

Interesting to Parents.
AND TO PUBLIC SCHOOL TEACHERS AS WELL.
AN IMPORTANT DECISION.

Not long since Mr. Charles Hallett, a mill owner of Riverhead, L. I. directed his son Carl, a pupil of the Union Free School of that town, not to declaim when ordered to do so by his teacher. For this refusal young Hallett was expelled, and the board of education confirmed and approved the action of the principal in expelling him. Mr. Hallett then sued the board of education, and the case which was recently decided by Justice Pratt, of the New York Supreme Court and a jury, has excited considerable attention because of the important educational principle involved. Mr. Hallett, who expressly instructed his counsel not to press for damages, but simply to get a decision on the question of law, claimed that he had a right to say whether his son should, or should not, be instructed in certain studies provided they are not included in the statutory list.

In his charge to the jury Justice Pratt took the ground that the parent, knowing the temperament and capacity of the child, had the undoubted right to prescribe what he should and what he should not study, so long as he did not interfere with the statutory list. Hence, when the principal, with the approval of the Board of Education, expelled young Hallett, he exceeded his authority. Still, both the board and the principal acted in good faith, supposing that they were authorized to carry out what was thought to be a beneficial rule.

The charge continues: "I am constrained to hold the law to be that, where there is an irreconcilable difference of opinion between the teacher—or the Board of Trustees—and the parent, in regard to a study which is not included among those that the trustees are empowered to prescribe, the will of the parent must control. I think that the law has not taken away the natural rights of the child in that regard. When the teacher or the trustees undertake to say that a child shall pursue a particular study which is not included in the statutory list of studies, I think they exceed their authority. And when that is made the basis of an attempt to deprive the child of his rights to attend school and enjoy the benefits which arise from the laying of a common burden upon the community, I hold that they are liable—technically liable—for the act."

The jury awarded nominal damages to Mr. Hallett. This was considered a test case, and the rulings of Justice Pratt are sustained by decisions in other States.

A Highlander on American Beef.

The following is given by some of our Scottish contemporaries in a genuine letter written by a Highlander to a friend in Glasgow. As a burlesque it is very clever and amusing. "Arduasdarach, Skye, 1st March, 1877. Dear Sir,—I wex hear much spoke and much noise about Merica beef, but not a spoke o' Hielan' beef or coose, nor sheeps, nor does, nor drovers, nor mien, nor nothing from the Hielans that wex send a good peef to Clesco' afore Merica was born. But what wex you expect from foolish peeples that is pleased with any nonsense from Merica. I peelve you must be wearied in Clesco' of Merica. You wex have Merica schesse, and Merica ham, Merica preachers, and Merica reasels ferry much indeed; as now you wex have Merica peef as new as new house and foolishness. Got nose what is to come of me and the Hielans before peeples wex see nonsense. I have 10 stots for sold—ferry good peef for married men and womans indeed, but I want good price for them, not Merica nonsense. Rite and told me what you wex give; if you wex not give much more as Merica the stots wex go lack to the hills, an' not a wan will go to Clesco, and then, what will you make mens an' wex lable, poor things, do for a good peef, told me that, nothing but die, an' just for foolish nonsense. There is no peef as Hielan' peef. Last time I wex sold stots in Clesco I wex seed the next day 2 peeples walk on meir own fets from the Infirmary; wex my own eyes I wex see him. Could Merica peef do that? not at all it's nonsense. Me and my stots remain Your Friend, Dacan M'Tish, Rite with the 'Clansman' and Peter M'Dougall."

MANITOBA.

There is no doubt that Manitoba is rapidly rising in value and favor in the market, and its eligibility for immigration is becoming daily more apparent. More than 2,000 emigrants have already arrived this season, and it is expected that the number will be largely increased. The authorities out there are, therefore, very anxious to impress upon intending immigrants the fact that, whilst there is land to cultivate, and whilst there are ample facilities and inducements for its cultivation, the persons who are needed are those who are both able and willing to work. Such will get on; others will be disappointed. The Manitoba Free Press, speaking on the general subject, says that 500 men are wanted on Section 14 of the Canadian Pacific Railway, 500 on the Pembina branch, and the same number on Section 15. The wages of these laborers is two dollars a day, board being procurable at four dollars and a half a week. According to the same authority those who have a little capital and wish to procure farming land can have it in abundance. Thousands of acres are to be had within one day's drive of Winnipeg for from two to four dollars an acre, while at greater distances it may be had at the original Government price of a dollar an acre.

Already the potato bug has penetrated Maine. The Bangor *Whig* of Orono

correspondent says: "That much dreaded pest the ten lined Colorado potato beetle has made his appearance in this vicinity numbers of them having been found this week at the Basin Mill in Orono. It is reported that they have been found also in other portions of that town."

A contemporary says:—It is not generally known but should be, that a handful of flour thrown on burning oil will quench the flames instantly. The next time you have a lamp explosion try the experiment and see how like a charm it will work. It is well worth remembering.

The St. Andrews Standard.

Saint Andrews, June 20, 1877.

THE WAR NEWS is becoming sensational, owing to the reputed complications between France and Germany, and alarmists dread a general European war. The French are brave as well as excited people, and they do not forget that Germany annexed a portion of their territory, and made enormous demands for losses by the late war. The Russian advance in Asia Minor is reported; the total force is said to be nearly 140,000. Kars and Batoum are closely invested, and they appear resolved to hold these portions of the country at present in their power. Everything is also ready for crossing the Danube, when this is accomplished the war will not last long.

Russia has assured England, that the route to India via the Suez Canal will not be interrupted—treaties will be observed. The question of the Bosphorus and Dardanelles is to be settled by a European Congress, when the war is ended.

GRANT appears to be treated with marked attention by the leading men of Great Britain, and is receiving invitations to visit other European nations—probably Germany. These attentions will be gratifying to the Republic.

SUMMER VISITORS. It is generally believed, that persons from Ontario and other parts of Canada will visit the Maritime Provinces, during the present season—among them are reported some of the leading political magnates. St. Andrews with its salubrious climate, splendid drives, beautiful sea bathing, beautiful bay for yachting, excellent fishing, and other pleasures, offers advantages for its visitors, or pleasure-seekers, not surpassed in the Province. True there are no immense hotels, such as large cities can boast of, nevertheless there are good hotels of moderate size, well conducted, and supplied with everything that a reasonable visitor could expect, and at moderate prices; among them we may mention Morrison's hotel, the "Mégantic," the "Parmaquid," and near the Railway Station, Kennedy's hotel, which has been recently enlarged. In addition to these, are several private boarding houses, which have heretofore been patronized. Communication with all parts of the continent is kept up daily by steam, rail and stage. And we may add that the hospitality of St. Andrews people is proverbial. With these advantages, it is hoped that during the next few weeks, many will improve the opportunity of leaving the dusty, close, and over-heated cities, and enjoy all the comforts we have briefly alluded to.

THE ALMS HOUSE. The Warden and Councilor Stevenson in the discharge of their duty, met the Commissioners at the Alms House which they thoroughly inspected, and also looked over the farm. We learn that they made some suggestions, which are being put into operation; and expressed themselves satisfied with Mr. and Mrs. Finley's management. The inmates spoke of the kindness and attention of the master and matron.

THE FISHERIES DISPUTE. From recent published views in the leading United States journals, it is not probable that the Commission now in session in Halifax for the adjustment of the dispute with reference to the Fisheries will arrive at any satisfactory conclusion, as "our cousins over the border" are of the opinion that the whole "boundless continent" is theirs. The value of this industry they fully understand, and will perhaps make some concessions to hold it. Their arguments go away back to the treaty of 1783, and they maintain that by that treaty entitled them to the right to fish where they please in American waters. As diplomats they are smart fellows, and require a mind like a Bismarck to meet them. No matter how able the Canadian case has been gotten up, nor the force by which it may be maintained, Canada will surely come out at the little end of the horn. It seems to be the determination to gobble the Dominion up as soon as they are able. The Alabama award seems to have given them courage to milk the British cow again.

THE CATERPILLARS are becoming abundant in this Province, if the accounts are correct, of their interfering with the moving of trains on the Western Extension and Fredericton Branch Railways. The insects have also stripped the trees along the line of their foliage. It is said that the heat of the metals on the railways have an attraction for them, and they congregate in masses, requiring removal by the train hands.

It is pleasing to learn from our Woolstock and St. Stephen contemporaries that the enterprise of the people in those sections who suffered so largely by the late fire, is busily engaged in erecting new and substantial buildings, and it is hoped that before winter sets in, nearly the whole of the burnt districts will be built up.

The following persons were elected Trustees of Greenock Church, in this town:—A. T. Paul, R. Stevenson, A. McFarlan, W. A. Rollins, T. Arm. strong, James McKinney, Wm. McLeod, E. Polley, J. Dolly, C. M. Lamb, W. Morrison, W. Snodgrass.

The Lieut. Governor and family are expected here this week, to spend a few months at his residence. It is not improbable that some members of the former Ministry, who were his colleagues in the Dominion Government, will visit St. Andrews during the season.

A slight shower of rain yesterday afternoon was of service to the growing crops. We regret however to state that the potato crop has been attacked by dry rot, and that several farmers will have but a poor return.

THE UNIVERSITY EXAMINATION was held on Monday last, and the several classes acquitted themselves well during the protracted examination. The Eucenia will be held tomorrow, Thursday. Professor Bailey is to deliver the Oration.

We have received a Blue Book entitled "Report of the Commissioner of Fisheries, for the year ending 31st Dec. 1876," being supplement No. 4, to the Ninth Annual Report of the Minister of Marine and Fisheries. It is a voluminous work of 387 pages, and contains a vast amount of interesting information upon the Fisheries of the Dominion, and gives in a tabulated form, returns of Fishing Stations, yield, kinds of fish, etc. We will on another occasion give some extracts of the report of W. H. Venning, Esq., Inspector for New Brunswick.

BAZAAR. From a notice in this day's issue it will be seen that the young ladies of this town purpose holding a bazaar, on Thursday, the 28th inst.; the proceeds are to be devoted towards paying for planting a cedar hedge round a part of the Rural Cemetery. We understand that arrangements are in progress for excursions per steamers, from St. George and St. Stephen.

We are happy to learn that the crops are coming forward rapidly, the grass is very forward and promises a good yield. A few showers would be welcomed before the hot weather sets in. Many farmers have sown a larger quantity of wheat than previously. Fruit will be abundant.

The Reform movement in the State of Maine is carried on enthusiastically. At a State Convention last week in Dexter, nearly sixty clubs were represented. Open Air Temperance meetings are held in Calais, and stirring addresses delivered. No temperance organization in the United States or the Dominion, ever was so popular as the Reform Clubs.

BALLOON'S MONTHLY MAGAZINE FOR JULY. In these days of hot weather, it is refreshing to turn to such a light, breezy, wholesome Magazine as Balloo's, and read it all through from beginning to end. Tales, adventures, and all that goes to make reading lively. "Historical Pictures," (Humorous Illustrations.) Published by Thomas and Talbot, 25 Hawley Street, Boston, at \$1.50 per year, postpaid.

"America, protected by her 60 per cent duty on manufactured silk, is almost entirely supplying her own market with home-made goods, and before long England will find herself compelled to impose a duty on American silk to prevent her own manufacturers from being beaten in their own markets." Thus an Englishman writes to the American Silk Association, to the great content of that body. If this is really true, the New York *World* pertinently asks, why should 60 per cent duty be necessary to protect American silk? If American silks can beat English silks in the English markets, why are American consumers compelled to pay \$100 for \$100 worth of silk?

The temperance reformers of Scotland are active and energetic, always on the alert for opportunity to promote their cause, and always vigorous in asserting their claims. The other day they sent a strong deputation to the moderators and other members of the General Assemblies of the Church of Scotland and the Free Church. All the well-known arguments were urged, and not without effect. Each Assembly is committed to the discussion of the subject, and each will thus lend its moral influence in promoting the reformation.

A re-adjustment has been made in the Canadian Ministry without essentially altering its character. It has long been known that Mr. Blake hardly felt himself equal, physically, to the onerous duties of his position as Minister of Justice. His health has been very imperfect. Yet it was important to retain his services in the Cabinet. His retirement, indeed, just now would have proved very detrimental. An arrangement has, therefore, been made by which he is transferred to the lighter position of President of the Council. Mr. Laflamme succeeds him as Minister of Justice, and Mr. Cameron becomes Minister of Inland Revenue. There is thus no change in the personnel of the Government, much less do the changes arise from internal dissensions.

Each Assembly is committed to the discussion of the subject, and each will thus lend its moral influence in promoting the reformation.

A re-adjustment has been made in the Canadian Ministry without essentially altering its character. It has long been known that Mr. Blake hardly felt himself equal, physically, to the onerous duties of his position as Minister of Justice. His health has been very imperfect. Yet it was important to retain his services in the Cabinet. His retirement, indeed, just now would have proved very detrimental. An arrangement has, therefore, been made by which he is transferred to the lighter position of President of the Council. Mr. Laflamme succeeds him as Minister of Justice, and Mr. Cameron becomes Minister of Inland Revenue. There is thus no change in the personnel of the Government, much less do the changes arise from internal dissensions.

They have been made for the accommodation of Mr. Blake, and through them the country retains the advantage of his talents and experience.

Mr. Redfield writes as follows to the Cincinnati Commercial:—

In Columbia, South Carolina, I talked with a colored laborer, an old man, who told me that he "worked about" on extra jobs, doing whatever his hand could find. Yet the best wages he got was from fifty to seventy-five cents a day. "I ask seventy-five," said he, "but when I can't get that I take fifty." Out of this scanty sum he had to board himself and support his family. "It's mighty hard," said he, "worse nor what it was in old slave times."

"I could sorter get along on fifty or seventy-five cents a day, but now work has got scarcer and meal has gone up and up," he continued in a doleful tone. I asked him what point meal had reached in Columbia. "Thirty cents a peck," said he, "and still a risin'."

"What was it a month ago?" I asked. "Only twenty cents," he replied, "and work hain't gone up to correspond."

Yes indeed and this is where the shoe pinches the laborer. The bread for his table has advanced, and the price of his labor remains the same or has fallen. This is one of the effects of the "revival of business" on account of the European war. Where it helps one man it hurts ten, and the ten it hurts very badly, for it fairly may be said to take the bread from the mouths of their children.

I asked him if he knew why meal had advanced. "Oh, yes," said he: "the man I get it of says there is a war between Europe and Russia, and the soldiers eats the meal. That's what's the matter. But I can't hear that they fight much. 'Tears like they hurt the poor darkey in the stomach more than they hurts one another."

"While we are talking, let me tell you what some of the boys say. They say that there ain't any war in Russia, and that the speculators have started the story so as to put up meal to thirty cents a peck and make a pile of money. There's no telling what people will do these days."

I asked if flour was up. "Yes," he replied, "they say it's seven cents a pound by the small, but I never buys any, times is so hard. This 'darkey lives on hoe-cake, and it 'pears like hoe-cake is goin' out of reach, and then I rock on we'll die."

MONTECAL, June 15.

The news from Oka this morning is of the most exciting nature. The Provincial police numbering ten men, having arrested five Indians and taken them to St. Scholastique jail, yesterday, the Indians grew desperate hearing that there were warrants for the whole of the males, fifty in number, and consequently they armed hastily with old shot guns, rifles and revolvers, many being supplied by the Hudson Orange Lodge, and the police ventured to cross the river, as the Indians swear they will kill them if they do. At four o'clock the Catholic church at Oka was fired and destroyed. Fathers Thibault and Lecompt, who were in charge endeavored to save it, but all their efforts were in vain. Things are coming to a crisis. The Orangemen are now meeting to devise means for helping the Indians.

The Provincial Government, in view of the action of the Indians, ordered the squad of policemen at St. Scholastique to return to town, and will not attempt the arrest of any more Indians, who are masters of the situation.

The new method of telegraphing fac-similes of stereotyped plates so that an entire page of a newspaper can be transmitted by telegraph in from fifteen to thirty minutes, delivering the copy in such form that it can be handed immediately to the printers, in journalism. It suggests a way by which daily editions of Boston papers can be circulated in San Francisco upon the same day they are published.

ODDS AND ENDS.

Speaking of the results of the Shore Line Railroad meeting at Cherryfield, the *Marquis Republica* says:—"We never have seen a more tangible outlook for something to be done in the future, than has been presented by this meeting. We learn that the meeting was favorably impressed by the appearance of Col. Greene of St. George."

Count Alexander Huhn, a Russian, killed a man in a fight, fled to the United States, fell into abject poverty, and worked as a waiter in a saloon in Eureka, Nevada. Later he received information of his pardon, and restoration to his former position of Colonel in the army. He has started for home.

Arrangements are already well progressed for the Fourth of July celebration in Calais. The chief amusement will be a great handicap foot race for liberal prizes, at the Driving Park, in which upwards of thirty contestants will participate, embracing the best runners of Calais, St. Stephen, Woolstock, St. Andrews, Eastport and the places.

If the people of Calais want a bridge across the St. Croix, they must vote to aid the Western Extension before September 1st. No Railroad, no bridge.—*Calais Times*.

A sister of Gen. Meade was among the clerks dismissed from the pension office. She was once dismissed while Grant was President, but upon the application to him to be reinstated, he endorsed her papers, saying "I think Gen. Meade has rendered his country enough distinguished service to entitle his sister to some consideration."

There were 140,000 boxes Magdalen herring cured in the towns of Lunenburg, Eastport and Cutler, in 1876. This year there will be none in Eastport or Cutler, and only 900 in Lunenburg.

Schur, Mary Jane of Tarrytown, N. S., from Windsor for Red Beach, with plaster, struck on Black Rock, last Thursday morning, during a thick fog, and carried away her rubber.

Late advices from the Magdalen Islands say: "The Mackerel fishing is pretty good fishery, doing better than last year. Cod-fish continues scarce."

It is said of a very respectable old hispanic parish in Connecticut, that they started their minister and are now about to erect a splendid monument to his memory. He asked for bread and they gave him a stone.

The Canada exhibit at New South Wales carried off a number of premiums, and appears to have attracted much notice.

The corner stone of the new Episcopal Church at Fairview was laid by Mrs. Tilley on Thursday afternoon.

The Presbyterian Church is holding its general Assembly at Halifax. Dr. McLeod was chosen Moderator. Dr. Robb of Toronto, objected to the use of an organ in the services but was laughed at for his pains.

Russia is about raising a loan of \$160,000,000.

There is much distress in the cotton trade in England. President Hayes favors the resumption of silver as a legal tender.

The British War Office is preparing the equipment of twenty regiments, so as to be ready on a moment's notice for war.

MARRIED.

On the 19th inst. by Rev. T. W. Crawley A. M. Mr. J. W. Buchanan, of Westfield, to Esther, daughter of M. James Clark, of St. Andrews.

GOVERNMENT HOUSE, OTTAWA.

Saturday, 26th day of May, 1877

PRESENT:

His Excellency the Governor General in Council.

ON the recommendation of the Honorable the Minister of Marine and Fisheries, and under the provisions of the Act passed in the Session of the Parliament of Canada, held in the 31st year of Her Majesty's reign, chapter 60, and known as "The Fisheries Act,"

His Excellency, by and with the advice of the Queen's Privy Council of Canada, has been pleased to order, and it is hereby ordered, that the Fishery Regulation adopted by the Governor General in Council on the 19th May, 1876, relating to the Lobster Fishery, be rescinded and that the following be substituted therefor:

"In the province of Nova Scotia, Prince Edward Island and that part of the province of New Brunswick comprising the Counties of Charlotte, St. John and Albert, no person shall fish for, catch, kill, buy, sell or possess any Lobsters from the 1st to the 31st day of August in each year.

"And in that part of the Province of New Brunswick comprising the Counties of Westmorland, Kent, Northumberland, Gloucester and Restigouche, together with the Province of Quebec, no person shall fish for, catch, kill, buy, sell, or possess any Lobsters from the 20th day of August to the 15th day of September in each year.

W. A. HIMS WORTH

Clerk, Privy Council.

New Brunswick, ss.

To the Sheriff of the County of Charlotte, or any Constable in the said County, Greeting:

WHEREAS Jane Frankland, Administratrix of the Estate and Effects of Simon J. Frankland, late of the Parish of Grand Manan, in the said County of Charlotte, deceased, hath by her petition bearing date the second day of June, instant, represented that the personal estate of the deceased which has come to her hands is insufficient for the payment of the debts due and owing by the said Estate, and hath prayed that Licence may be granted to her to sell a part of the Real Estate of the said deceased, sufficient for the payment of the debts due by the said Estate.

You are therefore requested to cite the heirs at law of the said Simon J. Frankland, and all of them interested, to appear before me at a Court of Probates, to be held at my office in Saint Andrews, on SATURDAY the 30th day of JUNE instant, at eleven o'clock in the forenoon, for the consideration of the said petition, and the granting (if deemed necessary) of such Licence.

Given under my hand and the Seal of the said Probate Court, the 2nd day of June, A. D. 1877.
GEO. D. STRAIT,
Judge of Probates for Charlotte County.
S. H. WHITLOCK, Registrar of Probates for Charlotte County.

WELLAND CANAL ENLARGEMENT.

Notice to Contractors.

SEALED TENDERS, addressed to the undersigned, and endorsed "Tender for the Welland Canal," will be received at this office until the arrival of the Eastern and Western mails on THURSDAY, the fifth day of July next, for the formation of a new line of canal from Marlatt's Pond, at Thorold, to Allenburg, including the construction of a lock, lock, guard lock, several culverts, and piers and abutments for saving bridges, &c.

Also, the enlargement of about two miles of the canal, from the Junction downward, together with the construction of an Aqueduct over the Chippawa River, a lock between the canal and the river at Welland, piers and abutments for bridges, &c. And the enlargement of the canal from Ram's Bend to Port Colborne, including the construction of a guard lock, weir, and supply race, &c.

The works will be let in sections of a length suited to contractors and the locality. Maps of the different localities, together with plans and specifications of the work can be seen at this office on and after Monday, the 25th day of JUNE next, where printed forms of tender can be obtained. A like class of information relative to the works north of Allenburg, can be seen at the resident Engineer's office, THOROLD; and for works south of Port Robinson, plans, &c., may be seen at the resident Engineer's office, Welland.

Contractors are requested to bear in mind that Tenders will not be considered unless made strictly in accordance with the printed forms, and—in the case of firms—except there are attached the actual signatures, the nature of the occupation and place of residence of each member of the same; and further, an accepted bank cheque or other available security for the sum of one to five thousand dollars, according to the extent of work on the section, must accompany each Tender, which sum shall be forfeited if the party tendering declines entering into contract for the works at the rates stated in the offer submitted.

The amount required in each case will be stated on the terms of tender.

The cheque or money thus sent in will be returned to the respective contractors whose tenders are not accepted.

For the due fulfillment of the contract, satisfactory security will be required, by the deposit of money the amount of five per cent. on the bulk-sum of the Contract, of which the sum sent in with the Tender will be considered a part.

Ninety per cent. only of the progress estimates will be paid until the completion of the work.

To each Tender must be attached the actual signatures of two responsible and solvent persons residents of the Dominion, willing to become sureties for the carrying out of these conditions, as well as the due performance of the works embraced in the contract.

This Department does not, however, bind itself to accept the lowest or any Tender.

By Order,

F. BRAUN,

Secretary,

Department of Public Works,

Ottawa, 15th May, 1877.

ADDRESS,

A. W. Smith,

ST. ANDREWS STANDARD OFFICE,

Saint Andrews,

WHAT PAYS?

IT PAYS every Manufacturer, Merchant, Mechanic, Inventor, Farmer, or Professional man, to keep informed on all the improvements and discoveries of the age.

The Scientific American

which has been published weekly for the last thirty one years, does this, to an extent beyond that of any other publication; in fact it is the only weekly paper published in the United States devoted to MANUFACTURES, MECHANICS, INVENTIONS, AND NEW DISCOVERIES in the Arts and Sciences.

Every number is profusely illustrated and its contents embrace the latest and most important information relating to the Industrial, Mechanical, and Scientific Progress of the world. Descriptions, with beautiful Engravings of New Inventions, New Implements, New Processes and Improved Industries of all kinds; Useful Notes, Receipts, Suggestions and Advice by Practical Writers Workmen and Employers, in all the various arts forming a complete, paper treasury of New Inventions and Discoveries; containing a weekly record, not only of the progress of the Industrial Arts in our own country, but also of all New Discoveries and Inventions in every branch of Engineering, Mechanics, and Science abroad.

THE SCIENTIFIC AMERICAN has been the foremost of all industrial publications for the past thirty one years. It is the oldest, largest, cheapest and the best weekly illustrated paper devoted to Engineering, Mechanics, Chemistry, New Inventions, Science and Industrial Progress, published in the United States. The practical Recipes are well worth ten times the subscription price, and for the shop and house will save many times the cost of subscription.

Patents. In connection with the AMERICAN, Messrs. Munroe & Co. are Solicitors of American and Foreign Patents, and have the largest establishment in the world. More than fifty thousand applications have been made for patents through their agency.

WANTED. WE WANT reliable, energetic canvassing agents in every town in the Dominion for the new "Illustrated History of the Dominion of Canada."

ST. CROIX EXCHANGE, Calais, Me. W. H. YOUNG, PROPRIETOR. A good Livery Stable connected with the House.

REMOVAL. H. O'NEIL & SONS respectfully inform their friends generally, that in consequence of their late Market having been destroyed by fire, they have removed for the present to the building adjoining the store of Mr. Edward Leamer.

E. CAMERON, M. D. Physician, Surgeon, AND ACCOUCHEUR.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California. The medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of Walker's Bitters?" Our answer is that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of Walker's Bitters in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Disorders.

If men will enjoy good health, let them use WALKER'S BITTERS as a medicine, and avoid the use of alcoholic stimulants in every form.

H. M. McDONALD & CO., Druggists and General Agents, San Francisco, California, and cor. Washington and Chatham Sts., New York. Sold by all Druggists and Dealers.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Grateful Thousands proclaim WALKER'S BITTERS the most wonderful Tonic and Blood Purifier ever sustained the sinking system.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangement of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. Walker's California Bitters, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Diarrhoea, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. Our bottles will prove a better guarantee of its purity than a lengthy advertisement.

Scrofula, or King's Evil, White Swelling, Ulcers, Erysipelas, Swelled Neck, Gout, Scrofulous Inflammations, Ischaemic Inflammations, Marcellous Affections, Old Sores, Eruptions of the Skin, Bores, Itch, etc., etc., in these, as in all other constitutional diseases, WALKER'S VINEGAR BITTERS have shown their great curative power in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Painting and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt Rheum, Itches, Spots, Pimples, Freckles, Boils, Carbuncles, Ringworms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurvy, Discolorations of the Skin, Humors and Diseases of the skin of whatever name or nature, are literally dug up and carried off of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics, will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Jaundice.—In all cases of jaundice, rest assured that your liver is not doing its work. The only sensible treatment is to promote the secretion of the bile and favor its removal. For this purpose use WALKER'S BITTERS.

Cleanse the Vitiated Blood whenever you find the impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

H. M. McDONALD & CO., Druggists and General Agents, San Francisco, California, and cor. Washington and Chatham Sts., New York. Sold by all Druggists and Dealers.
