RESCUE ACCEPTS STRIKE SETTLEMENT PLAN

WOLVIN ADVISES N. S. PREMIER OF GO.'S DECISION

Asks Government For Protection of All Property RHODES SPEAKS

Says Cabinet Will Name Commission to Probe Whole Coal Situation

HALIFAX, Aug. 6.—The British Empire Steel Corporation today advised Premier Rhodes that they had accepted the Nova Scotia government's proposals for a settlement of the provincial coal strike.

President Roy Wolvin advised the Premier in the following telegram of the decision.

"The Dominion Coal Company, Nova Scotia Steel and Coal Company, Cumberland Railway and Coal Company, and Acadia Coal Company, after protracted deliberations, hereby accept the conditions of the memorandum which you delivered to me in Halifax, July thirty-first.

TO AVOID DISASTER "This acceptance of your memorandum is at the request of the government solely to avoid further disaster to the province, and on your representation that it is for general benefit of the people of Nova Scotia.

"We have for many months by negotiations, direct with the officials of the United Mine Workers of America, and also through mediation endeavored to convince our employees that a permanent operation of the mines and steel plants cannot result from wage scales that are established by force and which today are economically impossible.

When necessary to meet trade conditions wages must be possible of adjustment downward as well as upward.

PROTECTION URGED. "We most strongly and emphatically urge that your government should immediately devise ways and means for proper protection of our properties both from direct attack and from damage resulting from the coal strike.

PREMIER'S STATEMENT. Following receipt of the corporation's telegram, Premier Rhodes made the following statement:

"The government, as was disclosed in its final memorandum, does not profess that the settlement finally arrived at is perfect, but it was the best possible solution of a very grave and complicated problem. That the parties have agreed is due to a spirit of conciliation and concession, both parties and the government being animated by desire to prevent further suffering and hardship and to protect the interests of the public as a whole, and of the province and the treasury.

TO PROBE COAL TRADE. "As speedily as possible, the government will set up a commission to make an exhaustive inquiry into the coal trade of the province. It is expected to have an outstanding commission and one whose findings will be respected by the public at large, as well as by both parties to the dispute."

FIGURES IN FOR POTATO SHEDS

\$10,000 to Make Pettigill and D. A. R. Frost-proof

More for Repairs—City Council Takes Up Matter of East Side Warehouse.

An estimate of cost of the frost proofing of the Pettigill and D. A. R. sheds for the shipping of potatoes from the east side of the harbor, made by the engineers of the C. N. R., was placed before the City Council this morning and referred to Commissioner Bullock and the city engineer for a report.

The cost figured for making the sheds frost proof was \$10,000 and the repairs to the floor and sub-structure were estimated at from \$1,500 to \$2,000, according to the amount of work done. Last season the C. N. R. shipped 21,800 tons of potatoes and it was said this could be increased if there were shipping facilities on the eastern side of the harbor. It was pointed out in the letter that the C. N. R. could not expend capital on property it did not own and asked the city to submit a rental proposal. The commissioner said any proposition would have to be on a yearly percentage of the cost basis and would have to include a rent of \$1,000 a year which the city would be giving up.

ROTARY INVITATION. H. Mont Jones and A. Foster, representing the Rotary Club, extended an invitation to the council to attend at the Rockwood Playgrounds on Saturday, August 15, at two o'clock, to receive the gift of the shelter recently erected by the club. It was decided to accept the invitation.

On motion of Commissioner Harding it was decided to rent a part of the West Side City Hall to R. A. Thorne for one year for \$45.

Commissioner Frink reported that in repairing the retaining wall of Thomas Zed, at 54 Prince Edward street, it would be necessary to repair one at 55 Prince Edward street, and one at No. 60, the total cost of the work amounting to \$2,183. He moved the work be done and paid for by bond. This was defeated. Commissioner Harding voting nay.

The secretary of No. 8, C. and F. P. wrote that Fred W. Campbell had been elected a member. A warrant was ordered issued to Mr. Campbell. He succeeded the late Mr. Carvell.

Commissioner Wigmore moved a former member of the City Council, a letter and family of James Sprout, a letter was accepted by Commissioner Harding and carried unanimously.

Mayor Potts referred to the coming visit of two of His Majesty's warships, and the matter of entertainment was left in his hands.

The council adjourned to meet on next Thursday morning at 11:30. The committee meeting to be held at 11 o'clock of that day.

BILL RETURNED. A bill of \$10,440 from the New Brunswick Electric Power Commission was read. A part of this bill was for work done for the last month, and part for the plans for the civic distribution system. The council ordered the bill returned, as they disclaimed any liability for the cost of preparing the plans for the distribution system.

An Old Election Trick. The Opposition Party is circulating throughout the city a recent issue of the Moncton Times, Conservative paper which bears screaming headlines to the effect that the Government is already defeated, as it did not have a full quota of candidates enlisted on nomination day. This is a silly canard and one of the old tricks of election excitement. As a matter of fact the Moncton paper is simply deducting three independent candidates from the Government list and appropriating them as Opposition supporters—which is not the case. The trick played by the newspaper and repeated by the Opposition party in this city by circulating the issue, is a transparent hoax that will not fool even the most casual observer.

A Montreal gentleman in one of the city hotels today remarked that he saw by the paper the elections here were over, but upon being advised of the true state of affairs drew from his pocket one of the Moncton Times' copies. He then had a good laugh over the gag being pulled upon him, an outsider not acquainted with local matters.—Adv.

PROGRESSIVES VOTE TO RETAIN IDENTITY. REGINA, Sask., Aug. 6.—That the Federal Progressive Party should retain its identity and not be merged into any parliamentary group, was the substance of a resolution passed at the closing session of the Saskatchewan Federal Progressives here yesterday. The Federal Progressive platform with the addition of a clause endorsing the principle of rural credits, was adopted.

TRIBUTE IS PAID. The funeral of Frank J. Sime, brother of R. S. Sime of this city, which was held in St. Francis recently, was very largely attended. A very grateful tribute to the former Saint John man was paid by one of the St. Francis papers, which said: "Flags are at half-mast today in deference to the funeral of Frank J. Sime, for 50 years a figure in yachting in St. John's Bay and in the waters of the Corinthian Yacht Club. The ebb tide carried him out to meet the Commodore of all fleets recently, his voyage having lasted 69 years. Mr. Sime was born in Saint John, N. B., where every man is a sailor and every sailor a yachtsman. He came here 50 years ago and engaged in providing ships with sturdy shrouds. With those of his son and widow, the deep love and respect of every yachtsman in California embrace his last clearance papers."

Alberta Conservatives Choose New Leader

EDMONTON, Aug. 6.—A. A. McGillivray, K. C. of Calgary, was chosen leader of the Conservative party of Alberta at a convention yesterday. No other names were placed before the delegates. He succeeds W. J. Blair, provincial, who was compelled to resign some time ago, on account of illness.

FINAL BROADSIDE AT OPERA HOUSE ON FRIDAY NIGHT

At the Opera House on Friday night, August 8, the Opposition candidates will deal with the questions of the provincial campaign in a clear and concise manner. They will reply to the so-called "ringing challenge" of Premier Veniot.

As the voters of Saint John are most anxious to hear their own candidates rather than outside speakers, this meeting will be confined to addresses by the four candidates, L. P. D. Tilley, K. C., James Lewis, W. H. Harrison, K. C., and M. E. Agar. The chairman will be Hon. R. W. Wigmore.

Opposition Candidates to Reply to Premier Veniot—St. Mary's Band and Vocal Solos.

St. Mary's Band will leave the head of King street at 7:55 p. m. and march to the Opera House where they will render selections at intervals during the meeting. There also will be vocal solos and a short motion picture programme. Ladies are particularly invited to be present.—S.S.

U. S. PURCHASES IN CANADA INCREASE

Goods Bought Here in Year Total \$6,000,000 More Than in Year Previous.

OTTAWA, Aug. 6.—Strength of the Canadian dollar in New York is reflected in further trade returns issued by the Bureau of Statistics today. These show American purchases in Canada for the 12 months ended June 30, 1925, at \$62,976,838, or about six millions more than the year previous. On the other hand, Canadian purchases in the United States were \$317,680,150 or fifty-three millions less than in the corresponding year previous.

Mrs. Lucy Burdell. The funeral of Mrs. Lucy Burdell, who died in Malden, Mass., will be held tomorrow morning from Fitzpatrick's undertaking parlors.

What The Opposition Candidates Stand For

DON'T BE MISLED BY FALSE CANVASSES. READ THIS CONCISE STATEMENT OF POLICY.

Dear Fellow-Citizen and Voter—The Government has brought this election on so quickly, it is impossible to see you personally before election day. We therefore take the liberty of expressing our views on some of the points at issue.

GRAND FALLS—We are in favor of the development of the waterways of our Province, so long as same can be made to earn the cost of operation. If Grand Falls will do so, it will have our cordial support. We resent and protest the howling farce the Government has made of the enforcement of the Prohibition Act. Under the name and guise of Prohibition the Government has conducted by its vendors an unlawful sale of liquor. In Saint John alone the sales for one year by vendors amounted to \$425,999, and for the Province during the same period, \$1,937,455.68, upon which the Government Auditors figured the Government made a profit in one year of \$500,000, and yet Premier Veniot says he is honestly endeavoring to uphold the Prohibition Law. We promise you our earnest efforts to remedy these objectionable conditions.

PROHIBITION—We resent and protest the howling farce the Government has made of the enforcement of the Prohibition Act. Under the name and guise of Prohibition the Government has conducted by its vendors an unlawful sale of liquor. In Saint John alone the sales for one year by vendors amounted to \$425,999, and for the Province during the same period, \$1,937,455.68, upon which the Government Auditors figured the Government made a profit in one year of \$500,000, and yet Premier Veniot says he is honestly endeavoring to uphold the Prohibition Law. We promise you our earnest efforts to remedy these objectionable conditions.

COMPENSATION ACT—Another false canvass which has been going the rounds is that the Opposition Party, if returned to power, will abolish the Workmen's Compensation Act. This is another political falsehood. The Opposition Party, if returned to power, will not abolish the Compensation Act. One of our candidates when a member of the Legislature at the time of the introduction of the Act was one of its strongest supporters.

PASTEURIZED MILK—After the change of Government on August 10th, Legislation will be passed giving you the option of purchasing pure milk or pasteurized milk, whichever you prefer. The new Government will NOT make it compulsory for you to use pasteurized milk. Today you MUST drink pasteurized milk when in the city, and if in the country for the summer months, you drink pure milk straight from the cow. There is something wrong with legislation which forces you to drink pasteurized milk in the city, and does not compel you to do likewise the minute you get out into the country.

HOW TO VOTE—You can procure a printed ballot with the names of the four Opposition candidates on it at our Ward Headquarters or at our Headquarters, Seaman's Mission, or from our workers. Keep the ballot for election day and take it with you to the poll. Do not put a cross opposite any name on the ballot. It destroys your ballot. That form of voting is used only in Dominion Government elections, but not in Provincial elections. You may, if you wish, write out your own ballot in black lead pencil or black ink. Remember, if you do so, the paper must be pure white and not ruled paper. You vote for four men. Vote the ticket—the WHOLE ticket. The more opposition members elected the surer the Government's defeat. Prince Edward Island—Nova Scotia—and NOW New Brunswick. A solid Maritime vote is used only in Dominion elections. Requesting your cordial and enthusiastic support, we remain, Yours very truly,

L. P. D. TILLEY, K. C. HEALTH CENTRE—A house to house canvass is being made by Government supporters that if the Opposition Party comes into power the Health Centre will be abolished. This is an absolute false statement. The Health Centre will be continued. There may be some minor changes: for example, members of the staff will not be allowed to use their position for political canvass purposes.

COMPENSATION ACT—Another false canvass which has been going the rounds is that the Opposition Party, if returned to power, will abolish the Workmen's Compensation Act. This is another political falsehood. The Opposition Party, if returned to power, will not abolish the Compensation Act. This is an absolute false statement. The Health Centre will be continued. There may be some minor changes: for example, members of the staff will not be allowed to use their position for political canvass purposes.

COMPENSATION ACT—Another false canvass which has been going the rounds is that the Opposition Party, if returned to power, will abolish the Workmen's Compensation Act. This is another political falsehood. The Opposition Party, if returned to power, will not abolish the Compensation Act. One of our candidates when a member of the Legislature at the time of the introduction of the Act was one of its strongest supporters.

PASTEURIZED MILK—After the change of Government on August 10th, Legislation will be passed giving you the option of purchasing pure milk or pasteurized milk, whichever you prefer. The new Government will NOT make it compulsory for you to use pasteurized milk. Today you MUST drink pasteurized milk when in the city, and if in the country for the summer months, you drink pure milk straight from the cow. There is something wrong with legislation which forces you to drink pasteurized milk in the city, and does not compel you to do likewise the minute you get out into the country.

HOW TO VOTE—You can procure a printed ballot with the names of the four Opposition candidates on it at our Ward Headquarters or at our Headquarters, Seaman's Mission, or from our workers. Keep the ballot for election day and take it with you to the poll. Do not put a cross opposite any name on the ballot. It destroys your ballot. That form of voting is used only in Dominion Government elections, but not in Provincial elections. You may, if you wish, write out your own ballot in black lead pencil or black ink. Remember, if you do so, the paper must be pure white and not ruled paper. You vote for four men. Vote the ticket—the WHOLE ticket. The more opposition members elected the surer the Government's defeat. Prince Edward Island—Nova Scotia—and NOW New Brunswick. A solid Maritime vote is used only in Dominion elections. Requesting your cordial and enthusiastic support, we remain, Yours very truly,

L. P. D. TILLEY, K. C. HEALTH CENTRE—A house to house canvass is being made by Government supporters that if the Opposition Party comes into power the Health Centre will be abolished. BRITAIN TREBLES LIQUOR EXPORTS

U. S. Ports Shown Enormous Increase Since Country Went Dry.

British United Press. LONDON, Aug. 6.—British exports of spirituous liquors have more than trebled since 1922.

While an official announcement today says nothing of bootlegging or rum-running, it was deemed significant in some quarters that this great bound had occurred since America went dry, and that ports near the United States had shown enormous increases in their receipts of the products of British stills.

FIGURES COMPARED. The 1924 exports amounted to 984,000 gallons, while in 1922 the exports were only 289,801 gallons.

The biggest increases noted were: St. Pierre, Miquelon, from 119,000 gallons in 1922 to 409,966 in 1924. Honduras, from 111,000 gallons in 1922 to 161,000 in 1924.

Nicaragua, from 6,500 gallons in 1922 to 86,000 in 1924. Guatemala, from 8,000 gallons in 1922 to 65,000 gallons in 1924.

OFFICIALS QUIT TO PREVENT WAGE CUT

Three Bethlehem Officers Resign to Protect 10,000 Workers.

Canadian Press. NEW YORK, Aug. 6.—Need for drastic economy, with the alternative of cutting the wages of 10,000 workers, is given as the reason for resignation of three high officials of the Bethlehem Steel Corporation. The officials, whose resignations were announced yesterday, to take effect September 1, are Archibald Johnston, chief associate of Charles M. Schwab; H. S. Snyder, president in charge of finance, and Wm. M. Tobias, general manager.

Funerals

Miss Ann McConnell. The funeral of Miss Ann McConnell was held this morning from the Most Merciful Home to the Cathedral of the Immaculate Conception for solemn high mass of requiem at 8 o'clock, with Rev. James Brown, celebrant, Rev. E. P. Reynolds, deacon, and Rev. Charles Lefebvre, organist. The Rev. Mr. Nichols was master of ceremonies and Rev. M. T. Nichols and Rev. William Floyd were in the sanctuary. Right Rev. E. A. Lefebvre gave final absolution. The cemetery took place in the new Catholic cemetery. Many spiritual offerings were presented.

Mrs. Lucy Burdell. The funeral of Mrs. Lucy Burdell, who died in Malden, Mass., will be held tomorrow morning from Fitzpatrick's undertaking parlors.

What The Opposition Candidates Stand For

DON'T BE MISLED BY FALSE CANVASSES. READ THIS CONCISE STATEMENT OF POLICY.

Dear Fellow-Citizen and Voter—The Government has brought this election on so quickly, it is impossible to see you personally before election day. We therefore take the liberty of expressing our views on some of the points at issue.

GRAND FALLS—We are in favor of the development of the waterways of our Province, so long as same can be made to earn the cost of operation. If Grand Falls will do so, it will have our cordial support. We resent and protest the howling farce the Government has made of the enforcement of the Prohibition Act. Under the name and guise of Prohibition the Government has conducted by its vendors an unlawful sale of liquor. In Saint John alone the sales for one year by vendors amounted to \$425,999, and for the Province during the same period, \$1,937,455.68, upon which the Government Auditors figured the Government made a profit in one year of \$500,000, and yet Premier Veniot says he is honestly endeavoring to uphold the Prohibition Law. We promise you our earnest efforts to remedy these objectionable conditions.

MAINE GOVERNOR BACKS N.B. HYDRO

Brewster Declares People Across Border Anxious for Power.

Predicts Great Industrial Future For Saint John Valley After Development.

ST. LEONARDS, Aug. 5.—Governor Ralph O. Brewster, of Maine, speaking here on the proposed development of hydro-electric power at Grand Falls by the Government of New Brunswick, declared that the people of Maine were eager to see the power generated and he gave the assurance of the co-operation of the state when the time came for the use of storage basins across the border.

CANNERIES RUNNING. Fairly good catches of sardines have been made lately along the south coast of the province. J. F. Calder, fisheries inspector of Campbellton, said yesterday while in the city. Mr. Calder said that Grand Manan and Deer Island had been getting very fair catches and that all the canneries were now running. The salmon catch for the year had been exceptionally fine, he declared, and the hake fishing was good too.

I'm Preparing a Cook's Timetable

(By M. I. C. a Hydro Housewife) Everybody appears to be all excited about my Hydro Range and its magic oven—from all sides I for one am getting dozens of questions about how long it takes to cook this—how well does it do that—etc.

To every single question I have a happy answer—these Electric Ranges are the most wonderful things that ever came into a home, excepting babies.

And now the Hydro people, who gave me over this space to write my experiences, ask me to get up a record of cooking timing. They have lots of such records of their own but they want an outsider in this city to prove what they say.

Meanwhile—it's costing you wasted money, wasted time, wasted effort and wasted food every day you delay getting a Hydro. \$10 down obtains one, day

CANTERBURY STREET Open Tomorrow Night. In my next article I will deal more fully with the manner in which this matter is handled by the well regulated Province of Quebec.

THIRD ARTICLE FROM ANGUS McLEAN

In My Last Article I Stated That I Would Today Deal With Power Development, Costs, Etc.

The Province of New Brunswick is covered with growth of spruce timber suitable for producing high class paper of all kinds. This timber grows rapidly and can furnish a continuous supply.

The production of these pulps is very large in the provinces of Quebec and Ontario, probably ninety per cent. of the output being exported, principally to the United States.

It is a most important matter for the prosperity of Canada as a whole, and particularly for the Maritime Provinces, that some arrangement or treaty be entered into with the consuming countries of the world to admit free of duty finished fine papers from Canada.

Under existing conditions newsprint paper is the only finished paper made in Canada, and admitted to the United States and many other countries free from tariff dues.

The prime requisite for producing newsprint paper is cheap water power. We cannot compete in the production of this article unless we can obtain power approximating the cost to our competitors in other parts of Canada.

It is the opinion of most bankers interested in the financing of pulp and paper enterprises, that power, to be of any value to newsprint mills, and particularly to be used for grinding pulp, should cost not more than \$15 per horsepower per year.

Now the inference is that this is a list of prices paid by the newsprint mills, when the fact is there is no newsprint or pulp produced at any of these points.

There are a few available well-known quotations for power that anyone interested can check up and verify, and it would be an education for our would-be public power producers in New Brunswick to study these figures.

I am informed Price Bros. contracted with the Duke, Price Power Co. for a period of twenty years for 200,000 primary horsepower, of which 40,000 is designated as Class A and 160,000 as Class B.

Class A power is to be delivered to Price Bros. at the base of the power station at a price of \$12 per horsepower for Class A, which is to be utilized for grinding groundwood pulp and motive power, and the balance of 160,000 horsepower of Class B power is to be utilized for steam generation in place of coal.

An also informed a quotation is now being given by the Duke, Price Power Co. for approximately 20,000 horsepower continuous power to the Port Alfred Pulp Corporation, the power to be delivered by the Duke, Price Co. for the Port Alfred Company's mill at Port Alfred on the Ha Ha Bay, Saguenay River, Que., at a price of \$12.50 per horsepower per year at the

bus bars at the power station of the Duke, Price Company. Evidently the Duke, Price Co. is prepared to furnish power freely at the above prices.

It would be interesting to know from the Premier if the quotations given by him are for public or private developed power, in view of the fact that all quotations he made are considerably higher than the prices I submit.

I have been unable to discover one instance where power developed under public ownership can be sold to users at prices to compete with prices under private ownership, except the one for the Ottawa Electric Co. are for newsprint production.

PROHIBITION

L. P. D. Tilley, in the course of his remarks, said that the New Brunswick Prohibition Act, as enforced by the present administration, was a howling failure and alleged that the present act is unlawfully selling liquor and seeing to it that the vendors sell as large a quantity as it is possible for them to do...

MILK QUESTION

The speaker also dealt with the Public Health Act and pasteurized milk. Mr. Tilley remarked "that while Hon. Dr. Roberts has done the province a great deal of good in the matter of lowering the death rate, etc., pasteurized milk would be made an optional question if the Opposition were elected..."

LIQUOR SALES

Col. Harrison, as Mr. Tilley, denounced the manner in which the present government were enforcing the Prohibition Act and claimed that the government were doing its utmost to obtain as much revenue as possible from the sale of liquor by their vendors...

GRAND FALLS

Regarding the Grand Falls matter, Col. Harrison emphatically stated that while it has been falsely rumored that the Opposition are totally opposed to the development, this was not true, more than they were against it unless a cautious investigation would offer proof that the development would prove a sound business venture...

Is This Dam a Menace?

Balt Lake City is more than usually interested in the condition of this dam, which some engineers declare unsafe. It is under construction at Dell Mountain, Utah, 16 miles from Salt Lake City. If it should collapse it would turn 800,000 gallons of water on the city. New tests of its strength are being made.

SAYS STAND OF INTERESTS REASON NO VOTE ON HYDRO

Veniot Cites Legislature's Support of Decision to Go Ahead with Grand Falls Work; Premier Speaks at Two Meetings in Suburbs

DECLARING that his Government since it had been put in power had stood by the electors of the province for progressive administration; sources, with special attention to water power, free school books up to Grade 5, and a health act that was the best on the continent of North America...

MEET BY BAND

Premier Veniot was met at the Simms factory by the Carleton Cornet Band and accompanied to Fairville school grounds where he made his address. Councillor John O'Brien acted as chairman.

Premier Veniot declared this the most important election in his 33 years of political life. New Brunswick had been going behind in the last eight years due to circumstances of a peculiar nature. One of the conditions was the fact that New Brunswick had not early enough taken into account and developed its natural resources.

COMPENSATION ACT

He next spoke briefly of the Workmen's Compensation Act, contending that the workman of the province could not go to work knowing that if he were killed, his wife and family were provided for and would not be a charge on the community. He also knew that in case he should be disabled, he could draw enough to at least provide for his living necessities.

ADMINISTRATION COSTS

The lumbermen had said that the administration of the act was costing too much, he declared. It had last year cost the province between \$47,000 and \$50,000 to administer the act and, in Nova Scotia, where the benefits were less, it had cost \$104,000, he said.

GREETED WITH CHEERS

At East Saint John the Premier was greeted with three cheers when entering the hall. His remarks were largely similar to those at the Fairville meeting. He expressed his pleasure at meeting so many of the electors of East Saint John, and especially to the women, as he was looking to them for support.

EXPRESSES SURPRISE

The Opposition said Musquash was not a paying proposition, he said. He was surprised to see the city solicitor of Saint John telling the people of other parts of the province that Saint John was being sold power too cheaply.

PORK PACKING PLANT

He spoke of the pork packing plant being built near East Saint John and asserted that the credit for this enterprise coming here was due to the Govern-

ment which had backed its bonds to give the farmer a market in New Brunswick for his hogs. He referred to the free school books for children up to Grade 5, saying that it was an added facility for education.

ROADS PROGRAM

The good roads had brought tourists in ever increasing numbers to the province, he said, and the roads were now regarded by Dominion engineers as the best gravelled roads on the continent. He asked them to compare the records and program of the two parties and to take their choice.

NATURE BETTER THAN LIPSTICK

Beauty Pamphlet Emphasizes Means at Hand to Look Well.

Carrots, Milk, Vegetables, Potatoes and Cereals Outdoor Artificials.

MANCHESTER, Eng., Aug. 5.—"Nature's Vanity Case" is the title of an important and entertaining beauty pamphlet issued by the British National Milk Publicity Council to enlighten the interest of people in wholesome food.

"No dressing table is complete without these days," says the lecturer, "but the best kind consists of creamed carrots, which we call nature's own paint or complexion brush. Eat them cooked or raw. No matter how tender or delicate your skin, you can use yellow carrots cooked in milk twice a week. By mixing these two colors with the body, a promising color will appear upon the cheeks of almost any person whose health is anywhere near normal."

Continuing on the question of the complexion the lecturer goes on to say "If you are pale and allow your skin to become unattractive, try our highly recommended skin softener, an apple hanging from the bough of a fruit tree. It is delivered in an airtight package, but be sure and always eat the package first. The apple skin is our most important product of all in cows' vanishing cream. Kings, queens, princesses, actresses, film stars and mothers all recommend it. It gives you good bones, white teeth and sparkling smiles. There is enough produced in England for every one to have four or five glasses each day, or even more if he desires it."

"Here is our complexion powder extracted from wholesome oatmeal—porridge, rice and barley; equally well suited to blonde or brunette. The best powder puts a fluff of softness on the skin, but always be sure and eat the skin, too. Eye sparkles, made from the phosphorus in creamed onions, are excellent. "We have also vanity cases in several shades of green, made from leafy vegetables. The spinach case is perhaps the most popular among business women. And always remember that the beauty secrets of the homeliest English girls are yours, for the taking!"

"Peacock Alley," Once Scene Of Romance, Is Now No More

NEW YORK, Aug. 5.—"Peacock Alley" is gone. That gauntlet of girls, labyrinth of limbs and lipstick, which was the best known feature of the famous old Waldorf-Astoria, has passed into the limbo of landmarks of New York.

Where "Peacock Alley" once spread its fashions and furbelows, now shops show shaving soap or display dainty unmentionables which one only guessed at when the female-bordered corridor was in its prime.

"Peacock Alley" was one of the side-walks of New York. Just as it is "the thing" for tourists in Rome to feed the pigeons in front of St. Peter's, so once was it de rigueur for prominent dailies and poultry men from that indeterminate region known as "out of town" to feed the birds of gayer plumage perched on the chintz-covered chairs along the alley. To be litera, it was the passageway leading from the lobby of the Waldorf to the main dining room.

Famous Rendezvous. Many a marcelled stenographer sat patiently awaiting her Prince Charming in the hospitable arm-chairs of "Peacock Alley" and actresses and their ilk were wont to make it a trying place. "Meet me in Peacock Alley" once became an anonymous for that chance acquaintance that is the boon to loneliness in a big city. No one ever was shot in "Peacock Alley" which spread its plumage before the automatic pistol became an adjunct of matrimony, but many a wandering husband cast a cautious eye fore and aft before risking it amidst the silken sheen of that historic passage-way.

The inexorable demands of progress have taken their toll right and left through New York of late. An unassuming crane lowered the steel, Diana from her airy perch atop Madison Square Garden, which in its turn topped the Empire State building.

Washington, Aug. 6.—A new method for preservation of tropical fruits during long shipments has been invented by Dr. F. J. Cramer, Director of the Station for the Selection of Plants, at Buitenzorg, Java, according to advice received by the Department of Commerce from Harvard University, American Consul at Naples, Italy.

Cramer's method consists of covering the fruit, packed slightly below maturity, with a thin coat of a liquid rubber preparation (Hevea).

Each piece of fruit is then wrapped in waxed paper, thereby retarding the ripening period. The coating also prevents a certain degree of the action of microbes which cause deterioration.

Run Runners Rejoice at Eluding Blockade Off Rhode Island Coast.

NEWPORT, R. I., Aug. 6.—Newport run smugglers are celebrating their first really big success since the institution of the government blockade off the Rhode Island and Block Island coast about three months ago.

From a reliable source it was learned that the jollification follows the undisturbed landing of 2,400 cases of "old stuff" at a point on Narragansett Bay.

"Near Providence" during last week-end. The landing was effected from a schooner commanded by a lumber merchant. According to the story the windjammer eluded the blockade, entered the Providence River and was met by prohibition by five swift ferries which beached her cargo without interference from the prohibition land forces.

Rhode Island's rum row, according to the informant, has disappeared. The units of the whiskey armada have moved further to sea. Radio communication is now used to make arrangements for deals, and most of the transfers are being made at great distances from shore. Most of the successful transfers now are effected 200 miles from land.

Chinese Civil War Fails to Stop Trade

WASHINGTON, Aug. 5.—Political upheavals in China have failed to curb export trade from Shanghai to the United States, according to consular advice to the Department of Commerce.

Exports from Shanghai during the first six months of the year amounted to \$27,500,000, compared to \$19,004,000 for the same period last year.

The Chinese have been sending America great quantities of fur, cotton laces, embroideries, silk, and bolts of pongees. Mah Jongg exports have practically stopped.

COPENHAGEN, Aug. 6.—Perhaps the world's oddest mail carrier is the man who piles between the Islands of Bogoe and Faroe.

He must make his trip on stilts as the water between the two places is too shallow for boats generally but too deep for ordinary shoes.

Large Volume of Supporting Orders Sustain Wall Street Tone

MONTREAL, Aug. 6.—Price Bros. was the outstanding issue at the opening of today's stock market, being exceptionally active and touching a new high at 21, up 1. Canada Cement and Quebec Power, yesterday's strong features, were both firm, the former selling unchanged at 108 1/2, and the latter gaining 1/2 to the new high established yesterday at 113 1/2. The weak spots in the early trading this morning, were Asbestos preferred and St. Maurice Paper, which were off 2 at 100, and 1 at 85 respectively. Fractional declines were registered by Brompton at 21, off 1/4; Shawinigan at 16, off 1/2, and Industrial Alcohol at 15, also down 1/2. Steel of Canada and British Empire Steel second preferred were stronger at 86 1/2, and 9, up 1/2 and 1/4 respectively. The following leaders sold unchanged: Brazilian 50, Power 100, Winnipeg 51, Spanish River 108 1/2, Canada Car 88 and Ogilvie 101.

IN WALL STREET

NEW YORK, Aug. 6.—Supporting orders appeared in large volume at the opening of today's stock market, which displayed a firm tone.

Initial gains, as a rule, were small, although Fleischman opened a point higher, and National Dairy Products quickly mounted to a new high level for the year.

Morning Stock Letter

NEW YORK, Aug. 6.—There are many advices around the street to get out of the market, as the bull movement is over, but while the market is at a dangerous level, it takes profit-taking so well that it seems quite likely a good many stocks will go higher. For one thing, there is a good deal of confidence about the industrial position, with the exception of one industry, the oil trade. Money is yet, while firmer, has shown no signs of scarcity, and in addition there is a very large short interest. This, while we think the market is dangerous, we think activity in a number of lines will continue. Steel companies are going to go higher and in purchase for a turn on any set-backs. Ray is likely to sell higher, and in addition, both the high grade and speculative rails are likely to see higher prices.

Jews to Meet in Great Gathering

Nation Wide Conference in Philadelphia For Relief of Co-Religionists Abroad.
A conference of Jews from every part of the country and representing every element in American Israel will be held in Philadelphia on Saturday evening September 12 and all of the following day to consider plans for the continuance of relief of their co-religionists in Europe and Palestine with special reference to a project for settling 100,000 Jews as farmers in Russia by the end of 1927. Fifteen million dollars is the amount which, it is estimated, will be necessary to carry out the plans that will be submitted to the conference.
The call for the conference, which has been issued by David A. Brown, president of the General Necessities Corporation, and is signed also by more than 200 leading Jews from all parts of the United States, describes the dates of the conference as important days in the history of American Jewry.
The gathering is to be under the auspices of The American Jewish Joint Distribution Committee, the American Jewish Relief Committee, the Central Relief Committee, the American Jewish Relief Committee, the Central Relief Committee and the People's Relief Committee. The last three named organizations jointly raised upward of \$65,000,000 in this country in a series of campaigns beginning in 1917 and ending in 1923 for the relief of their war-stricken brethren in Europe and in Palestine.

DEFENDANTS SCORE

Court Rules Charges Must be Separated in Suit Brought by Maid.
WHITE PLAINS, N. Y., Aug. 6.—The first point in a damage suit filed by Miss Birdie Maloney of Irvington against Frank Donaldson Brown, a vice president of the General Motors Corporation, who lives in Irvington, and his wife, Mrs. Creta Brown, was won by the defendants today when Supreme Court Justice Arthur S. Tompkins filed a decision directing Miss Maloney to separate the three causes of action in her complaint.
Miss Maloney asks \$75,000, alleging false imprisonment, slander and assault. Last December \$10,000 worth of jewels were stolen from the Brown home in Irvington and last June, when Miss Maloney was personal maid for Mrs. Brown, the defendants, it was alleged, accused her of the theft, assaulted her and locked her in a bathroom until the arrival of a detective, who, after an investigation, had her released.

Saint John Women Can Testify To This Fact

Saint John women stood shoulder to shoulder with their men folks fighting for Musquash Hydro at cost. They got it. Not only did hydro-users get it at cost but all electricity users in Saint John are now enjoying one-third the old price. Musquash did it. Now comes the Grand Falls development for ALL NEW BRUNSWICK. The same advantages will follow if the Government's fight for public ownership is won. If the Opposition get in, the Private Speculators will fix your prices.

CHARGES N. B. FIRMS HAVE INTEREST IN GRAND FALLS JOB

Baxter Declares Concrete Builders, Ltd. and Maritime Construction Co. Associated With Montreal Contractors for Hydro Work

FREDERICTON JUNCTION, N. B., Aug. 5.—Declaring that the Dominion Construction Company, successful tenderers for the Grand Falls development work, was not even listed in the Montreal telephone directory, Hon. Dr. J. B. Baxter, K. C., leader of the Opposition, in his speech here this evening charged that two New Brunswick contracting companies, the Maritime Construction Company, Fairville and the Concrete Builders, Ltd., Fredericton, were associated with the Dominion Construction Company. He further intimated that the latter company had practically a monopoly in supplying concrete culverts and concrete bridgework through the province.

The Opposition leader strongly condemned the tactics which he said were being used by the Government to win the election. Dr. Baxter charged that at present half a million dollars was being spent on roads throughout the province because there was an election on and gave as one instance the road now proceeding near the Revereing Falls by the Maritime Construction Company, which Dr. Baxter alleged laid off the steam digger to employ laborers with pick and shovel.

READY TO FACE CHARGE

The meeting was held in the Agricultural Hall and before it opened the place was packed to the doors. G. Smith acted as chairman and speeches also were given by A. D. Taylor and E. C. Atkinson, Opposition candidates for Sunbury county. Both roundly scored the Government for alleged lack of enforcement of the prohibitory act, the Grand Falls development and other issues.

Mr. Taylor said he noticed that R. B. Smith, member of the last Legislature now running as Government candidate, had declared he had started slender proceedings against him (Taylor). Mr. Taylor said he would gladly welcome any opportunity to stand back of any statements he made.

ROAD OUTLAYS

Referring to the expenditure on roads, Dr. Baxter charged the Government with unnecessary outlays in this line, simply because there was an election on.

Referring to the Government's claim that it was granting free school books up to Grade V, Dr. Baxter declared that he had obtained in this regard. Taking Grade III, he said that under the act the pupils got a reader, a copy book, a drawing book and a health book, costing about

HEART TROUBLE IS CHIEF CAUSE

Total Deaths in Saint John Were 554 in Nine Months

Greatest Number Were People More Than 75 Years of Age

When compiling the statistics of deaths in the city during the last nine months, T. M. Burns, secretary of the Sub-District Board of Health, found senility to rank second as the cause of death. Organic diseases of the heart claimed the largest number of victims of all, having 88 deaths reckoned against them in the months. Senility had caused 81 deaths; pneumonia accounted for 41 more and the group of infant diseases which includes malnutrition, infantile and premature birth accounted for another 84. The total number of deaths in the nine months amounted to 554 and they were about evenly divided between the two sexes, 274 being male and 280 female. There were 77 of the dead who were foreigners, the others being Canadian. Of single persons the 554 dead consisted of 220 single and 334 married.

DEATHS BY VIOLENCE

Under the heading of deaths by violence were three suicides, one by shooting, one by poisoning and one by hanging. A child found dead was presumed to have been murdered and accidental deaths included seven fractures, eight cases of accidental wounds and two from burns.

In the grouping of deaths according to age it is seen that 129, or nearly one-fourth of the total number occurred at the ages over 75 years. There were 100 between the ages of 65 and 85, and the remaining 29 were at ages over 85 years.

Taking the other end of the scale there were 91 deaths under one year; 24 deaths between the ages of one and five years; eight deaths between the ages of five and ten years, and nine deaths between the ages of ten and 15 years. Of those between 15 and 20 years there were 12 deaths; of those between 20 and 25 years there were 10 deaths. Taking the grouping by ten year periods after 25 years it was found there were 28 died between the ages of 25 and 35 years; 25 between the ages

Hits Porcupine Gets Puncture

SACO, Me., Aug. 6.—Motorists who encounter porcupines on the road in the future had better show respect for the foot-footed quilled creatures after listening to the strange incident recently experienced by Stanley Hurd, of this place.

During an automobile ride by Mr. Hurd the other evening to his country, while on his homeward journey from Kennebec Pond, he noticed an animal slowly making its way across the road almost directly in front of him. Thinking that it was a skunk, he stepped on the gas in order to get out of its way, but in doing so he remembers that he struck the object. Not caring to stop and investigate as to whether he had killed the animal or not, he kept right on his homeward trip. Upon arriving at his garage in Saco he was much surprised when he found several large porcupine quills stuck in one of his rear tires and when removed they caused the tire to flatten.

Referring to the Concrete Builders, Dr. Baxter said it was remarkable that this was the only company in New Brunswick that could make concrete culverts and most of the concrete bridges. It was not every man like J. J. McCaffrey, Fredericton, of the Concrete Builders, that could secure a practical monopoly in this regard.

The Maritime Construction Company, he said, also had its finger in this. Quite recently this company, which was doing road work across the highway bridge at Saint John, laid up their steam-digger in order to hire men for pick and shovel, and all this was done to defeat himself and his colleagues standing in Saint John county.

Why was all this, Dr. Baxter asked. Well, some one, he said, must raise the money to finance the campaign and he said he could make a pretty shrewd guess as to where it was. He was sure, however, that these people would be disappointed when the people of New Brunswick on Monday, next, would take charge of this matter and win the fight. The Opposition was working in their interests.

If elected, he said, the Grand Falls contracts would not be worth the paper on which they were written. Dr. Baxter pointed to Musquash and declared the excessive cost of this development must stand as a warning to the people of New Brunswick to go slow on the Grand Falls project. The estimates had been greatly exceeded until now the cost had been placed at \$8,200,000, he declared.

MAKES A GUESS

Why was all this, Dr. Baxter asked. Well, some one, he said, must raise the money to finance the campaign and he said he could make a pretty shrewd guess as to where it was. He was sure, however, that these people would be disappointed when the people of New Brunswick on Monday, next, would take charge of this matter and win the fight. The Opposition was working in their interests.

Traffic Cops Help In Theft Of N. Y. Fire Dept. Roadster

NEW YORK, Aug. 6.—Chasing a stolen fire department roadster, in the opinion of Policemen O'Leary and Wilson, is something like pursuing that fabled ship of the sea, the Flying Dutchman, whenever O'Leary and Wilson, in their coughing sifter, threatened to catch up with the roadster, a traffic cop, sighting the red paint and hearing the siren of their quarry, obligingly waved a clear path for the roadster, and came over to argue with the policemen.

The car was outside fire headquarters. Along came James Stockdale and John Fay. According to the police the young men climbed into the car and departed. With the fire going sounding loudly the roadster sped north on Second avenue to Forty-seventh, east to First avenue, north to Forty-eighth street, west to Second avenue and then headed north. The machine moved at a rate that suggested a "thorough" fire call at the least. Whenever it approached the post of a traffic officer that guardian would efficiently wave traffic right and left and then, with a snappy jerk of his hand, beckon the fugitive car to go right ahead and escape.

The roadster took the turn out of Second avenue into Fifty-seventh street on two wheels and with a deafening blast of its siren. The officer on point duty at Third avenue and Fifty-seventh street was just getting into action to make that cross-over safe to the fugitives when the car barked a couple of times and came to an abrupt stop. O'Leary caught Stockdale and Wilson arrested Fay in the machine. They were held in \$2,500 bail each for grand larceny.

HARD ON MOTHER.

In Sweden and in Denmark when both the father and mother are working they must split even on payments of bills. And if the father loses his job and the mother continues working she must support father until he gets another job. Each has a right to know what the other is making or has in the bank.

Of course the Opposition Party is in favor of the development of Hydro, but resent the expenditure of from nine to forty million dollars by a one-man government in the dying days of that government.

Gillette for every face Price for every pocket

Double-edged Economy 2 Razors in one that's a Gillette!

Not every man can forget prejudice or force of habit overnight. If all men did, not even the enormous Gillette resources could satisfy the Niagara of demand. And yet last year alone nearly 10 million NEW users turned to Gillette.

- discarding makeshift shaving instruments as inadequate, inefficient, uneconomical, antiquated!
- converted once for all to the added Gillette safety, Gillette simplicity, Gillette comfort and double-edged economy.

And because more millions are doing the same, because enormous demand makes the price negligible, YOU, too, can buy a genuine Gillette to-day for a DOLLAR.

Get a Gillette.

SPRINKLER BID FAILS TO CARRY AT COUNCIL MEET

Two Votes Short of Requisite as Bond Issue Is Involved

MAYOR SAYS THAT BID IS INCOMPLETE

Commissioner Bullock Figures Out Saving In City Fire Protection

The Common Council this morning decided not to accept any of the tenders submitted for a sprinkler system in the West Side sheds and to return to the bidders the checks accompanying the tenders.

COMMISSIONER REPORTS.

The matter was taken up in committee of the whole, Commissioner Bullock reported that he had received a report from the city engineer that all the tenders were reliable firms and that the bids were satisfactory.

MAYOR OBJECTS.

Mayor Potts said he would not vote for the bid as it was not a complete tender as the order of the council had been for water tanks.
