SEVERAL DEATHS DUE TO EXTREME COLD

Skating Conditions in Switzerland are Ideal—Many Tourists Arriving There

GENEVA, Jan. 17.—The conditions for skating are almost ideal throughout Switzerland. All except the largest rivers and lakes are frozen over, and sport is everywhere to be found.

The snowfall which is the heaviest for many years, has been followed by intense cold. Ten degrees of frost is the average temperature around Lake Geneva, but in some places as much as 29 degrees has been registered.

Several deaths because of the extreme cold have been reported and it is feared that the loss among the flocks on the higher altitudes is great.

THREE MASTER ABLAZE

Wrecking Steamers and Fireboats Go to Aid of Imperiled Schooner off Staten Island

BROOKLYN, Jan. 16.—The three-masted schooner Helen M. Atwood, outward bound for Humacao, Porto Rico, took fire at her anchorage off Stapleton, S. I., yesterday but was not seriously damaged.

PARIS IS TO HAVE ANOTHER DAILY

Big Newspaper to be Started by Socialists Deputy

It Will Only be One More, However, Added to the Score Already There—Some French Journalists.

PARIS, Jan. 17.—Paris is to have another daily newspaper. As it already has more than a score of daily newspapers one more or less will hardly count as an event in the life of the French capital.

Fifteen years ago M. Gerault-Richard was uncompromising Socialist. At that time he inhabited a small room high up in the heights of Montmartre and used to dine and lunch in a small restaurant in the Rue Leprieux where the extraordinary cheapness of the meals was his greatest quality.

M. Gerault-Richard was just at the outset of his political career and earning a precarious existence by writing for Socialist newspapers where the remuneration per column was the reverse of that in the ordinary press.

It does not take much more than ever to found a daily newspaper in Paris if one knows how. One of the most extraordinary examples of the bringing out of Paris newspapers was the "Evening," which belonged to Senator Magnier.

FOUR IN ONE FAMILY DEAD.

Suffocated by Illuminating Gas in Their Rooms.

Surviving Son Was Absent and Returned Too Late to be of Any Aid to Other Members.

BROOKLYN, Jan. 15.—Four members of a family, Meyer Rubin, 50 years old, his wife, Rosie, 45 years old; a son, Phillip, 17, and a daughter, Hettie, 15 years old, were suffocated by illuminating gas in their apartments on the ground floor of the large six story apartment house at 115 Hopkins street this morning.

The elder Rubin conducted a small grocery store and the members of his family slept in the rear of the store, and the one adjoining that was used by Rubin and his wife.

Each room became filled so gradually that the sleeping occupants were unaware of the gas being inhaled.

THE SITUATION IN ONTARIO.

Now that Hon. George W. Ross has been appointed to the Senate there is much speculation among Ontario Liberals as to who will succeed him as leader of the opposition, and many suggestions are being offered by the party newspapers in that province.

THE PLAINTIFF WON. In a civil action on money matters the plaintiff had stated that his financial position was always satisfactory.

SORRY FOR HIM. Miss Angelina (to Lucy, the parlor-maid)—Lucy, if any one calls to see me this afternoon, don't forget that I am only at home to Mr. Fitznooodle.

DID HER GOOD. Doctor (who has been taking a patient's temperature)—Now, my good woman, how do you feel?

PAID BACK. "Oh, George," she whispered, when he slipped the engagement ring on her finger, "how sweet of you to remember my favorite stones. None of the others were so thoughtful."

SECRETARY ROOT'S VISIT. Regarding the visit of United States Secretary of State Root to the Governor-General of Canada, which begins next Saturday, the New York Times is somewhat optimistic, and while it sees nothing official in the visit, has no doubt that great benefit to both countries will result.

WORKING IN A GOOD CAUSE. She—I'm glad we went. It was excellent performance—and for such a charitable purpose.

HER SINCERE PRAYER. There had been a dressmaker in the house, and she listened to long discussions about the very latest fashions. That night, when she said her prayers, she added a new petition, and with unwonted fervency: "And, dear Lord, please make us all very stylish!"—Smiles.

HER MIND MADE UP. Aunt—My dear, do you think it is right to let that young man spend so much money on you?

A WASTE OF BREATH. Miss Kulcher—You can always tell a woman who has enjoyed the benefits of higher education.

ADVANTAGES OF EDUCATION. "Bessie, how many sisters has your new playmate?"

TIME AS AN ARTIST. "Father," inquired a boy, "what are wrinkles?"

ALWAYS AT HAND. Mr. Johns—Does your wife ever lose her temper?

newspaper in the province which in this respect has not the courage of its convictions and willing to admit and praise the advantage of this great winter port of Canada.

THE LAST SAD CHORDS. The last sad chords have now died out. And like a thing forlorn, The girl drops o'er the snowy keys Down to death's address sea.

Like threads of gold betwixt your song, Ran dreams of other days— Before a thought had come to us Of widely severed ways.

COMPULSORY VOLUNTEERING. A militia colonel's regiment was required for service abroad, but the members were not, in the main, desirous for volunteering for foreign service.

COMMERCIAL MILLERS ARE BULLISH. CHICAGO, Jan. 16.—A leading Winnipeg house wires: "I find 1,800,000 bushels wheat at Fort Arthur sold, but not yet shipped out. Stocks there are less than last year, and wheat stocks in Eastern Canada practically nothing; only two days supply of milling wheat in Winnipeg, about 21,000,000 in country elevator; about 14,000,000 bushels left in farmer's hands, making available supply about 35,000,000 against 38,000,000 bushels last year. Railroad managers tell me there is no chance of anything more than a dragging movement in the balance of the crop year. In Northern North Dakota the situation is the same as in Manitoba. Millers are bullish. On one road it took two engines to haul seven cars of provisions yesterday, and dozens of towns were crying for fuel and provisions. On one division alone 21 engines were laid up for lack of coal."

SATISFIED WITH PRICES. LONDON, Jan. 16.—The kinds, for Alberta, who brought 700 Canadian cattle to this country, has expressed himself as very well satisfied with the prices obtained. Prices would have been better however, had the cattle arrived in time for the Christmas market.

QUALITY OF CATTLE GOOD. MONTREAL, Jan. 16.—At the stock yards at Point St. Charles today there was a larger supply of cattle than usually offered. Demand for local consumption was good, and the quality of the cattle was quite up to the average. Prices were well maintained and an active trade was done.

SMALL SUPPLY OF HOGS. The comparatively small supplies of hogs coming in makes the situation very strong in this trade, and prices have again made an advance from 15c to 25c per 100 lbs., and sales of selected lots were made today at \$7.25 per 100 lbs., weighed off cars.

CHEESE INDUSTRY IN CANADA. The rapidly growing importance of the cheese industry to Canada may be gathered from the fact that the return in money to dairy farmers of this country for the cheese exports of the past season amount to about \$29,000,000. This estimate includes the cheese made during the season yet to go forward.

CASTRO STILL HOLDS REINS. Predicted Coup d'etat Did Not Take Place. Venezuela's Famous President Reported Improving in Health—Intervention Would be Welcomed.

CARACAS, Venezuela, Jan. 17.—New Year's week has passed without noteworthy incident in Venezuelan history. Two coups d'etat were predicted for the beginning of 1907. One would have Vice-President Gomez director; the other would have given the directorship to Dr. Revenga, secretary general to President Castro, and also the latter's private physician. Neither rumor seems to have had any foundation in fact.

The all-important subject here is the health of President Castro. Since he became ill, over six months ago, his condition has been the most jealously guarded of state secrets. For political reasons all official information concerning his condition has been optimistic. For the same reasons reports from antagonistic quarters have invariably been pessimistic.

1,000 REPORTED KILLED--90,000 ARE HOMELESS AND THOUSANDS INJURED--FAMINE THREATENS

Later News Intensifies Kingston Horror--That City's Damage Alone is \$10,000,000--Survivors Face Starvation and Pestilence -- Fire Has Broken Out Again--Panic Prevails--Help Urgently Needed.

MAP OF THE CITY OF KINGSTON Showing the Principal Buildings Destroyed by the Earthquake.

ST. THOMAS, D.W.I., Jan. 16.—Reports received here from Jamaica say it is estimated that 1,000 persons have been killed by the earthquake and fire, and that ninety thousand persons are homeless. The damage to Kingston alone is placed at fully \$10,000,000.

Situation More Serious Than was Feared

Very few messages, and those meagre and lacking in detail, have been received direct from Jamaica today to give additional information of the devastation and death wrought by the earthquake that ravaged Kingston on Monday afternoon. Such intelligence as has come through, however, shows the situation to be apparently more serious than was outlined in the first official reports received at colonial offices in London from the governor of the West Indian Islands, Sir Edward Sweetnam, and Alfred Wood, M. P.

Cable communication with Jamaica seems to be almost impossible on account of the local disruption of the lines and system, or possibly because of the absolute precedence given in British colonies to official dispatches. The devastation would appear to have been confined to the vicinity of Kingston, one dispatch giving ten miles as the radius of damage. The rest of the island, including Port Antonio, does not seem to have suffered severely.

List of Injured Number Thousands

The estimates of persons injured is placed in the thousands. It is feared that when the ruins of the city are searched the casualty list will be materially increased. A large majority of the 50,000 population of Kingston is black, and it is probable that nearly all the casualties were among these people. It is reported that about two score black soldiers were burned to death in a military hospital near the city.

Looting and disorder, including raids on rum shops, by the blacks followed the catastrophe, but the prompt repressive measures restored order. Panic prevails, however, and especially as the earth shocks occurred yesterday and today and a great number of the city's population have fled to the neighboring countryside. Food supplies are beginning to be urgently needed and the demand upon medical supplies has exhausted the stock on hand.

The fire which followed the disaster would appear to have been confined to that section of the city bordering on the water front. The flames were supposed to have been checked, but a later despatch indicates that they may have again broken out. The shipping in the harbor is said to have escaped undamaged, and the members of the party of Sir Alfred Jones are safe on board the steamer Port Kingston.

United States Send Battleships to Aid

The navy department has sent the battleships Missouri and Indiana from Guantanamo, Cuba, to Kingston to render all the aid possible. Any reliable estimate of the property damage is impossible. It is reported that the business section is in ruins and that a large bank building and a big hotel have been destroyed, while other messages say that almost all the houses of the Jamaican capital have been destroyed and those within a radius of ten miles damaged.

The very much more serious aspect of the situation given by the messages from Jamaica itself have not been confirmed by official reports. Some of the messages emanating from Jamaica are without date, and it is thus impossible to tell whether they refer to the panic of the first hours and give exaggerated reports of casualties or are sent at a time when greater calm prevailed and actual estimates of the situation have been made.

New York Sends Relief to Sufferers

NEW YORK, Jan. 16.—Plans looking to the relief of the Jamaica earthquake sufferers were formulated at a meeting tonight of a number of representatives of steamship lines and commercial firms. A committee was named to at-

ed at the state department, dated Jamaica, 2:31 p. m., January 16, and signed "American Consul," stating that Kingston had been destroyed, and hundreds of lives lost, and stating also that food was badly needed.

The signature to this dispatch was misleading for the consul is absent on leave from his post. It was assumed at the department that the vice deputy consul, Wm. Orrett, at Kingston, had sent the dispatch. Reference to the cablegram to the fireproof safe is understood to convey assurance of the safety of the consular records and papers. It was also regarded as possible that the message might have come from Nicholas R. Snyder, the American consul at Port Antonio, on the island of Jamaica. However, the dispatch was regarded as warranting the taking of instant measures for relief. Indeed, the navy department had been in advance in this matter, for though Capt. Beecher, the officer in charge of the naval station at Keywest, wireless communication was early established between the navy department and Admiral Evans, commanding the Atlantic fleet at Guantanamo, Cuba, and when Secretary Root later indicated the advisability of sending warships at once to the distressed island, it turned out that Admiral Evans had anticipated the direction and had started on a torpedo boat steamer, the swiftest vessel in the American fleet, for Kingston, ordering two of the battleships to follow as soon as they could.

The appeal for food supplies directed attention to the fact that under ordinary conditions none of the government supplies could be used for outside relief save by special authority of congress. The fact, however, did prevent Secretary Metcalf from ordering two supply ships with full cargoes of food at once to Jamaica, leaving for tomorrow the question as to how the supplies are to be given to the needy inhabitants.

The war department up to the close of business had not acted upon the application for food, but it is assumed that in anticipation of the passage of the necessary legislation by congress it will at least take care to get supplies to the island ready for the distributing agents.

Help Needed for Earthquake Sufferers

WASHINGTON, Jan. 16.—Official news of the disaster at Kingston, Jamaica, reached Washington slowly today; in fact, the first report did not come to hand until well along in the afternoon when a dispatch was received

This is the first message Mr. McLeod has received direct from Kingston. BOSTON, Jan. 16.—E. T. Hammett, asst. inspector of the Bank of Nova Scotia, arrived here today and sailed on the steamer Admiral Dewey to look after the bank's affairs in Jamaica. Mr. Hammett left St. John last night, but the train was delayed three hours by three wrecks on the Boston and Maine road. When Mr. Hammett reached the Union station the Dewey had cast off her stern line. He telephoned and had the steamer held fifteen minutes to allow him to reach her. Had the train been three minutes later Hammett would have been left.

C. H. Eason, the local manager of the Bank of Nova Scotia, said in answer to a query of the Sun, that Mr. Hammett was in St. John on his trip of inspection when the news of the disaster was received. While there General Manager McLeod ordered him to proceed at once to Jamaica, and he passed through St. John on the six o'clock train Tuesday night.

European Volcanoes Erupt in Sympathy

CATANIA, Sicily, Jan. 16.—The earthquake at Kingston, Jamaica, was coincident with increased activity of Mount Etna and slight earthquakes in the Median mountains. Prof. Riccio, the director of the Mount Etna observatory, says that either the fire openings inside the crater which were discovered in 1883 have increased in size or that eruptions are occurring inside the volcano, as from the outside nothing but smoke and reflection of fire can be seen. The volcano is throwing out considerable quantities of ashes and subterranean detonations are heard. The present phenomena are similar to those of 1883, when one of the most severe eruptions occurred.

Cable Brings Halifax Man Good News

HALIFAX, Jan. 16.—C. F. Longley, a Halifax shipping broker received a cable from Kingston tonight stating that his relatives in the stricken city were safe. The dispatch gave little information about the disaster, but stated that the eastern part of the town largely escaped the general destruction. Being anxious regarding his relatives Mr. Longley endeavored to get a message through direct to Kingston, but was informed at the telegraph office that it would be useless for him to try. He then called a friend at Gordonton, a small town on the mountains ten miles from Kingston. The message was delivered to his relatives and a reply received in Halifax inside of 12 hours.

Bank of N.S. Staff and Mrs. McLeod Safe

TORONTO, Ont., Jan. 16.—About four o'clock this afternoon H. C. McLeod received a message from A. H. Rowley, manager of the Bank of Nova Scotia branch at Kingston, Jamaica, announcing that the entire staff and family of Mr. McLeod were all safe.

FATHER MCAULEY ON THE STAND UNDER CROSS-EXAMINATION.

Identifies as His Own the Articles Found in Collins' Valise--Axe Which Collins Said He Left in the Woodpile Found in Father McAuley's Bedroom.

HOPEWELL CAPE, N. B., Jan. 16.—The first evidence in the Collins murder trial was taken this morning, when the circuit court resumed business at ten o'clock. Rev. Father McAuley was the first witness and was on the stand several hours. He was examined by Hon. Mr. Skinner for the crown, Hon. Mr. McKewen conducting the cross-examination. The number of visitors during the early part of the day was not large, but later on in spite of the very inclement weather, the court room, including all of the galleries, was pretty well filled. Father McAuley being sworn, first explained the extent of his parish and the location of his residence at New Ireland, Albert county, and told of the engaging of the prisoner at the bar in August last to do chores at his place. At that time the priest's household consisted of Father McAuley himself and his second cousin and housekeeper, Miss Mary Ann McAuley. The witness told of the prisoner's conduct during his stay, which was nothing out of the ordinary. The facts of the fishing trip to the lake on the Thursday were given, and the circumstances of Fr. McAuley's leaving the rectory on Friday to go to another part of the mission. The witness told of his having an axe which he supposed at the time was the only one on the place. On Saturday morning he took the train for Salisbury. Witness described his house and furnishings and the location of his belongings, the evidence being practically the same as that given at the preliminary examination. He gave a par-

tial description of Miss McAuley's gold watch, stating, however, that he had no positive recollection of marks on the outside of the watch. The watch was a present from her sisters and had been repaired at Albert in July. The witness had not observed any signs of unkindliness between the prisoner and Miss McAuley at any time. The circumstances of giving certain instructions to Miss McAuley regarding the getting of groceries were related, this being objected to by Mr. McKewen. The witness had given Miss McAuley for this purpose, a \$1 bill and two fifty cent pieces. The witness related the particulars of his return from his trip, when he arrived at Elgin about 11:30 on Monday, August 20th. Here he met the prisoner Collins. The particulars of this interview were given. The prisoner told him that he and his housekeeper had some words, however, he promised the witness he would return, but failed to do so. The prisoner seemed nervous. When he came to New Ireland had a silver watch. Witness related the facts of his leaving Elgin for the home, Thomas Carthy driving him part of the way and James Doyle the rest. He stopped at Doyle's about 25 minutes. It being then about a quarter to five. He reached home at about 6 o'clock. Witness told particulars of the findings of his wagon gone, kitchen utensils and the housekeeper missing, and described the finding, later on, of the body of Miss McAuley in the woodshed by James Doyle, Miss Duffy and himself. The witness had dispatched Doyle to telegraph a description of the young man Collins and particulars were also given of the breaking in of the panels of the closet doors in Father McAuley's residence. The witness described the condition of the blood-stained overall found, the floor, mats, etc., and the body of the murdered woman. The overall and broken panel of the door were shown in court. The witness missed several articles of his own, including two valises, a telescope and a Gladstone. The valises carried by Collins and found by Detective Killen, were shown the witness and identified, as were also much of the contents, including a silk handkerchief belonging to Miss McAuley and bearing her name. In the Gladstone bag, which had been found since the preliminary examination last fall, were found lines from a harness which the witness identified, also a stereo scope and other things. The two axes in the possession of the police, and with one of which the murder had undoubtedly been committed, were also the witness, one of which, that found more recently in the priest's room, being identified as the priest's own. This was the axe that Collins had said he had left in the woodpile.

Reports Inaccurate, Says Mr. Marsh

W. L. Marsh of Kingston, Jamaica, when seen last evening at the Royal stated that reports of the Jamaica disaster as far as he could judge from press despatches, were exceedingly exaggerated. Mr. Marsh, who is connected with the Canada-Jamaica fruit service, has not yet received any cable from the island concerning the damage his property has sustained, and expects none before this evening at the earliest. The city of Kingston, according to Mr. Marsh, has but few buildings of more than two stories in height. Since the great fire of 1878 the edifices erected have been built almost exclusively of brick, so that the city was prepared for either earthquake or fire. The inhabitants of the island of Jamaica are to a great extent accustomed to tremors of moderate violence, these earth-tremblings happening as often as once a month. On such occasions people at once run from the buildings for fear that they might fall. Even if a person should be caught in the ruins there is the possibility of their removal alive even two or three days afterward. With regard to many of those now reported dead or missing, Mr. Marsh thinks it possible that they may be found later on. During the excitement produced by a shock as severe as Monday's must have been, people are liable to lose their heads for a time and as soon as telegraphic connection with the outside world is resumed to send out most exaggerated accounts of loss of life and damage to property. Cablegrams via New York are also very liable to be peddled and altered there. Mr. Marsh said that minor details of despatches already received here are false. Warehouses are placed in parts of Kingston where no warehouses exist, the various hotels are confused one with the other, forty men are mentioned as killed in a military hospital which would only contain about half of that number of persons, and other mistakes are obvious to one at all acquainted with the city. In Mr. Marsh's opinion the most marked effects of the shock are confined to Kingston and its neighborhood, and only the eastern section of the town seems to have been damaged. The trade of Jamaica comes from the country, and the injury suffered by Kingston will not hinder the commerce of the island, as ports are plentiful along the coast. One of the Canada-Jamaica steamers, the Vinland, finished loading at Kingston on Sunday and sailed on that day for the western end of the island. Another steamer which left Halifax last week is about due in Jamaica. News of these vessels has not been heard and is anxiously awaited. In speaking of the fire risks of Kingston, Mr. Marsh said that fires were exceedingly uncommon in the city, but the fire department was well organized and the water service excellent. Captains Constantine and Young were both known to Mr. Marsh. The former was the head official of the Royal Mail Steamship line in Jamaica, and his death, if reports stating this are true, will cause sorrow among a large number of friends. The residences of A. H. Rowley and Mrs. H. C. McLeod are some miles outside the city, but the probabilities are that Mr. Rowley was at his place of business during the shock, as 3:30 is the time when business is at its height in Kingston. Mr. Marsh's office is but three hundred yards from the burnt Colonial Bank building, and is in a building which was built by slave labor. The building has gone through one big fire and, Mr. Marsh thinks, has gone through this one with little damage.

BISHOP GARMICHAEL'S WIFE DEAD.

MONTREAL, Jan. 16.—Mrs. Carmichael, wife of the Bishop of Montreal, died this evening after a long illness. For several months her condition has been considered hopeless, but the end came suddenly. The Bishop was absent in Toronto at the time, attending the meeting of the house of bishops.

### NEW COMPANY FOR WOODSTOCK

Will Carry on Wholesale and Retail Business

Many Appointments Gazetted—Lively Discussion in Municipal Council

Over the Sum of \$7.00.

Do you know about the fortunes that have been and are now being made with these machines and other which we manufacture? Wouldn't YOU like to establish a business of your own that would yield big profits right from the start?

We have started over 10,000 people in business in the United States of America and every one of them is now independently wealthy.

#### This is One of Our Plans:

START AN ARCADE. To do this, rent a shop in the best part of your city with a front on the most prominent thoroughfare. Then purchase a number of different kinds of our automatic amusement machines, place them in this shop, and start one of the musical machines playing at the entrance. This will draw the people to the entrance, which shall be broad and level with the sidewalk. They will then see the lines of strange and beautiful machines inside, and come in to examine them. When they find that a small coin placed in any one of these machines will give them a delightful entertainment, they will drop in a coin, enjoy the particular attraction presented, and pass on enthusiastically to another machine. It is astonishing how rapidly your Arcade becomes popular throughout the city and how the habit grows with the populace of frequenting your place and seeing the new features, which you can constantly change at almost no expense. The number of coins each machine absorbs in the course of a day, and the consequent profit to you, is really remarkable. Every one who has adopted this plan has made a lot of money. Write us for full details and figures of profits.

OTHER PLANS. We have a variety of plans some of which will exactly suit you, no matter how slender may be your present means and by which you can make money fast with our coin operated machines.

We make 250 different varieties to suit coins of any country. The following are some of our exclusive production:—

PHONOGRAPHS.	ELECTRIC MEDICAL MACHINES.
ILLUSTRATED SONGS.	CHINES.
AUTOMATIC BAG PUNCHERS.	PICTURE MACHINES.
ERS.	VENDING MACHINES.
LIFTING MACHINES.	FORTUNE TELLERS.
WEIGHING MACHINES.	CARD MACHINES.

Sealed tenders are called for the rebuilding of Taney bridge at St. Basil, Madawaska county.

Joseph P. Roy, of Bathurst, merchant, has assigned to N. A. Landry, and Thomas Foley of St. John has assigned to Sheriff Ritchie.

The County Council at its session this afternoon voted down a resolution to increase the hospital grant for the ensuing year by \$250 by a vote of 12 to 2. A resolution, however, to pay an increase over the annual grant of \$500 by \$150 carried. So the total grant to that institution was fixed at \$650.

A resolution was passed authorizing the secretary-treasurer to prepare an amendment to the act to be presented to the legislature for the election of councillors the first Tuesday in September instead of the first Tuesday in October, as is now the case.

F. P. Robinson and F. W. Hatheway appeared before the council and as delegates of the agricultural and horticultural societies, to discuss the proposed amendment to the act to be presented to the legislature for the election of councillors the first Tuesday in September instead of the first Tuesday in October, as is now the case.

The annual meeting of the Carleton Presbyterian Church was held last night and the reports of the various societies submitted and approved. The financial condition of the church was considered excellent. The roll of communicants at the opening of the year was 183. During the year four were added, by profession of faith. There were three deaths and five left the church, as they were moving from the city, leaving at present 185, which Rev. Dr. Fotheringham thought quite satisfactory. The following were elected trustees: C. H. Doig, H. E. Burns, J. V. Russell, E. Cunningham, H. H. Crockett, W. J. Parks, W. S. Clouston, N. Morrison and J. C. Henderson.

ST. JOHN'S CHURCH.

The congregational meeting of St. John's Presbyterian Church was held last night and the reports of the various societies submitted and approved. The financial condition of the church was considered excellent. The roll of communicants at the opening of the year was 183. During the year four were added, by profession of faith. There were three deaths and five left the church, as they were moving from the city, leaving at present 185, which Rev. Dr. Fotheringham thought quite satisfactory. The following were elected trustees: C. H. Doig, H. E. Burns, J. V. Russell, E. Cunningham, H. H. Crockett, W. J. Parks, W. S. Clouston, N. Morrison and J. C. Henderson.

## IT'S SIMPLY IMPOSSIBLE TO MATCH THESE CLOTHING BARGAINS OUTSIDE THIS STORE!

And all the cold weather of the season is yet to come, and come it surely will. Provide for it with the good warm clothing you can get at this sale. There are almost four months of wearing time ahead.

When you buy "Oak Hall Clothes" at our regular prices you buy for one fourth to one-third less than equally good clothes are sold for in any other store in St. John. This fact cannot even be honestly questioned, because IT HAS BEEN PROVED HUNDREDS OF TIMES—it is proven every time a comparison is made. You get "Oak Hall Clothes" direct from the makers and save the middleman's profit. This is what makes the difference in price.

During this Great Stock Reduction Sale, our less-than-elsewhere prices are reduced 1-4 to 1-3, which means that the saving is more than half in most cases.

BRUSSELS STREET BAPTIST.

The annual business meeting of Brussels street Baptist church was held last evening in the church vestry, Rev. A. B. Cohoe presiding. After the minutes of the preceding business meeting, Treasurer Frank Fales submitted a report which showed a surplus of about \$200. It is the most encouraging statement handed over to the congregation in many years. At the conclusion of his remarks Mr. Fales was loudly applauded, for, as afterwards stated, the church members attribute the healthy condition of the church finances in a large measure to this particular official's careful management. In connection with his report Mr. Fales outlined the probable expenditure for the year now current, mentioning the need of considerable repairs to the building, excepted church auditorium and the re-upholstering of the pews. During an informal discussion on this subject which followed the church members present expressed a determination to have Treasurer Fales' suggestion carried out. The house committee will look further into the matter and arrange details.

ST. ANDREW'S CHURCH.

The annual meeting of St. Andrew's church was called for last night. Owing to the small attendance the meeting was adjourned until next week, after appointing Hon. J. G. Forbes chairman and W. M. Angus, secretary.

## ARCHBISHOP SWEATMAN CHOSEN PRIMATE OF ALL CANADA.

TORONTO, Ont., Jan. 16.—Archbishop Sweatman of Toronto was this afternoon elected archbishop and metropolitan of the ecclesiastical province of Canada and Primate of All Canada, which embraces the British dominion in North America with the exception of Newfoundland. The election to the archbishopric occurred about one o'clock and the bell of St. Alban's cathedral was rung in honor of the event. Shortly thereafter the bishop of Saskatchewan put in an appearance, and the house of bishops, though about prepared to adjourn for luncheon, determined to finish business. Upon Bishop Sweatman was then conferred the double honor, Bishop Thorne of Alaska, Saul Ste. Marie, Bishop Williams of Huron, London, Ont.; Bishop Carmichael of Montreal; Bishop Holmes of Moosehead; Bishop Doumoulin of Niagara, Hamilton, Ont.; Bishop Worrell of Nova Scotia, (Halifax); Bishop Mills of Ontario (Kingston); Bishop Hamilton of Ottawa; Bishop Dunn of Quebec and Bishop Newham of Saskatchewan composed the house.

### INTEREST KEEPING UP.

Big Crowd at Everyday Club Last Night—Good Programme.

The Everyday Club continues to meet with the success which it merits. Last evening several hundred men and boys were present and listened to an excellent programme. M. Kelley sang, being his own accompanist, and also gave an interesting reading. There was also club singing and juggling by H. Beville. William McCavour followed with a reading, after which Chairman A. M. Belding spoke briefly. During the course of his remarks he mentioned a boy of about sixteen years who had the preceding evening made a disturbance in the club's rooms. There was an example of the results of drink, and parents should keep a watch upon their sons that they be kept out of bar rooms. The Everyday Club tried to reach this class of young men and to offer to them counter amusements.

The organization of the club is developing, and the members have every hope of making the undertaking a success.

## COCKBURN DIDN'T KNOW OF FALSE RETURNS.

Evidence Shows He Was Hoodwinked—Fear for Bank's Credit Prevented Earlier Exposure.

TORONTO, Jan. 16.—In the case against George R. Cockburn, accused of signing false bank returns to the government, Crown Attorney Corley today asked for an adjournment of two weeks to allow for further evidence. However, the case was adjourned till Monday, but tomorrow morning argument will be heard before the chief magistrate at his suggestion.

Robert B. Caldwell, former inspector of the Ontario Bank, appeared today as a witness, having come from Ottawa on receipt of Mr. Corley's telegram and the service of a subpoena on him at Ottawa. He said: "The matter of the general manager's speculating came up in conversation, and the president and myself decided that the head office should be inspected. The result was that McGill was requested to give me access to the necessary books for inspection. I went to him and McGill said it would be attended to later on. This occurred in 1905 and 1906. I told Mr. Cockburn of my inspection by McGill, and Cockburn said he would see McGill. McGill, in pursuance of his request, produced a list of securities which he claimed to have in bank investments which amounted to a little over \$1,000,000 and said it was a true statement.

"I did not want to press our suspicions too far for fear of doing injury to the bank. Other clerks never told me, and they should have. If the clerk who helped falsify that first government return had told me the situation would have been saved," said the witness. He said he was certain the president knew nothing of the falsifying of the statement.

### LOCAL NEWS.

Band at the Marathon Rink tonight. Ice in excellent condition.

Contractor George McArthur has returned from a four-weeks' visit to the West.

A whip, found on dock street, will be given to the owner on application at the police station.

A meeting of the board of trade will be held this evening when the proposed assessment act will be considered.

The mid-winter excursion party will hold their annual drive to Newcombe's tonight. The sleighs will leave Dr. A. D. Smith's office, Charlotte street, at 7.30 o'clock.

The safety and treasury boards will meet at City Hall today. The sub-committee appointed by the treasury board to meet with the fire underwriters, will report.

A span of horses attached to a coach were found wandering about Britain street by the police last night and they were placed in Worden's stable for safe keeping.

Police Sgt. Ross has reported that 17 C. P. R. workmen whom he reported have taken out licenses. A large number of persons are reported each winter, and it is a harvest for the policeman who makes the report, for he gathers in 75 cents on each license paid.

The three-masted schooner Harry W. Lewis has arrived at Partridge Island in ballast and will dock this afternoon. The schooner made a remarkable fine run from New York to the island, covering the distance in about three days and a half.

Frank Denley's celebrated production The Wizard of the Nile, which is to be the opening bill of the popular Robinson Opera Company on their return next Monday, January 21st, is one of the most complete operatic extravagananzas ever witnessed here. It is full of catchy music, gorgeous costumes, old properties and a thorough scenic production. The Wizard of the Nile will be given Monday, Tuesday, Wednesday evening and Thursday afternoon. Thursday evening, Fra-Diavolo with Frank Nelson in the leading role.

### COLDEST HERE FOR TWENTY YEARS.

Thermometer Registered Seventeen Below This Morning.

Coldest Since the 17th Day of January, 1887, When It Was Also 17 Degrees Below—Liable to Continue.

This is the coldest day of the year. The thermometer has registered 20 degrees below zero. Since Wednesday the mercury has been below the zero mark, and a sort spell in the near future is not probable.

D. L. Hutchinson in his official report, today states that at 9 o'clock last night it was 12 below, and at 9 o'clock this morning it was 14 below. At noon the thermometer registered 10 below.

A wind blew all day yesterday at the rate of 36 miles an hour, and the cold was felt more than today.

The lowest temperature this morning, according to Mr. Hutchinson's statement, was 17 degrees below.

And it is interesting to note that this is the lowest it has been since 1887, when on the same day of the month, January 17, it registered 17 degrees below zero.

Several thermometers in different sections of the city registered 18 and 20 degrees below this morning. The thermometer outside of Manchester, Robertson and Allison's, Ltd., registered 20 degrees below, and the mercury went as low as 18 on Waterloo street.

Communications state that cold weather prevails all over the province. At Halifax at midnight last night it was 9 below zero. At Chatham yesterday it was 15 below.

The cold weather has interfered greatly with work at Sand Point. The longshoremen are working today, but gangs are away below strength, as a number of men did not care to work in the cold.

Work was discontinued on the new Royal Bank building, the contractors in charge deeming it unwise to call the men to work today. Yesterday's weather report indicated snow here for today, but as the cold wave continues to centre in the province, it is improbable that snow will fall for at least two days.

### SHOT AND KILLED

NEW YORK, Jan. 17. — Michael Smith, a saloon keeper, of Queensborough, was shot and killed last night by Patrolman Burr, of Long Island City, while resisting arrest on a charge of robbery.

### MAY PARDON PATRICK

NEW YORK, Jan. 17.—Upon receiving a report of its special committee on the effect of embalming fluid upon the lungs, sustaining the contention that Albert T. Patrick did not cause the death of William M. Rice, the medical society last night voted to memorialize Governor Hughes to pardon Patrick.

### CROSBY vs. THE KING.

The case of Crosby vs. The King was resumed in the exchequer court this morning. Argument of counsel was heard. J. W. Fosset and L. G. Crosby were the principal witnesses at yesterday afternoon's session.

M. V. Faddock stated that the molasses brought here by Mr. Crosby contained from one half to one per cent. of sulphur. The case will probably be concluded tomorrow.

### GALGARY NEWSPAPER KNOCKS GEO. MULLIN

For Interviews He Gave - St. John Daily

Western Editor Tartly Resents Former St. John Man's Alleged Slighting Reference to "Uncouth" Pioneers, etc.

A short time ago a former North End grocer, who is now comfortably situated in Calgary, out west, while home here on a visit, gave an interview to one of our evening dailies in which he deplored the absence of silk hats and frock coats in the city of his adoption. He is further quoted as characterizing the pioneer westerners as uncouth and boorish, which the Calgary Albanian outspokenly resents in the following words:

(Editorial: Calgary Albertan, Jan. 10.)

NO TALL HATS HERE.

A jovial person residing in Calgary who makes a living by adding up long columns of hard figures has been in St. John and informs the newspapers there that really this western country is pretty crude after all. It has many drawbacks and one never sees a top hat or a frock coat.

To a highly cultured person who has been reared in the lap of St. John luxury and education at the St. John business college, the absence of these emblems of a high state of civilization are certainly very much felt. The biting loneliness one feels when separated from such close pals cannot be understood by ordinary persons who have never known the delights of such associations.

The cultured St. John person expresses his absolute disgust with the uncouthness and roughness of the old pioneer and intimates that all the loyalty for the flag in the entire west so compassed into the one head which so years for its silk covering, and within the heart which is never embraced any more by the frock coat.

As long as we have no worse knockers of this country than the cultured person, we are in very good fortune.

People who cannot live here because it is not a frock coat and silk hat country are of no value to us. We do not particularly need the man who is worrying about the loyalty of our old time pioneer.

The Albanian does not mean by this that the country is crude, or its people vulgar, or that we despise refinement, far from it. What we do mean is that we are not particularly anxious to get many of the class of people, whose longing for the high hat and frock coat is an overweening one. In this country people dress decently and comfortably and with propriety. But a man can dress as he pleases, and as long as he follows the ordinary rules of propriety he will neither attract attention nor be censured, nor ridiculed. The high hat and frock coat are not very popular for the reason that they are somewhat conspicuous, but more for the reason that they are not a comfortable garb to work in.

Mr. Mullin says that the oldtimer is so uncouth and rough that he does not know which flag he is sleeping. If he means that the oldtimer raises no sentimental riot about trifles he is right. But it means that the hearts of the old veterans are not in the right place, this person is slandering the noblest type of men who ever adorned any country. They have little to say about the flag they are sleeping under. To the cultured St. Johnian this sleeping feature seems to be the test of loyalty. But these stalwart pioneers have something to say under which flag they will fight, and the records of Canada's wars and Britain's wars show the kind of stuff they are made of. If we have to choose for settlers between the sturdy old timers and the cultured person who can't live without his silk hat and his frock coat, we shall pick out the former. The cultured person with some character about him every time, and know that we have made a good choice."

### PROTECTIONISTS AT THE JAIL

Large Number Sheltered There Every Winter—Story of Montreal Cattleman

A cold and half clad man called at the police court this morning and if his story is true he has been certainly wronged. He says that a man named Lyons, who is an employment agent, hired him in Montreal as a cattleman, procured a pass for him to St. John and collected seven dollars for his trouble. The man came to the city yesterday with bright hopes that a position was awaiting him but he says that he was informed on arrival that there was no work for him. It is a hard predicament for a poor man to be in when but scantily clad, little or no money in his pocket, and with the thermometer hovering about the mark of 15 degrees below zero.

The unfortunate's case will be looked into and in the meantime he will probably make a central police station call his lodging house and trust to good hearted citizens for his meals.

There were four protectionists in the police cells last night and it is the case every winter that the police station harbors about as many protectionists as it does prisoners. Some are really needy while others take to the warm cells to save lodging money for drink.

An instance is stated where two poor looking fellows entered the police station one night, said they were hungry, cold and without funds. They were given a warm cell and turned out at 5.30 o'clock in the morning, and a half an hour later were happy in a barroom with considerable cash and spending it for drink.

### "TAKE CAR BEHIND!"

An Old Gag That didn't Work Last Night.

It seems that whenever there's a heavy rainstorm, a blizzard, a particularly frosty night, or a general hurry the street railway service soars beautifully into the air.

Last night was one of these occasions. It was shortly after six o'clock and every business house was pouring out its men and women employes. The Western Union corner was crowded with people waiting for cars—red ones, green ones, white ones.

Several red and green cars came and passed on, but no Haymarket square liners. Over fifteen minutes elapsed before a white disc showed around Dock street corner.

By this time the score of waiting men and women were almost frozen, a few invading the I. C. R. ticket office and Western Union lobby to escape the cold.

When at last a Haymarket Square car arrived the boy in conductor flung open the door and blandly announced that the car was full.

"Can't take any more passengers," he shouted; "take the car behind!"

But already a few chilled men had jumped aboard and entered the body of the car. They called out to others saying there was plenty of room, and so there was.

"Car filled, eh?" laughed one of the party, "filled with cold air, I guess, that's all."

Over a dozen men and women got good seats, and a score more used the straps, despite the admonition of the boyish conductor to take the next car, for that one was filled.

Superintendent Callahan should make it a strictly personal matter to see not only that schedules are maintained at meal hours—particularly in bad weather—but that lazy employes are not allowed to bulldoze passengers into waiting for the oft-times mythical "next car." It is a nuisance the people will not put up with much longer.
