### ANOTHER QUAKE IN CALIFORNIA.

El Centro, Cal. May 1. An earthquake shock, lasting thirty seconds, was felt here at 9.35 last night. Doors and windows rattled and residents fled to the open for safety. The damage is believed to have been slight. This town is 93 miles east of San Diego.

Pte. D. Woods, Truro, is reported among the wounded.

### HANGARD, SOUTH EAST OF AMIENS LOST BY THE FRENCH.

Paris, April 25—The Germans have captured the village of Hangard on the front, southeast of Amiens, the war office announced today. The battle continued with violence through the night in this sector. The enemy were again forced out of the town but are holding the ground immediately around it. The statement follows—"The battle continued with violence around the village of Hangard on which the Germans concentrated their efforts during the night. French troops resisted valiantly and counter-attacked several times with success. The village was lost, then retaken by the French and finally remained in the hands of the Germans at the cost of heavy losses. The French are holding the immediate outskirts of Hangard and the Germans have not been able to debouch from the town in spite of repeated efforts.

### BOMBARDMENT OF PARIS.

Paris, April 25—The long range bombardment of Paris was resumed this morning.

### DIRTY, FILTHY, THEIVING HUNS.

Geneva, April 25—Two French prisoners who escaped from a Bavarian camp arrived here yesterday and declare that the camp is swarming with vermin as their bodies show. They said that the hungry German guards constantly stole food parcels sent from France to the prisoners. A few British and American prisoners in the same camp, they added, were in the same state.

### AVIATORS ACTIV—MANY BOMBS DROPT.

London, April 25—The official statement, relating to air operations issued by war office last night reads—"The weather on Tuesday was unfavorable for flying until five p. m. after which sharp fighting occurred in the air. Reconnaissances were carried out at a low altitude throughout the day. Merville, Estaires, Steenweerk Lagorue, The Chaulnes Railway Junction and the docks at Ostend were heavily bombed.

"Fourteen hostile machines were brought down; two were driven down out of control and one was shot down back of our lines by anti-aircraft fire." "During the night twenty one tons of bombs were drompt on different targets including Roulers, Arme, Bapaume, the railway station at Chaulnes, Thorout, Tournai, Courtrai and the docks at Zeebrugge. Direct hits were obtained on several targets and several fires were started. All our machines returned.

### A DECIDED GERMAN DEFEAT.

London, May 1. The failure of the German attacks south west of Ypres on Monday, with its immense losses to the enemy, is commented on here in a more hopeful and more confident tone, which is in marked contrast with some recent comments on news of the progress of the German advance toward the Channel ports. The consensus of opinion is that the enemy on Monday suffered the most severe and costly repulse since he began his offensive on March 21 and it is contended that if the terms of victory and defeat are applicable to single phases of such a prolonged battle then the Allies on Monday won a very substantial victory.

Comparison is made between the present operations and the French defence of Verdun and the opinion is expressed that the German experience of the Verdun front is being repeated in their effort to capture the group of hills south west of Ypres.

The enemy failure up to this time, to achieve his object and especially the bloody repulse on Monday are regarded universally as a hopeful augury for the future of the allied defence. Nevertheless, the commentators warn against optimism. They remark that altho the enemy has been foiled it does not mean necessarily that the enterprise has been abandoned but rather that it has been suspended in favor of an attack at some point where successful defence seems less assured.

### ALLIES STILL IMPROVE POSITIONS.

London, May 1. Last night the French improved their position in the neighborhood of Loere on the flanders front the war office announced. The British rushed German positions in the Meteran sector and yesterday upon one of our posts in the neighborhood of St. Julien, was repulsed by machine gun fire. Posts held by the enemy in the Meteran sector were ruit by our troops during the night and a few prisoners were secured by us. By successful minor enterprise last night French troops improved the position held by them in the neighborhood of Loere.

### A VIRGINIAN TOAST.

When Mr. Balfour and the British commissioners visited Richmond, Governor Stuart proposed a toast to the King of England in water and this is what he said:

"In this glass I hold that which, by the sovereign will of the people of Virginia, it to-day the wine of the country, clear as the principles of liberty and justice in which we make common cause; pure as the union of heart and purpose typified by the three flags entwined before us; strong in that it supplies in this hour the most vital needs of both statesman and soldier; distilled on the hills overlooking the noble Jams, on whose banks the first permanent English settlement in the Western world was established; spontaneous as the good will toward our distinguished guests which springs from our hearts and our lips—in this and by these tokens I propose to the health of His Majesty the King of England."

### SHAME TO AMERICANS WHO IGNORE POTATOES.

"Shame on any American who does not stimulate further production of potatoes by eating them now," read a message yesterday by the Federal Food Board, Food Administrator Hoover sent it to encourage potato campaigns.

The message also said that America had fallen behind in its shipments of food to Europe and continued: "Does not fill you with shame to read the morning paper with wheat bread before you in any form?"

A popping baked potato, a hot, dry baked potato, a mound of creamy mashed potatoes, a rich brown potato soup or a well-seasoned stuffed baked potato will satisfy any normal person. Eat now cheerfully, for the time may be far distant when you must sacrifice whether you will or no. Therefore, eat your training."

### AIRMEN DROP BOMBS ON ENEMY AT LOCRE.

London, May 1. An official report on Aerial operations issued last night, says—"East of Loere the enemy's troops on Monday good targets to our pilots, who drompt 250 bombs on them and engaged them with machine gun fire. Seven hostile machines were brot down in air fighting and one was shot down by our infantry. Two of our machines are missing."

### DUTCH MINISTERS GO TO ENGLAND.

Amsterdam, May 1. It has been leard that former minister of war Colyn, accompanied by a mission, has gone to England on board a Dutch torpedoe boat. The object

of the visit is to explain to the British government the difficulty that has arisen for Holland as a result of the demands made upon that country by Germany.

### ARTILLERY DUELS LAST NIGHT.

Artillery duels of some intensity occurred last night on the Somme front near Villiers-Bretonneux and on both sides of the Avre south east of Amiens says today's war office report. The text of the statement reads. Artillery actions of some violence took place in the region of Villiers-Bretonneux and on both banks of the Avre. In Lorraine, French patrols brought in prisoners. The night was quiet on the remainder of the front.

HEROISM IN THE NAVAL RAID.

London, April 25.—The official admiralty reports on the sealing of Zebrugge harbor says:—The Thetis led the blockships Intrepid and Ispesgenia. Her propeller fouled and she became unmanageable. The shore batteries pounded back into the channel where, while sinking, she signalled invaluable instructions.

Lieut. Stuart Bonham-Carter, commanding the Intrepid, placed the nose of his ship neatly on the mud of the western bank. He ordered the crew away and blew up the ship by switches in the chart room.

Four dull bumps was all that could be heard. Immediately afterwards there arrived of the deck the engineer, who had been in the engine-room and reported all was as it should be.

The first attempt of the Iris, which was conducting operations with the vindictive, was to make fast to the mole ahead of the vindictive, fail, as her grappels were not large enough to span the parapet.

Commander Gibbs had both legs shot away and died next morning. Lieut. Spencer, who wounded, took command and refused to be relieved.

The Iris was obliged at last to change her position and fall in stern of the vindictive. She suffered very heavily from the fire. A single big shell plunged thru the upper deck and burst below at the point where 56 marines waited the order to go to the gangway. Forty nine were killed, the remaining seven being wounded.

BRITISH LINES INTACT.

With the British Army in France, April 29.

This has been one of the bitterest days of fighting that the Flanders battle ground has had since the present offensive began. Since early morning, Von Arnim, has been flinging great numbers of German troops against the allied lines between Zillebeke Lake and Bailleul, with the hills east of Mont Kemmel as his ultimate objective.

At the same time a secondary thrust has been made at the Belgians in the region of the Yser, north of Ypres. When the correspondent left the battle front shortly after one o'clock in the afternoon, the German commander had nothing to show for his pretentious drive but a long list of dead and wounded. Along the major portion of the front his troops have been held where they succeeded by superior weight of numbers in pushing forward they were soon ejected by counter drives. The Allied line was intact throughout at that hour.

FRENCH HOLD LOCRE.

London, April 30. The French now hold the entire village of Locre, west of Kemmel, says the official statement from the war office today.

GRAND WORK ALL ALONG OUR HOLDING LINES ON OUR WESTERN FRONT—RECAPTURE OF A TOWN 10 MILES FROM AMIENS.

With the British Army in France, April 25.

Success in the southern sector of the battle front and along fierce struggle in the north have fallen to the lot of the allied arms in the contest for vital possessions which the Germans have been trying at a heavy cost of life, to secure. The latest information from the south is that Villers-Bretonneux has apparently been retaken as a result of a brilliant British counter-attack and not only has the town been virtually cleared of the enemy but a large portion of the original positions north and south of it have been reclaimed. German dead are heaped about the unhappy town and some seven hundred prisoners are in British camps.

In the north Mount Kemmel has been attacked desperately by a great force of German troops, especially trained for mountain warfare. The attempt on Mount Kemmel is another move in the German obvious scheme to get control of a chain of hills running east to west in this section and including such elevations as Wytshaete, Kemmel, Scherpenberg, Mont Rouge, Vidaigne and Mont Descats. This pretentious program has, as its object, the forcing of the Allies to pull back their lines to the north still further. The northern attack this morning was along a front extending from Wytshaete nearly to Bailleul and it was carried out by at least four and possibly six, German divisions. The infantry employed were largely picked hill troops including the Alpine corps, the 117th Division and the 11th Bavarians, with Jaegers in reserve.

The brunt of the assault came against the French, who were defending Kemmel, which was the enemy's goal. At two o'clock this morning the German artillery opened a heavy bombardment on Kemmel and surrounding country with gas and for more than an hour maintained a deluge of these poison bearing missiles. Between three and four o'clock the Germans rushed forward and attack the positions, protecting Kemmel Hill; at the same time they began pushing further to the south in order to furnish a protecting flank.

Simultaneously with their attack at Villers-Bretonneux the Germans also began operations to the south against the French and north of the F. Vaire several attacks were repulsed during the early hours.

The first drive against Villers-Bretonneux was made with two divisions and this was thrown back. The Germans immediately put two fresh divisions into line and again surged forward. Five tanks were sent to the north thru the valley, leading thru the southern part of the town and the engines were followed by large forces of infantry. By noon the Germans has swung a salient about six thousand yards wide and 4,000 yards deep about Villers-Bretonneux and were holding the town strongly. This they continued to do until ten o'clock last night when the British delivered a surprise counter-attack. There should have been a moon to assist the British but the sky was heavily overcast and a dense mist hung over the region. According to prisoners the enemy had no anticipation of further trouble from the British last night and were sitting snugly in their new position when the storm broke. The German artillery had perhaps been lulled into false securities and was doing little shelling. At the appointed hour the British gunners put down a sharp barrage and the British infantry drove forward. The attack was made from the south west and north west of Villers-Bretonneux and these two forces drove in towards the eastern part of the town in a converging movement. As a result the British bottled the town up. The British infantry immediately rushed the town and heavy hand to hand fighting ensued the bayonet being used freely. Six hundred prisoners were taken here alone and a great number of the enemy were killed. The town was virtually cleared and today only a few scattered pockets of Germans are in the place.

The will of George E. Boak has been filed in the probate court and Mrs. Boak and son, Geoffrey Boak, are named as executors. The estate is bequeathed to the family of the deceased.

Wait and watch, ye doubting Thomases of the Col. Hunter style, and see our long line of Reserves, when the word comes; "Up lads, and at them!"

Mr. M. J. O'Brien, the Antigonish Millionaire, was in Sydney last week. He has large holding in the well-known tungsten mine at Schulte, Moose River, Hx. Co. He will spend some weeks in Nova Scotia this summer.

Get your hens in at once off your neighbors garden plot.

LOTS OF RESERVE FORCES.

Lieut.-Col. Hunter's Nightmare.

Mr. B. B. Fox of Yarmouth, a returned soldier, writes in strong, pertinent words to the Yarmouth Daily News, that about the loose talk of a Lieut. Hunter, who said Britain had no reserve forces. Here is the damage done by Pte. Fox, a man who has been in the top, whether Col. Hunter or not:—

Last evening's city papers gave an address by Lieut.-Col. Hunter, British Provost Marshall in the United States, in which he states that Britain has no reserve army. He claims that the millions of men England boasts of having constitute a "newspaper army." Winston Spencer Churchill according to reports from England declares that a million new men have joined the colors since the German offensive began. Who is right? As one who has been in France and who was with the Canadian army Corps when it was part of Britain's Reserve Army in the Battle of the Somme, in 1916, I conclude that Lieut. Col. Hunter is not very well acquainted with the military affairs of his own country.

However, it appears that he is referring to reinforcements rather than a reserve army, as he mentions England as the place where this army should be. Even if the latter, he is wrong. England has large numbers of reinforcements in training in most every camp in the land. Beside that she has a large army of millions for home defense scattered all over the Mother Country. V Reserve Army in modern warfare is a large body of men doing practically the same duties as a flying column in smaller and earlier wars. To say that we have no such army is ridiculous, misleading, and unpatriotic. It merely furthers the German propaganda in neutral countries where our enemy has claimed that we have nothing to back us up and the Allied cause is defeated. Surely Lieut.-Col. Hunter is misquoted. If not, then his recall from the United States should at once follow. Even if it were true, that we have no reserve army with which to carry on, he violates his duties as an official in making it known. At the beginning by bluffing the enemy, making him believe we had more men than we really did have. Evidently the P. M., is not quite up to time in modern conflicts. Let us hope Lieut.-Col. Hunter will receive what he deserves for displaying such ignorance of what his home land is doing, and for his most pessimistic and ridiculous reserve army.

General Foch Has Employed Few of His Reserves.

Only a few days ago General Radcliffe, Chief Director of Military Operations at the War office, in a review of the western front situation said:—"In the end, it will be a question of who has the last reserves." Referring to the undoubted Reserve Army that we have in the West-ern Front further said:—"These reserves are now in the hands of General Foch, in whom both armies have the deepest confidence. He so far has employed only a small proportion of his available reserves and this is a great augury for the future."

Reserves That Have Not Been Touched.

United States Secretary of War Baker has just returned from the war fronts in Europe and he has deeply impressed with the spirit of inspiration and optimism he found everywhere. A deep-seated conviction was prevalent that the Allies are on the road to victory. In no uncertain terms, Secretary Baker said:—"On all fronts the Allies have well organized reserves that have not yet been touched." He was confident that Foch would be able to hold the enemy and finally drive him to defeat.

Boy-Soldiers.

An American patrol north west of Toul a short time ago slipped up and captured four Hunns in an outpost. There were six Germans in all but two ran off, would not halt and were shot dead. The four captured soldiers were youths, were brought back to the American lines in broad daylight. They were poorly fed and clothed and seemed to be exceedingly glad to be taken. One of them even asked permission to go to a nearby point and get his brother.

IN THE REGION OF QUAKES.

A mighty severe earthquake was felt in the southern portion of California about three o'clock on the afternoon of April 21.

In Los Angeles plate glass windows were broken and women were injured in panics at theaters. Lots of Nova Scotians in that city and other parts of "Sunny California" longed, in their fright, for their earth-quake free peerless "land of the Mayflower." "Sunny California" forsooth with droughts to almost bake up your vitals and with earthquakes to shake to pieces anything that may be left.

BOY-SOLDIERS.

Sydney School teachers will get an increase of \$50 each per annum. Sydney has to set aside \$54,960 for teachers' salaries and \$22,000 for buildings, grounds, supplies etc. etc.

Mr. Ryland Archibald has for sale this season an immense stock of garden and field seeds of different kinds. 1000 bushels of the "Marquees" seed wheat is part of this big supply.

BE ROUNDED UP

Be Done in Truro Elsewhere.

Mr. Ritchie announced to-night that habitual loafers, were to be rounded up. There is a law against loafing. There are loafers around the corner just as there used to be. Don't see how any man can loaf around in war time. I saw four of them yesterday outside the rail. If they had appeared this morning I would have had them taken up.

Chief Simpson stated that an order had been issued to gather in all habitual loafers. There was plenty of work for men in the army or on the farms, he said.—St. John Globe.

Mr. Ritchie has the right idea for these war times. We have a law now fortunately that says that all men must work; that Act hits the common loafers. It is up to your police to interview every crowd of loafers, no matter where seen, but especially the idle crowd that gather at the Railway Station, and ascertain why they are not at work. All over the country the farmers are short-handed, so let the loafers of our towns be sent out to assist in food production. Let this Law be carried out strictly and impartially right here in Truro.

VEGETABLE GARDENING FOR EVERYBODY.

If you are cultivating a vegetable garden, either at home or on a vacant lot, it would be an evidence of wisdom to send to the Publications Branch, Department of Agriculture, Ottawa, for Circular No 14, entitled, "Vegetable Gardening at Home and on vacant Lots," and prepared by the Dominion Horticulturist. This circular, which can be had free of all cost, supplies in formation of a practical nature on every vegetable that it is desirable to cultivate for domestic consumption. It gives advice on the preparation of the soil, and on planning and arranging the garden, quotes examples or success achieved in 1917, supplies a list of the best varieties of vegetables for different districts, and describes how the growing plants can be protected from disease and insect ravages.

"ORANGE LILY SAVED MY LIFE"

These words or expressions having the same meaning are contained in hundreds of letters I have received during the past year. Many were from women who had suffered agonies from falling of womb; others from women who had escaped dangerous surgical operations, as the result of the action of Orange Lily; and others who had suffered from suppressed menstruation, leucorrhoea, painful periods, etc. For all these and the other troubles known in general as Women's Disorders, Orange Lily furnishes a positive scientific, never-failing cure. It is applied direct to the suffering organs, and its operation is certain and beneficial. As a trial actually proves its merit, I hereby offer to send absolutely free, a box worth \$50, sufficient for ten days' treatment, to every suffering woman who will write for it. Enclose 1 stamp.

### OBITUARY.

#### Gordon McKeen.

There passed away at Franklyn, Mass., on April 23th, after a short illness, Gordon McKeen, a man of sterling character, and highly respected by his many friends, and relatives, who were legion, both in Hantsport, N. S., and in his adopted country, Franklyn, Mass., where he recently resided. Deceased was for many years a councillor of the district in which he resided, and took an active interest in all that pertained to the welfare and betterment of the district. He was for many years an elder in the Presbyterian church at Hantsport, and took a great interest in the Sabbath school there. In the early fall of this year, thinking that the change of climate might improve his health he removed from Hantsport to Massachusetts, but unhappily it proved otherwise, death coming yesterday, as stated. Deceased was always ready to help the needy. He leaves a wife, one son and two daughters; also four sisters, viz: Mrs. D. G. MacDonald, of Halifax; Mrs. P. A. MacGregor, of New Glasgow; Mrs. James Wiles, of Truro, and Miss Bessie McKeen, of Montreal, who have the sympathy of their many friends. The remains will be sent to Gay's River, interment to take place there.

#### CHANNEL PORTS, O. K.

The timid ones in our midst, who take their war news largely from sensational headlines in yet more sensational newspapers, may take it for a fact that there need be no fear for the capture of any Channel Port until the enemy has captured and fully occupied Kemmel Hill, Mont Rouge, Mont Noir, Mont Des Chat, Cassel.

Then, when all these rugged heights, if ever, are in the hands of the enemy, you will find the Britishers and the Allies entrenched in new lines of defence that all the Hun hordes of christendom can never take nor pass.

#### GREATER FOOD PRODUCTION.

A joint Committee from the Town Council, Board of Trade and Canadian Club are undertaking to encourage and help every household in Truro to have a "war garden," this year. Arrangements will be made to plow all the larger and harder lots and as far as possible help with the breaking up of small lots. It is expected that those who can afford to do so will pay a reasonable price for having the work done, but by joining together under proper organization the work can be done very much cheaper than by each one securing his own help.

Parties wishing to have their work done should send their names to the Town Clerk, without delay, and parties who are prepared to do plowing should also notify the Town Church.

The Committee meets in the Civic Building on Friday evening at 8.30 for further organization and it is desirable that they should have as much information as possible before them.

#### DIED AT OYSTER POND JEDDODORE.

The death occurred at Oyster Pond Jeddore, on April 14th of Mrs. George Hill in the 76th year of her age, leaving three daughters—Mrs. John Hartling, Mrs. Heziah Hartling, of Halifax, and Mrs. Walter Day of Dartmouth; also two sons—Avery late of Dartmouth, and Daniel of Jeddore, with whom she lived also 26 grandchildren; three sisters, one at Montreal, one in Michigan and one Jeddore. She was a great sufferer since the explosion on the 6th of December, owing to the loss of her daughter, granddaughter and grandson who were killed in the explosion. She was a member of the Baptist church, a kind and loving mother and a faithful friend.

#### BELONG TO WEST JEDDODORE.

The death occurred Friday 19 April at Halifax of Mrs. Mary Mitchell widow of Harris Mitchell, who predeceased her twelve years. Mrs. Mitchell was ill about a week. She was a native of West Jeddore, Halifax County, but had resided in the City for many years. She leaves a daughter and three sons, Mrs. Thomas Carter, Halifax; Jailer Malcolm and Raymond and Wilson members of the Halifax Police Force, but at present on leave therefrom on service at the battlefront overseas.

#### RE OUR TRURO SOLDIER BOYS BULLETIN BOARD.

April 30th, 1918.  
Editor of "Daily News."  
Truro, N. S.

Dear Sir:  
If your correspondent "Well-Wisher" of yesterday would sow a more practical public spirit by paying the small entrance fee and then attend the meetings of the Board of Trade he might escape stultifying himself by calling a Bulletin Board a "Memorial."

When the time comes—and may God speed it—the men and women of Truro will respond to the call, as did their boys, to the clarion call of duty, and raise a Mausoleum Memorial Monument to the memory of her noble sons, who died for the love of humanity and the Empire, such a monument as will silently speak our profound admiration of their patriotism and valor long after the rest of us of the present generation have also passed to our reward in the great beyond.

G. W. STUART,  
Chairman B. of T. Com.

#### SCHOOL COMMISSIONERS.

The Board of School Commissioners of West Colchester will meet Friday at 10 o'clock a. m. at Great Village.

The man in Hilden, who knows so much about young men trying to escape military service should report to the Military authorities. A newspaper, especially on the word of an anonymous correspondent, would never start out on a rounding-up slackers tour.

#### A MODEL HEN.

Finlay Whidden, Truro, is bragging on his Plymouth Rock hen, as she has just been cackling over laying an egg with a circumference of eight inches. She lost no time in sticking unnecessary "G's" on to the spelling of her product, but devoted herself to laying, hence this monster hen-fruit.

Another good thing about this fine hen is that she never annoys her neighbors by scratching in their gardens, so she has good luck in her egg-producing operations.

### OBITUARY.

#### ROSS HIGGINS.

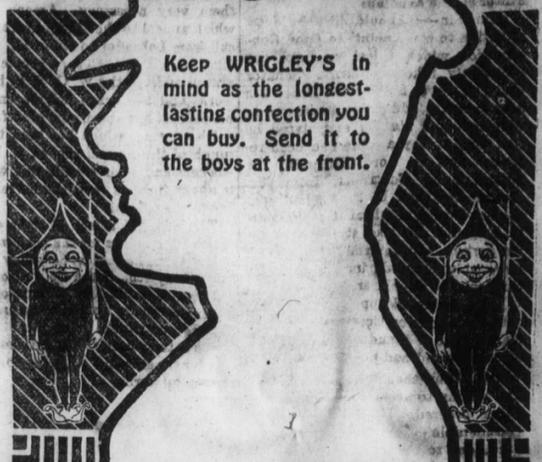

The death of Ross Higgins occurred at Lower Truro on Thursday, April 18, aged thirty-seven years. The funeral was held this afternoon, the service being in charge of the Rev. F. Clarke Hartley, of the First Baptist church. The deceased, who is survived by one son about eight years old, resided at Bible Hill until three months ago and was living with his brother, John Higgins.

#### ALLIES TO HAVE BIG VICTORY BEFORE MAY 4th—IS THE WAGER OF A TRURO WAR EXPERT.

A Truro business man who is well informed and a close observing student of the Army movements, of the Allies and Germans, made a wager on Tuesday, April 30th with a friend, that the Allies would win, a big victory before the end of this week.

The continued good successes of the Allies arms will certainly make our Truro war expert a winner of his wager and bring an early and ultimate defeat for the enemies of mankind.

#### BUDGET SPEECH—NEW TAXES.

Hon. A. K. MacLean, Acting Minister of Finance, presented The Budget in the Commons on Tuesday in a speech of one hour. It was a business like address from first to last.

This our fourth war budget will bring in new forms of taxation, about \$50,000,000 and the tariff changes are but few.

Some of the new taxes will be a tax on business of \$25,000 capital and over.

There will be a surtax on large incomes.

The excise duty on tobaccos is greatly increased. Ten cents a pound is put on Tea, now free duty on coffee is increased. Temperance beers customs tax is increased from 26 per cent to 40 per cent.

Sleeping car berths is increased from 10 cents flat to 10 per cent of value of ticket and parlor car seats from five to 10 cents.

There is an excise tax of one cent on 100 matches; excise of 8 cents of each pack of playing cards and customs of five cents on each lineal foot of moving picture films.

There is a special war excise tax of 10 per cent upon the selling price of automobiles, jewellery, gramophones, phonographs, talking machines, mechanical piano and organ players and records when imported into or manufactured in Canada.

As the present customs duty on imported automobiles is 42 1/2 per cent and in addition the new tax will be 52 1/2 per cent and in addition the new tax will apply to the duty as well as to the actual price.

#### HOME AGAIN.

Among the returned invalid soldiers lately arrived at Halifax are three, who went overseas with the 106th Bn., and one with our own 193rd Bn.

The gallant fighters are; Pte. Allan L. Bonnell, 106th, Truro. Pte. John Martin, 106th, Waterford, C. B. Pte. J. C. Mitchell, 106th, Westville. Pte. L. C. Welsh, 193rd, Economy.

Hon. W. F. McCurdy, Baddeck, was in town on the 29th ult en route from Halifax to his home. Mrs. McCurdy has not been in Halifax this winter, while her husband was attending the sessions of the Legislature, and at present she is visiting their son, Charlie McCurdy at New Campbellton N. B.

#### TRURO BIRDMANHOME.

Lieut. Ralph Carter, son Mr. W. P. Carter, Truro, has arrived from England. He went overseas with the St. Francis Xavier Unit attached to the Band. In England he joined the R. F. C., and acted as Observer and now goes to Toronto to train as Pilot. He will be with Truro friends for a few days.

**ABOUT WAR-BREAD SACRIFICES THAT ALL SHOULD MAKE**

Editor of The Acadian:  
Dear Sir,—I should like to draw attention to some points in Food Conservation which I feel we have not sufficiently taken to heart. Senator Colby of the U. S. A., Food Board has been recently addressing audiences in Montreal and Halifax and stated he was sorry to say a cable had been recently sent to Lord Rhonda, the British Food Controller, from Mr. Hoover that the U. S. A., had sent the last bushel of wheat it could spare to England; he also stated that for his part he had determined to use no more white bread during the war. To this I wish to refer later.

I was much disappointed with the action of our Food Controller when deciding upon a Standard Flour that a stronger stand had not been taken for which I know the public were prepared and willing to accept, and a real War Flour ordered. In Great Britain a considerable percentage of other flours are added to the wheat flour, such as rice oats, barley, maize, etc. Our Standard Flour only increases the amount of flour milled from a given quantity of wheat by about one per cent, and so small is this that it is difficult to distinguish any difference from the flour previously used. I feel there should be more equality of sacrifice among the Allies, and as we have not suffered with regard to our Daily Bread, we should be willing to forego some of our pre-war foodstuffs and pleasures of the table.

We cannot fail to appreciate now the heavy responsibility resting upon us all not only to produce more food, for which by the way, we are well paid, but also to save in all those vital food stuffs that are absolutely necessary if we are to see that our gallant soldiers are properly provided for, and have our Allies from the dread hand of famine which is menacing them. Every pound of flour counts and we can all help. In my own household we have decided to follow the lead already mentioned and to use no more white bread on our table for the duration of the War. Who will follow?

C. HOGAN.  
Church Street, Cornwallis, N. S.  
Acadian Recorder.  
(Mr. Hogan, an Englishman by birth and lately back from his native country, where he was doing all in his power to assist in war work, thoroughly understand the Food situation in the mother land. His suggestions are timely and practical; and have the true win-the-war sacrificial ring in them. Let more families show this example.)

**THE POILU.**

Everybody knows that the French soldier is called "Poilu" in the same way that the British is called "Tommy" and the American "Sammy," yet it is not generally known how the name arose. The name means "whiskers"—simply this and nothing more. In the early period of the war, after the Battle of the Marne, the garrison of Paris and other divisions by thousands returned from the tremendous fight, and as a result of long days and nights of incessant activity, shaving was out of the question, and the heroes marched through the streets with many days, in some cases many weeks growth upon their faces. An American eye-witness thus describes the scene:

"The soldiers from the Marne came into Paris entirely surrounded by whiskers—black whiskers that would have made Blackbeard the Pirate commit suicide, walking his own plank, out of sheer envy; blonde whiskers that might have adorned the checks of a Viking; brown whiskers that recalled thick-bearded evangelist portraits; red whiskers, like the sunset behind the Arc de Triumph. When a Parisian greeted a friend from the trenches he felt that the soldier's eyes peeped out of an ambush of hair. The nose was concealed in the bearded face like a cannon hidden from aircraft. Only the tips of the ears emerged from the hairy jungle."

As the squads of bearded men passed up the streets everyone seemed to exclaim in accord, "les Poilus les Poilus—the whiskers, the whiskers. The name sticks, and ever since that time the French soldier has been "Monsieur Poilu," or Mr. Whisker, or to put the word in English slang, shaggy. The word applied at first in sort of good natured derision has become one of endearment and admiration, having a deeper meaning in the heart of France than has ever "Tommy" in the heart of England.

**Y. M. C. A. LOST HEVILY.**

In the retreat of the British on the western front the Y. M. C. A., was a heavy loser; some 80 huts, equipment and supplies were lost a value of \$500,000.

All the men of the Y. M. C. A. staff got safely away.

Money is already on hand to replace every one of the destroyed huts and the organization has had temporary arrangements made of the new ground occupied by the armies.

**W. C. T. U. LABRADOR WORK.**

The calls for help in these strenuous times are many and varied and most of them very necessary. Among those which appeal to the kindly heart is the call from Labrador to aid in Dr. Grenfell's work there. Truro people have always assisted the W. C. T. U. in this work, and the brave helpers on that bleak coast have been very grateful.

The sewing, which has been taking much of the time of the W. C. T. U. workers and their friends this winter, is about finished, and the barrels will shortly be packed.

There is still a lack of some of the necessary supplies for the hospital, and a Social is to be held on Saturday afternoon, May 4th., in the Court House, in aid of this work. All friends of this worthy cause are invited to be present, and to contribute toward the fund, which is to be used to buy articles suitable for the sick and suffering inmates of hospital wards.

**RETURNED SOLDIERS FIRST.**

In a discussion a few days ago in the Canadian Commons the Government plainly stated that vacancies in the Civil Service of Canada, inside or outside service, or new offices that might be created would, as far as possible, be filled by returned soldiers.

In the general debate the feeling was expressed that our veterans should in every possible way be considered before any other claimants; and in this connection Sir Sam Hughes said that when appointments were made to returned soldiers the commission should satisfy itself that those appointed had actually been to the front, and where not men who had held down clerical jobs over in England. He said he knew of men in Canada, who were longing to get across, but could not arrange to go. Men who got over to England and went no further were entitled to no more consideration than those men who wanted to go but were detained in Canada.

**DR. AVERY SHAW A CAMP CHAPLAIN.**

Emmanuel Baptist Church, St. James place and Lafayette Avenue, Brooklyn, N. Y., has granted a five months' leave of absence to the pastor, the Rev. Dr. Avery A. Shaw, who has been appointed by the War Work Committee of the Young Men's Christian Association to be camp pastor at the cantonment at Battle Creek, Mich. His leave will date on or after May 1st to begin his duties Dr. Shaw is a native of Berwick and a graduate of Acadia University, and best of all is married to a charming Truro girl.

**TOWN PLANNING IN HALIFAX.**

The opportunity is not being lost at Halifax to prepare town planning schemes for the devastated and other parts of the city in which future development is likely to take place. The schemes are being prepared by the Town Planning Boards of the City and County under the advice of the Commission of Conservation. Mr. Thomas Adams, Town Planning Adviser of the Commission, has been appointed Consultant to both boards and is busy with the preparation of the maps and draft schemes for five large areas in co-operation with the local engineers. Mr. H. L. Seymour, D.L.S., of the Surveyor General's Staff, has been loaned to the Commission of Conservation to assist with this work.

The opposition to town planning in Halifax that has been reported is not the principle of town planning nor to the work being done by the town planning boards. What was objected to was the proposal that the Relief Commission should take over the town planning of the devastated area, as a result of this objection, the Relief Commission will leave the planning to be undertaken by the existing boards. The main idea behind the objection was that the work of street planning and building regulation should be undertaken by representative and elected bodies. Mr. T. S. Rogers, K. C., Chairman of the Relief Commission, has intimated his desire to co-operate for the town planning boards. One scheme is being prepared for the city of Halifax for an area of about 3,285 acres and four schemes are being drafted for adjacent parts of the county of Halifax, comprising an aggregate area of about 20,000 a.res. The first stage in the preparation of the City Scheme has been completed and the planning of the devastated area is being pushed forward by Mr. Adams, in co-operation with Mr. H. W. Johnson, City Engineer of Halifax.

As a result of the recent food conservation campaign carried out by the Local Council of Women, about 300 householders of New Glasgow signed the food pledge card.

**Bridgeman Sees Spies at Work Picks up Sketch.**

While John Litchold, bridgeman on the upper deck of the ferryboat Philadelphia of the Pennsylvania Railroad, was at work yesterday he observed two men of decided Teutonic appearance sketching on strong linen paper. Frequently they conferred and pointed to shore lines before renewing their task.

When the men reached this side of the city they hurriedly left the boat, but in their haste one dropped a piece of paper which was picked up by Litchold. This he took to William Wallace, Jr., head of the Enemy Alien Bureau. An examination disclosed the paper to be a drawing of the railroad system of Canada.

Mr. Wallace regarded the find as one of paramount importance and notified the Department of Justice at once.—New York Paper.

**TAR AND FEATHERS FOR TREASON.**

Major J. W. Birkner is held as a Federal prisoner in Camp Cody, New Mexico. He was born in Germany and is charged with espionage. He was in the prison yard for exercise with 400 convicts, when these fellow prisoners seized him, stripped him of his clothing and covered him with tar and feathers and led him around by a rope around his neck. The prisoners got the feathers from their pillows, but where the tar came from is a mystery.

**GOOD WORK ON WESTERN WAR FRONT.**

To the War Correspondents on the Western front on Monday night it was evident that the Germans, in their smashing attack after attack, had not gained, as the cables say "one foot of ground."

Their assaults, and they were repeated again and again were smashed by British artillery fire and infantry charges. The Hunns were mowed down like grass and their losses appalling in the whole of Monday's fight.

The British troops between Meteren and Zillebeke, some 15 miles, hurled back all enemy attacks. The British line held absolutely; but here and there the French for a time had to give way a bit, but in the end gained back almost the whole of the ground. North of Ypres the Belgians were also attacked, but they, too, held well.

The result of the simply terrific onslaught of the Hun is most satisfactory; and John Bull, and Yankee Cousins; and the gallant Poilus and King Albert's brave Belgians are "holding on," and surprising an on-looking world at their deeds of gallantry and heroism.

If the statements credited to Lieut-Colonel Fraser Hunter, D. S. O., British Provost Marshal in the United States, in his speech in New York last week are correctly reported and are true, this military speaker should be court-martialled; if they are not true he should be interred as giving help to the enemy.

It's Cheaper to Paint than Repair

YOUR house—if it is four years old or older—is worth at least 50 per cent more today than when it was built. Lumber and cement are so high that it would cost half-as-much-again to build this year as it did in 1914. So it is obvious that either a new house or an old one is today so valuable a property that its owner must conserve it unless he is committed to a policy of wilful waste. Keep your house—and all your buildings—protected. And let your paint-protection consist of an economical paint. Use the paint that goes farthest—lasts longest.

**B-H "ENGLISH" 70% Pure White Lead (Standard Genuine B.H.) 30% Pure White Zinc 100% Pure Paint**

The kind we guarantee to possess as its important base, the above correct formula. This formula, printed on every can over our President's signature, commits us to this standard. High in cost as white lead has become, we must use as much of it as before—to use less, would necessitate the removal of the guarantee from our cans and would injure the high reputation, which these paints have acquired by reason of their superior ingredients.

### OBITUARY.

**James D. McDonald.**

Pugwash, N. S., April 14-18—The death of the late James D. McDonald took place at his home, West Pugwash Sunday afternoon, at 1.30 p. m. following a lingering illness of pneumonia. The late Mr. McDonald was in the advanced age of 82 years and 5 months. He was born at Tatamagouche, Col. Co., and moved to Pugwash when a young man. He was of sterling character, respected by all who knew him, being a member of the Order of Orangemen. In the days of the old stage coach he carried the mail from Thompson Station to Pugwash for a number of years, and was well and favorably known to all who met him. He leaves a widow one son, D. E. McDonald, and a daughter, Annie, at home to mourn the loss of a true and devoted husband, and a kind and loving father.

The funeral took place Wednesday afternoon at 2 o'clock p. m. The service at the home was conducted by Rev. Mr. Miller, pastor of the Presbyterian church and the interment was made in the family lot at Pugwash Cemetery. The pall bearers were C. F. Cummings, S. R. Smith, J. D. Burnside and F. W. Woodlock. Gone but not forgotten.

### THE LATE MRS. C. C. COX.

There passed away at Upper Stewiacke on Tuesday morning April 23rd, Annie, wife of Ex-councillor C. C. Cox and daughter of the late Anderson and Martha Logan.

Mrs. Cox had not been in her usual good health for a few months past and came to Truro on Thursday the 2nd, to undergo an operation at the Ainslie Hospital. It was hoped that a cure would be effected but the nature of her trouble was such that not anything could be done.

After ten days she was able to be removed to her home at Upper Stewiacke where loving hands and hearts did all that could be done to minister to her comfort and care. The end came at an early hour on Tuesday morning and the funeral took place on Wednesday afternoon at two o'clock from the home residence and was conducted by the Rev. Dr. Archibald of Springside, speaking from the text, Phil. 1:21—"For me to live is Christ to die is gain". A large concourse of friends followed the remains to the burying ground testifying to the high esteem for the deceased.

The deceased leaves in her immediate family a husband and three sons; also two sisters, Mrs. H. G. Gammell, Upper Stewiacke, Mrs. Sidney Clarke Bayhead, Col. Co., and four brothers, E. A. Logan of Old Barns; Fred Logan of Boston; John Logan now Y. M. C. A. worker in the military camps of Texas, U.S.A. and Capt. J. W. Logan, of the 25th Batt., now "Somewhere in France."

Floral Tributes were beautiful, from Upper Stewiacke, Truro and Boston friends; among which was a beautiful wreath from the Ainslie Hospital Staff, Truro. The Pall Bearers were C. B. Bentley; P. A. Bentley, J. D. Cox and W. Kennedy. The many friends, including the Truro News, of Mr. Cox and family extend sympathy in this their hour of trouble.

### OBITUARY.

**MRS. MARY LODGE.**

At 3.30 o'clock Friday afternoon a large number of relatives and friends gathered at the home of W. G. Lodge to pay their last tributes of respect to the memory of his aged grandmother, Mrs. Mary Lodge.

The solemn memorial service was conducted by Rev. H. D. Townsend, who took for his text II Timothy 4, 7, "I have fought the good fight; I have finished my course."

The passing away of Mrs. Lodge on April 17th removes from Mapleton and vicinity one of its oldest landmarks, as well as one of our best known and respected citizens.

She was formerly Miss Mary Harrison born at Maccan in the year 1822, and if she lived until April 25th would have been 96 years old.

When about 12 years of age, she, with her parents came to Mapleton, where she spent the rest of her life.

In 1840 she married William B. Lodge of Mapleton who predeceased her 37 years.

Mrs. Lodge was a woman of sterling character and being a great reader was well versed in doings both at home and abroad. She took a keen interest in the war to which she has given a number of relatives, including grandsons, and one great grandson, who had been killed in action. Worrying about the awfulness of the war no doubt served to hasten her end.

Of a family of ten she is survived by two daughters Mrs. A. S. Blackburn, Truro, and Mrs. Daniel Wilson, South Effingham, N. H., one son Christopher Lodge, Truro, also numerous grandchildren, great grand children and great great grandchildren who besides her many friends are left to mourn their loss.

Mrs. Lodge was well known in Truro, having spent a number of years here with her daughter, the late Mrs. Fred Johnson.

Stop at Walter Byer's if you want to decorate your walls and windows taste fully and economically.

### WE CAN GET MEN ON THE FARMS IF EMERGENCY ARISES.

Hon. Mr. Carvell, in his place in the Commons referring to the lack of farm labor, especially if the new Man-Power Law is enforced, said "in the farming situation he was not as pessimistic about it as members of the Opposition appeared to be. He represented a farming community and was prepared to admit the enlistment of men from the farms might cause some dislocation in Canadian agriculture, but he asserted there were hundreds of thousands of men fit for farming who could be put on the farms if the Government was courageous enough to force them to go.

"The Government had made a start in the right direction by constituting idleness a criminal offence. Perhaps it would become necessary to force men to go to the farms, and if that were the case Mr. Carvell left that the Government would not hesitate to do it, and the country would give its support."

### OVERSEAS Y. M. C. A.

Last Sunday in a small country town the people gathered for worship as usual. The clergyman who officiated was a stranger to the congregation. He had a good story to tell of how the gospel of Christ was proving itself a great asset of our race in this present time of great need, and by way of illustration, he told the story of the work of the Y. M. C. A. for our boys in summer camps and winter barracks and naval ports in Canada and in Britain; also the work that is being done in France from the seaport town right up to the front trenches. Then he expressed the hope that his hearers would not see this very practical form of Christianity suffer through lack of funds to do their very best work.

The service closed, and four farmers waited at the door to speak to the man who had made that appeal. They all wanted to make their contributions right away to assist in this work. The Preacher could only protest that he had not any authority whatever to receive contributions—"the canvass will be made on the 7th, 8th and 9th of May, and you will be asked to make your contribution then." The amount pressed upon that clergyman by these four farmers totalled \$74.00 and this is only one illustration of what may be expected in every section of our province when the canvassing teams set forth to gather in returns for the Y. M. C. A., work overseas. Let every one help.

### A GOOD DIGESTION.

Depends Upon Keeping the Blood Rich, Red and Pure.

To be able to eat what you want and to digest it properly is a priceless blessing. Good digestion is not appreciated until you lose it. Then you cannot afford to experiment, for strong medicines are hard on weak stomachs. If you have indigestion do not be persuaded into believing you can cure yourself by the use of pre-digested foods or so called stomach tonics. There is no tonic for the stomach that it not a tonic for every part of the body. It is through the blood that the stomach gets its power to assimilate and digest food, and as the blood goes to every part of the body and improvement in its condition not only results in strengthening the stomach, but every organ in the body. Rich red blood is absolutely necessary to good digestion. If your stomach is weak and you are troubled with sour risings in the throat, a feeling of pressure about the heart, or nausea after eating, try the tonic treatment with Dr. Williams' Pink Pills. So many dyspeptics have been cured by this medicine that every sufferer from stomach trouble should try it. You will soon know the joy of good digestion and enjoy better health in other ways if you give this medicine a fair trial. Mr. Fred J. Kendall, Darlin, Ave., Toronto, says—"For upwards of five years I was a great sufferer from indigestion, which gradually undermined my general health, leaving me in a weak and anaemic condition. I spent considerable money with one doctor and another, but failed to receive any lasting benefit, and had become quite discouraged. One day my wife urged me to try Dr. Williams' Pink Pills but I thought it would be the same old story. But she had so much faith in them that she got me a box, and to please her I began taking them. By the time the box was finished, I noticed a slight improvement, and I continued taking them and soon found myself gaining. I could sleep better and my appetite improved, without the distressing symptoms that had previously followed eating. I think I took in all about a dozen boxes, and to-day I am a stronger man than I ever was in my life. When I began the use of the pills I weighed 143 pounds while now I weigh 167. You may use this letter as you choose, hoping it may reach some poor, discouraged sufferer as I was."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### BOYS ATTENTION.

Think what the Y. M. C. A., has done for your brother or chum in France. Returned soldiers say that when the Canadians first reached France, they were frequently seen standing in bunches, after a heavy bombardment; with their arms around each other crying like babies.

Now when they come out of the trenches a Y. M. C. A. man meets them and says "Come on over and have some hot coffee and sandwiches on me." This may not seem very much to you at home with all your comforts, but to the boys when they come out of the trenches, tired, wet and perhaps wounded this means more than we at home can comprehend.

The boys are getting recruits for the Earn and Give Campaign, this week. A number have already signed up. Have you? If not don't delay any longer but get in line and do your bit. **PUBLICITY COMMITTEE.**

### WELL DONE JUNIORS.

The Junior Red Cross workers in their late entertainment in The Strand cleared the handsome sum of \$358.40.

That is magnificent; and the busy workers "hit the trail" in good style; and how proud our soldiers will be to read this, in their Home Paper, when it arrives in the Trenches.

SHIP HARBOR ITEMS.

After a long, hard, winter, Spring is beginning to assert itself. The roads are nearly all bare and the first pretty well out. In some sheltered spots there still remains some snow.

Quite a lot is in the woods yet, which will not disappear till well into May.

The ice has finally disappeared from the Harbor, but the lakes are still solidly frozen.

It is planned to launch the schooner, now in course of construction here, on the 4th, May. She is very nearly complete, the two things yet remaining to be done are rigging, and the cabin; the masts are already in position. She is a fine schooner and very strongly built, and the builders, Mr. Weagle and his son, Norman, are to be congratulated on their work.

Mr. E. A. Marks has had a crew in the woods all the winter cutting material for a second vessel. Some of the material is already in the yard.

Mr. Norman Eisan, who was working at the Imperial Oil Works in Dartmouth, has been very sick. He has recovered sufficiently to be brought home on Sunday. We wish him a speedy recovery.

Many of our young men are working in Halifax, where they are getting good wages. The ship-yards keep many of the men home, if has been a great thing for this place.

Nearly all the clocks here have been advanced one hour in accordance with orders. The Anglican and Presbyterian Services are conducted by the advanced time, also the work in the ship-yard. The schools are working on the old time.

GREAT VILLAGE, COL. CO.

April 23—The pulpit of St. James Presbyterian Church was occupied yesterday morning by Rev. D. C. Ross of Stewiacke, who gave an intensely interesting and able address, outlining the work of the Y. M. C. A. among our soldier laddies. In the evening Mr. J. D. MacInnes, Divinity student of Queen's University preached a very acceptable sermon from the text, "Lord, teach us to pray, as John also taught his disciples, Luke 11:1. Rev. W. M. Gillespie conducted the services yesterday in London-derry.

The announcements have been received of the marriage of Mr. James H. Corbett to Miss Mabel E. Milne of Montreal. The groom is the second son of Mr. and Mrs. Leander D. Corbett of our village. Heartiest congratulations.

The supper and entertainment given in the Presbyterian church last Tuesday evening drew a very large number of people and the general verdict of those present is most gratifying to those who were in charge of the evening's program. The tables, prettily decorated with potted plants, color scheme green and white, were daintily laid with tempting viands to which all did ample justice.

The entertainment was as follows: Kitchen Orchestra.

Solo—Miss Annie L. Marsh. Madame Jarley's Wax Works.

Solo—Mrs. W. W. Bowers. Kitchen Orchestra.

God Save the King.

The kitchen orchestra drew forth loud peals of merriment from the audience as they appeared on the platform arrayed in large work aprons and dust caps, and under the leadership of their director, who wielded a large feather duster as a baton, kept time with every conceivable kitchen utensil to the music ably supplied by Mr. Donald MacLaughlin on his violin, accompanied by Miss Annie L. Morash, Master Robin and Miss Franz Doherty certainly proved themselves equal to the occasion with the drum and tambourine respectively.

The members of the orchestra ably assisted the violinist with their merry whistling and the loud applause gave sufficient evidence of the appreciation of the audience.

Several figures of Madame Jarley's wax works were then introduced, including Mother Goose, Little Red Riding Hood, Sewing lady, Jack Spratt and his wife, boy who stood on the Kid and his victim, Mother Siegel and the two headed girl. Without showing any undue partiality we think the honors of the evening were carried off by Little Red Riding Hood and Captain Kid and his victim.

Madame Jarley and John were inimitable in their costumes and the description of these various figures brought forth rounds of applause. Mrs. W. W. Bowers and Miss Annie L. Morash in their solos, "Somewhere a Voice is Calling," and "Absent," respectively were also in good form.

The proceeds of the evening amounting to thirty-eight dollars, ninety cents will be devoted to purchasing equipment for the church, the balance to form a nucleus of a fund for the shingling of the eastern side of the church.

Miss Lena Brambrick and Mr. and Mrs. Max Layton were visitors in Truro for the week end.

Mr. and Mrs. Morton Upham of Masstown were in our midst today.

ADDRESS AND PRESENTATION AT EAST MINES STATION, COL. CO.

The home of Mr. and Mrs. Frank Simpson was the scene of an interesting event on Monday evening April 22nd, when a number of friends and neighbors gathered, to meet Mr. and Mrs. James Keay and present them with an address and a slight token of their esteem.

Mr. Keay has held the position of Station Agent at East Mines for fifteen years, and is now leaving to take a similar position at Ferrona, Pictou Co.

Their many friends are very sorry to have them leave as they will be greatly missed.

Charles Morrison was appointed chairman and in a few well chosen words spoke of the faithful services rendered by Mr. Keay in his official capacity, and of the esteem in which both he and Mrs. Keay were held in the community.

He then called upon D. W. Smith, who read the address and in behalf of his friends, presented to Mr. Keay a handsome Morris chair and to Mrs. Keay a no less handsome leather covered rocker and parlor lamp.

Mr. Keay although taken by surprise, thanked the donors for the kindness shown him and Mrs. Keay but said the community owed him no such evidence of their good will, as he had only done what his duties required.

After the presentation, games and music among the young people, and friendly talk and jokes among the older ones filled in a most enjoyable evening. A sumptuous lunch was served, and after singing God Save the King, the company dispersed.

Much credit is due Mrs. Simpson and those associated with her, for the kindly manner in which their guests were entertained, and the very pleasant evening enjoyed by all.

ADDRESS.

To Mr. and Mrs. James Keay: It is with feelings of regret that we have assembled here tonight on the eve of your departure from among us, where you have served the public faithfully for so many years.

You have seen ever genial and obliging, frequently putting yourselves to inconvenience doing favors for others. Those of us who have been entertained at your home will always remember with pleasure your kindness and hospitality. We feel that in your leaving us we are losing good friends, but what is our loss will be others gain.

To you, Mr. Keay, we would say that we appreciate very highly the service you have given us, in the discharge of the duties of your office and trust that you may be successful, and receive the respect and esteem due to you, both as a citizen and station agent, wherever you may be situated.

We wish you and your family prosperity and happiness in the years to come wherever your lot may be cast. Kindly accept this gift as a slight token of the esteem in which you are held by the people of this community.

WESTCHESTER STATION, COL. CO.

April 30.— Like several other places we have had a "smallpox scare" but fortunately had only one case and too late we hope for any new ones. Mr. D. B. Brown contracted the disease while working in Halifax.

Mrs. W. D. Cooke and Mrs. Samuel Doyle, who have been ill, are recovering.

Mr. E. Giles of Oxford Junction visited friends here last week.

Mr. D. M. Langille spent a week, visiting friends in Medford, Malden and other parts of Massachusetts; he was accompanied on his return by his niece, Miss Marjorie Kenneally of Medford, Mass.

Miss Ethel Langille of Halifax spent her vacation with the cousin, Miss Hilda Langille.

Mr. D. M. Langille has sold out his business to his nephew A. R. Langille who has also purchased the property of F. Ralph, near the station, and has moved there from Bayhead.

Mrs. G. Robinson has returned from Truro, where she has been nursing her son, who has recovered enough to accompany her home to Westchester, where we hope the "Good Mountain air" may soon make him fully recover.

Mr. Charles Langille of Tatamagouche is visiting his brother, D. M. Langille and son, A. R. Langille.

Miss Stella Newson has been spending a few days with friends in Truro.

Mr. and Mrs. R. T. Colburne, Mrs. D. M. Langille, Miss Langille and J. E. Langille spent Monday in Truro.

Mrs. J. N. Rushton is suffering from an attack of pleurisy.

Mr. J. E. Langille, Stellarton, is spending a few days with his parents in Westchester.

Miss G. Jeffers of Waverley, Mass., has been visiting her sister, Mrs. C. T. Purdy.

Miss Weatherbee of East Mines, recently visited with relatives, Mr and Mrs. A. Cummings.

Little Melville Newson, son of Edgar Newson had his feet badly scalded last week, but it is recovering.

Mr. Harry Purdy of Belmont spent a few days last week with Mr. and Mrs. E. J. Newson.

LOWER MACCAN, CUMB. CO.

April 29—The few fine warm days which we have had lately have helped us to forget the long cold winter and we begin to think of gardening, house-cleaning, etc. Five of our advanced pupils have volunteered as S. O. S., and will leave school in a few days time.

They are the Misses Lily Lavers, Estella and Elsie Carter, Edgar McDonald and Eddy Hicks.

Mr. Samuel Fisher and Mrs. Eagles of Chignecto Mines were visitors to Lr. Maccan on Sunday Apr. 21st.

Mr. Jacob Harrison of Southampton was a recent visitor here.

Mr. E. O. Carter was in Amherst on business one day last week.

Mr. B. P. Carter was on a business trip to R. Hebert last Saturday.

The first car of the season appeared on our roads here on Sunday last Mr. C. E. Landels visited relatives in Sackville a short time ago.

Dr. McKasly of R. Hebert was here on professional duty one day recently.

Pte. Joseph Noles who was wounded at the battle of Vimy Ridge and who has been in a convalescent hospital in England for several months returned

to his home here last Friday. His friends and relatives here are giving him a hearty welcome and a reception will be held for him on Tuesday evening of this week. This young hero expects to leave here for Halifax in a short time where he will undergo further treatment in a hospital there.

A SAFE PILL FOR SUFFERING WOMEN.

The secluded life of women which permits of little healthful exercise, is a fruitful cause of derangements of the stomach and liver and is accountable for the pains and lassitude that so many of them experience. Parmelee's Vegetable Pills will correct irregularities of the digestive organs and restore health and vigor. The most delicate woman can use them with safety, because their action, while effective, is mild and soothing.

EARLTOWN, COL. CO.

April 29th—We still have lots of snow in some places, but the roads are getting quite passable. The frosts started up their Band Saturday; and everything is taking on a Spring-like appearance.

Solomon Langille, an old and respected citizen of East Earltown, was laid to rest in River John cemetery, Saturday afternoon. He was an unusually strong man till some two years ago when his health began to fail.

He sold his farm a year ago to Howard Forbes of Forbes Brothers, Denmark? and last Fall he moved to River John. He went to Pictou a short time ago for medical treatment, where he took worse and passed away. He leaves to mourn, a widow and one son at home; and one daughter in the West for whom much sympathy is felt as her husband is fighting the battles of the country at the front. One has already given his life in defence of King and Country some time ago.

There is an epidemic of gripp raging here, which seems to be contagious as it attacks whole families at once and has spread considerably already; the only broken out a few days ago.

Private Wm. Ferguson was here to see his parents and friends before going overseas; he is a son of Alex. Ferguson, West Earltown. He had been in the West for a number of years and his many friends were glad to see him; he made a good appearance in the King uniform and we feel sure he will give a good account of himself, when he gets after the Hun.

Rev. D. C. Ross, Stewiacke, will speak in the Hall, Friday night May 3rd in the interests of the Y. M. C. A. fund; all who can should hear him.

SHORE ROAD AND BARRASOIS COL. CO.

OBITUARY.

Mr. George Graham, Belmont.

On Wednesday, April 24th, there passed away Mr. George Graham, the oldest resident of Belmont, N. S., at the advanced age of 90 years.

Mr. Graham was one of these men who lived a quiet life but still was deeply interested and exerted an influence for good in both church and community. He was a member of the Presbyterian Church and in days of health was regularly in his seat upon the Lords Day. His death was a strong testimony to his faith in the Saviour. He lived the life of the righteous and he died the death of the righteous.

His funeral was conducted on Friday afternoon by his pastor, Rev. J. A. MacKean, and the large number that followed the remains to their last resting place in Belmont cemetery was evidence of the respect of the community for the deceased.

Sympathy is extended to the bereaved widow to the daughters; Mrs. H. D. Davis of Franklin, N. H., Mrs. L. P. Thayer of St. John, N. B., and Mrs. L. R. Kent, of Truro, N. S., and to the sons Harry and Alden both of Belmont Elbert in the West and Lloyd in Halifax, N. S.

We are showing at very moderate prices much below today's value, a very nice collection of ladies and misses coats, suits and skirts, these are all priced on our well known close dry goods basis. —C. E. Bentley & Co.

SHOULD BE PERMANENT.

Truro, N.S. April 29th 1918. Editor, Truro Daily News, Dear Sir: I believe a movement is on foot to erect a public memorial to the men and boys of the town of Truro who have enlisted in the Canadian Expeditionary Force—the same to occupy a place of most available prominence.

Without desiring to question either the motives or efforts of the gentlemen entrusted with the furthering of the plan, might I suggest that the project be carried out in stone instead of wood. Such tablets would be no disfigurement to the front of our Civic Building and the resulting permanence would surely be more in keeping with the idea of a "memorial."

Similar Memorials are to be very generally seen in Great Britain; but will be found done in granite, marble, bronze or silver, and in design, from a modest plaque or shield to a pretentious shrine or fountain.

Yours respectfully, WELL-WISHER.

HAS ENLISTED IN THE IMPERIAL ARMY.

Edward Archibald McSweeney Formerly of Moncton—Of Good Old Colchester Stock Is A Soldier of The King.

Mr. Edward Archibald McSweeney, of New York City, well known as a former private secretary to Mr. Lawson, the financier, has voluntarily enlisted in the Imperial army, which was soliciting recruits in New York City. Mr. Edward McSweeney was transferred from New York City to Windsor, N. S., where he is at present taking an artillery officer's training course. He expects to go overseas in about three weeks. He is a son of Mrs. Edward McSweeney, of this city and a brother of Mr. Eugene McSweeney, one of the principals in the Moncton Carpet and Furniture Company. He is also a nephew of Hon. Peter McSweeney, Senator, and a native of Moncton, educated in the schools here and widely known in the city—Moncton Transcript.

Mr. McSweeney is of good old loyalist stock on his mother's side particularly; she was formerly Miss Jennie Archibald of Bible Hill, a sister of Mr. Len. C. Archibald of The Crushed Milk Company, now a resident of Truro.

PROTEST FROM A FARMER OF UPPER MUSQUODOBOIT.

Editor of The Chronicle.

Sir:—As a farmer of Upper Musquodoboit I am simply protesting against the latest outrage by the Dominion Government in taking the young men from the ages of 20 to 23 years for military service, as that class takes our last help.

When a Government will take out last help from us, and expect the farmers between 60 and 70 years of age to run a farm and raise big crops, it is simply ridiculous.

Speaking for myself my farm will run as a common this year, as I cannot afford to hire help, if it could be got. The men are being called away just about the time seeding commences here.

When the United States have entered this war, and will have millions at the front before our men can possibly get there, I think it is, as one of our members in Parliament puts it, taking the farmers by the throats.

SAMUEL ARCHIBALD, Upper Musquodoboit, April 24, 1918. Halifax Chronicle.

(Mr. Archibald will see that Hon. Mr. Rowell, President of the Privy Council, has promised that the young farmers shall not be called out for Military Service this Spring until, after seeding; and further that the young lads of the ages of 20, 21 and 22 in the cities and towns will be first called out.—Ed. News.)

THAT OLD TIME HOME O'MINE

Ah me! I'm gettin' hungry to go back home again; I can see the old scenes loomin' up as clearly now as then; I can peer along the vista of a score of years or more, And the golden sun's a-shinin' down as in the days of yore!

I can see the dear old faces, I can hear their laughin' tone, Just like I ust to hear 'em in the summers long since flown; And my heart leaps high with rapture, while a thrill runs down my spine, When I think onct more o' goin' to that old-time home o' mine!

Let me eat again the victuals that I ate in boyhood days; There's nothin' now tastes half so well, though cooked in stylish ways; Oh, what a splendid relish, just a bowl of milk and bread, And my mother standin' by me with her hand upon my head!

Let me sleep beside the window where the morning glories grew, And the sun in golden patchwork at the dawning glinted through; Making me to dream so grandly, as the years should onward roll, Of my course of future greatness—how it thrilled my boyish soul!

I'm so sorry that my waking years this path have never known; That upon my years of struggle small success has ever shone; But it makes the harvest sweeter, though the fruit be gnarled and rare, Just to know we've dreamed of heaven, and have had our standards there!

Let me wander in the woodlands where I loved in youth to tramp, A-buildin' airy castles like Aladdin with his lamp, Where the birds that sang above me and the flowers that bloomed beside Were like sermons preached from heaven with a message glorified!

They tell us now in science that the flowers all bloom for seed, And the birds that sing around us simply their call-mates, indeed! But I love the old-time notion that my mother taught to me, That the birds are minstrels praising God in field and bush and tree!

I've lingered long away from home, I've lived mid' other men— I've passed along the highway when I ne'er may walk again; But I'd give a chunk of heaven just as big as I could hold, With a brace or two of angels and a pavement made of gold.

Just to take old Time's machinery without a break or shock, And turn its wheels all backward as a man would turn a clock; Till the old days came upon me with a swish of glory rare, And the long forgotten faces shone around me everywhere!

And I wonder, up in heaven, where's it's awful nice and fine, All burnished up in glory that'll far the sun outshine, If the Lord who loves his children has not somewhere in the skies, Just such a blest arrangement for their rapture and surprise! Douglas Robbins.

### N. S. CLERIC DECORATED.

A list of Canadians recently awarded the Distinguished Conduct Medal, includes the name of Sergeant G. W. Beck, and it is believed that the honored man is Rev. George W. Beck, who was a probationer for the Methodist ministry in Nova Scotia at the outbreak of the war, but gave up ministerial service in order to join the colors. Mr. Beck had risen to sergeant's rank in the army in France, where he has been serving with a signalling corps. The official announcement says that he was awarded the decoration lately because "working the whole night, he established communication between the battery and observation post in time for attack."

### PTE. CHESTER WARREN GOODWIN FALLS IN BATTLE.

Another Truro household is in grief and Colchester scores another noble, gallant hero—fallen fighting for us in this great and murderous War.

Conductor Goodwin has received the following official telegram:—

Ottawa, April 24.

Duncan Goodwin, Alice St., Truro, N. S.

Deeply regret inform you 901033 Pte. Chester Warren Goodwin infantry officially reported killed in action, April 16th, 1918.

### DIRECTOR OF RECORDS.

Pte. Goodwin, a fine manly noble lad, born in Dorchester, Mass and came to Truro, when he was five years old, and would have been 20 years of age if he had lived till Saturday April 20, enlisted in the 193rd Bn., in Truro under Col. Stanfield and went overseas in October 1916. He was transferred to the 47th Battalion in England and went to France in February 1918. In this late drive he was in the thickest of the fight, doing his part well for his King and Country.

In the immediate family there are left to mourn a hero son and brother, father, Conductor Duncan Goodwin, D. A. R., mother, three sisters and two brothers.

To all these bereaved ones deep and sincere sympathy is extended by every acquaintance.

And now the popular "Chester" beloved by every acquaintance, rests peacefully, with duty well done, in that Flanders field.

Where poppies grow  
Among the crosses row on row.

### OBITUARY.

#### Mrs. Isabell Peppard.

There died at the home of Mr. and Mrs. W. A. Lombard, East Portapique on April 15, Mrs. Isabell Peppard of Debert Station. She leaves to mourn four sons; also one brother, and one sister. The sons are Loren Hill in British Columbia; William in Arlington, Mass, and Clarence in Port Arthur Ont.

The brother is Mr. Woodbury Moore of Carr's Brook; and the sister is Mrs. Susan Campbell of Denver, Colorado.

The deceased was of a kindly disposition and was noted for her hospitality and motherly care over all those who came under her protection; and she certainly left her impress on her sons, who survive her; for, altho they were separated from her by miles of distance they did everything in their power to make her comfortable in her declining years.

The funeral took place from the home of Mr. Lombard's and was conducted by Rev. Mr. Gillespie, assisted by Rev. Mr. Milligan. Interment was at Debert Station.

### THE LATE EDWARD DUNLAP.

The death of Edward Dunlap, of Folly Mountain, occurred on the 18th, instant. He is survived by a widow, and a son about two years of age. The funeral services were conducted by Rev. F. G. Francis, and interment was at Londonderry. Deceased was in the prime of life and enjoyed a wide circle of friends thruout the county.

### NEW RUSSIAN GOVERNMENT DENOUNCES TREATY WITH GERMANY.

London, April 29—The newest Russian Government in Petrograd, according to the Aftonblad, of Copenhagen, has denounced the Brest-Litovsk treaty with Germany. It calls for a new treaty with Estonia under Russian rule.

### A MUSQUODOBOIT WOUNDED AND GASED AT PASSCEN-DAELE.

A young soldier who returned from overseas a week ago was V. G. Hanna, of Middle Musquodoboit, son of Samuel Hanna. He was wounded at Passcendaele with shot in the knee.

When he was being carried off the field by the stretcher bearers, a piece of shrapnel struck the respirator of his gas mask puncturing it. This left him liable to the gas attacks which came and he was gassed. At the same time the boy for he is not yet twenty, was hit by shrapnel in two other places. This was in October. He has been in hospital since then.

Young Hanna would have been able to return to the front had it not been for the effects of the gas. His brother, William, who went over with the cyclists and was afterwards given a commission in one of the Scottish battalions in the Imperial Army, is now in the Royal air force, and has had several flights.

### TEETHING TROUBLES.

Baby's teething time is a time of worry and anxiety to most mothers. The little ones become cross; peevish; their little stomach becomes deranged and constipation and colic sets in. To make the teething period easy on baby the stomach and bowels must be kept sweet and regular. This can be done by the use of Baby's Own Tablets—the ideal laxative for little ones. Concerning them Mrs. Henry Bernard, St. Emile, Que., says—"Baby's Own Tablets cured my baby of constipation and made his teething painless." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### PTE. NORMAN COCK, ONE OF COLCHESTER'S YOUNGEST SOLDIERS, WRITES LETTERS TO THE HOME FOLK.

England, March 30-18.

Dear Mother;—  
Just a few lines to let you know that I am well. I am leaving for France tomorrow night at eleven o'clock; am going over to do my little bit in the Big Drive. I am going over in the First Battalion in France, and I am proud that I can go in that Battalion; it is the first that left Canada.

I can just imagine how heavy my pack is going to be when I reach the station. We have to march three miles with eighty pounds on our back, some weight believe me. So you can realize what a soldiers life is like.

I must close for now. I have only one more day in England the next letter you get from me I will be "Somewhere in France," good luck to you until we meet again. Love to all.

I remain your loving son,  
NORMAN.

Somewhere in France  
Apr. 4-1918.

Dear Mother;—  
I am just going to write you a few lines to let you know that I arrived safe and sound. I like this place fine. It is the only country that I have been in that looks anything like Canada.

How is everybody getting along at home? I suppose it is pretty cold over in Canada yet. I can't put much news in this letter to tell you what I am doing or where I am stationed I saw Chester Fulton just before I left

England. He has not been to France yet. I had my pictures taken before I left England, but did not get the time to get them before I left. I had my pictures taken in booklets; but if ever I get back to England I will be able to get them.

Tomorrow is Easter, how I would love to be home to get some fresh eggs. But don't suppose I shall see any this Easter. Received your box O. K. was so delighted to get it. Anything from home tastes so good I was presented with stripes for good conduct just before I left for France.

Will close hoping to find you all in the best of health. Love to all  
Your loving son,  
NORMAN.

### Editorial Note.

This gallant young soldier, Pte. Norman Cock, is a son of Mr. Daniel Cock, Salmon River, Col. Co., He enlisted in the 193 Battalion and sailed for England in October 1916. He was in England transferred to the Battalion and is with that fighting Regiment in France.

He is now but 17 years of age; but was a fine bilt, husky powerful lad and in his anxiety to be a good "soldier of the King" he was easily able to fool the recruiting officer.

While in training in Truro and afterwards in England he was a companion in arms of the deeply regretted Chester Goodwin, who fell in action on April 16, 1918. We believe Pte. Cock is one of the youngest soldiers that ever got to the front from Colchester.

### LOOK BOYS.

Perhaps you have seen a poster urging you to join the "Earn and Give Campaign" in this town. Now what does this Campaign mean. It was started by a few boys in Upper Canada for the Overseas Y. M. C. A. They are asking you to earn and give in dollar instalments, ten dollars.

Now you may say, "I can't earn that much" or "I can't get a job". But that is no excuse. A committee, D. G. Davis, E. H. Abbott, and Jas. Bain has been appointed for the purpose of seeing that you get work. It may be only a job for a few hours in somebodys garden or something like that; but think what your ten dollars will do. It will enable the Y. M. C. A. to supply a soldier with hot coffee and sandwiches, in the trenches, and entertainment in the rest camp, for one year.

One hundred thousand American boys have done this same thing, and will you, as a loyal Canadian, let a Yankee get ahead of you?

Two teams, the "Larks" and the "Heavy Artillery," with Jack Dexter and Edward Bruce, as captains, have been organized for the purpose of getting recruits. These teams will be run on a military basis; that is, when a boy has enlisted one recruit he becomes a lance-corporal; when he has enlisted six, he becomes a lieutenant and is presented with a medal.

Next week we are making a big drive, similar to that being made by the men the following week. If any boy approaches you and asks you to join the "Earn and Give Campaign," don't say no but get in line and do your bit to help beat the Hun. SECY.

### VISITING HIS NATIV PROVINCE

Mr. T. A. Gaetz of Red Deer, Alberta, who has been attending the Retail Merchants Convention at Ottawa, is in town, spending a few days with his sister, Mrs. T. W. McLellan and Mrs. George S. Oxley.—Oxford Journal.

Mr. Gaetz, a son of the late Rev. Joseph Gaetz, also visited relatives in the western part of the Province.

### HEARTILY WELCOMED.

Rev. Mr. and Mrs. J. C. Hartley of Truro, were visiting friends and relatives in the city yesterday and today they are being heartily welcomed by their many friends here. They go to Houlton this evening where Mr. Hartley will occupy the pulpit of the Free Baptist church Sunday. On their return home to Truro they expect to spend a few more days with Fredericton friends.—Fredericton Gleaner, April 24.

## The Practical Economy of Good Paint

Good paint is never an expense, but a saving. By its use you save your buildings from a steady deterioration in value. Economy in painting demands the use of Quality Paint—Martin-Senour "100% Pure" Paint—the paint that protects and preserves. The use of cheap materials is a waste of money—a waste of time.

# MARTIN-SENOUR

## "100% PURE" PAINT

wears longest, covers the greatest surface (900 sq. feet per gallon) and because of its even texture, takes least time and is easiest to apply. It is absolutely guaranteed—"100% Pure" White Lead, Zinc Oxide and highest quality Linseed Oil. It is admittedly the most economical paint on the market.

Take no chances. Make your investments secure by applying on your buildings, inside and out, protecting coats of Martin-Senour "100% Pure" Paint.

Ask for "Farmer's Color Set" and "Town and Country Homes". Just what you'll need in planning your painting.

**CALL HIM GEN. "FOSH - TO RHYME WITH "HUSH".**

Numerous inquiries have reached The Eagle regarding the correct pronunciation of the name of the new generalissimo of the Allied armies. On paper, Foch seems Teutonic and suggests throaty gutturals of the kind that are no longer popular in the civilized world.

But the name is pronounced as if it were spelled Fosh, with a short "o" like "uh". This is on almost rhymes with "hush." This is on the authority of Le Courier des Etats-Unis, a French daily newspaper published in Manhattan, also from a former member of the staff of The Eagle's Paris Bureau.

General Foch is a Basque from the Pyrenees, not an Alsatian. All Basque names terminating in "ch" have the soft "sh" sound, instead of the Germanic guttural.—Brooklyn Eagle.

**POULTRY KEEPING URGED.**

**Meat May Thereby be Saved for Exportation Overseas.**

Speaking to poultrymen in attendance at the Eastern Ontario Poultry Show, Mr. H. S. Arkell, Acting Live Stock Commissioner, said that encouragement should be given to all the people of Canada to go into the poultry raising industry in a small way and care for small flocks. This would serve to conserve other meats which can be exported to Europe.

"It is a duty upon every person in Canada to engage themselves in some way in the producing industry, and thereby improve and increase food production to the absolute maximum. Mr. Arkell stated. "We cannot believe how near to starvation are some of the people in European countries. Every pound of meat which we save here for exportation to Europe is just contributing another pound toward winning the war. It is well worth while for the poultry men of Canada to consider how the poultry-raising industry can be improved and developed."

The speaker, however, declared that the raising of fancy birds of no food value should not be encouraged under present conditions. The time instead should be devoted to raising producing birds. Every effort should be directed towards getting returns from the breeds that give the greatest food.

**SUNDAY BLAZE.**

Box 36, Corner Brunswick and Lyman Street, at 4.50 Sunday afternoon, called out the Firemen to a blaze on the roof of McPhee's barn, near the corner of Prince and Wood Streets. This incipient fire was soon extinguished and "all out" was sounded at 5.15.

**THE YANKEE IS RIGHT.**

The Labor representatives in London from the United States had a grand meeting in the House of Commons with English Labor representatives. There was a unity of purpose and action except in the matter of any dealings with labor representatives from the Central Powers of Europe. The easy-going Britisher was willing to have dealings with Huns, Turks, Bulgars and such like, but the clear-cut keen wide-awake Yankee delegates stood out firmly against any dealings with the enemy.

When the war is over and these Central Nation hordes are punished for their outrageous brutalities against all decency, then it is time enough to have any dealings with them.

Our Yankee Cousins are right; and if your wish to knot it, Yankee Labor is more to be defended upon in this War for the Entente Allies, than is the great Labor Party, that lives within the sound of "Big Ben"

Before God's throne each morn and eve, we offer  
Our prayers from hearts a'torn with love and pain;  
That He may guard you, guide you, give you VICTORY  
And bring you safely home to us again.

**Bits from Soldiers' Letters**

"The Hut is very well termed 'next to home'."

"I went home for the first time in 18 years and I had not written for 13 years. I have given up my old habits of drinking and gambling and thank God for it. Thanks to a little word caught at one of your good-night services."

"From one end of the train to the other I heard nothing but good of the Y. Your representative did his best to supply our needs, purchasing stuff at rock-bottom prices and letting the boys have it in the same way."

"They send guides out with parties of soldiers on sight-seeing tours all over London."

A lieutenant writes: "Really the work that the Y.M.C.A. is doing out here is absolutely marvelous."

A German prisoner said: "The reason you fellows show such fight is easily understood. Your officers' canteens, Y.M.C.A.'s and padres are backing you up."

"Who pays? I don't know. But whoever they are, God bless them. They are the fathers of thousands of boys."

**Tributes:**

Lord Northcliffe: "I do not think the war can be fought without the Y.M.C.A."

Lt.-Col. Mayes: "Games have a tendency to increase fighting spirit. Any efforts on your part to expedite delivery of athletic equipment will be of national service."

Maj.-General Leckie: "One cannot speak too highly of the excellent work of the Y.M.C.A. at the front."

Harry Lauder: "We took the responsibility of sending these boys to defend us, and we must not fail them. The Y.M.C.A. huts are the soldiers' 'Home from home.'"

General Alderson: "Your work is very much appreciated by all units of the corps."

Hon. R. B. Reese, Australia: "The greatest praise must be given to the Y.M.C.A. who succour the men even right at the front."

Brig.-Gen. Odium: "I want to let you know how much I was impressed with the work done by the Y.M.C.A. It was simply magnificent. All ranks are enthusiastic. I have recommended one of your officers for the Military Cross. The Y.M.C.A. has endeared itself to the soldier in France as no other institution has."

**"Earn and Give" Campaign for Boys**

Serve your Country by your labor and make a gift to the Red Triangle Fund from your earnings! What a fine chance to do a double service! Six thousand boys are asked to give \$10 each. Of the total, \$50,000 goes to help the soldiers, the balance for boys' work. Gifts must be at least \$10, the standard unit. A boy may subscribe more than \$10 in \$10-units but not less. A beautifully engraved certificate will be given to each subscriber. Ask your local Y.M.C.A. representative for pledge card and full information.

**YPRES, Langemarck, Festubert, Vimy Ridge, Paschendaele---how the very names thrill! They stand for deeds of the bravest of the brave---our own Canadian lads! They fight and win, not always by strength of numbers, but by unbeatable fighting spirit, or "morale".**

Canada-Wide Appeal

Said a British Staff officer: "I have known morale to be found in a cup of hot coffee. I have seen it sustained by a man's merely writing a letter home. If you want an easy and short definition of 'morale' you will find a good one in the four letters Y.M.C.A."

The staff officer pointed to the men trooping into the big Y.M.C.A. hut and continued: "Those men are going to the front line to-morrow. In the Y.M.C.A. some of them will be playing games, others attending divine service, but each in his own way will find

a strengthening of his 'morale' in the comradeship of his fellows under the Red Triangle. All this is a thing which is going to turn the balance in our favor."

Through the hell of battle after battle, our brave soldiers fight. Through fire, water, mud, filth and deadly danger follows the ever faithful Y.M.C.A. man, even if he can bring but a bucket of invigorating coffee to fagged fighters. Will you help us to supply the coffee---and to render the thousand and one similar services to soldiers everywhere?

The Y.M.C.A. needs at least \$2,250,000 to meet the tremendous demands. Be generous!

**THE CHILDREN'S CORNER.**

**THE BOY THAT KILLED A DRAGON.**

A little boy four years old was much impressed by the story of "St. George and the Dragon," which his mother had been reading to him and his sister, and the next day he said to his father: "Father, I want to be a saint."

"Very well, John," said the father, "you may be a saint if you choose, but you will find it very hard work."

"I don't mind," replied John; "I

want to be a saint, and fight a dragon, I am sure I could kill one."

"So you shall, my boy."

"But when can I be one?" persisted the child.

"You can begin to-day," said his father.

"But where is the dragon?"

"I will tell you," said his father. "So the boy ran off contentedly to play with his sister."

In the course of the day some presents came for the two children. John's was a book and his sister Catherine's a beautiful doll. Now, John was too young to care for a book, but he dearly

loved dolls, and when he found that his sister had what he considered a much nicer present than his own, he threw himself on the floor in a passion of tears.

His father, who happened to be there, said, quietly: "Now, John, the dragon is out."

John stopped crying, but said nothing. That evening, however, when he made his father good-night, he whispered: "Papa, I am very glad Catherine has the doll. I did kill the dragon."

**Taking No Risk.**—A little chap was offered a chance to spend a week in the country, but refused. Coaxing, pleading, arguing, promising of untold wonders, alike brought from him nothing but the stubborn ultimatum; "No country for me."

"But why not?" some one asked, finally.

"Because," he responded, "they have thrashin machines down there an' it's bad enough here where it's done by hand."—Interior.

**A GREAT NATIONAL SPIRIT.**

Without a murmur the British Commons faces the greatest money vote that any country at any time has ever had before it.

In Canada our Commons has voted \$500,000,000 in record time. This all shows a great national spirit of optimism, that cannot but have a good effect all over the country.

YOUNG CANADA.

Boy Wants to Take Father's Place At Front.

Ottawa, April 25—In the commons this afternoon Sir Robert Borden, amidst applause, read a letter he has received from a Toronto boy, 16 years of age, anxious to serve his country. The lad wrote:—

"My dad has been to the front and now he is back again, and you have taken my brother, and now I am the only one left to do something for my country. I do not call myself a man but I might help to hold the Canadian line. So please give me a chance, the line is more valuable than my life."

Referring to the letter, Sir Robert said "I am sure that letter does indeed express the spirit of the Canadian people and as long as that spirit endures—I am confident it will always endure—we need have no fear for the destiny of our country whether in this war or after the war."

BRYANT EDENS OF TRURO JOINS THE ROYAL AVIATION CORPS AT HALIFAX.

Mr. Bryant Edens, the eighteen year old son of Mr. and Mrs. George W. Edens, of this town left on Friday the 26th, for Halifax, N. S., where he will enlist in the Royal Aviation Corps. Mr. and Mrs. Edens' eldest son, John, Edens enlisted and went overseas two years ago; and is a gunner in the 36th Battery of Artillery, now fighting the Huns in France.

Lieut. Leonard Edens, of the R.F. Corps, a cousin of Bryant and Gunner John Edens, Truro, is reported missing, since one of the recent battles in Flanders.

BACK TO THEIR HOMES.

There arrived at the port of Halifax on the 24th 738 returned officers, N. C. O's. and privates of the C.E.F. All the men had been wounded or ill. There were 35 cot cases.

Corporal A. F. Borden of Kingsport, Kings Co., is among the returned and he has been in a Hun prison. He says for the friends of boys in German prisons to continue sending them parcels of food.

MENACE AND NUISANCE.

Mr. Editor:— Please allow me to draw the attention of the Mayor and Town Council to the fact that the ruins of the Grand Central Hotel are a menace to the town. In the upper part of the front, half-sashes and other parts are loose and liable to be blown down upon the heads of pedestrians. Worse than this, the lower windows are practically open, affording opportunity and temptation to any careless or mischievous person to drop a burning cigar stump inside. Sparks from the many passing locomotives might also easily find a lodgment thru the many rents in the ruins.

I wonder that the insurance people have not before this, given notice to the town that rates will be raised if this dangerous ruin is allowed to remain as it is. Not only is this ruin a menace, it is so unsightly and standing immediately opposite the railway station, it certainly gives strangers a very unfavorable opinion of our beautiful town.

Several months have now elapsed since the fire and the owners and agents have had ample time to consider the disposal of this ruin. Pressure should be immediately brought to bear upon them to dispose of this menace and nuisance. The summer travel will soon begin and it is up to the Mayor and Council to take immediate action in this matter.

A CITIZEN.

WAR OFFICE DID NOT KNOW "JOHN ANTIOCH."

During the British advance on Jericho an enemy shell struck an ancient tomb and revealed a skeleton. Investigation by the official archaeologists connected with the British staff pointed to the skeleton being that of an historical figure, John of Antioch. Accordingly a cable was despatched to the War Office in London: "Have discovered skeleton supposed to be that of John of Antioch."

The War Office replied: "Cannot trace John Antioch. Send identification disc."

MISS MARKHAM FORMER RESIDENT OF WELLINGTON HEX. CO., DIED IN ST. LOUIS APRIL 20.

The death occurred on Saturday April 20th, 1918 of Miss Mary Markham, at the home of her niece, Mrs. Geo. Duks, 5353 Washington Ave., St. Louis, Mo. She had been in poor health for some time, but had borne it with Christian fortitude and resignation.

Miss Markham was of a very fine disposition and was beloved by all who had the privilege of knowing her. She had many friends in Halifax and other parts of Nova Scotia, having spent much of her late years at the home of Mr. and Mrs. John D. Briggs, Wellington, Hfx. Co. Mrs. Briggs is niece of the deceased lady. Miss Markham went to St. Louis November 5, 1913. She was a member of the Episcopal Church, was of a kind, charitable and lovable disposition and will be greatly missed by all her friends and acquaintances, of which she had many, for she made hosts of friends wherever she went.

She leaves to mourn their loss three nieces—Mrs. John D. Briggs, Wellington, Halifax County, N. S.; Mrs. Geo. Duks, St. Louis, Mo., and Mrs. S. Allen, Memphis, Tennessee. Miss Markham was a native of Memphis, Tennessee.

DEATH OF MRS. ADAM McCULLOCH NOEL ROAD, HANTS, CO.

On April 15th, at her residence, Noel Road, Precilla, beloved wife of Mr. Adam McCulloch, after a short illness of pneumonia, passed peacefully to her rest; at the age of 80 years. At the time when the singing of birds had come, her bright spirit fled to regions of eternal day.

All was done that physician's skill and loving hands could do, though unavailing; but, there is not death to such as thou? Neither darkness nor shadow of death; only such a bright fading as the morning star fades into golden dawn.

A number of her friends and relatives gathered at her residence on April 19th, to pay the last respects to the departed.

The funeral service, conducted by the Rev. C. A. M. Earle, was most impressive; the text chosen being:—"Yet a little while and the world seeth me no more; but ye see me; because I live, ye shall live also."

Just as the golden sun was setting in the west, the body was laid to rest beside her former husband Theopolis Singer in the Churchyard at Burncoat.

There are left to mourn in the immediate family, a husband; two daughters, Mrs. Adam McCulloch Noel Road, and Mrs. Clarissa Cockring, Portland, Me., three sons, Robert Singer, of Shubenacadie; Richard Singer, of Georgetown and Clarence Singer, of Noel Noel Road, also a large number of Grand Children.

All extended sincere sympathy to the family in their bereavement.

Great Beef—Mr. J. E. Kinsman, M. P. P., has topped the score for beef cattle this season. He sold recently five head to go to Halifax. The five head realized him the sum of one thousand dollars and the largest pair gave him about one half of that sum.—Kentville Advertiser.

Mrs. W. H. Tucker, Onslow Mountain, was in Truro, on the 25th. She says it is almost impossible to get help on the farms at present. She has four boys on the battlefields in France; she knows that they are needed there, but she wishes one at least could be returned on furlough to help out in the farm work at home.

AT THE WAR FRONT IN THE WEST

The British and French have held all places attacked on the Western battle front, except most insignificant gains for the Hun. South of Ypres, where he threw into the fight, some 70,000 men.

We have lost Villers-Bretonneux in the attack of the 24th but in a brilliant Counter-attack the Australians troops, by most daring generalship have done skilful work, without any artillery preparation, rushed this village and drove out the Huns capturing some 700 prisoners. After the Australians made the charge they received valuable assistance from the English battalions.

It was a complete reversal of fortune for the enemy, and in this twenty-four hours of fighting he has lost great numbers of men, whose bodies lie in heaps between Villers-Bretonneux and Warfusse, and all about the ruins and fields in that neighborhood.

In this sweep the Germans are hurled back to lines much in the rear of the captured village.

The lines are all holding well at every place; and the Hun has yet a "rocky road" to travel before he gets to his objective either at Amiens or at a Channel port.

HOUSEHOLD HINTS AND GARDEN GLEANINGS.

All the papers are "preaching to us, at home, about doing our 'bit' in the kitchen. We cannot perform miracles by making something out of nothing, but, I am sure, the majority of us feel the great responsibility resting upon us to conserve such foods as are needed by the Allies and utilize such as are perishable. An ounce of food saved daily in each house does not seem much but in the aggregate it means tons. This department of our paper wants all the hints it can get from its readers as to recipes which save wheat flour, beef, bacon, ham, eggs, cheese and sugar; in fact all economical hints for the home and garden are earnestly requested. Mary's Mock Rabbit.

Chop fine 1 lb. mixed pork, 1 lb. lean meat, (beef, moose, deer or rabbit) 1 onion, 1/2 teaspoon pepper and 1 rounding teaspoon salt; mix thoroughly with 1 pint of bread crumbs soaked in milk (or milk and water) and part of one or two beaten eggs, form into a roll, dip one hand in cold water, and smooth the roll, brush over the remaining egg, cover with bread crumbs and bake about 45 minutes in a greased pan. Serve hot with gravy, or cold.

Eggless Raisin Pudding.

1 cup bread crumbs, 2 cups flour, 4 teaspoons baking powder, 1/2 teaspoon cloves and 1 of cinnamon, 1 cup chopped suet, 1 of raisins, 1 of molasses, 1 of milk, 1 apple (chopped) and 1/2 teaspoon salt. Mix dry ingredients thoroughly; add the suet and fruit. Mix well and add gradually the molasses and milk. Steam 2 1/2 hours. Serve with hard sauce.

Somewhere in France. March 25-18.

Dear Mother and All:— Just a few lines in answer to your kind and welcome letter, I received a few days ago; pleased to hear you are all well. Many thanks for sending me the ... that is as much as I get at a pay; and it came in handy as we were out on rest then. It is very hot here now; but we have had a second winter all thru.

The war has begun for the summer now, and I hope this summer finishes it. I have been in France 16 months and never had a "pass" yet but I hope to get one soon; I had a letter from Dave but none from Norman, yet. I hope he is well. I saw Willie Smith last night; he is looking fine and s does Lish McCallum; he is in my Batt I saw Roy Fisher three weeks ago that is one of the boys where I boarded while I was in Truro.

Please write soon. PTE. HUGH TUCKER, 25th Batt, 5th Brigade, 2nd Division, B.E.F.

CAUGHT COLD

NEGLECTED IT WAS SICK FOR MONTHS.

You should never neglect a cold, however slight. If you do not treat it in time it will, in all possibility, develop into bronchitis, pneumonia, asthma, or some other serious throat or lung trouble. On the first sign of a cold or cough it is advisable to cure it at once, and not let it run on for an indefinite period.

For this purpose there is nothing to equal Dr. Wood's Norway Pine Syrup, a remedy that has been universally used by thousands for over twenty-five years.

You do not experiment when you buy it.

Mrs. W. G. Paquet, Smith's Falls, Ont., writes:—"I was troubled with a gripple. I caught cold, and neglected it, and was sick for several months. I took three bottles of Dr. Wood's Norway Pine Syrup, and before I finished the last one I was entirely cured. I would not have any other cough medicine in the house."

It also cured my baby, who was very sick with bronchitis. She had the doctor three times, and he recommended 'Dr. Wood's.' I highly recommend it to those who need a quick cure."

See that you get Dr. Wood's Norway Pine Syrup when you ask for it. Do not accept a substitute. It is put up in a yellow wrapper; three pine trees the trade mark; price 25c. and 50c.; manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

If you want health

you can have it, by heeding Nature's laws. Keep the stomach strong, the liver active, the blood pure, and the bowels regular, and you will seldom be ill. Take good care of these organs, and at the first sign of anything wrong—promptly take Beecham's Pills.

you certainly need

the help and relief of this world-famed remedy, to keep the body in health. They quickly establish normal conditions, so the organs perform their functions as Nature intended. No other remedy will so surely strengthen the system, stimulate the liver, regulate the bowels and quickly improve the general health as

FOR THE KIDNEYS

Sooth and Heal  
Inflamed Kidneys

The great danger with Kidney trouble is that so many people try to cure the symptoms instead of getting at the root of the trouble. In backache, pains in the side, lumbago, swollen joints and ankles, and rheumatism, local applications are of little use—such as plasters, embrocations and liniments. Gin Pills go right to the Kidneys, healing and soothing these organs so that the functions are restored to normal and the pain stops.

So many thousands have been relieved of Kidney and Bladder trouble that you cannot afford to neglect the remedy for your trouble. All-dealers sell Gin Pills .50c. a box, or 6 boxes for \$2.50. Sample free upon request to

**DEATH OF MRS. RICHMOND GAMMON.**

The death took place at Quoddy on April 6 of Jennie, wife of Richmond Gammon. She was 32 years of age. She was a great sufferer, the only sick 10 days. She was beloved by all who knew her. She was a good neighbor and had a kind word for all.

Besides a sorrowing husband to mourn she leaves six small children, the youngest is 17 months old and the oldest 10 years; also her mother, five brothers and one sister.

The brothers are Ernest, Frank, and Fred in Amherst, James with the C. E. F. overseas; William in Sheet Harbor, and Jesset in Quoddy. Her mother is in Sheet Harbor. She was a faithful wife and mother and is sadly missed by the family.

At the funeral the Pall bearers were, Jas. Oleany, Clarence Stuart, Jas. E. Scrivens, Hal. Gallagher, all members of the A. O. F., Count Victor, Port Dufferin of which the bereaved husband was valued a member.

The sympathy of the community is extended and also by Count Victor, A.O.F., to the bereaved ones.

## THIS WOMAN SAVED FROM AN OPERATION

By taking Lydia E. Pinkham's Vegetable Compound, One of Thousands of Such Cases.

Black River Falls, Wis.—"As Lydia E. Pinkham's Vegetable Compound saved me from an operation, I cannot say enough in praise of it. I suffered from organic troubles and my side hurt me so I could hardly be up from my bed, and I was unable to do my housework. I had the best doctors in Eau Claire and they wanted me to have an operation, but Lydia E. Pinkham's Vegetable Compound cured me so I did not need the operation, and I am telling all my friends about it."—Mrs. A. W. Buzzer, Black River Falls, Wis.

It is just such experiences as that of Mrs. Buzzer that has made this famous root and herb remedy a household word from ocean to ocean. Any woman who suffers from inflammation, ulceration, displacements, backache, nervousness, irregularities or "the blues" should not rest until she has given it a trial, and for special advice write Lydia E. Pinkham Medicine Co., Lynn, Mass.

**SAFE IN ENGLAND.**

Ottawa, April 22—It is announced through the chief press censor's office that Canadian troops which have arrived in England include infantry drafts from Nova Scotia; R. A. F. pilots; R. M. C. cadets, and Imperial recruits.

**RETURNING OVERSEAS.**

Robert C. Mills, who came home on furlough several weeks ago, returned to take steamer from an Atlantic port this morning via Amherst and Moncton. Since coming home he has visited Sydney, Pictou, Windsor, Springhill, and other points. His enlistment took place a few days after the war broke out. He has had nearly three years service in France, and will return to duty with the Divisional Company Signallers in 1st Canadian Engineers on his arrival at the front.

We wish this gallant young soldier continued "good luck" in escaping any serious ill at the hands of the Hun.

## Too Little Exercise

**T**HE necessity of using medicine to regulate the action of the liver, kidneys and bowels is largely due to the changed conditions of life during recent years.

Our fathers lived a life of activity in the open air. If they ate heartily they had sufficient exercise to keep the liver and bowels active and to thereby remove the poisonous waste from the body.

To-day we get too little exercise and too little fresh air. The food we eat is more concentrated and artificial. The result is much discomfort and the development of serious disease from constipation of the bowels and torpid condition of the liver. Kidney disease, rheumatism, lumbago, backache—all have their begin-

ning in the inactivity of the liver and bowels.

The great secret of keeping in health is to look to the regularity of these filtering and eliminating organs, and Dr. Chase's Kidney-Liver Pills is the most satisfactory medicine obtainable for this purpose.

If you read the reports appearing in this paper, from time to time, from persons who have used this treatment with good results, you will find that Dr. Chase's Kidney-Liver Pills are effective where ordinary medicines fail. This success is due to their combined action on the liver, kidneys and bowels. One pill a dose at bedtime as often as is necessary to keep the bowels in healthful action, will also ensure the regularity of the liver and kidneys and thereby keep the blood pure and the system free from the accumulating poisons which cause disease and suffering.

Pulford's letter will do them good. The habit of serving one's country as a volunteer speaks in all circles. Dean Keppel of Columbia College, New York, a man of great administrative experience, was appointed Assistant Secretary of War at Washington the other day at a salary of \$1 per month. Some pernicious parasite over there may object even to that dollar and ask the Dean if he is of any real value. It is as easy to ask foolish questions in war time as at any other time. Occasionally the Pulford way of answering them becomes necessary.—Toronto Globe, April 22-1918.

**MR. B. MCKITTRICK PRINCIPAL OF ACADEMY AT LUNENBURG, N. S., RESIGNED TWENTY EIGHT YEARS IN SERVIS.**

Mr. B. McKittrick, B. A., the veteran teacher, who for the past twenty eight years has held the position of Principal of the Lunenburg Academy and the Public Schools of the town of Lunenburg, N. S., has tendered his resignation which will take effect at the end of the present school year in July next.

Mr. McKittrick was skilful and very efficient teacher and Academy Principal. His good work in his profession in Lunenburg Schools was highly appreciated by the School Board and Citizens generally of Lunenburg.

When accepting Mr. McKittrick's resignation recently, the School Board unanimously voted him a retiring annuity of \$200.00 in view of his long and faithful servis.

For six months in 1888 Mr. McKittrick was Principal of Colchester County Academy.

**A Rare Old Bird.**

It is a bird, but of what species? W. J. Lupton, greenkeeper of the golf links, Dan Martin and a number of amateur authorities on birds have been unable to propound the problem and since they have been unable to do so it remains with some other man interested in birds and their markings to throw light on the subject. The bird was described by Mr. Lupton, during a visit to the Post, as being of a size between that of a duck and a goose, web-footed, with a dark brown bill carrying pretty lines of coloring, and dark tail feathers. The beak is shaped like that of a gull and there is a ring of gold around the neck. It cannot fly, as it is believed to have been shot, but it can run. The bird is now on exhibition in the barn of Mr. Martin, near McLean's Crossing.—Sydney Post, April 23.

Will some of our ornithologists tell the News what manner of bird this is? Is it an auk?

**PARCELS FOR U. S. TROOPS IN EUROPE.**

Ottawa, April 24—The following memorandum has been issued by the deputy postmaster general:

"Under an order issued by the United States war department, parcels for members and individuals connected with the United States expeditionary forces in Europe, must contain such articles only as are being sent by the request of the addressee, approved by his regimental or higher commander, or an executive officer of the organization with which he is connected.

"The public is, therefore, cautioned to furnish the postmaster with an assurance that all the articles contained in the parcel are sent at the addressee's approved written request, and that such a request is enclosed in the parcel."

**DASH ON HUN SUBMARINE BASES.**

A fleet of light cruisers, with torpedo boats, monitors and on the 23rd raided the Hun submarine bases at Ostend and Zeebrugge. The object was to block the entrances to these ports so that submarines could not leave or enter.

A thrilling battle was fought in the darkness and great damage was done to these enemy bases, and old ships filled with concrete were sunk so as to block the channel.

It was a daring and dangerous experiment and a raid that was full of heroism from first to last; and were encountered considerable loss. The brave officer in charge of this raid was killed unfortunately.

In this "extremely gallant and hazardous raid" French destroyers operated with British forces.

The cruiser Vindictive carried storming parties and landed them on the

**Mole at Zeebrugge.**

The volunteers for this expedition were from different vessels in the Grand Fleet.

The casualties were heavy, considering the number engaged, but of the approaches to them submarine boats have been effectively destroyed, we have gained enormously.

**PREPARING FOR ANOTHER DRIVE.**

The Germans, who have been held in different places on the western battle front are now getting ready for another big drive in their present offensive. They are massing new Divisions with more heavy guns for another drive. This assault will likely be made this week. The point of the attack is known only to the enemy, but from present artillery activity it looks as if the positions, immediately north of Arras, where our Canadian troops are stationed, may be the next objective of the enemy.

On Tuesday the enemy raids were repulsed in several places by the British north west of Fethubert the Hun captured one of our advanced posts.

Further south in the region of Mondidier and Noyon there has been an increase of artillery activity, and so mark, that the enemy may perhaps be considering another drive in the direction of Amiens.

The enemy cannot afford to stop and "dig in" where he is; he must advance; or the Germans at home will be inquiring why they are not, as promised, "on to Calais," on to Paris.

**MINISTERS, DON'T SWEAR**

(Literary Digest.)

At first blush it seems an extravagant idea to caution ministers and religious leaders against encouraging swearing, but in a world where so many things have come about that one-half the people, at least universally damn, it is not strange that profanity creeps into the pulpit, too. The Watchman-Examiner (Boston) finds it "disgusting, not to say horrifying, to every right-minded person to note the increasing use in common speech of words, and phrases that come under the category of the profane." This, of course, applies to the non-clerical part of society, but when we brand profanity as "an offence against common decency and good manners as well as a sin against God," the Baptist journal wonders if this "any less true when the offender is a minister and the place pulpit and the occasion or the excuse the heat of passion against an iniquitous nation and an upright war."

We read: "Years ago Dr. Joseph Parker, of the London City Temple, started and shocked the world by exclaiming in the midst of an impassioned denunciation of Turkish atrocities, "God, damn the Turks! Such an invective, and others of a similar character, with another application and objective, have become so common nowadays that they neither startle nor shock us as the original utterance did. But ought we not to be startled and shocked? Are such expressions in the pulpit or in supposedly religious speech in accord with the spirit and temper of the gospel for which the pulpit stands? Would it not be well to leave the matter of dealing with the eternal destinies of those responsible for this wicked war entirely in the hands of a God who is almighty, merciful, and just? There is no excuse in these days for smooth sayings and mincing words; no excuse for a man in whose soul is not seething hot and furious hatred for the iniquitous war, and fierce determination against those whose cruel ambitions and lustful passions have thrust it upon us. But there is no excuse for the minister who in his endeavor to declare that hatred allows himself to use words and phrase that in any other connection and directed toward any other objective he would the first to condemn as profane."

**GREAT GERMAN DRIVE IS NOW ON.**

The Western front of the great European battlefield is now the scene of another German offensive, and the enemy both north and south is hammering away, with Amiens, as the main objective.

For days there has been heavy artillery bombardment; and in the moving of the 24th the infantry was cut loose for attacks all along the line.

At points, some 10 miles or so south east and east of Amiens, the enemy exerted great pressure, and they made gains at Villers-Bretonneux; there in this a gain of probably a mile.

At the same time the British forces were assailed in the Ypres Salient and from Bailleul to Merville there has been fierce fighting.

In the fight last of Amiens the infantry of the enemy was accompanied with three tanks and here they made some progress; in other parts of this long line of attack the Allies made gains.

The third big offensive is fully developed.

**HAD TO GO TO BED KIDNEYS SO BAD COULD NOT STAND STRAIGHT.**

Women should not despair even if they are troubled with severe pains in the side or back, and not able to attend to their household duties.

The kidneys of course, are to blame nine times out of ten, but they can be promptly and permanently made healthy by the use of Doan's Kidney Pills.

Mrs. H. M. Jansen, Pathlow, Sask., writes:—"I feel it my duty to recommend Doan's Kidney Pills to anyone having weak kidneys, as they have been a great help to me. A month ago my kidneys were so bad that I had severe pains in my sides and back, and it was impossible for me to stand straight. I then got so bad I had to go to bed, and was that way for a week. We sent for some Doan's Kidney Pills, and I have taken just about one box, and now I am able to be up and do my own work. I am certainly grateful for the good they have done me."

To ensure getting Doan's Kidney Pills when you ask for them, see that they are put up in an oblong grey box with our trade mark of a "Maple Leaf" on the label.

# CASTORIA

The Kind You Have Always Bought, and which has been in use for over thirty years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since his infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

**What is CASTORIA**

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. Even though he might justify himself his strong words by the plea of extreme provocation it would not be strange if the average boy in the congregation before him failed to catch the essential and saving distinction between damning the Kaiser and damning loudly anything else against which for any reason resentment might arise. Men who stand as representatives of religion should be ever on the alert against anything that smacks of extravagance.

Every line of the above is true and we hope it will be taken to heart by these few flippant "sky-pilots," that ever and anon burst a out before us in pulpit profanity, that is most detestable.

We have read of a former Nova Scotia clergyman, now in a big city in the United States, addressing working men in language that not only "smacked of extravagance," but bordered mightily close on the profane.—Ed News.)

**GREAT GERMAN DRIVE IS NOW ON.**

The Western front of the great European battlefield is now the scene of another German offensive, and the enemy both north and south is hammering away, with Amiens, as the main objective.

For days there has been heavy artillery bombardment; and in the moving of the 24th the infantry was cut loose for attacks all along the line.

At points, some 10 miles or so south east and east of Amiens, the enemy exerted great pressure, and they made gains at Villers-Bretonneux; there in this a gain of probably a mile.

At the same time the British forces were assailed in the Ypres Salient and from Bailleul to Merville there has been fierce fighting.

In the fight last of Amiens the infantry of the enemy was accompanied with three tanks and here they made some progress; in other parts of this long line of attack the Allies made gains.

The third big offensive is fully developed.

**BRITISH FLEET IS READY.**

London, April 25—Naval authorities emphasize the fact that the aid on Zeebrugge and Ostend was not a dangerous adventure but a deliberately planned action. It was built on strategy of the highest. "If the German fleet," it is stated, "contemplates another sally out from here it will be powerless of effective action without its support from the left wing or the rear. It was a splendid intimation to the many that the British fleet is ready."

**OBITUARY.**

**Miss Marion McCulloch.**

On April 4th, at the residence of her parents, Mr. and Mrs. Adam McCulloch, Noel Road, after but two weeks illness there passed away Miss Marion McCulloch; aged nineteen years and two months.

Her presence will be much missed and her loss keenly felt; she was thoughtful and generous. Her memory will be held ever dear in the hearts of those who had the privilege of knowing her.

Many friends and relatives gathered at her fathers residence on April 8th to pay their last respects to the departed. The funeral service conducted by Rev. C. A. M. Earle, was most impressive.

The casket, covered with flowers, was followed by a long cortege to Kennetcook where the body was laid to rest.

The pall bearers were, Messrs. Henry White, Norman Neil, Harry McCulloch, William McCulloch, Braden White, and W. W. Ettinger.

There are left to mourn in the immediate family a father and mother; two older sisters, Cassia and Ruby, who both returned from Halifax to be home with their sister during her illness, one younger sister, Lena, and three brothers, Graham, Norris, and Rossiland.

Much sympathy is extended to a bereaved ones

**THANKS TO I. O. D. E.**

**Complexion Lotion!**  
Use Fresh Lemons and Strain Juice

Any grocer will sell you two fresh lemons and your drug store will supply you with three ounces of orchard white. Put these in a bottle and shake well. Here you have a whole quart pint of the most wonderful lemon lotion at about the cost one must pay for a small jar of the ordinary cold creams.

Care should be taken to strain the juice thru a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoother and beautifier.

Used by day, this sweetly fragrant lotion protects the skin from the evil effects of the weather and prevents roughness, redness chafing and smarting. At night it works in the pores while you sleep, and is intended to bring a freshness and peach-like beauty that wins envy and admiration.

Just try it. Make up a quarter pint of this sweetly fragrant lemon juice lotion and massage it daily into the face, neck, arms and hands. It naturally helps to whiten, soften, freshen, and bring out the roses and beauty of any skin. It works marvelously on rough red hands. Try it and see to yourself.

**HERE'S A NASTY ONE.**

The Canada Food Board appointed as Chairman of the Commercial Travellers' Section Mr. Harvey Pulford. He is a volunteer worker doing what he can, like many thousands of good citizens, to help win the war. Some time ago, with the object of interesting his fellow-commercial travellers in food conservation and production, Mr. Pulford sent out a circular letter to them together with a reply postcard for those who were interested and desired to co-operate. One of the postcards came back to him from a citizen of Truro, Nova Scotia, with the following written upon it.

"None of your vaunted information is wanted. I usually size up a situation without outside help.

"Query—How much are you costing the country per diem?

"Query—What intrinsic service do you render?"

"Query—Are you of any real value to it?"

Mr. Pulford, upon receipt of this took pen in hand and told the Truro

man some things. "If you think," said he, "I've taken up this work amongst my fellow-commercial travellers because I get paid for it you are wrong. The office is a purely voluntary one.

I get nothing out of it—but a lot of work, which of course I don't mind, because it places me in a class with several other business men who are attached to the Canada Food Board in a similar honorary capacity; and although I am dealing with the 32,000 commercial travellers of Canada, and so far have over 6,000 reply postcards from them to handle, these men have a far bigger propositions. I wouldn't bother to answer your note, but 'tis possible that you, like some pernicious parasite afflicted with a pestilent disease, may impose your views on others and so prevent them doing their best in the important work of food conservation and production."

Whereupon, from Truro, silence deep and enduring. There are still a lot of people in Canada who cannot conceive the possibility of any man giving his services to his country without a salary or hope of reward. Mr.

MISS BURLEIGH THRILLED A CROWDED AUDIENCE AT THE PRINCESS

Horrors of German Occupation—Hall Not Told—Inhuman Monsters.

The Princess was crowded to the door and many were unable to hear the thrilling address last evening of Miss Bennet Burleigh on her experiences amid some of the horrors of the German occupation of Belgium. Miss Burleigh, daughter of the English war correspondent, was an eye witness to the horrors visited on Belgium by the German army in its triumphal march in 1914. The lecturer spoke from the heart; the scenes illustrated by slides were places that looked out from the screen, people with whom she had talked and

suffered. Mrs. Harold Putnam, President of the Red Cross Society of Colchester ably presided and in most appropriate words introduced the clever speaker. Mrs. Putnam, in her remarks did not fail to impress the people with the great work that the Red Cross was doing in the War and the need of still continuing efforts greater than ever till the end is here. This war, said Miss Burleigh, is a fight for clean living, for decency, and fair play against an underhanded-stick-you-in-the-back enemy who for 35 or 40 years has penetrated by intermarriage and by trace into the very hearts of our homes. Then he turns traitor and by deceit and treachery lays those very heartstones where he has been welcomed, to the ground with his guns or his ruinous fires, turns those who trusted him over to be shot or to wander homeless as refugees, rapes the maidens and kills those who would protect them, pillages, loots, breaks the spirit of prisoners or lets them die of starvation or torture, and all this not in a moment of licentious drunkenness, but deliberately following out a well organized plan that had been carefully marked out years before. This is Germany and Austria, the enemy the Allies are fighting, this is the enemy that swept over Belgium like a plague of locusts, the enemy that is trying to break through the line in France now. And he has not changed. He is still the German of 1914 of 1870, the German of whom that mighty warrior, Julius Caesar, wrote so scathingly in his commentaries. There is only one way to deal with him and that is to beat him and beat him so thoroughly that he can never come back. No German press or peace propaganda should be allowed to influence us in this fight. Smile and stick. Stick as those first British and French and Belgian soldiers stuck who in 1914 faced 60 and 80 times their numbers but never turned back or gave up. They fought for that ideal without which life is not worth the living. The Germans did not pass them, they shall not pass now. But those soldiers need our help, they need the Red Cross supplies, they need food and woollen clothes, they need reserves to fill up the gaps, they need ammunition. And none of these must come too late. The enemy has prepared for years. He had underground harbors, hangars, submarine depots, gun emplacements, an organized disciplined army spies everywhere, everything ready years before the war. And the peo-

ple of Germany under the will of the government. It is absurd to believe that an internal revolution will disrupt the state. It is merely German propaganda to make the foolish believe that a peace can be won without victory. An enemy who has demolished Tourain and Antwerp, who has herded other human beings in cattle cars and left them without food or water for eight days, who has tortured children, he who has committed these atrocities is outside the pale of civilization. No such enemy could be trusted to make a peace that would be anything but a living death to those under them. There is nothing that describes the German but just the name "German" and that implies all that is evil. Nothing has been exaggerated, said Miss Burleigh, about the horrors of the occupation of Belgium. In fact the half has never been told, and never will be. Miss Burleigh's lecture was illustrated with a number of very fine lantern slides, showing scenes in the occupied territories both before and after the bombardment. Her lecture was interesting and out of the ordinary and she was listened to with rapt attention. One picture of special interest was the one showing the Mole at Zeebrugge that has just been mentioned in the despatches, as a scene of the heroic work of British marines, between 12 o'clock

When closing her address Miss Burleigh made an exceedingly strong appeal to the Audience for the cause of the Red Cross; her eloquent remarks in this respect were heard with rapt attention and will we hope, bear point. Mrs. Putnam, at the close of this thrilling address, with a few well-chosen words presented Miss Burleigh with the thanks of the audience that has so much enjoyed this unusual treat. Miss Burleigh may return to this Province, visiting Truro, and speaking for the Red Cross some time the last of May or first of June.

A WORLD'S SHIP-BUILDING RECORD.

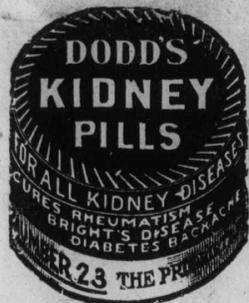

In Seattle a big ship-bilding Company has delivered to the United States government the freighter, "Ossinebe" 8,000 tons, bilt in 109 days from the time the keel was laid-81 days ahead of the date in the contract. In pre-war times such a craft would be bilt in 1 rom 365 days to 550 days. The best previous record for completion of a large vessel was 113 days, made by the Columbia River Ship-bilding Company of Washington State in constructing the 8,800 Canoga

WILL STRIKE WHEN TIME COMES.

Milan, Italy, April 19—"We hold the Boche waves, but that is not sufficient; we will do something more," General Foch is quoted as saying in an interview published by the Corriere Dellasera today. "Our ample reserves are still intact. We are satisfied with the progress of events."

In Minnesota, J. A. Peterson, Candidate for Republican nomination for United States Senator, and J. C. Bentall, Socialist, Candidate for Governor, have been sentenced to terms of four and five years respectively for writing articles in the St. Paul American, that has been barred from the mails, and for speaking in favor of a repeal of the Draft Law.

Rev. A. D. Archibald, late of a Presbyterian church in Pictou, now united with a sister Presbyterian church, is in Moncton and preacht in St. John's church in Moncton on Sunday. For some years he was pastor of St. Andrew's Presbyterian church in Rexton, N. B.

THE WAR AND THE Y. M. C. A.

The First Presbyterian Church was well filled for the Y. M. C. A. Lecture last night, while all regretted Capt. McKinnon's illness which prevented him being there none were disappointed after hearing the splendid lecture by Capt. Kneale. The meeting opened by singing God Save the King after which a hymn was sung. Rev. W. P. Grant then read the story of the Good Samaritan and offered prayer. Mr. John Sprott sang a very acceptable solo.

Mr. Frank Smith, Chairman, then introduced Rev. D. G. Cock who brought a message of regret from Capt. McKinnon, Capt. McKinnon told the speaker to tell the Truro people that the Y. M. C. A. was the best thing they could help to help the "Boys" overseas. The speaker of the evening, Capt. J. A. Kneale, was then introduced.

Many Calls. The people have so many calls on their pockets these days that they begin to look on their giving as an investment and want to know that their investment is being properly handled and is bringing results. The Y. M. C. A. is not new to the work they are doing as 50 years ago at Niagara military camp the work for soldiers was started.

The man who administers this work are some of the keenest business men of Canada. Major Birks, of Birks and Sons, Montreal, is head of the Administrative Offices in London. He gives his time free and also pays his own secretary.

The work of the Y. M. C. A. may be divided into three parts:—

**The Work in Canada.**—The work done in our own land is the foundation for all the work being done overseas. Every man who dons the uniform automatically becomes a member of the Y. M. C. A. with all its privileges and some special features are arranged for his benefit. In all the training camps in Canada

and where ever the men are gathered the Y. M. C. A., is among them working to make their condition more cheerful. When they board the troop trains for the seaboard, a Y. M. C. A. secretary accompanied them to cater to their comforts and entertainment during the journey.

The speaker intimated that he would like the privilege of some time telling the people of Truro about the splendid work being done for the soldiers and sailors in Halifax. He spoke of one religious meeting where 22 decision cards were signed. This was the harvest result of the home life, the Church life, and the Sunday School work of our Country.

All troopships are supplied with magazines, and paper and envelopes. A secretary is there to arrange concerts for the men.

Work in England.

The speaker spoke of the Hut where a stage is part of the equipment, used for meetings and concerts, there is a canteen, a reading room, a game room, and a writing room. \$40,000 was spent last year for concerts for the men.

At the religious meetings a very large percentage of the men attend. At one camp 300 men attended Bible Class.

There are 72 places in England where Y. M. C. A. work is being done. Beaver Hut in the Strand, London, is a safe place for the men on leave to find their recreation. There are 200 beds for their use.

Splendid work is being done by the women of England for the Canadian boys. Besides waiting on them in the canteens they are throwing open their homes to them so that our boys on leave can go to some of the best homes in London as a guest during the period of the leave.

Work in France.

There are 98 places in France where Y. M. C. A. work is being done 23 of these are Dugouts up at the front. In the rest camps all the activities of the home Associations are carried on.

At the Front.

The Y. M. C. A. men get advance information when a drive is on. Special dugouts are arranged on the line of the walking wounded and supplies got up so that when the men begin coming back the Y. M. C. A. are ready with hot coffee, tea or cocoa, also hot biscuits to help cheer the men.

Last year \$85,000 worth of supplies were given free to men who had been

cut off from their supplies. Paris is not the place where most Canadians spend their leave. This was an opportunity that the Y. M. C. A. were quick to take. Huts were erected at the points where the men arrived, and the first thing the men found when entering these huts were Canadian women to serve them a good meal, reminding them of their mothers at home. Guides were provided to show them the sights of Paris. These men go back to the trenches with clean manhood and no regrets.

Cheerful Wounded.

On a troopship bringing home wounded one fellow was getting the men to put something in a book so that he would remember them. One of them wrote this.

"Home again I am so happy I could dance, But now I think of it I left one leg in France."

When we see the cheerful spirit of the broken men who are coming home men who have made real sacrifices, should the people at home say, we are tired of giving.

In a charge one boy was wounded and he asked a comrade to place him with his back to a rock where he could see the boys go past and as they did he cheered them on and so doing died. What is needed is more spirit of sacrifice among the people at home to help make a little more cheer for the boys over ther.

The note of Thanks.

Mr. Frank Smith chairman, thought the best way would be to move a vote of thanks on May 7th seconded on May 8th and pass it on May 9th with a total above the \$7,500 asked for the Y. M. C. A., War Work from Truro. Meeting closed by singing God save the King.

SCHOOL COMMISSIONERS WELL IN SESSION.

The Commissioners of Schools for South Colchester met in the Court House, Truro on the forenoon of the 27th.

Routine business was transacted and the officers of last year were re-appointed. Inspector Campbell reported the Schools of the District in good working order.

Mr. Jacob Harvey, Brookfield, was enthusiastically re-elected Chairman of the Board. This Veteran School Commissioner has not missed a regular meeting of the Board for 44 years.
