## Village Council Meeting

The village council met Monday evening, July 11th for general business. The Reeve and other members all present. Minutes of previous meeting was read and adopted.

A communication was received from C. S. Burns asking for the privilege of lighting for the coming garden party.

A communication from Treasury Department stating the amount of Railway Tax due this municipality for 1920, accompanied with a cheque for \$23 88. And one from the Hydro Electric Co. re power bill for May.

Also a communication from the Legislative Assembly stating that although the Voters' List will be prepared in three parts, only parts one and two will be printed, and part three held by the clerk in his office for the purpose of an election which may be held before a new list is prepared.

On motion of councillors Crooker and Atkins the village council granted \$25 toward the construction of a bathing pool.

On motion of councillors Crooker and Dale the following accounts were passed and ordered paid.

To Wm. Attridge, Sec.-Treas. High School Board, loan for maintenance during June, \$450.

To Mrs. Sarah Smith to retire Debenture No. 6 of the 3rd issue, and interest, \$203.80.

To B. Batchelor, for supplies for fumigating, 4.83.

To Sec.-Treas. of Bathing Pool, grant to assist in construction, \$25.

To W. G. Spence, for cutting weeks, \$22.40.

**HYDRO ACCOUNTS**  
To Corporation of Waterdown to retire Debenture No. 6, \$203.80.

To H. Nicol for construction and repairs, \$16.20.

To Power bill for May, \$372.62, also additional cost of power for Jan. Feb. Mar. and April, \$157.35, total \$529.97.

On motion duly seconded council adjourned to Monday, August 14th or at call of Reeve.

J. C. MEDLAR,  
Village Clerk.

## Announcement

Mr. and Mrs. A. E. Alton announce the marriage of their daughter Mabel Edna, to Mr. Perry W. Brown, at Buffalo, N. Y., on Saturday, July 2nd, 1921.

## Monster Celebration at Burlington

The annual monster celebration at Burlington will be held on the new Fair Grounds next Wednesday, July 20th. Afternoon: Baseball tournament and other sports. A grand programme has been arranged for the evening in which the Hon. E. C. Drury, Premier of Ontario, and Hon. Manning Doherty, Minister of Agriculture will take part. Scotty Proven "The Harry Lauder of Canada" will be present. The evening programme will open with a chorus of 500 children's voices. Both Burlington and Hamilton bands will be in attendance. This promises to be the biggest and best attraction of the season and Burlington extends a very hearty welcome for all to come and enjoy the day. Lunch, as well as ice cream and soft drinks, will be served on the grounds. A dollar's worth of fun for 25c.

## New High School Staff

The High School Board has been successful in securing the services of Mr. G. W. Spencer, of Cornwall, as Principal. His record as a teacher has been a brilliant one. Mr. Spencer who is comparatively a young man, graduated at an early age, taking the highest honors and bears with him the highest testimonials from school boards and prominent citizens of towns and cities where he has previously taught. His able assistants will be Miss M. McDonald of Guelph and Miss McCoy of Brantford. The ability of the latter young lady as a teacher has already been established here. Miss McDonald's career as a teacher has also been a brilliant one.

## Millgrove

Mrs. Laneely, Sr. is lying very ill at the home of her son, Mr. John Stewart.

Mr. Geo. B. Stewart, of Chatham, sang two solos last Sunday morning in the Methodist church here, which was very much appreciated.

Mr. D. C. Flatt and family left last Wednesday on a motor trip to Muskoka.

The Epworth League was organized here on Sunday last. Mr. Stanley Burns holding the position of President.

Written in anticipation of the renovating of the Methodist church at Millgrove.

It's time our church should be repaired

From the ground sills to the steeple, The state it's in at the present time, Is a shame for any people.

Our fathers who built it's sacred walls Have ascended the golden stair, But we the off-spring of our sacred dead, Have kept it in bad repair.

The smell emanating from under the floor,

Savours of saur kraut, And it's ceiling is shelling it's scally skin,

And it's walls are bulging out.

When the service is held in summer time,

And the sun shines in from the west, Most of the ladies are fanning themselves,

And others are only half dressed.

It's furnace is well equipped with pipe

As long as the moral law,

But when the wind blows chilly from the north

The chimney will hardly draw.

The aforesaid furnace has been installed

But a few short years or more,

But when it sits on some rotten joist

It's really ready to smash through the floor.

So it's time our church should be repaired

From the ground floor to the steeple,

So that we can worship in safety there,

And be a better people.

Then with shoutings and anthems and loud amens

Let's make the old church hum.

And help the preacher we have in stock,

And the preachers who are to come.

Men's Fine Dress Boots, wide or recede toe, good stock. \$10 values. Special Price at Eager's \$7.59.

## A Long Felt Want

Through the efforts and good sportsmanship of Council David Atkins, the town now has one of the finest swimming pools in its history. Situated in a beautiful spot, easy of access through Mr. J. J. Green's property. Not only is the pool situated in the bed of a running stream but is also fed by small spring water streams from the surrounding banks. A good platform and railing has been put along the top for the use of the bathers. The boys are working hard clearing the bed of large stones. About 50 to 75 bathers are using the pool now, and about the same number of spectators can be seen every night. None but those in bathing suits are allowed to use the pool, and no objectionable language can or will be heard on or near the pool. It is open to ladies, gentlemen, girls and boys, everybody is welcome.

The cost up to date has been \$104. The village council kindly donated \$25, the W. A. A. \$25, and individual subscriptions are being taken by Mr. A. Lovejoy, who has worked hard in this good cause.

## St. Thomas Church

### Garden Party

St. Thomas R. C. Church will hold their annual Monster Garden Party on the old school grounds on Wednesday, August 10th. Every effort is being made to make this year's Garden Party a treat of the season for the County of Wentworth, and a very elaborate programme is being arranged.

## Base Ball

At Carlisle on Saturday the Braves of that town went down to defeat at the hands of Stanley Burn's Millgrove Pets. W. Foster on the mound for the visitors had the Braves eating out of his hand, having to his credit 10 strike outs and only 3 hits. Millgrove 4, Carlisle 0.

Campbellville trimmed Kilbride 14 to 4. The Waterdown-Freelton game was called off on account of rain.

### LEAGUE STANDING

	Won	Lost	p. c.
Campbellville	6	1	857
Carlisle	5	2	714
Waterdown	2	3	409
Freelton	2	4	333
Kilbride	2	4	333
Millgrove	2	5	285

The Juniors let loose one of those games that they are capable of playing at all times when they stick strictly to baseball, on Saturday last when they sent Carlisle back home with only one run in their bat bag. The battery work of Featherston and Foster was of Senior calibre. This boy Featherston is improving steadily; strong arm cool head, and can field his position, makes of him one to be feared by the opposition.

Herbie Slater on 1st put up a good game as his first appearance on the initial sack; while Ribson with his three base slam, and his running one hand stab of a fast hit grounder back of second, featured.

### Locals

Mr. and Mrs. Jas. Rutledge and family spent the 12th in London.

Miss Hultz, of Detroit, is the guest of Mr. and Mrs. John Kirk.

Mr. Francis Griffin and Morley Robson motored to Paris last Saturday.

Miss Mary Kirk, of Detroit, is spending her holidays at her home here.

Mr. S. R. Weaver is in the Mt. Hamilton Hospital recovering from an operation for appendicitis.

Mrs. W. A. Ryckman is spending the week at Winona Beach with her daughter, Mrs. (Dr.) Patterson.

Mr. and Mrs. Mark Binkley and Mr. Chas. Dymont of Lynden spent Sunday with J. W. and Mrs. Griffin.

Mrs. Wm. Hamilton of Toronto, and daughter Mrs. (Dr.) S. J. McNeill of Chicago, are the guests of Dr. J. O. and Mrs. McGregor.

Commencing next Monday the Waterdown Bus will make through trips from Freelon to Hamilton. The local time table will not be changed.

Mr. Chas. Burns leaves next week on a trip down the St. Lawrence and will visit Montreal and the Shrine of St. Ann's, Quebec. He will take the boat at Hamilton.

Mrs. P. Carson has returned home from Rochester, N. Y. after spending a month there with her son. Her grandson, Laverne, accompanied her home and will spend the summer here.

Mr. J. W. Griffin has installed a new high power chopper in his mill here, made necessary by his increasing business. The new machine is made by Moore Bros. of Toronto and has a capacity of 100 bags an hour.

The Waterdown Branch of the Navy League was re-organized last week and the following officers appointed for the year. Chairman, Rev. H. J. Leake; Secretary, J. A. Davidson; Treasurer, C. P. McGregor; Executive, Rev. J. F. Wedderburn, Rev. C. L. Poole, W. H. Torrance and G. H. Greene.

Phone 141 Waterdown

The Waterdown Women's Institute intend holding a Garden Party the latter part of August. Proceeds to purchase a piano for the school. Our motto is "For Home and Country" and we hope to have the full co-operation of the entire community in making this event a success.

### Bricker-Corry

A quiet wedding took place at the home of Mr. and Mrs. Samuel Corry, Atwood, on Saturday, July 2, at high noon, when their younger daughter, Letta M., was united in marriage to Irwin Charles Bricker of Yorkton, Sask. The ceremony was conducted by Rev. A. C. Stewart of Riverdale in the presence of only the immediate relatives. After luncheon was served the bridal couple left on a motor trip to Toronto, Niagara, Barrie and other points. Later they will motor to Yorkton, where they will reside.

### Public School Staff

The Public School Board met on Tuesday evening last and selected from the numerous applications received for positions on the teaching staff of the school:

Mr. David Harper, Principal, who has taught successfully for a number of years in different schools of the province, comes highly recommended his record as a teacher being second to none in the province. Trustees and Inspectors speak in the highest terms as to his character and ability. Mr. Harper has been teaching lately near Toronto.

He will be assisted by Miss Powell of Tam. She is a young lady of exceptional ability. Miss Laura Hamilton of Strabane is well known to residents of Waterdown and East Flamboro; a young lady of excellent character and comes highly recommended as a teacher. These together with Miss Konkle and Miss Buchanan of last year's staff constitute an able staff, and we bespeak for the school continued success under their able guidance.

## GOOD NEWS for MUSIC LOVERS

IF you have denied yourself the pleasure of a good phonograph simply because you assumed that a phonograph to be good, must also be expensive—come in and hear the Amberola!

—Hear its pure, mellow quality of reproduction, and compare it with the metallic harshness of ordinary "talking machines." Decide whether you like the Amberola, and don't consider the question of price.

When the Amberola has proved itself to you to be a really fine musical instrument—you will be doubly glad to know that it is the world's greatest phonograph value and that its remarkably low price may be divided into payments most convenient for you.

Come in today and select your Amberola—the good phonograph you have been waiting for.

## WITH SHEEP IN SUMMER

Care of Weanlings and the Flock Generally.

Special Attention Pays—Frequent Change of Pasture Beneficial—How to Preserve the Fertility of Manure.

(Contributed by Ontario Department of Agriculture, Toronto.)

For best results lambs should be weaned at between four and five months. It has been found that under conditions prevailing during the hot dry months of mid-summer the ewes will drop off considerably in their milk flow. The lambs receive comparatively little nourishment, and it is better for both ewe and lamb for them to be separated. When the lambs are removed from the ewes they will miss little the small amount of milk they would receive, and will soon learn to depend upon pasture. They should receive the very best pasture available. Nothing fits in better than a patch of rape sown at the proper time, so as to be ready for pasture when the lambs are weaned. Care should be exercised in turning the lambs on the fresh rape to avoid bloating and probable death. Turn them in during the middle of the day when the rape leaves are absolutely dry and allow them to become accustomed to the change. A field of grass adjoining the rape pasture will give better results than the rape alone. If no rape is available fresh clover seeding or second growth clover will give satisfactory results. In addition to pasture a feed of grain once a day will push the lambs along to a good finish. At no time should it be necessary to feed over one-half pound of grain per day to each lamb while on pasture.

Frequent change of pasture is beneficial to, and relished by, all classes of stock, and this applies with special emphasis to the case of sheep. It is true for two reasons. Sheep are subject to parasitic diseases which may be prevented to a large extent by not pasturing on any one area for too great a length of time. In addition to this they are possibly more fastidious about their food than are some other farm animals. It is not practicable on every farm to arrange for a succession of pastures during the grazing season. However, the same area will sustain considerable more sheep if such an arrangement is feasible. Rye sown early in the fall furnishes a good deal of pasture in the late fall and early spring. After the rye is eaten off in the spring rape may be sown on this land and will come along for pasture in June or July. Alfalfa and red clover are satisfactory pasture crops and will serve until the rape is ready. An annual pasture consisting of one bushel each of wheat, oats and barley together with eight pounds of red clover provides a good pasture for the early summer months, and the clover coming along in the autumn will give a nice pickling. This annual pasture may be sown any time early in May. Without a great deal of additional labor it is possible to have a succession of crops ready for seeding throughout the entire season.—J. P. Sackville, O. A. College, Guelph.

### Stomach Worm Loss Preventable.

Animal husbandry division men at the University of Minnesota Farm say that sheep owners of the state have suffered great losses among their flocks by reason of the stomach worm. The lambs suffer the most.

"The best preventive and the one most easily given," says Philip A. Anderson of the division, "is copper sulphate or blue stone, as it is often known. Make a 1 per cent. solution by dissolving one-quarter of a pound of the blue stone in a pint of boiling water, adding cold water to make three gallons, being sure that a clear solution is obtained and always using an earthenware or a wooden receptacle. The dose for lambs, according to size, is three-quarters of an ounce to one and one-half ounces; for older sheep, two and one-half ounces to three ounces. An ordinary tablespoon holds one-half ounce.

"A veterinarian's syringe can be used, but care must be exercised in not pushing the plunger of the syringe too rapidly, as the solution may enter the lungs and give trouble. This treatment should be repeated in ten days or two weeks, or, if the flock is badly infested, two or three times during seasons at intervals of 30 days."

### The Habitants.

The habitants were the real colonists of New France who settled in Quebec as distinct from the Coureurs de Bois or bushrangers and trappers. The name given to habitants indicates that they were looked upon as permanent residents, who to-day constitute the bulk of the population of the Province of Quebec.

### A Difference.

Della—"So you have broken your engagement! And, I suppose, of course, you returned that lovely ring?"

Cecilia—"Well, no; that wouldn't be reasonable. While I no longer like George, I admire that ring quite as much as ever, you see."

## Local Townsman

Honored

Brigadier General Sir John English has received the appointment of Commander-in-Chief of the forces at Camp Borer. His many friends will congratulate him on his appointment to this important position. General English was born at Waterdown 59 years ago, and received his early military training with the 77th Batt. which he joined as water-boy at the age of 12 years, principally at Camp Niagara. His record in military life has been a brilliant one. After serving in the 77th for a number of years he retired with the rank of Captain. His retirement however was not for long, the military fever again attacked him and he sailed for dear old Ireland and joined the Dublin Fusiliers, serving with that splendid regiment in different parts of the world and on several occasions being decorated for bravery on the field, he being the proud possessor of the "Victoria Square" gained by him for rescuing a fellow comrade from a band of Germans who had accused him of swiping their lunch of sausage saur kraut and limberger cheese. The war office has at last recognized his ability as a leader of men and appointed him to this high office, one of the most important in that branch of the service. The General is known to be a great stickler for strict military discipline and will not tolerate anything approaching insubordination amongst the members of his command who attempt to shirk their duty. He believes that the best results are to be obtained by force of example, and has caused to be posted up throughout the camp cards bearing the following motto, "For Home and Country," with the accent on home. We congratulate our friend the General, on his recent promotion to this high office, and feel sure that he will be successful in keeping the forces at camp Borer in perfect order.

## To Preserve the Fertility of Manure.

In fresh manure the plant food materials are not in as available condition for growing plants as in well rotted manure. In the storing of manure, however, to get it well rotted considerable losses of plant food occur unless the manure pile is properly packed.

If the quickest returns are not wanted following the application of the manure to the soil, then the manure may be added in the fresh condition. If this is done in warm weather the manure should be ploughed in as soon as possible after application. The total plant food materials present in the manure will thus be added to the soil where they will be prepared by the soil bacteria for use by the growing crops.

The main objections to putting fresh manure on the land are: First, it is not always convenient to do so; second, weed seeds may be numerous in the fresh manure, consequently a heavy weed crop may be expected; third, its action is not so rapid as in the case of well-rotted manure, but it is active over a longer period.

Where manure is to be stored in piles or pits until it is ripened, or until it is convenient to use, then the greatest care is necessary to prevent losses of plant food materials from it.

In the first place the bottom of the pile or pit should be impervious to water so that leachings from the pile will not occur. Second, it is well to have a layer of old well-rotted manure at the bottom. Third, the manure as it is piled up should be well compacted or tramped down to prevent excess of air from getting into it. Fourth, it should be kept moist but not wet. These precautions apply more particularly to horse manure, which is loose and comparatively dry. Unless this is kept well packed and moist, loss by fire fangling is certain. This is an oxidation process, or fermentation, set going by certain species of bacteria in the manure. If cow or pig manure is available it should be mixed with the horse manure in the pile, as these are very wet and compact and will give a good consistency to the whole mass. The main things to be remembered are: First, prevent leaching; second, keep it well packed down and moist.—D. H. Jones, O. A. College, Guelph.

Alsike clover is most at home in northern latitudes or at high altitudes. It thrives best in a cool, moist climate.

The English Shire Horse Society has appropriated \$3,500 for publicity in the United States and Canada in 1921.
