TERMS:—\$2.00 per Year in Advance.

SINGLE COPIES FIVE CENTS

101 YEARS OLD AND STILL SPRY

Former Annapolis Royal Man Says He Never Was Sick That He Can Remember of.

(Halifax Herald)

Boston, June 1—James A. Rocheford, of 28 Harriet street, Brighton, Mass., arose Tuesday morning at 5 o'clock, built a fire in the kitchen range, prepared breakfast, washed the dishes and then, just because it was his 101st birthday, took a stroll over to Oak Square, as his custom is on these annual occasions, to "see the boys" and receive their congratulations.

"Never paid 10 cents for a doctor all my life," he declared to the Boston Traveller reporter who came upon him just as he was emptying the ashes from the range. "Never was sick that I remember of," he added.

New England's most remarkable patriarch is a term that aptly describes Mr. Rocheford. He's as spry as men still considered young; he worked as a carpenter up to six years ago, when his eyesight partially failed him; he remembers incidents of his boyhood as clearly as though they happened yesterday, and he is now looking for a house to reside in with space for a garden plot to take up his spare time and enable him to beat his record of last year, when he raised 22 bushels of potatoes and a lot of corn.

His "spare time" comes between his household duties, for he is housekeeper for "ma," his partially crippled 84 year-old wife, and his helpmate for the last 70 years, and a grandson, Paul S. Rocheford, who works in Boston.

And these duties consist of preparing all of the meals, washing the floor and doing the washing and ironing. He had just completed the ironing for the week when asked to tell something about his life.

He was born in Annapolis, Nova Scotia, May 28, 1820, the son of a British soldier, who was of French nationality, and a Scotch mother, presented her with a beautiful cameo brooch set with pearls, after which Mrs. W. A. Chesley, on behalf of B. Y. P. U., presented her with soup spoons of community plate. This was accompanied by original verses expressing appreciation of her efforts in behalf of the Union. Mr. A. B. Clark, with a few well chosen words, presented her with a purse of money from the Young Men's Choir. Miss Hicks expressed her thanks to all in a pleasing manner. After partaking of ice cream and cake the young people wished her much future happiness thus completing a very pleasant evening.

The schooner Esperanto was lost off Sable Island last week. She struck the engines of a submerged wreck and tore her bottom out. The crew are safe and have been landed at Halifax.

"I can't see as well as I used to," Mr. Rocheford said. "I can frame a house as well as I ever could, but I gave up when my one eye went back on me. I read about every day during the daytime, but I don't try to read at night. I go to bed about 10 o'clock every night and get up

BRITISH-AMERICAN YACHT RACES SOON

Cup Contest Series Will Be Divided Between The "Coves Week" and the "Ryde Week"

London, May 31—Considerable enthusiasm is being evinced in yachting circles over the plans that have been already made for the British-American cup contest which is to take place in the next few weeks.

The special committee have decided that a half dozen cup races shall be sailed—three in the world-famous Coves Week, and three in the equally popular Ryde Week. The six contests are to be divided between the following three clubs—the Royal Thames Yacht Club, and the Royal London Yacht Club.

As far as possible the races are to be included in the programme of these clubs on alternate days. It has been tentatively agreed that the dates shall be: Friday, July 29th, Royal Thames Yacht Club; Monday, August 1st, Royal London Yacht Club; Wednesday, August 3rd, Royal Yacht Squadron; Friday, August 5th, Royal Victoria Yacht Club; Wednesday, August 10th, Royal Victoria Yacht Club.

Subject to alternation, the cup contests will be held by the calling committee of the three defending clubs on the above-mentioned days. The American cup is to form a section of the programme of the day. In each case races are to be sailed on a special course, an extra race being held if necessary.

It has been suggested that the cup races should take premier position in each day's programme.

The race laid down by the International Yacht Racing Union will determine the time limit in which it is possible to sail the given distance.

All the yachts will be of the six-metre class, and are permitted to measure between 20 and 23 feet on the water line. The draft is limited to 16 cent. on the water line, plus 1.64 feet. Sail area may vary from 475 to 550 feet. For these craft the height of mast is restricted to twice the water-line length, measured from the truck to the water.

The Seawanhaka-Corinthian Yacht Club will represent the United States and it is believed that at least four new boats have been ordered.

British competitors are even more excited over the venture, for it is rumored that no fewer than nine new yachts are being built. These will race amongst themselves—and with each other six-metre craft as are now afloat—in the eliminating trial, the four best being selected for the great contest.

Mr. Godfrey Collins and Mr. W. P. Burton (skipper last summer of Shamrock IV) are having special yachts built. Another is being constructed for Mr. T. C. Glen-Coats, a prominent amateur yachtsman, whose name has been mentioned as the next challenger for the America cup.

SHIPPING IDLE AT ALL PORTS

Captain of Schooner Whiteaway Sighted Few Vessels at Sea

Yarmouth, May 30—The Parrsboro tern schooner Whiteaway, Captain W. R. Merriam, has arrived here after an eleven days passage from Philadelphia, with a cargo of 748 tons of hard coal. Captain Merriam reports an uneventful trip, and with the exception of only two sailing vessels, and one steamer, saw nothing throughout the entire trip. Sailing craft is being tied up everywhere, and as further evidence, he stated, that on the trip before coming to Yarmouth, and when bound from Monte Cristo to Chester, Pa., with a cargo of log wood he only sighted one sailing vessel on that passage. He said the docks and streams at all of the leading United States Atlantic ports are blocked with idle vessels. The Whiteaway, however, is one of the Nova Scotian built vessels that has been kept busy over since she was launched at Parrsboro in August, 1919, until the present time. During that period she has carried and delivered many cargoes, and all of them were of lengthy voyages, particularly her first, when she loaded deals at Parrsboro and delivered them at Londonderry, Ireland. After that the Whiteaway was on several passages between Southern States ports, and the West Indies, and on two occasions she carried plaster from Walton, N. S., to Norfolk Virginia.

Her master is one of the best known in Nova Scotia, and has enjoyed ever since a very young man a most successful career. He is a native of Parrsboro, but for several years has resided at Granville, Annapolis County. In the late fall of 1915 he returned from a trip to sea and decided to take a well earned vacation, but had not been at home long when he got the war fever, offered his services to his king and country, was accepted, and in a few weeks later was with his three sons fighting on the battle fields of France and Flanders. He remained there for thirty-eight months, and when he returned to Canada, the Whiteaway was shortly afterwards launched and he joined her as first officer, with his brother Captain E. K. Merriam, now of the four masted Whitehall, as master. In July last his brother resigned to take his present command, and then W. R. Merriam was again made master, and given the Whiteaway. After discharging her cargo of Fundy port and load probably for a United States port.

THE PALACE OF DARKENED WINDOWS

Laden with a cargo of ore loaded at Wismer, Demerara River, the four-masted schr. Charlotte Comeau, 728 tons net register, is due at Boston. Captain John Stuart, of Church Point, Digby County, is in command of the vessel, which was built at the above named place.

The following are a few clever exploitation paragraphs descriptive of the latest National Picture, "The Palace of Darkened Windows," to be shown in the Primrose Theatre, Monday, June 13th. This is a Selznick Special Production, featuring Claire Anderson and an all star cast. The picture contains spirited action, novel plot and unusual atmosphere combined to make a picture of thrills. Below we give a few unfinished paragraphs to show what one may expect to see in this picture of Oriental cunning opposing the wit of the Occident:—

She wanted to see what the inside of a harem looked like. She saw—and she came very nearly remaining as a permanent but unwilling guest.

The Rajah was such a handsome, polished gentleman that Arlee was fascinated by his attentions. But beneath that cultured exterior lurked the strange passionate nature of the Oriental and when the mask was off, just see what happened!—

"East is East and West is West, and never the twain shall meet." Is one of the truest statements ever made. See what happened when West meets East—

A beautiful American girl and a handsome cultured Indian Rajah. They met and the mystery of the Orient beckoned to the maid. But the dove cannot mate with the hawk so she fled from—

The exotic perfume of the Orient emanated from "The Palace of Darkened Windows." It lured Arlee Eversham away from her American sweetheart. Once inside the Rajah's palace, however, all was changed. Just what happened—

The moonlight reflected from "The Palace of Darkened Windows" and it presented a beautiful picture of barbaric splendor. But as the alligators lurked beneath the surface of the limpid pool in the palace courtyard, so did a fate worse than death lurk in the shadows of the Rajah's home—

The home of the Rajah sparkled like a diamond in the sunlight, but when the sun had set it became "The Palace of Darkened Windows," with an air of Hindoo mystery surrounding it. Just what took place inside—

The Palace of Darkened Windows loomed mysteriously in the bright glare of the tropical moon. Leopards prowled in the courtyard and all was as silent as a tomb. Suddenly a shriek rang out on the still midnight air and—

THE CHILDREN'S AID SOCIETY

In view of the campaign being put on next week in aid of the Children's Aid Society a few words regarding the splendid work being done by that fine organization may be in order. The Children's Aid Society stands for the betterment of the conditions of the child life of the community. Its agent is the friend and protector of neglected or ill-treated children and seeks to provide for them happy homes and to surround them with conditions calculated to develop their minds and make them useful members of society. Many of these with-oughts of the work of the Children's Aid Society would grow up to lives of usefulness and words and become a menace to society and a burden upon the community. The work of the Children's Aid Society is a most important one and deserves the hearty support of every patriotic citizen. It is not only a work of humanity but also a most practical undertaking in so far as it seeks to turn the liabilities of the country into assets. The homes of a nation constitute its real wealth if founded upon right principles. Not in our natural resources, in our wealth of forests or fields or mines, but upon the character of our people and our homes depends the future well being and prosperity of our country. Many of our homes are far from what they should be, and in many instances are wholly unfit for proper development of child life. The improvement of these homes and the conditions under which the children of the land are reared and their characters formed is the function of the Children's Aid Society. Every citizen has the privilege of assisting in this grand work and your sympathy and support are cordially invited. The Society needs funds to carry on its activities to the best advantage but most of all it needs the sympathy and interest of the people and their co-operation in the patriotic task of making the world happier and better. It is yours to help in this most laudable undertaking.

Green Bay, Wis., May 31—Several minor clashes were reported today when officials, office employees and strike breakers employed at the Northern Paper Mill here were turned away from work by pickets numbering more than 1,000.

According to company officials about 200 had been working in the mills since the strike began about six weeks ago. Police and deputies are patrolling the streets in the vicinity of the mill.

Sheriff Ryan said today that the situation had gone beyond the control of the local authorities, making necessary a request for state troops.

PROPOSED ARBITRATION
Albany, N. Y., May 31—Consideration of a proposal of representatives of ten paper manufacturers to arbitrate the differences which resulted early this month in a strike of approximately 40,000 paper mill workers in Canada, the United States and Newfoundland, was begun here today by officials of the International Brotherhood of Pulp, Sulphite and Paper Mill workers and shop delegates from each of the plants affected. The meetings were private. It was believed that they would continue for several days.

A proposal of the manufacturers was that the strikers return to work pending arbitration of the differences.

BRITISH-AMERICAN YACHT RACES SOON

Cup Contest Series Will Be Divided Between The "Coves Week" and the "Ryde Week"

London, May 31—Considerable enthusiasm is being evinced in yachting circles over the plans that have been already made for the British-American cup contest which is to take place in the next few weeks.

The special committee have decided that a half dozen cup races shall be sailed—three in the world-famous Coves Week, and three in the equally popular Ryde Week. The six contests are to be divided between the following three clubs—the Royal Thames Yacht Club, and the Royal London Yacht Club.

As far as possible the races are to be included in the programme of these clubs on alternate days. It has been tentatively agreed that the dates shall be: Friday, July 29th, Royal Thames Yacht Club; Monday, August 1st, Royal London Yacht Club; Wednesday, August 3rd, Royal Yacht Squadron; Friday, August 5th, Royal Victoria Yacht Club; Wednesday, August 10th, Royal Victoria Yacht Club.

Subject to alternation, the cup contests will be held by the calling committee of the three defending clubs on the above-mentioned days. The American cup is to form a section of the programme of the day. In each case races are to be sailed on a special course, an extra race being held if necessary.

It has been suggested that the cup races should take premier position in each day's programme.

The race laid down by the International Yacht Racing Union will determine the time limit in which it is possible to sail the given distance.

All the yachts will be of the six-metre class, and are permitted to measure between 20 and 23 feet on the water line. The draft is limited to 16 cent. on the water line, plus 1.64 feet. Sail area may vary from 475 to 550 feet. For these craft the height of mast is restricted to twice the water-line length, measured from the truck to the water.

The Seawanhaka-Corinthian Yacht Club will represent the United States and it is believed that at least four new boats have been ordered.

British competitors are even more excited over the venture, for it is rumored that no fewer than nine new yachts are being built. These will race amongst themselves—and with each other six-metre craft as are now afloat—in the eliminating trial, the four best being selected for the great contest.

Mr. Godfrey Collins and Mr. W. P. Burton (skipper last summer of Shamrock IV) are having special yachts built. Another is being constructed for Mr. T. C. Glen-Coats, a prominent amateur yachtsman, whose name has been mentioned as the next challenger for the America cup.

DOUBLE FUNERAL WITH THE FULL MILITARY HONORS

(Daily Evening Item, Lynn, Mass., June 1st.)

A double funeral was held this afternoon at 2 o'clock at the Lynn Armory for Corp. Horace Vaughan Balcom, of Co. B, 101st Engineers and Priv. Frederick L. Curtis Jr., formerly of the 101st Signal Corps.

Nearly 300 ex-service men and about 100 relatives and citizens and representatives of the Ladies' Auxiliary to Post 6, American Legion, Ladies' Auxiliary to the Lynn YD club were present. Lynn post, 6, American Legion, Veterans of Foreign Wars and the YD club were well represented.

Capt. Horace Landon, company commander of Corporal Balcom, came from Boston to attend the services.

Rev. Chester J. Underhill, chaplain of Post 6, American Legion, assisted by Rev. Edward E. Small of the Broadway M. E. Church, paid tributes to the deceased soldiers.

The bodies lay in state at the entrance of the drill shed and both caskets were covered with flowers from relatives and friends and military organizations of Lynn.

The pallbearers for the Balcom casket were George F. Blanchard, Edward Sainier, David Dow, John F. Dow, Grover Corning, James Felley. The Curtis pallbearers were Allen Newhall, Ralph Burckes, Hol-

man Stanfield, Henry Ripley, John Whitmore, Harry Roberts.

"The color guards were" Edward Doden and LeRoy Hazel, and the color bearers were Lester Currens and John L. Pickett.

A platoon of police officers in charge of Sgt. Joseph M. Flanagan included Frank J. Collins, Cornelius Donovan, Bernard J. Ludden, Antoine Dycus, Thomas P. Nihan, Francis L. Dawson, Lyness M. Shanahan, and represented all ex-service men.

A detail of ex-service men from the fire department in charge of Lieut. William Nihan included Herbert Brooks, Gustave Welner, Arthur Peabody, J. F. Stone, Ralph Field, John Clifford, Arthur Therrian and Arthur Austin.

Lynn Post 6, American Legion band, John H. Lee, leader, led the procession. Taps were sounded by members of the band at Pine Grove cemetery and a firing squad in charge of Corporal Raymond Cammet of Co. D, engineers, fired the usual volley. The firing squad included David Curran, Charles Murphy, James Maguire, Rexford A. Colby, Harold Sweeney, Fred Demas, Ernest Cyr, Arthur Goodwin.

(The late Corp. Balcom was a nephew of Mr. Norman Longley, Paradise West.)

GORDON-PROVIDENCE
UNITED CHURCH NOTES
This church has just completed a very successful year. Steady and substantial progress has been made in every department as disclosed at the annual meetings of the various organizations held within the past four weeks, and a spirit of fine optimism pervades the entire church.

USED CAR DEPARTMENT

NEWS OF THE WEEK

ALL THE DOINGS AND UNDOINGS OF THE PAST SIX DAYS

GRANVILLE CENTRE

Mrs. Sarah Dodge is visiting her niece, Mrs. L. H. Balcom, Paradise. Mrs. Annie Calnek is the guest of her daughter, Mrs. H. W. Longley, Paradise.

Mr. W. O. Bent has purchased a new Ford car for his son, Walter Bent, Jr.

Miss A. Edith Goodwin, of Acadia University, is home for the summer vacation.

Mrs. Claire Bent and little son, Paul, and Mrs. C. S. McLean, were recent guests of Mr. and Mrs. C. R. Withers.

Principal A. E. McCormick and Mrs. McCormick having spent the winter in Granville Ferry have returned to their home here.

Rev. Mr. Watson, the new Rector of All Saints Anglican Church, arrived from P. E. Island last week, and assumed his charge here, Sunday, May 22nd.

Miss Christine Willett paid a short visit to her parents recently, before going to Berwick, where she has a situation in the dry goods department of Patterson's, Ltd.

The many friends of Mr. Judson Whers, who has been away on account of his health, are glad to see him home again and trust he may soon be fully recovered.

A disastrous fire occurred here on Monday evening last, during a high gale of wind, totally destroying the pretty residence of Mr. Aubrey Baltzer, lately purchased from McCormick Bros. Much sympathy is felt for Mr. and Mrs. Baltzer in their loss.

As a result of special services held in the United Baptist Church, the pastor, Rev. A. Gibson, administered the ordinance of baptism to eight candidates, Sunday morning, May 22nd. At the close of the service they were welcomed into the membership of the church.

MT. HANLEY

Farmers are very busy putting in their crops.

Mrs. S. A. Bartheux has returned home from Springfield.

Mr. J. M. Hines, at Cottage Cove, is doing quite a lot of fishing. He reports fish in abundance.

Mr. and Mrs. C. N. Currier, from Lynn, Mass., were the guests of Mr. and Mrs. J. S. Miller last week.

Mr. Andrew Lee, from this place motored to Halifax on Monday, May 23rd, returning on Thursday night.

Mr. Percy Mosher from Halifax is the guest of his parents in this place and Port George for an indefinite period.

Rev. M. W. Brown and Ross Miller attended the closing exercises at Wolfville, accompanied by Mrs. Lambers.

Miss Vera M. Slocumb from Port George was the guest of Helen Fritz, accompanied by A. I. Fritz on Victoria Day.

Miss Lizzie Slocumb has gone to Kentville for a few days, accompanied by her friend, Miss Hitecan, from Port Lorne.

T. Harold Goucher and Frank Morison were calling on friends in the Life Insurance Company.

Mrs. G. B. Hines and husband attended the closing exercise at Wolfville last week. Mrs. Hines being a graduate from there a few years ago.

Several from here attended the funeral of Mr. James Kirkpatrick, at Port George last Thursday. Mr. Kirkpatrick was 75 years old. Much sympathy is extended to those who mourn.

Mr. Andrew Lee and family have moved into our community in the house of Mr. Frank Mosher's tenement houses. We welcome them among us. Their former residence was in Halifax.

Mr. and Mrs. Edward Pierce, Mr. and Mrs. G. B. Hines, Mr. and Mrs. Ralph Green and family, attended the birthday party at Outram of Mr. James Slocumb, also Mr. and Mrs. J. F. Slocumb, from Douglasville. A very pleasant time was enjoyed by all present.

Recent guests at I. J. Fritz's were Mr. and Mrs. B. A. Brown and daughters, Melissa and Helen, from Port Lorne; Mr. and Mrs. John Fritz and daughter, Evangeline, from Port George. Miss Lyon A. Brown from Brooklyn. Miss Vera Slocumb from Port George, and Mr. Percy Mosher from Halifax.

INGLISVILLE

Miss Clara Miles is spending a few days at Smith's Cove.

The intense heat of Saturday was followed in the evening by a thunder storm.

Born, May 22nd, to Mr. and Mrs. William Lugton, a daughter, (Myrtle Burnett).

Elsie Allan, of Lake Pleasant, was the guest of her aunt, Mrs. Harry Whynot, this week.

Edgar Mason went to Albany on Tuesday, returning with a fine cow, which he purchased there.

Mrs. W. Sproule attended the closing services at Wolfville, and is now visiting relatives in the valley.

Mrs. Ella Weaver, who has been so poorly all winter, is able to go out now and take short drives.

Harry Whynot and sons, Willie and Ivan, spent the 22nd with Mr. Whynot's aged mother at New Germany.

PORT LORNE

Mrs. W. E. Reid is visiting Mrs. P. J. Smith.

Mrs. Aseneth Brinton is visiting friends in Aylesford.

Mrs. Charlotte Anderson visited friends in Bridgetown last week.

Mrs. D. H. Simpson, son and daughter are at Mrs. Alice Neave's cottage.

Mrs. Sewal Corbett has returned from a visit with friends at Clements-ville.

Misses Vera Graves and Susie Banks have returned home from Wolfville.

Mr. Templeman and Sanford have their weir in and have caught several salmon.

Mr. W. E. Reed, of Bridgetown, is spending a few days at the Bay View house.

Mr. Norman Healy is improving the looks of his place with a new lot of paint.

A little daughter arrived at the home of Mr. and Mrs. Spurgeon Lewis, May 8th.

We are glad to see Mr. Spurgeon Lewis and his brother, Austin, home from sea.

Mrs. Johnson Beardsley and little son, Freeman, are visiting Mr. and Mrs. Charles Beardsley.

Mr. and Mrs. George Snow, of Hampton, were guests of Mrs. C. Anderson on Sunday, May 22nd.

The storm on Sunday afternoon was very severe here. One of Mr. Charles Beardsley's buildings was struck by lightning, but no serious damage done.

ST. CROIX COVE

Myron O. Brinton, Acadia, is visiting his parents.

Our Pastor, Rev. D. W. Dixon and wife, were calling on residents on Wednesday afternoon.

Mrs. Louisa Foster, Hampton, was a recent visitor at the home of Mr. and Mrs. Zaccheus Hall.

The odour of orange blossoms reminds us that St. Croix is soon to lose two young ladies.

Mr. and Mrs. Karl Carrier, Springfield, Mass., and Mrs. Alfred Healy, Outram, visited Mr. and Mrs. Wm. C. Hall, the 26th May.

THIS WOMAN'S RECOVERY

Show Remarkable Restorative Power of Lydia E. Pinkham's Vegetable Compound.

Chesley, Ont.—"Before using Lydia E. Pinkham's Vegetable Compound I was a total wreck. I had terrible pains in my sides and was not regular. Finally I got so weak I could not go up stairs without stopping to rest half way up the steps. I tried two doctors but they did me no good. I saw your medicine advertised in the newspapers and thought I would give it a trial. I took four bottles of the Vegetable Compound and was restored to health. I am married, am the mother of two children, and do all my household work, milk eight cows, and do a hired man's work and enjoy the best of health. I also found Vegetable Compound a great help for my weak back before my babies were born. I recommend it to all my friends who are in need of medicine, and you may print this letter if you wish."

Mrs. HENRY JANKE, R. R. No. 4, Chesley, Ontario.

It hardly seems possible that there is a woman in this country who will continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, proving beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world.

HOME MADE BREAD

ROYAL YEAST CAKES have been the standard yeast of Canada for over fifty years. The quality is always maintained at the highest point of perfection.

THE ONLY ONE GENUINE ASPIRIN

Only Tablets with "Bayer Cross" are Aspirin—No others!

If you don't see the "Bayer Cross" on the tablets, refuse them—they are not Aspirin at all.

Insist on genuine "Bayer Tablets of Aspirin" plainly stamped with the safety "Bayer Cross"—Aspirin prescribed by physicians for nineteen years and proved safe by millions for headache, Toothache, Earache, Rheumatism, Lumbago, Colds, Neuritis, and Pain generally.

Handy tin boxes of 12 tablets—also larger "Bayer" packages. Made in Canada.

Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monaciacidester of Salicylicacid.

While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company, Ltd., will be stamped with their general trade mark, the "Bayer Cross."

NEWS OF THE WEEK

(Continued from Page Two)

polis Royal Monday to work at the Hillside House.

Our Baptist Minister, Mr. Spurr, arrived Saturday. Service was held Sunday morning 11 o'clock.

Mr. and Mrs. T. Wood, and Mr. Ralph Gates, of Annapolis Royal, spent Tuesday fishing at Millford.

Mr. Carroll Brown returned to Mrs. Milledge Floyd's Tuesday, having spent a few days at Annapolis Royal.

Mrs. David Hubley went to Kegedunko Sunday to work at the Club House, intending to remain the summer.

LITCHFIELD

Mr. and Mrs. Samuel Milbary spent Sunday at Hillsburn.

Mr. and Mrs. Edward Wilson spent Sunday at Hillsburn.

Mr. Harry Burnie has returned from St. John, where he has been spending a few days.

Mr. Curry, a graduate from the Baptist College at Wolfville, preached here on Sunday morning.

Miss Addie Hamilton returned home from Tapperville last week and left Saturday for Lake Jolly.

Mr. and Mrs. James Thomas, Jr., of Stoney Beach, and family, spent Sunday with Mr. and Mrs. John Rupp.

Mrs. Clarence Gregory passed peacefully away at her home here on Wednesday afternoon, May 18th, after a lingering illness of eight weeks. Deceased was forty-two years of age, and leaves a husband, two sons, and two daughters, also one sister and one brother. Funeral service was conducted at the house on Friday afternoon by Rev. Mr. Heister, of Lower Granville.

CLEMENTSVALE

Mr. Roland Potter has purchased an auto.

Mr. W. L. Ramsay has been painting his house.

Rev. J. W. Wright spent Friday in Clementsvale.

Mrs. Ira Baird, of Yarmouth, is visiting friends in Clementsvale.

Mr. James Whitman, of Round Hill, called on friends in Clementsvale last week.

Miss Winnifred Potter has returned home, after spending the last two years in U.S.A.

Mrs. J. A. Wambolt and Mrs. G. W. Cross spent Thursday with John Riley, Virginia East, Parrsboro.

Mr. and Mrs. Frank J. Doogue left on Tuesday for Battle Creek, Michigan, where Mrs. Doogue plans to take a couple month's treatment at the International Health Resort.

MARINE

Tern schooner Jean F. Anderson is on the marine railway at Dartmouth for an overhaul.

Digby, May 26—Arrived 25th: Schr. Neva, Anthony, Bear River; Cleared: Schr. Levuka, Tupper, Parrsboro.

Tern schooner Nettie C., Captain Donette, arrived at Meteghan Thursday from St. John for an overhaul.

The schooner Levuka, which discharged a cargo of coal for Daley's Electric Light, Digby, sailed on Wednesday for Parrsboro to load for W. E. VanBlarcom.

TORBROOK

The Happy Workers hold a fancy sale and ice cream on Friday night in Barteaux's Hall.

Mrs. Frank Jolly and family expect to move to Halifax this week to join Mr. Jolly and son, Harry.

TALLEST MAN IN THE WORLD DEAD

Sioux City, Ia., May 21—Bernard Coyne, said to be the tallest man in the world, is dead at his home in Oto County.

Coyne was known as the "youthful giant." His height measured 8 feet 1 inch, and he weighed 300 pounds. He wore size 24 shoes. He had been ill for several months. He was 24 years of age.

FATAL ACCIDENT AT LUNENBURG

Lunenburg, N. S., May 27—At two-thirty this afternoon while the Halifax and South-Western train, in charge of Conductor Allen, was shunting down by the wharves, a shocking accident took place by which Donald Schnare, the five-year-old and only son of Erling Schnare, lost his life.

The accident was not seen by anybody, and it is supposed that the little fellow was crawling in among the wheels. The head was entirely severed from the body.

POINTED PARAGRAPHS

A good many young men will hang this summer—on front gates.

Some people consider it wrong to marry for money, yet all ministers do. There never was a war in which each side couldn't prove the other the aggressor.

What a glorious world this would be if the toeman would only deliver opportunity at the door.

Keep Minard's Liniment in the house.

FROM REMOTEST PARTS OF GLOBE

Tanlac Elements Come From Many Lands Far Away From Home

The ingredients from which the celebrated medicine Tanlac is made, come from remote sections of the earth, and are transported thousands of miles over land and sea to the great Tanlac Laboratories at Dayton, Ohio and Walkerville, Canada.

The Alps, Appennines, Pyrenees, Russian-Asia, Brazil, West Indies, Rocky Mountains, Asia Minor, Persia, India, Mexico, Columbia and Peru are among the far away points from which the principal properties of this remarkable preparation are obtained.

What is said to be the largest pharmaceutical laboratory in the United States has been completed at Dayton, Ohio, for the manufacture of Tanlac which, according to recent reports, is now having the largest sale of any medicine of its kind in the world; over 20,000,000 bottles having been sold in six years.

The new plant occupies 60,000 square feet of floor space and has a daily capacity of 50,000 bottles. Uniform quality is guaranteed by a series of careful inspections by expert chemists from the time the roots, herbs, bark and flowers are received in their rough state from all parts of the globe until their medicinal properties have been extracted by the most approved processes. The finished medicine is then bottled, labeled and shipped out to tens of thousands of druggists throughout the United States and Canada to supply a demand never before equalled by this, or any other medicine.

COOPERATIVE MARKETING OF WOOL IN 1920

A report has recently been issued by the Head Office of the Canadian Cooperative Wool Growers, Ltd., indicating that over 100,000 lbs. of Nova Scotia wool had been sold through this organization during 1920. The average price realized was about 27c. per lb. The most striking fact brought out in the report is the wide range between the highest and lowest figures paid. The best fleeces brought about 42c., while coarse clips netted only about 15c., and burry or soiled fleeces went as low as 8 or 9c. per lb.

The report thus makes very emphatic the advantages of good breeding and of keeping sheep in quarters where they will not be exposed to the contamination of burrs, seeds and other foreign matter.

While the above prices are much below those of the preceding year, the majority of sheep farmers regard them as fairly satisfactory in the circumstances. Correspondence would indicate that there is considerable wool from last year's crop still in the hands of its owners which is now difficult to dispose of. The Canadian Co-operative has marketed all its wool.

BOY IS SAVES GIRL FROM DROWNING

Montreal, May 31—Although only thirteen years of age, Edward Jennings, of Lachine, gave evidence of courage and presence of mind which a full grown lifesaver would find it hard to equal when under difficult circumstances he saved the life of his little boating companion, Margaret Henry.

The couple were about two miles from shore when their canoe overturned. The little girl could not swim but through the heroic efforts of young Jennings she was pulled out of the water after she had gone down twice and helped on to the overturned canoe, from which the pair were finally rescued.

PROBABLE SUICIDE

Halifax, May 30—Saying that he intended to "walk to meet the waves," Harry Gordon Grey, an Englishman, who was residing here, walked out the Bedford Basin Yacht Saturday and has not been seen since. Mr. and Mrs. A. Tyler, 155 Agricola street, with whom Grey boarded, reported the matter to the police today, fearing the man had committed suicide.

NAMED TO SUIT

Visitor to small girl hugging a large teddy bear, whose boot-button eyes convey the impression of a pronounced squint—"Well little girl and what do you call your nice new bear?"

Small girl (gravely)—"His name is Gladly, same as the one in the hymn."

Visitor (mystified)—"What on earth are you talking about, child? Which hymn?"

Small girl—You know. The one that say Gladly my cross-eyed bear."

We have our ideas about "real" sports too, Pat. Good sport come, and good sports go. But PRUNES stay home forever!

The Lindsay prize in the second year at the Dalhousie Medical School, which is the prize for the highest average, has been won this year by a Halifax boy, Robert Wallace Kenney, second son of Mr. and Mrs. W. W. Kenney, 86 Victoria Road, and brother of Dr. W. S. Kenney, of Annapolis. Mr. Kenney won this coveted prize out of a class of fifty, which fact needs no comment.

ANNUAL MEETING B. Y. P. U.

(St. John Telegraph)

The first annual meeting of the City and County B. Y. P. U. was held Wednesday evening in the Y.M.C.A. and R. H. Parson, the President, who was in the chair, was re-elected to office. The Secretary's report read by R. J. Rupert reviewed a most successful year. Including C.G.I.T. groups and Taxis boys, the Union had more than 600 members enrolled and seven B.Y.P.U.s. in the city were flourishing. Reference was made to the visit of Rev. (Dr.) James Asa White, General Secretary of the B. Y. P. U. of America and to the stimulus which it had given the local work.

Six large united rallies were held and visitations between the B.Y.P.U.s. had proved of great benefit in getting members of different groups better acquainted. The Secretary was congratulated on his report, which was discussed at length.

It was decided to draw up a more definite basis of membership and the following committee was appointed to report in this matter: Rev. L. B. Gray, J. L. Collins, L. H. Thorne, Miss Agnes Waring and Miss Jessie Hartt. A programme committee was appointed with the following members: Rev. G. D. Hudson, Rev. Isaac Brindley, Rev. A. L. Tedford, W. E. Campbell, R. J. Rupert, Miss Jessie Hattt. In the absence of Miss Nellie Rogers the report of the Treasurer was read by J. L. Collins. It was very satisfactory, and showed a small balance remaining with all bills paid.

Mr. Parsons, in his introductory remarks, had spoken of the fine record made in the first year of the Union and pointed out that there were wonderful opportunities ahead of the organization. He extended thanks to the executive and members and referred to the splendid cooperation given the Union by Rev. (Dr.) D. Hutchinson. On Mr. Parsons's suggestion, Dr. Hutchinson was unanimously elected Honorary President.

The election of officers resulted as follows:—President, R. H. Parsons; first vice-president, J. L. Collins; second vice-president, Peter Murray; third vice-president, Miss Ivy Campbell; recording secretary, R. J. Rupert; corresponding secretary, W. Edgar Campbell; treasurer, Miss N. C. Rogers.

Plans for a jolly time at a big picnic were discussed and it was decided to hold the picnic in the middle of June. The committee appointed to make arrangements was as follows:—Rev. L. B. Gray, Miss M. Hamilton, Miss Ivy Campbell, Peter Murray and R. J. Rupert.

WIFE OF MAJOR HART IS DEAD AT CANSO

Canso, May 31—The death of Mrs. Hart, wife of Major W. Hart, took place at the family residence to-day after a long illness. She was a daughter of the late Martin Smith, of Halifax and Mrs. Smith, who still resides in that city. The members of the family remaining besides the husband are Mrs. Bushell, Canso; Miss Lou and Miss Elsie, daughter, at home; H. Scott Hart, at home, and Bert Hart, of the Western Union Cable staff, North Sydney, are sons.

The mother, Mrs. M. Smith, and three sisters, Mrs. R. P. Proctor, Miss Olive and Miss Claude Smith, reside in Halifax. Mrs. McLeod, residing in California, is also a sister. Howard and Albert Smith, of Halifax, are brothers. The funeral took place Thursday. Interment at Canso.

ROD AND GUN, FOR JUNE

Followers of Isaac Walton will look forward to the June issue of Rod and Gun in Canada, which is now on sale at the news stands. In this number there are five fishing stories and articles by such well known authors as A. Bryan Williams, F. V. Williams, S. C. Cain, Robert Page Lincoln and S. H. Howard. "The Silver Doctor," an interesting story of fishing in the Shekay Canyon, is worthy of especial mention. The hunter and firearms man has been well looked after in this issue by C. S. Landis, the guns and ammunition expert. In addition to this feature, the latest proposed amendments to the firearms permit laws are published in full. Conservation, Kennel and the other departments are up to their high standard. Rod and Gun in Canada is published monthly by W. J. Taylor, Limited, Woodstock, Ont.

FORTY HURT IN HOLIDAY CRASH

Ashland, Wis., May 30—More than two score persons received minor injuries and several hundred others had narrow escapes when the Commercial dock, on which Memorial Day exercises were in progress today, gave way, toppling the crowd into Chequamegon Bay. It was believed all were saved.

Ideal Strikers

They strike somewhere every day. They strike readily. And they make no splutter or fuss about it.

When they have struck they show a clear and steady flame. They are reliable before—and steady after their strike. They are safe! They won't explode when trodden on. Their heads are firm and do not fly off. They perform well their mission in life. There is a merry life, tho' a short one. When they are put out, they stay out. They are guaranteed not to burn again in after life.

They are Eddy's Matches.

THE E. B. EDDY CO., Limited, Hull, Canada Makers of Lubricated Wares, Toilet Paper, Paper Bags, etc. B77

Correct Shoes FOR CHILDREN

Careful mothers are to-day putting a great deal of thought and study into selecting the very best shoes for their children. Not just good looking shoes, nor "cheap" shoes, but shoes which have special qualities of comfort, hygiene, long life and "Lowest-Price-Per-Day's-Wear." The Hurlbut Cushion Sole Shoe Comprises all these features and most nearly approaches "The Ideal Shoe For Children." This Home of Good Shoes has now a complete stock of Hurlbut Cushion Sole Shoes in a variety of styles for Spring wear, also, Pussy Foot Shoes for Baby.

Mail Orders Solicited.

CANADA'S SIXTH DECENNIAL CENSUS BEGAN JUNE 1st, 1921.

On June 1st, 1921, the Census of the Dominion was begun. The Census has been called "the largest single act of administration of the Government," in reference partly to its physical extent—the census organization covering every section of the country for a complex, many-sided task, and also to the great importance of census results in the general machinery of Government.

The success of the Census depends largely upon the co-operation of the people. Without general appreciation of the ends in view, and without the cordial assistance of individual citizens towards those ends, a good census will be impossible. A brief description of the scope, methods and purpose of the census and of its place in statistical and general administration will therefore be of interest and utility at the present moment.

Census-taking dates from the dawn of civilization. Moses numbered the Children of Israel in the fifteenth century B.C. (Exodus XXX, 12-15; Numbers 1, 2-4 and 47-49; III, 14-16; IV, 39-49). But statistical investigations were known many centuries earlier, in Babylonia, (4,000 B.C.). In China (3,000 B.C.) in Egypt (2,500 B.C.) A census taken by King David in 1017 B.C., achieved evil notoriety in history from the Divine wrath which is provoked (II Samuel XXIV, 1-25; I Chronicles XXI, 1-27) and which was cited for many generations against the spirit of inquiry.

The Census was one of the institutions founded by the great law-giver Solon at Athens in the sixth century, B.C. The Romans were assiduous census-takers, both under the Republic and the Empire; Julius Caesar reformed the census among other things. The Breviary of Charlemagne (A.D. 808) and the Domesday Book of William the Conqueror (A.D. 1088) are celebrated medieval censuses. Later, the census disappeared from Europe.

It may not be generally known that the credit of taking the first census of modern times belongs to Canada. The year was 1666; the census was one of the Colony of New France. There had been earlier records of settlement at Fort Royal (1665) and Quebec, (1668), but the census of 1666 was a systematic "nominal" enumeration of the people, (i.e., a record of each individual by name), taken for a fixed date, showing the age, sex, place, of residence, occupation and conjugal condition of each person. The results are to be seen in a document of 164 pages in the Archives of Paris, of which a transcript is in Ottawa. Altogether this census recorded 3,215 souls.

The first Dominion Census was taken in 1871, and every 10th year since. The 1921 Census is the comprehensive decennial census to be taken since Confederation.

Primarily the Census is taken to fix electoral representation, but it has a far wider scope. It is a great periodical stocking of the Canadian people, designed to show from the widest angle the picture that has been reached in the general progress of the Nation.

From two to five weeks from June 1st, is the time expected for the completion of field work.

Perfection of organization is not claimed as census-taking in Canada as in other countries, is still in process of development.

COLONIAL HOTEL Recent guests at the Colonial Hotel were: Major Hill, Halifax, N.S.; R. Fash, Halifax, N.S.; R. V. Dittmars, Deep Brook; Roy F. Maher, Mar. Tel. and Tel. Co.; J. Simpson, Montreal, P.Q.; H. F. McClare, Mt. Uniacke; A. E. Banks, Annapolis Royal; Mrs. Fay Fash, Mrs. J. K. Fraser, Sydney, N.S.; Capt. LeBlanc, Yarmouth.

BAPTIST CHURCH NOTES Next Sunday morning the ordinance of the Lord's Supper will be observed and the Right Hand of Fellowship given to recent converts and to those joining by letter. In the evening Mr. Richardson will preach to Tuxis Boys and Trail Rangers, the subject being: "Jonah the Runaway". The Men's Choir will sing at this service.

RECENT APPOINTMENT To be a member of Executive Council for Nova Scotia, Willie Comeau, of Comeauville, in the county of Digby.

Local Happenings

The Annapolis Tennis Club will, during the summer, have a series of dances once a month.

The Masonic Grand Lodge met in Digby on the 6th, 7th and 8th. A large attendance is reported.

Don't forget that the music for the picture "Black Beauty" will be furnished by the Bridgetown orchestra.

The Sells Fleto Circus, one of the largest shows on the road, is scheduled to pitch tents at Windsor on June 24th.

Truro News: J. W. Comeau, M.P.P., Digby, has been sworn in a member of the Executive Council of Nova Scotia.

Mr. and Mrs. Clarence R. Longley will be "At Home" to their friends on the afternoon and evening of June 16th, at their residence on South St.

Henceforth the Monday in the week in which November 11th falls will be known as Armistice Day, and Thanksgiving Day will be celebrated on the same day.

One of the largest shipments of lumber ever made from Halifax for some time left port recently on two schooners for United States points. The cargoes consisted of 1,400,000 laths and 275,000 feet of lumber.

The brick plant at Avonport is being enlarged for the manufacture of building and drain tile. The new addition will increase the capacity of the plant to two million brick, fifty cars of building and twenty-five cars of drain tile.

The 1921 Nova Scotia apple crop will be between one and a half to two million barrels, according to estimates made by A. E. McMahon, general manager United Fruit Company, of Nova Scotia, Limited, and George E. Sanders, Dominion Entomologist.

According to the schedule of the Western Section of the Valley Ball League, there will be two games played this afternoon, viz: Bridgetown vs. Annapolis, the latter mentioned team in each case being the visiting team.

Dr. W. H. Beckwith and Mrs. R. Elliott, of Halifax, have decided to place in G. P. United Church a memorial to their parents and their brother Fred. The memorial is to take the form of a modern system of electric lighting, consisting of six handsome Brascolite units.

The Annapolis Royal Nurseries expect to ship about 12,000 young apple trees to points in the Annapolis Valley this year. This nursery kept its stock of seedlings almost up to normal during the war period and is now in a position to supply the demand. Other nurseries will sell about 3,000 trees this spring, making a total planting of 20,000 trees.

Word has been received from Rev. A. M. Gregg, Boy's Work Secretary, for the Maritime Provinces, that the invitation to hold the Boy's Conference for Western Nova Scotia in Digby has been accepted. The time of the Conference will be somewhere about October first. The exact date will be announced as soon as it is decided upon by the committee having the series of Conference in hand.

A delegation of thirty-five from the Bear River Baptist Church visited the Bridgetown Baptist Church last Sunday evening. A quartette of the Bear River church sang in a very acceptable way, and the Rev. Mr. Gregg, the pastor of that church, preached the sermon of the evening, his subject being "The Inclusive Sacrifice." Mr. Gregg presented the truths of his message in an interesting and helpful way. The party spent an hour at the parsonage before leaving for their homes.

Many auto accidents have been narrowly averted in the past few weeks, nearly all due to reckless driving. There have also been some serious accidents due generally to the same cause. When will drivers discover that main roads are not intended for race courses and that auto horns were made to be used? We would also suggest that the drivers keep on the road, as some appear to like driving on the sidewalks in the evening. It is also a good idea for them to keep on their own side of the road when turning corners.

PRESIDENT OF C. P. R. VISITING NOVA SCOTIA Kentville, June 1—E. W. Beatty, President of the C.P.R.; Mr. Grant Hall, First Vice-President, and other officials arrived here tonight at 9.30 in their private car Thorold.

They crossed from St. John to Digby to-day, and accompanied by General Manager Graham of the D.A.R., proceeded to Yarmouth, where they inspected the D.A.R. terminals. They will remain here until to-morrow afternoon, when their special train will proceed to Halifax.

Mrs. W. E. Bentley, of Charlotte-town, P. E. Island, is a guest of Mrs. Fred C. Harris, Granville St.

Personal Mention

Miss Vera Brown, of Kentville, is visiting her friends in Bridgetown. E. R. Reid, of Annapolis, was registered at the Halifax hotel last week. Mr. F. M. Graves, of Bridgetown, made a business trip to Halifax last week. Bridgewater Bulletin: Miss Chipman, of Annapolis, is visiting Mrs. H. M. Pattillo. Dr. F. S. Anderson left yesterday to spend a few days at his former home in N. B. Miss M. Nichols, daughter of Con. A. Nichols, Kentville, has returned from Acadia for the holiday. Misses Ruth Morton and Lillian Whittman, of Halifax, spent the weekend at their homes in Bridgetown. Mr. Frank Corey, D.A.R., Kentville train despatcher, is spending a short holiday in Annapolis County. Rev. R. L. Roach, of Annapolis, is visiting in Kentville, guest of his sister, Mrs. K. L. Pineo, Highland Ave. Misses Mabel and Ruth Pollard, of Yorkonoma, Japan, have been the week-end guests of Miss Hortense Griffin. Mr. Frank Woodworth is relieving Walter Glassey, D.A.R. agent, Kentville, who is on a vacation trip to Halifax. Miss Alice Thorn, of Granville Ferry, was renewing acquaintances with friends in Kentville Monday and Tuesday. Mrs. F. V. Young, after spending a pleasant week with friends in Bridgetown, returned to Halifax via Saturday's express. Mr. Norman Longley, of Paradise West, who was in Lynn last week to attend the funeral of his nephew, returned home Friday. Miss Levenia Foeter, of Waterville, and Miss F. Banks, of Halifax, were week-end guests of Mr. and Mrs. F. B. Bishop, Lawrencetown. Mr. W. H. Weldon has returned from New Jersey on account of ill health and is at present visiting his daughter, Mrs. S. C. Turner. Rev. Z. L. Fash and Mrs. Fash, of Fredericton, were the guests of Mr. and Mrs. William Puddington at Parrsboro for a few days recently. J. A. Craig, of Yarmouth, has left for St. John's, Nfld., to be present on "Craig Day" which is to be celebrated in his honor by the Oddfellows of that city. Mrs. John Carter returned from Halifax Thursday, where she was under treatment at the Victoria General Hospital, feeling greatly improved in health. Mr. and Mrs. Harris Shaw, of Windsor Forks, accompanied by Mrs. Nathaniel Davidson, are visitors at the home of Mr. and Mrs. Ernest Foster, Bridgetown East. Miss Josephine Amberman, who has been taking treatment at the Sanatorium the past two months, has been discharged and left Friday for her home at Granville Ferry. Mrs. E. M. Webster, of Brooklyn, N.S., announces the engagement of her daughter, Lavinia Mable, to Edwin Stewart Elliott, of Clarence, N.S., marriage to take place June 22. Yarmouth Times: Rev. D. K. Grant, of St. John's Presbyterian Church, and Mr. and Mrs. J. J. Clark Robbins, are attending the Presbyterian General Assembly which opens in Toronto today. Mrs. H. H. Saunders, of Lawrencetown, has in Kentville last week visiting Mr. George Caldwell and Mrs. Caldwell. She attended the exercises at Wolfville, where her two sons completed a course at Acadia. Mr. Dyce Allen and daughter Margaret arrived in Cambridge on Friday from Alberta, and will spend the summer with her parents, Capt. E. F. and Mrs. Graves, Mrs. Graves went to Digby on Thursday to meet her daughter. Mrs. J. E. Connell, of New Minas, left last week for a short visit in Massachusetts and Maine. She will also visit her nephew in Vermont, the Rev. Elmer Grant Stevens, who is leaving that place to take up his ministerial work in Pennsylvania. Mrs. Burton Nelly, of Bridgetown, was a recent guest of Mrs. Everette Read, Sheffield Mills, having attended the closing exercises at Acadia Seminary, Wolfville, her daughter, Miss Hortense Griffin, being a member of the graduating class in music. Kentville Chronicle: Mrs. C. F. Rockwell has moved from "The Elm-dale" to the residence of J. M. Cross, Main St., west side, which she has leased. Col. and Mrs. B. W. Roscoe have moved into the fine bungalow which they have purchased at Main St. West. Mrs. Irene Elder Morton, of Clementsport, a Canadian writer of note, is a visitor in Kentville, being the guest for a few weeks of her daughter, Mrs. (Dr.) A. S. Burns, Main St. West. The degree of Master of Arts was conferred on Mrs. Morton by

Acadia University at the recent anniversary exercises. Truro News: Miss Linda Whidden, Accountant, at T. S. Pattillo and Co.'s, with Mrs. Horace McDougall, Truro, motored on the 22nd through the Annapolis Valley as far as Annapolis Royal. They found the roads in good condition and were charmed with the beautiful scenery of the valley and were amazed at the marvelous display of apple blossoms seen on every hand. Rev. W. H. VanAllen, S. T. D., Rector of the Church of the Advent, Boston, has planned to spend the summer in Europe and will sail from Montreal, on the Megantic, on June 18th, returning in September on the Oropesa, sailing from Southampton for New York. He will divide his time between England and the continent, probably spending some time in Switzerland. Dr. VanAllen, who is a noted writer as well as a clergyman, is a member of the summer colony at Smith's Cove, where he has been a leader in philanthropic and literary movements during the season. Digby Courier: Rev. W. H. Watts, of Wolfville, with Mrs. Watts and little girl, were in an auto accident on Wednesday of last week and narrowly escaped serious results. They were returning to Wolfville from Port Williams, the team being driven by Miss Taylor, and had passed a motor lorry when an auto driven by a Waterville young lady struck the front wheel, smashing the vehicle, pitching Mr. Watts on the pavement, while Mrs. Watts and the little girl clasped in her arms were found with their heads near the feet of the horse, which, however, had stopped. All the party were bruised, but escaped serious injury. (Rev. W. H. Watts is to be the new pastor of the Digby Methodist Church.) DIGBY Miss Mary Read is home for the summer. Messrs. Eric and Louis Morse arrived home last Friday. Mrs. T. E. G. Lynch has been spending a few days in Halifax. Mrs. Harry E. Jones has returned from a short visit to Boston. Mr. G. Victor Turnbull arrived here Saturday from Dalhousie University. Mr. Frank Anderson has been on a trip to St. John this week. Mr. Harold Kiley, former of the Courier, left for Boston last Saturday. Mrs. T. C. Shreve and Miss Edith Shreve returned from their trip to Boston. Miss Emma Robinson and Miss Irene Balcom spent the week-end in Annapolis. Mr. and Mrs. Charles Corbett, of Annapolis, were the Sunday guests of P. L. Wright. Mr. and Mrs. A. T. Spurr were registered at the Royal Hotel, St. John, Wednesday. Rev. T. C. Mellor, of Annapolis, is a guest at the Rectory while attending Grand Lodge. Capt. Charles Morrell, of Freeport, who for some months has been in an indifferent state of health, is now a patient in the St. John City Hospital. Mrs. (Dr.) Caswell is visiting Mrs. Alice Huestis, Cambridge, Kings Co., for a week. Miss Frances Caswell is a guest of Mr. and Mrs. Allan Browne. Mrs. E. Hart Nichols, who has been in Digby for the past month, has returned to Halifax and will leave in about a week's time for Williams Lake, B.C., where she will spend the summer with her sister. Rev. John Reeks, Miss Edith Reeks, Mr. and Mrs. Reeks, of London, Eng., and Mr. Milner, motored down from Round Hill on Thursday and spent several hours in town. DID NOT WANT TO LEAVE New York, June 2—The most homesick man in the city today is Charley Ortner, of Whitestone, Queens, who was locked out of Sing Sing prison yesterday after refusing for two years to accept a release. He is said to be the first prisoner of 75,000 committed to Sing Sing in the ninety-six years of its existence who balked at leaving. Ortner's maximum sentence has expired, so he could not legally remain, and Warden Lewis was prepared to use force if necessary to speed his departure. The prison guards have been instructed to keep a strict watch in case he should try to break in again. Since he entered the prison four years ago to serve from two to four years for assault he has been a model of industry and good behavior. On November 28, 1918, Warden Moyer tried to make him sign an application for parole to which he was entitled. "I won't sign anything and I won't agree to anything," Ortner said. "I am going to stay the full four years." For the last two years of his voluntary confinement Ortner has been the most trusted of trustees, working outside the walls and offered every opportunity to escape. Prison officials said he did the work of four men and praised his staying qualities. Fellow prisoners laughed at him and regarded him as a harmless "nut," but the prison surgeons found him perfectly rational.

SUCCESSFUL TEST OF MAHONEY'S FIRE APPARATUS (The Morning Chronicle) Mahone Bay, May 30—On Wednesday evening last the fire equipment was tested, the motor pump showing 492 gallons a minute. The contract called for a pump delivering 300 gallons per minute. On Thursday evening a demonstration was given, the pump delivering 350 gallons a minute through 950 feet of hose, the water going over the roof of the High School, forty feet from the ground, and the building standing on a hill forty feet above the pump. Afterwards, with a smaller nozzle, water was thrown at least fifteen feet higher. The equipment was purchased from the Fire Equipment Co., Ltd., of Montreal, and tested out very satisfactorily. A number of the firemen of Bridgewater, including Chief Gow, were present; also a former member of the paid Fire Department of Vancouver, B.C., all of whom were pleased at the test and time made by the newly organized firemen of the town. Four and three quarter minutes from the time the engine left the station hose were laid and connections made and water was being poured on the school building. On Friday evening the Fire Department was formed, Fire Chief Ed. A. Ernest, presiding, (town appointment), when H. E. Lobnes was elected Deputy Chief; O. W. Millett, Chief Engineer; and Assistant Engineers R. B. Westhaver and R. Wagner. The men were divided into companies with officers. ANOTHER OUTBREAK Tulsa, Okla., June 1—Continuous gunfire broke out shortly after daylight near the negro quarter of Tulsa, the scene of all night race disturbances in which hundreds of armed white men and negroes took part and which resulted in the death and injury of an unknown number of persons and the calling out of the Oklahoma National Guard units to put down the disorder. In a fresh outbreak at seven thirty o'clock in the Standpipe Hill district in the extreme northern end of the negro quarters, Mrs. S. A. Gilmore a white woman, was shot in the left arm and side. Mrs. Gilmore was standing on the front porch of her home when she was shot by a negro, one of a score or more barricaded in a church. Hundreds of armed white men are being rushed to the district in automobiles and a machine gun company is coming from Oklahoma City. MAYFLOWER SAILS FOR THE BANKS (Yarmouth Times) North Sydney, N. S., Sunday—The American racing fishing schooner Mayflower left here this morning to return to the fishing grounds. Before she sailed out of the harbor Captain Henry Larkin tacked about in front of the town for an hour to give citizens an opportunity of seeing the Mayflower under sail. Although she was occasionally hidden by a light fog and the breeze was fitful, it was apparent that she eats right up into the wind and is very quick in stays, gaining much water in coming about. She was under her lower sails only except for a short time, when she carried a balloon jib, but her immense spread of canvas was remarked by old salts. Captain Larkin is very proud of his vessel, of her speed and her suitability for fishing purposes. He will not admit that any Canadian schooner would have any chance at all against the Mayflower.

Among the Churches PARISH OF ST. JAMES, BRIDGETOWN The services next Sunday (3rd S. after Trinity) will be: Bridgetown:—11 a.m. and 7.30 p.m. St. Mary's, Belleisle:—3 p.m. Sunday School at usual hour. Friday evening 7.30 Weekly prayer service of the church on Wednesday evening at 7.30. Preaching every Sunday afternoon at Centrelea at 3 o'clock. FIVE DEACONS WERE ELECTED (St. John Telegraph) After a period of ten years during which the number of deacons in the Ludlow street Church has been less than the official seven, the church now has the complete number. Two deacons, John F. Ring and Everett J. Ring were appointed for life some time ago and last night, at a largely attended and representative meeting of the congregation, five additional deacons were elected by ballot. Three of those elected will serve for three years; they are Edward W. Christopher, William Pulton and George T. Ring. The remaining two, R. Hunter Parsons and Renwick Anderson, will serve for two years. Rev. Isaac Brindley, the pastor, presided at the gathering and opened the meeting with short devotional exercises. Scrutineers appointed were Deacon John F. Ring, Renwick J. Anderson and Roy C. Mackenney. Three of the deacons of the church died in recent years by the death of Deacon James Gray last January left the church with only two deacons. Last night's meeting also perfected plans for the holding of the St. John and Charlotte County Baptist Association convention in the Ludlow St. church at the end of the month. Forty churches will be represented at the convention and it was expected that about fifty delegates from outside St. John County will attend. Arrangements for the billeting of the delegates were made. There is usually a woman in the case—and too often she is the wrong one.

COLLECTION OF ANNUAL AGRICULTURAL STATISTICS

For the fourth successive year since 1918, the Dominion Bureau of Statistics and the Provincial Departments of Agriculture will make next June their annual enumeration throughout Canada of the areas sown to field crops and of farm live stock. This enumeration will be effected, as before, by card-board schedules distributed to individual farmers. When filled up and returned, the cards will be transmitted to the Dominion Bureau of Statistics at Ottawa for compilation into totals by adding machinery, except in Ontario and British Columbia, where the compilation will be undertaken by the provincial departments.

The collection of these statistics represents a national agricultural stock-taking, which is as important in the interests of farmers as are the conditions of other industries to those whose livelihood depends upon them. The trustworthiness and value of the statistics depend upon the co-operation of farmers in filling up and returning the simple schedule issued to them, because the greater the number of returns, the surer will be the estimates based thereon. It is the aim of the Dominion and Provincial statistical authorities to secure ultimately an annual return from every individual farmer in the Dominion.

In filling up the forms, farmers are not only advancing their own individual interests, but also those of the greatest national industry in Canada. From a national and provincial standpoint, food merchants, transport companies, bankers, and all business men are keenly interested in obtaining the earliest possible information as to the quantity and value of the products of the soil. Agricultural operations depend largely upon credit, and credit cannot be given without security. The principal security of bankers in financing agricultural clients is the produce of the soil, early and accurate information as to which is essential.

Some farmers fail to return the schedule from a mistaken fear that their taxes will be consequently increased. The fact is, however, that the collection of these statistics has no direct connection with taxation at all. The schedules are received and dealt with under the seal of absolute secrecy, and only the estimates of totals based upon the replies received are published. If the agricultural statistics, as published, may be considered as affording any guide to statesmen in proposing fiscal legislation, the interests of farmers are just as likely to suffer as not through statistical inaccuracy. They are as liable to be overtaxed as undertaxed if the country's agricultural production be not accurately estimated. No honest farmer desires to escape his fair share of liability for the national upkeep, and it is in his true interest that the annual statistics of agriculture should be as accurate and trustworthy as it is possible to make them.

Annual estimates of agricultural production for the whole of Canada have been available since 1908. For ten years from that date they were based only upon the Census and the reports of a limited number of correspondents; but the present method of basing the annual estimates upon actual returns has proved much more reliable, and its perfection depends upon the ultimate cohesion of every farmer in Canada. Any farmer who does not receive a carbonated schedule by the middle of June should apply for one either to the school teacher in his school district, to the Agricultural Department of his province, or to the Dominion Bureau of Statistics at Ottawa.

Next June will also be taken the decennial Census of Canada, and all farmers will be required to furnish detailed information on a complete agricultural schedule. The areas sown to field crops will be collected by the Census both for the years 1920 and 1921; so that the results should show to what extent the annual statistics for those years have proved to be accurate.

Owing to the existence of these annual statistics, it is possible to show that the area under field crops of Canada has increased from about 39 million acres in 1915 to nearly 53 million acres in 1920, and their value from \$825,370,000 in 1915 to \$1,455,244,000 in 1920. Facts such as these, collected by the present system of agricultural statistics, cannot but tell in favour of the great Dominion by attracting agricultural immigrants and helping to develop the great resources of the country.

THE PLANTING OF FRUIT TREES

(Experimental Farms Note)

This is the season for setting out young fruit trees, and it should be done just as early as possible. As soon as the ground is in condition to work, preparations should be made on the planting of the young orchard. A good, deep ploughing, if the land was not fall ploughed, should be

given, followed by a thorough discing.

After the land has been worked into good condition, proceed to lay out the orchard. As it is desirable to get the trees lined up in all directions, this laying out should be done with care.

Start at one corner of the field and plant a stake, then run a straight line parallel to a fence, or in the desired direction. Having established this line, it is now necessary to run another line at right angles to it.

Go back to the first stake planted; with a stout cord measure off eight feet on this line and make a mark at that point, now shorten your line to six feet and by holding one end of the cord at the first stake planted, draw a circle on the ground. Having this done lengthen the cord to ten feet and hold one end of it at the point you marked off eight feet from the first stake, and draw another circle. Where this circle cuts the first circle made, plant a stake. The line made by this stake and the first one planted is at right angles to the line first run.

After having run this second line as far as desired the same procedure can be used to complete the third side of the square and so on until there is a complete square around the field.

Now decide upon the distances apart your trees are to be placed. For apples it is generally 30 feet by 30 feet or 25 feet by 25 feet. For plums 20 feet by 20 feet.

If the thirty-foot distance is chosen mark off thirty-foot distances on all four sides of the square and plant a stake at each place.

To fill in the centre of the square three persons are required, one to hold stakes, and the other two to sight. One sighter lines up the stake holder for one direction and the other sighter lines him up for the other direction. When in line in both directions he plants the stake and then proceeds to the next point, and so on. Where it is impossible to obtain the services of three people two persons may use the following alternative method: After lining up all sides of the square, a wire may be stretched from one side of the field to the other and drawn taut and the proper distances measured off and stakes planted. The rest of the procedure is the same in both cases.

After all stakes are planted, bring into use the planting board. This is a board about six or eight feet long with a notch at either end and one directly in the centre.

Its use is very simple. Place the centre notch over one of the stakes which is located where a tree will be eventually planted, drive a peg through each of the notches at the ends of the board. The board and the stake may now be removed and the hole for the tree dug.

After the hole is dug it is easy to get the tree in the same place as the stake was by bringing back the board and fitting it over the two end pegs. The tree, if then placed in the centre notch, will be in position.

In planting young trees a few precautions must be observed. The trees should not be allowed to become dry at anytime before planting, but should be taken to the field wet.

The hole should be large enough to accommodate the roots without jamming. All broken parts of roots should be trimmed off neatly.

When planting the tree, the surface soil is generally put in first and the soil should be continually tramped or rammed as the planting proceeds. Rough handling in this manner can do no harm, but will do good. After the trees are set, the top should be cut back about one-third or one-half, and constant cultivation given until mid-summer when a cover crop or weeds may be permitted to grow.

THE CONTROL OF SWARMING

(Experimental Farms Note)

Swarming is the natural method by which bees increase, but is a hindrance to the best results in honey production; especially is this true of comb honey production. The uncertainty of swarming, the reduction of the honey crop through a division of the working force of the colony, the possibilities of losing swarms and the difficulty of controlling swarming without considerable labour, all make the control of swarming the biggest problem in bee management.

Colonies do not all require the same treatment. Swarming may often be prevented by the following

CASTORIA

For Infants and Children
In Use For Over 30 Years

Always bears the Signature of *Charles H. Fletcher*

manipulations. The introduction of a young queen. Giving ample room for brood rearing just previous to and during the early part of the clover flow. Providing plenty of super room for the storage of honey. Giving adequate ventilation during the hot weather by raising the front of the hive on small blocks to enlarge the entrance. Raising a few combs of emerging brood from the brood next to a super to relieve congestion of the brood chamber. The destruction of queen cells before they are far advanced.

Colonies that have made advanced preparation for swarming and have capped cells or cells ready to cap over, will often require more drastic treatment.

The destruction of queen cells every nine or ten days requires too much labour and is not always effective.

In localities where the swarming season is short, the separation of queen and brood is usually effective. All the brood is removed from the brood chamber and placed in an empty super and the brood chamber is then filled with empty combs. The queen, and some of the bees brushed from the combs of brood, are left below with the empty combs and a queen excluder placed over them. Two supers of combs are placed over the excluder and the super containing the brood is now placed on top. All queen cells should be destroyed when the brood is placed in the super, and again eight days later.

A more effective method is to remove the queen from the colony at the time the first active queen cells are found to destroy the cells. Eight days later again examine the colony and destroy all the queen cells but one, or destroy all and give a ripe cell of sealed parentage. In this way a young queen is obtained that will not swarm. This plan, however, may cause a certain amount of loss, until the new queen starts laying. This may be overcome to a certain extent, by giving a ripe cell at the time of removing the queen.

It is a good plan to keep the queen's wings clipped, for, should a swarm emerge, the queen will be unable to fly and will fall to the ground when she leaves the hive. The queen is then caged and the parent colony moved to a new stand. A new hive is placed on the vacant stand and the swarm will return, when the queen can be released and allowed to run in with the swarm. The supers from the parent hive should be given to the swarm. Eight days later destroy all queen cells except one in the parent colony, to prevent after-swarms.

C. E. GOODERHART,
Apiarist

BROILERS

(Experimental Farms Note)

If broilers are to be produced in any great number, they can be sold to advantage only where there are a considerable number of buyers who are not obliged to consider the price and with the exception of a few health and pleasure resorts this class of buyers is not numerous outside the larger cities.

The broiler is a very profitable advance of the poultry business if properly handled, and marketed from the early spring to the end of June, when prices are high. Every poultry breeder, however, may not be in a position to take advantage of this trade.

MARKET EARLY COCKERELS AS BROILERS

Far too many male chicks that would be available for the broilers market are carried over to the soft roaster stage or even longer, with the erroneous idea that the bigger the bird the larger the profit. It should be borne in mind that the larger bird is growing and feeding on a fast declining market and will probably reach it at the lowest ebb. The sale of the cockerels as broilers will carry the cost of raising the pullets to maturity.

TIME TO HATCH

To catch the best market they must be hatched before the first of April, and take about two months to reach the desired weight. The males of almost any pure breed are in demand. Even Leghorns at this age, will be eagerly accepted on the market, if plump and well dressed. The broilers may run with the rest of the flock of chicks and be fed the same until approaching one pound, in weight and should then be separated and placed in small yards or pens, fed only soft mash, consisting of two parts corn meal, two parts ground buckwheat and one part ground oats or similar fattening ration, mixed with sour skim milk or buttermilk. The mash should be fed fairly thin and in troughs, three times a day. Give the birds all they will eat, then clean out the troughs. Allow no feed to remain before the birds between meals.

If sour milk is given for drink it will add to the palatability of the meat and hasten the gain in weight, and an abundance of green feed should be available or provided.

KILLING AND MARKETING

Broilers are exceedingly tender and great care should be exercised in

plucking. It may be advisable to market alive if the price can be adjusted to compensate for the time saved the shipper, but if shipped dressed they should be carefully packed and graded so that each package is uniform in quality and weight.

By marketing the surplus cockerels as broilers, a quick and profitable return is effected, and an income provided at a season when there is not much return otherwise from the poultry and when the funds are often acceptable to provide feed for the growing stock.

The sale of cockerels as broilers has the added advantage of helping to distribute the produce over the year rather than selling so much in the fall when cockerels are usually sold.

W. T. SCOTT,
Experimental Farm,
Ottawa, Ontario.

ERGOT IN GRAIN

(Experimental Farms Note)

Ergot is very widely known because of its injurious effects upon animals that are fed with grain containing ergot or that graze upon badly infected grass. The ergot is a bluish black, horn-like body with a white interior, and is produced on infected plants of the grass family in the place where the seed would normally be found. They are found on the head of the growing plant because they are twice or three times the size of the seed.

Ergot is found principally on rye; also on many other grasses such as rye grass, blue joint, Kentucky blue grass, Canada blue grass, red top, timothy, wild rice and others. It occurs occasionally on wheat. The ergot is produced as the result of a fungus disease attacking the plant.

When rye or other grasses or seeds flower, the very small spores or seeds of the fungus are blown on to the flowers, penetrating into them and causing the production of the ergot in place of seed. To complete the life history of the fungus, it lives over the winter in the ground, or in storage bins in the form of the black, horn-like body or ergot; in the spring the ergot in the ground, either left there all winter or sown with the grain that spring, sends up one or several outgrowths with a knob-like end; these produce an abundance of smaller bodies, which in turn bear the spores, spoken of above, which are blown by the wind and infect the flowers opening that summer.

The actual loss to the grain crop by this disease is slight, but the serious effect on cattle eating ergotized grain, the losses from hay having to be destroyed because of the presence of ergot in the grass, make the disease a serious one, and everyone should know the precautionary measures to adopt.

1. Fields should be examined occasionally for the presence of ergot, and if large quantities are found in the grass should not be used for hay or pasture.
2. Ergot may be lessened by cutting susceptible grasses about flowering time, so checking the spread of the fungus.
3. Badly infested hay lands should be burned over.
4. If seed is found to contain ergot, it should be immersed in a 20 per cent. salt solution; the ergot floats up to the surface of the liquid and can be skimmed off.

F. L. BRAYTON,
Plant Pathologist

DESTROYING WEEDS BY MEANS OF CHEMICALS

(Experimental Farms Note)

While the hoe and the cultivator are likely to remain as the two most efficient weapons to use in the combat with weeds there are certain cases where the use of some chemicals is extremely desirable. A good example of the latter is the case of a grain crop infected with an annual such as Wild Mustard where it is possible by spraying with Iron Sulphate or Copper Sulphate to injure the weed to such an extent that it is unable to ripen its seeds.

There are also numerous plots of waste ground in towns, mile of roadsides all over the country, railroad tracks, and large areas of stony or rocky ground that cannot be cultivated, where the employment of chemical means for keeping down weeds might be profitably considered.

The spray should be applied in fine calm weather when there is a probability that no rain will fall during the next 24 hours. The amount of spraying mixture will vary somewhat with the kind of spraying machine used but as a general rule at least 60 gallons are necessary to cover an acre. The spray should be applied while the weeds are young.

The chemical substances that are most employed for killing weeds are

PALE AND NERVOUS SCHOOL CHILDREN

Need Rich, Red Blood to Regain Health and Strength.

Many children start school in excellent health, but after a short time home work, examinations, hurried meals and crowded school rooms cause their blood to become weak, their nerves over-wrought and their color and spirits lost. It is a mistake to let matters drift when boys and girls show symptoms of nervousness or weak blood. They are almost sure to fall victims of St. Vitus dance, or just into debility that leads to other troubles. Regular meals, outdoor exercise and plenty of sleep are necessary to combat the nervous wear of school life. But it is still more important that parents should pay attention to the school child's blood supply. Keep this rich and red by giving Dr. Williams' Pink Pills and the boy or girl will be sturdy and fit for school.

The value of Dr. Williams' Pink Pills in cases of this kind is shown by the statement of Mrs. Watson, Grand Falls, N.B., who says: "In the spring of 1919 my daughter Thistle, then 12 years of age, began to show symptoms of nervousness which developed into St. Vitus dance. She seemed to lose control of her limbs and at times every muscle in her body seemed to be twitching and jerking, and the trouble seemed to be growing worse. We finally decided to give Dr. Williams' Pink Pills, and the result was better even than we had hoped for, and she is now enjoying the best of health."

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Sulphuric acid, iron sulphate, copper sulphate, common salt caustic soda, sodium arsenite, carbolic acid, orchard heating oil and fuel oil. After the use of some of these the soil remains sterile until the chemical has been washed out by rain. In calculating the strength to be used it has to be remembered that a gallon of water weighs 10 pounds.

Sulphuric Acid or oil of vitriol has a corrosive effect on the spraying apparatus and can be used only in a weak solution varying from 3 to 10 per cent. It has no injurious effect on wheat, oats, or barley crops and has a fertilizing effect on the soil.

Iron sulphate or copperas is used in a solution of 15 to 20 per cent, but cannot be applied with safety to a crop of beans or flax.

Copper sulphate or bluestone can be used instead of iron sulphate but only in a solution of 11-2 to 21-2 per cent.

Common salt or sodium chloride is used in a strength of 20 to 25 per cent. It checks the growth of other plants besides weeds until it has been washed out by rain.

Caustic soda or sodium hydrate is used in a 5 per cent. solution. It kills all kinds of vegetation.

Sodium arsenite is used at the rate of 2 pounds to 60 gallons of water. It is very poisonous and the powder is dangerous to health if inhaled. It kills all vegetation.

Carbolic acid is used in a solution of 12-1-2 per cent. or stronger. Orchard heating oil is applied at full strength in a fine mist. It destroys all vegetation but is not poisonous and does not injure the soil.

Fuel oil can be used on waste ground or garden paths. After its use the soil remains sterile for a considerable period.

Of the various patent weed killers "Aldo A" was tested during the summer of 1920 on various weeds and gave good results.

J. ADAMS,
Division of Botany,
Ottawa, Ontario

GRADING UP THE AVERAGE DAIRY HERD

(Experimental Farms Note)

Dr. J. H. Grisdale, speaking before the Ayrshire breeders in Montreal, said that the average production today for the average dairy cow was a very little over 3000 pounds per lactation period when it should be at least 5000 pounds to make her a profitable cow it would be still better were it 6000 per cow.

Results obtained from an experiment in grading up the average dairy cow, being carried on at the Experimental Farm, Nappan, N. S., show that by the use of pure bred sires, cows of the dairy breeds, the 6000 pound mark can quite easily be obtained. For instance; the experiment has only been carried on for eight years and eighteen cows have finished their sixth lactation period with an average of 5268 pounds. Ten out of the eighteen gave an average of 6276.8 pounds. There are some two-year-olds in the herd today that are milking around thirty-five and thirty-seven pounds, others have just completed their year's work with close to 8000 pounds to their credit.

It is of paramount importance at the present time that the dairy herd should be given first place on the farm and, furthermore, that both thought and energy should be put into our breeding work, in order that the maximum profit for labour, feed and money invested may be realized.

The grading up experiment at the Experimental Farm, Nappan has demonstrated the following:

First, that by using a pure-bred sire from a high-producing dam on the average dairy cows the percentage of daughters superior to dams will be materially increased.

Second, that by the use of such a sire will not only improve the milking qualities of the herd, but will establish uniformity and dairy type of the highest order.

Third, that by the combined use of the feed scales, milk scales and Babcock tester you can easily locate the unprofitable cows.

Fourth, that by weeding out the unprofitable ones you can raise your standard of production, which in turn will increase your yearly profit.

Fifth, that by having the heifers freshen at thirty-two months rather than twenty-four to twenty-eight months, as so often practised, you get a more profitable cow.

Successful grading up, then, of the average dairy cow can only be accomplished by using a pure bred sire with milking records back of him on the side of both sire and dam, followed by the use of the feed and milk scale together with the Babcock tester which enables you to eliminate the boarders, thus converting a non-profitable herd into a profitable herd.

W. W. BAIRD, Supt.
Experimental Farm,
Nappan, N. S.

KENTVILLE FIRM AWARDED CONTRACT

For the Remodelling of the Municipal Building at Yarmouth

(The Morning Chronicle)

Yarmouth, May 31.—At a meeting held this afternoon of the Committee on tenders and public property of the Municipal Council, the matter of repairing and remodelling of Yarmouth's municipal building and Court House, which was so badly gutted by fire early in March, of the construction of a complete new building, was under consideration. Tenders for the rebuilding and remodelling of the present damaged property had previously been asked for and they were opened. There were five bids, one from John F. Crosby, of Yarmouth, who offered to replace the building as it was before the fire for \$5,572. A B. Little, two bids, also of Yarmouth; Russell and MacAnby, Halifax, two bids, one to replace the building as it stood previous to the fire for \$13,369, and the other for the remodelling to a very large extent \$11,920. Denton and Condon, Kentville, a very complete remodelling, providing more rooms for the officers of the Court and of the Municipality for \$25,369.

After much deliberation on the matter the last named tender was accepted, and the firm's representative, who is in town, tonight stated that work on the building would be commenced in a few days. The structure will be greatly changed, and when completed will be transformed into a very modern exterior, and the interior will also be laid out on an entirely different scale. The massive stone steps, which for so many years have been such a prominent landmark in the center of the town, are to be taken down, and an attractive annex and entrance to the court room on the floor above will take their place, while there will also be many other changes that will add both dignity and beauty to the buildings.

DON'T think you have arrived at your destination for it is more than likely you have only started.

DON'T get sore at criticism, invite it; remember you must be of some consequence to invite it.

DO your work and let the curs bark.

Digby Courier: The steamer Bear River, which has been laid up at her home port, arrived yesterday resplendent in a new coat of paint.

Here's to the good little girl, but not too good, for the good die young and who wants a dead one?

Children Cry for Fletcher's

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

A. J. BURNS

LOCAL DEATH ROLL

ISRAEL JAMES PARKER

On June 2nd, Mr. I. J. Parker, of Belleisle, Anna Co., passed peacefully to rest, after a lingering illness. He was born November 22nd, 1833. In early years he gave his life to Christ, uniting with Upper Granville Methodist Church, and adorned the profession then made by a consistent Christian walk, proving throughout his long life that one can be honest, true and genuine, in all the varied relations of life, both toward God and their fellow man. He is survived by his widow, (formerly Miss Sarah Blackadder, of Wolfville), and nine children, seven of whom were present at the funeral: Mrs. James Welding, New York; Mrs. W. L. Nichols, Mrs. (Dr.) M. P. Nichols, Aylesford; Mrs. C. B. Chapman, Amherst; Dr. C. W. Parker, Regina, Sask.; E. T. Parker, barrister, Halifax; Harry G. Parker, and Misses Jennie and Muriel, at home, whose faithful care and loving ministrations helped suffering and weakness to be patiently borne. The large number who gathered at the funeral Sunday afternoon was an eloquent declaration of the esteem in which he was held by the community. The Pastor, Rev. Geo. T. Bryant, spoke from 1st. Sam. 20: 18. "And Thou Shalt Be Missed, Because Thy Seat Will Be Empty." The address throughout was a fitting tribute to a noble life. The remains were affectionately laid away in the family lot in Wadleville cemetery. The sympathy of their many friends is extended to the widow and family.

MRS. LUCRETIA WALKER

The death of Mrs. Lucretia Walker occurred at the home of Mrs. Eugene P. Troop on Wednesday evening, June 1st. Mrs. Walker who had reached the age of eighty-eight years and ten months was a wonderfully well preserved person, retaining her faculties to within a few hours of her death. Possessed of a very ambitious disposition, she spent the greater part of her time doing the finest of needle work, which would have done credit to much younger fingers. Before her marriage she was Miss Lucretia Foster, daughter of the late David and Mary (Clark) Foster. Since her early girlhood she has been a devoted member of the Granville Methodist Church, and a regular attendant until deafness prevented her enjoying the sermon. Since the death of her husband about fifteen years ago she has made her home with Mrs. Eugene Troop, where she has made many friends. The funeral, which took place Friday from her late home, was largely attended, services being conducted by Rev. George Bryant, pastor of the Methodist Church. Interment took place at Granville Centre, beside her late husband. The pallbearers were Hugh A. Troop, Harry A. Goodwin, Adam Clark, and George Foster. Besides a large circle of friends she leaves a number of nieces and nephews to mourn their loss.

MRS. HAROLD E. WOODMAN

It was with feelings of great sadness that the community learned of the death at Wolfville on Friday last of Mrs. Mary Woodman. She was 32 years of age and was the beloved wife of Mr. Harold E. Woodman, district manager of the Canada Life Insurance Co., residing at Wolfville.

Mrs. Woodman was a daughter of Mrs. Simon and the late James Simson, of Melanston. She was one most highly esteemed by all who knew her, and her early demise leaves a home most deeply bereft. Mr. Woodman, two sons and the infant son survive. She also leaves a mother and the following sisters and brothers:—Mrs. J. F. Herbin, Wolfville; Mrs. Percy Balcom, Middleton; Mrs. Ross Fullerton, North Grand Pre; Fred, in Halifax; Jack, in Boston, and Ralph and Gordon at home on the farm at Melanston.

In the Methodist Church and in benevolent and social circles, Mrs. Woodman was a prominent worker.

BIG WHALE IN BAY

Kentville, June 1.—A monster whale has found its way into the Bay of Fundy, and last Sunday afternoon and Monday spent itself up and down the bay between Halls Harbor and Victoria Harbor. It swam close to the top of the water, evidently feeding among the hosts of mackerel. It was about 2,500 hundred feet from the shore, and appeared to be nearly 100 feet in length. Hundreds of shore visitors saw it on Sunday afternoon.

FATHER KILLS HIS DAUGHTER AND SELF

Williamstown, Mass., May 31.—Chas. A. Godfrey, forty-six, shot and instantly killed his daughter, Mabel, seventeen, in the kitchen of their home yesterday. He then went to a bedroom and fatally wounded himself, dying in the North Adams Hospital about half an hour later. Godfrey had been suffering from mental trouble for about three weeks and it is thought his act was committed during a fit of temporary insanity.

WEDDING BELLS

MacMULLEN-COOMBS

The home of Mr. and Mrs. Wightman, on Queen St., Digby, was the scene of a very happy event on Wednesday, at 12 o'clock noon, when Mrs. Wightman's sister, Hazel Coombs, youngest daughter of H. F. Coombs, of Sydney, was united in marriage with C. F. MacMullen, youngest son of Mrs. J. W. MacMullen, of Yarmouth, Rev. Arthur Hockin officiating. She was given in marriage by her eldest brother F. W. Coombs. The bride wore a travelling suit of navy tricotine and carried a bouquet of bride's roses and carnations. The ceremony was performed in the presence of the immediate relatives of the bride and groom. Among the guests were Mrs. J. W. MacMullen, Mr. and Mrs. W. G. Utley, and Miss Gwen Utley, of Yarmouth; Mrs. C. G. Coombs, of Wolfville; F. W. Coombs, St. John, and Franklin Coombs, of New York. The bride was the recipient of many useful and beautiful gifts, among them being several cheques. The happy couple left on the Yarmouth train en route for their future home in Massachusetts.

LEGER-BOURQUE

A very quiet but pretty nuptial was celebrated at the church of the Immaculate Conception, Truro, when the Rev. Father Kinsella, on May 31st, joined in the holy bonds of matrimony, Lionel Leger, of the C.N.R. General office staff, Moncton, and Mary Jean Bourque, of Weymouth.

Miss Bourque has been a most esteemed member of the Truro News staff, and who has a host of friends in Truro, made a charming bride in her stylish travelling suit of cinnamon brown, hat to match. She was unattended. Mr. and Mrs. Leger left Truro on the Ocean Limited for Halifax thence by the Halifax and South Western to Yarmouth and then to Boston and other American cities. The return trip, with a short visit at the bride's former home in Weymouth, will be made by D.A.R., thru the valley while en route to their future home in New Brunswick.

OFFICERS ELECTED FOR N. S. MOTOR LEAGUE

An organization meeting was held at the "Wayside Inn", Halifax, last week, when members of the recently elected Executive were the guests of the management at dinner of that popular resort. After the excellent menu provided had been partaken of, the meeting took place resulting in the election of the following officers for the present year:

President—F. A. Gillis, (Re-elected) Halifax.
Vice-Presidents—A. N. McLennan, Sydney; J. E. McLurg, Halifax; F. C. Whitman, Annapolis.

Secy.-Treas.—A. G. Watson, Halifax, (re-elected.)

The appointing of Chairman of several committees was then proceeded with, resulting as follows: Membership, P. O. Soulis; Good Roads, C. P. Wood; Road Signs, A. Milne Fraser; Entertainment, F. E. Elliot; Legislation, A. W. Jones; Publicity, E. A. Saunders.

The League will place framed road maps of the Province in the hotels of the city, and it was also decided to extend the road markings so as to practically cover the principal roads of the Province. In this respect, some \$3,000 has so far been expended, and when the present programme is completed, this Province will be marked second to none in Canada.

WHEN BABY IS ILL

When the baby is ill; when he cries a great deal and no amount of attention or petting makes him happy, Baby's Own Tablets should be given him without delay. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus drive out constipation and indigestion; break up colds and simple fevers and make teething easy. Concerning them Mrs. Desire Theberge, Trois Pistols, Que., writes: "I am well satisfied with my use of Baby's Own Tablets. I have found them of great benefit to my baby when he was suffering from constipation and I can strongly recommend them to other mothers." The Tablets are sold by all medicine dealers, or by mail, at 25 cents a box, from The Dr. Williams' Medicine Co., Brockville, Ont.

RALPH T. HARRIS, OF ANNAPOLIS, INJURED

Annapolis Royal, June 2.—Last night Ralph T. Harris had misfortune to break his leg. Over a week ago he and Mrs. Harris went to Kedegmooke club house for a few weeks rest. Last evening he slipped on the stairs and sustained the serious injury. Dr. Braine was called about ten o'clock and had to drive the thirty-five miles to the lake to attend to the injury. It will be some weeks before he can be brought home.

METHODIST DISTRICT

All Ministers in Attendance
Nine Circuits Represented
by Lay-Delegates

The Annapolis District Church convened Session, with Rev. C. the chair, on Tuesday, continuing throughout that next, in the Church at this meeting every year interest to the Methodist end of the Valley. Ministers were in attendance of the twelve circuits represented by laymen as well as by their Ministers of the Conference year was reviewed in detail the undisputed fact is the work of the Christ is becoming increasingly distracting, so much so pastors are unable to entire time and energy interests. Of the occasion tables there is no result that definite and usual fruitage is very meagre.

Despite these exacting their time the Ministers without exception, honestly endeavored to justify, and succeeded, as indicated. Substantial gains on the Bridgetown Bear River, and Berwick other gratifying results growing liberality and alty of the people, tell the year. Special men made of the good Pro Sunday School and Y Departments; one circuit less than nine live y activities. The practice church union is being at Berwick, Bridgetown polls.

The appointment of committees and preparatory to be presented. Conference concluded the District, the delegates to their homes with the people of Margareville Bryant, and Messrs. H and A. O. Price attended Providence United Church Hicks and Price account husbands, spending a full day at the sea shore. The thirty-eight session Nova Scotia Conference venues in Berwick today throughout the week week will bring together and lay delegates from the Province and Berwick, Friggins, of Canine. will be the choice of the but, at this moment, whom the official man a subject of conjecture. That is right man.

There is no doubt. Bridgetown Circuit by Revs. Dr. Jost and Dr. M. E. Armstrong, Henry B. Hicks and The following ministers
