VOLUME V.

PREMIER SCOTT IS SUSTAINED

Saskatchewan Government Will Have From 8 to 10 Majority - Returns Incomplete.

Calder being defeated by A. E. White... Mr. Ferguson, however, was elected... Mr. Haultain expresses satisfaction with the results as far as known and confidence in the ultimate outcome.

Regina, Aug. 15 - With the government claiming 22 and the Conservatives 20 out of 42 seats, and both acknowledging no definite returns from three more, the result of the elections is still in doubt.

The headquarters of both parties claim victory and, by adding the seats which they have a lead on the partial returns, to the certain seats, the party managers are able to make such a good showing that the Liberals claim a good working majority while Haultain's supporters say they will have enough to at least make a new election necessary.

Regina, Aug. 14 - Incomplete returns tonight indicate no decisive result in Saskatchewan. The summary at this time shows that the government has six seats sure, namely, Swift Current, Saskatoon City, Yorkton, Duck Lake, Humboldt. The opposition claims nine seats sure, as follows: South Qu'Appelle, Regina County, Pipestone, Moose Jaw City, Prince Albert City, North Qu'Appelle, Maple Creek, Souris, Moose Mountain and probably Milestone.

Two Cabinet Ministers Defeated. Cabinet ministers are defeated in three districts. Hon. W. R. Motherwell going down before J. A. McDonald in North Qu'Appelle, Hon. J. A. McDonald in North Qu'Appelle, Hon. J. A. McDonald in North Qu'Appelle.

THE MANCHESTER HOUSE OPENING NEW GOODS

The new Fall Goods are almost all in now and are being opened up and put into stock. Meanwhile we are giving some very special values in all lines of Summer Goods.

OKUMA'S TALK CREATES FURORE

Japanese Newspapers Publish Dispatches Showing United States Again Anti-Japanese.

Tokio, Aug. 14 - Special dispatches from New York and London printed in Japanese papers represent that the recent speeches of Count Okuma attacking the naval expansion policy of the United States to the sudden rise of Japan to the position of a world power, are arousing intense indignation and have caused a complete re-orientation of anti-Japanese sentiment throughout the United States.

American leading in Tokyo and Yokohama and elsewhere throughout Japan is extremely indignant. They believe that the special dispatches aggregate the tone of the New York newspapers, and it is felt that at this time anything should be permitted to retard the increasing friendly relations of the two nations, in view of the elaborate arrangements on foot among the Japanese to welcome the American fleet, and the growing cordiality exhibited on all sides towards Americans.

Count Okuma's frequent utterances do not create a ripple here, and his most recent one was passed quite unnoticed by the general public. The special announced the outcry of the American papers.

Count Okuma is regarded here as a doctrinaire politician who is especially regret the revival of the anti-Japanese propaganda in the United States will undoubtedly afford gratification to the competing countries represented here and also seriously damage American trade.

Count Okuma is regarded here as a doctrinaire politician who is especially regret the revival of the anti-Japanese propaganda in the United States will undoubtedly afford gratification to the competing countries represented here and also seriously damage American trade.

METHODISTS BOLT FROM TAFT CAMP

Organized Movement Against Republican Candidate Who Openly Disbelieves the Divinity of Christ - Republican Leaders Greatly Disturbed by Mutinies.

Lincoln, Neb., Aug. 15 - Murmurs of a Taft bolt by the Methodists of Nebraska and other middle west states have been disturbing the Republican leaders for the past several weeks. Recent developments show that the situation has progressed to the stage of an organized movement. Methodist preachers at the annual Epworth League assembly in Lincoln, this week, have gone wild over Bryan. Scores of lay members also have caught the Bryan fever, and are making no secret of their opposition, button-holing everybody they meet, urging them to vote against the Republican nominee, urging that no man can make a good president who openly does not believe in the Divinity of Christ.

New G. T. P. Official. Montreal, Aug. 15 - The following appointments to the Grand Trunk Pacific railway announced, taking effect at once: W. E. Davis, passenger traffic manager; G. T. Bell, general passenger agent; J. O. Quick, general baggage agent.

Lightning Killed Him. Cayuga, Ont., August 13 - While turning off a windmill during a severe storm, a man was struck and killed by lightning.

ENGINEERS NOW INVOLVED

Involve Conciliation Board on Discharge of Engineer.

Toronto, Ont., Aug. 14 - Another International Union has crossed swords with the Canadian Pacific Railway Company. It is the Brotherhood of Locomotive Firemen and Engineers. The brotherhood has appealed to the Dominion government for the appointment of an arbitration board. The charge is made that an engineer on the Lake Superior branch has been wrongfully discharged on account of his activity as a trades unionist.

The finding of the arbitration board on the charge against the C.P.R. telegraphers that an operator was wrongfully dismissed, may be made public by the Ottawa authorities next week.

NEW ZEALANDERS WILD OVER AMERICAN FLEET

U.S. Battleships Leave Auckland For Sydney This Morning - Shore Batteries Salute - Bands Play British and American National Anthems - Premier Leads in Cheers.

Auckland, New Zealand, August 15 - The American battleship fleet departed for Sydney this morning. The shore batteries saluted the fleet with a salute of 21 guns. Bands played the British and American national anthems. The premier led in cheers.

MAYOR CHARGED WITH MURDER

Indianapolis, Ind., August 14 - Mayor Frankie, who was charged with the murder of a woman, was found guilty.

AGREEMENT INSUREM ONE.

London, August 14 - The Foreign Office, in announcing last night the conclusion of modern vivandier regarding the Newfoundland fisheries, says: "His Majesty's government and the Government of the United States are united in regarding the exchange of notes regarding this proposal and its acceptance as constituting in itself a satisfactory agreement for the season of 1908 without the necessity of a more formal agreement."

DRIGIBLE BALLOON SUCCESSFUL.

Berlin, Aug. 15 - The new Parosov drigible balloon made a flight over and around Berlin yesterday that lasted for two hours and forty-five minutes. Various manoeuvres were carried out at an altitude ranging from 900 to 1,800 feet. The ship returned and landed at the same spot whence it started out.

HAS HE REFUSED GOVERNORSHIP.

Kingston, Aug. 14 - The son of Sir Richard Cartwright is quoted as saying that his father has been offered and he has refused the governorship of Ontario.

IRA D. SANKEY DEAD.

New York, Aug. 14 - Ira D. Sankey, the famous evangelist, is dead at his home in Brooklyn, surrounded by his family, aged sixty-eight.

STEAMSHIP MAN DEAD.

Kingston, Aug. 15 - M. H. Folger, the well-known steamship manager, died this morning, aged 67.

TABER HAS BOTH WHEAT AND COAL

This District is Young In Wheat Growing But Gives Promise of Great Things.

Taber, Aug. 11 - When you visit the Taber district you are confronted by a plurality of interests as strongly contrasted as any you will find in the province. Raynham has its wheat and sugar beets, but these are both products of the soil and are variable quantities. Taber's activity must be written in two chapters, wheat and coal. In wheat the district is only beginning to learn its possibilities, but production is so well established now that the shipments will rapidly increase. Coal mining has become an industry that one half of the people of the district do their day's work about 100 feet below the surface of the earth. They meet on a common level in the growing town of Taber, which has only come into existence during the past few years.

WINSTON CHURCHILL TO MARRY MISS HOZIER

President of Board of Trade in British Government Announces Engagement to Daughter of Lady Airli-

London, Aug. 15 - The Press Association says it has been announced that Winston Churchill, president of the board of trade, will marry Miss Clementine Hozier, daughter of the late Henry Hozier, K.C., who died in February in Panama. The wedding will probably take place in the autumn. Miss Hozier is 23 years old. Her mother, Lady Hozier, is aunt of the present Earl of Arlisle, she being a daughter of the late Lord Arlisle. The Hoziers and the Churchills have been friends for years, but only recently the friendship between Winston Churchill and Miss Hozier is regarded as having a special significance. The engagement was entered upon on Wednesday.

CIVIL SERVANTS TO ORGANIZE.

Ottawa, Aug. 14 - Considerable talk has led to a definite plan for the complete federation of the civil servants in Canada. Though no action has yet been taken in the matter it is probable that the outside service all over the Dominion will be asked to come into an organization of civil servants.

GOOD YIELD PER ACRE.

"How about the yield per acre, what would you say to that?" "This season has been a great growing year for wheat and the standard yield per acre will easily go from 30 to 40 bushels."

SAFETY QUANTITY DEFICIENT.

London, Aug. 14 - The Live Stock Trade Report states some increase is noticeable in the supply of live stock from Canada, but the quality is deficient as a rule. The shortage from Montreal as compared with last year amounts to thirteen thousand.

SENTENCED TO FIVE YEARS.

St. Catharines, Ont., Aug. 14 - Jerry Doyle was convicted in the police court this morning of indecent assault on Elizabeth Barker, aged 5 years, and was sentenced to two years in Kingston penitentiary.

POISONED EATING CANNED SARINES.

Guelph, Ont., Aug. 14 - When Robt. Donald arrived home last night he found his wife, two children and Mrs. Donald and her little child, of Toronto, visitors, all in a very serious condition and suffering great pain from the effects having eaten a quantity of canned sardines. The doctor was with them all night.

TWO KILLED BY BALLOON EXPLOSION.

London, Aug. 14 - Two were killed, a dozen injured, three probably fatally, in the explosion of the gas bag of Capt. Lovelace's balloon, which was preparing to make a flight at the Franco-British exposition this morning. One of the killed was Miss Hill, of New York, who was acting as the captain's secretary. The accident is attributed to some one lighting a match, which was forbidden. The captain was not in the sled at the time and is uninjured.

PIERCE RACE RIOT IN SPRINGFIELD

Negro's Attack on White Woman Precipitates Terrifying Riot - Negroes Fight Back.

Springfield, Ill., Aug. 14 - Springfield is in the hands of a howling mob to-night. Governor Deneen has ordered out soldiers from all the surrounding towns. All saloons and sporting resorts are closed. Martial law will soon be declared as a result of a race riot war.

GRANT OF ELEVATOR SITE.

The C. P. R. has treated Taber quite liberally. In a distance of six miles the extent of financial stringency all expedite the shipment of wheat and coal. As yet there is no elevator at Taber, but the C. P. R. has granted the choice of three sites to any company that will build one. It is expected that the Alberta Elevator Co. will be the first to be represented at Taber.

COAL MINING IN THE TABER DISTRICT.

Coal mining in the Taber district has no direct connection with the grain harvest, but will probably be of some interest to readers of the Bulletin. There are at present eleven coal mines at work in and about Taber. During the period of financial stringency all of these mines felt the general business depression. Many of the miners were struck off the pay roll and the Taber Trading Co. opened an account with them on the wrong side of the ledger.

FIRE UNDER CONTROL.

The fire started in negro quarters are now under control. It is impossible to state how many shacks were consumed, but nearly four blocks were burned over. Two men are dead, two others are in hospital, and a large sum of money was lost.

NEGROES MURDER COUNTY TREASURER.

Springfield, Aug. 15 - W. H. Rowe, assistant county treasurer, was this morning attacked by a crowd of negroes who after firing three shots into his abdomen, filled his pockets of a large sum of money and took a large diamond. He was left in an alley in a dying condition. The mob, hearing of the attack on Rowe, again started toward the negro section. Troops are being rushed to the scene. Martial law has not been declared. Governor Deneen declares he cannot take such action until a conference with Mayor Reece and Sheriff Werner is held.

TWO KILLED BY BALLOON EXPLOSION.

London, Aug. 14 - Two were killed, a dozen injured, three probably fatally, in the explosion of the gas bag of Capt. Lovelace's balloon, which was preparing to make a flight at the Franco-British exposition this morning. One of the killed was Miss Hill, of New York, who was acting as the captain's secretary. The accident is attributed to some one lighting a match, which was forbidden. The captain was not in the sled at the time and is uninjured.

INTER-URBAN STREET RAILWAY

The Edmonton-Strathcona System, Which Will Be in Operation by November 1st, Will Be Eight and One-half Miles in Length—Twenty Minute Service Will Be Insured Between Edmonton and Strathcona—Cost of Completing System Estimated at \$115,000.—The Route of the Railway.

The people of Edmonton and Strathcona are daily waking up to a greater realization of what a boom the inauguration of the street railway in and between the two cities will give to the growth and prominence which both are attaining in the development of the west. When Mayor McDougall some weeks ago announced that the line of nearly eight and a half miles would be in full operation by the 1st of November the statement was regarded by many citizens as too good to be true. But the rapid telephonic installation was still fresh in mind, and when it was given out that all the contracts for material, etc., had been signed for early delivery and work was being rushed on the grading, it gradually began to dawn upon the public that the promise of operation this fall was no idle boast. During the past week Superintendent Taylor and the others in charge of the work, more sanguine than ever that the tramway service will be in full working order two months before the end of the present year.

With the service in operation, Edmonton will have further established herself as the most progressive city and of quite a large number of people in respect of agriculturists and domestic servants. In addition, penalties, the minimum being fifty dollars fine, are provided for those who are guilty of false or misleading representations to induce immigrants to come to Canada. It is further provided, in order to make as desirable a class of immigrants as possible, that persons arriving in Canada between December 1 and February 15, must have in possession, per adult passenger and a ticket to destination. However, if no provision, however, is to be enforced in cases where satisfactory evidence is furnished that the immigrant is going to some definite employment, or to friends or relatives, who will assume responsibility for the care of such persons. Authority is also given to exclude certain classes of immigrants when the labor conditions in Canada render exclusion desirable.

It is inevitable, however, that inclusion cannot be practised to the full extent of possibility. We invite and welcome new citizens. Canada, it is pointed out, has been extensively advertised as a prosperous and growing country, with homes for millions. There is no misrepresentation in this, but the resulting influx has been great beyond our power of immediate assimilation, especially at a time of trade depression. It is inevitable, therefore, that there will be a certain number of persons who will find themselves in a position where they will be obliged to accept of a lower standard of living than they would have had if they had been more judiciously selected.

The scheme to put the street railway line in operation this season has been evolved with the past six weeks. At first the idea of Mayor McDougall, who has been mainly instrumental in bringing the matter to its present stage, was to operate a four-car service between 21st street and Jasper, and to Alberta avenue north on Namayo. But gradually the idea took a wider scope and negotiations were begun with the Strathcona Tramway Company, which ended in the purchase of their charter for \$10,000. This gave Edmonton operating power in and between both cities and guaranteed a franchise for thirty years. The value of this franchise is not yet known, but it is estimated that the purchase of the Strathcona right-of-way, near the C.N.R. right-of-way, will be five cents per foot, with a double fare between Edmonton and Strathcona. The rates will be doubled after eleven o'clock at night.

The distance of the line, from Strathcona bridge to Currie street, along Currie to Saskatchewan avenue, near the Campbell & Otwell line, then along Saskatchewan to the corner of Ninth street, thence along ninth to the corner of Jasper avenue, 9,300 feet. Jasper avenue, from 21st street to Namayo avenue, 10,650 feet. Up Namayo avenue to Sutherland street, 3,000 feet. Along Sutherland street to Kinistino avenue, 700 feet. North on Kinistino avenue to Norwood street, 5,600 feet. Along Norwood Boulevard, 900 feet. Up Carey avenue to Alberta avenue, 3,600 feet. Although the route is indicated from Namayo to Kinistino and thence along Carey and up this avenue to Alberta avenue, this route has not been definitely decided. It is, however, probably the most feasible to place the line on the best paying basis.

Each of the seven cars will have two shifts for operation, a night and a day conductor and a night and a day motorman. Already the applications received for the fourteen available positions reach up into the hundreds, letters having come to hand from all parts of the west, as well as from Toronto and other eastern cities.

The Three Routes. The operation of the line will be carried out along three routes as follows:

From Alberta avenue via Namayo and Jasper avenue to 21st street. On this route four city cars will be run, and it is expected about a ten minute service will be given.

From the corner of Jasper avenue and Ninth to the University grounds.

Scheme Quickly Evolved.
The scheme to put the street railway line in operation this season has been evolved with the past six weeks. At first the idea of Mayor McDougall, who has been mainly instrumental in bringing the matter to its present stage, was to operate a four-car service between 21st street and Jasper, and to Alberta avenue north on Namayo. But gradually the idea took a wider scope and negotiations were begun with the Strathcona Tramway Company, which ended in the purchase of their charter for \$10,000.

THE ROUTE OF THE EDMONTON AND STRATHCONA STREET RAILWAY.
The proposed route of the street railway line, to be in operation by November 1st, is indicated by the short dashes. On the Edmonton side it runs from Alberta avenue by way of Carey, Norwood Boulevard, Kinistino, Sutherland, Namayo and Jasper to Twenty-first street. At the Ninth street junction it will branch off to Strathcona via Saskatchewan avenue, Currie street and the Saskatchewan bridge. On the Strathcona side it will run up the grade to McClellan's corner, thence along Cameron to Whyte avenue, and thence along Whyte to the University grounds in the west end of the city. The entire distance will be almost 8 1/2 miles.

stage, was to operate in Edmonton alone, and he suggested a four-car service between 21st street and Jasper, and to Alberta avenue north on Namayo. But gradually the idea took a wider scope and negotiations were begun with the Strathcona Tramway Company, which ended in the purchase of their charter for \$10,000. This gave Edmonton operating power in and between both cities and guaranteed a franchise for thirty years. The value of this franchise is not yet known, but it is estimated that the purchase of the Strathcona right-of-way, near the C.N.R. right-of-way, will be five cents per foot, with a double fare between Edmonton and Strathcona. The rates will be doubled after eleven o'clock at night.

The location of the car sheds has not yet been definitely decided upon, but one will be placed in Strathcona and one in the northern part of Edmonton, probably in the vicinity of the city property, near the C.N.R. right-of-way.

The fares in either city will be five cents, with a double fare between Edmonton and Strathcona. The rates will be doubled after eleven o'clock at night.

The distance of the line, from Strathcona bridge to Currie street, along Currie to Saskatchewan avenue, near the Campbell & Otwell line, then along Saskatchewan to the corner of Ninth street, thence along ninth to the corner of Jasper avenue, 9,300 feet. Jasper avenue, from 21st street to Namayo avenue, 10,650 feet. Up Namayo avenue to Sutherland street, 3,000 feet. Along Sutherland street to Kinistino avenue, 700 feet. North on Kinistino avenue to Norwood street, 5,600 feet. Along Norwood Boulevard, 900 feet. Up Carey avenue to Alberta avenue, 3,600 feet. Although the route is indicated from Namayo to Kinistino and thence along Carey and up this avenue to Alberta avenue, this route has not been definitely decided. It is, however, probably the most feasible to place the line on the best paying basis.

INSATIABLE.

Windsor Record: The Mail and Empire says that a slight tariff in wool would prevent extinction. The wool industry is suffering, and the manufacturers are being driven to shift the accumulation of wool to the consumers. The wool is being sold at a low price, and the manufacturers are being driven to shift the accumulation of wool to the consumers. The wool is being sold at a low price, and the manufacturers are being driven to shift the accumulation of wool to the consumers.

PUBLIC RIGHTS IN LABOR WARS.

Toronto Globe—The strike of 8,000 railway mechanics extending over the Canadian Pacific system from ocean to ocean is a disquieting reminder that the highways on which our economic existence depends are subject at all times to the opinions, caprices, or prejudices of a few men who may forget their responsibilities. Whether this condition should or should not exist is a question on which it would be held to be normal, but the fact remains that it is a fact and it is not likely to continue during the measurable future.

OLD AGE PENSIONS.

Vancouver Province—Sir Richard Cartwright's old age annuities bill will soon be in operation now in the Dominion, and no doubt it will be taken advantage of by quite a large number of people. At the present moment actuarial tables are being prepared and regulations drafted, and agents will be appointed to distribute the annuities and assist in their operation. The measure has apparently been drawn with that skill which Sir Richard Cartwright always displays in the handling of financial matters. If it works out as the Minister of Trade and Commerce guarantees it will, it will be a very valuable provision against old age will be entirely free from any imputation of avarice on the part of the pensioners. The bill which has just come law in Great Britain. The English measure, in fact, passes all previous precedent. No contribution is required from either laborer or employer. Indeed, it is doubtful if the House of Lords would have given it had it not been clear to the conservative leaders that there was no chance of carrying an election in opposition to it. The proposal that the pension should end in seven years—pensions granted continuing to insure that the issue would be passed on by the people at the next appeal to the country, was accordingly dropped.

THE CITY LIGHT.

Calgary Alberta—If any person desires living, breathing example of the success of the public ownership of utilities let him look to the experience of the municipal light plant of the city of Calgary. The electric light plant of this city is not yet four years old. It started under the most unfavorable circumstances, it went up against a company well established in this city, which had a big business, which was well established and was very strong and very richly political.

THE WESTERN LANDS QUESTION.

Toronto Globe—The Mail and Empire is not alone in its deliberate misrepresentation of what has been done with the Dominion lands. The Toronto News is equally specific in its falsification. It says one of the grounds of objection to Federal interference in Saskatchewan three years ago was that its lands, timber, and minerals were "sold" in order to serve the exigencies of the Ottawa politicians. The term here used was obviously chosen for the express purpose of creating a prejudice against the present Dominion government, and is, therefore, an explicit falsehood. It was used for the purpose of conveying the impression that the people of the west had owned and administered the lands prior to the establishment of the province of Saskatchewan and Alberta in 1905, and they were deprived of them when these provinces were created. This is not a word of truth in the allegation.

THE SHIPPING COMBINE.

Montreal Herald—Montreal has every reason to be satisfied with the amount of grain shipments this season. For once the port has had its birthright, for once it has received the full advantage of its unequalled position as the head of ocean navigation at the end of the most splendid chain of waterways and navigation in the world. While the four principal Atlantic ports in the United States have shipped between 100,000 and 1,000,000 bushels of grain since the beginning of June, and while New York has not shipped a single bushel, Montreal has been shipping 10,000,000 bushels across the Atlantic.

space to the matter, was secretly made between Mr. Richardson, representing the Portage La Prairie syndicate, who were not sold by public auction as they ought to have been, but by private negotiations. Of the million shares, representing the capital of the company, 233,000 were the prospectus, as issued to the original owners of the land, 3,000 were issued for cash, 200,000 were offered in the London market, leaving 64,000 available for future use. The land was purchased apparently at a trifle more than \$3 per acre. The prospectus also gave an option was given to another company allowing it to purchase 20,000 acres at the rate of \$3 per acre, and a third lot of 20,000 acres at \$17—making a total of \$800,000 for 950,000 acres. The prospectus further states that the price of good agricultural land in Manitoba ranges from \$12.50 to \$25 an acre. The prospectus also states that good agricultural land, it is evident the company will soon be in clover. The prospectus also states that the special talents of Mr. Ames, as they have been manifested in parliament, may be expected to find congenial soil, and as he is now in the West it is to be hoped he will not allow the opportunity to slip.

IMMIGRATION.

Peterborough Examiner—Every patriotic citizen recognizes that population is the greatest need of Canada, and it is also evident that the only way to meet this need is by immigration. The immigration of people from other countries to occupy and make productive our now idle fertile lands.

OLD AGE PENSIONS.

Vancouver Province—Sir Richard Cartwright's old age annuities bill will soon be in operation now in the Dominion, and no doubt it will be taken advantage of by quite a large number of people. At the present moment actuarial tables are being prepared and regulations drafted, and agents will be appointed to distribute the annuities and assist in their operation. The measure has apparently been drawn with that skill which Sir Richard Cartwright always displays in the handling of financial matters. If it works out as the Minister of Trade and Commerce guarantees it will, it will be a very valuable provision against old age will be entirely free from any imputation of avarice on the part of the pensioners. The bill which has just come law in Great Britain. The English measure, in fact, passes all previous precedent. No contribution is required from either laborer or employer. Indeed, it is doubtful if the House of Lords would have given it had it not been clear to the conservative leaders that there was no chance of carrying an election in opposition to it. The proposal that the pension should end in seven years—pensions granted continuing to insure that the issue would be passed on by the people at the next appeal to the country, was accordingly dropped.

THE CITY LIGHT.

Calgary Alberta—If any person desires living, breathing example of the success of the public ownership of utilities let him look to the experience of the municipal light plant of the city of Calgary. The electric light plant of this city is not yet four years old. It started under the most unfavorable circumstances, it went up against a company well established in this city, which had a big business, which was well established and was very strong and very richly political.

THE WESTERN LANDS QUESTION.

Toronto Globe—The Mail and Empire is not alone in its deliberate misrepresentation of what has been done with the Dominion lands. The Toronto News is equally specific in its falsification. It says one of the grounds of objection to Federal interference in Saskatchewan three years ago was that its lands, timber, and minerals were "sold" in order to serve the exigencies of the Ottawa politicians. The term here used was obviously chosen for the express purpose of creating a prejudice against the present Dominion government, and is, therefore, an explicit falsehood. It was used for the purpose of conveying the impression that the people of the west had owned and administered the lands prior to the establishment of the province of Saskatchewan and Alberta in 1905, and they were deprived of them when these provinces were created. This is not a word of truth in the allegation.

THE SHIPPING COMBINE.

Montreal Herald—Montreal has every reason to be satisfied with the amount of grain shipments this season. For once the port has had its birthright, for once it has received the full advantage of its unequalled position as the head of ocean navigation at the end of the most splendid chain of waterways and navigation in the world. While the four principal Atlantic ports in the United States have shipped between 100,000 and 1,000,000 bushels of grain since the beginning of June, and while New York has not shipped a single bushel, Montreal has been shipping 10,000,000 bushels across the Atlantic.

ONE FOR USE IN SAID DIVISION.

Moved by E. L. Schell, seconded by G. Tadusjaski, seconded by E. L. Schell that the secretary issue an order to Messrs. Beals & Hour, Edmonton, to supply division No. 3 with one 14 inch breaking plow, and one steel scraper for use in division No. 4.

Moved by E. L. Schell and seconded by E. D. Martin that G. Tadusjaski be allowed to build a bridge over the Creek on the road between sections 23 and 24, 53, 23 w. 4, the said bridge not to exceed fifty dollars in cost.

The roads in this district have been greatly improved during the present year, a very large amount of work having been done by the council, as well as by the department of public works. The road known as the Crow's Nest having had two gangs working upon it all summer under the direction of Messrs. Pierce and Martin. The Landing trail has also received attention from the government men. Mr. Harold has had charge. The roads in this part are among the best in the province.

Fedora, Aug. 8.

£100,000 FOR POOR MINER.

Romantic Story of a Big Windfall Comes From England.

London, Aug. 14.—A romantic story of a big windfall comes from Sunderland, a poor Durham miner, named Ernest Barnett Douglas, who lives at Wingate, in the heart of the colliery district, has just been informed that he is entitled to a large sum of money. The money was left by a certain William Dawson Barnett, who besides being interested in a successful gold mine held shares in several other concerns. On his death in London about two years ago he bequeathed the whole of his fortune to a nephew, but the nephew, who he bequeathed to, died, and the money went into Chancery.

A Sunderland firm of solicitors have, however, succeeded in establishing the fact that Ernest Barnett Douglas, of Wingate, is the grand-nephew mentioned upon roads, and it was decided

HE FEARS ASSASSINATION.

Mohammed Ali Bey Receives Threatening Letters From "Black Hand."

Washington, August 14.—The Turkish "Black Hand" is a powerful organization, has got in its work on Mohammed Ali Bey, deposed Turkish minister to the United States. He is in fear of assassination rather than "diplomacy sickness," as Muni Bey, new Charge d'Affaires, sarcastically put it, and he is apprehensive of something occurring and stayed at home, although he had his working clothes on.

MEDICAL CONVENTION.

Four Edmonton Physicians Attend—Dr. Revell Gives Paper on Typhoid.

Banff, Aug. 13.—The Medical Association of Alberta convened a three-day convention at Banff last night after one of the best and most enjoyable gatherings in the history of the association. The gathering was held for the purpose of discussing subjects of interest to the medical profession and in no way excepting from Calgary.

About 35 medical men attended from all parts of the province, four from Edmonton, five from the south, and 10 or 12 from Calgary.

Fifteen papers in all were read, the best being two papers from Winnipeg, one by Dr. C. E. Smythe, Medicine Hat; second vice-president, Dr. J. L. Biggar, Edmonton; third vice-president, Dr. A. L. Weart, Didsbury; fourth vice-president, Dr. E. G. Learmonth, High River; secretary-treasurer, Dr. W. A. Lincoln, Calgary.

FROST IN FIRST WEST.

Thermometer Dropped Last Night in Manitoba and Saskatchewan—No Damage.

Winnipeg, August 14.—The thermometer took another dangerously low dip last night, being around freezing point through much of the spring wheat country, the lowest recorded being 30 at Brandon and at Kam-sack. At Hamiota it was 32. Such temperatures, however, while damaging tender garden stores, are not likely to do much damage to grain. Reports though tell a somewhat different tale of the frosts of the preceding night, and it is claimed that the wheat on the low-lying districts, which is backward and will not be ready to cut for ten days, probably has been frosted to some extent, it being supposed the milk or dough stage is very susceptible.

Next week, and until about August 23, it is generally the period of frost danger, after which there is little danger until about September 1. Reports coming in show that the drought and hot winds did at least as much damage to wheat as was thought at the time, and it is daily becoming evident that the spring wheat crop for the entire country will not average over twenty bushels.

Crown Jewels As Security.

St. Paul, Aug. 8.—A despatch from St. Paul says the Shah of Persia has agreed to loan his crown jewels to the United States government as security. This money was being used for the purpose of the United States government to purchase the rights of the Crown Jewels, which were being sold to the United States government as security.

Harvesters From Halifax.
