## PUBLIC SCHOOLS.

TO THE CHAIRMAN AND MEMBERS OF THE BOARD OF TRUSTEES OF THE PUBLIC SCHOOLS OF THE CITY OF TORONTO.

Gentlemen :
In compliance with your direction, I beg to submit the following.report on the condition of the Public Schools of this City, for the year 1859.

The by no means rapid recovery of the City from the effects of the panic of $1857-8$, one of which was the increased importance attached by many parents to the small returns produced by the labour of their children; and the removal hence of the seat of the Provincial Government, during the year now under review, involving, as it has, an evident temporary diminution of our population ; are facts which were not likely to have a favourable bearing on our Public Schools.

Yet, notwithstanding the somewhat adverse influences thus occasioned, these Schools may may be regarded as hāving/actually flourished, and as being, in some respects, positively improved, during the year which has recent-

## I. SUMMARY OF ATTENDANCE AND BIT COST OF PUPILS.

The following summary will show, at a glance, the general condition of the Schools, as respects the attendance of pupils and the cost per pupil.
.OTYOHOTHO KTtO

## NUMBER OF SCHOOLS.

The number of Schools was 8 ; namely, the George Street, Park, Victoria Street, Louisa Street, John Street, and Phobe Street Schools, eacin of which has its separate Male and Female Departments; and the Eastern and Western Schbols, which, until the end of Optober, were keptin rented buildings, and comprised, in one room, pupils of both sexes, but which were rebrganized on the 7 th of November, in new and commodious School-houses, erected by the Board of Nehool Trustees, and now have separate Maleland Demale Departments. tuom -igaib romograst trebive is anditi ase guivlov
 The number of days during which the schools have been kept open, was,

oilw Head Masters, ..... 6
roi Male Assistants, ..... 2
grod Head Mistresses, ..... 4
Senior Female Assistants, ..... fremple 7
रlis Junior Female Assistants, (Male 11 Departments) ..... 7
Junior Female Assistants, (Female ..... si
Departments) ..... 5
Monitor Teachers (Female) ..... 5${ }^{3}$ Since the 1 st of November there havealso been employed to take charge,respectively, of the Male Depart-ments of the |newly organizedEastern and Western Schools,-18 On the 31st of March, 2 Junior Female Assist-ants retired from the service, their places beingsupplied, respectively, by 1 Junior Female A"ssist-ant and one Monitor Teacher, whose services
having been rendered during the remaining 9 months, the above statement is scarcely affected by the change.

Since the 1st of October aiso, an additional Monitor Teacher has been employed to take charge of the Junior Division of the Female Department of the Victoria Street School; an Intermediate Division having been crganized in that Department, at that date, and placed in charge of the Junior Assistant Teacher, who previously had the care of the Junior Division. The Monitor Teaqher is included in the above statement.

1 Female Teacher has also been occasionally employed, on account of the sickness of a regular Teacher.

NUMBER OF PUPILS.
The number of pupils entered on the Registers of the several Schools, during the year, was

| Boys, | - | - | - | 2578 |
| :--- | :--- | :--- | :--- | :--- |
| Girls, | - | - | - | 2198 |
|  | Total, |  |  |  |
|  |  |  |  |  |
|  |  |  |  |  |

Of these there attended, as follows:-

## 9

The average registered monthly attendance was,

| Boys, | - | - | - | 1461 |
| :--- | :---: | :---: | :---: | :---: |
| Girls, | - | - | - | $\frac{1281}{2742}$ |

The average registered monthly attendance, in the respective Divisions of the Schools, namely, the First or Junior, the Second or Intermediate, and the Third or Senior, was,

The average deily absences of pupils were, Boys,

| - | - | - | 292 |
| :---: | :---: | :---: | :---: |
| Total, | - | - | 501 |

[^0]The average daily late attendances were,
$\left.\begin{array}{llll}\text { Boys, } & - & - & - \\ \text { Girls, } & - & - & - \\ & \text { Total; } & & - \\ & - & 133 \\ & & & \end{array}\right)$

The smallest number in attendance on any one day, in every School, was on the 10th of January, the day of the re-opening of the Schools after the Christmas holidays, and the coldest day, at Toronto, in the whole year, namely :

The largest attendance on any one day, in the several Schools, was as follows :

|  |  | boys. | giris. | rotal. |
| :---: | :---: | :---: | :---: | :---: |
| Eastern S | School, Nov. 16. | 66 | 72 | 138 |
| George | Street, May 16. | 209 | 185 | 394 |
| Park Sch | hool, July 5, | 197 | 155 | 352 |
| Victoria | Street, Nov. 29. | 224 | 172 | 396 |
| Louisa | do. March 30. | 243 | 269 | 512 |
| John | do. Nov. 22 \& 23. | 164 | 104 | 268 |
| Phœbe | do. June 20. | 193 | 202 | 395 |
| Western | do. Nov. 14. | 64 | 56 | 120 |
|  |  | 1360 | 1215 | 2575 |

Thus the largest attendance at the Eastern and Western Schools was abuut the middle of November, when each of those Schools had been recently reorganized, under the care of a

## 11

Master and Mistress; and the dates of the largest attendance at the six more numerously attended Schools, range from March 30th to November 29th, not appearing, in any case, in January, February, or December, the three severest months of the year.

## COST OF THE SCHOOLS.

Taking the entire cost of the Schools for the year as - - - - $\$ 25,213.52$ then the cost per pupil, calculated
As per number of pupils registered, was $\$ 5.28$
As per average registered Moninly attendance, was .- - - $\$ 9.20$
As per average Daily attendance, was $\$ 11.73$

## II. SUBJECTS OF INSTRUCTION.

Subjects of Instruction, and number of pupils engaged, at some time during the year, in the study of each :-
In Reading, namely :
In First National Reader, - 1309
In Second do and Sequel, - 1283
In Third Book - - - - 1103
In Fourth do - - $\quad$ - 620
In Fifth do - - - 454
Total, 4769
In Arithmetic, ..... 3576
In English Grammar, ..... 2253
In General Geography, ..... 4190
In Canadian do. ..... 1470
In History, ..... 1618
In Writing, (not including writing on Slates), ..... 2623
In Book-keeping, ..... 56
In Mensuration, ..... 65
In Algebra, ..... 73
In Geometry, ..... 89
In Natural Philosophy, ..... 81
In Vocal Music, ..... 2909
In Linear Drawing, ..... 702
Girls in Needle Work, ..... 1384

## III. SCHOOL BOOKS IN USE.

The Books used have been the National Readers, with the option of Sullivan's Literary Class Book, in addition; the National Arithmetic, 1st and 2nd; Lennie's English Grammar; Sullivan's Geography, and Hodgins' Geography of British North America; Edwards' Summary of English History, and History of British North America, according to Hedgins; the National Mensuration ; Colenso's Algebra; and various editions of Euclid's Elements.

## IV. EFFORTS TOW ARDS IMPIROVEMENT.

During the year, various efforts have been made by the Board and by its Standing Com-
mittees, with a view to the improvement of the Schools, both as regards the more numerous, regular, and punctual attendance of pupils, and the thoroughness of the instruction communicated to them.

## 1. Increased Accommodation.

A handsome brick School-house has been erected on the corner of Palace and Cherry Streets, in the Ward of St. Lawrence, for the increased accommodation of residents in that part of the City. It consists of two School-rooms, one for boys and the other for girls, each capable of receiving from 80 to 90 children. A master has been employed to take charge of the boys; and the former Mistress of the School, when it was kept in the Sunday School room of Trinity Church, retains the charge of the girls. The new building is of so substantial a character that, should it in course of time, become necessary, the roof can be raised and an upper story be added, so as to double the present accomodation.

A very excellent framed School-house has also been built on the corner of Cedar and Givins Streets, in the Western portion of the Ward of St. Patrick, which affords similar accomodation to the one above described. This will be of much advantage to the neighbourhood in which it stands, as the distance from it to any of the larger School-houses is very con-

## 14

siderable. The School for which it has been provided is organized on the same plan as the new Eastern School, a Master being placed in charge of the boys, and the former Mistress undertaking the care of the girls.

And in order to reliẹve the Louisa Street School-house from the inconvenient and unwholesome pressure to which the rooms, in which the Junior Divisions of the School assembled, were especially subjected, an admirable brick building has been put up, on the southwest corner of the School premises, comprising two capacious rooms, one on the ground floor and the other above it, in which the very numerous juvenile classes attending that School now find ample and comfortable accomodation.

The rooms which they formerly occupied in the main building have been thrown into the adjacent rooms hitherto occupied respectively by the Head Master and the Head Mistress; both of whom are now able to receive, from the Intermediate Divisions, such transfers of pupils as will greatly lighten the burdens previously laid on their Assistants, chiefly because the want of space prevented the possibility of increasing the Senior classes to their due proportions.

## 2. Adjustment of Duties of Local Superin TENDENT.

In view of the numerous engagements of the

Local Superintendent, which result partly from the action of the Board, at its semi-monthly or special meetings ; partly from occasional conferences with the Standing Committee on School Management or with the Trustees who represent the respective Wards of the City ; partly from such cases of discipline as may occur in any of the Schools, often involving communications, personal or written, with the parents or guardians of pupils; and partly from the miscellaneous calls and inquiries of citizens and strangers; in addition to the duty of rendering regular monthly and occasional special Reports to the Board: it has been provided by the Board that the Local Superintendent "devote the forenoon of each day to the visitation and examination of the Schools consecutively, leaving the afternoon for the discharge of the various other duties incident to his office," In accordance with this provision the Local Superintendent spends the forenoon of every School day in one or another of the Schools, and, ordinarily, in the corresponding Divisions of the Schools, whether first, second, or third, in rotation; and is thus enabled to form a tolerably correct opinion both of the absolute and comparative condition of each Division of every School. The results of these visits are recorded in a diary which is open for the inspection of the Standing Committee on School Management.

## 3. High Rewards.

On the subject of High Rewards, the principle of which was adopted by a former Board on the 10th March, 1858, on the recommendation of the Committee on School Management for that year; a report (No. 5) of the Committee on School Management for the year 1859 was adopted by the Board on March 23rd, in which it is submitted " that, with the view of testing the absolute amount of instruction communicated, as well as the relative standing of the scholars of the several schools, and, at the same time, with the hope of stimulating to renewed diligence the pupils, and encouraging regularity and punctuality of attendance, your Committee recommend that three pupils shall be selected by their Teachers from each Division (Male and Female) of each School; that these pupils shall meet at an appointed time and place to be examined orally and by written questions, by strangers appointed by the Board, in the following subjects, namely, Reading and Spelling, Writing, Geography, History, English Grammar, Arithmetic, Geometry, and Algebra, or such other branches of study as may be deemed advisable; and that prizes, with Certificates of Honour, be publicly awarded to such proportion of the most suecessful, as may be recommended by the Examiners, it being understood that no pupil shall be eligible for reward or honour

## 17

who does not combine punctuality and regularity of attendance, with good conduct."

It was also resolved, on recommendation of the same Committee, "That Certificates of Honour be awarded, at the half-yearly Examinations, to such pupils as shall be named by their respective Teachers, and approved by the Local Superintendent, as having excelled in regularity and punctuality of attendance, combined with the absence of the violation of the printed rules and regulations of the Schools."

## 4. Higher Education.

Having been adopted by the Board, at the same date as the above, the following copy of Report, No. 6, of the Committee on School Management, relating to the higher education of the more advanced pupils in the City Public Schools, is inserted here, as in its proper place:-
"Your Committee having had their attention again called by the comprehensive Report of the Local Superintendent, dated October 18, 1858, as well as by a Resolution proposed more recently by a member of the Board, to the propriety of estaolishing a High or Grammar School, by means of which the youths attending our Public Schools might be prepared for entering our Colleges and Universities, beg to recommend the adoption of the principle of said Re port and Resolution, with the view of ulterior action, convinced, as they are, that such an In-
stitution is required to complete our excellent system of Public Instruction. The Committee farther recommend that correspondence be held at once with the Board of the County Grammar School, and also with the City Council, on the subject, for the purpose of ascertaining how far that School could be made to answer our present purposes and on what terms and conditions. Should such an arrangement be accomplished, your committee could only contemplate it in the light of a temporary expedient, as they consider it advisable, at the earliest convenient time, to make provision for the elementary Classical instruction of the more advanced of the pupils of the City Schools, in the Schools themselves. They agree with the Local Superintendent in thinking that all that is needed for the accomplishment of the object suggested is that " instead of pursuing elementary Mathematics beyond a certain point, at each and all of our Schools, boys who have attained to a specified degree of proficiency in that direction, as well as in their ordinary English studies, shall, if desired by their parents or Guardians, be transferred to one particular School, to be entitled the Public High School of the City of Toronto, where, in connection with the farther prosecution of their English and Mathematical studies, they shall receive such Classical teaching as shall fit them for Matriculation at University College; for entering, as students, into any of

## 19

the learned professions, or superior branches of the Public Service; or for pursuing, as well instructed youth, any walk of life, to which it may please Divine Providence to call them."

## 5. Combined Examination.

In pursuance of the recommendation of the Report (No. 5) of the Committee on School Management, as adopted by the Board, the Revs. Wm. Gregg, A.M., and John Laing were appointed by the Board as special Examiners; all needful preparations were made by the Local Superintendent; and three pupils, selected by their respective Teachers from each Division of every School, met at the Victoria Street School-house on Monday the 18th of July, to undergoa "Combined Examination ;" for which purpose all pupils from corresponding First (or Junior) Second (or Intermediate) and Third, (or Senior) Divisions were classified together.

The following is a copy of the Report of the Examiners, addressed to the Chairman and Members of the Board of Trustees:-
> "Report of Examiners at the Combined Examinations of the Common Schools, Toronto. Held July 18, 1859.
> "The Examiners have endeavoured, to the best of their ability, to carry into effect the instructions of the Board of School Trustees as contained in their order, dated June 1st, 1859, and
they now respectfully submit the following as the result of these Combined Examinations.
"The Examiners met with the Representatives from all the Schools, in theVictoria Street Schoolhouse, on July 18th, and spent the whole day in testing the various classes, as also the following day in examining the written answers and arranging the pupils in the order of merit.
"The namber of pupils present at the examination was, First, or Junior Di-
vision, - - - - - 45
"Second, or Intermediate Division, - 38
" Third, or Senior " - - 35
"In all - - - 118
"The conduct of the pupils during the examination was satisfactory.
"The subjects on which examination was had, were Writing, Reading, Spelling and Definition; Arithmetic, Geography, History, Grammar, Algebra, and Geometry. In these branches
" The Examiners beg to report more particularly, that the Writing, on the whole, is fair. The Victoria Street School shows the best penmanship generally, and contains one of the three best writers, the other two belonging to the Jonn Street School. The best writers are Henry B. Spotton, Lydia Busselle, and Jane Dorothy.
"The Reading, in the Senior Division was, on the whole, good: the best reader was Jane

## 21

Dorothy, John Street School. In the other Divisions the reading was tolerably fair, with a few exceptions.
"The Spelling was not very satisfactory. In the Senior Division, the pupils of Victoria Street School did best; and in the Intermediate, those of the Louisa and Phobe Street Schools. In Definitions of Terms, with a few exceptions, the answers were faulty.
"In Arithmetic, the senior pupils of Louisa Street, Victoria Street, and John Street Schools, did fairly. Among the rest there were few worthy of commendation.
"In Grammar, the answering in general was decidedly good. In the Intermediate Department, Charlotte Day and Caroline McCaul, of the Trinity School, and William Reeves, of the: Phobe Street School, distinguished themselves. In the Senior Department, the pupils of Victoria Street did best; Daniel Ryrie, being particularlv worthy of notice.
"In Geography, the answers of the Senior pupils were, in general, very creditable. Daniel Ryrie and Henry B. Spotton, of Victoria Street? Clara Clark and Sarah Smith, of Louisa Street;: John McLellan, Robert Baker, and Jane Dorothy, of John Street; William Jardine and Ellen Reeves, of Phœbe Street ; excelled the rest. In the Intermediate Division, John Jackman, of Trinity Street; Eliza Connell and Jane Spinks
of George Street; James Brown, of Park Street; Harry Windsor and William Rennie, of Victoria Street; Malcolm Cameron, of Louisa Street; Robert Caiger, and William J, Irwin, of Phœbe Street ; and Geo. Dunbar, of he Western Auxiliary, excelled. And in the Junior Divisions, John Trelour, William Lee, and Charlotte Day, of Trinity Street; Charles Anglesea, of George Street ; and Margaret S. McCallum and Mary Jane Moffat, of the Park School, deserve particular notice.
" In History, the answers were generally good; the two best being those of Clara Clark and Margaret Greenlees, of Louisa Street.
$\therefore$ In Algebra and Geometry, only a portion of the Senior Division appeared for examination; and the Examiners recommend that a separate prize be given for excellence in these studies; thus all the competitors will stand on an equal footing. The two best papers were those of William J. Whitten, of the George Street, and John Langrill, of the Park School.
"The Examiners regret that Charles Anglesea of George Street School, having been absent in the afternoon, has thus lost that honourable mention to which his answers in the forenoon so far entitled him.
"The most successful pupils on an estimate of their answers on all subjects, were as follows:And the Examiners recommiend that Prizes and

Certificates of Honour, be awarded according to the subjoined List.

## JUNIOR DIVISION.

## PRIZES.

1. Frederick Manly, Victoria Street.
2. Mary Jane Moffatt, Park School.
3. Jane Block, George Street.
4. Herbert Cooper, Park School. $\}$ Equal.
5. Marg't S.McCallum,Park do.

CERTIFICATES.

1. Robert Gourlay, Louisa Street.
2. John Irving, Lovisa Street.
3. Charles Anglesea, George St. $\}$ Equal.
4. Charles Finch; John Street.

## INTERMEDIATE DIVISION.

 PRIZES.1. William J. Irwin, Phœbe Street.
2. Thomas Young, George Street. .
3. Robert Caiger, Phœbe Street.
4. Caroline McCaul, Trinity Street.

## OERTIFICATES.

1. William Rennie, Victoria Street.
2. Malcolm Cameron, Louisa St.
3. Henry Windsor, Victoria Street.
4. Elizabeth Colby, Louisa Street. Equal.
5. Eliza Connell, George Street.

## SENIOR DIVISION.

PRIZES.

1. Clara Clark, Louisa Street.
2. Margaret Greenlees, Louisa Street.
3. Daniel Ryrie, Victoria Street.
4. Henry B. Spotton, Victoria Street.
5. Jane Dorothy, John Street.

CERTIFICATES.

1. William J. Whitten, George Street.
2. William Jardine, Phæbe Street.
3. William Walker, John Street.
4. Robert Baker, John Street.
5. Olivia Dunn, George Street.
" Algebra and Geometry.-1. William J. Whitten, George St. 2. John Langrill, Park School.
" The Examiners, in concluding their Report, would take the liberty of endeavouring to impress the necessity of Teachers' thoroughly grounding the pupils in the elements of every study, as being the only way of securing ultimate proficiency, and as much more important than giving them an imperfect acquaintance with the higher branches of education.
"The considerate atteritions of the Superintentendent of the City Schools, who has spared no pains to arrange every thing for the convenience of the Examiners, as also the assistance of the Teachers in Victoria Street School, are grate-

## 25

fully acknowledged as having made agreeable, and, to some extent, lightened the labour connected with the duty which they have endeavoured to discharge.

## " WILLIAM GREGG, "JOHN LAING, <br> Examiners

Toronto, July 19th, 1859."
The recommendations contained in the Report of the Examiners, having been adopted by the Board, valuable Prize Books were accordingly procured from the Provincial Educational Department, and neat and appropriate Certificates of Honour, were lithographed at the Establishment of Messrs. Maclear \& Co., in readiness for public distribution. Admirably executed Certificates of Honour for regularity and punctuality of attendance, combined with uniformly good conduct, throughout the Session about soon to close, were also procured from the same firm.

## 6. Usual Summer Examination.

The Usual Summer Examination of the City Public Schools took place, in pursuance of the order of the Board, as follows, namely-that of the Western Auxiliary School on the forenoon, and that of the Trinity Street School, on the afternoon of Thursday, the 28th of July; and those of the other six Schools, simultaneously,

## 26

on both the forenoon and afternoon of Friday the 29th.

The attendance of the Public at several of the larger Schools, especially in the afternoon, was very good, and the notice of the Examinations taken by the respective representatives of the City Daily Press, was decidedly favourable.

At the close of the engagements in each School, the Local Trustees distributed the Certificates of Honour awarded by Order of the Board, to the Pupils who had excelled in regularity and punctuality of attendance, combined with uniformly good conduct, throughout the Session, beginning on the 10th of January and ending at the date of the Examination. The total number, thus distributed, was 183.

## 7. Public Meeting for Distribution of Prizes, \&c.

On the evening of Friday, the 29th of July, a Public Meeting was held, pursuant to notice, at the Victoria Street School House, at which the Prizes and Certificates of Honour recommended by the Examiners, and awarded by the Board, as the result of the "Combined Examination," which took place on the 18th of July, were distributed, at the request of the Chairman of the Board, J. G. Beard, Esq., by Thomas Henning, Esq., the Chairman of the Committee of School Management. The Report of the Examiners was also read and some remarks were offered
by the Local Superintendent; and Addresses were delivered by the Chairman of the Board, the Chairman of the Committee on School Management, the Rev. W. Gregg, A.M., (one of the Examiners,) the Rev. John Jennings, D.D., and Prof. Wilson of University College ; the proceedings being closed by the pronunciation of the Apostolic benediction, by the Rev. Dr. Jennings.

The large room of the School House was crowded to its utmost capacity ; and the Meeting, as the first of its kind held in this City, may be regarded as very successful.

In his Report (No. 11,) dated Angust 11th, the Local Superintendent, assuming that Certificates of Honour for regularity and punctuality of attendance, combined with uniformly good conduct, would be presented at the close of the next ensuing School Session-namely, at the time of the Winter Examinations, requested more specific directions as to the number of instances of absence from School, and the causes of such absence, which should, in future, disqualify a pupil for receiving one of these Certificates, in order to his being able to issue to the Teachers distinct and uniform instructions on the subject.

The following order was consequently passed by the Board, on the recommendation of the Committee on School Management,-namely,

## 28

8.That Certificates of Honour be granted to those pupils only, who have not been once absent or late, during the session, unless such absence or lateness, to the extent of five instances, shall have been occasioned by sickness, to be certified in writing by the pupils' parents or guardians; which certificates shall be endorsed by the Head Master, or Principal Female Teacher, and be subject to the approval of the Local Superintendent; provided that particular cases shall receive special consideratio. on the Report of the Local Superintendent."

## 8. Standard of Attainments.

On review of the Combined Examination, held on the 18th of July, it occurred to the Local Superintendent that it was obviously important, with reference to future similar Examinations, that a revised minimum Standard of attainment in each of the prescribed subjects of study should be decided on for the pupils in the respective Divisions of the City Public Schools. To this Standard they may be expected to reach, and fature Examination questions may definitely refer. The Local Superintendeat, accordingly, after lengthened conference with all the Head Masters on the subject, submitted the result, through the Committee on School Management, to the Board of School Trustees, by whom the Standard thus suggested was adopted on September 29th.
N. B. A copy of this Standard will be found in the Apr ondix.

## 9. Usual Winter Examination.

By order of the Board, the Winter Examination of the Public Schools took place on Thursday, the 22nd, and Friday, the 23rd of December, inst.,-namely, that of the Western School, during the forenoon, and that of the Eastern School, during the afternoon of Thursday; and those of the other Schools, simultaneously, on the forenoon and afternoon of Friday.

The interest of parents and guardians, and of the public generally, in these Examinations, if judged of by their attendance, was, by no means, deep. The Certificates of Honour, for regularity and punctuality of attendance, combined with uniformly good conduct, were awarded in strict accordance with the above quoted order of the Board, and were distributed by the respective Local Trustees, at the close of the Examinations.

Their number (exactly one hundred), was not so large as could have been desired; but no Certificate was given if a pupil had been once absent or even late, throughout the Session, unless it had been properly certified that such absence or lateness was occasioned by sickness ; except in three instances, in one of which a pupil was
absent, owing to the death of his father; in another, the pupil was in attendance at the funeral of his grandfather ; and, in the third, the pupil was summoned to the death-bed and the funeral of a sister, at a distance from the city. In all these cases, the facts were duly enquired into and satisfactorily certified.

The names of pupils who have received Certifi. cates of Honour of this description, whether at the Summer or at the Winter Examination; will be found in the Appendix. It is believed that the intention of these Certificates is now generally understood, and that the real honour they involve will be henceforth estimated at its proper value.

## V. SCHOOL LIBRARIES.

Throughout the year, the School Libraries have furnished a very important means of improvement and rational enjoyment to the pupils of the City Public Schools.

The number of Volumes in the School Libraries is-

| Male Departments | - | - |
| :--- | :--- | :--- |
| Female | - | 1,575 |
| Total | - | 1,151 |
|  |  | - |

## 31

The number taken out during the year, was-
Male Departments - - - 6,686
Female Departments - $\quad$ - 135
Total - - $\quad$ - 11,821
These numbers represent an amount of instruction and healthful intellectual and moral stimulus, too large to be easily calculated or conceived.

## VI. LECTURES.

The Annual Lecture required by law, was delivered by the Local Superintendent, in each of the six large School-houses, and in the Trinity Street School-room, in the course of the first three months of the year. The subject of the Lecture was-"The Objects, Principles, and Means of Practical Education." The attendance was, in every instance, good.

A very interesting and acceptable Lecture was also delivered, early in the year, in each of the six large School-houses, by Thomas Henning, Esq., Chairman of the Committee on School Management, on "Outlines of Astronomy," illustrated by the Magic Lantern.

## VII. VISITS OF TEACHERS TO PARENTS.

The subject of the duty of Teachers to visit the Parents of pupils who absent themselves from School, having occupied the attention of the Committee on School Management, and afterwards that
of the Board; it was resolved by the Board, (July 7th)-
"That it is inexpedient to make any change, at present, in the law regarding the visitation of absentee pupils by Teachers, but that the Local Superintendent be requested to see that this duty be performed, so far as practicable, without being burdensome to the Teachers."

## VIII. EVENING SCHOOL.

The Evening School, as organized on October 14th, 1858, under the charge of Mr. John Thompson, Head Master of the John Street School, assisted by Mr. James Anderson, Assistant Master of the Phobe Street School, was re-opened after the Christmas holidays, on the 10th of January, and closed on Friday, the 18th of March.

The number of pupils during the three months, namely, January, February, and March, was1st. Div. 2nd. div. total. Average Registered No. $33 \quad 50 \quad 83$ " Daily attendance $23 \quad 36 \quad 59$

The Studies pursued were, in the 1st, or Junior Division; Reading, Writing, Arithmetic, English Grammar, and Geography.

- In the 2nd, or Senior Division, Writing, Arithmetic, English Grammar, Mensuration, Algebra, Geometry, Book-keeping; and Geography, History and Natural Philosophy, as taught by Leeture to the whole Division.

The Evening School, as organized under the charge of Mr. Rollo, Head Master of the Louisa Street School, and Mr.Coyne, Head Master of the Phoebe Street School, was opened on the 17 th of October, and was closed for the Christmas holidays on Thursday, the 22nd of December.

> The number of pupils during the three months, namely, October, November, and December, was1st. piv. 2nd DIV. TOTAL. $\begin{array}{llll}\text { Average Registered No. } & 79 & 68 & 147\end{array}$ 1. " Daily Attendance 45 $27 \quad 72$

The Studies pursued were, in the 1st, or Junior Division; Reading, Writing, Arithmetic, English Grammar, and Geography.

In the 2nd, or Senior Division, Reading, Writing, Arithmetic, English Grammar, Geography, Mensuration, Algebra, Geometry, and Book-keeping.

On the 1st of December it was thought necessary by the Local Superintendent to call the attention of the Board, to the smallness and irregularity of the attendance at the Evening School. A hand-bill was consequently issued by him under the direction of the Committee on School Management, calling renewed public attention to the advantages offered by these Schools to those of the youth of the City, who are unable to avail themselves of the privileges afforded at the Day Schools, and intimating that unless the evening attendance obviously and early improved, the

Board might deem it their duty to close the School for the Season, at the beginning of the Christmas holidays.

Since the above date, however, the attendance having improved in some degree, and the pupils in the School having petitioned the Board that it may not be closed ; the Board have resolved-
"That inasmuch as some slight improvement has taken place in the attendance of the Scholars at the Evening School, and as they have petitioned the Board to continue the classes; it is agreed that the School be re-opened after the Christmas holidays, and kept open for the usual period, unless there occur such a falling off of numbers as would justify its being earlier closed."
The average Registered number of pu pils during the six months, was 115 Their average daily attendance was 65 The cost of the Evening Schools for 1859, was, Salaries of two Teachers, one at $\$ 140$, and one at $\$ 110, \$ 25000$ Gas, for two Quarters, - $\quad 5430$ Pens, ink, and miscellaneous expenses, 1000 Extra allowance to Care-taker of Schoolhouse - - - 3000 $\$ 34430$
N. B. The cost of rent and fuel is not included, as the School is kept in the Victoria Street School House, which is at the disposal of the Board, and
the account for fuel is not separated from the Day School account for the same article.

The cost per pupil of the Evening School
for the year calculated as per aver-
age registered number was - $\$ 300$
As per average daily attendance was 530
I will only add that, in this brief Report, it has been my object not to expand but to condense, and to furnish a useful record of facts rather than a mere statement of opinions.

Respectfully submitted, JAMES PORTER, Local Superintendent.

Office of Local Superintendent of Public Schools, Toronto, December 31st, 1859.

Submitted to the Board, referred to the Committee on School Management, and ordered to be printed for the information of the Rate-payersJanuary 5, 1860.
N. B.-Any Local Superintendent of City Public S:hools, or Secretary to a City Board of Education, who receives a copy of this Report, will greatly oblige by sending by mail a copy of his own Report for 1859, in exchange.

## TABLE H.

Comparative cost of Instruction in Public Schools of the undermentioned Cities, taken from the Report of the Superintendent of Public Schools of the City of Buffalo, 1858.

| Names of Cities. | $\begin{aligned} & \text { No. of pupils regis- } \\ & \text { tered. } \end{aligned}$ |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Buffalo | 14,750 | 6,296 | \$106,910 | \$7.24 | \$ 16.99 |
| St. Louis | 9,769 | 5,361 | 160,220 | 16.30 | 29.70 |
| Cincinnati | 17,779 | 10,546 | 183,616 | 10.38 | 15.89 |
| New York | 144,684 | 49,421 | 1,102,454 | 7.62 | 22.30 |
| Rochest | 9,700 | 4,155 |  | 5.62 | 12.41 |
| Albany | 7,869 | 3,181 | 61,675 | 7.94 | 19.39 |
| Chicago | 12,073 | 4,824 | 70,341 | 5.46 | 16.65 |
| New Hav | 3,000 | 2,200 | 45,840 | 15.16 | 30.67 |
| Syracuse | 5,258 | 2,496 | 32,908 | 6.26 | 13.18 |
| Detroit | 4,586 | 2,728 | 33,142 | 7.23 | 12.44 |
| Oswego . . . . . . . . | 5,816 | 2,798 | 31,995 | 8.43 | 14.42 |
| Toronto, 1858.... | 4,742 | 1,987 | 25,000 | \$5.27 | \$12.58 |
| Toronto, 1859.... | 4,776 | 2,150 | 25,213 | 5.28 | 11.73 |

N. B.-In estimating the attendance at the Toronto Public Schools, as compared with the attendance at the Public Schools of other, and especially American cities, it should be remembered that, in Toronto, the Provincial Model (Common) School is regularly attended by 800 pupils, namely, 150 males and 150 females; that the attendance at the Separate Schools (R. Catholic) is very considerable, (the number on the Register for 1858 was 1807); and that, besides the County Grammar School, the Upper Canada College, and the Provincial Model Grammar School, all situated in Toronto, and all in part supported at the expense of the Province, there are many private Schools of all descriptions and grades in the City.
