business over 440 miles in length, and are now electrifying an additional 250 miles. The enthusiasm of the company's officials is unbounded, including President H. P. Earling and Chief Engineer Goodnow, who was a steam railway man and pessimistic about electrification. In substance they say that they have solved the coal supply for this railway for the next 100 years to come at a cost in operation at least one-third of steam operation. They have

released one-third of their total equipment formerly required for the transportation of the fuel for their own use and have approximately doubled the output of the single track line. Snow troubles are practically eliminated, and the extreme cold has little effect on operation.

CONSCRIPTION BEING SERIOUSLY CONSIDERED

Lt.-Col. H. C. Osborne Makes

Significant Remark at Batoche Anniversary Celebration.

That conscription was receiving the serious consideration of the authorities at Ottawa was intimated by Lieut.-Col. H. C. Csborne, A.A.G. No. 2 military disrict. in replying to the toast of "The Militia" at the celebrution of the thirty-second anniversary of the battle of Ba-toche by the sergeants of the 10th Royal Grenadiers last night: Col. Osborne did not state that compulsory service was to be enforced, but that it was immin-ent was inferred by his declaration: "We are in the most critical stage of the war and, for my part, I expect important things to happen in this country in the near future." He was speaking at he time on the organizing of the Cana-dian defence force. He thought that the government had taken a forward step when it decided to organize a force for home defence, and that its action would prove a big factor in recruiting men for overseas service. There was no reason, he said, why every able man should not enlys for home defence. He huped that the men of the country would respond to the call of the military authorities and make a success of the government's lat-est recruiting step On its succeas de-

A Success on U. S. Roads.

the call of the military authorities and make a success of the government's lat-est recruiting step On its success de-pended the fate of the voluntary system. And he significantly remarked that if it failed stongar steps would have to be resorted to for the purpose of keeping the expeditionary force up to strength. Replying to the toast of "Canada and the C E F." Brig.-General Hon. James Muson regretted that when the war broke out the system of recruiting was not adopted that would have more close-by identified the battalions. Speeches were also made by Lieut.-Col. W. Wallace, Lieut.-Col. G. A. Shaw, Majors W. E. L. Hunter, A. O. T. Beardmore, A. E. Gooderham and others. Sergt.-Major W. K. Bennett of the Grenadier Regiment presided. Montreal.

Contractor, Son and Nephew

Arrested on Charge of Arson

West Ely. Que., May 11.—Alphonse Bilodeau, contractor, of Sherbrooke, and his son and nephew, Oliva and Adelard Bilodeau, were committed for trial on a charge of arson in connection with two mysterious fires during last week in the new presbytery and the Catholic Church here. The elder Bilodeau had a contract for the enection of these buildings, work on which was almost completed. The fires had aroused a sen-sation in the parish.

Private Saloons Abolished and

Forbidden.

Stockholm, May 11.—(Via London.)— Sweden has taken a further step in the restriction of the sale of alcoholic bever-ages. Under a law adopted by the riks-dag, effective Jan. 1, 1919, the present system of selling distilled liquors is ex-tended to cover wines and beer. This means that each customer will have to be equipped with a pass-book, in which his purchases will be entered. Trivate saloons will also be abolished, and private trade in wine and beer and the importation of wine and beer by in-dividuals are forbidden.

Washington, May 11.-A tentative basis of agreement for averting a threatened strike of coal miners in the central Pennsylvania district was called upon to resume work immediately, and the government gives no- reached at a conference of representatives of both sides tonight with Secretary Wilson, of the labor department. tice that all persons inciting to the toppage of work on munitions are

### NO ANARCHY IN SCHLUESSELBURG.

Petrograd, May 11, via London .-- N. C. Tcheidse, president of the act, to conviction for an offence entailing the penalty of life servitude council of soldiers' and workmen's delegates, after an investigation, declares that all rumors of anarchy, the proclamation of an autonomous unit, or strikes in powder works in the Schluesselburg district are absolutely awarded. The notice, embodying the warning, has been posted in all affected centres and explains the stoppage of work, which it says was clearly unauthor-ized by the trade unions, and occurred at a time when, in view of the pres-ent offensive on all fronts, there is greater need for munitions than at any previous time unfounded.

HUNGARY TORN BY DISSENSION.

Amsterdam, May 11, via London .- The Hungarian independence party, headed by Count Michael Karolyi, after a conference in Budapest, issued an appeal to all suffrage reformers to apply all their efforts to bring about equal, universal, secret suffrage, says a despatch to The Frankfurter Zeitung. The independence party also urged the reformers to conduct propaganda for peace. The party proclaimed war against the Hungarian Government with all the means at its disposal. British caomet without portions on Thursday issued a statement reveal-ing the existence of strikes of engi-neers in various parts of England. Mr. Henderson's statement was given

follows "As the welfare of the nation and As the wentere of the nation and the nation's defence are absolutely dependent upon an adequats supply of coal for all purposes and of iron ore for the iron and steel mills, the executive committee of the special commission on national defence has

rdered all the railways of the United States to give coal and iron ore pre-ference over all other traffic." In another part of his statement, Chairman Harrison says that in view of the depletion of the reserve stocks of coal in many sections of the coun-try due to the unprecedented con-

try, due to the unprecedented con-sumption during the past winter, the paramount need is to assure the argest possible movement of coal to every part of the country during the demine warm months

wery part of the country during the soming warm months. Despite the huge requirements of non ore for steel mills for the manu-acture of munitions, the output of which will necessarily be increased in account of the entry of the States into the war, Mr. Harrison considers the ore movement secondary to that

While conditions were bad last While conditions were bad last whaten it is prophesied that they sould not be compared with those that will prevail next winter. Coal dealers point out that the government of the United States is buying fuel in quantities far greater than ever before, and all signs point to a great-ly increased (service being required from the rolling stock of all the builways.

Story of Americans Being at Vimy Not Verified by Records

a story published in The New Sun an American lieutenant is as declaring that the "lost le-" of Americans in the Canadian ston" of Americans in the Canadian Expeditionary Force took part in the engagement at Vimy Ridge. "Our bat-blion, the 38th," he said, "contained about ten per cent. Americans." The Ottawa battalion list, however, shows that the 38th Battalion condresses of their next of kin as being in the United States. Two large rein-forcing drafts later attached to the unit only contained 11 Americans. The foregoing figures indicate that the

claim made by the American officer is an extravagant one.

#### AWARDED DAMAGES.

In the county court yesterday Judge Denton awarded \$250 and costs to Frank Blair, an expressman, in his ac-tion for \$1000 from William Walker judgment of the Supreme Court of Canada on the appeal in the action of Frederick Murch against the city. The judgment holds that the city as damages for injuries sustained when the defendant's motor car collided with his horse and wagon on the Kingston

You should exercise the same care and discrimination in buying sugar as in choosing any other food.

The way to guard against inferior quality is to demand Lantic Pure Cane Sugar which is guaranteed pure and wholesome.

Lantic Sugar has nothing to hide. It

comes from the most modern refinery in the world. So great is the demand for Lantic Sugar that we are now refining over three quarters of a million pounds a day.

This shows what the people of Canadaand particularly those who want pure food -think of this absolutely pure food product.

# The Standard of Lantic Sugar is now the Standard of Canada

	RATEPAYERS WANT LINE EXTENDED	Two
-	Ward Seven Association In- dignant About Bloor Street Civic Railway The members of the executive of Ward 7 Ratepayers' Association meet- ing in the Annette Street School last night warmly criticized the board of control because of its inaction in ex- tending the Bloor street car line from Quebec avenue to Runneymede road, as promised by the city council and the board of control on several occa- sions. D'Arcy Hinds made a report of his meeting with this body a day or so ago in regard to this matter, when he was told that the money would not be supplied for the con- struction of the line. Secretary W. T. Fishes also displayed a letter received on May 5 from R. C. Harris, commis- sioner of works, to the same effect. "It is my belief," said Mr. Hinds, "that there is a certain premeditated plan on foot to block this line. I be- lieve that there are certain men in- terested in lines in this direction who do not wish to see this line extended to the Humber because it would be in opposition to their lines?" It was stated to Mr. Hinds that the construction of the line would cost \$20,000. He was also informed that money raised from debentures could not be spent for temporary improve- ments. Mr. Hinds estimated that \$500 would cover the cost of all temporary	<section-header><section-header><section-header><section-header><text><text><text><text></text></text></text></text></section-header></section-header></section-header></section-header>
	material needed, and the grading would be permanent. The estimated cost was too high, he said. A tender had been received for the construction from one man who would agree to do the work for \$7000. E. Wakefield thought that a portion of the \$170,000 raised thru the in- dreased water rates might be used for this purpose. He criticized the grant of \$25,000 to the Y. M. C. A. It was finally decided that a deputation of property holders and residents of the ward should wait upon the board at its meeting on Wednesday next and reach a definite conclusion in this matter. #### Beloved Laws of Supply and Demand.

Last week The Hamilton Herald informed a listening world that the governcould do little or nothing towards cizing prices owing to the inexorable laws of supply and demand. It almost seems as the The Herald did not yet fully rea-Mae. that the greatest war of the world was going on, and that the laws of supnly and demand were about as worthy of respect as they are in an open boat in the middle of the ocean crowded to the whale, with a limited supply of bread and water on board. The world is an open boat at present in the ocean of space

The food supply is inadequate to the un limited nature of the voyage, and all that can be done is to put us on rations, if we had leaders with backbone enough to dominate the situation, and tell the baws Yonge street, to make a selection of of supply and demand to go hang. Bethe man with a well-filled purse, who the man with a well-failed purse, who thinks he has a better right to fill his hungery stomach than another man with s less well-filled purse, or no purse at making your selection easier. all. This is the fallacy in the "laws of supply and demand" which it is the busi-

ness of governments and Herald newspapers to detect; and it is their fallure to do so that makes all the trouble. In the open boat at sea the rich man's purse does not count. He gets the same portion for his rich paunch that the poor Pacific, the pioneer route to the west. man gets for his hungry belly. If by Particulars from any Canadian Pacific scool fortune they reach land and prefer agent, or W. B. Howard, district pasto return again to the laws of supply and demand that is their affair, but in the

emergency there is only one law.

We are in the emergency of the ages for the staples of life, and by such other means as are necessary increase and conmerve the means of subsistence until the emergency is over.

If we cannot or will not do this, then let us confess at once that we are less efficient than the Germans, who do these things, and that to this extent we are taking less pains to win the war and to deliver ourselves from the emergency, so that we may get back to our beloved laws of supply and demand once more.

#### Information for Sir George.

Sir George Foster asked in an incredulous manner in parliament the other day what proportional representation or senate reform had to do with winning the war. His inquiry may have arisen from honest curiosity, or from political incredulity, but in either case it indicates less familiarity with both reforms than we should have expected from his alert mentality. If we had had proportional representation in force in Canada we should certainly have had a more efficient government than we have at present conducting the war-take the case the raising of our military forces as irrefutable evidence of the room for improvement; and if we had had senate pform we believe it would be possible quote Sir George hintself on the inestimable advantages that measure would

## Bread Prices May be Increased Next Week, Say Drivers.

"Bread may be again advanced in price next week," was the informa-tion passed out by several drivers of bread wagons yesterday in serving intimate customers. While this information apparently came from the same source as the bread, the bakers on being called up were extremely reticent to make any question with The World man. statement regarding next week's prices. They, however, stated that flour prices had advanced and were fluctuating, and inferred that an increase in the price of bread might be two ago. The future of Yonge street for necessary

FACES SERIOUS CHARGE.

Charged with committing an indecent assault on a girl fourteen years of age, Lorne R. Duck, proprietor of a moving picture theatre at 1282 Week. Queen street, was arrested yesterday afternoon by Detective Mitchell. On April 8 last Duck is alleged to have called at the home of the young girl and asked her to come down to his theatre and look over some music which he wanted her to play. It was then that the alleged assault took place. The matter was placed before the juvenile court, who turned it over to the morality department.

# **Bedrock in Prices**

Glance over the Dunlop Automobile Tire Prices of representative sizes shown below and keep these facts in mindi --

I No other standard make of tires can be purchased at lower prices than Dunlop Tires sell at. ( If so, they must be "seconds.")

I No other standard make of tires can show reasons why they should be purchased at higher prices than Dunlop Tires sell at.

Tires lower-priced than Dunlop mean a loss to you in the end.

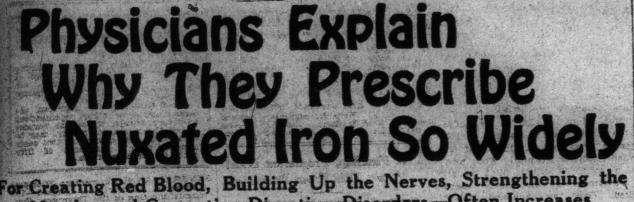

I Tires higher-priced than Dunlop mean a loss to you at the beginning and no gain to you in the end.

If anybody tells you they have lower-priced tires than Dunlop, tell them possibly so but more than likely their tires are Unknown and Untried. If anybody tries to sell you higher-priced tires than Dunlop, ask them to name a single virtue in their product not found in Dunlop Tires-"Traction Tread," "Special," or "Plain."

I Dunlop prices are standardized prices for standardized Quality. Dunlop Tires have been made in Canada since 1894. Therefore, Dunlop means "Dean of the Tire Industry."

	Size	Dunlop "Plain"	Dunlop"Special"	Dunlop "Traction"

intimated that at board of munitions, aided by British capital and the Dominion were building a great ooden ships. Any man in Canada financial standing who wanted to nild wooden ships would be assisted ad guaranteed a profit on his investshipping problem, me the country ment. Sir George said, in conclusion, that the Dominion Government was building ships of various kinds, inand mine

sweepers. He paid an eloquent tribute to the British navy, and the fleet of fisher-men who had done so much to clear men who had done so much to clear the sea of peril. Mr. Macdonald said, in reply, he had made the motion to learn what the Dominion Government was doing to meet the submarine menace, and has learned to sunk one million tons ing April. In the United dent Wilson, after conduring April. In after con-resident Wilson, after con-the leaders of both political had asked congress for \$800-to fight the submarine men-to fight the submarine men-to replacing lost tonnage moving every corner of the Will Share Triumph

crument that it was doing notanis. Luckily, our coasts were being pro-tected by British and American cruisers. He therefore asked leave to withdraw the motion to adjourn the Alluding to an as not con. Mr. Macdonaid argued, a Submacdon hase could easily be established on the western coast of Newfoundland or on the Labrador coast of Canada. There was reason to believe that one had been established and maintained for a long time on the eastern coast de Marriand use. This was granted, and the buse went into committee of supply i estimates of the interior departsaid: "I know that it is so, and believe Induse went into committee or department.

 WOUINDED OFFICERS
 "I. know that it is so, and believe me, even before you came in and before you came in and before the time, even before you came in and before the time, even before you came in and being the sympathy of this great and the sympathy of this great that, the consciousness that we had behind us the sympathy of this great nation was no small support to those who were for the moment bearing the whole bunden and heat of the day.
 "But a happier occasion has come," Mr. Balfour added. "The United States have thrown in all they possess of manhood, of wealth, and of those high qualities whow these resources intor a long time on the eastern coast of Maryland. Encourage Shipbuilding (oming to some practical sugges-tions Mr. Macdonall urged the estab-haiment of naval aeroplane station-on the Atlantic coast and generous government encouragement to steel and wooden shipbuilding. He also thought the government should at once establish a plant for the "LCD" facture of steel plate in Canada and should construct a number of submar-ines. They have thrown these resources in-to the common stock; they are going WOUNDED OFFICERS ines. A. A. McLean (Queens, P.E.I.) and Mr. Sinclair (Guysboro), pointed out to Mr. Macdonald that Canada had no use for submarines. What Canada needed was fortifications and anti-submarine craft, torpedo destroyers and so forth. Mr. Sinclair was very I strong on a big shipbuilding program. He thought the government ought to build 200 ships of 4,000 tons each. If measury we could slow up on the to share our trials, share our strug-gles, and, Mr. Mayor and gentlemen share our triumphs." to economize in the use of food-IF it is essential to increase the volume of food production-IF it is imperative to make the most of Canada's raw materials-

> HEN WE HAVE NOT THE SLIGHTEST HESITATION, not the smallest scruple of false modesty, in asserting that no plan, whether for helping the farmer to get labor, or cultivating back yards, or advancing seed-money to the Canadian farmer can do as much, as cheaply, as quickly and of as great permanent value to Nation and Empire, as can the British Cattle Supply Company.

MAY 13 1917

YOU KNOW THE PRICE OF BEEF. You know the importance of maintaining that supply not only for our armies, but for our people. You know how the breeding herds, through neglect or by act of war, or for lack of capital, have been reduced to a dangerous margin. Not only are these things true, but-while we talk about meatless days-while Eastern Canadian farmers are sacrificing their young cattle to Americans because they haven't money to feed them during an Eastern Canadian winter-thousands upon thousands of acres, millions upon millions of tons of the best cattle feed in the world is absolutely unused-wasted in our Canadian West, Alberta.

This Company is now growing cattle, and will continue to build up its breeding herds, purchase and "finish" unfinished animals on Alberta grass (the best finishing feed in the world) and to combat the beef shortage as a matter of profitable business. We have already \$2,500,000 paid up capital, consisting -not of promotion stock or water-but in part of 492,000 acres of grass land, in part of 1,500 of the best breeding cattle and in part of several well-managed ranches already in operation.

Ask any stock-raiser-or, if you are a stock-raiser, ask yourself-how

thought the present situation proved the wisdom of the Laurier naval policy, and Mr. Turgeon (Gloucester) thought the government should try to destroy the submarines instead of building more British vessels for them

Sir George Foster deprecated any panio about the submarine menace. It was in fact, during the war, a grave

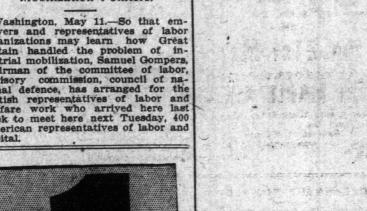

factor, but there was not the slightest reason to believe that it would seri-ously delay, much less interfere with, the allies' triumphant victory. At Brigadier Panet. any rate, it was certainly not a prob-able peril on this side of the ocean. He said the house could rest assured that the Dominion Government, in conjunction with the imperial authorities, had taken every precaution to thoroly protect the coasts and the tidal waters of Canada. He said Mr. Macdonald was loudly ng for "leadership." That seemed "Well," Sir George continued, "the whole world is looking for a great leader, and possibly the world find it in the honorable member Picton (Mr. will for ou (Mr. Macdonald). He used to be a great military expert, and now he is a great naval expert, but per-haps he will pardon us if we prefer to be guided by the British admiralty." SHOE POLISHES No Available Shipyards. Sir George said that Mr. Sinclair urged the government to immediately build 200 ships of 4.000 tons. That
