Why does Canada Raise Money by Selling Bonds?

BONDS are issued payable in ten or twenty years, as the case may be. It means that repayment of the money will be spread over ten or twenty years instead of being raised by taxation to meet current expenditures.

To raise by taxation all the money as fast as it is needed to carry on Canada's share in winning the war, would be an unbearable burden upon the people.

It would mean that more than a million dollars a day would have to be raised right now.

But to raise money by selling Canada's Victory Bonds means that those of the next generation who will benefit by the sacrifices this generation is making;

—who will share in the freedom this generation is fighting for and largely paying for—will also pay their share.

And when you buy Canada's Victory Bonds you make a first-class business investment in a security that is absolutely safe, likely to enhance in value after the war, and bearing a good rate of interest.

You help the country by keeping open the British market for Canadian products and this helps the general welfare in which you share.

And again, every Canadian who buys a Victory Bond becomes a financial partner or backer of Canada in the war.

When you buy a Canada Victory Bond

you give a personal pledge that you are going to help to win the war.

Every man and woman in Canada can help to win the war by buying Canada's Victory Bonds. And Canada wants the personal, individual interest and co-operation of every man and woman in the country.

The buying of Victory Bonds by the whole people unites them in a determination to win the war.

Every purchase of Canada's Victory Bonds is a blow for freedom against the tyranny of German Kultur.

Every bond sold is a new guarantee that Canada is in the war to the finish, until victory is with the Allies and the world has been made safe to live in.

Every bond you buy is a new pledge that Canada will remain true to herself, the Empire, the Allies and to freedom's cause.

So it is both patriotic and good business to

Buy Canada's Victory Bonds

Issued by Canada's Victory Loan Committee
in co-operation with the Minister of Finance
of the Dominion of Canada.

boys supplied with socks, tobacco, &c., as far as possible. It was decided to try and supply 22 pairs of socks every two months. The Chapter are considering a "Parcels Post Showers" to help supply comforts for the men during the winter months. The authorities at Byron Sanatorium, London Can., had been asked for a list of things most needed in their equipment. The reply was read and \$80 will be forwarded to equip the dispensary of this worthy institution which is caring for the returned tubercular soldiers of No. 1 military district. A Xmas box for Nurse Reed will be packed at the home of Mrs. C. Howden on Friday afternoon of this week. Members not present at the meeting are asked to send a remembrance. A busy meeting was closed in the usual manner.

BIG SHOW COMING

"The Birth of a Nation," bringing forward David W. Griffith's new art of musical spectacle, with evening's performance, opens an engagement Monday, November 19th, in the Lyceum, Watford. The first half of the great picture exhibits on the salient events of the Civil War, which came to a close just fifty years ago. Lincoln's call for troops, Sherman's march, the Battle of Petersburg, Lee's surrender to Grant and the awful tragedy at Ford's Theatre live before the spectator of the Griffith drama. In the second half the South's "Second uprising"—this time against the carpeting regime—is shown in a thrilling story of Reconstruction days. The romance of the "little Confederate Colonel," Ben Cameron, with the North-erner, Elsie Stoneman, and that of the Unionist Captain, Phil Stoneman, with Margaret Cameron, the South Carolina lassie, maintain two threads of continuous love-interest throughout the story.

The fun and frolic of plantation days, as well as the heartache and pathos of the stricken south, are shown.

STUDY AND EXERCISE

Overstudy and lack of exercise make this bloodless children. Study does not usually hurt a child at school unless the studies encroach on time that should be spent in out-of-door exercise. But lack of exercise and overstudy is a combination that brings on St. Vitus dance. If your boy or girl at school is thin and pale, listless and inattentive, has a fickle appetite, is unable to stand still or sit still, you must remember that health is much more important than education, and more time should be given to exercise and recreation.

See to it at once that the child does not overstudy, gets plenty of out-of-door exercise, sleeps ten out of every twenty-four hours, and takes a safe, reliable tonic like Dr. Williams Pink Pills until the color returns to the cheeks and lips and the appetite becomes normal. For growing children who become pale and thin Dr. Williams Pink Pills are not only safe but in most cases are the very best tonic that can be taken. These pills build up the blood, strengthen the nerves and assist nature in keeping pace with rapid growth.

You can get Dr. Williams Pink Pills through any dealer in medicine, or by mail postpaid at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

Thomas Maglader, provincial license inspector, was knocked unconscious and seriously injured, and sustained scalp wounds, when his automobile was struck by the westbound Grand Trunk train on Main street crossing at Parkhill on Saturday.

Patriotic Service

A special service of a patriotic nature will be held in the Methodist church next Sunday evening in connection with the unveiling of a splendidly designed Honor Roll, bearing a long list of names of members of the Sunday School and congregation who are serving King and Country in the present war. The Honor Roll is the gift of the Utopia Bible Class and is much appreciated by the church as a whole. The following will be the order of service.

- 1 The Choir "O Canada"
- 2 Hymn 906, "Lord, while for all mankind we pray"
- 3 Prayer.
- 4 Chorus "The Maple Leaf"
- 5 Scripture Lesson
- 6 Hymn 758, "Blest be the tie that binds"
- 7 Honor Roll unveiled and names read by Misses Moore and F. Lovell.
- 8 National Anthem
- 9 Addresses by Dr. Hicks and Mr. S. Stapleford.
- 10 Hymn 852, "Asleep in Jesus! blessed sleep."
- 11 Address - Rev. A. C. Tiffin
- 12 Anthem - Rev. A. C. Tiffin
- 13 Offering
- 14 Hymn 933, "Eternal Father! Strong to Save."

Tecumseh Chapter I. O. D. E.

There were 19 members and 3 visitors present at the regular meeting of Tecumseh Chapter I. O. D. E., held at the home of Mrs. Kelly on Tuesday. Letters thanking the Chapter for parcels were received during the month from Ivor Small, J. McFeley, C. Johns and A. Armond of the 149th Batt. A letter from Quartermaster Allen of the 161st Batt. in which 400 of the 149 battalion men are at present, was read asking that the women of Lambton County keep the

ited quantities. You should notify customers to be careful in using it, sell them only in small quantities."

Tecumseh Chapter, I. O. D. E.

Tecumseh Chapter, I. O. D. E., mailed Monday of this week Christmas boxes to fifty Watford boys overseas. Each box contained a pair of handknit package of tobacco, trench candle, of Oxo, package of gum, envelopes, eraser and pencil, sticks of candy, ki handkerchief, tin of condensed milk, chocolate bars, home-made fruit cakes, towel and Xmas card. Each box was filled with loaf sugar. Boxes cost \$2.00 each, exclusive of postage. Cash donations received from following friends were used to help in the boxes: Mrs. Lawrence, Mrs. Ker, Mr. Hawn and Mr. A. Nash. Switt kindly donated the khaki handkerchiefs. The next regular monthly meeting of Tecumseh Chapter will be held at the home of Mrs. Kelly on Nov. 6th at 3 p.m.

Mer Watford Boy Appointed a J. P.

Mr. Oshawa Vicindicator in a recent issue notes the appointment of Mr. Bert Shell, of Oshawa, son of Mr. and Mrs. W. Mitchell of Watford, to the office of Justice of the Peace. The highly complimentary article says:—

Mr. Thos. B. Mitchell, the well-known Justice of the Peace for the County of Ontario, his appointment being from August 10, 1917. The new Justice is one of the best-known citizens of Oshawa, and the news of his appointment will be received with pleasure by a large circle of friends and acquaintances. Mr. Mitchell has been in business in Oshawa for twenty years. He is a prominent member and worker in the Anglican Church, was warden in the church and a successful chairman in the A. Y. M. C. He has had much to do with and has been very satisfactorily the Patriotic Separation Allowance Funds. Mr. Mitchell has also been much interested in public affairs. He was President of the Board of Trade, Reeve of Oshawa, and as Reeve has had experience on the Bench. Always courteous and willing to help a citizen before he has time to punish him after he has done it. He takes an interest in clean streets, and is a great golf enthusiast. His new magistracy is a favorite with all, and is one of the fine types of that make a country great. His appointment is sure to be a very popular one.

PAINS IN SIDE AND BACK

How Mrs. Kelly Suffered and How She was Cured.

Burlington, Wis.—"I was very irregular, and had pains in my side and back, but after taking Lydia E. Pinkham's Vegetable Compound Tablets and using two bottles of the Sanative Wash I am fully cured of these troubles, and feel better all over. I know your remedies have done me worlds of good and I hope every suffering woman will give them a trial."—Mrs. ANNA KELLY, 710 Chestnut Street, Burlington, Wis.

The many convincing testimonials constantly published in the newspapers ought to be proof enough to women who suffer from those distressing ills peculiar to their sex that Lydia E. Pinkham's Vegetable Compound is the medicine they need.

This good old root and herb remedy has proved unequalled for these dreadful ills; it contains what is needed to restore woman's health and strength.

If there is any peculiarity in your case requiring special advice, write the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass., for free advice.

NOTE AND COMMENT

Harrison Review—This is the season when the fellow who has been joy-riding all summer would like to trade his driver for two or three tons of coal—but it can't be did.

Let our political organizations bury the hatchet and merge. The boys who are bleeding for us in the trenches of France and Flanders demand this, and the people of Canada should know no other mandate at this time.

Theodore Roosevelt—Our boys are fighting abroad with the allies so that they will not have to fight at home without allies. No man should wave a flag, sing a patriotic song or cheer unless he is willing to help out. He should shoot the way he shouts.

A new scale of charges for farm tractor help will shortly be announced by the Ontario Department of Agriculture, which has 135 tractors at work on the farms of the Province. It has been suggested that instead of charging a flat rate per hour it might be better to charge a flat rate per acre in addition to so much per hour. Also a bonus for the operators is suggested, based on efficiency. At present the Government charges 45 cents an hour and the farmer supplies the fuel and lubricator oil. The proposed new charge is 25 cents an hour, plus 80 cents per acre. The objection to this is the difficulty of fixing a price per acre on account of the difference in the nature of the soils in various sections of the province.

Worms cause fretfulness and rob the infant of sleep, the great nonnisher. Mother Graves' worm exterminator will clear the stomach and intestines and restore healthfulness.

WE MUST FIGHT ON.

Those naval gunners who fired on neutral women waving white flags of distress are typical Prussian butchers. It is to render powerless such men as these that the allies fight. Far better that we should all die than that a spirit which prompts such fiendish acts be allowed to triumph. Prussianism—reeking with blood and horror—must be crushed forever before the earth will be safe for democracy. As Mr. Lloyd George pointed out, a peace now, on Germany's terms, would mean but an armed truce ending in an even more frightful struggle.

The man who talks of peace at this time, counsels the world's suicide. Peace now would mean triumph for Germany. The kaiser is a winner so far as the map is concerned. He is holding more territory than he can look after and peace is the thing nearest his heart. Victory stares the allies in the face—but our best effort is required to achieve it. Germany is weakening but still strong. We must be strong to defeat her.

Food Controller's Hints

Canadians who are willing to follow the advice of the Food Controller in order to help to save urgently-needed wheat flour, beef and bacon for the soldiers, will find a considerable number of wholesome substitutes.

To save wheat flour, barley may be used for soup and barley flour for thickening; corn meal for bread and cereal; oatmeal for cereal and oat muffins. Potatoes may be used in a variety of appetizing dishes—and when they are served bread may sometimes be omitted from the meal. At present the price of corn meal is high, but the new crop in the United States is very large and will be coming on the market soon. The question of price has to be carefully considered by the great majority of people, but those who can afford to do so should substitute in part other cereals for wheat even if the price of the substitutes should be higher.

For meat, fish is a peculiarly suitable substitute because of the variety available and the abundant sources of supply in the Dominion. Beans have nearly the same food values as meat. By a careful selection of other foods the consumption of meat may be very considerably reduced, especially by persons who are not engaged in heavy manual work.

And remember, the primary reason for urging saving of wheat flour, beef and bacon is not economy in cost, but that the soldiers may be supplied with the food which they need.

Girls For Turkish Harems

Dr. Pasitch, Serbian Premier, at the recent Allied Balkan conference, confirms Bulgarian atrocities—what Bulgarians could not invent their German masters taught them: "To show the sufferings of the unhappy Serbs who are in the enemy's hands, I would tell you of two instances of barbarity. The enemy has deported 8,000 Serbian girls about ten to fourteen years of age to the harems of Constantinople. Besides this, a short while ago our troops found on Bulgarian prisoners copies of an order from the Bulgarian War Minister with reference to the Serbian troops who have been forcibly recruited for the Bulgarian army. Should any of these men try to desert, said the order, they should not only be shot, but also their homes and families should be completely destroyed."

The United States Geological survey has estimated the amount of rock phosphate in the known deposits in Idaho, Utah, Wyoming and Montana at nearly 5,500,000,000 tons.

Economy in Food Should be Practised by Everybody

Do not waste a slice of bread. There is an old saying, "Many a Mickle muk' a muckle," and, if there are many individual savings the total gain will be great. Do not be too proud to notice whether anything usable is being wasted; do not be too proud to use odds and ends which might, otherwise, be cast into the garbage can. In Chicago, recently, the garbage was reduced from 400 loads per day to 200 loads a day due largely to the preachments of economy. Economy in the use of food stuffs should be practised by those who live in the country as well as by those who dwell in the towns and cities. Get the real vision of economy and put it into daily practise. Every individual must realize the food shortage in all its magnitude and he must realize what want and famine would mean and then he must put every effort to prevent it. Do your part. In this matter prevention is a thousand times better than cure. Eliminate all waste in your household.

America's War Part

Sixteen military cities, the cantonments for the new national army of the United States, each with a housing capacity for forty thousand men, have been built, or nearly built, in four months, and all of them to the last degree sanitary and fitted for the comfort of the troops and for the business of putting them in shape to go abroad. Almost as many more tent camps have been equipped for the troops taken into the Federal armies from the States. Each cantonment site covers a thousand acres of land. There will be seven hundred wooden buildings in each, requiring 25,000,000 square feet of lumber, 7,500 doors, 37,000 window sashes, tons of cement and stone for road making, a water supply of two and a half million gallons a day, complete street, sewer and lighting systems, ice plants, heating plants, hospitals, bakeries, and a fire department. Multiply those figures by sixteen in order to get an idea of the work of the War Department in providing for a part of America's army before it leaves this country to fight.

Killing Swedish Cattle

The number of cattle in Sweden has been reduced by approximately 15 percent., owing to the anticipated scarcity of stock food in the winter. Steps are being taken for salting and packing beef. The Government has licensed the exportation of 5,000 head of cattle to Norway or Finland, but not to Germany. The Government scheme for cutting and transporting wood promises to be fairly successful in meeting the expected fuel shortage. Lack of sufficient fuel arises from the fact that Germany is withholding four-fifths and Great Britain virtually all of the usual coal exports to Sweden. The splendid boulevards of the Swedish capital are half covered with huge piles of wood for winter consumption. All other available open spaces are being used for storage purposes.

Barefooted Officials

Something entertainingly original comes at length from Kaiserland. The Burgomeister of Mannheim, zealous for the war aims of the Fatherland, has issued a municipal by-law requiring all Staat Halle officials to work without boots and to perform their duties in bare feet, girl clerks and women employes alone excepted. The Mayor, in informing his staff, announced, "Owing to the shortage in leather, and the high cost of fabrics, this order is law. Your wives and families will thank me for helping them to economize in these war times."

He who pursues two rabbits will succeed in catching neither.

Since the discovery of tin in Alaska in 1902 nearly 1,000 tons of the metal have been produced and it is believed that this year's yield will be 300 tons.

To help a locomotive fireman with his work a New York inventor has patented a vibrating pusher that moves coal from the back of a tender toward the front.

European investigators have found that partridges eat the seeds of many noxious weeds and insects destructive to plant life, therefore, are deserving of protection.

Sections of an English inventor's double cooking boiler fit so tightly that their contents get the full benefit of the steam, explosive being prevented by a safety valve.

Simple Simon

(A Knickerbocker Tale.)

Once upon a time Simon seated himself on a stump beside his bed in the wilderness and was about laughing himself to death—in fact, he couldn't help laughing—and laughed so much that Jupiter saw the danger and agreed to don the garments and similitude of a man and question Simon as to the nature of his malady. He appeared unto Simon and said, "Simon, why laughest thou?" Simon replied that he had been con-

verted to God and could not help laughing at the iniquities of his brothers. Thereupon Jupiter rebuked him and said, "Take thy hod, Simon, thinkst thou to save a brother by laughing over his infirmities? 'Twere better to weep than to laugh over such calamities, and better still to work and save." MORAL: How many Simple Simons there are in every community who laugh over the frailties of others and who expect to go to Heaven without accomplishing any good results in this world!

from the bow and imbeds itself in the bull's-
eye—

So have the Maxwell builders fixed a price
for their product—\$1045—which makes it pos-
sible for them to say:

"Below this figure there must be something
lacking which we have put into the Maxwell—
efficiency, durability, economy, comfort, beauty
or standard equipment.

—and above this figure we could give you
no greater practical utility—only larger size or
richer and fancier furnishings."

This is the scientific fact—proved and de-
monstrated by one of the giants of the motor
car industry in years of production on an im-
mense scale.

And we stand firm on this finding of the
Maxwell builders.

We believe the Maxwell to be the BEST
MOTOR CAR INVESTMENT possible today.

YOUR OWN PERSONALITY.

Preserve It and Be Yourself and Not
Somebody Else.

How hard do you fight to hold on to
your personality?

You are willing to fight to save the
money you have earned, to hold your
job or to get a better one. You fight
to keep your external possessions, but
do you fight to keep yourself?

Without a personality, an individual-
ity, it is impossible to achieve any
great success, no matter how success-
ful you may appear for a time. The
success that comes from having some
strong man's personality working
through you is not permanent or genu-
ine.

When Napoleon was fighting Aus-
tria in 1797, on the very soil where the
Italian battle lines stretch today, he
discovered that his own future depend-
ed on the overthrow of the royalist
party back in Paris. He sent a young
officer named Augereau to Paris to ac-
complish a revolution. Augereau suc-
ceeded in bringing about what Napo-
leon desired. But neither Napoleon
nor history has ever given Augereau
any credit. He deserved none. It was
Napoleon, working through Augereau,
who overthrew the royalists. Augereau
lacked personality, individuality.
That is why Napoleon chose him as a
tool.

Trilby, singing under the spell of
Svengali, entranced her hearers; but,
with Svengali's influence gone, she was
the same unsuccessful, lonely Trilby.
Svengali chose her as a victim of his
influence because her personality was
not strong enough to resist him. He
stole her personality, just as he might
have stolen her little money or her old
blue military coat.

Dr. Johnson was so strong a char-
acter that he unwittingly overwhelm-
ed Boswell, and Boswell spent the re-
mainder of his life tagging around
after Johnson, worshipping him and
writing down all he said.

But the Napoleons, the Svengalis and
the Dr. Johnsons are not the only in-
fluences in this world that rob us of
ourselves.

For you the world is really divided
into two parts. One part is the multi-
tude; the other part is you. The multi-
tude tries to take away your individ-
uality and make you part of itself. If
it succeeds your life is bound to be a
failure, for there can be no success for
the young man or young woman who
permits the multitude to absorb him.

Your personality is really all you
have in this world.

If you think the mob's thoughts or
let the mob think yours, if you live the
mob's life and have the mob's feelings,
you don't own anything. There isn't
any you.

As you look yourself over are you
permitting anything to crowd you out
of yourself?—W. G. Shepherd in Wash-
ington Star.

More Birds, More Food.

If the eastern states alone could
bring back the quail, the rose breast-
ed grosbeaks and other bird benefac-
tors they would save \$15,000,000 a year
in the price of materials used to kill
potato bugs.

Charles F. Shoffner of the Liberty
Bell Bird Club made this statement at
a luncheon at the Poor Richard club.
He made a plea for the birds as a
means of conserving the nation's food
resources.

"If Pennsylvania had but one pair of
robins to the acre," he said, "the birds
would consume 3,000 tons of insects a
day. The nation loses \$1,000,000,000
a year through ravages of insects
which the birds can eliminate. One
way to increase the crops is by bring-
ing back the birds."

Liberty and Independence.

When the presidential struggle be-
tween Clay and Jackson was at its
height it is related that a band of
emigrants from Kentucky and the then
other western states commenced to
settle on the north side of the Missouri
river and called their county Clay and
the county seat Liberty.

At the same time another lot of em-
igrants from Virginia and other south-
ern states pitched their tents on the
south side of the Big Muddy and called
their county Jackson and the capital
Independence. And so it remains to
this day. Clay stood for Liberty and
Jackson for independence.

Submarine Ridges.

The Norwegian sea is separated from
the North Atlantic by what may be
regarded as a continuous ridge run-
ning from Greenland to the British
islands plateau, of which Iceland and
the Faroe islands are emergent portions.
The Mediterranean is cut off from the
North Atlantic by a ridge at the Strait
of Gibraltar, over which the greatest
depth is only 175 fathoms, with steep
slopes on either side.

Frostproof Corn.

Department of agriculture experts in
Washington are trying to develop a
frost proof variety of field corn. They
say they are hopeful of early success.
Plants have already been developed
which have resisted cold which froze
soil to a depth of two inches.

Put Less Tea in the Pot

Because it chiefly consists
of the Assam teas of
Northern India, the
strongest and richest in the world, less Red
Rose is required in the tea pot.

Where four or five spoonfuls of ordinary tea are
required just use
three of Red Rose.

And Red Rose
tastes better.

AIMING A BIG GUN.

**A Task in Which Figure Chemistry,
Mathematics and Physics.**

Today there is about as much differ-
ence between aiming a big gun and
aiming a rifle as there is between sail-
ing a superdreadnaught and sailing a
steam yacht. It was not very long ago,
however, that a gun was aimed simi-
larly to a rifle in that the direction in
which it was pointed was obtained by
sighting along its barrel.

But now things are not done that
way. The gunners are often far out of
sight of what they are shooting at, and
the remarkable hits that they make
are only explained by the use they
make of careful scientific calculations.

To direct the fire of one of the bigger
guns, for example, requires that no
less than fifteen complicated correc-
tions be made, says Popular Science
Monthly. Each correction requires an
average of five adjustments, all of
which must first be exactly figured out
by those in command. The most im-
portant corrections which are made
are for the influence of the resistance
of the air, the influence of the earth's
curvature and the attraction of gravi-
ty on the distance the bullet may be
carried.

In place of the guesswork of previ-
ous times is the use of the most ad-
vanced developments in the fields of
mathematics, physics and chemistry.

A Simple and Cheap Medicine.—A
simple, cheap and effective medicine is
something to be desired. There is no
medicine so effective a regulator of the
digestive system as Parmelee's Vegetable
Pills. They are simple, they are cheap,
they can be got anywhere, and their
beneficial results will prove their recom-
mendation. They are the medicine of
the poor man and those who wish to
escape doctor's bills will do well in giving
them a trial.

WATFORD, NOVEMBER 9, 1917

WARWICK

Mr. and Mrs. Henry Vance left last week on an extended visit to their son in Minnesota.

W. H. Luckham attended the funeral of Mrs. John Martin in Alvinston on Friday of last week.

Service will be held at Bethel Church next Sunday afternoon at the regular hour instead of in the evening.

Gunner C. F. Luckham, 64th Battery, is being invalided home, having been ill in England most of the time since going overseas last June.

Mrs. Les. Kenzie returned home from London last week, where she remained a few days with her mother, Mrs. Joseph Hall, who underwent an operation at St. Joseph's Hospital.

Mr. C. R. Williams is in St. Joseph's Hospital, London at present having cataracts removed from his eyes. At last report his condition was favorable. All wish Mr. Williams success and a quick recovery.

The Willing Workers of the Red Cross Society, 4th line east, met at the home of Mrs. J. J. Kadey on Thursday, Nov. 1st, and completed and packed two bales; one containing 18 pyjama suits valued at \$36.00, and the other 34 pairs of socks. The August bale packed at the home of Mrs. Millar consisted of 22 pyjama suits valued at \$38.50.

A meeting of the Women's Patriotic League was held at the home of Mrs. O. Tanner, Main Road, on the afternoon of Wednesday, October 31st. There was a large number of ladies present and a nice lot of work was finished. After the meeting a sale was packed, which contained the following articles:—20 grey shirts, 15 pyjamas, 24 pillowslips, 12 trench towels, 12 towels and 60 handkerchiefs. Value \$32.81. Also 43 pairs socks were sent to Toronto. The next meeting will be the usual annual meeting which will be held at the Rectory, Warwick Village, on Wednesday, Nov. 14th, at 2 o'clock. Members of other societies are cordially invited to be present.

The New House of Commons

The new House will have fourteen more members than has the present House. Most of this increase will come from the Northwest.

The provincial representation in the present and in the next House of Commons is thus shown:

	Present House	Next House
Ontario	86	82
Quebec	65	65
Nova Scotia	18	16
New Brunswick	13	11
Manitoba	10	15

CHOP STUFF

Mrs. Geo. Karr, of Forest, had a paralytic stroke last week.

The Petrolia Hydro debentures, bearing 6 per cent. interest, sold at 99.

A Dover township man was fined \$5 and costs for shooting ducks on Sunday.

Dr. Calder, of Petrolia, has sold his medical practice to Dr. White, of Whitechurch.

The Village of Dresden raised \$904.17 for the British Red Cross, 67 cents more than last year.

Several cases of black quarter are reported among young cattle in the vicinity of Melbourne.

Forest has a Union Government Association. H. Fraleigh is president, R. G. Bailey secretary and P. W. Campbell treasurer.

Miss Roberta MacAdams, elected by Canadians overseas to represent them in the Alberta legislature, will spend Christmas at her home in Sarnia.

Rev. Capt. J. M. Macgillivray has been appointed Chaplain of London Camp and will take up his new work as soon as his successor is sent to relieve him of his duties as military representative of the Bridgen Tribunal Board.

Fleming—Cameron

The residence of Mr. and Mrs. Samuel Cameron, fourth line, S.E.R., Warwick, was the scene of a quiet event on Wednesday, October 31st, when their eldest daughter, Mary E., was united in marriage to Alexander W. Fleming, only son of Mr. and Mrs. Peter Fleming, of the 2nd line, Warwick.

The wedding march was played by Miss Flora Merrison, of Sarnia, the bride given away by her father, and the ceremony performed by the Rev. J. C. Forster, of Watford, in the presence of the immediate relatives and a few friends.

After supper the happy couple were accompanied to the depot and departed on the westbound train for Sarnia amid a shower of rice, confetti and good wishes.

On their return Friday evening a reception was held at the home of the groom's father, when about thirty of their neighbors assembled and were served to a fowl supper after which a social evening was spent.

Mr. and Mrs. Fleming will reside in their cosy new home on the second line, S.E.R., Warwick.

The Ladies of Hell

Because they wear kilts the Highlanders have been called by the Germans "The Ladies of Hell." But that this term conveys no disrespect to the Scottish fighting man may be judged from the following poem in London Answers:

There's a toss of the sporrans,
A swing of the kilt,
And a screech frae the pipers
In blood-stirring lilt;
They step out together,
As the pibroch notes swell—
Oh, they're bonnie braw fighters,
The Ladies of Hell.

They are far frae the heather
And far frae the moor,
As the rack of their hillside
Their faces are dour.
Oh, "The Campbells are coming"
Frae corrie and fell—
What thrill to their slogan,
These Ladies of Hell.

As they charged at Culloden
Like fire o'er the brae,
Their brothers are charging
In Flanders to-day,
And one lesson in manners
The Boche has learned well:
It's "Make way for the Ladies!"—
The Ladies of Hell.

Passing themselves off as Dominion Government officers, two men have been visiting places in the western part of the Province, entering homes, claiming they are to find out how much preserves and other articles are being stored. In Parkhill they brought a wagon and removed a lot of stuff. The superintendent of provincial police has been instructed to try to capture the thieves. They are not Government officials at all.

SMART STYLES in young men's suits. Pinch back and trench styles.—SWIFT'S. In considering Canada's new Victory war loan, the campaign for which is now beginning, the 5 1/2 per cent interest which the bonds will yield should be kept prominently in mind. Their purchase is in no sense a sacrifice. It is a profitable investment and has the additional merit of helping the country.

THE election proclamation for East Lambton was issued on Nov. 7th, by Returning Officer W. E. Fitzgerald. Since part of Kent County has been added to East Lambton for electoral purposes the riding covers a large area and contains no less than 94 polling subdivisions, some 40 more than before the change.

IT is only reasonable and logical that if men can be forced to fight for their country, as is the case under the Military Service Act, they can be forced to work for it. It may take a little longer for this to burn into the thoughts of the Canadian public, but when it does there will probably be no more strikes in war time.

LAMBTON COUNTY'S share of the new Victory Loan has been placed at \$1,000,000. This amount, while startling, is not so formidable as would appear at first sight. We have in this county 5,000 farmers. If each farmer will subscribe for \$100, and many will take more, half the amount will have been subscribed. Apart from the investment feature of the loan it is a patriotic duty to subscribe for as much of the loan as possible.

UNDERWEAR for big men, heavy stock, large sizes.—SWIFT'S.

ALL Christmas parcels intended for soldiers overseas must be in the post-office before November 15th or they will not reach the men at the front until after Christmas. Postoffice officials wish to impress upon relatives of soldiers the necessity of sending in parcels as early as possible, if they wish them to reach France before Christmas. It will not be known exactly when Christmas mail will be sent to England, and because of this all parcels should be in early, preparatory for an unexpected shipment.

IT is well to sound the slogan, "Do your Christmas shopping early," as it affects the Canadians overseas. Not many days remain before the last mail will leave for England that will carry gifts in time to reach the soldiers by Yuletide. The shops are already feeling the impulse of this trade and preparing for it by providing convenient collections of articles that best fill the wants and hopes of those who are just entering upon another long and severe winter campaign, and no soldier should be unremembered.

IT is a long lane that has no turning. "Col." Macklem, who a couple of years ago went through this part of the country posing as the inventor of a wonderful gun and hand grenade which had saved the British Government millions of money, has been exposed as an impostor and is now under arrest at Detroit. It will be remembered that the gallant "Colonel" visited Watford about four years ago, and swindled some of our people by bogus cheques. On being given the third degree by the Detroit police, he admitted being an impostor.

MESSRS. W. S. FULLER and Jos. The board sits from 10 to 12 and from 2 to 6 each day. Lieut.-Col. Kenward has been appointed Military representative to the board and will have the duty of appealing all cases of exemption which do not meet with the instructions given him. Col. Kenward will not be a member of the board but will act only in the capacity of counsel for the authorities.

A TELEGRAM was received by Mr. Robt. Auld announcing the death on Tuesday morning of his niece, Miss Jean L. Ross, eldest daughter of Mr. and Mrs. Ed. T. Ross, of Port Arthur. Miss Ross underwent an operation about five months ago, and since then gradually failed in health. She was in her 23rd year. She is a grand-daughter of Mr. D. M. Ross, of Watford.

THE Minister of Education has given notice that after August 1920 the academic qualification for a High School assistant shall be a university degree. Holders of first-class certificates will not be able to teach in a High School except under special circumstances. It would appear that no matter what the teaching ability of one with a first-class certificate he will be excluded from teaching in the higher forms. The next step will be the abolishment of second-class certificates for public schools.

FIFTEEN thousand enumerators will have to be appointed before the next general election in Canada. In every polling sub-division throughout the country there will be an enumerator to check the voting list, and to add the names of female relatives of soldiers entitled to the franchise under the war elections act, and to strike off the roll the names of disfranchised aliens. W. E. Fitzgerald, the returning officer for East Lambton will appoint the enumerators for this riding.

THE casualty list on Tuesday contained the name of another Watford boy, Corp. Clarence L. Gibson, eldest son of Dr. and Mrs. Gibson, of Moose Jaw, who died in a base hospital in France from wounds received on the firing line. He enlisted in the 22nd Battalion at Moose Jaw and got his training before going overseas at Camp Hughes, Manitoba. He was born in Watford and spent his early years with his parents some eight years ago. As a boy he had many friends among his fellow students. After leaving school he spent a few months in Taylor's drug store. He paid a visit to Watford in September of last year and spent several days with Mrs. T. Woods and other relatives. His parents and members of the family have the deep sympathy of numerous friends and acquaintances in Watford and vicinity. His manly bearing and deep sense of his duty to God and man gained for him the esteem of all who knew him.

FINAL NOTICE

To those that up to date have failed to call and settle for accommodation supplied in connection with the Roche House, we would again call their attention to the many years that they enjoyed the free use of the above. It would be absolutely unfair to our friends, that are many, and who we sincerely thank for their prompt response, if we should allow them to be crowded out by those who are trying to deadhead their way through. We will not allow it. There will be no favorites. We have the names of all that have paid and those frequenters that have not. Keep yourself in good standing; have your name enrolled at once. High School Notes

The opening address in vocational work will be given in the High School at 3.30 o'clock Friday afternoon, by Rev. Mr. Tiffin, Pastor of the Methodist church, on the subject "Choice of a Calling." The work invites the clergy, men of other professions and mercantile men to co-operate to advance the national interests and is under the patronage of the Prime Minister of Ontario and the Ontario Educational Department. The public are invited to aid this work. Watford High School Nov. 7th, 1917.

"MAGIC DATE" IS NOVEMBER TENTH

Ottawa, Oct. 31.—In Canada, no future date in the calendar looms more important to thousands of people than "November 10" next. That is the last day for reporting for service or sending in claims for exemption under the Military Service Act.

Severe penalties are provided for failure to report for service or send in a claim for exemption by November 10. Besides a term in jail, the offender loses his chance to appeal for exemption and is automatically drafted into service after paying his penalty.

Since everything possible has been done to acquaint the first class called with the facts, that they must report for service or claim exemption by November 10 or else suffer severe penalties, very few if any laggards are expected to remain for rounding up after the "magic date."

The bean growers in the Blenheim district lost a large portion of their crop by frost and wet. Some of them are heavy losers.

The Military Service Act, 1917

DON'T DELAY!

Do It TODAY

THE MILITARY SERVICE ACT is passed; the Proclamation issued October 13th. It is now the bounden duty of every man in Class One to report for service or claim exemption. This includes all bachelors and widowers without children (not otherwise excepted) who were 20 years old on the 13th October, 1917, and whose 34th birthday did not occur before January 1st, 1917.

What To Do

Go to your Post Office and ask for the form for reporting for service or for claiming exemption. The form contains clear instructions for filling in. Do this not later than NOVEMBER 10th.

Beware of the Last Minute Rush

With so many thousands of reports and claims to be dealt with, the rush of Class One Men will grow heavier day by day. You will waste less of your time and serve your own best interests if you avoid the inevitable rush on the last days.

The law is being enforced with the Government and the People firmly behind it. Obey the law. Do it today.

METAL FILLINGS IN TEETH.

The Use of Different Materials Do Not Cause Electrolysis.

Among dentists there is a difference of opinion as to whether the filling of two cavities in one tooth with different metals—one with mercury amalgam, one with gold, for instance—will cause rapid decay of the tooth through electrolytic action between the two metals. The matter was submitted to the editor of the Electrical Review, who replies that if the amalgam is thoroughly mixed there is no danger of electrolysis, but that if the mercury be not properly incorporated in the mass chemical action is quite likely to follow. He says that he and a dentist experimented with voltaic piles made of gold and amalgam, with blotters wet with sodium chloride and later with acetic acid, and when the amalgam had been properly mixed they were unable to measure any electrolytic action.

When decay does follow in such cases, he says, it is due not to electrolytic but to chemical action. This causes disintegration of the filling, and, of course, as soon as this has begun the acids of the mouth and the juices of the food can penetrate to the unprotected surface of the cavity and start further decay. And this takes place irrespective of whether or not gold has been used near by.

IT'S AN ILL WIND.

When It Comes Out of the East It Bears an Evil Repute.

No one has a good word for the east wind. In whatever part of the world it blows it is of ill repute, and this evil name began in old times.

At least one of the plagues of Egypt came on the wings of the east wind. "The Lord brought an east wind upon the land . . . and when it was morning the east wind brought the locusts." "Thou, Lord, breakest the ships off Tarshish with an east wind," cries the psalmist. "I will scatter them as with an east wind before the enemy" was the word concerning Judah that came to Jeremiah from the Lord. "Thus saith the Lord God" of Jerusalem, according to Ezekiel: "Shall it not utterly wither when the east wind toucheth it?" "And the east wind dried up her fruit," says the same authority, speaking again of Jerusalem.

Thus the stigma has come down the centuries. "Wind of the clinging mist and gray, harsh rains," a modern poet calls it.

Good old Isaac Walton knew its malefic influence when he wished, for the honest angler, that the east wind might never blow when he went fishing.

Animal Sentries.

Man is not alone in using sentries to guard him from danger. Birds and animals have been doing this for countless ages. Every gunner who knows anything about hunting geese is familiar with the fact that if he is to be successful he must always evade the wild goose picket.

Most birds that congregate in flocks, particularly in winter, always put a picket on guard. The golden plover is an example of this. The British starlings conduct their movements on military lines.

The beaver always posts a picket on guard, and that probably accounts for the reason that so few are ever seen, although their work is much in evidence. Sentries of the wild are often killed "doing their bit."

Evidence Required.

The editor of the local paper believed that he was doing a kindly act by suppressing from the list of "drunk and disorderly" on market day the name of a country subscriber that by rights belonged there. The subscriber, however, did not regard the omission as a favor.

"I suppressed your name for your wife's sake," the editor politely explained.

"Well, that's the awkward part of it," the farmer said, "for, not seeing my name among the rest, she won't believe I came to town at all."

Her Self Sacrifice.

"She's awfully self sacrificing."
"How do you make that out?"
"Well, she stayed at home from church Sunday to sit up with a sick woman."

"Huh! She isn't a regular church-goer. I don't see anything self sacrificing in that."

"You don't? But, my dear, she had a new gown and a new hat that had just arrived Saturday night."—Cleveland Plain Dealer.

Externally or Internally, It is Good.—When applied externally by brisk rubbing, Dr. Thomas' Electric Oil opens the pores and penetrates the tissues as few liniments do, touching the seat of the trouble and immediately affording relief. Administered internally, it will still the irritation in the throat which induces coughing and will cure affections of the bronchial tubes and respiratory organs. Try it and be convinced.

EDISON IS AN INVENTOR.

And That, He Claims, is Very Different From a Discoverer.

Thomas A. Edison has always disliked the term "discoverer" as applied to himself. "Discovery is not invention," he once remarked to an intimate associate. "A discovery is more or less in the nature of an accident. A man walks along the road intending to catch a train. On the way his foot kicks against something and, looking down to see what he has hit, he sees a gold bracelet imbedded in the dust. He has discovered that, certainly not invented it. He did not set out to find a bracelet, yet the value of it is just as great to him at the moment as if, after long years of study, he had invented a machine for making a gold bracelet out of common red metal.

"Goodyear discovered the way to make hard rubber. He was at work experimenting with india rubber, and quite by chance he hit upon a process which hardened it—the last result in the world that he wished or expected to attain. In a discovery there must be an element of the accidental, and an important one, too, while an invention is purely deductive.

"In my own case but few, and those the least important, of my inventions owed anything to accident. Most of them have been hammered out after long and patient labor and are the results of countless experiments, all directed toward attaining some well defined object.

"All mechanical improvements may safely be said to be inventions and not discoveries. The sewing machine was an invention. So were the steam engine and the typewriter."

HAITI CLEANS HOUSE.

Changes That Were Brought About by the American Occupation.

Five years ago in Haiti there was on the whole island not more than one mile of macadamized roadway, and the new streets, taking the place of combination trails and sewers, are the most noticeable changes brought about by the American occupation.

But more remarkable than the streets is the astonishing sight of squads of Haitians actually cleaning the streets. Under the old regime the chief occupations of the male citizens of Haiti were cockfighting and politics.

The refuse and smells have departed, and, better still, most of the children have disappeared from the streets. They are actually at school, where by Haitian law they are supposed to be, but where by Haitian lawlessness only about 10 per cent of them ever used to be.

About 4 o'clock every week day you will see this newly mobilized infantry coming home in squads clean and, unfortunately for the picturesque value of Haitian highways and byways, now thoroughly provided with clothes.

Humor Found Everywhere.

Among those pre-eminently gifted with humor were Abraham Lincoln, Disraeli, Goethe and Heine, the late Lord Salisbury, Arthur Balfour, Dickens, Thackeray, Fielding, Shakespeare, Queen Elizabeth, Henry VIII., Charles II., Dr. Johnson, Charles Lamb, Emerson and Byron. The only persons who lack it altogether are madmen. Criminals as a whole are never without it. There is the case of one murderer at the bar in London who on being asked if there were any reason why sentence of death should not be passed upon him replied, "No; I am disgusted with the whole proceedings." Another in a similar situation on being asked whether he had a last request to make said, "Well, I should like to learn to play the piano."—Sir Herbert Beerbohm Tree.

Pleasures of Irritability.

Learn how to be irritable. When any one says anything to you always imagine he is trying to insult you. Few appreciate the innocent enjoyment to be had in snapping and snarling at those we meet through the day. Have things get on your nerves. If things get on your nerves you will find it an easy matter to be sour and surly. After awhile you will find that most anything gets on your nerves, especially people who are happy and cheerful. The idiots! Some people are born irritable, others acquire it, and they all speedily have curses cursed upon them.

Torpedoes From a Submarine.

The torpedo from a submarine can be fired either while the submarine is on the surface or completely submerged. Usually a submarine comes within ten feet of the surface, with only the periscope showing, and discharges its torpedo. If there is danger of the submarine being fired upon by the ship the submarine gets the proper position of the ship, submerges itself completely and then fires.

Many a man thinks himself a genius because he lives by his wits.

Many lives would be a great deal sweeter if they were not quite so sugary.

Praises this Asthma Remedy. A grateful user of Dr. J. D. Kellogg's Asthma Remedy finds it the only remedy that will give relief, though for thirteen years he had sought other help. Years of needless suffering may be prevented by using this wonderful remedy at the first warning of trouble. Its use is simple, its cost is slight and it can be purchased almost anywhere.

NEW STRENGTH FOR LAME BACK!

Letter Told of Long-looked-for Prescription.

Dear Mr. Editor—I suffered from lame back and a constant tired, worn-out feeling. At times I was unable to stand erect and scarcely able to get around. It would usually come on at first with crick in small of my back. I took one box of Dr. Pierce's Anurie Tablets and my back commenced to get better soon after starting to take them. I did not have to walk doubled over as I did before using the "Anurie." It is the best remedy I have ever taken for what it is intended to relieve.

I hope those who are in need of such a remedy will give the "Anurie Tablets" a trial.

(Signed) A. G. DRAKE.

NOTE: Up to this time, "Anurie" has not been on sale to the public, but by the persuasion of many patients and the increased demand for this wonderful healing tablet, Doctor Pierce has finally decided to put it into the drug stores of this country within immediate reach of all sufferers.

Simply ask for Doctor Pierce's Anurie Tablets. There can be no imitation. Every package of "Anurie" is sure to be Doctor Pierce's. You will find the signature on the package just as you do on Dr. Pierce's Favorite Prescription, the ever-famous friend to ailing women, and Dr. Pierce's Golden Medical Discovery, proven by years to be the greatest general tonic. Send 10 cents to Dr. V. M. Pierce, Buffalo, N. Y., for large trial package.

At any rate don't give up hope of being cured of your malady until just a few doses of "Anurie" have proven that it will make you feel like a different person.

Gin Pills FOR THE KIDNEYS SUCCEEDED

Where Travel and Change of Climate Failed to Restore Health

Hamilton, Ont., Apr. 10th, 1917.
"About four years ago I wrote you of my condition from Muscular and Inflammatory Rheumatism and Kidney Trouble and my efforts through travel and change of climate to rid myself of these unwelcome guests, and how I only found relief in Gin Pills after spending a lot of time and money in foreign lands.
"Since then Gin Pills have been my sheet anchor. I find in advancing years a tendency of the kidneys to get out of order more easily than formerly but a few doses of Gin Pills puts them right and wards off other and more serious trouble. When I remember what I endured through Kidney Trouble and Rheumatism and the freedom from these which I now enjoy, I feel it not only a duty but a pleasure to recommend Gin Pills for Kidney and Bladder Troubles to my thousands of personal friends throughout Canada to whom I am well known as a commercial traveller of over forty years' active service."
(Signed) W. G. REID.

Gin Pills sell for 50c per box or 6 boxes for \$2.50 at all good dealers. Sample free if you write to National Drug & Chemical Co. of Canada, Limited, Toronto; or to United States address, Nat. Drug Co., Inc., 202 Main St., Buffalo, N. Y.

Children Cry FOR FLETCHER'S CASTORIA

"THE 161"

NOTE:—When Lambton's 149 Battalion was broken up at Bramshott the Band and practically half the Battalion were transferred down to Witley to reinforce the Huron's 161. So a great number of Watford boys are with this unit. The places mentioned are the sites of numerous "battles" enacted while in training there.

Did you ever hear the story of the famous Light Brigade? I know a new Battalion that can put them in the shade! The engagements they have entered and the battles they have won will uphold, for aye, the glory of the famous One-Six-One.

This Overseas Battalion, whose men are always blithe, commenced their war proceedings when they charged the range No coward-like complainings can ever dim their lamp [at Hythe. Since they won the awful struggle with the mud at Sandling Camp.

And when they moved to Witley, still longing for a fight, they won honor in the trenches, where they bivouaced one night. To tell of their achievements it fairly makes me thrill, just to think of the engagement at Kettleberry Hill!

They won the day at Elstead, they fought at Witley Park, they chased the foe at daylight and captured him at dark, they attack in line formation just like a solid band and sweep across the country as they did at Frensham Pond.

To tell of Pepperharrow or the Henley Common fight would only make this story a little too long to write. These troops when in action show not a trace of fear, and they captured all the country from Camp to Haslemere.

They fought their way to Midhurst, and Fenhurst fell a prey, 'Twas the country that was traversed in a day; By military tactics and strategic movements made, These towns were soon surrounded and the enemy was laid.

By smart out-flanking movements we kept them on the dance, Nor could their puny efforts delay our great advance. We've the courage of conviction and we see their faces pale When they meet the big Battalion that was never known to fail.

We have taken bayonet fighting till our thrust is strong and sure, We have studied tricks of warfare and all hardships can endure, And now we fear no foe, no matter what his size, He soon becomes a victim and we take him as a prize.

We seldom lose a comrade, for all have taken gas, We are good at dodging shrapnel; but when we go on "pass" Then casualties are frequent, you meet them where you will! But all are cured with iodine or else an extra pill!

'Tis a famous new Battalion, and that you can't deny, We know the joy of living and we do not want to die. Some day we'll be returning, when our fighting all is done, And then, Hurrah for Glory, and the famous ONE-SIX-ONE.

REAL LIFE INSURANCE

Its Cost Is Simply the Price of the Prevention of Disease.

"Real life insurance," says the North Carolina state board of health, "is not the kind on which you have to pay annual premiums as long as you live in order to hold it or for your family or some one else to get the benefits only when you are dead. Real life insurance is that which insures you against death—preventable sickness and a premature departure from this world—and allows you to enjoy the benefits while you yet live. Furthermore, it promises you long life and a happy one, a healthy life and a prosperous one. It may be had by anybody, and, like other kinds of insurance, he who puts most in it gets most out of it.

"Real life insurance has its price. The adoption of correct living habits—moderate eating and drinking, regular work and play, plenty of rest in the fresh air and a disposition not to worry—is the price of a long, happy life, free from diseases of the kidneys, heart and arteries, the diseases that sneak in upon a man's life when he is not aware.

"Then there's another source of attack you need protection against—typhoid fever. Homes with pure water, screened doors and windows, clean premises free from flies and anti-typhoid vaccination is the price you pay for protection against typhoid. The price against malaria is whatever it takes to prevent mosquitoes from breeding and from biting you after they have bitten people with malaria.

"Security against tuberculosis, bronchitis, gripe, colds and pneumonia is to be had mainly at the great price of preventing people from spitting in public places. It is to be had also by living on friendly terms with fresh air day and night, by avoiding overheated homes or offices, by creating a resistance to cold by a daily cold water bath about the neck and shoulders and by proper living habits.

"After all, the prevention of disease is the price of real life insurance. If we invest liberally and wisely in the means and methods of preventing sickness we may expect handsome returns in a long, useful, happy life."

\$4 Saved Two Fingers

The fingers were those of Mr. J. W. Besnard, of 539 Craig St. E. Montreal. He says,—"A falling beam badly smashed my hand. Two fingers were so severely crushed that the doctors said they would have to be amputated. Naturally I didn't want this, so decided to try Zam-Buk first. I applied Zam-Buk daily, and by the time I had used \$4 worth, the injury was completely healed. My fingers were saved!"

Just another illustration of the healing power of Zam-Buk. Accidents will happen. It may be your turn next. Better get a box and keep it handy. Accidents are less frequent than skin diseases, and remember this—

Zam-Buk is just as good for eczema, ulcers, skin diseases, and piles, as for cuts, burns, bruises.

All druggists and stores 50c. box, or 3 for \$1.25. Refuse substitutes.

COMPULSORY SERVICE IS DEMOCRATIC

United States Adopted Conscription
Following Experience in 1863.

The United States has profited by its experience in the Civil War. In 1863, after the war had been raging for two years, Lincoln and his government recognized that the only fair means of raising troops to prosecute the war successfully was conscription.

The usual objections were made on the grounds of constitutional liberty but all determined opposition was put down. It was necessary to shoot a few here and there, but strong repressive measures by both civil and military authorities were applied and the measure was successfully enforced.

To-day the United States Government recognizes the selective draft as the only fair and democratic method of recruiting and by acting promptly is securing its aim.

The launching of the Military Service Act in Canada augurs well, and while repressive measures are provided, opposition is not expected.

Lambton Plans to Raise Million For Victory Loan

Sarnia, Nov. 4.—One million dollars will be Lambton's objective for the "victory" loan, it was announced here to-day by the Government representative L. M. Green. A strong organization has been formed, which will bring to every resident in the county the opportunity to invest in the new venture. An appeal is being made to every class, and it is expected that the people of the farming districts as well as the citizens of the towns and villages, will respond nobly. Arrangements have been made whereby the smallest investor may purchase a \$50 or \$100 bond on an instalment plan. Large employers of labor are arranging to give their employees an opportunity to invest in the bonds by deducting a certain amount each week from their pay.

The names of authorized canvassers are to be announced soon. Members of committees already drawn up are:

A WESTERNER'S RECOMMENDATION

By H. Milton Martin

I have no hesitation in recommending to every one that at least a portion of his funds be used for the purchase of CANADA VICTORY WAR LOAN BONDS. Whether it be \$50.00, \$100.00, \$1000.00, or more that one has in hand, there is no better way, in my opinion, of using this money than to purchase VICTORY BONDS.

Now is the time for all men and women who are dependent upon their savings for their livelihood to loan them to Canada and at the same time help themselves. Many of these have been unable to assist the various patriotic organizations because of their limited income. Now they may INCREASE their income and help Canada. It is not often that one can personally benefit by a patriotic act, and surely now that the occasion presents itself, no one should fail to take advantage of it.

The objective set by the Minister of Finance is \$150,000,000.00. Many uses are being made as to how much more will be subscribed. Let every one help, whether it be for bonds of small denomination or large ones. Let every one who has the power, purchase at least a \$50.00 bond and thereby assist in continuing the unobstructed use of the high seas, so that the products of our farms, mines and factories may be carried to our boys at the front; so that the farmers may be paid for their grain; so that every man employed may receive his wages; so that Canada may be maintained in the high esteem of all the Allies.

Let us show what we think of our democratic institutions by buying our own bonds, and last but not least let us show the enemy that we are in this war heart and soul and will be so until he is crushed, if necessary.

During the year 1918 the Farmers Sun promises to be more profitable and interesting to those engaged in agriculture than at any time during the past twenty-six years of its production. "News and Views from the Farm" by W. L. Smith, for twenty years one of The Sun's Editors, will continue this most pleasing and profitable part of the paper. The farm markets will be given extra and special attention by Mr. Crane and Mr. Thurston, while many others will contribute from week to week, topics of interest to those actively engaged in farm work. One dollar to 1st January 1919 is a small price for The Sun, a paper that has so long and faithfully served the farming interests. You cannot do better than subscribe at once.

It is alleged that the universal substitution of whole wheat bread for white bread all over this continent would result in a saving equal to an increase of 100,000,000 bushels in the year's harvest. If this is so, Canadian and American Governments might well unite in forbidding the use of patent flour for bread baking.
