

FIFTH YEAR. THE LEAGUE CONVENTION

STIRRING SPEECH BY THOMAS SEXTON AT BOSTON.

Britain Enlarged and Voted \$4000—Elected President—Sullivan Executive, a Preference for War.

Boston, Aug. 14.—The convention of the Irish national league assembled at noon. Several contributions to the parliamentary fund were announced. The treasurer's report showed receipts from the branches for the past year to be \$34,000; for the parliamentary fund \$4700; remittances to Ireland \$24,000; balance on hand \$5000.

The committee on resolutions submitted a report reaffirming the principles adopted at the Philadelphia convention and commending the people of Ireland and their able leader Parnell on the heroic efforts and untiring zeal which have so signally marked the history of the past year.

Resolutions were adopted (1) expressing approval of the course pursued during the past year by Parnell and the Irish parliamentary party and pledging continued support; (2) congratulating the Irish national league of America on its success in stemming the tide of forced emigration, and in causing the United States government to compell England to take back those whose pervious in America is the result of her misgovernment; (3) recording with satisfaction the fact that the opposition of this league to land grabbing in America has non resident aliens had been by the efforts of our executive adopted as the doctrine of the American people.

The resolutions were adopted without discussion. The treasurer of the Parnell fund reported that \$17,000 had been sent to Ireland. Senator Jones (Florida) appeared on the platform and was greeted with much enthusiasm.

Thomas Sexton introduced and vociferously cheered. He thanked the convention for adhering to the policy originally formulated by the league and for declaring confidence in the Irish party and its leader. [Applause.] We have reached, he said, the decisive moment in the history of the Irish struggle. The admission of land to the Irish party has been tested and we have found that the benches of the land courts have been filled with hangers on of the landlord class, with men whose eyes are turned upon the side of that class and whose support has been gained by adhesion to its interests.

The European Apple Crop. LONDON, Aug. 14.—J. B. Thomas of London, agent for the apple crop, has issued his circular in reference to the apple crop and the prospects of trans-Atlantic trade. From extensive observation the impression produced is that the apple crop of Europe is under that of last year; that full shipments of American and Canadian apples to Glasgow and Liverpool will be made in a few days, and that the market will be more than supplied.

Well Sixty Feet and Walked Away. NEWSPAPER, Aug. 14.—Yesterday afternoon while carpenters were engaged in hoisting shingles to the top of Fullwich's mill by a pulley the frame broke, precipitating John Redmond, a man of sixty feet, on to a heap of shingles, and strange to say got up and walked away, he so far seems unhurt.

The head was perfect, but from the neck to the feet every particle of muscle, flesh and skin had been cut off with a sharp instrument to the bones. The flesh on the hands and feet was perfect and not decomposed.

Escapes From the Kentucky Penitentiary. FRANKFORT, Ky., Aug. 14.—There was a desperate effort to escape in the part of the penitentiary today. Eight men escaped from the penitentiary today. The plot was only partially successful. Capt. Johnson, guard at the gate, had recently received intimation of a conspiracy. John R. Wolf, son of the county clerk of Scott county, recently sent for ten years for forgery, seems to have been the ringleader. He knocked Johnson senseless with a bottle. Eight men are in pursuit. Wolf says there were nearly fifty in the plot to escape.

Standing Blaine and His Wife. INDIANAPOLIS, Aug. 14.—The Sentinel contained an editorial charging that Blaine seduced his present wife in Kentucky and fled to Maine, where the young woman and her father followed, and she married him at the point of a shotgun. This having reached Blaine, he telegraphed Col. Holloway that the statement was malicious and untrue in every particular. Political slanders, he says, pay no attention to, but this attacked the honor of his wife and children, and could not be submitted to. He has given instructions to enter an action against the publisher of the Sentinel.
