## RICH FURS

This store is preeminently head quarters for furs. Our new line is the largest and best we have ever shown and you will find some very novel and striking designs in Neck Pieces. All the popular furs, such as Alaska Sable, Mink, Grey Squirrel, Persian Lamb, Grey Lamb, Astrachan, Coon, Baltic Seal, etc., are generally represented.

### Ladies' Fur-Lined Coats

For a person who wants to pay a moderate price for a warm winter coat, there is nothing that will give the same amount of satisfaction and comfort as one of these fur-lined jackets. They possess an individuality of style not to be had in the ordinary fur coat, besides having the advantage of being lighter in weight. For best quality in Beaver Cloth Shell lined with Hampsden and collar and revers trimmed with Alaska Sable, cut three quarters long, Semi-fitting or loose backs, at \$40.00 and \$45.00.

## THE Long Overcoat

The Long Cut winter overcoat is not only stylish and elegant, but contains more real comfort than you find in any other outer garment. Our's are made up in the swellest styles of the season, and are designed for men who want something swaggar. The tailoring, character and finish of these coats are

### BEYOND CRITICISM

### POLITICAL NOTES

The Campaign Becoming Warmer

#### BOTH SIDES WORKING

News of the Contest in the Four Counties of the Bay Chaleur

As the days go by the political dog of war, are being issued from the leash and the fight becomes more interesting and vigorous.

In Bonaventure there seems to be no change in the affairs. Mr. Murray still holds to his determination to run, although some of the Reid faction believe that his nomination papers will not be filed. Be this as it may, one week from to-day will decide the matter. Meanwhile the campaign in the interests of Mr. Reid is being vigorously pushed and a big meeting will be held on the Carquest rink on Monday evening when addresses will be delivered by Hon Wm Pugsley, Chas Marcell and others. The Conservatives are also active, the candidate, Mr. Mott addressing meetings at Estacades last night and the Upsalquitch to-day. A meeting will also be held at Jacques River Saturday evening.

**BONAVENTURE COUNTY**  
Both sides are actively engaged in campaign work. Mr. Marcell is being assisted on the stump by Mr. M. J. Ahar of Quebec and Dr. Piuslet of Matapedia. A lively contest is looked for.

**IN GASPE**  
We understand that Dr. Grenier of Gaspé will oppose Hon. Mr. Levesque, GLOUCESTER

Mr. N. A. Landry received the nomination at the Conservative Convention held in Carquest on Monday 17. The choice was made without a dissenting voice. Mr. Landry and T. M. Burns, M. P. P. addressed the electors advocating Mr. Borden's policy. A large delegation went to Tracadie Tuesday morning accompanying Mr. Landry and returned to Bathurst Tuesday night.

Mr. P. J. Veniot addressed a meeting in the interests of the liberal cause, at the opera house, Tuesday evening. Mr. O. Turgeon is campaigning in the Eastern end of the County.

The following is the battle formation of the opposing parties in New Brunswick.

"I have used Ayer's Hair Vigor for a long time. It is indeed a wonderful hair tonic, restoring health to the hair and scalp, and, at the same time, giving a splendid dressing."

#### ARTESIAN WELLS.

Wm Currie & Co. Awarded Contract for Plate Glass Front.

Thos E. Kent, contractor for Artesian Wells, arrived here this week and has started drilling wells for the town of Dalhousie. The first well will be drilled at the top of Brunswick Street, where there is sufficient room on town property to build a pumpwell.

Mr Kent has succeeded in getting water for the town of Gibson at a depth of 204 feet.

Mr A. J. LeBlanc has awarded a contract to Messrs Wm Currie & Co. to place a complete plate glass front on his large building situated on the corner of William and Renfrew Streets. The building contains two stores. It is said that Schaffer Bros will occupy the corner store and Miss Bessie Stewart, milliner, the other. This improvement will add very much to the appearance of our principal street.

The Steamer Restigouche took a very large cargo of freight for the Gaspé Coast on Tuesday. A large quantity was still left in the freight shed.

Political talk is quiet here. Even the resignation of Hon. A. G. Blair from the Railway Commission has not stirred up our politicians.

On Monday evening the Dalhousie Liberal Committee held their first meeting in their rooms, at the Quebec Hotel. They checked the list and it is said that as a result the liberals will take a good majority in this parish.

Serious complaints are being made by several of our leading citizens who find that their names have been omitted from the voters list to be used at the present election. Among them are our heaviest ratepayers. It cannot be understood how such neglect took place. It is another lesson for those in office to make the very best appointments in future and for the ratepayers to see that the Councilors attend to their duties.

Considerable interest is manifested here in the Bonaventure election. On all sides we hear with surprise that there should even be a doubt about Mr. Marcell's election when one reads the list of improvements made in that fine County during the last four years. One of the great works done by Mr Marcell and which is very much appreciated by our people here is the wharf built recently at Maguasha, opposite Dalhousie. In view of the broad view that Mr Marcell has taken of things generally Mr LaBille has offered to address several public meetings in his favour. Mr LaBille lived in Bonaventure Co. during fourteen years and has a great many friends in every parish. He will speak in Nouvelle on Tuesday evening, 25th inst, Maguasha, Wed., 26th, and if possible at Carleton and New Richmond before election day.

Mr Henry Whipper and family left here on Tuesday for Halifax where they intend residing in future.

Miss McKenzie, daughter of Johnson McKenzie of Campbellton has been visiting the Misses Harquail.

Miss O'Keefe, of Campbellton, spent Sunday here, the guest of Miss Gertrude Harquail.

Miss Eva Gilker has had a very fine house built on her lot situated on the top of the hill, which is to be occupied by Herbert Hocquard and his bride.

### AT THE RANGE.

The Competition for the Reid Trophy

#### MATHESON MEDAL.

A Large Number of Prizes Donated by Citizens. List in Full.

The competition for the Reid Trophy commenced yesterday morning at 10 o'clock and is being finished this afternoon. Twenty competitors strive hard for the first prize. The second prize is the Matheson medal and all those using any but government owned rifles were debarred from competing for it, as members claimed that those using their own guns have an advantage over those shooting the range rifles.

The following is a list of prizes with the names of donors:—

Reid Trophy, Jas Reid, M. P. Medal, F. F. Matheson Camera, A McG McDonald. Smoker's Set, McKenzie & Flett Pipe, A Friend Soap Box, H. F. McLatchy, M. P. P. Opal Stick Pin, Jas Reid, M. P. Hamilton Rifle, Dr Cates Fountain Pen, Anselow Bros Ink Stand, A Friend Cuff Links, Fraser, Fraser & Co Pair of Framed Pictures, H. S. Alexander Compass, F. M. Wortman Shaving Mug and Brush, Max Moore's Razor, A Friend Wallet, C. F. Clare Ball of Lard, B. A. Mowat Watch Chain, Schaffer Bros Silk Handkerchief, S. Rosenhek Woolen Gloves, D J Bruce Piano Stool, S. Laughlan.

Shooting was not finished up to time of going to press and therefore we are unable to give the scores of the competitors this issue, but will do so in our next.

Mrs Johnson, formerly Mrs Chas Gauthier, died at the house of her son, George Gauthier, here on Saturday last at the age of 85. Her funeral took place on Monday last and was largely attended.

Mr Geo Mercier and Wm C. Arsenault have gone to Port Daniel on a hunting expedition.

Mrs Leon Samson was called away to Chicoutimi, P. Q., last week on account of the serious illness of one of her brothers.

Mr and Mrs Augustus McKenzie have just returned home after a few days trip to St John and Escomiac.

The many friends of Mr. C. B. Beuthner were glad to see him back to town this week. He left for a trip on the Gaspé Coast by Steamer Restigouche.

### BLAIR RESIGNS

Great Political Sensation Stirs all Canada

#### WILL STUMP COUNTRY

Will Re-Affirm his Strong Objection to Government's Railroad Bargain

Yesterday's morning papers contained the startling announcement of the resignation of Hon A. G. Blair as chairman of the railway commission. Scarcely had the news been much in evidence and shows the importance of the event at this particular moment when the political parties are engaged in a contest the chief issue of which is the new transcontinental railway question.

The following is the telegram.

Montreal Que Oct 18th I authorize the announcement that I have resigned my position as Chairman of the Railway Commission, and have notified the Premier that, beyond the re-affirming my strong objection to the Grand Trunk Pacific scheme I have no present intention of re-entering public life.

ANDREW G. BLAIR  
Montreal, Oct 18.—It is believed Hon Mr. Blair will open a law office in Montreal after the election but before closing his political career he will, in a few days, take the stump and proclaim from the public platform his strong objections to the Grand Trunk Pacific scheme. Indeed he intimates as much in his letter of resignation to Sir Wilfrid Laurier, in which he speaks of reaffirming his views, which have given opponents of the G. T. Pacific their most powerful arguments ever since Mr. Blair left the Liberal cabinet.

#### Hotel Changes Hands.

The Royal Hotel at Dalhousie which has been conducted for a number of years by H. Whipper, has been sold to Walter J. Baker of Gaspé. Mr Baker is a nephew of John Baker, proprietor of the famous Baker Hotel, Gaspé, and has had experience in the hotel business for many years. The hotel in future will be called Bakers Hotel.

The house has been remodelled and renovated throughout. Every attention will be given to the commercial trade. Good large and airy sample rooms have been put up. The hotel is centrally located. Hacks will attend all trains and steamers.

Mr Baker will ever endeavor to accommodate each and every one in the best way possible.

#### Professional.

Dr A Pierce Crockett, eye, ear, nose and throat specialist of St John, will be at the Waverly Hotel, Campbellton, Saturday, Oct 29th. There he may be consulted professionally. One day only.

## A GREAT GIFT.

Within a few weeks the people of Canada will be called upon to exercise their right of self-government by choosing representatives who shall manage their national affairs for a term of four or five years. Great Britain and the United States are busy in much the same way, a large portion of the free self-governing people of the world, nearly the whole Anglo-Saxon family, engaging in a function in which the family have been pioneers. The elections in Great Britain are of interest because they affect the Empire of which we form a part. To those in the United States we cannot be indifferent because of commercial relations and the attitude of the Republic's great parties towards our Empire. But our chief concern is with Canada. Every Canadian has a duty and a responsibility. There are two considerations which give special importance to the right of self-government. One of these is the price at which that right was purchased. We—like Paul with his Roman citizenship were "free born", but at a great price our forefathers obtained this freedom. Through long years they wrought and fought and died that they and their country and the children might be free of despotic sway. And the right of self-government purchased at such a price has been left for us. It is a sacred heritage to be well and wisely used. How we love and cherish, almost venerate relics of our ancestors and the more closely they were connected with some special work or sacrifice, and the grander the cause and the nobler the deed which they commemorate the more highly are they prized and the more carefully guarded. The sword of a father or a grandfather with which he fought for Queen and country and liberty is shown with pride and its story oft retold. The franchise—the right to vote, the freeman's right with other freemen to decide how myself and my country shall be governed—is a heritage second only to the liberty of conscience, liberty to believe and think and worship as we will—and such cannot be too carefully guarded and cherished. With us government has attained high ideal and free men choose from among themselves those who shall form them and in their name bear rule. Chosen by men, they are ministers of God. As truly as the Gospel is a trust given to men for the benefit of their fellow-men, is that committed to the voters of a free country. It is demanded of every voter that he use this trust. To ignore it by neglecting to use it is throwing contempt upon the memory of those who sacrificed so much to win that sacred right of liberty which we enjoy and it is moreover a faithlessness to a trust from God. The right use of this trust demands that it be exercised intelligently—that every voter inform himself as best he can on the questions at issue, on the character and conduct of those whom he may choose. It is often impossible to unravel the tangles of falsehood that are spun by tongue and type. But for the best knowledge he can get and the best judgment he can form every voter is responsible. Further, the choice may be always between two evils, so to speak. No men are perfect, no party beyond fault. And sometimes when men are trying as best they can to do the right thing, they may be unable to do what they like. Many a political sinner can honestly use Paul's words: "For what I would that do I not; but what I hate that do I." But

sed to say there are many that can not thus speak for they sin wilfully. Party is all; principle is nothing. But the fact that one cannot find purity or perfection is no excuse for not exercising the right of ballot according to conscience and judgment. And what shall be said of a man who makes his vote a thing of barter and traffic, sells his birthright as a free man for a mess of pottage, barter away his right of freedom and self-government which his fathers purchased for him at so great a price; trades the trust that God has given him and makes him self a tool, a slave for a few dimes or dollars or office or some other petty gain? Let it be understood that the man who barter his franchise, barter one, if not the greatest gifts ever bestowed upon him.

We wish it distinctly understood that we are not responsible for the views expressed in our columns by our correspondents, especially in political matters.

## A QUESTION OF THE DROP.

The announcement of the resignation of the Hon A. G. Blair from the Chairmanship of the Railway Commission was nothing short of startling. In the course of his remarks before the Commission, Mr Blair stated that he had accepted the position with many misgivings. Perhaps Mr Blair distrusted the sincerity of the Government in making the appointment and inclined to the belief that it was a means of purchasing his silence until after the elections and that he had not been slated permanently for the position. With the march of time, this feeling, if it existed, may have been intensified. Then naturally the wisest course for Mr Blair to take would be to hand in his resignation before the elections. Instead of allowing the government to get the drop on him, Mr Blair has chosen to get the drop on the government. "All is fair in love and war."

The campaign is getting so interesting in Manitoba that one farmer met another last week and forgot to ask the price of wheat.

## THE COMMODORE MUST WAIT.

For the life of him Commodore Peary can't see why people take so much interest in politics.

—Chicago Tribune.  
 It has always been a deep and unfathomable mystery to us too, Commodore. It is certainly an inopportune time now to make an other dash for the North Pole.

While a newspaper must chronicle much that reveals the meaner and darker side of human nature, scarcely a day passes without our columns recording some example of courage, fortitude and self sacrifice revealed among every day men and women, many of them in the humblest walks of life, to excite our emulation and make us proud of our common humanity.

## WHO SAID SO.

"It is understood the Canadian officials have refused the Massachusetts authorities the privilege of sending a leper to the lazaretto at Tracadie, N. B., owing to the crowded condition there."

—Boston Despatch.  
 Such nonsense! It has been clearly shown that the lazaretto at Tracadie contains fewer inmates this year than it has had for several years. The institution is not by any means crowded.

The man who thinks his vote is only one and will not count for much does not realize the value of a vote. Many candidates are elected or defeated on narrow margins.

## ATTACH THE BLAME.

The other day the Provincial newspapers published a despatch to the effect that the steamer R. R. Cell, hailing from Chatham was lost with all hands. Upon inquiry the statement proved to be erroneous. Some one was responsible for the false story and whoever it was deserves the hardest kind of punishment. Is it not possible to fix the blame where it belongs? The consequence of such a statement can scarcely be estimated.

If electors listened not to the stormy voice of passion, but to the still small voice of reason and conscience; if they cast their votes under a sense of responsibility to their generation and to coming generations the voice of the people would be no longer what it now often is, the voice of delusion, but the voice of God, and democracy would become a sort of theocracy.

## PERCE.

The weather has been very rough of late. A heavy frost the last two nights.

Cod fishing has been plenty the last few weeks but herring scarce. Crops are now all stored up and Perce can boast of a good average return and could compare favorably with the rest of the province.

Judge Carrol is expected here today and will open the regular term of the Circuit Court to-morrow. On the 17th inst he will be asked to appoint a valuator to value lands expropriated by the Council required in addition to what was given gratis by the C. R. C. Church, and Ltd., on the properties of Dr. J. A. Pidgeon, Mr. M. Buntin and the estate of Messrs. Vally & Co. Bros. as no arrangements could be made for the acquisition of those lands needed to continue the new line leading to the R. C. Church, after passing through the C. R. C. property no other course was left open to the Council but to expropriate.

Elections continue quiet. Hon R. Lemieux is in the field and will be here for Nomination Day, the 26th inst. He is also running for Nicolet. The opposition has not yet given out the name of their candidate although we hear several names mentioned. Nothing by all accounts is decided as to who he will be.

Sir W. Laurier gave another proof of his genial nature when he selected Mr. B. Lemieux for his Solicitor General. He knew he could tour Ontario, hold Gaspe and capture Nicolet in the present campaign.

Mr. D. W. LaBriere arrived home from the magdalen islands per steamer Constance to-day where he has been on official business as returning officer.

Mr. Chas. Lamb is appointed Hon R. Lemieux's Election Agent in the present campaign.

We hear rumors that work is now commencing on the railway between Gaspe and Paspébiac. Some say they are put forward at the present moment to deceive the electors in the interest of Mr. Lemieux. It is not very well known if the work is to start at once or not, but it is a plain and well understood fact that no rumors of this or any other kind is necessary for Mr. Lemieux's triumph in this election, there is an abundance of solid realities which he has accomplished and enough to elect him twice over. The Electors of Gaspe know too well what he has done for his county since 1896, they know also what he has done to secure Railroad communications, he has large and substantial subsidies to his great credit at Ottawa and Quebec which reach the handsome sum of about \$10,000 per mile, this is sufficient for the Electors of Gaspe and Perce beyond doubt that Mr. Lemieux has done his large part in this, as well as anything in connection with the interest of Gaspe County.

No person, however, will pretend that the company has done very much so far, but no person with any degree of sincerity, will pretend to hold Mr. Lemieux responsible for this; he has done his part nobly he will enact the same from them or he

will apply in a strict measure the conditions of their charter at the first opportunity.

## BALMORAL.

Rev Father Wheton preached a very fine sermon here on Sunday last which was appreciated by the congregation.

Among the October birthdays of railway men given by the Toronto Railway and Shipping World are the following:

D. Pottinger, General Manager Canadian Government Railways at Moncton, N. B., born at Pictou, N. S. Oct. 7, 1843.

J. E. Price, General Superintendent I. C. R. at Moncton, N. B., born at Petitodias, N. B., Oct. 18, 1854.

A petition is in circulation asking the Government to make the necessary alterations and harbor improvements at Campbellton to accommodate the Bay Chaleur boat service. This is a move in the right direction and one that cannot in justice be overlooked by the Government. The petition is being largely signed by our townsmen and people along the coast. All that now remains for a satisfactory service for the coast is proper terminal facilities at Campbellton and it is of opinion that this will not be long in the way.

A Lodge of the Independent Order of Oddfellows, Manchester Unity was formed here on Oct 17th. The Grand Master and staff from the Grand Lodge, Halifax being present to install the officers. There were twenty-five charter members present and the following officers were elected and installed:

### EXPLANATION

The notice inserted by me in last week's issue of Events emanated from a desire to be protected from the unscrupulous actions of some party or parties unknown to me and not from lack of confidence in any member of my own family.

I deem this explanation essential owing to the questionings of the curious.

## ON THE CASCAPEdia

A Record Day's Angling on Pools of E. W. Davis

A ST JOHN MAN'S LUCK

The Sportsman Tells the Story in a Way to Delight All Anglers

(St John Times)

Leaving St John at 6 p. m. on the Maritime express, I reached Matapedia at 2:20 a. m. and put up at the Ferguson hotel. The morning when I took the Camp River for Cascapeia—distances about 60 miles.

On my arrival there I found my friend Gilker waiting me, having been advised by mine host, E. W. Davis of my coming. The horses were all hitched up and ready to start. A hearty hand-shake and we were off for Red Camp. My first words to Gilker were:—(Well, how is the fishing?) The reply was not encouraging:—(The water is all right, but no fish.)

However we reached Red Camp and received a cordial greeting from that genial sportsman, John G. Hecksher of New York.

"Well, Joe," he said, "I've been down fishing Hamilton's Beach (a famous pool) and got two slinks. I don't think there is a bright salmon in the river—and the water's still falling."

This was not cheering news, but my men being ready I got my rod together and went down to try the Judge's Pool, another famous one in ordinary seasons. Beginning at the head of the pool I made one drop, when a mighty swirl came, and one of my men cried: "I think that was a bright one."

After testing him for five minutes, I again sent my fly over him. He came with a splash, and I had him, when he immediately started across the river, my men claiming again that he was a bright one. After half an hour's good fight I brought him to goal, where, much to my surprise and disappointment he proved to be a kelt. So after taking the hook out carefully I returned him to his native element. Thus ended the first day. As it was nearly dark I returned to Red Camp, to find Mr. Hecksher awaiting dinner and after a substantial repast we took ourselves to the verandah for our after dinner smoke, and to talk over the prospects of the morrow.

We were up early next morning and exchanged pools—results two kelt each for the day and the water still falling. I mentioned that all those rivers shoal off at the mouth and require a heavy freshet that extends well into the bay. Then the fish striking the fresh water, come into the river. Without it they will not enter, but linger outside when the nets reap the harvest.

We were in hard luck. After fishing day after day for a week it was the same old story in the same old way. Saturday came and standing on the verandah we heard the cheery voices of our host and hostess, E. W. Davis and Mrs. Davis of New York.

"Hello, Robert! Hello William! Any fish?"

the next Monday. The first day of the week is considered the best fishing day of the week, as the nets are taken up from Saturday night until Monday morning, and the fish have a free run into the river.

That Monday arrived in due time, and with it a rise of three inches of water. I was early afield, after a hearty breakfast, and strolling down to the beach met James Harrison, who by the way is one of the best salmon anglers in Canada.

"Time you were out, sir," River rose three inches. Saw a large fish jump. Get your rod and I will go out with you."

Not many minutes elapsed until we were out on the pool.

"Let your kilt go, Ozy," don't get too near the ripple."

So, casting foot by foot, until I cast all the line I could, we made another drop. Harrison saying: "This is the drop you are going to get him on."

"Casting until I had about 50 feet of line out, there came a tremendous swirl. I waited until I saw my leader start, then I cast and sent the hook home. When he felt it he ran up stream about 60 yards. Then a mighty leap—

"Jim! A 50-pounder," I cried. "Not far from it, sir, but we will weigh him after he is in the canoe. Handle him carefully—No 6 is very small for a fish like that. He may tear out. Pull him down stream, easy. Here he comes. Look out! He's gone over the rapids don't stop but get him in the eddy."

And this I did. After three quarters of an hour, hour I finally got him up where Ozy would gaff him, and a half dozen blows of the club ended the life of a beautiful female salmon weighing 44 pounds.

"Let us go and get another," said Harrison; and out we went on the pool. "One drop and another swirl."

I've got him, Jim! Up kill-ock, Ozy."

Up stream he ran, like a race horse, and then a mighty leap, I pulled him down stream, and into the eddy, and after a short and decisive struggle brought him to gaff—a beautiful 29 pounder. Then we returned to camp and weighed the two.

Going to mine host's room I found him a bit under the weather and still in bed.

and then to bed, to dream of mighty salmon for the morrow. On the morrow we mourned the departure of Mr. Hecksher, who after two weeks of pleasant comradeship was forced to leave without killing a fish, as many others had to do this year—Red Camp still leading.

The next day Mr. Davis went up to the club pools, and in a quiet little pool called the Tim Pool was rewarded with a 20 pounder. The writer going down to Peter Cool's Pool, did not get a rise. Mrs. Davis on the Woodman Pool was rewarded with a beautiful fish of 26 pounds.

The next day we accepted an invitation to fish the club waters, and in the afternoon started for a pole of four miles fishing all the club waters on our way up the Slide, the Ledge, Jack the Sailor, De Winton, Tim Pool, and don't forget their name Big Curley, a placid sheet of water nestled under the hill with not a ripple marred its surface.

Next morning I went down river to Peter Cool's Pool, and hooked a salmon, taking him down stream, but the line came back with a broken hook. In the afternoon mine host and I were back on the club pools. In the Ledge Pool I hooked a salmon and brought him to gaff, and Robert remarked:—(We'll show you a fish on Big Curley to-night.)

We poled slowly up and waited on the beach as before, and just as the sun went down Mr. Davis went fishing, till nearly dark, when I saw a rise.

"I've got him! Good-night, Joe. He's going down the rapids."

And such a sight! I shall never forget it. The rapids were running twenty miles an hour, and these men poling after that fish as fast as they were able. Too much cannot be said of their skill, poing and steering through those rapids after a wild fish. It is a sight never to be forgotten.

We followed them down and on arrival found that Mr. Davis had brought to gaff a noble fish of thirty pounds.

"Joe, what do you think of that?" "I will never forget it, though we've had many a run through those rapids."

And so ended the day. The next afternoon up to the club pools and Big Curley again, fishing all the pools without success until we reached the last named. Mr. Davis began fishing at the usual time, quite dark, and soon I heard the reel playing the hymn that is heavenly music to all anglers—when Miss Salmon is the performer. After a well-fought battle in the dark a noble fish of 37½ pounds was brought to gaff.

Then came the run home to Red Camp, singing "In the Good Old Summer Time," and that was our last trip to the Club pools.

And now a word about Mr. Davis. In the morning he asks:—(How about your flies? Let me see them. They won't do. And down comes the tin box in which are stored hundreds of dozens of flies of all sizes, from a No. 8 to an 80 of the Standard flies. He selects what you need for the day, and makes you feel that as often as you may have fished you don't half understand the game. Mr. Davis is very particular as to details in everything. If a hook has not the proper bend, he will bend it until right, and it proves a success every time.

Everything is done by Mrs. Davis and himself to make their guests comfortable and happy. When we were not fishing we had all kinds of games—golf, archery, base ball, quoits, rifle shooting, everything to make us happy.

Mr. Davis is one of the most unselfish of sportsmen, and one of the best wing shots and salmon anglers I have ever seen. He has written a book on Salmon angling on the Grand Cascapeia, which is beautifully gotten up and full of practical information, founded on facts and practical experience—no fairy tales, but interesting from start to finish. It is beautifully illustrated and the cuts of flies are so life-like that you would think you could pick them up from the printed page. I am proud to possess one of these books, and all to whom I have lent it join me in saying it is the best book on salmon angling they have ever read.

But I must say farewell to Red Camp after five of the most pleas-

ant weeks in my life. It was much to the loss of business, but I would advise all anglers, when business interferes with health, and a good salmon river—to give it up and take the river.

Packing my kit, I bade adieu to Red Camp and to my noble host and hostess, got into my canoe, and with a hearty farewell from ten good men and true I glided down the splendid Cascapeia, to which I also bade farewell until the return of another season. When all of us who are brother anglers are summoned, across the great divide, may we find us good rivers as the grand old Cascapeia.

**HEAD-ON COLLISION**  
One Killed and one Injured in Collision at McKinnon's Harbor, Cape Breton.  
Sydney, N. S., Oct. 15.—(Special).—Two special freight trains, one running west and the other east, collided head on this morning near McKinnon's Harbor, on the Cape Breton division of the Intercolonial.

John MacNeil, brakeman, was killed instantly, and Dan McDonald, driver was seriously injured. Both Specials were running under orders for clear road, and came together at a sharp curve with a fearful impact. The crews attempted to jump, but McNeil was caught between the engine and tender and killed, the others, with the exception of McDonald escaped unhurt.

The two engines are badly wrecked, and several cars from each train. Auxiliary trains have been sent out to clear the line, which it is expected will be done this afternoon.

The cause of the collision is believed to be due to a misunderstanding of the orders. Each conductor in charge was, at least, under the impression that he had a clear line, whereas one of them was really ordered to stand in the siding at McKinnon's Harbor.

The exact details of the accident have not yet been ascertained. The

## GLOUCESTER NEWS

Destructive Fire Near Bathurst on Monday

## BRIDGE COMPLETED

No Curtailment in Lumber Cut of Gloucester This Season

Mr. John Berthelotte of St. Anns, three miles from Bathurst lost his barn and contents by fire on Monday afternoon. His loss is considerable, as beside eighteen tons of hay, waggons, sleighs and sleds, some of his stock was also destroyed.

Mr. B. D. Branscomb has returned from a shooting trip to Miscon Island where he spent a pleasant outing bagging wild fowl.

Teams commenced to cross over the Village bridge yesterday. In a very short time it is expected that the contract will be completed. The work reflects great credit to the Minister of Public Works, our local members and to the contractor Mr. Smith. Last but not least much credit must be given to the inspector of the work Mr. Denis London whose sharp observation of details and constant attention to his duty made it impossible for any part of his work to be slighted.

Not as yet are signs evident that logging operations will be curtailed by our lumber firms here. During the past fortnight men are being rushed to the woods with same energy as formerly. However owing to low price of lumber a lower scale of wages are being paid woodsmen.

Along the line several cars are being loaded with potatoes, which are a very abundant crop through the country. The buyers are paying sixty cents per barrel.

Owing to the scarcity of fuel a great many farmers are inclined to reduce their stock. The price of horse flesh has fallen off 20 to 30 per cent. Beef cattle are also offering at a lower figure than last fall.

The flour market, locally remains the same with a feeling that it will go higher. Fresh pork is likely to be offering soon with prospects pointing to a lower figure than it has been bought for some years.

Miss Gertrude Baldwin left for Mount St. Vincent on Tuesday morning where she will take a course in Stenography.

The steamer Myanza made a trip over to Maria P. Q. this week.

Mr. Joseph White who has been an unfortunate cripple for seven years and who has a large family of little children to support has removed from his home a mile out in the country to a tenement house in the village. We mention this that those who may be charitably inclined might know where a little aid could profitably be dispensed.

Always the same—the best—Kendrick's Liniment will cure every bottle guaranteed.

## RUSSIANS LOSE

Report of Fighting in the Far East.

## KUROPATKIN DEFEATED

Many Guns Captured by Japanese in the Recent Fighting.

Tokio, Oct. 15.—7 p. m.—Field Marshal Oyama estimates the Russian casualties at 30,000. The fighting continues, but the Russians are retiring. General Kuropatkin evidently is crushingly defeated.

Tokio, Oct. 15.—Noon.—Heavy fighting continued yesterday. The reports from the field last night indicate that all three Japanese armies made distinct gains. General Oku captured ten guns, making his record for the battle thirty-five. The fighting in the vicinity of Fenshu continues. The report does not mention the situation affecting the isolated Russian columns.

London, Oct. 15.—A despatch to a news agency from Tokio dated today says that as a result of today's sanguinary fighting the central column of the Japanese left succeeded in partly occupying Shapoh. The Russian main body fell back on the mountainous districts east of the railway. The Russians around Bensiha have fled northwesterly. The Japanese last night, the despatch adds, engaged the three Russian reserve divisions under the personal command of General Kuropatkin. The fighting in this quarter was resumed this morning. That importance is attached at Tokio to the engagement at this point.

London, Oct. 15.—A Russian correspondent of the Times reports a rumor that the Russian treasurer has approached the Holy Synod with a view of drawing upon church property for the needs of war.

STILL FIGHTING.  
Tokio, Oct. 15.—Noon.—General Oku captured ten additional guns yesterday. Heavy fighting continues.

St. Petersburg, Oct. 15.—1.18 p. m.—Unofficial reports from the battlefield are more encouraging this morning. There has been no rout, but there is no question that the Russians have fallen back twenty miles. According to private advices dated Mukden at 6.30 last night, General Kuropatkin checked the Japanese advance yesterday at the Hsiaohe river. He crossed the river and is holding a line along the north bank extending from west of the railroad eastward to Bensiaputse.

London, Oct. 15.—The Japanese victory south of Mukden, according to the Standards Tien Tsin correspondent, has made a deeper impression in the Far East than any victory of the war.

St. Petersburg, Oct. 15.—Special despatches from Chefoo reports that the commander of the Russian garrison, Gilliam, at Port Arthur has been killed and that many soldiers have been wounded. Possibly this refers to the reported wrecking of a Russian warship by Japanese land batteries.

KUROPATKIN'S CLOSE CALL.  
St. Petersburg, Oct. 15.—According to special despatches, General Kuropatkin had a narrow escape during the fierce fighting of Wednesday night and Thursday for the possession of Temple Hill and the Double Horned Hill east of the railroad. With this staff he was personally directing the fight at this point. Order lies were constantly galloping up with reports from other parts of the field and carrying despatches to and from the telephone and telegraph stations which were working behind the hills. This evidently attracted the attention of the Japanese, who cleverly unmasked some batteries, the shells from which burst all around the distinguished general, compelling him to shift his position hastily and seek shelter.

It is understood that General Kuropatkin, before the battle commenced, again designed Lt. General Sukharoff and Lt. General Biderling to succeed him in the command in the event of his being disabled.

## MORE HEADS.

Large Number of Moose Heads Being Secured.

## GAME PLENTIFUL.

Many Parties Have Come Out After Successful Hunt.

The present season bids fair to become a record breaker both in the number and size of moose heads secured by hunters in this section of the country. Reports coming from hunters who have recently come from the haunts of the big game say that moose and caribou were never so plentiful as they are at present. The following is a partial list of those who have returned, after successful trips.

John Wende, Chas Becker, and Fred Schworm, all of Buffalo, N. Y., returned to their homes last week with two moose, both good heads. Chas and Edwin Pugsley of Buffalo secured two moose—good heads.

Ed Price, Wm Richards, John Miller, Robt Graham and Wm Sprout, returned recently from Stillwater, Restigouche, with two moose.

John Wall and Hugh O'Keefe of Campbellton, two moose. S. Laughlan and A. McG McDonald, two moose.

Dr. Cates and Thos Carter, of Campbellton, two moose. It is reported that one of the best heads that has ever gone into the city of Bangor came from Restigouche Co this season.

There are several parties still in the woods and many coming to try their luck in our big game country.

## CARD.

To the Electors of the County of Restigouche,

Gentlemen:—At the Liberal Convention for the County of Restigouche held at Dalhousie, on the Eleventh day of October instant, I was nominated as the Liberal standard-bearer for the County of Restigouche, and if elected I will as in the past do my utmost to further the interests of the County.

The remarkable prosperity of Canada under the Liberal Administration led by the Right Honourable Sir Wilfrid Laurier, has given this Dominion such an era of prosperity that even our conservative friends bear testimony to her remarkable growth. Not only is this true in the Dominion at large, but the County of Restigouche is sharing in this prosperity.

In the town of Campbellton the Shives wharf has been acquired, and a contract let for an extension eastward of the same which will provide two additional steamer berths. The ferry landing has been acquired and is now being put in first class condition. A contract has been awarded for the building of a post office that will not only be a great convenience, but a credit to the town of Campbellton. An appropriation was also made for the improvement of navigation on the Upsalquitch River. At Dalhousie a contract has been let for the building of a wharf 300 feet in length, a new lighthouse in course of construction which will be of great advantage to mariners. Nor has the lower end of the county been neglected, and an appropriation has been made for a suitable wharf in the Parish of Durham. I have given a good deal of attention to improved mail service and as a result great improvements have been made in this branch of our public service.

I take particular pride in pointing to the splendid railway service which has been provided for our county and the magnificent equipment of the whole I. C. Ry. Many other matters are deserving of attention and if I am elected I will lose no time in pressing upon the Government the needs of our rapidly growing and prosperous County.

I remain, your obedient servant,  
JAMES REID

citizen; witness the elections of South Oxford, West Elgin, West Huron, Brockville, North Renfrew and the "Soo". St. James, the Rothessy and many other instances where corruption and crime has not only been condoned but its perpetrators rewarded at the public expense.

I condemn the contract with the Grand Trunk Pacific Corporation and view it as a scheme which mortgages the bright future of the country for many years, involves a reckless waste of money, increases the public debt by about \$150,000,000 or more nearly \$200,000,000, and destroys the character of the Intercolonial as a national highway. I am a supporter of Government ownership and believe in the management by the people of the public franchises—it insures freedom from Combinations, high rates and strikes by vesting in the people themselves the power of regulation and gives to the Treasury in reduction of taxation the legitimate profits of the industry and development of the country.

Concurrent with my condemnation of the Government's course on its Railway policy on broad principles I especially exclaim against the inevitable result to the people of Restigouche and Northern New Brunswick by the construction of the proposed line. We now possess a national route which according to enlightened expert opinion is better capable of handling the trade of the West than the proposed Moncton-Winnipeg section and we stand to lose not only the prestige and advantage of our present connections and the immense traffic that must grow out of the development of the West but we hand over the emoluments and profits of a Railway built by the people to a private Corporation

whose aim and interest lie in shipment from a foreign port. Assuredly the issue is as Mr. Borden has placed it before you "Shall we have a Government owned Railway or a Railway owned 'Government'?" To Liberal and Conservative alike I make an especial appeal for a serious judgment upon this issue and in all candour humbly submit my own opinion that the Grand Trunk Pacific contract is not only framed against the best interests of Canada but especially threatens with the gravest danger our home interest in the expansion and growth of this section of the country. To quote the language of Hon. A. G. Blair who resigned from the Government in deference to his own convictions against the contract "Turn it which way you will I see nothing in it to commend."

Respecting Railway matters the Government when purchasing the Canada Eastern has stated that it is not its intention to treat similarly any of the other branch lines connecting with the Intercolonial and in this connection I think their supporters might well have directed their attention to the expropriation of other roads whose improvement under State ownership would make for development and better accommodation. I have especially in mind at the moment the only railway possessed by the Gaspé Peninsula—the Bay Chaleur Road. The trade relations of this section with the Bay Chaleur are already large and intimate and must naturally increase and our adjacency to the Counties of Bonaventure and Gaspé renders their development of especial interest to us. With a population of over 54,000 and their great wealth of forest and fishery say nothing of agriculture they require

only proper rail connections to expand I believe with Mr. Crockett, who is at present a Candidate in the County of Bonaventure in favor of its expropriation and who speaks with the knowledge of an expert Railway man that even under present adverse conditions the taking over of the A. & L. S. Ry would be a fair investment but apart from that, the Treasury would be well repaid by the immense benefits which would flow from its extension and improvement. I can see in it much more to justify its expropriation than in the purchase of the Canada Eastern which is in no sense an equal feeder of the Intercolonial and as far as lies in my power I will endeavor to strengthen Mr. Crockett's advocacy of its purchase and connection at Campbellton with the I. C. R. and the International Railway now under construction.

I wish to remind those interested in the Fisheries—the value of which in this County is easily conceived—that as yet there has been no adjustment between the Federal and Provincial authorities respecting its control and while the Governments of Canada and New Brunswick are jointly responsible for the present unsatisfactory conditions both alike have evinced little regard for the necessity to constitutionally adjust the authority under the Privy Council judgment of 1897. I think that long ere this fishermen should have been acquainted with the terms of their holdings and the positive announcement of the source of authority.

Respectfully soliciting your endorsement and support I beg to remain  
Yours faithfully

## CARD.

To the Electors of the County of Restigouche,

Gentlemen:—At the solicitation of a large number of electors and at the unanimous request of the Liberal Conservative Convention of the County I have accepted nomination as a candidate in the approaching election for a member to represent Restigouche in the Dominion Parliament. I am a Liberal Conservative and if elected will support the policy of that party in general and especially in regard to the tariff and in its opposition to the Grand Trunk Pacific Railway scheme. I have no sympathy with the present government and submit that its administration has been characterized by a complete disregard of its pledges to the people. Pledged to free trade they secured power in 1896 and since then have only evidenced their belief in Protection by substantially continuing the Conservative policy.

They "viewed with alarm" and condemned as unjustifiable the annual expenditure of the old Government of less than thirty seven millions and have increased more than four dollars per head of the population. Pledged to free the country from bribery and corruption the conduct of the Liberal party in their mad pursuit of power has in the past eight years alike in the federal and provincial arenas shocked the conscience of every liberty loving

citizen; witness the elections of South Oxford, West Elgin, West Huron, Brockville, North Renfrew and the "Soo". St. James, the Rothessy and many other instances where corruption and crime has not only been condoned but its perpetrators rewarded at the public expense.
