During the past Session of Parliament, the Council devoted much attention to the Act regulating the inspection of flour; several important amendments were forwarded to Mr. Holmes, M.P.P., by whom they were submitted to Parliament, and eventuality passed. The Council have to acknowledge the prompt sitention and energy evinced by Mr. Holmes, on this and many other occasions, when his servaces have been requested by the Board, on behalf of the mercantile community. The main features of the amendments referred

The main features of the amendments referred to, are an amalgamation of the law passed in 1841 and 1848, blending the clauses of the latter, relating to the inspection of Oatmeal, with those in the former, which regulate the inspection of Flour and Indian Meal, as well as an assimilation of the country of

lar, but many objectionable clauses were expansed, on passing the bill.

The Council suggested to the Harbour Commissioners, the necessity that existed for the establishment of a Wharf Police, but were anable to come to a definite understanding. The Commissioners expressed their willingness to cooperate in addressing the Municipal Authorities for that purpose, but the Council, considering that no practical benefit was tikely to result from such a course, have taken no farther steps in reference to the matter.

of lying, perjory and intringe, has been mixed up; and whenever his motion may come on, he has a very strong case against Lord Torrington. But having made the charge, it is Ms. Buillies duty to prese it sigorously. In the Lords, on Tuesday, Viscount Torrington, amidst the fright silence of the House, gave notice of his intentions in a fortnight, to bring the matter himself before the Committee of the House of Commons, now for their Lordships. The evidence taken before the Committee of the House of Commons, now for the first time made public, describes a state of things in Ceylor, at the time of the febellion, as it is called, which it will be most difficult for Lord Torrington to defend, much less to justify. Sir A. Oliphant, the Chief Justice, it describing before the Committee the distributives which it is earlied into a rebellion, said, expressively enough, "That if any man of influence, or known to the natives, had mounted to the top of a hill, and stid in Cingalese, 'Every man to his tent, O Israel! before I come down upon you,' bis firm belief was, that they would all have gone to their before the troops at the people, shot them down, instant. To Shushest the time of the GALVAREC MELLT, suppose, the case of a person afficied with that bane of civilization, D'SEPESIA, or any Other Chronic or Nerrous Disorder. In ordinary cases, simulants are taken, which, by their action on the nerves and muscles of the stignach, effort genyerory relief, but which betwee the stiffent in a lewer state, and with injured headlines, other the action thus excited has cassed. Now compare this with the effect resulting from the spalleston of the GALVANIC BELT. Take a Dyspelle infifter, even in the worst symptoms of an attack, sind-simply ut the Belt around the Sedy, using the Magnesia Fuld es directed. In a short period the insensible parapiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation which will pass on to the negative, and thence back again to the positive throughout the system. Thus the minut severe cases of Dysperval are PERMA. NENELY, CUARD. A FEW DAYS IS AMPLY SUBTICIENT TO ERADICATE THE DISEASE OF TEARS.

PLANTAGENET WATER.

Among the objects of attraction at the late Industrial Pair, the celebrated Plantagenet Water held a conspicu ous position, and its exhibition was attended, we learn, with the most favorable results. The demand at the Depot for this teath—napring draught was so urgent that it was with great difficulty strangers and visitors to the city could be supplied. The celebrity of these Mineral Springs has been so thoroughly and antiafactorily established that testimony of the most valuable character seems daily accumulating. The highly respectable certificates given in our paper of to-day will, it possible, increase their reputation, and add to their valua throughout the Province. The testimony of the most valuable character and quality of these Springs—Drs. Nelson and Gibb placing them above all other Mineral values on this Continent — *I believe I was one of the first Practitioners of this city who recommended the use of the Plantagenet Spring Water, and since that time I have prescribed it to a very large number of my patients with invariable advantage. It was derived marked benefit from the ase of the Water, One had nearly lost all power in the right arm, the result of a severe and alimentary organs. "The administration of the Water is attended with the operation of the digestive and alimentary organs. "The administration of the Water is attended with the appliest result in constipution, arising from seedhitary habits, and in aged persons, "In heartburn, morning sickness, and the other complaints to which women are subject under certain circumstances, it acts most agreembly and effectually, but in constipution, it whould be taken in smaller quantities at a time, our more frequently.

"From an extensive experience I am well satisfied with the operation of the Water, to weak persons it is quite palatiable, and I deem it preferable to any other of the Mineral Waters as a great boon conferred to the Mineral Waters as a great boon conferred to the Mineral Waters as a great boon conferred to the Minera

REDUCED RATES OF PREMIUM—HALF
CREDIT RATES OF PREMIUM.
THE great and decided success which has attended this Institution, has induced the Directors to REDUCE the RATES originally required in British North America, to the ordinary Ruropean Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits to Life Assurance at much lover Rates of Premium than those of any other Assurance Company & ansacting business in Canada.

The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The most liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies.
