GREENWOOD WAS DEDICATED SUNDAY

A Very Large Concourse of People Gathered at Solemn Service—New Development a Surprise to Many

That the new Greenwood Cemetery should have been dedicated on Sunday, September 17, was a suggestion made by H. H. Hatfield, one of the Committee by whom the idea was unanimously adopted and promulgated. Naturally the ministers of the town were quick to promise co-operation, and the day being pleasant a great many people gathered.

The service opened by the singing of "The Sweet Bye and Bye" after which Rev. E. A. Trille of the United Baptist Church read a very appropriate lesson from Genesis, 22 and followed with an earnest prayer. After singing "Nearer, My God, to Thee" by the people, Rev. W. P. Haigh, rector of Holy Trinity, gave an eloquent address that made a deep impression in the hearts and minds of his hearers, as many have since confessed. Rev. Thomas Pierce read the beautiful prayer used on such occasions since A. D. 1662. Benediction was pronounced and then Mr. L. Hayward, B. C. L., spoke to the people on the excellent work begun last spring by the committee and carried through to the point where, while really incomplete as yet, the old graveyard has been made a thing of beauty, and as in Mr. Haigh's address, he urged that it always be kept the most beautiful place in the town, for "Blessed are the dead who die in the Lord." Mr. Hayward told the people how last spring a committee was appointed comprised of Robert J. Potts, chairman, A. D. Campbell, representing the United Baptist church, J. B. McCollom, the Methodist church, G. B. Nixon, the Reformed Baptist church, Fred. H. Stevens, the Anglican church, W. B. Nixon, representing the town council, and H. H. Hatfield.

These men saw that not only was there a great deal to be made in the existing graveyard, but more ground was needed. So a piece was purchased of Charles Bradley, another from W. P. MacMillan, while George F. Burtt donated a central piece, and the trustees of the old Greenwood members of the Reformed Baptist church, have agreed to transfer their proprietary interest to the Greenwood Cemetery Association Limited as soon as the charter is issued, and which is now applied for. Mr. Hayward was able to tell his hearers that \$1,100 had been paid for land, and other expenses of improvement brought the total of expenditure to date up to \$1750 and that at least \$350 would be required to fence and plot the premises. The money for all this work was raised by the committee among themselves, but of course they expect the help of the citizens in general to reimburse this outlay, since it can not be expected that any group of seven ordinary citizens should pay more than their just share of a work that all the people of the town will benefit from.

One or two of the committee have expressed willingness to pay \$100 each, all will pay what they can, out of their own purse, and it is expected that all people of the town, all who have friends buried in the cemetery, or expect to have friends buried there, or who expect to be buried there themselves, will contribute what they are able.

The attention of interested parties out of town, in distant parts, maybe, is directed to this movement and their contributions may be sent directly to Fred. H. Stevens, the secretary-treasurer.

Remember the amount needed is not less than \$2000. Remember also that not one person receives any financial reward or profit from this enterprise whatsoever, except the persons who sold the land and the actual construction materials, and the day laborers who did the work.

The speaker told the assembly that this week the people of Ward 1 would be solicited by W. B. Nixon and H. N. Dickinson, in Ward 2 by S. G. Miller and P. A. Aiton, in Ward 3 by J. E. McCollom and J. F. Murdoch.

Praise and thanks of the people was tendered to the committee for their activities and special mention was made of the whole summer's work of supervision and real bone labor donated absolutely without monetary reward by William W. Curtis.

It would have been fitting if a word of appreciation had been expressed for the affairs of that portion of the graveyard that has been owned by the Reformed Baptist trustees. He cared for many graves, receiving a slight recompense, but he bestowed a great deal of care and expended much loving labor in honor of the dead without

pay and in this respect his name will not be forgotten.

Besides \$10 donated by the Star Bible Class and acknowledged last week, the Women's Institute, at their last meeting voted \$10 to the fund.

SOUTHERN POTATO MARKET PROBABLE

Efforts of T. W. Caldwell, M. P., and Shippers May Result in Steamers to Southern States

The increasing need of a ready market for their produce, the absolute necessity of finding some way to cope with the high freight rate situation existing, and the suggestion of a possible steamship service, between St. John and the Southern States, as a means to this end, were the principal features of a frank discussion of the present day problems, confronting the agriculturists of this province, at a conference held, last evening, in the Board of Trade rooms. As a result of the discussion, a committee was appointed to interview W. A. Cunningham, general freight agent of the C. G. M. M., with a view to working out some method by which the steamers in this service could be utilized in carrying out the aims of the farmers in marketing their products in the south, and interesting developments may be looked for. Another feature, evolving from the discussion, was the resolution introduced by G. G. Porter, of Perth, requesting the railroads to make a substantial reduction in the export freight rates, though the port of St. John, on potatoes and hay.

G. G. Cunningham, Dominion pathologist at Fredericton, opened the discussion. He said that for a number of years the growers of this part of Canada have been trying to develop trade in those sections where they will obtain the most profit. It had been the custom to sell potatoes and other produce on the markets at Boston and New York, a good deal of which had been finding its way from these cities to the Southern States. It had been said that the shipping of this province and the other Maritimes would save money, on the freight rates, by shipping by steamer to the Southern States. At the present time, said the speaker, we are putting our produce in direct competition with the Northern States, as the New England States raise the same crops as New Brunswick, and, with the exorbitant freight rates, it is necessary to find some other service, which will displace with the plan of sending products to the Boston and New York markets.

Mr. Cunningham said that the trade with the West Indies was valued highly, but the population of that territory was small, as compared with that of the Southern States, which, including Pennsylvania, numbered 40,000,000 people. The West Indies had for the most part a low standard of living, while the Southern States had practically the same standard as existed in this country, the people there consuming the same products, to a large extent, as the people farther north. The potato production of the Southern States is a seasonal crop, which must be marketed at once, mostly exported. The balance of the year they buy for home consumption, and at present a good market for our product. During the past year there has been a high rate, and, with the present low price of potatoes, it is almost impossible to consider shipping to Boston and New York, the only feasible plan left to overcome the difficulty being to export to the Southern States by some sort of steamship service direct.

The requirements of these states, continued the speaker, in the matter of seed potatoes, are 5,000,000 barrels annually, and if the farmers here produce a high quality of this commodity the market in the south is open, especially in view of the fact that New Brunswick and Prince Edward Island have made a favorable impression there during the past three years. In regard to the steamship service between St. John and the Southern States, he suggested that the matter of return cargoes would be an added feature from the steamship company's standpoint. Ships carrying from here potatoes, hay, fish and turpins, could bring back cotton, fruit and fertilizer and such a scheme should prove feasible to a satisfactory extent.

W. O. Robinson of Sackville mentioned the fact that the hay situation was the big factor from the standpoint of the farmers of his section, the crop there being, as it was all over the province, very large this year. The local demand was not great, and a ready market should be had in the Southern States. These states import practically all their timothy hay from the northern and western states, and is costing them high prices. The

SWIM'S EXECUTION WAS POSTPONED

Application for Reprieve Made on Behalf of Sheriff Foster Who Could Not Secure Services of Hangman

What Bennie Swim, condemned to die last Friday believed to be his last day on earth turned out to be the first day of a three weeks' reprieve which was granted at St. John by His Honor Chief Justice H. A. McKeown.

The postponement came as a great relief to Sheriff Foster who had been laboring under deep anxiety since he learned that the injury to Holmes would prevent his coming. Scarcely more than twelve hours before the processes of human justice were to have sent Bennie Swim to the scaffold for his part in the double tragedy in which both Mrs. Trenholm and her husband were killed, the condemned man believing Thursday night was to be the last he would spend in this world, was informed of the three more weeks of life that had been vouchsafed him by order of the court.

"Bennie," said Sheriff Foster, as he entered the death chamber to tell the condemned man of the new turn his case had taken, "Bennie, I have some news for you."

Instantly Swim was attentive and alert, his countenance lighted up. With his face slightly upturned toward that of the sheriff he displayed all the outward signs of respectful attention and intense and absorbed interest. Sheriff Foster continued: "Your execution will not take place tomorrow morning; you have been granted a reprieve." Here the sheriff, himself torn by painful emotion and anxiety, paused ever so slightly while the light in Swim's face fairly glowed. His eyes still fixed on the sheriff hanging upon his every word. Then as the sheriff added the words "for three weeks" the eyes of Bennie Swim dropped like a flash and his head bowed toward his breast. For a brief moment he remained in this position and when he raised his eyes again they were veiled with a film of tears.

"God bless you, sheriff," he said fervently, "God bless you—God bless you." "There is a man," went on Bennie Swim, addressing the two others who remained, the sheriff having withdrawn for a moment around to the side of Swim's cell. "There is a man that has done as much for me as any man could on the top of this earth."

Asked whether he was pleased by the decision which allowed him three weeks more of life, Swim answered, "O yes, it makes life a little longer." He remarked, however, that he was prepared to leave the world.

In the course of a conversation Rev. H. V. Bragdon, of St. John, who has been acting as Spiritual advisor to Swim, without in anyway intimating to the condemned man that proceedings were on foot to obtain a postponement of his execution, asked him how he would take it if it should so happen that a brief reprieve should be granted him.

"I would be the most disappointed man in town," Swim replied, according to Mr. Bragdon.

This incident serves to illustrate the astonishing outward calmness and coolness of the man so perilously near the abyss of eternity. His manner is lively; he talks willingly and smiles frequently. His outward demeanor seems baffling placid for a man knowing almost to the hour the time of his death.

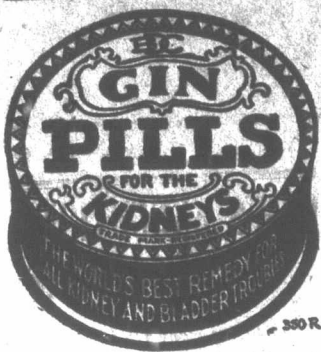

"I have seen a great many people confronting death," said Mr. Bragdon today, "but Bennie Swim is the most composed man in facing eternity that I have ever seen in my experience." What brief preparations he had to make having to do with events after his death, Bennie Swim performed, amongst other things selecting his own pall-bearers.

The outward calm of Bennie Swim who, for all he knew, was to have gone before his Maker last Friday, was amazing.

Swim had been told nothing of the new angle in his case and so far as he knew he had but a day to live. Confronted with this appalling proximity to eternity, Swim was astonishingly cheerful. The pounding of the hammers and the singing of the saws of the carpenters at work constructing the gallows in the jail yard was quite audible in his cell and yet he said he liked to hear the pounding and sawing. He did considerable carpentry work himself before he was lodged in the Woodstock jail on the charge for which he was condemned to die and the noise of the carpenters at work, he said, he liked.

"It's a pretty hard thing to think about," he said Thursday morning, referring to the fate which he believed

PERTH NOTES

Our community was shocked on Tuesday morning when it became known that James W. McPhail, one of the oldest and most prominent business men, had passed away about nine o'clock, after a few days illness of pneumonia. The deceased was born in Scotland 58 years ago, and came to this country when a boy of 12 years of age. When a young man he married Miss C. Hart, and six children were born of this union, namely, the Misses Grace, Gertrude, Isabel, Mary H., Wilfred and Norval.

Mr. McPhail took a deep interest in all public affairs, and for many years was a most valuable member of the County Council, and in his death, Perth has lost a most worthy citizen. The funeral took place at the late home Thursday afternoon, with Masonic honors by Benjamin Lodge, of which the deceased had been a long and honored citizen. Rev. G. Pringle of the Colony spoke words of comfort to the mourners, being assisted by Rev. Mr. Flemmington and Rev. Mr. Alton of Andover. A choir composed of Mrs. M. L. Wright, Messrs. H. E. Blaklee and C. L. Olmstead with Mrs. G. B. McLaughlin at the piano, sang the following beautiful hymns: "Lead Kindly Light," "The Sands of Time" and "Abide with me." The floral offerings were numerous and beautiful beyond description, the parlor being a regular bower of bloom. Six brother Masons acted as pall bearers. At the conclusion of the service the auto cortege which was an unusual large one, wended its way slowly to the Larlee Creek cemetery, where the impressive Masonic burial service was read by J. W. Niles, and interment made in a beautiful spot near the river bank. Beside his widow and family Mr. McPhail is survived by two brothers, A. McPhail of the Colony and George of Woodstock, and two sisters, Mrs. Sherriffs and Mrs. Adams of the Colony, and a large number of other relatives, all of whom have the sincere sympathy of a large number of friends in their untimely bereavement. The deceased was a kind husband and father, and a good friend and neighbor, always speaking a word of cheer to those in trouble.

The many friends of Mrs. George Morehouse will be glad to learn that she is doing as well as can be expected, after her recent operation in the Elyser Memorial Hospital.

Dr. Rankine of Woodstock was in town on Thursday on professional business.

Mrs. Stillman Armstrong has returned to her home in Vanceboro, after a pleasant visit with relatives here.

S. E. Waugh returned from Toronto on Wednesday with a car load of fine horses.

Mrs. Wm. Matheson of Edmundston was in town Thursday to attend the funeral of the late Mr. McPhail.

SWINGING ROUND THE BIG CIRCLE

THE Canadian Pacific Railway, a nation-wide institution, touches the life of Canada at all points. One of the primary requisites of its employees is to know Canada in all its aspects—not merely the conditions of the district in which they happen to live, but the conditions of the entire country. This is particularly the case with passenger department men, who, to be real friends of the travelling public, should have wide knowledge gained from actual residence and experience in different parts of the Dominion.

In order to give its officials this nation-wide outlook and experience, the Canadian Pacific swings them around the big circle once in a while. Men in the east go west, and westerners come east. One such swing, together with some important promotions, are just announced by Mr. C. B. Foster, Passenger Traffic Manager of the company. From Vancouver (where he has been General Passenger Agent), Mr. H. W. Brodie (3) goes east to Montreal to become Assistant Passenger Traffic Manager.

Mr. W. H. Snell (5) General Passenger Agent at Montreal, goes to take a sabbatical vacation at Vancouver, and Mr. G. A. Walton (2), General Passenger Agent at Winnipeg, takes over Mr. Snell's duties at Montreal.

Mr. N. R. DeBrimy (6), District Passenger Agent at St. John, goes to be Assistant General Passenger Agent at Winnipeg, and Mr. W. B. Howard (1), who has been District Passenger Agent at Toronto, goes to be Assistant General Passenger Agent at Montreal, and Mr. G. S. Burpee (5),

General Agent at Cleveland, Ohio, goes to be District Passenger Agent at St. John.

Amongst the promotions announced at the same time are Mr. Walter Mangham (9), Assistant General Passenger Agent, Montreal, to be Assistant to General Passenger Traffic Manager; Mr. R. G. McNeillie (7), Assistant General Passenger Agent, Winnipeg, to be General Passenger Agent there; Mr. W. Fulton (10), to be District Passenger Agent Toronto, and Mr. W. Horder (4), to be Assistant District Passenger Agent, Toronto.

CELEBRATION AND WEDDING, ANDOVER

Mr. and Mrs. Stephen P. Waite Celebrate their Fiftieth Anniversary — Ralph Waite Married on His Parents' Golden Wedding Day

The pretty home of Mr. and Mrs. Stephen Waite was the scene of a happy event Monday, Sept. 11, when Mr. and Mrs. Waite observed their fiftieth wedding anniversary. They were at home from 3 to 5 in the afternoon and from 8 to 11 in the evening, and more than one hundred friends called to extend congratulations and best wishes. The rooms were beautifully decorated with flowers, the color scheme being yellow. The bride and groom of fifty years received their guests in the large bow window standing beneath a wreath of evergreen from which extended a large yellow floral bell. The dining room was beautiful with decorations of evergreen, golden glow, yellow pansies and streams of yellow crepe paper. The handsomely appointed table which was centered by a large wedding cake was presided over by Mrs. Harold Waite of New York. She was assisted in serving dainty refreshments by Mrs. Harold Nells of Malden, Mass., and Miss Janet Curry of Andover. Gifts of gold, etc., were in evidence showing to a degree the high esteem in which Mr. and Mrs. Waite are held. C. H. Elliott in behalf of Andover and Perth friends presented Mr. and Mrs. Waite with a purse of gold. Mr. Waite in a few well chosen words thanked all for their kindness and love toward them. The children were all at home with them upon this occasion, Ralph G. of Cuba, and Harold S. of New York, reaching Andover a few days previous. Dr. Harvey of Dexter, Mrs. Murphy and their daughter were also present.

The marriage of their son, Ralph Gray Waite of Baragua, Cuba, to Miss Edna Young of Baragua, Cuba, was a pleasing feature of the days pleasure, the ceremony being performed at seven o'clock by Rev. J. Reese-Jones. The bride was given in marriage by Dr. Harvey Murphy of Dexter, Mrs. Harold Waite acting as matron of honor, and Mr. Harold Waite as the groom's best man. During the evening Mr. and Mrs. Ralph Waite returned with Mr. and Mrs. Stephen P. Waite after the reception, the young couple motoring to Grand Falls to remain a few days. The best wishes of all are extended to both brides and grooms for many years of happy life.

HOSPITAL NEEDED

A boy has attained his manhood when he is twenty one years of age. An oak tree reaches maturity at a hundred years of age.

A town reaches its highest efficiency, and its highest usefulness when it can provide ample work for its citizens, when it can provide good homes, sanitary conveniences, good sidewalks, and sufficient lighting. We have had little unemployment here in Edmundston compared with other communities, we have good sidewalks, our electric lighting system is comparable with any town of a like size, and there is no complaint in regard to the water sanitary conveniences—but there is still one thing lacking to make us an up-to-the-minute, broad visioned, highly efficient town. Our greatest need is a Hospital.

Economically the proposal for a hospital is sound, based on the coldest logic, which the weak arguments against it by a certain weekly newspaper makes still stronger. From the humanitarian standpoint it is indispensable which that same organ hiding behind another acknowledged worthy institution cannot gainsay—and it has tried hard. From the hard headed business wisdom of the same

AUTOMOBILE ACCIDENTS

Two automobile accidents both of them serious took place here a week ago. One was that of Paul Belanger and party, which plunged over the Ravine seriously injuring members of the party and himself, on his way from Baker Brook on Sunday evening, the 10th. It is a miracle that death was escaped. The other accident was on the previous Saturday when the cars belonging to Joe Charrette and Chas. Plourde collided on Victoria Street, injuring the drivers and seriously damaging the cars.

Fred Poitras who was injured in a railway speeder accident some weeks ago and who has been in the hospital in Woodstock ever since, is reported gaining. It will be a great joy to his friends if his recovery is complete, and we are able to return home again soon.

IROQUOIS BRIDGE OPENING

The opening of the International Bridge took place on the 4th, but another bridge opening with music, speeches and formal ceremonies took place the next day, and no report has been seen in the local or provincial papers. The bridge referred to is the new Iroquois bridge near the Indian reservation. The ceremonies were in line in the annals of the town. One of the chief officers and orators on that occasion was a gentleman well known for his wit, his organizing ability and his experience in preparing menus. A full account of the official opening of the Iroquois Bridge will be featured in next weeks Observer. We can promise our readers a real treat. Order your Observer for next week, today.

GOSSIP AND SCANDAL

In a current popular magazine in a story by that master interpreter of human nature, Gouverneur Morris, there is a passage so entirely applicable to the inhabitants of every small town that The Observer quotes it for the benefit of its readers:

"...But a very large percentage of every Anglo-Saxon population is composed of persons who spend a good deal of their time in putting evil constructions upon the actions of other people. And of course the gossip about Ellen and Terry was meat and drink to them. To strip from Ellen the reputation which she had always enjoyed even among themselves was the work of an instant. To acquaint Ellen's father with the 'facts' was the agreeable task of a committee of the 'Mothers' Club' appointed for the purpose. It was curious but true that the president of the club, who now acted as chairman of the sub-committee, had never had a child or a husband."

"Mr. O'Brien listened to what she had to say—and the committee listened. Miss Gottlieb and the committee imagined that the veins which had begun to stand out on the O'Brien forehead were due to rage against Ellen. They believed that whatever they recommended to him he would do. They began to roll their tongues."

"Mr. O'Brien listened to their slanderous deductions and to their Mid-Victorian recommendations without speaking a word. Then, Miss Gottlieb having finished her speech and emphasized the committee recommendations, he advanced one single step and began to quiver and shake as if he were very cold."

"What other possible conclusion, interrupted the chairman in her sharp, self-centred, self-righteous voice. The effort which Mr. O'Brien made to control himself should be described in Shakespearean words and printed in letters of gold. It was almost a success."

"To a bunch of dirty-minded, foul-mouthed, ugly faced, childless, middle-aged hens there wouldn't be any other possible conclusion.... You spoil my daughter's life and you spoil mine. What do I care if I go to jail? I don't.... If you aren't out of my house and out of my yard in ten seconds, I'll take down the horse-whip yonder and cut your yellow, withered hides to ribbons."

"HORSE SENSE"

If you work for a man for heaven's name WORK for him. If he pays wages that supply you your bread and butter work for him, speak well of him, think well of him, stand by him, and stand by the institution he represents.

I think if I worked for a man, I

would work for him. I would not work for him a part of his time but, all his time. I would give an undivided service or none. If put to a pinch, an ounce of loyalty is worth a pound of cleverness.

If you vilify, condemn and eternally disparage, why, resign your position, and when you are outside, damn to your hearts content. But, I pray you, so long as you are a part of an institution, do not condemn it. Not that you will injure the institution—not that—but when you disparage the concern of which you are a part, you disparage yourself.—Elbert Hubbard.

DAYS TO COME

There would be less of discontent in our hearts if only we would let the present move forward instead of trying to turn it backward. The old days, like old fashions and old methods, were suited to the place they held. They would not do for us now, though. We cannot live in the past. We must put our best effort into the days that are with us, and allow the younger generation to do the same.

WENDELL EBBETT

The funeral of Wendell Ebbett of Washburn, Me., who was found dead in his room on Tuesday morning, was held on Thursday afternoon at the home of his father, at Middle Simonds and was largely attended. The floral tributes were many and beautiful including a handsome pillow.

He had been employed for some time as station agent and express agent as well, at Washburn, and was a straight forward business man of good integrity. He was 25 years of age and leaves to mourn their great loss, a young and sad wife, a child six months old, his father and mother, Mr. and Mrs. Whitfield Ebbett of Middle Simonds, one brother, Ernest at home, and two sisters, Mrs. L. C. Eddy of Saskatchewan and Mrs. Ward Brawn of Limestone.

The services were conducted by Rev. J. M. Mallory, assisted by Rev. Mr. Woodworth. Interment was made in the old Baptist cemetery under the auspices of the Masonic order who were present in full regalia. The ceremony was impressively rendered.

Great sympathy is accorded the bereaved ones in their sore affliction.

MRS. H. E. GRAY

At Woodstock on August 29, there passed to rest Mrs. H. E. Gray at the

age of fifty-three years. A severe and trying illness was borne with true Christian fortitude. Mrs. Gray was a genuine Christian who lived her religion in the details of her every-day life, and was loved and respected by all who knew her. She leaves to mourn besides her husband, a son, W. R. Gray, and a daughter, Mrs. Edmund Longstaff, both of Woodstock, and five sisters—Mrs. Fred P. Gray, Portland; Mrs. George Fernald and Mrs. Hugh Armstrong, both of Lowell Mass.; Mrs. Albert Ewing and Mrs. Emma James, of Harmony, N. S.; Mrs. William Barnard, of Calais, Me.; and one brother, Stephen Collins, of Aylesford, N. S. The funeral took place on Thursday and was conducted by Rev. L. E. Ackland, with interment at Pembroke.

Many people in the vicinity of Bath and the travelling public in general will remember the deceased when for a number of years her husband kept what is now Day's hotel at Bath.

CAPT. HARVEY T. C. REID AND MRS. REID IN TOWN

Capt. Harvey T. C. Reid, accompanied by Mrs. Reid and his little son arrived at Hartland on Monday, having crossed from England on the Metagama. This is his first visit home since 1916 and his coming brought great joy to his widowed mother and his sisters. He will make his home here for the future and will be warmly welcomed.

Capt. Reid won a Rhode scholarship in 1912 while a student at Acadia and graduated from Oxford with B. A. degree in 1914. On July 27, 1914 he enlisted as second lieutenant in the Royal Field Artillery; served in France when in 1916 he was wounded in the chest by a bursting shell. After home for five months he rejoined his regiment in October 1916 and continued to serve until November 1917 at which time he joined the gas service as commandant of the Scottish Gas School at Gullane with the rank of captain. After the Armistice he remained in the regular army as officer in charge of administration at the Central Gas School until this year. On December 23, 1918 he married Miss Marguerita Brunton Forrest of Edinburgh, and has one son, John Henry Campbell Reid, aged two years and one month.

Card of Thanks

We wish to convey our heart felt thanks to the many friends who showed us sympathy and kindness during the recent sad bereavement of our beloved husband and son. Also for the many beautiful flowers sent.

DOCTOR PRAISES ZAM-BUK

"For sixteen years," writes Dr. A. P. Shibley of Washington, D.C. "I have used Zam-Buk in my practice, and am convinced that there is nothing to compare with it for skin troubles, from roughness and irritation to chronic skin diseases. Zam-Buk, without a doubt, has wonderful curative properties, and when I have occasion to recommend a balm to my patients, I always recommend Zam-Buk. I have found the results from its use to be perfectly satisfactory."

Members of the medical profession are noted for their caution in recommending a remedy—only doing so when they have absolute confidence in it. The fact that Zam-Buk is so highly recommended by doctors the world over, and that in Dr. Shibley's experience it has stood the test of sixteen years' constant use, puts it, undeniably, in a class by itself.

In the home, in the office, shop and factory, on the farm and when travelling, Zam-Buk should be kept always handy. It is indispensable for all sores, eczema, boils, ulcers, blood poisoning and piles, as well as for cuts, bruises, burns and scalds. All dealers 50c. box.

HONORS FOR HARTLAND BOY

At an Oddfellow's Grand Master's Day celebration recently given by the Dorchester, Mass., lodge, Rev. A. A. Rideout, a former Hartland boy, received great laurels as their present Grand Master. In the course of the ceremonies he was presented with a purse of \$100 in gold while Mrs. Rideout was remembered with a bouquet of roses. From the program of the day the following is reprinted:

"Odd Fellowship in Massachusetts is to be congratulated upon the election to the highest office in its gifts—that the Grand Master of the Grand Lodge of the Independent Order of Odd Fellows—of such a man as the Reverend Allan A. Rideout. We are indeed fortunate that such a one as he should consent to give of his time, his strength, his ability, to promote the interests of Odd Fellowship in the State during the year to come. We know that Brother Rideout has accepted this position in the full confidence that his field of work for the Master would thus be broadened, giving him the opportunity of sowing the seeds of brotherly love throughout the whole jurisdiction.

"He is a man of rare ability, a gripping personality, a wonderful gift of oratory, a keen sense of humor, and a beautiful spirituality, and Odd Fellowship in Massachusetts cannot help but grow in membership and good works under his administration; for his whole life's training has been along the lines which Odd Fellowship seeks to develop among its membership—a belief in the Fatherhood of God, and the Brotherhood of Man—a firm determination to 'do unto others as we would that they should do unto us'—and a heart full of love for suffering humanity.

"Brother Rideout was born in Hartland, New Brunswick, on March 12, 1876. He attended public school there, and later the Woodstock High School. He was graduated as a first-class teacher in 1894 from the Fredericton Normal School. For the next six years he taught school, five of them in his own native village. During this time he became inspired to work along more spiritual lines, and in 1900 he entered the Christian ministry as Pastor at Marysville. He carried on concurrently his college course in the University of New Brunswick at Fredericton, graduating as A. B. in 1903, and receiving the degree of M. A. in 1908.

"In spite of this busy life he yet found time to become interested in fraternal circles and joined Nashua Lodge, I. O. O. F. of Marysville, on April 23, 1902, and also Amethyst Rebekah Lodge.

"In 1904 his ability was recognized and rewarded by a call to the pastorate of George Street Baptist Church of Fredericton, where he remained until 1910.

"It was during his pastorate in this church that the romance of his life culminated in his marriage to Miss Maude McConaghy in 1906, and this union has been blessed with three

GAINS 15 POUNDS ON ONLY TWO BOTTLES

"I took two bottles of Tanlac a year ago and gained fully fifteen pounds, and I have been in fine health ever since," declared Mrs. Robert Clayton, of 25 Hanover St., St. John, N. B., a few days ago.
"My appearance has changed wonderfully, too, and many people have told me how well I look since this grand medicine restored my health."
"For five years I had suffered from stomach trouble and in spite of all my efforts to find relief, I gradually grew worse. What little food I ate, and it was little indeed, would form gas and frequently cause severe griping pains in my stomach. At times I had a dreadful choking sensation and such shortness of breath that I would actually have to go outdoors so I could breathe easier. I had such bilious spells, dizziness and headaches that I was miserable and half-sick all the time and I was so weak and run down that my housework was a big burden to me."
"It was not long after I started on Tanlac until I was entirely rid of my troubles, eating heartily and easily doing all my housework. Tanlac is one medicine that will give you lasting relief."
Tanlac is sold by all good druggists.

SOUTHERN POTATO MARKET PROBABLE

(Continued from page 1)

Speaker felt that these provinces could successfully compete in this trade with the steamship service proposed between St. John and the south.

T. W. Caldwell, M. P. for Carleton-Victoria, expressed himself as being heartily in favor of the proposed movement to secure a market for our produce in the south and export by means of a steamship service, such as had been suggested. Before dealing with the phase of the discussion, however, the speaker mentioned another matter, which he considered of grave importance to all business men, and that was the matter of railway freight rates. He realized that shippers were suffering a great deal as the result of these rates, and cited an instance, showing that shippers of potatoes were paying three times the rate of freight on their commodity as was paid on lumber. Mr. Caldwell said that he would like to see a resolution passed at the meeting which would tend to get some favorable action in this matter.

The reason given by Mr. Caldwell for the fact that the Southern States buy seed potatoes from this province was the fact that in those states, two crops are planted and the growers of the south must have seed for their second crop. Moreover, the potatoes grown farther north are more vigorous than those of the south. Taking everything into consideration, the south offered a permanent market for the products of this country.

Referring to the proposed frost-proof warehouse at St. John, the member for Carleton-Victoria said that he had always been an advocate of such a warehouse, which would be open to all shippers of the province. The government promised to establish a warehouse here, a year ago, but no action was taken in the matter, although some of the shippers had established a warehouse of their own at this port.

The speaker said that he had gone into the matter recently and had been promised enough equipment to fit up the shed, which he considered a necessity as the traffic this winter showed every indication of being heavier than any year heretofore.

G. G. Porter of Perth said that he felt that the shippers were being unfairly treated in the matter of export freight rates and cited instances and figures to substantiate his statement. Shipping to Montreal from his part of the province, a distance of 500 miles, shippers were charged with 34 cents per cwt.; to Toronto, 830 miles distant, 44 cents per cwt.; to Boston, 450 miles, 40 cents per cwt., and to St. John, 130 miles, the rate was 24 cents per cwt. Working the matter out on a per mile per ton basis, it would be found that the export rate was 100 per cent higher than the local rate. In transporting produce to Boston, three railroads handle the traffic, and the total amounts to 40 cents, while, despite the fact that the traffic to St. John was handled by the C. P. R. solely, yet the rate on a per mile per ton basis was 100 per cent higher.

In order to keep the farmers in business, the railroads must be prevailed upon to make their export rates as low, at least, as the local rates. From Hartland to St. John the rate on lumber is 8 cents per cwt., while on potatoes it is from 20 cents to 22 cents which with terminal charges, makes the freight cost amount to 300 per cent more than on the former product. Unless something is done quickly to rectify this condition of affairs, concluded the speaker, the potato farmers will have to reduce their production by 50 per cent next year in order to continue business.

A. E. Dewar of Charlottetown, president of the potato growers' association of P. E. I., said that the farmers of Prince Edward Island were as much interested in the freight rates as those of this province. He said that he would like to see a steamship service from St. John to the south in the winter months, but, in addition to that, his association was vitally interested in getting steamship transportation from the Island in the fall months. Mr. Dewar said that the seed business was growing very fast in his province; it was at the present time more thoroughly developed there than on any part of the continent; and had a great future in store for it.

W. A. Cunningham of Montreal, general freight agent of the C. G. M. M., in answer to Mr. Dewar's query regarding the class of steamers to be used in the southern service, said that, at times, they had used some of the Merchant Marine steamers in the Cuban trade, which had no between-decks. In answer to another question, he said that reference had been made to the fact that there were a number of steamers, in the service, tied up to the wharves, but of these there were no between-decks boats. In order to put in a service between St. John and the Southern States, said Mr. Cunningham, the C. G. M. M. would have to re-arrange their schedule, but this could be done within another month, if some arrangement were arrived at regarding the proposed service. So far nothing definite had evolved from the discussion of the proposed service, and he was unable to make any definite statement in the matter in view of the circumstances. He could report back to the management, and he assured the meeting that the scheme would receive favorable consideration, providing an assurance was forthcoming from the shippers of a certain minimum quantity of freight per steamer.

W. A. Nicholas, manager of the Cornwall and York cotton mills, was asked to give his views regarding the proposition of using the steamers in the proposed service to bring cotton here from the Southern States, as a return cargo. He said that the cotton mills were mostly interested in the cost of bringing the article here, and until they were in a position to ascertain that cost, by the steamship route, it would be impossible to say how the return cargo proposition would work out. All the companies

Quick action is the only hope when kidney disease appears.

There is a whole train of dreadfully painful and fatal ailments which soon follow any neglect to get the kidneys right. Among others are rheumatism, lumbago, Bright's disease, hardening of the arteries and high blood pressure.

In Dr. Chase's Kidney-Liver Pills you will find a treatment which is both quick and thorough.

Mr. C. E. Raymus, Lindale, Alta., writes:—

"I was a great sufferer from kidney disease and lame back for more than a year. A friend of mine one day told me of Dr. Chase's Kidney-Liver Pills, and acting upon his advice I tried them. Afterward I had taken one box I felt better, so I continued until I had used five boxes. in the province, which bring the material here by rail, would certainly be interested in a steamship service if the freight rate was suitable.

W. A. Cunningham asked regarding what potatoes could pay in the way of freight rates, in order that shippers would be protected in their venture. He said that the C. G. M. M. did not figure on making any money on the service, but they would have to be protected against loss.

A. C. Fawcett, M. L. A., of Saskatchewan explained the situation regarding the feasibility of bringing fertilizer here by steamship as a return

Two Months Could Not Turn in Bed. Lydia E. Pinkham's Vegetable Compound Finally Restored Health

Seattle, Washington.—"I had dragging pains first and could not stand on my feet, then I had chills and fever and such pains in my right side and a hard lump there. I could not turn myself in bed and could not sleep. I was this way for over two months, trying everything any one told me, until my sister brought me a bottle of Lydia E. Pinkham's Vegetable Compound. I took it regularly until all the hard pains had left me and I was able to be up and to do my work again. The hard lump left my side and I feel splendid in all ways. I know of many women it has helped."—Mrs. G. RICHARDSON, 4640 Orcas St., Seattle, Washington.

This is another case where Lydia E. Pinkham's Vegetable Compound brought results after trying everything any one told me to do. If you are suffering from pain, nervousness and are always tired; if you are low spirited and good for nothing, take Lydia E. Pinkham's Vegetable Compound. You may not only relieve the present distress, but prevent the development of more serious trouble.

STOMACH ULCER AND GALL STONES

After Suffering 25 Years, Completely Relieved by "FRUIT-A-TIVES"

MR. EDWARDS
MAPLEHURST FARM, HILLHURST, P.Q.
"I am in my 78th year. About 25 years ago, I began to have trouble with my Stomach. One doctor said I had Cancer; another said, Ulcer of the Stomach; another, Gall Stones; others, Ulcers of the Liver and Inflammation of the Gall Bladder.
Three years ago, I consulted one of the best specialists in Montreal. He said I must go to the hospital, have an Ulcer cut out of my stomach and gall stones removed. I was then 74 years old. I said "NO."
Then, I began to take "Fruit-a-tives". I found they helped me a lot, and I still take them occasionally, and I am so much better that my old friends often ask me what I have done to myself to look so well. I am gaining in weight and enjoying life very much."

SOUTHERN POTATO MARKET PROBABLE

(Continued from page 7)
cargo. He also dealt forcefully with the situation existing among the farmers in this province, and the great need for finding some outside market for their produce, to which the freight rates would be reasonable.
F. DeL. Clements of Fredericton said that a grave problem confronted the potato farmers this year. They were willing to take a lower price for their product so long as a ready market could be secured, and the latter question was an all-important one in the farming industry of this province this year. He paid a tribute to G. C. Cunningham for his untiring

efforts in connection with the potato problem, and his good work in connection with the seed business. Mr. Clements asked if the C. G. M. M. could not give the same rate from St. John to the Southern States as existed in transporting potatoes from Boston to those states.

W. W. Boyce of Fredericton told the meeting that the matter of a potato market was all-important because if the farmers stopped growing potatoes, they would have to stop farming. The matter of cargoes or the proposed steamship service should not prove a difficult matter, because, in addition to potatoes, a large quantity of turnips and hay is exported. It is absolutely necessary to get a cheaper rate, however, in order to keep the industry alive.

Mr. Fawcett suggested that a committee be appointed to interview Mr. Cunningham of the C. G. M. M. regarding the matter of guaranteeing shipments regularly and in the necessary quantity to conform to the requirements of the steamship company. Mr. Cunningham told the shippers that the C. G. M. M. would need \$1,000 a bag freight in order to clear. This figure included loading and unloading charges.

G. C. Cunningham gave some interesting figures on the question of output in this province. He said that there were 75,000 acres of potatoes planted in New Brunswick during the past year, which amounted to 3,000,000 barrels. Allowing 33 1/3 per cent for home consumption, seed, etc., there were 2,000,000 barrels for marketing, and it was impossible to market these in Boston with present freight rates. The province planted 17,700 acres of turnips, out of the output being 1,000,000 barrels for exportation. In addition there are 715,000 tons of hay to be marketed, and these quantities of agricultural products constitute a guarantee to the shipping company for cargoes in marketing the articles in the Southern States.

At the conclusion of the main discussion, on motion of Mr. Caldwell, seconded by Mr. Fawcett, the following were appointed a committee to meet with W. A. Cunningham and take up with him the matter of the proposed steamship service and the guarantee of shipments required by his company—W. C. Robinson, Sackville; F. DeL. Clements, Fredericton; G. C. Cunningham, Fredericton; A. A. Dewar, Charlottetown and A. C. Fawcett, Sackville.

On motion of Mr. Porter, seconded by Mr. Fawcett, the following resolution was passed: Resolved that, in view of an over production in the potato and hay crops, which are today

selling at a price not greater than half the cost of production, and in order to assist in finding a market outside the Dominion, the railroads be requested to make a substantial reduction in the export freight rates on these commodities through the port of St. John.

On motion of H. C. Schofield, seconded by Mr. Clements, a resolution was passed endorsing the action taken by Mr. Caldwell towards securing the new front-proof warehouse; that the St. John Board of Trade cooperate in this matter; and that a copy of this resolution be sent to the Minister of Marine at Ottawa.

After a motion had been carried, extending thanks to the Board of Trade for their courtesy in permitting the use of their rooms for the conference, the meeting adjourned.

awaited him on the morrow, "but I keep thinking about a better place. It isn't very nice to have to think about but if a man puts his trust in Jesus he can go through pretty near anything."

Tall, fair-haired and blue-eyed, his twenty-third birthday still a week away, Bennie Swim is a fine looking young man. He smiles frequently showing two rows of fine teeth. He has several days' growth of light brown beard on his face which detracts but little from his good looks and clean-cut appearance.

He is quite ready to talk and the outward cheerfulness of the man is remarkable. He spoke appreciatively of the kind treatment accorded him by the sheriff and the other law and jail officials. He said well and sleeps well. Last Wednesday night some friends visited him and remained with him until eleven o'clock or after when they had gone Swim said he went to sleep and slept until about seven o'clock this next morning. The night before that he went to sleep about 7:45 he said, and slept until about quarter to seven in the morning.

Swim is a big fellow and the little cot in the cell is not large enough to accommodate him comfortably. He slept on it at first but complained that he felt tired afterwards so he abandoned the cot and now spreads his blankets on the floor.

Only an occasional long drawn out sigh gave expression to some apparently troublesome thought on Thursday. And all the while the hammers were pounding and the saws ripping on the scaffold on the other side of the jail from that on which his cell is located.

When seen Thursday morning, Swim stood up to meet his visitors, and later sat down on a little chair in the cell, and talked quite calmly. An uncle and aunt of his, with their little six-month-old baby girl, came to say good-bye to him. Though his was a life about to end, Swim smiled and was apparently glad to see the tiny baby, whose life had but scarcely begun. He had never seen this baby before.

"They're great company, aren't they?" he remarked, adding a little later in an apparently sincerely pleased manner that it would be great if he had one or two babies with him to keep him company in his cell. The condemned man maintained the same show of cheerfulness in the conversation with his aunt and uncle. He appears to be bearing up remarkably well under the strain.

"It's a hard world," his aunt re-

marked, during the course of the conversation. "Yes, it is a hard world," he replied, lowering to a more serious tone, and adding "It's a hard world for those that make it hard for themselves."

The gallows is located in the open space between the jail and the court house, a few feet from off Maple street. There is no obstruction between the street and gallows, so that a full view may be had by all who pass. A large crowd waited the house on Thursday morning, and watched the carpenters at their grim work. When building was begun, Swim asked the sheriff the names of the carpenters.

The gallows is about twenty-five feet high. From the back of the jail a short platform leads to the stairs ascending the scaffold. The climb is broken by two flights, the second flight being parallel to the street. Neither this flight of stairs nor the gallows platform will be visible from the street, as the whole structure will be boarded in.

What they took to be the final parting with their son, the last farewells of the mother and father of the condemned youth were pathetic. They visited him on separate days, earlier in the week. Swim is said to have declared he was prepared to go. Both the father and mother wept bitterly, when they bade their son "good-bye." His aunt and uncle, when they left him also were affected. After talking a while with him, they came at last with seeming suddenness to the time to tell him good-bye. His aunt first shook hands with him, and then she moved quickly, her baby in her arms, around the end of the cell, and out of sight. The uncle, biting his lip to repress his emotion, followed quickly after her. It was all done swiftly. Benny Swim sighed deeply.

Rev. H. V. Bragdon has been acting as spiritual adviser to Swim. Latterly he has been visiting his two or

Our popular and esteemed young fellow citizen, Albert Rice, was a principal in an interesting christening last week, when he stood as Godfather to a namesake—Albert Joseph Gallant, infant son of Mr. and Mrs. Alfred Gallant of St. Jacques. Mrs. Edward Rice was the Godmother. The service of baptism was conducted by the Rev. Father Babineau.

Mrs. A. S. Kinley when attending the Fair at Woodstock last week with Mr. Kinley, was taken seriously ill on the exhibition grounds, and on being taken to the hospital there, was operated on the same day. Her condition has given rise to anxiety, but the latest word is that she is gaining slowly. It is sincerely hoped by her many friends that her recovery will be speedy.

On Saturday evening little Malcolm Hutchinson met with a painful accident which necessitated the attendance of a doctor. He was sitting on a bench and falling off he struck the bridge of his nose on a chair, making quite a deep cut, the wound bleeding profusely, and on Dr. Lockhart arriving he found that it was necessary to put some stitches in it, as a small artery had been cut. Malcolm is all right now, but looks very like Jiggs with his face done up in plaster.

Miss G. Simms of Grand Mere, Que., is a guest at the home of Mrs. P. A. Babin.

Miss Phyllis Hall left this week for Sackville to resume her studies at Mount Allison.

Harry Babin of the Bank of Montreal, Que., is spending a few days with his mother, Mrs. P. A. Babin.

Mr. and Mrs. Davis Sinclair left on Sunday for a brief vacation to be spent in St. John, Moncton, Fredericton and New Maryland, the latter place they will stay a few days with Mr. Sinclair's mother. They expect to be gone a couple of weeks.

J. A. Nicholson, Presbyterian student who has been laboring during the summer in the Fort Francis Mission field, State of Maine, was in Edmundston over the week-end and preached morning and evening for Mr. Hardwick to the edification of St. Paul's congregation.

Two of our young business men were interviewed by a dusky maiden of the gipsy tribe this week. The maiden was fair to look upon and desired to tell the fortunes of the gentlemen. Whether or not she succeeded in extracting from them any of their money is a problem, they say no, but others are doubtful if they are sticking absolutely to the naked truth.

David Evans and the Rev. John Hardwick attended the meetings of the Maritime Synod of the Presbyterian church in Halifax last week. Mr. Evans left Halifax on Thursday evening and proceeded to Fredericton to see Mrs. Evans who is convalescing there, after her serious illness. Mr. Hardwick arrived home on the Transcontinental on Saturday morning. A brief report of the meetings will be found in another part of the Observer.

The Rev. Allen A. Rideout, who was for some years pastor of the George St. Baptist church in this city, but now pastor of the First Baptist church at Waltham, Mass., was elected Grand Master of Massachusetts I. O. O. F., at the one hundredth annual convention held last week. The above is taken from the Fredericton Gleaner of last week, and is of interest to our readers as the Rev. Mr. Rideout is a brother of the popular agent of the C. N. R. here, Major C. M. Rideout.

DOCTOR PRAISES ZAM-BUK

"For sixteen years," writes Dr. A. P. Shibley of Washington, D.C., "I have used Zam-Buk in my practice, and am convinced that there is nothing to compare with it for skin troubles, from roughness and irritation to chronic skin diseases. Zam-Buk, without a doubt, has wonderful curative properties, and when I have occasion to recommend a balm to my patients, I always recommend Zam-Buk. I have found the results from its use to be perfectly satisfactory."

Members of the medical profession are noted for their caution in recommending a remedy—only doing so when they have absolute confidence in it. The fact that Zam-Buk is so highly recommended by doctors the world over, and that in Dr. Shibley's experience it has stood the test of sixteen years' constant use, puts it, unhesitatingly, in a class by itself.

In the home, in the office, shop and factory, on the farm and when travelling, Zam-Buk should be kept always handy. It is indispensable for all sores, eczema, boils, ulcers, blood-poisoning and piles, as well as for cuts, bruises, burns and scalds. All dealers 50c. box.

Zam-Buk

Miss Greta Keith of Moncton, arrived in Edmundston on Thursday and is a visitor at the home of her sister, Mrs. Malcolm Amos.

The Rev. John Hardwick and Mr. Evans when at the Synodical meetings attended the Presbyterian Church Association annual meetings held at the Y. M. C. A. on Tuesday afternoon. Mr. Hardwick was reappointed to the executive, and commissioned to visit the Presbytery of Miramichi in the interests of the Association, and also to organize a local association in the St. John Presbytery.

A good many readers will remember with pleasure the visit here of Commissioner John Thornton of St. John during the convention of New Brunswick Municipalities last month. Word has just been received of the marriage of his only son Robert on Wednesday last to Miss Grace Margaret Young of St. John. The wedding took place at the country residence of the bride's parents, at Golden Grove. The Editor wishes the young couple every happiness. Rob used to be a member of his congregation in St. John some years ago.

My! My! but our esteemed contemporary is sensitive these days. Last week we spoke of a criticism of a certain French Weekly for another French Weekly, and this week we are corrected. We told that the criticising paper was published in Rimouski not Riviere du Loup. On referring to our files we find that Le Madawaska is correct, but HOW did they know, for we never mentioned the name of the paper criticised. We thank Le Madawaska for its correction, and we thank it for permission to publish the article in question. We never asked permission, and we shall still use our own judgement, however.

VICTORY LODGE AT BATH HOLDS MEMORIAL SERVICE

Victory Lodge No. 56, Knights of Pythias of Bath, held its annual memorial service on Sunday afternoon, Sept. 17, in the Summerfield Methodist church. It is the custom of the lodge to hold these special services in the different localities where its members live and in that way spread the knowledge of Pythian principles. This custom no doubt is largely responsible for the continuous growth and interest of Victory Lodge. On Sunday more than sixty members turned out for the service, the greater number travelling by car from their homes to the service. In the absence of Chancellor Commander Estabrook, Brother L. A. Noble of Bristol was voted to the leading office. The members rallied at the home of Brother Green several hundred yards from the church, where they lined up two abreast for the procession to the meeting. Brother Past Chancellor Smith of Bath acted as Master of the ceremonies and led the members into the centre seats of the church which had been reserved for them. A very large crowd had gathered for the ceremony and every available inch of space was occupied and scores were standing about the door unable to get into the building. The choir of the church assisted in the musical program, with the help of a cornet and violin. The choir sang "Oh Think of the Home Over There," Brother Smith and daughter rendered a duet in pleasing manner and Brother Williamson sang a solo. After the ritual part of the ceremony was concluded, brother I. W. Williamson gave the address, basing his remarks on the words of Jesus "Render unto Caesar the things that are Caesar's, and unto God the things that are God's." The audience listened with attention as the speaker outlined the principles upon which the order is founded and challenged all the members to the faithful performance of those acts of brotherly love and human kindness, which the world so much needs at this hour.

After the service a vote of thanks was extended to the speaker and the members returned to their homes well satisfied that more friends had been won to the order.

Several of the parties held a basket picnic on the way home, eating lunch together in the orchard belonging to the family of the late brother Geo. who until the time of his death one year ago, was a faithful member of the order.

U. S. CHURCH AT GREEN FIELD TO BE DEDICATED

The reopening and dedication of the United Baptist church at Greenfield will take place next Sunday. There will be service at 3 p.m. at which Rev. I. W. Williamson will preside. Rev. L. E. Aikland of Woodstock will offer the dedicatory prayer and Rev. E. A. Trices of Hartland, president of the second district, will deliver the dedicatory sermon. At 7:30 p.m. Mr. Williamson will again preside and Rev. H. R. Bell of Centreville will preach an evangelistic sermon. On Sept. 25 Mr. Williamson will commence a series of special services and preach evangelistic sermons each night throughout the week, to which all are cordially invited. This church will thereafter come into the pastoral care of Mr. Williamson.

CONCERT AT PERTH

The concert given in the Specialty Wednesday evening by the Messrs. Sherlock, Haigh and Sykes, assisted by Miss Ruth Boyer and Mrs. Harvey Tatlock, was well patronized by an appreciative audience. The large hall was well filled and the treat given the people of Andover and Perth by these talented musicians, will long be remembered. A well arranged program similar to the one given in Hartland was well rendered. Each member received an encore that was willingly and pleasingly responded to. J. M. Sherlock of Toronto won the hearts of all. The other gentlemen, also made friends who will be delighted to hear and see them again in Andover at some future time not far distant. Miss Boyer's readings were very sweetly given. Mrs. Tatlock was the accompanist for the evening.
