BORDER TOWN UNEASY

Troops Sent to Guard Against Danger of Fresh Mexican Raids.

WASHINGTON, March 12. -Secrecy regarding Gen. Funston's plans for moving against Villa and his bandits has been so rigidly enforced at the war department that are in doubt as to whether American troops actually had crossed the Mexican border.

Secretary of War Baker announced late tonight that the 23rd Infantry now at Galveston, Texas, had been ordered to El Paso because of fear of Mexican attacks felt in many towns along the border. No actual Agreement Believed to Indile, however, has been reported The regiment, about 1000 strong, will be stationed at points designated by Gen. Funston.

Rush to Volunteer. Both the White House and war department were again flooded today with offers of service by prospective volunteers. Mr. Baker repeated to all enquiries his statement that no call upon the National Guard or for volunteers is contemplated.

The general instructions to Gen.

Puston, it is understood, lay stress won the necessity of impressing Mexicans on both sides of the border with the fact thiat the United States is interested only in defending its own borders, and that troop movements now in progress or contemplation have no other object. Officers of the emeditionary force will be directed to make this clear to civilians as well as officials of the de facto govemment with whom they come in contact. Instructions are explicit, it is said, to capture or disperse the landits and return to United States immediately.

Kaiser's Higher Command Arranged to Keep Artillery Up With Infantry.

PARIS, March 12. - A brilliant counter-attack by French chasseurs was responsible for the check which upset the carefully laid plans of the Germans for the capture of Verdon, according to an account of the battle which The Journal obtained from seven Prussian officers who were taken prisoner while an special patrol duty.
All these officers were brought back to France from the Serbian front. Two of them; one belonging to the artillery, were wounded. They declared that in order to reach the German front they had to pass thru concentrations.

One of them declared the number of guns used in the Galician campaign was not to be compared with the great batteries assembled for the assault upon Verdun. The tremendous French had ever known, the German is quoted as saying. He asserted the French artillery at Douaumont was equal in strength at that point to the German, but that it was the gallant charge of the French chasseurs which finally drove them back. The patrols described the progress to the front in its nitrailleuse fire surpassed anything he scribed the progress to the front in its last stage as having been made over heaps of dead compades.

which occurred after each plan of the enemy broke down were owing to the necessity of gaining time for the dragging forward of the big guns is disproved by the statement of German officers taken prisoner, that their higher command had taken measures beforehand to provide that all their artillery, comprising hundreds of heavy guns, should advance in a compact mass, as tho it were a single battery.

The British exploded three mines at points east of Vermelles Saturday and the Germans exploded four mines near the Hohenzollern redoubt yesterday. The British gained satisfactory results from their action while the Germans got into a hand grenade fight from theirs. They caused few casualties to the British and did little damage to the British trenches British positions about Loos and Bois Grenier were shelled and heavy artillery bombardments were reported from Ypres, Albert and Hulluch Everyone may be sure that at an unspecified date in the future, operations on the British front will be much more lively and spectacular.

The Russians lost a torpedo boat destroyer in a brush with hostile submarines off Varna, the Bulgarian port, and German seaplanes have been attempting to drop bombs on Russian ships off the Crimea. The seaplane has been more spectacular than effective against shipping in this war. The British also lost an auxiliary cruiser, the Fauvette, by a mine. It was probably engaged in patrol duty. The chances are that other ships will be lost before the mine evil is effectively dealt with.

The Russians in Persia have occupied the Town of Kirind, 'in the direction of Bagdad," says the official report. This city will be the next important centre for the allies to approach and the Russian threat from he east will, perhaps, tend to relieve the pressure on the British at Kutel-Amara and Essinn. But the Germans and Turks are aiming at holding up the British in order to allow the Russians to enter Bagdad first in the hope of creating a dispute between the Russians and British as to its just bang up to the minute ultimate ownership. But that matter has been settled long ago.

No official word about Trebizond has come thru from Petrograd althou the Russians must be close to that city by this time. As it is intended to land an army from Odessa near this port before proceeding to the storming of it, the attack may be postponed for several days. At any rate the Germans and Turks are beginning to get alarmed about the Russian successes on the Black Sea and it would not be surprising if they attempted to lay a great many mines in these waters to catch Russian warships

The Italians have again started to bombard Gorizia, according to the Austrians. Despite the rainy weather which has succeeded the snowstorms, the Italian troops are very active and as soon as spring fully arrives, they will probably resume their offensive against the Austrians "Big Store on the Lucky The Italians are rendering signal service to the allies by holding at least 400,000 Austrians from being used in other theatres of the war.

A definite report has come thru from Bucharest that Roumania has concluded an agreement with Russia for the purchase and transit of munitions and that Russia has agreed to give her part of Bessarabia after the war. Roumania's entry into the conflict on the side of the allies, it is repeated, is assured in the near future. If she does join the ranks of the allies, it will probably be at the time the Saloniki expedition begins to move against Bulgaria. She can give the allies valuable aid by permitting Russian expedition to invade Bulgaria and strike at Constantinople by way of the valley of the Danube. The mere threat of such a thing is sufficient to compel the Turks to keep a big army at Constantinople and to deter them from sending any sort of efficacious help to the Turks in Armenia and Asia Minor. Had it not been for the military men in the stage at the La Plaza Theatre myone going into the building at ninc clock last night would have been mis-

led as to the character of the meeting which was being held. Some people thought it resembled an auction sale, as the officers on the stage continually shouted, "Any more before we finishmonly five more to make the hundred!" Others thought they were at a revival meeting on account of the cries, "Come on up!" In fact, Major Wright of the sist Battalion exclaimed: "It seems as the I am at a Methodist revival meeting out in the country."

It was only the weekly recruiting meeting which is held in the theatre, however, but it was, without doubt, the most extraordinary one ever witnessed in Toronto, and the result was that 125 men clambered up to enlist. George H. Allen, the chairman of the meeting, may well be pleased with the result. At five o'clock in the evening he had no program arranged, but recruiting addresses were unnecessary, so well did he and the officers of the 198th, "Canadian Buffs"; the sist and the musical artists do their work. For forty-five minutes the capacity audience listened to speeches by a number of officers, and then Captain Watts of the 198th made an appeal, which resulted in a large number responding.

they could join his battalion, and if they required more time they could enlist in Col. Cooper's. From nine o'clock until the meeting concluded, at ten, the house was in an uproar, and there was one continuous procession of recruits marching up to the platform, with recruiting sergeants at their sides. All attempts to make formal speeches were abandoned. First, the chairman would say a few words, but he was interrupted by the hoarse voices of Major Wright or Capt. Watts exclaiming that five were coming from the gallery, or something calculated to make the men respond.

It was not long before the 50-mark was reached, and then the officers wanted 75. People in the audience made no attempt to behave orderly, and when the enthusiasm was at its highest Mr. Allen, wiping his face with a handkerchief, announced that the number 75 had been reached.

Indescribable Scene.

An indescribable scene followed. The officers leaped down from the platform, with John A. Tory in close attendance, yelling, "Now for the 100!" Together with the sergeants, they marched up and down the aisles with such cries as "Get up and let the ladies sit down!" "This is the way the Sportsmen do at the midnight meetings. They get thirty and forty a night. Let us make 'em look sick!"

Mr. Tory, handkerchief in hand, mingled with the people, and was responsible for a good number, and then Major Wright returned to the platform to say that nine were needed to make the hundred. There was a lull in the proceedings, and he exclaimed that three minutes was a disgracefully long time to wait in Riverdale for another man. Two came, and he announced, "There is joy in heaven over one sinner." This sally resulted in the hundred being reached, amid loud cheers. It did not stop there, however, many more making the journey to the stage, and several signing up in the vestibule. Finally, the chairman asked those who had received medical certificates to stand up, and it was then found that the great majority of those remaining were women and men in khaki.

GOOD NEWS FOR THE HOUSE-

Through the efforts and good will of the Electric Wiring and Fixture Company, it is now possible to have residences wired for electric light, conresidences wired for electric light, con-cealing the wiring, without breaking the plaster or marking the decorations, and that it may be within the reach of everyone they have adopted a credit system, a payment down and the bal-ance in weekly payments. As electric light is now two-thirds cheaper than gas, this offer by the above old estab-lished company will be appreciated. Headed by the band of the Sist Battalion the soldiers were brought in motor cars to the Central Military Convalescent Home on College street. Two hundred relatives and friends were at the home to greet them. There were many affecting scenes as the soldiers were joined again to their families. Some of them had gone overseas with the First Canadian Contingent, and so had been separated from their relatives for eighteen months.

Allowed Home on Pass.

It had been arranged to serve a breakfast to the returned men, but owing to the train being delayed they had "dinner" instead.

All the Toronto men were allowed to go to their homes on pass. Before going, a reception was held in the auditorium of the Convalescent Home.

Geo. I. Riddell, local secretary of the Dominion Hospitals Commission, in a special address of welcome, told how proud Toronto citizens were of the record made by its soldiers at the front. He concluded by calling for cheers for the returned men, and the hospital echoed with hurrahs as the citizens present responded.

W. C. Mikel, K.C., Says He Has Disgraced Title Conferred on Him by King.

The big crowd at Loew's recruiting meeting last night was treated to one of the best recruiting addresses of the year. It was delivered by W. PLAYS, PICTURES AND MUSIC

'The Great Pursuit'

One of the greatest constellations f stars ever united in one play, will appear in C. Haddon Chambers' com-"The Great Pursuit," at the Alexandra Theatre this week, and at its premiere tonight. The players appearing in the revival are: Phyllis Neilson-lerry, Marie Tempest, Jeanne Eagels, Cynthia Brooke, Bruce McRae, Chas. Cherry, Graham Browne and Montagu herry, Graham Browne and Montagu Love. "The Great Pursuit" was ori-ginally produced at the old Lyceum Theatre in New York in 1890, with an all-star cast, and later was presented in London. It met with enormous success in both countries. Mr. Chambers has rewritten the play entirely, but acters. In bringing the play up-to-date he gives a demonstration in the difference in the method of treatment in writing plays 25 years ago and the present time. There has been an unusually large advance sale of seats for this engagement and a banner week is anticipated.

"Within the Law"

It is a rare thing nowadays to find a play which has received universal endorsement of dramatic critics everywhere. It is therefore of inndorsement creased interest to learn that we are to see this week at the Grand Opera House "Within the Law," a play by Bayard Veiller, which has been 150.00 Bayard Veiller, which has been 150.00 commended publicly by such eminent as Woodrow Wilson, 24.50 Theodore Roosevelt, Dr. C. The Hippodrome

Barney Williams and his clever company of singing and dancing maids will freadline the bill at the Hippodrome this week in the tune-'ul musical melange, "Sweethearts." New songs, bright comedy and attractive dances make this act one that will be appreciated. Louise Lovely and Lon Chaney will be featured in the latest of the "Blue Bird" releases. "The Grip of Jealousy," a stirring photo-play constructed about a long-standing feud between two aristocratic southern families. Gruett and Gruett are two clever comedians with some bright chatter, while the Mystic Hansone Trio introduce some mystifying feats of illusion in their song and dance offering. Frank whittier and company have an amus-ing comedy playlet, while Ad. Carl-isle's "Black and White Beauties," clever dogs and ponies, have an interesting and educative animal cir-cus. Joe Towle, an eccentric comedian, tells some new stories. Feature film comedy attractions complete the

Loew's Theatre

Aside from the submarine telephone and searchlight that Capt. Sorcho has invented, he is now at work on a new style diving dress that promises to eclipse anything ever seen or heard of in under water work. As diving suits are now arranged, it is necessary to have an air hose thru which the liver secures his supply of air, but in the new diving armor designed by the captain, this will be done away with the air being contained in an appara-tus attached to the suit as the diver goes down. This suit and many other nteresting articles appertaining to his calling will be shown at Loew's Thea-tre, where Capt. Sorcho and his crew of ten men will be the headline attraction for this week, in conjunction with a vaudeville bill of six other acts.

Broadway Belles "The Broadway Belles" show, which will appear at the Star this week, is

an entirely new burlesque production that compares with any high-class musical show. It is a real tonic in burlesque, with special numbers-livewire, up-to-date—comedians and a prize-winning chorus. Joe Wilton, in the title role of Mr. Gabby, in "The Advertising Man," is the author of the

book, lyrics and music. Joe Marks, an incomparable comedian, is the princi-pal fun maker. Rose Homley heads the feminine contingent. The balance of the cast includes Frank Mockey, Stella Morrissey, Grace Lyman and Al Harris. 'Battle Cry" at Strand Some idea of the magnitude of "The Battle Cry of Peace," which will be

presented all this week at the Strand Theatre, may be gained from the following facts: In support of the company there were introduced 16,000 National Guardsmen, 800 Union veterans 5000 horses and 17 aeroplanes, with Zeppelins, seaplanes, submarines, dreadnoughts, torpedo boats, and ar-mored motor cars. Of the many factors that make "The Battle Cry of Peace' the most impressive of all war films the series of thrilling pictures show-ing the bombardment of New York from land, sea and sky, the Wall street district in flames, and the dynamiting of public buildings are among the

MENDELSSOHN CHOIR

Money is Divided Equally Between Red Cross and Patriotic Funds.

The annual meeting of the executive of the Toronto Mendelssohn Choir was held on Saturday evening. The treasurer reported that notwithstanding large expenses attendant upon the production of the works presented, including outlays in connection with the engagement of the Russian Symphony Orchestra and the quartet of concert artists who assisted, the cost of music, rehearsal hall rentals, programs for the series, general printing, clerical work, advertising, accompanists' honorariums, etc., a substantial surplus resulted from the season's concerts. To the season's expenses must be added the necessarily large outlays in connection with the organization, training, and maintenance of the auxiliary chorus of 250 children who assisted in the "Children's Crusade." The concerts yielded a net result of \$2,011, which amount the treasurer was directed to divide equally between the Red Cross and Patriotic Funds. In addition to this sum, voluntary cash contributions of \$38.75, for the funds of the societies named, were received from members of the Children's Auxiliary Choir. Special reference was made in the secretary's report to the fine esprit de

corps shown by the members of the society during the season just ended, and to the memorable experiences of the society at the concert tendered to our soldiers now training in Toronto, at which the Duke and Duchess of Connaught and Princess Patricia, Sir John and Lady Hendrie, and several members of the royal suite were present. Particularly gratifying to members of the society were the enthusiastic comments of the duke, and

OTTAWA, March 12.—The senate divorce committee has concluded hearing evidence in the Hamilton-Gault divorce case and will make a recom-mendation to the senate Tuesday even-ing as to whether or not a bill of divorce should be granted. According to Canadian procedure there is one essential to justify divorce. This offense, Major Gault alleged, took place just summer at Taunton, England, where he and Capt. Bainsmith, the alleged co-respondent, were convalescing. Mrs. Gault was there with her brother, Capt. Stephens. The allegation was vigorously denied by Mrs. Gault and Capt.

One of Ottawa's leading physicians, Dr. Campbell Laidlaw, who examined Capt. Bainsmith, gave evidence for the defence as to Bainsmith's present condefence as to Bainsmith's present con-dition and what it must have been fol-lowing the injury to his spine last summer. The evidence in the case generally is conflicting and the out-come is uncertain. WOMAN HELD AUDIENCE

Mrs. Laub, Red Cross Worker, Delivered Stirring Address at Recruiting Meeting.

TO WIN WAR ON HONOR

Declared Those Who Criticize Government Are Members of Home Guard.

Mrs. Laub, a wealthy Hagersville woman, who for the past fourteen months was engaged in Red Cross work in different parts of Europe. was the chief speaker at the recruiting meeting held last night in Shea's Hippodrome. Mrs. Laub appeared in a smart Parisian designed military nurse's uniform, and altho opposed to conscription she had little love for the home guards.

"Conscription in Canada will not inquiries from England as to whether Canadians can supply the demand be needed, for we are going to win this war on our honor. After this war is brought to a triumphant end of toy manufacturing in Canada since war was declared and there are no fewer than 24 manufacturers of toys in Canada at the present time.

All the large department stores and a number of wholesale houses in Montreal and Toronto have promised to send representatives to the conference. Most of them have been accustomed to the conference war is brought to a triumphant end there will be an aristocracy composed of the families of the men who figured in this war," she said. Speaking of the battle of Verdun, Mrs. Laub stated that French soldiers are as good fighters as the "British Tommies," and they are the best, she said. "No military expert can tell how the Germans were ever kept from breaking thru into Parks in that

from breaking thru into Paris in that battle. Gold is on the side of the al-lies and is not going to let us lose." Drifting into politics, she declared: "There is no other country in the whole world that has a better governmen than Canadians. If people are not satisfied with the one in power they can get out and work and have it changed. These people who are always complaining of the members of the government are members of the government are members of the home guard who have a rustly gun hanging on the door."

Mrs. Laub, who leaves today for

the States, thinks that the strife be-tween Conservatives, Liberals, Pro-testants and Catholics will have to stop, and that they go under the stop, and that they go under the heading of 'Canadians' for a while. Thirty-two recruits were signed up during the day. They will be shared by the Sportsmen's Battalion, the 198th and the 208th Irish Battalion. Capt. D'Arcy Hinds of the Irish Fusiliers stated that the 110th Irish Fusiliers, despite much criticism, formed in April, 915. was now going overseas and asked if there were any fighting Irishmen in the audience fighting Irishmen in the audience who would come along with them. MONDAY MORNING, MARCH 13.

An Example for Toronto

Ottawa has received a report from the town planning commission, which, if adopted, will make a new place of the capital. It has been necessary in planning for the city to do a little speculating and the commission estimates that by 1950 Ottawa will have 250,000 people. Two industrial areas are proposed in Hull, one in the east and another at the Chaudiere, four in all. The railway and canal and river problems are awkward and involve an expensive rearrangement of the city with control by a single authority of the

rallway terminals. Parliament Hill is to retain its supremacy and parks are to be provided for 350,000 people. But the outstanding feature of the report is the decision to create a federal district embracing the two cities and the surrounding territory from Chats Falls on the west to Green's Creek on the east, and roughly ten miles north and south of the Ottawa River, the area including a national park in the Laurentian hills north of Hull.

While not suggesting the adoption federal district idea the report takes the view that the city cannot be ex- tained, largely thru English assistance, pected to undertake such an extensive task. The report, which is of the most by 1415 a Portuguese fleet, carrying comprehensive nature, was presented by Sir Thomas White, and we can only V., was able to capture Ceuta, and efwish that something similar could be done for Toronto. Piecemeal work however admirable it may be, will never achieve such satisfactory results as a plan on the adequate scale of the Ottawa scheme.

Toronto is equally in need of a federal district, or a metropolitan area, or any other method which will bring all the territory likely to be included in the city for fifty years to come into one jurisdiction. The people who could do something in this direction owe it to themselves and to the city to follow Moors. Among these crusaders were such an excellent example.

A Great Serbian

Count Cheddo Miyatovich, who is to speak tonight in Massey Hall along with Mrs. Pankhurst, in aid of the Serbian relief funds, is a man of much greater eminence than appears to be such a man at any other time would probably have excited more attention. but even the events of the war cannot dim the lustre that attaches to his career. He is now 74 years of age, but is wonderfully active and vigorous, and his fine voice enables his scholarly command of the English language to be appreciated.

He studied at Leipsic, Munich and Vlenna in his youth, and was profesor of political economy at Belgrade before he was called into diplomatic and political life. Since then he has served his country in all kinds of capacities, and represented it at many of the courts of Europe, including the British. Such are his attainments and so varied his abilities, and at the same time so much does he enjoy the confidence of his countrymen, that when a patriarch was required for the Serbian Church, a branch of the Holy Eastern or Greek Church, he was urged to accept the position and could scarcely escape the honor. He felt, however, that altho a layman is eligible to the office, just as a layman may be elected Pope, he should not enter upon a sphere of action outside

his ordinary experience. Having given up his life to his country with no thought of self-interest, he is not well-bestowed with this world's goods, but enjoys the national reputation of being an honest man. Hence his selection for the position he helds as representing the Serbian people in laying their plight before the people of this continent.

He believes in the victory of the allies and the restoration of the Sertrymen deserve a little consideration, spart from their sufferings and gallantry, for their own qualities. They es a fine and intelligent race, not altogether Slav, but mixed with the old Roman blood, which had colonized in early days that part of the world. This Latin admixture softens the harsher MICHIE & CO., LIMITED features of Slay character, and even

The Toronto World the language has experienced the same influence, and is the softest and mellowest of the Slav tongues. Its literature has prospered under the demands of an actively intellectual and artistic people. The Roumanians, who are entirely Latin, are not to be classed with the Serbs, and it is well to remember that the Roumanian tongue is almost like Italian.

> Count Miyatovich looks forward to permanent settlement among the Balkan nations. The geographical features of the territory offer natural boundaries and limits, and there is no reason, he believes, why all the separate races should not be brought under their own governments and so disposed that no ambitions for further territorial expansion would be left. The reunion of the Serbs and Serbia, and of the provinces now under Austrian rule, would make a nation of 14,000,000 people and provide an opportunity for heir future racial development.

> With such settlements, nationally he considers that ultimate federation of the Balkan States is perfectly feasible. And if such an end could be attained he sees no reason to despair of an ultimate federation of the whole of the European nations, once they have been sincerely democratized.

> > Hamilton Hydro Surplus

Hamilton Hydro-Electric Commis sion has reported a surplus of about \$31,000. The theory that the hydro commissions in the various cities and towns that use hydro power have entered into a conspiracy to show a surplus does not hold water. The hydro system is a success, and there is no denving the fact. This is what encourages the government to go on with a policy which has the people solidly behind it, which is no longer an experiment, and which has still happier prospects before it than it had in the beginning, these prospects having already been more than realized. How much present prospects may be exceeded depends entirely on the extent to which the province takes up the consumption of hydro power. The purchase of the Trent valley powers indicates what may be expected in the way of expansion.

Portugal

Portugal, with a population of about five and a half millions, is the latest of the belligerents. The taunt of Germany that Portugal was a vassal of England was no doubt intended to be particularly galling to a proud people who possessed at one time maritime supremacy. The Portuguese will not forget the German torpedoing of the own territory. Portugal as a nation began to exist

bout the same time as the Normar conquest of England, and thru Moorish and Castilian wars gradually atan established national footing, so that English men-at-arms, sent by Henry fect the first overseas conquest of the Portuguese people. From early times England had maintained friendly relations with Portugal. It was during the crusades the first connection was made, and it may be noted that the crusades had much to do with the develonment of the Portuguese national and military spirit. In 1147 a band of crusaders on their way to Palestine landed at Oporto and volunteered for the siege of Lisbon, which Alphonso was then preparing for, against the English, Germans and Flemings, and by their aid Lisbon was captured Oct. 24, 1147. An alliance between Portugal and England was concluded in the reign of Ferdinand, who followed Pedro, and in 1381 Richard II. sent a powerful force to Lisbon to take part against Castile, while he betrothed his cousin, Prince Edward, to Beatrice, Ferdinand's only child, and heiress to the throne. This arrangement was upset by Ferdinand, who deserted his ally and made peace with John I. of Castile. The result of this was a series of events which led to the founding of a new dynasty, the Cortes, in 1385, declaring the monarchy elective, when Dom John, the chancellor, was chosen king. He had to meet Castile aggres-

In 1386 John of Gaunt had reinforced the Portuguese with 5000 soldiers, and on May 9 of that year, by the treaty of Windsor, the alliance between the two kingdoms was confirmed and extended. Dom John married Philippa of Lancaster, daughter of John of Gaunt. Henry IV., Henry V. and Henry VI. each ratified the treaty of Windsor.

Thenceforth Portugal entered on a prriod of overseas expansion and maritime empire. In 1500 King Emanuel assumed the title, "Lord of the Conquest, Navigation and Commerce Lusitania, a name taken from their of India, Ethiopia, Arabia and Persia." The story of the Portuguese naval activity for the next two or three centuries is almost as stirring as that of England or Holland. > readers The ancient friendship of England and Portugal is due to nothing more than to the fair and equitable dealings of the British with smaller nations. In 1872 Great Britain claimed the southern part of Delagoa Bay, consenting, however, to arbitration. The sward of the French president was in favor of Portugal. A subsequent dispute over the Shire Highlands had apparently a domestic political origin, and the cordiality of the relations between Britain and Portugal was not re-established until 1898. A REMARKABLE SERIES OF ILLUSTRATIONS FOR A HISTORY. Sixteen Great World- Historical Paintings Reproduced in Original Colors.

The publishers of Larned's History of the World, now on distribution by the leading newspapers of the country, have spared no pains or expense in getting up the most attractive illustrations ever designed to embellish a work of history. Sixteen of the greatest world historical paintings are repro-duced in original colors. Among the famous artists are Cabanel, Sir Ed-ward Poynter, Albrecht Durer, Brosik, Piloty, Copley, Munkacsy, Trumbull, Muller, Gilbert Stuart, Pavis, Gerard and others. These celebrated painters are represented in some of the thrillenes of history, and in portraits of great rulers and statesmen. They merit a frequent inspection and do much towards an education in art. The following Italian official communication was issued yesterday:

"In the highest portion of the war theatre, our operations have continued to be hindered by persistently bad weather, the depth of the snow in some localities being over 32 feet. Our artillery has worked intensely and efficaciously along the entire middle Isonzo front to the seashore. Some portions of the enemy's trenches were damaged and their occupants found out and defeated, while enemy batteries were silenced.

"During the temporary cessation of the firing our infantry, passing over deep layers of snow and muddy slopes, attacked enemy positions, bombarding them with grenades. Enemy detachments coming to their support were met with a well-directed fire from our artillery and machine guns."

Pupils Repeat in Return Game at Arena, While Local Teachers Turn Tables.

Ottawa's public school heckey boys team defeated at the Arena on Saturday afternoon by 6 to 0, but the Toronto teachers turned the tables on the pedagogs from the capital. Score 5 to 1. Ottawa beat both the local teachers and pupils handily at Ottawa, and were confident of repeating here. A good-sized crowd of school children and teachers were in the rink to cheer on their favorites. Two periods of 20 minutes each were played by the boys.

First Half.

Ottawa opened the game on the offensive and McKenzie uncorked a nice rush which was stopped at the locals goal mouth. McAuley for Toronto shone with a brilliant individual effort.

The visitors scored first when Smith went down the ice and beat Solman from the wing. Ottawa 1, Toronto 0.

Smith and Brown raised the locals' hopes with a combined attack, but they faded when they reached Ottawa's defence. Smith tried a long shot at Solman, who only partially cleared, allowing Kissick to bat the rebound into the nets.

McKenzie came thru with another for Ottawa a minute later. Ottawa 3, Toronto 0.

cotten and McAuley went down the ice together and fooled the Ottawa defence, but St. Dennis stopped the shot in great

style.

Smith beat Solman with a long shot from the boards. Gamman shot thru a scrimmage in front of the locals' nets and had Solman beaten easily.

Half-time score: Ottawa 5, Toronto 0.

The Toronto boys shaped up much better at the opening of the last half and gave the Ottawa defence a busy time keeping them out. McAuley was the shining star for the locals with some good rushes and breaking-up tactics to his credit. Ottawa got an easy goal when Solman allowed a long shot from McKenzle bounce off his pads into the nets. Ottawa 6, Toronto 0.

McAuley tried hard for the locals, and waded his way thru the whole Ottawa team on several occasions, only to be beaten by the good work of the goal-keeper. Both teams held each other in their own end of the ice for long periods, but neither goal was in any danger.

Final score: Ottawa Pupils 6, Toronto Pupils 0.

The Ottawa and Toronto teachers held the ice here after the pupils' game and a lively game was the result. Ottawa obtained a six-goal lead on the series at Ottawa and looked like winners Saturday

First Period.

Both teams showed a woful lack of condition and missed a lot of opportunities thru lack of speed. After Steele, in the Toronto goal, had cleared a hard shot from Lapp, Boyd went thru and scored the first goal for the locals. Toronto Teachers 1, Ottawa Teachers 0.

The same player followed a minute late with a shot on the Ottawa goaler's pads. Carruthers received a pass across the Ottawa goal and banged the puckinto the net past Neale. Toronto 2, Ottawa 0.

Toronto had more of the play than their opponents, but were very weak in front of the goal.

The Canadiens Cinch N. H. A. Championship

MONTREAL, March 11.—Over five thousand witnessed the decisive defeat of Ottawa by the Canadiens at the Montreal arena tonight, score 4 to 1. By this victory the Canadiens practically cinch the championship of the N.H.A. for this season, as the Ottawa team would have to win the two remaining games from the Canadiens to come out ahead, which seems unlikely. The Frenchmen forced the pace from start to finish. Ottawa's single score was made in the second period. As the game progressed there was a steady procession of players to the penalty box, mostly for minor offences. Pitre, of the Canadiens, for chopping Darragh of Ottawa over the hands with his stick, and Shore of the Ottawas for striking Pitre, were each given a major penalty. The line-up: were each given a major penacy, line-up:

Wanderers No Match For the Blue Shirts

It was simply a procession for the Blue Streaks at the Arena Saturday night. They registered their eighth consecutive win at home by downing the Wanderers by 10 to 2. The score just about indicated the play, and at that one of the Montreal goals was fluked in.

The Wanderers came up with a weak team, and the locals were also minus the services of two of their best puck-chasers. Cameron was sick, very sick, and unable to play, and someone hit Skinner in the eye in the dressing-room. The latter had to have a physician's attention, and went home before the game. It was so much Toronto as to be devoid of interest. The blue shirts went thru two and three abreast time after time, to slip them past Lindsay, and after the commencement of the second period it was only a case of how many. The red bands were never dangerous, and didn't seem to try very hard, either. O. Cleghorn's goal after one minute of play was the only real piece of hockey they displayed all night. Their second came when Smith shot into Lesueur's pads and Brown fell into the net, taking Lesueur and the puck with him. Line-up:

Only 200 Soldiers Out of 7,500 Sign Prohibition MONTREAL CLUBS WOULD Petition at Exhibition Camp

Out of 7,500 officers and men in training at the Exhibition Camp, it is reported on good authority that only a few hundred signed the petition for a "dry" Ontario, circulated by the Citizens' Committee of One Hundred. This speaks for itself. No other reason, except that the men in khaki are opposed Quebec to prohibition, can be advanced as the reason for such a very small response to the appeal for signatures at the Exhibition. Significant as this is, however, it is overshadowed by the silence of the Committee of One Hundred in making the result of the canvass at the Exhibition public.

While glowing reports have been circulated all over the Province of the progress of the campaign for prchibition, not a word has been mentioned about the result at the Exhibition Camp. And this, despite the fact that every facility was given the men to sign, special camp orders being issued to the effect that the petitions would be placed at the Y. M. C. Every opportunity to do so was placed in the way of the soldiers, and yet it is stated on good authority that only several hundred took advantage of these facilities and signed. And another fact, and one which will not be lost on the people of Ontario, is that the Citizens' Committee of One Hundred lacked the courage and straightforwardness to make NOTE.—In their advertisement on Friday, January 21, 1916, the Committee of One Hundred laid great stress on the fact that "They had nothing to hide."

MONTREAL CURLERS **GETTING ENLIGHTENED**

MONTREAL, March 11.—The granite was king last night on local curling ice, and altho sadly unaccustomed to the difference in weight and disposition, local champions had very enjoyable games. The games, too, had the peculiar quality of excitement and swift reversal of score so characteristic of granite play.

Of Scotch descent, he was one of Toronto's original curlers, a member of the old Caledonians, and third player on one of the rinks that won that club's only Ontario Tankard, in 1882, just 34 years ago. Of the eight players, only the two leads now remain, viz. W. D. McIntosh and ex-Ald. Danny Lamb.

David Prentice was a skilful and accurate player. He had many anecdotes of the games he participated in all over the province, back in the 70's. The two rinks that beat out Bowmanville in the final were as follows:

The Quebec Cup series will start on Aug. 12; the second round will be played on Aug. 26, Sept. 9, the semi-final Sept. 23, and the final on Oct. 7. An international league was also formed, with a single schedule. On Labor Day, England will meet Scotland. Scotland will play Ireland on Thanksgiving Day, while England and Ireland will meet on Oct. 14.

A lively discussion on the motion of Tom Guthrie, president of the Ontario Football Association, to suspend official soccer in Canada for a year, and to allow the present board to hold office for a year without the annual meeting taking place, also marked the session.

The trend of opinion was against suspension, and that the motion to pass up the annual meeting for a year was unconstitutional, and it was the opinion that if soccer was suspended the P. Q. F. A. would not pay its \$50 fee to the D. F. A. It was decided to write to Secretary Spencer of the D.F. A. to secure more definite information upon the matter.

All clubs affiliated with the T. and D. F. A. are requested to be present at the meeting to be held tonight, as registration forms for the coming season will be issued. An invitation is also extended to representatives of battalion teams.

T. AND D. MEETING.

The exhibition of simultaneous chess at the Toronto. Chess Club, 65 Church street, by Mr. Frank J. Marshall, the redoubtable United States champion, aroused fitting interest. The great master was in excellent form and made quite a holocaust of the 29 players that lined up against him. A solitary half point was the full total secured by the elite of Toronto's chess players, and this was obtained by Malcolm Sim, the city champion, who managed to hold, Marshall to a draw, after a game of considerable difficulty. Marshall ventured, in the great majority of the games, the Danish Gambit, his favorite opening in this form of chess.

BEST THREE-YEAR-OLDS IN THE KENTUCKY DERBY

Great List of Entries for Classic at Louisville-Horses From England and France.

six nominations to the 1916 Kentucky Derby were announced today by the New Louisville Jockey Club. This list, while smaller than last year, comprises the cream of the American turf's threeyear-olds, and includes twelve imported thorobreds. Harry Payne Whitney, the New York sportsman, in a determined effort to land two successive Derby winners, has named seven eligibles, one of which is foreign-bred. Turfmen are according to him a royal chance for again shattering Derby precedent. His filly, Regret, last year's winner, was the first of her sex to finish in front in the forty years' history of the event. No owner ever has sent two successive winners to the post.

Parrish's Bluse are regarded as strong contenders.

The Kentucky Racing Commission has not assigned dates for the different tracks, but the Derby will be run at Churchill Downs probably May 13. It is for three-year-olds, at a mile and a quarter. Ten thousand dollars has been added to the purse by the Jockey Club, making the stake worth approximately \$15,000. Whitney's share last year for Regret's winning effort was \$11,400.

Dave Marion, at the Gayety. INDOOR WORLD'S RECORD.

PHILADELPHIA, March 12.—James E. Meredith, the University of Pennsylvania and Olympic champion runner, hung up a new world's record at the annual indoor athletic meet of the Meadowbrook Club here last night, when, in winning the 660-yard race, he lowered his own figures from 1.23 2-5 seconds to 1.21 2-5.

GAINS BY SPECIALTIES

Small Advances Reflected Manipulations Rather Than Public Demand.

NEW YORK, March 11.-Mexican affairs, and reports of further submarine activities in the European war zone uded today's short session, the trading element evidently viewing these developments with increased misgivings, while investors held altogether aloof. Prices were mainly higher at the opening, but,

were mainly higher at the opening, but, as usual, gains were almost wholly restricted to specialties, and denoted manipulation, rather than actual demand. Crueble Steel led the list on its brief advance, but fell back later, when the market receded under selling of Reading, New York Central and Southern Pacific. Metal shares were temporarily lifted to higher levels, with especial activity in American Zinc and Butte and Superior, but these issues also lost ground.

Apathy in Evidence.

The last half of the session was extremely apathetic, with material recoveries from minimum prices of the first hour, chiefly as a result of short covering. United States Industrial Alcohol was prominent among the high-priced specialties, gaining 4½ points, but losing more than ½ of this later.

The partial betterment towards the close was ascribed to an authoritative denial by an international banking house of recent rumors that another large international credit was contemplated. Total sales of stocks amounted to 238,000 shares.

Steadiness was shown by Americans Steadiness was shown by Americans

shares.

Steadiness was shown by Americans in the London market, but reports were current of further offerings of these issues for German and Dutch accounts. There was nothing in the rates for exchange, however, to bear out such reports. Week-end news of a general character included the reviews of the mercantile agencies, which were of the same hopeful tenor as those of recent weeks, showing sustained activity in numerous lines of industry, and unabated demand.

Local bank loans showed an actual decrease of \$18,464,000, with an increase of about \$31,000,000 in demand and time deposits, and a slight decrease of reserves.

Bonds were steady on very light offerings. Total sales, \$1,110,000.

ACTIVITY AT MONTREAL IN NOVA SCOTIA STEE

Part of Gain Was Lost, How ever-Other Stocks Were Quiet.

MONTREAL, March 12.—A brisk de mand for Scotla was the principal feature of an otherwise quiet, but firm market for stocks here on Saturday. On transactions in about 1500 shares. Scotla rose 1 to 101, equaling its high price of the previous day and was firm thereafter around 100%, until near the close when it fell to 100% bid 100% asked.

There was little movement in the balance of the market, but prices held well in light trading. Steel of Canada fluctuated between 41% and 42, and closed at 41%. The bid on Bridge was 208%. Cement was unchanged at 46%, Lyall equaled the high of 48 established on Friday, but fell off to 46½. Car was at 63, down %.

Laurentide at 183½ was 1 up, and Power at 222 showed a like gain.

Canadlan war loan bonds were in good demand at a slightly advanced price.

CRUCIBLE FEATURE OF DULL TRADING

Some Apprehension Over Mexican Situation-Closing Was Irregular.

NEW YORK, March 11.—After opening with some show of firmness today's dull market began to sag, most divisions of the stock list manifesting pressure. The only notable exceptions to this tendency were Crucible Steel, which was the most active feature at an extreme advance of 1% points, and U. S. Industrial Alcohol, which rose 4%. The Mexican situation evidently gave rise to further apprehension, as was demonstrated by the lower levels of shares identified with that country. Heaviness of leading rails, such as Reading and New York Central, accelerated the decline with substantial recoveries later. The closing was irregular. Bonds were steady.

BUSINESS OUTLOOK IS ENCOURAGING

Toronto reports to Bradstreet's say that business continues on a sound basis. Manufacturers, wholesalers and financial houses report favorably. One outstanding feature that augurs well for the future is the prompt manner in which payments have been met. In some cases they run fully 50 per cent. ahead of a year ago. The millinery season opens ausplciously and sales promise to be heavy. Dry goods firms have had a good week, having been visited by good country buyers. Market values of practically all lines of dry goods have advanced in the very recent past, and the tendency of prices is still upward. At the back of current commercial prosperity is the current commercial prosperity is the buying power of the public. Farmers have made large profits on all their products, and in the cities factories are so busy that all willing men have remune. ducts, and in the cities factories are so busy that all willing men have remunerative employment. The result is a steady and free movement of merchandise from retailers' shelves. The leather trade continues brisk. The Canadian west is taking a little harness leather, but the local and eastern demand for army and competial purposes has been heavy. local and eastern demand for army and commercial purposes has been heavy. Hides and wool firmed up this week and tallow advanced. Eggs were brought in from Chicago this week. Butter is steady. Potatoes are scarce and high. The grocery and boot and shoe trade find business about normal. Sugar advanced 20c per cwt. this week. The Canadian west is buying horses freely in Toronto and French army officials are buying large numbers every week.

LONDON STOCK EXCHANGE.

LONDON, March 11.—The stock market was fairly active and quite cheerful today. Gold mines were buoyant features on South African support, and Argentine rails are growing in favor on the belief that America is taking increased interest in them. Brazillan issues were in good request following the rise in exchange and the suggested utilization of German shipping. Japanese bonds reacted now that redemption purchases have ceased. American securities recorded slight, irregular changes and closed steady. Money and discount

Back Dividends Coming on Canadian Shares

The Montreal Star speaks of a number of Canadian companies that are starting in to pay back dividends. It says:

of Canadian companies that are starting in to pay back dividends. It says:

The buying which developed this week (to March 11) helped prices considerably, all the active steel shares enjoying a fair measure of improvement. Dominion Steel, Nova Scotla Steel and Steel Company of Canada were the big features. As has been frequently stated, all of them are enjoying great prosperity at the present time, working to capacity and enjoying the best prices in years for their products.

Scotla will do something for its shareholders during the current year, and it is believed it will be something of 'a substantial character, which ought to assuage the grief caused by the suspension of profit sharing since late in 1914.

Steel of Canada is expected to soon wipe out the balance of the back dividends on the preferred, and Dominion Steel yesterday made a start towards paying off its accumulated dividends by declaring a half year's 3½ per cent.

All this helps, and forms the basis for a more substantial market. Besides the steel companies, others have made or will be making distributions soon. Canada Steamships made a start yesterday on its back dividends by declaring a quarterly 1% per cent., and it is believed will go on with the good work by resuming regular payments as it can on the back ones, until they are wiped out. It is said the earnings for the current year will help a great deal in that respect.

Metal Being Found in Paying Ouantities Thruout Northern Ontario.

The announcement by W. F. Maclean, M.P., at Ottawa, of a new process of nickel refining discovered in Canada has created considerable interest in northern Ontario.

Outside of the establishment of a large and important industry it promises to Outside of the establishment of all sand important industry it promises to create a great activity in nickel properties. Contrary to general impression nickel is not only found in the Sudbury district but has been discovered in preving quantities in many sections of nickel is not only found in the Sudbury district but has been discovered in paying quantities in many sections of northern Ontario from Sudbury to the National Transcontinental Railway.

Owing to the peculiar condition of the nickel situation deposits outside of the Sudbury district (even the they often show a higher nickel content) are considered worthless. With control of the nickel industry the International Nickel Company (Can. Copper Co.), and the Mond Nickel Co., have, except in the instance of the Alexo Mine on the Porcupine branch of the F. and N. O. Railway, refused to purchase any ore. The reason for buying Alexo ore is that the Mond Co. finds it of great benefit when mixed with its own ores.

There are several nickel ore deposits that give promise of becoming producers if a nickel ore customs plant was established. Tho prospectors pay little attention to it, it has been recognized at Kirkland Lake, Sesikinika, north of Munro, near Neilie Lake, in and around Porcupine and between Porcupine and the Sudbury-Port Arthur line of the Canadian Northern Railway.

DEPRESSING TO PRICES

Chief Exporting Countries Have Big Reserve From Last Year's Crop.

BEARS RULE MARKET

Torpedoing of Norwegian Ship With Americans on Board Another Factor.

CHICAGO, March 11.-Wheat underwent a decided sag in value today, influenced by bearish estimates of stocks n the chief exporting countries and by the torpedoing of a Norwegian steamer which had Americans in its crew. The market closed weak, 1%c to 2%c net lower, with May at \$1.09% and July at

market closed weak, 1%c to 2%c net lower, with May at \$1.09% and July at \$1.08½. Corn finished unchanged to a sixteenth higher, oats varying from ½c off to %c advance and provisions up 2½c to 27½c.

Downturns which began in the price of wheat as soon as trading opened had their primary source in a comprehensive report made by a leading expert here who had been investigating the amount of surplus supplies in the United States, Canada, Argentina, Australia and India. He announced that the five countries named were in possession of enough available export wheat to fill, except for Germany and Austria, the entire world's needs for a year without taking a bushel from new crops. The surplus in the five countries was estimated at 626,000,000 bushels, as against total import requirements of only 560.000,000 bushels. At no time during the session were the bulls able to bring about any decisive rally from the effects of the showing.

Corn Fairly Firm.

Corn displayed relative firmness thruout the day, as compared with wheat. The principal immediate reasons were export enquiry and the lightness of receipts. Considerable irregularity developed in the oats market. Hedging sales from the northwest depressed the May option, but July hardened in sympathy with corn.

Speculative buying, especially in the last 15 minutes of the session, rallied provisions from an early decline. At first the market had lacked support and was inclined to give way owing to a setback in the price of hogs.

CHICAGO WHEAT MARKET WEAKER

Big Surplus Sufficient to Feed World With Exception of Central Powers.

Central Powers.

CHICAGO, March 11.—Weakness developed in the wheat market today, largely as a result of estimates showing that in five countries alone there now is available for export enough wheat to supply, except to Germany and Austria, the world's needs for a year without taking a bushel from new crops. The countries are the United States, Canada, Argentina, Australia and India. According to a—well known expert here, their present surplus is 626,000,000 bushels, whereas the total requirements for twelve months, excluding Germany and Austria, approximate only 560,000,000 bushels. Opening prices, which ranged from ½c to ½c lower, with May at \$1.10% to \$1.11½, and July at \$1.09% to \$1.09%, were followed by additional declines and then a moderate rally.

WINNIPEG GRAIN MARKE!

WINNIPEG, March 11.—Another sharp break on the local wheat market marked the week-end. May opened at 1c down and closed 1%c to 1%c lower, while the decline of the week was 2%c for May and 1%c for July. Oats dropped %c for 100 May and advanced %c for July. On the week's trading oats showed a gain of %c for May and %c for July. May barley gained 2c on the week and flax gained 1c for May and 2%c for July.

Exporters bought fairly well thruout the day, it being reported that the British Government would furnish vessels to

Mining Notes

The vein at the Croesus Gold Mines, in Munro Township, has now been cut at the 300-foot level, and is being drifted upon. It has also been cut at the 250foot level.

The plant at the Miller Independence Mine, at Boston Creek, is now running, and much speedier progress will now be made with sinking the shaft on the vein. The installation of the Nissen stamp, with which it is intended to treat the gold ore which can be mined from the lode on or near the surface, is proceeding rapidly.
