FATAL FALL

Tilbury Farmer Missed the Bridge in the Dark and Was Hurled to Death.

Large Load of Lumber Fell Upon Him and Death was instantaneous Was Highly Respected.

Tilbury, Nov. 9 .- John W. Hornick, well known and highly respected farmer, of Tilbury East, met with a sudden death on Saturday evening

lumber, and had reached the bridge at his farm, where there is a very deep ditch.

It is thought that in the dark he made toe short a turn and the hind wheels of the wagon missed the bridge, throwing him into the ditch with the lumber on top of him, killing him instantly.

The funeral will leave his late residence to-morrow afternoon at 12.30, for the Methodist Church here, where service will be held, after which the remains will be taken to the Malott Cemetery for interment.

BUFFALO FIREMEN TO THE RESCUE AT FORT ERIE.

A Destructive Fire Threatened the Village-Bullman Bros.' Lithographing Establishment at Winnipeg Damaged-Strathroy Manufacturing Company Burned Out.

Winnipeg, Nov. 9.—Bullman Bros. lithographing stockroom was gutted by fire at an early hour on Saturday morning. The loss will be about \$8,000. The flames did not in any way injure the plant of the firm owing to prompt work on the part of the fire brigade.
Strathroy, Nov. 9.—A fire started in the
Cameron & Dunn Manufacturing Company's building about 12.45 Saturday,
originating in the bolier-room, which, with
the main building and contents, was entirely destroyed. The loss will be from
\$15,000 to \$20,000. The fire will mean a
great loss to Strathroy, as about forty
men will be thrown out of employment.
Fort Erie, Nov. 9.—A fire broke out in
the most thickly populated portion of
this village about 8 o'clock Sunday,
which for a time threatened to destroy
the whole village. There were several
dwelling and the Methodist church on
Queen street burn d, also Mr. Bridgman's
residence on Pra. cess street. The fire
burned fercely until the chemical from
Buffalo arrived. The firemen worked
bravely. The fire originated in the home
of Mr. Dickey on Queen street. It is
not known what the loss will amount

HEAD OF NEW YORK POLICE.

Office of Commissioner Offered to

Col. G. R. Dyer.

New York, Nov. 9.—The Mali and Express says that Colonel George R. Dyer, commander of the Twelfth Regiment, New York National Guard, has been asked by Mayor-elect McClellan to accept the office of Commissioner of Police under the new commissioner of Police under the new city administration. According to The Mail and Express Colonel Dyer has the offer under consideration and is consulting his friends before deciding to accept it. Colonel Dyer is a son of former Governor Elisha Dyer of Rhode Island. He is a banker and served in the Spanish-American war as Major of volunteers.

DYNAMITE AT THE SOO.

Attempt to Wreck Headgates of the American Canal.

Sault Ste. Marie, Nov. 9 .- An attempt to destroy the head gates of the water-power canal in the American Soo was frustrated by the watchman Soo was frustrated by the watchman Friday. About midnight he heard some men about, and when he went to investigate they ran. The watchman fired a couple of shots at them, but neither took effect. The town police were notified, and in the search that followed three sticks of dynamite were found. Saturday three more sticks of dynamite were discovered about the gates.

Open Letter By Mr. Whitney Demanding by What Right North Renfrew is Kept Vacant.

Patience of People Taxed to the Uttermost-Earning Repu-Freebooter.

Toronto, Nov .7 .- Mr. J. P. Whitaey has addressed the following open letter to Premier Ross, protesting against the delay in bringing on the bye-election in North Renfrew :-

Morrisburg, Nov. 6, 1903. The Hon. G. W. Ross, Premier, etc., Toronto:

as a member of the Legisliture, and representing a large majority of the electors of the Frivince, I take it upon myself to write you this open letter with reference to the vacancy in

North Renfrew.

The late member, Mr. Munro, died a few days after the general election of 1902, and the constituency is still without a representative in the Legislature after the lapse of nearly cigh-

een months.

About the middle of last session—
I have not the exact date at hand—the
existence of the vacancy was brought to the attention of the Speaker, who later on informed the House that no had issued his warrant, directing the issue of the writ.

No attention has been paid to the Speaker's warrant, and the writ has not been issued, while pye-elections have been held in two constituences.

sue of this writ.

How dare you - presumably the guardian of the rights and liberties of the people—say, in effect, to the elec-tors of North Renfrew that they shal' be permitted to have representation in the Legislature just when, and only when, it may suit your purposes?

Monroeism Does Not Prevent Powers From Protecting Their Subjects.

The Hague, Nov. 9.-Prof. Pieran toni, before the Venezuelan Arbitration Tribunal, continuing his argument for Italy, declared that the obment for Italy, declared that the objections to the employment of force were purely sentimental, and that sentiment ought to be left to women. The blockade had excellent results, as it forced Venezuela to recognize her responsibility for damages resulting from the civil war. The United States, the professor continued, had been "distillusioned as to Monroeism preventing the European powers from interfering to protect their citizens."

PENRHYN STRIKE OVER.

Men to Return to Work Without Having Obtained Concessions.

London, Nov. 9.-The strike in the slate quarries at Port Penrhyn, North Wales, which has been maintained for the last three years, entailing great exthe workmen, has collapsed, the men voting to return to work without having obtained a single concession from the owner, Lord Penrhyn. The strike has been a subject of national interest and was brought up at the last session of Parliament in the hope of settlement, but without avail.

MURDEROUS ASSAULT.

FANNIE M'GARVEY WOUNDS HER UNCLE.

A Demented Young Woman Attacks Patrick Upton With an Axe and Smashes His Skull-Shocking Affair at Strathroy.

Strathroy, Nov. 8. - An incident which will in all probability result in the death of a resident of Adelaide township and a murder trial took place in the west end here at 8.30 Saturday evening. The unfortunate victim of the occurrence is Patrick Upton, aged 45, and the would-be slayer his niece, Fanny McGarvey, aged 38. It appears that Miss McGarvey

has been keeping house for Upton, who is single, for the past nine-teen years, and it is said that at times she is subject to spells of mental ab-erration. According to her own statement she attempted the life of typen in order to save him from some horrible torment, which had appeared to her in a vision. This is also borne out by members of the family, who claim that she has been slightly demented for a number of years. Up-ton drove to Strathroy from his home, seven miles from town, yesterday atternoon, and called at the McGarvey, residence, where he partook of supper with the family.

At the conclusion of the meal the party sat around the kitchen fire in social conversation. Mr. and Mrs. Edward McGarvey,

the party sat around the kitchen fire in social conversation. Mr. and Mrs. Edward McGarvey, their three children, Miss Fanny Appleton and Miss Fanny McGarvey were in the room. McGarvey was lying on a lounge to the right of Upton, who was sitting in a chair before the fire. Misses Appleton and McGarvey were seated at the left and slightly to the rear of him. During the conversation, the accused, without a moment's warning or the least provocation, arose and producing a short-handled axe from-beneath her cape approached Upton before her cape approached Upton before her purpose was grasped by those present, and, taking the weapon in both hands, brought it down with terrific force upon his head, inflicting a wound from which his brains oozed out. Upton fell across his chair, and received two more heavy blows before his assailant could be overpowered. Miss Appleton immediately notified Chief of Police Wilson, who entered the house and placed the accused under arrest, and she was soon behind prison bars.

London, Nov. 9.—Fanny McGarvey, the woman who murderously ather cape approached Upton before

the woman who murderously attacked her uncle, Patrick Upton, at Strathroy, was lodged in the county jail here about 10 o'clock by Chief of Police Wilson of that town. She was examined by Dr. McArthur, the jail physician, who pronounces her insane, with a strong homicidal tendency. She told a strong homicidal tendency. She told the doctor that her reason for attempting her uncle's life was because he had done something which would send him to Kingston, where anarchists, who had been after him for some time, would torture him to death, and she thought it would be better for her to kill him they that he should suffer torture. The than that he should suffer torture. The physician ordered her isolated as a precautionary measure. At last accounts Upton was still alive, but the doctors say he cannot recover.

WILL NEWFOUNDLAND COME

IN?

Newfoundland, Britain's oldest colony, promises to furnish a sensation in the near future. It will be in the nature of a question as to whe ther the island shall become a part of Canada and remain British, or keep its nominal standing as a British colony, while leaning towards annexation, practically, with the United States. The present governing party, headed by Sir Robert Bond, carried the last election on the issue of the adoption of the Bond-Blaine reciprocal treaty, while the former Premier, Sir William Whiteway, and his colleague, Attorney-General Donald Morrison, opposed the proposal and advocated union with Canada. The Unionists have announced their determination to appeal to the country next year on that basis, opposing both the Bond ministry and the regular opposition, headed by Mr. Alfred Morine. The result will be awaited with interest. Doubtless the Chamberlain policy of uniting the mother country and colonies more firmly will be a factor in the campaign, and with a British preference to colonial products, a powerful in-fluence will be wielded in favor of rounding off the Dominion by making Newfoundland a part of the premier

A NATIONAL DISEASE.

The New York press cherishes no illusions in regard to the Tammany victory in that city, comments the Toronto Star. It is recognized as a triumph of evil, achieved by the aid of all those who desire to cheat the laws of their neighbors, and assisted by the criminal carelessness of the

On former occasions Tammany vic tories were explained on the theory that New York was so lazy that it turned its Government over to any set of men, so long as it was assured that the town would run smoothly until the next election. The people asked only that the corruption and brigandage should not be discovered. They expected to be robbed, but that was a price they were willing to pay to avoid being bothered. It was stated that 'New York's heart was in the right place, and that she would mete out punishment if she realized that Tammany methods caused actual suffering.

Two years ago the infamies of Tammany were laid bare, the homes ruined, the young girls debauched, the frightful white slavery of the brothels, whose ministers were the police and the ward bosses. New York was horrified, and the result was the election of Low, and a reign of decency and enforcement of the law. decency and enforcement of the law.

It does not transpire that New York
ran less smoothly under Mayor Low
and a Fusion cabinet than it did
under VanWyck and his Tammany cost little or nothing, or to attend our institution, say ten months—the electors were bothered by having any governing to do; but it does appear that they were not robbed and that millions of dollars were saved in the management of the public works. In spite of all this, New York last Tuesday returned like a dog to its vomit. It went back to the old rottenness by a majority of 70,000 in an aggregate of 600,000 electors. Speaking roundly, two-thirds tors. Speaking roundly, two-thirds of the great city of New York declared for & government of shame and wickedness

The New York newspapers present the conclusion that this result was due to the grafters and red lighters all those, from the highest to the lowest, who wish to do something wrong or something less than their contract. In other words, they do not respect the law, and this is a text on which the press of the United States might moralize. Grafting and red lighting in great cities, the wholesale pur chase of Legislatures, the cynical brigandage of municipal politics, negro lynchings, mob violence, all these are symptoms of the same disease. So eminent a man as Grover Cleveland has warned the nation that this disrespect for the law may undermine constitutional structure. The constitution of the United States is supposed to be a daedalean instru ment, in which the spirit of democracy is weighted with a cunning apparatus of authority-the President and the Senate. The constitution was drafted by Alexander Hamilton, an admirer of British institutions, and as far as he was able he made the Republic of the United States of America in sem blance a democracy, in fact a limited monarchy. It is too large a question to discuss where he made mistakes, but, somehow or other, the constitution of the United States has not worked out as Hamilton thought it would. The Republic does not even respect the authority it delegates to

Hood's Sarsaparilla promises to cure and keeps the promise.

its representatives. It does not respect authority at all, and, in that ragard, approaches what Hamilton dreaded most of all, a democracy in which everyone, conceiving himself the equal of everyone else, should at his own pleasure obey or disobey the laws, which he had helped to make, and which he could unmake to-morrow. This contempt for the law in the United States is aggravated by the brazen greed and heartlessness of tha rich, who have no feudal traditions to make them kind to their dependents, and by the desperace hatred of the struggles between labor and capital.

The Letter-Box

FIGURE IT OUT FOR YOURSELF. To the Editor of The Planet:

In my former letter I promised to give some figures in a later letter give some figures in a later letter to prove that it pays better, much better, to take a course in a thor-oughly equipped, up-to-date business college with a Tull staff of com-petent instructors, where every-thing unnecessary to the business student is eliminated from the course of training, and where a bright student is eliminated from the course of training, and where a bright student may finish his course and be graduated in from five to eight months and ready for a position, than it does to spend the same time

and money in any other way, to amprove his earning power.

We can prepare a student for a position worth from \$50 to \$80 per month in from tive to ten months' time. Do you know of any other line where the same time and money required will preduce such gratifying quired will produce such gratifying results? and what is of equally as great importance is the fact that we can place him in some such posi-tion when graduated. Some of our former students, Kent

County boys, who were graduated about five years ago, are commanding \$1,000 per annum and over. One of them is receiving at the rate of \$2,500. He earned about \$350 as a public school teacher before he came to be one \$1.00 pid it early thin to come \$2.00. to use Did it pay him to come? You

week \$100, clothing say \$50, other incidentals for the year say \$25. These figures show more than the expenses would be to many boys who have been taught to be economical, but I think they represent a fair average and will serve the purpose intended, which is simply to make a comparison. The total cost as here indicated would be \$257.00. This would be the necessary outlay for the college boy to get himself ready for work, and if he can finish his course in six months, if would make course in six months, it would make the cost from \$60 to \$75 less than is shown, with a further saving per-

Here are the figures to represent the cost of the boy who is attending some other school where he must spend two years at least in getting has preparation. Two years' board at the same figure, \$2.50 per week for 104 weeks would mean an outlay of \$260 for board alone. Clothing at \$260 for board adone. Olothing at the same cost per year, as figured on in the other case, would mean \$100 more; incidentals at \$25 per year for two years, a further cost of \$50 books from \$10 to \$15. The cost of the one who would be called upon to spend two years in his preparation would therefore be \$420.00, even if he had no fees to pay. But is he the gainer on this account? Let us

Here is how it is nikely to stand at the end of two years. The col-lege trained boy has been at work for 14 months, at least, because we to 14 months, at reast, because we can place him at \$50 to \$80 per month as soon as he is capable. At \$50 per month the would have earned \$700 at the end of two years, and having spent but 10 months or less at school he will have been at work 14 months or more. If he can iceop his expenses within the same limit as when altending college, his outlay during the 14 months would be for board \$140, clothing say \$60, incidentals say \$30, entire outlay \$230, but he has earned \$700 so that

To sum it up in a few words, the student who has chosen some other student who has chosen some other way of getting his training is simply handicapped in the race with the col-lege-trained young man. Results bear out every argument advanced here in favor of the Business College

bear out every argument advanced here in favor of the Business College trained youth.

In happening to meet Mr. White, of Blenheim, this morning, this difference was brought very forcibly before me. His son Arthur took a course with us about five years ago, and after completing his work entered banks. Although only a boy of 15 or 16 when he left us, yet to-day he is holding the position of accountant in the second largest branch of this bank in Nova Scotia and has been placed over the head of men who have been 10 years in the service of the bank, and yet even now he is only about 20 years of age. Did it pay him to be thoroughly trained before sitarting out? Most assuredly it did. Hundreds of similar cases could be cited.

Dodd's Kidney Pills are Clearing out Kidney Disease

Richard Quirk, One of a Score Cured in One Neighborhood, Tells How Pains of Twenty Years Standing Vanished Before the Great Kidney

Fortune Harbour, Nfld., Nov. Fortune Harbour, NIId., Nov. 9.—
(Special).—There are a score of people in this neighborhood who suffered from Lame Back and other symptoms of Kidney Disease and who are now strong and healthy, thanks to Dodd's Kidney Pills. One of the most serious cases cured is that of Mr. Eichard Quirk, and in an interview heave.

"I suffered for more than twenty years from Lumbago and Kidney Disease. I almost always had a severe pain in my back, so severe that during intervals for years I was totally unable to work.

"Doctors and medicines gave me little relief and after ten or twelve little relief and after ten or twelve years I had almost made up my mind that my trouble was incurable. Then reading of cures by them led me to try 'Dodd's Kidney Pills. I had not taken half a box before I experienced relief and after using seven or eight boxes I was a perfect cure and a new man. The cure was per-manent."

EXHIBIT FOR SPORTSMEN'S SHOW

The Grand Trunk Railway System have shipped their extensive exhibit that will be installed in the International Sportsmen's Show, which is to that will be installed in the International Sportsmen's Show, which is to be held in the Coliseum, at Chicago, November 7th to 28th. The exhibit will comprise, in addition to a series of the best pictures depicting scenes along their lines in Canada, including the many districts in the "Highlands of Cntario," one of the most comprehensive and complete collections of fish native to Canadian waters. In this will be some of the best specimens that have ever been taken of the maskinonge, small-mouthed bass, wall-eyed pike, brook trout, ouananiche, land-locked salmon, etc. This fish exhibit is one that the Grand Trunk has been collecting for the past three of four-years, and it is, without doubt, the finest in America, not only as to the sizes and varieties of fishes, but in their unique way of having been mounted. Many anglers have seen this exhibit and speak in the highest terms of the collection.

The space that the Grand Trunk se-

cured at the coming show is 1,000 square feet, which will give the company a good opportunity of making a very attractive showing.

He wants to hear from men who have stricture that they have been unable to get cured, prostatic trouble, sexual weakness, varicoccle, lost manhood, blood poison, hydrocele, emaciation of parts, impotence, etc. His wonderful method not only cures the condition itself, but likewise all the complications, such as rheumatism, bladder or kidney trouble, heart disease, nervous debility, etc.

The doctor realizes that it is one thing to make claims and another thing to back them up, so he has made it a rule not to ask for money unless he cures you, and when you are cured he feels sure that you will willingly pay him a small fee. London, Nov. 7.—The Dublin cor-respondent of The Times, referring to Mr. William O'Brien's retirement from mr. William O'Brien's retirement from public life, says he cannot remain idle. He will be a disturbing force in Irish politics so long as his health permits. In addition to possible financial embarrassments, Sexton, Dillon and Davitt may have to reckon with the danger of a rapprochement between the O'Brien and Healyite sections in Irish publics.

One of the stock stories about tipping is that of the waiter in a swell hotel sneering at a quarter and remarking to the giver: "I beg pardon, haven't you made a mistake?" A few haven't you made a mistake?" A few nights ago, in the main dining-room of the Waldorf-Astoria, where tips range firmo a quarter to \$5, a westerner said to his two companions: 'Watch me paralyze this waiter, ke ain't worth a cuss. He hasn't showed us any etara attention, and doesn't deserve a cent, but here goes."

Minard's Lin ment Cures Garget in

Panama Republic Regarded as Fully Established.

Washington, Nov. 7 .- The United States Government has recognized the de facto Government of Panama. It was announced at the State Department after the return of Secretary Hay from the Cabinet meeting that instructions have been sent to United States Minister Beaupre at Bogota (assuming that he has not left the capital yet), and to Mr. Ehrman, the United States Vice-Consul at Panama, and now acting Consul there, to inform the Governments of Colombia and Panama respectively that the de facto Gov-

ernment is recognized.

Commander Hubbard cabled that the isthmus, from one end to the other was in the hands of the revolutionists isthmus, from one end to the other, was in the hands of the revolutionists. This statement is of the greatest importance, as the United States Government, being bound by treaty to maintain order and preserve free traffic across the isthmus, is now under the obligation to prevent any hostile collisions, either along the line of the Panama railway or at the termini, Panama and Colon. Thus the future attitude of the Colombian Government towards the new republic of Panama becomes of little importance, for it is practically impossible for it to go towar with Panama. Officials here familiar with the country declare that it is impossible to move a Colombian army overland to the isthmus owing to the character of the country. On the other hand, if an attempt is made to bring troops either to Colon or Panama by troops either to Colon or Panama by water, the United States naval officers at those points would interfere. Thus, by force of treaty obligations requiring the maintenance of order across the isthmus as a necessary condition to free transit, the United States Govern-ment practically has been placed in the position of a protector to the new re-public of Panama, regardless of any bias on the part of the United States Government towards either party to the

Government towards either party to the strife in Colombia.

City of Mexico, Nov. 7.—There is great public interest here in the Panama revolution, and the undercurrent of talk in clerical party circles, where Colombia is regarded as in sympathy with the clerical party programme, is that the American authorities are the secret promoters of this disturbance, and are planning to seize the Panama region

4,800 HATS DESTROYED. Malicious Damage in a Brockville

Factory. Brockville, Nov. 7 .- Thursday C. J. Altman, late of the firm of Saulnier, Decelles & Altman, Union Hat Works, here, was arrested, charged with being a party to mutilating goods in process of manufacture, with a view to rendering them useless. It is alleged that about four hundred dozen hats were destroyed by a small hole being punched in their tops before they were stretched. The damage is estimated at \$2,500. Altman retired from the firm about a month ago.

TO REFORM WAR OFFICE. British Government has Appointed a Committee.

London, Nov. 7.—It was officially announced that Premier Balfour, with King Edward's approval, has, after consultation with the Secretary for War, appointed a committee of advise concerning the creation of a board for the administrative business of the War Office and the consequent changes involved.

The committee named consists of Viscount Esher, Admiral Sir John A. Fisher, and Col. Sir Geo. S. Clarke.

Results in Loss of Traffic to Canadian Pacific Steamers.

London, Nov. 7. - The German Government have established a control station on the frontier of Saxony in order to prevent intending emigrants passing the frontier en route to the ports of Holland or Belgium, consequently compelling every German emigrating to embark at a German port and by a saloon German steamer. This move of Germany ser-iously interferes with the Canadian Pacific Line steamers, probably causing that line the loss of 50,000 passengers.

NOT FOR MR. BRYAN. Adverse Decision in Peculiar Will Case.

New Haven, Conn., Nov. 7. - Judge Livingston W. Cleveland of the Probate court handed down a decision in the Philo S. Bennett will case, holding that a secret letter directing Mrs. Bennett, the widow, to pay William J. Bryan \$50,000, was not part of the will. The effect of this is to prevent Mr. Bryan, the famous Democratic politician, from obtaining the money mentioned in the letter unless the present decision is reversed by a higher court, or unless he should be successful in légal proceedings against Mrs. Bennett. The clause of the will upon which suit was brought reads as follows: "I give and bequeath unto my wife, Grace Imogene Bennett, the sum of fifty thousand dollars (\$50,000) in trust, however, for the purposes set forth in a sealed letter which will be found with said will." bate court handed down a decision

A GENEROUS OFFER.

Editor Planet:

I understand that the new armory will take up considerable of the base-ball diamond. If such is the case lit will deprive the city of a suitable place to hold athletic sports, such as baseball, lacrosse, flootball, etc., and would it not be a good idea to start a good healthy agitation for a suitable place to hold such igames? I will start the ball rolling myself by giving for a good long time a lease of a piece of ground that I think would be suitable. The lease of said ignound would cost nothing and at the expiration of the lease the buildings and fences could be sold or removed at the will of the management. Editor Planet:

Chatham, Oct., 31, 1903. The Chatham Gas Company, Limited,

~ ************************ Gentlemen,-I have much pleasure in dentiemen,—I have much pleasure in testifying to the advantages of using Gas Coke as a heating fuel. I' have used it for the past two seasons in my hot water furnace at the house, and find it very economical, and at the same time easy to regulate.

I may say that last winter I made a test of one ton of coal at \$7.00 per troot.

There has been a scheme on foot for some time to unite the Greenoush and New England Methodist Churches into one congregation, with their church, in South Buxton. The interest is growing and meetings are being held to discuss the situation. The matter of the Sabbath schools seems to be a strong factor in opposition to the scheme, as a central school would not be as convenient for the little folks, and this is causing progress to move slowly; but it is believed that that will be the ultimate end of the struggle. Both congregations are holding meetings this week to discuss the situation. Norman Cumming visited friends in Highgate.

side points attended the convention yesterday at Guild Hall of the Ontario Lord's Day Alliance. Rev Dr. Carman, the President, was in the chair, and in his ad-

dress referred to the strong feeling of dissatisfaction created through the Privy Council's decision regarding Sunday labor. He said the decision

should be carefully weighed and every detail considered by the members of the Alliance. In referring to the general work of the association, he laid stress on the fact that the members should look to great principles rather than little ideas.

The various reports presented were adopted; after which the election of officers for the ensuing year was proceeded with and resulted as follows:—President, Rev. Principal Caven, D.D., LL.D.; Vice-Presidents, Rev. W. L. Mills, Rev. A. Carman, D.D., Rev. Chancellor Wallace, Mrs. A. O. Rutherford, J. K. Macdonald, Rev. S. D. Chown, D.D., Rev. L. Norman Tucker, D.D., and Hon. E. H. Bronson; Secretary, Rev. T. Albert Moore; Treasurer, John C. Copp.

The following letter to the Secretary was read from Mr. E. Saunders, chief officer, license branch department of Provincial Secretary:—"I am directed by the Hon. the Provincial Secretary to state, in reply to that part of your letter of the 26th ult. in which-you ask him, in effect, to make or authorize a public declaration of the policy of the Government in regard to the administration of the liquor license laws, that the Minister recognizes the reasonableness of this request, and is glad to avail himself of the opportunity thus afforded him to say, as gublicly as possible, that the department is willing, and, indeed, anxious, to do all that can be expected to be done to bring about a proper enforcement of the law, and, where it is shown that inspectors, through negligence, incapacity or other cause, fail to efficiently discharge their duties, their removal will in all cases certainly follow. The Minister desires to point out that the great difficulty in the way of satisfactory enforcement of the act, especially in large and consequently over-officered districts, must be obvious to everybody who considers the circumstances. In many districts of large area it is practically impossible for one inspector are heralded from point to point from the moment be feated, by the breakers of the law temporarily desisting, and for the moment b A large number attended the Thanksgiving service held in the Presbyterian church on Thursday afternoon of last week. Rev. Mr. Collins, of Blenheim, preached an eloquent sermon, taking for his text John 14, 6. Special music was furnished by the choir, also by Miss Johnston, of Blenheim, after which supper was served in the hall, being very much enjoyed by all present. John Padburg, of Detroit, spent a few days at his home here this week. W. D. Rev. Dr. Chown told the convention that he visited Copper Cliff recently, and found a "wide open" Sunday. An American concern, which seem to own most of the place, apparently were doing everything in their power to make the Sabbath day there just like it is in the United States.

Rev. J. G. Shearer, discussing Sunday labor on the railroads, stated that it seemed almost a useless task for the Alliance to go to the Grand Trunk for anything, as there seemed to be no conscience conpected with it.

Mr. Hays had made many promises to lessen the Sunday work of the employees of the road, but had not carried them out, and his last letter to the Executive of the Alliance, written about the time the ultra vires decision was given, hinted that he "considered the incident closed."

Naval Reserve Volunteers.

Preparations for the inauguration of the new London Naval Reserve Volun-teers are being energetically pushed for-ward, says The Daily Graphic, and before very long the sloop Buzzard, which is being fitted out for her new duties in Chatham Dockyard, will take up her moorings at Blackfriars Bridge. The Buzzard, which is a twin-screw vessel, built in 1885, is being thoroughly over-hauled and fitted with quickfiring and machine guns of the latest pattern. When the alterations are completed the masts, funnel and bridge will be removed, in order to allow the ship to pass under the London bridges, and these will be replaced when she reaches her destination. Numbers of men have been already en-listed, and more come forward daily, many enthusiastic yachtsmen being among them. The Hon. Rupert Guinness, eldest son of Lord Iveagh, will command the new body. He is well known as a yachtsman and an oarsman at Henley. The London Division will consist of not fewer than five companies, and each company of at least 100 men. Men are ex-pected to enlist for three years to earn their capitation grant and first supply of kit. They must put in forty drills in the first year and twenty-four in every subsequent year, of not less than one hour each. They may attend for this They may attend for this drill any night from 4 to 8 o'clock. There will be a cruise in some sea-going man-of-war, probably just after the man-oeuvres every year. It will be optional oeuvres every year. It will be optional for a man to take part in this cruise. but one day's service at sea will count as five drills at home.

A Curious Watch.

In one of the chief watchmaking es ablishments in Zurich, says The London Globe, there is to be seen a remarkable curiosity in the way of watch or clock making. The timeplece is in the form of a ball, which moves imperceptibly down an inclined surface, without rolling. The length of this inclined surface, which is sixteen inches long, is accomplished from top to bottom in twenty-four hours. Ther the "ball" only needs lifting to the top again. This extraordinary timepiece has no spring, and therefore needs no winding. The "hands" are kept in motion by the sliding along an inclined plane.

A Study of Whales.

Although it is a common belief among sailors that whales, when they "sound" descend to enormous depths in the ocean-and although Dr. Kukenthal has esti-mated that the larger whales commonly dive to a depth of almost two-thirds of a mile, yet, Dr. Recovifza, of the Belgian Antarctic expedition, challenges these statements, and avers that about three hundred feet is the maximum depth to which a whale can dive. He bases this statement partly on the fact that the fish on which they feed, and to obtain which they are accustomed to "sound," dwell near the surface, and partly on the fact the pressure is so great that they could not withstand it, and that their muscular into the regions where it prevails.

Johnnie had been out in the back yard playing with his ball, and suddenly came in and sat down to read. His father looked up, and seeing that he had his Sun-day school book in his hand, thought it was time to question him.

"What did you do wish the ball?"
"It went over the fence into-Brown's yard."

"Did you go after it?"

"No, papa."
"Why not?" "Because it went through the window!"

It is quite the fad nowadays to have rooms where one color predomin-ates, green rooms, red rooms, blue rooms, etc., says Public Opinion. In view of this fad it is interesting to read an article which appears in the October number of Medical Talk for the Home on the peculiar influence of different colors upon the body through the mind. "Pur-ple," it is stated, "is the most dangerous color, having a fatal effect upon the mind. If a person were confined for a month in a room with purple walls, with no color but purple around him, by the end of the month he would be a mad-man. Scarlet is as bad, but has a different effect. It produces a madness that drives a person to kill his friends, especie, ally his nearest relatives. Scarlet has something of this effect on animals. It will drive a bull or a tiger to desperation, will drive a bull or a tiger to desperation, causing them to fight till death. Blue has a drug-like effect on th brain. It stimulates the brain and excites the imagination, but if you get too much of it and cannot get away from it, its effect is terrible. Green is the king of colors. It is soothing in its effect, preserves and strengthens the eyesight, and no appropriate the control of the con amount of it can do any harm. The sky, which appears to be blue, is really white, tinged with green, and it is only the dis-tance and clearness that make it appear blue. Green is so soothing that it helps the system to fight disease, and there-fore, all sick rooms and hospital wards should have everything possible about should have everything possible about them colored green. Sage green is the most soothing tint of all. Yellow is one of the healthlest and cheerlest colors there is, and will make a dark room bright where even green would be cold and depressing. But solltary condinement within a yellow cell for a month or six weeks would hopelessly weaken the system and produce them to be written and produce them to be written and the second states and the system and the second states are second to the second s tem and produce chronic hysteria. Sheet dead-white walls will destroy the eye dead-white walls will destroy the evesight in a short time, while the effect on the brain is so maddening that blindness is almost a relief. An example of this is found in the Arctic explorers, who have to wear green-tinted glasses to avoid snow blindness, which is really white blindness."

Tortured with Pain. Too Weak to Work.

ULCERS, BOILS AND PIMPLES ALL OVER HER BODY

Such was the condition of Mrs. Samuel Deitz, Zurich, Ont.

She happily found relief from her terrible suffering by using

Burdock Blood Bitters.

A remedy without a rival for the cure of all diseases and troubles arising from bad blood. A record extending over a quarter of a century and thousands of testimonials will prove this. Mrs. Deitz writes: "Too weak to work, tortured with the pain of ulcers, boils and pimples all over my body, especially on my face. I had almost made up my mind to give up trying to have them cured. I was ashamed to have any person come to see me, my face was in such a terrible state. I tried everything I could think of but got worse and worse. I was then led to try Burdock Bloed Bitters and was surprised at the wonderful change the first bottle made. Altogether I took seven bottles and am now completely cured and am in perfect health again. I feel that B.B. B. saved my life."

A man talks about owning his business. But as a matter of fact his business owns him. His whole life is regulared by the demands of the business. The time at which he rises, his breakfast hour, the time given to meals, are all determined by business obligations. He rushes through lunch because he can't spare the time from business" to eat leisurely. He won't take a rest because he is needed at the store or office. He is in fact an absolute slave to business. The results which follow this slavery are to be seen on every hand. Men dyspeppeptic, irritable, nervous, with drawn faces, and hollow eyes, sit at the desk or stand behind the counter until they collapse in a fit of sickness, or are taken away by heart failure. Those who cannot escape the exactions of business will find a friend in Dr. Pierce's Golden Medical Discovery, It strengthens the stomach, increases A man talks about owning his busi-

In South Africa we were wont to attribute most of our fallures in galining information to the intimate knowledge of the ground on the part of the Boers, and to their natural power of concealment. These manoeuvres have, however, clearly brought out the fact that the increased range of rifles, smokeless powder, and the greater dispersion of troops will probably always cause extraordinary difficulty in obtaining information. We have had instances where a very small be dy of troops has been able, by concealment and by rapid fire, to induce the opposing force to multiply the estimate of their bearing of the proper a squadron as being a brigade. This is a point to which we must pay particular attention in future, and officers empioyed in reconnalessance must henceforthe provent of the power of mobility, coapled with a thoroughly exp

Some authorities connect "Hurrah" with a Hebrew shout of joy to Jehovah, which occurs in the Psalms. Others derive it from "Thor aide!" a war cry of the anfrom "Thor aide!" a war cry of the anciont Northmen. Others point to the Swedish and Danish "Hurra," and the German "hurren," to move quickly; or the Danish "Hurra," to buzz, with which our hurry is associated. Sir Francis Palgrave, in his "History of Normandy and England," says:—"It was a wise custom in Normandy, established by Rollo's decree, that anyone who had reason to fear damage of goods, life or limb. could raise the country by the cry "Haro!" 'Ha Raoul," justice in Duke Rollo's name. Hence our hue and cry. The old English "Harrow,' and our 'Hurrah,' are but variations of this." There are some who regard it as, merely, an imitative interjection, akin to "whurra," used by Addison in a play, 1715, or of "huzza," found in Evelyn's Diary, 1665.

Bank of England Discount Rate. The New York Commercial of Septem per 27th has an article relative to the Bank of England discount rate, which, in

Bank of England discount rate, which in part, is as follows:

Why a change in the discount rate of the Bank of England—the rate at which one bank is willing to lend mquey—should be a matter of such great importance to the money markels of the entire world is a mystery to many people. That a change in the discount rate of the Bank of England does affect the money markets in Berlin, Paris, Vienna and New York, and that it also affects the foreign exchange markets in each of these cities, and offen causes an advance or decline in their stock markets as well, is known to everyone interested in financial subjects. Why a change in the rate at which a single bank is willing to loan money should have such a world-wide effect, however, is not generally understood, even in Wall street, where brokers and speculators make their living by their intimate knowledge of financial subjects. To understand the importance of the Bank of England discount rate it must be remembered that London is the financial centre of the world.

To Study Canal System

The Rochester Chamber of Commerce sent a commissioner into Canada to study the canal system there, in operation under construction and projected, and to ascertain if the artificial waterways there stood in danger from the proposed \$10.000,000 canal across New York State, on which the people are to yote max! November. In his report to President Dunn Commissioner Dennis says that the Canadian does not feel at all disturbed about the proposed 12-foot waterway here. An adian does not feel at all disturbed about the proposed 12-foot waterway here. An American ship canal which would receive the vessels of the great lakes and take them to the seaboard with their cargoes unbroken would be regarded as a menace to Canadian commerce, but having now canals deeper thin ours will be when completed 10 to 15 years hence, if ordered by the people, the Canadians feel no apprehension about conspetition. As the Canadians abandoned their own tenfoot canals many years ago, a twelve foot waterway seems to them to be trivial in these days when engineering skill has opened up the possibilities of ship canals, the commissione says.—New York Times.

A tremendous swell was beating up from the southwest, and the small craft seemed ever and aton lost in the trough of the sea. The men had hardly cared to come out in such weather, they told us, but they had seen no ship for six months and were greatly in want of stores. They were a well-set-up body of men, some twenty in sil, and dressed, the greater number of them, in blue dungaree and home-made shoes of untanned skin. Their Governor, Joseph Beetham, a Yorkshireman, was of the type of the "grand old man." He had spent more than half his life on the island, as the standard of the sea of the secondard of the secondard and marino sheep-very diminutive, and fed chiefly on grass and ish-wild geese, crawish and potatoes. We gave them in exchange flour, split peas and oatmeal, biscuits, cocca, coffee and spirits. They had many curiosities with them, too, the skins of birds and animals chiefly, and for it; but a cake of scented soap or a packet of tobacco excited the keenest competition. One of them hoped to find a wife among the passengers, and was disappointed to learn that no one was willing to share his isolation.

WRECK AT MERRITTON. Engine and Freight Cars Smashed and Burned.

St. Catharines, Nov. 8 .- A disasrous wreck took place about 7 o'clock on Saturday evening about a mile east of Merritton, though fortunately without any fatal results. A heavy freight was coming down the grade over the Welland division to Merritton, when part of the train broke loose. The caboose and half a dozen loaded cars remained stalled on the track, the brakes having become set when they broke loose. The forward part of the train continued on to Merritton. Another heavy freight, following close behind, crashed into the stalled cars, throwing them from the track and down an embankment, also detailing the engine and a couple of cars, which followed after, and piled all in a heap on top of each other, where they took fire and burned fiercely for several hours. Some half dozen cars on the second freight train were also badly smashed in the collision. The wrecking outfit was sent for, and was soon on the scene, and by noon to-day had the track cleared. The engineer and fireman jumped in time to save themselves and escaped injury, although their escape was miraculous. part of the train broke loose. A. The caalthough their escape was miraculous.

The large wrecking derrick, when going to the wreck, came near carrying away the iron bridge crossing the track at Merritton. As it was it carried away and broke several large girders of the bridge, and damaged it to a considerable extent.

Sudden Wealth For a M'Gregor Hotelkeeper,

Windsor, Nov. 9.-Joseph Aubin, who for several years past has conducted a small hotel in the village of McGregor, Essex county, awoke yesterday morning to find himself a comparatively rich man, and with the promise that his wealth will be materially added to in the very near future. The announcement of his good-luck came in the lorm of a bank draft for fifty thousand dollars, made payable to his order by Jacques Caza, now a resident of Chili. A letter accompanied the money, and stated that the sender was not unmindful or unappreciative of a kindness done him by Aubin several years ago in Montreal. Aubin and Caza are half-brothers, sons of the same mother, who was twice married. While living in Montreal Caza was arrested, charged with the murder of his neighbor, with whom he had been on bad terms. Circumstantial evidence was strong, and as Caza was apparently without friends or money to aid him in the fight for his life in the courts, it seemed certain he must go to the gallows. He had about abandoned all hope when young Aubin came forward with his life savings, amounting to about \$1,000, and with this money eminent counsel was engaged and such a strong defence put up that the prisoner was finally acquitted. Caza soon afterwards left his native city, and his relatives heard no more of him until his letter and munificent present arrived yesterday. Caza writes that he has prospered greatly, and is now rated as a millionaire in the country of his adoption. He has invited his half-brother to visit him in his far southern home, and the latter will accept the invitation. Aubin came to this city yesterday and deposited his money in a bank. He says he will continue to run his hotel as usual, despite the change in his fortunes. comparatively rich man, and with the omise that his wealth will be ma-

ARRESTED AT ORILLA.

Dr. A. Judkins, Speaker at a Metho dist Revival.

Orillia, Nov. o .- In the Methodist Church, on Thursday evening, at the close of the revival service, the speaker, Dr. A. Judkins, was placed under arrest by Constable Dreyer. The warrant was issued upon information received from Sheriff Shoemaker of Marshalltown, Iowa, and from City Marshal Scott of Lacoma, N.H., who allege that A. J. Wheeler, alias Dr. A. Judkins, is a lugitive from justice from Marshall county, Iowa, where he was charged with obtaining money by false pretences from two aged people of the same county. The prisoner was brought before Magistrate Booth, pleaded not guilty, and was remanded for a week pending the arrival of the authorities from Marshalltown.

STRUCK HIS OWN CHILD. Motorman Pugh's Experience at Lon

London, Ont., Nov. 9.—Saturday morning Lavilia, the ten-year-old daughter of Mr. George Pugh of 413 English street, was playing with companion near Dundas street, when she started to cross the railway track. She waited for one trolley car to pass, but did not notice another going in the but did not notice another going in the opposite direction. As a consequence she was struck by the westbound car and fell directly upon its fender. This car proved to be one on which the child's fatilier was acting to motoman. Mr. Pugh was horrified to recognize his own daughter prostrate on the fender, and he struggled fiercely at the brakes, which did not work promptly, the car running over half a block before it could be stopped. When the father reached his child, she was apparently lifeless, but on being removed to Dr. Jarvis' office, she was found to have suffered no injury excepting two painful cuts on the head, and soon recovered consciousness after being ered consciousness after

ARRESTED AT LUTHER. 'A Man Suspected of the Hamilton Murder.

Orangeville, Nov. 7. - Last night High Constable Marshall effected what may turn out to be a very important arrest. On Friday evening, October 23rd, a couple of men entered the home of Mr. Wm. Rennicks, at Elba, a small hamlet ten miles north of this town, and attempted to assault Mrs. Rennicks, who happened to be alone at the time. Her cries aroused the neighbors and alarmed the intruders, who abandoned their purpose and sought safety in flight. On the following afternoon the residence of Mr. Wm. Date An Amaranth farmer, was robbed while Mr. and Mrs. Dale were in Orange-ville. Two suspicious characters were seen leaving the place, and the description furnished of their appearance led to the conclusion that they were the parties who had visited the Renicks residence on the preceding evening. Last night High Constable Marshall drove out to East Luther and arrested a stranger, who gave his name as Frank Tolman. After his arrest Tolman confessed to being implicated in the attempted assault, as well as in the burglary at Mr. Dale's. A watch-guard and some other articles taken from Mr. Dale's were found in his possesion. To the constable he told a rather singular story. He said that subsequent to the Dale burglary his companion in crime, whose name he gave as Harry Shafer, had dropped him and skipped out. Tolman says that he and Shafer came from Hamilton, and it is thought the two men may have been connected with the recent mysterious outrages in that city. Constable Marshall lodged his man safely in the county jail about 4 o'clock this morning. An Amaranth farmer, was robbed while Mr. and Mrs. Dale were in Orange

Men's Trousers

We make men's trousers properly. That is we make them of correct materials and to fit; following the styles closely from season to season; not dragging along two or three seasons behind, as is usual with most manufacturers of clothing, who are not retailers. If a style changes we are in a position with our own factory, to adopt it at once.

At present we are showing a very large range of patterns in properly tailored trousers at from \$1.50 to \$4.00 Take a pair home and try them on. If they are not satisfactory come back and get your money.

Boys' Knickers.

Never do we leave the boy out of our calculations. Boys, like men, wear out more pants than coats, and we take care to provide for this, by always carrying a full stock of boys' odd knickers, our own make, strong, serviceable, well lined; in tweed, serge and corduroy.

There are all sizes for boys from 4 to 16 years of Ge, and the prices run from 50c. to \$1.00 per pair.

ONCE HARDSCRABBLE NOW BLOOMFIELD

A Sunday School Rally differs from an Old Boys' Reunion, for children, parents, grandparents, visitors and old scholars are all included. Such a gathering was the annual rally of the Ploomfield Union Sunday School yesterday afternoon, when the fineness of the day and the occasion brought out a ful! house. The well arranged program was placed in the chairman's hands, who gave us the opening address at the close. Some excellent lo cal talent from the school and visitors took part.

Miss Sarah Dolsen, the superintendent, led in responsive reading the 121st Psalm, afterward giving us the annual report. To Miss Dolsen's accompaniment on the organ Miss Flora Hitchcock sang two sweet solos. Russell, of Charing Cross, teaching in Arch. Campbell. M.P., was presented witt an address before laying the cornerstone of the new Government building at points of Sabhath School work, and

Miss Maude Drury recited very nicely. The roll call was given, and Mrs. Wells, the Bible class teacher, gave Wells, the Bible class teacher, gave us, in closing, a recitation that produced marked effect. She, with her children, will leave shortly to rejoin Mr. Wells, at their new home in Quesc. After the 'chairman's addess, Miss Dolsen and the school joined in a marching song of praise, and filed into a march past Mrs. Wells, each taking her hand in farewell. "God bs with you till we meet again" and the prayerful voices of earnest teachers closed the service.

closed the service.

This school is to be congratulated, may nothing ever mar its continued prosperity.
