DEFAULTER UNDER FIRE WHILE STILL IN MUFTI

Failed to Report and Police Had to Shoot Before he Surrendered.
Distinction of being the first Military Service Act defaulter to be shot at while in process of apprehension, goes to Chas. F. Johnston, of Dundas. He was ordered to report for military service at Hamilton. On failing to appear, Colonel Robertson, of Hamilton, sent a military escort to Dundas to fetch him. The defaulter, however, tried to escape. The Dundas police, who at the point co-operated in the chase, were not displeased when the defaulter jumped into a creek and endeavored to "swim" to safety. They opened fire on him and as he was not able to bear being under fire and water at the same time, he surrendered. The military escort took him back to Hamilton, where he is now in uniform. At Toronto headquarters of the Dominion police, it is reported that 70 draft act defaulters were placed in khaki last week as a result of their efforts.

RAILWAYS BELONG TO THE PEOPLE

Sir Adam Beck, at Chatham, on Nationalization of Canadian Roads.
ASSET NOT SINKHOLE
With Exception of Canadian Pacific All of Them Are Hopelessly Bankrupt.

Special to The Toronto World.
Chatham, March 4.—Speaking to a large gathering of Chatham citizens in First Presbyterian Church tonight on the nationalization of railways, Sir Adam Beck stated that with the exception of the C. P. R., all of the large Canadian railways are hopelessly bankrupt. The railways, he stated, were the people's, and they had to take them, although the people wanted to. "If you spent your whole lives at it," he said, "you could not make a worse mess of it than the private companies who have been doing them. You have to pay for these bankrupt railways out of your taxes."

Loss of Supply Would Have Vital Influence on War Program.
Washington, March 4.—Germany is taking advantage of the peace negotiations with Russia to buy up every available ounce of platinum, according to advices received today by the American Government. Officials said today that undoubtedly the Germans were badly in need of platinum, but their intention doubtless also was to keep the United States and other allies from obtaining the important metal.

Would Cost \$100,000,000
Referring to the combining of C.N.R. and G.T.P., he stated that it would require an expenditure of one hundred millions to place them on an operating par with the C.P.R., while to operate separately would cost four hundred millions. He believed that in ten years if operated by the people, the railways would prove an asset instead of a sink hole.

London, March 4.—British troops operating north of Jerusalem, in Palestine, have made an advance along a front of 12 miles to a maximum depth of 3000 yards astride, and west of the Jerusalem-Nabulus road, the war office announced today. The text of the statement says: "From Friday to Sunday several encounters between mounted patrols occurred east and north of Jericho. Between Saturday and Sunday our troops advanced northwards to a maximum depth of 3000 yards, on a front of 12 miles astride and west of the Jerusalem-Nabulus road, encountering little opposition. "An enemy airplane was brought down out the east of Jericho. The pilot and observer were wounded and captured."

GERMANY CORNERS RUSSIAN PLATINUM

Enemy Agents Move to Thwart Allied Production of Munitions.
AFFECTS MACHINERY
Loss of Supply Would Have Vital Influence on War Program.

Washington, March 4.—Germany is taking advantage of the peace negotiations with Russia to buy up every available ounce of platinum, according to advices received today by the American Government. Officials said today that undoubtedly the Germans were badly in need of platinum, but their intention doubtless also was to keep the United States and other allies from obtaining the important metal.

Supplies of platinum in the United States amount to between 25,000 and 50,000 ounces, most of which will be taken over by the government under the commanding order issued last week. While that amount seems sufficient for present needs, the country is short of iridium, a constituent metal of platinum, which it is used to harden. There is not an ounce of iridium for sale in America today. Last sales of iridium were made at \$185 an ounce, and of platinum at \$90.

With Russia, the world's principal platinum market closed by German control, the use of platinum for jewelry is expected to cease after present stocks in the hands of manufacturing jewelers are exhausted. Those stocks have not been taken over, one reason being that approximately 8000 metric tons of platinum and nickel depend on platinum work for livelihood. The possibility of increasing American production of platinum is being studied in the emergency. Hereford, Nevada, California, Utah and Oregon have turned out about 750 ounces a year, which geologists believe can be increased to 3000 ounces.

He had found British prestige at a very low ebb in that quarter of the globe, where prestige counted very much.

ENEMY CONTINUES PACIFIST CAMPAIGN

German Papers, Commenting on Balfour, Appeal for Negotiations.
Amsterdam, March 4.—The Frankfurter Zeitung, commenting on the recent speech of A. J. Balfour, the British foreign secretary, says: "The decision as to whether the war, with all its horrors, shall continue, or preliminary discussions regarding the possibility of peace shall begin, depends today more on President Wilson than on the governments of the European entente."

CANADIAN NORTHERN IS VALUED AT PAR LESS SOME EARNINGS

Sir Donald Mann Gave Evidence at Arbitration Proceedings Yesterday.

HE WOULD GIVE SIXTY

Would Accept Twenty Million for Sixty Million Worth of Stock.

The value of the C.N.R. stock was placed at par, less five years' earnings charges, by Sir Donald Mann when giving evidence at the arbitration proceedings in Osgoode Hall yesterday afternoon.

"What is it worth at the present time to your partners," asked Justice Harris, "presuming you cannot sell and have not the money to carry it?"

"I know," said Sir William. "But what is the lowest?" "It should be a financial success if it paid five per cent.," replied Sir Donald.

"Under those conditions I would like that I figured some time ago that we would take \$20,000,000 for \$60,000,000 worth of stock," said Sir Donald.

Sir Donald Mann, cross-examined by J. F. Hellmuth, K.C., counsel for the Canadian Bank of Commerce, stated that he was first vice-president of the C.N.R., and had been connected with the C.N.R. since its inception.

In 1892 he secured an option on the charter of the Lake Manitoba and Canal Company. This option was absolutely his own, and in 1893 he was still the sole possessor of that option.

In 1894 he negotiated with the Manitoba Government, who guaranteed \$8,000 a mile, and the line was completed from Portage la Prairie for a distance of about 100 miles in 1896.

At that time, said Sir Donald Mann, the people in the west were very excited about getting an outlet built to the Hudson Bay.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

While the Germans are talking about their western designs, the French are acting and the prelude to what they are going to do with the enemy is shown in their further successful attacking. Selecting a point east of the Meuse in the rather more sector of Verdun for the enemy's attack made, yesterday, a surprise attack on a front of over 1300 yards and penetrated the German defenses to a depth of half that trench, gaining the fourth enemy line of trenches. They found the Germans massed nearly as thick as soldiers, and made more than 150 of them prisoners. The British also struck thick and fast in their raiding. The Austrians returned the compliment of same operations against the Germans. The enemy who is spreading rumors of an impending offensive among his soldiers, keeps constantly postponing the date.

From Palestine General Allenby reports another British advance towards Nabulus. The British columns gained 3000 yards, or nearly a mile and a half, west and astride of this main highway on a front of twelve miles. The opposition which they encountered from the Turks was slight. East of Jerusalem the British mounted patrols which fought the Turks in several encounters. This news shows the intention of General Allenby to press on with his operations. The conditions resulting from the collapse of Russia are at present not so adverse as they may be later on, and so the British will be the gainers by losing no time in winding up their campaign in the near east.

The Russian peace treaty goes before the general Bolshevik conference at Moscow, next week for ratification. The question of its acceptance remains in the balance. The Russian forces, meanwhile, will cease from resistance, but remain on their present lines in front of the enemy. The Austrians, who soon found it convenient to repudiate their previous announcement against prosecuting the campaign into Russia, are proceeding with their advance into the Ukraine, almost unimpeded. They report large captures of men, guns and war material, but a Russian army is still before them somewhere in the distance. The latter, in a manifesto, attributes the peace with Russia solely to the German sword. The Germans are rejoicing and their papers are predicting great things against the allies in the west, since they have removed the danger in the east.

The German ability, with Russia out of the war, to press home an offensive against the allies in the west, with the danger of treachery omitted, has facilities in northern France and Belgium can hardly sustain much larger forces, there than the enemy has been able to sustain in the past.

## The Formal Presentation of Spring Modes Continues Today, the Second Day, and Throughout the Week

In all the Departments devoted to the Display of

Women's, Misses' and Children's Indoor and Outdoor Apparel

There you may see all that is smart and new in styles, colors, and materials as portrayed in a splendid assemblage of models by some of the foremost designers of Paris and New York.

A Delightful Simplicity and a Straight, Slender Silhouette Being the Dominant Notes of the New Mode.

Such Being Charmingly Depicted in the

Parade of Mannequins which takes place daily from 10 to 11.30 a.m.

### Women's Suits That Reach the Very Apex of Chic and Charm

Among them being models and copies of models by such world-renowned couturiers as Chanel, Jenny Paquin, Cheruit, Georgette, Agnes, Premet, Jeanne Lanvin, Beer, Frances Rolf. The triumph of simplicity is apparent for the suits are plainer than they have been for many a day, though without a hint of the severity which was formerly associated with the plain tailored suit.

The straight slender silhouette, the chief characteristic of the new modes, gives a very youthful look, and is often accentuated by rows of trimming or narrow panels beneath the arms.

Suits are narrow—about 2 yards the average width—are sometimes yoked or gathered at the back in the plainer models, and are often distinguished by long overskirts in the more elaborate.

Coats are belted more often than not, with basques of uneven length, one of the noteworthy features being that quite a large allowance of the somewhat scanty trimming is placed at the back.

The re-appearance of the vestee is one of the most marked innovations; sleeves are close-fitting—ofttimes slashed at the wrist—and collars are smaller and neater, the notched collars and the tapering shawl collar being of most frequent occurrence, while the high collar makes an occasional appearance.

One of the sensations of the season is the 'Eton coat, while the pony coat (a short box coat) and the slip-over-the-head jumper style may also be seen.

In materials there is immense diversity, jerseys, tricelines, silver-tone, durtone (a cashmere finished diagonal twill), Poirot twill, homespun, tweeds and covert cloth, being the most popular woolen fabrics, with, of course, the ever-popular serge, while bird's-eye cloth (a kind of basket weave) is one of the novelties. Silks are very prevalent and include tricolette (a new silk jersey), Roshannah crepes, silk jerseys, khaki kool, taffeta, and in suits destined for later wear, charmeuse and crepe de chine in lovely pastel shades.

Navy blue—the incomparable—holds first place among the colors, while there's an infinity of choice in the soft tan, ash and castor shades—a new Santiago brown (like a dark beaver), cantaloupe and seagull grey, Monaco blue, spruce, peacock, framboise (raspberry), redwood and hortensia (purple) are very much to the fore in sports suits and occasionally in models for street wear. Prices range from \$45.00 to \$300.00.

Special mention must be made of the splendid array of cleverly designed suits for stout women.

### A Magnificent Array of Separate Coats, Today

Including many French and New York models and exploiting with all the authenticity of famous designers the narrower lines, tighter sleeves, and smaller collars that characterize the newer wraps. The separate coat looms larger than ever on the fashionable horizon, and verily it is so distinct with grace and charm, so practical withal, that its importance is readily accounted for. Gone are all the flare and fussiness of last year, and their place is taken by the coats of trim appearance, full as to skirt, but with straight lissom lines. These fall naturally into two categories:

(1) The Strictly Tailored Coat with notched collar, cut upon mannish lines, sometimes loose, and sometimes belted in military style.

(2) The Belted Coat with collar that buttons to the neck, sometimes large and sometimes small, or with tapering shawl collar.

That there is immense variety, the coats displayed throughout the Women's Coat Department will show—a variety that is attained by the

shape of the belts and collars, the introduction of pleats, sleeves that—tighter than of yore—are slashed or finished with small cuffs—by the use of side panels, of buttons and braid and by the position of the pockets which are frequently slashed.

Materials are soft and supple, silver-tone, velours, turtone (a cashmere finished, very fine tricotine), vying for popularity with tricotine, gabardine, poplin and covert cloth, while tweeds,

bird's-eye (a basket weave) homespun and Irish frieze make another group. Tricolette (a heavy silk jersey) and Roshannah crepe, a heavy silk with a crepe surface, are also to be noted.

The colors ring the changes on navy and Monaco blues, and on the soft castor and grey shades, these being variously known as cendrillon (brownish ash), chinchilla lapin, kangaroo, sea-gull grey, spruce and a dull cactus green are also to be met with. Prices range from \$35.00 to \$200.00

### Modish Designs and Excellent Value in Women's Coats at \$35.00

A most interesting array of Smart Coats for women has been gathered together to be displayed at this moderate figure. Included are coats of tricotine, gabardine, fine serge, poplin, and velours, a pleasing feature of them being the charming combinations of shades popular this season, navy with grey or sand, sand with blues of varied hues, and other combinations. There's a great style diversity, some showing finely tucked back simulating the pinch-back, others box pleated or tucks, some gathered and shirred to waistline, the skirt flares gracefully, and they are cut on the slim lines preferred this season. Various new effects are given by belts and the placing of pockets, and collars frequently show the new tuxedo and shawl styles. Some are lined throughout, while others are half-lined. Colors include navy, grey, sand, Holland and black. Sizes 34 to 44. Price \$35.00

Guard Your Health With Rubbers

THERE'S one side to the economy of Rubbers, that some people may overlook. Rubbers save doctors' bills, just as they save boots.

With streets coated with slush or a river of rain, Rubbers are certain protection against getting wet feet, and your being laid up with a severe case of grippe or worse.

If you want to come through the spring thaws without even a cold, get rubbers for each pair of shoes; and if you are buying new shoes, be sure to have them fitted with the right Rubbers.

CAMPAIGN IN EAST READS LIKE NOVEL

Riverdale Women's Patriotic League Hears B. H. McClain of India.

NATIVE WOMEN'S WORK

Kaiser Was Disappointed (When Native Princes Remained Loyal.

Riverdale Women's Patriotic League was privileged yesterday afternoon in hearing an address from B. H. McClain of New York, late of India. In his introductory remarks the speaker connected the east with the west when he told of the native women of Calcutta doing Red Cross work under the direction of Lady Carmichael and those of Burma putting forth effort along the same line under the leadership of Lady Williamson.

The disappointment of the Kaiser, who had thought that India would rise when war was declared, was referred to when Mr. McClain told of the gift of \$2,000,000 from an Indian potentate to the viceroy, with which to do anything he pleased, and of the 100,000 men who soon were fighting side by side with the British troops in France. Since then recruiting has gone on steadily; some say it has reached the million, the audience were told, but there is no doubt that at least 500,000 have enlisted.

A graphic account of the disappointment felt when the traveler from the west first saw the land watered by the Euphrates and the Tigris, was given. Mr. McClain told of landing fifty miles from the mouth of the Persian Gulf, thru mud, which by careful piloting he managed to keep below his knees. It was under these conditions that the British troops landed. Describing the gallant stand made under General Townshend when besieged by the Turkish troops at Kut-el-Amara, the speaker said that it was only when it was found that to break thru would be an utter impossibility that the general at last yielded. The British held out against great odds until the men were on rations of a quarter of a pound a day and when they marched out looking like living skeletons, the camp followers who had been in France and Gallipoli, seeing them, broke down and wept. Mr. McClain expressed it as his opinion that the feat of Townshend in holding out as he did would send his name down in history side by side with that of General Lawrence at Lucknow.

What the Mesopotamia expedition endured makes a thrilling tale. Tents that would cover two cities were raised on a desert of mud, which the men tramped hard with their feet, placed their blankets about it, and then laid themselves down to sleep. The 5000 casualties had to be removed in open boats up the Tigris, taking ten days or a fortnight before reaching the hospitals and receiving no medical attention at all until they were before being placed on the boats. One man had lain down and died and the doctors could find no cause of death except sheer inability to withstand the everlasting strain of marching thru mud and the accompanying conditions. The plans of Germany were epitomized when Mr. McClain stated that Mesopotamia was the highway to the east. Germany had had her eye on it for many a day. It was a wealthy area might be made one of the greatest wheat-producing countries in the world, he said. Germany expected to control the Berlin-to-Bagdad railway. She would throw her troops into India and cut off connection between Asia and the British Isles. If Germany could have achieved this she could have achieved all she set out to do, was the opinion of President Wilson, quoted by the speaker.

Poison the Cause of Pain

This Theory of the Doctors is Well Proven by the Experience of a Brockville Lady Whose Letter is Quoted Here.

Brockville, March 4.—It is a well-known fact that rheumatic pains, backache, lumbago, headache and bodily pains are the result of poisons in the system. Tired feelings result from the same cause. But poisons do not accumulate in the system when the kidneys are in healthful working order. For this reason the pains and aches soon disappear when the kidneys are set right by the use of Dr. Chase's Kidney-Liver Pills. This letter fully corroborates this theory.

Mrs. Frank Noyes, 5 Stuart St., Brockville, Ont., writes: "For years, I was afflicted with kidney complaint. I became very nervous, was easily worried, and had frequent headaches and neuralgic pains, especially through the back. I had indigestion, poor circulation of the blood, and often was bothered with weak spells. I commenced using Dr. Chase's Kidney-Liver Pills, and had taken two boxes, when I felt greatly relieved. I continued the treatment how ever, until I was completely cured. In all I took about ten boxes, and have not been troubled in this way since. I highly recommend Dr. Chase's Kidney-Liver Pills and I think also that the Plasters and Ointment can't be equalled."

Many people endure pains and aches, and become more or less chronic invalids because they neglect to use such treatment as Dr. Chase's Kidney-Liver Pills to eliminate the poisons from the system. Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, 5 for \$1. at all dealers, or Edmondson, Bates & Co. Limited, Toronto.

FEMINE TORONTO TURNS OUT IN MASS

Opening of Fashion Review Brings Hundreds to Large Stores.

STYLES FOR EVERYONE

Skirts Are Narrower and Have Many Side-Pleat-ings and Buttons.

Amidst a profusion of spring frowns the Robert Simpson Co. introduced feminine Toronto to the modes of 1918. Great bowls of gorgeous tulips, sunshiny daffodils and white hyacinths transformed the showrooms into real bowers of spring. The canaries in the millinery rooms did their bit too, in adding to the illusion by singing persistently thruout the day.

Among the hats are smart shapes in liseere (which madam will inform one is the fashionable straw of the season), dainty dress hats in georgette and the always-popular flower hat is again seen. One show-case gaily displays some of the new French liseere models in rose and the new high crowns, which the French milliners are endeavoring to make popular this season. Among the trimmings are flower wings and ostrich mount novelties and all are equally popular and pleasing.

Madame Toronto should have no difficulty in choosing her spring suit, for there are styles for everyone, from the smart tailleur to the girlish Eton. Poiret twills, French serge, gabardines and tricootines make equal bids for favor, and buttons, buttons, everywhere on the sleeves, on the belts and even on the pockets.

The skirts for 1918 are much narrower than they were a season ago, with many side pleatings, which narrow down to the hem. Smart Sand-Colored Suit. One smart sand-colored suit shows a very fetching black and white check corded silk vest with black suede belt. The chic little vests shown in the suits of this spring are their smartest features and add welcome touches of color. Many of the Eton suits are trimmed with bands of black silk braid. One model shows a smart little coat with five bands of black silk braid running from the front of the coat and each band finished with a large silver button. The skirt shows the new wing pockets, and the whole effect is most pleasing.

The woman who is fond of the ever useful gray homespun or tweed suit, will find it a difficult matter to make a choice. The tailor seems to have settled upon the strictly tailored style for this material and color, also in one more, the dress in a smart, king's blue collar and lapels. The separate coats show long straight lines, and the shades which one may choose from are many, the most popular being royal, navy and blue, with some delightful combinations. The outstanding features of these useful coats are their lovely belts and pockets. One model which would make glad the heart of any woman is in reseda green silk. Tense redoux, with pleated back, neat belt and cut sleeves trimmed with silver. These materials which are mostly used in the separate coats are Delhi, serge, velvets and tweeds.

Among the fancy dresses foulards, taffeta gingham and georgette crepe with floral designs are shown. For the afternoon frock it will be difficult to find anything prettier than one of these durable and handsome silks. A New York "Artist" or "Buster Brown" model. Lots of smart Vestees, too, in plain or fancy pique.

KATZENJAMMER KIDS AT GRAND THIS WEEK

The Captain, Inspector and All the Funny Hats Are Along and Make Good Entertainment.

The Katzenjammer Kids, their mother, the captain, and the inspector, along with a host of others, are at the Grand this week in a merry musical comedy full of tricks, songs and specialties. Freddie Fortune is going to rock for a treasure and engages passage to Honolulu. On the same ship, Lillie White, a pretty girl, Lillie Black, a Hawaiian princess, are sailing for Hawaii also. Mix-ups galore occur thru the antics of the mischievous Hans and Fritz, so at last Lillie White scuttles away in her airplane and arrives at the beautiful island ahead of the captain and his ship. Lillie Black has the treasure-box made king, and on the treasure-box being found and opened, out hop the two ubiquitous kids.

Elsie Lavedean, as Lillie White, sings some beautiful songs. The chorus is fair, both in looks, costumes and voices. The leading man, Phil Fein, does not give Miss Lavedean the support she deserves. In several specialty acts, particularly in a Scottish one, her talents show up at their best. In this she sings Annie Laurie, and other Scottish songs, accompanied by four Scottish players, two of whom dance the Highland Fling in an acceptable manner, winning a round of applause. A dog, and a lion ambulating into the scenes at various times, and proving an investigation to be ever-present kids, prove mirth producers as far as the children in the audience are concerned.

First and Foremost Come the Hats

Half the joy of the Spring lies in choosing one's new hats—and it's with the utmost confidence that we promise you a big measure of this joy at our Millinery Opening today and the following days of the week. Truly, the hats seem lovelier than ever this season! There's a simplicity about them that will appeal to the woman of good taste—the note of charm seems to be struck in each and every model.

The Imported Hats—Every new line is shown in the beautiful array of models that have reached us from New York for our opening display. They will be taken from their boxes the first day of the opening—not before. The colors most in favor are castor, purple, taupe, brown and black. The shapes are pokes, mushrooms and sallores—many of the latter showing the new cushion brim. The straws are Milan, Milan tagel, liseere, pineapple, sometimes combined with caterpillar or chrysanthemum braid. The trimmings are smart ribbons, buckles, glycerine mounts, and flowers.

Our Own Models—A bevy of clever milliners has been working early and late to make this spring's showing of Murray-Kay hats the best in our history. And we will be proud to have the originality and charm that mark each model—and the workmanship is beyond compare. You will notice the modish use of Georgette crepe for trimming the brim of this hat—for covering the crown of that. Quills, wings and pretty flowers are most effectively employed for trimming—in short, our own models need take second place to none.

The New Boots In the Finest Leathers

Ever such an important part of the spring toilette is the new footwear. Therefore the Shoe Section will claim much of your interest at our opening. The spring showing of smart boots is bound to prove unusually attractive, for the manufacturers seem to have surmounted all difficulties in the turning out of charming footwear. There are all-kid boots, as well as kid with buck, suede or cloth. There's the all-black boot, the boot in grey, castor, brown, tan or bronze, as well as a delightful showing of modish color combinations. In short, there are boot tops with every costume, and they're cut on long, graceful lasts that give the feet the slender appearance which is so much to be desired.

Next Come Suits, Coats and Dresses New York and Paris Models of Rare Beauty

Naturally there's a wealth of pleasurable anticipation in the thought of seeing the new Spring models to be shown at our Opening this week. The realization will be far and beyond your expectations, for we've rarely succeeded in getting together such a galaxy of beauty as that which awaits you in our Cloak and Suit Section.

From New York have come the very finest specimens of the skilled tailor's art—Suits and Coats that will charm you with their perfection of line; Dresses for all occasions, designed according to Madame La Mode's most attractive dictates, and Separate Skirts in novelty cloths, silks and the new "Baronet" silk.

Is Germany Borrowing Trouble?

Russia has been the uncertain and the unlucky factor in this war for everybody; and it looks as if she may go a long way in the undoing of Germany.

She was in the war before England; England went to her as an ally and declared to Czar Nicholas that not only would she help him to beat the Kaiser, but gave pledges that the Romanoff would be installed as emperor of all the Russians in the City of Constantinople.

England had the bitter experience of the failure of her naval attack on the Dardanelles; the bitter experience of Salonica; the uncertainty of the Greeks and the repeated failures in the Balkans for her pains.

The situation was analyzed by Sir Henry Drayton in his address to the Canadian Club at Winnipeg, which has been widely published.

The company's estimate showed a total requirement, both capital and interest, in order to carry the property for the year 1917, of \$5,809,000.

But most important of all, Japan—the yellow peril of the Kaiser's political creed—is to be let loose in Asiatic Russia, and may, once in, come on towards Petrograd.

SEVERAL CONFERENCES

Mayor Church Attends Meeting, Only to Find Superintendent Absent.

"No further developments and nothing more to give out than I had at five o'clock." This was the message handed out by W. H. Parrill, superintendent of the Grand Trunk, at nine o'clock last night.

"Man wanted." This sign beckoned invitingly to many men around the Grand Trunk freight sheds on Simcoe street yesterday.

Another man, a youngster, told the reporter he had understood the shed superintendent's remarks at the window plainly said so, but once in the office he was disillusioned.

There were several conferences during the day, the first being between the men's representatives and the superintendent, which was held between four and five o'clock.

WOMEN WEAR SOME FACTS ON SUBJECT OF FOOD CONTROL

Resolution to Pledge Voluntary Rationing Presented at Meeting Yesterday.

ALL TAKEN BY SURPRISE

Housewives of Canada Must Stand Behind the Army to Bring Victory.

Women of Toronto are not yet ready to pledge themselves to any system of voluntary rationing.

The fact was impressed upon those who attended the public meeting and discussion on the question of food control held in the Y.W.C.A. hall yesterday afternoon.

Lady Hendrie, in the chair, opened the meeting promptly at the hour, and the hall was filled with an attentive audience of women.

There were two men present and they were on the platform. It was a woman's meeting in earnest. The speakers each gave splendid addresses, all bearing upon the vital subject of food shortage and food conservation.

Lull occurred while waiting for Mrs. L. M. Gurnett to prepare her exhibit of foods with which she intended to illustrate her address.

Suddenly from under the gallery at the right a woman spoke, but so indistinctly that few could hear what she was saying.

She was invited to the platform, and came forward and pledged themselves to go on a system of voluntary rationing, and a seal was given as follows:

Meat, 2 lbs. a person a week; bread, 4 lbs. a person a week (or flour, 2 lbs.); sugar, 1 lb. a person a week, and fat, three-quarters of a pound.

There was a stir among the audience. Then Mrs. L. A. Hamilton, at the request of Lady Hendrie, read the resolution again, the mover being Mrs. Ruggies George, Hamilton.

Mrs. Hamilton and Lady Hendrie suggested that those who would take the pledge to live on those voluntary rations should be asked to stand, immediately all wanted to ask questions, and for a time it looked as if there would be no address from Mrs. Gurnett.

However, it was suggested that Mrs. Gurnett speak and then the women would be ready to vote.

The women were not ready to do any pledging, for after Mrs. Gurnett had finished, they seemed to be possessed with a desire to see who could get out first, and the meeting was brought to a close.

The matter, however, will be taken up at another public meeting, and perhaps the women will then be prepared to accept the question and discuss it.

Afterwards a number of women stayed in the hall and discussed the matter. "It simply took us all by surprise," said Mrs. Huestis.

"If the military authorities had taken the matter had been pressed, for how could I pledge my household to a system of voluntary rationing until I had consulted with them? However, the matter has been introduced, and that the women who were here will take the idea home with them and will talk over and the next call will find them all ready for it. I am sure that the Toronto women will do what they believe to be right."

"We want to bring back at the end of this war the maximum number of our men," said Dr. Winnifred Cullis, of London, England. Dr. Cullis pointed out to the women of Toronto that when they bought any articles when not needed, or anything that they could very well do without, they were unpatriotic and doing what would hamper the country in her fight against the enemy.

"What England is doing," "I am so proud of my country that I do not have to brag," said Dr. Cullis. She told of the first battles, the number of men who came back from the early battles and said that if many of the men had not died, they would have had a better chance of winning the war.

Dr. Cullis told of the financial burden the war was bringing and also of what it felt like to live on rations. Capt. Oliver Hezellewood gave a splendid word picture of the military situation, saying the allies were facing the most serious situation of all the war. He appealed to the women to remember that they were the home army and that the country needed their help even in the smallest things.

G. W. Jones, representing the food control department at Ottawa, spoke of the difficulties which the food control board had met and conquered. He pointed out that help must be furnished the farmers if this year's crop was to be increased and harvested.

On matters of soldiers of the Land. To assist the farmers there would be a campaign, he said, among the high school boys and registration would be had this month, when 25,000 boys would register in the army of the soldiers of the Land.

Mr. Jones touched upon the control of prices and endeavored to show how impossible it was for a government to do our empire's business. "Why not control prices for Great Britain and her allies to do this?" he asked.

"I am quite satisfied to leave that question to Lloyd George," a woman asked why the people could not live on those rationed days?" she asked.

PERCE NOW LIKELY BETWEEN TRUSTEES AND CITY COUNCIL

Chairmen of Committees of Board of Education Hold Informal Conference.

TO REDUCE ESTIMATES

Trustee C. A. B. Brown Suggests Rent Be Asked for Schools Used by Military.

War between the board of education and city council was called off yesterday afternoon by the unanimous vote of the finance committee at the administration building.

The trustees of the various standing committees of the board of education first of all had a private informal conference in the office of the secretary-treasurer, W. C. Wilkinson.

This delayed the official meeting for an hour, but gave rise to a statement that there would be no quorum.

That there would be no quorum. At 5.30 the chairman of the finance committee, Trustee C. A. B. Brown, and the other members of it entered the committee room.

Three letters were read by the secretary from the board of control. One was a caution against employing aliens, the others gave the resolution against advancing salaries which were about \$1800 a year, and called for the elimination of the estimate of \$75,000 for repairs, and other estimates totaling another \$14,000.

Trustee W. O. McTaggart made public the trustees' olive branch. It was a resolution expressing the intention of the board to endeavor to reduce its current expenditures for the year by forty to fifty thousand dollars, and giving instructions to heads of departments to govern themselves accordingly.

The chairman of finance expressed the supposition that the resolution, after being adopted by the board of education on Thursday night, would be sent in to the city council.

The members gave a smiling assent. R. S. Cowley, chief inspector, was requested to keep rentals down and the expense of fitting up more classrooms in new schools by fitting up vacant seats in classes already in existence.

Ask Rent From Government. C. A. B. Brown followed the production and adoption of the olive branch resolution by drawing from up his sleeve a little joke. It was a suggestion that the Dominion Government be notified that the days of free use of board of education property for military purposes would end on April 30, with rent from May 1 equal to the sinking fund charges and interest on the buildings used after that date.

This will amount to over \$200,000 a year. So far the board of education by giving the military the free use of Toronto school buildings has done for the department of military equipment of \$100,000. This portion of the excessive load carried by Toronto taxpayers, it was agreed by the committee, should now be shifted to the shoulders of the Union government.

The school buildings now at the disposal of the military authorities are the former technical school, College street, now used by Major-General Logie and his staff as the military headquarters of district No. 2, Givens street school, used last year by the Royal Flying Corps, but now as a military hospital.

According to lists of defaulters which were released last night for publication by the department of Maj. T. P. Groube, 21 men who failed to report to the 2nd Battalion, 2nd Central Ontario Regiment at Toronto on Jan. 23, and seven men who failed to report on Jan. 24 at Ottawa to the 2nd Depot Battalion, 2nd C.O.R., Brantford, on Jan. 25, and who have failed to do so.

The lists given out by military headquarters read as follows: Edward Argue, Midland, Ont.; Arthur Newcomb, Collingwood, Ont.; Frank Bell, Collingwood, Ont.; Louis Phillip Boulder, 272 Murray street, Brantford, Ont.; Ernest James Brown, Queen street, Toronto, Ont.; Michael Cochran, 85 Rodney street, Collingwood, Ont.; William George Embree, St. Mary street, Collingwood, Ont.; Paul Gagne, Tremont street, Collingwood, Ont.; Louis Garvis, Collingwood, Ont.; Arthur L. A. Lortie, 183 St. Luke street, Quebec, Que.; James Clyde McCullough, Maple Leaf Hotel, Niagara Falls, Ont.; Joseph McNulty, Toronto, Ont.; George Maroulis, Collingwood, Ont.; Roy Miller, West King street, Dundas, Ont.; Beldon Kenneth Newcomb, Collingwood, Ont.; Ernest O'Keefe, Collingwood, Ont.; Albert H. Paquet, 85 Charlotte street, Ottawa; Arnold Robert, 3029 St. Urban street, Montreal; Louis Harold Rose, care of C.P.R., Port McNicoll, Ont.; Henry Street, 169 Mary street, Orillia, Ont.

The following men failed to report at Ottawa to the 2nd Depot Battalion, 2nd C.O.R., on Jan. 24, as ordered by the Ontario Regiment, M.S.A., and have not since reappeared: Clement Beaulieu, Penetang, Ont. (employed by Beak Co.); Ernest McNeil, Ont. (employed C.P.R. S.S. Co.); Ernest Labour, Midland, Ont. (care of J. Parker); James Lecourt, Port McNicoll, Ont. The Passing of The Gladiators

New York, March 4.—What a sweep the old man who has made among the ranks of the great in the world of pugilism recently! Some of those who have been taken off, warriors like Sullivan, Billy Madden and were about due to fight, but he was the inevitable scythe, but he is "Terry McGovern! Where is he, "errillie Terry" was not yet 39 when he headed the call. Some Racing Incidents Two Centuries Ago in England

The first record of racing at York dates to 1709, writes Vigilant in London. The course was a narrow strip over Clifton and Rawcliffe Ings, and exactly there was a disqualification. Burton and Milkmaid, in running, came so close together that the latter was not decided by the juries (presumably the juries), and the riders showing foul play in running and afterwards fighting on horseback, the plate was given to Mr. Burton.

JOHN F. SCHOLES DIES SUDDENLY

Canada's Greatest Sportsman Succumbs to Attack of Apoplexy on Monday.

Canada's best known and best liked sportsman passed away last night, in the person of John F. Scholes of the Athletic Hotel. Mr. Scholes was 72 last December, first seeing the light of day in Ireland on Dec. 31, 1845. He came to Canada as a boy and soon showed great interest in athletics.

Every fighter of note of the old school counted John F. as a personal friend and never failed to visit him when he came to Toronto. It was John's boast that he has worked out with every champion that ever visited the Queen City.

Mr. Scholes was a great lover of the horse and did a lot of riding and driving for years. Up until a short while before his death he could be seen daily driving through the suburban districts. He was also an arman of some note before Ned Hanlan's time.

MUST NOT USE MOTOR BOATS. Ottawa, March 4.—The use of motor boats by men engaged in the salmon gill-net fisheries in northern British Columbia is prohibited by an order-in-council passed recently. A movement was on foot to introduce these boats but it was strongly opposed by both canners and fishermen.

LOUISIANA LAW ATTACKED

Canada Suffers by Winter Slaughter of Geese and Ducks.

New York, March 4.—Dr. E. W. Nelson, chief of the United States bureau of biological survey, one of the speakers at the convention of the American Game Protective Association here today, attacked the Louisiana law which permits the killing of wild geese and ducks for market.

This law has long been the object of bitter attack from Canada to the Gulf. Mr. Alexander, game commissioner of Louisiana, who was explaining motion pictures of migrating fowl feeding in the marshes of that state, Dr. Nelson asked: "If you slaughter hundreds of thousands of these fowl in Louisiana in winter for food would it not be just as fair for Canada to put hundreds of thousands of their eggs in cold storage for food in nesting time?"

Mr. Alexander defended the law of his state by saying that the number of wild fowl killed this season had been reduced to 500,000 from 800,000 last season, and that Louisiana was fighting hard to turn its residents from the belief of generations, that they have a right to kill and eat the game.

TO PUBLISH PEACE MADE WITH ENEMY

Bolsheviks Will Leave Ratification to Congress of Soviets.

London, March 4.—A Russian official announcement signed by Premier Lenin and Foreign Minister Trotsky says that the Bolshevik delegation, after signing peace with Germany, is proceeding toward Petrograd, where the text of the agreement will be immediately published.

Ratification of the treaty has been fixed for Thursday next, but the final decision rests with the all-Russian congress of councils of workmen, peasants and Cossacks deputies, which will assemble at Moscow March 12.

A proclamation published in Petrograd yesterday announcing the intention of the Bolshevik government to sign the peace treaty with the central powers without discussion of the content of the agreement therein concludes with these words: "We are leaving it entirely to the workmen and peasants of the whole world to judge the matter after the delegation has informed them of the true facts."

Canada Food Board Enters On Home Garden Propaganda

Ottawa, March 4.—The Canada Food Board has entered upon an active propaganda to increase the cultivation of vacant lots and home gardens. The services at the disposal of every horticulturist and retired farmer in the Dominion to place their knowledge at the disposal of the various public organizations.

There is very great necessity of increased production in every direction and the board is anxious that the earliest possible start be made this spring. Vacant lot and garden production is second only in importance to farm cultivation. The growing of food for home consumption eliminates transportation waste with its attendant cost of labor and fuel.

The board hopes that no one capable of intelligent helping in this important work will withhold such assistance at this critical stage.

JAP CAMPAIGN OPPOSED.

London, March 4.—The Manchester Guardian, in a leading article today, strongly protests against the landing of entire allied troops in Siberia, declaring that to do so would be to join Germany in the dismemberment of Russia. The newspaper adds that no single step be taken in which America does not join. "That," says The Manchester Guardian, "will at least ensure moderation. President Wilson has declared that German occupation in the west cannot stand. He can be no party to allied occupation in the east."

BOLSHEVIKI HOLD ITALIAN DIPLOMATS

Obstructions Put in Way of Embassies Leaving Petrograd.

London, March 4.—Special despatches from Petrograd describe the departure of the British and French embassies and the Belgian, Serbian, Greek and Portuguese legations last Thursday after a series of hindrances, which in the case of the Italian embassy was sufficient to detain its staff in Petrograd after the others had left.

The Bolshevik foreign office, while permitting the American, Japanese, Chinese, Brazilian and Siamese delegations to leave without restraint, insisted upon endorsing all passports of military and other members of the various missions were left behind, and the correspondent of The Daily Mail, "apparently are held as hostages."

Foreigners not connected with the diplomatic service seem to have accompanied the diplomats on their train, while reports suggest others will be able to get away sooner or later. Reasons given for holding the Italian staff were that Count Prasso, one of them, was obnoxious to the Russian foreign office, which also was said to have suspected the Italians of helping their nationals to escape from Petrograd contrary to regulations.

According to the correspondent of The Morning Post, provision shops in Petrograd were absolutely empty on Saturday. Many of the shops were boarded up, and food was not obtainable.

Council of Boot and Shoe Workers' Union Holds Meeting at Galt. Special to The Toronto World. WORST BLIZZARD OF SEASON.

Saskatoon, March 4.—The worst blizzard of the winter struck Saskatoon today, leaving drifts four and five feet deep with snow still falling. The street cars were tied up and the train service was irregular. Trains from the south arrived on time, but several were unable to get out last night.

The blizzard started about four o'clock yesterday afternoon after several days of very mild weather and light snowfall, with increasing fury.

TRIBUTE TO BRITISH ARMY.

London, March 4.—The special correspondent of the Paris Temps, who is at the front, pays high tribute to the British army. "Those who have come in contact with its various contingents note the extraordinary morale of these troops from all parts of the world, the solidity of their defence, their confidence in their leaders, the comparative comfort of their quarters. The abundance and variety of food are equally important factors in this happy state of mind."

OPPOSITION TO JAPS.

New York, March 4.—The American-Russian Chamber of Commerce adopted a resolution today setting forth its belief "that the invasion of eastern Russian territory by any military forces might produce harmful economic results, unless such action was the result of formal agreements between all the allied powers, and provided that such invasion was preceded by wide publicity clearly setting forth its purpose." The resolution was sent to Secretary of State Lansing.

NEEDLE IN THE WALL LOWER TREND IN TORONTO STOCK MARKET

Leading Stocks Move Within Restricted Limits, But Show Heaviness.

C.P.R. IS WEAK SPOT ...

Baldwin Locomotive is Relatively Strong—Italian Exchange Again Breaks.

New York, March 4.—Stocks were almost in a state of deadlock today, leaders moving within restricted limits, the market being quite lost its effect as a market tonic and the fact that the Nova Scotia Steel directors were scheduled to meet yesterday afternoon was viewed by traders with indifference.

The war loans were somewhat heavy, the first selling at 94, the lowest quotation in some time; the second losing 1/4 at 93, and the third repeating the recent low level of 92.

There are strictly tailored suits, suits with ruffled, pleated and irregular puffed, pony suits with jaunty vests, and dressy suits with touches of rich embroidery. They are made from serge, gabardine or tricotine in all the leading shades.

Here military braid is employed to give a clever finish—where you see novel little buttons used in the most unexpected way. Again, it is the over-collar of contrasting fabric and color that gives a charming finish. You will be sure to find what you want in either the Women's or Misses' Departments.
