Expect Fighting On More Terrific Scale Than Ever Before

German Counter-Attacks Cease; British Once More Advancing

Enemy Making Frantic Efforts to Prepare for Allies Onslaught

Central Powers Menaced by General Strike—Fear Outbreak Which Would Shake Whole Imperial Fabric—Austrian Socialists Preparing for May-Day Demonstration

The terrific German counter-attacks on the British lines in France have ended, and the British troops are once more advancing. The fighting continues, and the British are making good progress in the face of considerable opposition. There are many signs that the fighting will shortly be resumed on a more terrific scale than ever before, and not least of these omens are the frantic efforts and threats being made by the German leaders and press to avert the possibility of a general strike throughout Germany. All the far reaching power German censorship is unable to suppress the fact that the graving discontent in the ranks of the German workers, and that the government is urged by the fear that May day, the great international Socialist holiday, will see an outbreak which will shake the whole imperial fabric.

That the general strike planned by the Socialist radicals is not confined to many but includes Austria-Hungary as well is indicated by one of the rare patches which have come through from Vienna. "The Arbeiter Zeitung," organ of the Austrian Socialists, accepts it as a fact that a strike will occur throughout the Dual Monarchy on May 1, and asks the workers to limit the demonstration to that day and return to work on May 2.

ITALY OPEN ATTACK  
London, April 28.—The British have opened an attack along several miles of the front north of the Scarpe River, according to an official announcement issued by the war office today. The British troops are making good progress in the face of considerable opposition, the announcement says. The fighting continues, and the British are making good progress in the face of considerable opposition.

THE FRENCH FRONT  
Paris, April 28.—Heavy artillery fighting occurred last night between the Verdun and the Oise and the Champagne, the war office reports. On the Verdun front the French and German trenches were of the Meuse and brought the prisoners from the sector of Hill 304. Since April 16 the French have captured 375 cannon of all calibres, 412 machine guns, and 119 trench mortars. A number of prisoners has reached 20780.

JAPAN PLANNING SENSATIONAL MOVE  
London, April 28.—The possibility of a greater participation by Japan in the war has been discussed for some time. Baron Kato, the Japanese diplomat, is quoted as saying that Japan is engaging in conferences contemplating a larger part in the war, Japan being determined to collaborate to the fullest extent to defeat Germany.

Later he added that he regretted it was impossible because of the distance Japan's army to fight alongside the armies of her Allies. Nevertheless, the press has been created that Japan soon will make a sensational move of advantage to the Allied cause.

Socialists Agreed  
Copenhagen, April 28.—The Politiken opens an interview with M. Troels, the president of the executive committee of the International Socialist bureau. He pointed out that the French and German Socialists in 1914 reached complete agreement on the question of a general strike which was to be an autonomous German state.

Sub Commander Perishes  
Copenhagen, April 28, via London.—Lieut. Commander Petz, one of the most successful of the German submarine commanders, has perished in the submarine campaign. The newspapers of his home town, Koenigsberg, carry an official death notice, although the admiralty has said nothing of the loss of his boat. Commander Petz was mentioned in despatches in February as being in charge of a submarine which destroyed 35,000 tons of shipping in one day.

Russian Reorganization  
Petrograd, April 28, via London.—As result of the visit of the war minister, General Gromov, to the southwestern front, twenty-three generals, including some of the most distinguished, have been replaced. General Gromov's address to the holding headquarters commands have been removed.

German Labor Troubles  
Copenhagen, April 28, via London.—The Heindal publishes an announcement of the Prussian military authorities that desertions from frontier districts will be punished in the same way as desertions from the front. The penalties range from five years' imprisonment to death.

SENATOR THORNE HALF CENTURY IN BUSINESS

Local Hardware Firm Has Grown and Prospered

ESTABLISHED IN 1867  
Review of Conditions Then and Now—Many Changes in Commercial Life of City in Last Fifty Years

During the coming week W. H. Thorne and Company, Limited, will celebrate its golden jubilee as a St. John business firm. It has weathered half a century of changes in the commercial and industrial life of the city, and its founder, Hon. W. H. Thorne, is still the active head of the firm and his age is practically every day. As a personal expression of affection, Arthur Thorne, a brother of W. H. Thorne, has had a very fine oil painting made of the senator, and its presentation comes at a very opportune time—on the golden jubilee of his launching on a business career. The picture is a remarkably fine work of art, and a striking likeness of the senator.

Fifty years ago the business now conducted by W. H. Thorne & Company, Ltd., was founded by the present proprietor, Hon. W. H. Thorne. May, 1867, saw its commencement, a store being opened at the corner of Dock street and Market Square, on the site now occupied by the Bank of British North America. This was successfully carried on until 1875, when the late Richard C. Scovill, formerly residing in Shediac, conducted a large lumber business there, and the firm of W. H. Thorne & Company was formed.

To better provide for the conduct of the retail and wholesale business, these were separated, and a new building erected especially for the firm on Canterbury street, on the site now occupied by the Haymarket Co., in which the wholesale business was conducted, while the retail was carried on at the original stand in charge of T. C. Gore. In 1877, the great fire in St. John took place. Both stores, with their contents, were totally destroyed. To provide for the continuation of the business, a new building on the site now occupied by the Market Square, a permit for its erection having been issued by the late Dr. E. A. Egan, who was mayor of St. John. In 1878, the business was resumed. Meanwhile provision was made for the rebuilding on Prince's north, the new premises were occupied, which have continued as the main building since that time.

In 1884, because of ill health, Mr. Scovill retired from the business, and in 1885 Mr. Lee and A. T. Thorne were admitted to partnership. The McCulloch building on Prince William street was acquired in 1891 and connected with the original store. In 1895 the business of W. H. Thorne & Company was taken over by W. H. Thorne & Company, Ltd., a joint stock company, Ltd., and other members of the late firm becoming directors. Iron, steel and heavy hardware were formerly stored in warehouses at the corner of Smythe and Nelson streets, which property was afterwards acquired by the St. John Railway Company. Having purchased a Water street property, new warehouses were there erected with a harbor frontage, besides which, warehouse accommodation was rented from the Thorne Wharf & Warehousing Company, Ltd., on adjoining properties.

In 1910, in order to provide better accommodation and enable the business to be run in departments, the Montgomery building on King street was purchased and connected in the rear with the Prince William street buildings. This extension enabled the firm to separate over-crowded departments and open up new ones. These now include builders' hardware, kitchen utensils, paints, oil, hardware, glass, mill supplies, rope and fish.

DIED OF WOUNDS

GAVE HIS LIFE RATHER THAN AID THE ENEMY

Canadian Sentenced For Refusing To Make Munitions, Dies in German Prison—Maritime Men Killed in Action

Ottawa, April 28.—Private William Brooke, son of Mrs. C. J. Brooke, 231 Metcalfe street, Ottawa, who was captured by the Germans at a German prison early in March, according to notification received by his mother last night. Private Brooke was undergoing a twelve year sentence in solitary confinement imposed by the Huns, following his refusal to work in a munition factory. The young hero, who was in his twenty-third year, was in New York studying art with a friend when war broke out and hurried back to Canada to join the colors.

Private Robert James Connell, of Tuesday's Times as having died of wounds at No. 18 Casualty Clearing Station, April 10, Pte. Connell leaves a wife, father and mother, three sisters and two brothers, the latter, who like himself, are in the service of King and country. Pte. Louis was in the same regiment and had been recently reported as wounded, while Pte. Fred is in England recuperating from wounds received some time ago at the front. The grim tale of war is all too truly being written into the records of this patriotic family.

Wounded  
L. Guttar, Jacques River, N.B.; D. L. Goss, Harte Boncher, N.S.; W. R. Penny, Berwick, N.S.; G. A. Duff, Sturgeon Creek, N.S.; E. Croken, Charlotte town, P.E.I.; R. Goffey, Halifax, N.S.; J. E. Hall, Bridgewater, N.S.; F. K. Reed, Stony Island, Cape Sable; F. L. Hirt, Lunenburg, N.S.; E. L. Stevens, Wolfville, N.S.; J. R. Brown, Wolfville, N.S.; J. L. Hillon, Yarmouth, N.S.; C. R. Gass, Bayfield, N.S.; G. Elkannah, Besanson, Lower Kingsbury, N.S.; Pte. S. McLean, Shelburne, N.S.; P. T. Bain, Riverdale, N.S.; H. Moore, Middleboro, N.S.; C. W. Schuare, Halifax, N.S.; L. Cpl. Fahy, Western Bay, N.S.; J. S. Howard, Gushyhorn, N.S.; G. Wm. Pottle, St. John, N.B.

Disorderly House Cases in Court  
Three cases occupied the attention of the police court this morning. There were two disorderly house cases, both of which are situated in City road, and two women charged with street dancing.

At 12:15 o'clock Detectives Duncan and Briggs, with Policemen Hopkins and Henrickson visited the premises at 10 City road. This is the second occasion of a raid on this house within the last month. As a result of last evening's raid Albert and Agnes Higgins were charged with disorderly house and Eva Higgins, Howard Wright, Vincent White and Charles Bissett were taken and charged with being inmates.

The police who made the raid gave evidence and it showed that the people were living in disgraceful conditions. Liquor was found on the premises; the inmates were under the influence and otherwise acting disorderly. There were ten people all crowded into one room when the police entered the house. One of the women made her escape in the commotion which followed the entrance of the policemen. The three small children were also taken in the raid. All were colored.

The magistrate said that all were liable to nine months in jail. He remanded the prisoners, but later they were fined and, upon payment, were allowed to go.

At 12:30 o'clock Detective McAlnish with Policemen Gorman and Jones visited the house in the rear of 69 City road, with the result that Mamie Smith, colored, was taken into custody charged with being the proprietress of a disorderly house, and Margaret Sullivan and John Connolly with being inmates. Detective McAlnish said complaints had come from neighbors relative to the actions in the house. He said that early this morning he heard loud talk, cursing and swearing coming from the house. He entered with the policemen and found the three in the house. All had been drinking. The house, he said, was neat and clean, but from reports and what he himself heard last night, he was forced to place it under police supervision.

Policemen Hopkins gave the general reputation borne by the women in the city. All three made statements to the court. They were remanded until next week.

Two women were before the court charged with being street walkers. Following the evidence of Policemen Hopkins, they were remanded to jail. Both are married women, whose husbands are at the front.

COUNTRY MARKET  
Prices in the local country market today have undergone no marked change. The prices are: Beef, fifteen to thirty cents a pound; veal, fourteen to twenty-five; chicken, 22 to 24 a quarter; spring, forty-five cents; turkey, forty-five cents; fowl, forty cents; eggs, forty cents; butter, forty-five cents; potatoes, seventy cents a peck or 85.50 a barrel. Beans are commanding in the vicinity of 20 a bushel.

RECOMMENDATIONS OF INSPECTOR UNDER NEW PROHIBITORY LAW

National and Canadian Drug Companies to Get Wholesale Licenses—Alexander Crawford Inspector For City—No Retailers Named Yet—Some Outside Inspectors Selected

The chief inspector of this province who is recommended for administering the law in that place, Wilfred McLean, of Black Point, will be the inspector for the county.

For Gloucester county for the outside sections and for special work, the chief inspector recommended J. B. Blanchard. No name was submitted for the town of Bathurst as the chief inspector was not prepared to report for that place. There was recommended for the county of Kent, Jasper Pine of Richibucto, for the position of inspector.

No retail licenses for the city of St. John have as yet been recommended. Three have been recommended for the county of Madawaska, one for Grand Falls and one for Perth in the county of Victoria. It is expected that in the immediate future there will be submitted the names of the licensees for the city of St. John who are to sell for medicinal and sacramental purposes.

LOCAL NEWS

BIRTHS AND MARRIAGES  
Vital statistics for the week, recorded at the office of the registrar, John B. Jones, show eleven births, of whom eight were males, and five marriages.

THE O'CONNELL RESIDENCE  
The late David O'Connell's residence in Waterloo street, which was bought at auction last week by J. M. Tremblay, was purchased on behalf of William Swanton, who will convert it into a two family dwelling house.

LYNCH-VINCENT  
The wedding of Miss Nina Vincent, daughter of Mr. and Mrs. George R. Vincent, 186 Rockland road, and D. Neville Lynch of this city, was solemnized in the Holy Trinity church on April 25 by Rev. J. J. Walsh, V.G. They were unattended. Mr. and Mrs. Lynch will reside in West St. John.

MRS. BENJAMIN GOWER  
Many will learn with regret of the death of Mrs. Benjamin Gower, which occurred at her residence, 29 Marsh street, yesterday afternoon, after a short illness. Besides her husband, two small children survive, one boy and one girl. The funeral will take place on Monday afternoon.

PRESENTATION  
A gold wrist watch was presented to Miss Alberta Morrison last evening. The presentation took place at the home of Mrs. J. E. Edwards, 327 Princess street. Those present were chiefly members of Mr. McClellan's mission. Ernest Graham made the presentation on behalf of those present. A very pleasant evening was spent.

FUNERALS  
The funeral of Mrs. Ester A. Sprague took place this afternoon from her late residence in Erin street. Services were conducted by Rev. F. P. Dennison. Interment was in Cedar Hill cemetery.

RIVER NEWS  
The steamer Hampton sailed up the Kennebecasis river this morning on her first trip of the season. She took away a good-sized cargo for Hampton and intermediate points.

The steamer May Queen was to have gone up the St. John river this morning, but a report reached the city yesterday that the ice has not run out of Grand Lake. She will likely make her first trip next week.

The steamer Oceana was due at Inhamtown this morning, but failed to put in an appearance. A report reached the city this afternoon that, owing to the storm, she would not come down river.

AUTOS COLLIDE  
A motor truck, owned by the Maritime Nail Company, and an automobile driven by W. B. Smith collided at the corner of Main and Simonds streets this morning and both vehicles were slightly damaged. The motor truck was coming up Simonds street and the automobile was proceeding along Main street, both approaching the corner about the same time. When they caught sight of each other, the brakes on both cars were piled, but the slimy condition of the street caused the lighter car to skid and the collision resulted. Fortunately no one was injured and the damage done was only slight.

OFFICERS ELECTED  
At a meeting of the Senior Epworth League of Portland Methodist church, which was held in their rooms in Portland street last evening, the election of officers for the ensuing year took place as follows:—Honorary president, Rev. Neil McLaughlin; president, Robert Maxwell; 1st vice-president, Frank Merrill; 2nd vice-president, Stanley Irvine; 3rd vice-president, Etta Bell; 4th vice-president, Chester Brown; 5th vice-president, Grace Brown; recording secretary, Ethel Hughes; treasurer, Edith Brown; corresponding secretary, Margaret Morrison; musical director, George Hartshorn. During the election, Rev. Mr. McLaughlin presided.

PUBLIC HONORS FOR LOCAL HERO

For the first time since the outbreak of the present war a medal, won for bravery in the field of action, is presented to the hero in this city. Such will be the case tomorrow morning, when Brig-General H. H. McLean will present to Private J. J. Doran, of Little River, the much coveted Military Medal, which he won on the firing line in France.

A big military assembly is being planned in the barrack square at 10 o'clock tomorrow morning. The 217th and 177th battalions will be drawn up in massed form and the bands of the regiments will render appropriate music. Private Doran will be called out and will receive the medal from the general. All staff officers in the city will be present, including Lieut.-Colonel Powell, Lieut.-Colonel J. A. McAvity and others.

Break Camp Monday  
Information was received in the city this morning that the Canadian camp at Sussex will be broken up on Monday and removed to Lewis, Quebec. Major Hamilton, the officer commanding the camp, will still retain command of the camp at Lewis.

School Cancelled  
The school of bayonet fighting and physical training which was to commence in Toronto on Monday, has been cancelled for the present time.

Major Powers Here  
Major T. E. Powers, D.S.O., officer commanding the signalling training depot at Ottawa, arrived in the city a few days ago. He is here for the purpose of securing recruits.

Engineers' Record  
Lieutenant McBeth, recruiting officer for the Canadian Engineers, is leaving on Monday on a tour throughout the province in the quest of recruits. He intends calling on the various colleges throughout the province, and feels sure that his efforts will not be in vain. Lieutenant McBeth has been recruiting for the engineers in the province for the last six months and during that time has secured a total of 270 men. This is a record for these times. The depot just recently sent overseas 500 men and an effort is now being made in order that this number be secured during the coming month.

ROOSEVELT'S OFFER TO LEAD FORCE REJECTED  
(J. M. Robinson & Sons, private wire telegram.)  
New York, April 28.—New Haven year ended Dec. 31, 1914, total income increase \$2,709,942. Net increase \$895,888; equal to \$5.53 a share earned against \$2.96 in 1913.

Standard Oil of New York, year ended Dec. 31, net earnings increase \$20,576,882; equal to \$48.85 a share, against \$21 in 1913.

Ontario and Western, year ended Dec. 31, total income increase \$20,800, surplus decrease \$268,450.

Atlantic Gulf and West Indies Feb. net increase \$74,482, two months increase \$670,888.

Simultaneously with Amsterdam reports that Germany is calling exemption men for field service, envoys of allies in Washington plead for food, munitions and money.

Former Home Secretary of Great Britain says gravity of U-boat menace is worse than official reports indicate.

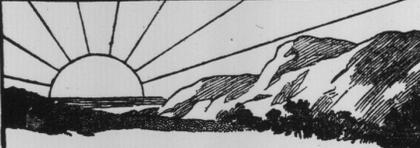

House rejects plan of Roosevelt to take armed force to the front.

Announcement in Washington that loans of between \$200,000,000 and \$300,000,000 will be made at once to France and Italy.

Selective draft bill to pass both houses today.

WEATHER REPORT  
Issued by Authority of the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service.  
Synopsis.—The barometer is unusually high over northern Canada and low to the southward. The weather continues very cool throughout the Dominion and partly so in the maritime provinces, where at some points there has been a snow fall.  
Ontario Valley.—North and northeast winds, partly cloudy and cool today and Sunday.  
Cloudy and Cool  
Maritime.—Strong northeast to north-west winds, cloudy and cool with light rain today and Sunday.  
New England forecast.—Fair tonight, Sunday unsettled, continued cool; fresh northwest winds.

### MY TIRED FEET

**ACHED FOR "TIZ"**

Let Your Sore, Swollen, Aching Feet Spread Out in a Bath of "TIZ"

Just take your shoes off and then put those weary, shoe-crinkled, aching, burning, corn-pestered, bunion-tortured feet of yours in a "TIZ" bath. Your toes will wriggle with joy; they'll look up at you and almost talk and then they'll take another dive in that "TIZ" bath. When your feet feel like lumps of lead—all tired out—just try "TIZ". Its grand—its glorious. Your feet will dance with joy; also you will find all pain gone from corns, callouses and bunions. There's nothing like "TIZ". It's the only remedy that draws out all the poisonous exudations which puff up your feet and cause foot torture. Get a 25 cent box of "TIZ" at any drug or department store—don't wait. Ah! how glad your feet get; how comfortable your shoes feel. You can wear shoes a size smaller if you desire.

### SHACKLETON ON WAY HOME TO ENLIST

New York April 28.—Sir Ernest Shackleton, the Antarctic explorer, is going back to England to enlist in the army in France. He so announced on his arrival here today from the west to take a ship. Sir Ernest recently arrived in San Francisco from Chile, where he went after completing his Antarctic expedition, begun in 1914.

**With the Fingers! Says Corns Lift Out Without Any Pain**

Sore corns, hard corns, soft corns or any kind of a corn can shortly be lifted right out with the fingers if you will apply directly upon the corn a few drops of frezone, says a Cincinnati authority. It is a small, cost one can get a quarter of an ounce of frezone at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or danger of infection. The new drug is an ether compound, and while sticky, dries the moment it is applied and does not inflame or even irritate the surrounding tissue. This announcement will interest many women here, for it is said that the present high-heeled footwear is putting corns on practically every woman's feet.

### Instant Relief when "OFF-COLOUR"

Dull and Depressed.

When off colour suspect your liver. But—and it is a very big but—don't weaken your system by taking strong purgatives or blood-chilling salts. Follow the natural way. Strengthen your liver and bowels by means of Dr. Cassell's Instant Relief, and bright health will follow natural action of the reinvigorated organs.

Take Dr. Cassell's Instant Relief for constipation, biliousness, torpid liver, sick headache, dizziness, specks before the eyes, flatulence and windy spasms, acidity, heartburn, impure blood, and that dull, heavy feeling which is a sure indication of liver troubles.

Ask for Dr. Cassell's Instant Relief. Price 50 Cents, from all Druggists and Storekeepers,

or direct from the Sole Agents for Canada, Harold F. Ritchie and Co., 10, McCullough Street, Toronto. War Tax, 2 cents extra.

Dr. Cassell's Instant Relief is the companion preparation to Dr. Cassell's Tablets.

Sole Proprietors: Dr. Cassell's Co., Ltd., Manchester, England.

The Evening Times and Star

ST. JOHN, N. B., APRIL 28, 1917.

The St. John Evening Times is printed at 27 and 29 Campbell Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

THE WAR SITUATION

The fear of a May Day demonstration that may shake the empires of Germany and Austro-Hungary lies heavily upon the Central Powers.

Today's cables tell of the beginning of another British drive, and predict a heavier fighting along the whole front.

There is a hint in one of today's cables that Japan may soon take a more active part in the war.

THE PRIME MINISTER

The Guildhall speech of Premier Lloyd George clears the atmosphere to a considerable extent.

The prime minister is not too optimistic in his utterances. He knows the magnitude of the task yet to be performed, and warns the nation against taking chances.

The prime minister's review of the situation on the western front is very encouraging.

It is estimated that the German losses in recent fighting on the French front amount to over 200,000 men, perhaps as many as 285,000.

HOW ABOUT IT, NEIGHBOR?

The finance committee of the municipal council decided yesterday that it could not afford this year to give any more financial assistance to the Children's Aid Society.

Meanwhile there were three serious cases involving children in the police court this morning, and there are hundreds of cases of neglected children crying for the attention of a trained and sympathetic and judicious man.

THE FOOD SHORTAGE

The imperative need of greater production, not only for 1917 but for 1918 is strongly emphasized by the Toronto Globe, which says:—

"The crops of wheat, harvested for the most part since December, in Argentine, New Zealand and Australia are only a little over half the amount garnered in the previous years."

But the Globe goes further and points out that reserve stocks of food the world over have been depleted, and "we shall enter 1918 with bare shelves."

There is also the question of food control, and this is a matter which lies within the province of the government.

The following paragraph from the Halifax Echo is of local interest:—"Perhaps the most pressing task facing the new board of control is that of housing reform."

Lectured on Pensions

Representatives from the various patriotic societies had the pleasure of listening to an excellent address by Major Buchanan yesterday afternoon in Stone church school house.

Moncton has been badly infected with the tussock moth and, owing to the prompt measures of the government, some 6,500,000 eggs have been stamped out.

Suffer With Heart For Ten Years

Would Nearly Smother

There is nothing that brings with it such fear of impending death as to wake up in the night with that awful sense of smothering.

Milburn's Heart and Nerve Pills are the only remedy that can give prompt relief and effect a complete cure in cases of such severity.

They strengthen and invigorate the heart, so that it beats strong and regular, and tone up the nervous system so that the cause of so much anxiety becomes a thing of the past.

Milburn's Heart and Nerve Pills are the only remedy that can give prompt relief and effect a complete cure in cases of such severity.

Milburn's Heart and Nerve Pills are the only remedy that can give prompt relief and effect a complete cure in cases of such severity.

Clear Your Complexion While You Sleep

On retiring gently smear the face with Cuticura Ointment. Wash off in five minutes with Cuticura Soap and hot water, using plenty of Soap and continue bathing a few minutes with Soap.

LIGHTER VEIN

For six years a bitter feud had existed between the Browns and Robinsons, next door neighbors.

"Get my bag for me at once," boomed the doctor. "Some fellow says in a dying voice that he can't live without me."

In no other household except that of a doctor could this mistake so plausible have occurred.

"I think that call is for daughter, dear."

County Grant to Local Branches

\$4,500 to St. John Society and \$1,500 to Lancaster—Recommend Appointment of Children's Aid Agent Next Year

A recommendation providing for the payment of the \$6,000 grant for Red Cross work, recently made by the municipal council, to the local instead of the provincial Red Cross Society, and another to be presented at the January meeting of the council, asking that an appropriation be made for the salary of an agent for child welfare work in the city and county were passed together with routine matters at a meeting of the finance committee of the municipal council, held in the office of the secretary, J. King Kelly, K. C., yesterday afternoon.

The committee was in session for more than two hours, and passed a large number of monthly and routine bills. Owing to the deficit that already stares the council in the face, it was felt that it could not comply with the request of the Children's Aid Society to appropriate \$2,000 as a salary for Rev. W. R. Robinson, whose appointment they advocated under the Children's Protection Act.

It was decided to move the county treasurer's office from its present location in the Barrhill building to rooms in the Walker building in Prince William street, on the same floor with the county secretary's office. Provisions will be made here for rooms necessary for committee meetings. The committee adjourned about 5 o'clock.

The London Financier and Bullionist of April 14 has a long article which pays a splendid tribute to the energy and activity of the Board of Trade here.

At a meeting of the council of the New Brunswick Pharmaceutical Society, held in the city on Thursday, a resolution was drafted to be presented to Rev. W. D. Wilson, chief prohibition inspector for the province, asking that in the amendments be proposed to recommend in the new act a clause be inserted permitting druggists to have on hand, for compounding purposes, more than the ten gallons of alcohol which is at present permitted by law, this quantity being insufficient. The resolution also asked that the druggists be permitted to handle sherry wine, without having to take out a venditorship, as this is listed in the pharmacopoeia. These matters were taken up with Mr. Wilson by the druggists on the occasion of his visit here a few days ago and it was at his suggestion that the council adopted a resolution to the effect that the council should be authorized to make a representation to the provincial government on the subject.

A. W. Coombs, of St. Marys, president, was in the chair and the others present were, C. A. Burchill, Fredericton; I. O. Spencer, Moncton; H. H. Woodworth, Sackville; C. P. Hickey and Colonel J. D. B. F. Mackenzie, Chatham; F. W. Munro, S. M. Wetmore, George F. Coupe and J. Benson Mahoney, registrar, St. John.

Lieutenant Royden Thomson, who has been with the 97th Canadian Siege battery for five or six months on the Somme, has been appointed instructor of a siege battery reserve in Suffolk county, England.

**Welcome Canadians**  
Since it has been arranged to permit Canadian troops to pass through the state of Maine, soldiers who have passed through en route to the port of embarkation have been royally treated. In many cases they have been presented with American flags and asked to carry them in battle.

**Killed in Action**  
James E. Green, traveling freight agent for the C.P.R. in this division received a telegram yesterday announcing that his brother, Leo Green, had paid the supreme sacrifice for King and country, having fallen in battle on April 9. He was eighteen years of age and was a son of Mrs. and the late James Green of St. Stephen.

**RECENT DEATHS**

**Mrs. Frances Rodgers.**  
Mrs. Frances Rodgers, widow of Patrick Rodgers, and formerly of this city, died on Thursday at Chelsea (Mass.), where she had been residing for some years. She is survived by six sons—Charles, of Boston; Patrick, of British Columbia; Thomas, Louis, James and Harry, all of this city; four daughters—Mrs. William Creary, of this city, and Josephine, Annie and Margaret, of Chatham; she also leaves six brothers—John, Cornelius, James, Henry and Hugh Dever, all of this city, and Charles Dever, of Boston; and two sisters, Mrs. E. McKinnon, of Boston, and Teresa, of Boston. The deceased was a daughter of the late Bernard and Mary Dever.

**Mrs. Sarah Reed.**  
Friends will regret to learn of the death of Mrs. Sarah Reed, widow of James Reed, formerly a well known pilot here. She passed away last night at her home, 274 Carmarthen street. She leaves four daughters—Ellen, Isabelle, Florence and Francis; also three sisters, Mrs. Thomas Glendinning of Brooklyn (N. Y.), Mary McFadden and Rose McFadden of this city; and one brother, Hugh McFadden, also of this city.

The death of Miss Nellie Bergman of St. Stephen, occurred yesterday. Besides her mother, three sisters survive.

Corporal Brown of the staff of the New Brunswick command, whose death was reported yesterday, is survived by his mother, four sisters, Olive, Gladys, Emma and Alice, and two brothers, William of this city and Hazen of the 3rd C.G.A.

from the conversion of the Borden government to reciprocity. Six years ago Canada renounced with the cry that reciprocity, especially reciprocity in wheat, was disloyal and unpatriotic, would tear Canada asunder and deliver the bleeding fragments over to the Yankees. The Borden government has now accepted the American offer of reciprocity in wheat and flour. The anti-reciprocity campaign of 1911 is utterly discredited and covered with ridicule.

With that experience fresh in the public mind, what will the people of Canada think of the conduct of Col. John Currie in raising another cry of the same kind, as false and even more mischievous? Col. John Currie says that if the Conservative government are turned out of office he would be sorry for the returned soldiers, because Liberals have no sympathy with them. Col. Currie knows as well as any man that Liberals and sons of Liberals have fought bravely in France, that many of them have given their lives to the cause, that others have come back crippled, shell-shocked, or gas-poisoned, that there are sorrow and anxiety in tens of thousands of Liberal homes. Does he contend that because a man holds Liberal views, he is without human feeling, and has no sympathy with his own son or brother or friend, who has done his duty and deserves the gratitude of the whole community, to whatever party he may belong?

There is no use in trying to evade the point by distinguishing between Liberal leaders and followers. Liberal leaders, too, have had their sorrows and anxieties, and they are as grateful as their political opponents and as eager to do justice to those who have served their nation and suffered in its service.

If there were among them such a number of ingrates as Col. Currie dreams of, the great body of Liberals in Canada would not allow him to remain in office one hour.

But what of the returned soldiers today? Are they satisfied, or are their friends satisfied, with the treatment they receive from the government Col. Currie supports? Are they satisfied with the pensions they are paid, or the employment provided for them? Surely the raids on factories tell a very different story.

If Col. Currie wants to help the returned soldier let him throw his miserable partisanship aside, and insist upon proper treatment for the soldier from this government and from all the governments that may be in office for the rest of his life. He knows what the soldiers have done and what they deserve. Let him use his knowledge and give practical proof of his sympathy.

As to the Canadian people, they will not be fooled again by the men who talked bunkum against reciprocity to get into office, and adopted reciprocity to keep themselves in office.

Unusual Feet for Pitchers so Early in Season

New York, April 28.—George Mogridge, baseball's latest no hit hero, and Eddie Cicotte, almost a lit hero, constitute a combination of effectiveness that has former pitching records tied into a bow-knot.

Baseball history does not record two no-hit games in the brief period that has elapsed since the 1917 baseball season opened.

Mogridge, in squirming his way into the iron-bound circle of pitching perfection, had his mark messed up a bit when errors and his own wildness gave the Red Sox a single tally, but he held the opposition hitless, which is the main idea in reaching the point of pitching fame.

Mogridge's feat gives the Yankees a brand new look at pennant hopes. If Nick Cullip, Ray Caldwell, Bob Shawkey and others of the Donovan clan will tune up, the New Yorkers are scheduled to see the best of the first breath of the season. Last year's record of four no-hit games already has been half equalled.

Two years ago Rube Marquard cleaved his way to no-hit glory by shutting out Brooklyn on April 15. But to see two no-hit games in the first breath of the season gives fandom the promise of seeing some extraordinary baseball. If pitchers are so good at this time of the season, it is reasonable to suppose they will improve. Last year's record of four no-hit games already has been half equalled.

The Ontario Tory Game (From the Montreal Gazette) Mr. H. C. Hoken, Orange Grand Master, has been telling the people of Ontario that the people of Quebec hate the British, and that their hatred upon the ground that is "the greatest Protestant nation in the world."

One thing in the way of acceptance of such an argument is that the nations at war are certainly not divided on religious lines. Germany, for instance, is a great Protestant nation, while Austria-Hungary is surely Roman Catholic. Italy is Roman Catholic and so is France. And the two latter are pretty good allies of "Protestant Britain."

It is quite possible also that the people of Quebec have no such hatred for England as Mr. Hoken alleges. He exaggerates for a purpose.

LOCAL NEWS

NOVELTY SHOWER About fifty friends of Miss Agnes Burton, assembled at her home in 302 Main street last evening, and tendered her a novelty shower, in honor of a coming event in which she is to be a principal.

ADDRESSED I.O.G.T. Arthur Morrell, D.G.C.T. of the I.O.G.T., of Moncton, was in the city yesterday and visited Thorne Lodge in the evening.

LITTLE GIRLS' SUCCESS A drawing for a quilt pieced by four little girls, Muriel McAllister, Fred McFarlane, Jean McAllister and Helen Magee of East St. John, was held on Thursday evening.

PENSION AWARD DISPUTED. The case of a returned member of the 29th Battalion, Ralph Howlett, of Clarence street, is being taken up with the pension board at Ottawa by the Great War Veterans Association.

U. S. IMMIGRATION WORK Eugene Willard, inspector in charge of the U. S. immigration office in West St. John, has closed the office here and returned to his summer post at Quebec.

SUNDAY SCHOOL HAD A SUCCESSFUL YEAR The annual business meeting of the Carleton Methodist Sunday school was held in the school room on Thursday evening.

NORTH END APPROPRIATES WORK OF TRAFFIC OFFICER During the last few days many favorable comments have been heard from citizens of the North End regarding the placing of a traffic policeman at the corner of Douglas avenue and Main street.

CHARGED WITH MURDER Testifying that he saw Michael Nadeau of Howland, Me., a Canadian, hit the head with a bottle near the Howland pulp mill on night of December 9, by Benjamin F. Moran and then thrown over the river bank by Moran and Daniel Robinson, a sensation was sprung in Bangor municipal court Friday by Laurel Hughes, a twenty-one year old Howland youth.

STREET RAILWAY AGAIN REGISTERS PROTEST The first carload of asphalt from the plant of the Imperial Oil Company at Bayonne, N.J., has arrived in the city and will be taken to the city plant this afternoon.

What He Got. A short time after the United States declared war on Germany several citizens of the neighboring republic happened to meet in a local hotel and thereupon proceeded to celebrate the event.

Number, Please? Have you noticed the way the telephone operators have been pronouncing the numbers "five" and "nine" lately? Just listen next time and notice the way they warble "ni-yun" or "fi-yun".

Not "Safety First" The citizen who was observed walking up Union street the other day with a laborer clinging to his coat, tall modestly denies that he thought up that method of carrying it home to avoid the danger of being bitten by the ferocious creature, he says. It was merely a friend's idea of a practical joke.

And if living gets much more expensive some of us won't be able to afford to live. And it will be no use trying to dodge the increased expenses by dying, for the cabmen are going to boost the cost of funerals.

No one need worry about what to do with the money he has best accustomed to deposit with the bar tenders; the high cost of living will take care of that problem.

And if living gets much more expensive some of us won't be able to afford to live. And it will be no use trying to dodge the increased expenses by dying, for the cabmen are going to boost the cost of funerals.

No one need worry about what to do with the money he has best accustomed to deposit with the bar tenders; the high cost of living will take care of that problem.

The Man in The Street

Regardless of the barometer, the indications are for a long dry spell. A surprising number of citizens are carrying home cylindrical shaped parcels these days.

The man who is stocking up his cellar is at least a bit wiser than the chap who is trying to stow a six months supply of liquid provisions under his belt; it can't be done.

Some of the bars are to re-open as soda water and ice cream parlors; they say. It will take considerable persuading to convince some of their patrons that the change is for the better.

The stranger who has been accustomed to patronize the hotel bars is liable to get some rude shocks the next time he comes to St. John.

"Gimme a slug of Scotch," he will suggest as he enters the familiar premises. "Scry, Stry" the white aproned attendant will reply. "We haven't any whiskey, but I can give you a strawberry soda or a nut sundae, and we have a nice line of peppermint sticks and chocolate drops."

Tableau! No one need worry about what to do with the money he has best accustomed to deposit with the bar tenders; the high cost of living will take care of that problem.

And if living gets much more expensive some of us won't be able to afford to live. And it will be no use trying to dodge the increased expenses by dying, for the cabmen are going to boost the cost of funerals.

No one need worry about what to do with the money he has best accustomed to deposit with the bar tenders; the high cost of living will take care of that problem.

ONTARIO WOMEN ALREADY VERY ACTIVE IN POLITICAL AFFAIRS

Their Idealism and Anxiety for the Interests of Women and Children and Soldiers Overseas Being Strikingly Shown — Bringing Brightness and Good Humor Into Politics

(By Monis Dare in Toronto Star Weekly.) It is not much more than a month ago that the principle of woman suffrage was unanimously adopted in the Ontario legislature, but with that short time surprising changes have taken place. The whole basis of political organization in the province has been altered; women have appeared on the public platform to enunciate their views; their idealism and anxiety for the interests not only of women and children, but of the soldiers in the Canadian army, have been given a real scope of expression, and with it all, brightness and good humor have blown through the windows into public affairs. Some critics thought it would be a long while indeed before the introduction of woman suffrage in what they considered the retiring province of Ontario would result in any visible development. But to the surprise of these people, and, in fact, to that of everyone, even the most optimistic supporters of the cause, has set in strongly at the very beginning. If in this survey we give more attention to the radical changes in the Liberal party in Ontario than in the Conservative, it is merely because for some reason or other the Liberals, sympathizing with the principle as they have for many years seen to have had, yet plans more definitely laid in advance and have been able to react more sensitively and evolve into the new conditions faster than their opponents. Doubtless, however, the Conservative party also has a reorganization under way, some signs of which are already apparent, and others undoubtedly will develop. It was on the 27th of February that the Woman Suffrage bills passed their second reading in the house and thus received the endorsement of their principles. By Saturday of the following week the new order of the Liberal party was already in full swing, and on that afternoon at the annual meetings of two associations significant and fundamental changes were made in the most important unit of political organization—the riding association. In South Ontario, at Whitby, women were added to the executive of the riding association in the positions of one of the vice-presidents and as joint chairmen of municipalities. Women Very Active This meant much more than a mere matter of words. It meant that the actual control of the official body responsible for the provincial press in South Ontario was shared with the women. On the same afternoon at the annual meeting of the newly-formed St. Catharines association a special committee of men and women was appointed to decide on the best methods of co-operation in that constituency. On the 26th of March a new riding association was formed for North East Toronto. At this meeting considerably more than half of the audience was composed of women, and to the executive were elected a woman vice-president, a woman associate secretary, and several women on the committee. On the same day in the City of Toronto the executive committee of the

SUGGESTS HOLIDAYS TO HELP FARMERS

Rev. James Crisp Writes on Increasing of Production

The Christian Guardian of April 18th prints the following letter from Rev. James Crisp of Sunny Brae: SHALL WE INCREASE PRODUCTION? To the Editor of the Christian Guardian: Dear Sir,—We read with much interest "Preachers and Potatoes" in your issue of March 28th. The cultivation of vegetable lots is surely a utilitarian scheme and the growing of potatoes a profitable employment. Last year, on a vacant lot adjoining the parsonage, we grew a few vegetables. A word of experience along this line may not be out of place. On the 22nd of May I made a sick call at Wm. Wilson's, at Stileville, and on leaving the house saw his two sons cutting potatoes for seed, and thought they were unwittingly wasting about one-third of the tuber. I asked them to give me half-a-dozen for seed, which they very willingly did, telling me to help them for seed we weighed them, and their weight was one pound and twelve ounces. I planted them on May 27th, and dug them the last week in September, and had 124 pounds of good potatoes. I left one eye in a seed, except where two eyes were so close together that they could not be parted without destroying one. They were planted in rows four feet apart in the row. It looked, at the time, to be an extravagant use of land, but my six potatoes produced two bushels of excellent quality. The use of any kind was used; the land here is exceptionally good. In planting a small garden there is a danger of trying to grow too much on a small space, putting in too much seed and crowding the crop. Sunlight and air are just as necessary in the raising of good vegetables as earth and water. Quality is to be thought of as well as quantity, and it does not lessen the quantity to give the plants a generous amount of space. Some years ago I received from the Experimental Farm, Ottawa, three pounds of potatoes for seed. They were an early variety, called Lee's Favorite, and the three pounds produced 196 pounds, or fifty-five to sixty bushels, of excellent quality. The hoe is a very useful implement in the garden. The idea that the farmers of Canada should this year raise more crop than usual is a good one. But in reference to New Brunswick, how are they going to do it? Having spoken to several farmers about this matter the consensus of

CAN-ADIAN Chalmers A stock Chalmers car has just made a run of 586.8 miles in 24 hours through Chicago's congested streets. This beats every previous test by 228 miles. The whole trip was made on high gear—the first and second gears having been removed for the test. The engine never stopped. Among the four passengers was an American Automobile Association official, who verifies the record. The average speed was 24.45 miles per hour. 14 miles to the gallon of gasoline. Every Chalmers motor is a costly piece of work. It is accurately balanced. It runs smoothly and has great power reserve. This Chicago test is official proof of the motor's wide flexibility, speed and thorough soundness. It proves the cooling. Proves economy. Thousands of owners can verify it. You can test it. Come in. Take the Chalmers out and drive it. You will be amazed at the action of this sound car. AMELIA BARR AT 87  
WORKS A 9-HOUR DAY

Mentally Young and Physically Alert She is Busy Planning Books for the Future

No Interest in Suffrage -- Keely Opposed to Birth Control -- Finds Her Chief Pleasure in the Characters She Creates

Amelia E. Barr celebrated her eighty-seventh birthday recently at her home in Richmond Hill, New York. While Mrs. Barr has lived many years more than the average, she is mentally young and physically alert, and in appearance belies the age which the records show to be hers. Each working day finds her busy writing from eight to nine hours, and this year she has more than lived up to her record by producing two complete books, while another is well advanced. She is also busy planning books for the future.

"Hard work is life's greatest blessing," said Mrs. Barr, "and neither age nor infirmity should be permitted to interfere with as much work as one's physical equipment permits. I consider writing, the art of creating, one of life's greatest blessings. I am a spiritual woman, and that keeps me young. The body decays but the spirit lives on."

"For nearly sixty years I have made my living out of an inkwell, and at that time I have written seventy-seven books. I have also written hundreds of short stories, editorial articles, and articles on various topics for the newspapers and magazines, and in this work I have used three names—'Mary Barr,' 'Lily Barr,' and 'Amelia Barr'—just so that the newspapers won't have so much of the same name in their columns."

Mrs. Barr gives very little thought to woman suffrage, and therefore did not care to comment on Lloyd George's statement in the House of Commons favoring votes for the women of England. Mrs. Barr's native country, she was, however, keenly interested in birth control, but not in favor of it. "It would put every married woman, good bad or indifferent, under suspicion," she said. Mrs. Barr was the mother of a large family and naturally spoke with conviction.

Mrs. Barr passed the early part of her life in comparative obscurity, and it was not until she was 50 years of age that her first novel made its appearance. She was born in Ulverston, Lancashire, England, and was named Amelia Huddleston. At the age of 19 she married Robert Barr, a young Scotch mill owner, and it was due to financial reverses that they decided to make America their home.

Mrs. Barr is a great dreamer, and intends to write a book on dreamers and dreamers. It was a dream that dissuaded her from going to India and to make America her home in 1868. She settled in Chicago at that time, a little city. A boarding school was opened which proved successful, but Mrs. Barr had to leave the city because the climate did not agree with her. The family then moved to Memphis, and later to Galveston and Austin. After the civil war they returned to Galveston, and it was there in 1867 that the yellow fever epidemic separated Mrs. Barr from her life partner and also caused the death of three or four of their children. It was not until 1870 that Mrs. Barr first seriously considered writing as a profession. A chance was offered on the Christian Union, published in New York by Henry Ward Beecher, and she hurried to New York with the remaining members of her family to accept it. Her work attracted attention, and she had an acquaintance with many prominent literary men of the day, and what was more important to her, such publishers as Herbert Warner, Charles Scribner, and others which came to her to be home caused her to elaborate a short story into a novel, and the result was her first book, "Jan Velder's Wife."

Most of her famous characters were created in her former home, Cherry Croft, at Cornwall, overlooking the Hudson. There she lived for more than thirty years. Her residence in Richmond Hill dates back two years. Mrs. Barr is a woman of many intellectual interests, and she takes a keen delight in weaving into her books. In the year just passed she has worked on three books, and two of these have been published. The first, "Profit and Loss," was written primarily for young men, the authors brief preface stating "To the young men I know and to the young men I do not know."

Mrs. Barr went to the mining region of Yorkshire for her second story, published under the name of "Joan." Speaking of the miners, she called them the finest breed of men that exists. "When I was a girl of twenty," she said, "they had a union of 60,000 men, and now their union is one of the largest and strongest in the world. The men are all either great sports or Methodists."

SELF-DIAGNOSIS RARELY CORRECT. A well known doctor has laid it down as an invariable truth that whatever may be the matter with a patient, one thing is certain—it is not what he thinks it is. "Patients come in," he says, "with the remark that they are suffering from this, and the other complaint. But they invariably misunderstand their own symptoms. For example, men come to me at the present time saying that they are on the verge of a mental breakdown. They cannot fix their minds on any subject. They are so nervous as to lose all self-control. They can't sleep. Their brains are giving way. They must have some medicine to save them from collapsing. All these symptoms are correctly described. But they don't mean what the patient thinks. They do mean nerve starvation."

"Before the war I should have ordered the German Sanatogen. Now I am able to prescribe a British food. Sanatogen is fully as good, in fact, slightly richer in phosphorus. Proprietary articles purporting to replace Sanatogen have been offered me from time to time, but Sanatogen is the first to publish an analysis, thereby proving itself what it purports to be. If any one suffering from nervous exhaustion, dyspepsia, general weakness of brain and body, or needing a little extra food, will go to a druggist and ask for Sanatogen, they will get a most helpful agent in restoring normal health and strength to the body and mind. Sanatogen is an ideal purita-free and sugar-free nitrogenous food, consisting of pure British milk casein, enriched with phosphorus. It is manufactured in British factories, under the supervision of British chemists, with British capital."

Why is the Blood Impure in the Spring?

The artificial life of the winter—the artificial foods—the impure air of indoor life—the sedentary habits—the lack of outdoor exercise—all tend to make the blood thin, weak, watery and impure. The nerves are starved, exhausted and wasted—the nerve force required for the proper workings of the heart, the lungs, the stomach, the liver, the kidneys and other organs is not forthcoming and the whole system becomes weakened and run down.

—you can protect yourself by using Dr. Chase's Nerve Food.

The spring air is often laden with disease germs. The waste and decayed matter of winter is thawed out, and forms a regular hotbed of disease, from which arise poisonous gases and germs of disease.

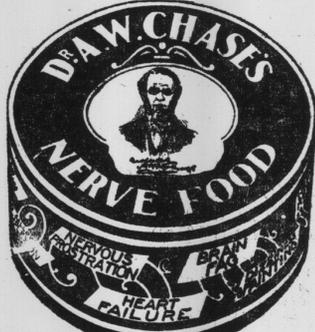

People with rich blood throbbing through their arteries need have little fear, for disease seeks out the weak and exhausted for its easy victims. For such there is no season more to be dreaded than spring.

Is this spring to be pleasant or disagreeable to you? Are you to feel invigorated by the fresh Spring air; to rejoice in the opening bud, the sprouting blade, and chirping of the birds? Or will you be overcome with languor and weakness, suffer from headaches and body pains, and drag yourself languidly about as though you had no interest in life and had lost all vigor and energy?

It is for you to decide this question, for the difference, is in the state of your health, the richness and purity of your blood, and the vitality of your nervous system. After the debilitating influence of the artificial winter life, nine people out of ten require some restorative treatment to put their systems in order for the enjoyment of life.

As a means of enriching and purifying the blood, building up the system, and revitalizing the wasted nerves, there is yet to be discovered a preparation in any way equal to Dr. Chase's Nerve Food.

This great food cure is composed of the most powerful restoratives to be found in all Nature's realm. It actually forms new, red corpuscles in the blood, feeds up the shrivelled nerve cells, and gives new vigor and activity to every organ of the body.

When spring comes vitality is at low ebb, and nine persons out of ten require restorative treatment to form new, rich blood and revitalize the nervous system.

Disease lurks on every hand in the spring time, and finds lodgment in the weak, run-down and exhausted system

Dr. Chase's Nerve Food

preachers. Some of the finest sermons I have heard have been delivered by these preachers on the street corners, and the sporting miner will lose his money almost as cheerily as he wins it." She contracted the difference between the mines in her childhood days with the mines of the present. They were dark, dismal holes now they are all well lighted, and you can drive through parts of them.

Despite her alertness Mrs. Barr rarely visits New York city, and this year has been here only once. Her home is a large, roomy cottage. She derives most of her pleasure from developing her characters.

City Men Should Aid Production

Trade Journal Urges Employers and Employees to Help the Farmers and Increase Food Supply

To most city and town people the agitation about the scarcity of food is mere newspaper talk, but to those who are closer to the agricultural conditions the famine scare is no hoax. This year is going to witness a serious situation in the production of all kinds of farm products.

There are farmers who are unable through the impossibility of securing adequate help to put in certain kinds of crops at all, and most of them are putting in as little as they can of important food products.

The depletion of the country's supply of farm labor through the war is serious enough, although perhaps not sufficient to bring about a serious impasse. But wages for ordinary unskilled help in the cities and towns where munitions are being made have risen to such an extent that it is impossible to keep men on the farm. When they can get thirty to forty cents an hour for comparatively easy work they naturally turn their backs upon the more strenuous kinds.

There must be some way of helping the farmer out or we shall face the inevitable aftermath of war, if we do not seriously hinder the results of the war by putting the men who fight for us on half allowance of food. In this greatest of all wars science has eliminated the usual concomitant of pestilence, it remains to be seen whether scientific management of agricultural production shall obviate the twin evil of famine.

The work of the "National Resources Committee" should be backed up by all who wish righteousness and truth to prevail in this great conflict. There are men who cannot take their places on the firing line who ought to do their part in providing those who fight with the necessities of life. There are few men, young or old, who cannot give a portion of their time to this serious matter of food production without even interfering with their ordinary work. The Toronto Board of Trade has inaugurated a scheme by which the usual vacation of office and warehouse employees will be extended a week without pay, so that those who desire may offer their services to farmers needing help. The plan calls for the payment of the same wages by the farmer as the soldiers receive on active service, namely, a dollar and ten cents a day and board. Rightly handled this scheme could afford a measure of relief, although it will not do much for the payment of the same wages by the farmer as the soldiers receive on active service, namely, a dollar and ten cents a day and board.

How many people can you name, including yourself, who are physically fit, strong, healthy and strong? The number is appallingly small. It is not a complex matter to keep in good condition, but it takes a little time, and in these strenuous days people have

when there is very little business doing in retail stores, throughout the country, and when the pressure is at its greatest upon the farmer, no doubt a good many clerks as well as proprietors could be well spared from the stores to take a hand in the harvesting of the crops. It should be put up in the strongest possible manner that this help is as much a matter of duty to the country as it is to the farmer.

What Is An Internal Bath?

By R. W. Beal

Much has been said and volumes have been written describing at length the many kinds of baths civilized man has indulged in from time to time. Every possible resource of the human mind has been brought into play to fashion new methods of bathing, but strange as it may seem, the most important as well as the most beneficial of all baths, the "Internal Bath," has been given little thought. The reason for this is simple. The vast majority of people seem to realize the tremendous part that internal bathing plays in the acquiring and maintaining of health.

If you were to ask a dozen people to define an internal bath, you would have as many different definitions, and the probability that not one of them would be correct. To avoid any misconception as to what constitutes an internal bath, let it be said that a hot water enema is no more an internal bath than a bill of fare is a dinner.

If it were possible and agreeable to take the great mass of thinking people to witness an average post-mortem, the sights they would see and the things they would learn would prove of such lasting benefit, and impress their souls so profoundly, that further argument in favor of internal bathing would be unnecessary to convince them. Unfortunately, however, it is not possible to do this, and therefore, as an expedient, would doubtless prove to be there is, then, only one other way to get this information into their minds, and that is by acquainting them with such knowledge as will enable them to appreciate the value of this long-sought-for health-producing necessity.

Few people realize what a very little thing is necessary sometimes to improve their physical condition. Also, they have almost no conception of how little carelessness, indifference or neglect can be the fundamental cause of the most virulent disease. For instance, that "constipation," and a multitude of other terms, is not only curable but preventable, through the consistent practice of internal bathing.

How many people realize that normal functioning of the bowels and a clean intestinal tract make it impossible to become sick? Man of today is only fifty per cent efficient. Reduced to simple English this means that most men are trying to do a man's portion of work on half a man's power. This applies equally to women.

That it is impossible to continue to do this indefinitely must be apparent to all. Nature never intended the delicate human organism to be operated in a hundred per cent overload. A machine could not stand this and not break down, and the body certainly cannot do more than a machine. There is entirely too much unnecessary and avoidable sickness in the world.

How many people can you name, including yourself, who are physically fit, strong, healthy and strong? The number is appallingly small. It is not a complex matter to keep in good condition, but it takes a little time, and in these strenuous days people have

DRINK OR DRUG USERS

To cure alcoholism or the chronic poisoning of other drugs, the body must be brought back to normal. To evolve back to health takes time, patience and proper medication. Short time cures are like giving morphine to stop pain, and when the pain is relieved, declaring that the disease is cured. Proper treatment can be obtained in the Keeley Institute. We have no rivals or competitors, so far as successful treatment is concerned. Write for booklet. Correspondence confidential.

THE KEELEY INSTITUTE  
523 Cumberland Avenue  
Corner Mellen Street  
PORTLAND, ME. Phone 5470

preciated fully by farmers, who would not only reserve their trade for such stores during the days set apart for business during the gardening. We operate later by regular patronage. We have now quite generally the Wednesday half holiday, why not make one or even two days a week this summer "Farm Day," when "all hands" could turn out to gather and house the crops. No doubt the shoe trade would join in a movement of this kind.

MORE THAN FIVE THOUSAND AT EVENING "TECH" CLASSES

(Toronto Globe.) The evening sessions of the Technical Schools closed on March 31st, the last week being occupied with examinations. The total registration of evening students for the year 1916-17 was 5,223, not including 722 adults who attended the special lectures in gardening. The registrations were distributed as follows: Central School, Lippincott street, 4,743; Riverdale Branch, 279; Oakwood Branch, 187; Humboldt Branch, 722.

Nearly 3,000 of these evening pupils wrote examinations at the close of the term, and on the results of these examinations and the record of work done during the term, prizes and diplomas have been awarded.

There were two hundred and thirty-six different classes, taught by one hundred and fifty teachers, of whom fifty were regular teachers of day classes at the Central Technical School, Harbord street.

Compensation Hearing A hearing on the proposed Workmen's Compensation Bill was held in the local government rooms last evening.

"Anaemia--Lack of Iron--Is Greatest Curse To Health and Beauty of American Women"

Says Dr. Ferdinand King, New York Physician and Medical Author

Any Woman Who Tires Easily, is Nervous or Irritable, or Looks Pale, Haggard and Worn, Should Have Her Blood Examined for Iron Deficiency

Administration of Nuxated Iron Will Increase the Strength and Endurance of Weak, Nervous, Careworn Women 100 Per Cent in Two Weeks' Time in Many Instances

THE CHILD'S APPEAL

liver, heart trouble and other dangerous maladies. The real and true cause which started their disease was nothing more nor less than a weakened condition brought on by lack of iron in the blood. On account of the peculiar nature of woman, and the great drain placed upon her system at certain periods, she requires iron much more than man to help make up for the loss.

Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly in a soil deficient in iron. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while double their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles, in from ten to fourteen days' time simply by taking iron in the proper form. And this, after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate, or tincture of iron simply to save a few cents. The iron demanded by Mother Nature for

"There can be no healthy, beautiful, rosy cheeked woman without iron," says Dr. Ferdinand King, a New York Physician and Medical Author. "In my recent talks to physicians on the grave and serious consequences of iron deficiency in the blood of American women, I have called to the importance of internal bathing; it may be that a number of questions will suggest themselves to your mind. You will probably want to know WHAT AN INTERNAL BATH IS, WHY you should take them, and the WAY to take them. These and countless other questions are all answered in a booklet entitled "THE WHAT, THE WHY AND THE WAY OF INTERNAL BATHING," written by Doctor Chas. A. Tyrell, the inventor of the "J. B. L. Cascade," whose lifelong study and research along this line make him the pre-eminent authority on this subject. Not only has internal bathing saved and prolonged Dr. Tyrell's own life, but the lives of multitudes of individuals have been equally spared and prolonged. No other book has been written containing such a vast amount of practical information to the business man, the worker and the housewife. All that is necessary to secure this book is to write to Dr. Tyrell at Room 965, 163 College Street, Toronto, and mention having read this article in The Telegraph, and same will be immediately mailed to you free of all cost or obligation.

Perse, you realize now, more than ever, the truth of these statements, and if the reading of this article will result in a proper appreciation on your part of the value of internal bathing, it will have served its purpose. What you will want to do now is to avail yourself of the opportunity for learning more about the subject, and for writing for this book will give you that information. Do not put off doing this, but send for your money, while the matter is fresh in your mind.

"Procrastination is the thief of time." A thief is one who steals something. Don't allow procrastination to steal you out of your opportunity to get this valuable information, which is free for the asking. If you would be natural, be healthy, fit and vigorous, when it is such a simple thing to be well!

with F. J. G. Knowlton in the chair. James L. Sagrue, J. B. Cudly, W. L. Simms and F. Daley, other members of the commission, were also present. The hearing brought out a number of helpful and interesting suggestions including the statement of G. A. Scriver of the Bathurst Lumber Company, who told how the mills were placarded and safety devices installed for the protection of workmen, and of a voluntary fund to provide for the salary and hospital expenses of men who are injured at their work. W. Matheson of the Fraser Lumber Company said that his company makes it a practice to pay both the doctor's bill and the hospital bill in addition to compensation and no levy is made on the men. F. C. Beattay gave evidence and William E. Gunter of Murray & Gregory Limited, was present, but did not make any statement. Several of those who spoke agreed to furnish more details in writing during the next fortnight.

BABY'S OWN TABLETS

CURE CONSTIPATION Childhood constipation can be promptly cured by Baby's Own Tablets. The Tablets never fail to regulate the bowels and stomach thus curing constipation, indigestion and the many other minor ills of little ones. Concerning Mrs. Louis Nicole, St. Paul, Minn., writes: "My baby suffered from constipation but thanks to Baby's Own Tablets he is a fine healthy boy today. It gives me much pleasure in recommending the Tablets to other mothers. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

If you would be natural, be healthy, fit and vigorous, when it is such a simple thing to be well!

NOTE—Nuxated Iron, which is prescribed and recommended above by physicians in such a great variety of cases, is not a patent medicine or secret remedy, but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians both in Europe and America. Unlike the older imported iron products it is easily assimilated, does not injure the teeth, does not harm the stomach; in the contrary, it is a most potent remedy in nearly all forms of indigestion as well as for nervous, run down conditions. The manufacturers have such great confidence in nuxated iron, that they offer for \$100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks iron, and Nuxated Iron widely in my own practice in most severe aggravated conditions over in four weeks' time, provided they have no serious organic trouble. It increases their strength 100 per cent or more in this double your strength does not at least double your strength reports in regard to its great power and endurance in ten days' time. It is dispensed in this country by Wasson's Drug Store and all good druggists.

**Enemy Losses on the Aisne Now Said to Exceed 200,000**

From a Staff Correspondent of the Associated Press on the French Front, French Headquarters, April 27—Despite the desperate tenacity of the Germans, who are endeavoring to hold their present positions at any cost, French troops today registered more gains of ground in the neighborhood of Cerny and Hurtebise, on the Chemin-Des-Dames, where German attacks in force Thursday had failed completely. The artillery has thundered continuously night and day, the detonations causing echoing roars through the ravines and valleys. Most of the slopes have now been shorn of trees.

Some prisoners were brought in during the day.

The extent of the German losses in the recent desperate fighting along the Aisne is partially disclosed in the reference in today's official statement to the capture of 130 guns of which a considerable number were of heavy calibre. The German losses in men are estimated at more than 200,000 with the probability that the total reached 235,000. These figures included killed, wounded and prisoners, and constitute one of the most formidable totals of the present war.

**Hon. Dr. Pugsley on Free Wheat**

Ottawa, April 27—Hon. Arthur Meighen, the most expert mental gymnast and apologist-in-chief for the government, had a difficult time of it in the house today. In continuing the budget debate, he essayed to justify and harmonize the government's course in regard to three wheat.

Hon. Dr. Pugsley, who followed, dealt to the amusement of the house, with the inconsistency and evasion of the embarrassed solicitor-general. The member for St. John pointed out that the argument for free wheat was just as good in 1911 as it was now, that the government was trying to drive the western farmer, in view of the impending election, by making it appear that the free wheat order was a permanent measure and not merely an election bid that Mr.

Meighen was wrong in his law as to the status of an order-in-council passed under the War Measures act being equivalent to an act regularly passed by parliament, and that it was the duty of the government to frankly declare to the people of Canada whether or not it intended to stand by free wheat, war or no war.

Dr. Pugsley also pointed the moral of the government's failure to adopt, long ago, a permanent policy with regard to naval defence and ship building in Canada.

The debate will continue next week.

**DAYLIGHT SAVING AS DOMINION MEASURE**

The council of the St. John board of trade at a meeting yesterday decided to affiliate with the British Imperial Council of Commerce. This is the body to which W. Frank Hatheway, of this city, was a delegate last year.

W. F. Burditt was appointed as representative of the local board at the civic improvement conference which will be held in Winnipeg at the end of May.

A report was received from the legislation committee recommending an amendment to section two, sub-section N, of the prohibition act which limits the amount of alcohol which may be purchased at one time for manufacturing purposes to ten gallons. The amendment suggested would give manufacturers the right to purchase a sufficient quantity at one time to meet their needs. The amendment was approved and will be recommended to the provincial government.

The committee on daylight saving reported on the repeal of the civic by-law and recommended that Sir George E. Foster be advised of the situation which has arisen and that the dominion government be urged to the daylight saving plan as a national measure as speedily as possible. The support of other boards in the maritime provinces will be asked for this movement.

A special committee was appointed to

**AND HE GOT IT**

"Just a moment," interrupted the Man patiently, "I may have no objection to testing this article you are trying to substitute, all other things being equal—but are they? For example, what I want can be used internally for coughs, colds, sore throats, cramps, chills, etc., as well as externally for sprains, strains, muscular rheumatism, various other aches, pains and almost any soreness anywhere. Now can you guarantee me this double value of internal and external use? Can you also guarantee that yours is the favorite prescription of an old family physician? Do you also guarantee that it has a wonderful record of over 100 years of splendid success? Do you also guarantee—"

"Oh, of course," interposed the now embarrassed storekeeper, "I can't guarantee all that, but—"

"Then," said the Man, wearily, "give me my bottle of Johnson's Anodyne Liniment, and let me be on my way."

And he got it.

**WHAT FRANCE WANTS FROM UNITED STATES**

Washington, April 27—The French war mission has informed the American government that the things France needs most from the United States are men, food, fertilizers, coal, steel, etc., etc. It also needs transportation equipment, especially ships in which to carry goods from the new to the old world.

A conference of the district superintendents of the New Brunswick Telephone Co., Ltd., which started on Thursday morning, concluded last night with a banquet at Bond's. The men were gathered from all parts of the province for the purpose of discussing the policies of the company and exchanging views generally with regard to telephone work, the idea being to improve the service to as high a standard as possible.

The delegates in the city were: B. W. Moore, Andover; F. T. Atkinson, Florenceville; W. E. Stone, Woodstock; L. B. Mitchell, St. Stephen; S. B. Ebbett, Fredericton; J. M. Morris, Sussex; Frank Harris, Sackville; J. L. Hutchinson, Richibucto; Willard Lewis, Newcastle; R. Ross, Bathurst; and the city delegates, O. J. Fraser, A. W. MacMackin, J. E. Marshall, H. G. Black, A. H. Skinner, H. C. Gay, N. E. Moore, A. E. Jenner and L. D. Morse. George C. Peters of Moncton, was unable to be present owing to illness.

**"Nature" chose Assam**

Scientists tell us that Assam in northern India was the original home of the tea plant. Thousands of years ago "Nature" chose the climate and soil of this favored region as most suitable for growing tea.

It is, therefore, natural that the hillside gardens of Assam (see picture) grow the teas which to-day are famous for their flavor, fragrance and rich strength.

It is of these Assam teas, skillfully blended with choice Ceylons, that Red Rose Tea consists. It is this rich Assam strength that users of Red Rose Tea must thank for its splendid economy—for the greater number of cups it yields to the pound, fully one-third more than ordinary teas.

T. H. ESTABROOKS CO., LIMITED  
St. John Toronto Winnipeg Calgary

To make certain that these Assam qualities are fully preserved for you we put Red Rose Tea into dust, odor and air proof sealed packages. Red Rose Tea reaches you pure, fresh and full strength—we guarantee it.

Try a Package of this Economical Tea  
Red Rose crushed coffee is as generously good as Red Rose Tea and just as easy to make.

**BRITAIN'S WELCOME**

(Boston Transcript.)  
Britain's welcome of the entrance of the United States into the war is spontaneous and brilliant. The event is celebrated by a service of praise and prayer in England's greatest cathedral; all Britain, and Ireland with Britain, may be said to have knelt at the altar at this service. The welcome and the rejoicing of France have been no less distinguishedly vainly alone, he fed by this demonstration of the thankfulness and satisfaction of our allies? Surely not. We may accept it as a glad and generous recognition of the fact that we are able to see at last the rightfulness, the sacredness, of the cause in which Britain and France are engaged. In reality, we Americans knew that it was our cause all the time; at the very outset of the war, the humblest people, not admirers, not partisans of Britain at all, called the saving victory on the Marne "our" victory. We have now publicly acknowledged what the people have thought all along. And we may turn the thing around, too, and say that these celebrations prove that England has learned from America—France learned it long ago—what Lowell called "the worth of being free." In the Civil War, England was slow to acknowledge that worth. We ourselves had to learn it, from sea to sea, as the price of blood and treasure. England was not altogether sympathetic then. This war has fully taught her what we learned in that awful sacrifice in 1861-65. The union of knowledge is now complete. It is a matter for pacans, for the prayer of thanksgiving, on both sides. We shall have, before the test is over, some services of our own in commemoration of the full attainment of this union.

**Community Centres Needed**  
At a get-together luncheon held in Oshkosh, Wis., Dr. Wilbur N. Linn, in making a plea for club facilities for young people, explained that the attendance at the community club of the First Presbyterian church had grown from 2,467, the first month, to 7,250 the second month, and 9,800 the third month; until the facilities of the church were entirely inadequate. He said that recreational centres of the schools were doing good work, but that there is need of a community club, in a hall large

**NOVA SCOTIA SUFFRAGE BILL SLAIN IN HOUSE**

Law Amendments Committee Recommended Three Months' Hoist Which Was Adopted on a Vote of 14 to 8—Premier Murray Admits Reform Must be Granted

(Halifax Chronicle.)  
The cause of woman's suffrage for the present year at least was dealt a death blow in the House of Assembly yesterday when the bill to extend the franchise to the women of the province was given the "before months" hoist. Nearly half the members were absent. When the Speaker, early in the afternoon called the order "Presenting of reports by standing and select committees," Hon. O. T. Daniels, attorney general, chairman of the Committee on Law Amendments, presented the committee's report on a number of bills. None of the members seemed to be paying much attention to the various bills reported, until Hon. Mr. Daniels said that "the committee have also had under consideration Bill No. 51, entitled 'An Act to Amend the Franchise Act,' and recommended that the further consideration of this bill be deferred this day three months."

There was silence and it looked as though the bill would die unannounced. "Is that the woman's franchise bill?" cried Mr. Parsons, and then the House rose to the occasion.

Mr. Hall said that while it had been contended before the committee that this bill was so drafted that it could not be passed as it was at present, he thought that, nevertheless, it should be allowed to go to the committee at the whole House, where some effort could be made to amend it to suit requirements. He therefore moved in amendment that the bill be sent to the committee of the whole House.

Premier Murray said that as he understood it, while there had been no opposition offered to the bill, it was felt that the enactment of this measure at the present time would serve no practical purpose. He said that public opinion did not seem to demand this legislation. Even in the case of the women themselves said the premier, it would be well to have public opinion stimulated and more evidence brought before the legislature that the women of the province desired it. His own opinion was that woman's suffrage was inevitable in Nova Scotia.

"It will come in time," said the premier, and he referred to the development of the case of woman's suffrage elsewhere. He said, however, that at present the demand for it in Nova Scotia was not overwhelming, it was limited. He said that there should be careful legislation on this subject and that, in order to develop public opinion, he was prepared to vote for the motion made by the chairman of the committee on law amendments.

The vote was then taken, Mr. Hall's amendment being lost and the bill being given the three months' hoist by a vote of fourteen to eight.

**THE AGRICULTURAL DEPARTMENT**

(Moncton Transcript.)  
The recent provincial government simply played with the operations of the department of agriculture and through its secretary, used them as a party political foot-ball. So brazen and disgraceful was the course of the Rev. Mr. Daggett, that in his career as provincial secretary, the one single act which was most marked in its demand upon public commendation was his manner of resigning the office and not waiting to be

### Seize Narcotics Worth \$120,000

#### Leaders of "Cocaine Ring" Whose Profits are Put at a Million. Arrested in New York—Peniless Four Years Ago

New York, April 28.—Agents of the internal revenue department and detectives of the narcotic squad have confiscated narcotics valued at \$120,000 and worth \$800,000 to the retail trade and arrested the alleged leaders of a "cocaine ring," who it was charged have made considerably more than \$1,000,000 in profits in the last four years.

Chief L. G. Nutt, of the revenue department, described the seizure as the biggest thing that has been staged in the fight against the illegal sale of drugs in this city but in all the large centres of population, and also had representatives in Canada and Europe. He believed that the arrests would cut off the supply of many thousands of drug users.

J. M. Grossman, deputy chief of the revenue department, with Lieutenant Sherb and Detectives Hackett, Judge, and Erd of the police department, have

been on the trail of the alleged "dope" sellers for three months, and assert that they have a complete case against Max Kirshon of 220 East Seventy-eighth street. The prisoner is a Russian about 30 years old.

The authorities gave the signal to act at 2:30 o'clock yesterday afternoon, and Max Kirshon was the first caught. He was at Seventy-sixth street and Third avenue, in an automobile, and had just turned over to Jack Malaga, a painter, of 209 Second avenue, a suitcase containing drugs worth \$3,000. Malaga was taken along with him to Police Headquarters.

Oscar Kirshon was arrested a little later at his home, and at about the same time the detectives raided rooms at 431 East Eighty-third street and 1614 Avenue A, which they alleged the Kirshons had rented as a place to store drugs. One trunk was taken from the first room and two from the other. They contained about 3,000 ounces of heroin, cocaine and opium. The police believe that other trunks full of the drug are hidden in the city, and they are keeping a careful watch on the movements of men who they know have been drug users or "middlemen" for a long time.

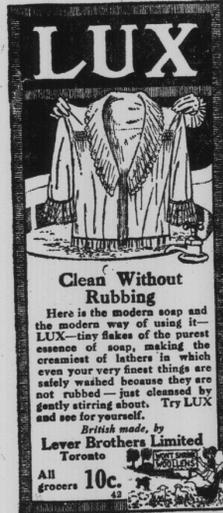

According to the police, Oscar Kirshon had with him, as principals, his brother Max and another man, who has not been caught. They obtained the larger part of the drugs from Canada and England, and brought all of them into this country over the Canadian border, it is said. The police allege that the Kirshons, in distributing the drugs, dealt almost exclusively with "middlemen," to whom they sold the pure drugs at a profit of about 20 per cent., and that they refused to deliver at any specified address, employing instead the plan of carrying the drugs in an automobile and turning them over to the purchaser at some public place.

The 3,000 ounces of drugs seized yesterday, it was stated, cost the Kirshons an average of \$40 an ounce, or \$120,000. The middlemen, after paying twice that sum for it, made it up into "decks" for the retail trade, some of which contained not more than one part of the drug to nine or ten of milk sugar or other foreign substance. On this basis the police figured it sold to the drug users for not less than \$500,000.

It was learned that rooms in several tenements had been rented by Max Kirshon at from \$8 to \$10 a month during the last two or three years, and while trunks were always sent to them he never occupied one of them. As a rule he lived in rooms near by.

**A NOTABLE DIFFERENCE**  
Toronto Globe.—In Great Britain 24.45 per cent. of the total revenue is derived from excess profits. In Canada the corresponding yield has been 6.88 per cent. In Great Britain, 85.77 per cent. comes from the property and income taxes. There are no equivalent Federal taxes in Canada. The rich pay most of the cost of the war in Great Britain. In Canada there is no special levy on wealth, excepting the trifling excess profits.

**IN BORROWED PLUMES**  
Toronto Globe.—It must be admitted that the Conservative party is living up to its own thrift campaigns. Suffering from a woeful shortage of ideas and policies, it is offering the country Liberal ideas and policies warmed over. Thrift, thrift, Horatio!

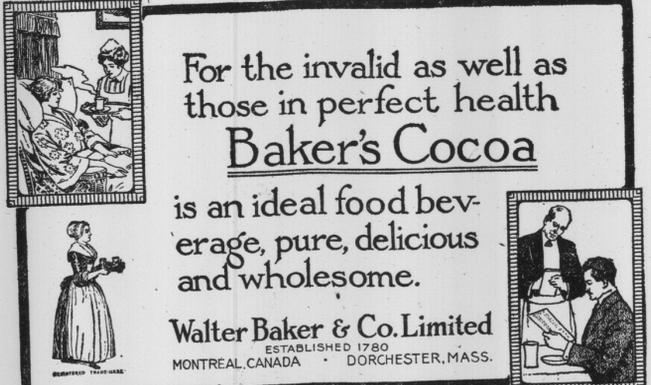

**LUX**

### New Road Bill in Nova Scotia

Highway Board to be Formed—Taxes on Cities, Towns and Municipalities in Lieu of Statute Labor

(Halifax Chronicle.)

A bill entitled "The Public Highway Act," embodying the government's improved road policy, was introduced in the house yesterday by Hon. E. H. Armstrong. The bill, it is understood, provides for the appointment of a provincial highway board, to be presided over by a cabinet minister, the board to have absolute control and supervision of all road expenditures.

The duties of the board are defined in detail, and the board will be invested with powers to examine and classify all roads of the province and work out the best system, according to local conditions, of effecting highway improvements and repairs and the future care and patrol of the highways.

Provision also is made whereby the federal government may nominate a

member of this board, should federal aid be granted to assist the province.

It is understood that the fund is to be created from different sources as follows: Provincial aid, tax on cities and towns, tax on the municipalities, to take the place of the statute labor provided in the present legislation, the motor vehicle fund, federal aid, and contributions from any other source.

The bill empowers also, it is understood, expenditure of a more permanent character than that already named to be charged to capital. The municipalities will be enabled to undertake expenditures of this kind in co-operation with the province.

The board is authorized by the bill to appoint a superintendent in each county, who will be an officer of the board and will have, under the board's direction, supervision of highway expenditure. All monies collected from the cities and towns are to be expended in the county in which the city or town is located. All money collected by the municipal tax must be expended in the county in which the tax is collected.

**And Now, Mrs. Rinehart**

MARY ROBERTS RINEHART'S new serial, "The Confession," in the May issue, recalls the fact that Good Housekeeping fiction includes the work of such contemporaries as Galwey, Locke, Wallace, Irwin, Harold McGrath, Mary Saxon, Juliet Wilbur Tompkins.

BUT—even such Fiction is only one department in Good Housekeeping. Its Articles, its Fashions, its Tested Recipes, the Institute, and the rest—are all just as carefully compiled, just as authoritatively written.

### GOOD HOUSEKEEPING

Austria Pays Price of War

Intense Suffering Among All Classes

Food Dear and Scarce

Limited Fuel Supply Added to Suffering—Results Show in Health and Birth Rate Figures

For the last few days, according to a New York Times correspondent in Bern, Switzerland, writing about the middle of February, a number of people have been allowed to cross the Austrian frontier into Switzerland. Directly they reached a railway refreshment room or entered a Swiss dining car all of them naturally ordered a meal; but in almost all cases an ordinarily substantial meal proved too much for them, and instead of benefiting them, simply made them ill.

ed visits to Austria-Hungary several times since the war I learn that never has the Austrian capital been in such a plight as just now. Men, women, and even children, have, especially lately, succumbed to hunger and want, and I am assured by someone quite recently returned from Austria that children have been literally dying in the streets. Nowhere is there enough to eat, he says, except among quite wealthy classes and the most well-to-do farmers. The organization for the distribution of provisions is wretched despite the fact that a "People's Food Office" has existed in Vienna since December 1 last. According to the organ of the Wholesale Purchasing Association, the prices have risen, taking Austria as a whole, by 104.07 per cent since the war, but in Vienna proportionately far more.

Available Only to Well-to-do. It is not, however, merely that all necessities have become so exceedingly expensive, but that they are not procurable. The few who have money still manage to purchase enough, but the great majority who have not money either go constantly hungry or depend on public kitchens, which since their creation have supplied the poorer classes in Vienna alone with 82,208,315 meals at a total cost of about \$2,168,805. At the end of 1916 there were also in Vienna alone 474,000 persons in receipt of government relief (grants of assistance), in other words, about one in four of the entire population of the Austrian capital. These government grants since the war until the end of last year had reached the sum of \$50,000,000, besides which there are a large number of mostly destitute refugees in Vienna who have cost the state since the war \$11,625,000. And yet the Bürgermeister in Vienna has just been warning the public that they must be prepared for worse times still to come in the next two months.

Fuel Problem Acute. Even more acute is the fuel question in Austria-Hungary, and in Budapest since February 15, theatres must shut at 10 p. m., and concerts, dancing and other entertainment rooms shut till further notice. The lighting of all public build-

ings must be reduced by one-half. The gloom and depression of Vienna, in short, with its restricted tram services, restricted electric lighting (even in private houses), limited gas consumption, and, worst of all, restricted heating with a degree of cold seldom experienced (eight deg. Fahrenheit below zero) is so distressing that my informant assures me that if he had not been able to leave it he would have lost his reason. The hospitals, public and private, are all over-filled and death is reaping proportionately as great a harvest among the civilian population as among the soldiers at the front. For various obvious reasons no regular vital statistics for Vienna, are published but I have obtained some of Prague Bohemia.

Vital Statistics. There were 5,246 children born in Prague in 1913, 5,326 born in 1914, 4,853 born in 1915, and 3,227 born in 1916. Of this number 3,227, however, 2,094 were children born in the maternity hospital; that is to say, most of them were the children of refugees. In other towns likewise a heavy decrease in the birth rate has occurred, and frequently a still more considerable increase in the death rate. The last figures which I have been able to obtain about the Austrian birth rate for the whole country show that in all the forty-nine larger towns reporting vital statistics in October, 1916, there were only 4,100 children born alive, and over 7,000 deaths, or 17 per cent deaths and 10 births. In Vienna alone the number of children born alive in 1912 was 40,000, but by 1915 this figure had sunk to only 29,000, while the number of children born alive sank unceasingly from 3,328 in March, 1916, to 1,988 in December, 1915. These figures, though trustworthy, have reached me from a round-about source. In Vienna, and, indeed, in all the larger Austrian cities, there are now large numbers of houses and business premises to let. Moreover, as little moving as possible is done, because this has become so costly, owing to the shortage of labor, of vans and of horses. In many cases young married women have returned to live with their parents, or several women friends have clubbed together to take a flat or house.

A Few Odd Items.

Butcher's sign—"Prim legs of lamb." A Philadelphia oyster dealer bears the appropriate name of Shellem. From a Vermont paper—"The play presented was 'Gammur Gurton's No die.'" Ad in English paper—"Black billy, 11 months, dam good milk; 10 shillings."

Overworked Women

There is a never ceasing treadmill of work in the modern woman's home; ambition to keep the house neat and attractive, the children well dressed and the family well fed and the constant struggle with cooking, washing, ironing, dusting, mending and sewing, to say nothing of social duties, often bring on some feminine disorder; physical weakness develops and every day becomes a period of misery.

To thousands of such women

Lydia E. Pinkham's Vegetable Compound

has brought health and strength and happiness. To prove this Read what these women say.

Providence, R. I.—"I cannot speak too highly of your Vegetable Compound as it has done wonders for me and I would not be without it. I had a displacement, bearing down pains and backache, and was thoroughly run down when I took Lydia E. Pinkham's Vegetable Compound. It helped me and I am in the best of health at present. I worked in a factory all day long besides doing my housework, so you can see what it has done for me. I give you permission to publish my name and I speak of your Vegetable Compound to many of my friends."—Mrs. Anna Lawson, 126 Lippitt St., Providence, R. I. This is an unalloyed testimonial, published by Mrs. Lawson's permission in the hope that it may help other women.

Prescott, Ark.—"When I began taking your Compound I was in a serious condition caused by overtaxing my strength. For years I carried heavy buckets of water to the horses and cows. I would help set, replant, hoe and cut tobacco, and help to hang it in the shed by handing it up to the one above me. All this I have done besides my housework for a family of five, baking, washing and ironing, and tending my garden and raised chickens. I became irregular and extremely nervous. A neighbor recommended Lydia E. Pinkham's Vegetable Compound to me and it has restored me to health. I have become regular and am cured of that cold feeling, and my nerves are stronger. I cannot praise the Compound too highly and hope some suffering woman will read my letter and take heart and give it a trial."—Mrs. R. Krauss, R. R. No. 1, Prescott, Ark.

Washington Park, Ill.—"I am the mother of four children and have suffered with female trouble, backache, nervous spells and the bites. My children's loud talking and romping would make me so nervous I could just tear everything to pieces and I would ache all over and feel so sick that I would not want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham remedies."—Mrs. Rosner Stoppel, Moore Avenue, Washington Park, Illinois. If you have such illness as Mrs. Stoppel had, can you afford not to use what cured her?

For forty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for woman's ills and is more popular today than ever. Lydia E. Pinkham Med. Co., Lynn, Mass.

FINAL Drastic Price Reductions for Tonight and Monday --My Last Day. My license expires and my sale ends Monday night. After the rapid selling of the past week, stocks are greatly depleted, and I have decided to carry nothing away. A few cases of much wanted goods will arrive by express today and will pass out rapidly to early shoppers who are on the spot when they are opened. This final sale means Shoes almost given away. **Baseball Signs**  
Detroit, April 28.—Oscar Vitt, star third-baseman of the Detroit Americans, has come to terms with President Navin, it was officially announced today. He is expected to join the team at Chicago in time to play next Sunday. It was announced that both Navin and Vitt had made concessions.  
**Predicts Great Year for Burns**  
Manager McGraw of the Giants predicts a great batting year for his left fielder, George Burns, who is distinctly a McGraw product if ever there was one. Burns has played in all 10 of the Giants' games to date and in his 48 times at bat he has made 19 hits and has felled 3 to connect safely in only one game. He missed in the first game against the Cincinnati Reds, and in the second game against the Boston Red Sox he hit eight times up in Boston. In Chicago Burns has hit safely one, has got two hits in three games and has made three hits twice and four hits once.

Burns has scored 11 runs to date. His batting average to date is .488.  
**How Old is Hank?**  
Twenty-eight years ago Hank O'Day pitched for the Giants who won the National League pennant and the world's championship under the leadership of the great Buck Ewing. O'Day was a right hander of considerable skill, taking turns in the box with Tim Keefe, Mickey Welch and Ed Crane. O'Day has been umpiring in the National League, when not managing the Reds and Cubs, for a decade. The veteran will not disclose his age, but nobody can say that his eyesight is poor or that he is slow on his feet.

**RESTLING**  
**Gotch to Give Up Belt**  
Chicago, April 28.—Besides refereeing the John Olin-Strangler Lewis wrestling match, May 2, Frank Gotch has announced he will publicly and without any strings or reserve clauses attached, hand over the championship belt to the winner. The only stipulation made by Gotch is that the wrestler who receives the title go up against Earl Caddock immediately, and the winner of that match will take on Stecher, the "three cornered" best man squabble settled.  
**BASKETBALL**  
St. David's Team Wins.  
In the Sunday School League series fixtures played in the Y. M. C. A. gymnasium last evening, St. David's defeated Centenary by a score of 29 to 7.

**Says Y.M.C.I. Victory Was Well Earned**  
Calais, April 27.—The Y. M. C. I. team of St. John won the trophy in the international bowling tournament at the St. Croix club alleys, which ended Wednesday evening, April 25, taking four games and losing one. The trophy went to the best bowlers, for the Y. M. C. I. certainly showed some bowling form, the way in which they cleaned up bad breaks being a revelation to many of their competitors, and also to the spectators. They had some luck in their bowling, but they were there with the goods when it came to a clean-up and their scores averaged high. The St. Croix club landed in second place and had the distinction of being the only bowlers in the tournament to defeat the local team, the only game lost by the Y. M. C. I. going to the home team. The local team also rolled the pinfall of 1531 made in Wednesday evening's game with Black's of St. John, and twice low during the tournament, the first record being 1491, George McGee of the Y. M. C. I. had the highest single string of the tournament, 126, and Coughlan of the same team had the high average 100.815, with Norwood of the St. Croix club a close second with 100.115. Norwood also had the high three string total, 380, made in the closing game. At the conclusion of the tournament the bowlers were entertained at an oyster supper during the tournament, and the gathering was a most enjoyable one, dispersing at an early hour Thursday morning. The scores made in the closing games of the tournament follows.

**"BABE" RUTH LEADS ALL THE AMERICAN LEAGUE PITCHERS**  
Boston, April 28.—"Babe" Ruth has started away this year as the American League's winning pitcher, having already with the season less than two weeks old, put four games on the credit side of his ledger. Ruth not only leads the American League pitchers but has a better record so far than any boxman in the league.  
Ruth has started each of the four series in which the Red Sox have been engaged, beating the Yankees 10 to 3, April 11; the Mackmen 6 to 1 on April 16, the Yankees again 6 to 4 on last Saturday, and yesterday giving the Sox the edge on the Washington series with a 5 to 4 win. In his first game he allowed only three hits, in the second eight, hits, in the third game nine hits, and yesterday six hits. He had one fit of wildness yesterday, when he forced in what would have been the Senators' winning run, had it not been for Ayres' extraordinary wildness thereafter, this making the Sox a present of the game without the need of one base hit.  
In his 36 innings of pitching Ruth has shown streaks of his great work in 1916, and, after the start he has made there is no reason why he should not have one of the best records in the American League this year. In the four games 129 opponents have come to bat against him, and the total of only 26 hits and 10 runs means an opponent's batting average of only .201 and an average of 2 1/2 for each nine innings pitched.  
Ruth has been a very important member of the Red Sox attack in the four games. He has been to bat 12 times against the Yankees, Mackmen and Senators and has made seven hits for a batting mark of .466.  
The Red Sox can thank Catcher Chester Thomas more than any one else for the development of Ruth. When working with "Babe" Thomas' point of view is that the big fellow never has as much "stuff" on the ball as he ought to have, and he is not at all timid about telling Ruth what he thinks. To pitch his best ball it is necessary that Ruth's fighting spirit be aroused thoroughly and Thomas has a way of his own to provide the necessary prod. Ruth is bound to go ahead as the season wears along and the announcement of him and Thomas as a battery always will mean that the champions are going to be in the game to fight to the finish.  
The honest provision dealer looked positively annoyed this morning. A man of keen business acumen, he expected his assistants to emulate him in all matters pertaining to his commercial,

**MATTY SAYS CUBS GET GOOD PLAYERS**  
Considers Mitchell Made a Wise Move in Getting Merkle—Praises Jack Coombs  
Fred Merkle, now playing first base for Chicago, says Christy Mathewson in the New York Sun, sounds funny, doesn't it?  
However, Fred Mitchell made a wise move in grabbing Merkle with Saier wrapped up in cotton batting because of a splintered shin, and he has added a good ball player to his club.  
The former Giant told me, while in town here, he liked his new berth. Baseball makes strange bed-fellows. Ty Cobb and Herzog may be getting up a partnership one of these days—and they will if there is any money in it.  
A fellow must be getting along when he admires to see the old-timers come through, even against his alma mater, but it did me good to read of John Coombs' defeat of the Giants for the first time they received this season. The Giants have never beaten John.  
There is a game worker—a lot of them would have been riding in a wheel chair today after what he went through instead of maintaining his record against the hardest hitting ball club in the baseball. Coombs was injured in the fifth game of the World's series in 1911 between the Giants and the Athletics at the Polo Grounds. He snapped something at the bench to see what the trouble was. Most of the Giants, including myself, knotted around the box. "Connie wants to put some one else in," said Ira, the official message bearer of Mack.  
"I'll go ahead," announced Coombs. He did, until the ninth inning, when, suffering great pain, he gave way to a pinch hitter and to quit even then. For more than two years he was laid out with weights strapped to his feet, and even the optimistic Connie Mack thought him would never work again. And here he is still preserving his record against the Giants. You've got to admire a man who can do that and cheer him when he wins.  
It is my distinct impression that the Reds will not finish last this season. Of course, privately, I figure them to finish much higher in the race. But, after looking at the Pirates, I don't see how anybody else could head them to the cellar.

First War Dogs Used by Germans

French And Belgians Soon Followed

Some Astonishing Feats of Animals Trained by System Which Remains a Military Secret

Those who love dogs, that is to say, the civilized world, will be pleased to hear that they continue to share the honors of the war with their masters. It is not often that they find their way into the despatches; but the despatches fail to mention some of the great realities of the war. When did General Haig make any reference to those creatures that inspired his countryman to write his most immortal lines, namely, those which the words, "O, was some power the giffle gie us" occur? There are no War Office bulletins about the trench rats, nor about the mud nor about the cold, nor the deadly monotony. Yet to the common soldier these things are war; the race over the parapet is the mere interlude. Therefore, if the dog has been neglected, it is not because he is not playing a great part. In various newspapers we find stories of what particular dogs have done and are doing, and occasionally a comprehensive survey of the military possibilities of man's best friend. For instance, the editor of L'Eveleur, of Paris, happens to be a dog fancier. He is M. Megnin, and was interested in dogs long before the war.

Surprised at British. In fact, he had the first French war-dog. She was an Alredale bitch, and was trained to war purposes under the direction of M. Megnin after he had seen how the Germans were developing their police dogs for the work. It was several years ago since he trained her, and he sought, with small encouragement, to interest the French government in his work and point out its great possibilities. Since the war began, however, M. Megnin has been successful. He has been chief of the war dog's service of the Seventh Army, and has had under his supervision hundreds of dogs of many breeds. Writing on the subject, he expressed surprise that the English, who know dogs better and breed them better than any other people on the face of the earth, should have, as a nation, failed to realize what dogs can be taught to do of military service to their country. The truth is that the English breeder rather despises trick dogs. British dogs are, as a rule, specialists. Probably in not one kennel out of five is a single dog taught to retrieve a stick. The French, as a matter of fact, are better trainers, for they do not hold, as the English have, that it is rather degrading a pure-bred dog to teach him any fancy stunts.

Quick to Copy Germany. The Germans entered the war with hundreds of dogs trained to perform various services. They had the dogs that did what the St. Bernards used to do, namely, hunt out perishing men, and bring their friends to them. They had also scouting dogs, and dogs that would growl or bristle at the approach of a stranger. They had dogs that would recognize an enemy by what means we do not know, but maybe by his uniform, and seize him if the opportunity arose. In the matter of training their dogs for war the Germans, as usual, led. France, however, copied very quickly. The Belgians, always animal-lovers, had made use for years of the dogs that dragged their rapid-fire guns in time of war. It was not long before both Belgians and French had established a dog service in the army quite equal to that of the Germans.

Training a Secret. In reference to this subject before, it was noted that no information was given as to the methods of training employed, and M. Megnin remains silent on this point because, he says, it might prove valuable to the enemy. This will be a point about which dog lovers will be curious until the end of the war, for some of the things the dogs have been taught to do remain almost miraculous even to those who are not altogether ignorant of the brain-power that may be developed in a dog. For instance, a dog at a listening post, whose business it is to give warning of the approach of an enemy, has been taught to do so not by barking or even by growling, but merely by pricking his ears or scratching on the ground.

Some Remarkable Feats. He has been taught to cross ground that is being swept by shell and bullet carrying despatches, to continue even after he has been wounded. He has been taught, in some cases, to distinguish between an offensive and a defensive, to know when to hurl himself upon an enemy.

NERVOUS DISEASES IN THE SPRING

Cured by Toning the Blood and Strengthening the Nerves

It is the opinion of the best medical authorities, after long observation, that nervous diseases are more common and more serious in the spring than at any other time of the year. Vital changes in the system, after long winter months, may cause much more trouble than the familiar spring weakness and weariness from which most people suffer as the result of indoor life, in poorly ventilated and often overheated buildings. Official records prove that in April and May neuralgia, St. Vitus dance, epilepsy and other forms of nerve troubles are at their worst, and that then, more than any other time, a blood-making, nerve-restoring tonic is needed. The antiquated custom of taking purgatives in the spring is useless, for the system really needs strengthening, while purgatives only gallop through the bowels, leaving you weaker. Dr. Williams' Pink Pills are the best medicine, for they actually make the new, rich, red blood that feeds the starved nerves, and thus cure the many forms of nervous disorders. They cure also such other forms of spring troubles as headaches, poor appetite, weakness in the limbs, as well as remove unsightly pimples and eruptions. In fact they unfailingly bring new health and strength to weak, tired and depressed men, women and children. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

RHEUMATISM WAS MOST SEVERE

Dreadful Pains All The Time Until He Took 'FRUIT-A-TIVES.'

MR. LAMPSON. Verona, Ont., Nov. 11th, 1915. "I suffered for a number of years with Rheumatism and severe Pains in Side and Back, from strains and heavy lifting. When I had given up hope of ever being well again, a friend recommended 'Fruit-a-tives' to me and after using the first box I felt so much better that I continued to take them, and now I am enjoying the best of health, thanks to your remedy."

W. M. LAMPSON. If you—who are reading this—have any Kidney or Bladder Trouble, or suffer with Rheumatism or Pain in The Back or Stomach Trouble—give 'Fruit-a-tives' a fair trial. This wonderful fruit medicine will do you a world of good, as it cures when everything else fails.

Box, 5 for \$2.50, trial size, 25c. At dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

any patrol, and when to lie close to the ground to let the Boche pass. In one authenticated instance an English Alredale, at his master's bidding, seized a bomb that had fallen in a trench and rushed with it into the open. The dog was blown to pieces, but the lives of a dozen men were saved. They are taught to work sometimes for two days and two nights without rest. They are taught to ignore the trench rats, a particularly hard job to teach a terrier, and to make no sign whatever unless a German approaches. They can see and hear further than a man, and at night they have frustrated scores of surprise attacks. Their services in the past couple of years of trench warfare have been invaluable and on more than one occasion particular dogs have been mentioned in official French despatches, and have even been decorated.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. Hall's Catarrh Cure has been taken by catarrh sufferers for the past thirty-five years, and has become known as the most reliable remedy for Catarrh. Hall's Catarrh Cure acts through the Blood on the Mucous surfaces, expelling the Poison from the Blood and healing the diseased portions. After you have taken Hall's Catarrh Cure for a short time you will see a general improvement in your general health. Start taking Hall's Catarrh Cure at once and get rid of catarrh. Sold for testimonials, free. F. J. CHENEY & CO., Toledo, Ohio. Sold by all druggists, 75c.

PARIS CELEBRATES UNDER U. S. STARS AND STRIPES

40,000 American Flags Waved by Immense Throng During Demonstration in Honor of Uncle Sam. The Stars and Stripes were flung to the breeze from the Eiffel Tower at two o'clock on Sunday afternoon and saluted by twenty-one guns. This marked the opening of the ceremonies, "United States Day" in Paris. The French tri-color and the Star Spangled Banner were at the same hour unfurled together from the residence of William G. Sharp, the American ambassador in the Avenue D'Eylau from the American embassy, from the city hall and from other municipal government buildings. It was a great day for the red, white and blue. All over the capital street vendors having a big trade in selling American flags, while 40,000 American flags handed out gratis by the committee, were waved by the people who thronged the vicinity of the manifestations. Jules Cambon, general secretary of the minister of foreign affairs, General Dubail, military governor of Paris, the members of the committee and other officers were greeted at one o'clock by Ambassador Sharp at his residence, whence they proceeded to the Place d'Arma, where a bronze palm was deposited at the foot of the equestrian statue of Washington. While cannon boomed in honor of the American colors floating from the top of Eiffel Tower, and aviators flying over the spot, waved both French and American flags, the Star Spangled Banner was sung by Mlle Nina May, of the Opera Comique, and the Marseillaise by Jean Note, of the opera. Members of the American Lafayette flying corps, a delegation from the American ambulance at Neuilly and the American field ambulances, with a large representation from the Association of Veterans of the Marne were the guard of honor before the Lafayette statue at the Tuilleries gardens as the official procession halted to deposit a bronze palm. Ambassador Sharp and his escort was received at three o'clock at the city hall by the members of the municipal council and other distinguished persons. The ambassador's speech was greeted with great applause, particularly when, addressing the people of Paris, he said: "May I say to you, on this holy day which you love with such fine sentiment set apart to honor my country, that America remains no longer content to express to France merely her sympathy. In a cause which she believes, as verily as you believe to be a sacred one, she will concentrate all her power and the blood of her patriotic sons, if necessary to achieve victory over wrong, freedom over oppression, and the blessing of peace over the brutality of war." The ambassador's speech was greeted with a shout of approval. "Liberty enlightening the world," after the Bartholdi, protected by the American eagle was presented to Ambassador Sharp as a memento of the occasion.

IMPORTANCE OF ROAD MAINTENANCE

Constant Attention Essential and Cheapest in End for Maine, Says Massachusetts Highway Expert

(Special Correspondence of Commercial) Augusta, Me., April 24.—"In my opinion, constant maintenance is essential, and especially so when so many miles of dirt and gravel roads must be used until you can secure the money to build improved roads," states William D. Schier, chairman of the Massachusetts Highway commission in a communication received by Paul D. Sargent, chief engineer of the Maine Highway commission, Wednesday.

"Chairman Schier's letter is as follows: 'There seems to have been some comment in your state about the maintenance that you are keeping up on your country roads. I am astounded that anyone should question the desirability or, in fact, the absolute necessity of constant maintenance. Look at the thousands and even millions of dollars that have been spent in our states and cities building roads which have been practically destroyed in two or three years, and sometimes in less time if they were of gravel or macadam, just because they were not maintained. Every dollar spent on the road surface was practically lost. When one thinks of the French roads, the envy of the world, every mile of them always under constant and expert repair men on each six or eight mile section before the war, one realizes how those roads have saved the country. I am informed that now on the main lines back of the army they have piles of stone and a repair man every twenty-five to 100 feet ready to repair damage at any time. In England they have found the constant maintenance to be absolutely necessary. In this state we have found the same to be true. We have found that it was the only way to preserve what we had built; the cheapest way also. To mention our neighbors, Connecticut, New Hampshire, Vermont, and New York have done the same. In Rhode Island they built all their main lines six or eight years ago, mostly of tar macadam. Then for two or three years they provided no money for maintenance, and see what happened in three years. The new roads went to pieces, many of them were full of holes two and three inches deep and from six inches to two feet or more across. The roads were nearly impassable, and they have had to be rebuilt. They estimate 60 per cent. must be reconstructed because they were not maintained. The maintenance would have cost only a small fraction of what is necessary now. I went over some of your roads last year that were kept shaped and maintained, and in my opinion they are the best asset that Maine has. They will attract the motorists who have been avoiding Maine because of her bad roads. This will improve property rapidly, will increase the value of the farms and farm products. In my opinion, constant maintenance is essential and especially so when so many miles of dirt and gravel roads must be used until you can secure the money to build improved roads. Thousands of tourists will come to Maine if they can get around in comfort, but they certainly will stay away if the old conditions return, especially now that all your neighbors are furnishing good roads for them to go over. Even Canada has become a competitor, with \$12,000,000 spent in the province of Ontario in the last few years, and \$18,000,000 appropriated; in the Province of Quebec a good macadam road having been already constructed connecting Montreal with New York state and so on to Quebec, 800 miles in all. I certainly trust that Maine will not fall back now that every one else is going forward.'

Send Us a Postal for FREE Beauty Book. SEELY, Perfumer Windsor, Ont. and Detroit, Mich.

"No matter how regular the Features—Beauty is dependent on the Complexion" So said the Great Napoleon. He could have gone much further and said that a woman cannot be even attractive without a Good Complexion. Why are so many women careless in this respect, when the remedy is so simple? SEELY'S DOUBLE CREAMS not only preserve a good complexion, but they provide a Good Complexion where it is lacking. Send us a dollar and the name of your druggist and we will send you the pair of Creams—one an Oil Cream for use at night and the other a Vanishing Cream for day use.

At dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

Housecleaning

Gets Right Through Gets Right Through Old Dutch Cleanser

FREE DEMONSTRATION of the BRANSTON VIOLET-RAY GENERATOR HIGH FREQUENCY GENERATOR FOR ONE WEEK, ONLY COMMENCING MONDAY, APRIL 30TH., AT THE SHOWROOMS OF THE NEW BRUNSWICK POWER COMPANY, Cor DOCK and UNION Sts.

Our expert demonstrator will be in charge to show you just what this wonderful scientific discovery will do for the relief of pain and cure of disease. Come in and get a treatment FREE.

SPECIAL PRICES DURING THIS DEMONSTRATION ONLY

For Rheumatism, Neuritis, Neuralgia, Stiff Joints, Sprains, etc.

Our expert demonstrator will be in attendance all next week. You will be given a courteous welcome and a Treatment Free, if you wish it.

Get Our Free Book Health and Beauty

Treating Neuralgia, He a d a ches. Toothache—after shaving, facial massage, etc.

The Branston "Violet Ray"—What It Is

The electric current produced by the Branston Generator, popularly called "Violet Ray," is known to the medical profession as "High Frequency Electricity." High Frequency current is the ordinary lighting current, transformed into a spray of minute particles that may be introduced into the body without causing pain or muscular contraction.

Absolutely Harmless—No Pain, Shock or Muscular Contraction The Branston Generator is the greatest electrical triumph yet recorded for medical purposes. By this marvellous discovery we are now able to make use of the ordinary lighting current to relieve pain and cure disease. It is so constructed that it can be used by the most delicate invalid or child without fear of injury. It is impossible to get a shock, and there can be no harmful results.

VIOLET RAY—A Strong Germicide

The Violet Ray current has been applied to more than 500 different germs, and none survived. Thus it may be seen what strong defense it offers against infectious germs, and of all the sterilizing forces employed by specialists, it is by far the greatest. It acts directly upon the tissues and is a preventative of disease as well as curative. It purifies the blood—it cleanses—it removes congestion and makes rich red blood.

AID TO BEAUTY

The Violet Ray is the most powerful aid to beauty ever perfected in the field of science or medicine. It restores the freshness of youth by restoring the vitality of youth. It invigorates the nerves that feed the skin. It restores the youthful curves that give the charm of freshness to the face and figure.

Used in Military Convalescent Homes and Hospitals

Extract from a Canadian Military Convalescent Hospital reports: "Eighteen hundred massage treatments have been given, time varying from 20 to 90 minutes per treatment. Splendid results were obtained through the use of BRANSTON VIOLET RAY GENERATORS among the returned soldiers."

One of the most useful articles presented to the "Sir Sandford Fleming Convalescent Home," is the handsome electrical apparatus known as the "Branstons Violet Ray High Frequency Generator." Model Six, donated to the institution by the "Ottawa Ladies' Aid Society," for the treatment of rheumatism and other ailments requiring massage and electrical treatment, and when it was discovered that the Generator was a much needed apparatus for the relief of the suffering soldiers returned from the front, the executive immediately took steps to supply it.

WE FURNISH

Complete CHARTS and DIRECTIONS with each Generator for taking treatments right in your own home. Specialists would charge you from two to three dollars for a single treatment. Every Generator is "Made in Canada" and absolutely guaranteed. With ordinary care they will last a lifetime.

List of Diseases Successfully Treated by the Branston Generator

- Asthma, Baldness, Blackheads, Brain Fag, Bronchitis, Bruises, Catarrh, Colds, Circulatory Disorders, Constipation, Dandruff, Deafness and Ear Diseases, Eczema, Falling Hair, Goitre, Hay Fever, Indigestion, Insomnia, Lameness, Lumbago, Nervous Affections, Neuritis, Paralysis, Pimples, Pyorrhoea, Rheumatism, Sciatica, Skin Diseases, Sore Throat and Throat Diseases, Sprains, Weak Eyes, Warts and Moles, And many other diseases.

REPRESENTATIVES WANTED. We are prepared to appoint agents and dealers. Write or see L. H. Lytle, care of New Brunswick Power Co. OUT-OF-TOWN CUSTOMERS. Are invited to send for our Free Book, HEALTH and BEAUTY. By CHAS. A. BRANSTON COMPANY 359 Yonge Street Toronto, Ont.
