James Lyster Was District Manager For the Great West Life

Montreal, Nov. 2.—James Lyster, manager for this district of the Great West Life Assurance Company, and one of the best known insurance men in the city, died suddenly on a street car on Saturday night. Mr. Lyster was born in Kirkdale, Drummond County, in 1846, and entered the employ of the Great West Life Assurance Co. in 1868, going to Winnipeg, three years later and afterwards returning to the Eastern Townships. He was also connected with the Sun Life for a time previous to assuming the management of the Great West Life in this city.

GET-IN RIGHT WITH THE BASEBALL PLAYERS

Federal League Action Promises Trouble For the Majors

Indianapolis, Ind., Nov. 2.—A form of contract which is acceptable to the baseball players' fraternity was adopted yesterday's session of the federal league managers here. The action is another move in the baseball war which the Federal League purposes to carry to the major leagues. It has been reported that unless the major leagues include in their contracts certain conditions demanded by the players' fraternity, the players will refuse to sign and will turn to the Federal League. It was announced that George Stovall, former major league manager, had signed to lead the Kansas City federal club next season. Four clubs filed with acting president J. A. Gilmore of Chicago, a list of major league players with whom they had been negotiating. The managers adjourned last night, to meet in Chicago on November 16, when a president of the organization will be elected.

SEE CONTROL OF I. C. R. BY C. P. R.

How Railway Men Interpret the Gutelius Agreement—Ottawa Has No Word of Royal Line Coming Here

FATHER AGAINST SON

Ex-Police Inspector Furnishes Regrettable Feature in Campaign by Attack on His Offspring—Eggs and Vegetables Thrown at Sulzer

(Canadian Press) Montreal, Nov. 2.—The I. C. R. men in the C. P. R. way of running a railway under the guise of standardizing the government road. This is taken to be a precaution to prevent any trouble when C. P. R. trains over the I. C. R. tracks. If the running rules and other regulations were different there might be some confusion, but the changes which are being made do not seem to be of this nature. In addition to the objections which most people have of seeing the C. P. R. beginning to get control of the people's railway, there is the strong objection among patrons of the I. C. R. that the road will disorganize all ordinary business. The C. P. R. will insist upon quick despatch for their business and local traffic will have to stand aside. The I. C. R. is not fitted with enough of this kind of business to be carried on expeditiously and the result is likely to be disastrous. If the steam road should carry this business past its natural outlet at St. John for next to nothing, and to the detriment of those who must depend upon this one railway, Ottawa has no word.

BOUGHT LAND 14 YEARS AGO BUT HE HAS NO DEED

THE LEVEL CROSSING

Mayor to Ask Toronto Chief Magistrate to See St. John Represented

A curious state of affairs in connection with a lot of land sold by the city has been brought to the attention of the council. Fourteen years ago Richard D. Daney purchased from the city lot number 1275, situated on the northern side of Sheffield street. He was given a deed to the lot, but when he started to take possession he found that the deed was for a totally different lot already in the possession of some one else. He applied for a deed to the property which he had purchased in order to protect his title, but for some mysterious reason was unable to get it. That was in 1899, fourteen years ago, and the deed has not been issued yet and Mr. Daney has not yet been able to take possession of his lot.

NO SUNDAY CALM IN GOTHAM FIGHT

A Near Riot When Sulzer Invades Tammany Territory

FATHER AGAINST SON

Ex-Police Inspector Furnishes Regrettable Feature in Campaign by Attack on His Offspring—Eggs and Vegetables Thrown at Sulzer

(Canadian Press) New York, Nov. 2.—Why is perhaps the most outstanding and regrettable feature of the municipal election campaign, took place late on Saturday night, when ex-Police Inspector McLaughlin swore an affidavit to the effect that his son had lied when he declared that his father had loaned Judge McCall \$20,000 in order that the jurist might secure his nomination to the supreme court bench. The father not only swore that his son lied, but added that he was feeble-minded and had been saved from a lunatic asylum, only through the intervention of his mother. So intense has become the feeling over the forthcoming elections that families have even been divided and father arrayed against son.

ROYAL FATHER AND CROWN PRINCE SAID TO BE STILL AT ODDS

Kaiser's Son Said to Have Done Several Things of Late in Opposition to Emperor

London, Nov. 2.—The Express prints this Berlin cable: "No opportunity is too trifling to be seized by the crown prince to show his hostility to the Kaiser. The prince is now reviewing proofs of a book dealing with military problems which will be published next month, and has selected as an illustration a Polish artist named Kosak, who is in the Kaiser's black books. Last year he refused an invitation from the Kaiser to attend a celebration at Marienberg to celebrate Prussian supremacy over Poland. Since then he has been in disgrace and his selection by the crown prince is regarded as a direct slap in the face to the Kaiser. Another incident occurred last night when the crown prince, with his suite attended a performance at the theaters, which has been boycotted by the Kaiser since the production of Hauptmann's 'Soldiers'.' "The prince is said to continue for another year. It is reported that he was about to relinquish command there to take command of the Potsdam foot guards, but the Kaiser has vetoed the arrangement."

FOURTEEN YEARS IN PRISON FOR CAUSING DEATH WITH AUTOMOBILE

Chicago, Ill., Nov. 2.—Frederick Brock and Lawrence Lombhous, convicted of committing murder with an automobile, were denied new trials by Judge Cooper in the criminal court and were sentenced to fourteen years' imprisonment in the penitentiary. These are said to be the first Illinois convictions on a charge of murder as the result of an automobile killing.

RECONCILED

There was a happy ending in the police court this morning to a case in which Wilson Thompson was charged with the murder of his wife, Emily, with having threatened to shoot her and cut her throat in their boarding house in Charlotte street. A reconciliation was effected and they left the court hoping for the best in future. The case was settled quietly, His Honor taking them into his private office and with a clergyman, Rev. W. Gault, who had interested himself in the matter, acting the role of peacemaker.

THE POLICE INQUIRY

The investigation into the police department will be continued by Commissioner McLellan in the court house this evening. It is rumored that some of the evidence yet to be produced will be even more interesting than any that has yet been given.

DEMAND DISMISSAL OF MAN IN CHARGE OF ELECTIONS IN NEW YORK

New York, Nov. 2.—The summary removal of John R. Voorhees, superintendent of elections, a Democrat, is asked in a letter addressed to Governor Glynn today by Francis W. Bird, chairman of the National Progressive Party of New York county. L. J. O'Reilly, chairman of the county campaign committee of the independence league, and Clement J. Driscoll, president of the Voters League, also demand the removal of Voorhees with a view to investigate violations of the election law, with permitting his office to be used for partisan purposes, and with general incompetency and inefficiency. It alleges that the superintendent has been totally unfit, of bad reputation, some of whom the letter says, he equipped with revolvers and permitted to "suppress and intimidate elections."

THE ITALIAN ELECTIONS

Also the defeat of a former priest, Father Renolo Marri, leader of the Catholic Democrats, was noted with interest.

THE FINAL STEP IN FAVOR OF HARRY THAW

Brief Filed With New Hampshire Governor—A Thing at Jerome

(Canadian Press) Concord, N. H., Nov. 2.—The final step in the Thaw case in connection with his efforts to resist his extradition from New Hampshire to New York was filed with Governor Feltner today. It states that the indictment returned by the New York county grand jury, charging conspiracy to escape from the Massachusetts asylum, does not charge a crime, because an insane person could not be guilty of a conspiracy if insane to such an extent as to be irresponsible for his acts, while he is sufficiently mentally responsible to be guilty of the offense, but had a legal right to escape. The brief states that "in person charged with breaking out of prison may claim in defense of that charge that he was involuntarily confined in the prison."

MANY AT FUNERAL OF ROBERT MCNICHOLO

Many friends attended the funeral of Robert P. McNichol, which was held yesterday afternoon at the residence of his brother, Andrew McNichol, 202 King street East. The activity of Wm. Jerome in obtaining the indictment and his language at the hearings before Federal Judge, attached in the brief, which says: "The language used is bullying and threatening and could be used for any other purpose that the silly thought to intimidate your excellency. This unjust and unbecoming and is not consistent with the simple, dignified discharge of public duty."

Some of the world's great men have worked during the day and studied evenings to fit themselves for greater things. But it requires a good constitution generally to do this. A man was able to keep it up with ease after he had learned the sustaining power of Grape-Nuts, although he had fallen in health before he changed his food supply. He says: "Three years ago I had a severe attack of stomach trouble which left me unable to eat anything but bread and water. "The nervous strain at my office from 6 a. m. to 6 p. m. and improper foods caused my health to fall rapidly. Cereal and so-called "foods" were tried without benefit until I saw Grape-Nuts mentioned in the paper. "In hopeless desperation I tried this food and at once gained strength, fresh and appetite. I am now able to work all day at the office and study at night, without the nervous exhaustion that was usual before I tried Grape-Nuts. "It leaves me strengthened, refreshed, satisfied; nerves quieted and toned up; body and brain waste restored. I would have been a living skeleton, or more likely a dead one by this time, if it had not been for Grape-Nuts." Name given by Canadian Postum Co., Windsor, Ont. COMB SAGE TEA IN LIFELESS, GRAY HAIR

If Mixed With Sulphur it Darkens So Naturally Nobody Can Tell

Grandmother kept her hair beautifully darkened, glossy and abundant with brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural richness and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair. A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears after another application or two, it is restored to its natural color and looks glossy, soft and abundant.—Agents—Watson's 3 Stores.

Of the stupendous engineering tasks undertaken by the railroads of North America, this change of line will take first rank.

Search For Stormy Petrel of Venezuela Abandoned

MISSING FOR THREE MONTHS

One Theory is That He May Have Been Lost at Sea — Former Consul Here is Dead

New York, Nov. 2.—After a vain search of three months for information regarding his whereabouts, the friends of General Cipriano Castro in this city are convinced that he is either dead or a prisoner in a Venezuelan dungeon. Recent information of a disquieting nature received from his adherents in Caracas and Coro tends to show that the army petrel of South American politics was himself a victim of his attempt to overthrow the government of President Gomez in Coro on July 24 last, which resulted in failure and the capture and imprisonment of all his leaders, including his brother, Enillio Castro.

MORNING NEWS OVER THE WIRES

The observance of New Year's day as a day of prayer and fasting on behalf of a constitutional amendment for national prohibition was recommended by the National W. C. T. U. convention on Saturday. The president was authorized to call a mass meeting in Washington on January 15 to draw the attention of congress to the demands. Col. Willoughby Gwatkin, who for some time has been general staff officer in charge of mobilization arrangements at militia headquarters, has been appointed chief of the general staff, to succeed Major General Colin Mackenzie. The tern schooner Poney II was launched on Saturday at Parrboro by Captain Thomas B. Bentley who built her, is part owner, and she will be shipped on January 15 to draw the attention of the vessel could be found. It is thought the vessel came from the West part of the island and an unconfirmed report says four men and one woman were on board. On his arrival in Toronto on Saturday afternoon, General Branwell Booth of the 2nd Cavalry was enthusiastically greeted by his followers. More than 2,000 with ten bands had turned out to greet him, and there were present also the mayor of the city with civic officials. The mayor delivered an address of welcome. Last night and yesterday afternoon the general addressed large gatherings. It is said in Ottawa by his intimate friends that Premier Borden tires of the ties of office. He would gladly quit if

MOTHER! IT'S CRUEL TO FORCE OIL OR CALOMEL INTO A SICK CHILD

"California Syrup of Figs" Can't Harm Tender Stomach, Liver, Bowels

Look back at your childhood days. Remember the "physic" that mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them. With our children it's different. Mothers who cling to the old form of physic simply don't realize what they are doing. Their children's revolts are well founded. Their tender little "insides" are injured by them. If your child's stomach, liver and bowels need cleansing, give "California Syrup of Figs." Its action is positive but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child to-morrow. It should be the first remedy given as it always does good, never any harm. Ask your druggist for a 80 cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

another leader, considered by the party to be as good, could be found. His departure for six weeks from active political life on Friday last, is on the orders of the doctors. This is his second prolonged absence from the capital this summer, the first being for four weeks at St. Andrews, N. B. The crew of the schooner Gypsum Emperor, which was dismantled in a recent storm, has been picked up by the steamer Barcelona. The schooner was on her way from Halifax to New York with coal and is supposed to be totally wrecked. Joseph Johnson, a striking motorman, was shot and wounded by a policeman on Saturday in Indianapolis, when the Traction and Terminal Co. of that city, tried to run their cars from their yards through a crowd of strikers. Recent investigations in Toronto show that it is overrun with hand-book men, making and accepting wagers on races being conducted in all parts of the state. The police say the city is the headquarters of a hand-book trust with agencies all over Canada. The installation of an electric lighting system in Grand Falls, N. Montreal, Nov. 2.—The Manchester Commerce struck an iceberg while passing through the Straits of Belleisle earl on Saturday morning, and sustained injuries which, though severe, did not incapacitate her entirely, for she was subsequently able to shape her course to St. John's (Nfld.), where she will dock for overhauling and repairs.

CURED ECZEMA LIKE MAGIC

Suffered for Years—Tried All Kinds of Treatment—Surprised at Results from Dr. Chase's Ointment. You can soon tell when people are enthusiastic about medical treatment by the language they use. After experimenting with all sorts of ointments in vain to obtain relief and cure, the writer of this letter was astonished at the quick and satisfactory results obtained by the use of Dr. Chase's Ointment. "It works like magic," she writes. Indeed, it is surprising the healing that is often effected in a single night by this great ointment. The stinging and itching are relieved at once, and cure is only a matter of time and patient treatment. Mrs. Clements, 13 Strange street, Toronto, Ont., writes: "I have suffered from eczema for years, and after using all kinds of ointments, at last tried Dr. Chase's Ointment. It worked like magic and proved a God-send to me. I would advise anyone suffering from eczema to try one box and be convinced." 60 cents a box, all dealers, or Edmansson, Bates & Co., Limited, Toronto.

WHO IS AFRAID?

Whatever cause existed for an agitation in St. John at the time the first mass meeting was held still exists. The Guelph agreement has not been cancelled. The big C. P. R. and Allan Line mail steamships are listed to sail to and from Halifax. The last word about the Royal Line is Mr. Hanna's emphatic assertion that their steamers will sail from Halifax. We have been told that Mr. Guelph made the agreement with the C. P. R. which so injuriously affects the city of St. John without consulting the representative of St. John in the government. Mr. Guelph has not been compelled to withdraw his agreement or to resign, nor has Mr. Hasen considered the matter of submitting his own resignation in the event of continued injustice to his constituency.

The Conservative leaders in St. John not only believed that the citizens were justified in making a strong protest when the first mass meeting was held, but they joined in the protest. Since then, however, something appears to have happened to cool their ardor, and they are now endeavoring to prevent further public expressions of popular feeling. This may be good for the government, but it is bad for St. John, whose citizens may naturally ask what long they may expect to receive next winter, and to have it endorsed by local leaders of the Conservative party. The promise to submit the Guelph agreement to the railway commission does not settle the question. The big mail steamships were listed to sail from St. John. They have been switched to Halifax, although Sir Thomas Shaughnessy says that St. John is their "natural port." It is in the power of the government to insist upon justice being done to St. John. If the government refuses, so much the worse for the government. St. John should continue to protest.

DO NOT BE DECEIVED

Mr. Hasen's telegram to the board of trade stated that the Guelph agreement would be submitted to the railway commission after it had been signed. Signed by whom? Mr. Guelph told the board of trade that it had already been signed by him and by the representative of the Canadian Pacific Railway. The other signature to which Mr. Hasen refers must obviously be that of Mr. Cochrane, minister of railways, but Mr. Cochrane will not sign it unless it has been approved by the government, or to put it in another way, Mr. Cochrane's signature would be evidence of government approval. Why then did Mr. Borden and Mr. Hasen assure the delegation from St. John that the interests of this city would be guarded? The only way to guard them is to veto the Guelph agreement, or to send that agreement to the railway commission before it is signed and goes into effect.

REDUCE THE TARIFF

The Montreal Daily Mail urges Mr. Borden to investigate the high cost of living. The Mail says it is not merely a question of tariff, or transportation charges, or combinations, or of supply and demand, but that the truth may lie in all or any of these factors. It is pointed out that Great Britain and the United States have found it necessary to investigate, and that since Canada shows a greater increase in the cost of food than either of those countries, there is greater need here for investigation. The Mail published a very significant cartoon on the same page with the article to which reference has just been made. The cartoon shows a mother and her little boy standing before a window where a list of prices is shown as follows:—Steak, 27c.; lamb roast, 20c.; ham 24c.; beef roast, 25c.; bacon 21c.; eggs 48c.; butter 25c.; potatoes \$1.00 per bag. Also displayed for sale are copies of a newspaper on whose first page appears the following:—"Surplus for 1913, \$55,000,000." Striding past the disturbed housekeeper, with his thumb in his waistcoat and a cigar between his teeth, goes Mr. Borden, and the cartoonist observes—"Anyway we can't help admiring Mr. Borden's stride."

The lesson of this cartoon is obvious. While Mr. Borden declines to lower a tariff which last year piled up a surplus of \$55,000,000, the housekeepers of Canada are suffering from a steady increase in the cost of living, which a lower tariff would reduce.

The West India Circular, of London, says:—"Mr. W. S. Fielding, formerly Finance Minister of Canada, and a member of the Royal Commission on Trade between Canada and the West Indies of 1909-10, has accepted the position of President of the Montreal Daily Tele-

graph. He will certainly have the good wishes of all West Indians in the new position which he has taken up."

Boys who ought to be at home or in school continue to take up a considerable portion of the time of the police court. Parental neglect is responsible for many social ills.

Building operations in St. John this year have been on a more extensive scale than in any year since those immediately succeeding the great fire of 1877. House building operations would have been much more extensive but for the almost prohibitive cost.

The Montreal Financial Times says:—"A. F. Walker, general manager of the Sterling Bank, has been on a trip through the west studying the problem of agricultural credits. The practical plan being tried in North Battleford, in which banking, business and farming interests co-operate, has specially attracted his attention—it being not dissimilar to a plan successfully tried by the Sterling Bank with fishermen at Port Stanley, Ont."

The fact that Premier Borden finds it necessary to go south for six weeks to renew his strength, after having had a long holiday during the early summer, shows that the strain of holding together the incongruous elements of the Tory party must be very great. Mr. Borden is paying the price of his surrender to the Nationalists, the Rogers group of political adventurers, and other undesirable elements whose support was necessary to enable him to get into power. Already there is some speculation as to Mr. Borden's possible successor in the leadership. Out of the material around him, the party would have very great difficulty in selecting one who could be even as successful a leader as Mr. Borden.

A vigorous attempt is being made to distract public attention from the blow inflicted upon St. John by the withdrawal of the big mail steamships. The emphasis is being placed upon the facilities needed at East and West St. John and the desirability of pressing these matters upon the government. But there is no relation whatever between what the government ought to do in the matter of increased harbor facilities and what the government is now doing, or permitting to be done, to deprive the port of business which it is better equipped to accommodate than is the port of Halifax. One thing at a time. Let us get back that which is being taken from us, and then insist upon facilities to accommodate new business.

Those excellent institutions, the Free Kindergartens of the city, are overcrowded, and have been compelled to send many children home because there was no room for them. This is a regrettable condition, since the work of the Kindergarten is of great value, and the opportunity to attend should be given to every child in the city whose parents desire to have it profit by the training, and by the companionship of the devoted young ladies in charge of the institution. There is a demand for additional Kindergartens, but they cannot be opened until more funds are provided. Sooner or later room for this work will be provided in the public school buildings, but that is not possible at the present time, and it is therefore necessary to appeal to the public for the funds required to conduct the institution.

There is a lieutenant of Mrs. Pankhurst who understands much better how to gain the ear of the public than the leader herself. Where Mrs. Pankhurst, her chief lieutenant, brings to bear the gentle arts of flattery. While in Cleveland, Ohio, recently, the latter received through the mail three offers of marriage, whereupon, talking with one of the newspapers, she said:—"I think it just perfectly lovely of your big American men to admire me to this extent, but I cannot accept the proposals. But sometimes your American men are just too fine to resist." It goes without saying that Miss Blenda Franklin will have no difficulty in securing a hearing, from the men at least, in any part of the United States.

The Valor of Ignorance
Mr. Snibbles got out of bed and slipped on his shoes. He muttered irritably to his wife. "I'm going downstairs to teach that young man to keep away from my house in the future."
"John," cried his wife, "stop—Don't! But before she could say more he had slipped out of the door. She heard him staid downstairs to the dress-room, she heard sounds of a struggle and of the breaking of glass; she heard him drag his adversary to the front steps. Then when he returned she flung herself upon him clinging to him admiringly.
"What's the matter?" he demanded.
"Don't you know?" she answered.
"That was a burglary!" he said.
"Great Scott!" he gasped, turning pale. "Why didn't you tell me before? I thought it was St. John's sweetest!"

His mother heard him coming along the hall, and alarmed at the noise of the procession, called out: "Don't hurt the kittens, Henry!" "No, mother," came the reassuring answer. ENGAGED FORTY YEARS. TO BE WEDDED AT LAST

Miss Evelyn Smithers Has Arrived From Scotland for the Ceremony

Montreal, Nov. 3.—After being engaged for forty years, Miss Evelyn Smithers, aged 78, of Glasgow, has decided to marry her fiance, J. E. Campbell, of Winnipeg, aged 83.

Miss Smithers arrived here on the Allan liner Virginia, en route for Winnipeg, where the ceremony is to take place.

Hitherto Miss Smithers, who became engaged to Mr. Campbell in Scotland, has been afraid to cross the ocean, and put the marriage off from year to year in the hope that Mr. Campbell, who is a grocer in Winnipeg, would make enough money to justify his retiring to his old home for the rest of his days. As Mr. Campbell has never been able to do this, Miss Smithers at last conquered her fear of the sea.

BRONCHITIS CONQUERED

Royersford, Pa., Man Tells How

At this season of the year with such sudden changes, it is so easy to take cold, and almost before one is aware there is inflammation in the bronchial tubes—a hard cough and unless checked in time chronic pulmonary troubles may result.

Townsend Young of Royersford, Pa., contracted such a much difficulty about breathing. My chest felt clogged up and there were considerable soreness. I tried different remedies without help; but I am glad to say that Vinol cured my bronchial trouble which had lasted for three months. My breathing is all right and the soreness entirely gone.

ORIGIN OF "MEPHISTOPHELES"

Theories Regarding Derivation From Greek and From the Bible

There has been much discussion concerning the origin of the word "Mephistopheles" in the past which has, moreover, as yet ended in no very satisfactory conclusion. Some very bizarre explanations had been propounded before the time of Goethe, who was himself forced to own to the musician Zelter, in a letter of Nov. 20, 1839: "I cannot give any definite answer to the question: 'Whence comes the name Mephistopheles?'"

According to one theory, it was a hybrid Greco-Hebraic formation of mepha and tophel (the liar); according to another, its etymology was entirely Greek—very dubious Greek—mephistophiles, "he who does not love the light." Though this derivation is hardly acceptable it appears that this was the original form of the name, the second vowel being replaced by i at first in England whence it was taken into the popular German mysteries.

In the last number of the "Goethe Jahrbuch" Herr Oelke gives an entirely novel derivation which, if far fetched, has at least the merit of originality. He reminds us that it was customary in the Middle Ages when giving names to evil spirits to refer to the Old Testament. Hence the combination "Mephistopheles."

The explanation is not perceptibly more absurd than others. Goethe himself had a trick of using the abbreviated form "Mephisto" when it suited the exigencies of his meter. It may be re-

 Thousands of men and women are suffering from weak, lame and aching backs, and many of them unable to do any work for the pain.

The stitches, twinges and twinges are bad enough and give enough misery, but, back of the backache, and the cause of it all are the disordered kidneys crying out in warning through the back.

ESKIMOS REPORTED TO HAVE RAISED THE PRICE OF FURS
 White Fox Skins Jump From \$2 to \$20 Each

Washington, Nov. 2.—The benefits of the parcel post have extended to the Eskimo, and he is making use of the newest of Uncle Sam's aids to cheap transportation to the advantage of his own pocket and the discomfiture of the fur companies.

According to advice received in Washington the price of a white fox skin among Eskimos in Northern Alaska has jumped from \$2 to more than \$20 in the last few months. The natives have learned that they do not need to sell the skins to the fur traders, but that they can send them direct to the States to avoid the middleman. Polar bear and other valuable skins have taken corresponding jumps in price.

QUIT A TREAT TO SEE
 Lord Londale's Newmarket Costume Considered Worth a Cable

London, Nov. 2.—Fashion scribes are often inaccurate about men's wear. That the history of fashion may be written right, and that the dandies of the American race-tracks may compare notes with their brother sportsmen here, the following careful description of the piquant costume worn by Lord Londale, the dandiest of their sportsmen, at Newmarket this week, is given.

He wore a chocolate brown suit with stripes of darker color, a morning coat of full skirted, but fancy, with a large flap pocket on each side, two large buttons at the back, a black hat slightly conical, a turn-over collar, which enclosed a tie of red, white and yellow, a white waistcoat with yellow stripes, peculiarly long trousers, rather wide, turned up at the bottom, showing the sock, and patent leather boots.

RECENT DEATHS

BAD BLOOD IS THE DIRECT CAUSE OF PIMPLES.

Pimples break out on the face and body, and it is impossible to get rid of them, unless you cleanse the blood of all its impurities.

Burdock Blood Bitters is without a doubt, the very best medicine for this purpose.

This old, and reliable medicine has been in use for nearly forty years, and has a reputation unequalled by any other preparation for removing all the impurities from the blood and banishing the pimples.

Mr. Edward Paquette, Navan Centre, Ont., writes—"One month ago my face was covered with pimples and a rash. I had tried a number of these so called blood purifiers with no avail. Seeing an almanac of yours in which you strongly recommend Burdock Blood Bitters, I decided to try a bottle, and after I had taken it I could see a decided change, and after using three bottles more all the pimples had completely disappeared."

the late Robert and Sarah ... Born in London, England, she died in this country when quite young. She leaves, besides her sister, Mrs. John L. Mowry, four sons—John, freight inspector; Robert and A. The late Mrs. Brayley was a woman of estimable character, charitable, amiable and of a sunny disposition.

The death of Mary J., eldest daughter of the late Patrick and Mary Kelly, occurred at the Mater Misericordiae Home on Saturday, the 1st instant. She is survived by two sisters, Sister Margaret, of the Sacred Heart Convent, Rochester (N. Y.), and Miss Katherine Kelly, of this city, and one brother, William Kelly, of Fredericton. A long list of abstract questions concerning ritual murder was put to theological experts, neither questions nor answers apparently comprehensible to the jury, which is composed of peasants and small shopkeepers. The list included such questions as: "By what did the Jews replace the victim in the case of the first born sacrifice?" "What portion of the body, according to the interpretation of the Talmud and the Cabala, is it, out of which the soul is mostly held to issue with the blood?" "While Father Pranasias was testifying he mentioned Christ, whereas the president of the court declared that the name of Christ could be mentioned only in the case of a sitting behind closed doors. Father Pranasias contended that the extermination of the Christians was the main object of the existence of the Talmudists.

THEOLOGICAL WITNESSES NOW BEING HEARD AT KIEV TRIAL

Some of the Questions Posed For Jury of Peasants and Small Shopkeepers.

Kiev, Nov. 2.—In the trial of Medel Bellina, charged with murdering a Christian boy named Yushinsky, medical testimony has been concluded and the hearing of theological witnesses has been begun.

A long list of abstract questions concerning ritual murder was put to theological experts, neither questions nor answers apparently comprehensible to the jury, which is composed of peasants and small shopkeepers. The list included such questions as:

"By what did the Jews replace the victim in the case of the first born sacrifice?" "What portion of the body, according to the interpretation of the Talmud and the Cabala, is it, out of which the soul is mostly held to issue with the blood?"

"While Father Pranasias was testifying he mentioned Christ, whereas the president of the court declared that the name of Christ could be mentioned only in the case of a sitting behind closed doors. Father Pranasias contended that the extermination of the Christians was the main object of the existence of the Talmudists.

Present Conditions

New York, Nov. 1.—At this time of year, under normal conditions, orders from the railroads for steel should come in in good volume, but these orders are thus far small and disappointing. The Steel Corporation statement for the quarter ended September 1st shows earnings \$88,450,000, only once exceeded in the same quarter. Wall street had, it appears, been led to expect over \$40,000,000, and was, consequently, disappointed. Steel orders have fallen off and prices have declined, but decrease in activity is due probably not so much to smaller demand, but because buyers believe prices will be further reduced and are holding off. And in many other trades buyers are waiting for lower prices. In most lines of dry goods quotations are firm and volume steady. The copper outlook is fairly favorable. The purchase in London of \$2,000,000 in gold for New York indicates possibilities of gold imports, if needed. \$1,850,000 gold has gone out to Canada this week. On Monday the German Bank reduced its rate from 6 per cent to 5 1/2 per cent—an indication of decline in volume of business there. The Bank of England's rate remains unchanged at 5 per cent. Both this bank and the Bank of France gained gold this week. Call money here went to 10 per cent. on Friday, due, it is said, to the halt in collection of coupons under the income-tax complication. Time money is easy at 5 per cent. The market is almost entirely in the hands of traders, with practically no public interest. High-grade bonds have been nearly all absorbed by strong institutions. There is plenty of investment money holding off for clearing skies.

The Knock-Out Blow

FROM T. S. ANDREWS

Milwaukee, Wis., Nov. 1.—Should the knock-out blow be abolished? Some discussion has been started recently in the columns of the sporting press of England and America by the suggestion that the knock-out blow in boxing might with advantage be abolished. As far back as 1868 the British Amateur Boxing Association had a lengthy wrangle on this topic and very wisely came to the conclusion that it was best to let things stand as they were.

There is no doubt that professional boxers as a class realize that it is more profitable to win by a decisive punch than to let the decision go to the tender mercies of a referee and, this being the case, I do not see how the knock-out is to be effectually barred. So long as the public will stand for it so long will the boxers practice it. As soon as the public tired of seeing boys knocked out by a wallop on the jaw, depend upon it, the boxers will cut out the blow from their stock and find something more to the taste of their patrons.

We are getting altogether too timid in our regard for boxing, this being I suppose, by the continual attacks upon it by ignorant critics who can see nothing but broken legs and collar bones at football, deaths of jockeys during a horse race, and countless fatalities at flying motors, yet they raise no outcry for the suppression of these forms of sport. It has been established in law that unnecessary violence in any game is an offense, but the authorities never dream of prosecuting the promoters or participants in a professional football match, which frequently promotes far more unkindly feelings than can be obtained from boxing without very serious and disturbing the status of the game, and no good can come of newspaper guff supporting such an idea.

Must Mow the Grass. St. Louis, Nov. 2.—Because he believed it unfair to make the wives and children of players suffer for their errors, Branch Rickey, the new manager of the Browns, will do away with the practice of fining his men next season. Instead he will morning batting practice an offender will be forced to run to first base every time he is out, and if his offense is a grave one he will have to invest several hours daily helping the groundsman, cutting the grass and rolling the base lines. This Rickey declares, may result in the Browns having one of the best ball parks in the country in a short time and the only sufferer for the players' folly will be the players' himself.

Rivers and Cross. New Orleans, La., Nov. 2.—Joe Levy, manager of Joe Rivers, Mexican lightweight, announced that he had signed a contract with Promoter McCarney of Los Angeles, for Rivers to meet Leach Cross there in a twenty round bout on Thanksgiving Day.

WHAT A DIFFERENCE FOUR MONTHS MAKE. (W. H. TWO MORE CARLETON MEN HAVE TERRIFYING TIME IN STORM TOSSED FUNDY WATERS

A. J. Boddington and Companion Out Since Friday in Gasolene Boat — Finally Driven Ashore and Their Craft Smashed to Pieces

A special despatch from Bridgetown, N. S., says:

A terrible tale of suffering in an open boat on the Bay of Fundy comes from Hampton. The Herald learns that A. J. Boddington and a man named White left home on Friday morning in a big double engine gasolene boat for their nets. The men belonged to West St. John, N. B. The gale struck them during the forenoon and they were soon scudding across the bay. Both of the engines gave out and the boat became unmanageable and the breaking of every wave drenched the men to the skin.

After drifting for forty-eight hours they sighted the north shore at ten o'clock on Sunday morning. Two men at Tlus Cove saw them and followed the helpless boat along the high bluffs for more than an hour. Then a heavy gust of wind drove the boat into a small cove amid the breakers. The boat was smashed to atoms and the helping hands on shore pulled the almost exhausted men from the surf.

They were unable to walk and had to be assisted to a nearby house where warm drink and clothing were supplied. They will recover and return to West St. John in a few days. Both men have families.

Mr. Boddington says: "As we saw each huge wave coming towards us we expected it was the last that our boat could stand, but our noble craft would come up all right every time and this was repeated over and over again for more than sixty hours."

THE POLICE COURT
Trouble Over a Spar—A Case in Which Neckties Figure

On a warrant charging him with the theft of a black spruce spar, valued at \$20, the property of John McGuire of Golden Grove, Joseph Priest, of North End, was arrested this morning and remanded until tomorrow for witnesses. The plaintiff, who was represented by E. S. Ritchie, gave evidence this morning that he brought the spar to the city some days ago and had left it in an open space off the North wharf. He was informed a few days later that it was gone, and he was told that the prisoner had it. He went to him and tendered him a bill for the timber, but Priest refused to pay. He said that he had already paid Robert Holmes, a rigger, for the stick, and would not pay again. Priest today elected to have the present a preliminary hearing.

Arthur Draypen, of Quebec, pleaded guilty to stealing eleven neckties, valued at between \$4 and \$5, from the store of Alex. Corbet, Union street. The neckties were restored to their owner, and Draypen said that he had taken them more in fun than with the intention of stealing, as he was under the influence of liquor at the time. He was allowed to go on suspended sentence, and with the understanding that he would take the pledge.

THE POTATO TRADE

Timothy Collins returned home on Saturday after a trip to the North Shore. He said that business was lively in the potato trade, in which he was interested in the northern counties. Digging has just about all finished. There have been buyers from Montreal on the ground of late, but they have been called home because of a question of prices. Potatoes in barrels were being bought at eighty-five and ninety cents, while bags could be landed in Montreal at sixty-five. The difference in the cost of labor, freight, etc., made the bags a better buy. Mr. Collins said that the stock of potatoes was most plentiful.

EASIER MONEY LIKELY AFTER FIRST OF YEAR

(Montreal Mail)

"There certainly is a better under tone in the financial market," commented Charles R. Hosmer yesterday, to a Daily Mail representative.

"The big crop and the unusually large movement of grain is responsible for this betterment of conditions. The fact that almost 50,000,000 bushels have been moved since the harvest started means a considerable flow of money. If you take that wheat at say, 70 cents, it means that \$35,000,000 has gone into the country, and \$35,000,000 will, certainly, pay a lot of debts."

"There is an improvement and money is becoming easier, but I do not anticipate there will be any money for speculative purposes until after the first of the new year."
