> > Timber Trade Notes.

The Timber Trades'Journal of 5th inst., in its Liverpool correspondence, says .--The suspension of Robert Parker & Co., Ltd., has been the most prominent feature of the trade during the week, and a private meeting of their creditors will be held next week. So far as we can gather the liabili ies will be about forty or fifty thousand pounds, but the assets will pan out w ll, as ar as can be gathered at the

Apart from this, the general tenor of the trade is dul, and there is a feeling that it will continue so for some time. On the other hand, the shippers from Canad an ports-that is, Quebec and Montreal-still continue to make their forward sales at the full prices we have indicated hitherto. The tables of impor, consumption and stock show lit le or no improvement from last month, and this is a fair guide to the general slackness of bus ness in our trade.

In their monthly ci cular Messis. Farnworth and Jadine say:-The business of the past month has

been doll, and buyers are slow in entering into engagements for next season's supplies. The arrivals generally have been larger than during the corresponding month of the pistitwo years, and whilst the deliveries have been fair, the business has not been of a satisfactory nature, and values of some of the lead ug articles are defficult to u a ntain; stocks on the whole are ample.

New Bruswick and Nova Scotis Spruce and Pine Deals.-The arrivals du ing the past menth, chiffy by the winter liners, have rgain been large, and in excess of the corresponding period last year, viz., 2,710 standards, sgain t 2,400 standards in 1903; the deliveries have been fair, but stocks, although slightly less than the same month last season, are still large and, recent con ignments have been forced off at lower pr ces; contracting for next season is very quiet. Pine Deals, -The demand is slow.
