

The crew of the Grey Dawn? Drowned! Where are the crews of twenty other ships of which you have been partner—ships that were rotten—ships that were bought and patched—ships that were made by cheap contractors with bad materials—ships built to sink? James Halley, if you in your career had lost a tithe of them, you would have been a beggar; while this man—look at the well-fed, smooth, sleek serpent, and see how he has thriven!

The Union Advocate. Established 1867. NEWCASTLE, MIRAMICHI, N. B. WEDNESDAY, JULY 15, 1874.

TO-NIGHT.

have now arrived at the period of pleasure and pleasure parties of the order of the day, and to during the heat and bustle of summer, there is invigorating to the merchant or the artist relaxation from toil.

A number of Building Lots in Dalhousie, and a Farm at Eel River, will be sold at auction at Dalhousie on Wednesday next, the 22nd inst. See advt.

The "Harding Lots" in rear of the Gaol, will be sold on Friday, Mr. C. C. Watt, Auctioneer. See advt.

A lot of cattle will be offered for sale at Willow Brook Farm tomorrow at 2 o'clock.

A covered stage wagon, harness, cooking stove and some other articles will be offered for sale on Saturday at 10 o'clock.

Shediac was visited by a very severe storm on Wednesday night, of which we find in accounts from Shediac of a storm which passed over the city on the evening, being at times of a violent character. It lasted for some hours, and in some places was surpassed by any other within the memory of the oldest inhabitant.

Mr. Welling's daughter, and the child of Mr. Welling's child, who were both present at the funeral of Mr. Welling, were both present at the funeral of Mr. Welling.

Sad Case of Drowning.

A Bathurst correspondent, writing on the 13th, sends the following:—"A son of Mr. James Eddy was drowned in Bathurst harbor on Saturday evening last, while bathing. He must have been seized with a cramp, as he sank suddenly, although a fair swimmer. His body was recovered about twenty minutes after he disappeared beneath the surface, but all attempts to restore animation proved ineffectual. He was eighteen years of age, and considered a very promising youth. An inquest on the body was held by Coroner MacLaughlin when a verdict of death by accidental drowning was returned.

Three shares in the City of St. John stock have been taken in Bathurst, two in Dalhousie, and one in Campbellton.

Another correspondent sends us an account of the above sad case of drowning, for which he has our thanks.

Excursion.

Messrs. Call & Miller will dispatch the Andover on a pleasure excursion on Monday next. Should the weather be propitious, the trip will doubtless be a fine and invigorating one, the sea breeze at the mouth of the river being particularly fresh and exhilarating. See advertisement for particulars.

Auctions.

Confidential News.

In the closing paragraph of my last I reported 1649 as the increase of church membership for the last year, with many thousands on trial. Two districts of Newfoundland, and the district of Prince Edward Island, contributed most largely toward this grand total. Judging from statistics furnished by the Nfld. Districts, it appears that Methodism is rapidly gaining upon the population of that Island. Where fifteen years ago, we had fourteen ministers labouring, we have now over forty. During former years of our history as a separate Conference, have the various interests of the Church been better sustained. The slight falling off reported by the secretary in the Foreign Mission income is much more than counterbalanced by the largely augmented contributions toward the support of Home Missions.

Twenty-nine (29) young men offered themselves as candidates for the work of the Ministry this year and were accepted. Still, although this number is unprecedented, yet, owing partly to the fact, that several ministers retire to a superannuated relation, some compelled by increasing years as the venerable Barrett and Weddall, others forced into premature retirement, by falling health &c., and as respected J. A. Clarke, and Wasson; partly I say, partly to this fact and owing to the increasing demands of our work, there will be a great many circuits and stations marked in the minutes "One to be sent" "One wanted" &c. The Conference is again driven to look abroad for a supply of young men. We must still either draw from the circuit of English Methodism, or be crippled in our itinerant operations. The large number of Englishmen, who within the last few years have been dropping out of our ranks, are proving themselves to be men of the right stamp. We are not afraid of being "swamped" by these noble foreigners.

Educational matters occupied the attention of Conference part of one day. The clouds which hung upon our horizon twelve months ago, are no longer visible. The "heavens" have been propitious, and the future looks cheering. The "endowment" fund, launched two years ago, with a view to sustain in vigorous operation our own Sackville Institution, has reached the sum of fifty two thousand dollars (\$52,000). Dr. Pickard, is re-appointed agent in connection with this fund. It was stated as being very desirable, that this fund should be worked up to one hundred thousand dollars. Miramichi, will most likely be visited by the indomitable Dr. Durand the course of the present year. I would strongly recommend our friends to get their gifts ready!

I dare say Mr. Editor you are beginning to wish to see the end of these jottings. I must give many things which occupied the attention of the Conference the "go by."

The death of the E. B. A. Conference was sounded about dinner time on Friday 8th inst. Just before the dissolution of the whole body was convulsed, but the end was blessedly peaceful. It was a time of intense fear, of struggle, and of triumph. In the afternoon the members of the N. S. and P. E. I. and of the N. S. Conference met, the latter in the church, and the former in the lecture room, to organize &c. The Rev. J. M. Murray was elected President of the N. S. Conference, and brother R. A. Templeton was elected Secretary. Rev. H. Pope was elected by the Conference of N. B. and P. E. I. to the occupancy of his chief seat, and brother D. D. Currie was carried triumphantly into the chair of Fin. Secy. The ministerial delegates to attend the first general Conference were next appointed by ballot. Our Conference conferred this distinguished honour upon the following brethren, H. Pope, D. D. Currie, Joseph Hart, Dr. Pickard, Dr. Stewart, John Rimco, James Taylor, and Hez. M'Keown. James Taylor and Hez. M'Keown were next appointed, and some other routine work attended to, and the Conference closed by presenting its united worship at the Divine footstool. Good by.

Halifax, 6th July, 74.

We are much pleased to learn that the degree of LL. B. (Bachelor of Laws) coupled with honorable recommendations, has been conferred upon Richard L. Quigley, of Newcastle, by the Senate of Harvard University, Mass. Our young friend, we are happy to learn, passed a most flattering examination, coming off foremost in a contest where he had to meet a large number of young men who had the advantage of a much extended period of study.

The particulars of the abuses in the Lunatic Asylum at Prince Edward Island, as furnished by the Grand Jury in their Presentment, are so terribly startling, and so deserving to be so resolutely combated, that we are glad to see the humane man the Inhuman Doctor, and George Lovett, had not sailed jockeyed him toward the finish. It was thought that Brown would have won; as it was, he came in five seconds behind. Brown was immediately offered to match the winner for any amount of money—three miles straight—in the single scull race next day, defeating Harry Kelley, Robert Dagnall, Henry Dooler, and George Lovett. Had not Sadler jockeyed him toward the finish, it was thought that Brown would have won; as it was, he came in five seconds behind. Brown was immediately offered to match the winner for any amount of money—three miles straight—in the single scull race next day, defeating Harry Kelley, Robert Dagnall, Henry Dooler, and George Lovett.

On the return Brown was leading Scharrf three lengths and a half, rowing thirty-eight strokes per minute, while Scharrf pulled thirty-one. Brown gradually continued to widen the gap. At Agawam, one mile from the starting point, Scharrf pulled a splendid stroke, and gradually crept up to Brown. The latter had been rowing well within himself, but now Scharrf continued to gain upon Brown until he came up with him. Brown crossed the line one length and a half ahead of his opponent, and with the wildest excitement. Owing to the judges' fail falling to keep up with the contestants, no time was taken. The time was 36.25, by some means five seconds behind. Brown Scharrf rowed a good stern race, but he has not the stamina to defeat Brown. He pulled a quick, powerful stroke, while Brown pulled the old style, and was much out of sync. The Canadians were jubilant over their champion's victory. It is estimated that the Canadians won over \$25,000. They intend to match Brown to row Sadler. Chambers of Pittsburgh lost \$5,000.

On the return Brown was leading Scharrf three lengths and a half, rowing thirty-eight strokes per minute, while Scharrf pulled thirty-one. Brown gradually continued to widen the gap. THE AMERICAN CHAMPION.

Win. Scharrf is 24 years of age, 5 feet 10 inches high, and weighs 160 lbs. Though having appeared as a prizefighter in several local sculling matches, defeating Stiel in 1867, and H. Best, Joe Scott, and others, afterward, besides rowing at the regatta of the Montreal Club, which won laurels at home at Buffalo, N. York, at Toronto, Canada, and participated in the Saratoga International Regatta in 1871, he was scarcely known outside of his native place until matched with Thos. C. Butler of Boston, in 1872. They rowed five miles, with a turn, for \$500 a side, on the Schuylkill river, Philadelphia, Pa., June 7, of that year, and the style in which Scharrf pulled and won the race drew the attention of the fraternity to him, and since that he has been looked upon as the champion. On June 25, 1873, he rowed his money on Brown at odds of 100 to 90. The delegation from Pittsburgh readily accepted the odds, and thousands of dollars were invested by the partisans of the champions. The very next day, July 1st, the men were out in force, and the majority backed Brown. No contest since the memorable four oared race between the Ward brothers of New York and the Paris crew, which was held at the same place, and which was so memorable that it has created the interest that this one has. Toward noon the multitude of spectators wended their way to the course. When the procession reached the starting point, the ground was covered with every unoccupied rod of ground along the western shore. In some places chiefly along the first mile of the course, at the best points of observation, the ground was so packed with people that it was impossible to get a view of the race. The half mile of the course was lined with people two or three deep. On the opposite bank the crowd was still denser. The river was a dense mass.

THE NETTING BEFORE THE START.

All last night and to-day sporting men from Pittsburgh, Buffalo, New York, Philadelphia, and Canada, crowded to arrive. The men from Canada could be seen standing in groups and their money on Brown at odds of 100 to 90. The delegation from Pittsburgh readily accepted the odds, and thousands of dollars were invested by the partisans of the champions. The very next day, July 1st, the men were out in force, and the majority backed Brown. No contest since the memorable four oared race between the Ward brothers of New York and the Paris crew, which was held at the same place, and which was so memorable that it has created the interest that this one has. Toward noon the multitude of spectators wended their way to the course. When the procession reached the starting point, the ground was covered with every unoccupied rod of ground along the western shore. In some places chiefly along the first mile of the course, at the best points of observation, the ground was so packed with people that it was impossible to get a view of the race. The half mile of the course was lined with people two or three deep. On the opposite bank the crowd was still denser. The river was a dense mass.

LAUNCHING THE BOATS.

At 5.30 P. M., the time appointed for the start, a tremendous cheer greeted Scharrf as he stepped into the boat, when he dipped his spoon-like oars in the water and paddled easily toward the starting point in his frail cork shell. A few seconds later the Paris crew, with their long oars, and their cheering and the wildest excitement. Both contestants paddled easily to the starting point, and took position with a quiet look of confidence on their faces. for prizes, presented an address to Sir Garnet Wolseley, congratulating him upon his achievements in Ashantee.

New York, July 10.—The Indian outbreak in Kansas proves to be of a serious character.

Reports of fighting, murders and other outrages are numerous, and there is a panic among the settlers, who are fleeing in great numbers across the border.

New York, July 10, p. m.—A large fire at Weehawken, N. J., last night in the Erie Oil Works, caused by lightning striking an oil tank, about 7 o'clock, which contained 15,000 barrels, and the flames immediately shot upward to the height, as bystanders say, of 300 feet.

The flames had gained such headway in the combustible material that one tank after another had to be abandoned by the firemen, who were utterly powerless to arrest the progress of the fire.

Five large tanks containing 15,000 barrels each, and another containing 20,000, were burned. There was little hope at the latest accounts of saving any of the oil on storage. The same oil works were struck by lightning a few years ago, but the fire was extinguished without much damage.

One hundred and twenty-five men are thrown out of employment by the fire. Loss, \$800,000—mostly insured. Owing to the lack of employment and low rate of storage passage on steamships, a heavy exodus of working men and laborers has commenced.

The outgoing steamers for Europe to-day leave with their storages crammed, and tickets have been sold for several weeks ahead.

SPECIAL NOTICES.
In all diseases of the throat, lungs and chest, so prevalent in this country, nothing so speedily relieves or so certainly cures as that specially remedied, Dr. Wilson's Pulmonary Cherry Balsam. These disorders are too often neglected at the commencement, and are too injudiciously treated; and before the Balsam is resorted to, the lungs are completely ulcerated. Of one thing be sure, whatever the condition of the patient, Dr. Wilson's Balsam will restore if recovery be possible. It will retard the alarming cough until nature commences the cure. By perseverance in obstinate cases, the cough becomes gradually subdued, and the patient is restored to his natural strength.

An occasional dose of Dr. Wilson's Family Anti-Bilious and Preserving Pills stimulates the stomach and bowels into a healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where serious derangement exists. A column of our paper could be filled with certificates of their remarkable cures, but such cases are known in every neighbourhood where the pills are sold.

Blood spavins may be effectually cured by Dr. Dow's Sturgeon Oil Liniment. Wet a bandage with the Liniment and apply it twice a day, and they will gradually disappear.

By those who have the management of horses, Clark's Derby Condition Powders, wherever known, are preferred to all other articles of the kind.

CALL AND SEE THEM. W. & W. C. ANSLOW, Newcastle, July 14, '74. 15

To Lovers of Music.
A COMPLETE REPUTATION of the statements made by certain interested parties, against the Estey Organ, is based upon the fact that at the Fair of the New York State Agricultural Society these Organs were awarded the GOLD MEDAL. This speaks for itself. An inspection of the Instruments by competent judges will convince them that the Estey is not even equalled, much less surpassed, by any make of organ now being sold in this market.

Expected shortly, a splendid organ, style No. 21, lately imported by the addition of two new stops, making 16 in all, without additional charge. This instrument has power enough for any of our medium sized churches.

Will have in a few days, a supply of Patent Piano and Organ Stools.

JAMES J. ANSLOW, Agent for the North. Newcastle, July 14, 1874.

Carriage & Sleigh Manufactory. D. A. MURPHY, Newcastle.

C. MARSHALL, Auctioneer. Newcastle, July 14, 1874.

New Brunswick. NORTHUMBERLAND COUNTY, S. S.
To the Sheriff of the County of Northumberland, or any Constable within said County, greeting:

WHEREAS the Administratrix on the Estate of SAMUEL F. SHAWHO, late of Newcastle, in the said County, deceased, hath filed an account of her Administration, and hath prayed that license to sell the Real Estate of the said deceased, be granted to her for the purpose of paying the debts due by the estate of the said deceased, the personal estate which has come to her hands, being, as she represents, insufficient for that purpose, you are therefore required to cite the heirs of the said deceased, and all other persons interested in his estate, to appear before me at a Court of Probate, to be held at my office, in Newcastle, on Saturday, the Fifteenth day of August next, at Eleven o'clock in the Forenoon, to attend the passing and allowing of the said account, and to show cause why license should not be granted to the said Administratrix to sell the Real Estate as aforesaid; And you are further required to cite the creditors of the said estate, to appear before me at the time and place aforesaid, with their vouchers and papers, in order that I may then and there examine the proofs and determine the validity or legality of the debts and demands alleged to be existing against the said estate.

Given under my hand and the Seal of (S. S.) the said County, this Eleventh day of July, A. D. 1874.

(Signed) SAMUEL THOMSON, Judge of Probate, Northumberland. (Signed) DAN'L FERGUSON, Registrar of Probate for said County.
