BLAMES HEARST JOURNALS FOR SHOOTING

Mayor Gaynor of New York Says He Was Flooded With Clippings, Accompanied by Threats — "Journalistic Scoundrels" Are Warned to "Stop or Get Out."

NEW YORK, Sept. 19.—(Special.)—Mayor Gaynor's own story of the attempt upon his life is published today in the form of a letter written on Sept. 2 by the mayor to his sister, Miss Mary Gaynor of Utica, N.Y. It is a remarkable human document, in which the mayor describes in detail his feelings following the shooting.

The mayor directly accuses the Hearst newspapers of instigating the attack, in which Gallagher was the active agent. False articles, he says, worked upon people of wicked or disordered minds to such an extent that these persons flooded his mail with clippings from the Hearst papers, and caused him to abandon his habit of walking across the Brooklyn bridge.

"I was not surprised when I was shot," wrote the mayor to his sister. "I had been expecting an assault."

Miss Gaynor, in giving out the letter, said that she did so because she felt it belonged to the whole public, and that the publication would do much good.

Mayor Gaynor, in referring to the pictures of the Reno prize fight, said he had no way to stop the theatres from showing them.

The beginning of the attack on him by the Hearst papers. "But the Hearst newspapers kept on denouncing me for not stopping them," says the mayor.

"Finally," continues the mayor, "one day they printed in large type an official of the Christian Endeavor Society who had called on me and asked me on behalf of that society to stop the pictures, and stated that I told him he was a fool, and was sent by fools. I had never said such a thing."

"Meanwhile, people of wicked or disordered minds would cut these articles out and send them to me with abuse and threats."

"Finally they printed that terrible cartoon of me, entitled 'The Barker.' I was dressed up as a ruffian, standing outside of a rifle fight, with a cane and barking for people to go in and see the sport. Two men slugging each other, one of them down and bleeding, were exposed in the ring."

"The ignorant and disordered minds believed it. Even some sensational ministers wrote to me as to who they believed it. Such journalism, of course, in absolute defiance of the criminal law, and it did enter my mind to publicly call on the grand jury to protect me from it, but I was weak and feared the people would say I was thin-skinned. But the time is at hand when these journalistic scoundrels have to stop or get out, and I am ready now to do my share to bring them to book."

Sensations When Shot.

The mayor says that he has not read a line of what has been published of the shooting, nor does he now remember the name of the man who shot him. Mayor Gaynor wrote that after the shot was fired:

"My next consciousness was of a terrible metallic roaring in my head. It filled my head, which seemed as though

MURDERED HIS FATHER IN A DRUNKEN FRENZY

When He Realized What He Had Done He Set Out for Aid, But It Was Too Late.

QULE LAKE, Sask., Sept. 19.—(Special.)—Lewis McBride murdered his father Friday evening in a drunken frenzy. Both occupied a homestead 10 miles from the city.

McBride and his son had been in town drinking freely. They returned to their homestead shack and engaged in a drunken brawl, during which Lewis grabbed a double-barrelled shot gun, and discharged the contents of one barrel into his father's stomach.

The shot brought the younger man to his senses, and, realizing that he had done, he immediately set out to town for medical aid, but it was too late. Upon explaining what had occurred at the homestead, he was arrested by Constable Fisher of the Royal North-west Mounted Police.

POWER LINE ALTERED TO OBLIGE EXHIBITION

Parkdale Residents Objected, But Without Avail—Another Intake Pipe Suggested.

ALTHO the city council yesterday declared in favor of altering the proposed route of the power transmission line from the easterly limit of High Park to the terminal station on Strachan-ave, so as to remove it from the lake front of the exhibition grounds, agreement was general that the final decision should be left to the hydro-electric commission.

The plan agreed to between the commission and the board of control last week, was that the lines should cross the railway tracks at a point near the easterly limit of High Park, running over the line of the railway to the south of the railway property, thence following the shore line at a distance of 100 feet out until Strachan-ave, was reached.

The altered plan approved, on motion of Ald. Dunn with Ald. Graham as second, makes this amendment:

"When the proposed line along the lake front reaches the southerly westerly limit of the land owned by the city west of the exhibition grounds west of Dufferin-st., an alternative line be laid out in a northeasterly direction thru exhibition park to a point near where Dufferin-st. intersects with the Grand Trunk's right of way, thence the exhibition grounds east to the transformer station and that the hydro-electric commission settle on either of the routes proposed."

Parkdallians Object.

This change of route is agreeable to the exhibition officers, but does not meet the wishes of residents of Parkdale whose homes are along the lake front west of the exhibition grounds. A deputation headed by W. B. Raymond, and including G. P. Magann, H. H. Cook, and A. J. Patterson, objected that their view of the lake would be spoiled and the exposure was shared warmly by Controller Ward and Ald. McCausland, but without avail. As Mayor Geary said, the city, in carrying out the project, to benefit the many, could not consider the few.

W. K. McNaught, M.L.A., and E. H. Sotman were present on behalf of the commission. The former said the commission was not concerned particularly as to the route, provided one could be had without delay. Power could be delivered in a month if the transmission lines were placed. Mr. Sotman, speaking from a strictly engineering point of view, said the entire lake front route was preferable.

Opposed Lakefront Route.

Controller Ward, in moving that the question be laid over so that another route might be found, declared that it would be "utterly ridiculous" to march with "high poles" the 3 1/2 miles of waterfront which the city had spent three-quarters of a million dollars to acquire, and Ald. McCausland charged that the council was anxious to oblige the exhibition, but not the Parkdallians. Controller Spence held to the original plan, declaring that if there was any deviation, it should be to favor the exhibition alone.

Controller Ward's motion was supported only by Ald. McCausland, while Ald. Dunn's proposal carried on this vote.

For—Controller Ward, Ald. Spence, Rowland, O'Neill, Chisholm, Maguire, Baird, Anderson, May, Weston, McBride, Hilton, Welch, Dunn and Graham—15.

Against—The mayor, Controllers Foster, Spence, and Church, Ald. McCausland, Phelan, Hambley, Heyd—8. Ald. McCarthy and McMurrich were absent.

The awarding of the contract for the new high level Queens bridge across the Don to the F. H. McGuigan Construction Company of Toronto at \$193,000 was unanimously approved.

REFORM TOPICS FOR CHURCH WORKERS

Methodists Discuss a Variety of Topics — Rev. Dr. Chown Contrasts Socialism With Christianity — The Proper Way to Train Boys in the Home.

"Socialism is dependent on law and environment, but Christianity is gaining thru the production of character."—Rev. Dr. Chown.

The greatest danger to society to-day is in the golden age of the middle classes."—Rev. S. W. Dean.

"If the boy doesn't learn to respect the law in the home, he may have to learn it in the penitentiary. But along with authority, there must be liberty to fit in with it."—Rev. J. W. Aikens.

About 150 clergymen and others registered yesterday afternoon at the opening sessions of the social and moral reform conference, which is being held until to-morrow evening in the school room of Elm-street Methodist Church. The various addresses given are in reference to down-town city problems and the relation of the Methodist church thereto.

The "social teaching of Jesus" was the subject of an hour's address by Rev. Dr. S. D. Chown, recently appointed associate general superintendent of the Methodist Church. He referred to the parables of the Bible as full of social teaching, and also to the sermon on the mount. Mentioning the various beliefs taught by socialism, Dr. Chown confined himself to the orthodox or Marxian socialism, which in late years had given such a definite turn to economic laws. The speaker's beliefs held that the public should be manufacturing of the commodities of life, and that the world's progress must be made thru the struggle of antagonistic classes. In comparison he held up the teaching of Christianity which is so full of impartiality. Dr. Chown believed that the single best thing would be accepted eventually, and that a modification of its present condition.

Christianity vs Socialism.

In differentiating Christianity from socialism, he said the point of view of the latter was material and man was regarded primarily as an economic factor, whose object was to produce worldly success. Christianity's main viewpoint on the other hand was spiritual, and the chief purpose of man to produce character and general well being among his fellow men.

"Socialism is dependent on law and environment, but Christianity is gaining thru the production of character. Christ holds man definitely to his social responsibility, and socialism in general will be suicidal as long as it fails to encourage the necessity for development of character," said Dr. Chown.

"The church of Christ cannot believe in competition and still believe in the golden rule," asserted Dr. Chown. "It stands for principle and if the other working and competition, it must be done in a way that will benefit the many, could not consider the few."

W. K. McNaught, M.L.A., and E. H. Sotman were present on behalf of the commission. The former said the commission was not concerned particularly as to the route, provided one could be had without delay. Power could be delivered in a month if the transmission lines were placed. Mr. Sotman, speaking from a strictly engineering point of view, said the entire lake front route was preferable.

WM. MACKENZIE HOME

Says That Business Thruout West is in Good Shape.

William Mackenzie returned to Toronto yesterday, after a four weeks' trip across the continent in connection with the Canadian Northern Railway and his other interests.

He told The World that business was good throughout the west, that the shock of the falling off in the wheat production had been absorbed, and that business was fairly good in every direction. As to the wheat supply, he had only this to say: that in one day over 750 cars had been loaded with wheat on the Canadian Northern Railway, equal to nearly three-quarters of a million bushels of wheat; and that this was taking place day after day.

"Our main policy, now," said Mr. Mackenzie, "is to complete the Canadian Northern, and especially to connect up our Ontario system and our headquarters in Toronto with our lines in the west and our lines in the province of Quebec, and we intend to push this with all the vigor we have at our command."

Barstren was accused of stealing \$10 from his employer by using the same cheques twice. He was convicted and sentenced to a month in jail in default of \$25 fine and \$2 costs. It is likely that the matter will be taken up by the local trade organizations at their next meeting.

HIS FISCAL CATAMARAN

PROUD TO CALL HIMSELF AN ENGLISH CATHOLIC

Father Vaughan Replies to Statement of the Bishop of London.

WINNIPEG, Sept. 19.—(Special.)—Striking a high imperial note, which produced a throb of response from the large crowd which gathered in Winnipeg to hear him, Father Vaughan has left behind him a message which will be ineffaceable in the memories of those who heard it.

"The Anglican Bishop of London," he said, "stated the other day that as he was an English Catholic, he could not be a Roman Catholic."

"To-night," continued Father Vaughan, "I tell you that, as I am an English Catholic, I must be a Roman, and what I am, my family have been for 1600 years. I am proud to be an English Catholic today, standing upon this platform, to tell you Canadians how dear is the English flag to Catholics, and to tell you that their patriotism is the fairest bloom that rises out of the lap of their religion."

"The Church of Christ cannot believe in competition and still believe in the golden rule," asserted Dr. Chown. "It stands for principle and if the other working and competition, it must be done in a way that will benefit the many, could not consider the few."

W. K. McNaught, M.L.A., and E. H. Sotman were present on behalf of the commission. The former said the commission was not concerned particularly as to the route, provided one could be had without delay. Power could be delivered in a month if the transmission lines were placed. BRITISH CAPITAL FOR B.C. FISHING INDUSTRY

Sir Geo. Doughty After Inspecting the Territory Will Try to Launch Big Project.

Sir George Doughty and Lady Doughty of London arrived at the King Edward yesterday from the west, where Sir George has been on a business trip in the interests of a number of prominent British investors. His mission was to examine the salmon fishing industry on the coast of British Columbia, and it is his intention, on returning to England, to advise his colleagues strongly to take immediate steps to organize a company which will establish a purely British fishing concern. In his opinion, a Dominion Block, where several frame houses were speedily licked up. The apartment house was brick and stone, wood finished, and the fire started from an explosion of the plumbers' gasoline furnace. A high wind was blowing, and the unfinished structure, being not closed in, the flames spread so rapidly that the men working on the roof were cut off before they recognized their predicament.

Some jumped, others slid down by ropes, and all escaped with a few minor injuries. Forty-five men working inside escaped unhurt.

The \$30,000 so far expended on the building is represented by \$30,000 insurance.

Racing from house to house, the occupants of the burned residence on McMillan avenue had no time to save even their personal belongings.

Seventy-five firemen and five engines battled with the flames, and F. H. Ireton, engineer of Fire Station No. 4, stoically watched the conflagration lick up his own home.

Following is an estimate of the losses, probably under-estimated:

Hicks & Patterson's apartment block, lost \$80,000, insurance \$20,000; C. L. Peterson, residence, fully insured; Mrs. Fletcher Andrews, tenant of above, \$2000, partly insured; F. H. Ireton, residence, \$6000, partly insured; Percy Hicks, residence, \$4000, partly insured; Dr. Gilmore, residence, \$6000, partly insured; Miss Pringle, residence, \$6000, partly insured; Mr. Reynolds (father), from Montreal, residence, \$4000, partly insured; Mr. Peden, residence, \$4000, fully insured; Mr. Ellis, tenant of above, \$600.

Hudson Bay Railway Will Open Up Promising Territory.

OTTAWA, Sept. 19.—That the country thru which the new Hudson Bay Railway will run possesses agricultural and mining possibilities, that only need railway facilities to open them up, was the substance of an interview given this morning by Prof. R. W. Brook, director of the geological survey, who has just returned from a trip, on which he accompanied Earl Grey thru the north country.

"While I had not time to make a thorough examination of any kind," Prof. Brook said, "I noticed one promising looking belt on the Etchemamis River, up which we went. It was about 130 miles long. There has, of course, been no prospecting in this district, owing to the difficulties of transportation. The railroad, however, will supply a splendid base for this work."

BIG MONTREAL MERGER

Street Railway and Power Companies May Get Together.

MONTREAL, Sept. 19.—(Special.)—The advance of Montreal Power to 150 and over, and the calling of a meeting to-morrow by that company, leads to the belief that there is a grand merger of the Montreal Street Railway, Montreal Power and Shawinigan Power Companies on the tapis.

It is stated on "the street" that the Street Railway will go in at \$25, Power at 170 and Shawinigan at 125, with working understanding with Canadian Power, whose friends have captured, perhaps, the absolute control of Street Railway.

THINK TIME FOR TREATY HAS ARRIVED

Laurier to Open Reciprocity Campaign at Montreal Next Month — Suppose Americans Will Grant Something Tangible in Lieu of More Favorable Concessions.

MONTREAL, Sept. 19.—(Special.)—It is understood that the prime minister of the Dominion will open the government's reciprocity campaign at a great demonstration to be held in this city early next month, the promoters of which say that it is necessary to offer some recognition to the premier on his return from the west.

He will speak, therefore, to the different elements in the commercial metropolis upon a policy which will no doubt be strongly criticized by a great portion of the people of this city.

It is now stated in government circles, and fully confirmed by the best informed people here, that all parties concerned believe that a great victory has been won for Canada, and Newfoundland in all the important points at issue between the United States and Great Britain in the recent arbitration, hence the favorable opportunity, so the Ottawa government think, for some sort of a treaty. They argue that in many states the American fishermen will be practically driven out of business by the judgment just rendered, and for this reason it is supposed by Ottawa that the Americans would be ready to grant something tangible in lieu of more favorable fishery concessions.

At any rate, Sir Wilfrid Laurier, speaking in the chief trade and banking centre of the country on the eve of an important session of parliament, cannot but make some pointed reference to the policy of the cabinet on the question of better trade relations between the Dominion and the neighboring republic.

It is probable, however, that even the silver-tongued orator at the head of the present ministry, will find it very difficult to persuade the working men of Montreal that it would be to bring any serious modification in the present tariff.

The old spirit of 1878 is still fiercely alive along the canal, in the days, and in all the other water-courses of the city, and it is no secret that many of the most ardent misanthropes of the Province of Quebec are most apprehensive regarding the new policy and will await with a great deal of interest the visit of the leader of the government in this city next month.

WORLD'S LARGEST CHEESE

Will Be Made From One Day's Milk of 2100 Cows—Will Weigh 4000 Pounds.

APPLETON, Wis., Sept. 18.—The largest single cheese ever made in the world will be constructed on a flat car at the John L. Jaquot cold storage plant in this city this week, for exhibition to the public. The cheese, made at the Coliseum in Chicago, Oct. 30 to 29. The cheese will weigh 4000 pounds. It will take from 40,000 to 50,000 pounds of milk to produce the curd. That will mean all the milk for one day from 2100 of the best dairy cows in the country, and it will take the entire output from 250 dairies in the country for that day. From 400 to 500 men will be required to do the milking, but the entire cheese will be made in one day by N. Simon of Neenah, assisted by six of the most expert cheese makers in this county, and six helpers. It will cost over \$800 to produce the big cheese, which will be valued at from \$1000 to \$1200.

THE BEST MILK IN THE WORLD.

The World man is in the milk business out at Donlands. He sells his milk, and to do this milk night and morn his Holstein grade cows. The Holstein is a big cow, has a big udder, drinks lots of water and gives lots of milk. She's black and white, beautifully marked, is generally dehorned, and both here and in Holland adds to the peaceful look of the rural scene. But because she gives lots of milk it is bound to be thin. A quart of her milk has not as much cream as the Jersey kind. But for many purposes, including infant food, the authorities say pure, clean Holstein milk is the very thing. The best doctors "modify" milk with water. Like a Scotchman does Scotch. So don't throw a stone at the poor farmer because his milk is thin—unless you catch him at the pump. And if he has passed his milk over to the city milk-dealer, do not throw a stone at him if the milk should prove to be modified, for the other fellow may have done it after possession changed. And do not throw it at the dealer for fear a bad farmer may have watered it before such. But always remember that a good cow is a cow that drinks lots of water, and that the good farmer is the man who gives his beasts lots of water to drink. An honest and kind farmer therefore is one who never waters his milk, but always waters the cow.

New Fall Blocks.

The Dineen Company announced last evening that the latest shipment of English fall hats had arrived. This completes the entire showing, and it is probably the very best ever attempted by Dineen, including as it does the great "King George" hat, for which Dineen is sole Canadian agent. The "King George" hat is made by Henry Heath of London, England, maker by royal warrant to His Majesty.

Superb Suits for Women

This department has been added to our big Millinery and Fur Store. It is intended to offer the ladies of Toronto an unusual opportunity to secure some ultra-fashionable suits at a more than reasonable figure. We are making the prices very low to induce buying in this new department.

For the suits and skirts we will say that no expense has been saved to secure the very newest designs being shown in New York, and these have been duplicated with great care and taste.

The suits range in price from \$15.00 to \$25.00, and the range in styles is more extensive than that.

A walk through the department will repay you for the trouble, and should you purchase, the visit will be repaid in a more substantial manner in the saving you effect.

PLACED POLES TO BLOCK HYDRO-ELECTRIC LINE

Cataract Power Co. Begins Construction of Line Without Permission of Hamilton Council.

HAMILTON, Sept. 19.—(Special.)—The discovery was made at the city hall to-day that the Cataract Power Company was constructing a transmission line across the inlet at the foot of Wellington-street, near where three hydro-electric lines will run on its way to the beach pumping station. City Engineer, MacCallum, was asked about this, and he stated that he heard some poles were being placed there and thought they were being erected by the commission. When told that they were Cataract poles he said no permission had been obtained to place poles there and that they would have to come down. At the Cataract Company's office it was stated that the poles were being erected in connection with the transmission line to the Olive works.

It is thought that the Cataract Company started to place poles there in an effort to block, or cause delay in the construction of the hydro-electric line, and the matter might result in something of a wrangle. The police arrested two Italians, Bradson and Odintsov, on a charge of stealing umbrellas from a store on South John-street. John Timson and Thomas Johnson were arrested on a charge of stealing goods from the store of William E. Glover, 22 East King-street.

The fire department had a run to-night to the rear of the Masonic Hall, where some large packing cases had been fired by mischievous boys. At last Friday's district meeting of the S. O. E. the statements of Father Vaughan regarding Protestantism were discussed and a strong resolution passed indignantly protesting. Father Vaughan's remarks were stated to be unwarrantable and abusive to the religion which has made the British Empire what it is to-day.

Peter Brannan, until a few months ago a policeman on the local force, has returned from Philadelphia, where he got your money back in the case and got your money back in the case and got your money back in the case.

WINDSOR DEPUTATION DEMAND RESTORATION

Hon. J. O. Reame Asked to Have Mahoney and Campeau Restored.

WINDSOR, Sept. 18.—(Special.)—Hon. J. O. Reame, minister of public works, had a new situation to face here to-day when he was waited upon by a large deputation to protest against the suspension of provincial Constables Mahoney and Campeau.

A lot of local excitement was developed over what is termed the high-handed action of Superintendent Rogers in attempting to enforce an obviously absurd regulation. It was pointed out to the minister that a district of 25,000 people was managed by the criminals of the United States, and no vigilance officers were on duty. Apart from the merits of the question, the deputation demanded that the suspended officers be reinstated, in order to give the district some measure of police protection.

It was also pointed out that apparently the government's intention was not to dismiss these officers from the service, as two years ago their salaries were increased by something like \$100, but since the reorganization they have been cut down by \$300, which they claim is an injustice.

Among those who constituted the deputation were: Mayor J. W. Hanna, ex-Mayor John Daniel, ex-Mayor O. E. Fleming, His Honor Judge McHugh, Police Magistrate E. J. Leggett, J. A. H. Campbell, ex-chairman of school board; W. G. Kennedy, ex-president of board of trade; ex-Ald. J. H. Connelly and Dr. E. R. Cruickshank.

"Fuss About Buttons and Braid." Attorney-General Foy adheres to his decision not to discuss the situation with the press for the time being. When seen last night he said: "It seems to me that a lot of fuss is being made about buttons and braid. The regulations, and so long as those regulations remain in force they must be observed. The disobedience of regulations involves a penalty. The suspension of Constables Mahoney and Campeau, in Windsor, for not wearing the uniform, as is alleged, is purely a domestic matter, and one which I must decline to discuss with the press. At the same time, the entire question is before the government, and when a conclusion is reached it will doubtless be announced."

WAS WAITING FOR MRS. CRIPPEN TO RUN AWAY

Startling Evidence in Regard to Miss LeNeve's Relations With the Doctor.

LONDON, Sept. 19.—Something of what Ethel Claire Le Neve suffered as a half mad" with jealousy, she impatiently awaited the fulfilment of Dr. Hawley H. Crippen's promise to make her his wife, was revealed at to-day's session of the inquest into the death of Belle Elmore, with the murder of whom the doctor and his typist are jointly charged.

In her distress, Miss Le Neve confided in her landlady, Mrs. Jackson, and the story that the latter told on the witness stand rivaled the most sensational evidence introduced at the murder trial.

Mrs. Jackson said that the accused girl gave up the room which she had occupied at the home of the witness on March 12, explaining that she was waiting to be married to Dr. Crippen.

Until the first week in February Miss Le Neve had slept regularly at Mrs. Jackson's. After that she stopped at the house only occasionally. She said that she spent the other nights at the homes of friends. On one occasion Miss Le Neve mentioned having been at the home of a friend of the Crippens, early in February, to help the doctor in a search for a trunk book which showed an account for \$100. She added that a diamond tiara and rings had been found in the house and that the doctor had raised \$850 on February 12.

About the middle of February the witness said Miss Le Neve appeared most miserable and depressed. The landlady insisted upon an explanation, telling the girl that she must have something awful on her mind to be in such a condition. The witness testified that the other replied:

"Would you be surprised if I told you that it was the doctor and Mrs. Elmore? He was the cause of my troubles when you first knew me. She is his wife, and when I see them go away together I am very angry."

Mrs. Jackson asked: "What is the use of worrying about another woman's husband?" To this Miss Le Neve answered: "Miss Elmore has been threatening to go away with another man. Dr. Crippen has been waiting for her to do so when he would divorce her."

Solicitor Newton, who is looking out for the interests of Dr. Crippen and Miss Le Neve, suggested that her lodger's excitement was due to the landlady having resurrected a trouble which the girl experienced during her earlier association with Crippen, but the witness maintained the correctness of her evidence as given.

A doctor who was called by Dr. H. Crippen to examine the body of the woman who was the wife of Dr. T. H. Burroughs, Crippen's closest friend in London, identified a lock of hair which was discovered in the pocket of the human body, in the cellar of the Crippen Hilldrop Crescent home, as being from the head of Belle Elmore, as Mrs. Crippen was known on that stage.

Prof. Pepper, the pathologist, repeated the testimony which he had given at the trial in the Bow-street court. In response to questions by the coroner he said:

"I can form no definite opinion as to whether the parts found were those of a male or female. If I take the case in the form of infantile remains, there is a strong presumption, almost conclusive evidence, that the parts were those of a woman."

EMPTYING RESERVOIR

One-Third of Weed-Covered Bottom Exposed But No Bones Found Yet.

The novelty of seeing the reservoir emptied of water, which has been seen yesterday, by the end of the weed and moss-covered bottom was exposed by a large deputation to-day. The water is being discharged thru two six-inch outlets, one emptying into the form of an infantile remains, and the other into Rosedale Creek.

Railway News.

Chairman A. W. Smathers and President C. M. Hays of the Grand Trunk Railway arrived by special train yesterday from Detroit at 3.30 p.m. They were accompanied by Mr. Smathers' son and daughter, Assistant Secretary H. Deer, Transportation Manager W. G. Brownlee, Chief Engineer H. G. Kelley, Vice-President E. H. Fitzhugh, Freight Traffic Manager J. W. Lord, Car Superintendent J. Coleman, Motive Power Superintendent W. D. Robb and several ladies. The train consisted of the cars Algonquin, St. Clair, Ontario, and Bonaventure.

Mr. Hays only spent about an hour in the city, most of which was devoted to a stroll in the neighborhood of the Union Station, where he pointed out some of the picturesque spots of the Grand Trunk property south of Front-street to Chairman Smathers, while John Brownlee, attending to the baggage of some of the ladies who are stopping over at the King Edward.

During the train was taken to Parkdale and returned, and immediately on its return, at about 4.30 p.m., the party went on board and drew out for Midland, where they are to inspect the big terminal.

Mr. Hays accorded but a moment to the newspaper men, in which he said that the railway was booming out west, and that the road of the G.T.P. was in excellent shape so far as it went, the progress was a good deal slower than he would like to see. "There is a general scarcity of labor," he said, "even in the case of farm hands."

A message from Transportation Manager J. E. Walsh of the Canadian Manufacturers Association was received yesterday, stating that his son, J. P. Walsh, had been the victim of a shooting accident at Walkway, Sask., resulting in the amputation of his left foot. Mr. Walsh heard of the accident while on his way to Vancouver to attend the C.M.A. convention, and hurried to Walkway, where he is now with his son, who he says is doing well after the operation. Young Walsh is in the employ of the Grand Trunk Pacific construction department.

Four trains, representing all three big railway companies, have been taken to the Union Station this morning, resulting in the laying off of 25 employees. Work will be provided for these men as soon as possible.

United States Railroads, it is reported, are looking to Canada to modify the immigrant rule regulation which requires the return of deported aliens even beyond their term of banishment.

The Kruetz Tourist Club of New York, N.Y., arrived yesterday morning from Niagara Falls. After seeing the sights, they proceeded late in the evening to Kingston, where they take steamer this morning for Montreal. The party is returning to Newark via Lake Champlain and Boston.

Town Has Tried to Push Along Parallel Roads—West End Men Don't Want Jane St. Closed

At yesterday's meeting of the York Township Council, the question was raised as to whether some advance would be made along the line of purchase or appropriation of the roadway through Mount Pleasant Cemetery in connection with the extension of the eastern parallel road, the question was never once mentioned.

In this connection Mayor Brown of North Toronto takes exception to the statement of Monday, that the town was afraid of arbitration proceedings, and that it is right to appropriate does not rest with North Toronto, said his worship last night, "but with everything we could do to hurry on the work, but the conduct of the whole initial proceedings must be remembered, rests with the township, and we can only go as fast as they themselves proceed."

His worship outlined in detail the different steps taken, which would seem to indicate clearly that the onus does not rest with the town.

"This thing has dragged unmercifully," said Solicitor T. A. Gibson last night, in discussing the eastern parallel road through Mount Pleasant Cemetery. "And the whole proceedings should have been much further advanced than they are today. I have in my pocket now," said the solicitor, "a letter from Mr. Spence of Master, Start & Spence, in which he says that an offer will be made to the company for the two acres required at a rate of \$3000 an acre. At the same time he says that the township engineers, and this also will be submitted to the board for their acceptance or rejection."

"As for the North Toronto Township Council's reluctance in taking up arbitration, as suggested by The World of this morning," said Mr. Gibson, "the act specifically states that York Township is alone empowered to do so, and we—the town—while vitally interested in the whole proposition, are only present thru courtesy. But I am hopeful that after all the work I will soon go forward."

It is not for one moment thought around town that the Toronto Trusts Company will accept the offer to be made, and that arbitration proceedings will follow. It is certain. The past history of the company does not lead to the belief that the offer, however generous, will be entertained. At the same time, it does seem as the York Township, also the matter has not pushed the work as might have been done. The return of the town and Solicitor Start will be awaited, with interest, not to say impatience.

Wall Coverings

WHEN Lorenzo sat basking in the moonlight with Shylock's pretty daughter and bade her see "how the floor of heaven is thick laid with patines of bright gold," Shakespeare supplies an expression of apologies, very aptly. The *Vogue* which, with all due describes the decorative metallic question of the present moment. For truly the material world may be said to radiate with patines of bright gold. Gold threads glisten through the borders and garnitures that make lovely the frocks and cloaks of reasonable fashioning. Cloth of gold forms the girdle on many a smart creation. Precious jewels in settings of heavy gold are reproduced in the buttons of modish cast. Gold net, gold bands, gold buckles, metallic fabrics of every sort are employed in the millinery of the hour. And now gold has come back to wall paper.

That touch of gilt, without which, in former days, no paper was what it should be, constitutes the chief innovation that fashion has introduced in mural decoration. It appears in subtle, delicate form in the designs for drawing-rooms and dainty boudoirs, and strongly and strikingly in the heavier productions for halls, dining-rooms, and the more imposing apartments in clubs and hotels.

The Store's Autumn showing of papers is an interesting illustration of these truths. In one of the most aesthetic provisions for drawing-room walls gold medallions hang like lovely pendants on a background of silver grey, while a mere surface glint of gold characterizes a beautiful scroll patterned paper and many of floral design. Several productions of the heavier order mentioned represent a perfect imitation of brass, copper, bronze and other metals.

Beyond this prominence of all things metallic, it may be said in general that champagne and grey shades in self-tone brocade effects monopolize favor for drawing-room hangings, an almost limitless range, including the most alluring and hand-made papers, being procurable between fifty cents and four dollars per roll.

For halls, living rooms and libraries there is provided a great host of leather reproductions, alligator and elephant hide being presented with wonderful realism in answer to the demand for this type of covering for the spaces that intervene between woodwork paneling. Tapestry effects are also shown in great variety, while for those of conservative tastes, who cling to the simple and inornate, there is a splendid display of cork, velour and oatmeal papers, improved substitutes for the time-honored ingrain.

Of cut-out border, English sporting scene, friezes, landscape friezes, hand-painted crown effects, and all manner of paneling the variety is immense. And respecting the collection of dainty dimity, Dresden, chintz and French fabric papers for bedrooms, morning rooms and nurseries, only superlatives can fitly hint at their freshness, charm and exclusive patterning. Rosebuds, cornflowers, wistaria are depicted as though by nature's own picturesque and understanding hand. That they are procurable at prices running from twenty to seventy-five cents brings them well within the grasp of the average pocket-book.

In conclusion attention should be drawn to the fact that one of the strongest features of the department in question is its splendid equipment for the hanging of papers, for hand-frescoing, hand-stenciling—in short, all undertakings whatsoever, in the line of interior decoration.

\$18.50

Young Women's Smart Suits, \$18.50

The coat and skirt depicted in the illustration is a worthy example of the season's best tailoring features. It is a patty, stylish little suit in the popular two-tone rough serge; the coat is four-buttoned, single-breasted, semi-fitting, silk lined, the sleeves cuffed with satin piped bands to match the skirt, which is treated in similar fashion at the knee line. Sizes, bust 32, 34 and 36. \$18.50

Young Women's Voile Skirts, \$6.75

An entirely new style in Young Women's Black Voile Skirts, every other gore pleated, finished at the knee with band effect, very smart in appearance and a graceful hanging skirt. In lengths 35 to 38 inches. Made to sell at \$6.75

—Second Floor, James Street North.

Style and Good Value in Autumn Underskirts

An immense showing of *Silk, Moire and Sateen Petticoats. Featuring our Taffeta Petticoat, \$3.39*

Reliability of material is the primary consideration in the purchase of a Silk Underskirt; style counts for naught if durability is a doubtful quantity. Attractive trimming is an empty charm if the silk is inferior. All of which goes to emphasize the desirability of our line of black taffeta petticoats at \$3.39. Made of a fine, good-wearing silk, with deep flounce of accordion pleating, tucked frill, deep peraline underpiece with frill; lengths 38 to 42. Special, \$3.39

Women's Guaranteed Taffeta Silk Petticoats, \$5.00—In black only, deep accordion-pleated silk flounce, finished with two gathered frills, deep peraline underpiece with frill; others not guaranteed, with deep flounce of clusters of accordion pleating, tucking and silk-covered buttons; two gathered frills; colors black, green, rose and shot effects; lengths 38 to 42.

Leading Lines in Moire Underskirts

In many minds the moire petticoat ranks as the best possible provision for wear with the cloth skirt; its durability has certainly been well proven, and all the nicety of flouncing and frilling and general treatment of the silk production is found in the great assortment of moire skirts that represent our Autumn stock.

Women's Moire Petticoats, \$2.00—Fancy pointed flounce, finished with tucking, accordion pleating and pleated frills; black only; lengths 38, 40 and 42.

Women's Moire Petticoats, \$3.50—Deep flounce of fancy tucking, with deep pointed accordion-pleated frill; lengths 38, 40 and 42.

Women's Petticoats, \$5.00—Of fine quality imported moire, deep pointed flounce, trimmed with fancy tucking, self-covered buttons, accordion pleating and pleated frill; black only; lengths 38, 40 and 42.

ESS H. KAY AND THE ABBE
WIN COLUMBUS STAKES

Odds-on Favorites in Front on
Opening Day of Grand
Circuit Meeting.

COLUMBUS, Sept. 19.—Buffalo-owned
pacers gathered in the two stakes which
made up the major portion of the pro-
gram for the opening day of the Grand
Circuit meeting of the year. Both
were odds-on favorites. Ess H. Kay took
the Board of Trade event, away from
Murry Widow, but lost the third heat to
her, breaking after the turn home had
been made. The abbe landed his tenth
straight race when he won the Hotel
Hartman stake from Evelyn W., the
Cleveland mare, that beat him in one
heat this year. At times the Geers entry
was hard pressed. The final quarter of
the third mile was timed officially in .28,
and the last half in 1.04. Summaries:

West End Y.M.C.A. Harrier Club

At a meeting of the officers of the West
End Y.M.C.A. Harrier Club it was
decided to again start the weekly handi-
capes on the same basis as last year, to be
so successfully in the spring, the first
three finishing getting ribbons, but this
year there is to be a special prize
given for the boy getting the most points
in the seven different handicaps. The
Chaplain, Rev. J. W. D. Robertson, has
\$80, over the mile and a half course, so
that all the boys are asked to be there
sharp on time. These handicaps are in-
tended to help get the boys in shape for
the different races this fall, the principal
handicap being the 100-yard dash, the Som-
erville Trophy (or Newmarket relay), and
the annual club handicap, which comes
on Oct. 22.

Eaton Lacrosse Club to Pres. Eby

Thos. P. Douglas, secretary-treasurer of
the Eaton Athletic Association, has sent
the following letter to Mr. Eby, presi-
dent C.L.A. Hespeler, Ont.:
"Dear Sir,—Your telegram of even date
ordering me to play home-and-home
games with Galt received.
"I will see to anything in the C. L. A.
rule book whereby you have any objection
to our home-and-home games for the
championship, if the two teams interested
do not agree to the above arrangement;
furthermore, that you, as president of
Galt home-and-home games without con-
sulting me, is no reason why you should
order the tournament to be played at the
earliest possible moment. The championship
for years has been de-
cided by one sudden-death game on neu-
tral ground and why change it this year?
"As I state in my letter to you on Sat-
urday last, we will only agree to one
game to be played at a place half-way
between the two places.
"The Western Homing Pigeon Associa-
tion flew their last race for young birds
from New Lisgard, a distance of 271 miles,
on Sept. 15. The following are the results:
E. Holt's Palmerston..... 8:45.59
F. Westerbys Buckskin..... 8:48.54
J. Kesteven's Bye-Bye..... 8:51.45
H. Gray's Manning Pride..... 10:11.13
A. Goodrich's Deemer..... 10:28.20
H. Rice had no report in the time limit.
"If you do not see fit to order the cham-
pionship to be played at that place, I
will call a full C. L. A. council meeting called
to deal with the matter; then, if they
order home-and-home games, they will be
played, but not otherwise."

St Paul's Athletic Association

The annual election and installation of
officers of St. Paul's C. C. and A. A. were
held on Sept. 17 in the clubrooms. O'Neill's
Hall. The following were the successful
candidates:
Hon. president, Aid. John O'Neill, jr.;
hon. vice-president, Morgan J. Kelly; hon.
first vice-president, P. M. Curran; hon.
second vice-president, Dr. St. Charles;
president, P. M. Kennedy; vice-president,
J. O'Sullivan; secretary, E. Deane;
spiritual director, Rev. Dean Hand;
financial secretary, H. Crowley; recording
secretary, Jas. L. Dillon; sergeant-at-
arms, Jos. Secor; auditing committee,
P. L. Gleeson; J. Shea; amusement com-
mittee, J. J. Shea; H. Seaton; B. Haf-
fey; F. Ridgway; W. O'Connor.
All the officers were keenly contested,
and a successful year is looked forward
to for all kinds of sports. A heavy vote
of thanks was tendered the press for
their unanimous support during the past
year.

Failed to Cross Alps

Two Aviators Went Up, But the Weather
Was Unpropitious.
BRIG, Switzerland, Sept. 19.—The
weather was unpropitious for the
bold undertaking, Mr. Weymann, the
American, and George Chavez, the Per-
uvian, attempted the cross-Alps aero-
plane flight to-day. Both failed, but
not until they had given pretty exhibi-
tions of high flying that promised bet-
ter success in fair weather.
During the night a stiff breeze was
blowing in the Simpson Pass, and the
mountain peaks were hidden in a dense
fog. Harris was in charge of the flight.
The competition would begin to-day.
However, at daylight the wind had
gone down, and it was still cloudy,
the intrepid Chavez and Weymann de-
cided to risk a flight.

Stolen Auto Wrecked

Unknown Chauffeur Runs Machine
Into Varsity Wall.
Two young men who stole an auto from
in front of the English, Chop
House, West King-street, about 9
o'clock last night, had a narrow escape
from injury thru their ignorance of
how to handle the machine.
"Somewhere on their journey they
shed a rear tire and at 10:30 were heard
grinding up thru the Queen's Park
with the rim of a rear wheel on the
roadway.
They tried to run thru the university
grounds, but the gate is blocked dur-
ing some sewer construction and they
brought up against the wall, making a
decided impression.
The men jumped out and fled.
The machine was owned by F.
Courtman, 78 Howard Park-avenue,
who missed it and reported the loss to
the police.

Thieves Broke Thru

Sawing thru the bars which protected
a rear window of James Harris' fur-
store at 63 East King-street, thieves
entered and stole eight fur-lined coats
worth \$500. Harris was in charge for
the competition would begin to-day.
However, at daylight the wind had
gone down, and it was still cloudy,
the intrepid Chavez and Weymann de-
cided to risk a flight.

Boy Run Over

Charles Davis, 3 years, 66 Palmer-
ston-avenue, was run over by a rig
driven by Samuel Williams, 120 Berke-
ley-street, at Queen-street and Bel-
woods-avenue yesterday afternoon. He
was only slightly hurt and was taken
to his home by a police car, after be-
ing attended by Dr. Eadie.

Second Man Arrested

When Harry Scholes appeared in police
court last week he declared that he
had got the bicycle which he had
been charged with stealing from A. J. Van
Nostrand from East Phoenix, 225 Mul-
len-street. Phoenix was arrested yes-
terday by Detective Guthrie, charged
with theft of the wheel.

MET THE-RIIP

Motor Boat Upset at Vancouver and
Three Are Drowned.
VANCOUVER, Sept. 19.—(Special).—
A small launch, containing four men
and four women, was upset outside the
harbor last night, and two men and a
woman were drowned. The little craft
met the tide-rip, and turned over. An
Indian rescued the balance of the crew
in a canoe, and a launch later
picked up the other two men. The
names of those lost were: William
Woodruff, Robert Young and the lat-
ter's sister, Mary.

TUESDAY MORNING, SEPT. 20, 1910

A MOMENTOUS CHANGE.

Municipalities, including Toronto, complain of the low price their debentures bring here and in England. According to City Treasurer Coady, 3 1-2 per cent. bonds that formerly were above par now bring in about 90, or in other words, the city will have to pay equal to 4 per cent. henceforth or the amount actually received.

The World believes that the whole security market is being demoralized by that system of finance which involves in many instances the giving of bonus stock. In other words a lot of securities are being put out that are made up of debentures or bonds or guaranteed stock that carry with them an amount of free or bonus common stock. In this way, the investor has been tempted to pass the old line securities and to more or less speculate with his money (albeit he imagines that it is secure) in the hope that while drawing his regular interest he will get a dividend some day on the free stock that he got. He therefore passes the old line security. A deplorable accompaniment is that the ordinary daily press in its financial columns, probably by reason of the fact that "the interests" have got the newspapers, ignore the old line securities and unmercifully puff the new ones with the speculative side to them.

Also note that interest on mortgages in this country is steadily rising, probably also partly due to this new feature. Bankers will tell us that the money is worth more. We do not propose to make any delirium at this moment other than to call attention to the revolution that is being effected in financial methods and to the changes in the value of money brought about, as we believe, by imparting a wider range of speculation to the selling and buying of securities. The "safe" investor is becoming more speculative.

GOVERNOR HUGHES' VALE-DICTORY.

In his valetudy address to the people of New York State Governor Hughes took occasion to reiterate the leading principles which have distinguished the discharge of his official duties. He was particularly emphatic in again declaring in favor of the direct primary system as the only effectual method of preventing corrupt practices. Since for the most part, he said, the people of the United States act thru political parties, it is of the highest importance to their true liberty that, action within the parties should be free and both with respect to candidates and the selection of party managers should be based on the direct vote of party members. "Under our system," he continued, "representative government cannot be deemed to be securely based if, thru complicated machinery, the selections of our great political parties are left to the determination of caucuses."

It is of good omen for the future of the United States that the people are everywhere exhibiting their willingness and determination to support men who have given ground for belief in the rectitude of their conduct and their loyalty to public rights. Governor Hughes expressed his belief that the privileges of citizenship had never before been so highly prized, but he added the warning that they depended upon the constant vigilance of the citizen, his readiness to take part in active political work, his insistence upon high conduct, his demand for fidelity in public offices, his attachment to the fundamental principles of his government and his abiding love of justice. The United States constitution has had the defects of its qualities. The elaborate chain of checks and balances it embodies, originally designed to protect the liberties and property of the individual has been employed to injure and destroy them. But the people will regain them in time, whether soon or late depends on themselves.

CHINA'S FOREIGN IMPORTS.

China has at last responded to the constant pressure of western civilization and is moving ahead at a rate only comparable to that which marked the transformation of Japan. But the problem that confronts the Chinese Government is vastly more arduous and difficult than it was in the case of the inland empire. Three hundred millions of people cannot be handled so easily as a sixth of that number, especially when they have less homogeneity and for the most part are out of touch with the central government. Nevertheless the strong sense of racial loyalty which marks the Chinese will assist the effort to turn the course of the nation's history. The position in the far east is one

One Item in the "Cost of Living" That Has Never Gone Up!

MUNSEY'S MAGAZINE established the price of ten cents a copy seventeen years ago. It was the first popular-priced magazine in America, and it is the only standard magazine in the country today big enough and popular enough to succeed at its original price of a dime.

The reason? Is in the contents-page—which has earned for *The Munsey* the reputation of being "the best balanced magazine in America."

In October: Politics!

Congressman Tawney, "Bulldog of the Treasury," tells "Why the Republican Party Should Remain in Control of the Government."
Champ Clark, who will be Speaker if the Democrats win, sums up the "Prospects of a Democratic Victory."
T. P. O'Connor, the famous Irish "M. P.," contributes an important paper on Lloyd-George, the British chancellor, whose budget brought John Bull face to face with a serious crisis in the Empire's finances.
"The Forest Rangers at Work" is a brilliant stroke of timeliness—the best story and the best pictures yet printed of the men and measures lately engaged in fighting the appalling forest fires of the West.
"The Bird Men" is the kind of an article only Isaac F. Marcosson could write, about aviation and the men who are making flying-machine history.
The Financial Department is a comprehensive review of market conditions each month, invaluable to every man who has ever saved a dollar.

Eleven Short Stories

One Great Serial

The October *Munsey* is for sale on all news-stands at 10 cents a copy, or will be mailed direct by the publishers at \$1.00 a year.

REFORM TOPICS FOR CHURCH WORKERS

Continued From Page 1.

In the moulding of national life than the legislator. 'The home stands for authority,' he contended. 'It is the place where the future citizens of this country are brought up to respect its laws, and if the boy does not learn to respect the law in the home, he may have to learn it in the penitentiary. When you take away the home-life from a nation, you have removed its surest foundation. But along with authority there must be liberty to fit in with it. Boys must have life and action, and I believe that the laws of activity which God has put into a boy's body are just as holy as those of discipline.'

'What does the socialist say about the capitalist? Simply that he must be depressed, depressed, depressed. The liberty of the boy should be depressed only in the same way that the capitalist should be, and that in accordance with his objective towards right.'

Must Help Themselves. 'The conditions with which the boy is surrounded in the home are another wrong factor, but there are instances where a boy is brought up in a home with servants to do everything for him, and he is not made to perform any act toward the helping along of that home-life. This is, I believe, one of the greatest curses that could come to any young lad. One of the reasons why so many men have become famous is simply because they have been forced by circumstances to take an interest in their home-life.'

'In my opinion the greatest home-tragedy arises from homes where the discussions around the table, are not along lines of the highest moral advice, and where the child is sent out into the world with the one idea, that of simply getting along. The home stands for work, and it is the people who are giving out something to the world that have no time for the committing of crimes.'

'I think it is a shame that in many instances the playgrounds of many of the children in the slum sections of our cities are on the hot paved streets, bounded by saloons and houses of shame; but when Jesus Christ gets thru with Canada, it will not be like that.'

Doing a Good Work. S. H. Soper reported on behalf of the work done by the student sections of our cities are on the hot paved streets, bounded by saloons and houses of shame; but when Jesus Christ gets thru with Canada, it will not be like that.'

Realty and Building

Plans are under way for the construction of a new building in Victoria-street for the Imperial Life Insurance Company to be situated just south and back of Shea's new theatre. The work of building will be started just as soon as the plans are completed by the architects, G. M. Miller & Co., and are approved by the owners. The building will be eight stories in height, with a frontage of 54 feet and a depth of 85 feet.

City Architect McCallum has issued to the Smith Manufacturing Co. a permit for the erection of a factory at the corner of Campbell-avenue and Sarnia-street, to cost \$25,000.

A permit has also been issued to Gelber Bros. for a four-story building to be erected at the southwest corner of Richmond and Duncan-sts.

WON'T PLACE CONTRACT AT RATEPAYERS' MERCY

Contractor Maguire Declines Judge's Suggestion for Solving 'College St. Paving Problem.'

Action was begun in the non-jury assize court yesterday by Robert Brundie, John McCullough, Christian Zillax and James Pearson, property owners on College-street, against the City of Toronto and John Maguire, contractor, to restrain the city from contracting with Maguire to lay an asphalt block pavement on College-street between Manning-avenue and Dovecourt-road. It was alleged that the petition upon which the city engineers recommended the pavement was fraudulent, and that the agent of the Ontario Asphalt Block Co., in circulating the petition for signatures, made misrepresentations to the effect that an asphalt block pavement would cost no more than a heavy sheet asphalt pavement, whereas subsequent bids had shown that the extra difference in cost would be \$15,488.

It was further claimed that there was no competition in the tenders, as shown by the following tenders: Asphalt Block Co., \$42,506.27; John Maguire, \$24,468; Construction and Paving Co. (substituting heavy sheet asphalt paving for block asphalt), \$27,000. The city engineer's estimate was \$60,652.60. It was alleged that the first two tenders were practically the same tender.

In the hearing the evidence of the first witness, Dr. Clark, who resides on College-street, Justice Clute suggested that if Maguire would withdraw his tender the residents of the district could vote on the kind of pavement they favored, and in this way obviate the need of further litigation. Maguire, however, refused to withdraw the contract which the city had awarded to him.

As to the signing of petitions, evidence was given by James Pearson, president of the Construction and Paving Co., who said the Block Company had got their petition along first. He admitted that the company had when the rival company had gone out and secured a number of withdrawals. He also admitted that anybody could make the asphalt block estimate was \$60,652.60. It was alleged that the first two tenders were practically the same tender.

Alex. T. Stewart, an ex-alderman, denied that he had signed or that he had signed his wife's name to the block petition.

'It resembles your hand,' said Mr. Dr. Clark, who had carefully copied the petition.

Alex. Griffin, another College-street boarder, said he had called on the mayor of control in company with several other gentlemen. One of these, he said, was Mr. Stewart, in spite of the fact that the latter had sworn that he did not visit the board of control on that occasion.

'When we came out,' said Mr. Griffin, 'Mr. Stewart said that his wife had not visited the board of control for block pavement. Then he took it and wrote something up.'

EPIDEMIC AT WINNIPEG

Scarlet Fever Raging—One Hundred Cases Are Reported.

WINNIPEG, Man., Sept. 19.—(Special.)—An epidemic of scarlet fever has broken out in the section of the north and immediately beyond the subway. Over one hundred cases are reported, with half a dozen deaths. One physician, who has sixty cases on his hands, chiefly in the Galician settlement, is appealing to the health board to close the public schools in the district affected. He claims that there are no isolation facilities, efforts to check disease are useless.

It is possible one of the schools may be converted into a temporary hospital. Dr. Douglas, chief medical health officer, who attended the recent convention of municipal medical officers at Milwaukee, has not yet returned. A man will probably be sent tomorrow asking him to curtail his holidays.

WELL KNOWN OARSMAN DEAD

Harold Anderson a Victim of Typhoid at Edmonton.

WINNIPEG, Sept. 19.—(Special.)—Word has been received here of the death at Edmonton from typhoid of Harold Anderson, son of T. A. Anderson and all-around athlete. The deceased represented the family firm of Anderson, wholesaler hardware, for Alberta, headquarters at Edmonton.

He was educated at John's College, Winnipeg, and Upper Canada College, Toronto. He rowed bow in Carper's famous 'Winnipeg senior four of 1908, which took the Canadian and national (Western Massachusetts) championships that year. For the two following years Anderson was at St. Paul, and rowed in the champion eight of the Minnesota Boat Club. Last year he was captain of the St. John's Rugby football team.

Plans are under way for the construction of a new building in Victoria-street for the Imperial Life Insurance Company to be situated just south and back of Shea's new theatre. The work of building will be started just as soon as the plans are completed by the architects, G. M. Miller & Co., and are approved by the owners. The building will be eight stories in height, with a frontage of 54 feet and a depth of 85 feet.

City Architect McCallum has issued to the Smith Manufacturing Co. a permit for the erection of a factory at the corner of Campbell-avenue and Sarnia-street, to cost \$25,000.

A permit has also been issued to Gelber Bros. for a four-story building to be erected at the southwest corner of Richmond and Duncan-sts.

CARDINAL LOGUE

2500 AT RECEPTION GIVEN CARDINAL LOGUE

His Eminence Also Addresses Young Women of Loretto Abbey and Refers to Suffragettes.

Fully 2500 people were presented to Cardinal Logue, Primate of all Ireland, at the public reception given in the clubrooms of the Knights of Columbus, Sherbourne-street, last night. The reception was to commence at 8 o'clock, and long before the hour arrived a crowd had gathered outside the gates, people falling into line waiting their turns to be presented to the primate of the church. Shortly after 8 the doors were swung open and quietly, one by one, the people filed in.

His eminence was seated on a fairs erected in the south window of the hall on entering, which was decorated with the papal colors. On the other side of the room, in attendance, were Vicar-General Segrade, Drogheda, Ireland, and Vicar-General McCann, and the following clergy from Toronto: Rev. Fathers Carrigan, Williams, Carberry, Bench, Finesgan, Staley.

Kissed Cardinal's Hand. As each person approached the spot where the cardinal was seated, he was greeted by Grand Knight D. J. McDougall, the guest saluted the cardinal, kissed the right hand and delayed. T. Phelan, deputy grand knight, and the other members of the executive, handled the crowd well. At 10 o'clock the line began to dwindle and shortly afterwards the cardinal left for St. Michael's Palace.

Among those presented were Hon. J. Poy, attorney-general; T. Long, Dr. McEwan, L. V. McBrady, Dr. McDonnell, Dr. McMahon, Dr. Cassidy, M. J. MacNamara, J. Gormally, James P. Murray, Dr. J. Howard Hunter.

Cardinal Logue was dressed in a black cassock trimmed with scarlet, and wore his cardinal's robes, like a king's counsel's gown over it, and the small, close-fitting cap of the same rich color.

Opinion on Suffragettes. Cardinal Logue celebrated 8 o'clock mass at the cathedral yesterday, and, as he walked Loretto Abbey, he was met by a young ladies' chorus sang 'Hail to Thee.' A musical program was arranged, Miss Josephine, a former pupil of the Abbey, singing four solos.

Addressing the ladies, the cardinal testified to the blessing that religious communities were to the world, and especially the Sisters of Loretto. He said that there were a great many theories in regard to the education of young ladies, but he did not believe in throwing them into the world to struggle against those of the opposite sex. He had no objection to the highest cultivation of talent. Women had been given a high mission.

'Most of the good done in this world,' said his eminence, 'has been done by good, faithful, well-trained women.'

In Britain women were struggling for political power, to become members of parliament and prime ministers. Christianity had raised them to a high position, and they received every respect from those with whom they came in contact, but if the system of co-education were continued, and they were permitted to take part in public affairs, he doubted if they would continue to hold the place which they at present occupy.

The young ladies filed before the cardinal and were presented, each bowing and kissing his ring as they passed. The concert was continued, and the singing of 'God Save the King.'

His eminence dined with Rev. Dean Hand of St. Paul's church, and at 6 p.m. was the guest of the Sisters of St. Joseph's Community at the mother's house, St. Alban's-street. After dinner, surrounded by city priests, he was escorted to the auditorium and entered to an Indian program of music and song, the closing number being 'God Save the King.'

THREE BALLOONS LEFT IN ELIMINATION RACE

Held Two Hours in Storm by Drag Rope Which Caught in Tree Top.

INDIANAPOLIS, Sept. 19.—If they have not met with disaster, or landed safely at some isolated spot where they have not been able to report, these three balloons and their crews have qualified to-night in the international balloon race which will start at St. Louis on Oct. 17.

New York—Clifford D. Harmon, New York, pilot; Thomas Baldwin, New York, aide—not sighted. Buckeye—J. H. Wade, Cleveland, pilot; H. Morgan, Canton, Ohio, aide—sighted at Charleston, W.Va. 7 p.m. Sunday.

Miss Sophia—W. T. Estman, St. Louis, pilot; P. J. McCullough, St. Louis, aide—sighted at Pomeroy, Ohio, 8:45 a.m. Sunday.

Nine balloons started in the American elimination race at the Indianapolis Speedway Saturday afternoon. Four started in a free-for-all contest, and all of them are down. The sixth of the starters in the elimination race to alight was the America II, which landed at Warrenton, Va., at 2:30 o'clock this afternoon. Allen S. Hawley, New York, was the pilot, and August Post, New York, the aide.

Stories of the flight told by the pilots of the balloons which have landed are beginning to reach Indianapolis. Carl G. Fisher, who, with George L. Rumbaugh, was in the Indiana II, said: 'We passed all but Hawley in America II Saturday night during a storm that blew great gusts. In the storm our drag rope caught in a tree top and held up two hours, during which four balloons went by at great speed. We finally aroused a farmer, who, with his son, came to our aid. They climbed the tree and cut us loose. We proceeded, tree top and all.'

Editor World: I observe in your Hamilton correspondence that, in a sermon, preached yesterday, a highly esteemed minister expressed his regret that in addressing a large gathering at Montreal the Bishop of London had stated that he was not a Roman Catholic, but that he was an English Catholic. Evidently Mr. L. shares in the general misapprehension as to the meaning of the word Catholic, and did not see the point in the bishop's use of the term.

I am inclined to think that if John Wesley were alive now and taking his place among the active workers of the present day, he would be found among those who call themselves English Catholics.

I shall deal with this question at St. John's Church, Portland-street, on Sunday evening next, and endeavor to show that a man may be at the same time a good Catholic and a good Protestant.

GAYNOR'S SURGICAL CASE DIAGRAMED.

A shows where the bullet entered. B and C shows where fragments of split bullet lodged. 1 is the mastoid, 2 the right side of the jaw bone, 3 the jugular vein and 4 the external carotid artery. The jugulars lie in pairs on either side of the neck, the internal jugulars draining the brain, the external jugulars draining the face. The cutting of any one of these great blood vessels means almost certain death, since there is no way to check the flow of blood by ligature, and the pressure is so great that it is impossible to so bandage the wound that it will heal and repair the damage. The bullet struck Mayor Gaynor behind the right ear and glanced downward and forward back of the external branch of the right carotid, one fragment lodging almost against the wall of that vessel, the other passing onward, close to the jugular, and lodging some place in the lower jaw.

Burned to Death. OSWEGO, N.Y., Sept. 19.—Mrs. Carrie Saltsbur and Mrs. Elizabeth Hadley were burned to death in an explosion of natural gas in their home near here to-day. They awoke and started to investigate the kitchen the accumulated gas exploded.

AT THE THEATRES

At the Royal Alexandra

"The Nigger."
Edward Sheldon's three act play "The Nigger," presented at the Royal Alexandra last night, has certainly qualities that contain strong public appeal. The play deals with a phase of popular opinion supposed to have passed with the civil war, which almost rent the United States in twain. It has not by any means been extirpated. Indeed, it owes much of its vitality to the practical support even of those states which in pre-slavery days were supposed to have obliterated the distinction between white and black. And the United States is yet a long way from the condition when the racial line of separation will cease to exert a predominant influence.

Away back in the days when the least admixture of African blood was sufficient to entail social ostracism, the problem, while insoluble, was not without its mitigating features. To-day, seemingly an anachronism, the racial issue is just as prominent as ever, but it has a personal sphere of influence far exceeding in importance the original cause of disquiet.

Into the play is woven not only the racial problem but the conflict between public responsibility and selfish interests. Philip Morris has risen to high position in his state. He loves and is loved by a charming girl, and his romance flows on sweetly until, with the revelation that he has a remote taint of negro blood in his veins, he is presented with the sharp alternative between public duty and personal advantage. Then the great battle comes, and the triumph is for the latter only at the cost of the honor and reputation he has so hardily won.

The play was originally shown last year in the New Theatre, New York City, a playhouse established for productions of luxury. It is the work of the young man Sheldon, still in his twenties, whose great scenic drama "Salvation Nell" was last year's vehicle for Mrs. Fiske. Both plays are remarkable for the very frank and masterly treatment of difficult themes.

The play is presented by a very excellent cast. Guy Bates Post as "The Nigger" is mainly and artistically effective. He is ably supported by a company of all round talents including Miss Florence Rockwell, whose declamation of Georgina Byrd was all the more successful for its natural abandon. The numerous parts were all competently filled and, judging from the numerous tense moments gripped the audience, there are a number of very stirring scenes.

The play is especially thrilling, and the stage settings are beautiful.

work studies seen here in years. John Kimball, the sleepy and homesick drummer, was excellently done by Edward Burton, by Emmet Shaegelford, and was a very clever and distinctive sketch.

Bob Blake is the centre of the action, however, and with a big good-natured exterior, and all the infectious humor of the fat man, he never misses a point.

At the Grand

"At the Mercy of Tiberius."
Good clean drama, the kind that one openly enjoys, is at the Grand this week, under the title "At the Mercy of Tiberius," a dramatization of Augustus Evans Wilson's famous novel of the southland. The salient points of the book are, of course, represented in the play, but much is necessarily omitted, leaving great gaps filled by explanatory narratives by the actors.

It is the old story of the daughter cast-off by her wealthy father because she married to suit herself. He disowns her and makes a will cutting off her and her two children entirely. Their grandson tries to obtain money from his grandfather, but is furnished medical by a bolt of lightning. The old man dies. The girl and boy are both accused of murdering their grandfather. The girl takes the blame upon herself to shield her brother. She is tried and convicted, but is freed by almost a miracle, and the end is a happy one for her.

John W. Dillon does splendid work as Lenox Dunbar, district prosecuting attorney. Lawrence Atkinson and Louis Thiel are well cast as the old general (the tyrannical father) and his friend, the choleric old judge. C. Edmund Roberts, in the rôle of Bert Brentano, showed considerable ability in his presentation of the character. Eleanor Mantell, who plays the granddaughter, pleases greatly, not only for her charming personality, but by her quiet, unaffected manner. The remainder of the company is adequate.

The stage settings are in excellent taste, those of the second and last acts being unusually beautiful.

The Grand was taxed to capacity last night and judging by the way the play was received, a large audience will be in evidence the balance of the week, and especially at the Wednesday and Saturday matinees.

At Shea's

Gertrude Hoffman.
A fairly bewildering succession of novel effects, in which the serenely classical and brilliantly oriental are sandwiched with rather lighter terms of entertainment, is offered at Shea's this week.

Miss Gertrude Hoffman is responsible for this inconsequential pot-pourri which two very large audiences yesterday seemed to find much to their liking. It is a departure from the straight line of vaudeville, but it does not comprise the whole show, for there are five other turns, one of which, at least, is exceptionally good.

Miss Hoffman has not abandoned her dancer's art, although her impersonations keep her busily engaged. The best of these are those of Anna Held and Eva Tanguay, although her imitation of Eddie Langford also passes muster creditably. Her costumes, particularly the best of these, are to portray the dashing Anna, have distinction.

As Miss Isidora Duncan, who was last seen here at "Masquerade Hall," was given well-deserved applause for artistic dancing. In which she is assisted by a dozen graceful nymphs. Miss Hoffman's latest form is draped diaphanously but in a way that is a happy compromise between the stern demands of art and those of Police Inspector Kennedy. Anything more delicately pleasing than the graceful gliding motion of the floor, is not easily conceived. Then as Ruth St. Denis she is the possessor of a form that can be folded and packed into small compass with the ease of a pocket camera, and of a pair of arms that she can manipulate until they look for all the world like snaky convolutions. She is the pivot around which revolve a troupe of Cingalese gentlemen armed with noise-making devices that surpass all Wagnerian effects, and a galaxy of dancers in regiment.

This spectacle is a brilliant riot of color.

The diving scene shows how far stage realism can go. A big tank of water is utilized, and in this a bevy of charming bathing girls disport themselves. These damsels also introduce a hand mirror flashing turn that is new and taking, and furnish the material for shadowgraphs.

A somewhat tropical dancing act is provided by Valeska Surrat and Jack Leonardson. It is a blend of several varieties and accompanied by vocal grotesqueries.

The sketch, "The Visitor," given by Porter White and Company, marked off a plot of high tension, and the little drama is such that no one could possibly guess the denouement.

McPhee and Hill, as the "Clown and the Tired Man," present a good aerial novelty turn.

Gus Edwards offers a male trio of singers whose voices are above the average.

Burns and Fulton are imported from the English music halls, and their singing and dancing goes with vim.

Gordon and Marx are a characteristic pair of Teutonic comedians who set the English language into an inextinguishable mix up.

The kinetograph offers a splendid line of new pictures.

At the Princess

"The Travelling Salesman."
No need to tell anyone to go to the Princess this week to see "The Travelling Salesman." The play has been running since last night in the house, and the applause and the laughter reached the limit. Five recalls at the end of the second act and an emphatic demand for speech from Mark Smith, who played the rôle, showed how it was enjoyed. Mr. Smith's speech was brief and sincere: "Thank you, very much."

The play opens in a little country denoted by the name "despot," in accordance with a faithful rendering of the local dialect. It should not be forgotten that Mr. Forbes is from Galat, and there can be no doubt that rural Ontario has contributed some of the highly amusing types that participate in the drama of Grand Crossing.

The plot turns on the fact that both Elliott has been left to make her own way in the world, her father having died and left her with nothing but a pile of stones, and upon which she is unable to pay the taxes. Martin Drury, a capitalist, hears that the railway wants the land and he proposes to buy it at the tax sale, which takes place the day after Christmas.

On Christmas Day, on which the curtain rises, a few bigoted travelers are gathered at the depot waiting for the train. Bob Blake, the hero of the story, and a drummer in women's wear, arrives on the last train of the day, and the stable. He makes acquaintance with Beth, pleasantly played by Daines Tyler, and the action adheres to the Elite Hotel, where some other dramatic gathering with Bob to celebrate an absentee Christmas. Drury's creature, Franklin Boyce, played by Jack L. Newton, drops in and a fascinating poker game with some conviviality lands Boyce in a condition in which he is willing to reveal all he knows to anyone. The other two acts clear up the situation so established.

Such a piece depends almost entirely upon the originality of the dialogue, the faithfulness of the character drawing, and the daintiness of the performers. In all three respects it is much above the average, and it has the additional merit of being perfectly clean in its most laughable features. Every character is a study, and some of them are perfect little sketches, cleverly filled in and vitalized even when only on the stage for a few minutes. The result is a flawless performance as far as the casts is concerned. It must be a decided satisfaction to Mr. Forbes, who is general manager, to have his work so well presented.

Mrs. Babbitt bears very much of the picturesqueness of the story on her shoulders, and Diana Hunker, who takes the part, renders a clever picture of an eccentric old gossip with a good heart as one is likely to see. "Thank God, I never was one to get into the heat round the most continuous laughter. Her regret when Bob turns out to be a villain—! He was an attractive devil!"—is a delightful episode. Jack Newton doesn't miss a bit of acting in the exciting scene, and is veracious without being disgusting. Julius, the colored hotel porter, by Geo. M. De Vere, is one of the best burnt-

man, is at the Star Theatre this week, and it is just about as good a burlesque show as can be served up. It is noticeable for the lavish splendor of the settings and costumes, which are far and away above the ordinary burlesque offering. Dave Marlon wrote the music and the book. Dave takes care of the greatest part of the comedy, and Dave's brains are sticking out all over the show.

The chief feature is the unexpected stunts which crop up throughout, notably two excursions from the stage out among the audience. The show opens with a handsome café set and arrangements are made for an aeroplane ascension by a man who never even flew a kite. Then the plot disappears to make way for mirth and music. Dave Marlon turns up as Snuffy with the hare-lip and the excitable temperament, and there are shouts of merriment as he disappears. Some classy singing and dancing brings you to the olio, which is good.

Dreamland Trio sing and dance acceptably, while Sheppe and Bennett introduce a piano act. Then Dave Marlon comes back with a somewhat overdone act, "The Game of Life." The act is good, but conditions are not as bad as Dave has painted them.

The closing burlesque is good, particularly as Snuffy is back with his hare-lip and gets a whoopee from the old kid's game of "Follow Your Master." In which the "chorus ladies" are put thru a fine assorted lot of nonsense.

At the Gayety

"Queen of Bohemia."
Very ambitious for a burlesque show is "The Queen of Bohemia," which opened at the Gayety yesterday. If it wasn't for the familiar Irish and Dutch comedians, ably impersonated by Jack McCabe and Chas. A. Mason, it would almost take it for a legitimate musical comedy. The music, too, is more tuneful than customary, the reminiscence in spots. It was composed by Paul Rubens; if this is true, the famous writer of "Three Little Maids" and "Miss Hook of Holland" has added new laurels to his wreath; but it's surprising that he should be so good at some quartet work that is much above the average, and Percy Pinkham, who vaunts himself a singer of songs, makes more than good with them.

The scenery and costumes are some of the finest ever seen at the Gayety, and that's saying a lot. The dainty members of the chorus, in particular, are most elaborately gowned, but it cannot be said by any stretch of the imagination that they are over-dressed. In a song called "I Could Swim," they amply fulfill the requirements of the expression "going the limit."

At the Majestic

"Pop" Vaudeville.
Nobody need be without wholesome recreation and amusement. At the Majestic Music Hall, this week, a fine vaudeville program is presented, and it costs you only 10 cents for the best ground floor or balcony seats, and 5c for the gallery. Four times yesterday the bill won the favor of large audiences.

The chief attraction is Behman's animal circus, in which the famous diving dog "Laska" elicits the most enthusiastic applause from the audience, especially in his turn of turning three somersaults in the air and alighting on the shoulders of a man.

Hyde and Raymond made their initial appearance in one of their own original stunts entitled "His Beat Pal." In a song called "Laska," both "merry makers on rollers" are very skillful, too. Sam Richards in negro trappings made a decided hit, and Gordon and Keenan presented a funny acrobatic work. Then there are motion pictures.

INSTITUTIONAL WORK FOR CHURCH IN FUTURE

Induction of New Rector of Holy Trinity—Address by the Bishop of Toronto.

Rev. Derwyn Trevor, Owen, L.Th., was inducted last night as rector of the Church of the Holy Trinity, Trinity Square, in succession to Rev. Dr. Pearson, who died early in the summer. The service was conducted by the Rt. Rev. Dr. Sweeney, Bishop of Toronto, who also delivered an eloquent sermon.

The mandate was read by Archbishop Cody, and the service for the day was held by the Bishop.

In choosing his text, the bishop read the 15th verse of the 2nd chapter of the second epistle of Timothy. "Study to show thyself approved unto God, a workman that needeth not to be ashamed."

His lordship noted that the induction marked the beginning of a new epoch in the history of the church. With the death of the last rector, the church had made and dwelt on the importance of institutional work which the church was about to undertake, marking a new era in the parish house which stood beside the church, should or would some day, be turned into a parish school for the education and moral training of the foreigners in the vicinity.

His lordship in his conclusion referred to the duties which lay before the new rector and man in general, with sympathy and assistance from the congregation.

Among those in the procession up the aisle of the church were Archbishop Cody and Ingles, Canons Broughall, Cayley and H. C. Dixon, Revs. Jas. Broughall, W. Broughall (Oakville), Hoyles Clark, Rev. J. J. O'Connor, Rev. Chas. Darling and Alex. Williams.

SOO CORPORATION REPORT

Result of the Year's Operations is Satisfactory.

According to the sixth annual report of the Lake Superior Corporation, for the fiscal year ending June 30, and which has just been published, the result of the year's operations of all the subsidiary companies, shows a surplus, subject to depreciation and other charges, of \$1,194,735.22.

The following application has been made of the surplus by subsidiary companies:

Losses in assets realized and had and doubtful debts written off	\$189,021.49
Written over to the trust account and securities sold	160,000.00
Reserved for renewals, doubtful debts, etc.	90,323.34
To be paid over to the trustee of the mortgage and deed of trust securing the note issue of Lake Superior Iron and Steel Co., as a sinking fund for the payment of the notes at maturity, in accordance with the provisions of the deed of trust	220,752.27
Paid to the Lake Superior Corporation as interest and dividends	554,718.52
Total	\$1,194,735.22

In reviewing the above results, says the report, "it must be pointed out that, with the exception of No. 3 open hearth furnace, none of the new plants being installed were in operation during any part of the year. Not only owing to the large amount of new construction under way, but the operations of the existing plants have been carried on under very many disadvantages, but on account of the demand for labor by the contractors entrusted with the new construction, the companies have suffered from having to increase wages in several departments. These are conditions, however, which will to a certain extent be only temporary."

"Again, the bounty allowed by the government during this fiscal year on steel manufactured under way, was equivalent to about \$1 year per ton of steel than in the previous year, causing a loss in net earnings for the present year of about \$200,000."

The directors "have felt justified in paying interest on the income bonds for the year at the rate of 2 1/2 per cent—New and extensive alterations are being made, especially in connection with the steel plant."

From Far Away Places.

Among the strangers who registered yesterday at the King Edward were: Zarah Nubar, Cairo; Charles de Clinch, Paris; P. Bakoni and L. Walkup, Puda Pesth.

TAKEN OFF REEF
Steamer Aground Since Last Fall Successfully Floated.

PORT ARTHUR, Sept. 19.—(Special.)—The steamer James E. Trevor, which had been aground since last fall, on an Isle Royale reef, and was purchased by F. S. Wiley as a speculation, with hopes that she could be floated, was got off the reef and taken to Washington Harbor. The top tanks are now being repaired, and in a few days she will be brought to Port Arthur.

The Trevor will probably be the first boat to be put on the stocks of the new Drydock and shipbuilding Co. for repairs. She will be put into commission in the grain carrying trade, with a capacity of 110,000 bushels.

SOCIETY NOTES

Mr. and Mrs. Charles C. Cummings, who, with their children, Jean and Lusden, have been spending the summer in Europe, returned home this week.

Miss Marie Golden, daughter of Geo. Golden, Orangeville, was married at her father's residence to Robt. Laird of the Weston Co., Toronto. Mr. and Mrs. Laird will be at home after Oct. 1, at 270 Woodbine-ave.

Dr. and Mrs. Halford Walker are back from their island home on the Georgian Bay, and are in residence at Mrs. Helliwell's, 74 St. George-street.

Capt. and Mrs. Charles W. Lea announced the engagement of their daughter, Estella Mary, to the Rev. Percival Morland Lamb, B.A., curate of St. Cuthbert's Church, Leaside, son of Mrs. M. Lamb, Russell-street, Lindsay. The marriage will take place in October.

George Ward, fireman, attached to Hose 4, had his hand badly cut when one of the horses kicked and broke a bottle of liniment he was applying.

MELBA CONCERT PROGRAM

RECEPTION TO O'CONNOR

U. I. L. Committee Approve the Final Arrangements.

The citizens committee selected by the United Irish League to manage the reception to T. P. O'Connor met last evening to complete business. The function is to consist of a high-grade musical concert coupled with a lecture by Mr. O'Connor. All subscriptions toward the expense are to be voluntary from local Irishmen. It was moved by Dr. Logan and seconded by D'Arcy Hinds that the price of tickets should be 25 cents, and that the program be carried. Tickets are to be sold by the committee and by William Tasker at the Bell Parlour, but those sold by the committee will be exchanged for reserved seats coupons at 146 Yonge-st. All seats are reserved. The plan will open Wednesday morning at 9:30. Irishmen outside of Toronto who wish to engage seats, should communicate with President F. J. Roche, 18 Toronto-st., or Secretary Hinds, Osmonds Hall.

The resolution that the musical program should consist of selections by Frailick's orchestra, popular Irish songs by Donald C. MacGregor, Irish melodies by Lena Hayes, violinists and pipe music, was unanimously carried, with the proviso that the program should be subject to the approval of Mr. O'Connor.

It was moved by P.F. Cronin, seconded by W. S. O'Connor, that the finance committee be selected by the president and secretary, with power to add to their number. The following additional names were added to the citizens committee: Major J. Cooper Mason, D.S.O., Dr. J. E. Elliott, J. W. Wheaton, Dan Roche, W. S. O'Connor, T. Herbert Lennox, K.C., Alex. Heydon, A. M. Orpen, W. J. O'Reilly, John McGuire.

The summer excursion committee reported a profit of \$250.

COL. GIBSON IN WINNIPEG

Winnipeg, Sept. 19.—(Special.)—The Lieutenant-Governor of Ontario, Hon. J. M. Gibson, arrived in this city at noon, and was met by a delegation of prominent Scottish Rite Masons. Tonight a reception was held by the craft in the Masonic Temple. Mr. Gibson, who is being entertained at Government House, said "the cordiality of what I have already seen in the west strikes me as most impressive. Ontario, for her part, is blessed with a rich harvest this year."

GUARDS' BAND FAREWELL AT BELLE ISLE LIGHT

Lonely Colony at Gateway of Canada Honored by Impromptu Concert for Their Benefit.

A marconigram from the S.S. "Royal Edward" eastward bound from Quebec, 750 miles, received in the city yesterday, read: "The Grenadier Guards Band, home-bound on board the Royal Edward, paid a unique farewell to Canada at the navigating deck of the 'Royal Edward' as she passed the Belle Isle light at 10 on Saturday. 'Captain Roberts, who, in common with all ocean navigators, appreciates the loneliness of the lighthouse keepers and the worth of their work, had suggested this impromptu concert to Bandmaster Williams as a unique method of bidding farewell to Canada, and at the same time alleviating the loneliness of the light keepers. The entire band soon assembled on the navigating deck of the steamer. 'As the steamer passed Belle Isle—the isolated first gateway of the first Britain beyond the seas—the conductor's baton rose sharply and the opening bars of 'Tune Britannia' crashed out, and were carried by the southerly breeze, to the lonely watchers on the cliff. Weather conditions were excellent—a clear sky and calm sea. 'It is doubtful if the band ever played to a more appreciative audience. The passengers' attentions were centered upon the lonely few, who could be plainly discerned against the back ground of the little cluster of time washed buildings which mark the lighthouse and Marconi station perched on a terrace of the bustling cliff. Four numbers were played in all—'Rule Britannia,' 'Highland Laddie,' 'Auld Lang Syne' and 'God Save the King.' 'While the steamer was still within sighting distance of the island the Marconi instrument in the wireless tower of the 'Royal Edward' sputtered out a message of thanks and appreciation from the light keepers. Their message added that they had never before heard a military band in their lonely cove and they wished bon voyage to Bandmaster Williams and his band.'"

ARCHBISHOP MACLAGAN DEAD

Prelate Who Crowned Queen Alexandra is No More.

LONDON, Sept. 19.—Dr. MacLagan, the former Archbishop of York, is dead. Most Rev. Wm. Dalrymple MacLagan, B.C., D.D., D.C.L., LL.D., was born at Edinburgh in 1826, and was fifth son of David MacLagan, M.D. He served in the Indian army 1847-52, retiring as lieutenant. He left the army for the church, and was ordained a deacon in 1852. He became Bishop of Lichfield in 1878, and Archbishop of York in 1891. It was he who crowned Queen Alexandra in 1902. He retired from the archbishopric in 1909, and was succeeded by Dr. Coomo Gordon Lang, Bishop of Stepney, who had a short time before declined to become Bishop of Montreal.

BURGLAR GETS 18 MONTHS

Found Guilty of Forcing a Number of Over Sound Business Places.

OWEN SOUND, Sept. 19.—A series of petty burglaries which have been perpetrated during the past fortnight, in which entrance was forced into several business houses and small amounts of money taken, came to an end on Saturday night, when Sidney Hope, a young Englishman, was arrested. This morning he confessed to the burglaries and was committed to the Central Prison where he was sentenced to 18 months.

FOUND WITH HER THROAT CUT

Man Lying by Her Side Bleeding From Several Wounds.

TRURO, N.S., Sept. 19.—A woman dead with her throat cut and a man lying by her side in an alcoholic stupor and bleeding from several wounds was the shocking discovery made in a house on Foundry Hill in Truro. The name of the woman was Mrs. Maud Wright, and of the man Stephen Perry. Both are of ill repute, and are said to have been living together for some time. Both were drunk on Saturday night. There are about all the facts so far known to the police, who have Perry under arrest.

Thief or Breach?

John Y. Cole told Robert Hodgins to sell his mining claims and keep all over \$500. Hodgins sold half the claims for that sum and kept the rest. He also kept the money. Charged with theft in court yesterday, J. W. Curry, his counsel, argued that this was not theft, but breach of contract. An adjournment was made for a decision on this point.

129 CARSTAIRS VARIOUS GENERAL QUALITY MEDIUM

Best Exporters Steady—Medium Cattle 10c to 20c Lower—Sheep, Lambs and Hogs Firm.

Receipts of live stock at the Union Stock Yards 129 car loads, consisting of 294 cattle, 159 sheep and lambs, 57 calves of all ages and 177 hogs.

The quality of cattle generally was not as good as it was one week ago, although there were two or three loads of exporters that would be hard to surpass.

Trade was slow, market drab, early in the day, but the day's business brightened up somewhat and at the close everything was reported solid.

Prices of live stock were steady at last week's quotations, but all others for export were 10c to 15c, and in some extreme cases 20c, lower.

Exporters. E. L. Woodward bought for Swift & Co. 157 export steers for London, 150 lbs. each.

Butchers. Picked lots of prime cattle, \$5 to \$5.25; loads of good, \$3.75 to \$4; medium, \$3.25 to \$3.50.

Stocks and Feeders. A moderate supply sold at about steady prices, ranging from \$48 to \$50 each.

Milkers and Springers. Veal calves sold at \$3.50 to \$5.00 per cwt.

Sheep and Lambs. The market for sheep and lambs was brisk, all offerings being readily taken.

Swine. The market for swine was steady, all offerings being readily taken.

Representative Sales. Dunn & LeVack sold 22 exporters, 1200 lbs. each, at \$5.25.

Chicago Cattle Market. NEW YORK, Sept. 19.—Cattle—Receipts, 4800. Market irregular; steers, \$5.40 to \$7.00.

Chicago Hogs Market. CHICAGO, Sept. 19.—Hogs—Receipts, 23,000. Market weak; mostly 100 lower.

NEW TAKE AND CONDUIT NEEDED TO MEET DEMAND

Waterworks Engineer Follows Advocates Extension to Plant at Cost of Around \$300,000.

So rapidly has the city's consumption of water increased that Waterworks Engineer Follows advocates the laying of an additional six foot intake pipe and a conduit pipe to convey the water from the filtration plant to the tunnel under the battery.

He hopes that these additions, which will cost about \$300,000, will be made next year. The city will have to find other money by law, but it may not be submitted next January.

When the tunnel was built it was the present one in a southerly direction, entering the filtration plant at the same point as the present one. There is now only one six foot pipe from the filter beds to the tunnel, and one of like size will be added. This will give a daily supply of 80,000,000 gallons.

The proposal contemplates carrying the new intake pipe about 1500 yards out and extending the present pipe to about the same length. Working on the New Tracks. The work of tearing up Wilton-avenue, beginning at Sherbourne-street and working east, in preparation for the laying of rails, began yesterday, while another gang was busy on Harbour-street.

The works department estimates that 600 feet of grading and 150 feet of concrete can be done in a day. After the grading is done by the city, the railway sets the rails, and the city finishes the job by concreting the roadway and paving it. The railway will start placing the rails in a day or two, and the concreting will start by the end of the week.

Public Lavatories. The opening of the public lavatory at Broadview-avenue and Queen-street brings the number up to four. Two more are soon to be established, one at Spadina and College, the other at Keele and Dundas-streets.

Medical Health Officer Sheard will visit the new western entrance to the harbor this afternoon to consider the advisability of stretching a sand dam across the channel to prevent typhoid fever from seeping into the lake during the winter.

FIGHT OR ROBBERY? Brothers, Charged With 'Hold Up,' Plead Innocence. Louis and Abraham Pancer are on trial in the sessions court, charged with robbery with violence.

According to the story of Isaac Schwartz, employed by S. Myers & Co., 22 Elizabeth-street, as a bookkeeper, the Pancer brothers assaulted him and stole \$100 which he had in an inside vest pocket.

Schwartz declared Louis Pancer saw Myers pay him the money on July 15, and also where he put it. Between 10 and 12 o'clock on the night of the robbery, Louis Pancer came up to them on a bicycle and started calling him names.

Myers gave a statement to the police, and said he believed the story of Frank Macdonald, charged with receiving stolen money from Roy Currie, and acquitted him. Currie, who spent 30 days in jail for stealing \$17 from Prescott Mackinnon, says Macdonald had got \$50 of the money, knowing it was stolen, while Macdonald stated that he had innocently borrowed the money.
