Washington Views Sinking as Distinct "Unfriendly Act"

Wilson May Recall U. S. Ambassador Gerard From Berlin

NO ALTERNATIVE FOR WILSON BUT TO RECALL AMBASSADOR AFTER THE "UNFRIENDLY ACT"

Washington Officials Say the Fact That No Lives Were Lost Does Not Mitigate Offense and That President Must Take Action.

Special to The Toronto World.

WASHINGTON, Aug. 19.—The torpedoing of the White Star liner Arabic without warning by a German submarine is a deliberately unfriendly act and President Wilson has no alternative but to recall Ambassador Gerard from Berlin and to hand passports to Count Von Bernstorff, the German ambassador here.

The fact that no lives were lost does not mitigate the offense. American rights were violated when the lives of the Americans were placed in jeopardy by the commander of the German submarine. It was for these rights that President Wilson has contended ever since the sinking of the Lusitania. His recent note to Germany on the sinking of the Cunard liner left no doubt as to what the position of this government would be should American citizens in the free exercise of their rights have their lives placed in jeopardy by a German submarine commander.

Only One Interpretation
In that note President Wilson impressed upon the German Government the "necessity for a scrupulous observance of neutral rights in this critical matter." And he followed it with this warning to the German Government, which admits of only one interpretation: "Friendship itself prompts it (United States) to say to the imperial government that repetition by the commander of German naval vessels of acts of contravention of these rights must be regarded by the Government of the United States, when they affect American citizens, as deliberately unfriendly."

This was the opinion expressed in official circles here tonight, following the official report of Vice-Consul Thompson at Queenstown, that survivors stated that no warning had been given, and that no attempt was made to stop the vessel in accordance with the international law before the German submarine fired its deadly torpedo. Secretary Lansing declines to express an opinion on the merits of acts of contravention of these rights must be regarded by the Government of the United States, when they affect American citizens, as deliberately unfriendly."

The sinking of the White Star liner by a German submarine created the biggest kind of a sensation here today. Confirmation of the torpedoing of the vessel was received late in the afternoon in a cable despatch from the American vice-consul at Queenstown. This despatch read: "Arabic sunk 9:30 today. Sunk in 11 minutes. Eleven boats; survivors being brought here."

President Wilson was preparing to go to his usual golf game this afternoon when the news of the sinking of the Arabic was conveyed to him unofficially. He forgot his golf game for the time being and called up Secretary Lansing, and asked for all the official information he had received. Secretary Lansing had just finished telling a group of newspaper men of the confirmation of the disaster that he had received, and before the discussion of the situation could be held the telephone call from the president broke up the conference.

For two hours afterwards Pres. Wilson remained in his study awaiting further official despatches. It seemed as though he had a premonition that something had happened which meant that the German Government no longer cared to maintain friendly relations with this country. It was nearly five o'clock before he left the White House for a short motor car ride.

Only One Step.
Vice-Consul Thompson's second despatch was received at the state department shortly after ten o'clock, and it was sent at once to the president. He studied it carefully. The president was still in his study at a late hour

ITALY TO DECLARE WAR AGAINST TURKEY TODAY

Tension Between the Two Countries is Increasing Every Hour and Final Rupture is Expected Any Moment.

Special Cable to The Toronto World.

MILAN, Aug. 19.—The tension between Turkey and Italy is increasing every hour, and the final rupture may come at any moment. The refusal of Turkey to allow 8000 Italians inhabiting the Smyrna district to depart has caused boundless indignation throughout Italy. In spite of the strict press censorship, it is known that the situation at Tripoli is critical, and that the revolt of the Arabs is the undoubted work of emissaries of the Turkish Government. It is expected that after the cabinet council tomorrow the Turkish Ambassador will be given his passports and war will be declared.

Warships Ready to Attack.

TARANTO, Italy, Aug. 19 (Via Paris, Aug. 20).—A strong squadron of fast cruisers is being held in readiness to sail from here at a moment's notice. It is expected that the warships will be sent against Turkey if that country declines to satisfy Italy's demand for the release of Italian subjects held in the Ottoman Empire.

SURVIVORS OF LINER LANDED IN SAD PLIGHT

Many Were Scantily Attired and Suffering From Injuries or Shock.

CAPTAIN SAW TORPEDO

Escape Was, However, Impossible—Arabic Sank in Eight Minutes.

QUEENSTOWN, Friday, Aug. 20.—The landing here yesterday evening of the survivors of the ill-fated White Star liner Arabic was a pitiable scene. All of them were scantily clothed and none of them had had a head covering of any kind.

A large number of the survivors were suffering from injuries to their heads and other wounds, or from shock and the effects of being forced to take to open boats scantily attired.

Many of the women were in their berths when the liner was torpedoed and ran to the deck in their night clothing. These were provided with blankets when they were taken from boats and rafts by the crews of the rescue ships. A number of those saved were picked out of the water and arrived here in their sea-soaked clothing. The people of Queenstown gave them every possible attention and provided fresh outfits for many of them. There were some pathetic scenes of grief over the loss of the members of some of the families on board the liner.

Discipline Was Perfect.

A. Hume Nebeker of Logan, Utah, who, when he arrived here, had only a bathrobe, said that the crew worked splendidly under Captain Finch's direction in the short ten minutes which they had to get the passengers into the boats, and but for the discipline maintained and the excellent work of the rescuing tug officers at least a couple of hundred persons would have been lost. The submarine, according to Mr. Nebeker, was seen before it launched the torpedo, but there was not time enough to escape it.

The American vice-consul here assisted the local authorities in aiding the survivors.

Captain Saw Torpedo.
Captain Finch, who is suffering from injuries to his leg, said last night that he did not see the submarine, but distinctly observed the torpedo approaching the ship.

"It was then impossible to escape it," the captain said. "We had only eight minutes to get the boats away and save all on board."

FRENCH SCORE SUCCESSSES BY HARD FIGHTING

Portion of German Trench in Artois Taken After Heavy Shelling.

FRESH GAIN IN VOSGES

Important Victory Also Achieved in Struggle North of Arras.

LONDON, Aug. 19.—The French have scored two successes in the west, taking a portion of a German trench in Artois after a heavy all-day bombardment, and making a further advance on the Lingé summit in the Vosges. On both these sectors there has been heavy and continuous fighting, in which the French claim to have greatly improved their positions by capturing vantage points and keeping the initiative in their hands.

An important victory in the fighting north of Arras has been achieved by the capture of the cross-roads east of Notre-Dame de Lorette, thru which the Arras-Bethune and the Angres-Ablain highways run. Infantry, supported by showers of bombs and grenades, made a successful attack upon this strongly fortified position, forming a salient in the French line and held by the enemy thruout the winter. The French are as a consequence in a position to attack the Germans north and northeast of Souchez with effect.

Intense Artillery Fighting.

The French official communication tonight says: "The artillery fighting continues intense on the greater part of the front, notably on both banks of the Oise in the region of Plessis-de-Boye and at Vingre, where we hit an enemy train and convoy, and also in Champagne and in the southern Woivre." "In the forest of the Argonne the Germans exploded near Hill 288 a mine which did not disturb our works."

"In the Vosges the enemy confined himself to violent cannonading on the positions of Lingé and Schratzmannelle. "During an action yesterday which enabled us to realize in Artois a very appreciable gain, we took prisoners and captured five machine guns."

Petrograd Admits Enemy's Forces Have Advanced Beyond Kovno.

Canadian Associated Press Cable.

LONDON, Aug. 19.—Admission that the Germans after occupying Kovno have continued their advance and established themselves in the adjoining district between the Nieman and the Willa, is made in an official statement from Petrograd tonight. Fighting on the front from Ossowetz to Brest, and further south, is described as of a most determined character.

Altho the Germans lost heavily in attacking the fortifications of Novo Georgievsk, on the right bank of the Nieman and the Narwa, the heavy German guns have succeeded in silencing the Russian artillery and reducing the fortifications in the sector between the Wkra and the Nerew. The Russians were compelled to fall back on the right bank of the Wkra.

The official statement follows: "On the whole front from Riga to Janow there has been no important

Canada is Entitled to a First Helping

If the British Government borrows \$750,000,000 in New York it will be with the understanding that the money remains in the country. Indeed, it is said that the Wilson administration would not consent to the loan on any other conditions. The large credit thus obtained in New York will rectify the exchange situation, permitting the British Government to pay by cheques on New York for war supplies. It is also intimated that this huge credit, the cotton crop will be financed. That is, the imperial government will practically guarantee to take the cotton available for export at a fixed price.

That is all very interesting from the standpoint of New York. Our neighbors expect to sell a great many commodities to the allies, including wheat and flour. Evidently the purchase will be no less financed by the British Government, and as a step in that direction a vast loan of three quarters of a billion is to be absorbed by Wall street.

But where does Canada get off? If the imperial government is to valorize American cotton it should do no less for Canadian wheat. If there is more wheat coming into the market than can be absorbed by the allies, then they should buy from Canada. The American farmer and miller can sell to every country in the world which is able to buy, while the Canadian farmer and miller cannot sell except to the mother country and her allies.

As Great Britain is largely financing the allies it will be Great Britain that will do the buying, and, as we have before said, England is thus our only market. The British Government can best serve Canada by taking the entire crop available for export at a fair price. It is said at Ottawa that something of the kind will be done, and that Sir Robert Borden is laboring to that end. A recent enquiry from London as to the amount of wheat we will be able to export and the tonnage required may indicate that his labors are meeting with success.

But time is an important condition. Our neighbors are pretty well thru with their harvest and are clearing the way for the coming crop. We should have an authoritative announcement of policy before long so as to avoid any stampede, head off any bear raid and prevent any period of uncertainty that might tempt the farmer to sell his wheat at a sacrifice. Moreover, as we have already said, a portion of the crop at least should be delivered if possible in the shape of flour from the Canadian mills now equipped to grind fifty thousand barrels a day.

Canada is entitled to a substantial preference from the mother country at this time. We grudge no good fortune to our neighbors of the United States, but they must not crowd us away from the table. We are entitled to be helped first.

CANADIAN HOSPITAL UNITS ARRIVED AT DARDANELLES

Safety of All Three Officially Confirmed—Report of Loss of Canadian Nurses Is Without Foundation.

LONDON, Aug. 19.—Surgeon-General Jones authorizes us to state that all three Canadian hospital units bound for the Dardanelles have arrived in safety. No Canadians were on the Royal Edward, and rumors of the reported loss of some Canadian nurses are groundless.

The three units referred to, all of which went out on the Asturias, were No. 1 Stationary Hospital, in charge of Col. McKee; No. 3 Stationary Hospital, in charge of Col. Casgrain, and No. 5 Stationary Hospital at Cairo, in charge of Col. Everington.

GERMAN WARSHIPS AGAIN DRAWING IN UPON RIGA

PETROGRAD, Aug. 19.—(Via London, Aug. 20).—That German warships again are menacing Riga, the big Russian port on the Baltic, is indicated by an official communication issued here tonight. The communication says: "Our warships protecting the entrance to the Gulf of Riga yesterday drew closer in, owing to the great superiority of the enemy's fleet."

RESCUE WORK WAS MARVELOUS SAYS A TORONTO PASSENGER

Chas. L. Pringle Praises Crew for Coolness and Good Service—George Money of Stratford, Says it Was Wonderful.

QUEENSTOWN, Aug. 19.—George L. Money of Stratford, Ont., who with his daughter and brother, was returning home by the Arabic, said in an interview that the passengers in large numbers were enjoying the beautiful weather about decks after breakfast. Their attention had just been attracted to the steamer Dunsley, the boats of which were being launched.

The Arabic, Mr. Money added, was making toward the Dunsley when the streak of a torpedo fired from a submarine lying in the wake of the Dunsley, was seen making for the Arabic. There were cries of alarm and all hands made for lifebelts and lifeboats.

"Fortunately," continued Mr. Money, "all precautions had been taken, the lifebelts being in readiness on deck and the boats in position for launching. The torpedo struck the ship and there was a terrible explosion. The ship began to settle immediately and sank in a few minutes. It was marvelous how so many boats were got afloat in the few moments. I was an hour and a half swimming."

Charles L. Pringle of Toronto said tonight that most of the passengers of the Arabic were Canadians.

Discussing the work of rescue, Mr. Pringle said: "It was really marvelous that so many persons were saved. All the life boats were crowded when they were launched and some persons were thrown into the water. There were some very panicky scenes, but the crew kept cool heads and rescued most of those struggling in the water. The floating rafts did good service, several passengers clinging to them for a considerable time."

"One woman, the mother of three children, had an arm broken and became separated from her children when the boats were lowered. She did not know their fate until she met them at the landing place. It was an affecting scene as she clasped them to her breast."

The assistant purser of the Arabic said: "The torpedo hit near the engine-room and the boilers of the steamer exploded. This accounts for the rapidity of her sinking. The captain was the last man to leave the ship. The boats were rowed about for four and a half hours before they were picked up."

Whether Any of the Six Passengers Drowned Were Americans is Not Known—Vessel's Side Was Torn Open and She Sank in Ten Minutes.

TWO AMERICANS DROWNED

NEW YORK, Aug. 20, 2:30 a.m.—The White Star officials announced at 2:30 o'clock this morning that a revised list showed 20 persons missing from the Arabic. Of this number two are Americans.

LONDON, Aug. 19.—The big White Star liner Arabic, formerly a favorite ship of the Liverpool-Boston service, but which on her present trip was on the way to New York, was torpedoed and sunk by a German submarine at 9:15 o'clock Thursday morning southeast of Pastnet.

The steamer, according to a statement of the White Star Line, was attacked without warning and went down in 10 minutes. Of the 423 persons on board—181 passengers and 242 members of the crew—32 are missing, and are believed to have perished. Most of those who have not been accounted for belong to the crew. Only six of the passengers are reported missing.

Whether any of those not accounted for are Americans has not yet been determined, but there were only 28 citizens of the U. S. on board, 22 being in the second cabin and four in the stowage. The Arabic carried no first class passengers, having lately been turned into a two class liner.

The survivors who left the steamer in the ship's boats and were picked up later by passing vessels, arrived in Queenstown tonight. They are being accommodated by the White Star Line in hotels and boarding houses in the little town which so short a time ago cared for the survivors and the dead of the Lusitania.

Ready for Emergencies.

Details of the sinking of the Arabic are lacking, but that the loss of life was not greater doubtless was due to the fact that the weather was fine and that steamers plying the German submarine route now keep their boats swung out, and are otherwise prepared for emergencies.

The torpedo that sank the Arabic struck her on the starboard side 100 feet from her stern. The vessel had left Liverpool Wednesday afternoon and taken a southerly course, well off the Irish coast, doubtless with a view of avoiding the submarines which frequent the waters nearer the shore.

"When some fifty miles west of where the Lusitania was sunk in May, the German underwater boat rose to the surface and launched a torpedo. The marksmanship of the Germans, as in the case of the Lusitania, was deadly accurate, and, like the Lusitania, the big liner quickly settled and shortly disappeared from view.

Saw Another Ship Sunk.

Some of the survivors, according to reports received here, say that they had just witnessed the torpedoing of a British steamer, presumably the Dunsley, and that this had caused the great alarm on board the Arabic. In their fright the passengers had rushed for life preservers, and had barely adjusted them when the German submarine turned its torpedo against the vessel's side.

Ten Lives Aboard and a Number of Life Rafts were Quickly Got over the Side of the Steamer, and Into These a Large Number of Passengers and Members of the Crew Scrambled.

Many of the passengers, however, fell into the water, but they got hold of the rafts and clung to them, and later were rescued. One woman who fell into the sea screamed pitifully for help. The weather and tidal conditions being favorable, two sailors swam to her assistance and succeeded in lifting her upon a raft.

Among those who were rescued were Capt. Will Finch, commander of the Arabic, all the deck officers, the chief engineer, the surgeon, the purser, the assistant purser, the chief

Continued on Page 2, Col. 1.

ward and the third-class steward, Third Engineer Lagon is among the missing.

One of the passengers on board was Kenneth Douglas, well-known English actor. Mr. Douglas was on the Lusitania when she was sent to the bottom. His good luck followed him again today, for he is among the survivors.

Sensation in London.

When the news of the sinking of the Arabic reached London late this afternoon it caused a tremendous sensation. The first reports stated that it was feared a large number of the passengers had been lost. Crowds soon gathered at the White Star office making anxious inquiries as to friends and relatives on board the boat. Reassuring news came shortly by wireless, however.

Captain Finch was formerly in the Pacific Mail service, but for some years has been in command of the Arabic. The steamer is the largest yet sunk by the Germans, with the exception of the Lusitania.

Twelve Years Old.

The Arabic, which was owned by the White Star Line, was a steel twin screw steamer of 15,801 tons, 600 feet long and 65 feet at the beam. About half the size of the Lusitania, she was built at Belfast 12 years ago. She carried wireless and was modernly built and equipped throughout. Her master, as given by Lloyd's, is W. Finch.

On her last eastward trip the Arabic arrived in Liverpool on Aug. 6 from New York.

Following the receipt of a cablegram announcing her safe arrival, the bureau of combustibles of New York City allowed the fact to become known that two sticks of dynamite had been discovered on board the Arabic on July 27, the night before she sailed from New York for Liverpool.

The Arabic was under British registry at the port of Liverpool. Under normal conditions she could make not more than 16 knots an hour. This would make her trip to Liverpool in 27 hours, the night before she sailed from New York for Liverpool.

The White Star Company state that the total number of persons on board was 423, made up of 132 second cabin passengers, 48 in steerage and 243 members of the crew.

Fastest, of which the Arabic was torpedoed lies close to the lane of steamship traffic between England and America. It is about 40 miles west of Old Head of Kinsale, near which the Lusitania was sunk. German submarines have been active in these waters since the declaration by the German Government in February of a naval zone around the British Isles.

WILSON MUST ACT

(Continued From Page 1.)

tonight awaiting further reports and turning over in his mind what his next step will be. Many officials here believe that there can be only one step.

In view of the president's last note to Germany, officials were able to place only one construction on the act of the German commander. It is plain, they say, that Germany no longer desires the friendship of the United States as she had every opportunity to know that American passengers were aboard the Arabic and no reason to believe that all would be saved.

That no American lives were lost of the 16 on the vessel is regarded merely as extremely fortunate and in no way a palliating circumstance. The lives of the 16 Americans, while thought by certain officials to be a matter of some degree, is not regarded generally as affecting the grossly illegal and inhuman crime of the act of the German command. The safety of the passengers was not considered.

Disavowal Only Loophole.

The only loophole by which the German Government might escape the consequences of the deed of the submarine, officials say, is a complete disavowal of the act. This would mean either a complete disavowal also of the sinking of the Lusitania. It is not thought probable that the German Government will take this step in view of the certain hostility of the German people to such a course.

In some ways the Arabic case is regarded as a grave matter that of the Lusitania, as in the latter case the government was at least able to offer the argument that it was the duty of the American merchant ships to be of such a character that they should be able to take no such action in the case of the Arabic.

Furthermore, the Arabic was on its way to this country with a cargo which, it is believed, it is plain that the American merchant ships and of such a character that they should be able to take no such action in the case of the Arabic.

CLEAR DUTY OF WILSON TO DISMISS BERNSTORFF

New York Tribune Declares That Ambassador Should Be Given His Passports Without Delay—Attack on Arabic Answer to Wilson's Note.

NEW YORK, Friday, Aug. 20.—Under the caption "Deliberately Unfriendly," The New York Tribune says editorially:

"In every detail the German attack upon the Arabic fulfills President Wilson's definition of an act 'deliberately unfriendly' to the United States. 'Since this is the case only one road remains open to Mr. Wilson, there is only one course that he can follow with dignity and with honor. Without delay, further protest, any diplomatic exchange whatsoever, the German ambassador in Washington must be given his passports and the German ambassador in Berlin should be recalled.'

"It is time to have done with a nation which has repudiated every scrap of international law. It is time to have done with a state which has adopted a policy which is alike a challenge to humanity and a negation of all that civilization means.

Intent to Murder.

"We do not know whether more American lives have been lost or not. But what difference can this make? If the would-be murderer misses, if his bullet goes astray, does society less certainly incarcerate him? It is not the fault of the German command that every American on the Arabic was not drowned. All that the assassin could do was done. All that the butcher could do to make the massacre complete was done. If chance spared Americans, it was chance alone.

"The time has come now to act. To talk further is to encourage, not avoid, murder. It is to compound with infamy and continue relations with savagery. It is to write ourselves down willing victims, as consenting to the continued slaughter of Americans. In the Lusitania case the German ship, in disguise has slipped from the German

change. At Kovno the enemy continues to develop vigorously. He succeeded already in occupying the town, and advancing further has established himself in the adjoining district which forms the isthmus between the Niemen and the Wilia.

"At the Galician front there has been no change. At Novo Georgievsk the enemy is attacking the fortifications on the right bank of the Vistula, and on the Narow with increasing vigor. The fighting is of a most determined character. Our wire entanglements are covered with heaps of German dead. Nevertheless, the German artillery, which developed a maximum intensity of fire, succeeded in silencing our guns and demolishing the fortifications in the sector between the Wilia and the Narow, after which our defenders were obliged to fall back to the right bank of the Wilia. This enabled the Germans to concentrate their subsequent efforts on the northern sector between the Wilia and the Vistula.

VIENNA, Aug. 19, via London.—The following official statement was issued today at the Austrian War Office:

"Austro-Hungarian troops under Archduke Joseph Ferdinand and Gen. Von Koenig have broken through across the Bug north of Janow and Komarnyow. Niemlow and other places in the north bank were stormed and the enemy, who was there in force, now is being pursued.

"The troops investing Brest-Litovsk, in whose midst are the divisions of Field Marshal Von Arz, snatched from the enemy some advanced field positions.

"At Vladimir-Volynskiy and in east Galicia there is nothing new to report.

YORK COUNTY AND SUBURBS

SCHOOL MATTERS WERE DISCUSSED

Special Meeting of Ratepayers and Trustees in Fairbank District.

CONDITION OF DRAINS

Work on New Building Attacked and Coal Tenders Reviewed.

One of the most exciting meetings ever held in the Fairbank district was that held in the Vaughan Road School last night. Thomas Wilcox occupied the chair. The proceedings opened with a complaint by R. Blackmore, a hardware dealer in the district, who stated that a lot of goods had been stolen from the school trustees without calling for tenders.

School Trustee, J. Wilcox, said: "We gave Mr. Burroughs the work of whitewashing the basement of the new school and the work being satisfactory we gave him other work, both at the Vaughan Road and Green School, without tendering, but with the consent of the board of trustees. The quotations were very satisfactory."

Work on Drains.

Regarding the work on drains in the new building, considerable discussion arose. Geo. Prior asked for the figures quoted by the contractor, both by contract and by day labor. J. Wilcox said in reply that the contract price was \$18.00 and the day labor estimate was \$27.70. "We had the work done by day labor."

J. Wilcox described the imperfect state of the drains and the pump holes. School Trustee, Duncan Hood, also took exception to the new drains. "They are not working properly and the new basements are in an unsanitary condition," he said.

E. Birch said: "They have worked properly for two years and have been put in perfectly and correct with proper falls."

A member asked: "Are the drains properly passed by the inspector?" J. Wilcox: "They were passed by the architect, and I think the architect is to blame."

School Trustee Hooking said: "We hold money of the architects, and we may make them pay the damages." The coal contracts were next discussed. H. J. Hill asked for the tenders on coal supplied to the school. Trustee J. Wilcox said the Millar Coal Co. quoted \$5.50 per ton for smokeless lump coal, recommending this quality. He did not specially ask for other tenders were received from the Wychwood Coal Co. and the Fairbank Coal Co., who each quoted \$6.75 per ton.

"A deal of under current against the school trustees," said George Fryer. "They are doing their best in the interest of the people who have put their money into them, and they are entitled to our hearty support."

Trains leave Toronto 2.45 daily, and 12.01 noon daily except Sunday, making direct connection at Muskoka Wharf for all points on the lakes. This is an excellent opportunity to spend the week-end in this delightful district. 56

STEPHEN LEACOCK AGNES C. LAUT ALAN SULLIVAN H. F. GADSBY L. M. MONTGOMERY

Many of the best writers that Canada has produced are now contributing to MACLEAN'S MAGAZINE. As a result of the efforts made to secure the best work of the biggest writers, the September Maclean's now on sale, contains a number of outstanding features, including:

"The Lot of the Schoolmaster,"

by Professor Leacock, at his best—which is high praise indeed. The first of a new series by STEPHEN LEACOCK, the modern master of smiles.

"Is the End of the War in Sight?"

a powerful article on the financial phases of the war situation by Agnes C. Laut, the greatest of Canadian business writers and a "head-liner" with leading American publications.

"Where a Man Can Hold Up His Head,"

by ALAN SULLIVAN, the best war story yet written. This is a classic in sheer power of description, a story that will live, it perhaps derives some of its strength from the fact that it is based on actual fact.

A new love story by L. M. MONTGOMERY, and a breezy sketch by H. F. GADSBY, are two more features out of thirty. In fact, the very best Canadian writers all in one issue.

BRITISH AND GERMAN CONSULS ARE ACCUSED

Big Sums Alleged Furnished to Men Indicted at San Francisco.

SAN FRANCISCO, Aug. 19.—Allegations that the Imperial German Consulate and A. Carnegie Ross, British consul at San Francisco, furnished a quarter of a million dollars, directly and indirectly to men under indictment for violations of the neutrality of the United States, were made in indictments made public today by John W. Preston, United States district attorney.

HAIL STORM CAUSED HAVOC AMONG WHEAT

Tuxford District in Saskatchewan Suffered Severe Loss.

MOOSE JAW, Aug. 19.—The hail storm which swept the district south and east of Tuxford last evening about 6.30 was the most disastrous experienced for several years, and a total of 425 acres of crop was completely hulled out. These figures were given by Mr. Abbott, municipal councillor, who is in charge of all insurance and who has visited all the farmers. A strip about three miles wide and seven in length was swept by the storm.

WATCHED ANOTHER SHIP SINK AS THE ARABIC WAS STRUCK

Passengers Saw Nearby Steamer Go Down a Few Seconds Before Their Vessel Was Hit.

Special Cable to The Toronto World.

LONDON, Aug. 19.—The Daily News correspondent says: "Three hundred and seventy persons rescued from the Arabic landed at Queenstown at 6 o'clock this evening. A large number of them were badly injured. I learn that the ship sank in six minutes. The whole of one side was blown away. The number of those injured were engaged in watching another ship being torpedoes when their own vessel was struck. The survivors were four hours in the ship's boats before being rescued."

GOLD NOT WANTED BY UNITED STATES

British Financial Authorities Believe Solution Lies in Big Loan.

NEGOTIATIONS BEGIN

Treasury May Take Quick Action to Relieve Acute Situation.

LONDON, Aug. 19.—Negotiations are proceeding among the leading financial and governmental authorities in regard to the problem of American exchange rates, but there are so many details to arrange that it is not expected a definite announcement will be made for some time, unless the Treasury, in view of the seriousness of the situation, should decide upon quick action. The belief prevails in financial circles that America, as a matter of self-interest, would prefer to take a dollar loan of one, two or five years' duration rather than such a huge quantity of gold as Europe apparently is willing to purchase at a rate of nearly \$27,500,000 already has been sold from the Bank of England since last Saturday and opinion favors a loan or the establishment of a credit as likely to cause less disturbance in the money market and speculation in New York.

The market was less excited today. Cable transfers opened at 4.88 and eased later to 4.87 1/2. Buyers expected the rate to fluctuate until the pending question is finally settled.

To the Panama Pacific Exposition Via

At the present time a great many are planning their annual tour. Considerable numbers visit the popular California resorts, while many journey to the unsurpassed resorts, palatial hotels and magnificent scenery of the Canadian Rockies. This year why not combine the two by a visit to the Panama Pacific Exposition?

Numerous people in comfortable circumstances are able to afford a trip. There is a mistaken idea that a journey of this nature is most expensive. This is not so; thanks to the modern railway facilities, an extensive trip, both interesting and educational, can be made with speed and comfort at a comparatively small cost. Why not investigate?

Two Canadian Survivors.

LONDON, Friday, Aug. 20.—A Queenston message this morning says: A Pringle and John Dolomier, Canadians, are among the survivors of the Arabic.

PARRY SOUND DISTRICT NOT DAMAGED BY STORM

James Boyd, Government Judge of Field Crops, Gives Good Report of Conditions.

James Boyd of Cedar Grove, one of the government expert judges on field crops, has just returned from an extended trip thru the Parry Sound district.

Mr. Boyd states that the crops, considering the conditions, are and have been doing well, and have been put in perfectly and adapted for potatoes and peas. No damage has been done by the storm and the crops are about the average.

The hillsides afford good pasture for sheep, and the valleys for beef cattle. To be successful, Mr. Boyd states they are a farmer should own at least 1,000 acres, of which about 25 per cent should be workable land.

He will not visit the Dundalk and Sheburne districts.

CANADA'S TRADE LOOKING BETTER

Report Shows Marked Increase in Exports Over July.

IMPORTS FALL AWAY

Business of Last Four Months Was Very Satisfactory.

By a Staff Reporter.

OTTAWA, Aug. 19.—The volume of Canadian trade for July shows a marked increase over the same month last year, \$100,000,000, as compared with \$82,000,000.

The most satisfactory feature of the report is the increase in the domestic and foreign exports. Domestic exports for July amounted to \$45,000,000, and foreign exports to \$57,000,000, as compared with \$41,000,000 and \$58,000,000, respectively, in July last year.

Eleven million dollars' worth of animals and animal products were exported, which was an increase. Manufactured goods exported were \$12,500,000, as against \$5,800,000 a year ago.

There is a falling off in the imports of merchandise entered for consumption. Last month they were \$36,000,000, as compared with \$42,000,000 a year ago.

The total Canadian trade for the first four months of the fiscal year shows a large increase, amounting to \$371,000,000, as compared with \$305,000,000.

Thirteen million dollars worth of coin and bullion was exported last month.

**GIRLS IN FACTORY
WORKED TOO HARD**

**Sharp Criticism of Methods in
Knitting Mills Heard at
Meeting.**

TAKE AWAY ORDERS

**Labor Council Will Investigate
and Ask Government
for Action.**

Some sharp criticism of the knitting mills and other factories in Toronto working on war contracts was made at the regular meeting of the Toronto District Labor Council at the Labor Temple last evening. One delegate stated that in one knitting mill from 7 in the morning until 11 o'clock at night, with no time allowed for lunch, and were only receiving 38c per week, and another delegate declared that the same conditions existed in at least five other factories in the same line of business.

It was also stated that the men working in a Toronto factory on war supplies were only receiving 20c per hour and working sixty hours per week, while men in the United States doing the same kind of work were receiving from fifty to sixty cents per hour.

"The country can only look to labor for the manufacture of war materials," declared James Simpson, "and the manufacturers should not be allowed to 'sweat' their employees in order to make a profit out of such orders." He moved that the meeting be invited to the labor council, and that a mass meeting be held to bring the full weight of the labor movement to bear upon the government, asking that orders be immediately taken out of the hands of such manufacturers, and that something be done to take out of the war contracts the incentive to "sweat" the workers.

Attention was drawn to the government inspectors, who, it was declared, looked after the men, but nothing was done for the women who have no votes. "The government gives permits to break the contract on account of war exigencies, because the employers have a hold on the government," declared one speaker.

Secretary Stevenson thought that if the government in Canada would work along the same lines as the government of Great Britain there would be less trouble along these lines. "Some 200 factories in the old country have been taken over by the government on account of the treatment that was accorded the employees," said he.

The motion of the organizing committee that a picnic be held on Sept. 14, to defray the expenses of organizing the waitresses of the city, was carried. Speaking in regard to this work, Robert Stevens said that the waitresses were up against a hard proposition. "The average employer of waitresses is not in sympathy with womanhood. The girls have to depend largely on the tipping system, which has been ground down since he war started."

**SOME VIVID STORIES
FROM MEN AT FRONT**

**Members of Staff of Canadian
Bank of Commerce Have Written
Their Experiences.**

A handsome pamphlet just issued by the Canadian Bank of Commerce is entitled, "Letters from the Front" and tells of the part played by the staff of the bank in the great European war. The pamphlet contains the names of 480 of the officers of the bank who are undertaking military duty and also an honor roll of 17 Bank of Commerce men who have either been killed in action or died while on active service.

There is also a casualty list showing that so far 28 of the staff have been wounded, three taken prisoners of war, four missing and four seriously ill. One half of the pamphlet is devoted to letters from bank officers from the front, containing graphic descriptions of the war by men who have been "right in the thick of it."

Special to The Toronto World.
MONTREAL, Aug. 19.—The Royal Bank people recognize that public opinion is against the proposed merger of the Bank of Hamilton, and they are making great efforts today at this end to influence the minister of finance, or rather other members of the government, who in turn might be able to move Hon. Mr. White. The press bureau that was engaged to promote the deal has had to withhold further operations, tho' it managed to get its first carefully prepared statement in a Toronto evening paper last week. The paper that accepted and printed it has since stated that it got into its columns by accident, and any way it was only a street rumor. It is known here that it was carefully prepared by the press bureau, and was to be fed out to other papers as well. The suggestion contained was that the merger was an act of mercy to the wounded. The minister of finance would be justified in putting the secret service officers at work to investigate this article, and to find out just how it got in print. It was no accident. It was seen here typewritten before it was printed.

A fare of 75c return is good on 2 p.m. 2:45 p.m. or 5:05 p.m. steamers, and returning the same day. A special late steamer will leave for Toronto at 10 p.m. Tickets at 45 Yonge street or Yonge Street Wharf.

POLITICAL INTELLIGENCE

In a long editorial which strives to be judicial in tone, but speaks as one with authority, The Toronto News discusses the present political situation. It frankly admits that there has been some slipping on both sides during the informal political truce. It further declares that in the event of a Dominion election, Sir Wilfrid Laurier and the Liberals may expect to have their record on the breadbasket issue held up to public reprobation. But the article also extends the olive branch by suggesting that the two political parties get together in a real and lasting truce.

The News is of the opinion that the lifetime of the present parliament should be extended for two or three years after the close of the war. That would prolong the lifetime of parliament to 1919 at least. It is a fair surmise that such an agreement would mean a "coalition government." That particular phrase is studiously avoided, but The News says:

It is surely fair to ask that the life of parliament shall be extended for two or three years after peace is proclaimed if the government is to forego the right of dissolution. If such an agreement could be effected between the parties ministers would be free to give all their energies to the prosecution of the war, and to the great problems of finance and administration which demand unremitting attention. Such an agreement would enable the two parties to co-operate in the conduct of the war as they cannot co-operate if an election is imminent.

The News says in effect that the government now has the whip hand because it can have an election whenever it pleases. But if it calls another session of parliament, the Liberals may harass the ministers, hold up business and force the government to "peg out" at a most inopportune time. The party in power loses the advantage of being able to pick its own time for election when parliament grows old enough to be in danger of dissolution by the efflux of time. Hence the Liberals are notified that they must make terms or get ready for an election. Indeed there is what may be interpreted as a veiled threat to bring about an election at once if the opposition makes no response to the overtures of the government.

It has not been the practice in Canada or in Great Britain to allow parliaments to run for the full statutory period. There were four-year parliaments under Sir John Macdonald and under Sir Wilfrid Laurier. No parliament expired by effluxion of time during all the years that Sir Wilfrid Laurier held office. The Liberal leader understood that in a fifth session the government would be practically at the mercy of the opposition and that no expedient to embarrass ministers would be neglected. An opposition has great power to hamper a government facing the country. This power is invariably abused. In practice we have established the right of a government to dissolve after the fourth session and this is amply supported by British precedent.

This editorial utterance follows hard upon the heels of an Ottawa despatch published a few days ago in many of the leading conservative newspapers. That despatch said in substance that parliament would be summoned at an early date, that the Liberals would be asked to agree to an extension of the parliamentary term and if they declined to so agree the government would at once appeal to the electors.

The Toronto Mail the day after the Manitoba election practically came out for a coalition government. With this evidence before him one might be inclined to think that the Conservative "Basis is within." But the Liberal Peggotty has yet to be consulted. Until yesterday the opposition newspapers had nothing to say on the subject. But now the Ottawa correspondent of The London Advertiser telegraphs his paper that a campaign for a coalition government in Canada has been launched. It has been in progress for some weeks. The plan has been deliberately formulated and the educational work is being carefully done at the present time chiefly by the Conservative newspapers.

The correspondent, who is a well-known newspaper man in close touch with Sir Wilfrid Laurier, and his chief lieutenants, writes from a party standpoint, declaring that a number of business men all over the country are inquiring upon the government calling to its aid the wisdom, counsel, and experience of Sir Wilfrid. He also goes on to say that the government does not want another scandal probe by the public accounts committee like the one which resulted in turning two of its supporters out of parliament. Finally he declares that Hon. Robert Rogers wishes to head off any further investigations in Manitoba and will gladly retire from active politics to become Canadian high commissioner at London.

The despatch adroitly prepares the faithful for a deal between the two political parties in the near future. The government is charged with making the overtures from partisan as well as patriotic motives, but the assurance is given that if any arrangement is made, a number of Liberal statesmen will be given cabinet portfolios.

Mr. Rogers is disposed of by sending him to London. Possibly the Nationalist ministers will be put to the sword and other cabinet vacancies created by appointments to the bench and to the senate.

If a coalition government was formed, Sir Wilfrid Laurier would be an outstanding figure. Some Conservatives might bitterly resent his being called to the cabinet, while some extreme Liberals would be sore if where he sat was not the head of the table. The Advertiser, among other things says:

"Two elements are promoting it and two have inspired it. A strong group of business and financial men have decided that Canada stands sorely in need of the statesmanship, wisdom and experience of Sir Wilfrid Laurier, who was at the head of affairs during the period of Canada's greatest development. In this time of stress, leading men within the Conservative party feel that greater capacity than possessed by the Borden government is available and that the first essential step is to secure the presence of Sir Wilfrid Laurier at the Canadian Council Board.

The other element behind the movement is represented by a group of practical politicians. They feel

that the position of the Borden government has been seriously weakened by the disclosures of improper expenditure. Revelations before the public accounts committee and the Davidson commission resulted in two Conservative members leaving parliament in disgrace, and profoundly affected the country.

How far the movement which seems to have now some support from both sides will proceed remains to be seen. Undoubtedly a number of substantial men thruout the country are opposed to election which must be one of great bitterness with wholesale charges of disloyalty being hurled against many people. They feel, moreover, that we have some big problems that must be settled in Canada; the railway situation, the financial question, and immediately after the war the question of colonization and settlement. It may be, therefore, that the movement begun by politicians will receive unexpected support from the people.

The Orange Sentinel calls The Winnipeg Free Press down for hounding Hon. Robert Rogers. The Sentinel says that Mr. Rogers was not on trial at the Manitoba election, that the election turned upon purely provincial issues. No doubt the Norris government would be tempted to continue a scandal hunt for the purpose of getting at Mr. Rogers, who is a dangerous man at election times. It may also be true that the Liberals would be suspicious of Mr. Rogers as a member of a coalition government. At any rate a situation is apparently developing in regard to Ottawa which is well worth watching.

**PREMIER TO SPEAK
ON CHILDREN'S DAY**

Accepted Invitation to Address Directors of Canadian National Exhibition.

ARRANGE EVENTS

Hon. Geo. E. Foster, Sir Wilfrid Laurier and Maj.-Gen. Hughes Expected.

Premier Hearst on his return to the city yesterday notified Dr. Orr that he would accept the invitation to speak at the directors luncheon on School Children's Day, Wednesday, Sept. 1. Hon. Dr. Pyne is not expected home from England in time to take part in the ceremonies on Education Day. Hon. Geo. E. Foster will be the speaker on Empire Day, Tuesday, Aug. 24. Hon. J. D. Hazen will be the guest of honor on Friday, Sept. 3, Fisheries Day, when in honor of the occasion the executive of the Fisheries Association will meet in Toronto. Formal acceptances have not yet been received from cabinet ministers and others invited to take part in the proceedings on other days of the Fair, tho' it is expected that both Sir Wilfrid Laurier and Maj.-General Sam. Hughes will be here at different times; the minister of militia likely on Military Day, when the Duke will review the troops.

Tho' they are not yet all compiled the livestock entry list is already largely in excess of any previous year and the management expect that it will be necessary to erect temporary quarters to care for the overflow from the permanent sheds and stables.

UP TO FULL STRENGTH.

Major J. H. Moss, commanding officer of the Mississauga Horse, stated to a reporter of The World last night that in addition to carrying on recruiting for immediate overseas service, the regiment was to be brought up to full strength. Large gaps in the ranks had been caused by the recruiting for the 75th Overseas Battalion, and this opened an opportunity for a large number of men who at present find it impossible to serve overseas to "do their bit" by enlisting in the 24th M. H. and receive a training which should be desired by all able-bodied men during war times.

An existing issue of uniforms has been secured by the regiment, this will ensure all recruits a new, clean equipment as soon as they have passed the doctor.

STUDEBAKER

\$1195

**Forty Horse Power
Seven Passenger FOUR**

Facts—not claims—that makes Studebaker the best car the world's greatest automobile factories have ever built.

This is a history-making car—in power, size and quality. In power and flexibility, this FOUR equals most SIXES now on the market. Price has been reduced from \$1250 to \$1195. But the wheelbase has been INCREASED from 108 to 112 inches. The capacity has been INCREASED from 5-passenger to SEVEN-passenger. The motor has been INCREASED from 3 1-2 x 5 inches to 3 7-8 x 5 inches. The tires have been INCREASED from 33 x 4 to 34 x 4 Dominion. The cooling system and radiator have been INCREASED in size. The seats have been INCREASED in width. The upholstery is the FINEST obtainable grade of genuine hand-buffed, semi-grazed leather.

Nothing decreased but the prices. Wherever a change was made in materials, better materials were used. It is NOT "essentially the same car as last year" at a less price. It is a much BIGGER and BETTER car at a less price.

**ENGLAND TO HELP
GERMANY BY WAR**

Sensational Statement Attributed to Sir E. Gray by German Chancellor.

FIGHT FOR NEW EUROPE

Ambition to Excel in Works of Civilization Amidst Peaceful Competition.

Special to The Toronto World.
MONTREAL, Aug. 19.—The Royal Bank people recognize that public opinion is against the proposed merger of the Bank of Hamilton, and they are making great efforts today at this end to influence the minister of finance, or rather other members of the government, who in turn might be able to move Hon. Mr. White. The press bureau that was engaged to promote the deal has had to withhold further operations, tho' it managed to get its first carefully prepared statement in a Toronto evening paper last week. The paper that accepted and printed it has since stated that it got into its columns by accident, and any way it was only a street rumor. It is known here that it was carefully prepared by the press bureau, and was to be fed out to other papers as well. The suggestion contained was that the merger was an act of mercy to the wounded. The minister of finance would be justified in putting the secret service officers at work to investigate this article, and to find out just how it got in print. It was no accident. It was seen here typewritten before it was printed.

Against Powerful Russia.

The chancellor explained that he interpreted these words to mean that England desired the friendship of a beaten and weakened Germany as a counter-influence against powerful Russia. England would be ready to use such a Germany—a weak country, without industry and without a navy.

The chancellor's report of this scene in London caused a profound sensation in the Reichstag.

The Germans never aspired to a European hegemony, the chancellor concluded. "Their ambition was to excel others in the works of civilization amidst the peaceful competition of large and small nations."

"We shall continue to fight until the enemy nations ask peace from their own guilty governments, and until the way is free for a new Europe."

**Notes of Women's
World**

A "battle quilt" worked by Phoebe Atkinson, 196 Dovercourt road, was brought into The World office yesterday. The quilt is an ingenious composition, designed to represent the different forces and instruments taking part in the war. Flags, tents, guns, cannon and patriotic emblems enter into the make-up. The lady who evolved the quilt hopes to show it at the Exhibition, and then award it to the patriotic cause.

**SMART FOOTGEAR
FOR FALL WEAR**

Light Tops Tabooed by Reliable Authorities—Replaced by Black.

BRONZE AND BUCKLES

And Pretty Novelty Ornaments Are Displayed on Dress Shoes.

Conspicuous footwear has had its day! All the newest and most exclusive lasts display only the quietest patterns and colors. Very few models developed in anything but black are considered smart for fall street wear; and the material chosen to represent the best in up-to-date foot attire is a rich, dull, pliable kid. Of course, quite a number of reliable makers are showing handsome uppers of cloth, satin or velvet, but always in the same tone as the rest of the model, and in most cases this is black. Light topped shoes are rarely seen, except in dress shoes, when white is tastefully introduced with black, or two tones of gray combined.

The bronze shoe is one of the few exceptions, and along with a few stunning lasts in navy blue, dark green or taupe, is enjoying a certain amount of popularity with the woman who features the one-toned effect in her entire costume.

Low-cut models are particularly dainty, and the materials used, Smart patent pumps with square heels and severely fashioned silver buckles vie with the soft kid slippers with tiny straps and spool heels of glossy height. Very stylish are the side-laced Oxford, in patent and dull kid, and for early autumn wear this type of shoe is given preference over higher models.

For evening wear very slender pointed styles are displayed with handsome buckles—gem-studded or carved in jet, gold or silver.

NO CANADIANS WERE ABOARD ROYAL EDWARD

Any Lingering Doubts Set at Rest by Official Assurances.

MONTREAL, Aug. 19.—"Cable received. No Canadians on board Royal Edward, Carson."

This was the terse cablegram received yesterday by Mr. George Hardill, secretary of the Montreal Board of Trade, from Brigadier-General John Carson, in charge of the Canadian records office at London, in response to inquiries as to whether any Canadians had been on board the Royal Edward that was sunk by a German submarine with upwards of a thousand British troops in the Aegean Sea last Saturday.

ADMIRALTY CONFIRMS.

OTTAWA, Aug. 19.—The following message has been received from the British Admiralty in response to inquiries from the Canadian Government:

"As far as we know there were no Canadians on the Royal Edward at the time she was torpedoed."

**RARE OPPORTUNITY
TO GET RECRUITS**

Unusual Field in Crowds at Exhibition Not to Be Overlooked.

HAD A RECORD NUMBER

Ninety-Six New Men Examined and Passed by Toronto Depot.

That the military authorities of the Toronto division intend to give citizens visiting the National Exhibition an opportunity to enlist for active service while taking the sights was made known in an official order received at the Toronto recruiting depot in the armories yesterday.

The order reads: "The recruiting officers of the Toronto military depot are invited to arrange for a proper recruiting detail to recruit at the Exhibition grounds during the entire period of the Toronto National Exhibition."

Major R. K. Barker, inspector of cadets, has arranged to provide a marquee tent for this purpose.

Record Number.
One hundred and ninety-six recruits for overseas were examined, passed and attested at the Toronto Recruiting Depot at the armories yesterday. It was the record day, two more being received than on Monday, the opening of the depot.

Recruits joining the artillery were sworn in during the first four days by the depot is 693, or an average of 173 enlistments per day.

"Recruits joining the artillery will be uniformed immediately after being passed." This was the pleasing announcement made yesterday by Captain E. P. Johnston, commander of the 9th Battery C.F.A., who opened a permanent artillery recruiting office at the armories this week. Recruiting was brisk at the office yesterday.

Word that artillerymen are wanted has quickly spread over the province, and men are telegraphing to the armories asking that places be held open for them. Two telegrams were received from Port Arthur yesterday, also on Friday. One recruit asked his questions by long-distance phone from Milton. Artillery recruits, uniformed within about 24 hours, were on parade yesterday, and in high spirits at their quick change into "soldiers." The artillery recruiting office is open from 9 to 6 daily, and on Tuesday and Friday evenings.

School of Instruction.
Members of the 9th Battery, C.F.A., who are willing to go overseas may attend the school of instruction for non-commissioned officers, which the Royal School of Artillery at Kingston opens on October 1. Men attending the course will have all expenses paid and also receive pay from the government.

Official figures issued last night gave overseas men in training in the city as follows: Q.O.R. for 83rd Battalion, 67; 19th B.G., for 83rd, 127; 12th York Rangers, surplus, 137; 36th Peel, surplus, 142; 48th Highlanders, for 92nd, 84; 10th Regiment, for 84th Battalion, 21; G.G.B.G., surplus, 8th Mississauga, for 75th and 84th Battalion, 147; 9th Battery C. F. A., 15. Total, 1260.

The Royal Grenadiers, who has been promoted to the rank of major in the 35th Battalion.

Twenty overseas recruits were obtained yesterday at the Citizens' Recruiting League tent on the city hall lawn.

83rd Reach Niagara.
Another battalion of Toronto men for overseas, the "83rd," commanded by Lieut.-Col. Reginald Pellatt, sailed away to Niagara yesterday morning to continue training at the big military camp, where 12,000 troops are now under canvas.

Several thousand people lined the streets at the 83rd Battalion, headed by its brass band, marched down to the waterfront to embark on the "Chicago." Every man was in uniform and the regiment presented a smart appearance.

Lieut.-Col. A. G. Peuchen at the armories made an address to the two

companies of the 83rd Battalion, which had been furnished by the Queen's Own. He said: "I may remind you that you are members of the oldest regiment in Canada and I feel sure you will do honor to your battalion. We have kept its reputation untarnished for fifty years, and you will do your share in adding to its fame and its glorious traditions."

Has the Mud Wall Nothing to Conceal?

We have been asked what there is to be seen on the Esplanade in the way of scenic beauty which could be concealed by the utilitarian grace of a mud wall. We confess that at present there may be little to choose between a mud wall and some of the Esplanade structure.

If our contemporary prefers the view of a mud wall to the glorious improvements that are to be made on the water front "right out to the windmill line," with gleams of purified bay water and leafy island trees in the distance, we can only suggest that the view of a mud wall will always be possible by a visit to High Park.

Why multiply mud walls? The hydro-electric radials are to be put up in the air on top of another mud wall behind the first one on the Esplanade. Anything is possible under Mayor Church, and it may be as we suggested before, that the militia department regards these mud walls as valuable means of defence for the city.

We wonder who suggested that we were pre-Raphaelites in the matter of mud walls. It appears to have been used as a term of reproach. The pre-Raphaelites were devoted to truth and beauty. Are these matters of scorn to Mayor Church and his friends?

Is Dr. Paul Carus a German Spy? There are many channels of investigation besides those now being described in the American papers...

There are many channels of investigation besides those now being described in the American papers through which the hyphenated and other German have been pouring their tainted messages into the minds of the gullible United States public.

One of these channels is the Open Court Publishing Company of Chicago, which has done much good work in its time in the realm of comparative religion and scientific work of various kinds under the guidance of Dr. Paul Carus, a clever linguist and philosopher.

A pamphlet has just been issued by Catherine Cook, from the Open Court address, nominating an editorial by Dr. Carus, in which he joins the misleading throng of German agitators.

Dr. Carus is too clever to be deceived by such humbug, and he must know very well that the only nation in the market for such ammunition is his own fatherland. He declares, after Lissauer has repudiated his celebrated hymn, that "the hate against England is a holy hate."

It is difficult indeed to understand Dr. Carus' hate. He should have stuck in his "Gospel of Buddhism," with its lessons of truth and love, and he should remember, too, that his book is taboed by the same prophet of love and truth under the guise of "The Yellow Peril."

It would be interesting to know if Dr. Carus has been playing the spy all these years in America like so many others, or is he merely as innocent and open as his pamphlet would imply? We cannot get over the anti-

mus that Dr. Carus displays in his concluding paragraphs, where he taunts the American papers with having proclaimed "that the retreat of the English was one of the world's most glorious military operations."

Until Dr. Carus returns to the intellectual pursuits in which he made his reputation, it might be well for the postmaster-general to consider the advisability of forbidding the Open Court German propaganda by the use of the Canadian mails.

Business Blundering in Big Mergers. When an important merger occurs among manufacturing interests, or any interests concerned with the production of staples, it is a remarkable thing that the promoters seem to forget all the principles of business by which they have previously gained reputation or established themselves on a sound basis.

One object, and probably the main object of a host of little manufacturers, is to establish a monopoly. When the monopoly is once established, the next step, it might be imagined, would be to place it on an absolutely sure and safe basis.

It would be a simple matter to do this with the resources at the disposal of most large incorporations. What, however, is the usual custom? It is to begin a method of business which immediately results in the encouragement of a host of little manufacturers to start in competition once more.

The big merger, with a clear field, closes up several of its factories to reduce output. It raises prices on the goods it produces to the retailer. It lowers its prices for raw material and discourages the grower. It prepares the way, in fact, for future competition.

To establish an absolutely unsalable monopoly, the obvious way would be to recognize the rule that profits are not made on high-priced sales, but on savings. The discounts possible on big purchases of raw material, or by growing supplies under the auspices or ownership of the merger, are themselves a profit.

The savings cut off by consolidation are another profit. The savings on handling, packing, freightage, etc., in large quantities, are another profit. Another source of stability is the building up of a large business, the larger the better, and in many staples the expansion is an almost unlimited possibility.

Small profits on huge turnovers are the secret of stable business. This factor works in with another important consideration—the exclusion of competition. Low prices gather in the big business and place competition in a hopeless case.

Now, in the case of difficulties in any of the mergers of the last ten or twenty years, it will be found that many, if not all, of these rules have been violated. Prices have been put up, with the result of curtailing demand and stimulating competition.

Output has been restricted, with the result that prices could not be cut to meet competition, and quality has been lowered to assist this foolish policy. Restricted output has prevented control of raw material, and instead of expansion the business has shown a tendency to remain at a stand or even to go backwards.

With a whole country to expand in, and certain profits and steady growth to be had by catering to it, the marrow, grasping and short-sighted method has been adopted with the inevitable result. Certain profits are more desirable than uncertain, yet the reluctance to do the whole business possible with the credit of serving the country, and the moral advantage of employing large staffs and encouraging allied industries in producing raw material, have been ignored again and again. Where success has been achieved the rules for big and stable business have been followed.

Cardinal Vannutelli IS DEAD AT ROME He Was One of the Most Influential Members of Sacred College.

ROME, Aug. 19.—Cardinal Serafino Vannutelli, dean of the Sacred College, is dead at the age of 81.

Cardinal Vannutelli was one of the most influential of those members of the Sacred College eligible to the papacy. He was one of the six cardinal bishops who take their title from the Suburban Sees of Rome.

He was Bishop of Porto, Santa Rufina and Ostia. He was created and proclaimed cardinal by Pope Leo XIII, March 14, 1887.

The cardinal was born November 26, 1834, at Genazzano, in the diocese of Palestrina.

FRESH LANDING AT SUVLA BAY

British Made Slight Progress Against Large Turkish Forces. LOSSES WERE HEAVY All Positions Consolidated and Troops Are in Fine Spirits.

LONDON, Aug. 19.—Additional troops have been landed by the British at Suvla Bay, Gallipoli Peninsula. This announcement was made here officially this afternoon.

The war office admits that after heavy fighting, in which no satisfactory progress was made, the British advance was halted. Losses on both sides were very large.

The text of the statement follows: "The recent operations of the Gallipoli Peninsula consisted of attacks on the enemy's positions along the southern and Anzac lines, and included the fresh landing of a strong force at Suvla Bay."

"There is evidence from prisoners' statements that the Turks had been considerably reinforced, with a view to heavy attacks on us, and that our forces had the enemy's strength in view of the fact that the importation of cattle for breeding purposes would be considerably lessened, if not cut off altogether during the period of the war and for a long time after."

The manufacturers of farming implements are also taking more space than ever, arguing that the demand for farm products will give them one of the best selling years in the history of the country.

PLACING MACHINERY FOR CHANNEL WORK Big Derrick and Pile Driver to Be Busy Very Soon, Says an Official.

"We will positively have our big derrick and pile driver at work within the next day or two," said one of the officials of the Hodge Company yesterday when asked when the work on the ship channel east of the bridge would be gone on with.

DOUGHTY LIKELY TO BE APPOINTED

Eleven Aldermen Favor Him for Fire Commissioner-ership.

OPPOSITION TO SPENCE Seventeen Members of Council Are Not Likely to Support Him.

A canvass of the aldermen as to C. J. Doughty's chances for being appointed fire commissioner at the next meeting of the city council would indicate that after Monday the fire department troubles will be over as far as council is concerned, and that Mr. Doughty will head the department.

There is considerable objection in civic circles to holding a by-election in ward six to fill the place of Ald. David Spence. It would cost over \$2000, and it is not thought that the expenditure of such a large amount is warranted with the year so far spent.

HARDLY ENOUGH TO MAKE MARKET

About Three Hundred Cattle, Including Left Overs, Were on Sale.

CHOICE SOLD QUICKLY

Steady Prices for Good Butchers' Stock and Extra Fine Wanted.

The receipts of live stock at the Union Stock Yards yesterday totaled 51 cars, 874 sheep and 830 horses. There were hardly enough cattle on sale yesterday to make a market, probably about 300 all told, including some left over from Wednesday. The few good butcher cattle present were quickly bought at steady prices. Buyers for the extra choice beefs. The common dairy lots brought no better prices than yesterday, the bids for bulls being slightly easier. The market was soon sold out. Stockers and feeders have been more active this week than for some time. The demand is still strong. Yearling steers are wanted on order from United States, and choice feeders and stockers for points in Ontario. Good and choice milkers and springers were fine. Wm. Etheridge bought 1600 lbs. showing excellent milking qualities, also a fine Holstein milker for \$100 each. The common classes are not in strong demand. Sheep and lambs had a fair run with prices steady at the mid-week close. Only a few calves came in; choice veal calves steady at 10c to 10 1/2c. The run of hogs for the week has been quiet. Prices are firm and unchanged since Monday.

Market Notes. It is the intention of the Toronto packers to again hold a live stock demonstration at the Canadian National Exhibition. This demonstration exemplifies the profitable and the bad kind of live stock from a feeder's as well as a packer's standpoint. Two O.A.C. graduates have been secured as lecturers, and it is well worth anyone's time to visit the demonstration, which will be held in the live stock division. Jos. Devlin, Ottawa, former well-known cattleman, is seriously ill with pneumonia and not expected to live. Butchers' Cattle. Extra choice butchers' stock at \$7.50; choice butchers' cattle, \$5 to \$5.25; good at \$7.50 to \$8; medium at \$7 to \$7.50; common at \$6.50; common stockers at \$5.25 to \$5.50; stock heifers at \$5.25 to \$5.75; milkers and springers at \$5.25 to \$5.75; medium cows at \$5.25 to \$5.75; common cows at \$4 to \$5; canners and cutters at \$4 to \$5; hogs, \$10 to \$12.50. Choice veal calves, \$10 to \$10.50; good, \$8.50 to \$9.75; medium, \$6.50 to \$8.50; common, \$5.75 to \$6.75; grass, \$4.50 to \$5.25. Sheep. Light sheep, \$5 to \$5.25; heavy sheep, \$4 to \$5; yearlings at \$7 to \$8; lambs, \$9 to \$10. Hogs. SMALL BRITISH CRUISER SUNK?

Destroyer Also Sent to Bottom, is Claim of Berlin.

OFF JUTLAND COAST

Five German Torpedo Boats Engaged Returned Safely, Says Enemy.

BERLIN, Aug. 19.—The sinking of a British cruiser and a destroyer by German torpedo boats is reported in an official statement by the admiralty, whose announcement indicates a real naval battle on the west coast of Jutland, the north province of Denmark, Tuesday afternoon. "On August 17, at 10 o'clock, five boats of one of our torpedo boat flotillas attacked a small British cruiser and eight torpedo boat destroyers near Hornsrif Lightship on the west coast of Jutland, and sank the cruiser and one destroyer with torpedoes. Our boats had no losses." "During the night of the 17th and 18th our naval airships again attacked London, London City and important Thames establishments were liberally bombed. Good results were observed. In addition, factories and blast furnaces at Woodbridge and Ipswich were bombed. The airships suffered no damage despite the heavy fire and all returned."

WANKING OF ARABIC WEAKENED STOCKS RALLY IN WHEAT ENDED ABRUPTLY

New York Market Given Rude Reminder of War's Uncertainties. Pressure at Close CROP OUTLOOK GOOD

Selling Movement Gathered Force in Final Hour of Trading. Spring Wheat Yield Promises to Approach Record-Breaking Size.

NEW YORK, Aug. 19.—Wall Street received an unexpected reminder today that a state of war exists in the world. The market, which had been buoyant in the early hours, broke abruptly in the afternoon and sank another British liner. United States Steel, weakest of the leaders up to midday, fell over 2 points, and other stocks of almost equal prominence showed losses of 1 to 2 points.

Foreign Exchange Stronger. Foreign exchange placid little or no demand for sterling was a shade harder than yesterday's best and francs made further material recovery. The bank of England increased its gold holdings for the week by almost \$7,000,000, while the Bank of France gained almost twice that amount of the precious metal.

Speculation in specialties on the Toronto Stock Exchange, which was quite marked a few days ago has materially decreased and yesterday's market was comparatively dull. Those who ventured into the market for a turn are getting out where profits are available but not sufficient to keep prices from declining.
