## PREFACE.

—

IN presenting to the public their first edition of the SHERBROOKE, COATICOOK, RICHMOND, LENNOXVILLE, and MELBOURNE DIRECTORY, the Compilers trust that it will be found as near correct as it is possible for a book of the same description to be. No pains have been withheld to make it such, and every exertion on their part has been put forth to secure that object.

The view the compilers had in the production of this work was, not so much speculative, but rather the producing of a reliable Directory, suited to the wants of the commercial community.

It being their first attempt, they trust a kind public will overlook any slight discrepancies that may inadvertently exist, as, in taking the information in the various places, they met with considerable difficulty in getting the names of the inhabitants.

In conclusion the Compilers extend their sincere thanks to Messrs. Ibbotson, Belanger, and Bradford Bros. & Co., of Sherbrooke, Mr. Shurtleff, Registrar of Coaticook, Mr. W. E. Jones and Dr. Webber of Richmond, and Mr. E. W. Abbot and Rev. J. H. Nicolls, principal of Bishops College, Lennoxville, for their kind aid in furthering the work. They would also recognize the valuable information derived from Mr. Irwin's Eastern Townships Directory, and thank Mr. John Lovell, the Managing-Director of the Lovell Printing and Publishing Co., for the material aid which he rendered them in the production of this Directory, and for the speedy and excellent manner in which the work has been executed.

Patterns, &c., must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, and such like, which cannot be sent in open covers, may be enclosed in bags of linen or other material, simply tied at the neck, or, provided that bags be transparent, they may be entirely closed, if they are for delivery within the United Kingdom. Bags, however, entirely closed, even though they be transparent, must not be used for the transmission of seeds to foreign parts. Patterns and samples of merchandize, not exceeding the weight of eight ounces, addressed to the United States, may be sent at the rate of ten cents for each package.

A packet of patterns of samples sent to France or Portugal, must not exceed 18 inches in length, and 12 inches in width or depth ; a packet to any other place abroad must not exceed 24 inches in length, or 12 inches in breadth or depth.

*Transmission of Patterns and Samples within the Province of Canada.*

Patterns or samples of merchandise, and goods for sale, may be posted in Canada, to be forwarded to any place within the Dominion, on pre-payment by postage stamp of a rate of one cent. per four ounces, under the following regulations:—

I.—Patterns or samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, and so forth, which cannot be sent in open covers, may be enclosed in bags of linen or other material, fastened in such a manner that they may be readily opened, or in bags entirely closed, provided that they be transparent, so that the officers of the Post Office may be able to satisfy themselves as to the nature of the contents.

II.—The packet may bear on the *outside* the address of the sender in addition to the address of the person for whom it may be intended—also a trade mark and numbers, and the price of the articles enclosed; *inside* there must be no enclosure but the samples or patterns themselves—the particulars, however, of the trade marks, numbers and price, may be marked on the articles themselves instead of on the outside of the packet, at the option of the sender.

III.—Any sample or pattern packet containing a letter, or otherwise violating the conditions of the preceding rules, is to be rated and treated as a letter.

IV.—The rate of 1 cent per four ounces is to be pre-paid by postage stamp,—and if such rate be not fully pre-paid by the stamps affixed, the package is to be rated with the deficient postage, and a fine of five cents in addition.

V.—Packets of samples or patterns may be registered on pre-payment by postage stamp of a registration fee of five cents in addition to the

postage rate—and provided such packets be duly handed in to the Post Office for registration.

A registration receipt or certificate should always be obtained for such packages when presented for registration.

VI.—No packet of samples or patterns must exceed 24 ounces in weight; any packet exceeding that weight is to be sent to the Postmaster-General.

*Penal Clause.*—The Act contains the following penal clauses: To enclose a letter or letters, or any writing intended to serve the purpose of a letter, in a parcel posted for the parcel post, or to enclose a letter, or any writing, or make any written marks to serve the purpose of a letter, or to enclose any other thing in a newspaper, posted to pass as a newspaper, at the rate of postage applicable to newspapers, (except in the case of accounts and receipts of newspaper publishers, which are permitted to pass folded within the newspapers sent by them to their subscribers), is an offence punishable by a penalty of not less than ten and not exceeding forty dollars.

The Money Order Post Offices in the Dominion are furnished with lists of all the Money Order Offices in Canada, the United Kingdom, Nova Scotia, New Brunswick, Prince Edward Island, Manitoba, British Columbia and Newfoundland, and the Postmasters are instructed to afford every information in their power, in respect of the places upon which they draw, together with any other information relating to the issues as the intending remitters may desire.

POST OFFICE SAVINGS BANK.

1. The Post Office Savings Bank commenced operations in Ontario and Quebec on the 1st April, 1868.

2. The direct security of the Dominion is given by the Statute for all deposits made.

3. At each Savings Bank Post Office the Savings Bank regulations may be read by the public, giving full information with respect to the mode of depositing and withdrawing money, and these regulations are printed upon the cover of the Pass Book supplied to each depositor.

4. Any person may have a deposit account, and deposits are received daily during the ordinary hours of Post Office business, of any number of dollars, from \$1 up to \$300, the total amount which can be received from a depositor in any one year, except in cases to be specially authorized by the Postmaster-General.

5. The Postmasters of the Savings Bank Offices will act as agents for the receipt of the money deposited for transmission to the Post-

master-General, and for the payment by the Postmaster-General of money withdrawn by depositors.

6. Each depositor is supplied with a Pass Book, and the sums paid in, or withdrawn, are entered therein by the Postmaster receiving or paying the same. In addition, a direct receipt for each amount paid in is sent to the depositor from the Postmaster-General, and the Postmaster-General will issue a cheque payable at any Post Office Savings Bank desired, for any sum withdrawn.

7. Every depositor's account is thus kept with the Postmaster-General, and a depositor may pay into his or her account with the Post Office Savings Bank, at any of the Savings Bank Post Offices, which at the time may best suit his convenience, and exercise the same choice in drawing out money, subject only to the obligation of producing the Pass Book, in proof of identity, whenever paying in or drawing out deposits.

8. Interest at the rate of four per cent. per annum is allowed on deposits.

9. Postmasters are forbidden by law to disclose the name of any depositor, or the amount of any sum deposited or withdrawn.

10. No charge will be made to depositors on paying in, or drawing out money, nor for postage or communications with the Postmaster-General in relation thereto.

11. The Postmaster-General will always be ready to receive and attend to all applications, complaints, or other communications addressed to him by depositors or others, relative to Post Office Savings Bank matters.

## SHERBROOKE.

THE City of Sherbrooke ranks first in population, wealth and manufacturing importance in the Eastern Townships. It is beautifully located at the confluence of the St. Francis and Magog rivers, the site rising from the former till the upper town attains quite an elevation.

Sherbrooke is connected with the Townships of Ascot and Orford, and forms the electoral district of the County of Sherbrooke, being represented in Parliament, both Local and Federal.

The water power of this City is not to be competed with in the townships, it having a descent on the Magog River of 114 feet in less than a mile, affording an almost unbroken succession of first-rate privileges which large manufacturing establishments are utilizing, and others are about making use of. Its advantages are unlimited, as it were, and Sherbrooke owes, in a great measure, its advancement to this natural gift, as the city ranks one of the first manufacturing locali-

---

ties in the Country. Notwithstanding the present depression in trade and business throughout the Dominion, the busy hum of trade and the continual rattle of machinery, gives the visitor to understand that whatever may be the condition of business throughout the country, Sherbrooke is determined to rank among the first as to *push* and energy.

The Grand Trunk, the Passumpsic and Connecticut Rivers and Massawippi Valley, the Sherbrooke, Eastern Townships and Kennebec, the St. Francis and Megantic International and the Quebec Central railways meet here. The immense facilities of the territory which the last four named roads have opened up for the first time, must shortly increase the importance of the city as a commercial depot and manufacturing centre.

In 1871 the population was 4450; in 1873, 5500; in 1874, 7,000. It has now reached about 8,000. The city has now a fire-alarm telegraph, together with two first-class steam fire engines and an efficient fire brigade—thus amply providing for herself in case of fire.

Measures are under way for lighting the city with gas, and the completion of the proposed water works and other improvements necessitated by the rapid progress the city is making in the commercial world.

In 1805 or 1806 the present site was known as the "Lower or Big Forks." The best authority we possess confers the honor of being the first settlers here on David Moe, Gilbert Hyatt and Samuel Terrill. The former improvised a frame barn on the border of the present city limits, on which "1800" was cut, without a thought that this trifling act would eventually turn out an historical item. Terrill took his stand on a point opposite the mouth of the Magog river, and Hyatt later built a grist mill on the Ascot side, Jonathan Parker erecting the first carding and cloth dressing works. Jonathan Ball claimed the first sawmill on the Orford side, followed by William R. Willard with his pioneer tannery.

About 1828, C. F. H. Goodhue built wool-  
len, grist and saw mills here ; the latter was afterwards purchased by Chas. McDougall. The enterprise of Mr. Goodhue was the means

of the building of an axe factory, whose assistants, Jonathan Silsbee and George Alger, were the first iron workers here; Albert Burchard and Thos. Gordon were the first shoemakers; Wm. Hall, the first harness-maker; Lucius Denning, the first brickmaker, and William Walker, who came here from England about 1816, the first blacksmith. The first foundry was started about the year 1833 by William Arms and Geo. Brown.

Stores were first opened by John Nicols, Goodhue & Moore, William Henry and Kimball & Ball, followed by the taverns of Felix Ward, Henry Hubbard, Noble Mallory and Otis King.

In 1822 the Hon. John Fletcher was the first judge of the District of St. Francis, followed to the present time by the Honorables J. H. Gardner, Edw. Short, J. S. Sanborn and the present judge, Hon. Marcus Doherty. Charles Bridgman Felton was the first prothonotary, his successors were William Bell, Bell & Bowen, Bell & Short, and Short & Morris. Charles Whitcher was the first sheriff, William Ritchie the first notary public, J. H. Terrill was the first high constable, suc-

ceeded by E. Clarke and the present popular and efficient officer, G. B. Loomis; Carey M. Hyndman, the first crier of the court, and Solon Shurtleff, the first jailer, who was succeeded in office by Patrick Read, father of the present official. William Hamilton was the first customs officer. The first court house, a wooden building was erected in 1822, and the present fine brick edifice in 1839. The jail was completed in 1869.

The first advocates were Charles Crecy, Charles A. De Tonnancour, Christopher P. Elkins, Ebenezer Peck, James Hallowell and Edward and John Short.

Among the other early settlers of Sherbrooke were Dr. Moses Nichol, Thomas Stevens of New Faue, Vt., who came to Brompton Falls in 1810 and to Sherbrooke in 1816; Abiel Chamberlin; major Henry Beckett, who came here from Hampshire, England, in 1819; Samuel Brooks; Stephen A. Edgell, store and registry office; Hassard Terrill; James Hughes, carpenter; Timothy Taylor, watchmaker; James Presby; Wm. Ames, blacksmith, who also kept a boarding house; Francis Loomis, storekeeper; Dr. Barnard;

Dr. Wilson ; C. Chambers, shoemaker ; John Drummond, carpenter ; D. Thompson, carpenter ; Joseph Griffith ; William Jones, mason ; Capt. Cokeley, and Irwin Stafford blacksmith.

In the year 1823, St. Peter's, church of England, was founded, the first clergyman being the Rev. C. F. Lefevre, sent as a missionary by the "Society for the Propagation of the Gospel in Foreign Parts." The first church was a small wooden building on the site now occupied by Harkness' livery stables. The parsonage built by Henry Beckett was the first brick building erected here; the present church built of brick was erected in 1844 and greatly enlarged in 1864. Mr. Lefevre was followed in succession by the Rev. Messrs. Parkyn, Doolittle, Wait, Hellmuth, the present bishop of Huron, and Reid, the present incumbent.

Previous to the year 1834 the Roman Catholics had a mission station here, and in that year the Rev. J. B. McMahan was appointed resident priest, followed in succession by the Rev. Messrs. P. H. Harkin, Bernard O'Reilly, D. McGauvran and, in 1853, by the

---

present incumbent, the Very Rev. A. E. Dufresne, vicar general.

The first church, built about the year 1833, and afterwards used as a school, was destroyed by fire in 1857. The present large and beautiful structure, now the Cathedral of the Diocese of "St. Michael of Sherbrooke," was commenced in 1854, and completed at a cost of about \$50,000. The Convent School, under the direction of the rev. ladies of the Congregation of Notre Dame, is well attended, and the Industrial College of Sherbrooke, another Roman Catholic institution, conducted by Rev. Prof. Girard, has also a large number of pupils.

The Congregational Church was organized December 27th, 1835, with an original membership of twenty-nine. The Rev. Mr. Robertson was installed in 1837, and on his decease, Sept., 1861, he was succeeded by the present highly respected pastor, Rev. Archibald Duff.

The Presbyterian Church was established in 1864, and the Rev. Joseph Evans was inducted first pastor on the 28th of October of that year. The property on which the manse

stands was purchased from Sir A. T. Galt, and a house once used as a theatre was transformed into a church and improved from time to time. Mr. Evans was succeeded in 1869 by Rev. Charles A. Tanner, and in 1872 by Rev. Peter Lindsay, the present pastor.

In the year 1819, the Rev. John De Putron, a Methodist minister, who was stationed at Melbourne, visited Sherbrooke occasionally. In 1833 the Rev. Edmund Botterell was appointed the first resident minister. The church was built in 1856, during the incumbency of Rev. W. D. Brown.

Sherbrooke has several good educational establishments of a private and public character; among the latter, the Saint Charles Borromée Seminary, under the control of Mgr. Ant. Racine, Bishop of the Diocese of St. Francis; the officers of the institution are Rev. P. Girard, principal; Mr. P. Allard, Acol., superintendent. The system of education is paternal, the masters endeavouring to unite love with firmness, and employ persuasion instead of corporal punishment, the parents of the scholars receiving every month a statement of the conduct, application to

study and success of their children. There were 122 scholars in the seminary during its last session, and it is fully expected that it will be much larger during the next session. It was founded in 1855, by the Roman Catholic Bishop of Saint Hyacinthe, Mgr. Prince, who felt the necessity of such an institution for the education of the youth of the Eastern Townships in the higher branches of education. This institution has a printing office, in which the scholars are taught the science of typography.

## COATICOOK.

AN incorporated village and station of the G.T.R., in the township of Barnston, county of Stanstead, 5 miles from Barnston Corners, 18 from Stanstead Plain, 21 from Sherbrooke, 16 from Hereford, 122 from Montreal, and 175 from Portland, U. S.

The site now occupied by the village originally belonged to Richard and Levi Baldwin, Jonathan Cutting, Nathaniel Pollard, and Robert McGill. On the 30th March, 1842, a store was commenced by H. Cutting, and this modest structure, 14 x 20 feet, was the first business stand in the place. Previous to this Richard Baldwin, one of the pioneers of the county, built a saw-mill here, and a frame dwelling was erected about the same time by Robert McGill. A tavern was soon after built by H. Cutting, and in 1844 the premises now occupied as Davis' Hotel was completed. A carding mill and store were built by the late Mr. Child, and in 1850 a grist mill by Levi Baldwin. In 1847 a school was opened

---

by Miss R. Cleveland, who was succeeded as teacher by the Misses Sarah Brook and Ives. Alpheus Lewis was the first shoemaker here, and John Kennedy the first blacksmith. The Post Office was opened in 1843, H. Cutting, postmaster.

On the 18th July, 1844, the G.T.R. was opened here, and the growth and prosperity of the village may be said to have begun. The splendid water-power afforded by the Coaticook River attracted capitalists, and manufacturing establishments, stores and mechanics' shops were soon after established, and the consequent general mercantile and manufacturing interests of the village have advanced with a steadiness and rapidity equal to that of any other in the Province.

Coaticook was incorporated January, 1864. It is a port of entry, and contains 4 churches, several hotels, a number of stores, two branch banks, (Eastern Townships and Metropolitan), telegraph office, a printing office, issuing a weekly newspaper, which has a large local circulation; saw and grist mills; and manufactories of mowing machines, leather, furniture, sashes, doors, matches, clothes pins,

broom handles, washing machines, churns, iron castings, boots and shoes, &c. Total value of imports for 1872, \$645,389 ; exports \$2,562,303. Population about 1,100.

Various circumstances, such as the general depression of trade, over speculation on the part of some of its traders, etc., have had a tendency to depress the people of this beautiful town, but after the revival of trade (which will, we hope, soon take place), the energy and intelligence of its inhabitants is a *guarantee* that Coaticook is destined to rank high among the manufacturing and industrial towns of our great Dominion.

## RICHMOND.

AN incorporated village and station of the Grand Trunk Railway, pleasantly situated on the St. Francis river, township of Cleveland, County of Richmond. The Montreal, Quebec, Portland and Western branches of the Grand Trunk Railway centre here, and an extension to the Maine Boundary is contemplated. The Missisquoi and Black Rivers Valley Railway, when completed, will also have a chief depot here, thus giving the village first-class advantages, and materially augmenting its general interests. The Grand Trunk has extensive works here, and, as the water privileges afforded by the river are numerous and excellent, there are good inducements for the establishment of all kinds of manufactures. Large deposits of copper and slate are found in the neighborhood. The St. Francis College, located here, has attained a high character among the educational institutions of the country. Richmond, as well as all other commercial and industrial centres, feels

---

the effect of the present depression of trade, but it is to be hoped that speedily matters will change, and that it will rise Phoenix-like from the vortex, and become again alive with the busy hives of industry, which it is so well calculated to maintain, and that all the facilities which it possesses may be fully utilized. It contains, besides the county buildings, a college, mechanics' institute, telegraph office, newspaper office, and several stores and hotels. Population 1,272. Assessed value \$387,000.

## LENNOXVILLE.

A village very attractively situated at the junction of the Massawippi and St. Francis Rivers; on the line of E. T. Railway, three miles south-west of Sherbrooke. It has a population of about 800. Mails are received twice each day from Montreal, (which is distant about 104 miles), and once a day from other directions. There is a good deal of activity observable in this village, and the number of persons who visit the place, especially in summer, is large. There are two churches, two large hotels, and it boasted two years ago of a large number of stores, but a destructive fire took place at that time which completely destroyed the main portion of the village, taking with it some fine buildings. There are at present about eight or nine stores.

The principal feature of Lennoxville, however, is its University of Bishop's College, which was constituted by a Royal Charter granted in the year 1852, and empowered to confer degrees in Divinity, Arts, Law and Medicine.

Bishop's College School was founded in 1857. Its general government is under the control and supervision of the College Council. The object of the School is directed to the imparting of such a general education as may fit boys for any calling in after life.

## MELBOURNE.

AN incorporated village on the St. Francis river, opposite Richmond, with which it is connected by a bridge 750 feet long, built by the Government in 1848, at a cost of about \$7000. The village consists of two parts, the Lower being incorporated. The land in the vicinity is remarkable for its fertility, especially for grazing, and stock raising is extensively engaged in; copper and slate abound in the Township, and the river affords excellent water-power, that is not yet to any degree utilized. It contains four churches, several stores, a chair factory, bark factory, saw mill, tannery, etc. There are valuable copper mines and slate quarries in the vicinity. Distant from Richmond Junction, (station G.T.R.,) about 1 mile, and from Montreal 77 miles. Population of village 292, and its assessed value \$61,000. Melbourne Township population 2,415, assessed value \$404,000. Montreal Telegraph Co. has an office here.

## MONTREAL BUSINESS DIRECTORY.

Montreal being the great commercial centre from which the Eastern Townships derive most of their supplies, and from whom it gets a large portion of manufactured goods and produce, it has been thought advisable to introduce in this work a BUSINESS DIRECTORY OF MONTREAL, of the leading houses, (arranged in alphabetical order according to names), such as banks, insurance companies, merchants, manufacturers, professional men, &c. This addition will not exclude from the *Classified Business Directory* any of the subscribers or advertisers, in which will be found the names of all who have patronized the undertaking; they will also have the benefit of carefully prepared Indexes.
