ULTIMATUM SENT CHINA FROM JAPAN

Reached Legation in Peking To-day, Says Dispatch.

PEOPLE CLAMORED FOR IT
Pressure Brought To Bear By
Political Parties.

GOVERNMENT EMBARRASSED

Has Noted Growing Opposi-
tion in Britain To Its
Demands.

ULTIMATUM SENT.
[Canadian Press.]
Peking, China, May 6.—The ultimatum of Japan to China reached the Japanese legation to-day. It probably was presented to the Chinese Government this afternoon.

[Canadian Press.]
Tokyo, Thursday, April 22, by Mail to Shanghai, May 6.—The worldwide publication of the list of demands presented to China by Japan shortly after the defeat of the German garrison at Kiaochow, and which still are being negotiated between the two governments, coupled with the reports of growing opposition to them in Britain, and the attitude on this whole subject of the Japanese Government, from which the people expect much.

Various political associations in Japan are clamoring for drastic measures against China. Everybody is discussing the possibility of war, and speculating upon the nature and the extent of the military campaign Japan would have to undertake should China refuse to cede. All parties and all groups in the country are in favor of Japan establishing a predominance in the Far East, which country is regarded as the natural field for the Japanese expansion.

Pressing Government.
The semi-official press is urging the Government to stand firm in spite of the criticisms of foreign countries, and it is giving expression to the belief that the failure of the present negotiations would cause the profound disappointment and indignation of the Japanese people.

The statements given out today that Japan proposed to communicate to China the irreducible minimum of her demands.

BUCHANAN LIKELY WILL SUCCEED TO THE GLAUBITZ JOB

Utilities Commissioners Meet
This Afternoon To Name
General Manager.

Appointment of a new general manager of the public utilities commission in London will likely be made at the meeting of the commissioners this afternoon. Electrical Engineer E. V. Buchanan, who has been associated with the department since the war system was put in six years ago, is the man slated for the position. During his absence the general manager, Mr. Buchanan has been the operating head of the department, and it is expected that he will receive the promotion to the general manager's position. Likely \$2,500 Salary.

Just what salary will be attached to the office is a question that has so far not been answered. Mr. Buchanan is now receiving \$1,800 per year, while Assistant Manager A. O. Hunt is receiving \$200 per month or \$2,400 per year. It is manifestly unlikely that a general manager would be appointed by the commission at a lower salary than his assistant, so it is expected that the new general manager, if he be Mr. Buchanan, will start at possibly \$2,500 a year. When Mr. Glaubit was appointed he was given \$3,000 per year as an initial salary. It being steadily increased to the \$3,000 figure that is now represented by the year salary.

May Divide Work.

As it has been one of the unwritten rules of the commission to have an engineer at the head of affairs, it is hardly likely that Mr. Hunt will receive the appointment, although there is some talk of creating a division of the commission to have Mr. Hunt in charge of the promotion and business departments of the hydro side of the commission, while Mr. Buchanan would become "general superintendent," a title formerly held by Mr. Glaubit before the jurisdiction of the various departments was centralized and the office of "general manager" created.

If the proposed division of authority was carried out Mr. Hunt would likely be known as the "manager of the hydro department."

This suggestion of dividing the work up has been merely a tentative one, as it is believed that the commission will favor the centralization of authority and responsibility that now prevails under existing conditions.

SUFFRAGISTS WILL ADOPT HUNDREDS OF "WAR BABIES" MAKING THEM SUPER-WOMEN

Mrs. Pankhurst Announces a
Plan For Children Born
Without a Name.

EDUCATION TO BE BEST

These Little Beings Are To
Be Brought Up Along
Eugenic Lines.

[Special Cable to The Advertiser.]
London, May 6.—The end of the war means the beginning of the end of the universal fight of women for the right of suffrage, said Mrs. Emmeline Pankhurst, in explaining today plans of Women's Suffrage and Political Union to adopt several hundred of our little war babies.

"This is due to the world witnessing during the present struggle women's noble demonstration of her right to enfranchisement, and we intend to adopt these little babies and apply modern ideas to their bringing up and to their education. This is my plan. I expect to be the mother to them all through the lives of these unfortunate innocent victims of war. It is the old problem and it is now inevitable that it must be faced.

Every Change for Men.
"We intend to show the world how to deal with it. That is woman's duty. We will set up real a standard. It will provide a model for the future. We have secured a large country place in Surrey and have also a place in the vicinity of the London flower gardens. The babies are to be brought up along eugenic lines. They will be cared for by trained nurses. The Madame Montessori system of education will be adopted. The latest ideas for healthy development for food and clothing will be utilized.

"We intend to demonstrate that our solution will develop these children into superwomen. They will be developed according to their demonstrated adaptability.

Need Not Be Suffragists.
"Will these war babies be taught the principles of militant suffrage?" I asked. "There will be no necessity of that," was the quick reply.

"When they attain the age to know about such things, the world will long since have been initiated into women's suffrage. Even by the end of this frightful war other countries of the world will have come to recognize that women are an enormous factor in the world. The various administrations are now about ready to grant the vote to women. This has had its first demonstration in Denmark, where women recently were enfranchised. All objection is being swept away by work of women since this war began. Premier Asquith's recognition of the efficiency of women in the arms factories, and his allowing tribute to them, forebodes what is coming in England."

Mrs. Pankhurst said that on June 3 she will unfold the details of her plan to the British public, and will then ask for financial and moral support. She said that she will appeal to America and other neutral countries for aid, so that the work can go forward without delay.

Sea.

CREWS ARE ALL SAVED

Two Steamers, Schooner and
Trawler Fail To Survive
Attacks.

[Canadian Press.]

Stockholm, via London, May 6.—The Swedish steamer Vanda was rammed yesterday afternoon while at anchor off the island of Femern by the German auxiliary cruiser Silvana. The crew of the Vanda was saved.

The Vanda was a vessel of 660 tons owned in Stockholm. The only Silvana of German registry mentioned in available shipping records is a steamer of 263 tons belonging to the Hamburg-American Line.

STEAMER SUNK.

[Canadian Press.]
London, May 6.—The steamer Cathay, from Copenhagen for Chinese ports, was either mined or torpedoed late last night in the North Sea. She went down in twenty minutes. Her passengers and the members of her crew, totaling 43 persons, took to the small boats, and all were landed safely at Ramsgate today.

The Cathay was a Danish steamer. She was built in 1898, and was of 2,584 tons net register. She measured 298 feet long, and was owned in Copenhagen.

TRAWLER SENT TO BOTTOM.

[Canadian Press.]
London, May 6.—12:32 p.m.—The trawler Stratton of Grimsby was sunk in the North Sea yesterday by the gunfire of a German submarine. The crew was taken on board the submarine.

After the crew had been taken off, the seacocks of the trawler were opened, but this method of sinking the vessel proved to be too slow. After waiting for four hours, the Germans fired eight shells at the Stratton.

The fishermen were then ordered to embark in a small boat which had been taken from the Stratton. They landed at Harlepool.

SCHOONER SHELLED.

London, May 6.—The schooner Earl of Latham was sunk by a German submarine off Kinsale, on the Irish coast. The crew was permitted to take to the small boats, and was rescued by a trawler.

The submarine fired nine shells at the schooner before she sank.

TURKS, REPULSED, LEAVE 1,500 DEAD

Allies Advance To New Im-
portant Positions in the
Interior.

CONTINUE BOMBARDMENT

Warships Shell Enemy Loca-
tions in Dardanelles and
Also At Smyrna.

[Canadian Press.]

London, May 6.—The Turks, considerably reinforced, attacked the Allies' camp at Krithia early Tuesday morning, but were repulsed, leaving 1,500 dead, according to advices from Mitylene received by the Exchange Telegraph Company from its Athens correspondent. Allies have advanced into the interior, the dispatch says, and now occupy positions of great strategic importance.

A report from Tenedos says that British warships continued yesterday their bombardment of Turkish positions in the Dardanelles and also of Smyrna.

TURKISH STORY.
[Canadian Press.]

Constantinople, May 5.—Via Berlin and London, May 6.—The following official statement regarding the operations in the Dardanelles was issued this afternoon by the Turks' war office:

"The unfavorable situation of the enemy in the Dardanelles remains unchanged. Reports from Athens regarding the occupation of Gallipoli and Nagara by landing forces are untrue. The Gallipoli peninsula is entirely at our disposal for military movements. The enemy holds only two points on the coast, Seddul Bahr and Arburan, thanks to the constant firing of his ships. The enemy is unable to make any moves against the Turkish encircling forces.

"The Asiatic coast has been freed of our enemies."

HIGHLY SATISFACTORY.

[Canadian Press.]
London, May 6.—4:20 p.m.—The operations in the Dardanelles are being pressed forward under highly satisfactory conditions. Premier Asquith told the House of Commons this afternoon in the course of a statement upon the combined naval and land attacks on the Gallipoli peninsula.

NIGHT ATTACK REPULSED

Enemy Attempts Surprise
Near Ypres, But Is Easily
Driven Back.

[Canadian Press.]

Paris, May 6.—2:35 p.m.—The French war office this afternoon gave out a report on the progress of hostilities reading as follows:

"On the north of Ypres we repulsed with facilities a night attack made by the Germans from Steenstraete.

"On the south of Ypres the Germans yesterday at a point near Zwartelen, attacked the trenches of Hill No. 60, occupied last month by British troops. Their very violent onslaught, during the course of which they again made use of asphyxiating gases, made them masters in the beginning of the position, but our allies subsequently delivered a counter-attack and recaptured a portion of the trenches previously lost.

"In the forest of Ally, the counter-attack delivered by us toward the end of the day made slight progress, and we recaptured a portion of the position where the Germans had succeeded in gaining a footing in the morning. During the night the Germans delivered a counter-attack against our position at Mamelin, to the east of St. Eloi, where the summit of which they recaptured. All the remainder of our gain in the direction of the River Fecht has been consolidated and maintained."

GLAUBITZ AND COUNSEL WAIT ON THE MAYOR

Ask His Intentions re Check Signing—
Dr. Stevenson Answers Them.

W. R. Meredith, the solicitor retained by General Manager H. J. Glaubit, of the public utilities commission, to look after his interests in connection with the proposed action against Mayor Stevenson, waited on his worship last evening. Mr. Glaubit was with his counsel and a dual demand was made of the mayor as to what he intended doing in connection with the signing of the checks for Mr. Glaubit since his reinstatement on February 10 last.

"I told them that I was doing nothing and did not intend doing anything about the checks when they asked me what I proposed to do," said his worship this afternoon, in referring to the case. "They did not say what they intended to do in the case and I did not ask them. It is no concern of mine what they propose to do."

SECOND CONTINGENT WILL BE IN FRANCE WITHIN SHORT TIME

Commanders All Appointed For Various Units — Major-
General Hughes Says Men Are In Every Way As
Good As The Heroes of the First.

[Special to The Advertiser.]

Ottawa, May 6.—The Minister of Militia says that the second Canadian overseas army division will be in France within a short time. That it will go under the command of Major-General Sir Sam Steele, of the Mounted Police, of the Strathcona Horse, and of the Canadian permanent forces.

The Maritime Province and Quebec Brigade will be commanded by Col. J. A. Landry, with Col. James McAvity, of St. John, as brigade major and second in command.

The Ontario Brigade will go to England under the command of Col. S. Denison. In England he will be succeeded by Lord Brooke, who has looked after cavalry training at Petawawa for several summers. The brigade major and second in command is Col. G. Stewart, of Ottawa.

The Western Brigade will be under the command of Col. Ketchum, of Winnipeg, with Col. P. A. Moore, of Winnipeg, brigade major and second in command.

The staff of Col. Steele will be Lieut. W. C. Cochrane, son of the Hon. Frank Cochrane, minister of railways, and Capt. R. Montague, son of Hon. Dr. Montague, of the Manitoba Government. The second division is declared by Gen. Hughes to be made up of men in every way as good as those of the first division, who gave such a fine account of themselves at Langemarck.

CANADIANS USED BODIES OF GERMANS AS BARRICADES

Dead Were So Numerous After Repulse by the Dominion
Troops—Enemy Shelled Dressing Stations, Blowing
Wounded To Pieces—Machine Gun Team's Fine Action.

[Special Cable to The Advertiser.]

London, May 6.—Sergeant Larkin, 2nd Battalion, 1st Brigade, lying wounded in Cardiff, confirms the assertion made by many Canadians that the German dead were so numerous after they had been repulsed in the charges leading up to their great attack, that Canadians piled their bodies as parapets. "German artillery fire was so heavy it was more like machine gun fire," he says. "A curious fact is that in the preliminary German attacks not one out of ten was brought in suffering from bayonet wounds. The Germans damaged us with shell or rifle fire, but would not risk coming to us at close quarters. They either ran away or stood still and screamed 'Mercy!'"

"The 2nd Battalion at the end of Friday had six officers killed, six wounded and missing, and four wounded."

"The Germans had absolutely no feeling for wounded. They shelled the dressing stations, and blew the fellows there wounded to smithereens. Some of our motor ambulances were also blown up.

"German prisoners seemed utterly broken up. Several Saxons told us they would sooner be back at work.

"One of the pluckiest things was done by a machine gun team of the 2nd Battalion, under Capt. Hooper. It occupied a cottage in broad daylight within the German lines, and planted a machine gun. Eventually the team was driven out. Captain Hooper is wounded and missing."

3,000 Troops Here By May 16

That over 3,000 troops will be training in London by the middle of this month was the statement made to The Advertiser this afternoon by a leading militia officer. Arrangements are being made for bringing the 34th Battalion here from Guelph as soon as tents and other equipment can be secured. It is expected that the battalion will arrive in London by the end of next week, and at once commence its work of training with the 23rd.

Major-General Lassard is expected to make an inspection of both battalions before long.

All the land north of Wolsey Barracks back as far as the river will be utilized by the 33rd and 34th. It is expected that orders for other drafts similar to those made last week from the 23rd, will be made.

Recruiting will be continued, as it is expected that orders for other drafts similar to those made last week from the 23rd, will be made.

It was stated today that no orders have as yet been received as to when the draft of 250 men, in command of Capt. Nelles, will be sent. Absolutely no credence is given the rumor in circulation at the fair grounds that the men drafted will go to Bermuda.

WOUNDED SOLDIER HAS MOTHER IN INGERSOLL

Private Joseph Glidden Was One of
Early Volunteers.

Private Joseph Glidden, of Ingersoll, who figures in our story of the 1st Battalion, is well known in Oxford County. He and his widowed mother lived formerly near Salford, South Oxford, but a few years ago moved to Ingersoll, where his mother lives on Charles street.

Private Glidden was one of the early volunteers for the first contingent.

ROGERS WORKING FOR ELECTION YET

But Time For Dissolution of
House Is Growing
Short.

PROTESTS ARE POURING IN

Appeal To People At Present
Time Would Cost
Million.

[Special to The Advertiser.]

Ottawa, May 6.—If Hon. Mr. Rogers should achieve his desire to have an election on June 28, he would have to have Parliament dissolved by May 11.

An election is a big job. The clerk of the crown in chancery has so many things to do that six weeks between the summons to the writ and poll is the shortest possible time for an election.

There is a great deal of list compiling to do. In unorganized Ontario and Manitoba, the judges have to hold courts and make lists, which must be printed and in the hands of the returning officers on nomination day. Lists have to be fixed up for Saskatchewan and Alberta, but this is not such a great task.

Judges Independent.
In the past, there has been trouble with the judges. Some of them have demurred about executing rush orders in the preparation of lists. It has been found that judges have a lot of dignity, and object to being hustled by cabinet ministers or anyone else. As many of them have been in Parliament, they have their own ideas of politicians. They say that their first business is to try cases, and if they have time, after that.

LABOR MEN PRESENT OLDEST MEMBER WITH BEAUTIFUL UMBRELLA

Henry Pearce Has Completed
50 Years As Member
of Organization.

Completing fifty years as a member of organized labor, Henry Pearce, who has been a reader of The Advertiser since 1862, was at last night's trades and labor council meeting presented with a gold-mounted inscribed umbrella by members of that body.

As President James Huxley said in his address to the veteran member of the council, it was truly a Henry Pearce night.

"It is a unique and extremely pleasant event," said the president, "to have Henry Pearce with us tonight, ever young, completing a half-century as a member of organized labor and this society."

Delegate Joseph Marks, of Toronto, in presenting the umbrella, stated: "If every labor man was as politically independent as Henry Pearce labor would have men from their body representing them as mayor, aldermen and members of parliament."

Delegate Joseph Marks, of Toronto, in presenting the umbrella, stated: "If every labor man was as politically independent as Henry Pearce labor would have men from their body representing them as mayor, aldermen and members of parliament."

"It is the happiest night of my life," said Delegate Pearce in reply. "I cannot express my feelings. It was on March 5, 1865, that I joined organized labor, which then met over a saloon on the market square, and after passing through many experiences I am still with it."

Speaking of the early days of organized labor, Mr. Pearce said that he has in his possession what he believes is one of the first editions of The Advertiser. "It is of the year 1852, and I got it when they were throwing them out of a window. Finding that The Advertiser is still with the laboring people, I am still a reader of it," said the delegate.

Alderman Ashplant also delivered a brief address of congratulation for Mr. Pearce.

Delegate Joe Marks, during the evening, gave a short talk on the work he has done in doing for the unemployed in Toronto, and on the Labor Educational Convention which will be held in St. Catharines on May 24, at which delegates will be sent from here. The remainder of the evening was of a social nature in honor of Henry Pearce's jubilee.

STORY IN ADVERTISER LOCATED AGED WOMAN

Friend Saw Her Wandering Past House and Took Her In.

A story published in The Advertiser yesterday afternoon was instrumental in finding Mrs. Y. Orendoff, an aged lady, who wandered away from her home at 214 West Main street, early in the morning, and whose relatives scoured the city all day in a vain endeavor to locate her.

Shortly after the newspaper had been delivered to its city subscribers, the story of the missing woman was read by Mrs. J. L. Johnson, residing at 371 Princess avenue. She is an intimate friend of Mrs. Orendoff, and was greatly concerned for the aged lady's safety alone on the streets.

"It was nearly 6 o'clock last night, when Mrs. Johnson, looking from a window in her home, recognized Mrs. Orendoff walking feebly along the sidewalk. She hurriedly called out to the old lady into her house, then notified anxious relatives.

"It was the story in The Advertiser that found her safe last night. Mrs. Orendoff was lost, and instead of walking in the direction of her home, was walking away from it when found."

'NEVER TOUCHED ME' CABLES LONDON SOLDIER

James Murray Sends Message to Parents From Front of Battle.

"Never touched me"

The above welcome cablegram was received last night by S. Murray, of 591 King street, from his son James, who has been in the thick of the fighting around Ypres for the past two weeks.

Mr. Murray is in No. 2 company 1st Battalion, First Brigade, and his cable was dated "Base Army, May 2."

His brother Tom, is with the post-office staff at the front.

Mr. Murray Sen. had a letter from Tom a few days ago, in which he said that heavy fighting was expected soon.

Blood Thin and Weak Too Nervous to Sleep

Here Is Another Case in Which Dr. Chase's Nerve Food Proved Its Great Reconstructive Influence.

This blood and exhausted nerves usually go together. A considerable portion of the blood is constantly consumed in keeping up the vitality of the nervous system. Once the blood is deficient, either in quantity or quality, the nerves suffer and nervousness, irritability and sleeplessness are the most marked symptoms.

Mrs. B. F. Catlin, Elm Springs, Sask., writes: "For years I was troubled with nervousness, and could not sleep at night. Also had lack of color as a result of the blood being thin and weak. My husband saw Dr. Chase's Nerve Food advertised, and got some for me, and wanted me to try it. I did so, and it has proven a wonderful help to me. By enriching the blood it has restored color to my face and has built up the nervous system so that I rest and sleep well."

NEWSBOYS' GRIN AT WHITE GLOVES

London's Finest Look Splendid in Summer Addition To Uniforms.

The newsmen on the corner looked—then grinned, comprehendingly. Pedestrians at the busy intersection gazed in wonder. The man at the wheel of the long, low roadster, built for speed, sported it on the instant, as he took the corner.

The traffic officer was wearing WHITE GLOVES.

Because Mayor Stevenson suggested it and the police commission favored it and decreed that it be so, London's finest yesterday blossomed out with purest white incensing dictating palms. The man on a corner, the man on a beat, each was indelibly stamped by the added decoration, symbolical of purity, and, when added with the right proportion of black, the latest thing in the season's styles.

Police officers are not allowed to put their hands in their pockets while on duty, for Chief of Police V. T. Williams, father of the force, is very, oh, very strict on these little niceties of discipline. Many of the stalwarts, who walked the downtown streets yesterday looked as though they would rather break the conventional law than the rule of the department, but the curious gaze of London, young and old, big man, small, all things, is modest, and hates anything bordering on foolishness.

But consensus of opinion was for the embellishment of the uniform. Somehow or other the appearance of a city police force can either put a municipality in the metropolitan class or in the alalfa section. Let's keep 'em.

LONDON GIRL'S HUSBAND INJURED IN BATTLE

Capt. Wm. Pope Wounded in Recent Fight at Langemarck.

Mrs. J. H. Ginge, of 361 Queen's avenue, has received word that her son-in-law, Captain Wm. Pope, son of Sir Joseph Pope, under-secretary-of-state at Ottawa, has been wounded in the recent fighting at Langemarck. Captain Pope was brigade major on the staff of Brig-General Turner, and word received by Mrs. Pope, who has been at Quebec, was that he would leave for Quebec on sick leave. Mrs. Pope, formerly Miss Marguerite Ginge, planned to go to England, but will now await the arrival of her husband.

Capt. Pope, who resided at Quebec before going on active service, is quite well known in London.

ASSAULTER REMANDED

John Murphy, a private in the 33rd Battalion, arrested yesterday by Police Magistrate J. C. Judd today to a charge of assaulting Thomas McCullough, London's veteran newsboy, and was remanded one week for sentence.

Asked by his worship why he committed such an assault on the newsboy, Murphy replied: "The newsboy held a paper in front of him."

"Surely that was no reason for committing such an assault," said the P. M., to which the soldier did not reply.

McCullough, his nose broken, one eye closed, his face black and blue and four teeth missing presented a sorry appearance in the Carling street courtroom.

LADIES' MISSION CIRCLE ELECTS ITS OFFICERS

Mrs. Manning President of First Methodist Organization.

The annual meeting of the Young Ladies' Mission Circle of the First Methodist Church was held on Tuesday, May 4. It brought to a close a most successful year. The officers for the coming year were elected, and are as follows: Honorary president, Mrs. Glass; president, Mrs. Manning; vice-president, Miss Green; Mrs. Barnard; Miss Weldon; recording secretary, Miss Bridgman; corresponding secretary, Miss Hunter; treasurer, Miss Sanborne; superintendent of Christian stewardship, Miss Bateson; city missions, Miss Hosack; pianists, Miss Flinders; and Mrs. Williams; press reporter, Miss Bowman.

When the business was finished, Mrs. Barnard, the retiring president, was given a handsome hair as a token of the love and gratitude of the circle. A bouquet of sunset roses was presented to Miss Green, in recognition of her efficient work as vice-president during the past year.

7TH C. M. R. WILL HOLD FIELD DAY TOMORROW

The 7th C. M. R. are to have a field day tomorrow in the vicinity of Carling's Heights. It is probable that scouting movements will be gone through with, the unit being divided in sections. The C. M. R. is putting in much hard work these days, many hours being spent in the East End Hall, which was secured by Lt.-Col. Leonard for gymnasium work. Floor work and parallel bar work are making the men "hard as nails."

It is said the mounted rifles are in readiness to move on short notice.

It was rumored this morning that before leaving the rifles would be given a forced ride between two given points to test the speed at which the regiment can move. The men have a lot of confidence in their own speed, and it is a sign that their system is in a low or run-down condition inviting disease. It is a warning, which it is wise to heed. Ask your druggist for Hood's Sarsaparilla. This old standard, tried-and-true blood medicine relieves that tired feeling. It cleanses the blood, gives new life, new courage, strength and cheerfulness. It makes the rich red blood that will make you feel, look, eat and sleep better. Be sure to get Hood's, because it is the best. There is no other combination of roots, barks and herbs like it—no real substitute for it—no "just-as-good" medicine.

CHOICE OF DELEGATES AT GROCERS' CONVENTION AS THE NEW PRESIDENT

Thomas Shaw, of This City,
Is Elected New President.

MEET AT TORONTO NEXT

Resolution Passed Against
Direct Selling Methods of
Manufacturers.

More than 10,000 Londoners saw the "Made in London" exhibition, held in the Masonic Temple, yesterday, according to estimates made last night by the officers of the Retail Grocers' Association. The convention, which was attended by over 500 delegates from outside points, in addition to Londoners, closed yesterday after a three-day session. The exhibition will be continued today and this evening, because of the interest citizens are taking in the show. Yesterday was school children's day, and the crowds of people attracted to the exhibit thronged the entrance and lobby of the building last night and yesterday afternoon by hundreds.

Soldiers Attend.

The association invited the men of the 33rd Battalion to attend, and they complied by coming in a crowd. The exhibition of "Made in London" goods at which thousands of descriptive pamphlets, samples and all kinds of books were distributed, has done much to prove to Londoners that the grocery retailers from "fakes" in advertising, and hence to "push" impure products cheaply manufactured. This has been the main object of the exhibition.

Name Officers.

Officers were elected to the Canadian Retail Grocers' Association at the closing session of their convention at this city. The president is Mr. J. Bowman, of Ottawa; W. J. McCully, of Stratford; C. McCusland, of Paris; D. W. Clark, of Toronto; G. B. Drake, of this city; Jerry Burns, of Toronto; James Main, of Hamilton; F. C. Higgins, of Toronto.

The convention decided to hold the next annual convention at Toronto.

HUNT EXPLAINS CONTRACT AWARD

Fair Secretary Says City Men
Will Get Preference in Work
of Building Stand.

Replying to a criticism of the firm of John Hayman & Sons, that a London firm had been discriminated against in awarding the contract for the Western Fair grandstand to McGregor & McIntyre, of Toronto, A. M. Hunt, secretary of the fair, stated last night that he had been called on the long-distance telephone by the Toronto firm and told that four sub-contractors on the job would be London men and that London men, with the exception of one or two experts, would be employed on the job.

Mr. Hunt said that each tendering contractor figured on his own design, and that the plan adopted by the fair board was that recommended by the London building inspector. The work will be supervised by the city engineer. The board, he pointed out, had no option in selecting the design.

INSURANCE OFFERED FOR LONDON TROOPS

Company's Plan To Be Considered By Council.

An offer for the insurance of 140 more London soldiers was submitted to the board of control by the Metropolitan Life Insurance Company at its meeting yesterday. The offer will be taken under advisement and will be considered by the council at a special meeting on Monday evening when estimates will be brought up.

In order to secure this extra \$140,000 protection for the London soldiers, the company will have to release the company from its obligation of carrying 140 men of the first contingent for two years on the payment of one year's premium. In other words, if the city will agree to pay the second year's premium on these policies for two years, the company will agree to take out the same amount of insurance for another 140 men. The rate for the new men will be the same as the old—the usual premium plus \$25 was taken up by Mr. Bowen, who presented the company's offer, declared that the men to secure this additional protection, could be anyone regarding whom the company could secure information.

The board recommended the calling for bids for asphalt concrete pavements on the following streets: Ridout street—Ferguson Place to Gardfield avenue, and William street—Queens avenue to King street.

Maitland street—King street to York street.

Ridgeway—Becher street to Wharncliffe road.

Elmwood avenue—Wharncliffe road to Worley road.

Edward street—Elmwood avenue to Bruce street.

There are petitions in against the pavement of Maitland street between King and York and against William street from King to Dundas.

Voice of the People

Puts It Up to Mr. Lerner.

To the Editor of The Advertiser: I see an article from Aid. Lerner in a local paper, saying that he did not switch on his vote on the stockyards, and that he was asked the day the council met to vote for the stockyards, and that he told "them" that he could not. I do not know who he means by "them," but I want to say to Aid. Lerner that I was talking to him Tuesday at noon, and told him to be sure to be there, as we wanted him to help carry the bylaw, as Aid. Ashplant said he might not be there. He asked me if the mayor was with us. I said, "Yes."

"Well," said Aid. Lerner, "I will vote to vote with you if I am not in jail." He said he likes you just as far as I am concerned he must state what is true.

W. A. WILSON, Alderman.

THAT TIRED FEELING

Relieved by Hood's Sarsaparilla, Which
Renovates the Blood.

That tired feeling that comes to you in the spring, year after year, is a sign that your blood lacks vitality, just as pimples, boils and other eruptions are signs that it is impure; and it is also a sign that your system is in a low or run-down condition inviting disease. It is a warning, which it is wise to heed. Ask your druggist for Hood's Sarsaparilla. This old standard, tried-and-true blood medicine relieves that tired feeling. It cleanses the blood, gives new life, new courage, strength and cheerfulness. It makes the rich red blood that will make you feel, look, eat and sleep better. Be sure to get Hood's, because it is the best. There is no other combination of roots, barks and herbs like it—no real substitute for it—no "just-as-good" medicine.

EARLY MORNING BLAZE IN OVERALL FACTORY

Fire was discovered at 2 o'clock this morning in the second story of a building occupied by the Canada Overall Company, on Carling street. The building is set a considerable distance back from the street, and could only be reached through narrow lanes, making the work of the fire department extremely difficult. Two lines of hose played on the flames quickly subduing the blaze, which threatened to assume considerable proportions within a short interval. The damage will not be heavy.

GROCERS APPOINT OFFICERS FOR YEAR

Thomas Shaw, of This City,
Is Elected New President.

MEET AT TORONTO NEXT

Resolution Passed Against
Direct Selling Methods of
Manufacturers.

More than 10,000 Londoners saw the "Made in London" exhibition, held in the Masonic Temple, yesterday, according to estimates made last night by the officers of the Retail Grocers' Association. The convention, which was attended by over 500 delegates from outside points, in addition to Londoners, closed yesterday after a three-day session. The exhibition will be continued today and this evening, because of the interest citizens are taking in the show. Yesterday was school children's day, and the crowds of people attracted to the exhibit thronged the entrance and lobby of the building last night and yesterday afternoon by hundreds.

Soldiers Attend.

The association invited the men of the 33rd Battalion to attend, and they complied by coming in a crowd. The exhibition of "Made in London" goods at which thousands of descriptive pamphlets, samples and all kinds of books were distributed, has done much to prove to Londoners that the grocery retailers from "fakes" in advertising, and hence to "push" impure products cheaply manufactured. This has been the main object of the exhibition.

Name Officers.

Officers were elected to the Canadian Retail Grocers' Association at the closing session of their convention at this city. The president is Mr. J. Bowman, of Ottawa; W. J. McCully, of Stratford; C. McCusland, of Paris; D. W. Clark, of Toronto; G. B. Drake, of this city; Jerry Burns, of Toronto; James Main, of Hamilton; F. C. Higgins, of Toronto.

The convention decided to hold the next annual convention at Toronto.

CITY "Y" TO LAUNCH CAMPAIGN FOR FUNDS

Three-Day Canvass Will Start
Tuesday—Gym Attendance
36,654.

Beginning on Tuesday of next week, the Y. M. C. A. will inaugurate a three-day campaign for funds to carry out its work. The regular revenue of this public welfare institution is never sufficient to meet current expenses, which are ever increasing as the various activities of the association extend.

The establishment of a local Y. M. C. A. in any town is almost immediately followed by a distinctly noticeable improvement in the tone of the young men of the community—a moral and spiritual uplift that is accomplished without creating namby-pambyism or sacrificing manliness in the association reaches and benefits.

Just what this splendid institution means to the young men of London may be learned by the realization that the total attendance at active "Y" work in the year ending April 30, 1915, was 36,654, during 493 sessions. Where the majority of these young men would have spent their time but for the Y. M. C. A., is a question worth considering.

The capable instructors in the same period taught 140 men and boys to swim, and supervised dozens of athletic meetings, besides entering contestants at practically every athletic event in the city.

The social life of the institution comprised 36 events, at which an aggregate attendance of 2,096 is reported. Among other beneficial activities might be mentioned the free employment bureau, which placed nearly a hundred young men in situations; the boarding-house register, which directed 214 applicants to good rooming and boarding houses; the foreign class, where aliens were taught English and made into better material for future Canadian citizens; the noon-hour shop meetings at different factories, where sound, wholesome talks were given to a total of 17,765 workmen; the boys' choir, which has rehearsed with a combined total of 728 in attendance; the Bible classes, 37 meetings, with an aggregate attendance of 1,292.

Much active evangelic work was done, and resulted in 19 conversions. The figures being 515 meetings, with a total attendance of 60,661, and 164 members and others taking their stand to lead a Christian life.

KIDDIES FAR FROM HOME, BUT ARE FOUND

Harold and Leonard Peters
Born Explorers and Adven-
turers.

FOUND BY POLICEMAN

But Dandy Buster Brown
Buggy Lost—For Once
Went To Bed Willingly.

Harold and Leonard Peters, although only six and four years old, respectively, are born explorers and adventurers. Yesterday their thirst for travel in Hibernia undisturbed parties resulted in their becoming lost. The boys, who were accompanied by a policeman, were found after a search of several hours. The policeman, who was on duty at the time, was told by the boys that they had been wandering in the district around the city hall. The policeman, who was on duty at the time, was told by the boys that they had been wandering in the district around the city hall.

Both Big Boys.
The youngsters are both big boys for their age, and yesterday after lunch they persuaded their mother to let them go out to watch some building operations near the city hall. The boys, who were accompanied by a policeman, were found after a search of several hours. The policeman, who was on duty at the time, was told by the boys that they had been wandering in the district around the city hall.

Anxiety Increases.
When 3 o'clock, 4 o'clock and 5 o'clock came and they had not put in an appearance her anxiety increased, and an appeal to neighbors resulted in which, however, failed to get trace of the missing boys. It was not until nearly 6 o'clock that a message came by telephone to one of the neighbors' houses that the children had just been found, covered and taken to the fire hall.

Youngsters Tired.
When they arrived home the youngsters were apparently quite unaware that they had done anything which might have caused uneasiness to their parents. They were very tired, dead-beat, in fact, but they were full of the wonderful sights they had seen, and which they described in detail. There had been street cars, thrilling races, marvellous displays of fireworks, and a range of their usual home life. They were concerned about one thing, however, and that was that the wagon, which had been provided with a new set of wheels only last Christmas, had been lost.

Ready for Bed.
How it had got lost, or where they had been wandering for so many hours, they could not tell. In fact, the one outstanding thing that they did know was that they were so tired that they would be quite ready to go to bed and sleep.

When a reporter called at the house today the older boy, Harold, was at kindergarten, but Leonard was quite willing to recount what the experience of yesterday he could remember, which was not very much. That he has not lost his taste for the excitement shown by the fact that he declared his intention of accompanying the newspaperman "down-town," and was only persuaded to relinquish his intention by a promise that he should go "another day."

ROGERS WORKING

They will compile voters' lists. This business of making voters' lists for unorganized districts has been found most inconvenient several times. The late Laurier Government had to hire a special train to carry the list to Thunder Bay and Rainy River constituency. In the country, a hundred or more of lists, and the Government got a lot of abuse.

Cost Over Millions.
If Parliament were to be dissolved within a week, business will be good for conservative printers. Their presses will be kept going on voters' lists, and other necessary printing for a lot of money, and some of them will not get out of bed until the election night and day. The last election cost the country over a million dollars. Since the change of Government the cost of holding elections has gone up, and it is estimated that the proposed contest will cost the country something more than a million dollars. Rates of pay for poll officials have been increased, and have the number of the constituencies.

Str. Robert Borden is still indisposed; but he has not been at his office for three days, but he is expected to return to his office to reach him.

Rogers Still Busy.
Hon. Robert Rogers will still after an election. He is expected to return to his office to reach him. The Governor-General had acted upon the advice of his Government, and had already dissolved Parliament. Votes for soldiers are on their way to the trenches. The bill amending the Canada North America act, so that the Canadian Senate may be increased and the representation of Prince Edward Island may not be decreased, is already in the British Parliament. It is expected that it should come before the House after harvest, if farmers are to vote. That is why June 28 was set as the last Monday available for voting before the money gets busy in the meadows.

Russell Canning enlisted in this city with the 5th (London) Battery and left for Valcartier when that unit was removed from this city for overseas service.

Pte. Canning, who in this city, was employed with the McCormick Manufacturing Company. He had been actively connected with the 6th Battery for some years previous to the outbreak of the war.

FRANCHISELESS CITY

AS TO TELEPHONES

Bell Company's Agreement
Expired May 1—Has Not
Been Renewed.

For once in its history, at all events, London is now a franchiseless city so far as telephones are concerned. Up until five days ago there was real monopoly in phones, but now the city is open to competition. The agreement of the Bell Telephone Company of Canada expired in London on May 1. It has not yet been renewed. When it will be depends on the action taken by the city council in dealing with the company. A conference between representatives of the head office of the company and the city council, and the city council, is slated for almost any day now and until after this conference nothing can be predicted as to the attitude that will be taken by the city.

Increased Rates.
For a number of classes of telephone service increased rates went into effect on May 1. If the city's contention that rates are excessive here, is sustained, then the company will be expected to make a refund of these increased charges.

If the city and company fail to come to any agreement on the question of telephone tariffs for London, then an appeal will be taken to the Dominion Railway Board, and ruling asked from that body to govern phone charges in this city.

To Furnish Data.
Already the commission has been asked to furnish data on telephone charges in other cities, and the way has been paved for a ruling on the whole question. It is believed, however, that the existing differences between company and city can be amicably settled without appeal or reference to the Railway Commission.

DISTURBED HIS REST

Businessman Awakened and Told Warehouse Had Been Abandoned—False Alarm.

A businessman was aroused by a policeman at 4:30 o'clock this morning to be informed that there had been a fire at his warehouse. He hurriedly dressed, and much to his surprise and pleasure, found there was no damage at his place of business. The police had called him because his name was similar to that of an official of an overall company in the building occupied by the firm in which a fire had occurred.

As a result of the unnecessary call, the businessman suggests that all places of business should place above their phones the name of the owner of the place. It is not difficult for the firemen to effect an entrance, but it is often difficult to secure the owner of other responsible officer, and it would prevent such an uncomfortable situation as was brought about in the early hours of today.

SAVS FORMER LONDONER

NOT LIEUTENANT DEAD

Although the initials are the same, B. L. Wood, of West London, in company with Harry Toot, of 13 Woodward avenue, London, Pte. King was visiting in England when war was declared.

He awaited the arrival of the first Canadian contingent and enlisted with the unit there, going into camp with them at Salisbury and thence to the front, in the 18th Battalion.

When she left London for England, Mrs. Smith left no address here. No address was left with the postmaster-general, and it was not until the original certificate of death, issued by the British war office, and informing her that upon its receipt a check for \$1,000 would be immediately sent.

The insurance company paid over two death claims to City Treasurer Bell today, both being for Pte. Smith and the other for Pte. Smith, Clarence street, whose beneficiary is his sister, Mrs. B. L. Wood, of 13 Woodward avenue, London.

Three death claims have now been paid by the insurance company on London soldiers, the first being for Pte. B. L. Wood, who died of pneumonia in an English military hospital.

INJURED LIEUTENANT

FORMER LONDONER

Lieut. Campbell Scatcherd Left Here for West Five Years Ago.

Lieut. Campbell Scatcherd, whose name appeared in today's casualty list among the wounded, is a former Londoner, and a nephew of Mr. L. W. Scatcherd, of 286 Piccadilly street.

About five years ago he went to Moose Jaw as manager of the Bank of Commerce.

Two years ago Mr. Scatcherd left the bank and went into the real estate business. When the war broke out he was in London, and a short time later his wife went to the front as a Red Cross nurse.

Mr. W. W. Scatcherd, of this city, is expected to hear from the wounded soldier shortly, and believes that at the present time he is in a hospital in Surrey.

DEATHS AND FUNERALS

Death of Mrs. Furness.
Her many friends in this city heard with regret of the death of Mrs. Furness, who died at her home in New York City at the home of her son, Mr. Furness, who was the daughter of the late H. C. R. Becher, Q. C., for many years a leading member of the bar of London, and a short time later his wife went to the front as a Red Cross nurse.

Mr. W. W. Scatcherd, of this city, is expected to hear from the wounded soldier shortly, and believes that at the present time he is in a hospital in Surrey.

TEN LONDON PLAYERS HAVE REPORTED SO FAR

Four More Were Added To List This Morning When Danford, Sendelback, Yageman and Labate Arrived — Practices Are On in Earnest.

BY BERT PERRY.

Ten players have so far reported to the London club, and this morning and afternoon at Tecumseh Park the initial workouts were held. The players that Manager Reising has at present are Catchers Jack Danford and Bill Yageman; Pitchers Wayne Dowell, Joe Labate, Jim Peters, Eddie Sendelback and Carl Hammond; Second baseman Harry Myers, and Shortstop Ray Whitcraft, and Outfielder Eddie Lammy. Myers, Whitcraft, Dowell and Hammond all arrived last night with "Doc" Reising. Danford and Sendelback reported early this morning, and Yageman and Labate came in at noon. With the exception of Whitcraft, whose trunk has not arrived yet, all the players are in the city. The players were over at the park first thing this morning in uniform.

Pitchers Look Good.
The grounds are in fine shape, and the weather could not be better had it been ordered for the purpose. Reising has a fine bunch of likely-looking youngsters. Dowell, Sendelback and Hammond all look to be in fine shape and ready to go in and pitch a full game. Dowell is the only southpaw who has reported to the club so far, and he looks like another edition of Bobby Heck. He is short and stocky like the Syracuse lad, and his much the same kind of delivery. He appears to have speed and lots of stuff. Sendelback, the Detroit city leaguer, is another likely-looking pitcher. He is about medium height and sturdy looking. He comes here with a fine record, and looks as though he might stick. Of course, none of the pitchers have been in action yet, so far, and it will be several days before any line on their real form will be obtained.

Indian Is Green Yet.
Jim Peters, the big Hagarsville, Ont., Indian, looks to have all the requirements of a good pitcher, although he is quite green yet. Peters was only beaten twice last season, and he

Snyder Wanted Others To Jump.

Jack Snyder, the former London catcher, who is playing independent ball in Pennsylvania this season, wrote to the rest of the London players and wanted them to join his club. None of them, however, thought it worth while.

The London Club will play two games with Ottawa here Friday and Saturday next week. The locals will play Stratford in the Classic City on Thursday. Stratford will play the return game here the week following.

Ottawa Here On May 15.

The Ottawa club will play an exhibition game here on Saturday, May 15. Shaughnessy and the London directors obtained the consent of President Fitzgerald to play this game, and the local fans will see the Senators in action before the season starts. Shag and his band are training at Chatham starting next Monday. London will play a couple of games with the Stratford club previous to the game with Ottawa.

London Games.

As a result of the re-arrangement of the schedule, London will play 110 games. The dates will be split up as follows: Brantford at London, 15 games; London at Brantford, 7 games; Guelph at London, 11 games; London at Guelph, 13 games; St. Thomas at London, 13 games; London at St. Thomas, 10 games; Ottawa at London, 9 games; London at Ottawa, 15 games; Hamilton at London, 9 games; London at Hamilton, 5 games. London has eleven Saturdays at home. The local club plays on every holiday. On May 24, London plays at St. Thomas in the morning and in London in the afternoon.

PEACE REPORTS ARE FABRICATIONS

No Understanding At All Between Organized Leagues and Outlaw Circuit, Says Johnson.

New York, May 6.—Hopes that the statement by President Johnson, of the American League, in Boston Tuesday favoring withdrawal of the legal suits between the Federal League and organized baseball presaged peace were diminished today by a further statement from Johnson.

No secret pact, regardless of the many conflicting reports has been signed between the American League and the Federal League, the American League president was quoted as saying. "The American League has no understanding of any kind with President Gilmore or his organization. There will be no peace as far as I am concerned."

"I wish to say that neither the American League nor the National League has made a single proposition to the Federal League that would restore peace in baseball. All these reports about peace negotiations and the American League and the Federal League coming to an agreement are fabrications."

organized baseball, so far as I know, is as determined as ever to decide its fight on its merits. Nobody is looking for anything or expects anything. If our case is wrong, the sooner we know of it the better. We believe that we are right. We ask no favors. We stand by our record."

COOPER AND MOTE WILL WRESTLE FOR TITLE

A wrestling match for the championship of London will be held in the Springbank Theatre on the evening of May 24 at 7:30 o'clock. Ashley Cooper has challenged Jack Mote and the challenge has been accepted. Both boys are good ones, and the match should create a great deal of interest. Both are in training for the contest and expect to be in "the pink" when the time arrives.

LE JEUNE HAS HAD A DOZEN DIFFERENT JOBS, BUT GETS A REAL ONE AT LAST.

Sheldon Le Jeune, the big Chicago semi-pro player, appears to have made good at last. Trigg and found wanting by three major league clubs and half a dozen minor league managers, Le Jeune has won a regular job in centre field for the Pittsburgh Pirates, and it looks from his early season work as if he will make good. He has been called the strongest thrower in the national game and as a slugging but uncertain hitter. His showing last season seemed to indicate that perhaps after all his failures he might have major league class, and Pittsburgh's scouts reported him immensely improved. He is going well this spring and hitting steadily.

Appeal To Let Films of Fight Enter s Denied

Judge Upheld Collector's Action in Holding Up Films at Port of Newark.

JERSEY CITY, N. J., May 5.—The action of Frederick F. Freed, collector of the port of Newark, N. J., in refusing to allow the entering of photographic films of the Willard-Johnson fight at Havana, was upheld by Federal Judge Thomas Haight, of the United States District Court here today. Justice Haight denied the appeal of T. Lawrence Weber for an injunction to restrain the collector from interfering with Weber in entering the films through the Newark Custom House. The application was made upon the allegation by Weber's counsel that the act of Congress under which the films were barred, is unconstitutional because Congress exceeded its powers as defined in the commerce clause. The judge held the act to be constitutional. Counsel for Weber stated that Judge Haight would sign appeal papers so that the appeal would come before the United States Circuit Court of Appeals in Trenton, Monday. If the appeal is unsuccessful, another appeal will be taken to the United States Supreme Court, the attorneys said.

Canuck Horsemen Were Re-instated by Racing Board

National Assn. Lifts Suspension Against Toronto and Hamilton Men.

NEW YORK, May 5.—At a meeting of the board of review of the National Trotting Association here today, S. A. Proctor, of Toronto, and H. H. James, of Hamilton, Ont., were reinstated after it was shown that their failure to pay their entrance fees to the Canadian Government was because of war orders issued by the Canadian Government regarding horses.

The board had before it more than forty cases which it took up for consideration with the purpose of straightening out all tangles before the opening of the season.

Vance Nickols, of Cleveland, Ohio, a widely known driver of trotting horses, was fined \$100. The fine was the outcome of an investigation of trouble at a race meet in Rockport, Ohio, last year, when Nickols refused to permit the judges to substitute a driver for his horse Andral. At the time, he was suspended, reinstated and suspended again the same day. Upon payment of the fine assessed today, Nickols was reinstated.

E. Emory, of Wiscasset, Maine, and J. Fortner, of Dryden, N. Y., were expelled on charges of having a Canadian horse under other than its registered name in Massachusetts.

Perley L. Smith, of Portland, Me., was expelled, and W. A. Nelson and Jerry Smith were suspended on charges of racing a horse under other than its registered name in Massachusetts.

GERMANS' WEDGE BROKE BY FRENCH

Recent Advance of Allies East of Ypres Canal Fruitful.

GAIN OVER 1,000 YARDS

Germans Still Strong, But Sure To Lose, Says Eye-Witness.

[Canadian Press.] LONDON, May 5.—The British official "eye-witness" in a long account of the engagement of the last few days in the Ypres region, records that the Germans have continued the use of asphyxiating gases, but with less success than on the first occasions.

Despite the use of gas by the Germans, the narrative says, the French have made continual advances east of the Ypres canal, south of Pilleux, and have gained a gain of over 1,000 yards. During this advance a large number of German prisoners were taken.

While the French continued their advance in this section, it is asserted that the Germans attacked the British south of Neuve Chapelle, and at Hill 60, in both cases using gas. In the latter attacks, however, owing to a change in the wind, the fumes were blown back towards the Germans, who are believed to have suffered, as no attempt to advance was made by them. Similar tactics are said to have been adopted by the Germans in their attack north of Ypres last Sunday.

The "eye-witness" then relates incidents showing the steadiness of the British troops, which he says, advanced under a murderous fire, their war cry swelling louder and louder above the din.

"Prisoners captured in the recent fighting," the narrative continues, "stated that one German corps lost 80 per cent of its men in the first week; during the last few days, however, when no attacks were being made, had been very heavy, and that many of their own men had suffered from the effects of the gas."

"The 'eye-witness' then quotes a German brigade officer telling the officers of the British staff that the German soldiers, but under the stress of fighting, and in view of the fact that the strain imposed upon the men, this is only to be expected."

German Gains Maintained. The writer concludes as follows: "In regard to the recent fighting on our left, it is desirable that the German offensive should be viewed in its true perspective, and that it should not be belittled nor exaggerated. Effected in the first instance by surprise, as a novel form of attack, it resulted in such losses of fresh troops and were available in the neighborhood of the operation."

There seems to have been strong local counter-offensive undertaken in reply to the allied offensive at other points, and made with the same object in view, namely, to draw the British forces away from the main line. Between all these earlier efforts and the last, there was no difference in kind, the only difference being that on this latest occasion the attack had been carried out with the aid of poisonous gases.

Enemy's Confidence Unshaken. "The 'eye-witness' says that he should not expect similar tactics in the future. They do not mean that the Allies have lost the initiative in the western theatre, but that the Germans have been able to make them weary of the struggle, and to induce the belief among the people ignorant of war that nothing has been gained by the last efforts of the Allies because the Germans have not yet been driven back. It is being undertaken with a political rather than a strategic object."

"It is to that extent from a military standpoint a sign of weakness. Another sign of weakness is the adoption of illegal methods of fighting, such as spreading poisonous gas. It is a confession by the Germans that they have lost their former great superiority in artillery and are, at any cost, seeking another technical advantage over the enemy as a substitute."

"Nevertheless this spirit, this deter-

mination on the part of our enemies to stick at nothing must not be underestimated. Though they may not pay the Germans in the long run, it renders it all the more obvious that they are a foe that can be overcome only by the use of overwhelming numbers of men and guns."

German Papers Become Anxious Regarding Italy. Say There Is Still Hope, But Admit the Situation Is Serious.

AMSTERDAM, via London, May 5.—1:55 a.m.—The German papers are beginning to display anxiety regarding Italy's attitude.

The Vossische Zeitung, the Lokal Anzeiger, and the Tageblatt, all emphasize the fact that the negotiations between Italy and Austria-Hungary have not been definitely broken, and that, therefore, there is still justifiable hope of a satisfactory solution.

They admit that the situation is serious, however, but at the same time insist that Italian intervention on the side of the German enemies would make no difference to German determination or confidence in the final result.

Will Exact Punishment For Enemy's Barbarity When the Time Comes

LONDON, May 5.—10:02 p.m.—"When the proper time comes due reparation will be exacted upon those countries, whatever their positions and antecedents—if it can be shown they have violated the rules and usages of civilized war," said Premier Asquith in the House of Commons this evening, during the course of a debate on the treatment of British prisoners by Germany. He added that a careful record of events was being kept and of evidence which could be obtained, in order that, when the proper hour came, proper punishment might be meted out.

Andrew Bonar Law, leader of the Opposition, hoped that the country would no longer pay any attention to any convention which would prevent the war from being brought to a final conclusion. It was worth considering, he said, whether, at the risk of losing all British property in Germany, they should confiscate every German article throughout the British Empire.

Germany, Masling Men. London, May 6.—For the first time since the British forced the Germans from Hill No. 60, near Ypres, the soldiers of Emperor William have been partially successful in their counter-attacks, and no advice to the contrary having been received, it is assumed that the Germans are still holding today the positions they obtained upon the hill by the use of asphyxiating gases.

In the meanwhile, the German line to the east of Ypres is within three miles of the town. The British press does not seek to deny or minimize the persistence of this German offensive, but there is no disposition to lament the drawing in of the British front to the eastward and the northeastward of Ypres, which was the only alternative to a successful counter-attack. Confidence is expressed that the new British alignment will prove beneficial in view of the hard fighting which is expected.

Nearly all the special news dispatches from Northern France and the Belgian frontier say the Germans are making much for a new assault at the direction of the French ports, and as gas now seems to be a regular adjunct of the German attacks, the Allies expect it will play an important part hereafter whenever the direction of the wind is favorable to the Germans.

British observers of the war, watching all the news from the eastern arena, admit this morning that the German allies have inflicted several considerable local defeats upon the Russians on the west Galician front, but they point to the fact that the entire front has not been crushed, as was at first claimed, and that the stubborn fighting is proceeding.

This brings the total number of trawler victims of German under-water boats since Sunday up to fifteen. The submarines seem to be making a determined effort to prevent England from procuring fish in the North Sea. None of the trawlers, according to the stories told by their crews, suffered any loss of life.

WAS TROUBLED WITH CHOKING SPELLS AND SHORTNESS OF BREATH. When the heart becomes affected, there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, a weak, sinking, all-gone feeling of oppression and anxiety.

Many men and women drag along with weary step, and become listless and haggard, when otherwise they could be strong and healthy if they would only pay some attention to the first signs of heart or nerve trouble. On the first sign of the heart becoming weakened or the nerves unstrung, Milburn's Heart and Nerve Pills should be given a fair trial and you will find that they will soon correct both these organs.

Mr. James Leard, Tyson, P. E. I., writes: "Just a few lines to let you know what Milburn's Heart and Nerve Pills have done for me. I had choking spells, and was troubled with weakness of the heart and shortness of breath. I tried three doctors but they all failed. A neighbor recommended me to try your pills, so I got a box and they helped me so much I have taken six boxes. I highly recommend them to all who are troubled with the heart and nerves. It was not able to do any work for over two years; now I can do quite a bit."

TWO OTHER GIRLS ATTACKED BY RIPPED ESCAPED AND AID IN SEARCH FOR SLAYER

One Child Left Part of Her Skirt in Clutch of Maniac Near Place Where Boy Was Slain — Other, Hurling Into a Doorway, Saved by Her Screams — Mothers, in Terror At New Developments, Keep Their Little Ones From School.

New York, May 6.—The terror that has prevailed among mothers of the east side since Jack the Ripper killed and horribly mutilated the bodies of Leonora Ann Cohn and Charles Murray, each five years old, was increased yesterday afternoon, when it was learned that ten minutes before he murdered the Murray boy on Monday night he had attacked another child, six years old, of No. 247 Avenue B, in the hallway at No. 269 First avenue, five doors from where the boy was killed. The maniac seized the child, but she broke from him and escaped.

Another girl of thirteen years, now accompanying the detectives in an effort to find the assassin, was similarly attacked Saturday night in First avenue, near the scene of the Murray murder, but she escaped by leaving a portion of her skirt in the man's hand. These four attacks and two murders have so aroused the east side that yesterday mothers were not inclined to let their children go on the streets alone. Everywhere was the caution to watch for strange men who might be a "Jack the Ripper" with a carving knife concealed under his coat.

Thousands of the curious yesterday besieged the hallway at No. 269 First avenue, where Charles Murray was killed, making it necessary to keep extra policemen on guard. Despite their vigilance, many carried away souvenirs of the ghastly tragedy by wrecking the woodwork of the hall. This slaver of little children, the police believe, is a maniac who is moved by a sudden degenerate impulse, which is shown by the fact that he tried to kill little Louise Niedig before he killed Charles Murray. Apparently that murder satisfied his insane lust to kill, but there is no telling when the passion will again seize him.

The pity of the murder of Charles Murray when it became known that the boy was a cripple, suffering with a hip affliction, and that perhaps of this infirmity he was unable to escape from his slayer.

That the slayer of the crippled boy is the maniac who killed Leonora Ann Cohn and mutilated her body on the evening of March 19, the police are convinced. They say the advance on Louise Niedig shows that the assassin does not choose to advance his victims, but kills whenever the mania chances to seize him. The hope of catching the maniac before he kills another child lies largely with a large party of yesterday with the one hundred picked detectives.

The girls are little Louise, who has given them a good description of her assailant; Mamie Murray, eight years old, sister of the slain boy, who saw a "wild eyed" man run from the doorway just before her brother's body was found, and the girl thirteen years old, whose name the police refuse to divulge, but who is said to have been attacked in First avenue near the scene of the crime four nights ago.

How One Child Escaped Death. Little Louise Niedig, who is the daughter of Mr. and Mrs. William Niedig, who own a bakery in Avenue B, has an aunt, Mrs. Josephine Larber, who works in the bakery of A. P. Hausler at No. 269 First Avenue. That is just five doors south of the scene of the murder. Late Monday afternoon the little girl went to the bakery and remained so long that Mrs. Larber was afraid to let her go home alone. Therefore, the child waited until half-past seven o'clock, when the bakery saleswoman quit work.

"I was standing in front of the bakery waiting for auntie to come out," the little girl said, "when this dark man with the mustache came up to me. I remember he had on a large diamond pin. He looked at me for a minute and then he came close to me and said, 'Where do you keep money?'"

not to talk to strangers, so I did not answer him. As I was turning away he grasped me by my right arm, jerked me a few feet to the front door of the tenement and 'knocked' me inside. He held my arm so tight that it hurt me ever so much, and when he showed in behind the door I began to scream. Someone called and asked me what was the matter, and he let go of my arm and ran out the door. I was so frightened I couldn't even answer the woman who came down stairs and couldn't do anything but cry."

Here the little girl raised the sleeve of her right arm and showed several blue marks on it, made by the vice-like grip of her assailant.

Mrs. Lillian Hussey, who lives on the second floor back of No. 270, said that she was dressing to go to the church service when she heard the child scream. "I hastened to the door and called down, 'What's the matter?' she said. 'I heard the child crying and went downstairs. For a long time she wouldn't tell me what had happened; then she said a man had dragged her in the hall, but he fled when I called 'I took her to the bakery next door and her aunt took her home.'"

Mrs. Larber said that she took the child home before she learned of the murder, but she related the incident to her employer, who in turn informed the police.

The police believe that the murderer still in the throes of his mania to kill walked north in First avenue and saw little Charles enter the street door of his home, followed him into the hall, seized him and then with his long knife made the fatal stab. Mrs. Masser, of the kind that ended the life of Leonora Cohn.

Joseph Flannigan, Mrs. Hussey's brother, told the police that he left his home at a quarter past seven, and as he passed the Murray home he saw Charles playing on the sidewalk. He knew the boy well, because he was a cripple and of a cheerful and friendly disposition. Mr. Flannigan spoke to him and stopped to talk to Adolf Masser, who conducts a crockery store in the tenement in which the murder occurred.

"I talked to Mr. Masser until half-past eight, when I left him. I saw Charlie still playing on the doorstep with a stick."

The police regard Flannigan's statement as important in view of the fact that it shows the murder must have been committed in the ten minutes between half-past seven and twenty minutes to eight, when Bernard Gaffey, 10 years old, found the boy.

It was about that time that Mamie saw the foreigner emerge from the door. He "almost ran," to quote her, north in First avenue. She was looking for her brother at the time, and, failing to see him in front of the doorway, she went to the corner of Fifteenth street to see whether he had been there. Her description of the man she saw is identical with that given by Louise.

According to Commissioner, who, with Inspector Faurot, is in charge of the case, the police place their hope of finding the murderer in the mysterious girl 13 years old. For obvious reasons he would not give her name. He said that one night this latter part of last week she was walking in First avenue near the scene of the present murder, when a young foreigner whose description is precisely that given by the younger girls asked her where she lived. She walked away from him, and as she did so he seized her short skirt. She screamed and wrenched herself free, tearing that garment, and the young man ran.

"Because she is older, perhaps this girl has a better memory for faces," Commissioner Lord said. "She says she will never forget the face of the man who attacked her and she will have a strong case against the man when the older girl points out and the younger girls identify."

Left No Fingerprint Clues. Mr. Lord and Inspector Faurot said that they had been told by my mother

that all attempts to get fingerprints of the murderer had failed. As in the Cohn case, the only evidence of the tragedy, which the murderer left was the body of his victim. No stains were found anywhere on the floor, stairway or walls, the only stain being on the spot where the little body lay.

Inspector Faurot took twenty policemen of the East Twenty-second street station out of uniform yesterday morning and placed them to work on the case because they are familiar with the neighborhood. Eighty other detectives also were assigned to the case.

Daily, who refused his address; Edward Gilman, of No. 746 Third avenue, and Antonio Cuminella, of the Olive tree Inn, in East Twenty-third street, were arrested in the Yorkville court yesterday before Magistrate Murphy. The first two were held in \$1,000 bail and the last in \$1,000 bail for a hearing tomorrow. Daly was accused of brandishing a knife and threatened seven little girls and Cuminella was found with a shoemaker's knife. A negro, John H. Robinson, who was arrested Monday night in front of the Murray home with a pistol, is still in Bellevue Hospital.

Rose Maier, 13 years old, of No. 275 First avenue, and Bella Gelb, 12 years old, of No. 249 East Seventeenth street, told the police of a man who annoyed them in Stuyvesant Park in March. The description they gave of the man does not agree with that given by the other girls and the police are not inclined to think that he is the man wanted.

Thousands thronged the streets near the scene of the crime yesterday, and it kept the reserves of the East Twenty-second street station busy making curiosity seekers move on. Many women were in the crowd and several of them wanted souvenirs of the crime. Just after 4 o'clock in the afternoon the slain boy's body was taken home from the morgue.

The funeral will be held tomorrow

morning at 10 o'clock in the Roman Catholic Church of the Immaculate Conception, No. 505 East Fourth street.

Don't Remove Faurot. Arthur Woods, police commissioner yesterday took occasion to review the recent work of the detective bureau and to express confidence in the work that the men of that branch are doing despite the number of unsolved crimes now confronting the police.

The commissioner said that an unusually large number of mysterious crimes had recently been perpetrated and added the fact that some of those responsible for them had not been arrested in no way reflected on the detective department. He said that the men he said the men have been untiring and have shown distinct detective ability.

He also denied a report which had gained some circulation and which was to the effect that Inspector Faurot was to be relieved from command of the detectives.

"There is absolutely no foundation for that published report," he said. "The detective bureau under Inspector Faurot has been doing good work. Lately there have been several desperate crimes, the perpetrators of which we have not found. They have been very difficult crimes to go to, and therefore very difficult to solve."

"There is always room for improvement," he continued, "and no matter how experienced a detective is, he can learn something new from each case. Improvement along this line is being steadily made. The fact that the detective bureau has not yet arrested the perpetrators of these crimes does not mean that Inspector Faurot may not be the best man to head the detective bureau, and it is wholly unjust to him and cannot but help to make his already stupendous task more difficult to have been referred to the operation of the nine branches. Inspector Faurot is in command of the bureau as a whole."

EXETER YOUNG LADY DIES. EXETER, May 5.—Miss Annie Bissett, daughter of Mr. and Mrs. Thomas Bissett, 5th, William street, died Tuesday evening. Miss Bissett contracted bronchitis early in March. She was 23 years of age and an adherent of the Trinitarian Church. She leaves a widow, her father and mother, three brothers—Isaac, in the west; Reginald, of Chatham, and Harold, at home—and three sisters, Miss Ethel, of Seattle; Mrs. Truitt, of Norwich, and Edna, at home. The late Sir John Carling, of London, was her great-uncle.

Canadians May Be Proud of Thier Building at the Panama-Pacific Exposition

It Is the Finest Individual Exhibit by Far — It Describes Magnificently Canada's Greatness.

[From Los Angeles Herald.] Citizens of the United States who go to the exposition at San Francisco will return with increased respect for Canada and the Canadian government, thanks to the great building and the extraordinarily fine exhibit that represent Canada's power.

There never was seen a more complete, inspiring exhibit of the wonders of a great country.

The Canadians have gone to the thing thoroughly, they have eclipsed completely the exhibits of every one of our individual states, and that is putting it very mildly.

Every Canadian certainly should visit the Panama-Pacific Exposition, if only to confirm the opinion he probably holds that Canada is a wonderful place and its government a magnificent and capable government.

In addition to Canadians, representatives of every state and every country in the United States should make it a point to spend a thoughtful day in the Canada building.

They will learn there that it is possible for a people not afraid of "internationalism or government influence" to do wonders for the building up of a country.

And they will see splendid work done by private corporations, railroads and others, under proper and efficient control of the government; its employees are intelligent, courteous, well-chosen men.

Marvellously ingenious and striking exhibits tell the story of the great nation that lies north of us. Canada is an empire of strength, beauty, prosperity and unlimited possibilities.

Intelligent citizens of this nation will rejoice in that Canadian exhibition, with its many proofs of Canadian intelligence, energy, good government and good citizenship.

Every citizen of the United States should be glad to know that we have as our brother on the north a people so powerful, a realm so vast and prosperous.

Forever there can be between the United States and Canada only friendly feeling and brotherly rivalry.

The Canadians, at great expense and with great intelligence, have sent to our exposition a demonstration of their power and of everyone who knows the difficulty of developing and governing a new country will bow reverently to the power that Canada displays.

The exhibition made cannot properly be described. It is your duty TO SEE IT.

It shows the beginning of man's work in a wild country, the forests, the animals, the wilderness. And it shows man conquering the wild, making his home of the forest, his fertile fields of independence and free government. A wonderful empire is Canada, not a PART of England, but a greater England. The people of this country should be grateful for the exhibition that Canada has sent to us.

See the Canada building if you can and all the other wonders of the Panama Exposition, and all the wonders of this great country that lie between.

(It will be the proud privilege of the four winners of the Advertiser's Panama-Pacific free trip contest to visit at the San Francisco Exposition the Canadian building, which has evoked the above glowing tribute to Canada.)

SUNDAY ENACTS REALISTIC FIST FIGHT WITH SIN

Uppercuts and Knocks Out an Imaginary Satan — Spectators Amazed — 394 Hit Sawdust Trail.

Paterson, N. J., May 6.—Billy Sunday preached to more than fifteen thousand persons yesterday in the Paterson Tabernacle. Three hundred and ninety-four hit the sawdust trail.

The evangelist held 10,000 persons spellbound last night with a dramatic portrayal of God saving the soul of one ensnared by Satan. He wrestled about the stage with an imaginary devil, finally landing swings and uppercuts that put Satan down for the count.

"That's the way God Almighty will come to your rescue and save you from the devil if you accept Jesus Christ as your Savior," said he to the awestruck gathering.

Sunday's Sermon. Text, Psalm, cxlii, 4: "No man cared for my soul."

"All lives are more or less of a contrast. But no life, no history, sacred or profane, to me presents a larger number than that of David, the author of my text."

"David was a shepherd. He threw down the shepherd's crook and took up a sepiore. He was a musician. He was a warrior. He was a sinner. He was pursued by him that he sought refuge in the cave of Engedi and the words of my text were wrung from his heart."

"I looked on my right hand and behold, but there was no man that would know me; refuge failed me; no man cared for my soul."

"I once met a young man whose father, mother and sister were prominent members of a church in Illinois, and when I asked him the inevitable question, 'Did you ever feel that you had a right to say that his own flesh and blood did not care for his soul?'"

"Will it be possible for anybody to say in the day of judgment, 'I brought glory to my house, you came to the store and I sold you dry goods; you talked about religion, we talked about politics, we talked about the meeting, I worked for you, you paid me my wages, but you never talked to me my Jesus Christ. You never asked me to be a Christian.'

The Day of Judgment. "I wonder who on the day of judgment? What is the trouble? I'll tell you. You fail to realize that without Jesus Christ they are lost. Your husband is a good man, he pays his debts and provides for his family, and you are perfectly satisfied. But if you were awake to the fact that he is lost—that if he died tonight you would never see him again—you would begin to pray and work for his salvation. Without Jesus Christ he is lost."

Would Pay \$5,000. "There are men looking into my face tonight who would pull out their check-books and write a check for \$5,000, more if they could, to get me to preach more if they could the word of God, Jesus the son of God, that there is heaven for the saved and hell for the lost—but it won't cost you a cent."

Vote for him today and you can go to hell tomorrow for all he cares."

Sermon in Women's Club. Sunday preached a stirring sermon yesterday morning to one thousand women in the clubhouse of the East Orange, N. J. Women's Club. He went over from Paterson at the invitation of Mrs. Thomas A. Edin and other prominent residents of the Oranges. He said: "It is the aim of Christianity to erect in the inner life of the individual a wall which will render that individual safe from assaults of the enemies of the soul, for we live our life in the enemy's country. Disease, poverty, sin, temptation, are all enemies of the soul, and we must fight to keep from putting on a shroud."

All things being equal, the educated man should be better able to protect himself against the enemies of the body, the mind and the soul, than the one who is not educated.

The business and prosperous man, all things else being equal, should be a better man than the idle man. And so

society is better for the outer wall of education and the outer wall of business. "But I want to tell you that if there is not a hand in hand with an educated mind a regenerated heart, education, religion, leads to the spread of depravity and the destruction of the basic elements of Christian civilization. They're kicking the Bible out of the public schools, and they'll go to hell when they do."

POET DENOUNCES BRITISH "APAT" Wm. Watson Thinks It's Possible This May Car Tragedy.

[Canadian Press.] London, May 5.—William Watson, the poet, has contributed the article to the Evening News, in which he denounces the apathy of the British Government and people in the following terms: "It is high time that the masses of the people of this country should be driven and hammered into their meekness and humility, for no gentler mood of introduction will suffice, that its very doubt, full indeed whether we are going to beat the Germans at all."

Germans Continue Use of Asphyxiating Gases

[Canadian Press.]
LONDON, May 5.—11.19 p.m.—The German official report issued this afternoon claims victory both over the Russians in Western Galicia, and over the British to the east of Ypres, in Flanders. Field Marshal Sir John French, the British commander-in-chief, has admitted that he was compelled to adjust his lines in the region of Ypres, but the French communication, far from confirming a German victory in Belgium, states that the German attacks were repulsed, and that the Germans, being taken on the flank by French artillery, suffered very severely.

A late report from the British War Office also says that German attacks were repulsed, although the Germans used asphyxiating gases, and did get a footing by the use of these fumes on Hill No. 60, southeast of Ypres, which, since the British capture of it recently, has been repeatedly attacked.

There has been fighting all along the rest of the western front, in all of which the German claims to have been successful. The French, however, have another story to tell. They insist that their advance in the direction of the Yser Canal, in Flanders, and in the West, where battles have continued for weeks on end.

BRITISH STATEMENT.
[Canadian Press.]
The following official communication was issued this evening by the British War Office:

"The general situation remains unchanged. Fighting is in progress on Hill No. 60, southeast of Ypres, on which the Germans attained a footing this morning, under cover of poisonous gases, which were excessively used and were favored by weather conditions. A feeble attack, also preceded by an extensive use of poisonous gas, was made east of Ypres, and was easily repulsed, our artillery inflicting severe loss on the enemy.

"In the neighborhood of Ghent, the Germans exploded a mine, and again employed poisonous gas. Four men were killed, but otherwise the enemy's efforts in this direction failed completely."

Furious Fighting.
The Daily Telegraph's correspondent at Rotterdam telegraphs:

"Furious fighting is reported from the northeast of Ypres, where the Germans are making tremendous efforts to advance south from Gravenstafel, toward which the British have been ordered to straighten their line from St. Julien to Zonnebeke."

"The British are clinging tenaciously to a group of villages and houses in this corner, although at several points they are subjected to a flanking fire from the enemy in the positions between Gravenstafel and southward toward Zonnebeke."

"Troop movements in Belgium indicate the Germans are sending all available reinforcements to this small zone of fighting in a desperate attempt to push back the British from the line which, if held, threatens to prevent the enemy from reaching the advantage from the ground captured in last week's advance."

MAKE PROGRESS NORTH OF YPRES.

PARIS, May 5.—10.50 p.m.—The following official communication was issued by the French war office tonight:

"In Belgium the day has been calm. On Tuesday night the British captured a German trench and pushed our lines forward between Lierne and Het Sas, of which we are still masters. The enemy made no counter-attack."

"In Champagne to the west of Perthes an attempt to attack by the Germans was completely checked and the same thing occurred in the Argonne at Four-De-Paris."

"Some very spirited actions have taken place between the Meuse and the Moselle. At 4 o'clock in the morning the enemy strongly bombarded our positions at Les Eparges and the town of Calonne. About 10 o'clock he attacked at the latter point, but his check was complete. Our fire arrested him in front of our first line, which remains intact."

"The German losses were high and we made some prisoners."

Wood Is Regained.
"In the morning, likewise, three regiments advancing together, attacked the positions recently captured by us near the Ally Wood, particularly that part to the east of the wood, and the open ground of the ridge, to the southwest. By this attack the British have regained a foothold in our first line, and a counter-attack enabled us almost immediately to reoccupy half of the ridge. We have maintained ourselves there, and towards the end of the day we delivered a second counter-attack, the result of which is not yet known. This was for the purpose of re-taking the rest of the positions, which the Germans had penetrated."

"In the Montmorency Wood we gained a characteristic success, in carrying two successive lines of German trenches to the east of the positions previously captured by us near the road from Flirey to Essey. We immediately joined these trenches to our first line and we have strengthened ourselves there."

"Three counter-attacks were directed

against us during the course of the day, but these were completely repulsed with heavy losses to the Germans in killed and prisoners."

"In Alsace on the north bank of the Peche River we continue to gain ground. This morning we took possession of Mamelot, east of Illkirch (Hill 850). We have progressed in the direction of the river towards Steinbrunn, 900 metres from Metzlar."

CONTINUOUS RETREAT SAY GERMANS.

BERLIN, May 5, via London, 5.55 p.m.—The statement issued today at the headquarters follows:

"The British continue their retreat, with heavy losses, in the direction of the bridge-head situated sharply to the east of Ypres. The Van Heule and Elsternne farms, the castle ground of Herenthage, and the St. Pappote farm were taken by us."

"Between the Meuse and the Moselle there is again great activity in the forest of Le Peche. Northwest of Pont-a-Mousson, the French attacked yesterday with strong forces. Notwithstanding a long preparatory bombardment by artillery, their attack broke down under our fire with heavy losses to the enemy. On the other hand we began attacks in the forest of Ally and the east thereof, which made good progress. Up to the present we have taken ten officers and 750 men."

TURKS DEFEATED IN THE CAUCASUS

Petrograd Hears of Russian Victory, Won With Bayonet.

[Canadian Press.]
London, May 6.—A Petrograd dispatch to the Reuters Telegram Company says:

"Details have been received here of the defeat by the Russians of a Turkish army corps in the Caucasus. An effort was made by 30,000 Turks under David Pasha to invade the Dilman-Khori region, which the Russians occupied."

"The entire Turkish force was hurled against the Russian positions, but the Muscovites, although numerically inferior, held their ground. Each successive attack was repulsed at the bayonet point. The Russians then began a general counter-attack and completely routed the exhausted Turks, who retired in disorder. The prisoners include the famous Kurd leader, Simko."

SWOBODA WAS FORMER GERMAN ARMY OFFICER

Man On Trial For Espionage Has Had Adventurous Life.

[Canadian Press.]
Paris, May 5.—Raymond "Swoboda," whose arrest was due to the fire in the steamship La Touraine, and who now is charged with espionage by the French military authorities, once served as a reserve officer in the German army, according to information the Petit Parisien says it has obtained.

"Swoboda" has an adventurous life, the newspaper says, if stories told by his acquaintances are to be believed. He was born in San Francisco by was taken by his mother to Switzerland at the age of five, after she had had a disagreement with his father. "Details have been received here of the defeat by the Russians of a Turkish army corps in the Caucasus. An effort was made by 30,000 Turks under David Pasha to invade the Dilman-Khori region, which the Russians occupied."

"The entire Turkish force was hurled against the Russian positions, but the Muscovites, although numerically inferior, held their ground. Each successive attack was repulsed at the bayonet point. FIERY BATTLE IN EXPECTED SOON IN BALKAN PROVINCES

Pressure of Enemy East of
Cracow Believed Prelim-
inary To This.

GERMAN PLAN DOUBTFUL
Many Attacks Probably Made
in Hope of Confusing
Russians.

[Canadian Press.]
London, May 6.—The Petrograd
special dispatches to the London news-
papers today seem to indicate that
little news has been allowed to leak
out in the Russian capital concerning
the latest Austro-German attack on
the Russian forces in the east.

The Times Petrograd correspondent
in a dispatch dated Wednesday
while the Petrograd correspondent
in the Balkan provinces is fixating out
the pressure of the Austro-German forces
east of Cracow, may be regarded as
preliminary to one of the fiercest bat-
tles on this front.

The 80-mile front, from the Lower
Silesia to Gdansk, in the Carpathi-
ans, the correspondent adds, "is
now the scene of important develop-
ments. It is premature to infer that
the enemy already has deployed its
main bodies. The nature of the hostil-
ity grouping in the strictly defined
sections rather indicates that the ob-
servations are engaged with the ob-
ject of screening the deployment of
large Austro-German forces.

Danger at Cracow.
The proximity of the main concentra-
tion near Cracow, which is admirably
adapted to serve as a cover, lends cred-
ence to the assumption that the main
confrontation will be the main activity
of the foe, whose object is apparently to
turn our position in the Carpathians
into a base for further operations.

The Daily Mail's Petrograd corre-
spondent writes: "It is not yet clear
whether the enemy's main blow will be
directed. All the Germans and Aus-
trians have done up to the present is
to attack at many places in the hope
of confusing the Russians as to their
real objective."

Preserve Hungary.
"Hitherto the most vigorous initia-
tive has been shown in the Cracow
region. The German plan is to keep the
out of Hungary. Wheat there is
sprouting, and on it the Germans and
Austrians depend for their next win-
ter's bread. The Lubau adventure is
not regarded seriously here. Fortu-
nately Russia has now plenty of men
for the front."

According to the Morning Post's
Petrograd report prisoners captured by

strategy is to keep the Russian army

Vienna, Wednesday, May 5, via Lon-
don, May 6, 2:40 p.m.—A battle of the
most desperate kind is continuing all
night long and throughout today with-
out a break on the West Galician front.
The Austro-German armies continued
to gain ground in the southern section
of the battle front, capturing position
after position from the Russians.

FOURTEEN YEARS FOR NIPISING DYNAMITER

Accomplices of Siskoe Each Get Three
Months—Detective Censured.

[Canadian Press.]
Halleybury, Ont., May 5.—The trial on
the charge of conspiracy to blow up the
Nipissing Mining Company's powder
magazine in February was opened at
Halleybury yesterday afternoon, when
John Siskoe and Walter Hensell, two
German spies, were tried separately
from Thomas Siskoe.

No "What" Action.
The crown attorney said the crown
has no suggestion that the act had any
national significance, or that the
defendants had any enmity to the British
Empire.

Tom Siskoe persisted in his evidence
that the other two had hired him for
days to blow up the magazine, and sup-
plied him with powder and fuse when
he was drinking.

Inspector Duncan, of Toronto, who in-
vestigated the case for the Nipissing
Mining Company, recited his methods
of examining prisoners and the system
was strongly commented on by the
judge as most reprehensible. "It is
done in Toronto," said Mr. Duncan.

"Yes, and in American cities," added
the judge, but I won't allow it in cases
before me. Emphatic denials were
given by both prisoners of any knowl-
edge of Tom's purpose, although they
admitted stealing the powder and fuse
for him.

The jury retired about 1 o'clock this
morning and returned about 3:30 with a
verdict of "not guilty."

Fourteen Years.
Tom Siskoe pleaded guilty this morn-
ing to charges of lighting the fuse,
conspiracy and the theft of provisions.
He received sentences of 14 years (the
maximum), two years and three months,
respectively, all the sentences to run
concurrently. John Siskoe and Walter
Hensell pleaded guilty to supplying
Tom Siskoe with the powder and fuse,
and to stealing the same, and received
three months on each count, the sen-
tences to run concurrently.

PAST WEEK RAISED SPIRITS IN BERLIN Effect of Reported Successes Visible in Greater Optimism.

[Canadian Press.]
Berlin, May 6, via London, 2:30 p.m.—
The military developments of the last
week have had a visible effect on popu-
lar feeling in Berlin, which is decidedly
more optimistic. Operations in the
Russian province of Courland on the
Baltic, in Galicia and in Belorussia in-
dicate that German forces are taking the
offensive on a large scale, and that
greater events are to be expected.

It is understood in well-informed
quarters that the German troops in
Courland have now reached the port of
the Baltic, which probably will be attacked
by land and sea.

Von Hindenburg's Design.
Field Marshal Von Hindenburg him-
self is in command here. His design
appears to be to take Lubau and
Pleske as well, and then move
on to the Baltic. The Russian
communications with Petrograd.
The Russians already have sent from
Kovno reinforcements for retarding
these operations, the results of which
must soon be apparent. The Russians
also are attempting to resist the Aus-
trian advance in Galicia, having brought up reinforcements
from the Carpathians for that purpose.
Information received here, however, in-
dicates that the Austrians are being
swept along before the Teutonic allies,
or else captured, as were the previous
defenders of the Russian positions.

Austrian Reports.
Austrian reports state that there is
in progress a general Russian retreat
from the Carpathians to the south of
Kukla Pass, in Hungary, where the
Austrians are attacking upon an im-
pregnable Austrian front, entailing
heavy losses of the enemy. The
initiative of the invaders.

Further developments in Galicia are
awaited here with breathless interest.
It is believed that the events on
this section of the front may give a
decisive turn to the entire eastern cam-
paign. The view held here is that the
whole Russian position in the Carpa-
thians has now become precarious.

Londoners Glory In Splendid Feat of Canadian Trio

Field Artillery Men Who Re-
captured Guns From Ger-
mans Performed Valo-
rious Deed.

Londoners glory in the splendid
valorous feat of the three members
of the 1st Ontario Artillery Brigade,
who in the recent battle at Langemarck
recaptured four guns which had been
taken by the Germans following a subse-
quent falling of the submachine gun
back of Canadians after gas bombs
had been hurled into their midst
by brutal vassals of the Kaiser.
The feat was accomplished by J. Wheeler,
of that brigade, tells the story of the
recapture of the guns without any
unnecessary detail, merely stating
the bare facts which show the
barrenness of the reading, must have
been glorious to witness.

The 6th Field Battery, under the
command of Major Leonard, forms a
unit of the 3rd Brigade, and it is
quite probable that the other
two men mentioned as being
concerned in the recapture of the guns
were also members of the brigade.

"There were three of us," says
Wheeler, commencing his short
description of the feat. "Imagining
a trio of plucky Canadians un-
flinchingly breasting that hail of
shot and shrapnel with hearts
beating and courage undaunted.
The will was there and the action.
"Our officers said to us, 'Well,
boys, do you see those guns? If
you like you can try to get them.'
No halting command that. Just a
plain statement of facts and a hid-
den query quietly spoken. And the
three of us, with a field of grain
lay between us and them. The
German fire was pouring around
us. WE GALLOPED to the guns.
We were tickled to death at a
chance of getting through."

And they got through. They
leaped on their horses, confident
of the success of their venture. What
was death to the glory of the
three accomplishments. Their
horses were shot at. The riders,
Picture that dash. Imagine the
animals leaping ditches and
moving down grain, as the
lancers rush for the pieces of art
illery made.

The first gun is reached. Amid
the hail of shot and bullets, the
battery is brought back to
Canadian lines.

There are other pieces, however.
That must be gotten too. The
three of us, with a field of grain
lay between us and them. The
German fire was pouring around
us. WE GALLOPED to the guns.
We were tickled to death at a
chance of getting through."

SAYS WOMEN MERELY SOLDIER PRODUCERS

Jane Addams, in Amsterdam, Speaks
Strongly Against Wars.

[Canadian Press.]
Amsterdam, via London, May 6.—
Miss Jane Addams, of Chicago, ad-
dressing a large assembly of Dutch
women last night, said women had
again become mere soldier producers
in the present day, and that wars
showed an increasing tendency to
break down the relationship of the
family, which had become the modern
unit of civilization. This modern unit
of civilization, she believed, was
being destroyed by the wars, and
women were being turned into
soldier producers.

Modern wars, Miss Addams con-
tinued, were a return to the old tribal
state, in which men were forced as a
body to defend their country, but not
permitted to defend their home.
except under special rules and in pre-
scribed wars. Women's work must
be, despite wars, to keep the family
relationships, and to prevent the influ-
ence of war from reaching the home.
Woman must see that the child is
deprived of no hard-earned right of
freedom and opportunity by the war.
The war is a disaster to the family.

Mrs. Petrick-Lawrence.

FORTS BOMBARDED AGAIN

Towns of Dardanelles, Maidos
and Gallipoli, Abaze From
Shell Fire.

[Canadian Press.]
PARIS, May 6.—12:30 a.m.—News
from Mytilene received by the Hava
Agency, by way of Athens, says that
Turkish prisoners who have arrived at
Tenedos admit that the Turkish army
has suffered enormous losses from the
combined fire of the guns of the fleet
and the quick-firing of the expedition-
ary forces.

The Allies, according to reliable in-
formation, occupied a number of
strategic positions on May 4, and the
land forces continue to receive rein-
forcements daily.

DESTRUCTION IS TERRIBLE.

CONSTANTINOPLE, May 4.—(Via
London, May 6.—2:07 a.m.)—Despite
the decision of the Turkish Government
to refuse all correspondents access to
the Dardanelles region, exception was
made in the case of two Germans and
the Associated Press correspondent.
The party arrived on the night of May
1, while the town of Dardanelles, after
50 hours, was still ablaze. The scene
was one of desolation, with crumpled
walls and houses.

Maidos also was burned, and yester-
day the town of Gallipoli was set
ablaze—albeit by indirect fire from the
Gulf of Suez, with lightning shells
directed by captive balloons and aero-
planes.

Incessant and heavy fighting on the
Gallipoli Peninsula has continued from
the first landing of the allied forces,
but details of the new campaign can-
not be told for military reasons. The
Turks themselves, so far as is known,
have not been seriously attacked since
the reopening of the operations, but
yesterday their ships were seen and
heard off Seddul Bahr, firing intermit-
tently.

The Turkish war office gave out the
following statement today:

"An attempt of the enemy to land
troops near Gaba Tepeh, south of Avi-
burnu, yesterday morning, failed.
"The night before last our troops
attacked Seddul Bahr, in spite of a
bombardment by the enemy's fleet, and
drove them out of their trenches, cap-
turing machine guns.
"Yesterday the Russian fleet suc-
cessfully bombarded the undefended
village of Igneaden."

**TOM HAYGARTH
SELLS HIS LEASE**

**Must Deliver Store to New
Owners on Monday.**

Has Three Full Days to Dispose of His
Stock and Fixtures and Make
Way for a Shoe Store.

As he promised in recent advertise-
ments, Captain Haygarth has disposed
of his lease of the store at 182 Dundas
street to one of the oldest and best
known shoe merchants in Western
Ontario—John Agnew, Limited—with a
wholesale depot in Brantford and stores
in other cities.

Mr. Baughn, a member of the
Agnew Company, was in the city last
week, and the deal was closed by tele-
graph.

"The big shoe firm want possession
of my store at once. They have given
me until Monday to clear out my whole
stock and fixtures," said Captain Hay-
garth.

"On Thursday, Friday and Saturday,
I will present my customers with the
best bargains they ever heard of. It's
a forced sale with me. I have to give
my other duties first call, and have
been able to give this store limited at-
tention only, and that has been given
solely through the courtesy of my com-
manding officer. As quartermaster, I
have to look after the comforts of my
whole regiment."

The sweeping sale of clothes and
haberdashery opens on Thursday at
8 o'clock, and continues until Saturday
night at 11 o'clock. A director of the
Semi-ready Company has promised to
be in the city on Friday and Saturday
to assist Captain Haygarth in the
final adjustment of his lease.

**CAPTIVE CANADIAN
SENDS WORD HOME**

TORONTO, May 5.—To Toronto to-
night came a message from Capt.
George Mackenzie Alexander, of the
48th Highlanders, who was taken pris-
oner by the Germans at Langemark.
The news brought cheer to the friends
of the officer, who was in command of
No. 2 Company, 15th Battalion, but
is also of interest, inasmuch as it
shows that the Germans are permitting
captive Canadians to communicate
with their friends. Further messages
from prisoners may consequently be
expected.

**GERMANS BRINGING
UP FRESH FORCES**

Throwing Troops of Great
Strength Into Galicia, Says
Petrograd.

USING MASSED FORMATION

Prussians Send Sea Forces
Against the Baltic
Provinces.

[Canadian Press.]

PETROGRAD, May 5.—(Via London.)
—The following official communication
was issued by the Russian War Office
tonight:

"An enemy cruiser and other small
battleships were sighted off Libau
today.

"In the region of Rosten (Kovno
Province) we are successfully advanc-
ing. On the other fronts, as far as the
Upper Vistula, there is no change.

"In Galicia the fighting between the
Vistula and the Carpathians is develop-
ing with unvarying stubbornness. The
Germans have brought up to the fight-
ing line fresh forces of great strength,
supported by very numerous artillery.
The enemy, following his old tactics of
attacking in massed formation, is suf-
fering enormous losses. Some of our
units fell back to the second line of
fortifications after desperate fighting.

"During the night of May 2-3, in the
direction of Stry, the enemy recaptured
part of the trenches on Mount Makivka.
The following night we counter-
attacked and dislodged the enemy. We
captured here over 1,200 prisoners, in-
cluding 20 officers.

"In the region of Angelow, on the
Upper Lomita, the enemy on May 3
assumed the offensive on a somewhat
extensive front, but the movement was
barren of results."

BERLIN REPORT.

BERLIN, May 5.—The following re-
port on the eastern situation was issued
today:

"Attacks from Rostinis, coming from
the southeast, were repulsed. The
enemy is being pursued at Kalwarya,
also northeast of Suwalki and east of
Augustow numerous Russian
prisoners taken. Four hundred Russians
all were taken prisoner.

"On the remainder of the front there
were a few fights at close quarters,
all of which were decided in our
favor.

"Southeastern theatre of war: An
attack by the allied troops north of
the wooded Carpathians pierced
through the third fortified line of the
Russians, who yesterday were de-
feated along the entire front, retreat-
ing toward the Wisloka River. The
magnitude of the victory may be seen
from the fact that, owing to the
piercing by the allies of the enemy's
lines, the Russians are beginning to
evacuate their protected positions, on
their northern flank, in the wooded
Carpathians southwest of Duka.

"The rapidity with which our suc-
cesses have been achieved makes it
impossible to give an idea in figures
of the booty taken in this victory. Ac-
cording to reports at hand, the num-
ber of prisoners taken up to the pre-
sent amounts to over 30,000."

AUSTRIAN REPORT.

VIENNA, May 5.—(Via London, 6:30
a.m.)—The Austrian War Department
today issued an official statement read-
ing as follows:

"An attempt of the Russian front of Zbor-
otro-Pupkow, in the Beskid Moun-
tains, has become untenable. As the
victorious allies are continually advanc-
ing from the west toward Jaslow and
Zagrod, the enemy on the west Car-
pathian front started this morning in
full retreat from Hungary, pursued by
the Austro-German troops.

"The Russians, therefore, were beaten
on a front of 150 kilometres (93 miles),
and were forced to retreat with the
heaviest losses. On the remainder of
our front the situation is unchanged."

**LORD BROOKE TO
COMMAND INFANTRY
IN SECOND FORCE**

Announcement Made by Gen. Hughes
—Meet Men in England.

MONTREAL, May 5.—Col. Lord
Brooke, chief aide de camp to Sir John
French is to take command of the On-
tario Infantry brigade with the second
Canadian expeditionary force, so Major-
General Sam Hughes, minister of
militia, announced tonight, at the
Windor Hotel, Montreal. Major-Gen-
eral Hughes stated that this appoint-
ment was the outcome of cable commu-
nications with Lord Kitchener and Sir
John French.

It is understood that Colonel Sep-
timus Denison, temporarily in command
of the Ontario Infantry brigade, will
go with the brigade to England, and
there hand over the command to Lord
Brooke, who will be in charge during
the training, as well as when the bri-
gade goes to the front. Colonel Den-
ison is not in good health.

Colonel Leopold Guy Francis May-
nard Greville, Lord Brooke, M. V. O.,
the eldest son of the Earl of Warwick,
has devoted his life to military work.
He served several months in 1914 as
camp commandant at Petawawa, where

for delay—altogether, approximately
\$130,000. The original value of the cargo
